To have an effective career guidance and counseling program, it is necessary to know and use pertinent resources. This module provides facilitator guidelines for training staff in the use of three "Rural America Series" handbooks: (1) "Resource Assessment" which depicts a major step in the planning process, (2) "Career Guidance Resources" which contains abstracts of material and program resources, and (3) "Desk Reference" which presents ideas relating to program implementation and answers to career guidance questions presently asked of counselors. The module considers types of resources (material, human, facilitative, and organizational); how to identify local resources through personal knowledge, the telephone directory, other directories, and various local organizations; and how to develop a systematic resource management system. Techniques used to present these concepts and resources include large group presentation, simulation, and discussion. A module overview, detailed facilitator outline, and sample participant materials and transparency masters are included. (NEC)

RESOURCES
THE NATIONAL CENTER MISSION STATEMENT

The National Center for Research in Vocational Education’s mission is to increase the ability of diverse agencies, institutions, and organizations to solve educational problems relating to individual career planning, preparation, and progression. The National Center fulfills its mission by:

- Generating knowledge through research
- Developing educational programs and products
- Evaluating individual program needs and outcomes
- Installing educational programs and products
- Operating information systems and services
- Conducting leadership development and training programs

FOREWORD

The National Center for Research in Vocational Education has been actively developing materials for the special guidance program needs of rural and small schools since 1975. During the ensuing period, a 16-volume set of career guidance program materials for rural and small schools entitled the Rural America Series was produced. The development and original production were funded by the U.S. Office of Education, Bureau of Occupational and Adult Education, Part "C," Vocational Education Act of 1963 as amended Research Legislation. Since its completion, the Rural America Series has enjoyed widespread national distribution with over 1,200 sets now in the field. In 1976-1978 the National Center in conjunction with Northern Michigan University was funded to test the planning process contained in the Series and to develop several supplemental materials.

One such supplement is the Facilitator's Guide to Staff Training for the Rural America Series. It consists of 18 separate modules of which this document is one. The Guide is designed to assist state department of education personnel, guidance supervisors, and guidance counselors in training others to understand and utilize the Rural America Series. Each module of the Guide may be used independently or collectively in staff development activities. All parts of the Guide have been thoroughly tested in statewide workshops sponsored by the states of Florida, West Virginia, Ohio, Illinois, Iowa, Arkansas, Kansas, Washington, Idaho, Wyoming, and the territory of American Samoa. Each workshop was carefully evaluated and suggestions from workshop participants were used to modify and improve the Guide.

This module, "Resources," subsumes the ideas and techniques embodied in three handbooks of the Rural America Series. A "hands-on" approach to training is emphasized so that participants come away with a practical knowledge of identifying, assessing and handling various kinds of resources. In conjunction with the other modules of the Guide a highly effective staff development program for career guidance and counseling in rural and small schools is provided.

Robert E. Taylor
Executive Director
The National Center for Research in Vocational Education

MODULE V: RESOURCES

Module Overview

Instructional Time

Approximately 1½ hours

Module Description

To have an effective career guidance and counseling program, it is necessary to know and use pertinent resources. This module covers the contents of three Rural America Series handbooks that describe resources and present procedures for identifying and using resources—Resource Assessment, Career Guidance Resources, and Desk Reference.

Through a large group presentation, participants are provided information on why and how a local resource assessment is conducted. Participants then engage in an activity where a portion of the resource assessment procedure is simulated. After the presentation on assessing local resources is completed, there is a discussion of the two handbooks in the series that contain information on resources. From an overview of Career Guidance Resources, a handbook that contains abstracts on material resources, participants proceed to locate specific abstracts. Desk Reference, a collection of information often needed by counselors, is presented by having participants respond to hypothetical situations.

Note: To effectively use this module at least one copy of Career Guidance Resources and the Desk Reference must be available for every two participants.

Goals and Objectives

Participants will:

Goal 1  Gain a greater understanding of how to conduct a local resource assessment.

Objective 1.1  Utilize procedures for collecting data on different types of local resources.

Objective 1.2  Learn a technique for organizing and managing local resource information.

Goal 2  Become familiar with handbooks that provide information on material resources.

Objective 2.1  Access information in Career Guidance Resources.

Objective 2.2  Know of the types of items covered in the Desk Reference.

Module Evaluation

There are numerous points in the module where evaluation can take place. After the discussion of resource assessment, a short quiz may be developed and administered to determine how well participants understand the concept. During the activities with Career Guidance Resources and Desk Reference, the ability of the participants to use the handbooks should be observed.

If the module is used independently of other modules in this set, then the module-specific questionnaire in the participant materials may be administered. If the module is part of an extended (multiple day) workshop, the use of the overall workshop questionnaire (see Appendix A) is recommended instead of the module-specific questionnaire.

Relationship to the Rural America Series

See chart on the next page.
The above chart shows the relationships of the handbooks in the *Rural America Series*. This module presents three handbooks that describe resources. *Career Guidance Resources*, shown under Support Information, provides abstracts of material and program resources. The *Resource Assessment* handbook depicts a major step in the planning process. *Desk Reference* contains ideas that relate to program implementation and handy, desk-top answers to career guidance questions presently asked of counselors.
**ACTIVITY TITLE:**

"How About Resources"

**DURATION:**

30 minutes

<table>
<thead>
<tr>
<th>FACILITATOR OUTLINE</th>
<th>NOTES</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>A.</strong> Lead into the module by asking participants two questions:</td>
<td>Let's see, I like hot air ballooning, parachuting . . .</td>
</tr>
<tr>
<td>Ask participants (all if the group is small, a subset if the group is large) what their hobbies are and if they are willing to share them with students. Indicate that their willingness to share makes them a valuable human resource for the career guidance program and one that is often not used. (This gets participants thinking of how school staff can be involved in the career guidance program.) Ask participants if they have conducted a local resource assessment in the last three years. If anyone responds yes, ask them to briefly explain the process used. (This gets participants thinking about the process involved in conducting a local resource assessment.)</td>
<td></td>
</tr>
</tbody>
</table>

**B.** "Why Conduct a Resource Assessment?"—Rationale for why knowledge of currently available resources, especially local resources, is vital.

1. By being aware of and using local resources, the rural school, which tends to have limited resources, is able to provide its students with greater experiences.

2. Up-to-date occupational information is needed to keep students abreast of the world of work.

3. Use of resources helps make the curriculum become more alive.

**C.** "When Do You Conduct a Resource Assessment?"

1. Explain that resource assessment fits into the planning and implementation cycle after writing behavioral objectives. According to the cycle, after you have written the behavioral objectives you need to determine what resources are required for implementing those objectives.
For example, you may want a film or filmstrip on awareness of sex stereotyping to accomplish the objective, "Students will list at least five careers which people stereotypically think of as for women only."

2. Indicate that the initial identification of resources can take place anytime after the start of the program. However, the selection of resources for actual use does not take place until after behavioral objectives have been written.

D. "A Resource Assessment Can Be Conducted With Limited Time and Money."

1. The more people that are involved in the process, the less time each person will need to spend.

2. Through the involvement of students and community volunteers the cost of conducting the assessment is lowered.

E. "What Are Types of Resources?"

1. Material resources are printed matter, audiovisual aids, and manipulative objectives. Examples include:
   - school catalogs
   - audiovisual kits
   - wall charts
   - books

2. Human resources include staff, students, parents, and other community members.
   - These individuals can, for example, present hobbies and skills, conduct field trips, and participate in career fairs.

3. Facilitative resources include finances, equipment, supplies, and space.

4. Organizational resources could be termed "organizational sources of resources" since through them other types of resources are identified. These include church groups, 4-H, Chamber of Commerce and so forth.

pp. 1-2, Resource Assessment
F. Steps of a Resource Assessment

Show the transparency "Steps of a Resource Assessment," p. V-26. Mention that steps on the transparency will be discussed next.

G. How Do You Identify Local Resources?

Ask participants to brainstorm different ways they can identify resources in their community.

1. Reinforce the idea that there are various ways of identifying local resources. Such as:
   - personal knowledge
   - telephone directory
   - other directories
   - various local organizations

2. Briefly mention that resources on the state and national levels such as state and federal agencies can be useful and also should be identified. (Some suggestions in this regard are identified in the Resource Assessment handbook.)

H. How Can You Collect Information on Resources?

1. Staff can collect data on material resources and human resources (themselves and their students).
   - Example—they can ask students to provide information on the topics they would like to present to others.

2. Students can collect information from their parents. High school students can obtain information from area business and industry and other community members.

3. The handbook, Resource Assessment, contains numerous forms for collecting resource data.

To get participants familiar with forms have them complete the handout, "Staff Personal Data Survey," p. V-18.
## FACILITATOR OUTLINE

### I. Organization of Resources.

1. The information gathered on resources needs to be put in an organized, usable form. A suggested cataloging system is presented in *Resource Assessment*.

2. Data is categorized in the catalog by the types of resource—material, human, organizational, facilitative.

3. Information from the data collection forms needs to be transferred onto a catalog sheet so the presentation of information is uniform.

   Use the transparency "Resource Catalog Sheet," p. V-27 and transfer data from a participant's "Staff Personal Data Survey" onto it.

### J. Systematic Management

1. If the catalog and the resources are to be used, it is critical to have a management system.

2. There needs to be an easy way to acquire a resource and report on its use.

3. An updating procedure needs to be set up and used to keep the catalog current. A resource bank is not usable if it is outdated.

4. Suggest to participants that they develop their own local methods for cataloging resources.

### K. Resource Assessment Recap

1. Reinforce the steps of a resource assessment.

   This handout can be used as an evaluation tool to determine how well participants understand concepts presented.
A. The Creation of Career Guidance Resources

1. The purpose of the handbook is to provide individuals who are involved with starting, renewing, or expanding a career guidance program with information about valuable materials resources.

2. The 700 resources described in this handbook can help school personnel meet behavioral and program objectives.

3. The handbook was developed by contacting over 250 individuals in the 50 state departments of education. These persons were:
   - Directors of Guidance
   - Directors of Vocational Education
   - Directors of Career Education
   - Directors of Research Coordinating Units (RCUs)

4. Each person was requested to provide the names of 10 rural schools in their state that were conducting career education/guidance programs. This approach resulted in a list of 232 rural schools that were in turn contacted. The descriptions of many of their programs are reflected in the handbooks.

5. Three hundred fifty commercial publishers were contacted and asked to provide information on career guidance related materials that cost less than $75.

6. The materials in this handbook were accepted as usable in rural schools by handbook developers.

B. Organization of Career Guidance Resources

1. The handbook is organized for easy access of the abstracts.

Instruct participants to turn to pages 9-28 of Career Guidance Resources.
2. Chapter 1, Abstracts Index, is divided according to the components of a career guidance program and is cross referenced. Briefly describe the organization of the index.

- Example, on pages 11-12, under I. Career Guidance Domains—Self and Interpersonal Relations, the identification codes for all items that have some relation to the topics of self and interpersonal relations are listed. This index is cross referenced to allow you to identify items that relate to self and interpersonal relations and other career guidance concepts (e.g., abstract a-1 relates to both grades K-14 and career guidance practices along with its main emphasis—self and interpersonal relations.)

- All of the career guidance and counseling components are listed in this chapter.

Ask participants to turn to page 33 of Career Guidance Resources.

3. Chapter 2 contains the abstracts referred to in the "Abstract Index." Explain the identifying code and the codified chart.

- Each abstract has a unique identifying code. The letter portion of the code indicates the area to which the abstracts most closely relates. For example a = self and interpersonal relations, f = resource assessment.

- Beneath each abstract a codified chart identifies all areas to which the abstract relates. With this chart, one can see at a glance what other concepts and grade levels the materials relate to.

Refer participants to pages 2-8 for a detailed description of the chart.

- After a brief overview of the chart, refer participants to a-1, page 33, and indicate: that it is an audiovisual that can be used with students in grades K-4; that it relates to all three career development domains; and that it is a career guidance practice.

Have participants turn to page 240 of Career Guidance Resources.
<table>

<td>-------</td>
</tr>
<tr>
<td>2. An abstract that describes a program entitled “Career Opportunities Program.”</td>
<td></td>
</tr>
<tr>
<td>Answer: Chapter III contains an alphabetical listing of career development programs. Therefore, the above mentioned program is described in this chapter on page 263.</td>
<td></td>
</tr>
<tr>
<td>3. An abstract that describes the book entitled: Why Am I Afraid to Tell You Who I Am?</td>
<td></td>
</tr>
<tr>
<td>Answer: By using Appendix B and looking up the title, you can determine that the abstract is a-46. The abstract is found in Chapter II on page 48.</td>
<td></td>
</tr>
<tr>
<td>4. Where Why Am I Afraid to Tell You Who I Am? can be purchased—the publisher’s address.</td>
<td></td>
</tr>
<tr>
<td>Answer: On the top line of the abstract, Argus Communications is identified as the publisher. By looking on page 301, you find the address to be 7440 Natchez, Niles, Illinois.</td>
<td></td>
</tr>
<tr>
<td>5. An abstract of Women in Industry.</td>
<td></td>
</tr>
<tr>
<td>Answer: Through using Appendix B, you can identify the abstract number as p-14. This abstract is found on page 224.</td>
<td></td>
</tr>
<tr>
<td>Answer: By looking under Random House in Appendix A, you can see that abstract c31 is published by them. This abstract is on page 87.</td>
<td></td>
</tr>
</tbody>
</table>

If you are short of time, the following activity can be substituted in place of B and C. Have participants read through the introduction of Career Guidance Resources, pages 1-8, and then find 10 abstracts of materials that interest them. Participants then can discuss some of the items they found.
ACTIVITY TITLE:  
"Desk Reference"  

DURATION:  
15 minutes

<table>
<thead>
<tr>
<th>FACILITATOR OUTLINE</th>
<th>NOTES</th>
</tr>
</thead>
</table>

Participants need copies of *Desk Reference* to complete this activity.

A. **Purpose of Desk Reference.**

1. Explain that this handbook was developed as a companion volume to *Career Counseling in the Rural School* and *Transitional Placement in the Rural School*. It provides information that supplements the presentations in the other two handbooks.
   - It offers suggested guides, aids, and sources of supplementary information.

2. Mention that the handbook is divided into nine major sections. Allow a couple of minutes for the participants to look through the handbook and become familiar with it.

B. **Hypothetical situations**—So participants can have some experience using *Desk Reference*, present the following hypothetical situations:

1. Joe is a 10th grade student who wants to know what is involved in being a motel manager—what would he do on the job, how much money would he make, how would he locate a job? He comes to you—his counselor.

   Where in the handbook would you find information that would assist you in finding answers for Joe?

   **Answer:** Chapters 3 and 4 both provide detailed information on how to use the D.O.T. and the *Occupational Outlook Handbook*. With this information you could use both documents and find answers to Joe's questions.

2. Lynn is a senior in Green Valley High School and has been going out on job interviews in the surrounding area. On one of her first contacts, they asked her for a resume. She was confused since she had not heard of a resume before. She comes to you, her counselor, and asks what a resume is and how to get one.
Where in the Desk Reference would you find information to answer Lynn’s concern?

Answer: On page 28 of Chapter 2, there are guidelines on identifying, evaluating and collecting resources, along with abstracts of the materials. Some of these documents cover the topic of resume writing. Also, on page 147 there is an activity on preparing a resume.

3. Gene is a teacher who read a brief article on career resource centers. He comes to you, the counselor in his school, and wants to discuss setting up such a center in the school. He wants to know what would be contained in the center, who would use it, and where it would be located.

What portion of the handbook would assist you in talking about starting a career resource center in your school?

Answer: Chapter 1, pages 3-7, provides ideas to get you thinking about a career resource center.

4. Jan is a new counselor at Green Valley High School. When she walks into the small counseling office, she finds boxes of books, pamphlets, directories, and brochures from floor to ceiling. There are also films and posters scattered throughout. She has a copy of the Rural America Series and is familiar with the Desk Reference.

Where might she go in the Desk Reference to decide upon a filing system?

Answer: Chapter 5, pages 63, provides information in reviewing, selecting, and establishing an appropriate filing system.

C. Refer to the fact that Chapters 7 through 9 provide information and forms for cumulative record-keeping and sample materials and activities for career awareness, decision-making and placement.

ASSESSING RESOURCES

1. Has your school district completed a local resource assessment similar to the one described during the past two years?
   - Yes □ Answer questions 2 and 3 if your response to 1 was yes.
   - No □ Answer question 4 if your response to 1 was no.

2. Explain how your procedures related to those described in the presentation.

3. What portions of a local resource assessment, as described, are missing from what has been done in your district?

4. How do you envision your district conducting a local resource assessment similar to the one described?
RURAL AMERICA SERIES
Module Questionnaire: Resources

NAME (Optional) ____________________________ TITLE ____________________________

INSTITUTION ____________________________ ADDRESS ____________________________

TELEPHONE ____________________________

DIRECTIONS: Directions for responding to this brief questionnaire are given with each specific question. Your responses will be used to improve the module structure and format.

1. On the left indicate the degree to which the module helped you in gaining the understandings and skills listed below. On the right provide brief comments on how the module could be improved for those sections marked "NONE" or "SOME."

Types of Resources

1. **Material resources** convey their information through the printed word, audiovisuals, and manipulative objects.

2. **Human resources** include staff, students, parents, and other community members.

3. **Facilitative resources** are equipment, finances, supplies, and space needed to develop a program.

4. **Organizational resources** are sources of other types of resources.
