This module emphasizes the training of staff members of recognize the benefits of effective school-community cooperation and provides an opportunity for trainees to develop a viable community relations strategy. Reasons for community involvement are considered; these include becoming responsive to and aware of community needs, obtaining community input on what the school should be doing, and expanding limited school resources. The difference between community relations (communication to promote awareness of school programs, needs, accomplishments, and problems) and community involvement (activities bringing community members/organizations into direct contact with students and school programs) are delineated. The benefits of school-community cooperation are outlined as: student opportunities for community career exploration, experience in career decision making, awareness of community career placement opportunities, and exposure to a variety of community role models. Participants (lay groups and government and private agencies) are identified. Strategies suggested for improving community relations include news releases, radio/television announcements, newsletters, speeches, and posters. Strategies suggested for community involvement are advisory committees, tutorial programs, career information programs, student self-awareness programs, parent-child nights, school sponsored picnics, and job fairs. To present a fully comprehensive treatment of community relations and involvement, it is noted that this module could be combined with Module XIII, "Cooperative Agreements with Business, Industry, and Labor." FOREWORD

The National Center for Research in Vocational Education has been actively developing materials for the special guidance program needs of rural and small schools since 1975. During the ensuing period, a 16-volume set of career guidance program materials for rural and small schools entitled the Rural America Series was produced. The development and original production were funded by the U.S. Office of Education, Bureau of Occupational and Adult Education, Part "C," Vocational Education Act of 1963 as amended Research Legislation. Since its completion, the Rural America Series has enjoyed widespread national distribution with over 1,200 sets now in the field. In 1976-1978 the National Center in conjunction with Northern Michigan University was funded to test the planning process contained in the Series and to develop several supplemental materials.

One such supplement is the Facilitator's Guide to Staff Training for the Rural America Series. It consists of 18 separate modules of which this document is one. The Guide is designed to assist state department of education personnel, guidance supervisors, and guidance counselors in training others to understand and utilize the Rural America Series. Each module of the Guide may be used independently or collectively in staff development activities. All parts of the Guide have been thoroughly tested in statewide workshops sponsored by the states of Florida, West Virginia, Ohio, Illinois, Iowa, Arkansas, Kansas, Washington, Idaho, Wyoming, and the territory of American Samoa. Each workshop was carefully evaluated and suggestions from workshop participants were used to modify and improve the Guide.

This module, "Community Relations and Involvement," emphasizes training of staff members to recognize the benefits of effective school-community cooperation and provides an opportunity for trainees to develop a viable community relations strategy. It and other parts of the Guide should prove to be valuable assets for the staff development of rural and small school counselors and educators as they plan, implement, and evaluate career guidance programs for their students.

MODULE X: COMMUNITY RELATIONS AND INVOLVEMENT

Module Overview

Instructional Time

Approximately 1 hour

Module Description

An effective career guidance and counseling program is based on the concept that the school and community need to cooperate with each other. Within the module, a brief presentation of the rationale for community relations and involvement and the definitions of each are given. Following the presentation, the participants identify strategies for bringing about school-community cooperation. Working in small groups, the participants then develop a communication strategy.

Note: This module could be combined with Module XIII, "Cooperative Agreements with Business, Industry and Labor," in order to present a fully comprehensive treatment of community relation and involvement.

Goals and Objectives:

Participants will:

Goal 1 Gain new insights into how the school and community can cooperatively aid the career development of students.

Objective 1.1 Understand the relationship between community relations and community involvement.

Objective 1.2 Identify the goals of school-community cooperation.

Objective 1.3 Know various techniques and activities to promote community relations and involvement.

Agenda

| 5 minutes | Introduction | Large Group Presentation |
| 15 minutes | School-Community Cooperation | Large Group Presentation |
| 40 minutes | Development of a Community Relations Strategy | Small Group Activity |
| 5 minutes | Summary | Large Group Presentation |

Module Evaluation

The effectiveness of the module will be determined by how well participants are able to develop communication strategies and identify strategies for school-community cooperation. If this module is presented independently of the other modules in the set, the module-specific questionnaire in the participant materials should be administered. If this module is part of an extended (multiple day) workshop then the questionnaire found in Appendix A should be used.

Relationship to the Rural America Series

See chart on the next page.
This module relates to two concepts—community relations and community involvement. Both of these concepts are vital to a career guidance program. One way of gaining support for program activities is to have an effective community relations program that keeps the community abreast of school activities. Through strong community involvement, the community members become a part of the career guidance team. Community relations and involvement pervade all aspects of a comprehensive career guidance and counseling program.

### D. Who Can Be Involved?

Ask participants to suggest individuals who should be involved.

1. All members of the school and community can become involved in this effort.

2. Certain groups can be viewed as key leadership sources.
   - Lay Groups
     - League of Women Voters
     - Rotary
     - Garden Club
   - Government and Private Agencies
     - Federal agencies
     - State agencies
     - Local government agencies
     - Community agencies

### E. How Can You Bring About School-Community Cooperation?

1. Ask participants to identify strategies for bringing about community relations that they have used. Cues include:
   - News releases
   - Speeches
   - Radio and television announcements
   - Posters
   - Newsletters

A. Summarize Key Points on the Topic of Community Relations

1. Community relations involves relating school activities to the community.

2. Numerous community relations strategies exist.
   - News releases
   - Radio and television announcements
   - Newsletters

B. Summarize Key Points Covered in Community Involvement

1. Community involvement is a series of activities that brings the community in direct contact with the schools.

2. Strategies for community involvement are practically unlimited and include:
   - Job fairs
   - Field trips
   - Career information programs
   - Tutorial programs
   - Advisory committees

C. Relationship to the Rural America Series

1. Note that community relations and involvement are a necessary element in any career guidance program.

2. Career guidance cannot really be implemented without community involvement.

3. Community relations and involvement is really an integral part of career guidance from initial planning to full scale program implementation.

Community Relations

This involves the ongoing process of communicating with the community to promote people's awareness of school programs, needs, accomplishments, and problems. The primary purpose of a community relations effort is to gain community support and understanding of the schools and their programs. A variety of strategies may be employed in this communication process. Student involvement, in any or all of these strategies, makes them more effective and contributes additional labor and talent. Ideally, the communications process would involve many strategies.

Community Involvement

This is a series of activities which brings community members and/or organizations into direct contact with the students and/or the school program. Community involvement aims at using personnel, facilities, or materials to accomplish a specific task or tasks. Often its purpose is to solve a problem not being considered. Other purposes are to broaden student experiences or to provide additional services to the schools and, ultimately, to the community through improved education.

ANNCR.: Your Green Valley School District is in its first year of a comprehensive Career Guidance Program. Are you aware of this? The students in Miss Sylvia Smith’s tenth grade class are standing by at the Green Valley High School, phone 486-3655. Please call between 9:00 a.m. and 3:00 p.m. today if you are a community-minded person. These students, including John Corn, Jim Wheatfield, and Martha Vinel, are conducting a poll to try to make your schools a better place to learn. Career guidance is important. Your thoughts and ideas are needed, NOW. Call 486-3655. By answering the questions these students have to ask, you can help make our schools better.

When using the above example on television, one should consider having available for station use a 3” x 5” colored slide or other visual aids to illustrate the issue being presented.

NEWS RELEASE
FOR THE GREEN VALLEY GAZETTE

For Immediate Release

“Career Development Enters Second Year”

Green Valley School District has just completed a milestone in an exciting new aspect of education. Students in kindergarten through twelfth grades have gone a thousand places. They have heard 300 speakers. And these places are right here in the community. The speakers were you. Miss Martha Greenbottom’s third grade class was all in attendance at the veterinary hospital last Tuesday and watched while Johnny Sweetcorn’s pet pedigreed poodle gave birth to seven little pedigreed poodles. Silas Astronaut, one of the valley’s largest farmers, visited the senior class last month, only twelve days after returning from the United States’ first attempt to place a manned space vehicle on the planet Mars.

Are you aware of Green Valley School’s program of Career Guidance? If you are not aware, would you like information? Would you be willing to participate in program development for the coming year? Green Valley is now asking for your help. In order to keep you better informed and to make next year more successful, call 486-3655 any evening this week. If you will leave your name and address, two or more members of the speech class will come to visit you at a convenient time to ask some questions which will assist your school in continuing with a bigger and better career guidance program in the school year 1977.
