This report describes the program evaluation process as developed by the Eastern Iowa Community College District (EICCD). Introductory materials include EICCD's intent and purpose of program evaluation, a discussion of the three stages/components of program evaluation, and an evaluation flowchart. The report is comprised of three sections, each devoted to one of the three components—collection of program descriptive data, surveys, and internal evaluation team duties. Section I on collection of program descriptive data contains a self-study document to be completed by program/department faculty. This self-study requests information on the curriculum, course development, articulation agreement, equipment, facilities, advisory committee, faculty, students, placement, and testing as well as a cost analysis of the program. Section II provides the surveys (forms) of current students, graduates, faculty, administrators, advisory committee members, and employers. Section III focuses on the roles and responsibilities of the internal evaluation team. Contents include a list of duties of a team member, a team evaluation report form with a rating form for physical facilities, and a form for a summary of the internal evaluation. (YLB)

PROGRAM EVALUATION PROCESS

It is the Mission of the EICCD to

... Provide easily available educational programs and services which are responsive to personal and community needs. These efforts will reflect an active commitment to excellence, to lifelong learning, and to cooperation with all segments of the community.

Consistent with our commitment to excellence, EICCD recognizes the importance of program evaluation to the development and maintenance of quality educational offerings. Program evaluation is a means by which EICCD can demonstrate a commitment to the following Beliefs:

Belief 4. We must, in all areas, exhibit quality and the quality should be substantiated.

Belief 7. Decision-making at all levels throughout the District must be information-based.

Belief 16. We must provide relevant educational programming (with new technologies) that best meets community needs.

The staff of EICCD strives to carry out its Mission and Beliefs through its Goals. Program evaluation is the vehicle through which EICCD can attain its Goals related to the evaluation, cost effectiveness, improvement and expansion of programs, and the efficient management of its resources:

Goal 2: The District is committed to the improvement and expansion of educational opportunities for citizens in Eastern Iowa. We especially recognize our obligation to the non-traditional student. In order to improve the quality of these offerings, planning will focus on intra-District cooperation, evaluation of present offerings and services, improvement of existing delivery systems, development of new delivery systems, and cost-effectiveness.

Goal 6. The District is committed to efficient management of resources and recognizes this is integral to the maintenance as well as creative expansion of our educational programs and services. The realization of this goal is based upon thorough evaluations and cost-benefit analyses as they relate to the accomplishment of our mission, a clear determination of District priorities and the development of new funding possibilities.
Program Evaluation: EICCD's Intent and Definition

It is the intent of EICCD's Mission, Beliefs and Goals, that systematic evaluations of all programs/curricula be conducted to ensure quality and relevance, and the effective and efficient use of resources. Program evaluation is a cooperative process which utilizes the knowledge and expertise of instructors, administrators, current and former students, employers, advisory committee members (list individuals/groups involved).

The major objective of program evaluation is to improve the quality of education in the EICCD. It is our means of ensuring that EICCD's programs are as good as they can be within the limitations of available resources. It is intended that program evaluation will also find ways of improving the effectiveness and quality of program outcomes and of increasing the efficiency of the use of resources. Program evaluation is worthwhile in itself, for it initiates a process of self-examination among administrators and faculty, and assists in the formulation and clarification of program goals and objectives.

Internally, program evaluation will enable EICCD to make informed decisions regarding program development, maintenance, modification and elimination, and the allocation and reallocation of resources. Externally, program evaluation will assure students, employers and the community that EICCD is providing quality education which enables individuals to become academically/occupationally, and socially competent.

Definition of Program: For purposes of program review, programs will be defined as:

1. A cluster of students who have selected a specific college major, and;

2. A cluster of courses offered under the alpha/numeric catalog course labels or with a common pre-defined purpose.

This dual definition has the following advantages:

1. It allows review of individual student outcomes;

2. It allows evaluation of course delivery;

3. It allows review of course purpose in light of both student majors and non-majors.

Definition of Program Evaluation: Program evaluation is a systematic process for the collection, analysis and interpretation of data concerning a program and its curriculum. It will
be utilized for making judgments about the effectiveness of the program and to facilitate improvement of the program.

The overall goal of program evaluation is to develop a decision support system for the following objectives:

- to identify the strengths and weaknesses of curriculum
- to identify the needed curriculum improvements and revisions
- to provide data for valid program development activities, staff and facilities utilization.

Program evaluation will also provide specific information regarding how to:

- Compare business and industrial standards with institutional occupational program standards;
- Inform, involve, and utilize expertise of representatives from related business and industry;
- Inform former students of the institution's commitment to self improvement and excellence;
- Identify needed changes or modifications in physical facilities;
- Identify instructional equipment needs;
- Identify needs in the learning resources area;
- Provide data relative to decisions in expenditure of funds;
- Inform business and industry about the institution and the occupational program;
- Improve job placement opportunities for students;
- Identify future occupational trends;
- Identify any existence of sex bias;
- Identify unmet needs of disadvantaged and handicapped students.
COMPONENTS OF PROGRAM EVALUATION

The evaluation process is an in-depth cyclical process of programs/curriculum every three years. The process consists of three stages:

1. **Collection of Program Descriptive Data**
   
   This will be completed as an in-depth self-study by the program/department faculty. This data will include program information, faculty and student data, cost analysis, etc. The faculty will submit this self-study document along with supporting documentation, i.e., program curriculum, evaluations, reports, etc., to the Internal Evaluation Team.

2. **Surveys**
   
   Surveys of current students, graduates, faculty, administrators, advisory committee members, and employers will be sent from and returned to the Office of Educational Services. A job market assessment will also be conducted for each occupational/program area. All survey data will be tabulated and analyzed by the Office of Educational Services. The collected data will then be submitted to the faculty self-study team and the Internal Evaluation Team.

3. **Internal Evaluation Team**
   
   Collection of data from the self-study and survey will be submitted to the Internal Evaluation Team. The Internal Evaluation Team will be comprised of EICCD faculty members and administrators. The team will analyze the data and make recommendations, then submit to the program/department faculty for their response. All reports and responses will then be submitted to the Dean of the College/Instruction. Final copies will be submitted to District Office of Educational Services.

   In addition to the three stages of the evaluation process, program data will be used by faculty in completing their self-study and will be reviewed by the Internal Evaluation Team. Data will be compared over a three year period.
Annually Collected Program Data includes:

1. Enrollment/Headcount
2. Contact hours generated by program
3. FTE generated by program
4. Program graduate/completion rates
5. Program leavers and withdrawals
6. Program majors' intent
7. Program cost
8. Average class size
9. Success of program leavers and completers—including job placement and employment status, as well as college transfer information
10. Advisory committee meetings' highlights
   Department meetings' highlights

These data are collected annually and are compared year-to-year, over a minimum of a three (3) year period. The annual collection of these data and the three-year trend analysis serves multiple purposes:

1. To identify the well-being of a program.
2. To provide a gauge for indicating the need for program/curriculum revision.
3. To measure the success of the program regarding completion, job placement and performance, and transfer to senior institutions.
4. To ascertain program/department costs, and the factors impacting these costs.
5. To provide a "snapshot" view of the viability of a program.

The "snapshot" obtained from the collection and analysis of the annual discrete data may indicate a need for a more thorough examination of the program. These indicators are reviewed by the Instructional Council in the determination of the schedule for specific programs to be evaluated.

A flowchart illustrating the sequence of completion of each of the components of the program evaluation process is given in Figure A.

Schedule for Program Evaluation:

The program evaluation process is designed to be a three year process. The determination of specific programs to be evaluated in a given year will be made by the Instructional Council and approved by the Administrative Council.
Office of Educational Services collects and distributes market research data, discrete program data, and survey and assessment data.

I. Collection of Program Descriptive Data

This will be completed as an in-depth self-study by the program/department faculty. The self-study will include program information, faculty and student data, a cost analysis of the program, etc. The faculty will submit this self-study document along with supporting documentation, i.e., program curriculum, evaluations, reports, program/department committee minutes, advisory committee minutes, etc., to the Office of Educational Services; it will then be forwarded to the Internal Review Team.
PROGRAM DESCRIPTIVE DATA

The following questions provide an outline for the program descriptive data. Please answer these questions on separate sheets of paper.

Date ____________________________

Program/Curriculum ____________________________

Diploma _____ Certificate _____ Degree _____

Length of Program/Curriculum _____ Semester(s) _____ Summer Session(s)

Department Chair ____________________________

1. Discuss history of Program/Curriculum. Date of implementation. Was it an offshoot of existing program. Date of major revision of program. State nature of revisions. Discuss any institutional changes and/or external factors that have impacted enrollment, curriculum, job placement, etc. in the program.

2. What is the Program/Curriculum philosophy? List Program/Curriculum Goals and Objectives.

3. Describe Program/Curriculum requirements for admissions (specific entry testing, skills, etc.).
4. Program/Curriculum accredited or approved? State the name of agency and length of accreditation, term of accreditation.

5. Describe methods of instruction utilized.

6. How does the Program/Curriculum utilize counseling and academic advising?

7. Academic advising: What is the ratio of advisees per advisor?

8. Describe how the curriculum reflects "state-of-the-art" and the efforts utilized by faculty to keep curriculum relevant?
9. Course Development

List the courses offered within the program.

A. Local colleges  __Yes  __Partial  __No  __NA

B. Local universities  __Yes  __Partial  __No  __NA

C. Local High Schools  __Yes  __Partial  __No  __NA

11. Discuss any arrangements with business and industry which enhance the Program/Curriculum?
12. Equipment

A. Describe the type of equipment/materials utilized in instruction.

B. Are equipment and materials up-to-date? Explain.

C. Are they properly maintained? Explain.

D. Equipment yearly costs for past three years. (i.e. equipment acquisition and maintenance and repair).

E. Project costs for the maintenance and repair of existing equipment for next three years.

F. Project need for new equipment and required materials, including costs.
13. Facilities

A. Describe floor space used exclusively by Program/Curriculum.

Include: Laboratory sq. feet
Classroom(s) sq. feet
Office space sq. feet

B. Is the space allotted sufficient? Explain.
14. Advisory Committee

Number of members ____. Number of meetings per year ____.

Explain the advisory committee's extent of involvement in the program.
15. Faculty

A. Number of full-time faculty

B. Number of contact hours taught by full-time faculty

Dear Student:

Eastern Iowa Community College District strives to offer quality programs to all students. These efforts include a continual evaluation of our programs. Our programs are designed to meet both the needs of our students and the job market.

Would you please take a few minutes to complete the enclosed evaluation form for the program for which you are a declared major? All responses are anonymous and confidential. No data or reports will identify individual names. If you are no longer enrolled in classes within this program major or have changed your major, please indicate this on the enclosed evaluation form.

Thank you for your time in completing the evaluation form. Input from our students is a most valuable resource to us in the continual improvement of our programs. Please return the completed evaluation to us in the enclosed envelope by [date]. You may mail it back to us in the pre-postage paid envelope, or drop it off at the College Library.

Sincerely,

Michael E. Crawford
Chancellor

III. Internal Evaluation Team

The three-year trend analysis of program discrete data, survey and assessment results, and the faculty self-study will be submitted to the Internal Evaluation Team. The evaluation team will be comprised of five EICCD faculty members and administrators:

1. One member of the District Instructional Council.
2. Two instructional administrators
3. One vocational-technical faculty member
4. One arts and sciences faculty member

The team will analyze all data and reports, conduct an on-site visit of the program, and make recommendations. Their report will then be submitted to the program/department faculty. All reports and response will then be submitted to the Office of Educational Services, and forwarded to the College President and the Dean of the College/Instruction, and the Instructional Council.

Eastern Iowa Community College District
Clinton Community College
Muscatine Community College
Scott Community College
INTERNAL EVALUATION TEAM

The primary purpose of the Internal Evaluation Team is to validate the faculty self-study and to provide consultant assistance that includes suggestions for improvement.

The review process will involve a team of five individuals who will observe, interview and study available information in an attempt to formulate conclusions about the Program/Curriculum and to suggest ways of improving identified deficiencies.

The review team will be appointed by the Instructional Council and consist of a member of the Instructional Council, two program administrators and two faculty members. The team will submit a report of their findings and recommendations to the Office of Educational Services; it will then be forwarded to the program/curriculum faculty. If appropriate, the program/curriculum faculty may provide a written response to the Internal Review Team Report. The Office of Educational Services will then submit all reports to the College President and the Dean of the College/Academic Affairs, and the Instructional Council. Copies of the final reports will be kept on file in the Office of Educational Services.
INTERNAL EVALUATION TEAM DUTIES

A program's evaluation involves the visitation, observation and analysis of a Program/Curriculum by an Internal Review Team with the purpose of validating the faculty self-study and to providing suggestions for improvement.

Duties of a Team Member

Previsit Responsibilities:

1. Study all survey and assessment reports provided by the Office of Educational Services.

2. Study the three-year trend analysis of program discrete data.

3. Study the in-depth self-study report prepared by the faculty.

4. Study the program outline and the course development models of the Program/Curriculum.

5. Become familiar with the team evaluation form that will be used as a guide during the evaluation.

6. Identify specific questions to be asked of the faculty and program administrators in order to clarify program concerns and to validate the recommendations and conclusions contained in the faculty's self-study.

Visit Responsibilities:

1. Meet the Program/Curriculum faculty.

2. Examine Program/Curriculum philosophy, goals, objectives, curriculum, reports, advisory committee/department meeting minutes, student handbooks, etc.

3. Examine teaching materials, supplies and equipment presently being used in the program.

4. Make an effort to contact all faculty members and as many students as possible.

5. Record comments and observations on team evaluation form.

Postvisit Responsibilities:

1. Prepare summary of findings and recommendations.

2. Submit a summary of team evaluation form and report of findings and recommendations to Program/Curriculum faculty for clarification of any statements or responses.
