The directory identifies 38 Chicano/Mexican American studies programs at major universities and colleges in the Southwest, particularly California. It presents information on programs by location, faculty, goals and objectives, and final degrees offered. Following an introductory section, Section II describes programs at California State University affiliates in Chico, Dominguez Hills, Fresno, Fullerton, Hayward, Humbolt, Long Beach, Los Angeles, Northridge, Sacramento, San Bernardino, San Diego, San Francisco, San Jose, Sonoma, Stanislaus, Pomona, and San Luis Obispo. Section III presents details about programs affiliated with University of California campuses at Berkeley, Davis, Irvine, Los Angeles, Riverside, San Diego, Santa Barbara, and Santa Cruz. Private California college programs at Claremont Colleges, Loyola Marymount, Stanford, University of Santa Clara, and University of Southern California are listed in Section IV. Section V contains information about selected public university programs at the University of Arizona, University of Colorado (Boulder), New Mexico State University (Las Cruces), University of New Mexico, Pan American University, University of Texas (Austin), and University of Texas (El Paso). PREFACE

The Chicano Studies Program Directory is an attempt to systematically identify Chicano/Mexican-American Studies Programs in the Southwest, particularly in California. The directory presents information on programs by location, faculty, goals and objectives and final degrees offered.

The first step in compiling the directory was identifying major universities and colleges in California and in the Southwest with Chicano/Mexican American Studies Programs. In many cases we found Chicano Studies within other programs like Ethnic Studies. We then looked at the most recent university catalogues to obtain program addresses, faculty listings and program descriptions. We focused on identifying Chicano components. Next we contacted each program director in Winter 1986 to review their summary. Finally, some on campus interviews were used to clarify and expand faculty and program descriptions.

From our study we realize that many programs are in the process of transition, renewal and some are in the preliminary stages of development. We also know that there are other programs to be listed. Therefore, this will limit the directory's usefulness as a comprehensive reference of Chicano Studies programs of the Southwest. However, the Directory should serve as a helpful cross reference or guide for students and faculty of the campuses covered.

We would like to acknowledge the following individuals for their support in developing the directory. Financial support from Ed...
Apodaca and Michele Zak from the U.C. President's Office for Academic Affairs and Assistant Vice Chancellor Frank Samaniego of UC Davis. Staff support from Chicano Studies at UC Davis which was critical for the completion of the final product. Finally, we gratefully acknowledge the helpful comments from Drs. Rudolfo Acuna and Angie Chabram, of Cal State Northridge and UC Davis, respectively.
