This inventory is designed to provide teachers and administrators with diagnostic information about their foreign language in the elementary school (FLES) programs. The instrument consists of five forms, one each for FLES teachers, regular classroom teachers, pupils, principals and administrators, and parents. Brief introductory instructions are given, and each form includes instructions for the respondent. The questionnaires consist of 4-19 questions concerning the program, to be answered on a five-point scale of agreement (strongly agree to strongly disagree, and no answer/not applicable). In all but the pupils' questionnaire, respondents are encouraged to add their comments at the end of the instrument. The pupils' questionnaire consists of a list of four questions to be administered by the classroom teacher, and a form containing pictures of faces ranging from happy to sad for each question. (MSE)

DIRECTIONS

Developed by utilizing the research on Foreign Language in the Elementary School (FLES), the FLES Program Evaluation Inventory (FPEI) provides teachers and administrators with diagnostic information concerning their elementary school foreign language program. The inventory consists of five different forms: THE FPEI for FLES Teachers, The FPEI for Classroom Teachers, The FPEI for Children, The FPEI for Principals and Administrators, and The FPEI for Parents.

1. Duplicate the number of evaluations necessary. (Each "smiling face" / "frowning face" rating sheet for children should be cut into four forms.)

2. Number the forms of each category (Classroom Teachers, FLES Teachers, Parents, etc.) consecutively in the space provided in the upper right hand corner.

3. Send with the FPEI a brief cover letter explaining why you are evaluating the FLES program, and how the data collected will be used. Include in the letter a deadline date (one week from when the respondent receives the inventory) for return of the survey.

4. Include an addressed, stamped envelope for return of the FPEI.

5. Tabulate the surveys, and report the results to FLES teachers, administrators, classroom teachers, parents, and the school board. Widespread dissemination of positive evaluation findings will help to insure program continuation.
