This report contains short descriptions of about 200 selected distance education institutions throughout the world. Most of the descriptions are based on questionnaires completed by members of the institutions as well as on corrections of and comments on a preliminary version of the descriptions. Descriptions contain some or all of the following information: institution name and address, ownership and type of institution, number of courses, educational level of courses, subject areas of courses, number of learners currently enrolled, relative importance of face-to-face contact, flexibility in pacing and teaching methods, media used for teaching, participants of course teams, local study centers, evaluation of courses and media, flexibility of curriculum, elements of two-way communication, media used in two-way communication, counseling, and tutoring, measures to reduce the nonstarter and dropout rates, type of continuous assessment, terminating of courses with examinations, average turnaround time for tutor's corrections and comments on assignments, types of items for the assignments, comments upon the assignments submitted, use of computers for correction and comments, success rate, and nonstarter rate. Countries represented are Algeria, Argentina, Australia, Austria, Belgium, Bolivia, Botswana, Brazil, Canada, Chile, China, Colombia, Costa Rica, Denmark, Dominican Republic, Fiji, Finland, France, West Germany, Ghana, Great Britain, Hong Kong, India, Indonesia, Ireland, Israel, Italy, Jamaica, Japan, Malawi, Mexico, Netherlands, Nigeria, Norway, Peru, Poland, Portugal, Senegal, Singapore, South Africa, Spain, Sri Lanka, Sweden, Tanzania, Thailand, Turkey, Uruguay, United States, Venezuela, Yugoslavia, Zambia, and Zimbabwe. Appendix I: Additional addresses of institutions / organisations ............................................. 426

Appendix II: Topics/categories from the questionnaire ......... 436
Preface

This booklet is a revised edition of our previous report (Doerfert et al 1988) and contains short descriptions of about 200 selected distance education (DE-)institutions.

For the majority of the institutions the description is based on a questionnaire filled in by the institution described.

The questionnaire was part of an international study on distance teaching by the ZIFF at the FernUniversität (the Institute for Research into Distance Education at the German Distance Teaching University); in this study we have tried to bring together some information about DE-institutions in several countries by means of a written questionnaire1) - see Graff & Holmberg, eds. (1988) for details of the study and its results.

Unfortunately, the list of distance-education institutions which could be described here is by no means complete: There are several important institutions not included here because we had no suitable information about them. Some of them are listed with their addresses in Appendix I.

The descriptions given below can be distinguished according to the source of information into four categories; these categories are:

(a) descriptions with the addition "checked by institution": The preliminary description of an institution (based mainly on the answers to the questionnaire) was sent to the institution. The institution was asked to correct and comment on the description. Then we tried to revise the description taking into account the corrections and comments made by the institution. Of course we accept full responsibility for any remaining error.

(b) descriptions with the addition "Source:......(specification)". In these cases the description of an institution is based mainly on the information/data given by the source specified. The descriptions of some European distance teaching universities, e.g., are based on the EADTU Directory 1988.

(c) descriptions with the addition "new; not checked". Some institutions which were not included in the previous edition have now filled in our questionnaire. In these cases the description of an institution is based mainly on the information given by the answers to the questionnaire. (If the description based on the questionnaire of an institution was corrected and/or commented on by members of the institution then the description was marked by 'checked by institution' like in category (a) above.)

1) The list in Appendix II contains the topics and the response categories selected from the questionnaire for the purpose of this documentation.
(d) **descriptions without any addition.** Some institutions included in the previous edition did not respond to our request for correction of and comment on the preliminary descriptions of their institutions. Therefore, the preliminary description of the previous edition is repeated here simply

The editors would like to express their heartfelt thanks to those respondents who spared no effort in giving corrections and comments.

We thank also Marietta de Matteis, Daniela Klintz, Natascha Krug, Holger Frase and Stefan Stein for technical support in preparing the printouts.

Rudolf Schuemer
(for the editors)

The Descriptions
**Name of institution:**
Ministère de l'Éducation Nationale / Centre National d'Enseignement généralisé

**Address:**
43 rue Ben Cheneb
B.P. 99
Alger-Bourse
Algeria

**Ownership and type of institution (Q2):**
state-owned

**Number of courses (Q4):** 45

**Educational level of courses offered (Q5a):**
basic school education/ further education at school and basic professional training (e.g. preparation for 'A' levels, high school certificate and entrance qualifications for university studies, upper secondary level, technical college etc.)/ university study and further professional training (after basic professional training and/or job experience)

**Subject areas of courses (Q5):**
1. education, the humanities, music and the arts, languages
2. social sciences
3. economics
4. mathematics, sciences
5. medicine and medical jobs and professions
6. others: first aid

**Relative importance of face-to-face contacts (Q8):**
- distance teaching with a few face-to-face elements or supplements (e.g. seminars, week-end seminars etc.)

**Flexibility in pacing and teaching methods/options for students (Q9):**
no flexibility

**Media used for teaching (Q10):**
radio/ television/ written course units/ face-to-face sessions

**Participants of course teams (Q11/14):**
- subject specialists/ media specialists

**Local study centres (Q16):** yes

**Function of the study centres (Q17):**
face-to-face teaching (compulsory for students)

**Evaluation of courses and media (Q18):** yes

**Flexibility in the curriculum to be followed for the acquisition of a particular diploma (Q22):**
- low/fixed curriculum

**Elements of two-way communication (Q29):**
- correcting of assignments
- commenting on assignments
- regular contacts between tutor and learner: mediated/direct face-to-face contact
- organized face-to-face sessions
- answering of learners' queries, requests etc.
- contacts with learners initiated by the institution

**Number of learners currently enrolled (Q7):** 80,000
Media used in two-way communication/counselling and tutoring service (Q30):

direct (face-to-face) contacts

Measures to reduce the non-starter and drop-out rates (Q35):

- mailing of pre-produced (standardized) letters of encouragement or reminders

Type of continuous assessment (Q38):

- written assignments to be submitted

Terminating of courses with examinations (Q40): yes

- type of examination: written exams

Average turn-around time for tutor's correction and comments of the assignments (Q44):

25 days

Types of items for the assignments (Q45):

- short open-ended questions
- multiple-choice questions
- short essays
- longer paper on a set subject

Commenting upon the assignments submitted (Q46)

- correction and additional comments

Use of a computer for the correction and commenting upon assignments (Q51): no

Success rate (average for the three courses with the highest number of enrollments) (Q53)

30 %

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54):

30 %

**Ownership and type of institution (02):**
- others: cultural and social association

**Number of courses (04):** 3

**Educational level of courses offered (05a):**
- basic school education/ further education at school and basic professional training (e.g. preparation for 'A' levels, high school certificate and entrance qualifications for university studies, upper secondary level, technical college etc.)/ university study and further professional training (after basic professional training and/or job experience)

**Subject areas of courses (06):**
1. languages
2. social sciences and law
3. economics
4. engineering

**Number of learners currently enrolled (07):** 272

**Relative importance of face-to-face contacts (08):**
- pure distance teaching, no face-to-face contact

---

### CIRSE (Círculo de Suboficiales del Ejército) / 2

**Flexibility in pacing and teaching methods/options for students (09):**
- flexibility in:
  1. when to start their course/their studies
  2. when to order their study material
  3. between different media
  4. how and when to use counselling services

**Media used for teaching (010):**
- written course units

**Participants of course teams (013/14):**
- subject specialists/ media specialists

**Local study centres (016):** no

**Evaluation of courses and media (018):** yes

**Flexibility in the curriculum to be followed for the acquisition of a particular diploma (022):**
- low/fixed curriculum

**Elements of two-way communication (029):**
- correcting of assignments
- commenting on assignments
- regular contacts between tutor and learner: mediated/direct face-to-face contact
- answering of learners' queries, requests etc.

**Media used in two-way communication/counselling and tutoring service (030):**
- written correspondence/ telephone/ direct (face-to-face) contacts

**Measures to reduce the non-starter and drop-out rates (035):**
- mailing of standardized letters of encouragement or reminders
**Type of continuous assessment (Q38):**
- written assignments to be submitted

**Terminating of courses with examinations (Q40):** yes
- type of examination: written

**Average turn-around time for tutor's correction and comments of the assignments (Q44):**
20 or 30 days

**Types of items for the assignments (Q45):**
- short open-ended questions
- multiple-choice questions
- short essays

**Commenting upon the assignments submitted (Q46):**
- correction only/ additional comments if necessary

**Use of a computer for the correction and commenting upon assignments (Q51):** no

**Success rate (average for the three courses with the highest number of enrollments) (Q53):**
70 %

**Non-starter rate (average for the three courses with the highest number of enrollments) (Q54):**
30 %

--------
checked by institution
Ownership and type of institution (02):
state-owned

Number of courses (04): 8

Educational level of courses offered (05a):
further professional training (after basic professional training and/or job experience)

Subject areas of courses (06):
(1) languages
(5) technical professions

Number of learners currently enrolled (07): 420

Relative importance of face-to-face contacts (08):
- partly pure distance teaching, no face-to-face contact
- partly distance teaching with very little face-to-face contact (for tutoring/counselling purposes or immediately before oral examinations)
- partly distance teaching with a few face-to-face elements or supplements (e.g. seminars, practical training - workshops)
- face-to-face sessions, if offered: compulsory

Flexibility in pacing and teaching methods/options for students (09):
Flexibility (in):
- when to take their exams/final exams
- when to order their study material
- when to send their assignments
- how and when to use counselling services

Media used for teaching (010):
written course units/ personal computers (PC)/ face-to-face sessions/ laboratories, workshops

Participants of course teams (013/14):
- subject specialists/ media specialists

Local study centres (016): no

Evaluation of courses and media (018): yes

Flexibility in the curriculum to be followed for the acquisition of a particular diploma (022):
no curricula

Elements of two-way communication (029):
- correcting of assignments
- commenting on assignments
- organized face-to-face sessions
- answering of learners' queries, requests etc.
- contacts with learners initiated by the institution

Media used in two-way communication/counselling and tutoring service (030):
written correspondence/ telephone/ direct (face-to-face) contacts

Measures to reduce the non-starter and drop-out rates (035):
- mailing of individualized letters
- visit to learners by people appointed by the institution
Type of continuous assessment (Q38):
- written assignments to be submitted

Terminating of courses with examinations (Q40): yes
- type of examination: partly written partly written and oral exams

Average turn-around time for tutor's correction and comments of the assignments (Q44): 7 days

Types of items for the assignments (Q45):
- short open-ended questions
- short essays
- samples of learner's work

Commenting upon the assignments submitted (Q46)
correction and additional comments

Use of a computer for the correction and commenting upon assignments (Q51): no

Success rate (average for the three courses with the highest number of enrollments) (Q53)
no answer

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54):
no answer

Checked by institution
Name of institution:
Ministerio de Educación y Justicia/
a) Dirección Nacional Agropecuaria
b) Univ. Nacional La Plata

Address:
a) Paseo Colon 533
   Buenos Aires
b) Calle 7 y 48
   La Plata 1900

- regular contacts between tutor and learner: mediated/direct face-to-face contact
- organized face-to-face sessions
- answering of learners' queries, requests etc.
- contacts with learners initiated by the institution

Media used in two-way communication/counselling and tutoring service (Q30):
telephone/ audio tapes/ direct (face-to-face) contacts
Measures to reduce the non-starter and drop-out rates (Q35):
- mailing of individualized letters
- phone calls to learners

Type of continuous assessment (Q38):
- written assignments to be submitted
- written intermediary exams

Terminating of courses with examinations (Q40): yes
- type of examination: written exams

Average turn-around time for tutor's correction and comments of the assignments (Q44): no data

Types of items for the assignments (Q45):
- short open-ended questions
- multiple-choice questions
- questions to be answered (filled in) on forms prescribed (e.g. numerical answers)
- short essays
- longer paper on a set subject
- longer paper on a self-chosen subject from the course
- samples of learner's work

Commenting upon the assignments submitted (Q46)
- correction and additional comments

Use of a computer for the correction and commenting upon assignments (Q51): no

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54):
no answer

Success rate (average for the three courses with the highest number of enrollments) (Q53):
no answer
Name of institution: James Cook University of N.Q./ External Studies Centre
Address: Townsville 4811 Australia

Ownership and type of institution (Q2):
official body under public law

Number of courses (Q4): 31

1) Much of the work done by Lamacraft Education & Management Services is the servicing of courses under contract for the External Studies College of TAFE in Sydney N.S.W., which handles the enrolment of students and allocates them. Only when a student’s first lesson unit is received is the allocation to Lamacraft Education & Management known. Under these conditions, the non-start rate for these subjects is not known, but is said to be over 50 percent. For the courses of Lamacraft Education & Management Services, the non-start rate is 38 percent.

The success rate also is hard to determine, for much the same reasons. The dropout rate for contract students of Lamacraft Education & Management Services over the last year has been 56 percent but these courses are free.

For the own courses of Lamacraft Education & Management Services, the dropout rate has been 18 percent, but the students in these courses have a vested interest in getting value for the money they have paid.
Name of institution: Macquarie University/Centre for Evening and External Studies
Address: Sydney NSW 2109
Australia

Ownership and type of institution (02):
state-owned/official body under public law (A statutory authority established under NSW Govt. Act, funded by Australian Government through its Commonwealth Tertiary Education Commission)
(The university is a dual-mode institution)

Number of courses (04): 200 (offered externally)

Educational level of courses offered (05a):
university study and further professional training (after basic professional training and/or job experience)

Subject areas of courses (06):
(1) education, the humanities, languages
(2) social sciences and law
(3) economics
(5) mathematics and sciences
Note: education, Slavonic languages, law, mathematics and sciences
(offered externally)

Number of learners currently enrolled (07): ≈ 2,317 (external students; total number of learners: 11,585)

Relative importance of face-to-face contacts (08):
distance teaching with a few face-to-face elements or supplements (e.g. seminars, week-end seminars etc.)
face-to-face sessions, if offered: compulsory

Flexibility in pacing and teaching methods/options for students (09):
Flexibility (in):
- between different teaching methods
- how and when to use counselling services

Media used for teaching (10):
written course units/ audio tapes/ video tapes/ slides/ personal computers (PC)/ telephone/ face-to-face sessions/ laboratories, workshops

Participants of course teams (13/14): some course teams
- material is developed by subject specialists; advice/ assistance from external studies unit, including course development/ instructional design advice

Local study centres (16): no

Evaluation of courses and media (18): no

Flexibility in the curriculum to be followed for the acquisition of a particular diploma (22):
medium/fixed curriculum, but it contains alternatives

Measures to reduce the non-starter and drop-out rates (Q35):
- mailing of individualized letters
- phone calls to learners

Type of continuous assessment (Q36):
- written assignments to be submitted
- written intermediary exams

Terminating of courses with examinations (Q40): yes
- type of examination: written exams

Average turn-around time for tutor's correction and comments of the assignments (Q44):
14 days

Types of items for the assignments (Q45):
- multiple-choice questions
- questions to be answered (filled in) on forms prescribed (e.g. numerical answers)
- short essays
- longer paper on a set subject

Commenting upon the assignments submitted (Q46)
correction and additional comments

Use of a computer for the correction and commenting upon assignments (Q51): no

Success rate (average for the three courses with the highest number of enrollments) (Q53) 94 %

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54): 5 %
Ownership and type of institution (O2):
others: autonomous institution (federal/state funded)

Number of courses (O4): 7

Checked by institution
Ownership and type of institution (Q2):

state-owned

(The iff is an autonomous research and teaching institute and also has the function of a study centre for the FernUniversitat (Hagen, Federal Republic of Germany)

Number of courses (Q4): 25 (own in addition to those of the FernUniversitat)

Educational level of courses offered (Q5a):

university study and further professional training (after basic professional training and/or job experience)

Subject areas of courses (Q6): see FernUniversitat
Ownership and type of institution (Q2):
belonging to an association of some kind (church)

Number of courses (Q4): 168

Educational level of courses offered (Q5a):
others: ministerials programs, bachelor degree, christian ministry diploma

Subject areas of courses (Q6):
(1) education, the humanities, music and the arts, languages
(2) social sciences
(7) others: theology, pastoral ministry

Number of learners currently enrolled (Q7):
1,232,525 lower level (non degree)
5,051 degree level

Relative importance of face-to-face contacts (Q8):
distance teaching with very little face-to-face contact (for tutoring/counselling purposes or immediately before oral examinations)
(Contact varies in the different programs and in the different parts of the world)

face-to-face sessions, if offered: voluntary/compulsory
(This depends on geographical location i.e. what countries are involved)

Flexibility in pacing and teaching methods/options for student (Q9):
Flexibility (in):
- when to start their course/their studies
- when to take their exams/final exams
- when to order their study material
- when to send their assignments
- between different media (in certain courses where the materials are presented in audio or video as well as print)
- how and when to use counselling services

Media used for teaching (Q10):
radio/ written course units/ audio tapes/ video tapes/slides/ face-to-face sessions

Participants of course teams (Q13/14):
- subject specialists/ students of the subject in question/ media specialists

Local study centres (Q16): yes

Function of the study centres (Q17):
face-to-face teaching (compulsory for students)/support of distance education (voluntary participation)
(This depends on the level and program being studied)

Evaluation of courses and media (Q18): yes

Flexibility in the curriculum to be followed for the acquisition of a particular diploma (Q22):
- low/fixed curriculum
- medium/fixed curriculum, but it contains alternatives
- high/courses in the curriculum can be chosen freely within a set framework
(This depends on the level of the program. The higher the level the closer to the category "high")
Elements of two-way communication (Q29):
- correcting of assignments
- commenting on assignments
- regular contacts between tutor and learner: mediated contact
- organized face-to-face sessions
  (face-to-face contact is only possible in certain countries)
- answering of learners' queries, requests etc.
- contacts with learners initiated by the institution

Media used in two-way communication/counselling and tutoring service (Q30):
- written correspondence/ telephome (only in some western countries)

Measures to reduce the non-starter and drop-out rates (Q35):
- mailing of pre-produced (standardized) letters of encouragement or reminders
- mailing of individualized letters

Type of continuous assessment (Q38):
- written assignments to be submitted
- written intermediary exams

Terminating of courses with examinations (Q40): yes
- type of examination: written/oral exams
  (Oral exams only for selected courses at lower level program)

Average turn-around time for tutor’s correction and comments of the assignments (Q44): 2 days

Types of items for the assignments (Q45):
- short open-ended questions
- multiple-choice questions
- short essays
- longer paper on a set subject
- samples of learner’s work
  (This depends on the courses content)

Commenting upon the assignments submitted (Q46)
- correction and additional comments

Use of a computer for the correction and commenting upon assignments (Q51): yes

Success rate (average for the three courses with the highest number of enrollments) (Q52): 85%

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54): 10%
  (Greater in lower level programs such as 'evangelism' - 50%)

Checked by institution
Ownership and type of institution (02):

StOHO is an autonomous association, sponsored by the Flemish Regional Executive and based on a network of universities and other institutions of higher education. In order to prepare for the start or open higher education in Flanders, a centre called 'Studiencentrum Open Hoger Onderwijs v.z.w.' was created in 1987. The government ordered the centre to prepare for the start of 'Open Higher Education in Flanders' - to prepare for the start of 'Open Higher Education in Flanders' - to develop multi-media learning packages - to develop and programme curricula and courses and to make tutorial and counselling arrangements - to bring about cooperation with the Open Universities in the Netherlands and the United Kingdom.

At present, Flemish students are enrolled with the Netherlands Ou. In the future, the organisation for Flemish Open Higher Education will be able to award degrees recognised in Belgian law on the basis of study packages or modules made up of Dutch courses and specific Flemish courses.

Educational level of courses offered (05a):

university study and higher education:

The Open Universiteit (NL) will provide for the gradual establishment of 27 diploma courses at university level (5,400 hours) and at non-university higher education level (3,600 hours minimum)
Name of institution: Vlaamse Interuniversitaire Raad

Address:
- Egmontstraat 5, 1050 Brussel, Belgium
- de Croylaan 42, 3030 Leuven, Belgium

Ownership and type of institution (Q2):
- official body under public law
(The institution cooperates with the Open Universiteit in the Netherlands and with the Open University in the U.K.)

Number of courses (Q4):
- no answer
(Course material from the Dutch O.U.; 37 courses are specified in a list sent together with the questionnaire)

Educational level of courses offered (Q5a):
- university study and further professional training (after basic professional training and/or job experience)

Subject areas of courses (Q6):
1. the humanities, music and the arts
2. social sciences and law
3. economics
4. sciences and engineering

Number of learners currently enrolled (Q7):
- 1,000

Relative importance of face-to-face contacts (Q8):

Success rate (average for the three courses with the highest number of enrollments) (Q53)
no answer

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54):
no answer
Name of institution: FEPLAN (Fundação Educacional Padre Landell de Moura)

Address:
Av. Bastian 286
Porto Alegre - R.G. do Sul
Brazil

Ownership and type of institution (Q2):
Private non-profit institution (foundation)

Number of courses (Q4): no answer
(number of programs: 50)

Educational level of courses offered (Q5a):
Basic school education/university study and further professional training (after basic professional training and/or job experience)/others: special programs for the rural population

(FEPLAN cooperates with several universities in the South of Brazil and has the function of media institute in this cooperation)

Subject areas of courses (Q6):
Basic school education/special programs for the rural population

Number of learners currently enrolled (Q7): 12,000

Relative importance of face-to-face contacts (Q8):
12%
- Distance teaching and face-to-face teaching of equal importance
- Face-to-face teaching with supplementary distance teaching material

Face-to-face sessions, if offered: voluntary

Flexibility in pacing and teaching methods/options for students (Q9):

Flexibility (in):
- When to order their study material
- When to send their assignments
- Between different media

Media used for teaching (Q10):
Radio/television/written course units/audio tapes/video tapes/films/slides/personal computers (PC)/face-to-face sessions/laboratories, workshops

Participants of course teams (Q13/14):
- Subject specialists/students of the subject in question/media specialists
- Subject specialists/media specialists

Local study centres (Q16): yes

Function of the study centres (Q17):
- Support of distance education (voluntary participation)
- Distribution of the teaching material and immatriculation of learners

Evaluation of courses and media (Q18): yes

Flexibility in the curriculum to be followed for the acquisition of a particular diploma (Q22):
- High/courses in the curriculum can be chosen freely within a set framework

Elements of two-way communication (Q29):
- Regular contacts between tutor and learner: direct face-to-face contact
- Contacts with learners initiated by the institution
Media used in two-way communication/counselling and tutoring service (Q30):

written correspondence/ audio tapes/ direct (face-to-face) contacts

Measures to reduce the non-starter and drop-out rates (Q35):

(no measures in the meaning of Q35)

Type of continuous assessment (Q38):

- written intermediary exams

Terminating of courses with examinations (Q40): no

Average turn-around time for tutor's correction and comments of the assignments (Q44):

not applicable; no assignments

Types of items for the assignments (Q45):

not applicable; no assignments

Commenting upon the assignments submitted (Q46)

not applicable; no assignments

Use of a computer for the correction and commenting upon assignments (Q51):

not applicable; no assignments

Success rate (average for the three courses with the highest number of enrollments) (Q53)

no answer

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54):

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54): 10 %

Checked by institution
Ontario Institute for Studies in Education / 1

Name of institution:
Ontario Institute for Studies in Education

Address:
252 Bloor St. West
Toronto, Ontario
Canada M5S 1V6

Ownership and type of institution (Q2):
state-owned. OISE is the Graduate School of Education of the University of Toronto. OISE is a dual mode institution: 90% of the courses are face-to-face.

Number of distance mode courses (Q4): approx. 10 per year

Educational level of courses offered (Q5a):
Master of Education level

Subject areas of courses (Q6):
(1) education

Number of learners currently enrolled (Q7):
this varies from year to year - max. 100

Relative importance of face-to-face contacts (Q8):
distance teaching with face-to-face elements: audio conferences. courses usually have two face-to-face classes within the three month courses/ computer conferenced courses use one face-to-face class at the start of the course

Flexibility in pacing and teaching methods/options for students (Q9):
The amount of flexibility varies within courses, and may relate to content or learning process or choice of assignment.

Ontario Institute for Studies in Education / 2

Media used for teaching (Q10):
written course units/ audio tapes/ telephone/ face-to-face sessions/ audio and computer conferencing

Participants of course teams (Q13/14):
- subject specialists/ media specialists
- learning designer

Local study centres (Q16): yes

Function of the study centres (Q17):
facilities for the students to meet on their own, and for their formal audio classes with the professor

Evaluation of courses and media (Q18): yes

Flexibility in the curriculum to be followed for the acquisition of a particular diploma (Q22):
courses in the curriculum can be chosen freely within a set framework

Elements of two-way communication (Q29):
- graduate level seminars, face-to-face, audio + computer
- correcting of assignments
- commenting on assignments
- regular contacts between tutor and learner: mediated/direct face-to-face contact
- answering of learners' queries, requests etc.
- contacts with learners initiated by the institution

Media used in two-way communication/counselling and tutoring service (Q33):
telephone, computers

Measures to reduce the non-starter and drop-out rates (Q35):
not any drop out rate/ students are very interested to do these courses
Type of continuous assessment (Q38):
- assignments to be submitted
- class discussions

Terminating of courses with examinations (Q40): no

Average turn-around time for tutor's correction and comments of the assignments (Q44): 7 days

Success rate (average for the three courses with the highest number of enrollments) (Q53): 88%
Name of institution: Télé-université

Address:
2635, boulevard Hochelaga
7 ème étage
Case postale 10700
Sainte-Foy (Québec), G1V 4V9
Canada

Ownership and type of institution (Q2):
state-owned

Number of courses (Q4): 79

Educational level of courses offered (Q5a):
university study and further professional training (after basic professional training and/or job experience)

Subject areas of courses (Q6):
1. education, the humanities, the arts, languages
2. social sciences
3. economics
4. mathematics, sciences

Number of learners currently enrolled (Q7): 24,684

Relative importance of face-to-face contacts (Q8):
- partly face-to-face teaching, no face-to-face contact
- partly face-to-face teaching with very little face-to-face contact (for tutoring/counselling purposes or immediately before examination

face-to-face sessions, if offered: partly voluntary partly compulsory

Flexibility in pacing and teaching methods/options for students (Q9): no answer

Media used for teaching (Q10):
television/ written course units/ audio tapes/ video tapes/ slides/ electronic data processing (EDP on mainframe)/ personal computers (PC)/ telephone/ laboratories and workshops

Participants of course teams (Q13/14):
- subject specialists/ media specialists

Local study centres (Q16): yes

Function of the study centres (Q17):
face-to-face teaching (compulsory for students)

Evaluation of courses and media (Q18): yes

Flexibility in the curriculum to be followed for the acquisition of a particular diploma (Q22):
- partly medium/fixed curriculum, but it contains alternatives
- partly high/courses in the curriculum can be chosen freely within a set framework

Elements of two-way communication (Q29):
- correcting of assignments
- commenting on assignments
- regular contacts between tutor and learner: mediated
- answering of learners' queries, requests etc.

Media used in two-way communication / counselling and tutoring service (Q30):
written correspondence/ telephone/ sometimes direct (face-to-face) contacts
Measures to reduce the non-starter and drop-out rates (Q35):
- mailing of standardized letters of encouragement or reminders
- phone calls to learners

Type of continuous assessment (Q38):
- written assignments to be submitted
- written intermediary exams

Terminating of courses with examinations (Q40): no

Average turn-around time for tutor’s correction and comments of the assignments (Q44): 15 days

Types of items for the assignments (Q45):
- short open-ended questions
- multiple-choice questions
- questions to be answered (filled in) on forms prescribed (e.g. numerical answers)
- short essays
- longer paper on a self-chosen subject from the course
- case studies

Commenting upon the assignments submitted (Q46):
- correction and additional comments

Use of a computer for the correction and commenting upon assignments (Q51): yes (for tasks in the sciences)

Success rate (average for the three courses with the highest number of enrollments) (Q53):
not available

**Evaluation of courses and media (Q18):** yes

**Flexibility in the curriculum to be followed for the acquisition of a particular diploma (Q22):**
- low/fixed curriculum

**Elements of two-way communication (Q29):**
- correcting of assignments
- commenting on assignments
- regular contacts between tutor and learner: mediated contact
- organized face-to-face sessions
- contacts with learners initiated by the institution
- others: telephone service between students and tutors, Univ. library, Univ.bookstore

**Media used in two-way communication/counselling and tutoring service (Q39):**
written correspondence/ telephone
Measures to reduce the non-starter and drop-out rates (Q35):
- mailing of standardized letters of encouragement or reminders
- phone calls to learners

Type of continuous assessment (Q38):
- written assignments to be submitted
- written intermediary exams

Terminating of courses with examinations (Q40): yes
- type of examination: written exams

Average turn-around time for tutor's correction and comments of the assignments (Q44):
approx. 14 days

Types of items for the assignments (Q45):
- short open-ended questions
- questions to be answered (filled in) on forms prescribed (e.g. numerical answers)
- short essays
- longer paper on a set subject
- others: special projects/ case studies

Commenting upon the assignments submitted (Q46):
- correction and additional comments

Use of a computer for the correction and commenting upon assignments (Q51): no

Success rate (average for the three courses with the highest number of enrollments) (Q53) 95 %

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54): 1 %

Checked by institution
Name of institution:
University of Calgary
Faculty of Continuing Education
Distance Education Unit

Address:
2500 University Dr. N.W. Calgary
Alberta
Canada T2N 1N4

Ownership and type of institution (Q2):
state-owned

Number of courses (Q4): 20 (per year)
(All responses refer to the distance education unit within the University of Calgary)

Educational level of courses offered (Q5a):
university study and further professional training (after basic professional training and/or job experience)

Subject areas of courses (Q6):
(1) education, the humanities
(2) social sciences

Number of learners currently enrolled (Q7): 1,200

Relative importance of face-to-face contacts (Q8):
- distance teaching with a few face-to-face elements

Flexibility in pacing and teaching methods/options for students (Q9):
no options

Media used for teaching (Q10):
- audio teleconferencing
- written course units

Participants of course teams (Q13/14):
- subject specialists

Local study centres (Q16): yes
- key component for audio teleconferencing

Evaluation of courses and media (Q18): yes
- on-going efforts to evaluate

Flexibility in the curriculum to be followed for the acquisition of a particular diploma (Q22):
- mostly ad hoc courses
(as such flexibility not applicable)

Elements of two-way communication (Q23):
- correcting of assignments
- commenting on assignments
- regular contacts between tutor and learner: mediated contact
- answering of learners' queries, requests etc.
- regular contact among students

Media used in two-way communication/counselling and tutoring service (Q39):
audio teleconferencing

Measures to reduce the non-starter and drop-out rates (Q35):
not applicable (95 % completion rate)
Type of continuous assessment (Q38):
- written assignments to be submitted
- written intermediary exams
- oral intermediary exams

Terminating of courses with examinations (Q40): no

Average turn-around time for tutor's correction and comments of the assignments (Q44): 10 days

Types of items for the assignments (Q45):
- short quizes to essays

Commenting upon the assignments submitted (Q46)
- correction and additional comments

Use of a computer for the correction and commenting upon assignments (Q51): no

Success rate (average for the three courses with the highest number of enrollments) (Q53): 95 %

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54): 5 %

Checked by institution
Ownership and type of institution (Q2):
- official body under public law

Number of courses (Q4): 50 - English language
20 - French language
(40 - Educational videotapes)

Educational level of courses offered (Q5a):
college level study and further professional training (after basic professional training and/or job experience)

Subject areas of courses (Q6):
(4) agricultural sciences, agricultural and sylvicultural professions, horticultural sciences

Number of learners currently enrolled (Q7): 7,000

Relative importance of face-to-face contacts (Q8):
- distance teaching with very little face-to-face contact (for tutoring/counselling purposes or immediately before oral examinations

Flexibility in pacing and teaching methods/options for students (Q9):
- when to start their course/their studies
- when to take their exams/final exams
- when to order their study material
- when to send their assignments
- between different teaching methods
- between different media
- how and when to use counselling services

Media used for teaching (Q10):
written course units/ audio tapes/ video tapes/ films/ slides/ personal computers (PC)

Participants of course teams (Q13/14):
- subject specialists/ media specialists

Local study centres (Q16): no

Evaluation of courses and media (Q18): yes

Flexibility in the curriculum to be followed for the acquisition of a particular diploma (Q22):
- medium/fixed curriculum, but it contains alternatives

Elements of two-way communication (Q29):
- correcting of assignments
- commenting on assignments
- regular contacts between tutor and learner: mediated contact
- answering of learners' queries, requests etc.
- contacts with learners initiated by the institution

Media used in two-way communication/counselling and tutoring service (Q30):
written correspondence/ telephone/ direct (face-to-face) contacts
Measures to reduce the non-starter and drop-out rates (Q35): no measures

Type of continuous assessment (Q38):
- written assignments to be submitted
- written intermediary exams

Terminating of courses with examinations (Q40): yes
- type of examination: written exams

Average turn-around time for tutor's correction and comments of the assignments (Q44): 28 days

Types of items for the assignments (Q45):
- short open-ended questions
- multiple-choice questions
- short essays
- longer paper on a set subject
- longer paper on a self-chosen subject from the course
- samples of learner's work

Commenting upon the assignments submitted (Q46)
- correction and additional comments

Use of a computer for the correction and commenting upon assignments (Q51): yes

(Tutor comments are computerized - able to communicate with learner via cosy network)

Success rate (average for the three courses with the highest number of enrollments) (Q53): 75%

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54): 25%
Ownership and type of institution (Q2):

official body under public law
(provincial university with its own charter)

Number of courses (Q4): 1,500

Educational level of courses offered (Q5a):

university study and further professional training (after basic professional training and/or job experience)

Subject areas of courses (Q6):

(1) education, the humanities, languages
(2) social sciences and law
(3) economics
(4) sylvicultural professions
(5) mathematics, sciences and engineering
(7) others: Forestry, physical education

Number of learners currently enrolled (Q7): 10,518

Relative importance of face-to-face contacts (Q8):

(The University of Brunswick is a dual mode institution in which distance education is a relatively recent development)
- distance teaching with very little face-to-face contact (for tutoring/counselling purposes (correspondence - "open access" - courses work this way)
- distance teaching with a few face-to-face elements or supplements (e.g. seminars, week-end seminars etc.) (television-assisted and audioteleconferenced courses, distance education program approach)
- face-to-face teaching with supplementary distance teaching material (overall university perspective)

face-to-face sessions, if offered: usually voluntary in
teaching-assisted courses
(are built into teleconferenced
courses as often as possible, and attendance is required.)

Flexibility in pacing and teaching methods/options for students (Q9):

Flexibility (in):
- a. when to start their course/their studies
- b. when to take their exams/final exams
- c. when to order their study material
- d. when to send their assignments
- e. between different teaching methods
- g. how and when to use counselling services

a., b., c., d.: true of our correspondence courses only
e.: face-to-face vs distance in some cases
g.: time flexibility, yes, offered only on campus

Media used for teaching (Q10):

television/ written course units/ audio tapes/ video tapes/ telephone/ face-to-face sessions
(During 1988-89, no television-assisted courses were offered, and none are likely to be given during 1989-90. Reason: too labour-intensive to administer.)

Participants of course teams (Q13/14):

- subject specialists/ distance education coordinator
Local study centres (Q16): no

(Although during 1988-89 we did establish university/community liaison representatives in seven communities throughout the province to field inquiries, assist with publicity, registration, academic advising, & study skills tutoring)

Evaluation of courses and media (Q18): yes

Flexibility in the curriculum to be followed for the acquisition of a particular diploma (Q22):
- medium/fixed curriculum, but it contains alternatives

Elements of two-way communication (Q29):
- correcting of assignments
- commenting on assignments
- regular contacts between tutor and learner: mediated/direct face-to-face contact
- organized face-to-face sessions
- answering of learners' queries, requests etc.
- contacts with learners initiated by the institution

Media used in two-way communication/counselling and tutoring services (Q30):
telephone/ direct (face-to-face) contacts (on campus)

Measures to reduce the non-starter and drop-out rates (Q35):
- phone calls and letters to learners

Type of continuous assessment (Q38):
- written assignments to be submitted

Terminating of courses with examinations (Q40): yes
- type of examination: written exams

Average turn-around time for tutor's correction and comments of the assignments (Q44): 7-10 days

Types of items for the assignments (Q45):
- short open-ended questions
- multiple-choice questions
- questions to be answered (filled in) on forms prescribed (e.g. numerical answers)
- short essays
- longer paper on a set subject
- longer paper on a self-chosen subject from the course
- samples of learner's work

Commenting upon the assignments submitted (Q46)
- correction and additional comments

Use of a computer for the correction and commenting upon assignments (Q51): no

Success rate (average for the three courses with the highest number of enrollments) (Q53)
90%

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54):
2%

Checked by institution

Local study centres (Q16): yes

Function of the study centres (Q17): face-to-face teaching (compulsory for students)

Evaluation of courses and media (Q18): yes

Flexibility in the curriculum to be followed for the acquisition of a particular diploma (Q22):
- medium/fixed curriculum, but it contains alternatives

Elements of two-way communication (Q29):
- correcting of assignments
- commenting on assignments
- regular contacts between tutor and learner: direct face-to-face contact
- organized face-to-face sessions
- answering of learners' queries, requests etc.
- contacts with learners initiated by the institution
Instituto Nacional de Capacitación Profesional (INACAP) / 1

**Name of institution:**
Instituto Nacional de Capacitación Profesional (INACAP)
Instituto Profesional y Centro de Formación Técnica

**Address:**
Chesterton No. 7028
Las Condes - Santiago
Chile

**Ownership and type of institution (Q2):**
private non-profit institution

**Number of courses (Q4):** 21

**Educational level of courses offered (Q5a):**
basic school education/ further education at school and basic professional training (e.g. preparation for 'A' levels, high school certificate and entrance qualifications for university studies, upper secondary level, technical college etc.)/ university study and further professional training (after basic professional training and/or job experience)

**Subject areas of courses (Q6):**
(1) education, the humanities, music and the arts, languages
(4) agricultural sciences, agricultural and sylvicultural professions
(5) mathematics, sciences and engineering
(7) others: Administration, technic/technology, services

**Number of learners currently enrolled (Q7):** 1,026

**Relative importance of face-to-face contacts (Q8):**
- distance teaching with very little face-to-face contact (for tutoring/counselling purposes or immediately before oral examinations
face-to-face sessions, if offered: partly voluntary/partly compulsory (at the beginning of new courses; for assessment and exams; for practical work in laboratories/workshops)

**Flexibility in pacing and teaching methods/options for students (Q9):**
- Flexibility (in):
  - when to start their course/their studies
  - when to take their exams/final exams
  - when to order their study material
  - when to take their exams
  - how and when to use counselling services
  - days/hours/places of the face-to-face sessions

**Media used for teaching (Q10):**
written course units/ audio tapes/ video tapes/ face-to-face sessions/ laboratories, workshops

**Participants of course teams (Q11/12):**
- subject specialists/ instructional designers

**Local study centres (Q16):** yes

**Function of the study centres (Q17):**
partly face-to-face teaching (compulsory for students)/ partly support of distance education (voluntary participation)/ in addition: administration of courses

**Evaluation of courses and media (Q18):** yes
Flexibility in the curriculum to be followed for the acquisition of a particular diploma (Q22):
- medium/fixed curriculum, but it contains alternatives

Elements of two-way communication (Q29):
- correcting of assignments
- commenting on assignments
- regular contacts between tutor and learner: mediated/direct face-to-face contact
- organized face-to-face sessions
- answering of learners' queries, requests etc.
- contacts with learners initiated by the institution

Media used in two-way communication/counselling and tutoring service (Q30):
written correspondence/ telephone/ audio tapes/ direct (face-to-face) contacts

Measures to reduce the non-starter and drop-out rates (Q35):
- mailing of pre-produced (standardized) letters of encouragement or reminders
- mailing of individualized letters
- phone calls to learners
- visits to learners by other group members, requested by the institution

Type of continuous assessment (Q38):
- written assignments (self assessment)
- written intermediary exams
- others: terminating exams in the presence of delegates of the institution/practical work

Terminating of courses with examinations (Q40): yes (see Q38)
- type of examination: written exams

Average turn-around time for tutor's correction and comments of the assignments (Q44): not applicable
(the tutor/teacher corrects and comments during the face-to-face sessions)

Types of items for the assignments/exams (Q45):
- short open-ended questions
- multiple-choice questions
- short essays
- samples of learner's work

Commenting upon the assignments submitted (Q46):
- correction and additional comments

Use of a computer for the correction and commenting upon assignments (Q51): no

Success rate (average for the three courses with the highest number of enrollments) (Q53): 86%

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54): 6%
Name of institution: National Open University
Address: 172 Chung Chen Road, Lu Chow Country, Taipei County, Taiwan 24702, Republic of China

Ownership and type of institution (Q2):
- state-owned

Number of courses (Q4): 90 (the academic year 1986-89)

Educational level of courses offered (Q5a):
- university study and further professional training (after basic professional training and/or job experience)

Subject areas of courses (Q6):
1. education, the humanities, music and the arts, languages (These courses are similar to those which are offered by the Dept. of Humanity in our university except for "education" which is offered by the Dept. of Social Sciences)
2. social sciences and law (These are the courses offered by the Dept. of Social Sciences in our university)
3. economics (Besides this one, the related courses on business, including calculus, computer science, are offered at the Dept. of Business)

Number of learners currently enrolled (Q7): 20,584 (the academic year fall semester 1988)

Relative importance of face-to-face contacts (Q8):
- distance teaching with a few face-to-face elements or supplements (e.g. seminars, week-end seminars etc.)
- laboratories

Face-to-face sessions, if offered: compulsory

Flexibility in pacing and teaching methods/options for students (Q9):
- Flexibility (in):
  - when to order their study material

Media used for teaching (Q10):
- radio/television, written course units, face-to-face sessions
  (TV and radio are the mainly teaching media besides textbooks and supplementary materials (semi-monthly journal, NOU Newspaper Column) and face-to-face sessions are compulsory so far)

Participants of course teams (Q13/14):
- subject specialists, media specialists, instructional developer, assistants

Local study centres (Q16): yes

Function of the study centres (Q17):
- partly face-to-face teaching (compulsory for students), partly support of distance education (voluntary participation)

Evaluation of courses and media (Q18): yes

Flexibility in the curriculum to be followed for the acquisition of a particular diploma (Q22):
- high/courses in the curriculum can be chosen freely within a set framework
**Elements of two-way communication (Q29):**
- correcting of assignments
- commenting on assignments
- organized face-to-face sessions
- answering of learners' queries, requests etc.

**Media used in two-way communication/counselling and tutoring service (Q30):**
- telephone/ direct (face-to-face) contacts/ letters/ periodicals/ laboratories

**Measures to reduce the non-starter and drop-out rates (Q35):**
- mailing of pre-produced (standardized) letters of encouragement or reminders

**Type of continuous assessment (Q38):**
- written assignments to be submitted (the number of assignments varies depending on how many units each course contains; in general, each course is required to give students 2 to 3 graded assignments)
- written intermediary exams and final exams to be taken

**Terminating of courses with examinations (Q40):** yes
- type of examination: written exams

**Average turn-around time for tutor's correction and comments of the assignments (Q44):** about 14-20 days

**Types of items for the assignments (Q45):**
- multiple-choice questions
- yes/no questions
- short essays
- short answers

**Commenting upon the assignments submitted (Q46):**
- correction and additional comments

---

**Use of a computer for the correction and commenting upon assignments (Q51):** no

**Success rate (average for the three courses with the highest number of enrollments) (Q53):**
- 54.73%
  - Success rates for curricula - Q52a:
    - (1) education: 60.26%
    - (2) social sciences and law: 65.80%
    - (3) economics: 38.12%

(As for the above-mentioned courses (1) (2) (3), please see the description on Q6. The rates are shown according to the statistics of the academic year 1987)

**Non-starter rate (average for the three courses with the highest number of enrollments) (Q54):**
- 31.61%
  - (Drop out rates for curricula - Q52b:
    - (1) education: 27.90%
    - (2) social sciences and law: 23.11%
    - (3) economics: 43.11%

(As for the above-mentioned courses (1) (2) (3), please see the description on Q6. The rates are shown according to the statistics of the academic year 1987)

Checked by institution

- distance teaching and face-to-face teaching of equal importance

face-to-face sessions, if offered: compulsory

Flexibility in pacing and teaching methods/options for students (Q9):

Flexibility (in):
- between different teaching methods
- between different media

Media used for teaching (Q10):
television/ written course units/ audio tapes/ video tapes/ slides/ face-to-face sessions/ laboratories, workshops

Participants of course teams (Q17/14):
- no course teams

Local study centres (Q16): yes

Function of the study centres (Q17):
face-to-face teaching (compulsory for students)

Evaluation of courses and media (Q18): yes

Flexibility in the curriculum to be followed for the acquisition of a particular diploma (Q22):
- low/fixed curriculum

Elements of two-way communication (Q29):
- organized face-to-face sessions

Media used in two-way communication/counselling and tutoring service (Q30):
television/ direct (face-to-face) contacts

Measures to reduce the non-starter and drop-out rates (Q35):
- phone calls to learners

Type of continuous assessment (Q38):
- written intermediary exams
- oral intermediary exams

Terminating of courses with examinations (Q40): yes
- type of examination: written and oral exams
Average turn-around time for tutor's correction and comments of the assignments (Q44): 15 days

Types of items for assignments/exams (Q45):
- short open-ended questions
- short essays
- longer paper on a self-chosen subject from the course

Commenting upon the assignments submitted (Q46):
- correction and additional comments (comments are made during the face-to-face sessions in the regional study centres)

Use of a computer for the correction and commenting upon assignments (Q51): no

Success rate (average for the three courses with the highest number of enrollments) (Q53) 90 %

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54): 0 %

Checked by institution
Universidad Popular del Cesar / 1

Ownership and type of institution (Q2):
state-owned/official body under public law

Number of curricula (Q4): 12

Educational level of courses offered (Q5a):
basic school education/further education at school and basic professional training (e.g. preparation for 'A'levels, high school certificate and entrance qualifications for university studies, upper secondary level, technical college etc.)/university study and further professional training (after basic professional training and/or job experience)

Subject areas of courses (Q6):
(1) education
(2) social sciences
(3) economics
(4) agricultural sciences, agricultural and sylvicultural professions
(5) engineering and technical professions
(7) others: administration

Number of learners currently enrolled (Q7): 365

1) The institution is connected with the 'Unidad Universitaria del Sur de Bogotá (UNISUR)'.

Universidad Popular del Cesar / 2

Relative importance of face-to-face contacts (Q8):
- pure distance teaching, no face-to-face contact
- distance teaching with very little face-to-face contact (for tutoring/counselling purposes or immediately before oral examinations
- distance teaching with a few face-to-face elements or supplements (e.g. seminars, week-end seminars etc.)
- distance teaching and face-to-face teaching of equal importance
- face-to-face teaching with supplementary distance teaching material

face-to-face sessions, if offered: voluntary

Flexibility in pacing and teaching methods/options for students (Q9):
Flexibility (in):
- when to start their course/their studies
- when to take their exams/final exams
- when to order their study material
- when to send their assignments
- how and when to use counselling services

Media used for teaching (Q10):
radio/television/written course units/audio tapes/video tapes/films/slides/telephone/face-to-face sessions

Participants of course teams (Q13/14):
- subject specialists and/or students of the subject in question and/or media specialists

Local study centres (Q16): yes

Evaluation of courses and media (Q18): yes

Flexibility in the curriculum to be followed for the acquisition of a particular diploma (Q22):
- partly low/fixed curriculum
- partly medium/fixed curriculum, but it contains alternatives
- partly high/courses in the curriculum can be chosen freely within a set framework

2) probably (?) different modes for different courses
Elements of two-way communication (Q29):
- correcting of assignments
- commenting on assignments
- organized face-to-face sessions
- answering of learners' queries, requests etc.

Media used in two-way communication/counselling and tutoring service (Q30):
written correspondence/ telephone/ audio tapes

Measures to reduce the non-starter and drop-out rates (Q35):
- mailing of pre-produced (standardized) letters of encouragement or reminders
- mailing of individualized letters
- phone calls to learners
- meetings of learners and people appointed by the institution

Type of continuous assessment (Q38):
- written assignments to be submitted
- written intermediary exams

Terminating of courses with examinations (Q40): yes
- type of examination: written/written and oral exams

Average turn-around time for tutor's correction and comments of the assignments (Q44): 5 - 8 days

Types of items for the assignments (Q45):
- short open-ended questions
- multiple-choice questions
- short essays

Commenting upon the assignments submitted (Q46):
- partly correction only/ partly correction and additional comments

Use of a computer for the correction and commenting upon assignments (Q51): no

Success rate (Q52a): different for the subjects areas:
agriculture: 40 %
engineering and technical professions: 80 %
education: 90 %

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54): no answer

-------------
checked by institution
Ownership and type of institution (Q02): state-owned:
The correspondence school is part of the Home Guard School (Hjemmeværnsskolen) which is accepting students mainly belonging to the Home Guard. The Home Guard consist of 72,000 men and women who form a militia alongside the regular armed forces.

Number of courses (Q04): 38 correspondence courses (plus 56 face-to-face courses)

Educational level of courses offered (Q5a): The level of training cannot be compared with usual educational training level (such as upper secondary or university): the students of the institution represent all trades and levels of education.

Subject areas of courses (Q06):
(1) education, the humanities, music and the arts, languages
(2) social sciences and law
(7) others: military subjects

Number of learners currently enrolled (Q07): 8,060

Relative importance of face-to-face contacts (Q08): distance teaching and face-to-face teaching of equal importance face-to-face sessions: most of them compulsory

Flexibility in pacing and teaching methods/options for students (Q09):
- Flexibility (in): - when to start their course/their studies - when to take their exams/final exams - when to order their study material - how and when to use counselling services

Media used for teaching (Q10):
television, close circuit TV/ written course units/ audio tapes/ video tapes/ films/ slides/ telephone/ face-to-face sessions
(share of the different media: written ≈ 60% / face-to-face ≈ 30%)

Participants of course teams (Q13/14):
- subject specialists/ students of the subject in question/ media specialists

Local study centres (Q16):
local study centres are spread all over the country. They are run by local authorities which request support from our school.

Function of the study centres (Q17):
- partly face-to-face teaching (compulsory for students)
- partly support of distance education (voluntary participation)
- others: operational training of company staffs

Evaluation of courses and media (Q18): yes

Flexibility in the curriculum to be followed for the acquisition of a particular diploma (Q22):
- medium/ fixed curriculum, but it contains alternatives

Elements of two-way communication (Q29):
- correcting of assignments
- commenting on assignments
- regular contacts between tutor and learner: mediated/direct face-to-face contact
- organized face-to-face sessions
- answering of learners' queries, requests etc.
- contacts with learners initiated by the institution
Media used in two-way communication/counselling and tutoring service (Q38):
written correspondence/telephone/direct contact (during a face-to-face course)

Measures to reduce the non-starter and drop-out rates (Q35):
- mailing of standardized letters of encouragement or reminders

Type of continuous assessment (Q38):
- written assignments to be submitted

Terminating of courses with examinations (Q40): yes (in some courses)
- type of examination: written/others: general assessment of the ability as an instructor etc.

(Acquisition of a course certificate depends exclusively on the marks acquired in assignments for some courses; for other courses the acquisition of a certificate depends exclusively on the student's achievements in a final exam)

Average turn-around time for tutor's correction and comments of the assignments (Q44): 10 days

Types of items for the assignments (Q45):
- short open-ended questions
- multiple-choice questions
- questions to be answered (filled in) on forms prescribed (e.g. numerical answers)
- short essays
- longer paper on a set subject

Commenting upon the assignments submitted (Q46)
- correction and additional comments

Use of a computer for the correction and commenting upon assignments (Q51): no

Success rate (for the three courses with the highest number of enrollments) (Q53): 60 % / 78 % / 71 %

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54): no answer
Ownership and type of institution (02): state-owned

(JAU is a joint venture between the university of Aarhus, the university centre of Aalborg, and South Jutland university centre Esbjerg)

Number of courses (04): 20

(The JAU offers three different types of courses:
 a) Part I of conventional university degree courses (a two-year course of studies for full-time students which, under the JAU, last from 3 1/2 to 4 years). Completion of these courses entitles students to a degree that is approximately equivalent to B.A.
 b) so-called "ground-" or year-courses that can be concluded with an examination and which provided that they are within the same subject, can be combined enabling the student to end up with a degree
 c) continuing education courses without formal examinations.
(From: A short introduction to the Jutland Open University)

Educational level of courses offered (05a):

university study and further professional training (after basic professional training and/or job experience)

Subject areas of courses (06):

(1) the humanities, music and the arts, languages
(2) social sciences and law
(3) economics

Number of learners currently enrolled (07): 700

Relative importance of face-to-face contacts (08):
- distance teaching and face-to-face teaching of equal importance

face-to-face sessions, if offered: compulsory

(The JAU cares much about the social contact between teacher - who is also tutor and counsellor and examiner and author of course material - and the student and among the students)

Flexibility in pacing and teaching methods/options for students (09): flexibility (in):
- when to start their course/their studies
- how and when to use counselling services

Media used for teaching (010):

written course units/ audio tapes/ video tapes/ films/ slides/ telephone/ face-to-face sessions/ computer conferencing/ national broadcast radio and TV (in some courses)

Participants of course teams (013/14): subject specialists

Local study centres (016): JAU shares study centres with other institutions and have 5 regional study centres equipped with computer and videomaterial

Function of the study centres (017): face-to-face teaching (compulsory for students) and computer conferencing

Evaluation of courses and media (018): yes

Statistical data on students are recorded. Evaluation on computer conferencing in distance education.
Flexibility in the curriculum to be followed for the acquisition of a particular diploma (Q22):
- high/courses in the curriculum can be chosen freely within a set framework

Elements of two-way communication (Q29):
- correcting of assignments
- commenting on assignments
- regular contacts between tutor and learner: mediated/direct face-to-face contact
- organized face-to-face sessions
- contacts with learners initiated by the institution
- computer conferencing

Media used in two-way communication/counselling and tutoring service (Q30):
written correspondence/ telephone/ audio tapes/ direct (face-to-face) contacts/ computer conferencing

Measures to reduce the non-starter and drop-out rates (Q35):
- mailing of individualized letters
- phone calls to learners
- computer conferencing

Type of continuous assessment (Q38):
- written intermediary exams

Terminating of courses with examinations (Q40): yes
- type of examination: written and oral exams

Average turn-around time for tutor's correction and comments of the assignments (Q44): 8 days

Types of items for the assignments (Q45):
- short essays
- longer paper on a set subject
- longer paper on a self-chosen subject from the course
(the type varies with the different stages. JAU normally begins with shorter essays and ends up with a long essay for examination)

Commenting upon the assignments submitted (Q46)
- correction and additional comments

Use of a computer for the correction and commenting upon assignments (Q51): no
computer used for commenting on assignments

Success rate (average for the three courses with the highest number of enrollments) (Q53)
50 %
(If one ignores the initial drop out in the first three months of the course a success rate of 70 - 75% is attained)

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54):
33 %

Checked by institution
Ownership and type of institution (Q2):

Number of courses (Q4):
120 correspondence courses
5 big "combined" programs

Educational level of courses offered (Q5a):
basic school education/ further education at school and basic professional training (e.g. preparation for 'A'levels, high school certificate and entrance qualifications for university studies, upper secondary level, technical college etc.)/ university study and further professional training (after basic professional training and/or job experience)/ others: recreational studies
(The certificates are not officially recognized; the exams must be taken afterwards and elsewhere)

Subject areas of courses (Q6):
(1) education, the humanities, music and the arts, languages, communications
(2) social sciences
(3) economics and jobs in the areas of commerce
(4) agricultural sciences, agricultural professions (only 1 course left in 1989)
(5) mathematics, sciences and engineering

Number of learners currently enrolled (Q7):
6,115 (+ those continuing from the previous year)

[1989 expectation: 3,000 correspondence course students
2,500 other participants (other programs)]
Elements of two-way communication (Q29):
- correcting of assignments
- commenting on assignments
- regular contacts between tutor and learner: mediated contact
- organized face-to-face sessions (in some programs)
- answering of learners' queries, requests etc.
- contacts with learners initiated by the institution (not very essential)

Media used in two-way communication/counselling and tutoring service (Q30):
- written correspondence/telephone

Measures to reduce the non-starter and drop-out rates (Q35):
- mailing of pre-produced (standardized) letters of encouragement or reminders
- mailing of individualized letters
- phone calls to learners

Type of continuous assessment (Q38):
- assignments to be submitted (written or spoken on cassettes)

Terminating of courses with examinations (Q40): yes (not compulsory for certificates)
- type of examination: written exams

Average turn-around time for tutor's correction and comments of the assignments (Q44): 4-14 days

Types of items for the assignments (Q45):
- short open-ended questions
- questions to be answered (filled in) on forms prescribed (e.g., numerical answers)
- short essays
- samples of learner's work

Commenting upon the assignments submitted (Q46):
- correction with additional comments and reference remarks

Use of a computer for the correction and commenting upon assignments (Q51):
- no (for most courses; computer used for the assignments in computer courses)

Success rate (average for the three courses with the highest number of enrollments) (Q53): 70%

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54): 10-20% (estimated)

Checked by institution
Name of institution:
Markkinointi - Instituutti
(The Institute of Marketing)
Address:
Töölöntullinkatu 6
00250 Helsinki
Finland

Ownership and type of institution (Q2):
official body under public law

Number of courses (Q4): 380

Educational level of courses offered (Q5a):
further education at school and basic professional training (e.g. preparation for A'levels, high school certificate and entrance qualifications for university studies, upper secondary level, technical college etc.)/ university study and further professional training (after basic professional training and/or job experience)

Subject areas of courses (Q6):
(1) languages
(3) economics and jobs in the area of commerce and economics

Number of learners currently enrolled (Q7): 6,700

Relative importance of face-to-face contacts (Q8):
- distance teaching with a few face-to-face elements or supplements (e.g. seminars, week-end seminars etc.)

face-to-face sessions, if offered: compulsory

Flexibility in pacing and teaching methods/options for students (Q9):
Flexibility (in):
- between different media (in some cases)
- how and when to use counselling services

Media used for teaching (Q10):
written course units/ audio tapes/ video tapes/ films/ slides/ electronic data processing (EDI on mainframe)/ personal computers (PC)/ face-to-face sessions/ laboratories, workshops

Participants of course teams (Q13/14):
- subject specialists/ media specialists

Local study centres (Q16): yes

Function of the study centres (Q17):
face-to-face teaching (compulsory for students)

Evaluation of courses and media (Q18): yes

Flexibility in the curriculum to be followed for the acquisition of a particular diploma (Q22):
- partly low/fixed curriculum
- partly medium/fixed curriculum, but it contains alternatives

Elements of two-way communication (Q29):
- correcting of assignments
- commenting on assignments
- regular contacts between tutor and learner: mediated/direct face-to-face contact
- organized face-to-face sessions
- answering of learners' queries, requests etc.
- contacts with learners initiated by the institution

Media used in two-way communication/counselling and tutoring service (Q30):
written correspondence/ telephone/ direct (face-to-face) contacts
Measures to reduce the non-starter and drop-out rates (Q35):
- mailing of pre-produced (standardized) letters or encouragement or reminders (computerized letters)
- mailing of individualized letters
- phone calls to learners

Type of continuous assessment (Q38):
- written assignments to be submitted
- written intermediary exams

Terminating of courses with examinations (Q40): yes
- type of examination: written exams

Average turn-around time for tutor's correction and comments of the assignments (Q44):
15 days

Types of items for the assignments (Q45):
- short open-ended questions
- multiple-choice questions
- questions to be answered (filled in) on forms prescribed (e.g. numerical answers)
- short essays
- longer paper on a set subject
- samples of learner's work

Commenting upon the assignments submitted (Q46)
- correction and additional comments

Use of a computer for the correction and commenting upon assignments (Q51): yes
(CADE-kind of system: 20%)

Success rate (average for the three courses with the highest number of enrollments) (Q53)
75 %
(success rate for curriculum -Q52a: (3) economics........60 %)

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54):
6 %
(drop out rate for curriculum -Q52b: (3) economics........25 %)

university study and further professional training (after basic professional training and/or job experience)

Subject areas of courses (Q6):
(2) social sciences and law
(3) economics

Number of learners currently enrolled (Q7): 722

Relative importance of face-to-face contacts (Q8):
- partly distance teaching with a few face-to-face elements or supplements (e.g. seminars, week-end seminars etc.)
- partly distance teaching and face-to-face teaching of equal importance

face-to-face sessions, if offered: voluntary

Flexibility in pacing and teaching methods/options for students (Q9):
no flexibility (in the meaning of Q9)

Media used for teaching (Q10):
written course units/ audio tapes/ video tapes/ slides/ electronic data processing (EDP on mainframe)/ personal computers (PC)/ face-to-face sessions/ laboratories, workshops

Participants of course teams (Q13/14):
- subject specialists/ media specialists

Local study centres (Q16):
no study centres owned by the institution, but MJK uses study centres of other institutions

Function of the study centres (Q17):
face-to-face teaching

Evaluation of courses and media (Q18): yes

Flexibility in the curriculum to be followed for the acquisition of a particular diploma (Q22):
- low/ fixed curriculum

Elements of two-way communication (Q29):
- correcting of assignments
- commenting on assignments
- regular contacts between tutor and learner: mediated contact
- organized face-to-face sessions
- answering of learners' queries, requests etc.

Media used in two-way communication/counselling and tutoring service (Q30):
written correspondence/ telephone (in some cases, not in general)

Measures to reduce the non-starter and drop-out rates (Q35):
- mailing of standardized letters of encouragement or reminders
- phone calls to learners

Type of continuous assessment (Q38):
- written assignments to be submitted
- written intermediary exams
Terminating of courses with examinations (Q40): yes
- type of examination: written exams

Average turn-around time for tutor's correction and comments of the assignments (Q44):
14-18 days

Types of items for the assignments (Q45):
- short open-ended questions
- questions to be answered (filled in) on forms prescribed (e.g. numerical answers) (really seldom)
- short essays
- samples of learner's work
- others: problem solving cases

Commenting upon the assignments submitted (Q46)
- correction and additional comments

Use of a computer for the correction and commenting upon assignments (Q51): no

Success rate (average for the three courses with the highest number of enrollments) (Q53)
1987-88: 87.5 %

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54):
1987-88: 12.5 %
Name of institution:
The Finnish Export Institute/
Distance Education Programmes in
Marketing

Address:
P.O.Box 41
SF-00131 Helsinki
Finland

Ownership and type of institution (Q2):
other type of institution: state supported private organization

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54):
- no answer
### Federation Interuniversitaire de l'Enseignement à Distance (FIED)

**Name of institution:**

Fédération Interuniversitaire de l'Enseignement à Distance (FIED)

**Address:**

Université de Paris I
12, Place du Panthéon
F-75231 Paris CEDEX 05

**President of the FIED:**

Présidente de la FIED

**TELEDIX - Bureau E217**

200, Avenue de la République

---

**Ownership and type of institution (Q2):**

The FIED was created in 1987 and includes 22 universities (with centres or departments for distance teaching): among them the Univ. de Provence Aix-Marseille I, Univ. de Franche-Comté, Univ. de Bordeaux III, Univ. de Caen, Univ. de Bourgogne, Univ. de Sciences Sociales de Grenoble II, Univ. de Lille III, Univ. de Montpellier III, Univ. de Nancy II, Univ. de Nantes; Univ. de Paris I (Centre audio-visuel, Radio Sorbonne), III (Sorbonne Nouvelle), VI (Unité d'enseignement et de recherche), X (Nanterre); Univ. de Reims, Univ. de Rennes II, Univ. de Rouen, Univ. de Strasbourg II, Univ. de Toulouse II.

(The majority of the centres developed between 1963 and 1980, teaching art social sciences (classical and modern literature, philosophy, psychology, sociology, educational sciences, history, geography, languages, applied languages) and law studies, developed in very different ways, governed by their 'host' universities.)

The FIED is responsible for coordinating the activities of the different centres.

**Educational level of courses offered (Q5a):**

- university study: three types of degree:
  - DEUG, diplôme d'études universitaire générales (1st level) - two years
  - 'licence', equivalent to a degree (2nd level) - a third year
  - 'maîtrise', (3rd level) - a fourth year

**Subject areas of courses (Q6):**

cf. Q2

(The choice of subjects available for study at the distance teaching centres depends upon the university teaching resources, and agreement with the Ministry of Education.)

---

**Number of learners enrolled (Q7):** 26,000 (in 1987)

**Relative importance of face-to-face contacts (Q8):**

- distance teaching with a few face-to-face elements or supplements (varies with/depends on subject and the policy of the centre or of the university)

**Media used for teaching (Q16):**

radio/ television/ written course units/ audio cassettes/ video tapes/ electronic mail and computers / telephone/ face-to-face sessions/ supervised group work/ home kids (for physics and chemistry experiments)

**Media used in two-way communication/counselling and tutoring service (Q35):**

telephone/ electro: mail/ tutorial sessions/

**Assessment (Q38) / examinations (Q40):**

Each centre applies the policy of its university in the writing and running of its curriculum, both in terms of the numbers of U.E. (units of teaching) that the student must successfully complete to obtain a qualification, and in setting the standards and criteria for that qualification.

- agricultural sciences, agricultural and silvicultural professions
- mathematics, sciences and engineering
- others

Number of learners currently enrolled (07): 950

Relative importance of face-to-face contacts (08):
- distance teaching with a few face-to-face elements or supplements (e.g. seminars, week-end seminars etc.)
- face-to-face sessions, if offered: compulsory (for the preparation of exams)

Flexibility in pacing and teaching methods/options for students (09):
- when to start their course/their studies
- when to send their assignments
- how and when to use counselling services

Media used for teaching (010):
- written course units/ audio tapes/ video tapes/ films/ slides/ electronic data processing (EDP on mainframe)/ face-to-face sessions/ laboratories, workshops

Participants of course teams (013/14):
- subject specialists together with staff members

Local study centres (016): no

Evaluation of courses and media (018): no

Flexibility in the curriculum to be followed for the acquisition of a particular diploma (022):
- partly low/fixed curriculum (BEPA, BTS, CPECF)
- partly medium/fixed curriculum, but it contains alternatives (BTA)
Elements of two-way communication (029):
- correcting of assignments
- commenting on assignments
- regular contacts between tutor and learner: direct face-to-face contact
- organized face-to-face sessions
- answering of learners' queries, requests etc.
- others: appointments for telephone contacts

Media used in two-way communication/counselling and tutoring service (030):
written correspondence/ telephone/ direct (face-to-face) contacts

Measures to reduce the non-starter and drop-out rates (035):
- mailing of pre-produced (standardized) letters of encouragement or reminders
- phone calls to learners

Type of continuous assessment (038):
- written assignments to be submitted
- written intermediary exams
- oral intermediary exams

Terminating of courses with examinations (Q40): yes
(70 % of courses)
- type of examination: written and oral exams

Average turn-around time for tutor's correction and comments of the assignments (Q44): 10-15 days

Types of items for the assignments (Q45):
- short open-ended questions
- longer paper on a set subject

Commenting upon the assignments submitted (Q46)
- correction and additional comments

Use of a computer for the correction and commenting upon assignments (Q51): no

Success rate (average for the three courses with the highest number of enrollments) (Q53)
70 %
(The rate varies depending on the course: between 30% and 100%)

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54): 3-5 % (see above)
Name of institution:
L'Institut de Formation du Crédit Agricole Mutuel (IFCAM) / CETCA

Address:
68, Rue La Boétie
75008 Paris
France

Ownership and type of institution (Q2):
- institution belonging to an association of some kind (bank)

Number of courses (Q4): 18

Educational level of courses offered (Q5a):
- Further education at school and basic professional training (e.g., preparation for 'A' levels, high school certificate and entrance qualifications for university studies, upper secondary level, technical college etc.)/ further professional training (after basic professional training and/or job experience) / others: training of correctors

Subject areas of courses (Q6):
- (2) law, taxation
- (3) economics (banking), accounting, financial analysis, methodology and problem resolution, insurances, marketing, management

Number of learners currently enrolled (Q7): 8,000

Relative importance of face-to-face contacts (Q8):
- Distance teaching with very little face-to-face contact (for tutoring/counselling purposes or immediately before oral examinations)
- Face-to-face contact in the banks belonging to the group

Flexibility in pacing and teaching methods/options for students (Q9):
- No flexibility in the meaning of Q9

Media used for teaching (Q10):
- Written course units/ electronic data processing (EDP on mainframe)

Participants of course teams (Q11/14):
- Subject specialists/ media specialists

Local study centres (Q16):
- No

Evaluation of courses and media (Q18):
- Yes

Flexibility in the curriculum to be followed for the acquisition of a particular diploma (Q22):
- Medium/fixed curriculum, but it contains alternatives and choice of courses in the 3rd year

Elements of two-way communication (Q29):
- Correcting of assignments
- Commenting on assignments

Media used in two-way communication/counselling and tutoring service (Q30):
- No two-way communication in the meaning of Q30

Measures to reduce the non-starter and drop-out rates (Q35):
- No measures in the meaning of Q35

Type of continuous assessment (Q38):
- Written assignments to be submitted
Terminating of courses with examinations (Q40): yes
- type of examination: written exams

Average turn-around time for tutor's correction and comments of the assignments (Q44): 15 days

Types of items for the assignments (Q45):
- longer paper on a set subject
- case studies

Commenting upon the assignments submitted (Q46)
- correction and additional comments

Use of a computer for the correction and commenting upon assignments (Q51): no

Success rate (average for the three courses with the highest number of enrollments) (Q53): 50%

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54): 5%

- pure distance teaching, no face-to-face contact
  (except for occasional interviews with the staff, at the
  student's request)

Flexibility in pacing and teaching methods/options for students
(Q9): none

Media used for teaching (Q10):
radio/ written course units/ audio tapes/ telephone

Participants of course teams (Q13/14):
subject specialists

Local study centres (Q16): no

Evaluation of courses and media (Q18): no

Flexibility in the curriculum to be followed for the acquisition
of a particular diploma (Q22):
- high/courses in the curriculum can be chosen freely within a set
  framework

Elements of two-way communication (Q29):
- correcting of assignments
- commenting on assignments
- regular contacts between tutor and learner: mediated and direct
  face-to-face contacts
- answering of learners' queries, requests etc.

Media used in two-way communication/counselling and tutoring
service (Q30):
no counselling and tutoring service

Measures to reduce the non-starter and drop-out rates (Q35):
- mailing of standardized letters of encouragement or reminders

Type of continuous assessment (Q38):
no continuous assessment

Terminating of courses with examinations (Q40): yes
- type of examination: written/ written and oral exams
  (exactly the same as those taken by their
  fellow-students who regularly attend the
  university courses)

Average turn-around time for tutor's correction and comments of
the assignments (Q44): 20 - 30 days
Types of items for the assignments (Q45):
- longer paper on a set subject from the course
  i.e. - literary essay on a given topic
  - literary translations from French into English & vice versa
  - linguistic & grammatical exercises

Commenting upon the assignments submitted (Q46):
- correction and additional comments (in addition "corrige" of essays and/or various exercises)

Use of a computer for the correction and commenting upon assignments (Q51): no

Success rate (average for the three courses with the highest number of enrollments) (Q53):
  25 %

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54):
  30 %

Checked by institution
Ownership and type of institution (Q2): state-owned

Number of courses (Q4): 210

Educational level of courses offered (Q5a): university study

Subject areas of courses (Q6):
1. the humanities, music and the arts, languages
2. social sciences
3. mathematics and sciences

Number of learners currently enrolled (Q7): 2,050

Relative importance of face-to-face contacts (Q8):
- distance teaching with a few face-to-face elements or supplements (e.g. seminars)
- face-to-face sessions, if offered: voluntary

Flexibility in pacing and teaching methods/options for students (Q9):
- flexibility (in):
- how and when to use counselling services

Media used for teaching (Q10):
radio/television/written course units/audio tapes/telephone/face-to-face sessions

Participants of course teams (Q11/14):
- subject specialists

Local study centres (Q16): no
(but students have the opportunity to come to campus)

Evaluation of courses and media (Q18): no

Flexibility in the curriculum to be followed for the acquisition of a particular diploma (Q22):
- medium/fixed curriculum, but it contains alternatives

Elements of two-way communication (Q29):
- correcting of assignments
- commenting on assignments
- regular contacts between tutor and learner: mediated contact
- answering of learners' queries, requests etc.
- contacts with learners initiated by the institution

Media used in two-way communication/counselling and tutoring service (Q30):
written correspondence/telephone/audio tapes/direct (face-to-face) contacts

Measures to reduce the non-starter and drop-out rates (Q35):
- mailing of standardized letters of encouragement or reminders

Type of continuous assessment (Q38):
no continuous assessment
Terminating of courses with examinations (Q40): yes
- type of examination: written and oral exams

Average turn-around time for tutor's correction and comments of the assignments (Q44):
15 days

Types of items for the assignments (Q45):
- short open-ended questions
- multiple-choice questions
- questions to be answered (filled in) on forms prescribed (e.g. numerical answers)
- short essays
- longer paper on a set subject

Commenting upon the assignments submitted (Q46)
correction and additional comments

Use of a computer for the correction and commenting upon assignments (Q51): no

Success rate (average for the three courses with the highest number of enrollments) (Q53)
40 %

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54):
30 %

United Kingdom

Ownership and type of institution (02):
official body under public law

Number of courses (04): no answer

Educational level of courses offered (05a):
further education at school and basic professional training (e.g. preparation for A'levels, high school certificate and entrance qualifications for university studies, upper secondary level, technical college etc.)/ university study and further professional training (after basic professional training and/or job experience)/ others: recreational leisure topics

Subject areas of courses (06):
(1) education, the humanities, music and the arts, languages
(2) social sciences and law
(3) economics
(5) mathematics, sciences and engineering
(6) medicine and medical jobs and professions
(7) others: recreational leisure topics

Number of learners currently enrolled (07): 380

Relative importance of face-to-face contacts (08):
- partly distance teaching with a few face-to-face elements or supplements (e.g. seminars, week-end seminars etc.)
- partly distance teaching and face-to-face teaching of equal importance

face-to-face sessions, if offered: voluntary

Flexibility in pacing and teaching methods/options for students (09): 
Flexibility (in):
- when to start their course/their studies
- when to take their exams/final exams
- when to order their study material
- when to send their assignments
- how and when to use counselling services

Media used for teaching (010):
radio/ television/ written course units/ audio tapes/ video tapes/ electronic data processing (EDP on mainframe)/ personal computers (PC)/ telephone/ face-to-face sessions/ laboratories, workshops/ others: supporting textbooks

Participants in course development (013/14):
- subject specialists/ students of the subject in question/ media specialists

Local study centres (016): yes

Function of the study centres (017):
support of distance education (voluntary participation)
Tutorials venue

Evaluation of courses and media (019):
where assessed - the appropriate validating body
Flexibility in the curriculum to be followed for the acquisition of a particular diploma (Q22):
- partly low/ fixed curriculum
- partly medium/ fixed curriculum, but it contains alternatives

Elements of two-way communication (Q29):
- correcting of assignments
- commenting on assignments
- regular contacts between tutor and learner: direct face- to-face contact
- answering of learners' queries, requests etc.
- contacts with learners initiated by the institution

Media used in two-way communication/ counselling and tutoring service (Q30):
written correspondence/ telephone/ exchange of audio cassettes in mail

Measures to reduce the non-starter and drop-out rates (Q35):
- mailing of pre-produced (standardized) letters of encouragement or reminders
- phone calls to learners

Type of continuous assessment (Q38):
- written assignments to be submitted

Terminating of courses with examinations (Q40): yes
- type of examination: written/ oral exams (voluntary)

Average turn- around time for tutor’s correction and comments of the assignments (Q44):
number of days unknown
(time varies; all courses are self-pacing)

Types of items for the assignments (Q45):
(Varies in a multiplicity of different courses; far too complex to identify. In any case the detail varies each month. We have a dynamic situation.)

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54):
5 %
(O.W.T.L.E.T. has a detailed counselling system with no obligation to enroll. This acts as a filter and drastically reduces drop out.)
Take-up rate approx. 60 %

Commenting upon the assignments submitted (Q46)
- correction and additional comments, diagnostic

Use of a computer for the correction and commenting upon assignments (Q51): no

Success rate (average for the three courses with the highest number of enrollments) (Q53)
95 %

(3) economics
(5) mathematics, sciences and engineering
(7) others: - catering; hairdressing - construction

Number of learners currently enrolled (Q7): ≈ 3,000

Relative importance of face-to-face contacts (Q8):
distance teaching with a few face-to-face elements or supplements (e.g. seminars, week-end seminars etc.)
face-to-face sessions, if offered: voluntary

Flexibility in pacing and teaching methods/options for students (Q9):
- flexibility (in):
  - when to start their course/their studies
  - when to take their exams/final exams (for some courses)
  - when to send their assignments
  - how and when to use counselling services

Media used for teaching (Q10):
written course units/ audio tapes/ personal computers (PC)/ telephone/ face-to-face sessions/ laboratories, workshops/ others: practical equipment in home

Participants of course teams (Q13/14):
- subject specialists

Local study centres (Q16): yes

Function of the study centres (Q17):
support of distance education (voluntary participation)

Evaluation of courses and media (Q18): yes

Flexibility in the curriculum to be followed for the acquisition of a particular diploma (Q22):
- low/fixed curriculum
or
- high/courses in the curriculum can be chosen freely within a set framework
(This depends on diploma/certificate studied)

Elements of two-way communication (Q29):
- correcting of assignments
- commenting on assignments
- regular contacts between tutor and learner: direct face-to-face contact
- organized face-to-face sessions
- answering of learners' queries, requests etc.
- contacts with learners initiated by the institution
Media used in two-way communication/counselling and tutoring service (Q36):
- written correspondence/ telephone/ audio tapes/ direct (face-to-face) contacts

Measures to reduce the non-starter and drop-out rates (Q35):
- mailing of pre-produced (standardized) letters of encouragement or reminders
- mailing of individualized letters
- phone calls to learners

Type of continuous assessment (Q38):
- written assignments to be submitted

Terminating of courses with examinations (Q40):
- type of examination: written/oral exams
  (some continuously assessed, some national written/oral exams depending on subject-area)

Average turn-around time for tutor's correction and comments of the assignments (Q44):
  2-3 days

Types of items for the assignments (Q45):
- short open-ended questions
- multiple-choice questions
- questions to be answered (filled in) on forms prescribed (e.g. numerical answers)
- short essays
- longer paper on a set subject
- longer paper on a self-chosen subject from the course
- samples of learner's work

Commenting upon the assignments submitted (Q46):
- correction and additional comments

Use of a computer for the correction and commenting upon assignments (Q51): no

Success rate (average for the three courses with the highest number of enrollments) (Q53): 90%

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54): no answer

Checked by institution
Name of institution: The Open University
Address: Walton Hall, Milton Keynes, MK7 6AA, Great Britain

Ownership and type of institution (Q2):
official body under public law

Number of courses (Q4): 318

Media used in two-way communication/counselling and tutoring service (Q39):
written correspondence

Measures to reduce the non-starter and drop-out rates (Q35):
- mailing of individualized letters

Type of continuous assessment (Q38):
- written assignments to be submitted
Terminating of courses with examinations (Q40): yes
- type of examination: written

Average turn-around time for tutor's correction and comments of the assignments (Q44): no answer

Types of items for the assignments (Q45):
- short essays
- longer paper on a set subject

Commenting upon the assignments submitted (Q46)
- correction and additional comments

Use of a computer for the correction and commenting upon assignments (Q51): no

Success rate (average for the three courses with the highest number of enrollments) (Q53) no answer

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54): no answer
Name of institution:
University of Mysore
Institute of Correspondence Course and Continuing Education

Address:
Manasa Gangotri
Mysore 570 006
India

Ownership and type of institution (Q2):
- state owned

Number of courses (Q4): 49

Educational level of courses offered (Q5a):
university study and further professional training (after basic professional training and/or job experience)

Subject areas of courses (Q6):
(1) education, the humanities, music and the arts, languages
(2) social sciences and law
(3) economics
(7) others: journalism

Number of learners currently enrolled (Q7): 16,000

Relative importance of face-to-face contacts (Q8):
- distance teaching and face-to-face teaching of equal importance

face-to-face sessions, if offered: voluntary (for B.A./ B.Com.)
compulsory (for Masters Degree)

Flexibility in pacing and teaching methods/options for students (Q9):
- no flexibility

Media used for teaching (Q10):
written course units/ audio tapes/ films/ face-to-face sessions/ laboratories, workshops

Participants of course teams (Q13/14):
- subject specialists

Local study centres (Q16): no

Evaluation of courses and media (Q18): yes

Flexibility in the curriculum to be followed for the acquisition of a particular, diploma (Q22):
- low/ fixed curriculum

Elements of two-way communication (Q29):
- correcting of assignments
- commenting on assignments
- regular contacts between tutor and learner: mediated/direct face-to-face contact
- organized face-to-face sessions
- answering of learners' queries, requests etc.

Media used in two-way communication/counselling and tutoring service (Q30):
written correspondence/ audio tapes

Measures to reduce the non-starter and drop-out rates (Q35):
- mailing of individualized letters

Type of continuous assessment (Q38):

- courses in the curriculum can be chosen freely within a set framework

**Elements of two-way communication (Q29):**
- correcting of assignments
- commenting on assignments
- regular contacts between tutor and learners: direct face-to-face contact
- organized face-to-face sessions
- answering of learners' queries, requests etc.

**Media used in two-way communication/counselling and tutoring service (Q30):**
direct (face-to-face) contacts, student assignments and tutors' comments (cf. Q10)

**Measures to reduce the non-starter and drop-out rates (Q35):**
no measures in this regard
Type of continuous assessment (Q38):
- written assignments to be submitted

Terminating of courses with examinations (Q40): yes
- type of examination: written and teaching practice classes and practicals in teacher training programme

Average turn-around time for tutor's correction and comments of the assignments (Q44): 60 days

Types of items for the assignments (Q45):
- short open-ended questions
- multiple-choice questions
- short essays

Commenting upon the assignments submitted (Q46)
- correction and additional comments

Use of a computer for the correction and commenting upon assignments (Q51): no

Success rate (average for the three courses with the highest number of enrollments) (Q53)
80 % in teacher training programme

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54):
21 %

Checked by institution
Name of institution:
Universitas Terbuka (UT)
Address:
P.O. Box 6666
Jakarta 10001
Indonesia

Ownership and type of institution (Q2):
state-owned

Number of courses (Q4): 388

Educational level of courses offered (Q5a):
university study and further professional training (after basic professional training and/or job experience)

Subject areas of courses (Q6):
(1) education and pedagogy
(2) social sciences and political science
(3) economics and development study
(5) mathematics and natural science

Number of learners currently enrolled (Q7): 38,635 (November 1988)

Relative importance of face-to-face contacts (Q8):
- distance teaching with very little face-to-face contact (for tutoring/counselling purposes or immediately before written examinations which is conducted in an essay form)

face-to-face sessions, if offered: partly voluntary, partly compulsory

Flexibility in pacing and teaching methods/options for students (Q9):
Flexibility (in):
- when to start their course/their studies
- when to take their exams/final exams
- when to order their study material
- when to send their assignments
- others: - where to take exam
- where to receive learning materials

Media used for teaching (Q10):
radio/television/written course units/audio cassettes/faceto-face sessions/laboratories

Participants of course teams (Q13/14):
- content expert
- course designer
- course writer
- item writer

Local study centres (Q16): yes

Evaluation of courses and media (Q19): yes

Flexibility in the curriculum to be followed for the acquisition of a particular diploma (Q22):
- high/courses in the curriculum can be chosen freely within a set framework

Elements of two-way communication (Q29):
- correcting of assignments
- organized face-to-face sessions
- answering of learners' queries, requests etc.
- contacts with learners initiated by UT (socializing)

Media used in two-way communication/counselling and tutoring service (Q30):
face-to-face contact (tutoring in academic matters and non academic matters such as: registration, choice of study, socializing)
Measures to reduce the non-starter and drop-out rates (Q35):
allowing learners to be in the status of non-active until they
have the right time to continue study (academic leave)

Type of continuous assessment (Q38):
- written assignments to be submitted
- written intermediary exams

Terminating of courses with examinations (Q40): yes
- type of examination: written exams

Average turn-around time for tutor's correction and comments of the assignments (Q44): 30 days

Types of items for the assignments (Q45):
- multiple-choice questions

Commenting upon the assignments submitted (Q46)
- correction only

Use of a computer for the correction and commenting upon assignments (Q51): yes

Success rate (average for the three courses with the highest number of enrollments) (Q53) no answer
(success rate for curriculum - Q52: (1) education.....95 %)

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54) no answer
(drop out rate for curriculum - Q52: (1) education..... 5 %)

Checked by institution
Ownership and type of institution (Q2):

The NDEC is funded by the Irish Government, through the Higher Education Authority. While the Centre has a separate budget, its financial affairs are administered through the National Institute for Higher Education.

The NDEC was established in 1982 by the NIHE. The Centre is the executive arm of the National Distance Education Council and operates in cooperation with other higher education institutes in both the university and the technological sectors. Students are registered as students of the NIHE Dublin. If they are allocated to a study centre outside Dublin, they are normally registered also as students of the study centre institution.

Number of courses (Q4):

Educational level of courses offered (Q5a):

university study and professional training / continuing education programme

Subject areas of courses (Q6):

a) undergraduate-level programme: Information Technology (Bachelor of Science/Diploma in Science in Information Technology). The course/curriculum is composed of four streams, Management Science, Human Sciences, Communications Technology, and Computing. There are four levels, and students must take all four modules at the first three levels. There are three modules in Level 4. Students who complete eight modules at Level 1 and Level 2 may terminate their studies at that stage, and be awarded a National Diploma in Information Technology.

b) continuing education: four programmes have been provided, including Business Application of Microcomputers and Microcomputers and Accounting

Number of learners currently enrolled (Q7): 290 (first cohort of degree students registered in February 1987); about 4,000 (continuing education)

Relative importance of face-to-face contacts (Q8):

- distance teaching with face-to-face elements or supplements

Flexibility in pacing and teaching methods/options for students (Q9):

no information (cf. Q6 and Q38/40)

Media used for teaching (Q10):

radio, television (radio and TV has been used on experimental basis)/ written course units (main teaching medium)/ audio tapes/ video tapes/ computer software, floppy disks/ telephone/ face-to-face sessions (tutorials)

Participants of course teams (Q13/14):

A key feature of the course development ... is the degree of cooperation with other institutions. The course team includes representatives of universities, technological institutes and other statutory bodies, as well as industry.

Local study centres (Q16): yes (over 40 centres)
Function of the study centres (Q17):
support of distance education (tutorials, practicals, access to microcomputers and software)

Evaluation of courses and media (Q18): yes

Flexibility in the curriculum to be followed for the acquisition of a particular diploma (Q22):
no information (cf. Q6)

Elements of two-way communication (Q29):
- correcting of assignments
- regular contacts between tutor and learner: mediated/direct face-to-face contact
- organized tutorials/practicals
- answering of learners'queries, requests etc.

Media used in two-way communication/counselling and tutoring service (Q30):
written correspondence/telephone/direct (face-to-face) contacts

Continuous assessment/examinations (Q38/40):
The course text is issued in the form of units on a regular basis throughout the course. Students complete four assignments which are due at approximately quarterly intervals. Assignments contribute 50 of the total marks for the module, and students must obtain an average mark of 40 over three assignments, to be allowed sit for examinations. The assignments are marked by tutors.

Use of a computer for the correction and commenting upon assignments (Q51):
The assignments are marked by tutors. The entire student data base is on computer, as well as assignment records, tutor records, etc.

Success rate (Q53)/Non-starter rate (Q54):
for the first cohort of degree students: of the 290 who registered
- 12 formally notified intention to resign from the programme
- 189 sat examinations and some twenty gave formal notice of intention to sit examinations, and some twenty gave formal notice of intention of deferral
- 49 have completed all requirements for Level 1

Source: EADTU Directory 1988, pp. 39-44
Ownership and type of institution (Q2):
- official body under public law of some kind
  (authorized by the Council of Higher Education)

Number of courses (Q4):
- about 200 academic courses
- 11 programmes

Educational level of courses offered (Q5a):
university study (after basic professional training and/or job experience)

Subject areas of courses (Q6):
(1) education, the humanities, music, literature and the arts,
    languages, Jewish history
(2) social sciences and law
(3) economics, management
(5) mathematics, sciences and engineering/computer studies

Number of learners currently enrolled (Q7):
12,632

Relative importance of face-to-face contacts (Q8):
- distance teaching with a few face-to-face elements or
  support (e.g. seminars, week-end seminars etc.): regular
studios
- distance teaching and face-to-face teaching of equal
importance: groups requiring intensified tutoring
face-to-face sessions: voluntary

Flexibility in pacing and teaching methods/options for students (Q9):
Flexibility (in):
- when to start their course/their studies: different semesters
- when to take their exams/final exams: a few dates are
designated
- when to order their study material: they receive study material
  from the University following course registration
- between different teaching methods: some enroll in group
  frameworks
- between different media: they can supplement in some courses
  - how and when to use counselling services

Media used for teaching (Q10):
radio/television/written course units/audio tapes (music)/
video tapes/slides (arts)/ electronic data processing (EDP on
mainframe)/personal computers (PC)/telephone/face-to-face
sessions/laboratories, workshops/others: home lab kits, field,
symposia, trips.
(shares of the different media: written = 85 %)

Participants of course teams (Q13/14):
- subject specialists

Local study centres (Q16):
The Open University rents space in
institutions throughout the country
used for other daytime purposes

Function of the study centres (Q17):
support of distance education (voluntary participation)

Evaluation of courses and media (Q18): yes

Flexibility in the curriculum to be followed for the acquisition of
a particular diploma (Q22):
- high/courses in the curriculum can be chosen freely within a set
  framework
Elements of two-way communication (Q29):
- correcting of assignments
- commenting on assignments
- regular contacts between tutor and learner: direct face-to-face contact
- organized face-to-face sessions
- answering of learners' queries, requests etc.
- contacts with learners initiated by the institution

Media used in two-way communication/counselling and tutoring service (Q30):
- written correspondence/telephone/direct (face-to-face) contacts

(Counselling and tutoring are two different services:
- Counselling is face-to-face or by telephone, but written queries are answered.
- Tutoring is the teaching supplement with written assignments and written replies as well: face-to-face and telephone contact.)

Measures to reduce the non-starter and drop-out rates (Q35):
- mailing of individualized letters
- others: contact by tutor during course
- sending new catalogue

Type of continuous assessment (Q36):
- written assignments to be submitted

Terminating of courses with examinations (Q40): yes
- type of examination: written/seminar courses require seminar papers
(All courses require final exams and are accumulated towards degree requirements.)

Average turn-around time for tutor's correction and comments of the assignments (Q44):
14 days

Types of items for the assignments (Q45):
- no answer

Commenting upon the assignments submitted (Q46)
- some correction only/ others correction and additional comments

Use of a computer for the correction and commenting upon assignments (Q51): no

Success rate (average for the three courses with the highest number of enrollments) (Q53): no answer

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54): no answer

new: not checked
Consorzio per l'Università a Distanza (CUD) / 1

Name of institution:
Consorzio per l'Università a Distanza (CUD)

Address:
Via Bernini 5
87030 Rende (CS)
Corso Vittorio Emanuele No. 229
80186 Roma

Ownership and type of institution (Q2):
The Institution is a consortium under Italian law.

(Members of the consortium are: Consorzio per la Ricerca e la Applicazione in Informatica (CRAI), the University of Calabria, the University of Rome, "La Sapienza", the University of Trento, the Latina Chamber of Commerce, the town of Cosenza, l'Enidata, Formez, Olivetti and RAI. The relationship with government is close because all syllabuses and all university education in Italy are closely regulated by the Ministry of Education. Learning materials and student services are designed by the CUD on behalf of those Italian universities which are members of the consortium. Students enrol at the universities, their study programme is supervised by tutors appointed by the CUD, then students return to their universities to do the examinations.)

Number of courses (Q4): 12 (Diploma curriculum for "Informatica", a three-year degree in computing science)

Educational level of courses offered (Q5a):
university study

Subject areas of courses (Q6):
(1) education: CUD has developed some materials for the continuing education of teachers in both primary and secondary schools/ modern languages (planning stage)
(3) economics: "laurea" in the field of economics (under development)
(5) mathematics, sciences and engineering: "Diploma in Informatica" (Computing Studies/Computer Science)

Consorzio per l'Università a Distanza (CUD) / 2

Number of learners currently enrolled (Q7): 1,200 (in computing)

Relative importance of face-to-face contacts (Q8):
distance teaching with face-to-face elements or supplements

Flexibility in pacing and teaching methods/options for students (Q9):
The examinations are at fixed stages twice per year and this provides a rigorous pacing mechanism.

Media used for teaching (Q10):
written course units/ floppy disks / computer / face-to-face sessions

Participants of course teams (Q11/14):
- subject specialists/ instructional designers/ layout staff

Local study centres (Q16): yes (9 study centres)

Function of the study centres (Q17):
The study centres have a focus. Students receive their materials there. Students make obligatory bookings of at least two hours per week for work on the computers, attend additional lectures, and also meet their tutors and advisers in the study centres.

Evaluation of courses and media (Q18): yes

Flexibility in the curriculum to be followed for the acquisition of a particular diploma (Q22):
- low/fixed curriculum (The Diploma curriculum consists of 13 courses, one of these is optional)

Elements of two-way communication (Q29)/ Media used in two-way communication/counselling and tutoring service (Q30):
cf. Q17
Type of continuous assessment (Q38):

Each course has 15 units and lasts one semester. The distance students take tests at the end of each unit. Then, at the end of the course they come to the university to sit for a final examination (normally for each course of the Diploma). All examinations are oral.

Terminating of courses with examinations (Q40): yes

see Q38

- subject specialists/ media specialists

Local study centres (Q16): no

Evaluation of courses and media (Q18): yes

Flexibility in the curriculum to be followed for the acquisition of a particular diploma (Q22):
- partly low/fixed curriculum
- partly medium/fixed curriculum, but it contains alternatives
- partly high/courses in the curriculum can be chosen freely within a set framework
Elements of two-way communication (Q29):
- correcting of assignments
- commenting on assignments
- regular contacts between tutor and learner: mediated/direct face-to-face contact
- organized face-to-face sessions
- answering of learners' queries, requests etc.
- contacts with learners initiated by the institution

Media used in two-way communication/counselling and tutoring service (Q30):
- written correspondence/ telephone/ direct (face-to-face) contacts

Measures to reduce the non-starter and drop-out rates (Q35):
- mailing of standardized letters of encouragement or reminders
- mailing of individualized letters
- phone calls to learners

Type of continuous assessment (Q38):
- written assignments to be submitted
- written intermediary exams

Terminating of courses with examinations (Q40): yes
- type or examination: written and oral exams

Average turn-around time for tutor's correction and comments of the assignments (Q44): 10 days

Types of items for the assignments (Q45):
- short open-ended questions
- multiple-choice questions
- questions to be answered (filled in) on forms prescribed (e.g., numerical answers)
- short essays
- longer paper on a set subject

Commenting upon the assignments submitted (Q46):
- correction and additional comments

Use of a computer for the correction and commenting upon assignments (Q51): no

Success rate (average for the three courses with the highest number of enrollments) (Q53): 51.6 %

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54): 38.5 %
Name of institution:
University of the West Indies/ UWI Distance Teaching Experiment
Address:
Mona Campus
Kingston 7,
Jamaica

Ownership and type of institution (Q2):
other type of institution: Caribbean Regional University

Number of courses (Q4): 8

Educational level of courses offered (Q5a):
university study and further professional training (after basic professional training and/or job experience)

Subject areas of courses (Q6):
(1) education, the humanities, music and the arts, languages
(2) social sciences and law
(3) economics
(4) agricultural sciences, agricultural and sylvicultural professions
(5) mathematics, sciences and engineering
(6) medicine and medical jobs and professions
(7) others: Nutrition and Labour Administration

Number of learners currently enrolled (Q7): 281

Relative importance of face-to-face contacts (Q8):
distance teaching with a few face-to-face elements or supplements (e.g., seminars, week-end seminars etc.)

face-to-face sessions, if offered: compulsory

Flexibility in pacing and teaching methods/options for students (Q9):
no flexibility

Media used for teaching (Q10):
written course units/ video tapes/ slides/ telephone/ face-to-face sessions/ laboratories, workshops/ others: Slow Scan TV

Participants of course teams (Q13/14):
subject specialists/ media specialists/ specialists on the interactive UVIDITE-telecommunications network

Local study centres (Q16): yes

Function of the study centres (Q17):
telecommunication

Evaluation of courses and media (Q18): yes

Flexibility in the curriculum to be followed for the acquisition of a particular diploma (Q22):
low/fixed curriculum

Elements of two-way communication (Q29):
correcting of assignments
commenting on assignments
regular contacts between tutor and learner: mediated contact
regular interactive teleconferences
organized face-to-face sessions
answering of learners' queries, requests etc.

Media used in two-way communication/counselling and tutoring service (Q30):
teleconferences: see Q29

Measures to reduce the non-starter and drop-out rates (Q35):
no measures
Type of continuous assessment (Q38):
- written assignments to be submitted

Terminating of courses with examinations (Q40): yes
- type of examination: written exams

Average turn-around time for tutor's correction and comments of the assignments (Q44):
90 days

Types of items for the assignments (Q45):
- short open-ended questions
- multiple-choice questions
- short essays
- longer paper on a set subject
- longer paper on a self-chosen subject from the course
- in Maths and Economics: accounting problems

Commenting upon the assignments submitted (Q46)
- correction and additional comments

Use of a computer for the correction and commenting upon assignments (Q51): no

Success rate (average for the three courses with the highest number of enrollments) (Q53)
48%

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54):
(no answer; drop out rates for curricula: between 2% and 40%)

Checked by institution
Name of institution:
Open Universiteit

Address:
Valkenburgerweg 167
6419 AT Heerlen
6401 DL Heerlen
The Netherlands

Ownership and type of institution (02):
official body under public law
(The OU is an independent institute for higher education governed by a University Board with 13 members nominated by the Government and 8 members chosen by staff and students.)

Educational level of courses offered (05a):
university study and higher vocational education
(The university degree is comparable to the MD; the higher vocational education degree is comparable to the Bach.D.

No formal educational qualifications are required for admission. Students wishing to register must be at least 18 years old. However, students are informed that for success in studying they will require knowledge and skills comparable to those required in secondary education.)

Subject areas of courses (06):
Faculties of:
a) law
b) economics
c) business and administration
d) technical sciences (including informatics/computer science)
e) natural sciences (including environmental studies and nutrition)
f) social sciences (including education and instruction/personnel and organization)
g) cultural sciences (including history of culture, arts policy, philosophy)

Number of learners currently enrolled (07): 33,431 in the Netherlands (+917 students living abroad; Nov. 1987)

Relative importance of face-to-face contacts (08):
distance teaching with a few face-to-face elements or supplements

Flexibility in pacing and teaching methods/options for students (09):
(No specific information available with regard to the categories of Q9 - but:
The OU is characterised by four degrees of openness:
1. open entry or access. No formal educational qualifications are required for admission
2. open programming. Students can construct their own programme or curriculum by choosing courses, as far as they do not wish a regular degree programme
3. freedom of place and time. Students have freedom where and when to study
4. freedom of pace. Students are free to progress at their own speed, according to wishes and circumstances)

Media used for teaching (010):
television/ written course units/ audio-visual materials/ computer programs / practical work in study centres
(Printed texts generally form 80% of the work load of a course)

Participants of course teams (013/14):
- subject specialists/ didactic experts / educational technologists

Local study centres (016): yes (18 study centres)

Function of the study centres (Q17):
support of distance education: tutoring/counselling
-some courses have compulsory practical work in study centres

Evaluation of courses and media (018): yes
Flexibility in the curriculum to be followed for the acquisition of a particular diploma (Q22):

Open programming. Students can construct their own programme or curriculum by choosing courses, as far as they do not wish a regular degree programme (cf. Q9).

Two-way communication /: counselling and tutoring service/student support (Q29/30):

Student support has four components:
- General information about the OU, its courses and programmes, and its system of study, with advise on how to study (including an annual study guide, course guides, a journal for learners, television programmes); in addition to these materials counsellors in 18 study centres can give more information.
- Study advice and support for solution of problems. Centrally, a department for student support solves problems of a practical nature or in response to complaints. This department is also responsible for specific target groups such as handicapped students.
- General and initial tutoring. A combination of course-related, voluntary tutoring, comprising group sessions to discuss contents of a course and to prepare for examinations, and support and advice on study strategies and solution of problems, is given by general tutors in each study centre for all starting students in the first four to five courses belonging to a degree programme.
- Course-related tutoring. This is compulsory tutoring in a specific course related to well-defined learning objectives within special contents of the course, belonging to the 'course material'. Course-related tutoring is monitored by staff tutors belonging to the different production groups (faculties).

Assessment (Q38) / examinations (Q40):

The OU does not yet use a system of tutor- or computer-marked assignments. Students can use self-assessment questions in the textbooks or can participate in tutoring sessions in the study centres. Some courses have compulsory practical work in study centres. A course examination generally consists of multiple choice questions and optical-mark-reading forms. Degree programmes have besides the courses also tasks in the form of practical work, essays and/or periods of practice in a job.

Average turn-around time for tutor's correction and comments of the assignments (Q44): not applicable (cf. Q38/Q40)

Types of items for course examinations (Q45):
 فقط Q38/Q40

Commenting upon the assignments submitted (Q46)

Use of a computer for assessment (Q51): yes

(for interactive self-testing (including feedback). Interactive electronic media based on computer technology are used also for administration and registration as well as for instrumental use and simulation. Several interactive educational programmes are available which vary from self-testing programmes in economics and law to simulation games and tutorials.)

Success rate (Q53)/Non-starter rate (Q54):

About 30% of the students take an examination within one year of starting and more than 50% within two years.
About 35% of students who take a first course do not really begin studying, are only interested in the course materials and not in a certificate, or drop out at an early stage but want to keep the materials.
About 40% are studying for one or more course certificates, and about 25% are working toward a degree. Of the goal-oriented students who started in 1984, more than 70% earned at least one course certificate within three years, and about 50% three or more certificates.

**Address:**
Box 111
1341 Bakkostua
Norway

**Ownership and type of institution (Q2):**
private, commercial institution (foundation)

**Number of courses (Q4):** 250

**Educational level of courses offered (Q5a):**
Further education at school and basic professional training (e.g. preparation for A'levels, high school certificate and entrance qualifications for university studies, upper secondary level, technical college etc.)/ university study and further professional training (after basic professional training and/or job experience)

**Subject areas of courses (Q6):**
1. education, the humanities, music and the arts, languages
2. social sciences and law
3. economics
4. mathematics, sciences and engineering

**Number of learners currently enrolled (Q7):** 15,000

**Relative importance of face-to-face contacts (Q8):**
- distance teaching with a few face-to-face elements or supplements (e.g. seminars, week-end seminars etc.)
- face-to-face sessions, if offered: voluntary

**Flexibility in pacing and teaching methods/options for students (Q9):**
- flexibility in:
  - when to start their course/their studies
  - when to take their exams/final exams
  - when to order their study material
  - when to send their assignments
  - between different teaching methods
  - between different media
  - how and when to use counselling services

**Media used for teaching (Q10):**
written course units/ audio tapes/ electronic data processing (EDP on mainframe)/ personal computers (PC)/ telephone/ face-to-face sessions/ laboratories, workshops

**Participants of course teams (Q13/14):**
- subject specialists/ media specialists

**Local study centres (Q16):** yes

**Function of the study centres (Q17):**
support of distance education (voluntary participation)

**Evaluation of courses and media (Q18):** yes

**Flexibility in the curriculum to be followed for the acquisition of a particular diploma (Q22):**
- low/fixed curriculum

**Elements of two-way communication (Q29):**
- correcting of assignments
- commenting on assignments
- regular contacts between tutor and learner: mediated/direct face-to-face contact
- organized face-to-face sessions
- answering of learners'queries, requests etc.
- contacts with learners initiated by the institution
Media used in two-way communication/counselling and tutoring service (Q30):
- written correspondence/ telephone/ audio tapes/ direct (face-to-face) contacts

Measures to reduce the non-starter and drop-out rates (Q35):
- mailing of standardized letters of encouragement or reminders
- mailing of individualized letters
- phone calls to learners

Type of continuous assessment (Q38):
- written assignments to be submitted
- written intermediary exams

Terminating of courses with examinations (Q40): yes
- type of examination: written exams

Average turn-around time for tutor's correction and comments of the assignments (Q44): 3 days

Types of items for the assignments (Q45):
- short open-ended questions
- short essays

Commenting upon the assignments submitted (Q46)
- correction and additional comments

Use of a computer for the correction and commenting upon assignments (Q51): no

Success rate (average for the three courses with the highest number of enrollments) (Q53): not available
- e.g. for a course with 40 units:
  - 80% for distance teaching and face-to-face teaching (combined)
  - 60% for pure distance teaching

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54): not available
- (10% for courses of social sciences or of mathematics, sciences)

Success rate (average for the three courses with the highest number of enrollments) (Q53): not available
- e.g. for a course with 40 units:
  - 80% for distance teaching and face-to-face teaching (combined)
  - 60% for pure distance teaching

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54): not available
- (10% for courses of social sciences or of mathematics, sciences)

Success rate (average for the three courses with the highest number of enrollments) (Q53): not available
- e.g. for a course with 40 units:
  - 80% for distance teaching and face-to-face teaching (combined)
  - 60% for pure distance teaching

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54): not available
- (10% for courses of social sciences or of mathematics, sciences)

Success rate (average for the three courses with the highest number of enrollments) (Q53): not available
- e.g. for a course with 40 units:
  - 80% for distance teaching and face-to-face teaching (combined)
  - 60% for pure distance teaching

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54): not available
- (10% for courses of social sciences or of mathematics, sciences)

Success rate (average for the three courses with the highest number of enrollments) (Q53): not available
- e.g. for a course with 40 units:
  - 80% for distance teaching and face-to-face teaching (combined)
  - 60% for pure distance teaching

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54): not available
- (10% for courses of social sciences or of mathematics, sciences)
Ownership and type of institution (02):

NADE is an association of 18 Norwegian distance education institutions (existing since 1968). In 1986, a Consortium for higher education was established within NADE in order to make possible for NADE to represent the institutions in EADTU. The following 5 institutions joined the Consortium:

- NRS Institute of Distance Education
- The NKI Foundation (runs an engineering college and a college of computer studies) (NKS and NKI are independent foundations with a significant range of higher education programmes.)
- The Banking Academy (owned by the bank association in Norway)
- Tromsø University (run by the state)
- BI - Norwegian Management School (independent foundation: a specialised scientific college)

All these institutions offer higher education programmes at a distance. All are degree-granting institutions recognised by the Norwegian government.

At present (May 1988), a reorganisation of some of NADE's activities is being planned. A Norwegian Centre for Distance Education (NCDE) has been established as a non-profitmaking foundation. In the future, NCDE will probably represent the Norwegian Consortium in EADTU.

Educational level of courses offered (Q5a):

university study and further professional training: undergraduate-level programmes/ postgraduate programmes/ continuing education programmes

Subject areas of courses (Q6):

1. education, the humanities, arts, languages
2. social sciences and law
3. economics, management/business studies, administration
4. mathematics, computer science
5. Management level programmes: predominance of programmes in business, management and technology

- Tromsø University: courses in mathematics, computer science, history, German, English, archaeology
- NKI: programmes in engineering and computer science
- BI and Banking Academy: courses in economics, management, business studies
- NKS: programmes (Diploma) in management/business studies, computer studies and law

b) postgraduate programmes:

- Tromsø University: two main subjects: history and Nordic Studies

c) continuing education programmes: most undergraduate programmes are used as continuing education programmes. In addition NKS and NKI offer a wide range of courses for continuing education. Tromsø University has a few continuing education programmes, for instance in school administration and management.

Media used for teaching (Q10):

radio/ television/ printed material (textbooks, study guides, notes, specifically prepared materials for self-study)/ audio cassettes / video tapes/ computer programs, either on personal computers or on minicomputers; use of computer conferencing / telephone / face-to-face tuition, either in regular local classes or as short seminars organised at a central location or regionally

(The use of broadcasting or of video cassettes is not usual, although it may occur in some programmes. Audio cassettes are more common in various subjects. Printed material is used in all courses. Some of the institutions give regular telephone support, or give the students the opportunity of phoning their teachers occasionally. A few programmes depend on computer programs, either on personal computers or on minicomputers. Both NKS and NKI are piloting the use of computer conferencing as a regular element of some of their programmes.)

Participants of course teams (Q13/14):

- subject specialists/ editorial and production specialists (for materials specifically designed for distance studies)
Elements of two-way communication (Q29) / Methods and media used in two-way communication/counselling and tutoring service (Q30):

- correcting of written assignments (compulsory component)
- some kind of face-to-face tuition (either in regular local classes every week, or as short seminars organised at a central location or regionally.
- regular telepho support (cf. Q10)

Type of continuous assessment (Q38):

- written assignments to be submitted (compulsory component)

(As a rule, assessment is based on written assignments. Many of the programmes have a modular structure, very often with examinations in course modules of two credit points.)

Name of institution: INTE - Instituto Nacional de Teleducacion - Ministerio de Educacion

Address:
Piso 2;20 Parque Universitario Lima 1 Peru

Ownership and type of institution (Q2):
state-owned

Number of courses (Q4): 3

Educational level of courses offered (Q5a):
basic school education/ basic professional training

Subject areas of courses (Q6):
(1) education
(2) social sciences
(5) mathematics and engineering
(7) others: cultural activities

Number of learners currently enrolled (Q7): 1,500

Relative importance of face-to-face contacts (Q8):
distance teaching and face-to-face teaching of equal importance

face-to-face sessions, if offered: voluntary/compulsory? no answer

Flexibility in pacing and teaching methods/options for students (Q9):
none

Media used for teaching (Q10):
radio/ television/ written course units/ audio tapes/ video tapes/ slides

Participants of course teams (Q13/14):
- subject specialists

Local study centres (Q16): yes

Function of the study centres (Q17):
support of distance education (voluntary participation)
others: - as supplement to teaching
- cultural activities

Evaluation of courses and media (Q18): yes

Flexibility in the curriculum to be followed for the acquisition of a particular diploma (Q22):
- high/courses in the curriculum can be chosen freely within a set framework

Elements of two-way communication (Q29):
- correcting of assignments
- regular contacts between tutor and learner: direct face-to-face contact
- organized face-to-face sessions
- contacts with learners initiated by the institution

Media used in two-way communication/counselling and tutoring service (Q30):
direct (face-to-face) contacts

Measures to reduce the non-starter and drop-out rates (Q35):
- visit to learners by people appointed by the institution
Type of continuous assessment (Q38):
- written assignments to be submitted
- written intermediary exams

Terminating of courses with examinations (Q40): yes
- type of examination: written exams

Average turn-around time for tutor's correction and comments of the assignments (Q44):
   15 days

Types of items for the assignments (Q45):
   no answer

Commenting upon the assignments submitted (Q46)
- correction only

cHECKED BY INSTITUTION
Universidade Aberta / 1

Name of institution:
Universidade Aberta

Address:
Rua de Escola Politécnica 147
1200 Lisboa
Portugal

Ownership and type of institution (Q2):
official body under public law

(The Universidade Aberta appeared first under the name 'Instituto Português de Ensino a Distância' (Portuguese Institute for distance teaching) in 1980, as a Directorate-General of the Ministry of Education, with the major aim of producing the necessary conditions for the introduction of a Portuguese open university. In 1988 the Minister of Education announced the creation of the Universidade Aberta.)

Educational level of courses offered (Q5a):
university study

Subject areas of courses (Q6):
(1) education/teacher training:
- undergraduate (target group: teachers seeking to complete academic qualifications
- postgraduate programme (mainly concerned with in-service teacher training)
- continuous education: upgrading courses for teachers
(3) economics:
- continuous education: upgrading courses for professionals
  (for example, executive managers)

Relative importance of face-to-face contacts (Q8):
- distance teaching with a few face-to-face elements or supplements

Media used for teaching (Q19):
radio/television/written course units/audio cassettes/video cassettes/computer/telephone/face-to-face sessions

(Distance teaching is based on a self-teaching system; written materials will provide the main teaching medium, audio, video and computer-based materials being considered as complementary,... Exeutive use of broadcasting, both by radio and television, will be made; cassettes will be available in study centres. More extensive use of cassettes will be required whenever distance teaching occurs in institutional surroundings (e.g., in a business enterprise). Administrative information will be conveyed through the press to students; videotext, when in use in Portugal, will be employed for the same purpose.)

Participants of course teams (Q13/14):
- subject specialists/instructional designers/media specialists

Local study centres (Q16) and their function (Q17):
Access to a network of study centres will be provided by the Universidade Aberta, although attendance will not be compulsory. Cassettes will be available in the study centres.

Elements of two-way communication (Q29)/Media used in two-way communication/counselling and tutoring service (Q30):
written correspondence/telephone: Regular and frequent interaction between students and the Universidade Aberta will be carried out through correspondence and telephone.
Type of continuous assessment/examinations (Q38/40):

Academic control will be based on a continuous process of partial assessment through sampling and analysing information received from the students.

The final assessment for each subject unit will be made at fixed dates through examinations requiring the presence of the student.

Flexibility in pacing and teaching methods/options for students (Q9):
- when to start their course/their studies*
- when to take their exams/final exams*
- when to order their study material*
- when to send their assignments*
- how and when to use counselling services
(* This must be done by certain deadline dates)

Media used for teaching (Q10):
written course units/ telephone/ face-to-face sessions/ laboratories, workshops (organised by student representatives in the branch areas, in general)

Participants of course teams (Q13/14):
- subject specialists/ media specialists

Local study centres (Q16): no

Evaluation of courses and media (Q18): yes

Flexibility in the curriculum to be followed for the acquisition of a particular diploma (Q22):
- low/fixed curriculum

Elements of two-way communication (Q29):
- commenting on assignments
- organized face-to-face sessions
- answering of learners' queries, requests etc.

Media used in two-way communication/counselling and tutoring service (Q30):
written correspondence/ telephone/ direct (face-to-face) contacts
Measures to reduce the non-starter and drop-out rates (Q35):
- mailing of standardized letters of encouragement or reminders
- personal contact through letter/telephone
- others: questionnaires

Type of continuous assessment (Q38):
- written assignments to be submitted

Terminating of courses with examinations (Q40): yes
- type of examination: written exams

Average turn-around time for tutor's correction and comments of the assignments (Q44):
25 days

Types of items for the assignments (Q45):
- multiple-choice questions
- short essays
- longer paper on a set subject
- others: practical assignments eg. do job description, devise grievance procedure, case studies

Commenting upon the assignments submitted (Q46)
- correction and additional comments

Use of a computer for the correction and commenting upon assignments (Q51): no

Success rate (average for the three courses with the highest number of enrollments) (Q53)
43% 1st year; 66% 2nd year

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54):
no answer

Checked by institution
Name of institution:
SACRED Trust
Turret Correspondence College
Address:
P.O. Box 11350
Johannesburg 2000
South Africa

Ownership and type of institution (Q2):
other type of institution: trust

Number of courses (Q4): 8

Educational level of courses offered (Q5a):
high school certificate and entrance qualifications for university studies, upper secondary level

Subject areas of courses (Q6):
(1) languages
(2) history/ geography
(3) accountancy
(5) sciences and mathematics

Number of learners currently enrolled (Q7): 1,450

Relative importance of face-to-face contacts (Q8):
- distance teaching with a few face-to-face elements or supplements (e.g. seminars, week-end seminars etc.)

Flexibility in pacing and teaching methods/options for students (Q9):
- when to take their exams/final exams
- when to send their assignments

Media used for teaching (Q10):
written course units/ face-to-face sessions

Participants of course teams (Q13/14):
- subject specialists (95%) with some assistance from the audio-visual unit

Local study centres (Q16): yes

Function of the study centres (Q17):
partly face-to-face meetings for motivating, discussion and building of study skills (compulsory for students)/ partly support of distance education (voluntary participation)

Evaluation of courses and media (Q18): yes

Flexibility in the curriculum to be followed for the acquisition of a particular diploma (Q22):
- medium/fixed curriculum, but it contains alternatives

Elements of two-way communication (Q29):
- correcting of assignments
- commenting on assignments
- organized face-to-face sessions
- contacts with learners initiated by the institution and by learners

Media used in two-way communication/counselling and tutoring service (Q30):
written correspondence/ telephone/ direct (face-to-face) contacts
Measures to reduce the non-starter and drop-out rates (Q35): no measures in the meaning of Q35

Type of continuous assessment (Q38):  
- written assignments to be submitted  
- written intermediary exams  
- participation in compulsory skills-building meetings

Terminating of courses with examinations (Q40): yes  
- type of examination: written exams

Average turn-around time for tutor's correction and comments of the assignments (Q44): 7 days

Types of items for the assignments (Q45): no answer

Commenting upon the assignments submitted (Q46)  
- correction and additional comments/ provision of memorandum

Use of a computer for the correction and commenting upon assignments (Q51): no

Success rate (average for the three courses with the highest number of enrollments) (Q53) \[ \approx 50 \% \]

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54): \[ \approx 30 \% \]

Terminating of courses with examinations (Q40): yes
- type of examination: written, oral, written and oral exams

Average turn-around time for tutor's correction and comments of the assignments (Q44): 2-14 days

Types of items for the assignments (Q45):
- questions to be answered (filled in) on forms prescribed (e.g. numerical answers)
- short essays
- longer paper on a set subject

Commenting upon the assignments submitted (Q46)
- correction and additional comments

Use of a computer for the correction and commenting upon assignments (Q51): yes

Success rate (average for the three courses with the highest number of enrollments) (Q53): 60 %

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54): 5 %
Ownership and type of institution (Q2):
state-owned
(Växjö University does not have a special distance education department. Each department is responsible for their courses at a distance)

Number of courses (Q4): 20

Educational level of courses offered (Q5a):
university study and further professional training (after basic professional training and/or job experience)

Subject areas of courses (Q6):
(2) social sciences

Number of learners currently enrolled (Q7): 750

Relative importance of face-to-face contacts (Q8):
distance teaching with some amount of face-to-face elements (amount not specified)
face-to-face sessions, if offered: compulsory

Flexibility in pacing and teaching methods/options for students (Q9):
no answer

Media used for teaching (Q10):
not specified

Participants of course teams (Q13/14):
- subject specialists

Local study centres (Q16): no

Evaluation of courses and media (Q18): yes

Flexibility in the curriculum to be followed for the acquisition of a particular diploma (Q22):
- low/fixed curriculum

Elements of two-way communication (Q29):
- correcting of assignments
- commenting on assignments
- regular contacts between tutor and learner: mediated contact
- organized face-to-face sessions
- answering of learners' queries, requests etc.

Media used in two-way communication/counselling and tutoring service (Q30):
written correspondence/ telephone/ audio tapes

Measures to reduce the non-starter and drop-out rates (Q35):
- mailing of pre-produced (standardized) letters of encouragement or reminders
- mailing of individualized letters
- phone calls to learners

Type of continuous assessment (Q38):
- written assignments to be submitted
- written intermediary exams
- oral intermediary exams
Terminating of courses with examinations (Q40): yes
- type of examination: written exams

Average turn-around time for tutor's correction and comments of the assignments (Q44): 5 days

Types of items for the assignments (Q45):
- longer paper on a set subject

Commenting upon the assignments submitted (Q46)
- correction and additional comments

Use of a computer for the correction and commenting upon assignments (Q51): no

Success rate (average for the three courses with the highest number of enrollments) (Q53) 75 %

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54): 5 %
Institute of Adult Education / 1

Name of institution:
Institute of Adult Education
National Correspondence Institution

Address:
P.O. Box 9213
Dar Es Salaam
Tanzania

Ownership and type of institution (Q2):
state-owned

Number of courses (Q4): 23

Educational level of courses offered (Q5a):
- basic school education/further education at school and basic professional training (e.g. preparation for 'A' levels, high school certificate and entrance qualifications for university studies, upper secondary level, technical college etc.)/ university study and further professional training (after basic professional training and/or job experience); Teacher Training, Certificate-Grade A

Subject areas of courses (Q6):
- (1) education, the humanities, languages
- (5) mathematics

Number of learners currently enrolled (Q7): 70,470

Relative importance of face-to-face contacts (Q9):
- distance teaching with very little face-to-face contact (for tutoring/counselling purposes or immediately before oral examinations)
- face-to-face sessions, if offered: voluntary

Institute of Adult Education / 2

Flexibility in pacing and teaching methods/options for students (Q9):
- Flexibility (in):
  - when to start their course/their studies
  - when to order their study material
  - when to send their assignments

Media used for teaching (Q10):
- written course units

Participants of course teams (Q13/14):
- subject specialists and editors

Local study centres (Q16): no

Evaluation of courses and media (Q18): yes

Flexibility in the curriculum to be followed for the acquisition of a particular diploma (Q22):
- no answer

Elements of two-way communication (Q29):
- correcting of assignments
- commenting on assignments
- answering of learners' queries, requests etc.
- contacts with learners initiated by the institution

Media used in two-way communication/counselling and tutoring service (Q30):
- written correspondence/ telephone/ direct (face-to-face) contacts

Measures to reduce the non-starter and drop-out rates (Q35):
- mailing of standardized letters of encouragement or reminders
- visit to learners by people appointed by the institution

Type of continuous assessment (Q38):
- written assignments to be submitted
Terminating of courses with examinations (Q40): no

Average turn-around time for tutor's correction and comments of the assignments (Q44):
14 days

Types of items for the assignments (Q45):
- short open-ended questions
- multiple-choice questions
- questions to be answered (filled in) on forms prescribed (e.g. numerical answers)
- short essays
- samples of learner's work

Commenting upon the assignments submitted (Q46)
- correction and additional comments

Use of a computer for the correction and commenting upon assignments (Q51): no

Success rate (average for the three courses with the highest number of enrollments) (Q53):
35 % (according to 1972-1987 figures)
(Introductory Political Education, Introductory English and Political Education I)

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54):
25 % (according to 1972-1984 figures)
(Introductory Political Education, Introductory English and Political Education I)

Checked by institution
Name of institution:
Ministry of Education
Non-Formal Education Dept.
Distance Education Division

Address:
Rachadamnern Nok Road
Bangkok
Thailand

Ownership and type of institution (02):
state-owned

Number of courses (04):
1. General Education at every level = 22 courses
2. Vocational Education = many kinds

Educational level of courses offered (05a):
Functional literacy, adult continuing education (primary education and secondary education levels) and non degree courses

Subject areas of courses (06):
1. General Education Curriculum (courses available are Thai Language, Quality of life Promotion, Vocational Theory, Science Technology, Mathematics, Foreign Languages and Vocational Skills)
2. Vocational Training (both short and long term)

Number of learners currently enrolled (07): 40,612 (distance education learners only)

Relative importance of face-to-face contacts (08):
- distance teaching with a few face-to-face elements or supplements (e.g. week-end seminar, 3 seminars per week etc.)

- face-to-face sessions, if offered: both voluntary and compulsory

Flexibility in pacing and teaching methods/options for students (09):

Flexibility (in):
- when to start their course/their studies:
  First term = 16 May
  Second term = 1 November
- when to order their study material:
  during the students are registering for their courses
- how and when to use counselling services:
  As the students face technical problems, they will meet their teachers or classmates

Media used for teaching (010):
radio/ written course units/ face-to-face sessions

Participants of course teams (013/14):
- subject specialists/ media specialists

Local study centres (016): yes

Function of the study centres (017):
support and provide facilities for students

Evaluation of courses and media (018): yes (during the term and end of each term)

Flexibility in the curriculum to be followed for the acquisition of a particular diploma (Q22):
- medium/fixed curriculum, but it contains alternatives
  (The diploma is equivalent to that of in-school education)

Elements of two-way communication (Q29):
- correcting of assignments
- commenting on assignments
- regular contacts between tutor and learner: direct face-to-face contact
- organized face-to-face sessions
- answering of learners' queries, requests etc.
- contacts with learners initiated by the institution
Media used in two-way communication/counselling and tutoring service (Q30):
through mass media (radio, T.V., video, slide, tape-cassette), manual learning and direct (face-to-face) contacts

Measures to reduce the non-starter and drop-out rates (Q35):
- visit to learners by people appointed by the institution

Type of continuous assessment (Q38):
- written assignments to be submitted
- written intermediary exams

Terminating of courses with examinations (Q40): yes
- type of examination: written exams

Average turn-around time for tutor's correction and comments of the assignments (Q44): 14 days

Types of items for the assignments (Q45):
Many types of assignments are proposed depending on nature of each course

Commenting upon the assignments submitted (Q46)
- correction and additional comments

Use of a computer for the correction and commenting upon assignments (Q51): yes (some institutions use it)

Success rate (average for the three courses with the highest number of enrollments) (Q53) 25%
Ownership and type of institution (Q2):

State University under the guidance of the Ministry of University Affairs

Academic structure:

The University is not organized into faculties and departments; instead, these coalesce and form "schools" representing major study areas (see Q6). Each school is responsible for the planning of the curriculum and the provision of instruction in the group of subjects it supervises.

Educational level of courses offered (Q5a):

university study, further professional training, continuing education:

STOU organizes its courses into three levels: bachelor's degree level; certificate or diploma level; and continuing education level.

A bachelor's degree is ordinarily awarded after completion of a 4-year programme. For those already possessing a certificate, diploma or bachelor's degree in another discipline, STOU offers a bachelor's degree programme which can be completed in 2-3 years.

Certificate programme: STOU organizes 1-year and 2-year certificate level courses as follows:
1.) Certificate for Teachers (1-year)
2.) Certificate in Local Administration (1-year)
3.) Certificate in Government Administration (1-year)
4.) Certificate in Basic Home Economics (1-year)
5.) Certificate in Land and Property Law (2-year)
6.) Certificate in English for Professional Purposes (1-year)

Continuing Education Programmes: STOU provides educational services to the public in the form of continuing education. This takes three forms:

a) dissemination of knowledge and information to the people via the mass media: over 7,800 radio programmes and 1,100 television programmes per year (each 20 - 30 minutes long)

b) the organization of special programmes: STOU cooperates with various agencies and organisations to devise special curricula for staff development programmes; for example a training course for elementary school administrators or co-operation with the Bank of Agriculture and Co-operatives in enabling employees to study various subjects or co-operation with the Social Welfare Council of Thailand to develop training programmes for staff members.

c) the Certificate of Achievement Programme: educational service whereby any individual may have access to university education. Participants in this programme may choose to study one course per semester for their personal and professional self-improvement. There is no age restriction and no educational qualifications are required for enrolment in the programme.

Subject areas of courses (Q6):

STOU is organized into "schools" (see above) representing major subject areas; these are:
1.) liberal arts
2.) educational studies
3.) management science
4.) law
5.) health science
6.) economics
7.) home economics
8.) agricultural extension and co-operatives
9.) political science
10.) communications arts

Number of learners currently enrolled (Q7): 176,987 (July 1985)
Relative importance of face-to-face contacts (Q8):

- distance teaching with face-to-face elements or supplements (see Q16/17)

Media/Methods used for teaching (Q10):

The teaching/learning system comprises the following elements:

1. instructional media:
   1.1 main media: textbooks and workbooks which are mailed to students
   1.2 support media: audio-cassettes and radio and television programmes in conjunction with printed course materials and other audio-visual aids

2. attendance at tutorial sessions at regional and local study centres throughout the country

3. study and independent research using study materials in libraries and "STOU corners" in all provincial public libraries

4. attendance at intensive training sessions and practical experiments in laboratories for certain courses, or study and research in addition to work experience at designated locations.

Study centres (Q16)/Function of the study centres (Q17):

STOU has set up four kinds of educational services centres:
- regional study centres
- local study centres
- specialized practical centres
- STOU Corners

These centres are places where educational activities of the university are carried out, such as orientation, tutorials, examinations and educational counselling sessions. They also serve the University's local information and public relations offices, as well as as serving as co-ordination centres.

Assessment (Q38)/ Examinations (Q40):

STOU considers it an important policy consideration to uphold and maintain educational quality and standards at the same level as those of other state universities.

The evaluation system comprises the following elements:

1. semester examinations and re-examinations: These are held at local study centres. Students must go to sit for examinations at a designated examination centre in their own province on specified days and at the specified time.

2. evaluation of practical work: Selected courses require practical work or research. There is substantial weighting for this kind of activity which contributes to the final evaluation of the course.

3. evaluation of the professional enrichment and the graduate experience enrichment programme: Each school stipulates that those who complete their courses must participate in an intensive residential workshop at a designated study centre. The assessment of the student's performance in the residential workshop, which is designated to be a culminating activity, contributes to meeting the graduation requirements of prospective graduates.

Ownership and type of institution (Q2):
private school - commercial ownership (Public Trading Company)

Number of courses (Q4): 48

Educational level of courses offered (Q5a):
basic school education/ further education at school and basic professional training (e.g. preparation for 'A'levels, high school certificate and entrance qualifications for university studies, upper secondary level, technical college etc.)
Also vocational programs in computers, accounting and secretarial computer skills; courses being developed in insurance program.

Subject areas of courses (Q6):
(1) the humanities, music and the arts
(2) social sciences
(5) mathematics, sciences and engineering
(7) others: computers, accounting and secretarial skills

Number of learners currently enrolled (Q7): 1,000

Relative importance of face-to-face contacts (Q8):
- pure distance teaching, no face-to-face contact

Flexibility in pacing and teaching methods/options for students (Q9):
- flexibility in:
  - when to start their course/their studies
  - when to take their exams/final exams
  - when to order their study material
  - when to send their assignments
  - how and when to use counselling services
  - others: which courses to take

Media used for teaching (Q10):
written course units, computer disc; video and audio tapes (in future)

Participants of course teams (Q11/14):
- subject specialists/ students of the subject in question/ media specialists

Local study centres (Q16): yes

Function of the study centres (Q17):
support of distance education (voluntary participation)

Evaluation of courses and media (Q18): yes

Flexibility in the curriculum to be followed for the acquisition of a particular diploma (Q22):
- medium/ fixed curriculum, but it contains alternatives

Elements of two-way communication (Q29):
- correcting of assignments
- commenting on assignments
- answering of learners' queries, requests etc.
- contacts with learners initiated by the institution

Media used in two-way communication/counselling and tutoring service (Q30):
written correspondence/ telephone
Measures to reduce the non-starter and drop-out rates (Q35):
- mailing of standardized letters of encouragement or reminders
- mailing of individualized letters
- phone calls to learners

Type of continuous assessment (Q38):
- written assignments to be submitted
- written intermediary exams
- others: periodic reviews

Terminating of courses with examinations (Q40): yes
- type of examination: written exams

Average turn-around time for tutor's correction and comments of the assignments (Q44): 1 - 4 days

Types of items for the assignments (Q45):
- short open-ended questions
- multiple-choice questions
- questions to be answered (filled in, on forms prescribed (e.g. numerical answers)
- short essays
- a paper on a set subject

Commenting upon the assignments submitted (Q46)
- correction and additional comments

Use of a computer for the correction and commenting upon assignments (Q51): no

Success rate (average for the three courses with the highest number of enrollments) (Q53): 85 - 90 %

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54): less than 10 %
Ownership and type of institution (Q2): state-owned

Number of courses (Q4): 130

Educational level of courses offered (Q5a): university study and further professional training (after basic professional training and/or job experience)

Subject areas of courses (Q6): (1) education, the humanities, music and the arts, languages (2) social sciences and law (4) agricultural sciences, agricultural and sylvicultural professions (5) mathematics, sciences and engineering (7) others: Master of Business Administration (totally by distance learning)

Number of learners currently enrolled (Q7): 1,800

Relative importance of face-to-face contacts (Q8): pure distance teaching, no face-to-face contact

Flexibility in pacing and teaching methods/options for students (Q9): Flexibility (in):
- when to start their course/their studies
- when to take their exams/final exams
- when to order their study material
- when to send their assignments
- between different media
- how and when to use counselling services

Media used for teaching (Q10): television/ written course units/ audio tapes/ video tapes/ slides

Participants of course teams (Q13/14): subject specialists/ media specialists

Local study centres (Q16): yes

Function of the study centres (Q17): partly face-to-face teaching (compulsory for students)/ partly support of distance education (voluntary participation)

Evaluation of courses and media (Q18): yes

Flexibility in the curriculum to be followed for the acquisition of a particular diploma (Q22): medium/fixed curriculum, but it contains alternatives

Elements of two-way communication (Q29): correcting of assignments commenting on assignments regular contacts between tutor and learner: mediated/direct face-to-face contact answering of learners' queries, requests etc.

Media used in two-way communication/counselling and tutoring service (W30): written correspondence/ telephone
Measures to reduce the non-starter and drop-out rates (Q35):
- mailing of standardized letters of encouragement or reminders

Type of continuous assessment (Q38):
- written assignments to be submitted
- written intermediary exams

Terminating of courses with examinations (Q40): yes
- type of examination: written exams

Average turn-around time for tutor's correction and comments of the assignments (Q44):
10 days

Checked by institution
National Technological University (NTU) / 1

Name of institution:
National Technological University

Address:
P.O. Box 700
601 S. Howes Street
Fort Collins, CO 80522
USA

Ownership and type of institution (Q2):
private, non-profit institution

(NTU is a private, non-profit institution to serve the advanced education needs of engineers, scientists and technical managers. Its activities include the development and distribution of graduate and continuing education courses via the NTU Satellite Network)

Number of courses (Q4): 500

Educational level of courses offered (Q5a):
university study and advanced technical and professional training (after basic professional training and/or job experience)/graduate college courses

(On a nationwide basis, NTU offers a wide range of instructional television courses taught for academic credit by faculty of 24 of the nation's leading engineering universities. Master of Science degrees are awarded in seven disciplines - see Q6)

Subject areas of courses (Q6):
(5) mathematics, sciences and engineering:
- master degree programs for 7 disciplines: computer engineering/computer science/engineering management/electrical engineer.ing/manufacturing systems engineering/management of technology/materials science and engineering

National Technological University (NTU) / 2

Number of learners currently enrolled (Q7):
- 1,300 for credit per semester
- 40,000 for short courses per year

Relative importance of face-to-face contacts (Q8):
- pure distance teaching

(The NTU network is configured so that each instructor can simultaneously teach both on- and off-campus students. Specially equipped ITV classrooms ... are the origination point of each broadcast. The ITV signal can be beamed instantly or tape delayed from each of the 24 campuses to the satellite. ... The part-time students at their job sites can view the class either on tape or live and, through telephone linkages, ask questions during the class session when live)

Flexibility in pacing and teaching methods/options for students (Q9):

Flexibility (in):
- when to start their course/their studies: 4 times a year for credit courses and daily for short courses.

Media used for teaching (Q10):
television: instructional television network (ITV) via satellite/video tapes/electronic mail/teleconferencing/computer conferencing (planned)/telephone

Participants of course teams (Q13/14):
- subject specialists/media specialists
(To conduct the academic functions, NTU relies upon a graduate faculty of consultants selected from the instructors of each participating institution. These faculty consultants are organized in discipline groups to form Graduate Faculties.... The Graduate Faculties in each discipline are supported by four standing committees as follows: Curriculum Committee; Admission and Academic Standards Committee, which also oversees academic advising; Staffing Committee; and, finally, an Academic Executive Committee. A senior administrative coordinator at the NTU ... is assigned to each Graduate Faculty to support and coordinate functions and activities.)

Local study centre (Q16):
Over 70 organizations (universities and colleges, corporations, government agencies) currently receive the ITV programs at over 200 sites.
Evaluation of courses and media (Q18): yes

Flexibility in the curriculum to be followed for the acquisition of a particular diploma (Q22):
- high/courses in the curriculum can be chosen freely within a set framework

Elements of two-way communication (Q29):
- correcting of assignments
- commenting on assignments
- answering of learners' queries, requests etc. by phone, FAX or electronic mail

Media used in two-way communication/counselling and tutoring service (Q30):
written correspondence, FAX/electronic mail/telephone (cf. Q29)

(NTU offers an advising service: each student in an approved degree program is assigned an academic advisor who has access to the student records through the interactive, computer-based record system maintained at NTU.)

Measures to reduce the non-starter and drop-out rates (Q35):
- mailing of individualized letters
- phone calls to learners

Type of continuous assessment (Q38):
no continuous assessment of credit students except as implemented by instructors

Terminating of courses with examinations (Q40): yes
- type of examination: written exams or project reports

Average turn-around time for tutor's correction and comments of the assignments (Q44): 10 days

Types of items for the assignments (Q45):
- short open-ended questions
- multiple-choice questions
- questions to be answered (filled in) on forms prescribed (e.g. numerical answers)
- short essays
- longer paper on a set subject
- longer paper on a self-chosen subject from the course
- samples of learner's work (all methods are used)

Commenting upon the assignments submitted (Q46):
- correction and additional comments

Use of a computer for the correction and commenting upon assignments (Q51): not standard

Success rate (average for the three courses with the highest number of enrollments) (Q53): 95 %
(success rate for curriculum: ≈ 80 %)

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54): 5 %
(drop-out rate for curriculum: ≈ 10 %)

(The institution provides information rather than counselling)
written correspondence/ telephone

face-to-face sessions, if offered: voluntary
Measures to reduce the non-starter and drop-out rates (Q35):
- mailing of standardized letters of encouragement or reminders (in some courses)

Type of continuous assessment (Q38):
- written assignments to be submitted
- written intermediary exams (occasional)

Terminating of courses with examinations (Q40): yes
- type of examination: written exams

Average turn-around time for tutor's correction and comments of the assignments (Q44):
10-14 days

Types of items for the assignments (Q45):
- short open-ended questions
- multiple-choice questions
- questions to be answered (filled in) on forms prescribed (e.g. numerical answers)
- short essays
- longer paper on a set subject
- longer paper on a self-chosen subject from the course
- samples of learner's work

Commenting upon the assignments submitted (Q46)
- correction and additional comments

Use of a computer for the correction and commenting upon assignments (Q51): no

Success rate (average for the three courses with the highest number of enrollments) (Q53) unknown

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54): unknown

checked by institution
Ownership and type of institution (02):
state-owned institution

Number of courses (04): 81

Educational level of courses offered (05a):
basic school education/ further education at school and basic professional training (e.g. preparation for 'A'levels, high school certificate and entrance qualifications for university studies, upper secondary level, technical college etc.)/ university study and further professional training (after basic professional training and/or job experience)

Subject areas of courses (06):
(1) education, the humanities, music and the arts, languages
(3) economics
(5) mathematics, sciences and engineering

Number of learners currently enrolled (07): 2,264

Relative importance of face-to-face contacts (08):
distance teaching with very little face-to-face contact (for tutoring/counselling purposes or immediately before oral examinations

face-to-face sessions, if offered: voluntary

Flexibility in pacing and teaching methods/options for students (09):
Flexibility (in):
- when to start their course/their studies
- when to take their exams/final exams
- when to order their study material
- when to send their assignments
- how and when to use counselling services

Media used for teaching (010):
television/ written course units/ audio tapes/ video tapes/ slides/ electronic data processing (EDP on mainframe)/ telephone

Participants of course teams (013/14):
- subject specialists/ media specialists

Local study centres (016): no

Evaluation of courses and media (018): yes

Flexibility in the curriculum to be followed for the acquisition of a particular diploma (022):
- medium/fixed curriculum, but it contains alternatives

Elements of two-way communication (029):
- correcting of assignments
- commenting on assignments
- answering of learners'queries, requests etc.

Media used in two-way communication/counselling and tutoring service (030):
telephone/ direct (face-to-face) contacts

Measures to reduce the non-starter and drop-out rates (035):
- mailing of standardized letters of encouragement or reminders
**Type of continuous assessment (Q38):**
- written assignments to be submitted
- written intermediary exams

**Terminating of courses with examinations (Q40):** yes
- type of examination: written exams

**Average turn-around time for tutor's correction and comments of the assignments (Q44):**
14 days

**Types of items for the assignments (Q45):**
- short open-ended questions
- multiple-choice questions
- questions to be answered (filled in) on forms prescribed (e.g. numerical answers)
- short essays
- longer paper on a set subject
- longer paper on a self-chosen subject from the course
- samples of learner's work

**Commenting upon the assignments submitted (Q46):**
- correction and additional comments

**Use of a computer for the correction and commenting upon assignments (Q51):** no

**Success rate (average for the three courses with the highest number of enrollments) (Q53):**
85%

**Non-starter rate (average for the three courses with the highest number of enrollments) (Q54):**
8%

television/ written course units/ video tapes/ slides/ audio tapes/ tapes/
games

Participants of course teams (Q13/14):
- subject specialists/ media specialists

Local study centres (Q16): yes

Function of the study centres (Q17):
support of distance education (voluntary participation)/ Provide viewing center space and equipment.

Evaluation of courses and media (Q18): yes

Flexibility in the curriculum to be followed for the acquisition of a particular diploma (Q22):
- partly: low/fixed curriculum
- partly: medium/fixed curriculum, but it contains alternatives

Elements of two-way communication (Q29):
- correcting of assignments
- commenting on assignments
- answering of learners' queries, requests etc.
- contacts with learners initiated by the institution
Media used in two-way communication/counselling and tutoring service (Q30):
- written correspondence/ telephone/ audio tapes/ direct (face-to-face) contacts

Measures to reduce the non-starter and drop-out rates (Q35):
- mailing of standardized letters of encouragement or reminders

Type of continuous assessment (Q38):
- written assignments to be submitted
- written intermediary exams

Terminating of courses with examinations (Q40): yes
- type of examination: written exams

Average turn-around time for tutor's correction and comments of the assignments (Q44): 7 - 10 days

Types of items for the assignments (Q45):
(Types not specified/ they differ by course not by subject areas)

Commenting upon the assignments submitted (Q46):
- correction and additional comments

Use of a computer for the correction and commenting upon assignments (Q51): yes, in some courses

Success rate (average for the three courses with the highest number of enrollments) (Q53): 72 %

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54): 20 %

Checked by institution
Ownership and type of institution (Q2): state-owned

Number of courses (Q4): 50

Educational level of courses offered (Q5a): university study and further professional training (after basic professional training and/or job experience)

Subject areas of courses (Q6):
(1) education, the humanities, music and the arts, languages
(2) social sciences and law
(5) mathematics, sciences and engineering

Number of learners currently enrolled (Q7): 1,000

Relative importance of face-to-face contacts (Q8): pure distance teaching, no face-to-face contact

Flexibility in pacing and teaching methods/options for students (Q9):
- when to start their course/their studies
- when to take their exams/final exams
- when to order their study material
- when to send their assignments

Media used for teaching (Q16): no answer

Participants of course teams (Q13/14):
- subject specialists/university instructors

Local study centres (Q16): no

Evaluation of course and media (Q18): yes

Flexibility in the curriculum to be followed for the acquisition of a particular diploma (Q22):
- low/fixed curriculum

Elements of two-way communication (Q29):
- correcting of assignments
- commenting on assignments
- answering of learners' queries, requests etc.

Media used in two-way communication/counselling and tutoring service (Q38):
no counselling and tutoring service

Measures to reduce the non-starter and drop-out rates (Q35):
- mailing of standardized letters of encouragement or reminders

Type of continuous assessment (Q38):
- written assignments to be submitted
- written intermediary exams

Terminating of courses with examinations (Q40): yes
- type of examination: written exams
Average turn-around time for tutor's correction and comments of the assignments (Q44):

14 days

Types of items for the assignments (Q45):
- short open-ended questions
- short essays
- longer paper on a self-chosen subject from the course
- math problems

Commenting upon the assignments submitted (Q46)
- correction and additional comments

Use of a computer for the correction and commenting upon assignments (Q51): no

Success rate (average for the three courses with the highest number of enrollments) (Q53)

no answer
(succes rate for curriculum (Q52):
(1) education... 65%)

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54):

no answer
(non-starter rate for curriculum (Q52):
(1) education... 20%)

Checked by institution
Universidad Nacional Abierta (UNA)

Ownership and type of institution (Q2):
state-owned

Number of courses (Q4): 250

Educational level of courses offered (Q5a):

- university study and further professional training (after basic professional training and/or job experience): The educational level of courses offered is at university level - i.e. courses leading to an university degree - equivalent to a bachelor degree in the USA - and post-graduate degrees

Subject areas of courses (Q6):

1. education
2. economics, administration, accounting
3. mathematics, engineering
4. others: public administration

Academic areas and initial careers:

AREA: CAREER:
1) education 1.1) education
2) administration 1.2) general education
and accountancy 2.1) public administration
2.2) business administration
2.3) accounting
3) mathematics 3.1) mathematics
4) engineering 4.1) industrial engineering
system engineering
5) general studies 5.1) general studies
6) post graduate 6.1) distance education

Flexibility in pacing and teaching methods/options for students (Q9):

- when to order their study material
- how and when to use counselling services

(Students receive instructional material at enrollment time. However, the material can be purchased from the university at any time by anyone who wishes)

Media used for teaching (Q10):

- television/ written course units/ audio tapes/ video tapes/ electronic data processing (EDP on mainframe)/ personal computers (PC)/ telephone/ face-to-face sessions/ laboratories, workshops/ others: field studies and projects

Participants of course teams (Q13/14):

- subject specialists/ media specialists/ didactic specialists

(The preparation of the instructional material is the cooperative task of what is called the 'course team'. Each team is composed of specialists in: instructional design/ student evaluation (assessment)/ media/ content (subject matter).)

Local study centres (Q16): yes

Number of learners currently enrolled (Q7): 24,000
Function of the study centres (Q17):
partly face-to-face teaching (compulsory for students)/ partly support of distance education (voluntary participation)
(Local centres are the basic operational level by which the relationship between UNA and students is established: enrollment / tutoring/ counselling/ examinations/ support of distance education/ libraries/ social relations (e.g. groups of students helping each other)

Evaluation of courses and media (Q18): yes

Flexibility in the curriculum to be followed for the acquisition of a particular diploma (Q22):
- medium/fixed curriculum, but it contains alternatives
(The fixed curriculum system is used in UNA but the students can elect some courses - the so called 'electives')

Elements of two-way communication (Q29):
- correcting of assignments*
- commenting on assignments*
- regular contacts between tutor and learner: direct face-to-face contact
- answering of learners' queries, requests etc.
- contacts with learners initiated by the institution

*(Assignment' means in UNA: tests or graded assignments to be taken in the study centres)

Media used in two-way communication/counselling and tutoring service (Q30):
written correspondence/ telephone/ audio tapes/ direct (face-to-face) contacts
(mostly face-to-face in the study centres)

Measures to reduce the non-starter and drop-out rates (Q35):
- mailing of pre-produced (standardized) letters of encouragement or reminders
- mailing of individualized letters
- phone calls to learners
- others: trying to find out the reasons for dropping out and help the student to overcome the situation

Type of continuous assessment (Q38):
- tests (instead of written assignments - see Q29)
- written intermediary exams
- others: essays on a set subject/practical work

Terminating of courses with examinations (Q40): yes
- type of examination: written exams/ special exams for the blind persons
(The student can in the great majority of courses cumulate points towards the final exams. Therefore, 'last opportunity exam' is a more appropriate term than 'final exam' - i.e. these exams are the last chance to approve the course within that academic period.)

Average turn-around time for tutor's correction and comments of the assignments (Q44):
10 days
(Here: time for evaluating the tests)

Types of items for the tests (Q45): (tests, no submitted assignments)
- open-ended questions
- multiple-choice questions (with only one correct response)
- questions to be answered (filled in) on forms prescribed (e.g. numerical answers)
- others: problems/ practical work (see Q10)/ essays

Commenting upon the tests (Q46)
- correction and additional comments

Use of a computer for the correction and commenting upon assignments (Q51): yes

Success rate (average for the three courses with the highest number of enrollments) (Q53) not known

Non-starter rate (average for the three courses with the highest number of enrollments) (n54): 20 % (estimated)

---------
checked by institution
European Association of Distance Teaching Universities (EADTU) / 1

Name of institution/association:
European Association of Distance Teaching Universities (EADTU)

Addresses:

EADTU Secretariat
Dr John Horlock
President of the EADTU
(Vice-Chancellor of the Open University, UK)

Open Universiteit
P.O. Box 2960
6401 DL Heerlen
The Netherlands

Open University
Walton Hall
Milton Keynes, MK7 6AA,
United Kingdom

The EADTU was established in 1987. Its objectives are:
- to promote higher distance education in European countries
- to support bilateral and multilateral contacts between academic staff of the participating institutions
- to support cooperation in the fields of research, course development, course transfer and credit transfer
- to develop new methods and techniques for higher education, including new technologies and media, and
- to organise common projects in these fields in cooperation with European authorities.

In order to achieve these objectives, EADTU has setup several Working Groups.

EADTU has two different types of members. The first type encompasses independent non-profit institutions or consortia which comprise or include independent higher distance teaching institutions. The second type comprises departments of universities or of institutions of higher education which teach at a distance and conduct research on distance education.

Members:
- Consorzio per l'Università a Distanza (CUD), Italy
- Deutsches Institut fur Fernstudien (DIFF), Federal Republic of Germany
- FernUniversitat (FernU), Federal Republic of Germany
- Federation Interuniversitaire de l'Enseignement à Distance (FIED), France
- Jysk Aaben Universitet, Denmark
- National Distance Education Centre, Republic of Ireland
- Norwegian Association for Distance Education (NADE), Norway
- Open Universiteit (Ou), The Netherlands
- Open University (OU), United Kingdom
- Studiencentrum Open Hoger Onderwijs v.z.w. (StOHO), Belgium
- Universidad Nacional de Educacion a Distancia (Uned), Spain
- Universidade Aberta, Portugal

(Short descriptions of the member institutions are included in this report. The descriptions are based partly on answers to a questionnaire and partly on the EADTU directory 1988)

Source: EADTU Directory 1988
