This study examined why high school students who had been enrolled in vocational classes at the Averill Career Opportunities Center (COC) in Saginaw, Michigan either did not enter or did not continue in classes there. COC staff identified 123 students who were originally scheduled to attend COC classes during fall 1990 but whose fall 1990 schedules did not contain COC courses. From these students, 75 were interviewed. The primary question asked of students was why they were once scheduled to attend COC classes but were no longer enrolled in those classes. Sixteen respondents reported that they needed additional classes for graduation; 11 reported a schedule conflict with either a job, a class, or extracurricular activities; 9 gave no reason; 8 reported needing some other classes but not for graduation; and 7 simply changed their minds. Secondary questions focused on the students' high school coursework and goals. The results revealed that most students intended to go to college and then begin a career. Most felt that their coursework was related to their goals and felt that they would be able to reach their goals. Based on these findings, several recommendations are made to school counselors who help students with class scheduling. The questionnaire is appended, and frequency of responses to individual questions is noted. (NB)

INTRODUCTION

This report details the findings of structured interviews of high school students who had been enrolled in vocational classes at the Averill Career Opportunities Center (COC) but who subsequently did not enter (or stay in) classes there in the fall. The purpose of these interviews was to determine why the students were not enrolled.

An initial group of 123 students was identified by COC staff. These were students who were originally scheduled to attend COC classes during Fall, 1990 but whose final Fall, 1990 schedules did not contain COC courses.

From these students, 42 (34.1%) were not selected to be interviewed because of circumstances which occurred between the time the list was created and the time the interviews began. Specifically,

- 18 (14.6%) had left our District’s K-12 system and
- 24 (19.5%) were attending classes at the COC.

This left 81 of 123 (65.8%) students to interview. Seventy-five (92.6%) were interviewed (one was absent due to an illness and five could not be located during the scheduled interview times).

The interviews were conducted with the cooperation of Arthur Hill, Saginaw High and COC staff. Two evaluators conducted one-to-one interviews with 75 Arthur Hill and Saginaw High students between October 23 - 25, 1990.

A blank copy of the structured interview form is in Appendix A. It should be noted that none of the multiple choice responses were read to the students.
FINDINGS

RESPONDENTS

As indicated earlier, 75 students were interviewed at Arthur Hill and Saginaw High between October 23-25, 1990.

Demographically, they can be described as follows:

- Thirty-one (41.3%) were male, 44 (58.7%) were female.
- Forty-four (58.7%) were Black, 21 (28.0%) were White, and 10 (13.3%) were Hispanic.
- One (1.3%) was 15 years old, 22 (29.3%) were 16, 43 (57.3%) were 17, eight (10.7%) were 18, and one (1.3%) was 19.
- Their grade point average (on a 4.0 scale) was 1.43 (C-) with a standard deviation of 0.65.

RESPONSES

Below are the main responses given by the students.

Primary Question. The primary question asked of students was "Why, in their opinion, were they once scheduled to attend COC classes but were no longer enrolled in those classes." The major responses are presented below, with the number of students giving each response in parentheses. (Students were allowed to give more than one response.)

- Needed some additional classes for graduation (16; 21.3%),
- Had a schedule conflict (11; 14.6%),
  - With a job (7 of 11),
  - With a class (3 of 11),
  - With extra curricular activities (1 of 11),
- Don’t know why; I wanted to go; it just didn’t show up on my schedule (9; 12.0%),*

*This response was given only by Saginaw High students.
- Need some classes but not for graduation (8; 10.7%), and
- Simply changed my mind about it (7; 9.3%).

Other answers, which were offered by three or less respondents, can be found in Appendix B under question 3.

**Secondary Questions.** Students were also asked about their best class at their home high school, their future goals, and whether their classes (and their attainment levels in those classes) were aiding them in reaching those goals. Their main answers are presented below. Interested readers can find more specific details in Appendix B.

**Best Class**

- Thirty-nine different courses were mentioned and only four of them were mentioned as "best" by four or more respondents. These classes were (with the number of respondents in parenthesis):
  - Accounting (7),
  - General Math (5),
  - Economics (4), and
  - Government (4).

- Their reasons for naming that class were also varied. Thirty-two different responses were given and only five were given by more than two students. These reasons were:
  - Like the topic/it's interesting (24),
  - Fits with my career/future plans (10),
  - Like the teacher's methods (5),
  - Helps understand money (4), and
  - Get good grades [in the class] (4).

**Future Goals**

- The majority of students (51; 68.0%) indicated they planned to attend a college or trade school after graduation. However, there was diversity in the fields they intended to pursue. Only four degree/career tracks were mentioned by more than three students. They were:
  - Nursing (8),
-- Business (7),
-- Computer science (5),
-- Criminal Justice (4), and
-- Undecided (9).

The next largest group (19; 25.3%) indicated they planned to go into military service.

When asked what they planned to be doing in ten years, the majority (57; 76.0%) said they planned to be working (an additional four [5.3%] mentioned plans to be working and raising a family). Again, the types of careers mentioned were diverse, with only five being said by more than two people. These five are:

-- Business owner (8),
-- Nurse (5),
-- Computer programmer (5),
-- Attorney (4), and
-- Accountant (4).

Class Attainment Levels

Most (50; 66.7%) felt their high school classes were helping them to attain their goals, 18 (24.0%) indicated some classes were helpful, and 7 (9.3%) responded their classes were of no help.

Lastly, when asked if they are achieving academically at levels which will allow them to reach their goals, most (55; 73.3%) answered yes, 11 (14.7%) were unsure, and 10 (13.3%) admitted they were not, and one (1.3%) considered achievement not relevant.
SUMMARY

Seventy-five Arthur Hill and Saginaw High students who had registered for, but who were not enrolled in, Fall, 1990 COC courses were interviewed. The interviews focused on why these students were no longer enrolled in COC courses and about their high school coursework and goals.

The major reasons why students were not attending COC included the following: needing additional classes (both in order to graduate and for career goals); scheduling conflicts; not knowing why the scheduling change was made, but still wanting to go (Saginaw High only); and changing their mind. It does not appear that the two most frequently cited reasons for not going to COC (needing more classes for graduation and scheduling conflicts—27 incidents or 36.0%) represents a wholesale manipulation, for expedience, on the part of counselors.

It was also learned that most students intend to go to college and then begin a career. Most feel that their coursework is related to their goals and feel they are attaining at sufficient levels to reach their goals.

Last, as might be expected, they exhibited diversity in their college/career plans.
RECOMMENDATIONS

Based upon the findings in this report, the following recommendations are offered:

- Many of the students withdrew from COC classes in order to take classes they either needed or wanted. Counselors should review the transcripts of students considering COC classes to determine if there are classes these students need which would be offered only at times in conflict with attending COC. They should avoid enrolling students who would need to withdraw for required classes.

- Since some students change their minds about attending COC, they may not have a clear picture of how COC classes fit in with their future goals (if they have any). High school counselors should review the goals of students who are considering the COC and explain to students how COC classes will or will not fit with those goals.

- In a similar vein, junior high counselors should review high school requirements with their students. As well, these students should become familiar with what coursework they will need to complete for whatever future goals they may have (college or vocational).
APPENDIX A

FOLLOW-UP QUESTIONNAIRE OF FORMER COC STUDENTS

Part I

Directions: Prior to the interview, supply the following information about the student from the background data provided.

Name: ____________________________
ID Number: ________________________
Birthdate: ____/____/____
G. P. A.: ______________
Gender: M F
Racial/Ethnic: AI W H B O
Years In School: 10 11 12

Part II

Directions: Read the introduction to the students and ask them the following questions. Only read the questions; do not read the response options, just indicate which one the student provided.

Introduction: Hello, I am ________ from the Evaluation Department. Lately, we've been talking with some students about the classes they've been taking and their future plans. And I want to assure you that what you tell me will be kept confidential.

1. What grade are you in? ________________________________________

2. Of the classes you're in right now, which one do you think is the best, and why?

Class: ____________________________
APPENDIX A

3. School records indicate that you signed-up to take classes at the COC. But you’re not taking any classes there now. Is that true? ____________________________

If No, why do you think you were originally scheduled there?
If Yes, why?
(Recall, do not read the response options. Check the answers below which reflect the student’s responses and, where appropriate, read the additional prompt and record that answer.)

A. [Circle] Teacher Friend Counselor Parent(s) talked me out of it.
   (Why?) ____________________________

B. I need some additional classes at (Arthur Hill/Saginaw High).
   (Which ones?) ____________________________

C. Schedule conflict with (Circle)
   Course Extracurricular Activities School Activities Job
   (Which ones?) ____________________________

D. None of my friends are attending COC.

E. It was because the strike delayed the start of school here and I figured I’d be too far behind the others.

F. I changed my mind, but I couldn’t get in to see the counselor before they did the final schedules.

G. I didn’t really mean to sign up for it.

H. Attending COC interfered with my plans to go to college. (Why?) ____________________________

I. I simply changed my mind about it.

J. I have no idea why I was signed-up.

K. I tried COC but didn’t like it there. (Why?) ____________________________

L. I didn’t like riding the bus each day.

M. I didn’t like a specific teacher or staff member.

N. I didn’t seem to fit in with the students there.

O. There were transportation problems.

P. Other (Specify): ____________________________
APPENDIX A

4. What do you plan to do after graduation?
   A. I plan to attend college or a training school.
      If so, what type of degree or career would you like?

   B. I plan to get a job.
      If so, what type of job would you like?

   C. I plan to get married/raise a family.

   D. I plan to go into the military.

   E. I have no plans.

   F. Other (Specify):

5. What would you like to be doing in ten years?
   A. I plan to be working.
      (Specify type of job or profession)

   B. I plan to be married/raising a family.

   C. I plan to be both working and married/raising a family.
      (Specify type of job or profession)

   D. I plan to stay in the military.
      If so, what do you see yourself doing in the military?

   E. I plan to stay in the military and be married/raising a family.
      If so, what do you see yourself doing in the military?

   F. I never thought about it.

   G. Other (Specify):
APPENDIX A

6. Do you think your high school classes will help you in reaching these future goals?
   ____ Yes
   ____ Some Will
   ____ No
   (Please explain:)

   ________________________________________________________________
   ________________________________________________________________
   ________________________________________________________________
   ________________________________________________________________

7. In the classes you are taking, are you achieving at levels that will allow you to reach your goals?
   ____ Yes
   ____ No
   ____ Unsure
   (Please explain:)

   ________________________________________________________________
   ________________________________________________________________

Thank you very much for your time and for talking with me.
