This document is designed for elementary school teachers to teach students concepts of personal responsibility. Daily lessons are organized around the following "twelve steps to success": be confident; be responsible; be here; be on time; be friendly; be polite; be prepared; be a listener; be a doer; be a tough worker; be a risk taker; and be a goal setter. Several daily sessions are outlined for each step, each organized into four parts: objective, review, vocabulary, and lesson. (DB)

WHAT IS SUCCESS?

To laugh often and much;

To win the respect of intelligent people and the affection of children;

To earn the appreciation of honest critics and endure the betrayal of false friends;

To appreciate beauty;

To find the best in others;

To leave the world a bit better, whether by a healthy child, a garden patch or a redeemed social condition;

To know even one life has breathed easier because you have lived;

This is to have succeeded.

INTRODUCTION TO MONTHLY THEME PROGRAM

I. OBJECTIVE: To inform the student of the school-wide program to teach the 12 Steps to Success.

II. REVIEW: None for Today

III. VOCABULARY: Successful Theme Skills

IV. LESSON: Discuss the following points with your students:

A. In order to be successful here at school and at home there are skills or ways of behaving that will help you.

Ask the students:

What do you think it means "to be successful"?

Possible answers: To be able to buy what you want, to be happy, to have a happy family, to be able to go where you want, to have friends, to feel good about me and what I do; to be responsible for what I do and accept the consequences.

NOTE: Try to stress that success is not just having money or possessions, but also knowing one's self, feeling good about what you do and being able to help others. For example, a painter may not sell many paintings, but she may feel happy and fulfilled in her work.

Ask the students:

What are skills?

Possible answers: Things I am good at like spelling or running. Things I can do, like singing or drawing. Things I can learn to do like dancing, playing kick ball. Things I like to do that I am good at.

B. Ask the students to suggest some skills that would be helpful in being successful at school. Some of these skills may also be useful outside of school.

Possible answers: Reading, spelling, arithmetic, listening, sitting quietly, following directions, doing my work, etc.
C. Tell the class that during this school year the entire school will have a monthly **Theme** related to one of the **skills** necessary for **success**. These **themes** will be posted around the school and in the classrooms. There will also be lessons taught by each teacher related to these themes. **Ask the students:**

What is a theme?

**Possible answers:** Something (a topic) to write about, the main tune for a song, the main thought (theme park, Disneyland).

**NOTE:** In this case we are focusing on the main thought for the month.

**NOTE:** If your students cannot grasp the concept of "theme," try to substitute thought for the month, skill for the month.
TWELVE STEPS TO SUCCESS
THEME ONE: BE HERE

Session 1 - BE HERE - Word/Concept

I. OBJECTIVE: To introduce to the students the theme BE HERE and the related concepts.

II. REVIEW: Ask the students to share what the word "Theme" means. Ask the students to share the meaning and an example of a "Skill."

III. VOCABULARY: These vocabulary words are presented in random order. Some may be above grade level for your students. They are presented in order to give you some latitude in teaching the lessons. Many of the words will be used in various contexts throughout the theme lessons.

| HERE      | THINKING | LISTEN |
| ATTENTION | PHYSICALLY | MENTALLY |
| ATTENDANCE | LISTENING | ATTITUDE |

Concept: Are you HERE as in the spirit of learning? Are you emotionally involved in what you are trying to learn?

IV. LESSON: There are two ways to BE HERE. One way is to BE HERE physically. Another way is to BE HERE mentally.

1. Ask the students to list and discuss physical ways or places to BE HERE.
   (BE in my seat, BE at school, BE in line, BE in class on time.)

2. Ask the students to list and discuss mental ways to BE HERE.
   (Pay attention to the teacher, listen to instructions, do my class work, listen to other people when they talk, think about what I am doing.)

3. For older students you may want to discuss ATTITUDE as part of BEING HERE. Do I have a good attitude that allows me to participate fully in the learning process? (I AM HERE if my attitude is "I want to learn." If my attitude is "I wish I was outside playing" I can't BE fully HERE to learn.)
Session 2 - BE HERE - School/Classroom

I. OBJECTIVE: To introduce and discuss with the students the concept that attendance at school (BE HERE) has positive consequences for the entire school and the classrooms.

II. REVIEW: Ask the students to share the ways they can BE HERE (mentally and physically).

III. VOCABULARY: These vocabulary words are presented in random order. Some may be above grade level for your students. They are presented in order to give you some latitude in teaching the lessons. Many of the words will be used in various contexts throughout the theme lessons.

IV. LESSON:

1. Share the following with the class:

   On Monday everyone was at school.
   On Tuesday only half of the students came to school.
   On Wednesday almost everyone was in attendance.
   On Thursday all the students came to school as they did on Monday.
   On Friday most of the students were absent.

2. The above showed us that everyone could not BE HERE every day. Ask the students:

   How does NOT being here affect our school or our class?

   Possible Answers: Students who are not here can't learn. We won't know what to do for homework. We can't play our games because some of our team might be absent. The teacher would have to keep explaining things over and over again to students who were not here.

   What do you think the school or class would be like if everyone made a point to BE HERE every day?

   Possible Answers: It would be easier for the teachers. We could all keep together. Everyone would be learning.

NOTE: This lesson focuses on the idea that each student has a role to play in having a successful classroom and school. If we are all here, we can work together for success. If we are absent, then things fall apart.
Session 3 - BE HERE - Me

I. OBJECTIVE: To help students understand how the concept or skill BE HERE can help them achieve personal success.

II. REVIEW: Have students share a way that BEING HERE can have a positive or negative affect on the school or their class.

III. VOCABULARY: These vocabulary words are presented in random order. Some may be above grade level for your students. They are presented in order to give you some latitude in teaching the lessons. Many of the words will be used in various contexts throughout the theme lessons.

   HERE       THINKING     LISTEN
   ATTENTION  PHYSICALLY  MENTALLY
   ATTENDANCE LISTENING   ATTITUDE

IV. LESSON: Discuss with the students and list on the chalkboard their responses to the following:

   How does not BEING HERE affect me personally?
   Possible Answers: Miss work or instructions, miss my friends. Could get behind in my work. I don’t care.

   What effect does BEING HERE all the time have on you personally?
   Possible Answers: I get my work done. My mom doesn’t get mad. I can play in all the games at lunch.
Session 4 - BE HERE - Home/Community

I. OBJECTIVE: To introduce to the students how the skill and concept BE HERE can affect them at home and in the community.

II. REVIEW: Have students share an example of how BEING HERE can have a positive effect on them personally.

III. VOCABULARY: These vocabulary words are presented in random order. Some may be above grade level for your students. They are presented in order to give you some latitude in teaching the lessons. Many of the words will be used in various contexts throughout the theme lessons.

HERE    THINKING    LISTEN
ATTENTION    PHYSICALLY    MENTALLY
ATTENDANCE    LISTENING    ATTITUDE

IV. LESSON: Discuss with the class and generate a list on the chalkboard of the positive responses to the following:

How can school attendance (BEING HERE) affect me outside of school?

Possible Answers: I feel good because I am learning. I'll get a better job when I grow up. My parents are proud of me.
TWELVE STEPS TO SUCCESS
THEME TWO: BE ON TIME

Session 1 - BE ON TIME - Word/Concept

I. **OBJECTIVE:** To introduce the students to the theme BE ON TIME and the related concepts.

II. **REVIEW:** NONE

ON TIME TARDY PROMPT
PUNCTUAL PLACE (As in line after the bell; not elsewhere)

Ask the students to share any words that they can think of which mean -- BE ON TIME. List them on the chalkboard.

IV. **LESSON:**

1. Write BE ON TIME on the chalkboard.

2. Relate the following story to the class.

   When the bell rang for the start of school, Sam could hear it even though he was far away at the BIG-A buying some candy. Suzie was in the school yard and also heard the bell. However, instead of heading toward her classroom, she walked over to the fountain and got a drink of water. Joe was playing kickball when he heard the bell. Joe went over to the bench where his knapsack was, picked it up and walked to his classroom where the other students were lining up for class.

3. Ask the students: Who will BE ON TIME?

   How do you think each of the students will feel about this incident?

   What are some of the consequences that might face each student (Sam, Suzie and Joe)?

4. Remind the students that the theme is BE ON TIME.

2. Ask the students to discuss how BEING ON TIME affects the operation of their class.

   (Lessons start on time, orderly, no distractions.)

3. Review the story from Session 1.

   Ask the following: If all of us were like Sam, how would it affect our school or classroom?

   If all of us were like Suzie, how would it affect our school or classroom?

   If all of us were like Joe, how would it affect our school or classroom?

   NOTE: EMPHASIS: Our being ON TIME not only affects us, it also has an effect on others.
Session 3 - BE ON TIME - Me

I. OBJECTIVE: To help the students understand that the skill of BEING ON TIME can help them achieve personal success.

II. REVIEW: Ask the students to share some examples of who needs to BE ON TIME in order for the school to function properly.

III. VOCABULARY: These vocabulary words are presented in random order. Some may be above grade level for your students. They are presented in order to give you some latitude in teaching these lessons. Many of the words will be used in various contexts throughout the theme lessons.

RESPECTFUL LISTENS COURTEOUS
CONSIDERATE WAITS HIS/HER TURN
ACCOMMODATING IMPOLITE

Ask the students if they have thought of any new words that mean the same as BEING POLITE. Write them on the chalkboard and include them in this vocabulary section.

IV. LESSON:

1. Read the following statement that was made by a teacher or rephrase the statement in a way that makes the same point.

   When I was your age, I learned to wait before I spoke and then I joined in the conversation only when it was appropriate. Often I was complimented on this behavior. People thought it was very polite.

   A. Can you tell me how you think that made me feel?
   B. Has something like this ever happened in your life?
   C. How does it make you feel when you are complimented for BEING POLITE?

2. Read the following short story to the students:

   Mary was very excited because she just received an 'A' on her spelling test. She was out in the play yard and saw Mrs. Jones, the school principal, standing by the swings. Mrs. Jones was talking to Mr. Smith, who was the school's fourth grade teacher. Mary ran over excitedly to the two people and stood waiting until there was a break in their conversation so she could tell the two adults how successful she had been. When they finally stopped talking, she said... (Have the students complete the above story in their own words.) NOTE: What we are looking for here is to get them to use words that relate to BEING POLITE. For example: Mary said, "Excuse me Mr. Smith, may I tell you about my spelling test?"
You may want to get the students into a role playing situation so they can practice this behavior.

Questions:

1. How do you think the principal and the teacher felt when Mary waited until they had stopped talking before she spoke?
2. What do you think the principal and the teacher might have said to her because of her politeness?
3. How do you think Mary felt when she was complimented on BEING POLITE?
Session 4 - BE POLITE - Home/Community

I. OBJECTIVE: To introduce to the students how the skill and concept BE POLITE can affect them at home and in the community.

II. REVIEW: Have students share examples of when they were complimented at school for BEING POLITE. Have them tell how they feel when they are polite.

III. VOCABULARY: These vocabulary words are presented in random order. Some may be above grade level for your students. They are presented in order to give you some latitude in teaching these lessons. Many of these words will be used in various contexts throughout the theme lessons.

RESPECTFUL LISTENS COURTEOUS
CONSIDERATE WAITS HIS/HER TURN
ACCOMMODATING IMPOLITE

Go ahead and list the words and the other ones.

IV. LESSON:

1. Read the following story to the students.

   Tommy and Tammy, the Jackson twins, ran into the living room where their big brother and little sister were watching T.V. Tommy rushed over to the T.V. and changed the station because he wanted to watch his favorite program. His big brother jumped up, pushed him out of the way and put the T.V. back, yelling at him that he couldn’t watch the show he wanted to watch. Tammy, the other twin, sat down next to her older brother and asked him if when he was through with watching his show, could they change the station to watch Tommy’s favorite program. After listening to his little sister for a few minutes he said that would be okay, that his program would be over in a few minutes and that they could then watch the rest of their program.

   Questions:

   1. Do you think that if Tommy had handled the situation better, with his older brother, he would have avoided having an argument with him? Why?
   2. How do you think Tammy handled the situation?
   3. What would you do if you had this problem at home and you were the older brother?
   4. How do you think Tammy and the older brother felt after this little episode?
   5. What are some ways that we are not POLITE with our families, people in our neighborhoods and in our communities?
Possible Answers:

Sometimes I talk when other people are talking.
Sometimes I don't wait my turn.
Sometimes I take toys away from my little sister or brother.
Sometimes I try to crowd in line at the store.
Sometimes I don't listen when people are telling me what to do.
Sometimes I interrupt my friends just so I can say what I want to say.

2. What are some ways that we can be POLITE with our family or friends?

Possible Answers:

I can listen when people are talking to me.
I can wait my turn.
I can smile and be friendly even with people that I am not too fond of.

Does being PREPARED give you a sense of self-confidence?

What positive consequences are there for our school and class when all the students are PREPARED?
Session 3 - BE PREPARED - ME
