The Business Education Index 1990. Index of Business Education Articles and Research Studies Complied from a Selected List of Periodicals and Yearbooks Published during the Year 1990. Volume 51.

Publications listed in this index are limited to specific business education publications and those related to business education. Journals essential to research and teaching in the broad business education spectrum with emphasis on information systems, economic education, business teacher education, and vocational education are included in the index. A preliminary list cites the subjects in alphabetical order followed by the page number on which the entry begins. Thirty-seven major category heads are capitalized. Seventy-two subcategories are also included. Entries in the index are arranged by subject. An author listing follows the subject section. All entries provide the title, author(s), journal, volume and number, inclusive pages, month, and year. An explanation of the abbreviations for the names of the indexed publications is shown in the list of publications indexed. Other commonly used abbreviations are also included. (NLA)
EDITORIAL POLICY

Publications indexed in the Business Education Index will be limited to specific business education publications and those related to business education. Priority will be given to journals that are essential to research and teaching in the broad business education spectrum with emphasis on information systems (including business communications), economic education, business teacher education, and vocational education (primarily marketing education).

State and regional business education publications are indexed if they meet the following criteria:

1. Publications that are a minimum of 10 pages in length.

2. Publications containing at least three substantive articles, preferably research-based.

3. Publications that are distributed to NABTE institutions libraries or to NABTE institution departments in which business education is located.

4. Publications that are provided without charge to the editor.

Any organization or editor who wishes to have a publication included in the Index should contact the Index editor.

SUGGESTIONS FOR USING THE INDEX:

The following list shows the subjects in alphabetical order followed by the page number on which the entry begins. Major category headings are capitalized. In the following pages, entries are arranged by subject. You may select a major category and search all of the entries under it, beginning with general (miscellaneous) entries. Alternately, you may select a more specific category to search (subcategories under each major heading). The alphabetical listing below will assist you in your search. An author listing in alphabetical order follows the subject section.

All entries have the title, author(s), journal, (volume and number if applicable), inclusive pages, month, and year. In dissertation listings, the order number (if provided) is shown in parentheses. An explanation of the abbreviations for the names of the indexed publications is shown in the "Publications Indexed" section in the back of this index. Other commonly used abbreviations are on the next page.
