This bibliography of computer-assisted career guidance resources contains citations that address a variety of topics including the role of the computer and the counselor in providing counseling and career planning services, the implementation process, research and evaluation issues, and comparative descriptions of two or more systems. In general, documents describing a single system are not included in this bibliography. Citations are from the years 1969-1991. Journal articles, dissertations, and monographs are included. (ABL)
The general issues bibliography contains citations that address a variety of topics including the role of the computer and the counselor in providing counseling and career planning services, the implementation process, research and evaluation issues, and comparative descriptions of two or more systems. In general, documents describing a single system have not been included in this bibliography. Citations pertaining to ethical issues and standards are included in a separate bibliography available from the Clearinghouse. Additional information on the above topics may be obtained from the Association of Computer-Based Systems for Career Information Clearinghouse, 1787 Agate Street, Eugene, Oregon 97403, (503) 346-3996.
