This guide is intended to assist teachers responsible for instructing future child care workers. The competency-based course outline provided covers the following topics: planning activities or programs for young children, performing child guidance activities, performing food service activities, performing housekeeping activities, and performing clerical activities. The course outline is organized in the form of duty sheets. Each duty sheet contains some or all of the following: a performance objective, a task, the source of the standard, conditions for performance of the task, enabling objectives, resources, suggested teaching activities, a criterion-referenced measure, and a performance checklist. The activities provided are designed to train students in the performance of job-relevant tasks. All three domains of learning—psychomotor, cognitive, and affective—are addressed. Activities are provided for use with a number of instructional methods, including group discussion, independent study, and team learning. Appendixes include sample case situations; a bibliography; a cross-referenced table of duties, tasks, and performance objectives; definitions of key pertinent terms; and sources and references. (MN)

This guide addresses all three domains of learning: psychomotor, cognitive, and affective. The following paragraphs give a brief explanation of each area.

Psychomotor
Manipulative skills, such as learning to use buttons and zippers are representative of activities that are psychomotor in nature. These tasks are identified in a catalog and grouped by duties and objectives. Each performance objective has a performance standard which must be met to prove student proficiency in the manipulative aspect of the task.

Cognitive
To perform psychomotor tasks, students must think. For example, to plan childcare activities the student must select appropriate materials and equipment suitable for certain ages. The mental and physical capabilities of the children often dictate how long and intense these activities will be.

Students gain cognition through real and vicarious experiences. They may read, view tapes, and memorize or practice a process or procedure until they are certain of it. To test their knowledge, students may be required to decide the proper procedure, method, or sequence for performance. This is cognitive activity (decision making) at its highest level.

Cognition, then, is that process by which information is stored and used. That mental thought that warns one of potential dangers is cognition. Anything that goes on in the mind is cognition. Good thinking can help an employee do a job better and quicker. This guide provides for the cognitive aspects of learning.

Affective
Curriculum writers, supervisors, and instructors should try to assist students in acquiring a positive attitude toward self, job, school and fellow students. This guide seeks to provide assistance to the instructor in this area. It is difficult for the instructor to identify each aspect of desirable behavior for every unit and often harder yet to teach them. In this area, a student might be judged on the housekeeping in the work area, punctuality, and ability to carry out directions. Potential employers are interested in student attitude because an angry or uncertain person is often a poor worker.

By using this guide, the student will have participated in activities dealing with getting along with others, with supervisors or staff members, and large/small groups.
USE OF THIS GUIDE

This guide is designed to provide job relevant tasks, performance objectives, performance guides, resources, learning activities, evaluation standards, and achievement testing in child care. The guide is also designed to be used with any teaching methods you as an instructor may choose. For example, if the lecture/demonstration method is best for you, you will find sufficient help to meet your needs. If you prefer to use discussion or other methods that require student participation, you will find ample help. Regardless of which method is successful for you, this guide can save preparation time and offer innovative methods and procedures. For example, a student may work either alone or on a team while in class and learn skills, in direct relation to what is actually being done on the job.

The use of small groups in teaching can be helpful when many students feel inadequate due to their lack of background information. Some students may also feel that they are physically incompetent or lack the necessary background experiences. A successful program can provide students with a sense of security by reinforcing positive attitudes while improving their skills and group subject knowledge, by allowing students to interact on a group level. As students gain confidence and discover that they are an essential part of a team engaged in the learning-teaching process, their confidence increases. Individually, they also learn to work without direct supervision. In addition, use of the small-group method permits the instructor to vary instructional routines away from lecture or other full-class methods to activities for single students, pairs of students, or any number desired.

In this guide, you will find suggestions for specific classroom activities. These activities are not meant to restrict you or your students, but only to offer a variety of learning activities for each task statement.
PLANNING ACTIVITIES OR PROGRAMS
DUTY: PLANNING ACTIVITIES OR PROGRAMS

PERFORMANCE OBJECTIVE 1

TASK: Plan art activities.

STANDARD OF PERFORMANCE OF TASK:

One art activity must be planned for each of five case situations; the planning must include art materials and equipment.

SOURCE OF STANDARD:

Kentucky Writing Team - Content Specialist.

CONDITIONS FOR PERFORMANCE OF TASK:

Art supplies and materials and equipment 
Clean-up materials 
Instructions for children 
Five case situations (Appendix A).

ENABLING OBJECTIVES:

1. Identify art activities suitable for each age, 2-5 years old.
2. Identify art materials and equipment needed for art activities.

RESOURCES:

TEACHING ACTIVITIES:

1. Explain the benefits children receive from being involved in a variety of art activities.
2. Display and explain the use of various art materials and supplies.
3. Describe different types of art activities. Students should participate in doing these.
4. Discuss the appropriate locations for various art activities.
5. Using a chart listing the characteristics of the various age groups, assign students to plan three art activities for each age group. Discuss the appropriateness of each choice.
6. Discuss ways to encourage children to participate in art activities and ways to assure acceptable behavior.
PERFORMANCE OBJECTIVE 1

CRITERION-REFERENCED MEASURE:

Practical Application:

Given five case situations and access to reference materials, art supplies, and equipment, the student will plan one art activity for one situation.

Method of Evaluation:

Plans will be evaluated by instructor using the following checklist for each art activity. All items should be rated acceptable.

PERFORMANCE OBJECTIVE 2

TASK: Plan dramatic play activities.

STANDARD OF PERFORMANCE OF TASK:

Dramatic play plans must be completed for each of five case situations involving dramatic play activities.

SOURCE OF STANDARD:

Kentucky Writing Team - Content Specialist.

CONDITIONS FOR PERFORMANCE OF TASK:

Five situations for children (Appendix A)
Dramatic play props, materials and supplies
Basic guidelines for dramatic play.

ENABLING OBJECTIVES:

1. Identify dramatic play objectives.
2. Identify dramatic play activities for different age groups.
3. Enthusiasm for dramatic play.

RESOURCES:

TEACHING ACTIVITIES:

1. Discuss how the various age groups react to sounds, smells and movements.
2. Assign students to observe children in play situations and to record how positive and negative feelings of the children are expressed.
PERFORMANCE OBJECTIVE 2

CRITERION-REFERENCED MEASURE:

Practical Application:

Given five case situations and access to references, materials, and supplies suitable for dramatic play, the student will plan one dramatic play activity for each situation. The plan may be written or oral and must include all the items on the "Student Worksheet For Planning Creative Activities." The instructor may use Instruction Sheet I as a learning supplement for students.

Method of Evaluating Practical Application:

Evaluation is observation by the instructor using concepts presented in class. All items should be rated acceptable.

PERFORMANCE GUIDE:

1. Identify kinds of dramatic play activities.
2. Determine materials and supplies suitable for dramatic play activities.
3. Identify dramatic play activities suitable for a variety of stages of development.
4. Identify ways of encouraging children to participate.
5. Identify ways of using dramatic play activities with children with special needs.
6. Identify how dramatic play may foster social development.
7. Identify ways of practicing positive guidance techniques to assure acceptable behavior during dramatic play.
8. Determine appropriate location for a variety of dramatic play activities.
9. Anticipate possible hazard of dramatic play activities.
10. Identify ways to evaluate dramatic play activities.

PERFORMANCE OBJECTIVE 2

INSTRUCTION SHEET I

DRAMATIC PLAY ACTIVITIES FOR VARIOUS AGES

Children of a given age differ widely in the development of their play interests. There may, however, be overlapping between age groups.

The Two-Year-Old

Two-year-old children play alone or side by side in solitary or parallel play. They seldom interact with others although they like to play near other children. They may push others down that get in their way or take things away from them. Supervision is needed for the two-year-old at play at all times.

Through play they stretch their imagination and bring fantasies in touch with the real world. The two-year-old likes sand, mud, sticks, pans and dolls for dramatic play. Simple activities entertain them. They like to repeat activities over and over.

The Three-Year-Old

Three-year-olds are just beginning social experience in play. They are more interested in people and things about them than they were at two. They are beginning to have the ability to share. They now play well with one or two children, but also still like to play alone.

They make simple block structures and combine boats, cars, or trains with block play. They build up a tower of blocks just to push them over. This gives them a sense of power or may be a release of tension. They will push a car along the floor or cuddle a doll. Other dramatic play materials which will add interest to play are telephones, cash registers, iron and ironing boards, dishes, dress-up clothes and empty cardboard cartons. The three-year-old likes the simple repetition of words and nonsense rhymes. The average vocabulary is about 750 words.

The Four-Year-Old

Four-year-olds now long to play with other children. They play well in groups of three or four. They can work well toward a goal such as building a garage for cars to go in and out. Suggestions from adults help them work out plans in detail. They love exaggeration and the imaginary. They enjoy knowing what the rules are. This gives them a feeling of surety. Many fears persist and they like to dramatize these feelings.

They will often shift from the original play suggested by the adult to a new one of their own making. They enjoy playing store, dress-up, and house. They like the doll corner. They can be creative with paper cartons and blocks.
PERFORMANCE OBJECTIVE 2
The Five-Year-Old

Because the five-year-olds are sociable, they are able to play very well in a group. They can join together with other five-year-olds in spontaneous role play for longer periods without losing interest. They do not need as much equipment as the younger child does. They can be very creative and imaginative with only a few dramatic play props and an idea to get them started. When a variety of play materials are provided they need to be allowed to experience freely with them to develop their own capabilities and interests. Although they are stable and well adjusted, they are capable of anxiety and unreasonable fears. They love praise for their accomplishments. They can be very elaborated in their dramatic play, but they need new information on which to base their play to widen their horizons. Information may be provided by stories, field trips, resource persons and other enriching experiences in the child-care center.
PERFORMANCE OBJECTIVE 3

TASK: Plan free-choice play activities.

STANDARD OF PERFORMANCE OF TASK:

A free-choice play activity must be planned for each of five case situations involving free-choice play activities.

SOURCE OF STANDARD:

Kentucky Writing Team – Content Specialist.

CONDITIONS FOR PERFORMANCE OF TASK:

Supplies and materials for free-choice play
Basic guidelines for children
Five case situations (Appendix A).

ENABLING OBJECTIVES:

1. Identify objectives of free-choice play activities.
2. Identify heads of various age groups (2-5 yrs. old) in free-choice play.

RESOURCES:

TEACHING ACTIVITIES:

1. Invite a group of mothers to the class to discuss how their children make choices among toys and games. Assign students to determine the degree of influence the home has on the child's choices.
2. Discuss and describe materials, toys and supplies that should be used in the free-choice play.
PERFORMANCE OBJECTIVE 3

CRITERION-REFERENCED MEASURE:

Given five case situations and access to references, materials and supplies suitable for free-choice play, plan one free-choice play activity for each situation. The plan may be written or oral and must include all the applicable items on the "Student Worksheet For Planning Creative Activities."

Method of Evaluating Practical Application:

Evaluation is observation by the instructor using concepts presented in class. All items should be rated acceptable.

PERFORMANCE GUIDE:

1. Identify kinds of free-choice play activities.
2. Determine materials and supplies suitable for free-choice play activities.
3. Identify free-choice play activities suitable for a variety of age groups.
4. Identify ways of encouraging children to participate.
5. Identify ways of using free-choice play activities with children with special needs.
6. Identify free-choice play activities suitable for each of the four seasons.
7. Determine the ways free-choice play may help a child develop physically, socially, mentally, intellectually and emotionally.
8. Identify ways of practicing positive guidance techniques to assure acceptable behavior during free-choice play activities.
9. Determine appropriate locations for a variety of free play activities.
10. Anticipate possible hazards of free-child play.
11. Identify ways to evaluate free-choice play activities.

DUTY: PLANNING ACTIVITIES OR PROGRAMS

PERFORMANCE OBJECTIVE 4

TASK: Plan manipulative play such as puzzles and woodblocks.

STANDARD OF PERFORMANCE OF TASK:

Manipulative play activities must be planned for each of five situations to include needed materials and supplies.

SOURCE OF STANDARD:

Kentucky Writing Team - Content Specialist.

CONDITIONS FOR PERFORMANCE OF TASK:

Five case situations (Appendix A)
Manipulative play materials
Guidelines for children.

ENABLING OBJECTIVES:

1. Knowledge of various puzzles and wood blocks.
2. Identify manipulative skills needed by various age groups.

RESOURCES:

TEACHING ACTIVITIES:

1. Assign students to use and art magazines to create puzzles for children.
2. Assign students to create different types of sensory boxes - boxes that have sides of different materials for feeling.
3. Describe and discuss the differences of boys and girls in manipulative play.

CRITERION-REFERENCED MEASURE:

Practical Application:

Given five case situations and access to materials and supplies suitable for manipulative play, the student will plan one manipulative play activity for each situation. The plan may be written or oral and must include all the items on the Student Worksheet For Planning Creative Activities.

Method of Evaluating Practical Application:

Evaluation is observation by the instructor using standards set by the instructor.
STUDENT WORKSHEET FOR PLANNING CREATIVE ACTIVITIES (P. O. 4)

1. Type of activity:

2. Materials needed:

3. Supplies needed:

4. Age group for which the activity is appropriate:

5. How the children will be encouraged to participate.

6. Ideas for adapting the activity for children with a variety of special needs:

DUTY: PLANNING ACTIVITIES OR PROGRAMS

PERFORMANCE OBJECTIVE 5

TASK: Plan monthly activities.

STANDARD OF PERFORMANCE OF TASK:

A program of activities for a month must be planned for a day-care center to include a daily schedule.

SOURCE OF STANDARD:

Kentucky Writing Team - Content Specialist.

CONDITIONS FOR PERFORMANCE OF TASK:

Planning forms/schedules
Calendar
Case situation (Appendix A).

ENABLING OBJECTIVES:

1. Identify seasonal and monthly program themes.
2. Ability to determine activities appropriate for an occasion.

RESOURCES:

TEACHING ACTIVITIES:

1. Assign students to develop and write a list of seasonal themes for an entire year.
2. Assign students to create methods for children that explain the ways we measure time.

CRITERION-REFERENCED MEASURE:

Practical Application:

Given a case situation describing a day-care center and a daily schedule for the center, plan the activities which would be needed to complete a program for a specific month of the year for the center described in the case situation. The plan must be judged complete and compatible to the case situation by the instructor.

Method of Evaluating Practical Application:

Evaluation is observation by the instructor using concepts presented in class. All items should be rated acceptable.
PERFORMANCE OBJECTIVE 5 (continued)

PERFORMANCE GUIDE:

1. Identify types of program themes.
2. Identify special activities that could be included in a monthly plan.
3. Determine types of decorations appropriate to seasons.
4. Determine ways to inventory basic supplies.
5. Determine ways to request needed supplies.
6. Determine ways to evaluate a monthly program.
DUTY: PLANNING ACTIVITIES OR PROGRAMS

PERFORMANCE OBJECTIVE 6

TASK: Plan weekly activities.

STANDARD OF PERFORMANCE OF TASK:

A specific plan for five days activities must be organized around a case situation of a group of children in a day-care center.

SOURCE OF STANDARD:

Kentucky Writing Team - Content Specialist.

CONDITIONS FOR PERFORMANCE OF TASK:

Daily schedules
Resource persons if needed
Supplies for activities as needed
A group of children
Case situation (Appendix A).

ENABLING OBJECTIVES:

1. Organize events into categories
2. Communicate in oral and written forms.
3. Identify sequences of events for different age groups.

RESOURCES:

TEACHING ACTIVITIES:

1. Working in groups, students should plan a series of bulletin boards that illustrate solutions to center problems: dawdling, negativism toward food, and standing while eating.
2. Invite a panel of child care teachers to the class to describe the planning problems they encounter.

CRITERION-REFERENCED MEASURE:

Practical Application:

Given a case situation concerning a group of children in a day care center and a specific plan for five days' activities, the student plan all the procedures which would need to be implemented to coordinate program plans for one week in the case situation described.

Method of Evaluating Practical Application:

Evaluation is observation by the instructor using concepts presented in class. All items should be rated acceptable.
PERFORMANCE OBJECTIVE 6 (continued)

PERFORMANCE GUIDE:

1. Review sample daily schedules.
2. Determine the need to confirm field trips, resource persons, and other special activities.
3. Determine the supplies needed for special activities.
4. Determine the need for decorations for special activities.
5. Determine the need for a balance of creative activities.
6. Determine ways to evaluate a weekly program.
DUTY: PLANNING ACTIVITIES OR PROGRAMS

PERFORMANCE OBJECTIVE 7

TASK: Plan daily activities.

STANDARD OF PERFORMANCE OF TASK:

A daily schedule must be prepared for a given case situation of children.

SOURCE OF STANDARD:

Kentucky Writing Team - Content Specialist.

CONDITIONS FOR PERFORMANCE OF TASK:

Schedule forms for planning and a given group of children (See Appendix A for case situations).

ENABLING OBJECTIVES:

1. Communicate in oral and written forms.
2. Organize printed materials.
3. Identify daily activities for children.

RESOURCES:

Draper and Draper. Caring for Children, pp. 395-98.

TEACHING ACTIVITIES:

1. Discuss with the class the importance of planning and writing the daily schedule of a child care worker.
2. Describe the procedures needed to notify parents when the daily schedule is changed.

CRITERION-REFERENCED MEASURE:

Practical Application:

Given a case situation concerning a group of children in a day care center, the students will plan a daily schedule for the group described in the situation.

Method of Evaluating Practical Application:

Evaluation is observation by the instructor, using standards set by the instructor.
PERFORMANCE OBJECTIVE 7 (continued)

PERFORMANCE GUIDE:

1. Determine activities and routine tasks to be completed in a one-day period.
2. Determine amount of time to allot to each activity and/or task.
3. Determine how special projects and events may be fitted into a daily schedule.
4. Determine pre-preparation needed.
5. Determine the need for planning carry-over activities.
6. Determine the need for planning alternate activities.
7. Determine ways to evaluate a daily schedule.
DUTY: PLANNING ACTIVITIES OR PROGRAMS

PERFORMANCE OBJECTIVE 8

TASK: Plan music activities.

STANDARD OF PERFORMANCE OF TASK:

A different music activity must be planned for each of five case situations; planning should include references, music materials and media.

SOURCE OF STANDARD:

Kentucky Writing Team - Content Specialist.

CONDITIONS FOR PERFORMANCE OF TASK:

Music materials
Five case situations (Appendix A)
Planning forms.

ENABLING OBJECTIVES:

1. Identify music activities for appropriate age levels.
2. Enthusiasm for music.

RESOURCES:

TEACHING ACTIVITIES:

1. Discuss and demonstrate different types of music activities.
2. Display and explain the use of various materials and supplies suitable for music activities.
3. Discuss the appropriate location for various music activities.
4. Using a chart listing the characteristics of the various age groups, choose three music activities for each age group. Discuss the appropriateness of each choice.
5. Discuss ways to encourage children to participate in music and ways to encourage acceptable behavior. Role play situations of child care worker and children involved in music activities. Given constructive criticism to each other.
6. Discuss how music activities may aid in the development of speech and hearing. Choose four activities which do this and compare choices.
7. Discuss how music activities may be used to develop physical coordination. Choose four activities which do this and compare choices.
8. Discuss how music activities may aid social development. Choose four activities which do this and compare choices.
PERFORMANCE OBJECTIVE 8

Teaching Activities Continued:

9. Discuss how music activities may foster intellectual and emotional development. Choose four activities which do this and compare choices.
10. Identify possible hazards of music activities.
11. Given case studies of children with special needs, identify how music activities could be used with these children.
12. Develop a checklist for evaluating music activities. Combine all checklist into one to be used by students to evaluate their music activities with the children.

CRITERION-REFERENCED MEASURE:

Practical Application:

Given five case situations and access to reference, music materials, and music media, the student will plan one music activity for each situation.

Method of Evaluation:

Plans will be evaluated by instructor using attached checklist. All items must be rated acceptable.

PERFORMANCE OBJECTIVE 10

TASK: Plan outdoor play activities.

STANDARD OF PERFORMANCE OF TASK:

Outdoor play activities must be completed for two case situations to include references and materials for four seasons.

SOURCE OF STANDARD:

Kentucky Writing Team - Content Specialist.

CONDITIONS FOR PERFORMANCE OF TASK:

Guidelines for children
Outdoor play equipment
Two case situations (Appendix A).

ENABLING OBJECTIVES:

1. Identify outdoor play activities for different age groups and for seasons.
2. Identify safety practices needed in conducting outdoor play.

RESOURCES:

TEACHING ACTIVITIES:

1. Discuss and demonstrate different types of outdoor play activities.
2. Display and explain the use of various materials, supplies, and equipment suitable for outdoor play activities.
3. Discuss the appropriate location for various outdoor play activities.
4. Using a chart listing the characteristics of the various age groups, choose three outdoor play activities for each group. Discuss the appropriateness of each choice.
5. Discuss ways to encourage children to participate in outdoor play activities and ways to encourage acceptable behavior. Role play situations of child care and children involved in outdoor play activities. Give constructive criticism to each other.
6. Discuss outdoor play activities which are suitable for each of the four seasons. Choose four activities for each season and compare choices.
7. Discuss how outdoor play activities may help a child develop physically, socially, and emotionally. Given eight outdoor play activities, tell how each helps a child to develop.
8. Discuss how outdoor play activities will aid large and small muscle development. Given ten outdoor play activities, tell which muscles each activity helps develop.
9. Discuss how outdoor play activities may aid in concept development. Given eight activities, identify the concepts that children could develop from each.
10. Discuss the adult-pupil ratio needed for outdoor activities.
PERFORMANCE OBJECTIVE 10

Teaching Activities Continued:

11. Identify possible hazards of outdoor play activities.
12. Give case studies of children with special needs, identify how outdoor play activities could be used with these children.
13. Develop a checklist for evaluating outdoor play activities. Combine all checklists into one to be used by all students to evaluate their outdoor play activities with the children.

CRITERION-REFERENCED MEASURE:

Practical Application:

Given two case situations and access to reference materials, the student will plan one outdoor play activity for each of the four seasons for each of the case situations.

Method of Evaluation:

Plans will be evaluated by instructor using the given checklist. All items should be rated acceptable.

PERFORMANCE OBJECTIVE 12

TASK: Plan food preparation activities.

STANDARD OF PERFORMANCE OF TASK:

Activities for five different food preparation situations must be planned to include children participation in each activity.

SOURCE OF STANDARD:

Kentucky Writing Team - Content Specialist.

CONDITIONS FOR PERFORMANCE OF TASK:

Five case situations (Appendix A)
Food recipes - simple
Kitchen utensils and food supplies.

ENABLING OBJECTIVES:

1. Ability to read on appropriate level.
2. Communicate in oral and written forms.
3. Organize printed materials.
4. Identify planning needed for food preparation activities.

RESOURCES:

TEACHING ACTIVITIES:

1. Discuss and demonstrate different types of food preparation activities and time required for each.
2. Display and explain the use of various materials and supplies available for food preparation activities.
3. Discuss the appropriate locations for a variety of food preparation activities.
4. Using a chart listing the characteristics of the various age groups, choose three food preparation activities for each age group. Discuss the appropriateness of each choice.
5. Discuss ways to encourage children to participate in food preparation activities and ways to encourage acceptable behavior. Role play situations of child care worker and children involved in food preparation activities. Give constructive criticism to each other.
6. Discuss how food preparation activities may foster social development. Choose four activities which do this and compare choices.
7. Discuss concepts which could be developed from food preparation activities. Given eight activities, identify the concepts children could develop from each.
PERFORMANCE OBJECTIVE 12

Teaching Activities Continued:

8. Discuss the food preparation activities that would be suitable for the facilities and equipment found in most day care centers.
9. Identify safety and sanitation procedures which should be followed in food preparation activities. Make a general checklist to be used with all activities.
10. Develop a checklist for evaluating food preparation activities. Combine all checklist into one to be used by students to evaluate their food preparation activities with children.

CRITERION-REFERENCED MEASURE:

Practical Application:

Given five case situations and access to references, materials, equipment and supplies, the student will plan one activity in which the children will participate in the preparation of food for each situation described. The plan may be written or oral and include all the items on the "Student Worksheet For Planning Creative Activities."

Method of Evaluating Practical Application:

Evaluation is observation by the instructor using the checklist. All items should be rated acceptable.

A situation in which the responsibility of accepting delivery of supplies for one day must be assumed. (See Appendix A for case situation.)

ENABLING OBJECTIVES:

1. Communicate in oral and written forms
2. Organize activities and materials
3. Identify proper procedures for handling supplies.

RESOURCES:

TEACHING ACTIVITIES:

1. Describe and discuss various forms of deliveries that day-care centers receive.
2. Demonstrate various storage conditions for various supplies.
3. Invite a delivery company representative to the class to discuss various delivery forms and procedures used by delivery services.
4. Assign "Student Self-Check" as a basic review.
5. Discuss safety procedures to be observed in handling stored items.

CRITERION-REFERENCED MEASURE:

Practical Application:

Given responsibility for all supplies delivered for one day to a day-care center, the student will accept, record, and store all supplies.

Method of Evaluation:

Using the attached checklist, the instructor will check the student's work. All items should be rated acceptable. The student self-check may be used for further instruction.

TASK: Maintain children's records reflecting attendance, development and transportation.

STANDARD OF PERFORMANCE OF TASK:

The attendance records must be maintained accurately for a minimum of one week.

SOURCE OF STANDARD:

Kentucky Writing Team - Content Specialist.

CONDITIONS FOR PERFORMANCE OF TASK:

A group of children and an attendance record.

ENABLING OBJECTIVES:

1. Communicate in oral and written forms
2. Organize activities and materials
3. Identify procedures for maintaining attendance records.

RESOURCES:

TEACHING ACTIVITIES:

1. Discuss the need for basic record-keeping procedures at child-care centers.
2. Discuss and stress the need for accuracy in maintaining record.
3. Invite a local child-care center manager to the class to discuss possible problems resulting from errors in record-keeping.
4. Discuss procedures of "Keeping Attendance Records" with enclosed "Sample Attendance Record."

CRITERION-REFERENCED MEASURE:

Practical Application:

Assigned a group of children and given an attendance record form, the student will keep a record of their daily attendance for one week.
PERFORMANCE OBJECTIVE 51 (continued)

Method of Evaluating Practical Application:

Evaluation is observation by the instructor, using standards set by the instructor.

PERFORMANCE GUIDE:

1. Determine necessity for keeping attendance records.
2. Set standards for maintaining attendance records.
3. Keep attendance records:
   a. Fill in an "X" in any block when center is not in session.
   b. On days child is present, indicate his presence by showing the time of his arrival and the time of his departure.
   c. On days child is absent, leave block blank until reason for absence is known. Then fill in code showing reason for child's absence.
   d. Fill in total number of hours child attended center for the month.
PERFORMANCE OBJECTIVE 51 (continued)

KEEPING ATTENDANCE RECORDS

Attendance records may be handled in a number of different ways, but it is important that one standard method be selected and used by everyone keeping the record of the child's attendance. This avoids confusion and aids in accuracy.

The following standard is suggested as a method for keeping a child's attendance record.

1. Fill in an "X" in any block when the center is not in session.

2. On the days a child is present, indicate his/her presence by showing the time of arrival and the time of departure.

3. On days the child is absent, leave the block blank until the reason for absence is known. Then fill in the code showing the reason for the child's absence.

4. Fill in the total number of hours the child attended the center for the month.

PERFORMANCE OBJECTIVE 52

TASK: Maintain children's records reflecting attendance, development and transportation.

STANDARD OF PERFORMANCE OF TASK:

Developmental evaluation forms are to be completed on each of four children to include up-to-date evaluations for a minimum of two weeks.

SOURCE OF STANDARD:

Kentucky Writing Team - Content Specialist.

CONDITIONS FOR PERFORMANCE OF TASK:

Four children and copies of developmental evaluation forms

ENABLING OBJECTIVES:

1. Communicate in oral and written forms
2. Organize activities and materials

RESOURCES:

TEACHING ACTIVITIES:

1. Discuss the need for development records on each child.
2. Using "Sample Developmental Evaluation" forms attached, discuss information needed for completion of records.
3. Describe and discuss standards need in keeping records.

CRITERION-REFERENCED MEASURE:

Practical Application:

Given developmental evaluation forms and four children, the student will complete a developmental evaluation of each child and keep the evaluations up-to-date for two weeks.

Method of Evaluating Practical Application:

Evaluation is observation by the instructor using standards set by the instructor.
PERFORMANCE OBJECTIVE 52 (continued)

PERFORMANCE GUIDE:

1. Set standards for maintaining developmental records.
2. Determine necessity for keeping developmental records.
3. Maintain records of the children's motor, cognitive, language, personal, and social development for two weeks:

SAMPLE CASE SITUATIONS
APPENDIX A

SAMPLE CASE SITUATIONS

1. Ten 3-and 4-year old children and one adult in a day-care center. The equipment and toys are minimal and during free play there is a constant need for redirecting some child's attention to some toy or equipment not being used by others.

2. Eight 2-and 3-year-old children with one adult in one room of a day-care center which serves as a place to play, eat and rest.

3. Twelve 4-and 5-year-old children with one adult, a large active all-purpose room, dining facilities and outdoor play area available.

4. Fifteen 3-year old children with two teachers. Twelve of the children seem happy and are active. Three of the children, however, are very immature and need much individual attention.

5. Sixteen 2-year-old children with two adults in one room of adequate size. Washable toys, durable books, stacking toys, kiddie cars, rocking and pulling toys are available.

6. There are ten 5-year olds in a kindergarten. There are four boys and six girls. Two girls and one boy are slow learners. One boy is hyperactive. This center operates for 3 hours (1/2 day) for nine months. The equipment is adequate. All of these children are from families of average economic backgrounds. Two adults are in charge.

7. There are twelve 3-4 year olds in one room of a day-care center operating for 12 hours (from 6 in the morning until 6 in the evening) daily for six days a week. The equipment is minimal. There are nine boys and three girls. Two boys are slow learners and one girl is hyperactive. The two slow learners are from low-income families. One adult and two aides are in charge.

8. There are twelve 3-4-5-year olds in a poorly equipped day-care center operating for ten hours a day. Of this group there are four 3-year-old girls, two 3-year-old boys, two 4-year-old girls, and four 5-year-old boys. All of the children are of average intelligence and are from average economic backgrounds.

9. There are twelve 3-4 year olds in a nursery school operating for three hours (1/2 day) a day. Four of the 3-year olds are boys, two of the 3-year olds are girls, three of the 4-year olds are boys and three are girls. One 4-year-old boy is very shy. He comes from a broken home. All of the children have average intelligence. There are two rooms, one teacher and one aide in charge.

10. There are twenty 5-year olds in a Head Start program. Eight of the children are girls, twelve are boys. All of the children are from low-income families. Three boys and two girls are slow learners. One teacher and two aides are in charge of this group. There is ample space and equipment in the center.

DEFINITION OF TERMS

A number of terms frequently used in this guide may be unfamiliar to the reader; others may be familiar, but in the context of this handbook have been assigned special meanings.

AFFECTIVE.
Skills which emphasize an attitude, feeling, emotion, or degree of acceptance and rejection.

CATALOG.
A comprehensive collection of performance objectives, performance guides, and related data developed in a specific domain.

CBVE (COMPETENCY-BASED VOCATIONAL EDUCATION).
A methodology of instruction that (a) identifies the abilities and skills needed for on-the-job performance; (b) informs students and teachers of the precise and detailed learning objectives required to achieve these competencies; (c) emphasizes performance standards in testing, course requirements, and/or graduation; and (d) facilitates learning by letting each student master the tasks prior to advancing to another.

CHECKPOINT.
A point in the development of the V-TECS product when material must be sent to V-TECS central office for quality review.

CIP (CLASSIFICATION OF INSTRUCTION PROGRAM) CODE.
A code developed by the U.S. Office of Education to identify a specific cluster of related jobs for training program identification.

COGNITIVE.
Skills which emphasize the recall of knowledge and development of intellectual abilities.

COMPETENCY.
The ability (including knowledge, skills, and/or attitudes) to perform a specific task or duty successfully.

CONDITIONS.
Describes the situation for competent task performance, including tools and equipment to be used, and limitations under which the tasks will be performed.

CONSORTIUM.
A group of state agencies, institutions, or other entities which have been legally constituted through letters of commitment, agreements, or by assignment of higher authorities to work together toward the solution of problems in education. A consortium, for the purposes of this work, must have membership from autonomous agencies and institutions which cut across state boundaries as they attempt to solve problems or meet goals.
CRITERION-REFERENCED MEASURES.
An evaluative procedure used to determine if a student has mastered a performance objective.

CROSS-REFERENCE TABLE.
A table that identifies the relationship among duties and tasks found in the occupational inventory and the performance objectives in the final catalog. Also noted are percentages of incumbents performing the tasks by D.O.T.

CURRICULUM GUIDE.
An instructional resource developed from a V-TECS catalog to guide CBVE for an occupation.

DICTIONARY OF OCCUPATIONAL TITLES (D.O.T.).
A document published by the U.S. Department of Labor, Employment and Training Administration. This publication groups occupations into systematic occupational classification structures based on interrelationships of job tasks and requirements.

DISTRACTORS.
An incorrect response to a multiple-choice or true/false test item.

DOMAIN (OCCUPATIONAL DOMAIN).
A group of job titles that are related on the basis of required skills and knowledge.

D.O.T. CODE.
A nine-digit number used to identify a specific job within a given calendar year.

DUTY.
A cluster of related tasks performed by incumbent workers in an occupational domain.

ENABLING OBJECTIVE.
An objective related to background knowledge or skills that are prerequisite to the mastery of a given task.

FIELD-TEST.
The process of using and refining drafts of V-TECS materials for the purpose of identifying content errors or technical problems.

GUIDE SHEET.
Instructional information including the duty, performance objective, task, performance of standard, survey of standard, conditions for performance of tasks, enabling objectives, resources, teaching activities, criterion-references measures, and performance guide.

JOB.
A group of tasks performed by a job incumbent.

JOB INCUMBENT.
An individual who is currently employed in an occupation.
OCCUPATIONAL ANALYSIS (Task Analysis).
The process of reviewing elements of a job for the purpose of improving training program content across program levels of vocational-technical education.

OCCUPATIONAL INVENTORY (Task Inventory Booklet).
A survey instrument listing tasks performed and tools and equipment used by job incumbents in an occupational domain.

OCCUPATIONAL SURVEY.
The procedures for collecting data to identify the duties and tasks that comprise one or more jobs, job types, or career field ladders for the collection and analysis of information concerning such duties.

O.E./CIP CODE.
A code developed by the U.S. Office of Education to identify a specific cluster of related jobs for training program identification.

PERFORMANCE-BASED INSTRUCTION.
Instruction which required the learners' demonstration of specific competencies. The desired abilities are selected before the instruction is described and are clearly defined as observable performance objectives.

PERFORMANCE CHECKLIST.
A list of performance steps derived from the performance guide to record acceptable or unacceptable performance of each step of a task.

PERFORMANCE GUIDE (PG).
A series of steps required for performance of a task arranged in the sequence ordinarily followed.

PERFORMANCE OBJECTIVE (PO).
A statement, in precise measurable terms, of a particular behavior to be exhibited by a learner under specified conditions, including a standard of performance.

PSYCHOMOTOR.
Skills which emphasize manipulation of material or tools.

QUALITY REVIEW.
A review of content by V-TECS staff or designated representative to examine quality of content, format, and style of V-TECS product(s).

RESOURCES.
Materials which are used to develop instruction and/or learner-specific objectives.

SOURCE OF STANDARD.
A person or origin from which the information establishing the standard is received.

STANDARD.
The criteria used to determine if a task has been successfully or unsuccessfully performed.
STATE-OF-THE-ART REFERENCE.
Current materials from which information or resources can be found to facilitate instruction.

STATE-OF-THE-ART (SOA) STUDY.
Research conducted to determine the current status of performance-based instructional materials and practices in the domain area under study and to obtain other information that might be useful in catalog development.

SUBJECT-MATTER EXPERT.
A highly experienced person, job incumbent instructor, who assists in identifying task performance steps, skills, and knowledge necessary to perform the job.

TASK.
A unit of work activity which constitutes logical and necessary steps in the performance of a duty. A task has a definite beginning and ending point in its accomplishments and generally consists of two or more definite steps.

TASK ANALYSIS.
The process of reviewing elements of a job for the purpose of improving training program content across program levels of vocational technical education.

TASK CRITICALITY.
That aspect of a task statement which makes its accomplishment crucial to the acceptable performance of a worker or student.

TASK LIST.
A list of tasks performed by incumbents in a specific occupation domain.

TEACHING ACTIVITIES.
Methods and/or procedures for delivering instructional content to students.

TEST-ITEM BANK.
A collection of criterion-referenced test items coded for input and retrieval by computer or manual methods.

VALIDATION.
The process of assuring that all aspects of an occupational task analysis identifies the skills, knowledge, and attitudes performed in the occupation.

VERIFICATION.
The procedure of collecting data to substantiate an existing product; for example, task list verification.

V-TECS.
An acronym representing: Vocational-Technical Education Consortium of States; 795 Peachtree Street, N.E., Atlanta, Georgia 30365.

V-TECS CATALOG.
WORKING CONDITIONS.
The atmospheric and environmental conditions under which a worker performs a specific job.

WRITING TEAM.
A team of people representing instructors with subject matter expertise; persons having knowledge and experience in developing criterion-referenced measures; local or state supervisors in the domain being developed; workers and supervisors of incumbent workers whose function is to analyze occupational data and develop performance objectives for specific D.O.T. areas.
