This set of collection development guidelines is the response of an academic library to the question of when and where it is most advantageous to provide access to information through resource sharing in lieu of ownership. A Collection Development Committee, appointed by the dean of the university and guided by a self-study format provided by the Association of Research Libraries, collaborated over a two-year period to develop these guidelines concerning the question of ownership. The guidelines include: (1) an introduction with a statement of purpose; (2) a policy statement outline describing its purpose and emphasis, collection parameters, collecting levels, related subject statements, and additional sources (outside libraries or resource centers with special collections); (3) collecting levels and language codes; (4) mission statement of the library; (5) gift policy; (6) a description of the various university libraries in light of the policy statement components; and (7) policy collection statements for each of the university libraries and departments. While most individuals are familiar with the often repeated observation that our society is moving from the Industrial Age into an Information Age, few realize the full implications of such a dramatic shift. The technological advances fueling this transition are simultaneously creating both new information and new methods of information processing. Such a rapidly evolving and turbulent environment requires adaptive responses from all society's established organizations, especially from the traditional repositories of organized knowledge: our libraries.

The bibliographic universe in which librarians toil is increasing exponentially in both size and expense. For example, the number of active journal titles increased from 40,000 in 1974 to 110,000 in 1988, and the average domestic subscription price rose from $35 in 1975 to $125 in 1988. Also, the variety of information formats has expanded greatly, requiring libraries to possess an array of requisite hardware to receive or display uniquely formatted information.

In such an environment, the concept of developing comprehensive library collections is untenable. Likewise, the traditional reactive posture, of making incremental adjustments in library budgets and collections, is inappropriate for a period of rapid change. Today's challenges to libraries must be met in a proactive posture that addresses the question of foremost concern: When and where is it most advantageous to provide access to information through resource sharing in lieu of ownership?

The SMSU Libraries commenced seeking answers to this question two years ago. Guided by a self-study format provided by the Association of Research Libraries, the University Library Committee and our librarians analyzed library collections, the rapidly expanding curriculum and student body, graduate and faculty research requirements, and the fiscal resources available for developing collections. These Collection Development Guidelines represent both a culmination of two years' collaborative efforts and an initial formal response to the question of ownership. It is envisioned that this working document will be refined with use and modified to reflect curricular and program changes.

The value of these Guidelines, however, goes far beyond their ostensible role of directing library acquisitions at SMSU. It is quite conceivable that, as Missouri's libraries continue to automate their respective
catalogs and commence utilizing telefacsimile technology for document delivery, these Guidelines will be merged with other similar institutional documents to permit state-wide cooperative collection development and planned resource sharing.

The preparation of these Guidelines could not have been possible without the tireless collaboration and support of the SMSU departmental library representatives, the college library committees, the university library committee, and our librarians. Additionally, four individuals made immeasurable contributions to this project and are due special recognition: Professors Bobby Vaught, Kathy Pulley, Lynn Cline and Dina Giambi. On behalf of the SMSU Libraries, I wish to express appreciation to all mentioned above as well as to those who will assist us in implementing these Guidelines.

John M. Meador, Jr.
Dean of Library Services

INTRODUCTION

These COLLECTION DEVELOPMENT GUIDELINES have a two-fold purpose: to serve as a guide to the long term development and growth of materials collections, and to serve as one of several components in the allocation of resources to build the collections. The GUIDELINES are the product of a long felt need, and culminate two years of intense analysis. In 1986 the SMSU Libraries, in conjunction with the Office of Management Studies of the Association of Research Libraries, began to study a number of library operations dealing with collection development, the allocation of resources, and the acquisition of materials. Through the efforts of a study team and two task forces, that work culminated in a COLLECTION ANALYSIS PROJECT FINAL REPORT. The report contained twenty-eight specific recommendations in four general categories, two of which were:

E.1. "A Collection Development Committee should be appointed by the Dean to oversee the writing of collection development policy statements, to monitor policies on an ongoing basis, and to explore other major issues of collection development."

D.6. "The Dean should select members of the Collection Development Committee to serve as college liaisons with specific responsibilities for communicating Library matters to the various departments within a college and serving as a focal point for faculty communication to the Library."

In the fall of 1987, the Dean of Library Services appointed six Library faculty as liaisons to comprise the Collection Development Committee, and charged the Committee to begin work on collection policy statements. The Committee worked with the Dean, the University Library Committee, the departmental Library representatives, and the University faculty to create this document. The GUIDELINES emerged from an orderly information gathering process with the above mentioned constituencies as well as information from a number of printed sources including the SMSU BULLETIN, THE GRADUATE CATALOG, and the FIVE YEAR PLAN FOR SMSU. In order to insure consistency with national standards the Committee has followed the methodology of the GUIDELINES FOR COLLECTION DEVELOPMENT (Chicago: American Library Association, 1979) and the GUIDE FOR WRITTEN COLLECTION POLICY STATEMENTS, 2nd ed. (draft, Collection Management and Development Committee, American Library Association, 1988). Two additional documents were generated in the Committee's work that provided information about the nature of the Library's collections: the LIST OF SERIALS CURRENTLY RECEIVED BY THE SMSU LIBRARIES and the SMSU LIBRARIES SHELFLIST COUNT.

By their very nature collection policy statements are an ongoing, evolving endeavor. The Committee has attempted to format the policies to provide succinct information about collections in general through the descriptive statements concerning the Meyer and branch libraries, and more specifically through the departmental statements. The statements will be useful only if they can be easily amended to meet changing emphases or programs in the future, a task which both the Libraries and the University community share.
Purpose and Emphasis. Defines the programs, clientele, degrees offered, and concentrations within each academic department. Only programs which are already in place or newly approved are listed in the statement. Only majors are listed unless the department offers a minor only, or unless the minor is not offered as a major. The Meyer Library is the principal collecting unit, unless otherwise stated.

Collection Parameters

Language: Indicates the language priorities of material collected by each department. (See page xiii for explanations of the codes assigned as defined by the American Library Association's GUIDE FOR WRITTEN COLLECTION POLICY STATEMENTS.)

Date of Publication: Refers to current, retrospective, or specific date of publication.

Chronological Coverage: Refers to the periods in time, in terms of intellectual content, which are of greatest interest to the department.

Geographic Coverage: Indicates extent of interest on the local, national, or international levels. This can be in terms of intellectual content or publication source.

Format: Refers to books or monographs, journals, audiovisuals, and other formats. Microforms are not mentioned unless collected as a conscious decision, such as a special series.

Treatment: Refers to level of materials as needed by lower or upper division undergraduates, graduate students, or researchers. Also refers to the presentation of the subject content -- for example, conference proceedings, association publications, statistical publications, etc.

Collecting Levels. A collecting level is assigned to each of the areas of concentration mentioned in the Purpose and Emphasis paragraph. The levels assigned reflect current collection strengths and collecting activity, which may be different from levels toward which the individual departments and the Library strive. Levels were assigned taking into account other parts of the department's collection statement, the types and levels of programs supported by the department, and the shelflist count. (See page x for an explanation of the levels as defined in the American Library Association's GUIDE FOR WRITTEN COLLECTION POLICY STATEMENTS.

Related Subject Statements. Refers to other departmental policy statements which are related to the one being described. The departments are listed in alphabetical order.

Additional Sources. In general, this refers to non-SMSU Libraries or to resource centers having special collections. Although not specifically
POLICY STATEMENT OUTLINE

Purpose and Emphasis. Defines the programs, clientele, degrees offered, and concentrations within each academic department. Only programs which are already in place or newly approved are listed in the statement. Only majors are listed unless the department offers a minor only, or unless the minor is not offered as a major. The Meyer Library is the principal collecting unit, unless otherwise stated.

Library of Congress (LC) Classes Which Define the Subject. Relevant LC classes are listed in order of importance to the particular department being described.

COLLECTING LEVELS

0 Out of Scope. The library does not collect in this subject.

1 Minimal Level. A subject area in which few selections are made beyond very basic works. [A collection at this level is frequently and systematically reviewed for currency of information. Superseded editions and titles containing outdated information are withdrawn.]

1a Minimal Level, With Uneven Coverage. Few selections are made, and there is unsystematic representation of subject.

x
1b Few selections are made, but basic authors, some core works, or a spectrum of ideological views are represented.

2 Basic Information. A selective collection of materials that serves to introduce and define a subject and to indicate the varieties of information available elsewhere. It may include dictionaries, encyclopedias, access to appropriate bibliographic databases, selected editions of important works, historical surveys, bibliographies, handbooks, and a few major periodicals. [The collection is frequently and systematically reviewed for currency of information.]

2a Basic Information Level, Introductory. The emphasis is on providing resources that introduce and define a subject. A collection at this level would include basic reference tools and explanatory works, such as textbooks; historical descriptions of the subject's development; general works devoted to major topics and figures in the field; and selective major periodicals.

The introductory level of a basic information collection is only sufficient to support patrons attempting to locate general information about a subject or students enrolled in introductory level courses.

2b Basic Information Level, Advanced. At the advanced level, basic information about a subject is provided on a wider range of topics and with more depth. There is a broader selection of basic explanatory works, historical descriptions, reference tools, and periodicals that serve to introduce and define a subject.

An advanced basic information level is sufficient to support students in basic courses as well as supporting the basic information needs of patrons in public and special libraries.

3 Study or Instructional Support Level. A collection that is adequate to impart and maintain knowledge about a subject in a systematic way but at a level of less than research intensity. The collection includes a wide range of basic works in appropriate formats, a significant number of "classic" retrospective materials, complete collections of the works of more important writers, selections from the works of secondary writers, a selection of representative journals, access to appropriate non-bibliographic data bases, and the reference tools and fundamental bibliographical apparatus pertaining to the subject. [The collection is systematically reviewed for currency of information and to assure that essential and significant information is retained.]

At the study or instructional support level, a collection is adequate to support independent study and most learning needs of the clientele of public and special libraries, as well as undergraduate and some graduate instruction.

3a Study or Instructional Support Level, Introductory. This sub-division of a level 3 collection provides resources adequate
for imparting and maintaining knowledge about the basic or primary
topics of a subject area. The collection includes a broad range of
basic works in appropriate formats, "classic" retrospective
materials, all key journals on primary topics, selected journals
and seminal works on secondary topics, access to appropriate
non-bibliographic databases, and the reference tools and
fundamental bibliographical apparatus pertaining to the subject.

This sub-division of level 3 supports undergraduate courses,
including advanced undergraduate courses, as well as most
independent study needs of the clientele of public and special
libraries. It is not adequate to support master's degree programs.

3b Study or Instructional Support Level, Advanced. The advanced
sub-division of level 3 provides resources adequate for imparting
and maintaining knowledge about the primary and secondary topics of
a subject area. The collection includes a significant number of
seminal works and journals on the primary and secondary topics in
the field; a significant number of retrospective materials; a
substantial collection of works by secondary figures; works that
provide more in-depth discussions of research, techniques, and
evaluation; access to appropriate non-bibliographic databases; and
reference tools and fundamental bibliographic apparatus pertaining
to the subject.

This level supports all courses of undergraduate study and master's
degree programs as well as the more advanced independent study
needs of the patrons of public and special libraries.

4 Research Level. A collection that includes the major published
source materials required for dissertation and independent
research, including materials containing research reporting new
findings, scientific experimental results, and other information
useful to researchers. It is intended to include all important
reference works and a wide selection of specialized monographs, as
well as a very extensive collection of journals and major indexing
and abstracting services in the field. Pertinent foreign language
materials are included. Older material is retained for historical
research and actively preserved.

A collection at this level supports doctoral and other original
research.

5 Comprehensive Level. A collection in which a library endeavors, so far
as it is reasonably possible, to include all significant works of
recorded knowledge (publications, manuscripts, other forms), in all
applicable languages, for a necessarily defined and limited field. This
level of collection intensity is one that maintains a "special
collection"; the a.m., if not the achievement, is exhaustiveness. Older
material is retained for historical research with active preservation
efforts.
LANGUAGE CODES

E   English. English language material predominates; little or no foreign language material is in the collection.

F   Selected non-English Language. Selected other language material is included in addition to the English language material.

W   Wide Selection Languages. Wide selection of material in all applicable languages. No programmatic decision is made to restrict materials according to language.

v   One non-English Language. Material is primarily in one non-English language. The overall focus is on collecting material in the vernacular of the area.

The Collecting Levels and Language Codes are from the GUIDE FOR WRITTEN COLLECTION POLICY STATEMENTS, 2nd ed. (draft, Collection Management and Development Committee, American Library Association, 1988).
The mission of the S.M.S.U. Libraries is to provide and organize a collection of books and other recorded materials sufficient to support the scholarship, teaching and research programs of the University and to provide access to needed information located elsewhere. The Libraries direct their services and programs primarily to the students, faculty, and staff of the University and secondarily to the citizens of the state and other institutions of higher education, both within the state and the nation.

The University Libraries carry out this mission by pursuing the following objectives:

1. Acquire recorded information and provide services pertinent to the academic and research needs of the University as determined through regular contact with teaching faculty and University administrators, and through regular monitoring of the changing academic programs of the University.

2. Develop and maintain in adequate number a strong service-oriented staff through planned recruitment, orientation, in-service training, and opportunity for specialization and personal growth.

3. Utilize state-of-the-art technologies to provide bibliographic or catalog access to all materials held by the Libraries.

4. Provide reference and orientation services and materials to guide patrons in the use of the Libraries' collections.

5. Organize and house library materials and services in ways that will best facilitate use by patrons.

6. Maintain constructive working relationships with other libraries to enhance access to resources and to effect the development of mutually advantageous cooperation in collection development policies and interlibrary exchange.

7. Maintain materials in good physical condition through an active binding and preservation program.

8. Monitor utilization of the Libraries' budgetary resources and husband their use through such activities as thoughtful expenditure, adoption of efficient procedures, and the judicious use of new technologies.

*From Library Services Program Plans for FY 1988-90
GIFT POLICY

The SMSU Libraries welcome gifts of books, periodicals, other library materials, or money to support their programs and services. Monetary gifts can be made to the FRIENDS OF THE LIBRARIES, SMSU FOUNDATION, Box 175 Library, Southwest Missouri State University, Springfield, MO 65804-0095. The Friends of the Libraries is an auxiliary service organization whose purpose is to promote and support the activities of the SMSU Libraries.

All gifts of library materials are accepted with the understanding that upon receipt they become the property of the Friends of the Libraries. Library personnel then assess the materials, and based upon the COLLECTION DEVELOPMENT GUIDELINES, determine appropriate disposition of materials, including the retention, cataloging, location, circulation, and other considerations relating to use or disposition. Once a decision has been made to add an item to the Libraries' collections, the material becomes the property of the University. Materials not added to collections are placed in the annual Friends of the Libraries sale. Proceeds from the sale support various Library programs and services.

Appropriate acknowledgement of all gifts is made on behalf of the Friends of the Libraries. In addition the Library will provide, upon request, an enumeration of materials received. However, the appraisal of a gift to the Libraries is the responsibility of the donor. The Library will gladly provide assistance in locating sources of information for evaluation of gifts, and will provide a list of professional appraisers in this region.
The SMSU Libraries are comprised of the Meyer Library, the Greenwood Laboratory School Library, and the Music Library. Other independent Libraries in the SMSU community are the Department of Art and Design Slide Library, the SMSU-West Plains Library and the SMSU Fruit Experiment Station Library.

As the principal unit of the SMSU Libraries, the Meyer Library contains the central Library administration as well as general public and technical services. The circulating book collection and periodicals collections are housed in the Meyer Library and the Library Annex. In addition, the Meyer Library houses the Audiovisuals Software Collection, the Curriculum Laboratory, the Government Documents and Map Collections, Reference, and Special Collections.

AUDIOVISUALS

Purpose and Emphasis. The purpose of the Audiovisuals Collection is to provide instructional support for the undergraduate and graduate programs of the University, and provide audiovisual research materials when appropriate materials are available. It is not intended to duplicate other specialized collections such as those in the Music Library and the Art Department Slide Library. The Audiovisuals Collection is mainly comprised of adult-level titles, but also includes a representative sampling of juvenile materials.

Collection Parameters.

Language: Code level E. English is the predominant language.

Date of Publication: Current material, not more than five years old, is preferred. Some reissues of classic works are also collected.

Chronological Coverage: Materials covering all historical periods are collected; however, the main emphasis is on current events and information.

Geographic Coverage: Worldwide, subject to the language parameters stated above.

Format: Materials in the following formats are collected: 16mm and 8mm films, 1/2" VHS and 3/4" U-matic videocassettes, 35mm filmstrips, slides, 8mm and Super 8mm filmloops, audiocassettes, phonograph records (spoken word only), and kits combining any of the above. VHS videocassettes are the preferred visual format, although lack of video projection equipment presently makes 16mm films necessary for use by very large groups. Audiocassettes are the preferred audio format. All reel-to-reel video and audio tapes have been removed from the collection, and these formats are no longer
collected. In the future, compact laser disks and computer software may be added to the collection when the necessary equipment is available for their use.

Treatment: The main body of the collection is appropriate for use by undergraduate and graduate students, with some materials also useful to advanced researchers, and others designed for elementary and secondary students.

Collecting Levels. All subject areas are collected at least on a basic information level (2b). Most areas are also maintained at the study or instructional support level (3a).

Related Subject Statements. Because of its comprehensive subject coverage, the AV Collection is related to all other subject statements in this document.

Additional Sources. Art Department Slide Library.

LC Classes Which Define the Subject. A-Z, although the collection is arranged by format and accession number rather than subject classification.
I. JUVENILE LITERATURE.

Purpose and Emphasis. To support education and research in teacher education curricula in the College of Education and Psychology leading to the B.S. in Education degree and a variety of certification programs; to support a broad spectrum of courses offered by various departments across campus; and to serve as a laboratory collection for students studying to become certified teachers as well as Master teachers.

Collection Parameters.

Language: Code level E. English is the predominant language.

Date of Publication: Current, in-print publications as well as out-of-print editions of classic works.

Chronological coverage: Books representing the development of children's literature. Includes series books, award-winning titles, and adult books which have become juvenile favorites.

Geographic Coverage: Worldwide, with titles from other English-speaking countries and award-winning titles and other selected titles of English translations from other areas of the world.

Format: Monographs. Priority given to hardback copies with library binding taking precedence over trade binding. If the hardback edition is not available, the paperback edition may be acquired.

Treatment: Current works in the area of fiction and non-fiction for preschool through grade 12. Retrospective works acquired.

Collecting Levels. 3a.

Related Subject Statements. Art; Consumer and Family Studies; Elementary and Secondary Education; English; Greenwood; Health, Physical Education and Recreation; Library Science; Physics; Reading and Special Education; Theatre and Dance.

Dewey Classes Which Define the Subject. 000-999.
II. TEXTBOOKS AND CURRICULUM GUIDES.

Purpose and Emphasis. To support education and research in teacher education curricula in the College of Education and Psychology leading to the B.S. in Education degree and a variety of certification programs; to support a broad spectrum of courses offered by various departments across campus on both undergraduate and graduate levels.

Collection Parameters.

Language: Code level E. English is the predominant language.

Date of Publication: Current, in-print textbooks and curriculum materials. Nothing should be left in the collection with an imprint older than ten years from current date unless the material is still in print.

Chronological Coverage: Current developments.

Geographic Coverage: Local (Special effort is to be made to keep current with the Springfield Public Schools R-XII Curriculum), state, regional, and national.

Format: Textbooks and supplementary materials, curriculum guides, activity resource materials, microfiche. (See also Supplementary Collections III).

Treatment: Elementary and secondary textbooks and supplementary materials, resource guides, unit plans, lesson plans, examples of projects and descriptions of activity-centered materials.

Collecting Levels. 3a.

Related Subject Statements. Art; Consumer and Family Studies; Elementary and Secondary Education; Geography; Geology; Health, Physical Education and Recreation; Library Science; Physics; Reading and Special Education.

Additional Sources. College of Education and Psychology Resource Room in Hill Hall.

Classification Which Defines the Subject. HEW System of Classification A-Z.
III. SUPPLEMENTARY COLLECTIONS.

Purpose and Emphasis. To support education and research in teacher education curricula in the College of Education and Psychology leading to the B.S. in Education degree and a variety of certification programs; to support a broad spectrum of courses offered by various departments across campus on both undergraduate and graduate levels.

Collection Parameters.

Language: Code level E. English is the predominant language.

Date of Publication: Emphasis on current materials.

Chronological Coverage: Emphasis on current materials.

Geographic Coverage: Worldwide.

Format: Print materials (Vertical File Material, Poster File, Publishers Catalogs), graphics, realia. (Standardized Tests and Curriculum Kits are housed in Media Services--AV).

Treatment: Standardized diagnostic and achievement tests; games, activity cards, realia, posters, graphics, and print materials collections.

Collecting Levels. 3a.

Related Subject Statements. Elementary and Secondary Education, Reading and Special Education.

Additional Sources. College of Education and Psychology Resource Room in Hill Hall.

Classifications. All classes.
IV. YOUNG ADULT PAPERBACK COLLECTION.

Purpose and Emphasis. To support high school literature classes in the English Department and Library Science selection and reading guidance classes. The collection also serves as a general browsing collection for University students, faculty, and staff.

Collection Parameters.

Materials are not currently purchased for the collection.

The collection contains only those print materials in paperback editions.

Collecting Levels. 1b.

LC Classes Which Define the Subject. All classes are covered.
GOVERNMENT DOCUMENTS

The SMSU Libraries have been a depository for U.S. government documents since 1963. In addition the Libraries are a depository for Missouri documents, and collect the publications of the University itself. Most of the documents collection as well as documents services are housed in the Meyer Library. The remainder of the 600,000 items in the collection are maintained in the Library Annex. The documents collection complements the other major collections in Meyer Library and branches to provide curricular and research resources to the University community. As a depository, the Library receives most of its documents through depository arrangements; selected materials are purchased with Library materials funds. The collection parameters and collecting levels that follow reflect the current arrangements with state and federal depository programs.

Purpose and Emphasis. To provide government information to support the instructional and research needs of the University community, as well as the informational needs of the public within Missouri's 7th Congressional District. Because U.S. and Missouri documents are selected comprehensively from all government agencies, the subject concentrations reflect the publishing output of the agencies. SMSU documents are also received and maintained in the Government Documents area.

Collection Parameters.

Language: Code level E. English is the primary language.

Date of Publication: Primarily current, in-print publications; selective retrospective publications.

Chronological Coverage: For U.S. documents, coverage is primarily 1963 to present. However, there are 19th and early 20th century publications for selected government agencies which will be retained. For Missouri and SMSU documents, the coverage generally spans the 20th century, with primary emphasis on current developments.

Geographic Coverage: Primarily U.S. and Missouri; for some U.S. government materials, only those dealing with Missouri and its bordering states are selected.

Format: Paper and microfiche. Paper format includes books, reports, posters, brochures, pamphlets, maps, and journals.

Treatment: Government publications cover a broad spectrum of intellectual levels, from elementary school through graduate/faculty research. Indexes, conference proceedings, Congressional hearings, and Presidential papers are samples of the variety of government information. Certain types of government information which are generally excluded are posters and forms.

Related Subject Statements. Because of its comprehensive coverage, the Government Documents collection is related to most other subject statements in this handbook.

**LC Classes Which Define the Subject.** A-Z; comprehensive.
MAP COLLECTION

Purpose and Emphasis. To provide cartographic materials to support instruction and research in all academic programs, but especially in the following degree programs:

- B.S. in Geography, Cartography and Map Technology, Urban and Regional Planning.
- B.S. in Recreation and Leisure Studies (Outdoor Recreation and Natural Resource Management and Private/Commercial Recreation options).
- B.S. in Ed., in Geography, Earth Science, Geology.
- B.A. in Geography.
- M.S. in Resource Planning.

Cartographic materials are emphasized for the areas of topography, geology, mines and mineral resources, political science, outdoor recreation, and history.

Collection Parameters.

Language: Code level E. English is the primary language.

Date of Publication: Current, in-print publications; selective retrospective publications.

Chronological Coverage: Major interest is in twentieth-century cartographic materials, specifically in up-to-date, current information. Pre-1950 materials are collected selectively, and in facsimile, if possible.

Geographic Coverage: Worldwide, with special emphasis on the western United States, and in particular the Ozarks region of Missouri/Arkansas.

Format: Cartographic materials include maps, atlases, remote sensing imagery (e.g., aerial photographs, satellite imagery, radar imagery), globes, cartographic diagrams, bird's-eye views, panoramas, and geologic and other profiles and sections. Books relating to cartographic materials (e.g., gazetteers, glossaries, works on cartography and remote sensing, bibliographies, and explanatory texts for maps) are included. Maps in microform are included, as are manuscript maps. Brochures, catalogs, and other materials related to the tourism industry are included. Architectural plans are not included.

Treatment: The primary collection is of maps, atlases, aerial photographs, and travel materials, of which a substantial proportion are government documents. A broad range of materials from general interest to research level are collected.

Related Subject Statements. Elementary and Secondary Education; Geography; Geology; Health, Physical Education and Recreation; History; Library Science; Political Science.

LC Classes Which Define the Subject. G 1-9980 (Atlases, Maps), GA (Cartography), GE (Physical Geography), D-DU (World History), E (American History), F (History of North America), GV 1-200.5 (Recreation), QB 500-991 (Astronomy), QE (Geology).
The Reference Collection, located in the Reference Department at the Meyer Library, supports the work of the Department in providing reference services to facilitate the curricular and research needs of the entire University community. The services and collections of the Reference Department encompass a broad range of subjects at all levels, and are designed to provide primary information and data as well as to facilitate access to materials whether located in the SMSU Libraries or elsewhere. The branches and other divisions of the Meyer Library also have reference collections to provide specialized services to users of the Libraries.

**Collection Parameters.**

- **Language:** Code level E. English is the primary language, although material in any language may be appropriate for specific applications.
- **Date of Publication:** Primarily current, in-print publications; retrospective publications are selectively collected.
- **Chronological Coverage:** All time periods.
- **Geographic Coverage:** Worldwide.
- **Format:** Monographs, serials, microforms, and appropriate electronic sources.
- **Treatment:** Undergraduate, graduate, and research materials are collected. A variety of access tools are collected including encyclopedic works, directories, handbooks, indexes, loose-leaf services, and bibliographies.

**Collecting Levels.** General reference and areas supporting undergraduate programs, 3a; areas supporting master's programs, 3b.

**Related Subject Statements.** All subject statements are pertinent.

**LC Classes Which Define the Subject.** All LC classes.
SPECIAL COLLECTIONS

Special Collections contain a high proportion of literature and history, the William Jack Jones Collection of materials by and about Jean Arthur Rimbaud and Michel Butor, the Lena Wills Genealogical Collection, the Robert Wallace Collection, and the University Archives.

The materials in Special Collections have been selected in part through the significance of the materials to the University community as in the case of the Ozarks and Missouri materials in the general special collections, or through timely circumstances or opportunities as in the case of the Jones, Wills, and Wallace Collections. The Libraries carefully consider opportunities to acquire special or unusual materials, particularly those that have some relevance to the central focus of its mission. Special areas aside, inclusion of materials in Special Collections rests on a number of basic principles, including but not limited to date of publication or age, cost or unusual value, irreplaceability, rarity regardless of age, uniqueness of format, and security considerations.

Because in many instances a special collection is a self-contained homogeneous unit related to other special collections only by its mutually unique character, the parameters of language, chronological period, format, and treatment cannot be uniformly applied to materials in this area. The principal ongoing collection in Special Collections is the William Jack Jones Collection which is currently being collected at a level 4.
The purpose of the Greenwood Laboratory School Library is to provide library materials and services to support the curricular and outside reading interests of a K-12 environment for books, serials, audiovisuals, and selected microforms. As part of an education laboratory, the Library secondarily supports the curricular activities and research of Greenwood faculty, as well as faculty and students of the College of Education and Psychology.

Collection Parameters.

Language: Code level E. English language material predominates. Very selective purchasing in non-English, usually for reference or language instruction.

Date of Publication: Emphasis on current materials.

Chronological Coverage: All time spans in most areas; in scientific and technical areas emphasis on current materials.

Geographic Coverage: Worldwide.

Format: Monographs, journals, and audiovisuals. Other formats selectively purchased.

Treatment: Broad range of K-12 materials. Limited purchases of textbooks. Both materials to support basic research needs in the curriculum, and materials to foster outside reading are acquired. Audiovisuals are primarily curriculum based.

Collecting levels. All areas, 2a.

Related Subject Statements. Audiovisuals, Curriculum Laboratory (Juvenile materials), Elementary and Secondary Education, Reading and Special Education.

Dewey Classes Which Define the Subject. 000-999.
The Music Library, a branch of the SMSU Libraries, is the primary source for music and music literature in the SMSU Library system. In addition to monographs and journals relating to the field, the collection contains a number of specialized music materials including phonorecords, tapes, miniature scores, sheet music, performing scores and parts for operas and small ensembles, anthologies of music, tapes of SMSU performances, some curriculum materials, and other audiovisuals. The Music Library also contains a Listening Laboratory which provides curricular support for students of music. Some related music materials are currently housed in the Merer Library and the Library Annex.

The Missouri Music Educators Association Archives are also located in the Music Library. Materials about music educators, performers, and composers from Missouri or who reside in Missouri are contained in the collection. The Music Library also collects examples of music of the Ozarks region as well as the work of local composers and performers.

The Music Library provides resources and services to support instruction and research leading to the B.A. (Music), B.M. (Performance or Theory/Composition), B.S. Ed. (Music comprehensive), and M.S. Ed. (Music). The Music Library also serves the reference and research needs of the University, local community, and Ozarks region. A detailed description of the collection parameters for music materials may be found in the Department of Music's policy statement on page 83.
ACCOUNTING

Purpose and Emphasis. To support instruction and research in Accounting leading to the B.S. and M.A. in Accounting and the M.B.A. The Department supports concentrations in general accounting, internal auditing, accounting systems, taxation, managerial accounting, public accounting and accounting theory.

Collection Parameters.

Language: Code level E. English is the primary language.

Date of Publication: Primarily current, in-print publications.

Chronological Coverage: Primarily current; also, ca. 1800-current.

Geographic Coverage: All industrialized and industrializing nations and regions worldwide.

Format: Monographs and journals with emphasis on journals. Loose-leaf tax services are essential.

Treatment: Few textbooks at any level are desired. Collection should center on books and journals for upper-division undergraduate students, graduate students, faculty research, and professional and business practitioners. Conference proceedings, association publications—particularly those of the American Institute of Certified Public Accountants and the Financial Accounting Standards Board.

Collecting Levels.

General Accounting 3b
Accounting Theory 3b
Internal Auditing 3b
Accounting Systems 3b
Taxation 3b
Managerial Accounting 3b
Public Accounting 3b

LC Classes Which Define the Subject. HF 5601-5689 (Accounting), KF-KFX (Law), HG (Finance), HJ 9701-9995 (Public Accounting).
Purpose and Emphasis. To support instruction and research in Agriculture leading to the B.S. degree. Areas of concentration in instruction include: animal science, agricultural business, agronomy, horticulture, agricultural education, wildlife and conservation management, forestry, and agricultural communication. Areas of concentration in research include: animal and plant genetics, animal nutrition, small fruits, ornamental horticulture, poultry, birds of prey, soils, economics, entomology, and agricultural teacher education.

Collection Parameters.

Language: Code level E. English is the primary language.

Date of publication: Emphasis on current and recent (last twenty years) publications; selective retrospective collecting.

Chronological coverage: Emphasis on current developments; selective treatment of historical aspects of the subject.

Geographic coverage: Emphasis on North America; selective international coverage with emphasis on western Europe.

Format: Journals, monographs, audiovisuals.

Treatment: A variety of lower and upper division texts relating to the areas of concentration are collected, as are society and professional publications. Emphasis on applied as opposed to theoretical studies. A broad range of documents, both state and federal, support the program.

Collecting Levels.

Animal Science 3a
Agricultural Business 3a
Agronomy 3a
Horticulture 3a
Agricultural Education 3a
Wildlife Conservation and Management 3a
Forestry 3a
Agricultural Communications 3a
Animal and Plant Genetics 3b

Small Fruits 3b
Ornamental Horticulture 3b
Poultry 3b
Birds of Prey 3b
Soils 3b
Agricultural Economics 3b
Entomology 3b
Agricultural Teacher Education 3b
Related Subject Statements. Biology, Biomedical Sciences, Economics.

Additional Sources. SMSU Fruit Experiment Station Library.

LC Classes Which Define the Subject. S (Agriculture, General), SB (Plant Culture), SD (Forestry), SF (Animal Culture), SH (Fish Culture), SK (Hunting), HD 1401-2210 (Agricultural Economics), QD 241-441 (Organic Chemistry), QE (Geology), QH 75-77 (Conservation), QK (Botany), QL (Zoology), QP (Physiology), TH 4021-4970 (Building Construction), TJ 1480-1496 (Agricultural Machinery).
Purpose and Emphasis. To support instruction and research in Antiquities leading to the B.A. and to the M.A. in History. Areas of concentration include classics, Biblical studies, ancient Near Eastern history, new and old world archaeology, and world myth and folklore studies.

Collection Parameters.

Language: Code level W. English, Greek, Latin, Hebrew, Akkadian, Sumerian, Hittite, Egyptian (ancient), Ugaritic, Coptic, German, French, Spanish, Italian.

Date of Publication: Current, in-print publications and retrospective materials. Older materials are not usually superseded. Completing runs of journals; acquiring back files.

Chronological Coverage: From earliest times to present, as appropriate to the time period in each area (Classical, Near Eastern, New World).

Geographic Coverage: Mediterranean and Near Eastern area and Africa, tracing the origins of man's cultural awakening, plus the Indian cultures of Meso-America, North and South America.

Format: Monographs and journals. Some journals in microforms. Selected films and videocassettes for undergraduates.

Treatment: Ancient sacred and secular writings in the original languages and in English translations; archaeology (ancient Near Eastern biblical, classical, and American); history of ancient Near East; classical antiquity; Biblical scholarship; works of major religious thinkers and philosophers of antiquity; cross-disciplinary studies.

Purpose and Emphasis. To support instruction and research in Art leading to the B.A. in Art, the B.F.A. in Art or Design, and B.S. Ed. in Art; to support instruction in Art and Design to meet general requirements for other bachelor's degrees. Areas of concentration include art education, art history, ceramics, computer graphics, drawing, graphic design, metals/jewelry, painting, photography, printmaking, and sculpture. The Meyer Library is the main collecting unit for print materials and the departmental Slide Library for non-print materials.

Collection Parameters.

Language: Code level F. English is the primary language; however, selected other language material is included in addition to the English language material.

Date of Publication: Both current and retrospective materials are collected.

Chronological Coverage: From earliest times.

Geographic Coverage: Worldwide.

Format: Monographs; journals; audiovisuals with emphasis on slides, film, videocassettes.

Treatment: Upper-division materials are emphasized with attention to historical, critical, and applied aspects of the subject. Some attention is given to nonstandard sources such as museum or exhibition catalogs.

LC Classes Which Define the Subject. QL (Zoology), QK (Botany), QR (Microbiology), QH (Natural History), QM (Human Anatomy), QP (Physiology), SK 351-579 (Wildlife Management), SH (Aquaculture), SB 1-125 (Plant Culture), SD (Forestry), QE 701-996 (Paleontology), BF 180-299 (Experimental Psychology, Sensation), RA 1190-1270 (Toxicology), RV (Botanic Medicine).
Purpose and Emphasis. To support instruction and research in Biomedical Sciences leading to the B.S. (comprehensive) in Dietetics, B.A. and B.S. minors in Biomedical Sciences, B.S. minor in Exercise Science, and B.S. minor in Molecular Biology. Areas of concentration include human anatomy and physiology, neurophysiology, cell and molecular biology, molecular genetics, ultrastructure, developmental microanatomy, exercise physiology, genetic engineering and biotechnology, dietetics and nutrition, and virology. The Biomedical Sciences department provides service curricular support for departments offering programs in allied health fields such as medical technology, nursing, physical therapy, and radiologic technology, as well as courses for students with pre-professional interests in medicine, dentistry, pharmacy, and optometry.

Collection Parameters.

Language: Code level E. English is the primary language.

Date of Publication: Emphasis on current materials; retrospective material acquired to meet specific needs.

Chronological Coverage: Mostly current developments.

Geographic Coverage: Worldwide.

Format: Journals (primary emphasis), monographs, audiovisuals.

Treatment: Original research reports and publications of international and national organizations, conference and symposia proceedings, upper-level undergraduate and graduate materials.

Purpose and Emphasis. To support instruction and research in Chemistry leading to the B.S., B.S. Ed., and M.S. Ed. At the instructional level, emphases include professional chemistry, environmental chemistry, biochemistry, and chemical education. At the research level, emphases include analytical chemistry, biochemistry, inorganic chemistry, organic chemistry, physical chemistry, instrument chemistry, computer chemistry, and chemical education curriculum design.

Collection Parameters.

Language: Code level F. English is the primary language. German and French are selectively collected.

Date of Publication: Emphasis on current, in-print materials, but selected back issues of serials are collected.

Chronological Coverage: Emphasis on the last ten years.

Geographic Coverage: Worldwide publications subject to language restrictions.

Format: Journals, monographs.

Treatment: Upper-division and graduate texts. Society publications, conference proceedings, recent advances publications, symposia and technical reports, and reference collections of data and procedures. Abstracts of the journal literature are an essential component.

Collecting Levels.

Purpose and Emphasis. To support instruction and research in Communication Disorders leading to the B.S. and M.A. degrees. Areas of concentration include speech-language pathology, audiology, and hearing impaired. Research areas include speech and hearing science; psychoacoustics; aural rehabilitation; normal processes of speech and language; neuropathologies of communication; disorders of voice, fluency, phonology and child language; and education of the hearing impaired.

Collection Parameters.

Language: Code level E. English is the primary language.

Date of publication: Current, in-print publications.

Chronological Coverage: Emphasis on current developments and research.

Geographic Coverage: Primary emphasis on United States, selective international coverage.

Format: Emphasis on journals, selective collection of monographs, very selective collection of audiovisuals.

Treatment: Research level publications are emphasized, particularly journals. Selective purchase of current basic texts. Medical literature as it pertains to the subject is acquired. Historical treatment is not emphasized.

Collecting Levels.

LC Classes Which Define the subject. RF (Otorhinolaryngology), BF 311-499 (Cognition and Perception), BF 712-724 (Child Psychology), HV (Social Pathology), LB 1101-1139 (Child Development), LC 1390-5158
(Special Education), P 101-141 (Linguistics), QC 220-246 (Acoustics),
QM (Human Anatomy), QP 1-495 (Physiology).
Purpose and Emphasis. To support undergraduate and graduate instruction, student and faculty research in human communication, electronic media, persuasion/rhetoric, and public relations leading to the B.A., B.S., and M.A. in Communications. Areas of concentration in undergraduate instruction include: broadcasting, business and professional communication, cinema history and criticism, communication education, communication fundamentals, communication law and regulation, communication management, communication theory, cross-cultural communication, interpersonal communication, mass communication theory, media production and design, organizational communication, political communication, public relations, public speaking, research methodology, rhetoric and persuasion, small group communication, telecommunications and electronic media. Areas of concentration in graduate instruction include: communication management, communication theory and research, electronic media, methodology and critical analysis, and rhetorical studies.

Collection Parameters.

Language: Code level E. English is the primary language.

Date of Publication: Primarily current, in-print publications; selective retrospective acquisition of works important to classical rhetoric or seminal to the field.

Chronological Coverage: From Greco-Roman to the present; emphasis, however, on current developments.

Geographic Coverage: Emphasis on North America; selective international coverage with emphasis on western Europe and Pacific basin.

Format: Monographs, journals, audiovisuals.

Treatment: A variety of lower and upper-division texts are collected, along with annual books, society and professional publications, manuals and handbooks, and works devoted to criticism, theory-building, and surveys of research or professional practices. Applied and theoretical works receive equal emphasis.

LC Classes Which Define the Subject.  BF (Psychology), D (World History), H (Social Sciences), HA (Statistics), HC (Economic History), HD (Agriculture and Industry), HE 8689-8700 (Communications), HF 5601-5689 (Accounting), HM (Sociology), HQ (Family Studies), HX (Socialism), J (Political Science), JF & JK (Constitutional History and Administration), KF (Law), LB (Theory and Practice of Education), P (Philology and Linguistics), PN (Literature), PS (Plays), TR (Photography), Z (Library Science).
Purpose and Emphasis. To support instructional and research activities in Computer Information Systems leading to the B.S., B.A., and M.B.A. degrees. Areas of undergraduate concentration include the following options: (1) comprehensive Computer Information Systems major and the Computer Information Systems minor: programming, program design and development, systems analysis and design, management information systems, decision support systems, database management systems, COBOL programming, fourth generation languages, assembler programming, microcomputers, application software, and (2) Decision Analysis minor: quantitative methods, management science, beginning and advanced statistics—including parametric and non-parametric methods, analysis of variance, correlation and regression, time series and forecasting, and decision theory. Additional support is required for information systems management, project management, expert systems, knowledge systems, artificial intelligence and telecommunications.

Collection Parameters.

Language: Code level E. English is the primary language.

Date of Publication: Primarily current, in-print publications.

Chronological Coverage: Primarily current; also, c. 1950-current.

Geographic Coverage: All industrialized and industrializing nations and regions worldwide.

Format: Monographs and journals with emphasis on journals.

Treatment: Few textbooks at any level are desired. Collection should center on books and journals for upper-division undergraduate students, graduate students, faculty research, professional and business practitioners. Conference proceedings, association publications—particularly computer operating and software system manuals, are very important.

CONSUMER AND FAMILY STUDIES

Purpose and Emphasis. To support instruction and research in Consumer and Family Studies leading to the B.S. regular and the B.S. comprehensive, and the B.S. in Education (regular and vocational). Comprehensive specializations include: child and family development, clothing and textiles (including apparel design, production and merchandising, and fashion merchandising), hospitality and restaurant administration, housing and interior design (including residential design and contract design).

Collection Parameters.

Language: Code level F. English is the primary language; other languages selectively treated.

Date of Publication: Emphasis on current, in-print publications; selective coverage of retrospective material.

Geographic Coverage: Emphasis on the United States; selective international coverage, with emphasis on western Europe.

Format: Journals, monographs, and audiovisuals.

Treatment: Emphasis on studies of a current and applied nature. Professional and association publications are collected.

ECONOMICS

Purpose and Emphasis. To support instruction and research in Economics leading to the B.S., B.A., M.B.A., and M.P.A. Areas of concentration include microeconomic and macroeconomic theory, labor economics, international economics, public finance, industrial organization, economic growth and development, urban and regional economics (including location economics), the economics of money and banking (theory, history, and practice), economic history, and history of economic thought.

Collection Parameters.

Language: Code level E. English predominates.

Date of Publication: Current, in-print publications. Retrospective purchases in specialized subject areas, including: economic theory, labor history, and monetary history.

Chronological coverage: Historical items relevant to economic theory and practice, up to and including current developments in economics.

Geographic Coverage: The U.S., generally; European, Asian, and other regions for materials relating to statistics, policies, historical information, trade, etc.

Format: Monographs, journals, microforms.

Treatment: Upper-division texts and publications related to theory and policy, historical and comparative studies, and econometrics. Statistical publications from international organizations (e.g., UN, OECD, OAS) and from statistical offices of individual countries. Publications of professional economics associations. Lower-division texts, general surveys, and popular treatments are collected selectively as are some European and Asian language textbooks for the convenience of foreign students.

Collecting Levels.

EDUCATIONAL ADMINISTRATION

Purpose and Emphasis. To support instruction and research leading to the M.S. Ed. and Ed. S. degrees in Educational Administration. The degrees require studies specifically in the areas of school law, school finance, management, leadership, supervision, administrative theory, learning theory, instructional methods, school facilities, personnel, negotiations, policy making, curriculum, public relations, discipline, student personnel, student services, instructional management systems, communications, decision making, teacher evaluation and educational research.

Collection Parameters.

Language: Code level E. English is the primary language.

Date of Publication: Current, in-print publications; selective retrospective.

Chronological Coverage: Current developments.

Geographic Coverage: United States, primarily; Great Britain also.

Format: Monographs and journals; audiovisuals and microforms where appropriate.

Treatment: Primarily graduate-level publications, including textbooks and professional association publications; selected upper-division undergraduate materials.

Collecting Levels.

Related Subject Statements. Elementary and Secondary Education, Guidance and Counseling; Psychology; Reading and Special Education.

LC Classes Which Define the Subject. LB 2801-3095 (School Administration), LB 1025-1695 (Teaching), LB 2300-2430 (Higher Education), LB 3201-3325 (School Architecture), KF 4100-4258 (Educational Law), LC 1-6691 (Special Aspects of Education).
Purpose and Emphasis. To support and maintain instruction and research in Elementary and Secondary Education leading to B.S. and M.S. degrees in Education and provide supporting coursework for the Ed. S. degrees. Areas of emphasis include teaching methodologies in the elementary and secondary curriculum, educational philosophy and research, and educational media.

Collection Parameters.

Language: Code level E. English is the primary language.

Date of Publication: Current, in-print publications.

Chronological Coverage: Current developments and historical treatments.

Geographic Coverage: United States, with selected titles from other areas of the world.

Format: Monographs, journals, films, filmstrips, slides, instructional kits, videotapes and microforms when appropriate.

Treatment: Trade publications, upper-division and graduate level texts, statistical publications, research reports from professional associations, curriculum materials, juvenile literature and teaching aids.

Collecting Level:

Teaching Methodologies 3b
Educational Philosophy and Research 3b
Educational Media 3b

Related Subject Statements. Educational Administration, Guidance and Counseling, Reading and Special Education.

LC Classes Which Define the Subject. LB (Theory and Practice of Education), LD (Education in the United States), LA (History of Education), LC (Special Aspects of Education), KF 4100-4258 (Educational Law).
Purpose and Emphasis. To support instruction and research in the study of the English language and of literature written in or translated into English leading to the B.A., B.S. Ed., and M.A.; to support instruction in B.A. and B.S. Ed. minors in English, journalism, creative writing, and technical writing; to support undergraduate instruction in composition and literature to meet general education requirements; to provide a broad selection of literature in English for the University community's cultural and recreational enrichment. Areas of concentration include literature, linguistics, creative writing, journalism, and technical writing.

Collection Parameters.

Language: Code level F. English language material predominates. Selected other language material is included in addition to the English language material.

Date of Publication: Current, in-print publications as well as retrospective materials.

Chronological Coverage. From early English texts to contemporary writings.

Geographic Coverage: Worldwide, with emphasis on Great Britain and the United States.

Format: Primarily monographs and journals; audiovisual materials and microforms selectively collected.

Treatment: Various standard editions of literary texts or collected works as well as anthologies are collected, as are a variety of critical and biographical studies at both the undergraduate and research level. Research material dealing with rhetoric and composition and appropriate bibliographical tools are also collected.

Collecting Levels.

LC Classes Which Define the Subject. P-PZ (Language, Literature, Linguistics).
FINANCE AND GENERAL BUSINESS

Purpose and Emphasis. To support instruction at the undergraduate and Master’s level in Finance, Insurance, Banking, and Real Estate law. To acquire and maintain a collection of periodicals, books and other resource materials to facilitate research by the department's faculty and students. Areas of concentration include financial management, investments, insurance, banking, real estate, financial services, and business law.

Collection Parameters.

Language: Code level E. English is the primary language.

Date of Publication: Primarily current, in-print publications.

Chronological Coverage: Primarily current; also, c. 1900-present.

Geographic Coverage: All industrialized and industrializing nations and regions worldwide.

Format: Monographs and journals with more emphasis on journals.

Treatment: Few textbooks at any level are desired. Collection should center on books and journals for upper-division undergraduate students, graduate students, faculty research, and professional and business practitioners. Conference proceedings, association publications—particularly Financial Management Association, annual reports, looseleaf financial services, books of readings, and legal reference services, are important.

Collecting Levels.

Financial Services 3b
Banking 3b
Financial Management 3b
Insurance 3b
Investments 3b
Real Estate 3b
Business Law 3a

Related Subject Areas. Accounting, Communications, Computer Information Systems, Economics, Management, Marketing, Office Administration and Business Education, Political Science.

Additional Sources. Court of Appeals, Greene County Bar Association Library.

LC Classes Which Define the Subject. HG (Finance), HJ (Public Finance), HD 101-4730 (Agriculture and Industry), HF 5001-6351 (Business), HA (Statistics), HB (Economic Theory), HC (Economic History), KF-KFW (Law).
Foreign Languages

Purpose and Emphasis. To support instruction and research in French, German, Greek, Hebrew, Latin, and Spanish languages, literatures, and civilizations leading to the B.A., B.S., and B.S. in Education degrees with majors or minors in French, German, Latin, and Spanish; to support instruction in those areas to meet general education and Bachelor of Arts requirements and the Foreign Language component of individualized majors in international affairs and international business and other specialized majors and degrees. Special areas of emphasis, beyond those above, include Francophone, Canadian and Latin American studies, classical and comparative mythology, linguistics, and foreign language for business use.

Collection Parameters.

Language: Code level W. English, French, German, Hebrew, Latin, Spanish.

Date of Publication: Current and retrospective. Filling back files of journals. Older materials not superseded.

Chronological Coverage: From the third millennium to present.

Geographic Coverage: Eastern Mediterranean (especially Greece and Italy), South America, Spain, Germany, Quebec, Francophone countries in Africa, Switzerland, Belgium, and the Caribbean.

Format: Monographs and journals. Films and videocassettes.

Treatment: Standard editions of literary works in original languages and translation. Studies on history, philosophy, civilization, geography, art, architecture, and literature of Europe, South America, Quebec, ancient Italy and Greece, and the ancient Near East for beginning and advanced undergraduate and for professional readers. Studies in texts, literary criticism, biographies, linguistics, and general academic works dealing with foreign language teaching. Advanced materials for faculty research.

Collecting Levels.

Classics 3a
French 2b
German 2b
Spanish 2b
Francophone 2b
Canadian and Latin American Studies 2b
Classical and Comparative Mythology 3a
Linguistics 3a
Foreign Language for Business 2b

LC Classes Which Define the Subject. P (Philology and Linguistics), PA (Classical Languages and Literature), PB 1-431 (Modern Languages), PC 20G1-3761 (French Language), PD (Germanic Languages), PF 3001-5999 (German Language), PJ 4101-5809 (Middle Eastern Languages), PN 45-1009 (Literary History), PQ 1-9999 (Romance Literature), PT 1-4899 (German Literature), R 131-687 (History of Medicine), U 800-897 (Arms and Armor), B 69-5739 (History of Philosophy), BL (Religion and Mythology), BM (Judaism), DC (French History), DD (German History), DE (Greco-Roman History), DF (Greek History), DG (Italian History), DP (Spanish History), F 1000-3799 (North and South American History), GR (Folklore), GT (Manners and Customs), GV 557-1799 (Sports and Dance), HN (Social History), HQ (Family Studies), JX (International Law), CB (History of Civilization), CJ (Numismatics), CN (Inscriptions), Z 4-25 (History of Books), Z 40-115 (Writing).
Purpose and Emphasis. To support instruction and research in Geography leading to the B.S. or B.A. in Geography; the B.S. Ed. and the B.S. (comprehensive) in Geography-Urban and Regional Planning, or Cartography and Map Technology; and the M.S. in Resource Planning. Areas of concentration include urban, cultural, historical, economic, physical, and regional geography; atmospheric science; conservation; cartography, surveying and remote sensing; urban and regional planning; tourism and travel planning; and resource planning.

Collection Parameters.

Language: Code level E. English is the primary language.

Date of Publication: Primarily current.

Chronological Coverage: Primarily current.

Geographic Coverage: Worldwide.

Format: Journals, monographs, audiovisuals.

Collecting Levels.

Urban, Historical, Cultural, Economic, 3a
Physical, and Regional Geography
Atmospheric Science 3a
Conservation 3a
Cartography, Surveying, and Remote Sensing 3b
Urban and Regional Planning 3b
Tourism and Travel Planning 3a
Resource Planning 3b

Related Subject Statements. Agriculture; Art and Design; Biology; Chemistry; Computer Science; Economics; Geology; Health, Physical Education and Recreation; History; Industrial Technology; Physics; Political Science; Sociology, Anthropology and Social Work.

LC Classes Which Define the Subject. G (Geography), GA (Mathematical Geography and Cartography), GB (Physical Geography), GF (Anthropogeography), HF 1021-1029 (Commercial Geography), HT 390-395 (Regional Planning), TA 501-625 (Surveying), TR (Photography, including Remote Sensing and Photogrammetry), TA 1632 (Digital Image Processing), QC 851-999 (Meteorology).
Purpose and Emphasis. To support instruction and research in Geology leading to the B.S. in Geology or the B.S. Ed., and the M.S. in Resource Planning or the M.S. Ed. The Education degree has concentrations in natural science and earth science. Areas of emphasis in Geology include cartography, petroleum geology, mining, and resource management.

Collection Parameters.

Language: Code level F. Primarily English, with some German, Spanish, and French.

Date of Publication: Current and retrospective.

Chronological Coverage: No time limitations.

Geographic Coverage: The Ozarks, United States and North America, Europe, China, Australia, Soviet Union.

Format: Journals, monographs, audiovisuals.

Treatment: Upper-level undergraduate and graduate materials. Society publications, conference proceedings, technical reports, maps.

Collecting Levels.

Natural Science 3a
Earth Science 3a
Cartography 3b
Petroleum Geology 3a
Mining 3a
Resource Management 3b

Related Subject Statements. Biology, Chemistry, Geography.

LC Classes Which Define the Subject. QE (Geology), TN (Mining Engineering), GB (Physical Geography), GA (Cartography), TR (Photography), GC (Oceanography), QC 801-999 (Geophysics, Meteorology, Geomagnetism), TA 501-625 (Surveying), TA 705-710 (Engineering Geology).
GERONTOLOGY

Purpose and Emphasis. To support instruction and research in a number of interdisciplinary fields leading to the B.S. in Gerontology. General areas of concentration include the biological aspects of aging, the sociological and psychological aspects of aging, and the administration of programs dealing with the aged.

Collection Parameters.

Language: Code level E. English is the primary language.

Date of Publication: Primarily current, in-print publications.

Chronological Coverage: Emphasis on current developments; historical aspects selectively acquired.

Geographic Coverage: Worldwide, with special emphasis on the United States and other Western nations.

Format: Monographs and journals; audiovisuals selectively collected.

Treatment: A wide variety of studies is collected, particularly at upper-undergraduate and research levels. Quantitative, applied, and analytic studies from a number of sources are collected.

Collecting Levels.

Biological Aspects of Gerontology 3a
Sociological and Psychological Aspects of Gerontology 3a
Program Development in Gerontology 3a

Related Subject Statements. Biomedical Sciences; Consumer and Family Studies; Guidance and Counseling; Health, Physical Education and Recreation; Nursing; Psychology; Sociology, Anthropology and Social Work.

LC Classes Which Define the Subject. RC 952-954 (Geriatrics), BF (Psychology), GV (Recreation), HM (Sociology), HQ (Family Studies), HT (Community Studies), HV (Social and Public Welfare), QP (Physiology), RA (Public Health), RM (Therapeutics and Pharmacology).
GUIDANCE AND COUNSELING

Purpose and Emphasis. To support instruction and research leading to the M.S. in Guidance and Counseling (elementary and secondary school) with concentrations in career development, mental health, measurement, counseling theories and techniques, group counseling, human development, learning styles and counseling in non-school settings.

Collection Parameters.

Language: Code level E. English is the primary language.

Date of Publication: Current, in-print publications.

Chronological Coverage: Current developments and historical treatments.

Geographic Coverage: United States, primarily; Canada and Europe, selectively.

Format: Primarily monographs and journals; audiovisuals also.

Treatment: Graduate-level and upper-division undergraduate publications, including professional association materials and textbooks.

Collecting Levels.

Career Development 3b
Mental Health 3b
Measurement 3b
Counseling Theories and Techniques 3b
Group Counseling 3b
Human Development 3b
Learning Styles 3b
Counseling in Non-School Settings 3b

Related Subject Statements. Educational Administration; Elementary and Secondary Education; Psychology; Reading and Special Education; Sociology, Anthropology and Social Work.

LC Classes Which Define the Subject. LB 1025-1695 (Teaching), BF 1-1000 (Psychology), LB 3051 (Educational Testing), HF 5381-5382 (Vocational Guidance), HQ (Family Studies), HV (Social Pathology), RC 435-576 (Psychiatry), RJ (Pediatrics).
Purpose and Emphasis. To support instruction and research in physical education leading to the B.S. in Education in Physical Education, and the B.S. in Recreation and Leisure Studies, Medical Technology, Radiological Technology, and Respiratory Therapy. Emphases within physical education include exercise physiology, anatomy and kinesiology, motor learning, dance, teaching methodology, and the psychology, sociology, history and philosophy of sport. Areas of certification include coaching for non-physical education majors, driver education, health education and National Athletic Trainers Association. Areas of emphasis in Recreation and Leisure are: community recreation, outdoor recreation and natural resource management, private/commercial recreation, therapeutic recreation, senior adult and wellness.

Collection Parameters.

Language: Code level E. English is the primary language.

Date of publication: Current, in-print publications.

Chronological coverage: Emphasis on current developments.

Geographic coverage: Emphasis on North America; selective coverage of other areas.

Format: Journals, monographs, audiovisuals; very selective coverage of microforms where appropriate.

Treatment: Upper-division and graduate-level texts and journals. Society publications, conference proceedings and research reports from professional associations. Curriculum materials and microforms where appropriate. Materials of a general nature and updated sports publications from professional agencies.

Collecting Levels.

Anatomy 3b
Kinesiology 3b
Motor Learning 3b
Dance 3b
Teaching Methodology 3b
Sport 3b
Driver Education 3a
Recreation 3b
Wellness 3b
*Medical Technology 3a
*Radiological Technology 3a
*Respiratory Therapy 3a

*SMSU has entered into agreements with the schools at St. John's Regional Health Center (Springfield), St. John's Medical Center (Joplin), Cox Medical Center (Springfield), Research Medical Center
(Kansas City), and the Jewish Hospital of St. Louis whereby medical technology, radiologic technology, or respiratory therapy majors may complete their work at one of those schools. Students desiring to pursue any of the listed majors may secure preparatory training at SMSU.

Related Subject Statements. Biology; Biomedical Sciences; Educational Administration; Geography; Gerontology; History; Nursing; Psychology; Sociology, Anthropology and Social Work; Theatre and Dance.

Additional Sources. Burge School of Nursing Library, St. John's Doctors' Library.

LC Classes Which Define the Subject. GV (Recreation), RA 421-790 (Public Health), RC 7200-1245 (Sports Medicine), RC 86-88 (First Aid), RD 92-96 (Injuries), BF 712-724 (Child Psychology), QM (Human Anatomy), QP 1-348 (Physiology), G 155 (Tourism), HV 670 (Life Saving), SK (Hunting).
HISTORY

Purpose and Emphasis. To support instruction and research in History leading to the B.A., B.S. in Education (History or Comprehensive Social Studies Program), M.A., M.S. in Secondary Education (emphasis in History or Social Science Area). Areas of concentration include North America, Europe (including Great Britain and Russia), Asia, the Middle East, Oceana, the West Indies, and Latin America.

Collection Parameters.

Language: Code level F. English predominates; some Spanish, French and German.

Date of Publication: Current, in-print publications; considerable retrospective purchases; completing runs of journals; acquiring back files.

Chronological Coverage: From ancient times to the present.

Geographic Coverage: Emphasis on North America, Europe (including Great Britain and Russia), Asia, the Middle East, Oceana, the West Indies, and Latin America.

Format: Monographs, journals, and selected microforms. Selected films, filmstrips, videocassettes, and newspapers.

Treatment: Specialized monographs for research, and for graduate and undergraduate students. Also biographies, historical statistics, bibliographies, indexes, memoirs, autobiographies, diaries, reminiscences, newspapers, and government documents. Selected atlases, handbooks, publications of societies and associations (including transactions and proceedings). Very selective collecting of undergraduate textbooks, original sources, and manuscript collections.

Collecting Levels.

INDUSTRIAL TECHNOLOGY

Purpose and Emphasis. To support instruction and research leading to a B.S. in Industrial Technology, a B.S. Ed. and M.S. Ed. in Industrial Education or Vocational/Technical Education. Areas of concentration include construction, drafting and design, electricity-electronics, electromechanical, power and transportation, printing, manufacturing, and industrial management. Newly approved areas are design and drafting engineering technology, electronic engineering technology, manufacturing engineering technology, plastics engineering technology, and industrial distribution.

Collection Parameters.

Language: Code level E. English is the primary language.

Date of publication: Current, in-print publications.

Chronological Coverage: Emphasis on current developments.

Geographic Coverage: All levels.

Format: Journals, monographs, audiovisuals.

Treatment: Texts, both lower and upper division, are collected as they apply to the areas of concentration. Professional and trade publications and journals are acquired as are industrial standards, specifications, and codes of a variety of associations. Selective collecting of consumer-oriented texts and journals.

Collecting Levels.

NA 2699-4050 (Architecture), QA 76 (Computer Technology), Z 116-265 (Printing).
LIBRARY SCIENCE

Purpose and Emphasis. To support instruction and research leading to a Library Science minor on the B.A., B.F.A., B.S. Ed., and B.S. degrees. Areas of concentration include acquisitions, bibliographic control, library services and administration in support of curricula in school and academic librarianship, as well as the application of appropriate technologies in these areas.

Collection Parameters.

Language: Code level E. English is the primary language.

Date of Publication: Primarily current, in-print publications.

Geographic Coverage: Emphasis on the United States with selective coverage of other English-speaking countries.

Format: Monographs, journals, and selected microforms; selective AV coverage.

Treatment: Specialized monographs for research and instruction are collected. Texts are collected as they apply to the areas of concentration. Professional and trade publications, journals, and conference proceedings are acquired as they relate to the overall discipline.

Collecting Levels.

Library Acquisitions 2b
Bibliographic Control 3a
Library Services and Administration 3a
Library Technology 2b

Related Subject Statements. Elementary and Secondary Education, Management, Reading and Special Education.

LC Classes Which Define the Subject. Z 662-1000 (Library Science), LB 1025-1050 (Teaching Aspects of Library Science), LB 2800-3100 (Administration and Organization of Students).
MANAGEMENT

Purpose and Emphasis. To support instruction and research in Management leading to the B.S., B.A., and M.B.A. degrees. Areas of undergraduate concentration include the following options in the comprehensive Management major: Human Resources Management, Operations Management, Administrative Management, and Entrepreneurship. Minors offered to students pursuing either the B.S. or B.A. degree include Management, International Management, and Personnel Management/Industrial Relations. The department supports a concentration in Management for the M.B.A. degree.

Collection Parameters.

Language: Code level E. English is the primary language.

Date of Publication: Primarily current, in-print publications.

Chronological Coverage: Primarily current; also, c. 1800-current.

Geographic Coverage: All industrialized and industrializing nations and regions worldwide.

Format: Monographs and journals with emphasis on journals.

Treatment: Few textbooks at any level are desired. Collection should center on books and journals for upper-division undergraduate students, graduate students, faculty research, and professional and business practitioners. Conference proceedings, association publications--particularly American Management Association and the Academy of Management publications, are important.

Collecting Levels

General Management 3b
Human Resources Management 3b
Operations Management 3b
Administrative Management 3b
Entrepreneurship 3b
International Management 3b
Personnel Management/Industrial Relations 3b

MARKETING

Purpose and Emphasis. To support instruction and research in the area of Marketing leading to B.S., B.A., and M.B.A. degrees. Areas of undergraduate concentration include the following options in the Marketing comprehensive major: Marketing Management, Advertising and Promotion, Marketing Research, Sales/Sales Management, and Retailing/Merchandising. Minors offered to students pursuing either the B.S. or B.A. degree include Marketing, Retailing/Merchandising, and International Marketing. The department supports a concentration in Marketing for the M.B.A. degree.

Collection Parameters.

Language: Code level E. English is the primary language.

Date of Publication: Primarily current, in-print publications.

Chronological Coverage: Primarily current; also, c. 1900-current.

Geographic Coverage: All industrialized and industrializing nations and regions worldwide.

Format: Monographs, and journals with emphasis on journals.

Treatment: Few textbooks at any level are desired. Collection should center on books and journals for upper-division undergraduate students, graduate students, faculty research, and professional and business practitioners. Conference proceedings, association publications--particularly American Marketing Association publications, are important.

Collecting Levels.

Marketing 3b
Marketing Management 3b
Advertising and Promotion 3b
Marketing Research 3b
Sales/Sales Management 3b
Retailing/Merchandising 3b
International Marketing 3b

LC Classes Which Define the Subject. HF 5801-6191 (Advertising), HE (Transportation and Communication), HA (Statistics), HB 848-875 (Population Economics), HB 879-3700 (Demography), BF 1-1000 (Psychology), HD 5500-5506 (Labor), NC 997-1003 (Commercial Art).
MATHEMATICS

Purpose and Emphasis. To support a strong master's program, the research interests of the faculty, and quality undergraduate and graduate education in mathematics, leading to the B.A., B.S., B.S. Ed., M.A., and M.S. Ed. degrees. Areas of importance to graduate students and research-active faculty are: functional analysis, classical analysis, algebra, statistics, differential equations, and topology. Undergraduate materials are collected selectively.

Collection Parameter.

Language: Code level F. English is the primary language. German, French, Russian, and some other languages are selectively collected.

Date of Publication: Current and retrospective.

Chronological Coverage: From 1930 to the present with prime emphasis on current developments.

Geographic Coverage: Primarily English language materials of quality research worldwide.

Format: Journals and monographs.

Treatment: Graduate and undergraduate materials, society publications, symposia, proceedings, and mathematics departmental publications are collected.

Collecting Level.

- Functional Analysis 3b
- Classical Analysis 3b
- Algebra 3b
- Statistics 3b
- Differential Equations 3b
- Topology 3b

Related Subject Statements. Computer Science, Economics, Physics.

LC Classes Which Define the Subject. QA (Mathematics), HA (Statistics), BC 135 (Mathematical and Symbolic Logic).
MILITARY SCIENCE

Purpose and Emphasis. To support instruction in the Basic Course, the Advanced Course, and the minor in Military Science. Areas of concentration include military field skills and techniques, military organization and history, operations, tactics and leadership.

Collection Parameters.

Language: Code level E. English is the primary language.

Date of publication: Primary emphasis on current publications, selective retrospective purchasing.

Chronological coverage: Current developments and selective historical coverage with emphasis on military history.

Geographic Coverage: Emphasis on the United States, selective international coverage.

Format: Emphasis on monographs, selective journal coverage.

Treatment: A broad range of texts relating to the areas of concentration are collected. Emphasis on applied and historical treatment.

Collection Levels.

LC Classes Which Define the Subject. U (Military Science), V (Naval Science), D (World History), E (U.S. History), F (North and South American History), J (Political Science).
MUSIC

Purpose and Emphasis. To support instruction and research in Music leading to the B.A., B.S. in Ed., B.M., and M.S. in Ed. degrees. Areas of concentration include music theory/composition, vocal music, instrumental music (wind, brass, and percussion), string music, keyboard music, music history, and music education. The Music Library is the primary collecting unit. The Meyer Library supports only research in basic instructional needs.

Collection Parameters.

Language: Code level W. English, Latin, French, German, Italian, Spanish, Portuguese.

Date of Publication: Current, in-print publications and retrospective materials. Completing runs of journals and collected editions.

Chronological Coverage: All time periods.

Geographic Coverage: Worldwide publications with emphasis on western European and North American coverage of scholarly writings. Acquiring printed music of all cultures.

Format: Monographs; journals; and selected audiovisuals, including videocassettes, sound recordings and tapes. Other specialized formats include scores and sheet music.

Treatment: Lower and upper-division texts, annuals, international professional publications, works devoted to biographical research and theoretical concepts, educational methods and trends, performance practices, definitive performance scores, undergraduate and graduate materials.

Collecting Levels.

Music Theory/Composition 3b
Vocal Music 3b
Instrumental Music (Wind, Brass, and Percussion) 3b
String Music 3a
Keyboard Music 3a
Music History 3a
Music Education 3b

NURSING

Purpose and Emphasis. To support instruction leading to the B.S. in Nursing degree. Areas of concentration include nursing theory, nursing research, nursing history, nursing agency, nursing practice, nursing education, client education, legal-ethical considerations, nursing science, nursing responsibility, and the health care system.

Collection Parameters.

Language: Code level E. English is the primary language.

Date of Publication: Emphasis on current in-print publications; highly selective coverage of retrospective materials.

Chronological coverage: Emphasis on current developments with selective coverage of historical documents which demonstrate nursing's American and Ozarks heritage.

Geographic coverage: Primarily the United States and other English speaking countries.

Format: Emphasis on monographs and journals. Selective collecting of microforms when appropriate.

Treatment: A broad range of materials on the history, practice, and methodology of the subject are collected, including professional and association publications. Popular literature as it pertains to the field is selectively collected. Strictly medical literature is acquired on a very selective basis except as it applies to Nursing Science, particularly pathophysiology. A broad range of audiovisuals are acquired on a limited basis with very little collecting of kits, quick-reference, or loose-leaf services.

Related Subject Statements. Biology; Biomedical Sciences; Chemistry; Educational Administration; Health, Physical Education and Recreation; Management; Philosophy; Physics; Psychology; Sociology, Anthropology and Social Work.
Additional Sources. Burge School of Nursing Library, St. John's Doctors' Library.

LC Classes Which Define the Subject. RT (Nursing), RA (Public Health), RB (Pathology), RC (Internal Medicine), RM (Pharmacology), QM (Human Anatomy), QP 1-495 (Physiology), QR (Microbiology), BJ 1545-1691 (Ethics), HQ (Family Studies), HT (Communities).
Purpose and Emphasis. To support instruction, research, and service in Office Administration and Business Education leading to the B.S. M.S., and the M.B.A. General areas of concentration include word/information processing, records/information management, office management, and business teacher education (including methods of teaching). Specific areas of concentration are the following: international communications, office systems, medical office procedures, legal office procedures, office automation, information management, office systems analysis, vocational business education, occupational analysis, organizational communications, business communications, and research principles.

Collection Parameters.

Language: Code level E. English is the primary language.

Date of Publication: Primarily current, in-print publications.

Chronological Coverage: Primarily current.

Geographic Coverage: United States with selected international coverage.

Format: Monographs, and journals with emphasis on journals.

Treatment: Few textbooks at any level are desired. Primary emphasis is on books and journals for upper-division undergraduate students, graduate students, faculty research, and professional and business practitioners. Curriculum material is needed.

Collecting Levels.

Word/Information Processing 3b
Records/Information Management 3b
Office Management 3b
Business Teacher Education 3b

LC Classes Which Define the Subject. HD 1-100 (Industrial Management), HF 5001-6351 (Business), HG (Finance), Z 49-10? (Word Processing), QA 76 (Computer Technology), HE 7601-9715 (Telecommunications), LB 1603-1695 (Secondary Education), LC 5201-6691 (Adult Education), KF (Law), R (Medicine).
PHILOSOPHY

Purpose and Emphasis. To support instruction and research in Philosophy leading to the B.A. Areas of concentration include ethics, philosophy of science, philosophy of religion, history of Western philosophy, aesthetics, logic, metaphysics, epistemology, and Oriental philosophy.

Collection Parameters.

Language: Code level F. English predominates, some German.

Date of Publication: Current, in-print publications and retrospective material, including some back files and completing runs of journals.

Chronological Coverage: Classical Greek period to the present.

Geographic Coverage: Emphasis on Western philosophy with introductory surveys and original works on Eastern thought.

Format: Monographs, journals, selected microforms. Selected films and filmstrips for undergraduate teaching.

Treatment: Primary sources in English or English translation of major philosophers with interpretations. Original works on selected issues in philosophy, especially ethics and philosophy of science and American philosophy. Textbooks generally excluded.

Collecting Levels.

Ethics 3b
Philosophy of Science 3a
Philosophy of Religion 3a
History of Western Philosophy 3b
Aesthetics 3a
Logic 3a
Metaphysics 3a
Epistemology 3b
Oriental Philosophy 2b

Related Subject Statements. Art and Design; English; Religious Studies; Sociology, Anthropology and Social Work.

LC Classes Which Define the Subject. B (Philosophy), BJ (Ethics), BD (Speculative Philosophy), BH (Aesthetics), BC (Logic), BL (Religion and Mythology), BR (Christianity), BQ (Buddhism).
PHYSICS AND ASTRONOMY

Purpose and Emphasis. To support instruction and research leading to the B.S. in Physics or in Physics Engineering, the B.S. Ed. and the M.S. Ed. A minor is offered in Astronomy. Areas of concentration include electronics, optics, surface physics, physics education, history of physics, computers, astronomy, solid state physics, radiation physics, and applied physics.

Collection Parameters.

Language: Code level E. Primarily English.

Date of Publication: Current and retrospective.

Chronological Coverage: No limits.

Geographic Coverage: Worldwide, with emphasis on United States, Britain, and Europe.

Format: Monographs, journals, audiovisuals, microforms.

Treatment: Upper-division and graduate materials, some society publications, selected conference proceedings, advanced general interest books, basic science, and history of science.

Collecting Levels.

Electronics 3a
Optics 3a
Surface Physics 3a
Physics Education 3a
History of Physics 3a
Computers 3a
Astronomy 3a
Solid State Physics 3a
Radiation Physics 3a
Applied Physics 3a

Purpose and Emphasis. To support instruction and research in Political Science leading to the B.A., B.S.; and B.A., B.S. in Public Administration and M.P.A. Areas of concentration include U.S. government and politics, public administration, public policy, comparative government and politics, international relations, political theory, empirical political science, and public law.

Collection Parameters.

Language: Code level F. English predominates; other languages on a selective basis.

Date of Publication: Current, in-print publications emphasized; some retrospective material.

Chronological Coverage: Emphasis on the twentieth century with historical items relevant to theory.

Geographic Coverage: Emphasis on the United States with international coverage focusing on Europe, Soviet Bloc, Latin America, and the Middle East.

Format: Monographs, journals, microforms.

Treatment: A broad range of general and research studies at both the undergraduate and graduate level are collected, as are appropriate professional and society publications. Both theoretical and empirical or quantitative studies are collected.

Collecting Levels.

U.S. Government and Politics  3b
Public Administration       3b
Public Policy              3b
Comparative Government and Politics 3a
International Relations  3a
Political Theory           3a
Empirical Political Science 3a
Public Law                 3a

Related Subject Statements. Communications; Economics; Finance and General Business; History; Philosophy; Sociology, Anthropology and Social Work.

LC Classes Which Define the Subject. J (Political Science), K (Law), HJ (Public Finance).
PSYCHOLOGY

Purpose and Emphasis. To support instructional and research needs of the faculty, undergraduates working toward a B.A. or B.S. degree in Psychology, graduate students in related disciplines, and the needs of community professionals. Areas of concentration include applied, clinical, educational, developmental, experimental, measurement, and social psychology.

Collection Parameters.

Language: Code level E. English is the primary language.

Date of Publication: Generally current, in-print publications.

 Chronological Coverage: Primarily twentieth-century and current developments.

Geographic Coverage: United States, primarily with selected coverage of Europe and the Far East.

Format: Monographs, journals, audiovisuals.

Treatment: Upper-division undergraduate, graduate, and faculty-level publications are emphasized; specific interests in serials rather than monographs, such as "annual review of..." or "advances in..." series; technical and specialty textbooks are collected, but curriculum textbooks are excluded.

Collecting Levels.

- Applied Psychology 3a
- Clinical Psychology 3a
- Developmental Psychology 3a
- Educational Psychology 3a
- Experimental Psychology 2b
- Psychological Measurement 3a
- Social Psychology 3b

Related Subject Statements. Biomedical Sciences; Communication Disorders; Communications; Consumer and Family Studies; Elementary and Secondary Education; Guidance and Counseling; Health, Physical Education and Recreation; Management; Marketing; Nursing; Reading and Special Education; Religious Studies; Sociology, Anthropology and Social Work.

LC Classes Which Define the Subject. BF 1-1000 (Psychology), RC 450-470 (Clinical Psychology), HM 251-291 (Social Psychology), LB 1051-1091 (Educational Psychology), RC 435-576 (Psychiatry), HQ (Family Studies), RJ 499-507 (Child Psychiatry), QL 750-795 (Animal Behavior)
Purpose and Emphasis. To support instruction and research leading to the B.S. in Reading and Special Education, the M.S. in Reading and the M.S. in Special Education (Learning Disabilities, Mental Retardation) as well as research and instruction in the undergraduate service areas of Reading and Special Education. Areas of concentration include: reading, special education, learning disabilities, mental retardation, exceptional children, child language, language acquisition and development, study methods, educational research and measurement, children's literature and writing, rural education, multi-cultural education, and gifted education.

Collection Parameters.

Language: Code level E. English is the primary language.

Date of Publication: Current, in-print materials.

Chronological Coverage: Current developments, primarily; retrospective material added as needed.

Geographic Coverage: The United States, generally; English language materials of quality research from other countries.

Format: Monographs, journals, curriculum materials, instructional kits, and appropriate microforms.

Treatment: Trade publications, upper-division and graduate-level texts, statistical publications, research from professional and trade publishers, curriculum materials, juvenile literature, elementary texts related to reading and study methods. Selected teaching aids located in undergraduate non-print materials.

Collecting Levels.

Reading 3b

SOCIOLOGY, ANTHROPOLOGY AND SOCIAL WORK
SOCIOLOGY

Purpose and Emphasis. To support instruction and research in Sociology leading to the B.A., B.S., and M.S. in Education-Secondary Education (emphasis in Social Science Area). Areas of concentration include social problems, rural and urban community, research methodology, applied social research, the family, crime, deviance and corrections, criminal justice, social theory, race and ethnic issues, medical and health issues, social psychology, aging (gerontology), population, social change and social stratification.

Collection Parameters.

Language: Code level E. English predominates.

Date of Publication: Emphasis on current, in-print publications and those of the past ten years. A few classics are needed.

Chronological Coverage: Emphasis on American society and the world since World War II. Some historical analysis of current trends and problems is desirable.

Geographic Coverage: Worldwide with strong emphasis on the United States. Also interest in developing nations and social issues in the Third World.

Format: Monographs, journals, and microforms.

Treatment: Most monographs should be suitable for general undergraduate use. Monographs in contemporary theory and advanced research methods should be at the graduate level.

Collecting Levels.

Social Problems 3a
Rural and Urban Community 3b
Research Methodology 3b
Applied Social Research 3b
The Family 3a
Crime, Deviance and Corrections 3b
Criminal Justice 3b
Social Theory 3a

Social Stratification 3a

LC Classes Which Define the Subject. HM (Sociology), HN (Social History, Social Problems, Social Reform), HA (Statistics), HQ (Family Studies), HT (Communities), HV (Social Pathology), HX (Social Theory).
SOCIOLOGY, ANTHROPOLOGY AND SOCIAL WORK

ANTHROPOLOGY

Purpose and Emphasis. To support instruction and research in Anthropology leading to the Anthropology minor and individualized majors in Anthropology and the B.A. in Antiquities and to the B.S. and M.S. in Education-Secondary Education (emphasis in Social Science Area). Areas of concentration include physical (biological) anthropology, cultural anthropology (ethnology), archaeology (prehistory), and linguistics.

Collection Parameters.

Language: Code level F. English predominates, some German and French.

Date of Publication: Current, in-print publications and occasionally retrospective publications of significance.

Chronological Coverage: Prehistoric to the present.

Geographic Coverage: Worldwide, with emphasis on the West Indies (Caribbean), North American Indians, the prehistoric American Midwest and Southeast, the Ozarks, the Appalachians, the Near East/Middle East, Europe, and Africa.

Format: Monographs, journals; films, videocassettes and slide sets for undergraduates.

Treatment: Descriptive reports, theoretical works, cross-cultural studies, and collections of essays dealing with psychological anthropology, transcultural psychiatry, human evolution, primate behavior, the Third World (developing nations), Afro-American studies, cultural/human ecology, and comparative religions.

Collecting Levels.

Physical (Biological) Anthropology 3a
Cultural Anthropology (Ethnology) 3b
Archaeology (Prehistory) 3b
Linguistics 2b

Related Subject Statements. Biology, Geography, Geology, History, Psychology, Religious Studies, Sociology.

LC Classes Which Define the Subject. GN (Anthropology), GR (Folklore), CC (Archaeology), E 51-99 (North American Indians), BL 430 (Origins of Religion), F 1601-2183 (History of the West Indies), PJ (Mid-Eastern, Oriental Languages and Literatures), RC 321-571 (Psychiatry), BF 1001-1999 (Parapsychology), HM (Social History), D 880-888 (History of World War II), GF (Human Ecology), P (Philology and Linguistics).
SOCIOLoGY, ANTHROPOLOGY AND SOCIAL WORK
SOCIAL WORK

Purpose and Emphasis. To support instruction, research, and service in Social Work leading to the B.S. degree. Areas of concentration include direct social work practice, social work research, human behavior in the social environment, and social welfare policy.

Collection Parameters.

Language: Code level E. English predominates.

Date of Publication: Current, in-print publications; some retrospective purchases; complete runs of journals and acquiring back files.

Chronological Coverage: Contemporary developments.

Geographic Coverage: The United States with selected titles from other English-speaking areas of the world, particularly Great Britain, Canada, and India.

Format: Monographs, journals, selected microforms, and selected videocassettes and films.

Treatment: Specialized monographs and textbooks dealing with social work practices with individuals, families, groups, and communities. Also, child welfare services, medical social work, psychiatric social work, substance abuse, social work with the elderly and the physically and developmentally disabled.

Collecting Levels.

Direct Social Work Practice 3b
Social Work Research 3b
Human Behavior in the Social Environment 3b
Social Welfare Policy 3b

Related Subject Statements. Guidance and Counseling, Political Science, Psychology, Sociology.

LC Classes Which Define the Subject. HQ (Family Studies), HV (Social Pathology), HM (Sociology), HT (Communities), HN (Social History).
THEATRE AND DANCE

Purpose and Emphasis. To support instruction and research in Theatre, Performance Studies, and Dance leading to B.F.A. degrees in Theatre and Dance, B.A. degree in Theatre, B.S. Ed. degree in Speech and Theatre, and M.A. in Theatre. Areas of special emphasis include performance and acting studies, contemporary theatre, directing, management.

Collection Parameters.

Language: Code level F. Primarily English. Selected other languages in special works of reference and publications of mainly pictorial significance.

Date of Publication: Current, in-print publications and retrospective materials. Older materials are not usually superseded, and those that are become a historical record. Complete runs of journals are most important, especially those that contain records of productions as they take on historical significance.

Geographic Coverage: Mainly western culture from the Greeks to present time.

Format: Monographs and journals. Microfilms if not available otherwise. Selected videotapes of staged plays and great performances.

Treatment: Scores, scripts, and librettos as well as other dramatic texts and anthologies are collected. A variety of critical and biographical works at both the undergraduate and graduate level. Works on the technical aspects of stagecraft and other aspects of theatre management are also collected.

Collecting Levels.

Performance and Acting Studies 3b
Contemporary Theatre 3b
Directing 3a
Management 3a
