Two volumes of the 1987-88 Directory of Postsecondary Institutions list all postsecondary institutions in the United States and its outlying areas (American Samoa, Guam, Northern Marianas, Puerto Rico, Trust Territories' and the Virgin Islands) that were known to exist as of June 1988. There were 12,052 institutions: 2,652 colleges granting at least a bachelor's degree; 2,925 2-year schools; and 6,475 less-than-2-year institutions. The information presented for each institution includes its name, address, telephone number, 1986 fall enrollment, and tuition and fees and room and board charges for the 1987-88 academic year. Also included are control, highest level of offering, types of programs offered, and recognized accreditations. The directory presents data from the Integrated Postsecondary Education Data System Institutional Characteristics Survey. Volume 1 offers information on four-year and two-year institutions, and Volume 2 provides information on less-than-two-year institutions. Each has two appendices (1) changes in institutions of higher education 1986-88 (institutions added, reinstated, deleted, no longer accredited at the college level, merged, and listed by new names); and (2) a list of accrediting bodies recognized by the Secretary, U.S. Department of Education. Tables are included. (SM)

Foreword

The 1987–88 edition of the Directory of Postsecondary Institutions lists all postsecondary institutions in the United States and its outlying areas that were known to exist as of June 15, 1988.

The information presented for each institution includes its name, address (including ZIP code), telephone number, 1986 fall enrollment, and tuition and fees and room and board charges for the 1987-88 academic year. Also included are control, highest level of offering, types of programs offered, and recognized accreditations.

This edition of the directory presents data from the Integrated Postsecondary Education Data System (IPEDS) Institutional Characteristics Survey for 1987–88. A full explanation of the data can be found in the introduction to the Directory.

We would like to express our appreciation to the officials of the postsecondary institutions that responded to our request for data and to the coordination officials of the State education agencies who assisted in the data collection and the resolution of inconsistencies.

Introduction

The 1987-88 Directory of Postsecondary Institutions was developed by the National Center for Education Statistics (NCES) using information from the Integrated Postsecondary Education Data System (IPEDS). IPEDS encompasses all institutional providers of postsecondary education and gives a comprehensive description of the Nation's postsecondary education enterprise.

This directory lists all postsecondary education institutions in the 50 States, the District of Columbia, and the outlying areas. As of June 1988, there were 12,052 institutions: 2,652 colleges granting at least a bachelor's degree; 2,925 2-year schools; and 6,475 less-than-2-year institutions.

The information for each institution, presented by State, includes the name of the school, location (street or mailing address, city, and ZIP code), telephone number, the unit identification (UNITID) code, the Federal Interagency Committee on Education (FICE) code (if applicable), control, highest level of award offered, 1986 fall enrollment, and institutional accreditation. Also provided are tuition and fees required for full-time students and room and board charges, where applicable.

An (H) preceding the name indicates that the institution was accredited at the college level by an agency listed as nationally recognized by the Secretary, U.S. Department of Education, and that it was part of the Higher Education General Information Survey (HEGIS) universe. No attempt was made to verify accreditation status for this directory; verification will be conducted in the fall of 1988. The Division of Eligibility and Certification, in the Office of Postsecondary Education, determines which postsecondary schools are eligible to be classified as colleges and universities. (As of June 15, 1988, there were 3,586 colleges and universities and their branches listed as having recognized accreditation.) Additions, deletions, and other changes in the universe of colleges and universities from the 1986 Directory are in appendix A.

An asterisk (*) in an entry indicates that data were not reported.

Because of the large number of institutions and the diversity of their educational programs, this directory is published in two volumes. Volume I includes the 4-year and 2-year institutions and Volume II the less-than-2-year institutions.

Terms Used in the Directory

Postsecondary Institution

Included in the Directory are universities, colleges at the 4-year and 2-year levels, community colleges, technical institutes, business schools, and occupationally-oriented vocational schools. Postsecondary education is defined as the provision of formal instructional programs with curricula designed primarily for students who have completed the requirements for a high school diploma or its equivalent. This includes programs that are academic and lead toward a degree or other formal award; occupational or vocational programs that train and/or qualify the completer with specific job skills; and continuing professional education where additional skills are acquired in a specific field of study. Postsecondary education is not intended to include basic adult education or avocational programs such as those taken for personal interest or leisure.

Postsecondary education is conducted by a variety of providers; however, IPEDS is limited to those institutions and their branches with a primary purpose of providing postsecondary education. IPEDS includes data about the following providers:

1. Four-year-and-above institutions. Institutions or subsidiaries, with a primary purpose of providing postsecondary education, that award at least a 4-year degree or higher in one or more programs.

2. Two-year institutions. Institutions or subsidiaries that have a primary purpose of providing postsecondary education and that confer at least a 2-year formal award (certificate or associate's degree), or have a 2-year program that is creditable toward a baccalaureate, but do not award a baccalaureate or higher degree.

3. Less-than-2-year institutions. Institutions or subsidiaries that have a primary purpose of providing postsecondary education and that have programs lasting less than 2 years which result in a terminal occupational award or are creditable toward a formal 2-year-or-higher award.

Higher Education Institution

For the purpose of this directory, an institution of higher education is one that is accredited at the college level by an agency or association recognized by the Secretary, U.S. Department of Education. These schools were formerly part of the HEGIS
universe and are identified in the Directory with an (H) preceding the name.

Branches
Sites other than the main campus are considered branches and are listed separately if they meet each of the following criteria:
1. The campus or site is not temporary;
2. The site is in a community beyond a reasonable commuting distance from the parent institution; and
3. An organized program of study is offered at the site, not just unrelated courses.

Control
This directory lists institutional control, as reported by the institution, according to the following categories:
• Public—An educational institution whose programs and activities are operated by publicly elected or appointed school officials and which is supported primarily by public funds.
• Private—An educational institution controlled by a private individual(s) or by a nongovernmental agency, usually supported primarily by other than public funds, and operated by other than publicly elected or appointed officials.
• Private Nonprofit—A private institution in which the individual(s) or agency in control receives no compensation, as distinguished from wages or rent, for the assumption of risk. These include both independent nonprofit schools and those affiliated with a religious organization.
• Private For-Profit (profit making)—A private institution in which the individual(s) or agency in control receives compensation other than wages or rent for the assumption of risk.

Level of Offering
Highest level of offering includes the following categories:
• Postsecondary Award, Certificate, or Diploma (less than 1 academic year). An award that normally requires completion of an organized program of study at the postsecondary level in less than 1 full-time-equivalent academic year (2 semesters or 3 quarters), or less than 900 contact hours by a student enrolled full time.
• Postsecondary Award, Certificate, or Diploma (at least 1 but less than 2 academic years). An award that normally requires completion of an organized program of study at the postsecondary level in at least 1 but less than 2 full-time-equivalent academic years, or is designed for completion in at least 30 but less than 60 credit hours, or at least 900 but less than 1,800 contact hours.
• Associate’s Degree. An award that normally requires at least 2 but less than 4 years of full-time-equivalent college-level work.
• Postsecondary Award, Certificate, or Diploma (at least 2 but less than 4 academic years). An award (other than an associate’s degree) that normally requires completion of an organized program of study at the postsecondary level in at least 2 but less than 4 full-time-equivalent academic years, or is designed for completion in at least 60 but less than 120 credit hours, or at least 1,800 but less than 3,600 contact hours.
• Bachelor’s Degree. An award that normally requires at least 4 but not more than 5 years of full-time-equivalent college-level work. This includes all bachelor’s degrees conferred in a cooperative or work-study plan or program. A cooperative plan provides for alternate class attendance and employment in business, industry, or government; thus, it allows the student to combine actual work experience with college studies. Also includes bachelor’s degrees in which the normal 4 years of work are completed in 3 years.
• Postbaccalaureate Certificate. An award that requires completion of an organized program of study of 30 credit hours beyond the bachelor’s degree designed for persons who have completed a baccalaureate degree but do not meet the requirements for an academic master’s degree.
• First-Professional Degree. An award that requires completion of a program that meets all of the following criteria: (1) requires at least 2 years of college work before entering the program; (2) requires completion of the academic requirements to begin practice in the profession; and (3) requires a total of at least 6 academic years of college-level work to complete the degree program, including prior required college work.
First-professional degrees may be awarded in the following fields:
Chiropractic (D.C. or D.C.M.)
Dentistry (D.D.S. or D.M.D.)
Law (J.D., J.S.D.)
Medicine (M.D.)
Optometry (O.D.)
Osteopathic Medicine (D.O.)
Pharmacy (D.Phar.)
Podiatry (Pod.D. or D.P.)
Theology (M.Div. or M.H.L. or B.D.)
Veterinary Medicine (D.V.M.)

- First-Professional Certificate (post-degree). An award that requires completion of an organized program of study designed for persons who have obtained the first-professional degree. Examples could be refresher courses or additional units of study in a specialty or subspecialty.

- Master's Degree. An award that requires the successful completion of a program of study of at least 1 but not more than 2 full-time-equivalent academic years of college work beyond the bachelor's degree.

- Post-Master's Certificate. An award that requires completion of an organized program of study of 24 credit hours beyond the master's degree, but does not meet the requirements of academic degrees at the doctor's degree level.

- Doctor's Degree. An award that requires work at the graduate level and terminates in a doctor's degree. Includes such degrees as Doctor of Education, Doctor of Juridical Science, Doctor of Public Health, and the Doctor of Philosophy degree in any field such as agronomy, economics, chemistry or engineering.

Identification Codes

The Directory includes two identification codes used throughout the text. They are:

- UNITID. This is a unique identification code assigned by the National Center for Education Statistics to each unit, or postsecondary institution, included in IPEDS; it will not change from year-to-year. The UNITID is used to link all IPEDS data bases including Institutional Characteristics, Fall Enrollment, Completions, Finance, Salaries, etc.

- FICE. This is the identifier created by the Federal Interagency Committee on Education. This code is included in the Directory to identify those institutions accredited at the college level by an agency recognized by the Secretary, U.S. Department of Education. Institutions carrying a FICE code were formerly included in the Higher Education General Information Survey (HEGIS) system. IPEDS uses FICE to maintain the identification of this subset of accredited schools; however, since IPEDS separately identifies all institutions and branches that offer complete programs of study, a school may have several entries now, where only one existed under HEGIS. In order to identify the branches of HEGIS schools that are now separate reporting units, NCES has developed a "dummy" FICE code. For example, assume that "ABC College" (FICE code = 005555) was considered one school with all campuses reporting together in HEGIS. The IPEDS system, however, considers it to be three separate schools, each with its own UNITID code:

<table>
<thead>
<tr>
<th>UNITID</th>
<th>Institution Name</th>
<th>FICE</th>
</tr>
</thead>
<tbody>
<tr>
<td>123444</td>
<td>ABC College – Main Campus</td>
<td>005555</td>
</tr>
<tr>
<td>123555</td>
<td>ABC College – West Campus</td>
<td>905555</td>
</tr>
<tr>
<td>123666</td>
<td>ABC College – Another City</td>
<td>905555</td>
</tr>
</tbody>
</table>

The assignment of these "dummy" FICE codes (ie., with a "9" in the first position) allows readers and analysts to identify all parts of the universe of accredited institutions. In addition to displaying the FICE code in the institutional listings, these schools have an (H) preceding the school name for easy identification.

Enrollment

The fall 1986 total enrollment is given for each institution. Undergraduate, graduate, and first-professional students, both full- and part-time, are included. Also included are students taking courses that are part of a vocational or occupational program. Excluded are students in noncredit adult education courses; students taking courses at home by correspondence, radio, or television where the courses are not creditable toward a degree or some other formal recognition below the bachelor's degree; students enrolled only for "short courses"; auditors; students studying abroad; and students enrolled at a branch campus or extension center of an institution in a foreign country.

For institutions responding to the 1986 IPEDS Fall Enrollment survey, actual data are provided: a total student headcount followed by the percent of students who are female. Since the less-than-2-year schools were surveyed for fall enrollment on a sample basis, many of these schools list the enrollment count provided on their Institutional Characteristics survey form.

Tuition

Institutions were asked to report the typical tuition and fees required of full-time students for the academic year 1987-88. Required fees are defined as charges to students for items not covered by tuition, and required of such a large proportion of all students that the student who does not pay the charge is an exception.
• Tuition at 4- and 2-year schools indicate "in-State" or "in-district" when there is a difference in charges based on residency requirements.
• Separate charges are shown for graduate programs, where applicable.
• In private for-profit 2-year institutions and all private less-than-2-year schools, the tuition and required fees are given for the program with the largest enrollment at that school.

Room and Board Charges
Institutions were asked to report room and board charges for the entire academic year. Room charges were to reflect what a student would expect to pay if sharing a room with one other student. Institutional listings indicate the yearly charge for a meal plan and, in parentheses, the number of meals provided in one week.

Accreditation
Accreditation, as shown in this directory, is self-reported by the institutions; no attempt has been made to verify these with the various regional or professional accrediting bodies. This verification process will be conducted during the fall of 1988. The professional accrediting agencies shown in the institutional listings are those recognized by the Secretary, U.S. Department of Education. A complete list of these associations and their accreditation acronyms (as used in the institutional listings) can be found in appendix B.

Survey Methodology
The Institutional Characteristics survey (IC) was mailed to 13,109 institutions in August 1987. IC1 forms were sent to 171 corporate or system offices that administer two or more postsecondary institutions, plus 2,766 institutions that offer a 4-year award or higher; 2,691 received an IC2 form (public schools offering awards of less-than-4-years duration and private nonprofit schools with programs of at least 2- but less-than-4-years duration), and IC3 forms were mailed to 7,481 schools (private for-profit schools with programs of less-than-4 years and nonprofit schools offering awards of less-than-2-years duration). Also, between September 1987 and January 1988, approximately 500 IC forms were mailed to schools and/or branches that were identified as possible additions to the IPEDS universe. However, new schools were added to the universe only if an Institutional Characteristics survey form was received and it was determined that the school offered postsecondary education programs.

The IC survey forms were designed to shuttle back any data already provided in a prior year; thus, an institution need only update the questionnaires with current or changed information such as tuition and fees.

Survey responses were edited for internal consistency. For example, if graduate programs are offered, was graduate tuition reported? Also, responses were checked for consistency with the previous year's response.

Extensive followup for nonresponse was conducted between January 15 and April 15, 1988. Institutions were called and key data elements were collected using a CATI (Computer Assisted Telephone Interview) system. Data were then uploaded into the database and were processed and edited.

During the processing cycle, IPEDS coordinators in the States and NCES staff made a considerable effort to "clean up" the universe. Many entities were identified as "out-of-scope" including: schools duplicated on the file; those that had closed or no longer offered postsecondary programs, listings that did not conform to the IPEDS definition of a branch, but were really extension centers that are not to report separately, and schools that were primarily secondary or avocational, and thus, should not report under IPEDS.

The overall response rate to the Institutional Characteristics survey (74 percent) was calculated as the ratio of the number of completed questionnaires divided by the number of schools in the final universe; i.e., the number mailed minus the number deleted (out-of-scope) plus the new schools that submitted IC forms.

Only actual data are provided in the Directory; there has been no attempt to impute data. However, tuition charges provided for a quarter or semester were converted to academic year charges to conform to completion instructions when necessary.

Symbols Used in the Directory
• Indicates that data were not reported by the institution.
(H) Indicates that the institution is accredited at the college level by an agency recognized by the Secretary, U.S. Department of Education.

"The purpose of the Center shall be to collect, and analyze, and disseminate statistics and other data related to education in the United States and in other nations."—Section 406(b) of the General Education Provisions Act, as amended (20 U.S.C. 1221e–1).

November 1988
Foreword

The 1987–88 edition of the Directory of Postsecondary Institutions lists all postsecondary institutions in the United States and its outlying areas that were known to exist as of June 15, 1988.

The information presented for each institution includes its name, address (including ZIP code), telephone number, 1986 fall enrollment, and tuition and fees and room and board charges for the 1987-88 academic year. Also included are control, highest level of offering, types of programs offered, and recognized accreditations.

This edition of the directory presents data from the Integrated Postsecondary Education Data System (IPEDS) Institutional Characteristics Survey for 1987–88. A full explanation of the data can be found in the introduction to the Directory.

We would like to express our appreciation to the officials of the postsecondary institutions that responded to our request for data and to the coordination officials of the State education agencies who assisted in the data collection and the resolution of inconsistencies.

Introduction

The 1987-88 Directory of Postsecondary Institutions was developed by the National Center for Education Statistics (NCES) using information from the Integrated Postsecondary Education Data System (IPEDS). IPEDS encompasses all institutional providers of postsecondary education and gives a comprehensive description of the Nation's postsecondary education enterprise.

This directory lists all postsecondary education institutions in the 50 States, the District of Columbia, and the outlying areas. As of June 1988, there were 12,052 institutions: 2,652 colleges granting at least a bachelors degree; 2,925 2-year schools; and 6,475 less-than-2-year institutions.

The information for each institution, presented by State, includes the name of the school, location (street or mailing address, city, and ZIP code), telephone number, the unit identification (UNITID) code, the Federal Interagency Committee on Education (FICE) code (if applicable), control, highest level of award offered, 1986 fall enrollment, and institutional accreditation. Also provided are tuition and fees required for full-time students and room and board charges, where applicable.

An (H) preceding the name indicates that the institution was accredited at the college level by an agency listed as nationally recognized by the Secretary, U.S. Department of Education, and that it was part of the Higher Education General Information Survey (HEGIS) universe. No attempt was made to verify accreditation status for this directory, verification will be conducted in the fall of 1988. The Division of Eligibility and Certification, in the Office of Postsecondary Education, determines which postsecondary schools are eligible to be classified as colleges and universities. (As of June 15, 1988, there were 3,586 colleges and universities and their branches listed as having recognized accreditation.) Additions, deletions, and other changes in the universe of colleges and universities from the 1986 Directory are in appendix A.

An asterisk (*) in an entry indicates that data were not reported.

Because of the large number of institutions and the diversity of their educational programs, this directory is published in two volumes. Volume I includes the 4-year and 2-year institutions and Volume II the less-than-2-year institutions.

Terms Used in the Directory

Postsecondary Institution

Included in the Directory are universities, colleges at the 4-year and 2-year levels, community colleges, technical institutes, business schools, and occupationally-oriented vocational schools. Postsecondary education is defined as the provision of formal instructional programs with curricula designed primarily for students who have completed the requirements for a high school diploma or its equivalent. This includes programs that are academic and lead toward a degree or other formal award; occupational or vocational programs that train and/or qualify the completer with specific job skills; and continuing professional education where additional skills are acquired in a specific field of study. Postsecondary education is not intended to include basic adult education or avocational programs such as those taken for personal interest or leisure.

Postsecondary education is conducted by a variety of providers; however, IPEDS is limited to those institutions and their branches with a primary purpose of providing postsecondary education. IPEDS includes data about the following providers:

1. Four-year-and-above institutions. Institutions or subsidiaries, with a primary purpose of providing postsecondary education, that award at least a 4-year degree or higher in one or more programs.

2. Two-year institutions. Institutions or subsidiaries that have a primary purpose of providing postsecondary education and that confer at least a 2-year formal award (certificate or associate's degree), or have a 2-year program that is creditable toward a baccalaureate, but do not award a baccalaureate or higher degree.

3. Less-than-2-year institutions. Institutions or subsidiaries that have a primary purpose of providing postsecondary education and that have programs lasting less than 2 years which result in a terminal occupational award or are creditable toward a formal 2-year-or-higher award.

Higher Education Institution

For the purpose of this directory, an institution of higher education is one that is accredited at the college level by an agency or association recognized by the Secretary, U.S. Department of Education. These schools were formerly part of the HEGIS
universe and are identified in the Directory with an (H) preceding the name.

Branches
Sites other than the main campus are considered branches and are listed separately if they meet each of the following criteria:
1. The campus or site is not temporary;
2. The site is in a community beyond a reasonable commuting distance from the parent institution; and
3. An organized program of study is offered at the site, not just unrelated courses.

Control
This directory lists institutional control, as reported by the institution, according to the following categories:

- Public—An educational institution whose programs and activities are operated by publicly elected or appointed school officials and which is supported primarily by public funds.
- Private—An educational institution controlled by a private individual(s) or by a nongovernmental agency, usually supported primarily by other than public funds, and operated by other than publicly elected or appointed officials.
- Private Nonprofit—A private institution in which the individual(s) or agency in control receives no compensation, as distinguished from wages or rent, for the assumption of risk. These include both independent nonprofit schools and those affiliated with a religious organization.
- Private For-Profit (profit making)—A private institution in which the individual(s) or agency in control receives compensation other than wages or rent for the assumption of risk.

Level of Offering
Highest level of offering includes the following categories:

- Postsecondary Award, Certificate, or Diploma (less than 1 academic year). An award that normally requires completion of an organized program of study at the postsecondary level in less than 1 full-time-equivalent academic year (2 semesters or 3 quarters), or less than 900 contact hours by a student enrolled full time.
- Postsecondary Award, Certificate, or Diploma (at least 1 but less than 2 academic years). An award that normally requires completion of an organized program of study at the postsecondary level in at least 1 but less than 2 full-time-equivalent academic years, or is designed for completion in at least 30 but less than 60 credit hours, or at least 900 but less than 1,800 contact hours.
- Associate's Degree. An award that normally requires at least 2 but less than 4 years of full-time-equivalent college-level work.
- Postsecondary Award, Certificate, or Diploma (at least 2 but less than 4 academic years). An award (other than an associate's degree) that normally requires completion of an organized program of study at the postsecondary level in at least 2 but less than 4 full-time-equivalent academic years, or is designed for completion in at least 60 but less than 120 credit hours, or at least 1,800 but less than 3,600 contact hours.
- Bachelor's Degree. An award that normally requires at least 4 but not more than 5 years of full-time-equivalent college-level work. This includes all bachelor's degrees conferred in a cooperative or work-study plan or program. A cooperative plan provides for alternate class attendance and employment in business, industry, or government; thus, it allows the student to combine actual work experience with college studies. Also includes bachelor's degrees in which the normal 4 years of work are completed in 3 years.
- Postbaccalaureate Certificate. An award that requires completion of an organized program of study of 30 credit hours beyond the bachelor's degree designed for persons who have completed a baccalaureate degree but do not meet the requirements for an academic master's degree.
- First-Professional Degree. An award that requires completion of a program that meets all of the following criteria: (1) requires at least 2 years of college work before entering the program; (2) requires completion of the academic requirements to begin practice in the profession; and (3) requires a total of at least 6 academic years of college-level work to complete the degree program, including prior required college work. First-professional degrees may be awarded in the following fields:
  - Chiropractic (D.C. or D.C.M.)
  - Dentistry (D.D.S. or D.M.D.)
  - Law (L.L.B., J.D.)
  - Medicine (M.D.)
  - Optometry (O.D.)
  - Osteopathic Medicine (D.O.)
Pharmacy (D.Phar.)
Podiatry (Pod.D. or D.P.)
Theology (M.Div. or M.H.L. or B.D.)
Veterinary Medicine (D.V.M.)

- First-Professional Certificate (post-degree). An award that requires completion of an organized program of study designed for persons who have obtained the first-professional degree. Examples could be refresher courses or additional units of study in a specialty or subspecialty.

- Master's Degree. An award that requires the successful completion of a program of study of at least 1 but not more than 2 full-time-equivalent academic years of college work beyond the bachelor's degree.

- Post-Master's Certificate. An award that requires completion of an organized program of study of 24 credit hours beyond the master's degree, but does not meet the requirements of academic degrees at the doctor's degree level.

- Doctor's Degree. An award that requires work at the graduate level and terminates in a doctor's degree. Includes such degrees as Doctor of Education, Doctor of Juridical Science, Doctor of Public Health, and the Doctor of Philosophy degree in any field such as agronomy, economics, chemistry or engineering.

Identification Codes

The Directory includes two identification codes used throughout the text. They are:

- UNITID. This is a unique identification code assigned by the National Center for Education Statistics to each unit, or postsecondary institution, included in IPEDS; it will not change from year-to-year. The UNITID is used to link all IPEDS data bases including Institutional Characteristics, Fall Enrollment, Completions, Finance, Salaries, etc.

- FICE. This is the identifier created by the Federal Interagency Committee on Education. This code is included in the Directory to identify those institutions accredited at the college level by an agency recognized by the Secretary, U.S. Department of Education. Institutions carrying a FICE code were formerly included in the Higher Education General Information Survey (HEGIS) system. IPEDS uses FICE to maintain the identification of this subset of accredited schools; however, since IPEDS separately identifies all institutions and branches that offer complete programs of study, a school may have several entries now, where only one existed under HEGIS. In order to identify the branches of HEGIS schools that are now separate reporting units, NCES has developed a "dummy" FICE code. For example, assume that "ABC College" (FICE code = 005555) was considered one school with all campuses reporting together in HEGIS. The IPEDS system, however, considers it to be three separate schools, each with its own UNITID code:

<table>
<thead>
<tr>
<th>UNITID</th>
<th>Institution Name</th>
<th>FICE</th>
</tr>
</thead>
<tbody>
<tr>
<td>123444</td>
<td>ABC College – Main Campus</td>
<td>005555</td>
</tr>
<tr>
<td>123555</td>
<td>ABC College – West Campus</td>
<td>905555</td>
</tr>
<tr>
<td>123666</td>
<td>ABC College – Another City</td>
<td>905555</td>
</tr>
</tbody>
</table>

The assignment of these "dummy" FICE codes (ie., with a "9" in the first position) allows readers and analysts to identify all parts of the universe of accredited institutions. In addition to displaying the FICE code in the institutional listings, these schools have an (H) preceding the school name for easy identification.

Enrollment

The fall 1986 total enrollment is given for each institution. Undergraduate, graduate, and first-professional students, both full- and part-time, are included. Also included are students taking courses that are part of a vocational or occupational program. Excluded are students in noncredit adult education courses; students taking courses at home by correspondence, radio, or television where the courses are not creditable toward a degree or some other formal recognition below the bachelor's degree; students enrolled only for "short courses"; auditors; students studying abroad; and students enrolled at a branch campus or extension center of an institution in a foreign country.

For institutions responding to the 1986 IPEDS Fall Enrollment survey: actual data are provided: a total student headcount followed by the percent of students who are female. Since the less-than-2-year schools were surveyed for fall enrollment on a sample basis, many of these schools list the enrollment count provided on the Institutional Characteristics survey form.

Tuition

Institutions were asked to report the typical tuition and fees required of full-time students for the academic year 1987-88. Required fees are defined as charges to students for items not covered by tuition, and required of such a large proportion of all students that the student who does not pay the charge is an exception.
• Tuition at 4- and 2-year schools indicate “in-State” or “in-district” when there is a difference in charges based on residency requirements.
• Separate charges are shown for graduate programs, where applicable.
• In private for-profit 2-year institutions and all private less-than-2-year schools, the tuition and required fees are given for the program with the largest enrollment at that school.

Room and Board Charges

Institutions were asked to report room and board charges for the entire academic year. Room charges were to reflect what a student would expect to pay if sharing a room with one other student. Institutional listings indicate the yearly charge for a meal plan and, in parentheses, the number of meals provided in one week.

Accreditation

Accreditation, as shown in this directory, is self-reported by the institutions; no attempt has been made to verify these with the various regional or professional accrediting bodies. This verification process will be conducted during the fall of 1988. The professional accrediting agencies shown in the institutional listings are those recognized by the Secretary, U.S. Department of Education. A complete list of these associations and their accreditation acronyms (as used in the institutional listings) can be found in appendix B.

Survey Methodology

The Institutional Characteristics survey (IC) was mailed to 13,109 institutions in August 1987. IC1 forms were sent to 171 corporate or system offices that administer two or more postsecondary institutions, plus 2,766 institutions that offer a 4-year award or higher; 2,691 received an IC2 form (public schools offering awards of less-than-4-years duration and private nonprofit schools with programs of at least 2- but-less-than-4-years duration), and IC3 forms were mailed to 7,481 schools (private for-profit schools with programs of less-than-4-years and nonprofit schools offering awards of less-than-2-years duration). Also, between September 1987 and January 1988, approximately 500 IC forms were mailed to schools and/or branches that were identified as possible additions to the IPEDS universe. However, new schools were added to the universe only if an Institutional Characteristics survey form was received and it was determined that the school offered postsecondary education programs.

The IC survey forms were designed to shuttle back any data already provided in a prior year; thus, an institution need only update the questionnaires with current or changed information such as tuition and fees.

Survey responses were edited for internal consistency. For example, if graduate programs are offered, was graduate tuition reported? Also, responses were checked for consistency with the previous year's response.

Extensive followup for nonresponse was conducted between January 15 and April 15, 1988. Institutions were called and key data elements were collected using a CATI (Computer Assisted Telephone Interview) system. Data were then uploaded into the data base and were processed and edited.

During the processing cycle, IPEDS coordinators in the States and NCES staff made a considerable effort to "clean up" the universe. Many entities were identified as "out-of-scope" including: schools duplicated on the file; those that had closed or no longer offered postsecondary programs; listings that did not conform to the IPEDS definition of a branch, but were really extension centers that are not to report separately; and schools that were primarily secondary or avocational, and thus, should not report under IPEDS.

The overall response rate to the Institutional Characteristics survey (74 percent) was calculated as the ratio of the number of completed questionnaires divided by the number of schools in the final universe; i.e., the number mailed minus the number deleted (out-of-scope) plus the new schools that submitted IC forms.

Only actual data are provided in the Directory; there has been no attempt to impute data. However, tuition charges provided for a quarter or semester were converted to academic year charges to conform to completion instructions when necessary.

Symbols Used in the Directory

* Indicates that data were not reported by the institution.

(H) Indicates that the institution is accredited at the college level by an agency recognized by the Secretary, U.S. Department of Education.
