Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the "Urban Schools of America (USA) Act of 1991".

(b) TABLE OF CONTENTS.—The table of contents is as follows:

Sec. 1. Short title; table of contents ........................................ 1
Sec. 2. Findings ......................................................................... 2
SEC. 2. FINDINGS.

The Congress finds that—

(1) the ability of the Nation's major urban school systems to meet the Nation's educational goals will determine the country's economic competitiveness and academic standing in the world community;
(2) the quality of public education in the Nation's major urban areas has a direct effect on the economic development of the Nation's inner cities;

(3) the success of urban schools in boosting the achievement of its minority youth attending such schools will determine the ability of the Nation to close the gap between the "haves and have-nots" in society;

(4) the cost to America's businesses to provide training to America's employees is approximately $30,000,000,000 per year;

(5) approximately one-third of the Nation's work force will be minority by the year 2000;

(6) urban schools enroll a disproportionately large share of the Nation's poor and "at-risk" youth;

(7) urban schools enroll approximately one-third of Nation's poor, 40 percent of the Nation's African-American children, and 30 percent of the Nation's Hispanic youth;

(8) nearly 20 percent of the Nation's limited-English proficient children and 15 percent of the Nation's disabled youth are enrolled in urban schools;
(9) the academic performance of students in the average inner-city public school system is below that of students in most other kinds of school systems;

(10) urban school systems have higher dropout rates, more problems with health care and less parental participation than other kinds of school systems;

(11) urban preschoolers have one-half the access to early childhood development programs as do other children;

(12) shortages of teachers in urban school systems are 2.5 times greater than such shortages in other kinds of school systems;

(13) declining numbers of urban minority high school graduates are pursuing postsecondary educational opportunities;

(14) urban school systems have greater problems with teen pregnancy, discipline, drug abuse and gangs than do other kinds of school systems;

(15) 75 percent of urban school buildings are over 25 years old, 33 percent of such buildings are over 50 years old, and such buildings are often in serious disrepair and create poor and demoralizing working and learning conditions;
(16) solving the challenges facing our Nation's urban schools will require the concerted and collaborative efforts of all levels of government and all sectors of the community;

(17) State and Federal funding of urban schools has not adequately reflected need; and

(18) Federal funding that is well targeted, flexible and accountable would contribute significantly to addressing the comprehensive needs of inner-city schools.

SEC. 3. STATEMENT OF PURPOSE.

It is the purpose of this Act to provide financial assistance for those urban schools most in need to—
