
Designated for a 110-hour general metals course, this lesson plan presents an introduction to eye safety, including a brief guided imagery prelude, an overview of the lesson, an overview of Occupational Safety and Health Administration (OSHA) and Department of Occupational Safety and Health (DOSH) rules and regulations regarding eye and face protection, and a discussion of different types of eyewear. By the end of the lesson, the student should be able to: (1) explain what OSHA and DOSH stand for, and identify what level of government each belongs to; (2) in their own words, define OSHA's standing on eye safety; and (3) identify the different types of protective eyewear. The lesson begins with information on the course for which the plan was developed; equipment and audiovisual aids needed; requirements for student materials; course objectives; bibliographic references; and special remarks for the instructor. Next, a step-by-step outline of the instructor's presentation is provided in a format indicating the length of time and the equipment or other aids needed for each step of the lesson. Course handouts, transparency masters, DOSH and OSHA safety standards, pre- and post-tests, and answer keys are included. (EJV)
An Introduction to Eye Safety

General Metals I, Lesson Plan No. 1

# LESSON PLAN

## LESSON PLAN NO.
1

## INSTITUTION / AGENCY:
Kailua High School

## COURSE OF INSTRUCTION AND COURSE NUMBER:
GENERAL METALS I
PI20

## TOTAL HOURS:
110 HOURS

## LESSON TITLE:
AN INTRODUCTION TO EYE SAFETY

## DAY AND DATE OF INSTRUCTION:
NOV. 12, 1987

## PLACE:
METAL SHOP

## NO. OF STUDENTS:
100

## REHEARSAL:
NOV. 2, 1987

## INSTRUCTOR AND ASSISTANTS:
FLOYD HIGA

## STUDENT MATERIALS AND DRESS:
CASUAL ATTIRE, COVERED SHOES
PENCIL/PEN

## REFERENCES:

## EQUIPMENT AND AUDIO-VISUAL AIDS:
1. BLACKBOARD
2. CHALK
3. OVERHEAD PROJECTOR
4. SCREEN
5. TRANSPARENCIES
6. HAND-OUTS
7. OCCUPATIONAL SAFETY AND HEALTH STANDARDS RULES AND REGULATIONS HANDBOOK
8. EYE PROTECTORS THAT YOU HAVE AVAILABLE ON HAND

## OBJECTIVES:
BY THE END OF THIS LESSON, THE STUDENT SHOULD BE ABLE TO...
1. EXPLAIN WHAT O.S.H.A. AND D.O.S.H. STANDS FOR, AND IDENTIFY WHAT GOVERNMENT EACH BELONG TO. (100%)
2. IN THEIR OWN WORDS, DEFINE O.S.H.A.'S STANDING ON EYE SAFETY.
3. IDENTIFY THE DIFFERENT TYPES OF PROTECTIVE EYEWEAR. (100%)

## SPECIAL REMARKS:
I. PRELUDE

I want you all to close your eyes and relax. Take a few deep breaths and clear your minds of your other subjects. Now I want you to imagine it's a beautiful day in Hawaii and you are at the beach. The sun is out and the sky is blue. You look up and you see a few fluffy white clouds drifting by. Wow, you guys, look at her. Talk about a string bikini. (Wolf whistle). For you girls, there he is, Mr. Atlas.

Now you are at the Pali Lookout to see the sunrise. You see the sun coming over Waimanalo and Kailua with all its different colors, red, yellow, and orange. You start to see the rays of light reaching down toward the earth like finger tips.

Now I want you to imagine that you are blind. You can no longer see these things I just described to you, it is just images in your memory. I want you to think how your lives would change. Maybe some of you have part-time jobs. Could you still keep your job, or does your job require you to be a sighted person? How about your hobbies, does it require you to be a sighted person also? Maybe some of you got your drivers license, well guess what? You won't be making much use of it anymore. The worst part of it all is that you lost your eyesight do to carelessness, it could have been prevented, you lost your eyesight for no reason at all. Losing your eyesight had no meaning whatsoever.

I want you to open your eyes now. If you got a little shook up, GOOD! That means you probably won't be making careless errors. If you did not get shaken up, then you are foolish, and a foolish person often winds up a stupid person.

### II. INTRODUCTION

**A. STATEMENT**

By now some of you have figured out that today's topic is on eye safety. For the past week or so, I've been telling you when you should be wearing safety goggles when working in the shop. Today I will be telling you why.

**B. OBJECTIVES**

1. By the end of this lesson, the students should be able to...
   a. Explain what the acronym O.S.H.A. stands for, and identify what level of government it belongs to.
   b. Explain what the acronym D.O.S.H. stands for, and identify what level of government it belongs to.
   c. Define, in their own words, O.S.H.A.'s standing on eye safety.
   d. Identify the different types of protective eyewear.

**C. REASON**

1. The reason why we should learn about eye safety is so that we can prevent premature eye loss or vision loss. Some of you may have heard about people who had eye transplants to restore their vision, but this will probably not happen to you. I want all of you to face reality. If you lose your eyesight, be prepared to be blind the rest of your life.
### OUTLINE OF INSTRUCTION

2. **SEES**

**QUESTION:** What are your five (5) senses?

**ANSWER:** Sight, Hearing, Smell, Touch, and Taste.

---

### III. EXPLANATION AND/OR DEMONSTRATION

#### A. STATEMENT

1. Before we can tell how much your knowledge has improved, we must first find out how much you know now.
   a. Pretest
      1. Take a few minutes and try to do this pretest.

#### B. O.S.H.A.

**QUESTION:** What does O.S.H.A. stand for?

**ANSWER:** Occupational Safety and Health Administration

1. O.S.H.A. stands for Occupational Safety and Health

LESSON PLAN NO. 1

PRESENTATION

OUTLINE OF INSTRUCTION

Administration. O.S.H.A. is a part of the Federal Government. This means that O.S.H.A. is consistent throughout the United States, the rules are the same.

2. What the handbooks contain.
   a. Rules which are more like laws. Rules are enforced and they do hold fines and penalties. In most cases, it will be assessed to your employer.
   b. It contains everything you ever wanted to know about occupational safety and health but were afraid to ask.
      1. What should be on the tips of your toes, to what should be on the top of your head.
      2. Equipment you should be using.
      3. Portable toilets.

C. D.O.S.H.

QUESTION: What does D.O.S.H. stand for?

ANSWER: Department of Occupational Safety and Health

1. D.O.S.H. stands for Department of Occupational Safety and Health. D.O.S.H. is a part of the State Government. D.O.S.H. is Hawaii's version of O.S.H.A. D.O.S.H.'s standards are equal to or better than O.S.H.A. In Hawaii you will deal only with D.O.S.H. If for some reason you must contact D.O.S.H. or have any interaction with them, make

</tr>
</tbody>
</table>

#### IV. SUMMARY

1. Ask students if they have any questions that they want to ask or have.
2. Summarize the lesson.
   a. O.S.H.A.
   b. D.O.S.H.
   c. Definition of eye protection
   d. Minimum requirements
   e. Types of eyewear.

#### V. EXAMINATION

1. Written test
2. Closing statement
   a. Remember in the beginning of class when I asked you to imagine that you were blind. That was all pretend, make believe. However, if you have no regard for your eyes and work without the proper protective eyewear you just might wind-up blind, no pretend, no make believe.
205.4 EYE AND FACE PROTECTION.

205.4-1 General.

A. Protective eye and face equipment shall be required where there is a reasonable probability of injury that can be prevented by such equipment. In such cases, employers shall make conveniently available a type of protector suitable for the work to be performed, and employees shall use such protectors. No unprotected person shall knowingly be subjected to hazardous environmental condition. Suitable eye protectors shall be provided where machines or operations present the hazard of flying objects, glare, liquids, injurious radiation, or any combination of these hazards.

B. Protectors shall meet the following minimum requirements:

(1) They shall provide adequate protection against the particular hazard for which they are designed.

(2) They shall be reasonably comfortable when worn under the designated conditions.

(3) They shall fit snugly and shall not unduly interfere with the movements of the wearer.

(4) They shall be durable.

(5) They shall be capable of being disinfected.

(6) They shall be easily cleanable.

(7) They shall be kept clean and in good repair.
C. Persons whose vision requires the use of corrective lenses in spectacles, and who are required by this standard to wear eye protection, shall wear goggles or spectacles of one of the following types:

(1) Spectacles whose protective lenses provide optical correction.

(2) Goggles that can be worn over corrective spectacles without disturbing the adjustment of the spectacles.

(3) Goggles that incorporate corrective lenses mounted behind the protective lenses.

D. Every protector shall be distinctly marked to facilitate identification of the manufacturer.

E. When limitations or precautions are indicated by the manufacturer, they shall be transmitted to the user and care taken to see that such limitations and precautions are strictly observed.

F. Design, construction, testing, and use of devices for eye and face protection shall be in accordance with American National Standard for Occupational and Educational Eye and Face Protection, Z87.1-1968.
1. What does O.S.H.A. stand for?

2. What does D.O.S.H. stand for?

3. Define eye safety according to O.S.H.A.

4. List at least two (2) of the seven (7) minimum requirements that each eye protector shall meet?
   1.
   2.
1. Occupational Safety and Health Administration.

2. Department of Occupational Safety and Health.

3. Employers shall make conveniently available a type of protector suitable for the work to be performed, and employees shall use such protectors when there is a reasonable probability of injury that can be prevented by such equipment.

4. Any two of the seven:
   1. They shall provide adequate protection against the particular hazard for which they are designed.
   2. They shall be reasonably comfortable when worn under the designated conditions.
   3. They shall fit snugly and shall not unduly interfere with the movements of the wearer.
   4. They shall be durable.
   5. They shall be capable of being disinfected.
   6. They shall be easily cleanable.
   7. They shall be kept clean and in good repair.
205.4 EYE AND FACE PROTECTION.

205.4-1 General.

A. Protective eye and face equipment shall be required where there is reasonable probability of injury that can be prevented by such equipment. In such cases, employers shall make conveniently available a type of protector suitable for the work to be performed, and employees shall use such protectors. No unprotected person shall knowingly be subjected to hazardous environmental condition. Suitable eye protectors shall be provided where machines or operations present the hazard of flying objects, glare, liquids, injurious radiation, or any combination of these hazards.

B. Protectors shall meet the following minimum requirements:

(1) They shall provide adequate protection against the particular hazard for which they are designed.

(3) ____________________________________________

(4) ____________________________________________

(5) ____________________________________________

(6) ____________________________________________

(7) ____________________________________________
C. Persons whose vision requires the use of corrective lenses in spectacles, and who are required by this standard to wear eye protection, shall wear goggles or spectacles of one of the following types:

1. Spectacles whose protective lenses provide optical correction.

2. Goggles that can be worn over corrective spectacles without disturbing the adjustment of the spectacles.

3. Goggles that incorporate corrective lenses mounted behind the protective lenses.

D. Every protector shall be distinctly marked to facilitate identification of the manufacturer.

E. When limitations or precautions are indicated by the manufacturer, they shall be transmitted to the user and care taken to see that such limitations and precautions are strictly observed.

F. Design, construction, testing, and use of devices for eye and face protection shall be in accordance with American National Standard for Occupational and Educational Eye and Face Protection, Z87.1-1968.
POST TEST

1. What does O.S.H.A. stand for and what level of government does it belong to?

2. What does D.O.S.H. stand for and what level of government does it belong to?

3. In your own words define eye safety according to O.S.H.A.

4. List at least four (4) of the seven (7) minimum requirements that each eye protector shall meet?
   1.
   2.
   3.
   4.
1. Occupational Safety and Health Administration.  
   Federal Government.

2. Department of Occupational Safety and Health.  
   State Government.

3. Anything to this effect:
   Employers shall make conveniently available a type of protector suitable for the work to be performed, and employees shall use such protectors where there is a reasonable probability of injury that can be prevented by such equipment. No unprotected person shall knowingly be subjected to hazardous environmental condition.

4. Any four of the seven:
   1. They shall provide adequate protection against the particular hazard for which they are designed.
   2. They shall be reasonably comfortable when worn under the designated conditions.
   3. They shall fit snugly and shall not unduly interfere with the movements of the wearer.
   4. They shall be durable.
   5. They shall be capable of being disinfected.
   6. They shall be easily cleanable.
   7. They shall be kept clean and in good repair.
