This module of the staff training series deals with techniques for developing career guidance programs in three settings—the home, the community, and the school. Suggestions and experiences are outlined to help practitioners gain skill in designing career guidance practices appropriate to these environments. Home-centered career guidance practices cited include family travel units, parent training nights, parent discussion groups, problem solving, and a career development parent series. Community-centered practices discussed are career fairs, professional exploration internships, community persons as classroom resources, and adopt-a-grandchild programs. Three categories of school-centered career guidance opportunities are presented with suggestions for each: group counseling methods (teaming, role playing, orientation, gaming, and peer counseling), subject matter activities (stereotypes in the world of work, workers in the community, and "I'm Different—Are You?") and nonsubject matter activities (career resource centers, "Pow-Wows," career weeks, hobby time, and a mobile guidance van). Elements of an implementation outline are also considered: activity title, activity description, and career development goals and subgoals, behavioral objectives, time considerations, prerequisite learnings, teacher/counselor activities, student activities, resources, and evaluation. THE NATIONAL CENTER MISSION STATEMENT

The National Center for Research in Vocational Education's mission is to increase the ability of diverse agencies, institutions, and organizations to solve educational problems relating to individual career planning, preparation, and progression. The National Center fulfills its mission by:

- Generating knowledge through research
- Developing educational programs and products
- Evaluating individual program needs and outcomes
- Installing educational programs and products
- Operating information systems and services
- Conducting leadership development and training programs

FOREWORD

The National Center for Research in Vocational Education has been actively developing materials for the special guidance program needs of rural and small schools since 1975. During the ensuing period, a 16-volume set of career guidance program materials for rural and small schools entitled the Rural America Series was produced. The development and original production were funded by the U.S. Office of Education, Bureau of Occupational and Adult Education, Part “C,” Vocational Education Act of 1963 as amended Research legislation. Since its completion, the Rural America Series has enjoyed widespread national distribution with over 1,200 sets now in the field. In 1976-1978 the National Center in conjunction with Northern Michigan University was funded to test the planning process contained in the Series and to develop several supplemental materials.

One such supplement is the Facilitator’s Guide to Staff Training for the Rural America Series. It consists of 18 separate modules of which this document is one. The Guide is designed to assist state department of education personnel, guidance supervisors, and guidance counselors in training others to understand and utilize the Rural America Series. Each module of the Guide may be used independently or collectively in staff development activities. All parts of the Guide have been thoroughly tested in statewide workshops sponsored by the states of Florida, West Virginia, Ohio, Illinois, Iowa, Arkansas, Kansas, Washington, Idaho, Wyoming, and the territory of America Samoa. Each workshop was carefully evaluated and suggestions from workshop participants were used to modify and improve the Guide.

“Career Guidance Practices” deals with techniques for developing career guidance programs. An important concept underscored in this module is that career guidance takes place in many settings—the home, the community and the school. Suggestions and experiences are given to help practitioners gain skill in designing career guidance practices appropriate to these environments. As a part of the entire Guide, this module will prove invaluable in providing additional program development and planning skills to staff in rural and small schools.

MODULE VI: CAREER GUIDANCE PRACTICES

Module Overview

Instructional Time

Approximately 1 1/2 hours

Module Description

Once the problem identification phase of the planning process has been completed, the next phase is to develop program options which will have impact upon identified needs. Career guidance activities centered in school, home and/or community settings are types of program options. After a brief introduction of how career development can take place in these three settings, the components of an implementation outline are presented. Sample activities for each setting are then described. (These activities are taken from Career Guidance Practices.) In small groups, participants develop an implementation outline for a career guidance practice.

Goal and Objectives

Participants will:

Goal 1  Gain an understanding of a variety of career guidance practices.

Objective 1.1  Identify career guidance practices for home, school, and community settings.

Objective 1.2  Complete the planning steps necessary to implement a selected career guidance practice.

Module Evaluation

The implementation outline prepared by the participants serves as the basis for assessing the participant’s progress in understanding career guidance practices.

If the module is used independently of other modules in this set then the module-specific questionnaire in the participant materials may be administered. If the module is part of an extended (multiple day) workshop, the use of the overall workshop questionnaire (see Appendix A) is recommended instead of the module-specific questionnaire.

Relationship to the Rural America Series

See chart on the next page.
Once the problem identification phase of the planning process has been completed, the next phase (problem resolution) is to develop solutions for the problems or need areas. *Career Guidance Practices* describes activities for school, home and community settings and along with individual career counseling and career placement, is representative of one of the major program options.

<tr>
<td>A. Where Can Career Guidance Take Place?</td>
<td></td>
</tr>
<tr>
<td>1. Introduce the idea that career guidance activities can take place in a variety of settings—home, school, and community.</td>
<td></td>
</tr>
<tr>
<td>• For example, a student taking part in a job exploration program is receiving one form of career guidance by going out into the community.</td>
<td></td>
</tr>
<tr>
<td>2. Briefly explain the different types of career guidance practices.</td>
<td></td>
</tr>
<tr>
<td>• In home-centered guidance, activities revolve around the home as a learning center, and the family as a facilitator of learning.</td>
<td></td>
</tr>
<tr>
<td>• School-centered guidance activities are subdivided into three categories—subject matter, nonsubject matter, and group counseling.</td>
<td></td>
</tr>
<tr>
<td>• The community is considered to be an essential resource for the development and implementation of career guidance practices.</td>
<td></td>
</tr>
<tr>
<td>B. How do Career Guidance Practices Fit into the Overall Program?</td>
<td></td>
</tr>
<tr>
<td>1. Indicate that once the needs of the students have been identified, objectives written, and resources assessed it is time to develop program options to meet the needs. Career guidance practices constitute one set of techniques for meeting the needs.</td>
<td></td>
</tr>
<tr>
<td>2. Mention that the basis for the content of career guidance practices is the three domains—self and interpersonal relations, career planning and decision making, and life role assumption—found in Life Role Development Model.</td>

| 1. Title of the activity. |
| 2. Brief description of the activity. |
| 3. Career development goal. |
| - The career development goal that the activity addresses is provided. |
| 4. Subgoals. |
| - The specific subgoal that the activity addresses is provided. |
| 5. Behavioral Objective(s). |
| - For each activity goal, objectives will be written in behavioral terms. There may be one or more objectives for each goal. |
| 6. Time Considerations. |
| - The length of time needed for the activity should be indicated. |

See pp. 179-180, Career Guidance Practices, for a sample implementation outline. (Note: It contains most of the elements contained in the handout.)
7. **Prequisite Learnings.**
   - What knowledge the students should have prior to the activity should be indicated.

8. **Teacher/Counselor Activities.**
   - What the teacher/counselor needs to do to conduct the program is described.

9. **Student Activities.**
   - What the students need to do as a part of the activity is described.

10. **Resources.**
    - The resources needed to conduct the activity are listed.

11. **Evaluation.**
    - How student achievement will be measured is described in this section.

C. Mention that activities in Chapter IV of *Career Guidance Practices* contain these elements.

D. **Recap of Activity**
   1. Tell participants they will have approximately 45 minutes to complete the activity after a discussion of some examples.

   2. Remind participants that they are to be thinking of how activities presented can fit their situations, i.e., how might they be adapted in accord with local needs, resources, etc.

### FACILITATOR OUTLINE

- Theme of the activity is what would happen to community living if three services—police protection, waste disposal, and city recreation—were terminated?

- Student assignments include a field trip to city council, a visit with the mayor, a mock city council meeting.

3. Discuss "Stereotypes in the World of Work."

- It is intended to (1) heighten senior high students' awareness of the personal and social implications of a career and (2) impart the skills needed for intelligent career decision making.

- Student activities include
  - Analyzing poems and stories for stereotyping
  - Presenting a skit on stereotyping
  - Conducting library research on worker traits

  The following two activities can be added to the discussion or can take the place of the ones given:

  - "Workers in the Community" is a junior high activity which makes students aware of the various life roles an individual has at any given point in time. It focuses on developing an awareness of job variety in the community and the demands jobs place on workers.

  - "I'm Different—Are You?" is a primary grade level activity that makes students aware of their uniqueness in regards to their physical make-up, friends, interests, and school. This activity is designed to foster self understanding and awareness.

### C. Nonsubject Matter Activities

1. Mention the five activities listed on the transparency under "Nonsubject Matter."

2. Present "Career Week."

   - Can be a school- or district-wide activity.
   - Pre-week and post-week activities enhance the learning experience of the week.
   - Career Week activities include:

### NOTES

- p. 131, *Career Guidance Practices*
- p. 179
- p. 111
- pp. 199-244
- p. 216
3. Describe "Hobby Time."

- Can be a school-wide activity.
- Can be used with all grade levels.
- The activity assists students in developing new leisure and avocational pursuits and points out that in some cases leisure time pursuits may help the individual to select a vocation.
- Community members, teachers and even students explain and demonstrate their hobbies.
- Could be an ongoing activity (once a week, bimonthly, etc.) or a concentrated one-day event.

The following three activities can be added to the above discussion or can take the place of ones given.

- "Career Resource Center" briefly describes how to set up a career resource center in a school.
- "Mobile Guidance Van" indicates how a career resource center can be put on wheels. This is especially important for isolated rural schools.
- "Pow-Wow" is a self awareness activity for elementary students which aids them in (1) recognizing that everyone is unique, (2) recognizing strengths in themselves and others, (3) expressing their feelings verbally, and (4) developing decision-making skills. The concept of small circular groups of students is utilized.

D. Group Counseling

1. Mention the five activities on the transparency under "group counseling."
2. Explain “Buddy Link.”

- It is a peer counseling activity for senior high students.
- Peer counseling sessions take place in small groups.
- The peer counselor is a youth who has already graduated from high school.
- The peer counselor provides the counselee with a link with the postsecondary community.
- The peer counselor serves as a role model to the counselee.
- Students often respond better to someone close to their own age.

3. Present “Operation Discovery.”

- It is a junior high school or middle school activity and is intended to help bridge the gap between educational levels through small group discussion and individual work.
- Through this activity students will
  - Have the opportunity to preview the high schools rules and policies.
  - Examine their interests, aptitudes, and talents as they relate to career exploration.
  - Explore values as they relate to career decision making.
  - Survey the career opportunities that are available to them during and after high school.

The following activities can be added to the above discussion or can take the place of one given.

- “Sink and Swim” is a values clarification activity for postsecondary students, which uses student questionnaires and group discussion techniques.
- “Potential Starters and Stoppers” is an intermediate grade level activity in which students apply interpersonal skills in relating with people in their environment. Role playing is used extensively in this activity.
- “Kids and Company” is an activity in which teams of teachers and counselors assist primary students address “special feelings.” In this activity, students simulate the establishment of a company and various company functions.

COMMUNITY-CENTERED GUIDANCE PRACTICES

FACILITATOR OUTLINE

A. Reasons for Community-Centered Guidance Activities

1. They help meet the broad-based needs found throughout the community.

2. If school-community relationships need to be strengthened, wide scale community involvement in career related practices is needed.

3. The community is an essential ingredient in the delivery of a comprehensive career guidance system. Small schools need to enhance their limited resources through community involvement.

B. Community-Centered Activities

1. Mention the four community-centered activities listed on the transparency.

2. Describe “Adopt a Grandchild/Adopt a Grandparent.”
   - It is an activity that involves senior citizens.
   - Students go to the senior citizens to visit and do chores for them.
   - Senior citizens can provide students with a perspective of the technical changes in the work world.

3. Describe “Professional Exploration Internship.”
   - This activity is designed to be used with college-bound students.
   - The purpose of the activity is to allow students to associate with professionals for an extended period of time.
   - The student works directly with the professional (has a written job description for the internship).
   - Students can directly observe jobs. They can ask questions and they can get concrete experience in a profession of their interest.
