1990 REVISIONS TO THE MISSOURI MARKETING EDUCATION CORE CURRICULUM

FUNDAMENTALS OF MARKETING

The Marketing and Cooperative Education section of the Division of Vocational and Adult Education, through a funded project with the Marketing Education program at the University of Missouri-Columbia, established a minimum core curriculum for "Fundamentals of Marketing" and "Advanced Marketing" as part of the Vocational Instructional Management System (VIMS) implementation in 1983. These were the minimum core competencies that should be utilized in all Marketing Education programs on the secondary level.

In order to ensure that the secondary programs of Marketing Education are providing up-to-date instruction in the discipline of marketing, the core competencies were revalidated by marketing instructors and business/industry representatives and appropriate revisions and/or modifications made in the core competencies of the curriculum during the 1989-90 academic year. Revisions and modifications of the core competencies were reviewed by the Missouri Marketing Education Curriculum Team.

Revalidation Process

The following activities were undertaken as part of the revalidation process:

1. Each marketing instructor completed a survey instrument utilizing a five point likert scale for each core competency. The likert scale ranged from "very critical" to "not critical" for the assessment of each core competency in the current curriculum. In addition, each marketing instructor was asked to add any additional competencies which they deemed "critical" to the curriculum. Marketing instructors were also asked to indicate the title of instructional resources that were utilized within the program.

2. Upon completion of the data gathering from the survey, the data was tabulated and presented to the Missouri Marketing Education Curriculum Team for their review. Utilizing the data provided, members of the team made revisions and/or modifications to the core competencies.

3. Following the revisions and/or modifications made by the Missouri Marketing Education Curriculum Team, the "revised" core curriculum was reviewed by a select group of business and industry representatives in marketing for their input and modification.

4. Upon completion of the review by business/industry, four focus groups were established around the state. The purpose of the focus groups were to review the "revised" core curriculum, solicit information concerning instructional resources for the purpose of cross-referencing, and to sort the competencies into topical headings under each major duty band.

5. Once the "revised" core competencies were determined, the project staff "cross-referenced" the core competencies with selected textbooks and resource materials. In addition, expected student learning outcomes were developed for major subdivisions of the core curriculum.

6. The Missouri Marketing Education Curriculum Team conducted a final review of all materials for accuracy and useability and established the "revised" core curriculum.
Revisions in the Core Curriculum

The following revisions were made in the Fundamentals of Marketing Core Curriculum:

1. The "duty band" of Economics and Marketing was divided into two "duty bands" entitled: Economic Concepts and Marketing Concepts.

2. The "duty band" of Physical Distribution was eliminated and the competencies either dropped from the current listing or realigned into other "duty bands."

3. The "duty band" of Sales Promotion was expanded and entitled: Advertising and Sales Promotion to more accurately reflect the competencies.

4. Many of the competencies within the Fundamentals of Marketing core curriculum were reworded and/or modified to provide greater depth in the teaching of the competencies and to reflect current marketing standards. In many instances, competencies were dropped from the listing, but the intent of the content of the competency was included within another competency.

5. Competency numbering schemes were maintained in order to assist those instructors utilizing computerized record keeping and to maintain cross listing of test questions, performance assessment techniques, and Instructional Management Plans provided to marketing instructors as part of the implementation of the Vocational Instructional Management System process.
