A BILL

To reauthorize the program of finance assistance to meet special educational needs of disadvantaged children, and to reauthorize chapter 2 of the Education Consolidation and Improvement Act of 1981, through fiscal year 1993.

1 Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,
SECTION 1. This Act may be cited as the "Elementary and Secondary Education Amendments of 1967".

PROGRAM OF FINANCIAL ASSISTANCE TO MEET SPECIAL EDUCATIONAL NEEDS OF DISADVANTAGED CHILDREN

SEC. 2. (a) DECLARATION OF POLICY. - Section 101 of the Elementary and Secondary Education Act of 1965 (hereafter in this Act referred to as the "Act") is amended to read as follows:

"DECLARATION OF POLICY

"SEC. 101. The Congress declares it to be the policy of the United States to continue to provide financial assistance to State and local educational agencies to meet the special needs of educationally deprived children, on the basis of entitlements calculated under title I of the Elementary and Secondary Education Act of 1965, but to do so in a manner which will eliminate burdensome, unnecessary, and unproductive paperwork and free the schools of unnecessary Federal supervision, direction, and control. Further, the Congress recognizes the special educational needs of children of low-income families, and that concentrations of such children in local educational agencies adversely affect their ability to provide educational programs which will meet the needs of such children. The Congress also finds that Federal assistance for this purpose will be more effective if education officials, principals, teachers, and supporting personnel are freed..."
from overly prescriptive regulations and administrative burdens which are not necessary for fiscal accountability and make no contribution to the instructional program.”.

(b) Duration of Assistance.—Section 102 of the Act is amended to read as follows:

“DURATION OF ASSISTANCE

“Sec. 102. During the period beginning October 1, 1987, and ending September 30, 1992, the Secretary shall, in accordance with the provisions of this title, make payments to State educational agencies for grants made on the basis of entitlements created under this title and calculated in accordance with provisions of this title.”.

(e) Applicability and Nonapplicability of Certain Provisions of Title I.—Title I of the Act is amended by adding after section 102 the following new section:

“APPLICABILITY OF TITLE I PROVISIONS OF LAW

“Sec. 102. (a) Program Eligibility.—Except as otherwise provided in this title, the Secretary shall, for the period beginning October 1, 1987 and ending September 30, 1992, make payments based upon the amount of, and eligibility for, grants as determined under the following provisions of this title in effect on September 30, 1992:

“(1) Part A—‘Programs Operated by Local Education Agencies’;

“(A) Subpart 1—‘Basic Grants’; and

“(B) Subpart 2—‘Special Grants’.”
(b) ADMINISTRATIVE PROVISIONS.—The Secretary, in making the payments and determinations specified in subsection (a), shall, for the period beginning October 1, 1967 and ending September 30, 1968, continue to use the following provisions of this title:

(1) Part E—Payments:

(A) Section 101—Payment Methods;

(B) Section 102—Amount of Payments to Local Educational Agencies;

(C) Section 103—Adjustments Where Necessitated by Appropriations; and

(D) Section 104—Payments for State Administration; subject to subsection (d) of this section.

(2) Part F—General Provisions:
"(A) Section 107—'Limitation on Grants to Puerto Rico'; and

"(B) Section 108—'Definitions' and conforming amendments to other Acts, except that only those definitions applicable to this subtitle shall be used.

"(c) NONAPPLICABILITY RULE.—The provisions of this title which are not specifically made applicable by this section shall not be applicable to programs authorized under this title, for the period beginning October 1, 1987 and ending September 30, 1993."

(d) TRANSFER OF CHAPTER 1 PROVISIONS APPLICABLE TO TITLE I PROGRAMS.—Title I of the Act is amended by adding after section 103 (as added by subsection (e)) the following new sections:

"AUTHORIZED PROGRAMS

"SEC. 104. (a) GENERAL.—Each State and local educational agency shall use the payments under this title for programs and projects (including the acquisition of equipment and, where necessary, the construction of school facilities) which are designed to meet the special educational needs of educationally deprived children.

"(b) PROGRAM DESIGN.—State agency programs shall be designed to serve migratory children of migratory agricultural workers or of migratory fishermen, handicapped children, and neglected and delinquent children (as described in
subparts 1, 2, and 3, respectively, of part B of this title in accordance with section 103(a)(2) and the other applicable requirements of this title. The Secretary shall continue to use the definitions of 'agricultural activity', 'currently migratory child', and 'fishing activity' which were in effect on June 30, 1982, in regulations prescribed under subpart 4 of part B of this title. No additional definition of 'migratory agricultural worker' or 'migratory fisherman' may be applied after the date of enactment of this subsection to such subpart 4, except that such definition shall be modified to include children of migratory fishermen, if such children reside in a school district of more than 18,000 square miles and migrate a distance of 20 miles or more to temporary residences to engage in fishing activity.

"(e) PROGRAM DESCRIPTION.—A local education agency may use funds received under this title only for programs and projects which are designed to meet the special educational needs of educationally deprived children identified in accordance with section 105(b)(2), and which are included in an application for assistance approved by the State educational agency. Such programs and projects may include the acquisition of equipment and instructional materials, employment of special instructional and counseling and guidance personnel, employment and training of teacher aides, payments to teachers of amounts in excess of regular salary
schedules as a bonus for service in schools serving project areas; the training of teachers; the construction; where necessary; of school facilities; other expenditures authorized under this title as in effect September 30, 1982; and planning for such programs and projects.

"(d) RECORDS AND INFORMATION.—Each State educational agency shall keep such records and provide such information to the Secretary as may be required for fiscal audit and program evaluation (consistent with the responsibilities of the Secretary under this title):

"(e) EVALUATION.—Each State educational agency shall—

"(1) conduct an evaluation of the programs assisted under this title at least every two years and shall make public the results of that evaluation; and

"(2) collect data on the race, age, and gender of children served by the programs assisted under this title and on the number of children served by grade-level under the programs assisted under this title.

"APPROVAL OF APPLICATIONS

"Sec. 105. (a) APPLICATION BY LOCAL EDUCATIONAL AGENCY.—A local educational agency may receive a grant under this title for any fiscal year if it has on file with the State educational agency an application which describes the programs and projects to be conducted with such assistance for a period of not more than three years; and such
application has been approved by the State educational agency:

"(b) APPLICATION ASSURANCES.—The application described in subsection (a) shall be approved if it provides assurances satisfactory to the State educational agency that the local educational agency will keep such records and provide such information to the State educational agency as may be required for fiscal audit and program evaluation (consistent with the responsibilities of the State agency under this title); and that the programs and projects described—

"(1)(A) are conducted in attendance areas of such agency having the highest concentrations of low-income children; or

"(B) are located in all attendance areas of an agency which has a uniformly high concentration of such children;

"(2) are based upon an annual assessment of educational needs which identifies educationally deprived children in all eligible attendance areas; requires, among the educationally deprived children selected, the inclusion of those children who have the greatest need for special assistance; and determines the needs of participating children with sufficient specificity to ensure concentration on those needs;
"(2) are of sufficient size, scope, and quality to give reasonable promise of substantial progress toward meeting the special educational needs of the children being served and are designed and implemented in consultation with parents and teachers of such children;

"(4) will be evaluated in terms of their effectiveness in achieving the goals set for them; and that such evaluations shall include objective measurements of educational achievement in basic skills and a determination of whether improved performance is sustained over a period of more than one year; and that the results of such evaluation will be considered by such agency in the improvement of the programs and projects assisted under this title; and

"(5) make provision for services to educationally deprived children attending private elementary and secondary schools in accordance with section 106.

"(c) Exemption from Targeting.—The requirements of subsection (b)(1) shall not apply in the case of a local educational agency with a total enrollment of less than 1,000 children; but this subsection does not relieve such an agency from the responsibility to serve children under the assurances set forth in subsection (b)(2).

"(d) Local Educational Agency Discretion.—Notwithstanding subsection (b)(1) of this section, a local edu-
cational agency shall have discretion to make educational decisions which are consistent with achieving the purposes of this title as set forth in this subsection, as follows:

"4(1) A local educational agency may designate any school attendance area in which at least 25 percent of the children are from low-income families as an eligible school attendance area.

"4(2) A local educational agency may, with the approval of the State educational agency, designate as eligible (and serve) school attendance areas with substantially higher numbers or percentages of educationally deprived children before school attendance areas with higher concentrations of children from low-income families, but this provision shall not permit the provision of services to more school attendance areas than could otherwise be served. A State educational agency shall approve such a proposal only if the State educational agency finds that the proposal will not substantially impair the delivery of compensatory education services to educationally deprived children from low-income families in project areas served by the local educational agency.

"4(3) Funds received under this title may be used for educationally deprived children who are in a school which is not located in an eligible school attendance

...
area when the proportion of children from low-income families in average daily attendance in such school is substantially equal to the proportion of such children in an eligible school attendance area of such agency.

"(4) If an eligible school attendance area or eligible school was so designated in accordance with subsection (b)(1)(A) in either of two preceding fiscal years, it may continue to be so designated for a single additional fiscal year even though it does not qualify in accordance with subsection (b)(1)(A).

"(5) With approval of the State educational agency, eligible school attendance areas or eligible schools which have higher proportions of children from low-income families may be skipped if they are receiving from non-Federal funds, services of the same nature and scope as would otherwise be provided under this title, but (A) the number of children attending private elementary and secondary schools who receive services under this title shall be determined without regard to non-Federal compensatory education funds which serve eligible children in public elementary and secondary schools, and (B) children attending private elementary and secondary schools who receive assistance under this title shall be identified in accordance with this section and without regard to skipping public
school attendance areas or schools under this paragraph.

"(6) A child who, in any previous year, was identified as being in greatest need of assistance, and who continues to be educationally deprived, but who is no longer identified as being in greatest need of assistance, may participate in a program or project assisted under this title for the current year.

"(7) Educationally deprived children who begin participation in a program or project assisted under this title who, in the same school year, are transferred to a school attendance area or a school not receiving funds under this title, may continue to participate in a program or project funded under this title for the remainder of such year.

"(8) The local educational agency is not required to use funds under this title to serve educationally deprived children in greatest need of assistance if such children are receiving, from non-Federal sources, services of the same nature and scope as would otherwise be provided under this title.

"(9) In the case of any school serving an attendance area that is eligible to receive services under this title and in which not less than 75 per cent of the children are from low-income families, funds received
under this title may be used for a project designed to
upgrade the entire educational program in that school
in the same manner and only to the same extent as
permitted under section 133(b) of this Act (but without
regard to paragraph (4) of such section).

"(10) Public school personnel paid entirely by
funds made available under this title may be assigned
limited, rotating, supervisory duties which are assigned
to similarly situated personnel who are not paid with
such funds, and such duties need not be limited to
classroom instruction or to the benefit of children par-
ticipating in programs or projects funded under this
title. Such duties may not exceed the same proportion
of total time as is the case with similarly situated per-
sonnel at the same school site, or $\frac{1}{10}$ of the
total time, whichever is less.

"(c) PARENTAL INVOLVEMENT.—For the purposes of
complying the the assurances given pursuant to subsection
(b)(3) with respect to consultation with parents of participat-
ing children, (1) a local educational agency shall convene an-
nually a public meeting, to which all parents of eligible stu-
dents shall be invited, to explain to parents the programs and
activities provided with funds made available under this title;
and (2) if parents desire further activities, the local education—
al agency may, upon request, provide reasonable support for such activities.

"PARTICIPATION OF CHILDREN ENROLLED IN PRIVATE SCHOOLS"

"SEC. 106. (a) GENERAL REQUIREMENTS.—To the extent consistent with the number of educationally deprived children in the school district of the local educational agency who are enrolled in private elementary and secondary schools, such agency shall make provisions for including special educational services and arrangements (such as dual enrollment, educational radio and television, and mobile educational services and equipment) in which such children can participate and which meet the requirements of sections 104(e), 105(b) (1), (2), (3), and (4), and 107(b). Expenditures for educational services and arrangements pursuant to this section for educationally deprived children in private schools shall be equal (taking into account the number of children to be served and the special educational needs of such children) to expenditures for children enrolled in the public schools of the local educational agency.

"(b) BYPASS PROVISION.—(1) If a local educational agency is prohibited by law from providing for the participation in special programs for educationally deprived children enrolled in private elementary and secondary schools as required by subsection (a), the Secretary shall waive such requirements, and shall arrange for the provision of services to..."
such children through arrangements which shall be subject to
the requirements of subsection (a).

"(2) If the Secretary determines that a local educational
agency has substantially failed to provide for the participation
on an equitable basis of educationally deprived children en-
rolled in private elementary and secondary schools as re-
quired by subsection (a); the Secretary shall arrange for the
provision of services to such children through arrangements
which shall be subject to the requirements of subsection (a);
upon which determination the provisions of subsection (a)
shall be waived.

"(2)(A) When the Secretary arranges for services pursuant
to this subsection; the Secretary shall; after consultation
with the appropriate public and private school officials; pay
to the provider the cost of such services; including the admin-
istrative cost of arranging for such services; from the appro-
priate allocation or allocations under this title.

"(B) Pending final resolution of any investigation or
complaint that could result in a determination under this sub-
section; the Secretary may withhold from the allocation of
the affected State or local educational agency the amount the
Secretary estimates would be necessary to pay the cost of
such services.

"(C) Any determination by the Secretary under this sec-
tion shall continue in effect until the Secretary determines
that there will no longer be any failure or inability on the part of the local educational agency to meet the requirements of subsection (a).

"(4)(A) The Secretary shall not take any final action under this subsection until the State educational agency and local educational agency affected by such action have had an opportunity, for at least 45 days after receiving written notice thereof, to submit written objections and to appear before the Secretary or his designee to show cause why such action should not be taken.

"(B) If a State or local educational agency is dissatisfied with the Secretary's final action after a proceeding under subparagraph (A) of this paragraph, it may within sixty days after notice of such action, file with the United States court of appeals for the circuit in which such State is located a petition for review of that action. A copy of the petition shall be forthwith transmitted by the clerk of the court to the Secretary. The Secretary thereupon shall file in the court the record of the proceedings on which he based his action, as provided in section 2112 of title 28, United States Code.

"(C) The findings of fact by the Secretary, if supported by substantial evidence, shall be conclusive; but the court, for good cause shown, may remand the case to the Secretary to take further evidence, and the Secretary may thereupon make new or modified findings of fact and may modify his
previous action; and shall file in the court the record of the
further proceedings. Such new or modified findings of fact
shall likewise be conclusive if supported by substantial
evidence.

"(D) Upon the filing of a petition under subparagraph
(B), the court shall have jurisdiction to affirm the action of
the Secretary or to set it aside, in whole or in part. The
judgment of the court shall be subject to review by the Su-
preme Court of the United States upon certiorari or certifica-
tion as provided in section 1254, of title 28, United States
Code.

"(e) Any bypass determination by the Secretary under
title I of the Elementary and Secondary Education Act of
1965 prior to August 15, 1981, shall remain in effect to the
extent consistent with the purposes of this section.

"GENERAL PROVISIONS

 SEC. 107. (a) MAINTENANCE OF EFFORT.—(1)
Except as provided in paragraph (2), a local educational
agency may receive funds under this title for any fiscal year
only if the State educational agency finds that either the
combined fiscal effort per student or the aggregate expendi-
tures of that agency and the State with respect to the provi-
sion of free public education by that agency for the preceding
fiscal year was not less than 90 per centum of such combined
fiscal effort or aggregate expenditures for the second preced-
ing fiscal year.
"(2) The State educational agency shall reduce the amount of the allocation of funds under this title in any fiscal year in the exact proportion to which a local educational agency fails to meet the requirement of paragraph (1) by falling below 90 per centum of both the combined fiscal effort per student and aggregate expenditures (using the measure most favorable to such local agency), and no such lesser amount shall be used for computing the effort required under paragraph (1) for subsequent years.

"(3) The State educational agency may waive, for one fiscal year only, the requirements of this subsection if the State educational agency determines that such a waiver would be equitable due to exceptional or uncontrollable circumstances such as a natural disaster or a precipitous and unforeseen decline in the financial resources of the local educational agency.

"(b) Federal Funds to Supplement, Not Supplant Regular Non-Federal Funds.—A State educational agency or other State agency in operating its State level programs or a local educational agency may use funds received under this title only so as to supplement and, to the extent practical, increase the level of funds that would, in the absence of such Federal funds, be made available from non-Federal sources for the education of pupils participating in programs and projects assisted under this title; and in no case
may such funds be so used as to supplant such funds from such non-Federal sources. In order to demonstrate compli-
ance with this subsection no State educational agency, other State agency, or local educational agency shall be required to provide services under this title outside the regular classroom or school program.

"(c) COMPARABILITY OF SERVICES.—(1) A local edu-
cational agency may receive funds under this chapter only if State and local funds will be used in the district of such agency to provide services in project areas which, taken as a whole, are at least comparable to services being provided in areas in such district which are not receiving funds under this title. Where all school attendance areas in the district of the agency are designated as project areas, the agency may re-
ceive such funds only if State and local funds are used to provide services which, taken as a whole, are substantially comparable in each project area.

"(2) A local educational agency shall be deemed to have met the requirements of paragraph (1) if it has filed with the State educational agency a written assurance that it has established—

"(A) a districtwide salary schedule;

"(B) a policy to ensure equivalence among schools in teachers, administrators, and auxiliary personnel; and
"(c) a policy to ensure equivalence among schools in the provision of curriculum materials and instructional supplies.

4 Unpredictable changes in student enrollment or personnel assignments which occur after the beginning of a school year shall not be included as a factor in determining comparability of services.

"(d) Exclusion of Special State and Local Program Funds.—For the purposes of determining compliance with the requirements of subsections (b) and (c), a local educational agency may exclude State and local funds expended for carrying out special programs to meet the educational needs of educationally deprived children, including compensatory education for educationally deprived children (which meets the requirements of section 131(c) of this Act). For the purpose of determining compliance with the requirements of subsection (e), a local educational agency may exclude State and local funds expended for—

"(1) bilingual education for children of limited English proficiency,

"(2) special education for handicapped children or children with specific learning disabilities; and

"(3) certain State phase-in programs as described in section 131(d) of the Elementary and Secondary Education Act of 1965."
"(e) ALLOCATION OF FUNDS IN CERTAIN STATES.—

Notwithstanding section 111(a)(3)(C) of this Act, in any State in which a large number of local educational agencies overlap county boundaries, the State educational agency is authorized to make allocations of basic grants and special incentive grants directly to local educational agencies without regard to counties, if such allocations were made during fiscal year 1982, except that (1) precisely the same factors are used to determine the amount of such grants to counties, and (2) a local educational agency dissatisfied with such determination is afforded an opportunity for a hearing on the matter by the State educational agency.

"APPLICATION OF OTHER LAWS

"SEC. 108. (a) GENERAL RULE.—Except as otherwise specifically provided by this section, the General Education Provisions Act shall apply to the programs authorized by this title.

"(b) SUPERSESSION RULE.—The following provisions of the General Education Provisions Act shall be superseded by the provisions specified in this subsection with respect to the programs authorized by this title:

"(1) Section 406(a)(1) of the General Education Provisions Act is superseded by section 501(a) of the Education Consolidation and Improvement Act of 1984.
“(2) Section 426(a) of such Act is superseded by section 591(b) of the Education Consolidation and Improvement Act of 1981.

“(3) Section 427 of such Act is superseded by section 105(b)(3) of this title.

“(4) Section 430 of such Act is superseded by section 105(a) and 564(b) of this title.

“(5) Section 431A of such Act is superseded by section 107(a) of this title.

“(6) Section 452 of such Act is superseded by section 592 of the Education Consolidation and Improvement Act of 1981.

“(7) Section 455 of such Act is superseded by section 593 of the Education Consolidation and Improvement Act of 1981 with respect to judicial review of withholding of payments.

“(e) NONAPPLICABILITY RULE.—Sections 434, 435, and 436 of the General Education Provisions Act, except to the extent that such sections relate to fiscal control and fund accounting procedures, shall not apply to the programs authorized by this title and shall not be construed to authorize the Secretary to require any reports or take any actions not specifically authorized by this title.

(e) TECHNICAL AMENDMENT.—The heading of title I of the Act is amended to read as follows:"
TITLE I—FINANCIAL ASSISTANCE TO MEET SPECIAL EDUCATIONAL NEEDS OF DISADVANTAGED CHILDREN.

REAUTHORIZATION OF THE CONSOLIDATION PROGRAM UNDER CHAPTER 2

SEC. 2. (a) Reauthorization.—Section 562(a) of the Education Consolidation and Improvement Act of 1981 is amended by striking out "for fiscal year 1989 and each of the five succeeding fiscal years" and inserting in lieu thereof "for fiscal year 1988 and for each succeeding fiscal year ending prior to October 1, 1992".

PART D—ADMINISTRATION

TITLE VIII—DEMONSTRATION PROJECTS DESIGNED TO ADDRESS SCHOOL DROPOUT PROBLEMS AND TO STRENGTHEN BASIC SKILLS INSTRUCTION

PART A—ASSISTANCE TO ADDRESS SCHOOL DROPOUT PROBLEMS

PART B—ASSISTANCE TO PROVIDE BASIC SKILLS IMPROVEMENT
TITLE I—BASIC PROGRAMS

CHAPTER 1—FINANCIAL ASSISTANCE TO MEET SPECIAL EDUCATIONAL NEEDS OF CHILDREN

SEC. 1001. DECLARATION OF POLICY AND STATEMENT OF PURPOSE.

(a) DECLARATION OF POLICY.—In recognition of—

(1) the special educational needs of children of low-income families and the impact of concentrations of low-income families on the ability of local educational agencies to provide educational programs which meet such needs, and

(2) the special educational needs of children of migrant parents, of Indian children, and of handicapped, neglected, and delinquent children,

the Congress declares it to be the policy of the United States to—

(A) provide financial assistance to State and local educational agencies to meet the special needs of such educationally deprived children at the preschool, elementary, and secondary levels;

(B) expand the program authorized by this chapter over the next 5 years to increase the percentage of eligible children served in each fiscal year until all eligible children are served by fiscal year 1993; and
(C) provide such assistance in a way which eliminates unnecessary administrative burden and paperwork and overly prescriptive regulations and provides flexibility to State and local educational agencies in making educational decisions.

(b) STATEMENT OF PURPOSE.—The purpose of assistance under this chapter is to improve the educational opportunities of educationally deprived children by helping such children succeed in the regular program of the local educational agency, attain grade-level proficiency, and improve achievement in basic and more advanced skills. These purposes shall be accomplished through such means as supplemental education programs, schoolwide programs, and the increased involvement of parents in their children’s education.

PART A—BASIC PROGRAMS OPERATED BY LOCAL EDUCATIONAL AGENCIES

Subpart 1—Allocations

SEC. 1005. BASIC GRANTS.

(a) AMOUNT OF GRANTS.—

(1) GRANTS FOR TERRITORIES.—There is authorized to be appropriated for each fiscal year for the purpose of this paragraph 1 percent of the amount appropriated for such year for payments to States under part D (other than payments under such part to jurisdictions excluded from the term “State” by this subsec-
tion, and payments pursuant to section 1291). The amount appropriated pursuant to this paragraph shall be allotted by the Secretary (A) among Guam, American Samoa, the Virgin Islands, the Northern Mariana Islands, and the Trust Territory of the Pacific Islands according to their respective need for grants under this part, and (B) to the Secretary of the Interior in the amount necessary (i) to make payments pursuant to paragraph (1) of subsection (d), and (ii) to make payments pursuant to paragraph (2) of subsection (d). The grant which a local educational agency in Guam, American Samoa, the Virgin Islands, the Northern Mariana Islands, and the Trust Territory of the Pacific Islands is eligible to receive shall be determined pursuant to such criteria as the Secretary determines will best carry out the purposes of this chapter.

(2) GRANTS FOR LOCAL EDUCATIONAL AGENCIES AND PUERTO RICO.—

(A) In any case in which the Secretary determines that satisfactory data for that purpose are available, the grant which a local educational agency in a State is eligible to receive under this subpart for a fiscal year shall (except as provided in paragraph (3)), be determined by multiplying the number of children counted under subsection
(c) by 40 percent of the amount determined under the next sentence. The amount determined under this sentence shall be the average per pupil expenditure in the State except that (i) if the average per pupil expenditure in the State is less than 80 percent of the average per pupil expenditure in the United States, such amount shall be 80 percent of the average per pupil expenditure in the United States, or (ii) if the average per pupil expenditure in the State is more than 120 percent of the average per pupil expenditure in the United States, such amount shall be 120 percent of the average per pupil expenditure in the United States.

(B) In any case in which such data are not available, subject to paragraph (3), the grant for any local educational agency in a State shall be determined on the basis of the aggregate amount of such grants for all such agencies in the county or counties in which the school district of the particular agency is located, which aggregate amount shall be equal to the aggregate amount determined under subparagraph (A) for such county or counties, and shall be allocated among those agencies upon such equitable basis as may be determined.
by the State educational agency in accordance with the basic criteria prescribed by the Secretary.

(C) For each fiscal year, the Secretary shall determine the percentage which the average per pupil expenditure in Puerto Rico is of the lowest average per pupil expenditure of any of the 50 States. The grant which Puerto Rico shall be eligible to receive under this subpart for a fiscal year shall be the amount arrived at by multiplying the number of children counted under subsection (c) for Puerto Rico by the product of—

(i) the percentage determined under the preceding sentence and
(ii) 32 percent of the average per pupil expenditure in the United States.

(3) SPECIAL ALLOCATION PROCEDURES.—

(A) Upon determination by the State educational agency that a local educational agency in the State is unable or unwilling to provide for the special educational needs of children described in clause (C) of paragraph (1) of subsection (c), who are living in institutions for neglected or delinquent children, the State educational agency shall, if it assumes responsibility for the special
educational needs of such children, be eligible to receive the portion of the allocation to such local educational agency which is attributable to such neglected or delinquent children, but if the State educational agency does not assume such responsibility, any other State or local public agency, as determined by regulations established by the Secretary, which does assume such responsibility shall be eligible to receive such portion of the allocation.

(B) In the case of local educational agencies which serve in whole or in part the same geographical area, and in the case of a local educational agency which provides free public education for a substantial number of children who reside in the school district of another local educational agency, the State educational agency may allocate the amount of the grants for those agencies among them in such manner as it determines will best carry out the purposes of this chapter.

(C) In any State in which a large number of local educational agencies overlap county boundaries, the State educational agency may apply to the Secretary for authority during any particular fiscal year to make the allocations
under this part (other than section 1006) directly
to local educational agencies without regard to the
counties. If the Secretary approves an application
of a State educational agency for a particular
year under this subparagraph, the State educa-
tional agency shall provide assurances that such
allocations will be made using precisely the same
factors for determining a grant as are used under
this part and that a procedure will be established
through which local educational agencies dissatis-
sied with the determinations made by the State
educational agency may appeal directly to the
Secretary for a final determination.

(4) DEFINITION.—For purposes of this subsec-
tion, the term “State” does not include Guam, Amer-
ican Samoa, the Virgin Islands, the Northern Mariana
Islands, and the Trust Territory of the Pacific Islands.

(b) MINIMUM NUMBER OF CHILDREN TO QUAL-
IFY.—A local educational agency shall be eligible for a basic
grant for a fiscal year under this subpart only if it meets the
following requirements with respect to the number of children
counted under subsection (c):

(1) In any case (except as provided in paragraph
(3)) in which the Secretary determines that satisfac-
tory data for the purpose of this subsection as to the
number of such children are available on a school dis-

trick basis, the number of such children in the school
district of such local educational agency shall be at
least 10.

(2) In any other case, except as provided in para-
graph (3), the number of such children in the county
which includes such local educational agency’s school
district shall be at least 10.

(3) In any case in which a county includes a part
of the school district of the local educational agency
concerned and the Secretary has not determined that
satisfactory data for the purpose of this subsection are
available on a school district basis for all the local edu-
cational agencies or all the counties into which the
school district of the local educational agency concerned
extends, the eligibility requirement with respect to the
number of such children for such local educational
agency shall be determined in accordance with regula-
tions prescribed by the Secretary for the purposes of
this subsection.

(c) CHILDREN TO BE COUNTED.—

(1) CATEGORIES OF CHILDREN.—The number of
children to be counted for purposes of this section is the
aggregate of—
(A) the number of children aged 5 to 17, inclusive, in the school district of the local educational agency from families below the poverty level as determined under paragraph (2)(A), and

(B) the number of children aged 5 to 17, inclusive, in the school district of such agency living in institutions for neglected or delinquent children (other than such institutions operated by the United States) but not counted pursuant to subpart 3 of part C for the purposes of a grant to a State agency, or being supported in foster homes with public funds.

(2) DETERMINATION OF NUMBER OF CHILDREN.—

(A) For the purposes of this section, the Secretary shall determine the number of children aged 5 to 17, inclusive, from families below the poverty level on the basis of the most recent satisfactory data available from the Department of Commerce for local educational agencies (or, if such data are not available for such agencies, for counties); and in determining the families which are below the poverty level, the Secretary shall utilize the criteria of poverty used by the Bureau
of the Census in compiling the most recent decennial census.

(B) The Secretary shall determine the number of such children and the number of children of such ages living in institutions for neglected or delinquent children, or being supported in foster homes with public funds, on the basis of the caseload data for the month of October of the preceding fiscal year or, to the extent that such data are not available to the Secretary before January of the calendar year in which the Secretary's determination is made, then on the basis of the most recent reliable data available to the Secretary at the time of such determination. The Secretary of Health and Human Services shall collect and transmit the information required by this subparagraph to the Secretary not later than January 1 of each year.

(C) When requested by the Secretary, the Secretary of Commerce shall make a special estimate of the number of children of such ages who are from families below the poverty level (as determined under subparagraph (A) of this paragraph) in each county or school district, and the Secretary is authorized to pay (either in advance or by
way of reimbursement) the Secretary of Commerce the cost of making this special estimate. The Secretary of Commerce shall give consideration to any request of the chief executive of a State for the collection of additional census information. For purposes of this section, the Secretary shall consider all children who are in correctional institutions to be living in institutions for delinquent children.

(d) PROGRAM FOR INDIAN CHILDREN.—(1) From the amount allotted for payments to the Secretary of the Interior under the second sentence of subsection (a)(1), the Secretary of the Interior shall make payments to local educational agencies, upon such terms as the Secretary determines will best carry out the purposes of this chapter with respect to out-of-State Indian children in the elementary and secondary schools of such agencies under special contracts with the Department of the Interior. The amount of such payment may not exceed, for each such child, 40 percent of (A) the average per pupil expenditure in the State in which the agency is located or (B) 120 percent of such expenditure in the United States, whichever is the greater.

(2) The amount allotted for payments to the Secretary of the Interior under the second sentence of subsection (a)(1) for any fiscal year shall be, as determined pursuant to crite-
ria established by the Secretary, the amount necessary to meet the special educational needs of educationally deprived Indian children on reservations serviced by elementary and secondary schools operated, or operated with Federal assistance, for Indian children by the Department of the Interior. Such payment shall be made pursuant to an agreement between the Secretary and the Secretary of the Interior containing such assurances and terms as the Secretary determines will best achieve the purposes of this chapter. Such agreement shall contain (A) an assurance that payments made pursuant to this subparagraph will be used solely for programs and projects approved by the Secretary of the Interior which meet the applicable requirements of subpart 2 of this part and that the Department of the Interior will comply with all other respects with the requirements of this chapter, and (B) provision for carrying out the applicable provisions of subpart 2 of this part and part E. Such agreement shall consider a tribal organization operating a school under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.) as a local educational agency, and shall consider the Secretary of the Interior as a State or State educational agency for all purposes defining the authority of States or State educational agencies relative to local educational agencies. If, in the capacity as a State educational agency, the Secretary of the Interior promulgates...
regulations applicable to such tribal organizations, the Secretary shall comply with section 1451 of this Act and with section 553 of title 5 of the United States Code, relating to administrative procedure, and such regulations must be consistent with subsections (d) and (e) of section 1121, section 1130, and section 1133 of the Education Amendments of 1978.

(e) Treatment of Earnings for Purposes of Aid to Families with Dependent Children.—Notwithstanding the provisions of title IV of the Social Security Act, a State plan approved under section 402 of such Act shall provide that for a period of not less than 12 months, and may provide that for a period of not more than 24 months, the first $85 earned by any person in any month for services rendered to any program assisted under this chapter of this Act shall not be regarded (1) in determining the need of such person under such approved State plan or (2) in determining the need for any other individual under such approved State plan.

(f) Duration of Assistance.—During the period beginning October 1, 1988, and ending September 30, 1993, the Secretary shall, in accordance with the provisions of this part, make payments to State educational agencies for grants made on the basis of entitlements created under this chapter.
SEC. 1006. GRANTS FOR LOCAL EDUCATIONAL AGENCIES IN COUNTIES WITH ESPECIALLY HIGH CONCENTRATIONS OF CHILDREN FROM LOW-INCOME FAMILIES.

(a) Eligibility for and Amount of Special Grants.—(1) From one-half of the amount available for this section under subsection (e), in each fiscal year, each county, in a State other than Guam, American Samoa, the Virgin Islands, the Northern Mariana Islands, and the Trust Territory of the Pacific Islands, which is eligible for a grant under this chapter for any fiscal year shall be entitled to an additional grant under this section for that fiscal year if—

(A) the number of children counted under section 1005(c) of this chapter in the school district of local educational agencies in such county for the preceding fiscal year exceeds 5,000, or

(B) the number of children counted under section 1005(c) exceeds 20 percent of the total number of children aged 5 to 17, inclusive, in the school districts of local educational agencies in such county in that fiscal year,

except that no such State shall receive less than one-half of 1 percent of the sums reserved under subsection (e) and available for this subsection for such fiscal year.
(2) For each county in which there are local educational agencies eligible to receive an additional grant under this subsection for any fiscal year the Secretary shall determine the product of—

(A) the number of children in excess of 5,000 counted under section 1005(c) for the preceding fiscal year or the number of children counted under that section in excess of 20 per centum of the total number of children aged 5 to 17, inclusive, in the school districts of local educational agencies in such country for that preceding fiscal year, whichever is greater, and

(B) the quotient resulting from the division of the amount determined for those agencies under section 1005(a)(2) of this title for the fiscal year for which the determination is being made divided by the total number of children counted under section 1005(c) for the preceding fiscal year.

(3) The amount of the additional grant to which an eligible county is entitled under this subsection for any fiscal year shall be an amount which bears the same ratio to the amount reserved under subsection (e) and available for this subsection for that fiscal year as the product determined under paragraph (2) for such county for that fiscal year bears to the sum of such products for all counties in the United States for that fiscal year.
(b) ADDITIONAL ELIGIBILITY FOR AMOUNT OF SPECIAL GRANTS.—(1)(A) From one-half of the amount available under subsection (e) of this section for each fiscal year, except as provided in subparagraph (B), each State, other than Guam, American Samoa, the Virgin Islands, the Northern Mariana Islands, and the Trust Territory of the Pacific Islands, shall be eligible to receive a grant for each fiscal year under this section in an amount that bears the same ratio to the amount reserved under subsection (e) and available for this subsection in that fiscal year as the amount allocated under section 1005 of this Act to local educational agencies in the State bears to the total amount allocated to such agencies in all States.

(B) No State shall receive less than one-half of 1 percent of the amount available for this subsection for any fiscal year.

(2)(A) Each State, from amounts allocated to the State under paragraph (1) of this subsection, shall allocate funds to each county described in subparagraph (B) of this paragraph, in accordance with this subsection.

(B) The counties described in subparagraph (A) are any counties in the State in which there are local educational agencies in which—

(i) the number of children counted under section 1005(c) in the school districts of local educational
agencies in such county for the preceding year exceeds 5,000; or

(ii) the number of children counted under section 1005(c) exceeds 20 percent of the total number of children aged 5 to 17, inclusive, in the school districts of local educational agencies in such county in such fiscal year.

(3)(A) The amount of the additional grant under this subsection to which an eligible county is entitled under this section shall be an amount which bears the same ratio to the amount allocated to the State under subsection (a) as the product determined under subparagraph (2)(B) for such county for that fiscal year bears to the sum of such products for all counties which are eligible in the State for that fiscal year.

(B) For the purpose of subparagraph (A), the State educational agency shall determine the product of—

(i) the number of children counted in local educational agencies in each county of the State which meets the requirements of paragraph (2)(B); and

(ii) the quotient resulting from the division of the amount determined for those agencies under section 1005(a)(2) of this title for the fiscal year for which the determination is being made divided by the total
number of children counted under section 1005(c) for the preceding fiscal year.

(c) SPECIAL WITHIN-STATE ALLOCATION RULES.—

(1) For the purpose of this section, the State educational agency shall determine the number of children counted under section 1005(c) for any county, and the total number of children aged 5 to 17, inclusive, in school districts of local educational agencies in such county, on the basis of the most recent satisfactory data available at the time the payment for such county is determined under section 1005.

(2)(A) Pursuant to regulations established by the Secretary and except as provided in subparagraphs (B) and (C), funds allocated to counties under this part shall be allocated by the State educational agency only to those local educational agencies whose school districts lie (in whole or in part) within the county and which are determined by the State educational agency to meet the eligibility criteria of subparagraphs (A) and (B) of subsection (a)(1), or clauses (i) and (ii) of subsection (b)(2)(B). Such determination shall be made on the basis of the available poverty data which such State educational agency determines best reflect the current distribution in the local educational agency of low-income families consistent with the purposes of this chapter. The amount of funds under this part that each qualifying local educational agency receives shall be proportionate to the
number or percentage of children from low-income families in the school districts of the local educational agency.

(B) In counties where no local educational agency meets the criteria of subparagraph (A) or (B) of subsection (a)(1), or clauses (i) and (ii) of subsection (b)(2)(B), the State educational agency shall allocate such funds among the local educational agencies within such counties (in whole or in part) in rank order of their respective concentration and numbers of children from low-income families and in amounts which are consistent with the degree of concentration of poverty. Only local educational agencies with concentrations of poverty that exceed the county wide average of poverty shall receive any funds pursuant to the provisions of this subparagraph.

(C)(i) In any State which in any fiscal year receives less than 1 percent of the amount available for this section under subsection (e), the State educational agency shall allocate such funds among local educational agencies in the State in accordance with division (ii) and in the order provided in division (ii).

(ii) The State educational agency shall, subject to the conditions of division (iv), allocate funds in each fiscal year—

(I) first, to local educational agencies in counties which meet the requirements of subsection (b)(2)(B);
(II) then, to local educational agencies, regardless of county, which meet the requirements of subsection (b)(2)(B); and

(III) last, to local educational agencies which do not meet the requirements of subsection (b)(2)(B), subject to the requirement that only local educational agencies with concentrations of poverty that exceed the statewide average of poverty will receive funds and subject to division (iii).

(iii) The State educational agency may not select the ranking order described in subdivision (III) until the State pays for the children in local educational agencies described in subdivisions (I) and (II) an amount equal to the amount which such agency is paid for such children under section 1005(a)(2) for the fiscal year for which the determination is made.

(iv) In carrying out the ranking order under division (ii), the total number of local educational agencies eligible for assistance under this subparagraph may not be more than the maximum number of local educational agencies that the State educational agencies would have identified under subdivision (III) of division (ii).

(d) PAYMENTS; USE OF FUNDS.—(1) The total amount which counties in a State are entitled to receive under this section for any fiscal year shall be added to the

51

52
amount paid to that State under section 1401 for such year.
From the amount paid to it under this section, the State shall
distribute to local educational agencies in each county of the
State the amount (if any) to which it is entitled under this
section.

(2) The amount paid to a local educational agency
under this section shall be used by that agency for activities
undertaken pursuant to its application submitted under sec-
tion 1012 and shall be subject to the other requirements in
subpart 2 of this part.

(e) RESERVATION OF FUNDS.—(1) For any fiscal year
for which amounts appropriated for this chapter exceed
$4,300,000,000, the amount specified in paragraph (2) shall
be available to carry out this section.

(2)(A) The first $400,000,000 in excess of
$4,300,000,000 appropriated for this chapter in any fiscal
year shall be available to carry out this section.

(B) Whenever the amounts appropriated for this chapter
exceed $4,700,000,000 in any fiscal year, 10 percent of the
amount appropriated for that fiscal year shall be available to
carry out this section.

(f) RATABLE REDUCTION RULE.—If the sums avail-
able under subsection (e) for any fiscal year for making pay-
ments under subsection (a) are not sufficient to pay in full
the total amounts which all States are entitled to receive
under subsection (a) for such fiscal year, the maximum amounts which all States are entitled to receive under subsection (a) for such fiscal year shall be ratably reduced. In case additional funds become available for making such payments for any fiscal year during which the preceding sentence is applicable, such reduced amount shall be increased on the same basis as they were reduced.

Subpart 2—Basic Program Requirements

SEC. 1011. USES OF FUNDS.

(a) PROGRAM DESCRIPTION.—(1) A local educational agency may use funds received under this chapter only for programs and projects which are designed to meet the special educational needs of educationally deprived children identified in accordance with section 1014 and which are included in an application for assistance approved by the State educational agency.

(2) Such programs and projects under paragraph (1) may include preschool through secondary programs; the acquisition of equipment and instructional materials; books and school library resources; employment of special instructional personnel, school counselors, and other pupil services personnel; employment and training of education aides; payments to teachers of amounts in excess of regular salary schedules as a bonus for service in schools serving project areas; the training of teachers, librarians, other instructional and pupil
services personnel, and as appropriate, early childhood education professionals (including training in preparation for
the implementation of programs and projects in a subsequent
school year); the construction, where necessary, of school facilities; parental involvement activities under section 1016;
planning for and evaluation of such programs and projects assisted under this chapter; and other expenditures authorized under this chapter.

(3) Educational agencies are encouraged to develop programs to assist eligible children to improve their achievement in basic skills and more advanced skills and to consider year-round services and activities, including intensive summer school programs.

(b) INNOVATION PROJECTS.—Subject to the approval of the State educational agency, a local educational agency may use not more than 5 percent of payments under this part for the costs of conducting innovative projects developed by the local educational agency that include only—

(1) the continuation of services to children eligible for services in any preceding year for a period sufficient to maintain progress made during their eligibility;

(2) the provision of extended services to eligible children transferred to ineligible areas or schools as part of a desegregation plan;
(3) incentive payments to schools that have demonstrated significant progress and success in attaining the goals of this chapter;

(4) training of teachers and librarians not paid with funds under this chapter with respect to the special educational needs of eligible children and to integrate activities under this chapter into regular classroom programs;

(5) programs to encourage innovative approaches to parental involvement or rewards to or expansion of exemplary parental involvement programs; and

(6) encouraging community and private sector involvement and resources (including fiscal resources) in meeting the needs of eligible children.

SEC. 1012. APPLICATIONS.

(a) In General.—A local educational agency may receive a grant under this chapter for any fiscal year if it has on file with the State educational agency an application which describes the programs and projects to be conducted with such assistance for a period of not more than 3 years and which describes the desired outcomes, in terms of basic and more advanced skills, which will be used as the basis for evaluating the program or project as required by section 1019, and such application has been approved by the State.
educational agency and developed in consultation with teachers and parents.

(b) ASSURANCES.—Such application shall provide assurance that the programs and projects described—

(1) are of sufficient size, scope, and quality to give reasonable promise of substantial progress toward meeting the special educational needs of the children being served, are designed and implemented in consultation with teachers (including early childhood education professionals and librarians when appropriate), and provide for parental involvement in accordance with section 1016;

(2) make provision for services to educationally deprived children attending private elementary and secondary schools in accordance with section 1017;

(3) allocate time and resources for frequent and regular coordination of the curriculum under this chapter with the regular instructional program; and

(4) in the case of participating students who are also limited English proficient or are handicapped, provide maximum coordination between services provided under this chapter and services provided to address children’s handicapping conditions or limited English proficiency, in order to increase program effec-
tiveness, eliminate duplication, and reduce fragmentation of the students' programs.

(c) DESCRIPTION OF SERVICES.—The application shall include a description of the local educational agency's plan for providing high quality services under this chapter, including—

(1) the procedures to be used under section 1014(b) for assessing students' needs in relation to the program goals;

(2) the procedures to be used under section 1019(a) for evaluation of the program's effectiveness in achieving the goals; and

(3) the procedures to be used for identifying and modifying the program for schools and students under section 1021.

SEC. 1013. ELIGIBLE SCHOOLS.

(a) GENERAL PROVISIONS.—(1) Subject to subsection (b), a local educational agency shall use funds received under this chapter in school attendance areas having high concentrations of children from low-income families (hereinafter referred to as "eligible school attendance areas"), and where funds under this chapter are insufficient to provide programs and projects for all educationally deprived children in eligible school attendance areas, a local educational agency shall annually rank its eligible school attendance areas from highest
to lowest, according to relative degree of concentration of children from low-income families. A local educational agency may carry out a program or project assisted under this chapter in an eligible school attendance area only if it also carries out such program or project in all other eligible school attendance areas which are ranked higher under the first sentence.

(2) The same measure of low income, which shall be chosen by the local educational agency on the basis of the best available data and which may be a composite of several indicators, shall be used with respect to all such areas, both to identify the areas having high concentrations of children from low-income families and to determine the ranking of each area.

(3) The requirements of this subsection shall not apply in the case of a local educational agency with a total enrollment of less than one thousand children, but this paragraph does not relieve such an agency from the responsibility to serve eligible children according to the provisions of section 1014.

(b) LOCAL EDUCATIONAL AGENCY DISCRETION.—Notwithstanding subsection (a)(1) of this section, a local educational agency shall have discretion to identify and rank eligible attendance areas as follows:

(1) A local educational agency may designate as eligible and serve any of its attendance areas if the
percentage of children from low income families in each attendance area of the agency is within 5 percentage points of the average percentage of such children for the entire local educational agency.

(2) A local educational agency may designate any school attendance area in which at least 25 percent of the children are from low-income families as an eligible school attendance area if the aggregate amount expended under this chapter and under a State program meeting the requirements of section 1018(d)(1)(B) in that fiscal year in each school attendance area of that agency in which projects assisted under this chapter were carried out in the preceding fiscal year equals or exceeds the amount expended from those sources in that area in such preceding fiscal year.

(3) A local educational agency may, with the approval of the State educational agency, designate as eligible and serve school attendance areas with substantially higher numbers or percentages of educationally deprived children before school attendance areas with higher concentrations of children from low-income families, but this paragraph shall not permit the provision of services to more school attendance areas than could otherwise be served. A State educational agency shall approve such a proposal only if the State educational
agency finds that the proposal will not substantially impair the delivery of compensatory education services to educationally derived children from low-income families in project areas served by the local educational agency.

(4) Funds received under this chapter may be used for educationally deprived children who are in a school which is not located in an eligible school attendance area when the proportion of children from low-income families in average daily attendance in such school is substantially equal to the proportion of such children in an eligible school attendance area of such agency.

(5) If an eligible school attendance area or eligible school was so designated in accordance with subsection (a) in the immediately preceding fiscal year, it may continue to be so designated for the subsequent fiscal year even though it does not qualify in such additional year.

(6) With the approval of the State educational agency, eligible school attendance areas or eligible schools which have higher proportions or numbers of children from low-income families may be skipped if they are receiving, from non-Federal funds, services of the same nature and scope as would otherwise be pro-
vided under this chapter, except that (A) the number of children attending private elementary and secondary schools who receive services under this chapter shall be determined without regard to non-Federal compensatory education funds which serve eligible children in public elementary and secondary schools, and (B) children attending private elementary and secondary schools who receive assistance under this chapter shall be identified in accordance with this section and without regard to skipping public school attendance areas or schools under this paragraph.

(c) ALLOCATIONS.—(1) Except as provided in paragraph (2), a local educational agency shall allocate funds under this chapter among project areas or schools on the basis of the number and needs of children to be served as determined in accordance with section 1014.

(2) Children in eligible schools, who receive services under this chapter and subsequently become ineligible due to academic achievement attributable to such services, may continue to be considered eligible for 2 additional years only for the purpose of determining the allocation of funds among eligible schools under paragraph (1). Any funds so allocated shall be used to provide services to any children determined to be eligible under section 1014.
SEC. 1014. ELIGIBLE CHILDREN.

(a) GENERAL PROVISIONS.—(1) Except as provided in subsections (c), (d), and (e) of this section and section 1015, a local educational agency shall use funds received under this chapter for educationally deprived children, identified in accordance with subsection (b) as having the greatest need for special assistance, in school attendance areas or schools satisfying the requirements of section 1013.

(2) The eligible population for services under this part are—

(A) those children up to age 21 who are entitled to a free public education through grade 12, and

(B) those children who are not yet at a grade level where the local educational agency provides a free public education, yet are of an age at which they can benefit from an organized instructional program provided in a school or other educational setting.

(b) ASSESSMENT OF EDUCATIONAL NEED.—A local educational agency may receive funds under this chapter only if it makes an assessment of educational needs each year to (1) identify educationally deprived children in all eligible attendance areas; (2) identify the general instructional areas on which the program will focus; (3) select those educationally deprived children who have the greatest need for special assistance, as identified on the basis of educationally related objective criteria established by the local educational agency,
which include written or oral testing instruments, that are uniformly applied to particular grade levels throughout the local educational agency; and (4) determine the special educational needs (and library resource needs) of participating children with specificity sufficient to ensure concentration on such needs.

(c) LOCAL EDUCATIONAL AGENCY DISCRETION.—(1) Educationally deprived children who begin participation in a program or project assisted under this chapter, in accordance with subsections (a) and (b) but who, in the same school year, are transferred to a school attendance area or school not receiving funds under this chapter, may, if the local agency so determines, continue to participate in a program or project funded under this chapter for the duration of that same school year.

(2) In providing services under this chapter a local educational agency may skip educationally deprived children in greatest need of assistance who are receiving, from non-Federal sources, services of the same nature and scope as would otherwise be provided under this chapter.

(3) A child who, in the previous year was identified as being in greatest need of assistance, and who continues to be educationally deprived, but who is no longer identified as being in greatest need of assistance, may participate in a
program or project assisted under this chapter for 2 additional years.

(d) **SPECIAL RULES.**—(1) Children receiving services to overcome a handicapping condition or limited English proficiency shall also be eligible to receive services under this chapter, if they have needs stemming from educational deprivation and not related solely to the handicapping condition or limited English proficiency. Such children shall be selected on the same basis as other children identified as eligible for and selected to receive services under this chapter. Funds under this chapter may not be used to provide services that are otherwise required by law to be made available to such children.

(2) A student who in the previous 2 years was receiving services under subpart 3 of part C of this chapter or under subpart 3 of part B of title I of the Elementary and Secondary Education Act (as amended by chapter 1 of the Education Consolidation and Improvement Act of 1981) shall be considered eligible for services under this part, and may be served subject to the provisions of subsections (a) and (b).

**SEC. 1015. SCHOOLWIDE PROJECTS.**

(a) **USE OF FUNDS FOR SCHOOLWIDE PROJECTS.**— In the case of—

(1) any school serving an attendance area that is eligible to receive services under this chapter and in
which, for the first year of projects assisted under this section, not less than 75 percent of the children are from low-income families, or
(2) any eligible school in which not less than 75 percent of the children enrolled in the school are from low-income families,
the local educational agency may carry out a project under this chapter to upgrade the entire educational program in that school if the requirements of subsections (b), (c), and (d) are met.

(b) Designation of Schools.—A school may be designated for a schoolwide project under subsection (a) if—(1) a plan has been developed for that school by the local educational agency and has been approved by the State educational agency which—
(A) provides for a comprehensive assessment of educational needs of all students in the school, in particular the special needs of educationally deprived children;
(B) establishes goals to meet the special needs of all students and to ensure that educationally deprived children are served effectively and demonstrate performance gains comparable to other students;
(C) describes the instructional program, pupil services, and procedures to be used to implement the goals; and

(D) describes the specific uses of funds for compensatory educational services under this chapter as part of that program;

(2) the plan has been developed with the involvement of individuals who will be engaged in carrying out the plan, including parents, teachers, librarians, education aides, pupil services personnel, and administrators (and secondary students if the plan relates to a secondary school);

(3) the plan provides for consultation among such individuals under paragraph (2) as to the educational progress of all students and the participation of such individuals in the development and implementation of the accountability measures required by subsection (e);

(4) appropriate training is provided to parents of children to be served, teachers, librarians, and other instructional, administrative, and pupil services personnel to enable them effectively to carry out the plan;

(5) the plan includes procedures for measuring progress, as required by subsection (e), and describes the particular measures to be used; and
(6)(A) in the case of a school district in which there are one or more schools described in subsection (a) and there are also one or more other schools serving project areas, the local educational agency makes the Federal funds provided under this part available for children in such schools described in subsection (a) in amounts which per educationally deprived child served, equal or exceed the amount of such funds made available per educationally deprived child served in such other schools; and

(B) the average per pupil expenditure in schools described in subsection (a) (excluding amounts expended under a State compensatory education program) for the fiscal year in which the plan is to be carried out will not be less than such expenditure in such schools in the previous fiscal year, except that the cost of services for programs described in section 1018(d)(2)(A) shall be included for each fiscal year as appropriate only in proportion to the number of children in the building served in such programs in the year for which this determination is made.

(c) APPROVAL OF PLAN; OPERATION OF PROJECT.—

(1) The State educational agency shall approve the plan of any local educational agency for a schoolwide project if that plan meets the requirements of subsection (b).
(2) For any school which has such a plan approved, the local educational agency—

(A) shall, in order to carry out the plan, be relieved of any requirements under this chapter with respect to the commingling of Federal funds provided under this chapter with funds available for regular programs;

(B) shall use funds received under this chapter only to supplement, and to the extent practicable, increase the level of funds that would in the absence of such Federal funds, be made available from non-Federal sources for the school approved for a school-wide project under paragraph (1); and

(C) shall comply with the provisions of section 1018(d).

(d) USE OF FUNDS.—In addition to uses under section 1011, funds may be used in schoolwide projects for other activities to improve the instructional program and pupil services in the school, such as reducing class size, training staff and parents of children to be served, and implementing extended schoolday programs.

(e) ACCOUNTABILITY.—(1) The state educational agency may grant authority for a local educational agency to operate a schoolwide project for a period of 3 years. If a school meets the accountability requirements in paragraphs
(2) and (3) at the end of such period, as determined by the State educational agency, that school will be allowed to continue the schoolwide project for an additional 3-year period.

(2)(A) Except as provided in subparagraph (B), after 3 years, a school must be able to demonstrate (i) that the achievement level of eligible children, as measured according to the means specified in the plan required by subsection (b), exceeds the average achievement of participating children districtwide, or (ii) that the achievement of eligible children in that school exceeds the average achievement of such children in that school in the 3 fiscal years prior to initiation of the schoolwide project.

(B) For a secondary school, demonstration of lower dropout rates, increased retention rates, or increased graduation rates is acceptable in lieu of increased achievement, if achievement levels do not decline.

(3) Schools shall annually collect achievement and other assessment data for the purposes of paragraph (2). The results of achievement and other assessments shall be made available annually to parents, the public, and the State educational agency.

SEC. 1016. PARENTAL INVOLVEMENT.

(a) FINDINGS; GENERAL REQUIREMENT.—(1) Congress finds that activities by schools to increase parental involvement are a vital part of programs under this chapter.
(a) Toward that end, a local educational agency may receive funds under this chapter only if it implements programs, activities, and procedures for the involvement of parents in programs assisted under this chapter. Such activities and procedures shall be planned and implemented with meaningful consultation with parents of participating children and must be of sufficient size, scope, and quality to give reasonable promise of substantial progress toward achieving the goals under subsection (b).

(3) For purposes of this section, parental involvement includes, but is not limited to, parental input into the design and implementation of programs under this chapter, volunteer or paid participation by parents in school activities, and programs, training, and materials which build parents' capacity to improve their children's learning in the home and in school.

(b) Goals of Parent Involvement.—In carrying out the requirements of subsection (a), a local educational agency shall, in coordination with parents of participating children, develop programs, activities, and procedures which have the following goals—

(1) to inform parents of participating children of the program under this chapter, the reasons for their children's participation in such programs, and the spe-
specific instructional objectives and methods of the program;

(2) to support the efforts of parents, including training parents, to the maximum extent practicable, to work with their children in the home to attain the instructional objectives of programs under this chapter and to understand the program requirements of this chapter and to train parents and teachers to build a partnership between home and school;

(3) to train teachers and other staff involved in programs under this chapter to work effectively with the parents of participating students;

(4) to consult with parents, on an ongoing basis, concerning the manner in which the school and parents can better work together to achieve the program's objectives and to give parents a feeling of partnership in the education of their children;

(5) to provide a comprehensive range of opportunities for parents to become informed, in a timely way, about how the program will be designed, operated, and evaluated, allowing opportunities for parental participation, so that parents and educators can work together to achieve the program's objectives; and
(6) to ensure opportunities, to the extent practicable, for the full participation of parents who lack literacy skills or whose native language is not English.

(c) MECHANISMS FOR PARENTAL INVOLVEMENT.—

(1) Each local educational agency, after consultation with and review by parents, shall develop written policies to ensure that parents are involved in the planning, design, and implementation of programs and shall provide such reasonable support for parental involvement activities as parents may request. Such policies shall be made available to parents of participating children.

(2) Each local educational agency shall convene an annual meeting to which all parents of participating children shall be invited, to explain to parents the programs and activities provided with funds under this chapter. Such meetings may be districtwide or at the building level, as long as all such parents are given an opportunity to participate.

(3) Each local educational agency shall provide parents of participating children with reports on the children's progress, and to the extent practical hold a parent-teacher conference with parents of each child served in the program, to discuss that child's progress, placement, and methods by which parents can complement the child's instruction. Educational personnel under this chapter shall be readily accessi-
ble to parents and shall permit parents to observe activities under this chapter.

(4) Local educational agencies shall (A) provide opportunities for regular meetings of parents to formulate parental input into the program, if parents of participating children so desire; (B) provide parents of participating children with timely information about the program; and (C) make parents aware of parental involvement requirements and other relevant provisions of programs under this chapter.

(5) Parent programs, activities, and procedures may include regular parent conferences; parent resource centers; parent training programs and reasonable and necessary expenditures associated with the attendance of parents at training sessions; hiring, training, and utilization of parental involvement liaison workers; reporting to parents on the children's progress; training and support of personnel to work with parents, to coordinate parent activities, and to make contact in the home; use of parents as classroom volunteers, tutors, and aides; provision of school-to-home complementary curriculum and materials and assistance in implementing home-based education activities that reinforce classroom instruction and student motivation; provision of timely information on programs under this chapter (such as program plans and evaluations); soliciting parents' suggestions in the planning, development, and operation of the program; provid-
ing timely responses to parent recommendations; parent advisory councils; and other activities designed to enlist the support and participation of parents to aid in the instruction of their children.

(6) Parents of participating children are expected to cooperate with the local educational agency by becoming knowledgeable of the program goals and activities and by working to reinforce their children’s training at home.

(d) COORDINATION WITH ADULT EDUCATION ACT.—Programs of parental involvement shall coordinate, to the extent possible, with programs funded under the Adult Education Act.

(e) ACCESSIBILITY REQUIREMENT.—Information, programs, and activities for parents pursuant to this section shall be provided in a language and form which the parents understand.

SEC. 1017. PARTICIPATION OF CHILDREN ENROLLED IN PRIVATE SCHOOLS.

(a) GENERAL REQUIREMENTS.—To the extent consistent with the number of educationally deprived children in the school district of the local educational agency who are enrolled in private elementary and secondary schools, such agency shall, after timely and meaningful consultation with appropriate private school officials, make provisions for including special educational services and arrangements (such
as dual enrollment, educational radio and television, other technology, and mobile educational services and equipment) in which such children can participate and which meet the requirements of sections 1011, 1012(b)(1), 1013, 1014, and 1018(b). Expenditures for educational services and arrangements pursuant to this section for educationally deprived children in private schools shall be equal (taking into account the number of children to be served and the special educational needs of such children) to expenditures for children enrolled in the public schools of the local educational agency.

(b) Bypass Provision.—(1) If a local educational agency is prohibited by law from providing for the participation in special programs for educationally deprived children enrolled in private elementary and secondary schools as required by subsection (a), the Secretary shall waive such requirements, and shall arrange for the provision of services to such children through arrangements which shall be subject to the requirements of subsection (a).

(2) If the Secretary determines that a local educational agency has substantially failed to provide for the participation on an equitable basis of educationally deprived children enrolled in private elementary and secondary schools as required by subsection (a), the Secretary shall arrange for the provision of services to such children through arrangements which shall be subject to the requirements of subsection (a),
upon which determination the provisions of subsection (a) shall be waived.

(3)(A) The Secretary shall develop and implement written procedures for receiving, investigating, and resolving complaints from parents, teachers, or other concerned organizations or individuals concerning violations of this section. The Secretary shall investigate and resolve each such complaint within 120 days after receipt of the complaint.

(B) When the Secretary arranges for services pursuant to this subsection, the Secretary shall, after consultation with the appropriate public and private school officials, pay to the provider the cost of such services, including the administrative cost of arranging for such services, from the appropriate allocation or allocations under this chapter.

(C) Pending final resolution of any investigation or complaint that could result in a determination under this subsection, the Secretary may withhold from the allocation of the affected State or local educational agency the amount the Secretary estimates would be necessary to pay the cost of such services.

(D) Any determination by the Secretary under this section shall continue in effect until the Secretary determines that there will no longer be any failure or inability on the part of the local educational agency to meet the requirements of subsection (a).
(4)(A) The Secretary shall not take any final action under this subsection until the State educational agency and local educational agency affected by such action have had an opportunity, for at least 45 days after receiving written notice thereof, to submit written objections and to appear before the Secretary or a designee to show cause why such action should not be taken.

(B) If a State or local educational agency is dissatisfied with the Secretary's final action after a proceeding under subparagraph (A) of this paragraph, it may within 60 days after notice of such action, file with the United States court of appeals for the circuit in which such State is located a petition for review of that action. A copy of the petition shall be forthwith transmitted by the clerk of the court to the Secretary. The Secretary thereupon shall file in the court the record of the proceedings on which he based his action, as provided in section 2112 of title 28, United States Code.

(C) The findings of fact by the Secretary, if supported by substantial evidence, shall be conclusive; but the court, for good cause shown, may remand the case to the Secretary to take further evidence, and the Secretary may thereupon make new or modified findings of fact and may modify his previous action, and shall file in the court the record of the further proceedings. Such new or modified findings of fact shall likewise be conclusive if supported by substantial evidence.
(D) Upon the filing of a petition under subparagraph (B), the court shall have jurisdiction to affirm the action of the Secretary or to set it aside, in whole or in part. The judgment of the court shall be subject to review by the Supreme Court of the United States upon certiorari or certification as provided in section 1254 of title 28, United States Code.

(c) PRIOR DETERMINATION.—Any bypass determination by the Secretary under title I of the Elementary and Secondary Education Act of 1965 or chapter 1 of the Education Consolidation and Improvement Act shall remain in effect to the extent consistent with the purposes of this chapter.

(d) CAPITAL EXPENSES.—(1) A local educational agency may apply to the State educational agency for payments for capital expenses consistent with the provisions of this subsection. State educational agencies shall distribute funds to local educational agencies based on the degree of need as set forth in the application. Such an application shall contain information on such capital expenses by fiscal year and shall contain an assurance that any funds received pursuant to this subsection shall be used solely for purposes of the program authorized by this chapter.

(2)(A) From the amount appropriated for the purposes of this subsection for any fiscal year, the amount which each
1 State shall be eligible to receive shall be an amount which
2 bears the same ratio to the amount appropriated as the
3 number of children enrolled in private schools who were
4 served under chapter 1 of the Education Consolidation and
5 Improvement Act of 1981 in the State during the period July
6 1, 1984 through June 30, 1985, bears to the total number of
7 such children served during such period in all States.
8 (B) Amounts which are not used by a State for the pur-
9 poses of this subsection shall be reallocated by the Secretary
10 among other States on the basis of need.
11 (3) There is authorized to be appropriated $50,000,000
12 for fiscal year 1989, and such sums as may be necessary for
14 sums appropriated under this provision shall be used for in-
15 creases in capital expenses paid from funds under chapter 1
16 of the Education Consolidation and Improvement Act or this
17 section subsequent to July 1, 1985, of local educational agen-
18 cies in providing the instructional services required under
19 section 557 of the Education Consolidation and Improve-
20 ment Act and this section, when without such funds, services
21 to private schoolchildren would have been or have been re-
22 duced or would be reduced or adversely affected.
23 (4) For the purposes of this subsection, the term “capital
24 expenses” is limited to expenditures for noninstructional
25 goods and services such as the purchase, lease and renovation
of real and personal property, insurance, and maintenance
costs, transportation, and other comparable goods and serv-
ices.

SEC. 1018. FISCAL REQUIREMENTS.

(a) MAINTENANCE OF EFFORT.—(1) Except as provid-
ed in paragraph (2), a local educational agency may receive
funds under this chapter for any fiscal year only if the State
educational agency finds that either the combined fiscal effort
per student or the aggregate expenditures of that agency and
the State with respect to the provision of free public education
by that agency for the preceding fiscal year was not less than
90 percent of such combined fiscal effort or aggregate expend-
itutes for the second preceding fiscal year.

(2) The State educational agency shall reduce the
amount of the allocation of funds under this chapter in any
fiscal year in the exact proportion to which a local education-
al agency fails to meet the requirement of paragraph (1) by
falling below 90 percent of both the combined fiscal effort per
student and aggregate expenditures (using the measure most
favorable to such local agency), and no such lesser amount
shall be used for computing the effort required under para-
graph (1) for subsequent years.

(3) The State educational agency may waive, for one
fiscal year only, the requirements of this subsection if the
State educational agency determines that such a waiver
would be equitable due to exceptional or uncontrollable circumstances such as a natural disaster or a precipitous and unforeseen decline in the financial resources of the local educational agency.

(b) Federal Funds To Supplement, Not Supplant Regular Non-Federal Funds.—A State educational agency or other State agency in operating its State level programs or a local educational agency may use funds received under this chapter only so as to supplement and, to the extent practicable, increase the level of funds that would, in the absence of such Federal funds, be made available from regular non-Federal sources for the education of pupils participating in programs and projects assisted under this chapter and in no case may such funds be so used as to supplant such funds from such non-Federal sources. In order to demonstrate compliance with this subsection, no State educational agency, other State agency, or local educational agency shall be required to provide services under this chapter through use of a particular instructional method or in a particular instructional setting.

(c) Federal Funds To Supplement, Not Supplant, Non-Federal Funds for Certain Special State and Local Programs.—(1) A local educational agency may use funds received under this chapter only so as to supplement and, to the extent practical, increase the level
of funds that would, in the absence of such Federal funds, be made available from non-Federal sources for each of the special programs described in subsection (e) for the education of educationally deprived children, in the aggregate, in eligible school attendance areas or attending eligible schools and in no case, as to supplant such funds from non-Federal sources.

(2) It shall not be considered a violation of this subsection for a local educational agency, in carrying out a special program described in subsection (e), to take into consideration funds made available under this chapter, and to coordinate such special program with programs using this chapter, and to coordinate such special programs with programs using such Federal funds, if educationally deprived children, in the aggregate, in eligible school attendance areas or attending eligible schools, receive at least the same level of such special State and local funds that would have been made available to such children in the absence of funds under this chapter.

(3) For the purpose of this subsection, the level of funds that, in the absence of funds under this chapter would have been made available to such children shall be determined by reference to a plan for distributing such special funds. Such plan shall be based on objective criteria of need that do not discriminate against educationally deprived children, in the aggregate, in eligible school attendance areas or attending eligible schools. The objective criteria chosen by the local educa-
tional agency shall prescribe, with particularity, the children
as well as the schools, grade-spans, or school attendance areas
eligible for assistance and the method for selecting the par-
ticular children who will receive assistance under such spe-
cial State or local program and the schools or grade-spans
which such children attend or the school attendance areas in
which such children reside. The criteria for selecting chil-
dren, schools, grade-spans, and school attendance areas for
participation shall be either educational need, a reasonable
proxy for educational need, level of poverty, or a combination
of such factors. Educationally deprived children residing in
eligible school attendance areas or attending eligible schools,
satisfying such objective criteria, must receive assistance
under either this chapter or under such special State or local
program before any child who does not satisfy such criteria
receives such assistance.

(4) The provisions of this subsection shall not apply
until 2 years after the date of enactment of this Act in any
State in which State law contains provisions permitting local
educational agencies to supplant State compensatory educa-
tion funds which, in the absence of the funds under this chap-
ter, would have been made available to educationally de-
prived children, in the aggregate, in eligible school attendance
areas or attending eligible schools.

The amounts appropriated for each such subpart shall be allotted among Guam, American Samoa, the Virgin Islands, the Northern Mariana Islands, and the Trust Territory of the Pacific Islands according to their respective need for such grants, based on such criteria
as the Secretary determines will best carry out the purposes of this chapter.

SEC. 1292. DUAL ELIGIBILITY FOR PROGRAMS.

Neglected and delinquent children under subpart 3 who are eligible for programs for handicapped children under subpart 2, may be counted under each subpart for purposes of grant determination and may be served under each such program.

PART D—PAYMENTS

SEC. 1401. PAYMENT METHODS.

The Secretary shall, from time to time pay to each State, in advance or otherwise, the amount which it and the local educational agencies of that State are eligible to receive under this chapter. Such payments shall take into account the extent (if any) to which any previous payment to such State educational agency under this chapter (whether or not in the same fiscal year) was greater or less than the amount which should have been paid to it.

SEC. 1402. AMOUNT OF PAYMENTS TO LOCAL EDUCATIONAL AGENCIES.

From the funds paid to it pursuant to section 1401 each State educational agency shall distribute to each local educational agency of the State which is eligible to receive a grant under this chapter and which has submitted an application approved pursuant to section 1012 the amount for which such
application has been approved, and the amount which the local educational agency is eligible to receive under section 1102 except that the amount shall not exceed the amount determined for that local educational agency under this chapter.

SEC. 1403. ADJUSTMENTS WHERE NECESSITATED BY APPROPRIATIONS.

(a) ADJUSTMENT ALLOCATION.—If the sums appropriated for any fiscal year for making the payments provided in this chapter are not sufficient to pay in full the total amounts which all local and State educational agencies are entitled to receive under this chapter for such year, the amount available for each grant to a State agency eligible for a grant under subpart 1, 2, or 3 of part C shall be equal to the total amount of the grant as computed under each such subpart. If the remainder of such sums available after the application of the preceding sentence is not sufficient to pay in full the total amounts which all local educational agencies are entitled to receive under subpart 1 of part A of this chapter for such year, the allocations to such agencies shall, subject to section 1006(c) and to adjustments under the next sentence, be ratably reduced to the extent necessary to bring the aggregate of such allocations within the limits of the amount so appropriated. The allocation of a local educational agency which would be reduced under the preceding sentence to less than 85
percent of its allocation under subpart 1 of the part A for the preceding fiscal year, shall be increased to such amount, the total of the increases thereby required being derived by proportionately reducing the allocations of the remaining local educational agencies, under the preceding sentence, but with such adjustments as may be necessary to prevent the allocation to any remaining local educational agency from being thereby reduced to less than 85 percent of its allocation for such year.

(b) ADDITIONAL FUNDS ALLOCATION.—(1) In case additional funds become available for making payments under this chapter for that year, allocations that were reduced pursuant to subsection (a) shall be increased on the same basis that they were reduced.

(2) In order to permit the most effective use of all appropriations made to carry out this chapter, the Secretary may set dates in which (A) State educational agencies must certify to the Secretary the amounts for which the applications of educational agencies have been or will be approved by the State and (B) State educational agencies referred to in subpart 1 of part C must file applications. If the maximum grant a local educational agency would receive (after any ratable reduction which may have been required under the first sentence of subsection (a) of this section) is more than an amount which the State educational agency determines, in
accordance with regulations prescribed by the Secretary, such agency will use, the excess amount shall be made available first to educational agencies in that State. Determinations of the educational agencies to which such excess amounts shall be made available by the State educational agency in furtherance of the purposes of this chapter shall be in accordance with criteria prescribed by the Secretary which are designed to assure that such excess amounts will be made available to other eligible educational agencies with the greatest need, for the purpose of, where appropriate, redressing inequities inherent in, or mitigating hardships caused by, the application of the provisions of section 1005(a) as a result of such factors as population shifts and changing economic circumstances. In the event excess amounts remain after carrying out the preceding two sentences of this section, such excess amounts shall be distributed among the other States as the Secretary shall prescribe for use by local educational agencies in such States for the purposes of this chapter in such manner as the respective State educational agencies shall prescribe.

SEC. 1404. PAYMENTS FOR STATE ADMINISTRATION.

American Samoa, the Virgin Islands, the Northern 
Mariana Islands, or the Trust Territory of the Pacific 
Islands, in the first or second such year, and 

(B) $325,000 or $50,000 in the case of Guam, 
American Samoa, the Virgin Islands, the Northern 
Mariana Islands, or the Trust Territory of the Pacific

allocation of funds under this chapter for any fiscal year if the Secretary finds that either the combined fiscal effort per student or the aggregate expenditures within the State with respect to the provision of free public education for the preceding fiscal year was not less than 90 per centum of such combined fiscal effort or aggregate expenditures for the second preceding fiscal year.

(2) The Secretary shall reduce the amount of the allocation of funds under this chapter in any fiscal year in the exact proportion to which the State fails to meet the requirements of paragraph (1) by falling below 90 per centum of both the fiscal effort per student and aggregate expenditures (using the measure most favorable to the State), and no such lesser amount shall be used for computing the effort required under paragraph (1) for subsequent years.

(3) The Secretary may waive, for one fiscal year only, the requirements of this subsection if he determines that such a waiver would be equitable due to exceptional or uncontrollable circumstances such as a natural disaster or a precipitous and unforeseen decline in the financial resources of the State.

(b) Federal Funds Supplementary.—A State or local educational agency may use and allocate funds received under this chapter only so as to supplement and, to the extent practical, increase the level of funds that would, in the ab-
sense of Federal funds made available under this chapter, be made available from non-Federal sources, and in no case may such funds be used so as to supplant funds from non-Federal sources.

(a) Participation on Equitable Basis.—(1) To the extent consistent with the number of children in the school district of a local educational agency which is eligible to receive funds under this chapter or which serves the area in which a program or project assisted under this chapter is located who are enrolled in private nonprofit elementary and secondary schools, or with respect to instructional or personnel training programs funded by the State educational agency from funds reserved for State use, such agency shall provide the benefit of such children in such schools secular, neutral, and nonideological services, materials, and equipment including the participation of the teachers of such children (and other educational personnel serving such children) in training programs, and the repair, minor remodeling, or construction of public facilities as may be necessary for their provision (consistent with subsection (c) of this section), or, if such services, materials, and equipment are not feasible or necessary in one or more such private schools as
determined by the local educational agency after consultation with the appropriate private school officials, shall provide such other arrangements as will assure equitable participation of such children in the purposes and benefits of this chapter.

(2) If no program or project is carried out under subsection (a)(1) of this section in the school district of a local educational agency, the State educational agency shall make arrangements, such as through contracts with nonprofit agencies or organizations, under which children in private schools in that district are provided with services and materials to the extent that would have occurred if the local educational agency had received funds under this chapter.

(3) The requirements of this section relating to the participation of children, teachers, and other personnel serving such children shall apply to programs and projects carried out under this chapter by a State or local educational agency, whether directly or through grants to or contracts with other public or private agencies, institutions, or organizations.

(b) Equal Expenditures.—Expenditures for programs pursuant to subsection (a) shall be equal (consistent with the number of children to be served) to expenditures for programs under this chapter for children enrolled in the public schools of the local educational agency, taking into account the needs of the individual children and other factors.
which relate to such expenditures, and when funds available to a local educational agency under this chapter are used to concentrate programs or projects on a particular group, attendance area, or grade or age level, children enrolled in private schools who are included within the group, attendance area, or grade or age level selected for such concentration shall, after consultation with the appropriate private school officials, be assured equitable participation in the purposes and benefits of such programs or projects.

(2) The provision of services pursuant to this section shall be provided by employees of a public agency or through contract by such public agency with a person, an association, agency, or corporation who or which, in the provision of such services, is independent of such private school and of any religious organizations, and such employment or contract shall be under the control and supervision of such public agency, and the funds provided under this chapter shall not be commingled with State or local funds.
(d) STATE PROHIBITION WAIVER.—If by reason of any provision of law a State or local educational agency is prohibited from providing for the participation in programs of children enrolled in private elementary and secondary schools, as required by this section, the Secretary shall waive such requirements and shall arrange for the provision of services to such children through arrangements which shall be subject to the requirements of this section.

(e) WAIVER AND PROVISION OF SERVICES.—(1) If the Secretary determines that a State or a local educational agency has substantially failed or is unwilling to provide for the participation on an equitable basis of children enrolled in private elementary and secondary schools as required by this section, the Secretary may waive such requirements and shall arrange for the provision of services to such children through arrangements which shall be subject to the requirements of this section.

(2) If a State or local educational agency is dissatisfied with the Secretary's final action after a proceeding under paragraph (1) of this subsection, it may within 60 days after notice of such action, file with the United States court of appeals for the circuit in which such State is located a petition for review of that action. A copy of the petition shall be forthwith transmitted by the clerk of the court to the Secretary. The Secretary thereupon shall file in the court the
record of the proceedings on which he based this action, as provided in section 2112 of title 28, United States Code.

(3) The findings of fact by the Secretary, if supported by substantial evidence, shall be conclusive; but the court, for good cause shown, may remand the case to the Secretary to take further evidence and the Secretary may thereupon make new or modified findings of fact and may modify the Secretary's previous action, and shall file in the court the record of the further proceedings. Such new or modified findings of fact shall likewise be conclusive if supported by substantial evidence.

(4) Upon the filing of such petition, the court shall have jurisdiction to affirm the action of the Secretary or to set it aside, in whole or in part. The judgment of the court shall be subject to review by the Supreme Court of the United States upon certiorari or certification as provided in section 1254 of title 28, United States Code.

This part may be referred to as the “Jacob K. Javits Gifted and Talented Students Education Act of 1987”.

SEC. 2152. FINDINGS AND PURPOSES.

(a) FINDINGS.—The Congress finds and declares that—

(1) gifted and talented students are a national resource vital to the future of the Nation and its security and well-being;

(2) unless the special abilities of gifted and talented students are recognized and developed during their elementary and secondary school years, much of their special potential for contributing to the national interest is likely to be lost;

(3) gifted and talented students from economically disadvantaged families and areas, and students of limited English proficiency are at greatest risk of being unrecognized and of not being provided adequate or appropriate educational services;
(4) State and local educational agencies and private nonprofit schools often lack the necessary specialized resources to plan and implement effective programs for the early identification of gifted and talented students for the provision of educational services and programs appropriate to their special needs; and

(5) the Federal Government can best carry out the limited but essential role of stimulating research and development and personnel training, and providing a national focal point of information and technical assistance, that is necessary to ensure that our Nation's schools are able to meet the special educational needs of gifted and talented students, and thereby serve a profound national interest.

(b) STATEMENT OF PURPOSE.—It is the purpose of this part to provide financial assistance to State and local educational agencies, institutions of higher education, and other public and private agencies and organizations, to initiate a coordinated program of research, demonstration projects, personnel training, and similar activities designed to build a nationwide capability in elementary and secondary schools to identify and meet the special educational needs of gifted and talented students. It is also the purpose of this part to supplement and make more effective the expenditure of State and local funds, and of Federal funds made available

(3) The term "Hawaiian native" means any individual any of whose ancestors were natives prior to 1778 in the area which now comprises the State of Hawaii.

PART F—FAMILY-SCHOOL PARTNERSHIP
SEC. 2252. FINDINGS AND PURPOSE.

(2) demographics of the American family are changing to the degree that significant numbers of children attending school come from families with single parents, families in which both parents are employed outside the home, or where the primary caregiver is not the biological parent;

(3) the demographics mean that current approaches to developing and maintaining partnerships with educators in compensatory education programs require review and modification to make them more responsive to the needs of both families and schools; and

(4) effective approaches to more fully involving families as partners in their children's education should be encouraged as a matter of Federal policy.

(b) PURPOSE.—The purpose of this part is to encourage eligible local educational agencies to increase the involvement of families in the improvement of the educational achievement of their children in the preschool, elementary, and secondary schools of such agency.

(5) development and purchase by a local educational agency of educational materials where such materials are commercially unavailable to reinforce school learning at home and assistance in implementing other home-based education activities that reinforce and
extend classroom instruction and student motivation;
and
(6) securing technical assistance, including training, to design and carry out family involvement programs.

SEC. 2255. APPLICATION.

"(2)(A) The Secretary shall reserve 4 per centum of such amount to carry out section 211, relating to discretionary grants of national significance.

Nothing in the preceding sentence shall diminish the responsibility of local educational agencies to contact, on an annual basis, appropriate officials from private nonprofit schools within their school districts in order to determine whether such schools desire that their children and teachers participate in programs or projects assisted under this title.
“(B) The State educational agency shall distribute 50 per centum of the funds available under this subsection based on the relative number of children aged 5 to 17 who are from families below the poverty level as determined under section 1005(c)(2)(A) of this Act in the public schools of the local educational agencies within the State.

“(3) The State educational agency shall renew payments to local educational agencies under this subsection based upon the criteria set forth in paragraph (2) of this subsection and a determination by the State educational agency that the local educational agency is implementing the program assisted under this title so that a substantial number of teachers in the public and private schools in the school district of such agency are served and several grade levels of instruction in such schools are involved in the program.

In providing financial assistance for such demonstration and exemplary programs, the State educational agency shall give special consideration to special projects in mathematics, science, and computer education to historically underrepresented and underserved populations of students, including females, minorities, handicapped individuals, individuals with limited-English proficiency, and migrant students, and to programs for gifted and talented students. The programs for gifted and talented students may include assistance to magnet schools for such students.

“(d) Not more than 5 per centum of the amount available under this section may be used by the State educational agency—

Each institution of higher education receiving a grant under this subsection shall assure that programs of training, retraining, and inservice training will take into account the need for greater access to and participation in mathematics, science, and computer learning and careers of students from historically underrepresented and underserved groups, including females, minorities, individuals with limited-English proficiency, the handicapped, migrants, and the gifted and talented, and will insure cooperative agreements or cooperative arrangements with local educational agencies.

“(3) No institution of higher education may receive assistance under paragraphs (2) (B) and (C) of this subsection unless the institution enters into an agreement with a local
educational agency, or consortium of such agencies, to pro-

secondary school teachers in the public and private schools of
the school district of each such agency.

siring to receive a grant under this port shall submit an ap-
plication therefor to the Secretary at such time, in such form,
and containing such information and assurances as the Sec-
retary may require. No application may be approved by the
Secretary unless the application—

(1) contains a description of model programs
which—

(A) are designed by local educational agen-
cies, are available without regard to whether
students attend the schools operated by such
agency,

(B) represents a variety of alternative and
innovative approaches to foreign language instruc-

State educational agency;

(3) provides assurances that the State will pay the non-Federal share of the activities for which assistance is sought from non-Federal sources; and

(4) provides that the local educational agency will provide standard evaluations of the proficiency of participants at appropriate intervals in the program which are reliable and valid, and provide such evaluations to the State educational agency.

(c) FEDERAL SHARE.—(1) The Federal share for each fiscal year shall be 50 percent.

(2) The Secretary may waive the requirement of paragraph (1) for any local educational agency which the Secretary determines does not have adequate resources to pay the non-Federal share of the cost of the project.

(d) PARTICIPATION OF PRIVATE SCHOOLS.—(1) To the extent consistent with the number of children in the State or in the school district of each local educational agency who are enrolled in private elementary and secondary schools, such State or agency shall, after consultation with appropriate private school representatives, make provision for including special educational services and arrangements (such as dual enrollment, educational radio and television, and mobile
1 educational services and equipment) in which such children
2 can participate and which meet the requirements of this sec-
3 tion. Expenditures for educational services and arrangements
4 pursuant to this subsection for children in private schools

7 children enrolled in the public schools of the State or local
8 educational agency.

9 (2) If by reason of any provision of law a State or local
10 educational agency is prohibited from providing for the par-
11 ticipation of children from private schools as required by
12 paragraph (1), or if the Secretary determines that a State or
13 local educational agency has substantially failed or is unwilling
to provide for such participation on an equitable basis,
14 the Secretary shall waive such requirements and shall ar-
15 range for the provision of services to such children which
16 shall be subject to the requirements of this subsection. Such
17 waivers shall be subject to consultation, withholding, notice,
18 and judicial review requirements in accordance with section
19 557(b) (3) and (4) of the Education Consolidation and Im-
20 provement Act of 1981.

the Virgin Islands, the Trust Territory of the Pacific Islands, and the Commonwealth of the Northern Mariana Islands, to be allotted in accordance with their respective needs.

(2) From the remainder of such sums the Secretary shall allot to each State an amount which bears the same ratio to the amount of such remainder as the school age population of the State bears to the school age population of all States, except that no State shall receive less than an amount equal to one-half of 1 percent of such remainder.

(b) AVAILABILITY OF FUNDS.—The allotment of a State under subsection (a) shall be made available to the State for 2 additional years after the first fiscal year during which the State receives its allotment under this section if the Secretary determines that the funds made available to the State during the first such year were used in the manner required under the State's approved application.

TITLE VII—BILINGUAL EDUCATION PROGRAMS

SEC. 7001. SHORT TITLE.

This title may be cited as the “Bilingual Education Act.”

SEC. 7002. POLICY; APPROPRIATIONS.

(a) POLICY.—Policy recognizing—

(1) that there are large and growing numbers of children of limited English proficiency;

(2) that many of such children have a cultural heritage which differs from that of English proficient persons;

(3) that the Federal Government has a special and continuing obligation to assist in providing equal educational opportunity to limited English proficient children;
(4) that, regardless of the method of instruction, programs which serve limited English proficient students have the equally important goals of developing academic achievement and English proficiency;

(5) that the Federal Government has a special and continuing obligation to assist language minority students to acquire the English language proficiency that will enable them to become full and productive members of society;

(6) that a primary means by which a child learns is through the use of such child’s native language and cultural heritage;

(7) that, therefore, large numbers of children of limited English proficiency have educational needs which can be met by the use of bilingual educational methods and techniques;

(8) that in some school districts establishment of bilingual education programs may be administratively impractical due to the presence of small numbers of students of a particular native language or because personnel who are qualified to provide bilingual instructional services are unavailable;

(9) that States and local school districts should be encouraged to determine appropriate curricula for limited English proficient students within their jurisdiction.
tions and to develop and implement appropriate in-
structional programs;

(10) that children of limited English proficiency
have a high dropout rate and low median years of
education;

(11) that the segregation of many groups of
limited English proficient students remains a serious
problem;

(12) that both limited English proficient children
and children whose primary language is English can
benefit from bilingual education programs, and that
such programs help develop our national linguistic
resources;

(13) that research, evaluation, and data collection
capabilities in the field of bilingual education need to
be strengthened so as to better identify and promote
those programs and instructional practices which result
in effective education;

(14) that parent and community participation in
bilingual education programs contributes to program
effectiveness; and

(15) that because of limited English proficiency,
many adults are not able to participate fully in nation-
al life, and that limited English proficient parents are
often not able to participate effectively in their children's education,

the Congress declares it to be the policy of the United States, in order to establish equal educational opportunity for all children and to promote educational excellence (A) to encourage the establishment and operation, where appropriate, of educational programs using bilingual educational practices, techniques, and methods, (B) to encourage the establishment of special alternative instructional programs for students of limited English proficiency in school districts where the establishment of bilingual education programs is not practicable or for other appropriate reasons, and (C) for those purposes, to provide financial assistance to local educational agencies, and, for certain related purposes, to State educational agencies, institutions of higher education, and community organizations. The programs assisted under this title include programs in elementary and secondary schools as well as related preschool and adult programs which are designed to meet the educational needs of individuals of limited English proficiency, with particular attention to children having the greatest need for such programs. Such programs shall be designed to enable students to achieve full competence in English. Such programs may additionally provide for the development of student competence in a second language.
(b) AUTHORIZATION.—(1) For the purpose of carrying out the provisions of this title, there are authorized to be appropriated, subject to paragraph (7) $168,000,000 for the fiscal year 1989, $176,500,000 for the fiscal year 1990, $185,300,000 for the fiscal year 1991, $194,500,000 for the fiscal year 1992, and $200,400,000 for the fiscal year 1993.

(2) There are further authorized to be appropriated to carry out the provisions of section 7032, such sums as may be necessary for fiscal year 1989 and each of the 4 succeeding fiscal years, subject to paragraph (7).

(3) From the sums appropriated under paragraph (1) for part A for any fiscal year, the Secretary may reserve not to exceed 25 percent for special alternative instructional programs and related activities authorized under section 7021(a)(3) and may include programs under section 7021(a) (2), (4), (5), and (6).

(4) From the sums appropriated under paragraph (1) for any fiscal year, the Secretary shall reserve at least 60 percent for the programs carried out under part A of this Act; and of this amount, at least 75 percent shall be reserved for the programs of transitional bilingual education carried out under section 7021(a)(1), and may include programs under section 7021(a) (2), (4), (5), and (6).
(5) From the sums appropriated under paragraph (1) for any fiscal year, the Secretary shall reserve at least 25 percent for training activities carried out under part C.

(6) Notwithstanding paragraphs (1) and (2), no amount in excess of $176,000,000 is authorized to be appropriated to carry out the provisions of this title (including section 7032) for fiscal year 1989.

(7) The reservation required by paragraph (3) shall not result in changing the terms, conditions, and negotiated levels of any grant awarded in fiscal year 1987 to which section 7021(d)(1)(A), 7021(d)(1)(C), 7021(d)(2), or 7021(d)(3) applies.

SEC. 7003. DEFINITIONS; REGULATIONS.

(a) GENERAL RULE.—The following definitions shall apply to the terms used in this title:

(1) The terms “limited English proficiency” and “limited English proficient” when used with reference to individuals means—

(A) individuals who were not born in the United States or whose native language is a language other than English;

(B) individuals who come from environments where a language other than English is dominant, as further defined by the Secretary by regulation; and
(C) individuals who are American Indian and Alaskan Natives and who come from environments where a language other than English has had a significant impact on their level of English language proficiency, subject to such regulations as the Secretary determines to be necessary; and who, by reason thereof, have sufficient difficulty speaking, reading, writing, or understanding the English language to deny such individuals the opportunity to learn successfully in classrooms where the language of instruction is English or to participate fully in our society.

(2) The term "native language", when used with reference to an individual of limited English proficiency, means the language normally used by such individuals, or in the case of a child, the language normally used by the parents of the child.

(3) The term "low-income" when used with respect to a family means an annual income for such a family which does not exceed the poverty level determined pursuant to section 1005(c)(2)(A) of this Act.

(A) The term "program of transitional bilingual education" means a program of instruction, designed for children of limited English proficiency in elementary or secondary schools, which provides, with
respect to the years of study to which such program is
applicable, structured English language instruction,
and, to the extent necessary to allow a child to achieve
competence in the English language, instruction in the
child's native language. Such instruction shall incorpo-
rate the cultural heritage of such children and of other
children in American society. Such instruction shall,
to the extent necessary, be in all courses or subjects of
study which will allow a child to meet grade-promotion
and graduation standards.

(B) In order to prevent the segregation of children
on the basis of national origin in programs of transi-
tional bilingual education, and in order to broaden the
understanding of children about languages and cultural
heritages other than their own, a program of transition-
al bilingual education may include the participation of
children whose language is English, but in no event
shall the percentage of such children exceed 40 percent.
The program may provide for centralization of teacher
training and curriculum development, but it shall serve
such children in the schools which they normally
attend.

(C) In such courses or subjects of study as art,
music, and physical education, a program of transi-
tional bilingual education shall make provision for the
participation of children of limited English proficiency in regular classes.

(D) Children enrolled in a program of transitional bilingual education shall, if graded classes are used, be placed, to the extent practicable, in classes with children of approximately the same age and level of educational attainment. If children of significantly varying ages or levels of educational attainment are placed in the same class, the program of transitional bilingual education shall seek to insure that each child is provided with instruction which is appropriate for his or her level of educational attainment.

(5)(A) The term “program of developmental bilingual education” means a full-time program of instruction in elementary and secondary schools which provides, with respect to the years of study to which such program is applicable, structured English language instruction and instruction in a second language. Such programs shall be designed to help children achieve competence in English and a second language, while mastering subject matter skills. Such instruction shall, to the extent necessary, be in all courses or subjects of study which will allow a child to meet grade-promotion and graduation standards.
Where possible, classes in programs of developmental bilingual education shall be comprised of approximately equal numbers of students whose native language is English and limited English proficient students whose native language is the second language of instruction and study in the program.

(6) The term “special alternative instructional programs” means programs of instruction designed for children of limited English proficiency in elementary and secondary schools. Such programs are not transitional or developmental bilingual education programs, but have specially designed curricula and are appropriate for the particular linguistic and instructional needs of the children enrolled. Such programs shall provide, with respect to the years of study to which such program is applicable, structured English language instruction and special instructional services which will allow a child to achieve competence in the English language and to meet grade-promotion and graduation standards.

(7) The term “family English literacy program” means a program of instruction designed to help limited English proficient adults and out-of-school youth achieve competence in the English language. Such programs of instruction may be conducted exclusively in
English or in English and the student's native language. Where appropriate, such programs may include instruction on how parents and family members can facilitate the educational achievement of limited English proficient children. To the extent feasible, preference for participation in such programs shall be accorded to the parents and immediate family members of children enrolled in programs assisted under this title.

(8) The term "programs of academic excellence" means programs of transitional bilingual education, developmental bilingual education, or special alternative instruction which have an established record of providing effective, academically excellent instruction and which are designed to serve as models of exemplary bilingual education programs and to facilitate the dissemination of effective bilingual educational practices.

(9) The term "Office" means the Office of Bilingual Education and Minority Languages Affairs.

(10) The term "Director" means the Director of the Office of Bilingual Education and Minority Languages Affairs.

(11) The term "Secretary" means the Secretary of Education.

(12) The term "other programs for persons of limited English proficiency" when used in this title
means any programs within the Department of Education directly involving bilingual education activities serving persons of limited English proficiency, such as the programs carried out in coordination with the provisions of this title pursuant to part E of title IV of the Carl D. Perkins Vocational Education Act, and section 306(b)(11) of the Adult Education Act, and programs and projects serving individuals of limited English proficiency pursuant to section 6(b)(4) of the Library Services and Construction Act.

(b) Regulation Requirement.—(1) In prescribing regulations under this title, the Secretary shall consult with State and local educational agencies, organizations representing persons of limited English proficiency, and organizations representing teachers and other personnel involved in bilingual education.

(2) The Secretary shall not prescribe under this title any regulations further defining the terms defined in paragraphs (4), (5), (6), (7), and (8) of subsection (a), or any regulations restricting or expanding the definitions contained in such paragraphs.

(c) Special Information Rule.—Parents of children participating in programs assisted under this title shall be informed of the instructional goals of the program and the progress of their children in such program. To the extent
practicable, the information provided to parents pursuant to this subsection shall be in a language and form the parents understand.

(i) conducts a comprehensive evaluation of the overall academic progress of the student, and

(ii) the results of the evaluation indicate that failure to master English is impeding the academic
progress of the student in meeting grade promotion and
graduation standards, and in the case of a handicapped
child attainment of the objective in the child's individ-
ualized education program.

Any student with respect to whom the requirements of this
paragraph are met, may remain in the program for a fourth
year, except as provided in division (ii) of subparagraph (B).

students' academic program during that period shall empha-
size mastery of English.

(C) No student shall remain in a bilingual education
program described in subparagraph (A) for more than 5

(4) include evidence that the State educational agency has been notified of the application and has been given the opportunity to offer recommendations thereon to the applicant and to the Secretary.

(f) APPLICATION APPROVAL.—An application for a grant under subsections (a)(1), (a)(2), and (a)(3) of this section may be approved only if the Secretary determines—

(1) that the program will use qualified personnel, including only those personnel who are proficient in the language or languages used for instruction;

(2) that in designing the program for which application is made, the needs of the children in nonprofit private elementary and secondary schools have been taken into account through consultation with appropriate private school officials; and, consistent with the number of such children enrolled in such schools in the
area to be served whose educational needs are of the type and whose language and grade levels are of a similar type which the program is intended to address, after consultation with appropriate private school officials, provision has been made for the participation of such children on a basis comparable to that provided for public school children;

(3) that the program will be evaluated in accordance with a plan that meets the requirements of section 7033 of this title;

(4) that Federal funds made available for the project or activity will be used so as to supplement the level of State and local funds that, in the absence of those Federal funds, would have been expended for special programs for children of limited English proficiency and in no case to supplant such State and local funds, except that nothing in this clause shall—

(A) preclude a local education agency from using funds under this title for activities carried out under an order of a court of the United States or of any State respecting services to be provided such children, or to carry out a plan approved by the Secretary as adequate under title V of the Civil Rights Ac. of 1964 with respect to services to be provided such children; or
authorize any priority or preference to be assigned by the Secretary to the funding of the activities under this title;

(5) that the assistance provided under the application will contribute toward building the capacity of the applicant to provide a program on a regular basis, similar to that proposed for assistance, which will be of sufficient size, scope, and quality to promise significant improvement in the education of children of limited English proficiency, and that the applicant will have the resources and commitment to continue the program when assistance under this title is reduced or no longer available;

(6) that the applicant will provide or secure training for personnel participating, or preparing to participate, in the program and that, to the extent possible, college or university credit will be awarded for such training; and

(7) that the provision of assistance proposed in the application is consistent with criteria established by the Secretary, after consultation with the State educational agency, for the purpose of achieving an equitable distribution of assistance under this part within the State in which the applicant is located, taking into consideration—
(A) the geographic distribution of children of limited English proficiency;
(B) the relative need of persons in different geographic areas within the State for the kinds of services and activities authorized under this title;
(C) with respect to grants to carry out programs described in subsections (a)(1), (a)(2), and (a)(3) of this section, the relative ability of particular local educational agencies within the State to provide such services and activities; and
(D) with respect to such grants, the relative numbers of persons from low-income families sought to be benefited by such programs.

(g) GENERAL PRIORITY RULE.—An application for a grant under subsection (a)(3) of this section may receive priority based upon the information provided by the applicant pursuant to clause (A), (B), or (C) of subsection (c)(3) of this section.

(h) SPECIAL PRIORITY RULES.—In the consideration of applications from local educational agencies to carry out programs authorized under this section, the Secretary shall give priority to applications from local educational agencies which are located in various geographical regions of the Nation and which propose to assist children of limited English proficiency who have historically been underserved by
programs of bilingual education, taking into consideration the relative numbers of such children in the schools of such local educational agencies and the relative need for such programs. In approving such applications, the Secretary shall, to the extent feasible, allocate funds appropriated in proportion to the geographical distribution of children of limited English proficiency throughout the Nation, with due regard for the relative ability of particular local educational agencies to carry out such programs and the relative numbers of persons from low-income families sought to be benefited by such programs.

(i) Programs for Puerto Rico.—Programs authorized under this title in the Commonwealth of Puerto Rico may, notwithstanding any other provision of this title, include programs of instruction, teacher training, curriculum development, research, evaluation, and testing designed to improve the English proficiency of children, and may also make provision for serving the needs of students of limited proficiency in Spanish.

(j) Nonprofit Private School Rule.—If the Secretary determines that an applicant for assistance under this title is unable or unwilling to provide for the participation in the program for which assistance is sought of children of limited English proficiency enrolled in nonprofit, private
schools, as required by subsection (f)(2) of this section, the Secretary shall—

(1) withhold approval of such application until the applicant demonstrates that it is in compliance with those requirements; or

(2) reduce the amount of the grant to such applicant by the amount which is required for the Secretary to arrange (such as through a contract with a non-profit, nonsectarian agency, organization, or institution) to assess the needs of the children in the area to be served for programs of the type authorized in this title and to carry out such programs for the children.
