*Revised to Cover Laws Enacted During 1990
This thirteenth edition of California Special Education Programs—A Composite of Laws covers Part 30 of the Education Code relative to special education programs, and includes Chapter 1 of Division 3 of Title 5 of the California Code of Regulations relative to special education for children with disabilities. It also contains selected provisions of the Education Code, Health and Safety Code, Government Code, and Welfare and Institutions Code having a direct impact on special education and related services for individuals with exceptional needs.

Part 30 of the Education Code was rewritten in 1980, primarily by Senate Bill 1870 (Rodda) (Chapter 797), which became law on July 28, 1980. This bill repealed all former special education categorical programs and Master Plan for Special Education program Education Code sections that were in effect on January 1, 1980; and restructured and added code sections implementing the Master Plan for Special Education statewide. Since the passage of SB 1870, 64 legislative measures have modified California's special education statutes.

The California Code of Regulations, Title 5 regulations governing special education, were originally adopted and became effective in March of 1981. Substantive amendments were adopted by the State Board of Education on December 11, 1987, approved by the Office of Administrative Law on March 21, 1988, and submitted to the Secretary of State on March 21, 1988. These most recent amendments to the regulations became effective on April 20, 1988. Amendments to the complaint procedures are expected to be adopted before July 1, 1991.

During 1990, eleven legislative bills were chaptered into law amending or adding special education sections under Part 30 of the Education Code.

The measures are:

- Assembly Bill 812 (Campbell) - Chapter 118 - Statutes of 1990
  Effective Date: January 1, 1991

Effective Date: January 1, 1991

Senate Bill 2194 (Morgan) - Chapter 1596, Statutes of 1990
Effective Date: January 1, 1991

Assembly Bill 812 (Campbell) added Education Code Section 56728.7 to establish a pilot program of returning individuals with exceptional needs to public schools from nonpublic, nonsectarian schools. The three-year pilot program, 1990-91 through 1992-93, will include 10 school districts or county offices of education with a limit of no more than 200 pupils participating in the statewide program.

Assembly Bill 1528 (Farr) amended Education Code Sections 56028, 56050 and 56156 regarding surrogate parents for dependents or wards of the courts, and added Section 7579.5 to the Government Code to bring California into conformity with federal requirements on the responsibility for local educational agencies to appoint a surrogate parent for a child, under specified circumstances, who is a dependent or ward of the court.

Assembly Bill 2586 (Hughes) added a new Chapter 5.5 (commencing with Section 56520) to Part 30 of the Education Code providing parameters for the use of behavioral interventions with individuals with exceptional needs receiving special education and related services. As part of the new chapter, a section was added requiring the Superintendent of Public Instruction to conduct a statewide study by June 30, 1992, of the use of behavioral interventions with individuals with exceptional needs. Another section was added requiring the Superintendent of Public Instruction to develop and the State Board of Education to adopt by September 1, 1992, regulations governing the use of behavioral interventions.
Assembly Bill 2875 (O'Connell) amended Education Code Section 56827 to require the Superintendent of Public Instruction to review information and calculations submitted by school districts and county offices of education in support of apportionment computations based on data submitted during the initial year of apportionment and for the first succeeding fiscal year only.

Assembly Bill 3040 (Speier) added Education Code Section 56244 stating that the Legislature encourages the inclusion, in local in-service training programs for regular and special education teachers in local educational agencies of a component on the recognition of, and teaching strategies for, specific learning disabilities, including dyslexia and related disorders. A noncodified section of the measure contained language requiring the Superintendent of Public Instruction to develop program guidelines for specific learning disabilities, including dyslexia and other related disorders, for use by regular and special educators and parents to assist them in identifying, assessing, planning, providing, evaluating, and improving educational services to pupils. The program guidelines are to be completed in time for use no later than the beginning of the 1992-93 academic year. AB 3040 also added Education Code Section 44227.7 stating that the Legislature encourages institutions of higher education to provide, in teacher training programs, increased emphasis on the recognition of, and teaching strategies for, specific learning disabilities, including dyslexia and related disorders.

Assembly Bill 3057 (Polanco) added Education Code Section 56728.9 and amended Section 56734 providing for increased support services for a special education local plan area that is a single district which is severely impacted by pupils residing in licensed children's institutions.

Assembly Bill 3451 (Hannigan) amended Education Code Section 56440 extending the phase-in date to June 30, 1992, for California to serve all identified individuals with exceptional needs between the ages of three and five years, inclusive, who do not require intensive special education and services; and amended Education Code Section 56448, which changed the conditions for the State to terminate its participation in the federal preschool handicapped grant program and allowed the State's continued participation in the program beyond June 30, 1990.

Assembly Bill 3880 (Farr) amended Education Code Section 56325 to bring the State into compliance with federal law concerning pupils transferring into a school district from a school district not operating programs under the same local plan in which the pupils were last enrolled. The measure also amended Education Code Sections 48911, 48912, 48915.5 and 48917, pertaining to suspension and expulsion of individuals with exceptional needs, in order to conform with federal court decisions.

Senate Bill 823 (Bergeson) added a new Article 1.5 (commencing with Section 56210) to Chapter 3 of Part 30 of the Education Code providing, among other things, a guaranteed minimum level of authorized instructional personnel service units to special education local plan areas with small or sparse populations. The measure also amended Sections 56728.6 and 56728.8 which correspond to the new article.
Senate Bill 1320 (Seymour) amended Education Code Section 56345 requiring the individualized education program of a pupil to include, when appropriate, a description of activities provided to integrate the pupil into the regular education program; and a description of the activities provided to support the transition of pupils from a special class or center, or nonpublic, nonsectarian school, into the regular education program.

Senate Bill 2194 (Morgan) added Education Code Section 56244 requiring the Superintendent of Public Instruction, to the extent possible using federal and state funds appropriated for this purpose, to provide staff development to child care center staff and family day care providers to improve child care services to individuals with exceptional needs. In addition, the measure included provisions addressing child care and development services for children with exceptional needs.

Although not included in Part 30 of the Education Code, Assembly Bill 3072 (Eastin) (Chapter 1203, Statutes of 1990) provided for the Legislative Analyst to conduct a study, or contract for a study, by December 1, 1991, to determine, among other things, whether individuals with exceptional needs are receiving occupational and physical therapy deemed necessary by the individualized education program team, and which state and local agencies are most appropriate to provide the therapy. (Funding for the study was deleted by the Governor.) Also, Assembly Bill 3596 (Polanco) (Chapter 737, Statutes of 1990) added Welfare and Institutions Code Section 18356 requiring a local mental health department placing a seriously emotionally disturbed child out-of-state pursuant to Chapter 26.5 of the Government Code to prepare a report for the State Director of Mental Health summarizing efforts to locate, develop, or adapt an appropriate program for the client within the state; and specifying other report items. The measure also requires the State Director of Mental Health and the Superintendent of Public Instruction and other appropriate agencies providing services to emotionally disturbed children, to prepare a report to the Legislature by June 1, 1992, which identifies the number of children placed out-of-state pursuant to Chapter 26.5 of the Government Code during the calendar year 1991, the reasons for placement, and the problems in California's system of residential care which those placements identify, and make recommendations.

Senate Bill 899 (Alquist) (Chapter 467, Statutes of 1990), the Budget Act of 1990, provided $1,430,109,000 for state local assistance for special education, including $78,353,000 for program growth in 1990-91 for ages 3-21 and $1,150,000 for infant program growth, and $64,481,000 for a cost-of-living adjustment (figured at 3 percent although existing law called for a 4.76 percent increase). The Budget Act also contained $181,521,000 in federal funds for special education programs, of which $131,866,000 was earmarked for local entitlements.

PART 30. SPECIAL EDUCATION PROGRAMS

CHAPTER I. GENERAL PROVISIONS

Article 1. Intent

56000. The Legislature finds and declares that all individuals with exceptional needs have a right to participate in free appropriate public education and that special educational instruction and services for these persons are needed in order to ensure them of the right to an appropriate educational opportunity to meet their unique needs.

It is the intent of the Legislature to unify and improve special education programs in California under the flexible program design of the Master Plan for Special Education. It is the further intent of the Legislature to assure that all individuals with exceptional needs are provided their rights to appropriate programs and services which are designed to meet their unique needs under Public Law 94-142.

It is the further intent of the Legislature that nothing in this part shall be construed to abrogate any right provided individuals with exceptional needs and their parents or guardians under Public Law 94-142.

It is the further intent of the Legislature that the Master Plan for Special Education provide an educational opportunity for individuals with exceptional needs which is equal to or better than that provided prior to the implementation of programs under this part, including, but not limited to, those provided to individuals previously served in a development center for handicapped pupils.

It is the intent of the Legislature that the restructuring of special education programs as set forth in the Master Plan for Special Education be implemented in accordance with provisions of this part by all school districts and county offices during a two-year transitional period commencing with fiscal year 1980-81, with full implementation to be completed by June 30, 1982.

56000.5. The Legislature finds and declares that:

(a) Pupils with low-incidence disabilities, as a group, make up less than 1 percent of the total statewide enrollment for kindergarten through grade 12.
(b) Pupils with low-incidence disabilities require highly specialized services, equipment and materials.

56001. It is the intent of the Legislature that special education programs provide all of the following:

(a) Each individual with exceptional needs is assured an education appropriate to his or her needs in publicly supported programs through completion of his or her prescribed course of study or until the time that he or she has met proficiency standards prescribed pursuant to Sections 51215 and 51216.

(b) By June 30, 1991, early educational opportunities shall be available to all children between the ages of three and five years, inclusive, who require special education and services.

(c) Early educational opportunities may be made available to children younger than three years of age who require intensive special education and services and their parents.

(d) Any child younger than five years, potentially eligible for special education shall be afforded the protections provided by this part and by federal law commencing with his or her referral for special education instruction and services.

(e) Each individual with exceptional needs shall have his or her educational goals, objectives, and special education and related services specified in a written individualized education program.

(f) Education programs are provided under an approved local plan for special education that sets forth the elements of the programs in accordance with the provisions of this part. This plan for special education shall be developed cooperatively with input from the community advisory committee and appropriate representation from special and regular teachers and administrators selected by the groups they represent to ensure effective participation and communications.

(g) Individuals with exceptional needs are offered special assistance programs that promote maximum interaction with the general school population in a manner that is appropriate to the needs of both.

(h) Pupils be transferred out of special education programs when special education services are no longer needed.

(i) The unnecessary use of labels is avoided in providing special education and related services for individuals with exceptional needs.
(j) Procedures and materials for assessment and placement of individuals with exceptional needs shall be selected and administered so as not to be racially, culturally, or sexually discriminatory. No single assessment instrument shall be the sole criterion for determining placement of a pupil. The procedures and materials for assessment and placement shall be in the individual's mode of communication. Procedures and materials for use with pupils of limited English proficiency as defined in subdivision (m) of Section 52163, shall be in the individual's primary language. All assessment materials and procedures shall be selected and administered pursuant to Section 56320.

(k) Educational programs are coordinated with other public and private agencies, including preschools, child development programs, nonpublic, nonsectarian schools, regional occupational centers and programs and postsecondary and adult programs for individuals with exceptional needs.

(l) Psychological and health services for individuals with exceptional needs shall be available to each school site.

(m) Continuous evaluation of the effectiveness of these special education programs by the school district, special education local plan area, or county office shall be made to ensure the highest quality educational offerings.

(n) Appropriate qualified staff are employed, consistent with credentialing requirements, to fulfill the responsibilities of the local plan and that positive efforts to employ qualified handicapped individuals are made.

(o) Regular and special education personnel are adequately prepared to provide educational instruction and services to individuals with exceptional needs.

(p) This section shall remain in effect only until California terminates its participation in special education programs for individuals with exceptional needs between the ages of three and five years, pursuant to Section 56448, and as of that date is repealed.

However, those pupils and appropriate instructional personnel units required

56168. If the hospital or health facility also operates a nonpublic, nonsectarian school and the individual with exceptional needs is served by that nonpublic school, the responsibility for assuring appropriate education of the individual shall be that of the district in which the parent resides, pursuant to Sections 56365 and 56366.

56169.7. If any provision of this article, or the application thereof to any person or circumstances, is held invalid by an appellate court of competent jurisdiction, the remainder of the article, and the application of the provision to other persons or circumstances, shall not be affected thereby.

(e) An annual budget plan to allocate instructional personnel service units, support services, and transportation services directly to entities operating those services and to allocate regionalized services funds to the county office, responsible local agency, or other alternative administrative structure. The annual budget plan shall be adopted at a public hearing held by the district, special education local plan area, or county office, as appropriate. Notice of this hearing shall be posted in each school in the local plan area at least 15 days prior to the hearing. The annual budget plan may be revised during the fiscal year, and these revisions may be submitted to the superintendent as amendments to the allocations set forth in the plan. However, the revisions shall, prior to submission to the superintendent, be approved according to the policymaking process, established pursuant to paragraph (2) of subdivision (c).

*(Section 56200 Amended in 1990)
(f) Verification that the plan has been reviewed by the community advisory committee and that the committee had at least 30 days to conduct this review prior to submission of the plan to the superintendent.

(g) Description of the identification, referral, assessment, instructional planning, implementation, and review in compliance with Chapter 4 (commencing with Section 56300).

(h) A description of the process being utilized to meet the requirements of Section 56303, 56201. As a part of the local plan submitted pursuant to Section 56200, each special education local plan area shall describe how specialized equipment and services will be distributed within the local plan area in a manner that minimizes the necessity to serve pupils in isolated sites and maximizes the opportunities to serve pupils in the least restrictive environments.

Article 1.5. Special Education Local Plan Areas with Small or Sparse Populations

56210. (a) It is the intent of the Legislature in enacting this article to ensure that individuals with exceptional needs residing in special education local plan areas with small or sparse populations have equitable access to the programs and services they may require. It is further the intent of the Legislature to provide a guaranteed minimum level of authorized instructional personnel service units to special education local plan areas with small or sparse populations and the means through which these special education local plan areas may achieve planned orderly growth and maintenance of services through the local planning process. It is also the intent of the Legislature to relieve special education local plan areas with small or sparse populations from the burdensome dependency upon the annual waiver authority of Section 56728.6, 56728.8, and 56761 so that individuals with exceptional needs residing in those areas may have equitable access to required programs and services.

(b) It is the further intent of the Legislature in enacting this article that special education local plan areas with small or sparse populations be provided with supplemental funding to facilitate their ability to perform the regionalized service functions listed in Section 56780 and provide the direct instructional support of program specialists in accordance with Section 56368.

56211. (a) A special education local plan area submitting a local plan, pursuant to subdivision *(Article 1.5 Added in 1990)
(c) of Section 56170, which includes all of the school districts located in the county submitting the plan, except those participating in a countywide special education local plan area located in an adjacent county, and which meets the criteria for special education local plan areas with small or sparse populations set forth in Section 56212, is eligible to request that designation in its local plan application and may request exemption for the three-year period covered by its approved plan from compliance with one or more of the standards, ratios, and criteria specified in subdivision (b). In requesting the designation in its local plan application, the special education local plan area shall include a maintenance of service section, pursuant to Section 56213, in which it may request authorization to operate pursuant to the provisions of this article for the three-year period covered by its approved local plan. Each request shall specify which of the standards, ratios, proportions, and criteria would prevent the provision of a free appropriate public education or would create undue hardship.

(b) An eligible special education local plan area submitting a local plan application pursuant to this section may request exemption from the standards, ratios, and criteria set forth in Sections 56728.6, 56728.8 and 56760 pertaining to the authorization, recapture, retention, and operation of instructional personnel service units.

56212. An eligible special education local plan area, which submits a local plan under the provisions of Section 56211, may request designation as a small or sparsely populated special education local plan area in one of the following categories:

(a) A necessary small special education local plan area in which the total enrollment in kindergarten and grades 1 to 12, inclusive, is less than 15,000, and which includes all of the school districts located in the county or counties participating in the local plan.

(b) A sparsely populated special education local plan area in which the total enrollment in kindergarten and grades 1 to 12, inclusive, is less than 25,000, in which the combined pupil density ratio is not more than 20 pupils per square mile, and which includes all of the school districts located in the county submitting the plan except those that are participants in a countywide special education local plan area located in an adjacent county.

(c) A special education local plan area with a sparsely populated county in which a special
education local plan area includes all of the districts in two or more adjacent counties and in which at least one of the counties would have met the criteria set forth in subdivision (a) or (b) of this section if the districts and the county office of education had elected to submit a single county plan.

56213. (a) Each eligible special education local plan area that submits a local plan pursuant to Section 56211 and that elects exemptions from the standards, ratios, proportions, and criteria set forth in Sections 56728.6, 56728.8, and 56760 pertaining to the authorization, recapture, retention, and operation of instructional personnel service units shall, for the duration of its local plan, retain, as minimum annual authorization, the number of authorized instructional personnel service units, and portions thereof, that it reported as operated at the second principal apportionment of the fiscal year immediately preceding the initial year of implementation of the local plan submitted pursuant to this article.

(b) In addition to the contents required to be included in the local plan pursuant to Section 56200, a local plan application submitted pursuant to this article shall include a maintenance of service section in which the eligible special education local plan area shall project the type and total number of additional instructional personnel service units, and portions thereof, it will require for each year of the duration of the local plan, the locations in which instructional personnel service units will be utilized, their estimated caseloads, and a description of the services to be provided.

56214. Each small or sparsely populated special education local plan area which anticipates that its service needs will require instructional personnel service units, or portions thereof, in excess of those authorized in its approved local plan may submit, prior to March 1 of any year, an amendment to the maintenance of service section of its local plan in which it may request an increase in its total number of authorized instructional personnel service units beginning in the following year. The amendment shall project the type and total number of additional instructional personnel service units, and portions thereof, the small or sparsely populated special education local plan area will require for each remaining year of the duration of the local plan, the locations in which additional instructional personnel service units will be utilized, their estimated caseloads, and a description of the services to be provided.
A special education local plan area which ceases meeting the criteria set forth in Sections 56211 and 56212 during any year in which the local plan area is implementing an approved local plan pursuant to this article shall retain the exemptions authorized pursuant to Section 56213 and the then current level of authorized instructional personnel service units for the following year.

Plans and amendments submitted pursuant to this article shall be approved by the State Board of Education prior to the implementation of those plans and amendments.

Instructional personnel service units authorized pursuant to this article shall not increase the statewide total number of instructional personnel service units for the purposes of state apportionments unless an appropriation specifically for an increase in the number of instructional personnel service units is made in the annual Budget Act or other legislation. If an appropriation is made, instructional personnel service units authorized pursuant to this article shall be included in the increased number of units and shall be funded only by the appropriation and no other funds may be apportioned for them.

Article 2. Local Requirements

In addition to the provisions required to be included in the local plan pursuant to Section 56200, each special education local plan area that submits a local plan pursuant to subdivision (b) of Section 56170 and each county office that submits a local plan pursuant to subdivision (c) of Section 56170 shall develop written agreements to be entered into by entities participating in the plan. The agreements need not be submitted to the superintendent. These agreements shall include, but not be limited to, the following:

(f) A description of the process for coordinating and providing services to individuals with exceptional needs placed in licensed children's institutions and foster family homes pursuant to Article 5 (commencing with Section 56155) of Chapter 2.

g) A description of the process for coordinating and providing services to individuals with exceptional needs placed in juvenile court schools or county community schools pursuant to Section 56221.

56221. (a) Each entity providing special education under this part shall adopt policies for the programs and services it operates, consistent with agreements adopted pursuant to subdivision (b) or (c) of Section 56170, or Section 56220. The policies need not be submitted to the superintendent.

(b) The policies shall include, but not be limited to, all of the following:

(1) Nonpublic, nonsectarian services, including those provided pursuant to Sections 56365 and 56366.

(2) Review, at a regular education or special education teacher's request, of the assignment of an individual with exceptional needs to his or her class and a mandatory meeting of the individualized education program team if the review indicates a change in the pupil's placement, instruction, related services, or any combination thereof. The policies, with respect to caseloads, shall not be developed until guidelines or proposed regulations are issued pursuant to Section 56441.7. The guidelines or proposed regulations shall be considered when developing the caseload policy. A statement of justification shall be attached if the local caseload policy exceeds state guidelines or proposed regulations.

(c) The policies may include, but are not limited to, provisions for involvement of district and county governing board members in any due process hearing procedure activities conducted pursuant to, and consistent with, state and federal law.

56222. The plan for special education shall be developed and updated cooperatively by a committee of representatives of special and regular teachers and administrators selected by the groups they represent and with input from the community advisory committee to ensure adequate and effective participation and communication.

Article 3. Staff Development

56240. Staff development programs shall be provided for regular and special education teachers, administrators, certificated and classified employees, volunteers, community advisory committee members and, as appropriate, members of the district and county governing boards. The programs shall be coordinated with other staff development programs in the district, special education local plan area, or county office, including school level staff development programs authorized by state and federal law.

56241. Staff development programs shall include, but not be limited to, all the following:

(a) Provision of opportunities for all school personnel, paraprofessionals, and volunteers to participate in ongoing development activities pursuant to a systematic identification of pupil and personnel needs.

(b) Be designed and implemented by classroom teachers and other participating school personnel,
including the school principal. Positive efforts shall be made to ensure the individuals with exceptional needs and parents of such individuals are involved in the design and implementation of staff development programs.

(c) Allowance for diversity in development activities, including, but not limited to, small groups, self-directed learning, and systematic observation during visits to other classrooms or schools.

(d) Scheduling of time which is set aside for such purpose throughout the school year, including, but not limited to, time when participating school personnel are released from their regular duties.

(e) Evaluation and modification on a continuing basis by participating school personnel with the aid of outside personnel, as necessary.

(f) Inclusion of the school principal and other administrative personnel as active participants in one or more staff development activities implemented pursuant to this chapter.

(g) Provision of a budget for reasonable and necessary expenses, relating to staff development programs.

56242. (a) A district, special education local plan area, or county office, shall receive its full average daily attendance apportionment during the regular school year to conduct staff development programs pursuant to this article. Except as provided in subdivision (b), the time shall not exceed two days each year for each participating staff member. However, no district, special education local plan area, or county office shall receive average daily attendance reimbursement under this section if it is reimbursed pursuant to Chapter 1147 of the Statutes of 1972, Chapter 31 (commencing with Section 44670) of Part 25, or Chapter 6 (commencing with Section 52000) of Part 28.

*(Section 56244 Added in 1990, Chapter 1501, Statutes of 1990)*

**(Section 56244 Added in 1990, Chapter 1596, Statutes of 1990)**
CHAPTER 4. IDENTIFICATION AND REFERRAL, ASSESSMENT, INSTRUCTIONAL PLANNING, IMPLEMENTATION, AND REVIEW

Article 1. Identification and Referral

56300. Each district, special education local plan area, or county office shall actively and systematically seek out all individuals with exceptional needs, ages 0 through 21 years, including children not enrolled in public school programs, who reside in the district or are under the jurisdiction of a special education local plan area or a county office.

56301. Each district, special education local plan area, or county office shall establish written policies and procedures for a continuous child-find system which addresses the relationships among identification, screening, referral, assessment, planning, implementation, review, and the triennial assessment. The policies and procedures shall include, but need not be limited to, written notification of all parents of their rights under this chapter, and the procedure for initiating a referral for assessment to identify individuals with exceptional needs.

56302. Each district, special education local plan area, or county office shall provide for the identification and assessment of an individual's exceptional needs, and the planning of an instructional program to best meet the assessed needs. Identification procedures shall include systematic methods of utilizing referrals of pupils from teachers, parents, agencies, appropriate professional persons, and from other members of the public. Identification procedures shall be coordinated with school site procedures for referral of pupils with needs that cannot be met with modification of the regular instructional program.

56303. A pupil shall be referred for special educational instruction and services only after the resources of the regular education program have been considered and, where appropriate, utilized.

Article 2. Assessment

56320. Before any action is taken with respect to the initial placement of an individual with exceptional needs in special education instruction,
an individual assessment of the pupil's educational needs shall be conducted, by qualified persons, in accordance with requirements including, but not limited to, all the following:

(a) Testing and assessment materials and procedures used for the purposes of assessment and placement of individuals with exceptional needs are selected and administered so as not to be racially, culturally, or sexually discriminatory.

(b) Tests and other assessment materials meet all the following requirements:

(1) Are provided and administered in the pupil's primary language or other mode of communication, unless the assessment plan indicates reasons why such provision and administration are not clearly feasible.

(2) Have been validated for the specific purpose for which they are used.

(3) Are administered by trained personnel in conformance with the instructions provided by the producer of such tests and other assessment materials, except that individually administered tests of intellectual or emotional functioning shall be administered by a psychometrist or credentialed school psychologist where available. It is not the intent of the Legislature to require that new personnel be hired for this purpose.

(c) Tests and other assessment materials include those tailored to assess specific areas of educational need and not merely those which are designed to provide a single general intelligence quotient.

(d) Tests are selected and administered to best ensure that when a test administered to a pupil with impaired sensory, manual, or speaking skills produces test results that accurately reflect the pupil's aptitude, achievement level, or any other factors the test purports to measure and not the pupil's impaired sensory, manual, or speaking skills unless those skills are the factors the test purports to measure.

(e) No single procedure is used as the sole criterion for determining an appropriate educational program for an individual with exceptional needs.

(f) The pupil is assessed in all areas related to the suspected disability including, where appropriate, health and development, vision, including low vision, hearing, motor abilities, language function, general ability, academic performance, self-help, orientation and mobility skills, career and vocational abilities and
interests, and social and emotional status. A developmental history is obtained, when appropriate. For pupils with residual vision, a low vision assessment shall be provided in accordance with guidelines established pursuant to Section 56136.

(g) The assessment of a pupil, including the assessment of a pupil with a suspected low incidence disability, shall be conducted by persons knowledgeable of that disability. Special attention shall be given to the unique educational needs, including, but not limited to, skills and the need for specialized services, materials, and equipment consistent with guidelines established pursuant to Section 56136.

56321. (a) Whenever an assessment for the development or revision of the individualized education program is to be conducted, the parent of the pupil shall be given, in writing, a proposed assessment plan within 15 days of the referral for assessment. A copy of the notice of parent rights shall be attached to the assessment plan.

(b) The proposed assessment plan given to parents shall meet all the following requirements:

1. Be in language easily understood by the general public.
2. Be provided in the primary language of the parent or other mode of communication used by the parent, unless to do so is clearly not feasible.
3. Explain the types of assessments to be conducted.

4. State that no individualized education program will result from the assessment without the consent of the parent.

(c) No assessment shall be conducted unless the written consent of the parent is obtained prior to the assessment except pursuant to subdivision (e) of Section 56506. The parent shall have at least 15 days from the receipt of the proposed assessment plan to arrive at a decision. Assessment may begin immediately upon receipt of such consent.

56322. The assessment shall be conducted by persons competent to perform the assessment, as determined by the school district, county office, or special education local plan area.

56323. Admission of a pupil to special education instruction shall be made only in accordance with this article, Article 2.5 (commencing with Section 56333) and standards established by the board and upon a recommendation by the individualized education program team.
56324. (a) Any psychological assessment of pupils shall be made in accordance with Section 56320 and shall be conducted by a credentialed school psychologist who is trained and prepared to assess cultural and ethnic factors appropriate to the pupil being assessed.

(b) Any health assessment of pupils shall be made in accordance with Section 56320 and shall be conducted by a credentialed school nurse or physician who is trained and prepared to assess cultural and ethnic factors appropriate to the pupil being assessed.

56325. (a) Whenever a pupil transfers into a school district from a school district not operating programs under the same local plan in which he or she was last enrolled in a special education program, the administrator of a local program under this part shall ensure that the pupil is immediately provided an interim placement for a period not to exceed 30 days. The interim placement must be in conformity with an individualized education program, unless the parent or guardian agrees otherwise. The individualized education program implemented during the interim placement may be either the pupil's existing individualized education program, implemented to the extent possible within existing resources, which may be implemented without complying with subdivision (a) of Section 56321, or a new individualized education program, developed pursuant to Section 56321.

(b) Before the expiration of the 30-day period, the interim placement shall be reviewed by the individualized education program team and a final recommendation shall be made by the team in accordance with the requirements of this chapter. The team may utilize information, records, and reports from the school district or county program from which the pupil transferred.

56326. A pupil may be referred, as appropriate, for further assessment and recommendations to the California Schools for the Deaf and Blind or the Diagnostic Schools for Neurologically Handicapped Children.

56327. The personnel who assess the pupil shall prepare a written report, or reports, as appropriate, of the results of each assessment. The report shall include, but not be limited to, all the following:

(a) Whether the pupil may need special education and related services.

(b) The basis for making the determination.
The relevant behavior noted during the observation of the pupil in an appropriate setting.

The relationship of that behavior to the pupil's academic and social functioning.

The educationally relevant health and development, and medical findings, if any.

For pupils with learning disabilities whether there is such a discrepancy between achievement and ability that it cannot be corrected without special education and related services.

A determination concerning the effects of environmental, cultural, or economic disadvantage, where appropriate.

The need for specialized services, materials, and equipment for pupils with low incidence disabilities, consistent with guidelines established pursuant to Section 56136.

Notwithstanding the provisions of this chapter, a district, special education local plan area, or county office may utilize a school site level and a regional level service, as provided for under Section 56336.2 as it read immediately prior to the operative date of this section, to provide the services required by this chapter.

The parent of the pupil shall be provided with written notice that he or she may obtain, upon request, a copy of the findings of the assessment or assessments conducted pursuant to Section 56321. This notice may be provided as part of the assessment plan given to parents pursuant to Section 56321. The notice shall include all the following:

(a) An individualized education program team conference, including the parent and his or her representatives, shall be scheduled, pursuant to Section 56341, to discuss the assessment, the educational recommendations, and the reasons for these recommendations.

(b) A parent has the right to obtain, at public expense, an independent educational assessment of the pupil from qualified specialists, as defined by regulations of the board, if the parent disagrees with an assessment obtained by the public education agency.

However, the public education agency may initiate a due process hearing pursuant to Chapter 5 (commencing with Section 56500) to show that its assessment is appropriate. If the final decision resulting from the due process hearing is that the assessment is appropriate, the parent still has the right for an independent educational assessment, but not at public expense.

If the parent obtains an independent educational assessment at private expense, the results of the
assessment shall be considered by the public education agency with respect to the provision of free, appropriate public education to the child, and may be presented as evidence at a due process hearing pursuant to Chapter 5 (commencing with Section 56500) regarding such child.

Article 2.5. Eligibility Criteria for Special Education and Related Services on the Basis of Language and Speech Disorder or Specific Learning Disabilities

56333. A pupil shall be assessed as having a language or speech disorder which makes him or her eligible for special education and related services when he or she demonstrates difficulty understanding or using spoken language to such an extent that it adversely affects his or her educational performance and cannot be corrected without special education and related services. In order to be eligible for special education and related services, difficulty in understanding or using spoken language shall be assessed by a language, speech, and hearing specialist who determines that such difficulty results from any of the following disorders:

(a) Articulation disorders, such that the pupil's production of speech significantly interferes with communication and attracts adverse attention.

(b) Abnormal voice, characterized by persistent, defective voice quality, pitch, or loudness. An appropriate medical examination shall be conducted, where appropriate.

(c) Fluency difficulties which result in an abnormal flow of verbal expression to such a degree that these difficulties adversely affect communication between the pupil and listener.

(d) Inappropriate or inadequate acquisition, comprehension, or expression of spoken language such that the pupil's language performance level is found to be significantly below the language performance level of his or her peers.

(e) Hearing loss which results in a language or speech disorder and significantly affects educational performance.

56337. A pupil shall be assessed as having a specific learning disability which makes him or her eligible for special education and related services when it is determined that all of the following exist:

(a) A severe discrepancy exists between the
intellectual ability and achievements in one or more of the following academic areas:

(1) Oral expression.
(2) Listening comprehension.
(3) Written expression.
(4) Basic reading skills.
(5) Reading comprehension.
(6) Mathematics calculation.
(7) Mathematics reasoning.

(b) The discrepancy is due to a disorder in one or more of the basic psychological processes and is not the result of environmental, cultural, or economic disadvantages.

(c) The discrepancy cannot be corrected through other regular or categorical services offered within the regular instructional program.

56338. As used in Section 56337, "specific learning disability" includes, but is not limited to, disability within the function of vision which results in visual perceptual or visual motor dysfunction.

Article 3. Instructional Planning and Individualized Education Program

56340. Each district, special education local plan area, or county office shall initiate and conduct meetings for the purposes of developing, reviewing, and revising the individualized education program of each individual with exceptional needs.

56341. (a) Each meeting to develop, review, or revise the individualized education program of an individual with exceptional needs, shall be conducted by an individualized education program team.

(b) The individualized education program team shall include all of the following:

(1) A representative other than the pupil's teacher designated by administration who may be an administrator, program specialist, or other specialist who is knowledgeable of program options appropriate for the pupil and who is qualified to provide, or supervise the provision of, special education.

(2) The pupil's present teacher. If the pupil does not presently have a teacher, this representative shall be the teacher with the most recent and complete knowledge of the pupil who has also observed the pupil's educational performance in an appropriate setting. If no such teacher is available, this representative shall be a regular classroom teacher referring the pupil, or a special
education teacher qualified to teach a pupil of his or her age.

(3) One or both of the pupil's parents, a representative selected by the parent, or both, pursuant to Public Law 94-142.

(c) When appropriate, the team shall also include:

(1) The individual with exceptional needs.

(2) Other individuals, at the discretion of the parent, district, special education local plan area, or county office who possess expertise or knowledge necessary for the development of the individualized education program.

(d) If the team is developing, reviewing, or revising the individualized education program of an individual with exceptional needs who has been assessed for the purpose of that individualized education program, the district, special education local plan area, or county office, shall ensure that a person is present at the meeting who has conducted an assessment of the pupil or who is knowledgeable about the assessment procedures used to assess the pupil and is familiar with the results of the assessment. The person shall be qualified to interpret the results if the results or recommendations, based on the assessment, are significant to the development of the pupil's individualized education program and subsequent placement.

(e) For pupils with suspected learning disabilities, at least one member of the individualized education program team, other than the pupil's regular teacher, shall be a person who has observed the pupil's educational performance in an appropriate setting. If the child is younger than five years or is not enrolled in a school, a team member shall observe the child in an environment appropriate for a child of that age.

(f) The parent shall have the right to present information to the individualized education program team in person or through a representative and the right to participate in meetings relating to eligibility for special education and related services, recommendations, and program planning.

(g) It is the intent of the Legislature that the individualized education program team meetings be nonadversarial and convened solely for the purpose of making educational decisions for the good of the individual with exceptional needs. However, if the public education agency uses an attorney during any part of the individualized education program meeting, that use shall be governed by the provisions of Section 56507.
56342. The individualized education program team shall review the assessment results, determine eligibility, determine the content of the individualized education program, consider local transportation policies and criteria developed pursuant to paragraph (5) of subdivision (b) of Section 56221, and make program placement recommendations.

Prior to recommending a new placement in a nonpublic, nonsectarian school, the individualized education program team shall submit the proposed recommendation to the local governing board of the district, special education local plan area, or county office for its review and recommendation regarding the cost of such placement.

The local governing board shall complete its review and make its recommendations, if any, at the next regular meeting of the board. A parent or representative shall have the right to appear before the board and submit written and oral evidence regarding the need for nonpublic school placement for his or her child. Any recommendations of the board shall be considered at an individualized education program team meeting, to be held within five days of the board's review.

Notwithstanding Section 56344, the time limit for the development of an individualized education program shall be waived for a period not to exceed 15 additional days to permit the local governing board to meet its review and recommendation requirements.

56343. An individualized education program team shall meet whenever any of the following occurs:

(a) A pupil has received an initial formal assessment. The team may meet when a pupil receives any subsequent formal assessment.

(b) The pupil demonstrates a lack of anticipated progress.

(c) The parent or teacher requests a meeting to develop, review, or revise the individualized education program; provided that such a request by a parent shall not be granted more than twice in any one semester.

(d) At least annually, to review the pupil's progress, the individualized education program, and the appropriateness of placement, and to make any necessary revisions. The individualized education program team conducting the annual review shall consist of those persons specified in subdivision (b) of Section 56341. Other individuals may participate in the annual review if they possess expertise or knowledge essential for the review.

56343.5. A meeting of an individualized education program team requested by a parent to review an individualized education program pursuant
to subdivision (c) of Section 56343 shall be held within 30 days, not counting days in July and August, from the date of receipt of the parent's written request. If a parent makes an oral request, the school district shall notify the parent of the need for a written request and the procedure for filing a written request.

56344. An individualized education program required as a result of an assessment of a pupil shall be developed within a total time not to exceed 50 days, not counting days between school sessions or terms days, from the date of receipt of the parent's written consent for assessment, unless the parent agrees, in writing, to an extension. However, such an individualized education program shall be developed within 30 days after the commencement of the subsequent regular school year as determined by each district's school calendar for each pupil for whom a referral has been made 20 days or less prior to the end of the regular school year.

56345. (a) The individualized education program is a written statement determined in a meeting of the individualized education program team and shall include, but not be limited to, all of the following:

1. The present levels of the pupil's educational performance.
2. The annual goals, including short-term instructional objectives.
3. The specific special educational instruction and related services required by the pupil.
4. The extent to which the pupil will be able to participate in regular educational programs.
5. The projected date for initiation and the anticipated duration of such programs and services.
6. Appropriate objective criteria, evaluation procedures, and schedules for determining, on at least an annual basis, whether the short-term instructional objectives are being achieved.

(b) When appropriate, the individualized education program shall also include, but not be limited to, all of the following:

1. Prevocational career education for pupils in kindergarten and grades 1 to 6, inclusive, or pupils of comparable chronological age.
2. Vocational education, career education or work experience education, or any combination thereof, in preparation for remunerative employment, including independent living skill training for pupils in grades 7 to 12, inclusive,
or comparable chronological age, who require differential proficiency standards pursuant to Section 51215.

(3) For pupils in grades 7 to 12, inclusive, any alternative means and modes necessary for the pupil to complete the district's prescribed course of study and to meet or exceed proficiency standards for graduation in accordance with Section 51215.

(4) For individuals whose primary language is other than English, linguistically appropriate goals, objectives, programs and services.

(5) Extended school year services when needed, as determined by the individualized education program team.

(6) Provision for the transition into the regular class program if the pupil is to be transferred from a special class or center, or nonpublic, nonsectarian school into a regular class in a public school for any part of the school day, including the following:
   (A) A description of activities provided to integrate the pupil into the regular education program. The description shall indicate the nature of each activity, and the time spent on the activity each day or week.
   (B) A description of the activities provided to support the transition of pupils from the special education program into the regular education program.

(7) For pupils with low incidence disabilities, specialized services, materials, and equipment, consistent with guidelines established pursuant to Section 56136.

(c) It is the intent of the Legislature in requiring individualized education programs that the district, special education local plan area, or county office is responsible for providing the services delineated in the individualized education program. However, the Legislature recognizes that some pupils may not meet or exceed the growth projected in the annual goals and objectives of the pupil's individualized education program.

(d) Pursuant to subdivision (d) of Section 51215, a pupil's individualized education program shall also include the determination of the individualized education program team as to whether differential proficiency standards shall be developed for the pupil. If differential proficiency standards are to be developed, the individualized education program shall include these standards.

56345.5. Except as prescribed in subdivision (b) of Section 56324, nothing in this part shall be construed to authorize districts, special education

local plan areas, or county offices to prescribe health care services.

56346. No pupil shall be required to participate in all or part of any special education program unless the parent is first informed, in writing, of the facts which make participation in the program necessary or desirable, and of the contents of the individualized education plan, and after such notice, consents, in writing, to all or part of the individualized education program. If the parent does not consent to all the components of the individualized education program, then those components of the program to which the parent has consented may be implemented so as not to delay providing instruction and services to the pupil. Components to which the parent has not consented may become the basis for a due process hearing pursuant to Chapter 5 (commencing with Section 56500). The parent may withdraw consent at any time after consultation with a member of the individualized education program team and after he or she has submitted written notification to an administrator.

56347. Each district, special education local plan area, or county office shall, prior to the placement of the individual with exceptional needs, ensure that the regular teacher or teachers, the special education teacher or teachers, and other persons who provide special education, related services, or both to the individual with exceptional needs shall be knowledgeable of the content of the individualized education program. A copy of each individualized education program shall be maintained at each school site where the pupil is enrolled. Service providers from other agencies who provide instruction or a related service to the individual off the school site shall be provided a copy of the individualized education program. All individualized education programs shall be maintained in accordance with state and federal pupil record confidentiality laws.

Article 4. Implementation

56360. Each district, special education local plan area, or county office shall ensure that a continuum of program options is available to meet the needs of individuals with exceptional needs for special education and related services.

56361. The continuum of program options shall include all of the following:
(a) A resource specialist program pursuant to Section 56362.
(b) Designated instruction and services pursuant to Section 56363.
(c) Special classes and centers pursuant to Section 56364.
(d) Nonpublic, nonsectarian school services pursuant to Section 56365.
(e) State special schools pursuant to Section 56367.

56361.2. All special education and related services for any individual with exceptional needs who is younger than three years of age shall be provided pursuant to Chapter 4.4 (commencing with Section 56425).

56361.5. (a) In addition to the continuum of program options listed in Section 56361, a district, special education local plan area, or county office may contract with a hospital to provide designated instruction and services, as defined in subdivision (b) of Section 56363, required by the individual with exceptional needs, as specified in the individualized education program. However, a district, special education local plan area, or county office of education may not contract with a sectarian hospital for instructional services. A district, special education local plan area, or county office shall contract with a hospital for designated instruction and services required by the individual with exceptional needs only when no appropriate public education program is available.

For the purposes of this section "hospital" means a health care facility licensed by the State Department of Health Services.

(b) Contracts with hospitals pursuant to subdivision (a) shall be subject to the procedures prescribed in Sections 56365, 56366, and 56366.5.

56362. (a) The resource specialist program shall provide, but not be limited to, all of the following:

(1) Provision for a resource specialist or specialists who shall provide instruction and services for those pupils whose needs have been identified in an individualized education program developed by the individualized education program team and who are assigned to regular classroom teachers for a majority of a school day.

(2) Provision of information and assistance to individuals with exceptional needs and their parents.

(3) Provision of consultation, resource information, and material regarding individuals with exceptional needs to their parents and to regular staff members.

(4) Coordination of special education services with the regular school programs for each individual with exceptional needs enrolled in the resource specialist program.
(5) Monitoring of pupil progress on a regular basis, participation in the review and revision of individualized education programs, as appropriate, and referral of pupils who do not demonstrate appropriate progress to the individualized education program team.

(6) Emphasis at the secondary school level on academic achievement, career and vocational development, and preparation for adult life.

(b) The resource specialist program shall be under the direction of a resource specialist who is a credentialed special education teacher, or who has a clinical services credential with a special class authorization, who has had three or more years of teaching experience, including both regular and special education teaching experience, as defined by rules and regulations of the Commission on Teacher Credentialing and who has demonstrated the competencies for a resource specialist, as established by the Commission on Teacher Credentialing.

(c) Caseloads for resource specialists shall be stated in the local policies developed pursuant to Section 56221 and in accordance with regulations established by the board. No resource specialist shall have a caseload which exceeds 28 pupils.

(d) Resource specialists shall not simultaneously be assigned to serve as resource specialists and to teach regular classes.

(e) Resource specialists shall not enroll a pupil for a majority of a schoolday without prior approval by the superintendent.

(f) At least eighty percent of the resource specialists within a local plan shall be provided with an instructional aide.

56362.1. For the purposes of Section 56362, "caseload" shall include, but not be limited to, all pupils for whom the resource specialist performs any of the services described in subdivision (a) of Section 56362.

56362.5. By July 1982, the Commission on Teacher Credentialing shall adopt rules and regulations for a resource specialist certificate of competence. The certificate shall provide all the following:

(a) Definition of the competencies required of a resource specialist.

(b) Provision for a system of direct application to the commission for a certificate of competence for each teacher who holds a valid special education credential, other than an emergency credential, and who satisfies any one of the following criteria:
(1) Provided instruction and services as specified in subdivision (a) of Section 80070.1 of Title 5 of the California Administrative Code as it read immediately prior to July 28, 1980, for two years prior to September 1, 1981.

(2) Provided instruction and services as specified in subdivision (b) of Section 80070.2 of Title 5 of the California Administrative Code as it read immediately prior to July 28, 1980, for two years prior to June 30, 1983.

(c) Provision for the issuance, for up to three years, of a preliminary nonrenewable certificate of competence for the resource specialist, and adoption of the standards for the issuance and continuing validity of such a certificate.

(d) Establishment of a system for verification of competencies through both of the following:

1. Commission on Teacher Credentialing approved institution of higher education resource specialist certificate program.
2. Commission on Teacher Credentialing approved competency assessment panels for resource specialist certification.

(e) Cooperation with the department in implementing these provisions.

Notwithstanding any other provision of law, any person who held a preliminary resource specialist certificate of competence on January 28, 1982, and who met the requirements for a clear resource specialist certificate of competence as specified in paragraph (d) of subdivision (b) may be issued a clear resource specialist certificate of competence upon submission of a completed application, but without any additional fee.

56362.7. (a) The Legislature recognizes the need for specially trained professionals to assess and serve pupils of limited-English proficiency. This is particularly true of pupils with exceptional needs or pupils with suspected handicaps.

(b) The commission shall develop a bilingual-crosscultural certificate of assessment competence for those professionals who may participate in assessments for placements in special education programs. The certificate shall be issued to holders of appropriate credentials, certificates, or authorizations who demonstrate, by written and oral examination, all of the following:

1. That the person is competent in both the oral and written skills of a language other than English.
2. That the person has both the knowledge and understanding of the cultural and historical
heritage of the limited-English-proficient individuals to be served.

(3) That the person has the ability to perform the assessment functions the candidate is certified or authorized to perform in English and in a language other than English.

(4) That the person has knowledge of the use of instruments and other assessment techniques appropriate to evaluate limited-English-proficient individuals with exceptional needs and ability to develop appropriate data, instructional strategies, individual educational plans, and evaluations.

(c) Certificates of bilingual-crosscultural competence for special education professionals who implement individual education plans requiring bilingual services shall be granted by the commission pursuant to Section 44253.7.

(d) It is not the intent of the Legislature in enacting this section that possession of any certificate established by this section be a state-mandated requirement for employment or continued employment. It is the intent that this is a matter for local educational agencies to determine.

56363. (a) Designated instruction and services as specified in the individualized education program shall be available when the instruction and services are necessary for the pupil to benefit educationally from his or her instructional program. The instruction and services shall be provided by the regular class teacher, the special class teacher, or the resource specialist if the teacher or specialist is competent to provide such instruction and services and if the provision of such instruction and services by the teacher or specialist is feasible. If not, the appropriate designated instruction and services specialist shall provide such instruction and services. Designated instruction and services shall meet standards adopted by the board.

(b) These services may include, but are not limited to, the following:

(1) Language and speech development and remediation.
(2) Audiological services.
(3) Orientation and mobility instruction.
(4) Instruction in the home or hospital.
(5) Adapted physical education.
(6) Physical and occupational therapy.
(7) Vision services.
(8) Specialized driver training instruction.
(9) Counseling and guidance.

(10) Psychological services other than assessment and development of the individualized education program.

(11) Parent counseling and training.

(12) Health and nursing services.

(13) Social worker services.

(14) Specially designed vocational education and career development.

(15) Recreation services.

(16) Specialized services for low-incidence disabilities, such as readers, transcribers, and vision and hearing services.

56363.3. The average caseload for language, speech, and hearing specialists in districts, county offices, or special education local plan areas shall not exceed 55 cases, unless the local comprehensive plan specifies a higher average caseload and the reasons for the greater average caseload.

56363.5. School districts, county offices of education, and special education local plan areas may seek, either directly or through the pupil's parents, reimbursement from insurance companies to cover the costs of related services to the extent permitted by federal law or regulation.

56364. Special classes and centers which enroll pupils with similar and more intensive educational needs shall be available. The classes and centers shall enroll the pupils when the nature or severity of the disability precludes their participation in the regular school program for a majority of a school day. Special classes and centers and other removal of individuals with exceptional needs from the regular education environment shall occur only when the nature or severity of the handicap is such that education in regular classes with the use of supplementary aids and services cannot be achieved satisfactorily.

In providing or arranging for the provision of nonacademic and extracurricular services and activities, including meals and recess periods, each public agency shall ensure that each individual with exceptional needs participates in those services and activities with nonhandicapped pupils to the maximum extent appropriate to the needs of the individual with exceptional needs. Special classes and centers shall meet standards adopted by the board.

56364.1. Notwithstanding the provisions of Section 56364, pupils with low incidence disabilities may receive all or a portion of their instruction in the regular classroom and may also...
be enrolled in special classes taught by appropriately credentialed teachers who serve these pupils at one or more school sites. The instruction shall be provided in a manner which is consistent with the guidelines adopted pursuant to Section 56136 and in accordance with the individualized education program.

56364.5. The Commission on Teacher Credentialing shall establish standards for the issuance of credentials or permits for persons employed in special centers pursuant to Section 56364.

56365. (a) Nonpublic, nonsectarian school services, including services by nonpublic, nonsectarian agencies shall be available. The services shall be provided under contract with the district, special education local plan area, or county office to provide the appropriate special educational facilities or services required by the individual with exceptional needs when no appropriate public education program is available.

(b) Pupils enrolled in nonpublic, nonsectarian schools under this section shall be deemed to be enrolled in public schools for all purposes of Chapter 4 (commencing with Section 41600) of Part 24 and Section 42238. The district, special education local plan area, or county office shall be eligible to receive allowances under Chapter 7 (commencing with Section 56700) for services that are provided to individuals with exceptional needs pursuant to the contract.

(c) The district, special education local plan area, or county office shall pay to the nonpublic, nonsectarian school the full amount of the tuition for individuals with exceptional needs that are enrolled in programs provided by the nonpublic, nonsectarian school pursuant to such contract.

(d) Before contracting with a nonpublic, nonsectarian school outside of the State of California, every effort shall be made by the district, special education local plan area, or county office to utilize public schools, or to locate an appropriate nonpublic, nonsectarian school program within the state.

56365.5. Before state funds can be used for new public and nonpublic school special education placements of individuals with exceptional needs, the superintendent shall review the appropriateness of the placement if the cost of the placement exceeds twenty thousand dollars ($20,000).

The district, special education local plan area, or county office shall submit documentation to the superintendent of all efforts made to locate an
appropriate alternative placement within the state and outside of the state.

The superintendent or his or her designee shall review the educational placement decision to determine if every effort was made by the district, special education local plan area, or county office to utilize an appropriate public or nonpublic, nonsectarian school costing less than twenty thousand dollars ($20,000).

The superintendent shall notify the district, special education local plan area, or county office of his or her findings within 10 days.

The twenty thousand dollars ($20,000) threshold shall be cumulatively increased by the annual percentage increase specified by Section 56123, or by the in-lieu percentage specified in the Budget Act.

Within five days following receipt of the superintendent's findings indicating availability of alternative placements, an individualized education program team meeting shall be convened to consider those findings.

If the superintendent fails to make findings within 10 days, the original placement decision of the individualized education program team shall be final.

The superintendent shall annually report the total costs incurred by districts, special education local plan areas, county offices, and the state resulting from placements made pursuant to this section.

56366. It is the intent of the Legislature that the role of the nonpublic, nonsectarian school shall be maintained and continued as an alternative special education service available to districts, special education local plan areas, and county offices, and parents.

(a) The contract for nonpublic, nonsectarian school services shall be developed in accordance with the following provisions:

(1) The contract shall specify the administrative and financial agreements between the nonpublic, nonsectarian school and the district, special education local plan area, or county office to provide the services included in the pupil's individualized education program. The contract may allow for partial or full-time attendance at the nonpublic, nonsectarian school.

(2) The contract shall be negotiated for the length of time for which nonpublic, nonsectarian school services are specified in the pupil's individualized education program.
Changes in educational instruction, services, or placement provided under contract may only be made on the basis of revisions to the pupil’s individualized education program.

At any time during the term of the contract the parent; nonpublic, nonsectarian school; or district, special education local plan area, or county office may request a review of the pupil’s individualized education program by the individualized education program team. Changes in the administrative or financial agreements of the contract that do not alter the educational instruction, services, or placement may be made at any time during the term of the contract as mutually agreed by the nonpublic, nonsectarian school and the district, special education local plan area, or county office.

(3) The contract may be terminated for cause. Such cause shall not be the availability of a public class initiated during the period of the contract unless the parent agrees to the transfer of the pupil to a public school program. To terminate the contract either party shall give 20 days’ notice.

(4) The nonpublic, nonsectarian school shall provide all services specified in the individualized education program, unless the nonpublic, nonsectarian school and the district, special education local plan area, or county office agree otherwise in the contract.

(b) (1) If the pupil is enrolled in the nonpublic, nonsectarian school with the approval of the district, special education local plan area, or county office prior to agreement to a contract, the district, special education local plan area, or county office shall issue a warrant, upon submission of an attendance report and claim, for an amount equal to the number of creditable days of attendance at the per diem rate agreed upon prior to the enrollment of the pupil. This provision shall be allowed for 90 days during which time the contract shall be consummated.

(2) If after 60 days the contract has not been finalized as prescribed in paragraph (1) of subdivision (a), either party may appeal to the county superintendent of schools, if the county superintendent is not participating in the local plan involved in the nonpublic, nonsectarian school contract, or the superintendent, if the county superintendent is participating in the local plan involved in the contract, to negotiate the contract. Within 30 days of receipt of this
appeal, the county superintendent or the superintendent, or his or her designee, shall mediate the formulation of a contract which shall be binding upon both parties.

(c) No contract for special education and related services provided by nonpublic, nonsectarian schools or licensed children's institutions shall be authorized under this part unless the school or institution has been certified as meeting those standards relating to the required special education services and facilities for individuals with exceptional needs. The certification shall result in the school's or institution's receiving approval to educate pupils under this part for a period no longer than five years from the date of such approval. The procedures, methods, and areas of certification shall be established by rules and regulations issued by the board. The school or institution shall be charged a reasonable sum for this certification. In addition to those standards adopted by the board, the school or institution shall meet all applicable standards relating to fire, health, sanitation, and building safety.

56366.1. A district, special education local plan area, county office, nonpublic, nonsectarian school, nonpublic, nonsectarian agency, or licensed children's institution may petition the superintendent to waive one or more of the requirements under Sections 56365 and 56366. The petition shall state the reasons for the request, and shall include sufficient documentation to demonstrate that the waiver is necessary or beneficial to the content and implementation of the pupil's individualized education program and that the waiver does not abrogate any right provided individuals with exceptional needs and their parents or guardians under state or federal law, and does not hinder the compliance of a district, special education local plan area, or county office with Public Law 94-142, as amended, Section 504 of Public Law 93-112, as amended, and federal regulations relating thereto.

56366.5. (a) Upon receipt of a request from a nonpublic, nonsectarian school for payment for services provided under a contract entered into pursuant to Sections 56365 and 56366, the district, special education local plan area, or county office shall either (1) send a warrant for the amount requested within 45 days, or (2) notify the nonpublic, nonsectarian school within 10 working
days of any reason why the requested payment shall not be paid.

(b) If the district, special education local plan area, or county office fails to comply with subdivision (a), the nonpublic, nonsectarian school may require the district, special education local plan area, or county office to pay an additional amount of 1-1/2 percent of the unpaid balance per month until full payment is made. The district, special education local plan area, or county office may not claim reimbursement from the state for such additional amount pursuant to any provision of law, including any provision contained in Chapter 3 (commencing with Section 2201) of Part 4 of Division 1 of the Revenue and Taxation Code.

56367. (a) Placements in state special schools pursuant to Sections 59020, 59120, and 59220 shall be made only as a result of recommendations from the individualized education program team, upon a finding that no appropriate placement is available in the local plan area.

(b) Notwithstanding the provisions of subdivision (a), referrals for further assessment and recommendations to the California Schools for the Deaf and Blind or the Diagnostic Schools for Neurologically Handicapped Children, pursuant to Section 56326, shall not constitute placements in state special schools.

56368. (a) A program specialist is a specialist who holds a valid special education credential, clinical services credential, health services credential, or a school psychologist authorization and has advanced training and related experience in the education of individuals with exceptional needs and a specialized in-depth knowledge in preschool handicapped, career vocational development, or one or more areas of major handicapping conditions.

(b) A program specialist may do all the following:

1. Observe, consult with, and assist resource specialists, designated instruction and services instructors, and special class teachers.
2. Plan programs, coordinate curricular resources, and evaluate effectiveness of programs for individuals with exceptional needs.
3. Participate in each school's staff development, program development, and innovation of special methods and approaches.
4. Coordinate, consultation and program development primarily in one specialized area or areas of his or her expertise.
(5) Be responsible for assuring that pupils have full educational opportunity regardless of the district of residence.

(c) For purposes of Section 41403, a program specialist shall be considered a pupil services employee, as defined in subdivision (c) of Section 41401.

56369. A district, special education local plan area, or county office, may contract with another public agency to provide special education or related services to an individual with exceptional needs.

Article 5. Review

56380. (a) The district, special education local plan area, or county office shall maintain procedures for conducting, on at least an annual basis, reviews of all individualized education programs. The procedures shall provide for the review of the pupil's progress and the appropriateness of placement, and the making of any necessary revisions. The notice may be part of the individualized education program.

(b) The district, special education local plan area, or county office shall notify, in writing, parents of their right to request a review by the individualized education program team. The notice shall provide for the review of the pupil's progress and the appropriateness of placement, and the making of any necessary revisions.

(c) Each individualized education program review shall be conducted in accordance with the notice and scheduling requirements for the initial assessment.

56381. A reassessment of the pupil, based upon procedures specified in Article 2 (commencing with Section 56320) shall be conducted at least every three years or more frequently, if conditions warrant, or if the pupil's parent or teacher requests a new assessment and a new individualized education program to be developed.

If the reassessment so indicates, a new individualized education program shall be developed.
CHAPTER 4.3. DEMONSTRATION PROGRAMS

Any special education local plan area may submit an application to the State Department of Education to operate a demonstration program for individuals with exceptional needs. Demonstration programs shall demonstrate creative methods of improving instruction, motivation, and achievement of individuals with exceptional needs by bringing together available resources, including, but not limited to, local districts, special education local plan areas, county offices, the State Department of Education, public agencies and private agencies. The total financial requirement of the demonstration program may not exceed the state entitlement which would otherwise be available.

The State Department of Education shall develop criteria for demonstration programs. The criteria shall be reviewed by the Advisory Commission on Special Education and approved by the State Board of Education. The special education local plan area shall include the criteria in its demonstration program application.

The goal of demonstration programs is to enhance instructional programs for individuals with exceptional needs. The program shall be under the direction of a qualified special education teacher, and the application to the state shall be reviewed by the special education local plan area community advisory committee and the bargaining unit for the certificated employees of the school district or county office that will conduct the demonstration program, and approved by the local board prior to submission. The State Department of Education may approve the initial application for a two-year period, and may renew the approval only if the department's evaluation of the demonstration program shows that there is evidence that the objectives of the program, as stated in the application are being achieved.
56425. As a condition of receiving state aid pursuant to this part, each district, special education local plan area, or county office that operated early education programs for individuals with exceptional needs younger than three years of age, as defined in Section 56026, and that received state or federal aid for special education for those programs in the 1980–81 fiscal year, shall continue to operate early education programs in the 1981–82 fiscal year and each fiscal year thereafter.

If a district or county office offered those programs in the 1980–81 fiscal year but in a subsequent year transfers the programs to another district or county office in the special education local plan area, the district or county shall be exempt from the provisions of this section in any year when the programs are offered by the district or county office to which they were transferred.

A district, special education local plan area, or county office that is required to offer a program pursuant to this section shall be eligible for funding pursuant to Chapter 7 (commencing with Section 56700) of Part 30.

56425.5. The Legislature hereby finds and declares that early education programs for infants identified as individuals with exceptional needs, which provide educational services with active parent involvement, can significantly reduce the potential impact of many handicapping conditions, and positively influence later development when the child reaches school age.

Early education programs funded pursuant to Sections 56427, 56428, and 56728.8 shall provide a continuum of program options provided by a transdisciplinary team to meet the multiple and varied needs of infants and their families. Recognizing the parent as the infant’s primary teacher, it is the Legislature’s intent that early education programs shall include opportunities for the family to receive home visits and to participate in family involvement activities pursuant to Sections 56426.1 and 56426.4. It is the intent of the Legislature that, as an infant grows older, program emphasis would shift from home-based services to a combination of home-based and group services.
It is further the intent of the Legislature that services rendered by state and local agencies serving infants with exceptional needs and their families be coordinated and maximized.

56426. An early education program shall include services specially designed to meet the unique needs of infants, from birth to three years of age, and their families. The primary purpose of an early education program is to enhance development of the infant. To meet this purpose, the program shall focus upon the infant and his or her family, and shall include home visits, group services, and family involvement activities. Early education programs funded pursuant to Sections 56427, 56428, and 56728.8 shall include, as program options, home-based services pursuant to Section 56426.1, and home-based and group services pursuant to Section 56426.2.

56426.1. (a) Home-based early education services funded pursuant to Sections 56427, 56428, and 56728.8 shall include, but not be limited to, all of the following:

1. Observing the infant's behavior and development in his or her natural environment.
2. Presenting activities that are developmentally appropriate for the infant and are specially designed, based on the infant's exceptional needs, to enhance the infant's development. Those activities shall be developed to conform with the infant's individualized education program and to ensure that they do not conflict with his or her medical needs.
3. Modeling and demonstrating developmentally appropriate activities for the infant to the parents, siblings, and other caregivers, as designated by the parent.
4. Interacting with the family members and other caregivers, as designated by the parent, to enhance and reinforce their development of skills necessary to promote the infant's development.
5. Discussing parental concerns related to the infant and the family, and supporting parents in coping with their infant's needs.
6. Assisting parents to solve problems, to seek other services in their community, and to coordinate the services provided by various agencies.

(b) The frequency of home-based services shall be once or twice a week, depending on the needs of the infant and the family.

56426.2. (a) Early education services funded pursuant to Sections 56427, 56428, and 56728.8
shall be provided both through home visits and group settings with other infants, with or without the parent. Home-based and group services shall include, but not be limited to, all of the following:

1. All services identified in subdivision (a) of Section 56426.1.

2. Group and individual activities that are developmentally appropriate and specially designed, based on the infant's exceptional needs, to enhance the infant's development. Those activities shall be developed to conform with the infant's individualized education program and to ensure that they do not conflict with his or her medical needs.

3. Opportunities for infants to socialize and participate in play and exploration activities.

4. Transdisciplinary services by therapists, psychologists, and other specialists as appropriate.

5. Access to various developmentally appropriate equipment and specialized materials.

6. Opportunities for family involvement activities, including parent education and parent support groups.

(b) Services provided in a center under this chapter shall not include child care or respite care.

(c) The frequency of group services shall not exceed three hours a day for up to, and including, three days a week, and shall be determined on the basis of the needs of the infant and the family.

(d) The frequency of home visits provided in conjunction with group services shall range from one to eight visits per month, depending on the needs of the infant and the family.

(e) Group services shall be provided on a ratio of no more than four infants to one adult.

(f) Parent participation in group services shall be encouraged.

56426.25. The maximum service levels set forth in Sections 56426.1 and 56426.2 apply only for purposes of the allocation of funds for early education programs pursuant to Sections 56427, 56428, and 56728.8, and may be exceeded by a district, special education local plan area, or county office, in accordance with the infants' individualized education programs, provided that no change in the level of entitlement to state funding under this part thereby results.

56426.3. In addition to home-based or home-based and group early education services, related services as defined in Section 300.13 of Title 34 - Maximum Service Levels - Related Services
of the Code of Federal Regulations, as that section read on April 1, 1986, shall be available to infants and their families. Related services may be provided in the home or at the center according to needs of the infant and the family.

56426.4. (a) Family involvement activities funded pursuant to Sections 56427, 56428, and 56728.8 shall support family members in meeting the practical and emotional issues and needs of raising their infant. These activities may include, but are not limited to, the following:

(1) Educational programs that present information or demonstrate techniques to assist the family to promote their infant's development.

(2) Parent education and training to assist families in understanding, planning for, and meeting the unique needs of their infant.

(3) Parent support groups to share similar experiences and possible solutions.

(4) Instruction in making toys and other materials appropriate to their infant's exceptional needs and development.

(b) The frequency of family involvement activities shall be at least once a month.

(c) Participation by families in family involvement activities shall be voluntary.

56426.5. If the individualized education program team determines home-based and group early education services to be appropriate, but the parent chooses not to receive home-based services, group services shall be made available to the infant. Similarly, the choice not to participate in family involvement activities shall not limit the availability to the infant and his or her family of home-based services or home-based and group services as determined appropriate by the individualized education program team.

56426.6. (a) Early education services shall be provided by the district, special education local plan area, or county office through a transdisciplinary team consisting of a group of professionals from various disciplines and parents who shall share their expertise and otherwise work together to provide these services for infants and their families. Each team member shall be responsible for providing and coordinating early education services for one or more infants and their families, and shall serve as a consultant to other team members and as a provider of appropriate related services to other infants in the program.

(b) Credentialed personnel with expertise in vision or hearing impairments shall be made available to the infant and his or her family in meeting their needs.
available by the district, special education local plan area, or county office to early education programs serving infants identified in accordance with subdivision (a), (b), or (d) of Section 3030 of Title 5 of the California Administrative Code, and shall be the primary providers of services under those programs whenever possible.

(c) Transdisciplinary teams may include, but need not be limited to, qualified persons from the following disciplines:
   (1) Early childhood special education.
   (2) Speech and language therapy.
   (3) Nursing, with a skill level not less than that of a registered nurse.
   (4) Social work, psychology, or mental health.

(d) School districts, special education local plan areas, and county offices may include, as part of the transdisciplinary team, occupational therapist and physical therapist consultants who provide professional consultation to early education program personnel. Those consultation services may include, but are not limited to, the following:
   (1) Positioning, feeding, and the neurological system and its impact on learning.
   (2) Adaptive equipment.
   (3) Possible limitations in movement, strength, and endurance.
   (4) Appropriate handling techniques.

This subdivision shall not be construed to permit occupational therapist and physical therapist consultants to provide direct therapy services to infants, except in accordance with the provisions of Chapter 26 (commencing with Section 7570) of Division 7 of Title 1 of the Government Code and regulations implementing that chapter.

(e) Any person who is authorized by the district, special education local plan area, or county office to provide early education or related services to infants shall have appropriate experience in normal and atypical infant development and an understanding of the unique needs of families of infants with exceptional needs, or, absent that experience and understanding, shall undergo a comprehensive training plan for that purpose, which plan shall be developed and implemented as part of the staff development component of the local plan for early education services.

56426.7. Medically necessary occupational therapy and physical therapy shall be provided to the infant when warranted by medical diagnosis and

contained in the individualized education program, as specified under Section 7575 of the Government Code.

56426.8. (a) Early education and related services shall be based on the needs of the infant and the family as determined by the individualized education program team, and shall be specified in the individualized education program, including the frequency and duration of each type of service. The provision of any early education or related service may be provided only upon written parental consent.

(b) The individualized education program for any infant shall be developed in consultation with the infant's physician in order to ensure that the services specified in the plan do not conflict with the infant's medical needs.

56426.9. Any infant who becomes three years of age while participating in an early education program under this chapter may continue in the program until June 30 of the current program year, if determined appropriate by the individualized education program team. No later than June 30 of that year, an individualized education program team shall meet to review the infant's progress, determine eligibility for preschool special education services, and develop the individualized education program accordingly. That individualized education program team meeting shall be conducted by the local educational agency responsible for the provision of preschool special education services. Representatives of the early education program shall be invited to that meeting.

56427. (a) Not less than two million three hundred twenty-four thousand dollars ($2,324,000) of the federal discretionary funds appropriated to the State Department of Education under Public Law 94-142 in any fiscal year shall be expended for early education programs for infants with exceptional needs and their families, until the department determines, and the Legislature concurs, that the funds are no longer needed for that purpose.

(b) Programs ineligible to receive funding pursuant to Section 56425 or 56728.8 may receive funding pursuant to subdivision (a).

56428. For the 1985-86 fiscal year, and each fiscal year thereafter, any instructional personnel service unit that was used in the prior fiscal year to provide services to children younger than three years of age shall continue to be used for that purpose. If a special education local plan area
becomes ineligible for all or any portion of those instructional personnel service units operated and fundable in the prior fiscal year, the Superintendent of Public Instruction shall allocate those units to another local plan area for the purpose of providing services to children younger than three years of age.

56429. In order to assure the maximum utilization and coordination of local early education services, eligibility for the receipt of funds pursuant to Section 56425, 56427, 56428, or 56728.8 is conditioned upon the approval by the Superintendent of Public Instruction of a local plan for early education services, which approval shall apply for not less than one, nor more than three, years. The local plan shall identify existing public and private early education services, and shall include an interagency plan for the delivery of early education services.

56430. (a) Early education services may be provided by any of the following methods:
   (1) Directly by a local educational agency.
   (2) Through an interagency agreement between a local educational agency and another public agency.
   (3) Through a contract with another public agency pursuant to Section 56369.
   (4) Through a contract with a certified nonpublic, nonsectarian school, or nonprofit agency pursuant to Section 56366.
   (5) Through a contract with a nonsectarian hospital in accordance with Section 56361.5.

(b) Contracts or agreements with agencies identified in subdivision (a) for early education services are strongly encouraged when early education services are currently provided by another agency, and when found to be cost-effective means of providing the services. The placement of individual infants under any such contract shall not require specific approval by the governing board of the district or the county office.

(c) Early education services provided under this chapter shall be funded pursuant to Sections 56427, 56428, and 56728.8. Early education programs shall not be funded pursuant to any of Sections 56740 to 56742, inclusive.

56431. The superintendent shall develop procedures and criteria to enable a district, special education local plan area, or county office to contract with private nonprofit preschools or child development centers to provide special education and related services to infant and preschool age individuals with exceptional needs. The criteria shall include minimum standards that the private, nonprofit preschool or center shall be required to meet.
CHAPTER 4.45. SPECIAL EDUCATION PROGRAMS FOR INDIVIDUALS WITH EXCEPTIONAL NEEDS BETWEEN THE AGES OF THREE AND FIVE YEARS, INCLUSIVE

56440. (a) Each special education local plan area shall submit a plan to the superintendent by September 1, 1987, for providing special education and services to individuals with exceptional needs, as defined by the State Board of Education, who are between the ages of three and five years, inclusive, who do not require intensive special education and services but who would be eligible for special education and services under Title II of the Education of the Handicapped Act Amendments of 1986, Public Law 99-457 (20 U.S.C. Secs. 1411, 1412, 1413, and 1419).

(b) The superintendent shall provide for a five-year phase-in of the individuals with exceptional needs qualifying for special education and services under Public Law 99-457, who do not require intensive special education and services, through an application process to be developed by the superintendent.

(c) All individuals with exceptional needs between the ages of three and five years, inclusive, identified in subdivision (a) shall be served by the districts and county offices within each special education local plan area by June 30, 1992, to the extent required under federal law and pursuant to the local plan and application approved by the superintendent.

(d) Individuals with exceptional needs between the ages of three and five years, inclusive, who are identified by the district, special education local plan area, or county office as requiring intensive special education and services, as defined by the State Board of Education, shall be eligible for special education and services pursuant to this part and shall not be subject to any phase-in plan.

(e) In special education local plan areas where individuals with exceptional needs between the ages of three and five, inclusive, who do not require intensive special education and services, are expected to have an increased demand on school facilities as a result of projected growth, pursuant to this chapter, the special education local plan area director shall submit a written report on the impacted local educational agencies to the State Allocation Board by December 1, 1987. The State Allocation Board shall assess the situation and explore ways of resolving the school facilities impaction situation.

*(Section 56440 Amended in 1990)
(f) The superintendent shall provide technical assistance to local educational agencies in order to help identify suitable alternative instructional settings to alleviate the school facilities impact situation. Alternative instructional settings may include, but are not limited to, state preschool programs, or the child's home. Nothing in this chapter shall cause the displacement of children currently enrolled in these settings.

(g) This chapter applies to all individuals with exceptional needs between the ages of three and five, inclusive.

56441. The Legislature hereby finds and declares that early education programs for individuals with exceptional needs between the ages of three and five years, inclusive, which provide special education and related services within the typical environment appropriate for young children, and include active parent involvement, may:

(a) Significantly reduce the potential impact of any handicapping conditions.

(b) Produce substantial gains in physical development, cognitive development, language and speech development, psychosocial development, and self-help skills development.

(c) Help prevent the development of secondary handicapping conditions.

(d) Reduce family stresses.

(e) Reduce societal dependency and institutionalization.

(f) Reduce the need for special class placement in special education programs once the children reach school age.

(g) Save substantial costs to society and our schools.

56441.1. (a) Services rendered by state and local agencies serving preschool children with exceptional needs and their families shall be provided in coordination with other state and local agencies. Educational agencies offering similar educational services shall coordinate and not duplicate these services. The Superintendent of Public Instruction shall identify similar services by other state and local agencies. Any child identified as currently being served and qualified as an individual with exceptional needs as defined in Section 56026, and who meets the eligibility criteria of Section 56441.11 shall be counted as an individual under the funding cap prescribed by Section 56447.

(b) As the preschool child approaches the age to enter an elementary school environment, the child's
preparation shall be geared toward a readiness for kindergarten and later school success.

56441.2. An early education program for individuals with exceptional needs between the ages of three and five, inclusive, shall include specially designed services to meet the unique needs of preschool children and their families. To meet this purpose, the program focus is on the young child and his or her family and shall include both individual and small group services which shall be available in a variety of typical age-appropriate environments for young children, including the home, and shall include opportunities for active parent involvement.

1. Observing and monitoring the child's behavior and development in his or her environment.
2. Presenting activities that are developmentally appropriate for the preschool child and are specially designed, based on the child's exceptional needs, to enhance the child's development. Those activities shall be developed to conform with the child's individualized education program and shall be developed so that they do not conflict with his or her medical needs.
3. Interacting and consulting with the family members, regular preschool teachers, and other service providers, as needed, to demonstrate developmentally appropriate activities necessary to implement the child's individualized education program in the appropriate setting pursuant to Section 56441.4 and necessary to reinforce the expansion of his or her skills in order to promote the child's educational development. These interactions and consultations may include family involvement activities.
4. Assisting parents to seek and coordinate other services in their community that may be provided to their child by various agencies.
5. Providing opportunities for young children to participate in play and exploration activities, to develop self-esteem, and to develop preacademic skills.
6. Providing access to various developmentally appropriate equipment and specialized materials.
7. Providing related services as defined in Section 300.13 of Title 34 of the Code of Federal Regulations, that include parent counseling and training to help parents understand the special needs of their children and their children's development, as that section read on May 1, 1987.
(b) The duration of group services shall not exceed four hours per day unless determined otherwise by the individualized education program team.

56441.4. Appropriate settings for these services include:
(a) The regular public or private nonsectarian preschool program.
(b) The child development center or family day care home.
(c) The child's regular environment, which may include the home.
(d) A special site where preschool programs for both handicapped and nonhandicapped children are located close to each other and have an opportunity to share resources and programming.
(e) A special education preschool program with nonhandicapped children attending and participating for all or part of the program.
(f) A public school setting which provides an age-appropriate environment, materials, and services, as defined by the superintendent.

56441.5. Appropriate instructional adult-to-child ratios for group services shall be dependent on the needs of individuals with exceptional needs between the ages of three and five years, inclusive, who require special education and related services, the number of children per instructional adult shall be less than ratios set forth in subdivision (b) of Section 18204 of Title 5 of the California Administrative Code as it read on May 1, 1987, for young children in a regular preschool program. Group services provided to individuals with exceptional needs between the ages of three and five years, inclusive, identified as severely handicapped pursuant to Section 56030.5 shall not exceed an instructional adult-to-child ratio of one to five.

56441.6. Early education services for preschool children shall be provided through a transdisciplinary team approach of professionals as described in Section 56426.6. Responsibilities of early education program staff shall include consultation with regular preschool program providers, consultation with other specialists, assessment services, and direct services.

56441.7. (a) The maximum caseload for a speech and language specialist providing services exclusively to individuals with exceptional needs, between the ages of three and five years, inclusive, as defined in Section 5641.11 or 56026, shall not exceed a count of 40.
(b) The superintendent shall issue caseload guidelines or proposed regulations to local educational agencies for individuals with
exceptional needs between the ages of three and five years, inclusive, by January 1, 1988.

56441.8. Early education services for preschoolers may be provided by any of the following methods:
(a) Directly by a local educational agency.
(b) Through an interagency agreement between a local educational agency and another public agency.
(c) Through a contract with another public agency pursuant to Section 56369.
(d) Through a contract with a certified nonpublic, nonsectarian school; or nonpublic, nonprofit agency pursuant to Section 56366.
(e) Through a contract with a nonsectarian hospital in accordance with Section 56361.5.

56441.9. Contracts or agreements with agencies identified in Section 56441.8 are strongly encouraged when these services are currently provided by another agency, and when found to be a cost-effective means of providing the services. The placement of an individual preschool child under any of these contracts shall not require specific approval by the governing board of the school district or the county superintendent of schools.

56441.10. Early education services provided under this chapter for preschoolers identified as individuals with exceptional needs pursuant to subdivisions (a) to (e), inclusive, of Section 56441.11 shall not be funded pursuant to any of Sections 56740 to 56743, inclusive, unless a waiver of this section is approved by the superintendent.

56441.11. Individuals with exceptional needs between the ages of three and five years, inclusive, shall meet the requirements of Section 56026 or shall satisfy all of the following:
(a) They shall be identified by an individualized education program team as a handicapped child as that term was defined in subsection (l) of Section 1401 of Title 20 of the United States Code as it read July 1, 1980.
(b) Their impairment, as described by subdivision (a) requires instruction or services, or both, which cannot be provided with modification of a regular preschool program or of a child's home environment, or both.
(c) They shall fall within one of the following:
   (I) They meet eligibility criteria set forth in subdivisions (a) and (b), paragraphs (2) and (3) of subdivision (c), and subdivisions (d) to (i), inclusive, of Section 3030 of Title 5 of the California Administrative Code as it read on May 1, 1987.
(2) They have a disorder in one or more basic psychological processes involved in understanding or using language as defined in paragraph (1) of subdivision (j) of Section 3030 of Title 5 of the California Administrative Code as it read on May 1, 1987, which may manifest itself in an impaired ability to listen, think, speak, or develop preacademic skills. They have a discrepancy of at least 25 percent between their cognitive development and their development in one or more of the following areas: gross or fine motor, receptive language, expressive language, and school readiness. School readiness includes those skills that lead to the ability to read, write, spell, do mathematical calculations, and understand or use spoken language. The decision as to whether or not a discrepancy exists shall be made by the individualized education program team.

(3) They have an articulation disorder displaying reduced intelligibility or an inability to use the speech mechanism that significantly interferes with communication and attracts adverse attention. Significant interference occurs when the child's developmental scale of articulation competency is six months or more below that expected for his or her chronological age or developmental level.

(4) They have a language disorder that results in a significant delay in their language development. A significant delay occurs when one area of the child's language development is at least 25 percent below his or her chronological age or developmental level. Areas of language development include receptive and expressive language in the areas of phonology, morphology, syntax, semantics, and pragmatics.

(d) Unless handicapped within the meaning of subdivisions (a) to (c), inclusive, children whose educational needs are due primarily to unfamiliarity with the English language; temporary physical disabilities; social maladjustment; or maturational, environmental, cultural, or economic factors are not individuals with exceptional needs.

(e) When standardized tests are considered invalid for children ages three and five years, inclusive, alternative means, such as scales, instruments, observations, and interviews shall be used as specified in the assessment plan.

56441.12. By June 30, 1989, the superintendent shall evaluate the effectiveness of Section 56441.11 for identification of preschool children...
with exceptional needs and recommend legislative changes as needed.

56441.13. The superintendent shall provide training and technical assistance for the implementation of early education programs for preschool children with exceptional needs, and shall develop:

(a) Methods and models for modifications to the regular program prior to referral.
(b) Guidelines for program providers.
(c) Curriculum and content for programs.
(d) Personnel standards for program providers.
(e) A plan to meet the unique needs of preschool children who require special education services and who are limited-English proficient and of diverse cultural backgrounds.

56441.14. Criteria and options for meeting the special education transportation needs of individuals with exceptional needs between the ages of three and five, inclusive, shall be included in the local transportation policy required pursuant to paragraph (5) of subdivision (b) of Section 56221.

56442. The superintendent shall ensure that state preschool programs and programs for individuals with exceptional needs between the ages of three and five years, inclusive, provided pursuant to this part, are coordinated at the state and local levels.

56443. (a) The State Department of Education shall amend its interagency agreement with the Administration for Children, Youth, and Families, Region IX, Head Start, United States Department of Health and Human Services, to permit a district, special education local plan area, or county office to contract with a Head Start program for special education and services for individuals with exceptional needs between the ages of three and five years pursuant to this part.

(b) Apportionments allocated to Head Start programs for special education and services to individuals with exceptional needs between the ages of three and five years shall supplement and not supplant funds for which the Head Start programs are eligible, or are already receiving, from other funding sources.

56444. As part of the annual evaluation of special education programs pursuant to Section 56602, the superintendent shall conduct an evaluation of the effectiveness of the expanded preschool programs for individuals with exceptional needs between the ages of three and five years.
inclusive, who do not require intensive special education and services. The evaluation shall be conducted over a five-year period, from the 1987-88 school year through the 1991-92 school year. The evaluation shall contain, but not be limited to, data on numbers and types of pupils who do not enter special education programs at kindergarten, or first grade as the case may be, but who received special education and services pursuant to this part, in a preschool program.

56445. (a) Prior to transitioning an individual with exceptional needs from a preschool program to kindergarten, or first grade as the case may be, an appropriate reassessment of the individual shall be conducted pursuant to Article 2 (commencing with Section 56320) of Chapter 4 to determine if the individual is still in need of special education and services.

(b) It is the intent of the Legislature that gains made in the special education program for individuals who received special education and services, in accordance with this chapter, are not lost by too rapid a removal of individualized programs and supports for these individuals.

(c) As part of the transitioning process, a means of monitoring continued success of the child shall be identified by the individualized education program team for those children of kindergarten or first grade equivalency who are determined to be eligible for less intensive special education programs.

(d) As part of the exit process from special education, the present performance levels and learning style shall be noted by the individualized education program team. This information shall be made available to the assigned regular education teacher upon the child's enrollment in kindergarten or first grade as the case may be.

56446. (a) The superintendent shall develop a funding formula for the distribution of federal funds under Title II of the Education of the Handicapped Act Amendments of 1986, Public Law 99-457 (20 U.S.C. Secs. 1411, 1412, 1413, and 1419) to local providers. The funding formula shall be developed in consultation with the Legislative Analyst and the Director of Finance. The funding formula shall include a provision to address planning and development, program startup costs, including assessments and equipment, staff development, rental or leasing of facilities, and transportation. The funding formula shall also allow federal incentive funds generated under Title
II of Public Law 99-457 to be carried over by the local educational agencies from year to year during the phase-in fiscal years of 1987-88 to 1990-91, inclusive. Any carry over funds shall be reported to the superintendent. The federal incentive funds for this program received for individuals with exceptional needs between the ages of three and five years, inclusive, who are not identified as having intensive needs, shall not be included for purposes of subdivision (a) of Section 56712, including additional funds received for these children under Public Law 94-142 (20 U.S.C. Secs. 1232, 1401, 1405, 1406, 1411-1420, incl., and 1453). These individuals shall not be included in the enrollment counts or computations prescribed by Section 56728.6.

(b) The superintendent shall report to the Joint Legislative Budget Committee and the Department of Finance annually on or before October 15 on the implementation of Title II of the Education of the Handicapped Act Amendments of 1986, Public Law 99-457 (20 U.S.C. Secs. 1411, 1412, 1413 and 1419). The report shall include, but not be limited to, the status of the phase-in plan, number of children being served, projected number of children to be served in the next school year, and anticipated federal funding for the next school year. This subdivision shall remain operative only until January 1, 1992, unless a later enacted statute, which is chaptered on or before January 1, 1992, deletes or extends that date.

(c) Public special education funding shall not be used to purchase regular preschool services or to purchase any instructional service other than special education and services permitted by this chapter.

56447. (a) The superintendent shall adopt rules and regulations to ensure that apportionments, inclusive of federal funds, for all individuals with exceptional needs between the ages of three and five years, inclusive, shall be paid to the extent permitted by federal law for no more than 3 percent of the statewide population of all children between the ages of three and five years, inclusive, as determined in the demographics prepared by the Department of Finance in the 1990-91 fiscal year.

(b) Individuals with exceptional needs served under this chapter shall not be subject to subdivision (a) of Section 56760. However, individuals with intensive needs and appropriate instructional personnel service units required to
provide educational services to individuals with exceptional needs shall be included in the computations prescribed in Section 56728.6.

56447.1. (a) Nothing in this chapter shall be construed to limit the responsibility of noneducational public agencies in the State of California from providing or paying for some or all of the costs of a free appropriate public education for individuals with exceptional needs between the ages of three and five years, inclusive.

(b) Nothing in this chapter shall be construed to permit a noneducational public agency to reduce medical and other assistance available or to alter eligibility under Titles V and XIX of the Social Security Act (Subchapter V (commencing with Section 701) and Subchapter XIX (commencing with Section 1396) of Chapter 7 of Title 42 of the United States Code) with respect to the provision of a free appropriate public education for individuals with exceptional needs between the ages of three and five years, inclusive, within the State of California.

56448. If the amount of funding provided by the federal government pursuant to Title II of the Education of the Handicapped Act Amendments of 1986, Public Law 99-457 (20 U.S.C. Secs. 1411, 1412, 1413, and 1419) for the 1990-91 fiscal year, or any fiscal year thereafter, is not sufficient to fund the full costs of the programs and services required pursuant to this chapter, for pupils identified pursuant to subdivision (g) of Section 56440, except for those pupils identified pursuant to paragraph (2) of subdivision (c) of Section 56026, as it read on January 8, 1987, and that lack of federal funding would require any contribution from the General Fund or any contribution from a local educational agency in order to fund those costs, California shall terminate its participation in that program. The voluntary contribution by a local educational agency of funding for any of the programs or services required pursuant to this chapter shall not constitute grounds for terminating California's participation in that federal program. It is the intent of the Legislature that if the program terminates, the termination shall be carried out in an orderly manner with timely notification of parents and certificated personnel, as prescribed by statute.

56449. This chapter shall remain in effect only until California terminates its participation in special education programs for individuals with exceptional needs between the ages of three and five years, pursuant to Section 56448, and as of that date is repealed.

Article 1. Career and Vocational Education Programs

56452. The superintendent shall ensure that the state annually secures all federal funds available for career and vocational education of individuals with exceptional needs.

56453. The superintendent and the Department of Rehabilitation shall enter into an interagency agreement to ensure that the state annually secures all federal funds available under the Rehabilitation Act of 1973, as amended, and that coordination in applying for, distributing, and using funds available under the Vocational Education Act, as amended, the Rehabilitation Act of 1973, as amended, and the Education For All Handicapped Children Act of 1975, (P.L. 94-142), as amended, including, but not limited to, application for, and use thereof, be provided.

56454. In order to provide districts, special education local plan areas, and county offices with maximum flexibility to secure and utilize all federal funds available to enable those entities to meet the career and vocational needs of individuals with exceptional needs more effectively and efficiently, and to provide maximum federal fund-ag to those agencies for the provision of that education, the superintendent shall do all the following:

(a) Provide necessary technical assistance to districts, special education local plan areas, and county offices.

(b) Establish procedures for these entities to obtain available federal funds.

(c) Apply for necessary waivers of federal statutes and regulations including, but not limited to, those governing federal career and vocational education programs.

56456. It is the intent of the Legislature that districts, special education local plan areas, and county offices may use any state or local special education funds for approved vocational programs, services, and activities to satisfy the excess cost matching requirements for receipt of federal vocational education funds for individuals with exceptional needs.
Article 2. Transition Services

56460. The Legislature finds and declares all of the following:

(a) That while the passage of the Education for All Handicapped Children Act of 1975 (Public Law 94-142) and the California Master Plan for Special Education have resulted in improved educational services for individuals with exceptional needs; this has not translated into paid employment opportunities or maximum integration into our heterogeneous communities for individuals with exceptional needs.

(b) That there is no formalized process that bridges the gap between the security and structure of school and the complexity of service options and resources available for individuals with exceptional needs in the adult community.

(c) That there is insufficient coordination between educators, adult service providers, potential employers, and families and students in order to effectively plan and implement a successful transition for students to the adult world of paid employment and social independence.

(d) That because of insufficient vocational training throughout the middle and secondary school years, and effective interagency coordination and involvement of potential employers in a planning process, the majority of options available for individuals with exceptional needs in the adult community are programs that support dependence rather than independence.

(e) The goal of transition services is planned movement from secondary education to adult life that provides opportunities which maximize economic and social independence in the least restrictive environment for individuals with exceptional needs. Planning for transition from school to postsecondary environments should begin in the school system well before the student leaves the system.

56461. The superintendent shall establish the capacity to provide transition services for a broad range of individuals with exceptional needs such as employment and academic training, strategic planning, interagency coordination, and parent training.

56462. The transition services shall include, but not be limited to, the following:

(a) In-service training programs, resource...
materials, and handbooks that identify the following:

1. The definition of "transition," including the major components of an effective school-based transition program.
2. Relevant laws and regulations.
3. The roles of other agencies in the transition process including, but not limited to, the scope of their services, eligibility criteria, and funding.
4. The components of effective transition planning.
5. The role of families in the individualized transition process.
6. Resources and model programs currently available in California.
7. Development of the role and responsibilities of special education in the transition process, including the following:
   1. The provision of work skills training, including those skills that are necessary in order to exhibit competence on the job.
   2. The provision of multiple employment options and facilitating job or career choice by providing a variety of vocational experiences.
   3. The collection and analysis of data on what happens to students once they leave the school system and enter the adult world.
   4. The coordination of the transition planning process, including development of necessary interagency agreements and procedures at both state and local levels.
5. The provision of instructional learning strategies that will assist students who find learning difficult in acquiring skills that will enable them to obtain diplomas, promote a positive attitude toward secondary and postsecondary education and training, and make a successful transition to postsecondary life.
6. The development and implementation of systematic and longitudinal vocational education curriculum including the following:
   1. Instructional strategies that will prepare students with severe disabilities to make a successful transition to supported employment and the community.
   2. The introduction of vocational and career education curriculum in the elementary grades for those students who can benefit from it.
7. Materials, resource manuals, and in-service training programs to support the active participation of families in the planning and - Role of Special Education in Transition Process
- Systematic and Longitudinal Vocational Education Curriculum
- Support Active Participation of Families
implementation of transition-related goals and activities.
(e) The development of resources and in-service training that will support the implementation of individualized transition planning for all students with exceptional needs.
(f) The development of a network of model demonstration sites that illustrate a wide variety of transition models and implementation strategies.
(g) Coordination with other specialized programs that serve students who face barriers to successful transition.
(h) A research, evaluation, and dissemination program that will support the major programmatic aspects of transition services. Through a variety of competitive grants, bids, contracts, and other awards specific content areas will be developed in cooperation with a variety of field-based agencies, including local education agencies, special education local plan areas, county offices, institutions of higher education, and in-service training agencies.
(i) The superintendent shall annually report to the education and fiscal policy committees of the Legislature on the implementation and effectiveness of transition services.
56463. Transition services shall be funded pursuant to the Budget Act.

Article 3. Project Workability

56470. The Legislature finds and declares all of the following:
(a) That an essential component of transition services developed and supported by the State Department of Education is project workability.
(b) That the workability program provides instruction and experiences that reinforce core curriculum concepts and skills leading to gainful employment.
(c) That since project workability was established by the State Department of Education in 1981, substantial numbers of individuals with exceptional needs have obtained full- or part-time employment.
(d) That project workability is a true partnership established at the state level through nonfinancial interagency agreements between the State Department of Education, the Department of Employment Development, and the Department of Rehabilitation, and has elevated awareness in the private sector of the employment potential of...
individuals with exceptional needs, and focuses its efforts in developing careers for these youth, and preventing needless economic and social dependency on state and community agencies and resources.

(e) That local education agencies in California establish linkage between agencies, eliminate duplication of effort, and develop precedent-setting employment training practices which should be preserved and advanced to better assure future productive employable citizens.

56471. (a) The program shall be administered by the State Department of Education.

(b) The department shall establish an advisory committee. This committee will include representatives from local workability projects to ensure ongoing communications.

(c) The superintendent shall develop criteria for awarding grants, funding, and evaluating workability projects.

(d) Workability project applications shall include, but are not limited to, the following elements: (1) recruitment, (2) assessment, (3) counseling, (4) preemployment skills training, (5) vocational training, (6) student wages for try-out employment, (7) placement in unsubsidized employment, (8) other assistance with transition to a quality adult life, and (9) utilization of an interdisciplinary advisory committee to enhance project goals.

56472. The population served by workability projects may include secondary students with disabilities, adults with disabilities and other individuals who experience barriers to successful completion of school.

56473. Project workability shall be funded pursuant to Item 6100-161-001 and Item 6100-161-890 of the Budget Act.

56474. The superintendent shall continue to seek additional state and federal funding for project workability.

CHAPTER 47. INTERAGENCY AGREEMENTS

56475. (a) The superintendent and the directors of the State Department of Health Services, the State Department of Mental Health, the State Department of Developmental Services, the State Department of Social Services, the Department of Rehabilitation, the Department of the Youth Authority, and the Employment Development Department shall develop written interagency agreements.
agreements which include fiscal responsibilities for the provision of special education and related services to individuals with exceptional needs in the State of California.

(b) The superintendent shall develop interagency agreements with other state and local public agencies, as deemed necessary by the superintendent, to carry out the provisions of state and federal law.

(c) (1) Each interagency agreement shall be submitted by the superintendent to each legislative fiscal committee, education committee, and policy committee, responsible for legislation relating to those individuals with exceptional needs that will be affected by the agreement if it is effective.

(2) An interagency agreement shall not be effective sooner than 30 days after it has been submitted to each of the legislative committees specified in paragraph (1).

CHAPTER 5. PROCEDURAL SAFEGUARDS

56500. As used in this chapter, "public education agency" means a district, special education local plan area, or county office, depending on the category of local plan elected by the governing board of a school district pursuant to Section 56170, or any other public agency providing special education or related services.

56500.1. All procedural safeguards of Public Law 94-142, the Education for All Handicapped Children Act of 1975, shall be established and maintained by each noneducational and educational agency that provides education, related services, or both, to children who are individuals with exceptional needs.

56500.2. An expeditious and effective process shall be implemented for the resolution of complaints regarding any alleged violations of the provisions of the Education for All Handicapped Children Act of 1975.

56501. (a) The due process hearing procedures prescribed by this chapter extend to the pupil, the parent, and the public education agency involved in any decisions regarding a child under any of the following circumstances, and the pupil, the parent, and the public education agency involved may initiate the due process hearing procedures prescribed by this chapter under any of the following circumstances:
There is a proposal to initiate or change the identification, assessment, or educational placement of the child or the provision of a free, appropriate public education to the child.

There is a refusal to initiate or change the identification, assessment, or educational placement of the child or the provision of a free, appropriate public education to the child.

The parent refuses to consent to an assessment of the child.

The due process hearing rights prescribed by this chapter include, but are not limited to, all the following:

1. The right to a mediation conference pursuant to Sections 56502 and 56503.
2. The right to examine pupil records pursuant to Section 56504. This provision shall not be construed to abrogate the rights prescribed by Chapter 6.5 (commencing with Section 49060) of Part 27.
3. The right to a fair and impartial administrative hearing at the state level, before a person knowledgeable in the laws governing special education and administrative hearings, under contract with the department, pursuant to Section 56505.

In addition to the rights prescribed by subdivision (b), the parent has the following rights:

1. The right to have the pupil who is the subject of the state hearing present at the hearing.
2. The right to open the state hearing to the public.

56502. (a) All requests for a due process hearing shall be filed with the superintendent. The party initiating a due process hearing by filing a written request with the superintendent shall provide the other party to the hearing with a copy of the request at the same time as the request is filed with the superintendent. Within three days following receipt by the public education agency of a copy of such request, the public education agency shall advise the parent of free or low-cost legal services and other relevant services available within the geographical area. The superintendent shall take steps to ensure that within 45 days after receipt of the written hearing request the hearing is immediately commenced and completed, including, any mediation conducted pursuant to Section 56503, and a final administrative decision is rendered, unless a
continuance has been granted pursuant to Section 56503 or 56505.

(b) Notwithstanding any procedure set forth in this chapter, a public education agency and a parent may, if the party initiating the hearing so chooses, meet informally to resolve any issue or issues relating to the identification, assessment, or education and placement of the child, or the provision of a free, appropriate public education to the child, to the satisfaction of both parties prior to the mediation conference. The informal meeting shall be conducted by the district superintendent, county superintendent, or director of the public education agency or his or her designee. Any designee appointed pursuant to this subdivision shall have the authority to resolve the issue or issues.

(c) Upon receipt by the superintendent of a written request by the parent or public education agency, the superintendent or his or her designee or designees shall immediately notify, in writing, both parties of the request for the hearing and the proposed date for the mediation conference. The notice shall advise both parties of all their rights relating to procedural safeguards, including the right to waive the mediation conference. The superintendent shall inform the public education agency of its responsibility to advise the parent of free or low-cost legal services and other relevant services available within the geographical area.

56503. (a) It is the intent of the Legislature that the mediation conference be an intervening, informal process conducted in a nonadversarial atmosphere.

(b) The mediation conference shall be conducted prior to holding the administrative due process hearing pursuant to Section 56505, unless either party waives the mediation conference. The conference shall be completed within 15 days of receipt by the superintendent of the request for the hearing. Either party to the mediation conference may request the superintendent or his or her designee to grant a continuance. Such a continuance may be granted upon a showing of good cause. Any continuance shall not extend the 45-day maximum for completion of the due process hearing and rendering of the final administrative decision, unless the party initiating the request for the hearing is agreeable to such an extension. Such continuance shall extend the time for rendering a decision.

- Informal Meeting to Resolve Issues
- Notification of Both Parties
- Low-Cost Legal Services
- Mediation Conference to Be Nonadversarial
- Fifteen Days to Complete Conference
- Continuance
final administrative decision for a period only equal to the length of the continuance.

(c) The parent shall have the right, pursuant to Section 56504, to examine and receive copies of any documents contained in the child's file, maintained by the public education agency, prior to the date set for the mediation conference. The parent may be accompanied by a representative or representatives that he or she has chosen.

(d) Based upon the mediation conference, the district superintendent, the county superintendent, or the director of the public education agency, or his or her designee, may resolve the issue or issues. However, such resolution shall not conflict with state or federal law and shall be to the satisfaction of both parties. A copy of the written resolution shall be mailed to each party within 10 days following the mediation conference. A copy shall also be filed with the Advisory Commission on Special Education.

(e) If the mediation conference fails to resolve the issues to the satisfaction of both parties, a state-level hearing pursuant to Section 56505 shall be held.

(f) If the mediation conference fails to resolve the issues to the satisfaction of both parties, the mediator shall list any unresolved issues. A list of unresolved issues shall be reviewed and approved by the party initiating the hearing. These unresolved issues shall be the basis for the state-level hearing, prescribed by Section 56505.

(g) The mediation conference shall be conducted in accordance with regulations adopted by the board and shall be conducted by a mediator knowledgeable in the laws governing special education under contract with the department.

(h) Any mediation conference held pursuant to this section shall be held at a time and place reasonably convenient to the parent and pupil.

(i) Notwithstanding the intent of the Legislature that the mediation conference be informal and nonadversarial, if the public education agency uses an attorney as its representative during any part of the conference, such use shall be governed by Section 56507.

56504. The parent shall have the right and opportunity to examine all school records of the child and to receive copies pursuant to this section and to Section 49065 within five days after such request is made by the parent, either orally or in writing. A public educational agency may charge no more than the actual cost of reproducing
such records, but if this cost effectively prevents
the parent from exercising the right to receive
such copy or copies the copy or copies shall be
reproduced at no cost.

56505. (a) The state hearing shall be conducted
in accordance with regulations adopted by the
board. The hearing shall be conducted by a person
knowledgeable in administrative hearings under
contract with the department.

(b) The hearing shall be held at a time and
place reasonably convenient to the parent and the
pupil.

(c) The hearing shall be conducted by a person
knowledgeable in the laws governing special
education and administrative hearings under
contract with the department.

(d) During the pendency of the hearing
proceedings, including the actual state-level
hearing, the pupil shall remain in his or her
present placement unless the public agency and the
parent agree otherwise.

(e) Any party to the hearing held pursuant to
this section shall be afforded the following rights
consistent with state and federal statutes and
regulations:

(1) The right to be accompanied and advised by
counsel and by individuals with special knowledge
or training relating to the problems of handicapped
children.

(2) The right to present evidence, written
arguments, and oral arguments.

(3) The right to confront, cross-examine, and
compel the attendance of witnesses.

(4) The right to a written or electronic
verbatim record of the hearing.

(5) The right to written findings of fact and
the decision.

(6) The right to prohibit the introduction of
any evidence at the hearing that has not been
disclosed to the party at least five days before
the hearing.

(f) The use of an attorney as a representative
of the public education agency during any part of
the hearing shall be governed by Section 56507.

(g) The hearing conducted pursuant to this
section shall be completed and a written, reasoned
decision mailed to all parties to the hearing
within 45 days from the receipt by the
superintendent of the request for a hearing.
Either party to the hearing may request the
superintendent or his or her designee to grant a
continuance. The continuance shall be granted upon
a showing of good cause. Any continuance shall extend the time for rendering a final administrative decision for a period only equal to the length of the continuance.

(h) The hearing conducted pursuant to this section shall be the final administrative determination and binding on all parties.

(i) In decisions relating to the placement of individuals with exceptional needs, the person conducting the state hearing shall consider cost, in addition to all other factors that are considered.

(j) Nothing in this chapter shall preclude a party from exercising the right to appeal the decision to a court of competent jurisdiction. Any appeal to court by a public education agency or parent shall not operate as an automatic stay of enforcement of the final administrative determination. However, nothing in this section shall be construed to preclude either party to the hearing from seeking a stay of enforcement from any court of competent jurisdiction, and nothing in this section shall be construed to remove the requirement for parental consent for placement pursuant to subdivision (f) of Section 56506.

56506. In addition to the due process hearing rights enumerated in subdivision (b) of 56501, the following due process rights extend to the pupil and the parent:

(a) Written notice to the parent of his or her rights in language easily understood by the general public and in the primary language of the parent or other mode of communication used by the parent, unless to do so is clearly not feasible. The written notice of rights shall include, but not be limited to, those prescribed by Section 56341.

(b) The right to initiate a referral of a child for special education services pursuant to Section 56303.

(c) The right to obtain an independent educational assessment pursuant to subdivision (b) of Section 56329.

(d) The right to participate in the development of the individualized education program and to be informed of the availability under state and federal law of free appropriate public education and of all available alternative programs, both public and nonpublic.

(e) Written parental consent pursuant to Section 56321 shall be obtained before any assessment of the pupil is conducted unless the public education
agency prevails in a due process hearing relating to such assessment.

(f) Written parental consent pursuant to Section 56321 shall be obtained before the pupil is placed in a special education program.

56507. (a) Except as provided in subdivisions (b) and (c), the public education agency shall not use the services of an attorney for actual presentation of written argument, oral argument, evidence, or any combination thereof, during any part of a mediation conference, individualized education program meeting, or state hearing.

(b) The public education agency may initiate the use of the services of an attorney for actual presentation of written argument, oral argument, evidence, or any combination thereof, during a mediation conference, individualized education program meeting, or state hearing, provided that all the following requirements are satisfied:

(1) The public education agency notifies the parent, in writing, of the use of such services at least three days prior to the mediation conference or individualized education program meeting, or at least 10 days prior to the state hearing, as appropriate.

(2) The public education agency provides for a listing of attorneys knowledgeable in mediation conferences, individualized education program meetings, and state hearings to be provided to the parent.

(3) The public education agency bears only those costs of the services of any attorney provided to the parent for which the parent is required to pay. However, in no case shall such costs to the agency be greater than the cost to the agency for its own attorney services, including the cost of preparation and advice.

(c) (1) The public education agency may use the services of an attorney for actual presentation of written argument, oral argument, evidence, or any combination thereof, during a mediation conference, individualized education program meeting, or state hearing, if the parent initiates the use of the services of an attorney. The parent shall notify the public education agency, in writing, of the use of such services at least three days prior to the mediation conference or individualized education program meeting or at least 10 days prior to the state hearing, as appropriate.

(2) If the parent uses the services of an attorney pursuant to paragraph (1), the parent shall bear his or her costs.
If the public education agency uses the services of an attorney pursuant to paragraph (l), it shall bear its costs.

(d) Nothing in this section shall be construed to limit the use of attorney services by a public education agency other than for actual presentation of written argument, oral argument, evidence, or any combination thereof during any part of the mediation conference, individualized education program meeting, or state hearing.
CHAPTER 5.5. BEHAVIORAL INTERVENTIONS

(1) That the State of California has continually sought to provide an appropriate and meaningful educational program in a safe and healthy environment for all children regardless of possible physical, mental, or emotionally handicapping conditions.

(2) That teachers of children with special needs require training and guidance that provides positive ways for working successfully with children who have difficulties conforming to acceptable behavioral patterns in order to provide an environment in which learning can occur.

(3) That procedures for the elimination of maladaptive behaviors shall not include those deemed unacceptable under Section 49001 of the Education Code or those that cause pain or trauma.

(b) It is the intent of the Legislature:

(1) That when behavioral interventions are used, they be used in consideration of the pupil's physical freedom and social interaction, and be administered in a manner that respects human dignity and personal privacy and that ensures a pupil's right to placement in the least restrictive educational environment.

(2) That behavioral management plans be developed and used, to the extent possible, in a consistent manner when the pupil is also the responsibility of another agency for residential care or related services.

(3) That a statewide study be conducted of the use of behavioral interventions with California individuals with exceptional needs receiving special education and related services.

(4) That training programs be developed and implemented in institutions of higher education that train teachers and that in-service training programs be made available as necessary in school districts and county offices of education to assure that adequately trained staff are available to work effectively with the behavioral intervention needs of individuals with exceptional needs.

56521. (a) This chapter applies to any individual with exceptional needs who is in a public school program, including a state school for the handicapped pursuant to Part 32 (commencing with Section 59007), or who is placed in a nonpublic school program pursuant to Sections 56365 to 56366.5, inclusive.

The study shall include, but not necessarily be limited to, identification of the frequency in the use of behavioral interventions; the number of districts with policies in place for working with children exhibiting continuous serious behavioral problems; how policies, rules, or regulations within districts differ between emergency and routine behavioral interventions commonly practiced and those restricted by Section 49001; the nature and extent of costs for training provided to personnel for implementing a program of nonaversive behavioral interventions; and the nature and extent of costs for training provided to parents of individuals with exceptional needs who would be receiving behavioral interventions. The scope of the study shall be developed by the State Department of Education, in consultation with the Advisory Commission on Special Education and other groups representing parents, teachers, administrators, and advocates.

(b) The regulations shall do all of the following:

(1) Specify the types of positive behavioral interventions which may be utilized and specify that interventions which cause pain or trauma are prohibited.

(A) Assesses the appropriateness of positive interventions.
(B) Assures the pupil's physical freedom, social interaction, and individual choices.
(C) Respects the pupil's human dignity and personal privacy.
(D) Assures the pupil's placement in the least restrictive environment.
(E) Includes the method of measuring the effectiveness and the interventions.
(F) Includes a timeline for the regular and frequent review of the pupil's progress.
(3) Specify standards governing the application of restrictive behavioral interventions in the case of emergencies. These emergencies must pose a clear and present danger of serious physical harm to the pupil or others. These standards shall include:
(A) The definition of an emergency.
(B) The types of behavioral interventions that may be utilized in an emergency.
(C) The duration of the intervention which shall not be longer than is necessary to contain the dangerous behavior.
(D) A process and timeline for the convening of an individual education plan meeting to evaluate the application of the emergency intervention and adjust the pupil's individual education plan in a manner designed to reduce or eliminate the negative behavior through positive programming.
(E) A process for reporting annually to the State Department of Education and the Advisory Commission on Special Education the number of emergency interventions applied under this chapter.
56524. The superintendent shall explore with representatives of institutions of higher education and the Commission on Teacher Credentialing, the current training requirements for teachers to ensure that sufficient training is available in appropriate behavioral interventions for people entering the field of education.
CHAPTER 6. EVALUATION, AUDITS, AND INFORMATION

56600. It is the intent of the Legislature to provide for ongoing comprehensive evaluation of special education programs authorized by this part. The Legislature finds and declares that the evaluation of these programs shall be designed to provide the Legislature, the State Board of Education, the State Department of Education, and program administrators at special education local plan area, county, district, and school levels with the information necessary to refine and improve programs, policies, regulations, guidelines, and procedures on a continuing basis, and to assess the overall merits of these efforts.

(c) The property taxes allocated to special education programs pursuant to Section 2572.

(d) The district revenue limit amounts for pupils in special day classes and centers in each district or county office.

(e) The local general fund contribution for special education computed pursuant to Article 6 (commencing with Section 56750).

(f) Any amounts allocated to school districts for special education programs pursuant to subdivision (b) of Section 56713.

56713. (a) The amount computed pursuant to Section 56712 shall be apportioned as state aid. Commencing with the 1980-81 fiscal year and each fiscal year thereafter, state aid shall be apportioned as part of the apportionments prescribed by Sections 41330, 41332, and 41335.

(b) Commencing in the 1982-83 fiscal year and for each fiscal year thereafter if, for any county office, the remainder computed pursuant to Section 56712 is a negative amount, no state aid shall be distributed to that county office for purposes of Section 56711. In addition, the county superintendent shall allocate an amount equal to that negative amount to school districts in that county on the basis of the district's average unduplicated pupil counts for the fall and spring semesters for the then current fiscal year.

56714. The superintendent shall adopt rules and regulations for the implementation of this chapter.

Article 3. Instructional Personnel Services

56720. The county superintendent shall compute, pursuant to this article, instructional personnel services amounts for each district and county office operating special education programs and services.

56721. Each district or county office shall submit to the county superintendent its 1979-80 average salaries and benefits paid for providing...
special education services, based on the regular school year, for the following instructional personnel:

(a) Special class teachers.

(b) Resource specialists; or for entities that did not operate under the master plan during fiscal year 1979-80, learning disability group teachers; or for entities that operated partially under the master plan during fiscal year 1979-80, resource specialists, and learning disability group teachers.

(c) Certificated specialists providing designated instruction and services.

(d) (1) Special education instructional aides for special classes and centers, and resource specialists.

(2) Average salaries and benefits for such aides for the purpose of this section only shall be the greater of the district's or county office's:

(A) Average salary and benefits for a full-time equivalent special education instructional aide based on the average number of hours actually worked per instructional aide per day.

(B) Average annual salaries and benefits for six hours of special education instructional aide time.

66722. For each district or county office, the county superintendent shall compute an instructional personnel cost unit rate based on the 1979-80 costs submitted pursuant to Section 56721 for each of the following instructional personnel services:

(a) Special classes and centers with one special class teacher, using the amount computed pursuant to subdivision (a) of Section 56721.

(b) Special classes and centers for the severely handicapped, as defined in Section 56030.5, with one special class teacher and one instructional aide, using the amounts computed pursuant to subdivisions (a) and (d) of Section 56721.

(c) Special classes and centers for the severely handicapped, as defined in Section 56030.5, with one special class teacher and two instructional aides, using the amounts computed pursuant to subdivisions (a) and (d) of Section 56721.

(d) Resource specialist programs with one resource specialist only, using the amount computed pursuant to subdivision (b) of Section 56721.

(e) Resource specialist programs with one resource specialist and one instructional aide, using the amounts computed pursuant to subdivision (b) of Section 56721 and 85 percent of the amount computed to subdivision (d) Section 56721.
(f) Certificated specialists providing designated instruction and services, using the amount computed pursuant to subdivision (c) of Section 56721. For the purpose of this subdivision, aides providing designated instruction and services may be funded in lieu of a certificated specialist.

(g) Special classes and centers for other than the severely handicapped with one special class teacher and one instructional aide using the amount computed pursuant to subdivision (a) and 85 percent of the amount computed pursuant to subdivision (d) of Section 56721.

(h) Special classes and centers for other than the severely handicapped with one special class teacher and two instructional aides using the amount computed pursuant to subdivision (a) and 85 percent of the amount computed pursuant to subdivision (d) of Section 56721.

56723. For fiscal year 1980-81 the county superintendent shall multiply the unit rates computed pursuant to Section 56722 by 1.09. For fiscal year 1981-82, the unit rates shall be increased by 5 percent. For fiscal year 1983-84, the unit rates shall be increased by 8 percent. Commencing with fiscal year 1984-85 and each fiscal year thereafter, the unit rates shall be increased by the statewide average percentage inflation adjustment computed for revenue limits of school districts.

56724. In the event a district or county office claims special education allowances for an instructional personnel service it did not offer in 1979-80 and for which an instructional personnel cost unit rate was not computed, such district or county office shall use the statewide average unit rate for the then current fiscal year for that instructional personnel service.

56725. For each of the instructional personnel services specified in Section 56722 for which funds have been budgeted pursuant to subdivision (e) of Section 56720, the county superintendent shall multiply the units of instructional personnel service computed pursuant to Section 56760 by the appropriate unit rate for the district or county office for the then current fiscal year.

56726. For each district and county office that operates an extended year program, which is required by statute, the following amount shall be computed:

(a) For special classes, excluding those funded under subdivision (b):
(1) Divide the number of days taught in extended session for special classes, not to exceed 30, by the number of days in the regular school year.

(2) Multiply the quotient computed pursuant to paragraph (1) by the unit rate computed pursuant to subdivision (g) of Section 56722, as adjusted pursuant to Section 56723, and multiply the product by 0.6.

(3) Divide the enrollment in special classes as of the second week of extended session by 7; round up to the nearest whole number; and multiply by the product computed pursuant to paragraph (2).

(b) For special centers or classes for severely handicapped pupils, as defined in Section 560305:

(1) Divide the number of days taught in extended session for special classes or centers, not to exceed 55, by the number of days in the regular school year.

(2) Multiply the quotient computed pursuant to paragraph (1) by the unit rate computed pursuant to subdivision (c) of Section 56722, as adjusted pursuant to Section 56723.

(3) Divide the enrollment in special classes or centers as of the second week of extended session by 7; round up to the nearest whole number; and multiply by the product computed pursuant to paragraph (2).

(c) For designated instruction and services for pupils in special classes during extended session:

(1) Divide the number of classes computed pursuant to paragraph (3) of subdivision (a) by 3 and multiply that amount by the product computed by multiplying the quotient computed pursuant to paragraph (1) of subdivision (a) by the unit rate computed pursuant to subdivision (f) of Section 56722, as adjusted pursuant to Section 56723.

(2) Divide the number of classes computed pursuant to paragraph (3) of subdivision (b) by 3 and multiply that amount by the product computed by multiplying the quotient computed pursuant to paragraph (1) of subdivision (b) by the unit rate computed pursuant to subdivision (f) of Section 56722, as adjusted pursuant to Section 56723.

(3) Multiply the amount computed pursuant to paragraph (1) by 0.6.

56727. The county superintendent shall compute the sum of the amounts computed pursuant to Sections 56725 and 56726.

56728. Notwithstanding subdivision (d) of Section 56760, state aid for instructional personnel service units operated during the regular school year and during extended year programs shall
not exceed the number of units actually in
operation for the then current fiscal year.
Districts and county offices shall be entitled to
the full unit rates computed pursuant to
subdivisions (b), (c), (e), (g), and (h) of Section
56722 in regular year and extended year programs
only if the appropriate number of instructional
aides are actually used.

For the purposes of computing funding for aides
other than those in classes for the severely
handicapped, a full-time equivalent aide shall be
equivalent to 1,00 times a full-time equivalent
aide entitlement for those aides in the 1980-81
fiscal year.

56728.5. As a condition of receiving state aid
pursuant to this chapter, a district or county
office of education shall report in April of each
year, on forms provided for this purpose by the
Superintendent of Public Instruction, the count of
the number of pupils receiving special education
services provided by the district or county office
in the spring semester. The report shall
individually report the unduplicated count in
special day classes, resource specialist programs,
and designated instructional services, and shall
distinguish between pupils residing in licensed
children's institutions, foster family homes,
residential medical facilities, other similar
facilities, and all other pupils.

The Superintendent of Public Instruction shall
collect, as necessary, data from school districts,
county offices of education, and other public and
private agencies having information on licensed
children's institutions, foster family homes,
residential medical facilities, other similar
facilities.

56728.6. (a) Notwithstanding subdivision (d) of
Section 56760, in the 1985-86 fiscal year and each
fiscal year thereafter, a special education local
plan area shall be eligible for state funding of
those instructional personnel service units
operated and fundable for services to children
three years of age or older at the second principal
apportionment of the prior fiscal year, so long as
the pupil count divided by the number of
instructional personnel service units is equal to
or greater than the following:

(1) For special classes and centers -- 9, based
on the unduplicated pupil count.
(2) For resource specialist programs -- 21,
based on the unduplicated pupil count.

*(Section 56728.6 Amended in 1990)*
(3) For designated instruction and services — 20, based on the unduplicated pupil count, or 39, based on the duplicated pupil count.

(b) Notwithstanding subdivision (d) of Section 56760, in the 1984-85 fiscal year and each fiscal year thereafter, a special education local plan area shall be eligible for state funding of instructional personnel service units for services to children three years of age or older in excess of the number of instructional personnel service units operated and fundable at the second principal apportionment of the prior fiscal year only with the authorization of the Superintendent of Public Instruction.

(1) The superintendent shall not authorize additional units for a special education local plan area if, for that special education local plan area, the percentage of pupils in kindergarten and grades 1 through 12 enrolled in special education programs, excluding pupils less than three years of age, would exceed 10 percent.

(2) The superintendent shall not authorize additional units for a special education local plan area if, for that special education local plan area, the ratio of pupils in kindergarten and grades 1 through 12 receiving a specific instructional service, excluding pupils less than three years of age, would exceed the following:

(A) For special classes and centers - 0.028 percent.

(B) For resource specialist programs - 0.040 percent.

(C) For designated instruction services - 0.042 percent.

(3) The superintendent may authorize additional units for a special education local plan area only if the area's pupil-instructional personnel unit ratios, based on the unduplicated pupil count, meet or exceed the ratios specified in paragraphs (1), (2), and (3) of subdivision (a).

(c) The Superintendent of Public Instruction shall base the authorization of funding for special education local plan areas pursuant to this section, including the reallocation of instructional personnel service units, upon criteria which shall include, but not be limited to, all of the following:

(1) Changes in the total number of pupils enrolled in kindergarten and grades 1 through 12.

(2) High- and low-average caseloads per instructional personnel service unit for each instructional setting.
(3) Lower than average and higher than average percentages of pupils in kindergarten and grades 1 through 12 who are currently enrolled in special education programs.

(d) Notwithstanding the provisions of Sections 56211 and 56212, a special education local plan area may apply for, and the superintendent may grant, a waiver of any of the standards and criteria specified in this section if compliance would prevent the provision of a free, appropriate public education or would create undue hardship. In granting the waivers, the superintendent shall consider the following:

(1) Applications from special education local plan areas for waivers for a period not to exceed three years to specifically maintain or increase the level of special education service requirements of individuals with exceptional needs residing in sparsely populated districts or attending isolated schools designated in the application.

(A) Sparsely populated districts are school districts that meet one of the following conditions:

(i) A school district or combination of contiguous school districts in which the total enrollment is less than 600 pupils, kindergarten and grades 1 to 12, inclusive, and in which one or more of the school facilities is an isolated school.

(ii) A school district or combination of contiguous school districts in which the total pupil density ratio is less than 15 pupils, kindergarten and grades 1 to 12, inclusive, per square mile and in which one or more of the school facilities is an isolated school.

(B) Isolated schools are schools with enrollments of less than 600 pupils, kindergarten and grades 1 to 12, inclusive, that meet one or more of the following conditions:

(i) The school is located more than 45 minutes average driving time over commonly used and well-traveled roads from the nearest school, including schools in adjacent special education local plan areas, with an enrollment greater than 600 pupils, kindergarten and grades 1 to 12, inclusive.

(ii) The school is separated, by roads that are impassable for extended periods of time due to inclement weather, from the nearest school, including schools in adjacent special education local plan areas, with an enrollment greater than 600 pupils, kindergarten and grades 1 to 12, inclusive.

(iii) The school is of a size and location that,
when its enrollment is combined with the enrollments of the two largest schools within an average driving time of not more than 30 minutes over commonly used and well-traveled roads, including schools in adjacent special education local plan areas, the combined enrollment is less than 600 pupils, kindergarten and grades 1 to 12, inclusive.

(iv) The school is the one of normal attendance for a severely handicapped individual, as defined in Section 56030.5, or an individual with low-incidence disability, as defined in Section 56026.5, who otherwise would be required to be transported more than 75 minutes average one-way driving time over commonly used and well-traveled roads, to the nearest appropriate program.

(2) The location of licensed children's institutions, foster family homes, residential medical facilities, and other similar facilities within the boundaries of a local plan if 3 percent or more of the local plan's unduplicated pupil count resides in those facilities.

(e) For the purpose of this section, a special education local plan area may apply for, and the superintendent may grant, a waiver of the standards specified in paragraph (2) of subdivision (b) if the waiver is programmatically justified.

(f) By authorizing units pursuant to this section, the superintendent shall not increase the statewide total number of instructional personnel service units for purposes of state apportionments unless an appropriation specifically for growth in the number of instructional personnel service units is made in the annual Budget Act or other legislation. If such an appropriation is made, units authorized by the superintendent pursuant to this subdivision that result in an increase in the statewide total number of instructional personnel service units are subject to the following restrictions:

(1) The units shall be funded only by such appropriation and no other funds may be apportioned for the units.

(2) All units shall be fully funded pursuant to Chapter 7 (commencing with Section 56700) of Part 30.

(g) This section shall become operative July 1, 1985.

(h) The superintendent shall monitor the use of instructional personnel service units retained or authorized by the granting of waivers pursuant to subdivision (d) of this section to assure that such
instructional personnel service units are used in a manner wholly consistent with the basis for the waiver request.

56728.7. (a) The Superintendent of Public Instruction may conduct a pilot program for the 1990-91, 1991-92, and 1992-93 fiscal years to enable and encourage school districts and county offices of education, either individually or through special education local plan areas, to establish programs in public schools for individuals with exceptional needs who are currently placed in nonpublic, nonsectarian schools and to develop plans for the return of these pupils to an appropriate public school program, with a view of determining whether these new programs can provide an effective mainstreaming education program in less restrictive environment which is appropriate to each pupil's needs for services as specified in his or her written individualized education program. Services provided pursuant to this section to each pupil by a written individualized education program, including, but not limited to, psychotherapy, mental health, residential, or other services provided under provisions of Chapter 266 (commencing with Section 7570) of Division 7 of Title 1 of the Government Code, shall be continued unless otherwise agreed to by a review of the pupil's expanded individualized education program team. The superintendent shall select, for this purpose, no more than 10 school districts or county offices of education that are willing to participate in the pilot project, through an application process to be developed by the superintendent in accordance with subdivision (b). There shall be no more than 200 pupils participating in this statewide pilot program, of which no more than 50 pupils shall be from any one school district, and no more than 15 pupils from any one school district shall be funded pursuant to Article 8.5 (commencing with Section 56775).

(b) The superintendent shall ensure that the local application describes the program and fiscal resources that it shall use in implementing the pilot program, including, but not limited to, the establishment of the Local Pilot Program Advisory Committee and its implementing policies for the pilot program. The superintendent shall make every effort to ensure that the racial, ethnic, and socioeconomic composition of the Local Pilot Program Advisory Committee reflects the current racial, ethnic, and socioeconomic composition of the exceptional pupil population in the school district.

*(Section 56728.7 Added in 1990)
districts in which the pilot programs are established.

In its preparation of the application for participation in the pilot program, the local education agency shall consult with the special education local plan area in which it is a member and describe the impact the pilot program would have on other programs and resources available within the special education local plan area.

In addition, the superintendent shall ensure that there is a sampling of multiple sizes of school districts and county offices of education, including special education local plan areas whose special education plan serves an average daily attendance of 30,000 or more. The sampling shall also include all of the following:

1. Local education agencies in urban and rural settings.
2. Local education agencies serving large populations of individuals with exceptional needs from low-income and ethnic and linguistic minority families.
3. Local education agencies impacted by a large number of individuals with exceptional needs who are served by nonpublic, nonsectarian schools and agencies.
4. Local education agencies impacted by a large number of individuals with exceptional needs who reside in a foster family home, licensed children's institution, hospital, or other similar medical facility and who are served by nonpublic, nonsectarian schools or agencies.

(c) Consistent with Section 56366 and other provisions of law, it is the intent of the Legislature that programs developed pursuant to this section shall ensure the participation of, and coordination with, local contracted nonpublic, nonsectarian schools through the establishment of a Local Pilot Program Advisory Committee in order to develop, monitor, and evaluate policies to ensure that pupils' placements are changed when adequate progress is made and readiness for placement in a less restrictive environment located in a public school is achieved.

1. The Local Plan Program Advisory Committee shall be comprised of representatives of local public and contracted nonpublic school programs, parents, and other local public agencies providing services pursuant to Chapter 26.5 (commencing with Section 7570) of Division 7 of Title 1 of the Government Code. Representatives of each Local Pilot Program Advisory Committee shall include two

- Composition of Advisory Committee

- 100 -
representatives of local contracted nonpublic schools designated by the California Association of Private Specialized Education and Services without regard to membership, one of whom shall be a representative of a licensed children's institution when it is determined that pupils in a licensed children's institution in a nonpublic school program placement may be considered for placement in a mainstreaming educational program, a representative of the special education local plan area administrative unit, a teacher representative of a local public school participating in the pilot, a parent representative of the local community advisory committee, pursuant to Public Law 94-142, a representative of a parent advocate, a representative of the local mental health advisory board, and a representative of each local public agency providing services to exceptional pupils within the special education local plan area under Chapter 26.5 (commencing with Section 7570) of Division 7 of Title 1 of the Government Code.

(2) Notwithstanding any other provision of law, the Local Pilot Program Advisory Committee shall advise on the development, monitoring, and evaluation of policies and procedures which are necessary to implement the pilot program. The advisement shall include, but not necessarily be limited to, the following subjects:

(A) Pupil behaviors.
(B) Pupil achievement and classroom performance reports.
(C) Curriculum and class size.
(D) Adequate support services.
(E) Personnel qualifications.

(3) The Local Pilot Program Advisory Committee shall also advise on development procedures and criteria for evaluating the effectiveness of the pilot program pursuant to paragraph (1) of subdivision (e) and shall annually submit a written evaluation of the pilot program to the Superintendent of Public Instruction. The Superintendent of Public Instruction shall evaluate selected pilot programs, based on the report of each advisory committee of how goals for an effective mainstream education program have been met in accordance with pupils' written individualized education program.

(d) (1) Notwithstanding any other provision of law, in the 1990-91, 1991-92, and 1992-93 fiscal years the Superintendent of Public Instruction shall apportion to each of the school districts or county offices of education selected pursuant to subdivision (a), in addition to any funds to which
that district or county office is entitled under this chapter, an amount for each pupil who is placed by that district or county office in a public school program pursuant to this section, that is equal to the average amount apportioned to the special education local plan area in which that district or county office is located for pupils under Sections 56740 and 56775 in the 1989-90 fiscal year, excluding the costs of room and board as identified by Section 56741. The costs resulting to that district or county office from the placement of any pupil in a public program operated by the district or county office pursuant to this section shall be funded from this apportionment. No school district or county office of education shall be entitled to receive any funding under Section 56740 or 56775 in any fiscal year based on the enrollment of any pupil for which that district or county office receives funding in that fiscal year under this subdivision.

(2) The apportionment authorized under paragraph (1) is subject to the condition that each pupil included under the calculation of the apportionment was enrolled in a nonpublic, nonsectarian school in the 1989-90 fiscal year, and the pupil's placement was changed, in accordance with this part, to a public school special education program as described under this section no later than December 31, 1992.

(3) The apportionment authorized under this section shall include the costs of one certificated person who shall serve as a mainstream education liaison. The workload of a mainstream education liaison shall not exceed a full-time equivalent per pupil caseload of 20.

(4) The apportionment authorized under paragraph (1) shall be used solely for purposes of providing special education programs. Any excess apportionment remaining from the costs of operating public programs pursuant to this section shall be adjusted from the subsequent year's apportionment which the district or county office of education may be eligible to receive.

(e) Notwithstanding any other provision of law, a pilot program operated by a school district or county office of education under this section shall not be considered in the calculation of the number of instructional personnel service units to which the district or county office is entitled, or in the calculation of pupil service ratios as provided in Section 56760.

(f) This section shall not be construed to
authorize any increase in state apportionments for special education to which a participating school district or county office of education is entitled under this chapter.

(g) (1) The Superintendent of Public Instruction shall evaluate the pilot program or programs operated under this section pursuant to criteria developed in consultation with the participating school districts or county offices of education and a statewide representative of contracted nonpublic, nonsectarian schools. The evaluation shall include, but not necessarily be limited to, descriptive information and supporting data provided by the Local Pilot Program Advisory Committee and others as appropriate in determining whether the program operated by each participating district or county office accomplished each of the following objectives:

(A) Provided pupils who were formerly placed in nonpublic, nonsectarian schools with an appropriate and effective mainstreaming education program which is consistent with the pupils' needs as specified in their individualized education program and located in a less restrictive environment in a public school.

(B) Served those pupils in age-appropriate, less restrictive environments, including interaction or receiving instruction with their nonhandicapped peers.

(C) Provided programs and services located in a public school to those pupils at a public cost no greater than that incurred in the nonpublic, nonsectarian school setting, including the public program costs for instruction, designated instruction and services, direct support services, indirect support services, and the costs of services provided by local public agencies under Chapter 26.5 (commencing with Section 7570) of Division 7 of Title 1 of the Government Code. It is the intent of the Legislature that the comparison of the costs for services provided by public and nonpublic school programs shall be based on uniform program cost accounting procedures prescribed by the Superintendent of Public Instruction pursuant to Section 56730.5.

(2) The superintendent shall report the results of the evaluation to the Legislature no later than January 1, 1994.

(h) This section shall remain in effect only until September 1, 1995, and as of that date is repealed.
56728.8. (a) Notwithstanding subdivision (d) of Section 56760, for the 1985-86 fiscal year and each fiscal year thereafter, a special education local plan area shall be eligible for state funding of those instructional personnel service units operated and fundable for services to individuals with exceptional needs younger than three years of age at the second principal apportionment of the prior fiscal year, so long as the pupil count of these pupils divided by the number of instructional personnel service units is not less than the following:

1. For special classes and centers - 12, based on the unduplicated pupil count.
2. For resource specialist programs - 24, based on the unduplicated pupil count.
3. For designated instruction and services - 12, based on the unduplicated pupil count, or 39, based on the duplicated pupil count.

(b) Notwithstanding subdivision (d) of Section 56760, in the 1985-86 fiscal year and each fiscal year thereafter, a special education local plan area shall be eligible for state funding of instructional personnel service units for services to individuals with exceptional needs younger than three years of age in excess of the number of instructional personnel service units operated and fundable at the second principal apportionment of the prior fiscal year only with the authorization of the Superintendent of Public Instruction.

(c) The Superintendent of Public Instruction shall base the authorization of funding for special education local plan areas pursuant to this section, including the reallocation of instructional personnel service units, upon criteria that shall include, but not be limited to, the following:

1. Changes in the total number of pupils younger than three years of age enrolled in special education programs.
2. High- and low-average caseloads per instructional personnel service unit for each instructional setting.

(d) Notwithstanding subdivision (e) of Section 56760, infant programs in special classes and centers funded pursuant to this item shall be supported by two aides, unless otherwise required by the Superintendent of Public Instruction.

(e) Infant services in resource specialist programs funded pursuant to this item shall be supported by one aide.

*(Section 56728.8 Amended in 1990)
(f) In determining the number of instructional personnel service units for which a special education local plan area may qualify, a minimum of six infants shall constitute eligibility for the initial unit. However, programs operating pursuant to Section 56425 shall be allowed a minimum of one initial unit for the 1985-86 fiscal year. When units are allocated pursuant to this subdivision, the Superintendent of Public Instruction shall allocate only the least expensive unit appropriate.

(g) Beginning with the 1986-87 fiscal year, those programs operating pursuant to Section 56425 with fewer than six infants shall receive a partial unit, as determined by the Superintendent of Public Instruction.

(h) Notwithstanding the provisions of Sections 56211 and 56212, a special education local plan area may apply for, and the superintendent may grant, a waiver of any of the standards and criteria specified in this section if compliance would prevent the provision of a free, appropriate public education or would create undue hardship. In granting the waivers, the superintendent shall give priority to the following factors:

(1) Applications from special education local plan areas for waivers for a period not to exceed three years to specifically maintain or increase the level of special education services necessary to address the special education service requirements of individuals with exceptional needs residing in sparsely populated districts or attending isolated schools designated in the application.

(A) Sparsely populated districts are school districts that meet one of the following conditions:

(i) A school district or combination of contiguous school districts in which the total enrollment is less than 600 pupils, kindergarten and grades 1 to 12, inclusive, and in which one or more of the school facilities is an isolated school.

(ii) A school district or combination of contiguous school districts in which the total pupil density ratio is less than 15 pupils, kindergarten and grades 1 to 12, inclusive, per square mile and in which one or more of the school facilities is an isolated school.

(B) Isolated schools are schools with enrollments of less than 600 pupils, kindergarten and grades 1 to 12, inclusive, that meet one or more of the following conditions:
(i) The school is located more than 45 minutes average driving time over commonly used and well-traveled roads from the nearest school, including schools in adjacent special education local plan areas, with an enrollment greater than 600 pupils, kindergarten and grades 1 to 12, inclusive.

(ii) The school is separated, by roads that are impassable for extended periods of time due to inclement weather, from the nearest school, including schools in adjacent special education local plan areas, with an enrollment greater than 600 pupils, kindergarten and grades 1 to 12, inclusive.

(iii) The school is of a size and location that, when its enrollment is combined with the enrollments of the two largest schools within an average driving time of not more than 30 minutes over commonly used and well-traveled roads, including schools in adjacent special education local plan areas, the combined enrollment is less than 600 pupils, kindergarten and grades 1 to 12, inclusive.

(iv) The school is the one of normal attendance for a severely handicapped individual, as defined in Section 56030.5, or an individual with a low-incidence disability, as defined in Section 56026.5, who otherwise would be required to be transported more than 75 minutes, average one-way driving time over commonly used and well-traveled roads, to the nearest appropriate program.

(2) The location of licensed children's institutions, foster family homes, residential medical facilities, or similar facilities within the boundaries of a local plan if 3 percent or more of the local plan's unduplicated pupil count resides in those facilities.

(i) By authorizing units pursuant to this section, the superintendent shall not increase the statewide total number of instructional personnel service units for purposes of state apportionments unless an appropriation specifically for growth in the number of instructional personnel service units is made in the annual Budget Act or other legislation. The allocation for implementation in fiscal year 1990-91 shall not exceed the amount of five hundred thousand dollars ($500,000) provided by subdivision (a) of Provision 6 of Item 6110-161-001 of the Budget Act of 1990. If such an appropriation is made, units authorized by the superintendent pursuant to this section are subject to the following restrictions:

(1) The units shall be funded only by such an
appropriation and no other funds may be apportioned for the units.

(2) All units shall be fully funded pursuant to Chapter 7 (commencing with Section 56700) of Part 30.

(j) The superintendent shall monitor the use of instructional personnel service units retained or authorized by the granting of waivers pursuant to subdivision (h) of this section to assure that the instructional personnel service units are used in a manner wholly consistent with the basis for the waiver request.

56728.9. (a) Notwithstanding any other provision of this article, any special education local plan area which is a single district and which is severely impacted by pupils who reside in licensed children's institutions, as defined in Section 56155.5, shall be entitled to a support services amount calculated pursuant to Section 56734, except that the quotient computed pursuant to Section 56733 shall be multiplied by 150 percent for classes in which a majority of the pupils enrolled reside in licensed children's institutions, if the special education local plan area meets all of the requirements of this section.

(b) A special education local plan area is severely impacted, for purposes of this section, if all of the following requirements are satisfied:

(1) Pupils who reside in licensed children's institutions represent more than 15 percent of the special education enrollment of the special education local plan area.

(2) Special education enrollment of pupils who reside in licensed children's institutions has increased by more than 50 percent since 1985.

(3) The special education local plan area does not enroll more than 10 percent of its pupils who do not reside in licensed children's institutions in special education programs.

(c) Any special education local plan area that is severely impacted pursuant to subdivision (b) may make the calculation adjustments provided by subdivision (a) only for those classes in which a majority of the pupils enrolled during the 1989-90 school year resided in licensed children's institutions.

(d) The calculation provided by this section is a base year calculation, based on the enrollment in classes in the 1989-90 school year, creating a limit on funding adjustments provided by this section. Special education local plan areas shall not be required to maintain the 1989-90 level of

*(Section 56728.9 Added in 1990)*
eligible classes in order to be eligible for the calculation in future years. Special education local plan areas are encouraged to place pupils who reside in licensed children's institutions in the educational environment which best meets the pupil's needs in keeping with the least restrictive environment requirements of Public Law 94-142 and the Master Plan for Special Education.

(e) The state shall not allocate any funds for the purposes of this section that are in excess of the amount expressly appropriated for the purposes of this section.

(f) This section shall remain in effect only until January 1, 1996, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1996, deletes or extends that date.

Article 4. Support Services

56730. The county superintendent shall compute, pursuant to this article, a support services amount for each district and county office operating special education programs and services pursuant to this article.

56730.5. (a) For the 1985-86 fiscal year, the Superintendent of Public Instruction shall adopt and disseminate to all local education agencies, program cost accounting procedures that meet all of the following conditions:

(1) The procedures shall require all local education agencies to use the same methods of allocating direct support costs to specific programs.

(2) The methodology used to allocate direct support costs shall be readily supported by documentation or be the result of standards prescribed by the cost accounting procedures.

(3) For each category of support costs, a single allocation method shall be employed unless documentation as prescribed by the accounting procedures specified by the Superintendent of Public Instruction is available.

(b) Local education agencies shall be required to use the cost accounting procedures provided for under this section during the 1985-86 fiscal year, and to report their 1985-86 fiscal year costs to the State Department of Education using these procedures on forms prescribed by the Superintendent of Public Instruction.

56730.6. Within one year of the issuance of accounting standards and criteria pursuant to

- Restriction on Allocation of Funds
- Automatic Repeal Provision

- SUPPORT SERVICES
- County Superintendent Computes Support Services Amount
- Program Cost Accounting Procedures

- Study of Comparable Public/Nonpublic School Costs
Section 56730.5, the Legislative Analyst and the Department of Finance shall review and comment upon the results of a study of comparable public and nonpublic school costs for services provided to individuals with exceptional needs to be conducted by the California Association of Private Special Education Schools.

56731. Each district and county office shall submit to the county superintendent the sum of salaries and benefits paid to instructional personnel, excluding substitute teachers, specified in Section 56721 for providing special education services, based on the regular school year, plus the sum of salaries and benefits paid to instructional personnel specified in Section 56721 for providing special education services for extended year programs during fiscal year 1979-80, plus the increase in salary and benefit costs for instructional aides associated with the unit rates computed pursuant to Article 3 (commencing with Section 56720) of this part.

56732. Each district and county office shall submit to the county superintendent the adjusted operating costs for special education in fiscal year 1979-80. Adjusted operating costs shall be computed by reducing the total cost for special education reported by the district or county superintendent for fiscal year 1979-80 less the costs of special transportation, services provided by nonpublic, nonsectarian schools, tuition paid to other school districts or county offices for special education programs and services during the 1979-80 fiscal year but not paid during the 1980-81 fiscal year, pregnant minor programs, programs to provide instruction in the home or hospital for pupils with temporary physical disabilities, and, if appropriate, regionalized services, as enumerated in subdivision (c) of Section 56720.

The amount included in the total cost of special education for indirect support costs shall not exceed 4 percent of the sum of direct costs plus direct support costs.

56733. The county superintendent shall compute a support services quotient as follows:
(a) Subtract the sum computed pursuant to Section 56731 from the sum computed pursuant to Section 56732.
(b) Divide the amount computed pursuant to subdivision (a) by the sum computed pursuant to Section 56731.

56734. The support services amounts to each district and county office for the 1980-81 fiscal year shall be determined as follows:

- Submit Sum of Salaries and Benefits

- Submit Adjusted Operating Costs

- Indirect Support Costs
  4 Percent Cap

- County Superintendent Computes Support Services Ratio

- 1980-81 Support Services*
  Computation

*(Section 56734 Amended in 1990)
year shall be the amount computed pursuant to Section 56727 multiplied by the quotient computed pursuant to Section 56733, except as otherwise provided in Section 56728.9.

56735. (a) The superintendent shall recommend for audit to the Controller districts or county offices whose 1979-80 fiscal year support services quotient exceeded 125 percent of the state average support services quotient, computed pursuant to subdivision (b), for comparably sized districts.

(b) The superintendent shall compute average support services quotients for the 1979-80 fiscal year for the following groups of districts. As used in this section, "average daily attendance" is the district's regular average daily attendance.

1. Elementary districts of 100 or less units of average daily attendance.
2. Elementary districts with more than 100 and less than 901 units of average daily attendance.
3. High school districts with less than 301 units of average daily attendance.
4. Unified districts with less than 1,501 units of average daily attendance.
5. Elementary districts with greater than 900 units of average daily attendance.
6. High school districts with more than 300 units of average daily attendance.
7. Unified districts with greater than 1,500 units of average daily attendance.

(c) For purposes of this section, county offices shall be treated as districts within the meaning of paragraph (7) of subdivision (b).

(d) In addition to the audits specified in subdivision (a), the Controller may select a representative cross-section of districts to audit.

(e) The Controller may review the criteria for identifying special education costs to be issued pursuant to Section 56730.5, and make recommendations in their audit report.

56736. It is the intent of the Legislature that the adjusted operating costs for special education as computed pursuant to Section 56732 exclude all costs associated with the services enumerated in subdivision (c) of Section 56220 regardless of whether the district or county office operated under the Master Plan for Special Education during the 1979-80 fiscal year and regardless of whether the district or county office received special funding for these services. The Superintendent of Public Instruction shall:

1. Identify the costs associated with the services enumerated in subdivision (c) of Section 56220 as Regionalized Services Costs.
56220 for all districts and county offices during the 1979–80 fiscal year.

(b) Recompute the support services quotients for districts and county offices, excluding the costs identified in subdivision (a) from the computation, not to exceed ninety-three dollars ($93) per unduplicated pupil count.

56737. For the 1981–82 fiscal year and for each fiscal year thereafter, the Superintendent of Public Instruction shall:

(a) Compute the statewide unweighted average of the support services quotients computed pursuant to Section 56736, for the 1980–81 fiscal year.

(b) Compute a support services quotient for each district and county office claiming reimbursement pursuant to this chapter for the then current fiscal year for instructional personnel services units, other than for the severely handicapped, as defined in Section 56130.5, in the following manner:

1. If the support services quotient for the prior fiscal year is greater than 1.5 times the average quotient computed pursuant to subdivision (a), then the quotient for the current fiscal year shall be 1.5 times the average quotient computed pursuant to subdivision (a).

2. If the support services quotient for the prior fiscal year is less than or equal to 1.5 times the average quotient computed pursuant to subdivision (a) but greater than the average quotient computed pursuant to subdivision (a), then the quotient for the then current fiscal year shall be the greater of (A) or (B):

   (A) The average computed pursuant to subdivision (a).

   (B) The support services quotient for the prior fiscal year minus 0.1.

3. If the support services quotient for the prior fiscal year is less than or equal to the average quotient computed pursuant to subdivision (a), then the quotient for the then current fiscal year shall be equal to the quotient for the prior fiscal year.

4. If a district or county office did not operate special education programs and services in the fiscal year, its support services quotient for the then current fiscal year shall be the lesser of (A) or (B):

   (A) The average quotient computed pursuant to subdivision (a).

   (B) The statewide unweighted average for the appropriate class district or county office.
identified in Section 56735.

(c) The support services quotient for special day class instructional personnel services units for the severely handicapped, as defined in Section 56030.5, shall be the quotient for the prior fiscal year, except that that quotient shall not exceed 1.5 times the average quotient computed pursuant to subdivision (a).

(d) No district or county office which had a nonseverely handicapped support services ratio of 1.5 times the average in the 1981-82 fiscal year shall have that average reduced below 1.15 times the average in subsequent years.

(e) Compute a total support services amount for each district and county office equal to the sum of (1) and (2):

(1) Multiply the support services quotient for the current fiscal year computed pursuant to subdivision (b) or (c) by the instructional amounts for the appropriate types of programs, computed pursuant to Section 56725.

(2) Multiply the support services quotient for the current fiscal year computed pursuant to subdivision (b) by the extended year amount computed pursuant to Section 56726. Support services amounts for extended year programs for other than the severely handicapped, as defined in Section 56030.5, shall be divided by 2.

56738. Notwithstanding Section 56737, the support services amounts for the following instructional personnel services units shall be one-half of the amounts computed for those units pursuant to Section 56737:

(a) All instructional personnel services units added between the end of the first principal apportionment period and the end of the second principal apportionment period during a single fiscal year.

(b) Any designated instruction and services units in excess of the number of those units operated during the 1980-81 fiscal year.

56739. (a) When allocating funds received for special education pursuant to this article, it is the intent of the Legislature that, to the extent funding is available, school districts and county offices shall give first priority to expenditures to provide specialized books, materials, and equipment which are necessary and appropriate for the individualized education programs of pupils with low-incidence disabilities, up to a maximum of five hundred dollars ($500) per pupil with low-incidence disability. Nothing in this subdivision
shall be construed to prohibit pooling the prioritized funds to purchase equipment to be shared by several pupils.

(b) Equipment purchased pursuant to this section shall include, but not necessarily be limited to, nonprescriptive equipment, sensory aids, and other equipment and materials as appropriate.

Article 5. Nonpublic, Nonsectarian School Services

56740. The superintendent shall apportion to each district and county office 70 percent of the cost of tuition in excess of the revenue limit and applicable federal funds for pupils enrolled in nonpublic, nonsectarian schools pursuant to Sections 56365 and 56366.

56741. As a condition to receiving an apportionment pursuant to Section 56740, together with other financial reports required by the superintendent for purposes of apportioning funds, a district or county office shall submit an annual report to the superintendent, on forms provided by the superintendent for that purpose, which shall include all of the following information:

(a) The individual contracted program placement costs of providing special education, transportation, residential, and designated instructional services to individuals with exceptional needs placed in nonpublic, nonsectarian schools pursuant to Sections 56365 and 56366.

(b) The individual program placement costs specified in subdivision (a) shall be listed according to the placement categories of individuals with exceptional needs, including, but not limited to, all of the following categories:

(1) Full-day placement.
(2) Partial-day placement.
(3) Residential placement within the state.
(4) Residential placement outside the state.

56742. Every district or county office of education which receives state funding pursuant to Section 56740 shall, as a condition of that apportionment, report to the Superintendent of Public Instruction on forms provided for that purpose, when the total cost of a placement of an individual with exceptional needs in a nonpublic, nonsectarian school exceeds by more than 100 percent the average cost, both instructional and support, including transportation and designated instructional services, of serving a pupil in a special day class in the district or county office.
If the district or county office does not operate special day classes, then the figure used shall be the average special day class cost, both instructional and support, in the region.

The report shall include:
(a) The name of the nonpublic, nonsectarian school in which the individual with exceptional needs is placed.
(b) A brief description of the services provided to that individual.
(c) The total costs of the placement for that individual.

56743. Notwithstanding Section 56740, the Superintendent of Public Instruction shall not apportion additional funds to districts or county offices on behalf of those placements reported by districts and county offices pursuant to Section 56742 if the increase claimed from one year to the next exceeds the percentage increase specified by Section 56723, or an in-lieu percentage specified by the Budget Act, unless he or she makes a specific and individual finding that a greater increase is warranted.

Article 6. LOCAL General Fund Contribution

56750. The county superintendent shall compute, pursuant to this article, a local general fund contribution for special education for each district operating special education programs and services.

56751. The county superintendent shall compute an adjusted local general fund contribution amount for each district by subtracting the amount computed pursuant to subdivision (a) from the amount computed pursuant to subdivision (b).
(a) The sum of the district's state aid apportionments for special education, applicable federal funds, revenue limits for pupils in special classes and centers, and tuition earned by the district from operating special education programs for other districts and county offices, exclusive of such revenue earned for providing special transportation, contracting for nonpublic, nonsectarian school services, and earned on account of pregnant minors programs and programs to provide instruction in the home or hospital for pupils with temporary physical disabilities for the 1979-80 fiscal year.
(b) The district's total reported cost of operating special education programs and services
exclusive of the costs of providing special transportation, contracting for nonpublic, nonsectarian school services, and providing pregnant minors programs and instruction in the home or hospital for pupils with temporary physical disabilities for the 1979-80 fiscal year.

The amount included in total cost of special education for indirect support costs shall not exceed 4 percent of the sum of direct costs plus direct support costs.

56752. The amount computed pursuant to Section 56751 shall be divided by such district's second principal apportionment regular average daily attendance in the 1979-80 fiscal year.

56753. The amount computed pursuant to Section 56752 shall be multiplied by the second principal apportionment regular average daily attendance of such district for the then current fiscal year.

56754. The local general fund contribution for each district shall be the lesser of the amounts computed pursuant to Section 56751 or Section 56753.

Article 7. Service Proportions

56760. The annual budget plan, required by subdivision (e) of Section 56200, shall comply with the following proportions, unless a waiver is granted by the superintendent pursuant to Section 56761:

(a) The district, special education local plan area, or county office, shall estimate the pupils to be served in the subsequent fiscal year by instructional personnel service. The estimate shall be computed as the ratio of pupils to be served by instructional personnel service to the enrollment of pupils in kindergarten and grades 1 to 12, inclusive, of the districts and county offices participating in the plan.

1) The ratio of pupils funded by the state by instructional personnel service during the regular school year, including pupils for whom education and services are provided for by contract with nonpublic, nonsectarian schools, to the enrollment in kindergarten and grades 1 to 12, inclusive, shall not exceed 0.10.

2) The ratio of pupils funded by the state by instructional personnel service to the enrollment in kindergarten and grades 1 to 12, inclusive, receiving a specific instructional service shall not exceed the following:

A) For special classes and centers, 0.028.
(b) For resource specialist programs, 0.040.
(C) For designated instruction services, 0.042.
(b) The district, special education local plan area, or county office shall divide the amounts in paragraphs (1), (2), and (3) by the appropriate ratios computed pursuant to paragraph (2) of subdivision (a).
(1) For special classes and centers, 10 pupils.
(2) For resource specialist programs, 24 pupils.
(3) For designated instruction and services, 24 pupils.
(c) The district, special education local plan area, or county office shall divide the amounts computed pursuant to paragraphs (1), (2), and (3) of subdivision (b) by the appropriate ratios computed pursuant to paragraph CV of subdivision Oa.
For special classes and centers, 10 pupils.
For resource specialist programs, 24 pupils.
For designated instruction and services, 24 pupils.
(c) The district, special education local plan area, or county office shall divide the sum of the estimated enrollments on October 1 of the subsequent fiscal year in kindergarten and grades 1 to 12, inclusive, of each district and county office participating in the plan by each of the amounts computed pursuant to paragraphs (1), (2), and (3) of subdivision (b).
(d) The amounts computed pursuant to subdivision (c) shall be the authorized instructional personnel service units the state will fund for the district, special education local plan area, or county office in the then current year. The allocation of these instructional personnel service units shall be described in the annual budget plan.
(e) The number of units of instructional services funded pursuant to this article for a local plan shall not exceed for special classes and centers, an average of one teacher and 1.05 aide per special class or center actually operated.
56761. (a) A district, special education local plan area, or county office may request, and the superintendent may waive, any of the proportions specified in Section 56760. The waiver shall be granted only if compliance would both prevent the provision of a free, appropriate public education and would create undue hardship, as follows:
(1) For special classes and centers: proximity of the district, special education local plan area, or county office to state hospitals, licensed children's institutions, foster care facilities, or other facility may increase the expected numbers of individuals with exceptional needs requiring placement in special classes and centers.
(2) For resource specialist programs and designated instruction and services: the district, special education local plan area, or county office has implemented the eligibility criteria adopted by the board, and failure to grant the waiver may result in eligible pupils receiving inappropriate services.
(3) For the proportions specified in subdivision (b) of Section 56760: low pupil density in sparsely populated areas creates problems of distance and inaccessibility for the district, special education local plan area, or county office.

(b) A school district, special education local plan area, or county office may request the superintendent to waive one or more of the maximum unit proportions set forth in Section 56760. The request shall be granted only if it demonstrates that the increased cost of exceeding the standard in one instructional setting is offset by savings in another instructional setting.

56762. The superintendent shall adopt rules and regulations to ensure that apportionments made pursuant to this chapter shall be paid on account of no more than 10 percent of the statewide enrollment in kindergarten and grades 1 to 12, inclusive, for the then current fiscal year.

Article 8. Low Incidence Funding

56771. (a) Commencing with the 1985-86 fiscal year, and for each fiscal year thereafter, funds to support specialized books, materials, and equipment as required under the individualized education program for each pupil with low incidence disabilities, as defined in Section 56026.5, shall be determined by dividing the total number of pupils with low incidence disabilities in the state, as reported on December 1 of the prior fiscal year, into the annual appropriation provided for this purpose in the Budget Act.

(b) The per-pupil entitlement determined pursuant to subdivision (a) shall be multiplied by the number of pupils with low incidence disabilities in each special education local plan area to determine the total funds available for each local plan.

(c) The superintendent shall apportion the amount determined pursuant to subdivision (b) to the responsible local agency in the special education local plan area for purposes of purchasing and coordinating the use of specialized books, materials, and equipment.

(d) As a condition of receiving these funds, the responsible local agency shall ensure that the appropriate books, materials, and equipment are purchased, that the use of equipment is coordinated as necessary, and that the books, materials, and equipment are reassigned to local educational
agencies within the special education local plan area once the agency that originally received the books, materials, and equipment no longer needs them.

(e) It is the intent of the Legislature that special education local plan areas share unused specialized books, materials, and equipment with neighboring special education local plan areas.

Article 8.5. Licensed Children's Institutions

56775. For the 1980-81 fiscal year and for each fiscal year thereafter, the superintendent shall apportion to each district and county superintendent providing programs pursuant to Article 5 (commencing with Section 56155) of Chapter 2 an amount equal to the difference, if any, between (1) the costs of contracts with nonpublic, nonsectarian schools to provide special education instruction, related services, or both, to pupils in licensed children's institutions, foster family homes, residential medical facilities, and other similar facilities funded under this chapter, and (2) the state and federal income received by the district or county superintendent for providing these programs. The sum of the excess cost, plus any state or federal income for these programs, shall not exceed the cost of contracts with nonpublic nonsectarian schools to provide special education and related services for these pupils, as determined by the superintendent.

56775.5. The Superintendent of Public Instruction may reimburse each district and county office of education providing programs pursuant to Article 5 (commencing with Section 56155 of Chapter 2) for assessment and identification costs for pupils in licensed children's institutions, foster family homes, residential medical facilities, and other similar facilities who are placed in state-certified nonpublic, nonsectarian schools.

Actual costs under this section shall not include either administrative or indirect costs, or any proration of support costs.

The total amount reimbursed statewide under this section shall not exceed the amount appropriated for these purposes in any fiscal year. If the superintendent determines that this amount is insufficient to reimburse all claims, the superintendent shall prorate the deficiency among all districts or county offices submitting claims.

- Share Unused Books, Materials, and Equipment
- Licensed Children's Institutions
- Excess Cost for Nonpublic School Placements
- Reimbursement for Assessment - Identification Costs - Nonpublic School Placements
56776. (a) The superintendent shall establish and maintain an emergency fund for the purpose of providing relief to special education local plan areas when a licensed children's institution, foster family home, residential medical facility, or other similar facility serving individuals with exceptional needs opens or expands in a special education local plan area during the course of the school year which impacts the special education local plan area, or when a pupil is placed in a facility for which no public or state-certified nonpublic program exists within the special education local plan area in which the pupil's individualized education program can be implemented during the course of the school year and impacts the educational program.

(b) The special education local plan area in which the impaction occurs shall be responsible for submitting a written request to the superintendent for emergency instructional personnel units. The written request shall, at a minimum, contain all of the following:

1. Specific information on the new or expanded licensed children's institution, foster family home, residential medical facility, or other similar facility described in subdivision (a), including information on the new unserved or underserved pupils residing in the facility, or specific information relating to the new unserved or underserved pupils residing in those facilities.

2. The identification of the steps undertaken demonstrating that no public special education program exists with the special education local plan area capable of programmatically meeting the needs of identified pupils.

3. A plan from the special education local plan area describing the services to be provided.

4. A description of the number of emergency instructional personnel service units requested and their specific uses.

(c) The superintendent shall approve, modify, or disapprove the written request for emergency instructional personnel service units within 30 days of the receipt of the written request and shall notify the special education local plan area administrator, in writing, of the final decision.

(d) It is the intent of the Legislature that appropriations necessary to fund these emergency instructional personnel service units shall be included in the Budget Act for each fiscal year.

56777. In the 1986-87 fiscal year and each fiscal year thereafter, the superintendent shall
determine the need in that fiscal year for the purposes for which funding was provided in the prior fiscal year pursuant to Section 56776.

If the need still exists in the current fiscal year, the permanent funding of the need shall be the first priority in the allocation of the instructional personnel service units from any appropriation for growth in instructional personnel service units, or from instructional personnel service units that were released by another special education local plan area pursuant to subdivision (a) of Section 56728.6. In the event that permanent funding for these units is not available in the current year, the units shall receive first priority for funding pursuant to Section 56776.

Article 9. Program Specialists and Regionalized Services

56780. (a) Funds for regionalized services shall be apportioned to the administrative agency of special education local plan areas. As a condition of receiving funds for regionalized services, the administrative agency shall assure that all functions listed below are performed in accordance with the governance structure of the special education local plan area.

(1) Coordination of the special education local plan area.
(2) Coordinated system of identification and assessment.
(3) Coordinated system of procedural safeguards.
(4) Coordinated system of personnel development.
(5) Coordinated system of curriculum development.
(6) Coordinated system of internal program review.
(7) Coordinated system of data collection and management.
(8) Coordinated system of evaluation of the effectiveness of the local plan.
(9) Coordination of interagency agreements.
(10) Coordination of services to medical facilities.
(11) Coordination of services to licensed children's institutions and foster homes.
(12) Preparation of special education local plan area reports.
(13) Incidental expenses of the community advisory committee.

- PROGRAM SPECIALISTS AND REGIONALIZED SERVICES

- Regionalized Services
(14) Coordination of transportation.
(15) Coordination of career and vocational education.
(16) Assurance of full educational opportunity.

(b) Direct instructional support may be provided by program specialists in accordance with Section 56368.

56781. (a) Commencing with the 1982-83 fiscal year and each fiscal year thereafter, the superintendent shall multiply the average of the unduplicated pupil counts for the fall and spring semesters of the then current fiscal year, not to exceed 10 percent of the enrollment in kindergarten and grades 1 to 12, inclusive, in the local plan, by forty-four dollars ($44), as adjusted pursuant to Section 56782.

(b) Funds received pursuant to this section shall be expended only for the following purposes:

(1) Program specialists.
(2) Regionalized services as defined pursuant to subdivision (c) of Section 56220.
(3) Instructional personnel services units in excess of those funded pursuant to Article 2 (commencing with Section 56710) of Chapter 7. Units funded pursuant to this section shall not be considered part of the base number of units funded or operated for any district, county office, or local plan area for the purposes of the growth tests specified in Section 56728.6.

56782. For the 1981-82 fiscal year, and for each fiscal year thereafter, the superintendent shall apportion funds for regionalized services, other than program specialists, as enumerated in subdivision (c) of Section 56220 by multiplying the average of the total unduplicated counts for the fall and spring semesters of the then current fiscal year in the local plan, not to exceed 10 percent of the enrollment in kindergarten and grades 1 to 12, inclusive, in the local plan, by twenty-five dollars ($25).

56783. For fiscal year 1983-84, the amounts per unduplicated pupil provided pursuant to Sections 56781 and 56782 shall be increased by 8 percent. Commencing with the 1984-85 fiscal year and in each fiscal year thereafter, the amounts per unduplicated pupil provided pursuant to Sections 56781 and 56782 shall be increased annually by the statewide average percentage inflation adjustment computed for revenue limits of school districts.
Article 10. Deficit Funding

56790. If available funds are insufficient to permit full apportionments, the deficit shall be applied pursuant to this chapter.

56791. If state funds are insufficient to fully fund programs, the deficit shall be applied equally to all apportionments to all districts and county offices.

56792. If programs operated in accordance with a locally approved budget plan submitted pursuant to subdivision (e) of Section 56200 are in excess of those that are funded pursuant to Article 2 (commencing with Section 56710), Article 8 (commencing with Section 56770), and Article 9 (commencing with Section 56780), available funds shall be allocated by the superintendent on a pro-rata basis against all claims for funds by districts and county offices operating under that local plan, unless the plan specifies an alternative allocation mechanism.

56820. Any facilities constructed or leased after July 1, 1981, for individuals with exceptional needs shall be designed and, if possible, located to achieve maximum possible interaction between individuals with exceptional needs and other pupils.

56821. The department shall include in its budget sufficient funds to make apportionments under this part and an amount sufficient for the administration by the department of the provisions of this part.

56822. Sound recordings, large type, and braille books purchased, instructional materials transcribed from regular print into special media, and special supplies and equipment purchased for individuals with exceptional needs for which state or federal funds were allowed are property of the state and shall be available for use by individuals with exceptional needs throughout the state as the board shall provide.

56823. Apportionments under this part shall be made by the superintendent as early as practicable in the fiscal year. Upon order of the superintendent, the State Controller shall draw warrants upon the money appropriated, in favor of the eligible districts or counties in the amounts ordered.
56824. Each district, special education local plan area, and county office participating in special education programs pursuant to this part shall maintain a fiscal effort with respect to each pupil participating in special education programs that is no less than the fiscal effort of the district or county office per elementary, intermediate, or secondary pupil not participating in a special education program. The department shall annually review individual district and county office expenditures to assure the comparability of local support. This review shall be based on rules and regulations adopted by the board which take into account growth in district enrollment and increases in district costs.

56825. The department shall continuously monitor and review all special education programs approved under this part to assure that all funds appropriated to districts, special education local plan areas, and county offices under this part are expended for the purposes intended.

56826. Funds apportioned to districts, special education local plan areas, and county offices pursuant to this chapter shall be expended exclusively for programs operated under this part.

56827. The Superintendent of Public Instruction shall review the information and calculations submitted by districts and county offices in support of all apportionment computations described in this chapter. The review shall be conducted on the data submitted during the initial year of apportionment and for first succeeding fiscal year only. Adjustments to any year's apportionment shall be received by the superintendent from the district or county office prior to the end of the first fiscal year following the fiscal year to be adjusted. The superintendent shall consider and adjust only the information and computational factors originally established during an eligible fiscal year, if the superintendent's review determines that they are correct.

56828. (a) No educational programs already in operation in school districts pursuant to Part 30 (commencing with Section 56000) shall be transferred to the county superintendent of schools, or to other school districts, or from the county superintendent of schools to school districts, without the approval of the Superintendent of Public Instruction, if the transfer would result in an entitlement to increased state aid pursuant to this chapter.

(b) In the event the transfer is approved, the

support services amounts and instructional personnel service units amounts for the transferring agencies and county superintendent of schools shall be computed using a weighted average. The Superintendent of Public Instruction shall determine the additional costs to the state, if any, caused by the transfer, and permanently reduce the districts' revenue limits, or the county superintendent's support services entitlement, or both the districts' revenue limits and the county superintendent's support services entitlement, by an amount equal to the additional cost.

(c) Educational programs for severely handicapped pupils, or any part of those programs, already in operation in school districts pursuant to Part 30 (commencing with Section 56000) may be transferred to the county superintendent of schools, or to other school districts, or from the county superintendent of schools to school districts, upon agreement of the agencies involved in the transfer, if the transfer would not result in an entitlement of increased state aid pursuant to this chapter. If an educational program for severely handicapped pupils, or any part of the program, is transferred, and if the support service ratio for severely handicapped classes of the transferring school district or county office of education is higher than that of the receiving district or county office, the support service ratio for the transferring district or county office shall be transferred to the receiving district or county office. If the transferred support service ratio would result in an entitlement of increased state aid, the Superintendent of Public Instruction shall calculate a lower support service ratio for the receiving district or county office, and shall apply the lower calculated ratio to the receiving district or county office operating the program. The transferred ratio shall thereafter become the support service ratio for severely handicapped classes for the district or the county operating the transferred program.

56829. For the 1981-82 fiscal year and each fiscal year thereafter, if the total amount of state aid for special education claimed by districts and county offices pursuant to this chapter is less than the amount appropriated for those claims, the balance may be used by the Superintendent of Public Instruction to reimburse districts and county offices of education whose expenditures for special education programs and

services in the current year exceed the sum of current year revenues from all sources, including state and federal aid for special education district revenue limits for special day classes and centers, county taxes for special education, and an amount equal to the 1979-80 local general fund contribution.

The sum of the reimbursement received by districts and county offices pursuant to this section plus the total current year revenues received, including state and federal aid for special education, district revenue limits for special day classes and centers, county taxes for special education, and an amount equal to the 1979-80 local general fund contribution, shall not exceed the actual expenditures of the district or county office for special education programs and services.

56830. (a) The Legislature hereby finds and declares that, since the 1980-81 fiscal year, there have been significant annual deficiencies in special education funding that have created fiscal hardships for many school districts and county offices of education and adversely impacted the quality of services to many individuals with exceptional needs, in abrogation of the objectives set forth in Section 56000.

(b) It is the intent of the Legislature that the sum of at least fifty-five million dollars ($55,000,000) be appropriated in the Budget Act for the 1986-87 fiscal year, and at least one hundred fifteen million dollars ($115,000,000) be appropriated in the Budget Act for the 1987-88 fiscal year, in excess of the appropriations and cost-of-living adjustments for the 1985-86 fiscal year, to support programs for individuals with exceptional needs.

(1) Priority for appropriation of these funds in the 1986-87 fiscal year shall be accorded to programs that directly improve special education program quality, including, but not limited to, the restoration of instructional aide time in special day classes for nonseverely handicapped students, and in the resource specialist program to the level originally required by this part; further expansion of infant services and vocational programs; growth in low incidence funds; and additional growth in the number of instructional personnel service units.

(2) Based on the cost accounting information produced pursuant to Section 56730.5, consideration shall also be given in the 1987-88 fiscal year to
revision of support services ratios, funding of the local general fund contribution computed pursuant to Section 56.5i or 56753, and the expansion of low incidence funding to include specialized services, as appropriate, in addition to specialized materials and equipment.
CHAPTER 8. SPECIAL EDUCATION PROGRAMS
FOR INDIVIDUALS WITH EXCEPTIONAL NEEDS
RESIDING IN STATE HOSPITALS

56850. The purpose of the Legislature in enacting this chapter is to recognize that individuals with exceptional needs of mandated school age, residing in California's state hospitals for the developmentally disabled and mentally disordered, are entitled to, under Public Law 94-142, the federal Education for All Handicapped Children Act of 1975, and Public Law 93-112, the federal Rehabilitation Act of 1973, the same access to educational programs as is provided for individuals with exceptional needs residing in our communities.

It is the intent of the Legislature to ensure that services shall be provided in the community near the individual state hospitals to the maximum extent appropriate, and in the least restrictive environment.

It is the further intent of the Legislature to ensure equal access to the educational process and to a full continuum of educational services for all individuals, regardless of their physical residence.

It is the further intent of the Legislature that educational services designated for state hospital residents not eligible for services mandated by Public Law 94-142 shall not be reduced or limited in any manner as a result of the enactment of this chapter.

It is the further intent of the Legislature that any cooperative agreements to provide educational services for state hospitals shall seek to maximize federal financial participation in funding such services.

56851. (a) In developing the individualized educational program for an individual residing in a state hospital who is eligible for services under Public Law 94-142, a state hospital shall include on its interdisciplinary team a representative of the district, or special education local plan area, or county office in which the state hospital is located, and the individual's state hospital teacher, depending on whether the state hospital is otherwise working with the district, special education local plan area, or county office for the provision of special education programs and related services to individuals with exceptional needs residing in state hospitals. However, if a district or special education local plan area that
is required by this section to provide a representative from the district or special education local plan area does not do so, the county office shall provide a representative.

(b) The state hospital shall reimburse the district, special education local plan area, or the county office, as the case may be, for the costs, including salary, of providing the representative.

(c) Once the individual is enrolled in the community program, the educational agency providing special education shall be responsible for reviewing and revising the individualized education program with the participation of a representative of the state hospital and the parent. The agency responsible for the individualized education program shall be responsible for all individual protections, including notification and due process.

56852. In developing the individualized educational program and providing all special education programs and related services to individuals with exceptional needs residing in the state hospitals, the state hospitals shall comply with the requirements of Public Law 94-142, Public Law 93-112, and special education provisions of this part and implementing regulations. Special education and related services shall be provided to each individual residing in a state hospital pursuant to the individualized education program for that individual.

56852.5. The State Department of Education, within its existing program review process, shall specifically review the appropriateness of pupil placement for educational services as designated in the pupil's individualized education program and the criteria used in determining such placement.

56853. Nothing contained in this chapter shall affect the continued authority of the State Departments of Developmental Services and Mental Health over educational programs for individuals not eligible for services under Public Law 94-142, nor shall it affect the overall responsibility of the state hospitals for the care, treatment, and safety of individuals with exceptional needs under their control. The state hospitals shall continue to render appropriate and necessary developmental services, health related services, psychiatric services, and related services assigned to the state hospitals in the local written agreements, as part of their responsibilities of the care and treatment of state hospital residents.

Health related services shall include services provided by physicians, psychiatrists,
psychologists, audiologists, registered nurses, social workers, physical therapists, occupational therapists, psychiatric technicians, and developmental specialists, and shall be the responsibility of the state hospital if the individual with exceptional needs requires these services while in the community program.

56854. (a) The Superintendent of Public Instruction and the Directors of the State Departments of Developmental Services and Mental Health shall develop written interagency agreements to carry out the purposes of this chapter.

(b) For each county in which a state hospital is located, the county superintendent of schools, with the approval of the county board of education and the administrator of the state hospital, shall develop a local written agreement to carry out the purposes of this chapter. Such agreements shall be reviewed and updated annually and may be modified at any time with the concurrence of both parties to the agreements.

56855. For each county in which a state hospital is located the county superintendent of schools shall ensure that appropriate special education and related services are available in the community for which the state hospitals can contract. Such contract shall provide for any eligible individual with exceptional needs residing in the state hospitals whose individualized education program specifies that educational services for that individual should be most appropriately provided, in whole or in part, in a program other than on the hospital grounds. The county board of education shall approve any programs operated by the county superintendent pursuant to this chapter.

56856. In order to provide appropriate special education and related services to an individual residing in a state hospital, the State Departments of Developmental Services and Mental Health shall contract with a county superintendent of schools, nonpublic, nonsectarian school, or other agency to provide all or part of the services that the individual's individualized education program indicates should be provided in a program other than on state hospital grounds. A contract between a state hospital and a nonpublic, nonsectarian school shall only be entered into when no appropriate public education program is available.

56857. Nothing in this chapter shall preclude the State Departments of Developmental Services and Mental Health from contracting with a local public education agency, a nonpublic, nonsectarian school,
or another agency to provide special education and related services on the state hospital grounds for those pupils whose individualized education programs do not indicate that such education and services should be provided in a program other than on state hospital grounds. These contracts shall not involve funds appropriated for purposes of community-based special education.

56857.5. (a) Commencing with the 1982-83 fiscal year, community school agencies providing school programs on state hospital grounds shall begin the orderly transfer of all state hospital pupils whose individualized education programs indicate that a community school program is appropriate, to schools located in the community.

(b) Commencing with the 1983-84 fiscal year, all pupils covered by subdivision (a) shall be served in community schools other than on state hospital grounds, and the contracting provisions of this chapter shall apply only to pupils in community school programs other than on state hospital grounds.

(c) Waivers to subdivisions (a) and (b) may be granted only when approved by both the State Superintendent of Public Instruction and the Director of the State Department of Developmental Services.

56858. (a) The State Department of Developmental Services shall, commencing August 1, 1985, and on the first day of each month thereafter, upon submission of an invoice by the county superintendent of schools, pay to the county superintendent of schools 8 percent of the amount projected to cover the cost of hospital pupils education in community school programs.

(b) The amount projected to cover the cost of hospital pupils educated in community school programs shall be determined according to procedures agreed by the State Department of Developmental Services and the State Department of Education.

(c) Upon completion of the fiscal year, the county superintendent of schools shall calculate the actual cost of hospital pupils educated in community schools according to procedures in subdivision (b) approved by the State Department of Developmental Services and the State Department of Education.

(d) If the calculated actual cost of educating these pupils is more or less than the total amount the county superintendent of schools has received for the fiscal year pursuant to subdivision (a),
the following year's distribution shall be adjusted accordingly.

(e) The county superintendent of schools shall distribute funds to participating districts on a pro rata basis.

56858.5. (a) Any contract prescribed by this chapter shall become effective unless disapproved by the State Department of Finance or State Department of General Services within 20 working days of receipt of the contract. Each department shall have 10 working days to consider the contract.

(b) Contracts shall be submitted to the State Department of Developmental Services for approval before May 15.

(c) No payments shall be processed in advance of contract approval, and no educational services shall be provided in the community school programs in advance of contract approval.

56858.7. (a) Nothing in this chapter shall prohibit the inclusion of in-kind services or the assignment of state hospital personnel in a contract for services pursuant to this chapter.

(b) Ten percent of the contract costs shall be attributed to in-kind services. In-kind services above 10 percent of the contract costs shall be mutually agreed upon by both parties to the contract. Any disagreement over in-kind services above 10 percent shall not be cause for delaying approval of the contract.

(c) A 60 day prior written notice shall be given by the state hospital to the county superintendent of schools for the initiation or removal of in-kind state hospital classified personnel.

56859. All certificated state hospital employees hired to provide educational services to individuals of mandated school age after September 29, 1980, shall possess an appropriate California credential in special education. Current certificated state hospital employees who do not possess appropriate California credentials in special education shall be given a period of not more than five years from September 29, 1980, to obtain such appropriate credentials. Certificated state hospital employees who do not possess appropriate California credentials in special education at the end of the five-year period shall be reassigned to provide educational services to individuals residing in state hospitals who are not eligible for services under Public Law 94-142.

56860. Special transportation shall be the responsibility of the state hospital.

56862. It is not the intent of this chapter to displace educational and related services personnel already employed by the state hospitals under the administration of the State Department of Developmental Services or the State Department of Mental Health, or to reduce their salaries or other employee benefits.

The State Department of Developmental Services and the State Department of Mental Health shall complete an annual review of the impact that implementation of this act will have in reducing the need for positions in state hospitals due to time spent by residents in community education programs and shall submit a report on its findings to the Department of Finance for approval.

56863. The state hospitals, as part of the notification to parents of pupils of their rights pursuant to Public Law 94-142, Public Law 93-112, and this part and implementing regulations, shall notify parents of the right that their child can be considered for education programs other than on state hospital grounds.

For the purposes of this section, the term "parent of pupil" shall mean a parent, a legal guardian, a conservator, a person acting as a parent of a child, or a surrogate parent appointed pursuant to Public Law 94-142.

Information and records concerning state hospital patients in the possession of the Superintendent of Public Instruction shall be treated as confidential under Section 5328 of the Welfare and Institutions Code and the Federal Privacy Act of 1974, Public Law 93-579.

56864. Individuals with exceptional needs served under this chapter shall not be subject to the service proportions prescribed by Article 7 (commencing with Section 56760) of Chapter 7, or the growth tests prescribed by Section 56728.6.

56865. Funds appropriated by Section 11 of Chapter 1191 of the Statutes of 1980 may be used for remodeling classrooms located in a community school, in addition to the purposes of Chapter 25 (commencing with Section 17785) of Part 10, in order to serve state hospital pupils whose individualized education programs require a community school program.
CHAPTER 9. JOINT FUNDING FOR EDUCATION OF HANDICAPPED CHILDREN ACT OF 1980

56875. (a) The Legislature hereby finds and declares that numerous federal and state programs make funds available for the provision of education and related services to individuals with exceptional needs. The Legislature further finds and declares that the state has not maximized the use of available federal funds for provision of such services to these children. The Legislature further recognizes the need to simplify procedures for securing all available funds for services to individuals with exceptional needs and for utilizing federal financial resources to the greatest possible extent.

(b) It is the intent of the Legislature to provide local educational agencies with maximum flexibility to secure and utilize all available state and federal funds so as to enable such agencies to meet the needs of individuals with exceptional needs more effectively and efficiently. Furthermore, it is the intent of the Legislature to provide maximum federal funding to local educational agencies for the provision of education and related services to individuals with exceptional needs.

56876. On or before April 1, 1981, the Department of Education, the State Department of Health Services, the State Department of Mental Health, the State Department of Developmental Services, the State Department of Social Services, the Department of Rehabilitation, the Employment Development Department, the Department of the Youth Authority, and the State Council on Developmental Disabilities shall, in conformance with procedures established by the Office of Planning and Research, submit a plan to both the Senate Finance Committee and the Assembly Ways and Means Committee that shall include a timetable for implementation of this chapter, including, but not limited to the following:

(a) A list of provisions of state regulations and laws for which waivers may be granted in order that local educational agencies may maximize available federal funds to provide education and related services to individuals with exceptional needs without decreasing funds available to other state and local agencies.

(b) A list of provisions of federal law, federal regulations, or both, for which it is recommended that the state seek waiver.
(c) A list of specific related services which shall be provided by the respective departments and their political subdivisions to carry out the mandate of Public Law 94-142 and its implementing regulations.

56877. (a) Implementation of the funding procedures established pursuant to this chapter shall commence on July 1, 1981.

(b) The State Department of Education shall, in order to implement the provisions of this chapter, do all of the following:

(1) Provide necessary technical assistance to local educational agencies.

(2) Establish procedures for such agencies to obtain available federal funds.

(3) Apply for necessary waivers of federal statutes and regulations governing federal education programs that provide education and related services to individuals with exceptional needs.

(c) The State Board of Education shall grant necessary waivers of applicable state laws and administrative regulations relating to special education programs to participating local educational agencies.

56878. If necessary to simplify procedures for securing all available funds for services to individuals with exceptional needs and for utilizing federal financial resources to the greatest possible extent, the Health and Welfare Agency, at the request of the State Department of Health Services, the State Department of Mental Health, the State Department of Developmental Services, the State Department of Social Services, the Department of Rehabilitation, or the Employment Development Department; and the Youth and Adult Corrections Agency, at the request of the Department of the Youth Authority, may grant waivers of state laws and regulations for which they have administrative responsibility. Waivers granted pursuant to this section may be only for those laws and regulations identified in the plan submitted to the Legislature pursuant to Section 56876, and only when necessary to implement this part.

56879. Based upon the plan submitted pursuant to Section 56876, the State Department of Health Services, the State Department of Mental Health, the State Department of Developmental Services, the State Department of Social Services, the Department of Rehabilitation, the Employment Development Department, and the Department of the Youth
Authority shall, in order to implement the provisions of this chapter, do the following:

(1) Grant necessary waivers of applicable state laws and administrative regulations under their respective jurisdictions to local educational agencies and other agencies, and issue such other administrative regulations as are necessary.

(2) Apply for necessary waivers of federal statutes and regulations governing federal programs which provide services to individuals with exceptional needs and which are under their respective jurisdictions.

56880. (a) The Department of Finance shall evaluate the funding procedures established pursuant to this chapter.

(b) Such evaluation shall examine the implementation, effectiveness, and financial benefits of the funding procedures and shall include, but not be limited to, an examination of all the following:

(1) The availability to individuals with exceptional needs of education and related services provided by public and private agencies.

(2) The amount of federal funds utilized to provide education and related services to individuals with exceptional needs and the increase in the proportion of federal funds utilized by participating local educational agencies to provide such services to individuals with exceptional needs.

(3) The effect of the funding procedures established pursuant to this chapter on the amount of total federal funds received by the state to provide human services.

(c) The scope, content, and methodology of the evaluation shall be submitted for review to the Joint Legislative Budget Committee.

(d) A preliminary evaluation shall be submitted to the Legislature no later than January 1, 1982; an interim evaluation no later than January 1, 1983; and a final evaluation no later than January 1, 1984.

56881. (a) The Office of Planning and Research shall establish procedures for development and review of state agency plans for funds available under all federal programs which may provide services to individuals with exceptional needs and which are within the jurisdictions of the Department of Education, the State Department of Health Services, the State Department of Mental Health, the State Department of Developmental Services, the State Department of Social Services,
the Department of Rehabilitation, the Employment Development Department, the Department of the Youth Authority, and the State Council on Developmental Disabilities. Results of the review shall be transmitted to the state agency preparing the plan and to the responsible cabinet level agency to make a determination if the plan shall be changed. Such planning procedures and review shall assure coordination between state agencies and shall assure that applicable plans enable local education agencies to secure maximum available federal funding, without decreasing funds available to other state and local agencies, under each of the following federal programs:

(2) Medical Assistance (Medicaid), as provided under the Social Security Act of 1935, Title XIX, as amended.

(3) Early and Periodic Screening, Diagnosis and Treatment as provided under P.L. 74-271, Social Security Act of 1935, Title XIX as amended, Section 1905(a)(4)(B).

(6) Crippled Children's Services as provided under P.L. 74-271, Social Security Act of 1935, Title V, Section 504, as amended.

(9) Supplementary Security Income, Disabled Children's Program, as provided under P.L. 74-271, Social Security Act of 1935, Title XVI, Section 1615(b) as amended by P.L. 94-566.
(b) In addition to the programs enumerated in subdivision (a), any other programs under which the following services may be provided to individuals with exceptional needs shall be subject to the review procedure specified in subdivision (a) as conducted by the Office of Planning and Research.

1. Screening and identification.
2. Assessment and diagnosis.
3. Health related services, including, but not limited to, speech pathology and audiological services, physical therapy, occupational therapy, and vision services and therapy.
4. Psychological counseling.
5. Mental health services.
6. Vocationally related services.
7. Social services.
8. Transportation services.
9. Other services necessary to assist individuals with exceptional needs in benefiting from their education.

56882. On or before May 1, 1981, the State Board of Education shall, after consultation with the Office of Planning and Research and all state agencies listed in Section 56876, issue regulations for implementation of the provisions of this chapter, to be used by local educational agencies, in implementing the provisions of this chapter. Such regulations shall identify all other administrative regulations relating to education and related services which shall be waived for local educational agencies. Such regulations shall include, but not be limited to regulations relating to application, accounting, and reporting procedures for programs which may provide education and related services for individuals with exceptional needs.

56883. (a) On or before July 1, 1981, the Department of Education shall, after consultation with the Office of Planning and Research and the agencies listed in Section 56876, and based upon the plan required in Section 56876, issue guidelines to local educational agencies, for implementation of the provisions of this chapter.

(b) Such guidelines shall include, but not be limited to, the following:

1. Identification of sources of funds available under all state and federal programs which may provide education and related services to individuals with exceptional needs and for which local educational agencies and other applicable agencies are eligible.
(2) Identification of all statutes and regulations applicable to programs for individuals with exceptional needs under the jurisdictions of the Department of Education, the State Department of Health Services, the State Department of Mental Health, the State Department of Developmental Services, the State Department of Social Services, the Department of Rehabilitation, the Employment Development Department, and the Department of the Youth Authority, which may be waived pursuant to subdivisions (b), (c), and (d) of Section 56877.

56884. To assist in implementation of the provisions of this chapter, the Department of Education and state agencies listed in Section 56876 shall, by April 1, 1981, after consultation with representatives of their respective local administering agencies, negotiate and enter into interagency agreements to help promote coordination of services for individuals with exceptional needs. The interagency agreements shall include, but not be limited to, the definition of each agency's roles and responsibilities for serving individuals with exceptional needs.

56885. The Department of Finance shall, after consultation with appropriate state agencies ascertain the amounts of funds, if any, that should be transferred between state agencies in order to achieve the purposes of the bill and shall notify the Joint Legislative Budget Committee, the Senate Education Committee, and the Assembly Education Committee of such amounts pursuant to the budget Act.

Any savings that may occur to any program due to maximized use of federal funds or services to individuals with exceptional needs as provided in this article shall be utilized to defer projected increased costs to meet full mandates of Public Law 94-142.

(e) Committed or attempted to commit robbery or extortion.

(f) Caused or attempted to cause damage to school property or private property.

(g) Stolen or attempted to steal school property or private property.

(h) Possessed or used tobacco, or any products containing tobacco or nicotine products, including, but not limited to, cigarettes, cigars, miniature cigars, clove cigarettes, smokeless tobacco, snuff, chew packets, and betel. However, this section does not prohibit use or possession by a pupil of his or her own prescription products.

(i) Committed an obscene act or engaged in habitual profanity or vulgarity.

(j) Had unlawful possession of, or unlawfully offered, arranged, or negotiated to sell any drug paraphernalia, as defined in Section 11014.5 of the Health and Safety Code.

(k) Disrupted school activities or otherwise willfully defied the valid authority of supervisors, teachers, administrators, school officials, or other school personnel engaged in the performance of their duties.

(l) Knowingly received stolen school property or private property.

No pupil shall be suspended or expelled for any of the acts enumerated unless that act is related to school activity or school attendance occurring within a school under the jurisdiction of the superintendent or principal or occurring within any other school district. A pupil may be suspended or expelled for acts which are enumerated in this section and related to school activity or attendance which occur at any time, including, but not limited to, any of the following:
(1) While on school grounds.
(2) While going to or coming from school.
(3) During the lunch period whether on or off the campus.
(4) During, or while going to or coming from, a school sponsored activity.

It is the intent of the Legislature that alternatives to suspensions or expulsion be imposed against any pupil who is truant, tardy, or otherwise absent from school activities.

48900.5. Suspension shall be imposed only when other means of correction fail to bring about proper conduct. However, a pupil, including an individual with exceptional needs, as defined in Section 56026, may be suspended for any of the reasons enumerated in Section 48900 upon a first offense, if the principal or superintendent of schools determines that the pupil violated subdivision (a), (b), (c), (d), or (e) of Section 48900 or that the pupil's presence causes a danger to persons or property or threatens to disrupt the instructional process.

48911. (a) The principal of the school, the principal's designee, or the superintendent of schools may suspend a pupil from the school for any of the reasons enumerated in Section 48900, and pursuant to Section 48900.5, for no more than five consecutive schooldays.
(b) Suspension by the principal, the principal's designee, or the superintendent shall be preceded by an informal conference conducted by the principal or the principal's designee, or the superintendent of schools between the pupil and, whenever practicable, the teacher or supervisor or school employee who referred the pupil to the principal or the principal's designee or the superintendent of schools. At the conference, the pupil shall be informed of the reason for the disciplinary action and the evidence against him or her and shall be given the opportunity to present his or her version and evidence in his or her defense.
(c) A principal or the principal's designee or the superintendent of schools may suspend a pupil without affording the pupil an opportunity for a conference only if the principal or the principal's designee or the superintendent of schools determines that an emergency situation exists. "Emergency situation," as used in this article, means a situation determined by the principal, the principal's designee, or the superintendent to constitute a clear and present danger to the lives,

safety, or health of pupils or school personnel. If a pupil is suspended without a conference prior to suspension, both the parent and the pupil shall be notified of the pupil's right to a conference, and the pupil's right to return to school for the purpose of a conference. The conference shall be held within two school days, unless the pupil waives this right or is physically unable to attend for any reason, including, but not limited to, incarceration or hospitalization. The conference shall then be held as soon as the pupil is physically able to return to school for the conference.

(d) At the time of suspension, a school employee shall make reasonable effort to contact the pupil's parent or guardian in person or by telephone. Whenever a pupil is suspended from school, the parent or guardian shall be notified in writing of the suspension.

(e) A school employee shall report the suspension of the pupil, including the cause therefor, to the governing board of the school district or to the district superintendent in accordance with the regulations of the governing board.

(f) The parent or guardian of any pupil shall respond without delay to any request from school officials to attend a conference regarding his or her child's behavior.

No penalties may be imposed on a pupil for failure of the pupil's parent or guardian to attend a conference with school officials. Reinstatement of the suspended pupil shall not be contingent upon attendance by the pupil's parent or guardian at such conference.

(g) In a case where expulsion from any school or suspension for the balance of the semester from continuation school is being processed by the governing board, the school district superintendent or other person designated by the superintendent in writing may extend the suspension until such time as the governing board has rendered a decision in the action. However, an extension may be granted only if the superintendent or the superintendent's designee has determined, following a meeting in which the pupil and the pupil's parent or guardian are invited to participate, that the presence of the pupil at the school or in an alternative school placement would cause a danger to persons or property or a threat of disrupting the instructional process. If the pupil or the pupil's parent or guardian has requested a meeting to
challenge the original suspension pursuant to Section 48914, the purpose of the meeting shall be to decide upon the extension of the suspension order under this section and may be held in conjunction with the initial meeting on the merits of the suspension.

(h) Notwithstanding subdivisions (a) and (g), an individual with exceptional needs may be suspended for up to, but not more than, 10 days if he or she poses an immediate threat to the safety of others. In the case of a truly dangerous child, a suspension may exceed 10 days, or the pupil's placement may be changed, or both, if either of the following occurs:

(i) The pupil's parent or guardian agrees.

(ii) A court order so provides.

(i) For the purposes of this section, a "principal's designee" is any one or more administrators at the school site specifically designated by the principal, in writing, to assist with disciplinary procedures.

In the event that there is not an administrator in addition to the principal at the school site, a certificated person at the school site may be specifically designated by the principal, in writing, as a "principal's designee," to assist with disciplinary procedures. The principal may designate only one such person at a time as the principal's primary designee for the school year.

An additional person meeting the requirements of this subdivision may be designated by the principal, in writing, to act for the purposes of this article when both the principal and the principal's primary designee are absent from the school site. The name of the person, and the names of any person or persons designated as "principal's designee," shall be on file in the principal's office.

48911.5. The site principal of a contracting nonpublic, nonsectarian school providing services to individuals with exceptional needs under Section 56365 and 56366, shall have the same duties and responsibilities with respect to the suspension of pupils with previously identified exceptional needs prescribed for the suspension of pupils under Section 48911.

48912. (a) The governing board may suspend a pupil from school for any of the acts enumerated in Section 48900 for any number of school days within the limits prescribed by Section 48903, except that an individual with exceptional needs may not be

suspended for more than 10 days without the agreement of the parent or a court order.

(b) Notwithstanding the provisions of Section 35145 of this code and Section 54950 of the Government Code, the governing board of a school district shall, unless a request has been made to the contrary, hold closed sessions if the board is considering the suspension of, disciplinary action against, or any other action against, except expulsion, any pupil, if a public hearing upon that question would lead to the giving out of information concerning a school pupil which would be in violation of Article 5 (commencing with Section 49073) of Chapter 6.5.

(c) Before calling a closed session to consider these matters, the governing board shall, in writing, by registered or certified mail or by personal service, notify the pupil and the pupil's parent or guardian, or the pupil if the pupil is an adult, of the intent of the governing board to call and hold a closed session. Unless the pupil or the pupil's parent or guardian shall, in writing, within 48 hours after receipt of the written notice of the board's intention, request that the hearing be held as a public meeting, the hearing to consider these matters shall be conducted by the governing board in closed session. In the event that a written request is served upon the clerk or secretary of the governing board, the meeting shall be public, except that any discussion at that meeting which may be in conflict with the right to privacy of any pupil other than the pupil requesting the public meeting, shall be in closed session.

48914. Each school district is authorized to establish a policy that permits school officials to conduct a meeting with the parent or guardian of a suspended pupil to discuss the causes, the duration, the school policy involved, and other matters pertinent to the suspension.

48915. (a) The principal or the superintendent of schools shall recommend a pupil's expulsion for any of the following acts, unless the principal or superintendent finds, and so reports in writing to the governing board, that expulsion is inappropriate, due to the particular circumstance, which shall be set out in the report of the incident:

(1) Causing serious physical injury to another person, except in self-defense.

(2) Possession of any firearm, knife, explosive, or other dangerous object of no reasonable use to
the pupil at school or at a school activity off school grounds.

(3) Unlawful sale of any controlled substance listed in Chapter 2 (commencing with Section 11053) of Division 10 of the Health and Safety Code, except for the first offense for the sale of not more than one avoirdupois ounce of marijuana, other than concentrated cannabis.

(4) Robbery or extortion.

(b) Upon recommendation by the principal, superintendent of schools, or by a hearing officer or administrative panel appointed pursuant to subdivision (d) of Section 48918, the governing board may order a pupil expelled upon finding that the pupil violated subdivision (a), (b), (c), (d), or (e) of Section 48900.

c) Upon recommendation by the principal, superintendent of schools, or by a hearing officer or administrative panel appointed pursuant to subdivision (d) of Section 48918, the governing board may order a pupil expelled upon finding that the pupil violated subdivision (f), (g), (h), (i), (j), (k), or (l) of Section 48900 and either of the following:

(1) That other means of correction are not feasible or have repeatedly failed to bring about proper conduct.

(2) That due to the nature of the violation, the presence of the pupil causes a continuing danger to the physical safety of the pupil or others.

48915.5. (a) In a matter involving a pupil with previously identified exceptional needs who is currently enrolled in a special education program, the governing board may order the pupil expelled pursuant to subdivisions (b) and (c) of Section 48915 only if all of the following conditions are met:

(1) An individualized education program team meeting is held and conducted pursuant to Article 3 (commencing with Section 56340) of Chapter 2 of Part 30.

(2) The team determines that the misconduct was not caused by, or was not a direct manifestation of, the pupil's identified handicap.

(3) The team determines that the pupil had been appropriately placed at the time the misconduct occurred.

The term "pupil with previously identified exceptional needs," as used in this section, means a pupil who meets the requirements of Section 56026 and who, at the time the alleged misconduct occurred, was enrolled in a special education.

*(Section 48915.5 Amended in 1990)
program, including enrollment in nonpublic schools pursuant to Section 56365 and state special schools.

(b) For purposes of this section, all applicable procedural safeguards prescribed by federal and state law and regulations apply to proceedings to expel pupils with previously identified exceptional needs, except that, notwithstanding Section 56321, subdivision (e) of Section 56506, or any other provision of law, parental consent is not required prior to conducting a preexpulsion educational assessment pursuant to subdivision (e), or as a condition of the final decision of the local board to expel.

(c) Each local education agency, pursuant to the requirements of Section 56221, shall develop procedures and time lines governing expulsion procedures for individuals with exceptional needs.

(d) The parent of each pupil with previously identified exceptional needs has the right to participate in the individualized education program team meeting conducted pursuant to subdivision (a) preceding the commencement of expulsion proceedings, following the completion of a preexpulsion assessment pursuant to subdivision (e), through actual participation, representation, or a conference call. Each parent shall be notified of his or her right to participate in the meeting at least 48 hours prior to the meeting. Unless a parent has requested a postponement, the meeting may be conducted without the parent's participation, if the notice required by this subdivision has been provided. Each parent may request that the meeting be postponed for up to three additional school days. In the event that a postponement has been granted, the local educational agency may extend any suspension of a pupil for the period of postponement. However, the suspension shall not be extended beyond 10 days unless agreed to by the parent.

(e) In determining whether a pupil should be expelled, the individualized education program team shall base its decision on the results of a preexpulsion educational assessment conducted in accordance with the guidelines of Section 104.35 of Title 34 of the Code of Federal Regulations, which shall include a review of the appropriateness of the pupil's placement at the time of the alleged misconduct, and a determination of the relationship, if any, between the pupil's behavior and his or her handicapping condition.
In addition to the preexpulsion educational assessment results, the individualized education program team shall also review and consider the pupil's health records and school discipline records.

(f) If the individualized education program team determines that the alleged misconduct was not caused by, or a direct manifestation of, the pupil's handicapping condition, and if it is determined that the pupil was appropriately placed, the pupil shall be subject to the applicable disciplinary actions and procedures prescribed under this article.

(g) The parent of each pupil with previously identified exceptional needs has the right to a due process hearing conducted pursuant to Section 1415 of Title 20 of the United States Code if the parent disagrees with the decision of the individualized education program team made pursuant to subdivision (f), or if the parent disagrees with the decision to rely upon information obtained, or proposed to be obtained, pursuant to subdivision (e).

(h) No individual with exceptional needs shall be referred or recommended for expulsion under Section 48915 and no governing board shall conduct expulsion proceedings for an individual with exceptional needs until all of the following have occurred:

(1) A preexpulsion assessment is conducted.
(2) The individualized education program team meets pursuant to subdivision (a).
(3) Due process hearings and appeals, if initiated pursuant to Section 1415 of Title 20 of the United States Code, are completed.

48917. The governing board, upon voting to expel a pupil, may suspend the enforcement of the expulsion order for a period of not more than one calendar year and may, as a condition of the suspension of enforcement, assign the pupil to a school, class, or program which is deemed appropriate for the rehabilitation of the pupil. The governing board's criteria for suspending the enforcement of the expulsion order shall be applied equally to all pupils, including individuals with exceptional needs as defined in Section 56026. During the period of the suspension of the expulsion order, the pupil shall be deemed to be on probationary status. The suspension of an expulsion order under this section may be revoked by the governing board upon the pupil's commission of any of the acts enumerated in Section 48900 or for any violation of the district's rules and

regulations governing pupil conduct. Upon revocation of the suspension of an expulsion order, a pupil may be expelled under the terms of the original expulsion order.

Upon satisfactory completion of the rehabilitation assignment of a pupil, the pupil shall be reinstated by the governing board in a school of the district. Upon reinstatement, the governing board may also order the expungement of any or all records of the expulsion proceedings.

A decision of the governing board to suspend an expulsion order shall not affect the time period and requirements for the filing of an appeal of the expulsion order with the county board of education required under Section 48919. Any appeal shall be filed within 30 days of the original vote of the governing board.

(See Other Provisions of Article 1, Chapter 6, Part 27 of the Education Code for Additional Information on Pupil Suspension and Expulsion and Pupil Rights and Responsibilities.)

SPECIALIZED PHYSICAL HEALTH CARE SERVICES

(Education Code - Part 27)

(AB 3477 - Chapter 1220, Statutes of 1978)

49423.5. (a) Notwithstanding the provisions of Section 49422, any individual with exceptional needs who requires specialized physical health care services, during the regular school day, may be assisted by the following individuals:

(1) Qualified persons who possess an appropriate credential issued pursuant to Section 44267, or hold a valid certificate of public health nursing issued by the State Department of Health Services; or

(2) Qualified designated school personnel trained in the administration of specialized physical health care provided they perform such services under the supervision of a school nurse, public health nurse, or licensed physician and surgeon.

(b) Specialized health care or other services that require medically related training shall be
provided pursuant to the procedures prescribed by Section 49423.

(c) Persons providing specialized physical health care services shall also demonstrate competence in basic cardiopulmonary resuscitation and shall be knowledgeable of the emergency medical resources available in the community in which the services are performed.

(d) "Specialized physical health care services" as used in this section include catheterization, gavage feeding, suctioning, or other services that require medically related training.

(e) Regulations necessary to implement the provisions of this section shall be developed jointly by the State Department of Education and the State Department of Health Services, and adopted by the State Board of Education.

EARLY DIAGNOSIS OF LEARNING DISABILITIES

(Education Code - Part 27)

(AB 972 - Chapter 1376, Statutes of 1985)

Article 13. Early Diagnosis of Learning Disabilities

49580. The State Department of Education shall develop a testing program to be utilized at the kindergarten grade level to determine which pupils have a potential for developing learning disability problems. The testing procedure shall include an overall screening test for learning disabilities and testing for dyslexia. To the extent feasible, the department shall use existing tests and screening instruments in developing the early diagnosis of the learning disabilities testing program. In developing the program, the department shall consult with experts in the areas of learning and reading difficulties, including, but not limited to, neurologists, psychologists, persons working in these areas in postsecondary educational institutions, teachers, school nurses, education consultants, school psychologists, and other persons with appropriate knowledge and experience in the detection and treatment of learning problems and reading difficulties in early grades.

49581. The State Department of Education shall develop and implement a pilot project to determine the effectiveness and feasibility of implementing
the early diagnosis of learning disabilities testing program developed pursuant to Section 49580. The pilot project shall administer the early diagnosis testing program to kindergarten aged pupils in order to identify pupils with the potential to develop learning disability problems. Pupils who are identified as having potential learning disability problems shall be referred to existing programs and services which are available to provide assistance.

49582. On or before January 1, 1986, the State Department of Education shall prescribe guidelines for the early diagnosis of the learning disabilities testing program and pilot project. The guidelines shall include but need not be limited to all of the following:

(a) A definition of "pupils with the potential to develop learning disability problems," as used in this article.

(b) The methods and criteria for selecting one or more sites for the establishment of the pilot project.

(c) The number of sites to be selected for purposes of establishing the pilot project.

(d) Criteria for judging the results and effectiveness of the early diagnosis testing program, as well as criteria for determining the feasibility for implementing the program at the conclusion of the pilot project.

49583. On or before January 1, 1989, the State Department of Education shall submit a report to both educational policy committees of the Legislature regarding the results of the early diagnosis of the learning disabilities pilot project. The report shall include, but need not be limited to, an assessment of the degree to which the early diagnosis of learning disabilities in pupils participating in the pilot program resulted in a reduction of the need for later remedial education for those pupils, and the projected cost effectiveness of this early diagnosis.
51215. (a) The governing board of each school district maintaining a junior or senior high school shall, by June 1, 1978, adopt standards of proficiency in basic skills for pupils attending school within its school district.

(b) The governing board of each school district maintaining grade 6 or 8, or the equivalent, shall, by June 1, 1979, adopt standards of proficiency in basic skills for pupils attending these grades.

(c) These standards shall include, but need not be limited to, reading comprehension, writing, and computation skills, in the English language, necessary to success in school and life experiences, and shall be such as will enable individual achievement to be ascertained and evaluated.

The standards shall be directly related to the district's instructional program.

(d) Differential standards and assessment procedures which shall include, but need not be limited to, reading comprehension, writing, and computation skills, shall be adopted pursuant to this subdivision.

(1) Differential standards and assessment procedures shall be adopted for pupils who:

(A) Are enrolled in special education programs pursuant to Part 30 (commencing with Section 56000); or for whom individualized education programs have been developed, and for whom the regular instructional program has been modified, as necessary, under the supervision of a person who holds an appropriate credential in special education; and

(B) Have diagnosed learning handicaps or disabilities such that the individualized education program team determines they have not demonstrated evidence of the ability to attain the district's regular proficiency standards with appropriate educational services and support.

(2) If the team determines that these pupils have not demonstrated evidence of the ability to attain the district's regular proficiency standards with appropriate educational services and support, the team shall develop differential proficiency standards, or modify general differential standards adopted by the governing board, appropriate to the needs and potential of the pupil.
(3) Any differential standards shall be included in the individualized education program developed for the pupil pursuant to Part 30 (commencing with Section 56000).

(4) The determination and the development of differential proficiency standards shall be part of the process of developing, reviewing, and revising a pupil's individualized education program.

(5) In the case where one or more differential standards are developed for a pupil enrolled in special education, the standards may be maintained throughout the pupil's school experience, irrespective of whether the pupil continues to be enrolled in special education.

(6) Nothing in this subdivision shall be construed to require differential proficiency standards for a pupil who a team determines can attain the district's regular proficiency standards with appropriate educational services and support.

(7) The provisions of this subdivision shall apply prospectively and retroactively to pupils enrolled in the 9th grade, or the equivalent thereof, during the 1977-78 school year or any school year thereafter.

(8) Differential standards and assessment procedures adopted pursuant to this subdivision shall permit the pupil for whom they are adopted to attain the standards within a reasonable amount of time but not after the state is no longer required by state or federal law to provide an education to the pupil.

(9) It is the intent of the Legislature that the attainment of a standard of proficiency by a pupil shall also reflect the attainment of a reasonable level of competence. The Legislature, therefore, recognizes that there may be some pupils who cannot meet regular or differential standards of proficiency, in reading, writing, and mathematics skills, and others who will need to remain in school beyond grade 12 or the equivalent in order to meet a standard which reflects their maximum potential.

(10) For students with diagnosed learning disabilities, as well as for students participating in the regular school program, proficiency assessments may be part of the classroom experience, and teaching materials may be used as assessment materials.

(e) Governing boards maintaining elementary or junior high schools located within a school district maintaining a high school shall adopt standards of proficiency in basic skills which are
articulated with those standards adopted by the school district maintaining the high school.

(f) Designated employees of all school districts located within a high school district and one or more designees of the high school district shall meet prior to June 1, 1979, to plan for articulation of elementary and high school proficiency standards, and as necessary thereafter to review the effectiveness of such articulation procedures.

(g) Standards of proficiency shall be adopted by the governing board with the active involvement of parents broadly reflective of the socioeconomic composition of the district, administrators, teachers, counselors, and, with respect to standards in secondary schools, pupils.

WITHHOLDING OF DIPLOMA OF GRADUATION

(Education Code - Part 28)

(AB 3369 - Chapter 1333, Statutes of 1980)

51412. No diploma, certificate or other document, except transcripts and letters of recommendation, shall be conferred on a pupil as evidence of completion of a prescribed course of study or training, or of satisfactory attendance, unless such pupil has met the standards of proficiency in basic skills prescribed by the governing board of the high school district, or equivalent thereof, pursuant to Article 2.5 (commencing with Section 51215) of Chapter 2.

EARLY INTERVENTION FOR SCHOOL SUCCESS

(Education Code - Part 29)

(SB 1256 - Chapter 1530, Statutes of 1985)

Article 4.5. The Early Intervention for School Success Program

54685. The Legislature finds and declares that many public school pupils enrolled in prekindergarten, kindergarten, and grade one have developmental deficiencies.
The Legislature also finds and declares that there is a need to do all of the following:

(1) To establish a system to identify pupils of the ages of four to seven years, inclusive, with developmental deficiencies.

(2) To implement appropriate instructional programs to reduce the frequency and severity of learning disabilities for these pupils in later years.

(3) To reduce the likelihood that these pupils eventually will need to be placed in remedial programs with higher costs.

The Legislature further finds and declares that the Early Prevention of School Failure Program, validated by the federal Joint Dissemination Review Panel as a proven educational practice, is a model capable of providing a comprehensive range of materials and services to identify and remediate developmental deficiencies in pupils of the ages of four to seven years, inclusive.

The Legislature recognizes that the Special Education Resource Network, which is currently administered by the State Department of Education, provides training and technical assistance to parents, teachers and school personnel, and other professionals in the appropriate assessment and education for students with special needs. It is the intent of the Legislature that the program established pursuant to this article shall complement and not duplicate the programs provided by the Special Education Resource Network.

54685.1. It is the intent of the Legislature to do all of the following:

(1) To establish the Early Intervention for School Success Program which is an adaptation of the Early Prevention for School Failure Program.

(2) To implement the program at 200 public school sites within the state by June 1991.

(3) To enable school personnel, organized in child study teams, to acquire the skills necessary to identify developmental levels and learning styles of pupils and the necessary knowledge, techniques, and materials to provide appropriate instruction.

(4) To develop and identify model demonstration sites.

(5) To provide for the certification of school personnel as trainers at each demonstration site.

54685.2. The Superintendent of Public Instruction shall select one county superintendent of schools to manage the implementation of the Early Intervention for School Success Program by
February 1, 1986. The county superintendent of schools shall develop a management plan for the implementation of the program at 200 public school sites within the state before July 1, 1991.

54685.3. The management plan required by Section 54685.2 shall include the following activities:

1. The dissemination of program information.
2. The awarding of grants to schools representative of the ethnic, socioeconomic, and geographic diversity of the public school systems.
4. An adaptation of the Early Prevention of School Failure Program to meet local school needs, including identification of existing materials and development of new materials, if needed.
5. Selection of successful sites as demonstration models for additional implementation of the plan.
6. Certification of one primary teacher for each demonstration site to serve as a local trainer.
7. Provisions for an annual program progress report by the county superintendent of schools and an evaluation of the program to the Legislature by the Legislative Analyst at the end of the third year.

54685.4. The selection of the county superintendent of schools for purposes of Section 54685.2 shall be based on a written application. The Superintendent of Public Instruction shall consider all of the following criteria:

1. Experience in disseminating local, regional, and statewide educational programs.
2. Experience in managing local, regional, and statewide educational programs.
3. A willingness to serve as a statewide dissemination agency.
4. A demonstrated understanding of the Early Prevention of School Failure Program.
5. Experience in providing materials, training, and technical assistance for the Early Prevention of School Failure Program.
6. The ability to adapt the Early Prevention of School Failure Program to meet specific needs.
7. A system for the selection of sites for implementing the Early Intervention for School Success Program.
8. A system to identify model programs from among the sites selected to implement a program.
9. A demonstrated ability and commitment to continue dissemination of the program after the termination of state funding.
54685.5. The county superintendent selected may accept or reject, at his or her option, designation as manager of the program.

54685.6. The selection of participating sites shall be based on a written application by the school district and the criteria listed in Section 54685.7. The criteria shall be verified by the school district's governing board prior to submission of the written application.

54685.7. The criteria to be used in selecting school sites as participants shall be based on the extent to which the school demonstrates all of the following:

1) A need for the program.
2) The ability and commitment to disseminate the model program, to serve as a model site, to release a teacher certified as a trainer in the program, to collect evaluation data, and to demonstrate an interest to continue to employ successful programs after termination of state funding.

54685.8. The school district or school sites selected may accept or reject, at their option, designation as participating sites or demonstration models.

54685.9. The techniques of the Early Prevention of School Failure Model Program which shall be included in the Early Intervention for School Success Program include all of the following:

1) The use of a child study team approach for the assessment and identification of preacademic learning deficiencies in children between the ages of four to seven, inclusive, as appropriate.
2) The use of screening instruments provided in English, Spanish, Lao, Vietnamese, and Cambodian languages, for determination of students' developmental levels in language, auditory, visual, fine motor, and gross motor skills, adapted to meet California needs.
3) The selection and application of educational materials appropriate to students' identified developmental levels.

54686. Training received by a teacher in techniques for the Early Intervention for School Success Program shall apply toward the requirement of professional growth, as required by subdivision (b) of Section 44277.

54686.1. The county superintendent of schools selected pursuant to Section 54685.2, commencing with the 1987-88 fiscal year, shall annually report to the Legislature on the status of the implementation of the program, and shall include,
but not be limited to, the number of school personnel trained, the number of schools implementing the program, the number of certified trainers available, and data on the impact of the program on student performance. At the end of the third year the Legislative Analyst shall evaluate the program and report his or her findings to the Legislature.

54686.2. This article shall remain in effect only until July 1, 1991, and as of that date is repealed, unless a later enacted statute, which is enacted and becomes operative before July 1, 1991, deletes or extends that date.

STATE SPECIAL SCHOOLS EXCESS COST PROVISION

(Education Code - Part 32)

(AB 61 - Chapter 1093, Statutes of 1981)

59300. Notwithstanding any provision of this part to the contrary, the district of residence of the parent or guardian of any pupil attending a state-operated school pursuant to this part, excluding day pupils, shall pay the school of attendance for each pupil an amount equal to 10 percent of the excess annual cost of education of pupils attending a state-operated school pursuant to this part.

SPECIAL EDUCATION PROGRAM SUNSET DATE

(Education Code - Part 34)

(SB 2059 - Chapter 1508, Statutes of 1988)

62000.8. The special education program shall sunset on June 30, 1993.
SECTION 1. The Legislature hereby finds and declares all of the following:
(a) The National Institutes of Health states that 10 to 15 percent of our population have learning disabilities.
(b) In California, dyslexia is a specific language disability that often goes undetected in many children.
(c) Preservice and in-service programs for regular education and special education teachers in California need to provide more emphasis on recognizing characteristics of pupils with dyslexia and need updated teaching strategies for public school pupils with dyslexia and its related disorders.
(d) Regular education and special education teachers in California do not have state program guidelines available to them as a resource to assist them in identifying, assessing, planning, providing, evaluating, and improving educational services to pupils with dyslexia and its related disorders.

SEC. 2. (a) The Superintendent of Public Instruction shall develop program guidelines for specific learning disabilities, including dyslexia and other related disorders, for use by regular and special educators and parents to assist them in identifying, assessing, planning, providing, evaluating, and improving educational services to pupils. The program guidelines shall include characteristics typical of pupils with dyslexia and related disorders and include strategies for their remediation. The superintendent shall consult with teachers, administrators, other education professionals, medical professionals, parents, and professionals involved in the identification and treatment of specific learning disabilities, including dyslexia and other related disorders. The program guidelines shall be completed in time for use no later than the beginning of the 1992-93 academic year. Once the program guidelines are completed, the superintendent shall disseminate them, and provide technical assistance regarding their use and implementation, to parents, teachers, administrators, and faculty members in teacher...
training programs of institutions of higher education.

(b) The State Department of Education shall use available discretionary federal funds for the purpose of developing program guidelines as required under subdivision (a).

OCCUPATIONAL AND PHYSICAL THERAPY SERVICES STUDY

(Noncodified Sections)

(AB 3072 - Chapter 1203, Statutes of 1990)

SECTION 1. (a) The Legislature recognizes all of the following:

(1) Federal law requires that individuals with exceptional needs be provided with a free, appropriate public education, which is defined to include special education and related services in conformity with a pupil's individualized education plan.

(2) The statutory responsibility for providing the related services of occupational and physical therapy is shared by the local educational agencies, which are required to provide occupational and physical therapy if a pupil's individual education plan deems the therapy necessary, and the State Department of Health Services or its designated local agency administering the California Children's Services, if the occupational and physical therapy is deemed medically necessary by reason of a medical diagnosis and is contained in the pupil's individual education plan.

(3) Because of the shared responsibility for providing occupational and physical therapy for pupils with exceptional needs, pupils whose individual education plans indicate the need for occupational and physical therapy often are not receiving those services because in many cases there is uncertainty as to which agency has ultimate responsibility for providing the services, there is a lack of funding to provide the services, and there is a lack of staff to perform the services.

(4) Due to the increase in children who are born with birth defects caused by fetal alcohol syndrome and prenatal drug exposure the need for special education and related services, including occupational and physical therapy, is expected to increase as these children are assessed as being in need of special education.

(5) It is estimated that 375,000 drug-exposed children are born every year in the United States. Reports from the San Francisco area indicate that
10 percent of all babies born in that area were exposed to crack cocaine. Recent research concludes that crack cocaine-exposed babies suffer permanent brain damage.

(b) It is the intent of the Legislature to comply with the federal mandate that individuals with exceptional needs be provided a free, appropriate public education and, based on that intent, to study the delivery of occupational and physical therapy to individuals with exceptional needs who have been assessed as requiring those services in order to benefit from special education. It is also the intent of the Legislature that all state agencies cooperate to ensure that individuals with exceptional needs receive the special education and related services necessary to obtain the free, appropriate public education required by law.

**SEC. --.** (a) The Legislative Analyst shall conduct a study, or contract for a study to be conducted, and shall submit the results of that study to the Legislature no later than December 1, 1991. The study shall be conducted with advice from the State Department of Education and the State Department of Health Services and shall address the following:

1) Whether the need of pupils with exceptional needs for occupational and physical therapy, as determined by the individualized education program team, is being met as required by law.

2) Which state and local agencies are most appropriate to provide occupational and physical therapy for pupils with exceptional needs.

3) The cost of providing occupational and physical therapy services, the expertise needed to provide those services, the various sources of funding available to provide the services, the extent to which various state and local agencies are cooperating in providing the services and the existence of any constraints on that cooperation, and the number of individuals currently receiving the services as well as estimates of current and future unmet needs.

(b) The study described in subdivision (a) shall be accompanied by the Legislative Analyst's recommendations as to how the occupational and physical therapy needs for individuals with exceptional needs could be better met, including a methodology for obtaining parental input, and a description of any statutory changes necessary to effectuate those recommendations.
INTERAGENCY RESPONSIBILITIES FOR RELATED SERVICES

(Government Code)

(AB 3632 - Chapter 1747, Statutes of 1984, As Amended by AB 882 - Chapter 1274, Statutes of 1985, As Amended by AB 3012 - Chapter 1133, Statutes of 1986, As Amended by AB 1744, Chapter 677, Statutes of 1989, As Amended by AB 1528, Chapter 182, Statutes of 1990)

SECTION 1. The Legislature hereby finds and declares that a number of state and federal programs make funds available for the provision of education and related services to children with handicaps who are of school age. The Legislature further finds and declares that California has not maximized, or sufficiently coordinated existing state programs, in providing supportive services which are necessary to assist a handicapped child to benefit from special education.

It is the intent of the Legislature that existing services rendered by state and local government agencies serving handicapped children be maximized and coordinated. It is the further intent of the Legislature that specific state and local interagency responsibilities be clarified by this act in order to better serve the educational needs of the state's handicapped children.

CHAPTER 26.5. INTERAGENCY RESPONSIBILITIES FOR PROVIDING SERVICES TO HANDICAPPED CHILDREN

7570. Ensuring maximum utilization of all state and federal resources available to provide handicapped children, as defined in subsection (1) of Section 1401 of Title 20 of the United States Code, with a free appropriate public education, the provision of related services, as defined in subsection (17) of Section 1401 of Title 20 of the United States Code, and designated instruction and services, as defined in Section 56363 of the Education Code, to handicapped children, shall be the joint responsibility of the Superintendent of Public Instruction and the Secretary of Health and Welfare. The Superintendent of Public Instruction shall ensure that this chapter is carried out through monitoring and supervision.

7571. The Secretary of Health and Welfare may designate a department of state government to
assume the responsibilities described in Section 7570. The secretary, or his or her designee, shall also designate a single agency in each county to coordinate the service responsibilities described in Section 7572.

7572. (a) A child shall be assessed in all areas related to the suspected handicap by those qualified to make a determination of the child's need for the service before any action is taken with respect to the provision of related services or designated instruction and services to a child, including, but not limited to, services in the areas of, occupational therapy, physical therapy, psychotherapy, and other mental health assessments. All assessments required or conducted pursuant to this section shall be governed by the assessment procedures contained in Article 2 (commencing with Section 56320) of Chapter 4 of Part 30 of Division 4 of the Education Code.

(b) Occupational therapy and physical therapy assessments shall be conducted by qualified medical personnel as specified in regulations developed by the State Department of Health Services in consultation with the State Department of Education.

(c) Psychotherapy and other mental health assessments shall be conducted by qualified mental health professionals as specified in regulations developed by the State Department of Mental Health, in consultation with the State Department of Education, pursuant to this chapter.

(d) A related service or designated instruction and service shall only be added to the child's individualized education program by the individualized education program team, as described in Part 30 (commencing with Section 56000) of the Education Code, if a formal assessment has been conducted pursuant to this section, and a qualified person conducting the assessment recommended the service in order for the child to benefit from special education. In no case shall the inclusion of necessary related services in a pupil's individualized education plan be contingent upon identifying the funding source. Nothing in this section shall prevent a parent from obtaining an independent assessment in accordance with subdivision (b) of Section 56329 of the Education Code, which shall be considered by the individualized education program team.

(I) Whenever an assessment has been conducted pursuant to subdivision (b) or (c), the recommendation of the person who conducted the assessment shall be reviewed and discussed with the parent and with appropriate members of the

individualized education program team prior to the
meeting of the individualized education program
team. When the proposed recommendation of
the person has been discussed with the parent and there
is disagreement on the recommendation pertaining to
the related service, the parent shall be notified
in writing and may require the person who conducted
the assessment to attend the individualized
education program team meeting to discuss the
recommendation. The person who conducted the
assessment shall attend the individualized
education program team meeting if requested.
Following this discussion and review, the
recommendation of the person who conducted the
assessment shall be the recommendation of the
individualized education program team members who
are attending on behalf of the local educational
agency.

(2) If an independent assessment for the
provision of related services or designated
instruction and services is submitted to the
individualized education program team, review of
that assessment shall be conducted by the person
specified in subdivisions (b) and (c). The
recommendation of the person who reviewed the
independent assessment shall be reviewed and
discussed with the parent and with appropriate
members of the individualized education program
team prior to the meeting of the individualized
education program team. The parent shall be
notified in writing and may request the person who
reviewed the independent assessment to attend the
individualized education program team meeting to
discuss the recommendation. The person who
reviewed the independent assessment shall attend
the individualized education program team meeting
if requested. Following this review and
discussion, the recommendation of the person who
reviewed the independent assessment shall be the
recommendation of the individualized education
program team members who are attending on behalf of
the local agency.

(3) Any disputes between the parent and team
members representing the public agencies regarding
a recommendation made in accordance with paragraphs
(1) and (2) shall be resolved pursuant to Chapter 5
(commencing with Section 56500) of Part 30 of
Division 4 of the Education Code.

e) Whenever a related service or designated
instruction and service specified in subdivision
(b) or (c) is to be considered for inclusion in the
child's individualized education program, the local
education agency shall invite the responsible
public agency representative to meet with the
individualized education program team to determine the need for the service and participate in developing the individualized education program. If the responsible public agency representative cannot meet with the individualized education program team, then the representative shall provide written information concerning the need for the service pursuant to subdivision (d) of this section. Conference calls, together with written recommendations, are acceptable forms of participation. If the responsible public agency representative will not be available to participate in the individualized education program meeting, the local educational agency shall ensure that a qualified substitute is available to explain and interpret the evaluation pursuant to subdivision (d) of Section 56341 of the Education Code. A copy of the information shall be provided by the responsible public agency to the parents or any adult pupil for whom no guardian or conservator has been appointed.

75725. (a) When an assessment is conducted pursuant to Article 2 (commencing with Section 56320) of Chapter 4 of Part 30 of Division 4 of the Education Code, which determines that a child is seriously emotionally disturbed, as defined in Section 300.5 of Title 34 of the Code of Federal Regulations, and any member of the individualized education program team recommends residential placement based on relevant assessment information, the individualized education program team shall be expanded to include a representative of the county mental health department.

(b) The expanded individualized education program team shall review the assessment and determine whether:

(1) The child's needs can reasonably be met through any combination of nonresidential services, preventing the need for out-of-home care.

(2) Residential care is necessary for the child to benefit from educational services.

(3) Residential services are available which address the needs identified in the assessment and which will ameliorate the conditions leading to the seriously emotionally disturbed designation.

(c) If the review required in subdivision (b) results in an individualized education program which calls for residential placement, the individualized education program shall include all the items outlined in Section 56345 of the Education Code, and shall also include:

(1) Designation of the county mental health department as lead case manager. Lead case management responsibility may be delegated to the

county welfare department by agreement between the county welfare department and the designated mental health department. The mental health department shall retain financial responsibility for provision of case management services.

(2) Provision for a review of the case progress, the continuing need for out-of-home placement, the extent of compliance with the individualized education program, and progress toward alleviating the need for out-of-home care, by the full individualized education program team at least every six months.

(3) Identification of an appropriate residential facility for placement with the assistance of the county welfare department as necessary.

7573. The Superintendent of Public Instruction shall ensure that local education agencies provide special education and those related services and designated instruction and services contained in a child's individualized education program that are necessary for the child to benefit educationally from his or her instructional program. Local education agencies shall be responsible only for the provision of those services which are provided by qualified personnel whose employment standards are covered by the Education Code and implementing regulations.

7575. (a) (1) Notwithstanding any other provision of law, the State Department of Health Services, or any designated local agency administering the California Children's Services, shall be responsible for the provision of medically necessary occupational therapy and physical therapy, as specified by Section 250 et seq. of the Health and Safety Code, by reason of medical diagnosis and when contained in the child's individualized education program.

(2) Related services or designated instruction and services not deemed to be medically necessary by the State Department of Health Services, which the individualized education program team determines are necessary in order to assist a child to benefit from special education, shall be provided by the local education agency by qualified personnel whose employment standards are covered by the Education Code and implementing regulations.

(b) The department shall determine whether a California Children's Services eligible pupil, or a pupil with a private medical referral needs medically necessary occupational therapy or physical therapy. A medical referral shall be based on a written report from a licensed physician and surgeon who has examined the pupil. The
written report shall include the following:

1. The diagnosed neuromuscular, musculoskeletal, or physical handicapping condition prompting the referral.
2. The referring physician's treatment goals and objectives.
3. The basis for determining the recommended treatment goals and objectives, including how these will ameliorate or improve the pupil's diagnosed condition.
4. The relationship of the medical disability to the pupil's need for special education and related services.
5. Relevant medical records.

(c) The department shall provide the service directly or by contracting with another public agency, qualified individual, or a state-certified nonpublic nonsectarian school or agency.

(d) Local education agencies shall provide necessary space and equipment for the provision of occupational therapy and physical therapy in the most efficient and effective manner.

(e) The department shall also be responsible for providing the services of a home health aide when the local education agency considers a less restrictive placement from home to school for a pupil for whom both of the following conditions exist:

1. The California Medical Assistance Program provides a life-supporting medical service via a home health agency during the time in which the pupil would be in school or traveling between school and home.
2. The medical service provided requires that the pupil receive the personal assistance or attention of a nurse, home health aide, parent or guardian, or some other specially trained adult in order to be effectively delivered.

7576. Notwithstanding any other provision of law, the State Department of Mental Health, or any community mental health service designated by the State Department of Mental Health, shall be responsible for the provision of psychotherapy or other mental health services, as defined by regulation by the State Department of Mental Health, developed in consultation with the State Department of Education, when required in the child's individualized education program. This service shall be provided directly or by contracting with another public agency, qualified individual, or a state-certified nonpublic, nonsectarian school or agency.

7577. (a) The State Department of Rehabilitation and the State Department of Education shall jointly
develop assessment procedures for determining client eligibility for State Department of Rehabilitation services for handicapped pupils in secondary schools to help them make the transition from high school to work. The assessment procedures shall be distributed to local education agencies.

(b) The State Department of Rehabilitation shall maintain the current level of services to secondary school pupils in project work ability and shall seek ways to augment services with funds which may become available.

7578. The provision of special education programs and related services for handicapped children residing in state hospitals shall be ensured by the State Department of Developmental Services, the State Department of Mental Health and the Superintendent of Public Instruction in accordance with Chapter 8 (commencing with Section 6850) of Part 30 of Division 4 of Title 2 of the Education Code.

7579. (a) Prior to placing a handicapped child or a child suspected of being handicapped in a residential facility, outside the child's home, a court, regional center for the developmentally disabled, or public agency other than an educational agency, shall notify the administrator of the special education local plan area in which the residential facility is located. The administrator of the special education local plan area shall provide the court or other placing agency with information about the availability of an appropriate public or nonpublic, nonsectarian special education program in a special education local plan area where the residential facility is located.

(b) Notwithstanding Section 55159 of the Education Code, the involvement of the administrator of the special education local plan area in the placement discussion, pursuant to subdivision (a), shall in no way obligate a public education agency to pay for the residential costs and the cost of noneducational services for a child placed in a licensed children's institution or foster family home.

(c) It is the intent of the Legislature that this section will encourage communication between the courts and other public agencies which engage in referring children to, or placing children in, residential facilities, and representatives of local education agencies. It is not the intent of this section to hinder the courts or public agencies in their responsibilities for placing...
handicapped children in residential facilities when appropriate.

7579.1. (a) Prior to the discharge of any handicapped child who has an active individualized education program from a public hospital, proprietary hospital, or residential medical facility pursuant to Article 5.5 (commencing with Section 56167) of Chapter 2 of Part 30 of the Education Code, a licensed children's institution or foster family home pursuant to Article 5 (commencing with Section 56155) of Chapter 2 of Part 30 of the Education Code, or a state hospital for the developmentally disabled or mentally disordered, the following shall occur:

1. The operator of the hospital or medical facility, or the agency that placed the child in the licensed children's institution or foster family home, shall, at least 10 days prior to the discharge of a handicapped child, notify in writing the local educational agency in which the special education program for the child is being provided, and the receiving special education local plan area where the child is being transferred, of the impending discharge.

2. The operator or placing agency, as part of the written notification, shall provide the receiving special education local plan area with a copy of the child's individualized education program, the identity of the individual responsible for representing the interests of the child for educational and related services for the impending placement, and other relevant information about the child that will be useful in implementing the child's individualized education program in the receiving special education local plan area.

(b) Once the handicapped child has been discharged, it shall be the responsibility of the receiving local educational agency to ensure that the handicapped child receives an appropriate educational placement that commences without delay upon his or her discharge from the hospital, institution, facility, or foster family home in accordance with Section 56325 of the Education Code. Responsibility for the provision of special education rests with the school district of residence of the parent or guardian of the child unless the child is placed in another hospital, institution, facility, or foster family home in which case the responsibility of special education rests with the school district in which the child resides pursuant to Sections 56156.5, 56156.6, and 56167 of the Education Code.

(c) Special education local plan area directors shall document instances where the procedures in
subdivision (a) are not being adhered to and report these instances to the Superintendent of Public Instruction.

7579.5. (a) A surrogate parent shall not be appointed for a child who is a dependent or ward of the court unless the court specifically limits the right of the parent or guardian to make educational decisions for the child. A surrogate parent shall not be appointed for a child who has reached the age of majority unless the child has been declared incompetent by a court of law.

(b) A local educational agency shall appoint a surrogate parent for a child under one or more of the following circumstances:

1. The child is adjudicated a dependent or ward of the court pursuant to Section 300, 601, or 602 of the Welfare and Institutions Code upon referral of the child to a local educational agency for special education and related services, or in cases where the child already has a valid individualized education program.

2. No parent for the child can be identified.

3. The local educational agency, after reasonable efforts, cannot discover the location of a parent.

(c) For the purposes of this section, the surrogate parent shall serve as the child's parent and shall have the rights relative to the child's education that a parent has under Title 20 (commencing with Section 1400) of the United States Code and pursuant to Part 300 of Title 34 (commencing with Section 300.1) of the Code of Federal Regulations. The surrogate parent may represent the child in matters relating to identification, assessment, instructional planning and development, educational placement, reviewing and revising the individualized education program, and in all other matters relating to the provision of a free appropriate public education of the child.

(d) As far as practical, a surrogate parent should be culturally sensitive to his or her assigned child.

(e) Individuals who would have a conflict of interest in representing the child, as specified under federal regulations, shall not be appointed as a surrogate parent. "An individual who would have a conflict of interest," for purposes of this section, means a person having any interests that might restrict or bias his or her ability to advocate for all of the services required to ensure a free appropriate public education for an individual with exceptional needs, as defined in Section 56026 of the Education Code.

*(Section 7579.5 Added in 1990)
(f) Except for individuals who have a conflict of interest in representing the child, and notwithstanding any other law or regulation, individuals who may serve as surrogate parents include, but are not limited to, foster care providers, retired teachers, social workers, and probation officers who are not employees of a public agency involved in the education or care of the child. If a conflict of interest arises subsequent to the appointment of the surrogate parent, the local educational agency shall terminate the appointment and appoint another surrogate parent.

(g) The surrogate parent and the local educational agency appointing the surrogate parent shall be held harmless by the State of California when acting in their official capacity except for acts of omissions which are found to have been wanton, reckless, or malicious.

(h) Nothing in this section shall be interpreted to prevent a parent or guardian of an individual with exceptional needs from designating another adult individual to represent the interests of the child for educational and related services.

(i) If funding for implementation of this section is provided, it may only be provided from Item 6110-161-890 of the Budget Act.

7580. Prior to licensing a community care facility, as defined in Section 1502 of the Health and Safety Code, in which a handicapped child may be placed, or prior to a modification of such a facility's license to permit expansion of the facility, the State Department of Social Services shall consult with the administrator of the special education local plan area in order to consider the impact of licensure upon local education agencies.

7581. The residential and noneducational costs of a child placed in a medical or residential facility by a public agency, other than a local education agency, or independently placed in a facility by the parent of the child, shall not be the responsibility of the state or local education agency, but shall be the responsibility of the placing agency or parent.

7582. Assessments and therapy treatment services provided under programs of the State Department of Health Services or the State Department of Mental Health, or their designated local agencies, rendered to a child referred by a local education agency for an assessment or a handicapped child with an individualized education program, shall be exempt from financial eligibility standards and family repayment requirements for these services when rendered pursuant to this chapter.
7584. As used in this chapter, "handicapped children", "child," or "pupil" means individuals with exceptional needs as defined in Section 56026 of the Education Code.

7585. (a) Whenever any department or any local agency designated by that department fails to provide a related service or designated instruction and service required pursuant to Section 7575 or 7576, and specified in the child's individualized education program, the parent, adult pupil, or any local education agency referred to in this chapter, shall submit a written notification of the failure to provide the service to the Superintendent of Public Instruction or the Secretary of Health and Welfare.

(b) When either the Superintendent of Public Instruction or the Secretary of Health and Welfare receives a written notification of the failure to provide a service as specified in subdivision (a), a copy shall immediately be transmitted to the other party. The superintendent, or his or her designee, and the secretary, or his or her designee, shall meet to resolve the issue within 15 calendar days of receipt of the notification. A written copy of the meeting resolution shall be mailed to the parent, the local education agency, and affected departments, within 10 days of the meeting.

(c) If the issue cannot be resolved within 15 calendar days to the satisfaction of the superintendent and the secretary, they shall jointly submit the issue in writing to the Director of the Office of Administrative Hearings, or his or her designee, in the State Department of General Services.

(d) The Director of the Office of Administrative Hearings, or his or her designee, shall review the issue and submit his or her findings in the case to the superintendent and the secretary within 30 calendar days of receipt of the case. The decision of the Director of the Office of Administrative Hearings, or his or her designee, shall be binding on the departments and their designated agencies who are parties to the dispute.

(e) If the meeting, conducted pursuant to subdivision (b), fails to resolve the issue to the satisfaction of the parent or local education agency, either party may appeal to the Director of the Office of Administrative Hearings, whose decision shall be the final administrative determination and binding on all parties.

(f) Whenever notification is filed pursuant to subdivision (a), the pupil affected by the dispute shall be provided with the appropriate related service pending dispute resolution.
service or designated instruction and service pending resolution of the dispute, if the pupil had been receiving the service. The Superintendent of Public Instruction and the Secretary of Health and Welfare shall ensure that funds are available for provision of the service pending resolution of the issue pursuant to subdivision (e).

(g) Nothing in this section prevents a parent or adult pupil from filing for a due process hearing under Section 7586.

(h) The Superintendent of Public Instruction and the Secretary of Health and Welfare shall submit to the Legislature on July 1 of each year a joint report on the written notifications received pursuant to subdivision (a) on the failure of departments or their designated local agencies to provide occupational therapy, physical therapy, or psychotherapy. This joint report shall include, but not be limited to, a description of the nature of these disputes, a summary of the outcomes of these disputes, and any recommendations for changes to the procedure set forth in subdivision (a) or with regard to any interagency agreement and regulations which might exist as a result of the implementation of this chapter.

(i) The contract between the State Department of Education and the Office of Administrative Hearings for conducting due process hearings shall include payment for services rendered by the Office of Administrative Hearings which are required by this section.

7586. (a) All state departments, and their designated local agencies shall be governed by the procedural safeguards required in Section 1415 of Title 20 of the United States Code. A due process hearing arising over a related service or designated instruction and service shall be filed with the Superintendent of Public Instruction. Resolution of all issues shall be through the due process hearing process established in Chapter 5 (commencing with Section 56500) of Part 30 of Division 4 of the Education Code. The decision issued in the due process hearing shall be binding on the department having responsibility for the services in issue as prescribed by this chapter.

(b) Upon receipt of a request for a due process hearing involving an agency other than an educational agency, the Superintendent of Public Instruction shall immediately notify the state and local agencies involved by sending a copy of the request to the agencies.

(c) All hearing requests that involve multiple services that are the responsibility of more than one state department shall give rise to one hearing.
with all responsible state or local agencies joined as parties.
(d) No public agency, state or local, may request a due process hearing pursuant to Section 56501 of the Education Code against another public agency.

7586.5. Not later than January 1, 1988, the Superintendent of Public Instruction and the Secretary of Health and Welfare shall jointly submit to the Legislature and the Governor a report on the implementation of this chapter. The report shall include, but not be limited to, information regarding the number of complaints and due process hearings resulting from this chapter.

7586.7. The Superintendent of Public Instruction and the Secretary of Health and Welfare shall jointly prepare and implement within existing resources a plan for in-service training of state and local personnel responsible for implementing the provisions of this chapter.

7587. By January 1, 1986, each state department named in this chapter shall develop regulations, as necessary, for the department or designated local agency to implement this act. All regulations shall be reviewed by the Superintendent of Public Instruction prior to filing with the Office of Administrative Law, in order to ensure consistency with federal and state laws and regulations governing the education of handicapped children. The directors of each department shall adopt all regulations pursuant to this section as emergency regulations in accordance with the provisions of Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code. For the purpose of the Administrative Procedure Act, the adoption of the regulations shall be deemed to be an emergency and necessary for the immediate preservation of the public peace, health and safety, or general welfare. These regulations shall not be subject to the review and approval of the Office of Administrative Law and shall not be subject to automatic repeal until the final regulations take effect on or before May 1, 1987, and the final regulations shall become effective immediately upon filing with the Secretary of State. Regulations adopted pursuant to this section shall be developed with the maximum feasible opportunity for public participation and comments.

7588. This chapter shall become operative on July 1, 1986, except Section 7583 which shall become operative on January 1, 1985.

When the California Children's Service medical therapy unit conference team, based on a medical referral recommending medically necessary occupational or physical therapy in accordance with subdivision (b) of Section 7575 of the Government Code, finds that a handicapped child, as defined in Section 250.5, needs medically necessary occupational or physical therapy, that child shall be determined to be eligible for therapy services. If the California Children's Services medical consultant disagrees with such a determination of eligibility by the California Children's Services medical therapy unit conference team, the medical consultant shall communicate with the conference team to ask for further justification of its determination, and shall weigh the conference team's arguments in support of its decision in reaching his or her own determination.

This section shall not change eligibility criteria for the California Children's Services programs as described in Sections 250.5 and 253.5.

been placed out-of-home pursuant to an individualized education program developed under Section 7572.5 of the Government Code. These payments shall not constitute an aid payment or aid program.

(b) Payments shall only be made to children placed in privately operated residential facilities licensed in accordance with the Community Care Facilities Act.

(c) Payments shall be based on rates established in accordance with Sections 11461, 11462, and 11463 and shall be based on providers' actual allowable costs.

(d) Payments for 24-hour out-of-home care under this section shall not result in any cost to the seriously emotionally disturbed child or his or her parent or parents.

18351. (a) Payments shall be issued by the county welfare department to residential care providers upon receipt of authorization documents from the State Department of Mental Health or a designated county mental health agency. The county welfare department located in the same county as the county mental health agency designated to provide case management services shall be responsible for payment under this section. Authorization documents shall be submitted directly to the county welfare department clerical unit responsible for issuance of warrants and shall include information sufficient to demonstrate that the child meets all eligibility criteria established in regulations by the State Department of Mental Health, developed in consultation with the State Department of Education.

(b) The county welfare department shall submit reports to the State Department of Social Services for reimbursement of payments issued to seriously emotionally disturbed children for 24-hour out-of-home care.

18352. County welfare departments may, at their option and with approval of the State Department of Social Services and other appropriate agencies, enter into agreements with other local agencies for the delivery of a single payment for all related services for a seriously emotionally disturbed child to a residential care provider.

18353. When an individualized education program calls for 24-hour out-of-home care, the county welfare department shall provide assistance, as necessary, in identifying a facility suited to the child's needs and in placing the child in the facility.
18354. (a) If a provider of 24-hour out-of-home care to a child who has been placed pursuant to Section 7572.5 of the Government Code in a 24-hour out-of-home placement disputes an action of the designated county mental health agency regarding the provider's eligibility for payment, the provider may request a review of the issue by the designated county mental health agency. Designated county mental health agencies may establish policies and procedures, as may be necessary, to implement this subdivision.

(b) If the issue remains unresolved after the review by the designated county mental health agency, then the provider may request a review of the issue by the State Department of Mental Health. The Director of Mental Health may establish policies and procedures, as may be necessary, to implement this subdivision. The review under this subdivision shall be limited to the issue of whether the eligibility for payment criteria established by the State Department of Mental Health was correctly applied.

18355. Notwithstanding any other provision of the law, 24-hour out-of-home care for seriously emotionally disturbed children who are placed in accordance with Section 7572.5 of the Government Code shall be funded from a separate appropriation in the budget of the State Department of Social Services in order to fund both 24-hour out-of-home care payment and local administrative costs. Reimbursement for 24-hour out-of-home care payment costs shall be from that appropriation, subject to the same sharing ratio as prescribed in subdivision (c) of Section 15200, and available funds. Reimbursements for local administrative costs shall also be from that appropriation, subject to the same sharing ratio as prescribed in Section 15204.2 for the Aid to Families with Dependent Children program, and available funds.

18356. (a) When a local mental health department places a client out-of-state pursuant to Chapter 26.5 (commencing with Section 7570) of Division 7 of Title 1 of the Government Code, it shall prepare a report for the Director of Mental Health. The report shall be sent to the State Department of Mental Health within 15 days after the actual placement.

(b) The report shall summarize the local mental health department's efforts to locate, develop, or adapt an appropriate program for the client within the state. The report shall also identify the circumstances which led to the out-of-state placement, including the child's experience with California placements, distance from the child's

*(Section 18356 Added in 1990)
family, child treatment needs which cannot be met in California placement, and any other factors leading to the placement.

(c) The report shall identify any special circumstances, such as legal interventions, including mediation hearings, fair hearings, compliance complaints, or any other legal procedure resulting in an order which mandates the child's placement out of state.

(d) The report shall identify provisions for case management, case supervision, and family visitation in the case of out-of-state placements.

**EARLY INTERVENTION SERVICES ACT**

(Government Code)

(AB 114 - Chapter 26, Statutes of 1985)

**TITLE 14. CALIFORNIA EARLY INTERVENTION SERVICES ACT**

**CHAPTER 1. GENERAL PROVISIONS AND DEFINITIONS**

**Article 1. General Provisions**

95000. This title may be cited as the California Early Intervention Services Act.

95001. The Legislature finds that handicapped and high-risk infants now survive the newborn period due to greatly improved surgical and medical care services; however, in many communities, services which provide the careful nurturing and stimulation that these infants need to develop to their potential are not available. The Legislature hereby finds and declares that individualized early intervention services for infants, who are at high risk or who have a handicapping condition, and for their families, which provide educational, developmental, health, and social services with active parent involvement, can significantly reduce the potential impact of many handicapping conditions and positively influence later development when the child reaches school age.

The Legislature further finds that infants have unique needs and therefore require both a unique service delivery model, which may be different from any system currently in place in California, and unique program and personnel standards specific to the needs of infants who are at high risk or who have a handicapping condition and their families.
The Legislature further acknowledges that early intervention services are cost-effective, in that these services frequently make productive citizens of children and eliminate the far greater costs of long-term remedial treatment for, and unnecessary lifelong dependency on others.

95002. It is the intent of the Legislature that those agencies which possess the greatest expertise in providing early intervention services to infants and their families in the past continue to provide these services. It is the further intent of the Legislature that existing early intervention services rendered by state and local public agencies and private agencies be coordinated and maximized through interagency services with specific state and local government responsibilities.

95003. It is the intent of the Legislature that the State Department of Health Services, the State Department of Developmental Services, the State Department of Mental Health, the State Department of Social Services, and the State Department of Education work together to provide coordinated, interagency services to handicapped and high-risk infants and their families.

3000. (a) This chapter applies to those special education programs which are administered under a local plan as defined in Section 56027 and Part 30 of the Education Code. Provisions of this chapter shall be construed as supplemental to, and in the context of, Federal laws and regulations relating to individuals with exceptional needs in effect on January 1, 1981, and state laws and regulations relating to individuals with exceptional needs. The intent of this chapter is to assure conformity with the Education for All Handicapped Children Act, Public Law 94-142 (20 USC 1401, et seq.) and Section 504 of the Rehabilitation Act of 1973, Public Law 93-112 (29 USC 794), and their implementing regulations including Title 34, Code of Federal Regulations, Sections 300.1 et seq.; Sections 104.1 et seq.; and Sections 76.1 et seq.

(b) A school district, special education local plan area, or county office shall use federal, state, local, and private sources of support which are available to provide services as specified in an individualized education program.

(c) Nothing in this chapter relieves any other agency from an otherwise valid obligation to provide or pay for services for individuals with exceptional needs. Clarification and specificity of responsibilities shall be included in but not limited to interagency agreements.

[Authority cited: Section 56100(a), (i), and (j), Education Code] [Reference: Sections 56000-56001, Education Code; and 34 CFR 300.301]

3001. In addition to those found in Education Code Sections 56020-56033, Public Law 94-142 (20 USC 1401 et seq.), and Title 34, Code of Federal Regulations, Part 300, the following definitions are provided:

(a) "Applicant" means an individual, firm, partnership, association, or corporation who has made application for certification as a nonpublic, nonsectarian school, or agency.

(b) "Appropriate education," as in 'free, appropriate, public education,' is an educational
program and related service(s) as determined on an individual basis which meets the unique needs of each individual with exceptional needs. Such educational program and related service(s) shall be based on goals and objectives as specified in an individualized education program and determined through the process of assessment and IEP planning in compliance with state and federal laws and regulations. Such an educational program shall provide the equal opportunity for each individual with exceptional needs to achieve his or her full potential, commensurate with the opportunity provided to other pupils.

(c) "Certification" means authorization by the Superintendent for a nonpublic school or nonpublic agency to service individuals with exceptional needs under a contract pursuant to the provisions of Education Code Section 56366(c).

(d) "Contract" means the legal document which binds the public education agency and the nonpublic school or nonpublic agency.

(e) "Contracting education agency," as used in this chapter, means school district, special education local plan area, or county office.

(f) "Credential" means a valid credential in special education or pupil personnel services issued by the California State Commission on Teacher Credentialing.

(g) "Dual enrollment" means the concurrent attendance of the pupil in a public education agency and a nonpublic school and/or a nonpublic agency.

(h) "Feasible" as used in Education Code Section 56363(a) means the individualized education program team:

(1) has determined the regular class teacher, special class teacher, and/or resource specialist possesses the necessary competencies and credentials/certificates to provide the designated instruction and service specified in the individualized education program, and

(2) has considered the time and activities required to prepare for and provide the designated instruction and service by the regular class teacher, special class teacher, and/or resource specialist.

(i) "Instructional day" shall be the same period of time as constitutes the regular school day for that chronological peer group unless otherwise specified in the individualized education program.

(j) "Intensive special education and services" means instruction and services without which the
individual would be unable to develop the skills necessary to achieve educational goals appropriate to his or her developmental and cognitive level or potential. Such instruction and services may be provided in any of the program options as stated in Education Code Section 56361. 

(k) "License" means a valid license issued by the Board of Medical Quality Assurance, Board of Consumer Affairs, Board of Behavioral Sciences Examiners, or other state licensing office authorized to grant licenses which may be applicable to providing services for individuals with exceptional needs. If a license is not available through an appropriate state licensing agency, a certificate of registration with the appropriate professional organization at the national and/or state level which has standards established for the certificate is equivalent to a license.

(1) Linguistically appropriate goals, objectives, and programs means:

(1)(A) Those activities which lead to the development of English language proficiency through the use of the primary language of the individual with exceptional needs; and

(B) Those instructional systems either at the elementary or secondary level which meet the language development needs of the limited English proficient pupil by building on the pupil's existing language skills in order to develop English proficiency.

(2) For pupils whose primary language is other than English, nothing in this section shall preclude the individual learning program, as defined by Section 52163 of the Education Code, from being included in the pupil's individualized education program.

(3) For pupils whose primary language is other than English, and whose potential for learning a second language, as determined by the individualized education program team, is severely limited, nothing in this section shall preclude the individualized education program team from determining that instruction may be provided in the pupil's primary language, provided that the IEP team periodically but not less than annually reconsiders the pupil's ability to receive instruction in the English language.

(m) "Local governing board," for purposes of Section 3081, means either district or county board of education, depending on which agency, district, governing board, or county is alleged to be in
violation of a law or regulation.

(n) "Nonpublic agency" means any private, nonsectarian establishment or individual providing related services necessary for an individual with exceptional needs to benefit educationally from the pupil's educational program.

(o) "Nonpublic school" means any private, nonsectarian school enrolling individuals with exceptional needs, and employing at least one full-time teacher holding an appropriate credential authorizing special education services, and certified by the State Department of Education. The nonpublic school shall meet those standards as prescribed in Section 3062 herein.

(p) "Nonsectarian" status means a nonpublic school or agency that is not owned, operated, controlled by, or formally affiliated with a religious group or sect, whatever might be the actual character of the education program or the primary purpose of the facility.

(q) "Prescribed course of study," as used in Education Code Section 56026(c)(4), means the course of study that is established by the local board of education pursuant to Education Code Section 51000 et seq.

(r) "Primary language" means the language other than English, or other mode of communication, the person first learned, or the language which is spoken in the person's home. In the case of a pupil identified as a pupil of limited English proficiency pursuant to Education Code Sections 52164 and 52164.1, limited English proficiency shall be defined pursuant to Education Code Section 52163(m).

(s) Program means:

"Program," when referring to an individual with exceptional needs, means the individualized education program.

"Program," when referring to an educational agency, means that system of procedures and resources established by a district, special education local plan area, or county office to provide special education.

(t) "Qualified" means that a person has met federal and state certification licensing, registration, or other comparable requirements which apply to the area in which he or she is providing special education or related services, or, in the absence of such requirements, the state-education-agency-approved or recognized requirements, and adheres to the standards of professional practice established in federal and

state law or regulation, including the standards contained in the California Business and Professions Code. Nothing in this definition shall be construed as restricting the activities in the services of a graduate needing direct hours leading to licensure, or of a student teacher or intern leading to a graduate degree at an accredited or approved college or university, as authorized by state laws or regulations.

(u) "Specialized health care services" are those health services prescribed by the pupil's licensed physician and surgeon requiring medically related training for the individual who performs the services and which are necessary during the school day to enable the pupil to attend school.

(v) "Temporary physical disability" means a disability incurred while a pupil was a regular education pupil and which at the termination of the temporary physical disability, the pupil can, without special intervention, reasonably be expected to return to his or her regular education class.

3021. (a) All referrals for special education and related services shall initiate the assessment process and shall be documented. When a verbal referral is made, staff of the school district, special education local plan area, or county office shall offer assistance to the individual in making a request in writing, and shall assist the individual if the individual requests such assistance.
(b) All school staff referrals shall be written and include:
(1) A brief reason for the referral.
(2) Documentation of the resources of the regular education program that have been considered, modified, and when appropriate, the results of intervention. This documentation shall not delay the time lines for completing the assessment plan or assessment.

Authority cited: Section 56100(a), (i), and (j), Education Code [Reference: Sections 56300-56303, Education Code; 34 CFR 300.128, 300.220]

3021.1. (a) When a pupil has been medically diagnosed as having a chronic illness or acute health problem, the pupil may be referred to the school district or county office for an assessment to determine the need for special education.

(b) The following information shall be reviewed by the individualized education program team:
(1) The type of chronic illness;
(2) The possible medical side effects and complications of treatment that could affect school functioning;
(3) The educational and social implications of the disease and treatment to include but not limited to the likelihood of fatigue, absences, changes in physical appearance, amputations, or problems with fine and gross motor control, and

Article 3.1. Individuals with Exceptional Needs

3030. A pupil shall qualify as an individual with exceptional needs, pursuant to Section 56026 of the Education Code, if the results of the assessment as required by Section 56320 demonstrate that the degree of the pupil's impairment as described in Section 3030 (a through j) requires special education in one or more of the program options authorized by Section 56361 of the Education Code. The decision as to whether or not the assessment results demonstrate that the degree of the pupil's impairment requires special education shall be made by the individualized

education program team, including assessment personnel in accordance with Section 56341(d) of the Education Code. The individualized education program team shall take into account all the relevant material which is available on the pupil. No single score or product of scores shall be used as the sole criterion for the decision of the individualized education program team as to the pupil's eligibility for special education. The specific processes and procedures for implementation of these criteria shall be developed by each special education local plan area and be included in the local plan pursuant to Section 56220(a) of the Education Code.

(a) A pupil has a hearing impairment, whether permanent or fluctuating, which impairs the processing of linguistic information through hearing, even with amplification, and which adversely affects educational performance. Processing linguistic information includes speech and language reception and speech and language discrimination.

(b) A pupil has concomitant hearing and visual impairments, the combination of which causes severe communication, developmental, and educational problems.

(c) A pupil has a language or speech disorder as defined in Section 56333 of the Education Code, and it is determined that the pupil's disorder meets one or more of the following criteria:

1. Articulation disorder.
   (A) The pupil displays reduced intelligibility or an inability to use the speech mechanism which significantly interferes with communication and attracts adverse attention. Significant interference in communication occurs when the pupil's production of single or multiple speech sounds on a developmental scale of articulation competency is below that expected for his or her chronological age or developmental level, and which adversely affects educational performance.
   (B) A pupil does not meet the criteria for an articulation disorder if the sole assessed disability is an abnormal swallowing pattern.

2. Abnormal Voice. A pupil has an abnormal voice which is characterized by persistent, defective voice quality, pitch, or loudness.

3. Fluency Disorders. A pupil has a fluency disorder when the flow of verbal expression including rate and rhythm adversely affects communication between the pupil and listener.

4. Language Disorder. The pupil has an
expressive or receptive language disorder when he or she meets one of the following criteria:

(A) The pupil scores at least 1.5 standard deviations below the mean, or below the 7th percentile, for his or her chronological age or developmental level on two or more standardized tests in one or more of the following areas of language development: morphology, syntax, semantics, or pragmatics. When standardized tests are considered to be invalid for the specific pupil, the expected language performance level shall be determined by alternative means as specified on the assessment plan, or

(B) The pupils scores at least 1.5 standard deviations below the mean or the score is below the 7th percentile for his or her chronological age or developmental level on one or more standardized tests in one of the areas listed in subsection (A) and displays inappropriate or inadequate usage of expressive or receptive language as measured by a representative spontaneous or elicited language sample of a minimum of fifty utterances. The language sample must be recorded or transcribed and analyzed, and the results included in the assessment report. If the pupil is unable to produce this sample, the language, speech, and hearing specialist shall document why a fifty utterance sample was not obtainable and the contexts in which attempts were made to elicit the sample. When standardized tests are considered to be invalid for the specific pupil, the expected language performance level shall be determined by alternative means as specified in the assessment plan.

(d) A pupil has a visual impairment which, even with correction, adversely affects a pupil’s educational performance.

(e) A pupil has a severe orthopedic impairment which adversely affects the pupil’s educational performance. Such orthopedic impairments include impairments caused by congenital anomaly, impairments caused by disease, and impairments from other causes.

(f) A pupil has limited strength, vitality or alertness, due to chronic or acute health problems, including but not limited to a heart condition, cancer, leukemia, rheumatic fever, chronic kidney disease, cystic fibrosis, severe asthma, epilepsy, lead poisoning, diabetes, tuberculosis and other communicable infectious diseases, and hematological disorders such as sickle cell anemia and hemophilia which adversely affects a pupil's

educational performance. In accordance with Section 56026(e) of the Education Code, such physical disabilities shall not be temporary in nature as defined by Section 3001(v).

(g) A pupil exhibits any combination of the following autistic-like behaviors, to include but not limited to:

(1) An inability to use oral language for appropriate communication.
(2) A history of extreme withdrawal or relating to people inappropriately and continued impairment in social interaction from infancy through early childhood.
(3) An obsession to maintain sameness.
(4) Extreme preoccupation with objects or inappropriate use of objects or both.
(5) Extreme resistance to controls.
(6) Displays peculiar motoric mannerisms and motility patterns.
(7) Self-stimulating, ritualistic behavior.

(h) A pupil has significantly below average general intellectual functioning existing concurrently with deficits in adaptive behavior and manifested during the developmental period, which adversely affect a pupil's educational performance.

(i) Because of a serious emotional disturbance, a pupil exhibits one or more of the following characteristics over a long period of time and to a marked degree, which adversely affect educational performance:

(1) An inability to learn which cannot be explained by intellectual, sensory, or health factors.
(2) An inability to build or maintain satisfactory interpersonal relationships with peers and teachers.
(3) Inappropriate types of behavior or feelings under normal circumstances exhibited in several situations.
(4) A general pervasive mood of unhappiness or depression.
(5) A tendency to develop physical symptoms or fears associated with personal or school problems.
(6) A pupil has a disorder in one or more of the basic psychological processes involved in understanding or in using language, spoken or written, which may manifest itself in an impaired ability to listen, think, speak, read, write, spell, or do mathematical calculations, and has a severe discrepancy between intellectual ability and achievement in one or more of the academic areas specified in Section 56337(a) of the Education
For the purpose of Section 3030(j):

(1) Basic psychological processes include attention, visual processing, auditory processing, sensory-motor skills, cognitive abilities including association, conceptualization and expression.

(2) Intellectual ability includes both acquired learning and learning potential and shall be determined by a systematic assessment of intellectual functioning.

(3) The level of achievement includes the pupil's level of competence in materials and subject matter explicitly taught in school and shall be measured by standardized achievement tests.

(4) The decision as to whether or not a severe discrepancy exists shall be made by the individualized education program team, including assessment personnel in accordance with Section 56341(d), which takes into account all relevant material which is available on the pupil. No single score or product of scores, test or procedure shall be used as the sole criterion for the decisions of the individualized education program team as to the pupil's eligibility for special education. In determining the existence of a severe discrepancy, the individualized education program team shall use the following procedures:

(A) When standardized tests are considered to be valid for a specific pupil, a severe discrepancy is demonstrated by: first, converting into common standard scores, using a mean of 100 and standard deviation of 15, the achievement test score and the ability test score to be compared; second, computing the difference between these common standard scores; and third, comparing this computed difference to the standard criterion which is the product of 1.5 multiplied by the standard deviation of the distribution of computed differences of students taking these achievement and ability tests. A computed difference which equals or exceeds this standard criterion, adjusted by one standard error of measurement, the adjustment not to exceed 4 common standard score points, indicates a severe discrepancy when such discrepancy is corroborated by other assessment data which may include other tests, scales, instruments, observations and work samples, as appropriate.

(B) When standardized tests are considered to be invalid for a specific pupil, the discrepancy shall be measured by alternative means as specified on the assessment plan.

(C) If the standardized tests do not reveal a
severe discrepancy as defined in subparagraphs (A) or (B) above, the individualized education program team may find that a severe discrepancy does exist, provided that the team documents in a written report that the severe discrepancy between ability and achievement exists as a result of a disorder in one or more basic psychological processes. The report shall include a statement of the area, the degree, and the basis and method used in determining the discrepancy. The report shall contain information considered by the team which shall include, but not be limited to:

1. Data obtained from standardized assessment instruments;
2. Information provided by the parent;
3. Information provided by the pupil's present teacher;
4. Evidence of the pupil's performance in the regular and/or special education classroom obtained from observations, work samples, and group test scores;
5. Consideration of the pupil's age, particularly for young children; and
6. Any additional relevant information.

(5) The discrepancy shall not be primarily the result of limited school experience or poor school attendance.

(1) Is identified as an individual with exceptional needs pursuant to Section 3030, and
(2) Is identified as requiring intensive special education and services by meeting one of the following:

3040. (a) Upon completion of the individualized education program, that individualized education program shall be implemented as soon as possible following the individualized education program team meeting.

(b) A copy of the individualized education program shall be provided to the parents at no cost, and a copy of the individualized education program shall be provided in the primary language at the request of the parent.

(c) The individualized education program shall show a direct relationship between the present levels of performance, the goals and objectives, and the specific educational services to be provided.

3042. (a) Specific educational placement means that unique combination of facilities, personnel, location or equipment necessary to provide instructional services to an individual with exceptional needs, as specified in the individualized education program, in any one or a
combination of public, private, home and hospital, or residential settings.

(b) The individualized education program team shall document its rationale for placement in other than the pupil's school and classroom in which the pupil would otherwise attend if the pupil were not handicapped. The documentation shall indicate why the pupil's handicap prevents his or her needs from being met in a less restrictive environment even with the use of supplementary aids and services.

[Authority cited: Section 56100(a), Education Code] [Reference: Sections 56001(g), 56031, 56341 and 56343, Education Code]

3043. Extended school year services shall be provided for each individual with exceptional needs who has unique needs and requires special education and related services in excess of the regular academic year. Such individuals shall have handicaps which are likely to continue indefinitely or for a prolonged period, and interruption of the pupil's educational programming may cause regression, when coupled with limited recouperation capacity, rendering it impossible or unlikely that the pupil will attain the level of self-sufficiency and independence that would otherwise be expected in view of his or her handicapping condition. The lack of clear evidence of such factors may not be used to deny an individual an extended school year program if the individualized education program team determines the need for such a program and includes extended school year in the individualized education program pursuant to subsection (f).

(a) Extended year special education and related services shall be provided by a school district, special education local plan area, or county office offering programs during the regular academic year.

(b) Individuals with exceptional needs who may require an extended school year are those who:

(1) Are placed in special classes or centers; or

(2) Are individuals with exceptional needs whose individualized education programs specify an extended year program as determined by the individualized education program team.

(c) The term "extended year" as used in this section means the period of time between the close of one academic year and the beginning of the succeeding academic year. The term "academic year" as used in this section means that portion of the school year during which the regular day school is
maintained, which period must include not less than the number of days required to entitle the district, special education services region, or county office to apportionments of state funds.

(d) An extended year program shall be provided for a minimum of 20 instructional days, including holidays. For reimbursement purposes:

(1) A maximum of 55 instructional days excluding holidays, shall be allowed for individuals in special classes or centers for the severely handicapped; and

(2) A maximum of 30 instructional days excluding holidays, shall be allowed for all other eligible pupils needing extended year.

(e) A local governing board may increase the number of instructional days during the extended year period, but shall not claim revenue for average daily attendance generated beyond the maximum instructional days allowed in subsection (d)(1) and (2).

(f) An extended year program, when needed, as determined by the individualized education program team, shall be included in the pupil's individualized education program.

(g) In order to qualify for average daily attendance revenue for extended year pupils, all of the following conditions must be met:

(1) Extended year special education shall be the same length of time as the school year for pupils of the same age level attending summer school in the district in which the extended year program is provided, but not less than the minimum school day for that age unless otherwise specified in the individualized education program to meet a pupil's unique needs.

(2) The special education and related services offered during the extended year period are comparable in standards, scope and quality to the special education program offered during the regular academic year.

(h) If during the regular academic year an individual's individualized education program specifies integration in the regular classroom, a public education agency is not required to meet that component of the individualized education program if no regular summer school programs are being offered by that agency.

(i) This section shall not apply to schools which are operating a continuous school program pursuant to Chapter 5 (commencing with Section 37600) of Part 22, Division 3, Title 2, of the Education Code.

Nonpublic schools or nonpublic agencies may be monitored at any time without prior notice when there is substantial reason to believe that there is an immediate danger to the health, safety, or welfare of a child or group of children. The Superintendent shall document the concern and submit it to the nonpublic school or nonpublic agency at the time of the on-site monitoring. The Superintendent shall request a written response to any noncompliance or deficiency found.

(5) Contact the selected nonpublic school or agency to determine the nonpublic school's or agency's interest and ability to implement the pupil's individualized education program.

(6) Invite the identified and selected nonpublic school or agency representatives to participate in the finalization of the individualized education program.

(7) Ensure that after placement the appropriate nonpublic school or agency personnel participate in any subsequent meetings of the individualized education program team.

(b) A master contract by a district, special education services region, or county office shall be used for contracting purposes. The term of the contract shall not exceed one year. The contract shall specify the administrative and financial agreements between the public education agency and the nonpublic school or agency.
The nonpublic school or agency shall not charge parents for services covered in the contract with the public education agency on a prepayment or reimbursement basis. No contract with the public education agency shall be contingent upon nonpublic school or agency individual contracts or agreements with parents.

If specified in the contract, the nonpublic school may subcontract with State-certified agencies for services.

(c) Components of the Contract. The contract shall include, but not be limited to, the following provisions:

1. General provisions relating to modifications, waivers, disputes, subcontracts, and assignments, contractor status, conflicts of interest, termination, inspection and audits, compliance with applicable state and federal laws and regulations, attendance, record-keeping, and reporting requirements.

2. Payment schedules to include, but not be limited to: payment amounts, payment demand, right to withheld, and audit exceptions.

3. Indemnification and reasonable insurance requirements.

4. Procedures and fiscal responsibilities for attendance and unexcused absences.

(d) Financial Agreements. The nonpublic school or agency may, upon selection, enter into contract negotiations. If the nonpublic school or agency agrees to enter into contract negotiations and has agreed in writing to a final per diem rate for special education and related services, the pupil shall be placed immediately in the nonpublic school or nonpublic agency.

(e) Contracts. Contracts with those nonpublic schools and agencies which will continue to be used by the public education agency for the following school terms, shall be negotiated prior to June 30.

(f) Dual Enrollment.

1. Services may be provided through dual enrollment in public and nonpublic school or nonpublic agency programs to meet the educational requirements specified in the individualized education program. The contract shall specify the provider of each service.

   A. The individual shall be formally enrolled in both nonpublic and public programs.

   B. The nonpublic school or nonpublic agency shall be reimbursed by the local public education agency for services as agreed upon in the contract.

   C. The local public education agency may make claims to the State for all authorized education
services provided by the public education agency.

(g) Transportation of Individuals.

(1) In lieu of providing transportation of an individual, the public education agency may reimburse the parent or nonpublic school subject to a written agreement or contract for cost of actual and necessary travel incurred in transporting the individual with exceptional needs at a rate to be determined by the public education agency governing board, but no less than the rate allowed for travel by the public education agency employees.

(2) As specified in the individualized education program, the public education agency shall authorize payment for the number of trips required by parents or other carriers to transport the individual between home and school.

(3) Individuals with exceptional needs who are authorized to travel by municipal carriers shall be given a monthly pass or other means of paying for the service which may include reimbursement agreed to by the parents.

(4) Individuals placed in residential nonpublic schools by a public education agency shall, if specified in the individualized education program, be transported to and from the facility at no cost to the parents. Additional trips for individuals with exceptional needs, if required during the period of the contract, shall also be specified in the individualized education program. Reimbursement shall be made at the rate of the least expensive air, train, or bus fare. The public education agency shall authorize a per diem to cover expenses for travel which are specified in the individualized education program and consistent with that of the public education agency.

3067. (a) The contracting public education agency and nonpublic school or agency shall notify parents of their responsibility to report each change in residence. Such notice by the contracting public education agency shall be in writing and given at the time nonpublic school or agency placement is recommended. Such notice shall include an explanation that the contract for services is between the contracting public agency and nonpublic school or agency and obligates no other public agency in the event of a residence change.
(b) When an individual receiving services under this article changes residence, and such change constitutes a change of public education agencies, the following shall occur:

(1) The parent shall immediately report the change of residence to the administrator of both the former and new public school and the nonpublic school or nonpublic agency. Failure to do so may result in the parent having the fiscal responsibility until written notification is made, if the parent's failure was willful.

(2) The contracting nonpublic school or nonpublic agency shall immediately notify the superintendent of the public education agencies in both former and new residence areas.

(3) The superintendent or designee of the public education agency making payment to the nonpublic school or nonpublic agency shall immediately notify the new public education agency of the individual's change of residence. This notice shall include a copy of the individual's records, including the individualized education program and the contract for services with the nonpublic school or nonpublic agency.

(c) The pupil's individualized education program shall be reviewed by the new public education agency within fifteen (15) workdays of the receipt of the records. The new public education agency may make an interim placement if it has a comparable public school program that it reasonably believes can meet the pupil's needs for services, including frequency and other considerations as identified in the pupil's individualized education program, or it may allow the pupil to remain at the nonpublic school or agency during the time necessary to complete the individualized education program review. In such case, interim payment shall be made pursuant to paragraph (e) of this section.

(d) The following factors shall be considered by the individualized education program team in determining the continued appropriateness of the nonpublic school or agency:

(1) No appropriate public education program is available.

(2) To move the individual at the time of the change of residence would be harmful to the health, welfare, or educational progress of the individual.

(3) The nonpublic school or agency continues to be within a reasonable distance and/or travel time from the home of the individual.

(4) Other contingencies which necessitate the individual remaining at the nonpublic school as determined by the individualized education program team.
(e) If the individual remains in the nonpublic school or nonpublic agency during the period required to review the pupil's individualized education program, pursuant to paragraph (c), and the individual is registered in the new public education agency, the per diem rate in effect in the prior contract shall be honored by the receiving public education agency and continued until a new contract is negotiated.

(f) After the review has been conducted and if the individualized education program team determines that no appropriate public education program is available, the new public education agency shall negotiate a new contract for nonpublic school services.

1) When the new contract is negotiated, the nonpublic school or nonpublic agency shall adjust the first claim following negotiation of the contract to account for any changes between the interim rate and the final per diem rate.

(2) The per diem rate or the rates for related services shall not be increased by the nonpublic school or nonpublic agency during the then current school year.

(g) The financial responsibility of the former public education agency shall terminate on the last day of the individual's residence in that district.

3068. Review of the pupil's individualized education program shall be conducted at least annually by the public education agency. The public education agency shall ensure that review schedules are specified in the individualized education program and contract for the pupil.

An elementary school district shall notify a high school district of all pupils placed in nonpublic school or agency programs prior to the annual review of the individualized education program for each pupil who may transfer to the high school district.

Article 7. Procedural Safeguards

3080. (a) Section 3081 applies to the filing of a complaint, in accordance with provisions of Title 34, Code of Federal Regulations, Section 76.780-783, regarding a public agency's alleged violation of federal or state law or regulation relating to the provision of a free appropriate public education.

(b) Section 3082 applies to due process hearing procedures which govern the resolution of disagreements between a parent and a public agency regarding the proposal, or refusal of a public agency to initiate or change the identification, assessment, or educational placement of the pupil or the provision of a free appropriate public education to the pupil.

[Authority cited: Sections 56100(a) and (j), Education Code] [Reference: Sections 56500.1, 56500.2, Education Code; and 34 CFR 76.780-783]

3081. (a) Notice and Filing Procedures.

(1) Public education agencies shall annually notify individuals, agencies, and organizations of their right to file a complaint under this section and of the procedures for implementation. Such notification shall include annual notice in a newspaper with local distribution of the right to file a complaint under this section and of the procedures for implementation, and individual notice to parents or guardians in their primary language or other mode of communication at least annually in conjunction with the public education agency's normal notification procedures.

(2) Any individual, public agency, or organization may file a written complaint with the

*New Title 5 Regulations Governing Complaint Procedures are Expected to be Adopted Before July 1, 1991.
Superintendent of Public Instruction with a copy to the involved public agency alleging a matter which, if true, would constitute a violation by that public agency of federal or state law or regulation governing special education and related services.

(3) If the complainant files a written complaint with the superintendent of the concerned public education agency, the local superintendent shall upon receipt transmit the complaint to the Superintendent of Public Instruction, and the procedures in Section 3081(c) shall be followed.

(b) Each person or organization filing a complaint pursuant to Section 3081(a) shall provide any and all information the complainant believes will support the complaint.

(c) The following procedures will be followed by the Superintendent of Public Instruction or his or her designated compliance specialist for the resolution of complaints:

(1) All complaints received by the Department of Education shall be referred to the Special Education Division, which shall designate specific individuals within the Special Education Division who will be responsible for the processing of the complaint. Such individuals shall be knowledgeable of federal and state laws and regulations pertaining to the education of individuals with exceptional needs.

(2) The complainant filing an oral complaint shall be informed of the procedure for filing a written complaint. The complainant shall be informed of the availability of a list of free or low-cost legal services and other relevant services within the geographical area.

(3) Upon receipt of a written complaint, the State Department of Education shall within five (5) days so inform the public agency involved and nonpublic school or agency, as applicable, and the complainant in writing, and a file shall be opened in the Special Education Division. Maintenance of the file shall be in accordance with existing federal and state laws and regulations relating to confidentiality, including Education Sections 49060 et seq.

(4) The complaint shall be reviewed within five days to determine whether direct state intervention is necessary pursuant to Section 3081(d), or whether the complaint must first be investigated by the public education agency pursuant to Section 3081(f).

(d) The State Department of Education shall intervene directly if one of the following criteria is met:

- Information to Support Complaints

- Procedures for Resolution of Complaints

- Direct State Intervention
(1) When the complaint indicates that the public education agency has failed or refused to implement the local-level complaint procedure.

(2) When the complaint indicates that the public agency has failed or refused to implement a final decision from a due process hearing.

(3) When the complaint includes information which indicates that the public agency fails or refuses to comply with the due process procedures or requirements established in federal and state law or regulations to resolve disagreements between the parent and the public education agency through the due process procedures.

(4) When the State Superintendent of Public Instruction or designee determines that the alleged violation presents an immediate danger to the health, safety, or welfare of a child or group of children.

(5) When the complaint indicates that a public agency other than a district, county office, or special education local plan area fails or refuses to comply with federal or state law or regulation relating to the provision of a free appropriate public education.

(e) If the complaint is determined to be appropriate for direct intervention by the State Department of Education, the procedures set forth in Section 3081(i)(2) and (j)(2) shall be followed for such complaint. If the complaint does not meet the criteria for direct State Department of Education intervention, a copy of the complaint shall be sent immediately to the involved local public education agency and the agency shall be directed to implement local complaint procedures in accordance with Section 3081(f). The time lines for local resolution shall commence as of the date of receipt by the involved public education agency of the copy of the complaint. The complainant shall be immediately notified in his or her primary language or other mode of communication by the State Superintendent of Public Instruction or designee of the action taken and of the local procedures to be followed in handling complaints.

(f) Within thirty (30) days from the receipt of the complaint from the State Department of Education, the superintendent or designee of the involved public education agency shall:

(1) Investigate the complaint and prepare a written report of the findings, conclusions, and rationale for the conclusions, and corrective action, if necessary. This report shall be in English and, when necessary, in the primary language or mode of communication of the
complainant, and shall include a notice of the complainant's right to a review of the local decision by the local board of education and State Superintendent of Public Instruction, pursuant to Section 3081(g) and (h) and the procedure to be followed in requesting a review.

(2) Provide the complainant with a copy of the report no later than five (5) days after completion and within the thirty (30) days allowed for investigation and reporting.

(3) Submit a copy to the local governing board and schedule and conduct a hearing before the board within the thirty (30) days allowed, and notify the complainant of the hearing date, time, and location.

(4) Prepare a report of the findings, rationale for conclusions, and corrective actions if necessary, which shall be forwarded by the public education agency to the Special Education Division following the local governing board meeting at which the complaint is scheduled and within the 30 days allowed for investigation and reporting.

(g) The complainant may pursue either of the following remedies if he/she is dissatisfied with the decision rendered by the superintendent of the public education agency or the local governing board of education:

(1) Appear at the scheduled hearing before the local governing board of education regarding the complaint. The local governing board is empowered to affirm, reverse, or revise the decision of the superintendent of the public agency if the complainant has submitted evidence or argument, either written or oral, to the board opposing the local superintendent's decision. If the local superintendent and complainant agree to the superintendent's decision, and the local board disagrees, the local governing board shall provide notice to the complainant and grant the complainant the right to a second hearing before any action is taken to the contrary. This shall be completed within the thirty (30) days specified in Section 3081(f) unless the complainant agrees to an extension of the time line. The complainant may then appeal to the Superintendent of Public Instruction for review of the local decision if he or she is dissatisfied with the local board's resolution.

(2) Waive the right to a hearing before the local governing board and appeal directly to the State Department of Education for review of the local decision pursuant to this section.

(h) Procedure for an appeal of a complaint.

- Remedies Available to Complainant if Dissatisfied with Decision Rendered by Public Education Agency or Local Board

- Procedures for an Appeal
(1) Any appeal to the State Department of Education for review of a district-level decision shall be made within fifteen (15) days following receipt by the complainant of the final written report of the decision of the local governing board.

(i) Procedure for investigation:

(1) Upon receipt of the request for an appeal, the following information shall be obtained, for the purpose of conducting an impartial review:

(A) Copies of all documents prepared and/or reviewed.

(B) Copies of findings, rationale for conclusions, and corrective action when required.

(C) Any other pertinent materials including any submitted by the complainant for this purpose.

(2) Any appropriate actions necessary to investigate the complaint may be taken, including telephone calls and/or on-site visits. At any point in the review either party may submit additional information related to the complaint. As part of the investigation, the complainant shall be provided with an opportunity to respond to information obtained from the public education agency.

(j) Time lines:

(1) If a complaint is appealed to the Superintendent of Public Instruction or designee, the impartial review shall be completed and a written report including findings, conclusions, rationale for conclusions, and corrective action, if necessary, shall be rendered within twenty-five (25) calendar days of the receipt of the request for an appeal. This report shall be in English and, when necessary, in the primary language or mode of communication of the complainant, and shall include a notice of the complainant's right to request a review of the State Department of Education's decision by the federal Education Department pursuant to Title 34, Code of Federal Regulations, Section 76.781 (c).

(2) If a complaint is accepted by the State Department of Education for direct intervention pursuant to Section 3081(d), the complaint shall be investigated and a written report including findings, conclusions, rationale for conclusions, and corrective action, if necessary, shall be completed within thirty (30) days of receipt of the complaint. This report shall be in English, and when necessary, in the primary language or mode of communication of the complainant, and shall include a notice of the complainant's right to request a review of the State Department of Education's
(k) Resolution.

(1) The Superintendent of Public Instruction's compliance report shall be sent to the complainant, the public education agency involved, and the appropriate governing board.

(2) If an investigation pursuant to Section 3081(i) indicates a failure to comply with law or regulation, the public education agency and complainant shall be so informed in the compliance report. If corrective action is required, such action shall be designated in the compliance report, and shall include the time lines for correction and the consequences for continued noncompliance. The State Department of Education retains jurisdiction over the implementation of the corrective action. Records shall be available upon request, pursuant to Government Code Sections 6250 to 6265 and Title 5 California Code of Regulations Section 50 to 51.

(3) The Department of Education shall monitor the public agencies' compliance with any required corrective action through a follow-up procedure.

(4) If there appears to be a failure or refusal to comply with the law or regulations, and if the noncompliance or refusal to comply cannot be rectified by informal means, compliance shall be effected by the Superintendent and the State Board of Education in the most efficient and expeditious manner authorized by law. Such procedures may include, but are not limited to, proceeding in the Superior Court for an appropriate order compelling compliance or proceeding to recover or curtail state funding to the noncompliant local education agency.

(1) No decision to curtail or recover state funding to an education agency shall be made by the Superintendent of Public Instruction or the State Board until:

(1) The Superintendent of Public Instruction or the State Board has determined that compliance cannot be secured by voluntary means.

(2) The public education agency has been notified in writing of its failure to comply and advised of its right to appeal and the basis for the determination of noncompliance.

(3) The expiration of at least thirty (30) days from the mailing or personal service of such notice to the superintendent of the public education agency during which period additional efforts shall be taken by the Superintendent of Public
Instruction to enlist the public education agency's compliance with federal or state law or regulations and to take such corrective action as may be required for compliance.

(m) Post-decision proceedings. A public education agency adversely affected by a decision to curtail state funding shall be restored to eligibility for state financial assistance if it brings itself into compliance with federal or state law or regulations and provides such assurance as the Superintendent of Public Instruction or State Board shall require that it will comply with law or regulations.

(n) Complaints against the State Department of Education can be filed with the State Superintendent of Public Instruction.

(o) The report of state appeals and complaints accepted for initial intervention shall be submitted annually to the State Board of Education as an informational item.

[NOTE: Authority cited: Sections 56100(a) and (j), Education Code] [Reference: Sections 56500.1, 56500.2, Education Code; and 34 CFR 76.780-783]

3082. (a) A parent or public education agency may initiate a hearing pursuant to Education Code Sections 56500 through 56507 and Title 34, Code of Federal Regulations, Sections 300.506 through 300.514 on any of the matters described in Education Code Section 56501. The hearing shall be conducted by a hearing officer knowledgeable in administrative hearings and under contract with the State Department of Education.

(b) The hearings conducted pursuant to this section shall not be conducted according to the technical rules of evidence and those related to witnesses. Any relevant evidence shall be admitted if it is the sort of evidence on which responsible persons are accustomed to rely in the conduct of serious affairs, regardless of the existence of any common law or statutory rule which might make improper the admission of such evidence over objection in civil actions. Hearsay evidence may be used for the purpose of supplementing or explaining other evidence but shall not be sufficient in itself to support a finding unless it would be admissible over objection in civil actions. All testimony shall be under oath or affirmation which the hearing officer is empowered to administer.

(c) In addition to the rights afforded both parties to the hearing pursuant to Education Code
Sections 56500-56507 and Title 34, Code of Federal Regulations, Section 300.514, the parties shall also have the following rights:

(1) To call witnesses, including adverse witnesses, and to cross examine witnesses for the other party.

(2) To compel the attendance of witnesses. The hearing officer shall have the right to issue Subpoenas (order to appear and give testimony) and Subpoenas Duces Tecum (order to produce document(s) or paper(s) upon a showing of reasonable necessity by a party).

(3) Absent compelling circumstances to the contrary, and upon motion to the hearing officer to have witnesses excluded from the hearing.

(d) Hearings shall be conducted in the English language; when the primary language of a party to a hearing is other than English, or other mode of communication, an interpreter shall be provided who is competent as determined by the hearing officer. Cost for an interpreter shall be borne by the State Department of Education.

(e) If either the school district or the parents have an attorney present as an observer, the attorney may watch the proceedings to advise his party at a later date, but the attorney may not present oral argument, written argument or evidence, or consult in any manner in or out of the room, during the due process hearing.
