This report describes the collection management and development policy of, and the diverse collections housed at, Jacksonville State University's Houston Cole Library. The first part of the report consists of a detailed collection management and development policy statement, beginning with the history of the library, the physical disposition of the collections, and the roles and responsibilities of the Collection Management and Development Group (MDG) and going on to discuss policies on all categories of acquisitions and all related library functions. The second, and larger part of the report, consists of a series of narrative statements describing the library's collections for the following subject areas: agriculture; the Alabama Gallery; American literature; art; audiovisual; auxiliary sciences of history; biology; chemistry; commerce and business administration; communication; criminal justice; drama; education; English literature; family and consumer science; general works; geography and anthropology; geology; government documents; history; languages and related literatures; law; library science and bibliography; mathematical, computing, and information sciences; military science; music; nursing; philosophy; ethics, and religion; physics and engineering; political science and public administration; psychology; sociology and social work; technology; and Western European literature. Included in the appendix are a list of definitions of collection level indicators, a directory of the CMDG members, a 13-item bibliography, and a topical index. (MAB)
ACKNOWLEDGEMENTS

Numerous people have contributed their time, energy, and advice to this project. For their direction and leadership we would like to thank William Hubbard, University Librarian, and Thomas Freeman, Director of Print Media at the Houston Cole Library. For their expertise and assistance we would like to thank Martin Faigel, Acquisitions Librarian, Marshall University; Patricia Henderson, Collection Development, University of Alabama; and Joyce Lamont, Alabama Collection, University of Alabama. We are particularly indebted to Patsy Frost for her energy and her willingness to see the project through. Special thanks go to the members of the Collection Management and Development Group for all their work.

PREFACE

In 1989, recognizing that the Houston Cole Library had no formal Collection Management and Development Policy, development of such a policy was identified as an objective in the library’s first five-year plan. Under the mandate of William Hubbard, the University Librarian, the Collection Management and Development Group was created. The goals of this group were: to write a collection management and development policy; to assess the library’s collections using accepted standardized measurement techniques; and to describe the collection in a comprehensible language for comparability with the Network of Alabama Academic Libraries and libraries throughout the country.

Using sample policies from a variety of academic libraries and following the outline of the American Library Association’s Guide for Written Collection Policy Statements, the General Collection Management and Development Policy was written and a boilerplate was created for the subject specialists to describe their diverse collections. Assessment of the collections was done following techniques evaluated by the American Library Association’s Guide to the Evaluation of Library Collections and Nancy Powell’s Pacific Northwest Collection Assessment Manual.

Because of staff and time considerations, the Collection Management and Development Group elected to employ the following evaluation methodologies: check-lists; direct collection examination; shelflist measurements; WLN Conspectus sheets; and comparative analysis of statistics extracted from the OCLC/AMIGOS Collection Analysis Service.

As collection assessment is a continuous process, the resulting evaluations have been compiled in a loose-leaf format to facilitate updating. This companion volume to the Houston Cole Library Collection Management and Development Policy and Statement is entitled The Houston Cole Library Collection’s Assessments.
Jacksonville State University

Houston Cole Library

Collection Management and Development Policy
I. Introduction

A.) Jacksonville State University's Collection Management and Development Policy describes the Houston Cole Library's collection management and acquisition endeavors and their relationship to the needs of the University's academic, research, and service programs. The policy is directed primarily to the library's subject specialists, Acquisitions Librarian, Serials Librarian, Director of Nonprint Media, Alabama Gallery Librarian, and Government Documents Librarian, and secondarily to the teaching faculty and instructional staff of the University. A tertiary audience, who may find it useful, would include interested patrons and potential resource-sharing libraries and institutions within the state and region. The policy is a combination of narrative statements that follow the format outlined in the American Library Association's Guide for Written Collection Policy Statements and qualitative and quantitative assessments. The assessments are derived from a combination of shelflist measurements, list checking, and conspectus data adapted from the WLN Collection Assessment Services collection assessment manual.
B.) Jacksonville State University is a state-supported, coeducational institution located in Northeast Alabama, serving primarily the citizens of that area. Its purpose is to provide quality education, integrating traditional academic pursuits with career-oriented programs. The undergraduate colleges offer the B.S., B.A., B.F.A., B.S. in Education, B.Mu, B.S.W., and B.T. degrees, and basic engineering and pre-professional training for medicine, law, veterinary medicine, pharmacy, and agriculture. The Graduate School offers the M.A., M.S., M.S. in Education, M.B.A., M.P.A., and Ed.S. degrees. In addition, the University provides service to the communities in Northeast Alabama through consulting and research activities and continuing education programs.

C.) The Collection Management and Development Policy is intended to assist the various librarians in the selection of library materials for the collections and to serve as a guide to library resources for the faculty and other patrons. It supports the librarians in the decision-making process regarding routine acquisitions, serials and standing orders, gifts and exchange assessments, and in establishing priorities to guide organization, retrospective conversion, and preservation decisions. In addition, the policy defines the scope of the
existing collections and outlines recommendations for future development of collections. It describes collection management and development practices to assist librarians and teaching faculty with the selection and deselection/replacement of materials in a consistent and fiscally responsible manner. The policy is intended to build better communication lines between teaching faculty and librarians with collection development responsibilities, enabling them to evaluate progress in meeting collection goals. It should provide basic information to prepare and allocate library materials funds. Finally, it should document areas in which cooperative programs exist, and serve as the basis for identifying areas for future cooperative collection development programs.

D.) The Houston Cole Library adheres to the position governing censorship and intellectual freedom adopted by the Council of the American Library Association and published in the association's Library Bill of Rights.

E.) Jacksonville State University traces its origins to the establishment, in 1836, of the Jacksonville Male Academy and, in 1837, of the Jacksonville Female Academy. In 1869, Calhoun College was founded; two years later Jacksonville Male Academy merged with the college. The Alabama Legislature, in 1883,
established the State Normal School, whereupon Calhoun College closed its doors transferring its land, its one building, books and equipment to the school, which previously had absorbed the Jacksonville Female Academy. In 1929, the State Board of Education authorized the normal schools in Alabama to become four-year degree-granting institutions, thus Jacksonville State Normal School became Jacksonville State Teachers College. Because of the diversity of the curriculum, the word "Teachers," was dropped from the institution's name in 1957. In 1966, the Alabama Legislature and the Alabama State Board of Education changed the college's name to Jacksonville State University, removing administration of the institution from the State Board of Education to a Board of Trustees.

The Library at Jacksonville State University reflects this diversified past. Information about the Library and its collections prior to 1913 is sketchy. The first library facility mentioned in the Normal School Bulletin, appeared in the 1913 issue and relates that the Library was housed in Hames Hall. After one renovation of the Library, in 1924, the collection was moved to the third floor of Bibb Graves in 1930. Funds from the Public Works Administration enabled the college, in 1939, to erect its first totally dedicated library building,
which was subsequently named the Ramona Wood Library, after the College Librarian who served from 1921-1953. Wings were added to the Library in 1963 and 1968. In 1972, the Houston Cole Library was completed and Ramona Wood was remodeled to house the College of Education. With thirteen stories the Houston Cole Library stands as the tallest academic edifice in the state. The number of books transferred from Calhoun College to the Normal School is not known, but one source indicates that the school held approximately 1,000 books and subscribed to 20 journals and newspapers by the turn of the century. Accession records date from 7 April 1908 and report holdings of 996 volumes. Between 1908 and 1940 the collection grew to 37,000 volumes, reflecting an annual growth rate of slightly over 1,000 volumes. The collection continued to grow slowly until the middle 1960's when the institution envisioned its mission as that of a comprehensive university, supporting the teaching, research, and service functions of its larger and increasingly diverse faculty and student body. This change in philosophy witnessed a significant increase in the library operations budget; the book budget increased from $30,000 to over $300,000 between 1961 and 1971. The rapid increase also witnessed the growth in the number of professional librarians to maintain the
collections and a marked variety in the format of library materials acquired. As the University's mission began to encompass a more comprehensive research purpose, the library began to purchase primary source materials to fulfill this mission. In the mid-eighties the availability of funds did not increase with the inflation rate of library materials, thus decreasing the number of titles added each year. This decline in purchasing power is illustrated by the decrease in the number of titles added: from 19,600 in 1977 to 7,500 in 1987. Despite the library's inability to keep abreast of inflationary monographic and serials costs the current library holdings reflect a respectable collection consisting of over 500,000 monographic volumes, 68,000 bound serials, 2,000 current journal subscriptions, 900,000 microforms, and 25,000 audio visual items. The physical environment of the Houston Cole Library has, to a great extent, dictated the arrangement of the collections and the operations of the public services librarians. Housed in a thirteen-story tower, the collections have had to be divided onto nine separate floors. This arrangement has necessitated that not all library materials would be organized in a sequential Library of Congress Classification (LCC) scheme, as in most libraries. It has, however, given the
opportunity for Librarians to arrange the collections along an interdisciplinary concept. Thus, with the exceptions of the second, fifth, and tenth floors, the library materials are organized in LCC and Dewey sequences and share some subject relationship. The collections are housed in the following arrangement:

<table>
<thead>
<tr>
<th>Basement:</th>
<th>Audio-Visuals</th>
</tr>
</thead>
<tbody>
<tr>
<td>2nd Floor:</td>
<td>General Works; Auxiliary Sciences of History; Philosophy, Ethics, &amp; Religion; Library Science &amp; Bibliography; Psychology</td>

</table>

F.) The primary members of the Collection Management and Development Group (CMDG) are the subject specialists, the Serials Librarian, the Acquisitions
Librarian, the Director of Nonprint Media, the 
Alabama Gallery Librarian, and the Government 
Documents Librarian. They meet as a group to discuss 
common problems and goals, and to develop methods to 
facilitate the selection and acquisition of 
essential library materials. Equally important are 
their formal and informal liaisons with various 
library user groups. The subject specialists 
and selective librarians are expected to maintain 
close communications with the teaching faculty and 
avademic departments within their disciplines to 
insure currency and appropriateness of selected 
materials, and to prepare for future programs and 
departmental needs. Members of CMDG are also guided 
in the selection process through professional 
readings and involvement in extracurricular 
University and Library activities. Informal liaisons 
are maintained with teaching faculty, students and 
other library patrons through the subject 
specialist’s and librarian’s capacity as a reference 
or resource person. This contact with library 
patrons permits the librarian to assess on a daily 
basis the circulation, usage, and research needs of 
the University community.

G.) In addition to their responsibility as selectors and 
departmental liaisons, the CMDG members share a 
responsibility to develop and enact programs and
policies for the management of the library's collections. These responsibilities include a program for the preservation of library materials, the development of a library storage plan, a library materials deselection/replacement policy, and a current library disaster plan. In order to accomplish these goals, the CMDG must work closely with the library administration and the technical services librarians to insure that the policies and the programs developed reflect current and cost-effective library management practices.

H.) Currently Jacksonville State University has no cooperative collection development agreements with any other institutions in the state or region. It does, however, enjoy membership in the Network of Alabama Academic Libraries (NAAL), which promotes and funds resource-sharing throughout the state through selective acquisitions and collection enhancement grants. Other resource-sharing programs which the Houston Cole Library participates in are the ALICAT State Union Catalog, and the Alabama Union List of Serials (AULS), both administered by the Alabama Public Library Service (APLS). Both programs enhance interlibrary loan cooperation throughout the state. Another cooperative endeavor involves the Library and the Gadsden-Etowah County Library in the generation of a "Collection and
Holdings Lists," extracted from the Government Printing Office’s List of Item Selections. In addition, Jacksonville State University offers upper-division, off-site degree programs at Gadsden State Community College. The Library supports these programs through telefacsimile (FAX) and online catalog services for the students and faculty.
II. General Collection Management and Development Policy

Monographs: The teaching faculty is invited and encouraged to participate in the Collection Management and Development process. Monographic orders are accepted from any faculty member, staff member, or student. The majority of requests are initiated by nonlibrary faculty. Requests are routed to the Acquisitions Librarian, who then routes them to the appropriate subject specialist. The subject specialist reviews the request to check for duplication and determines its appropriateness for inclusion in the collection. If acceptable, the request is returned to the Acquisitions Librarian for processing and encumbrance.

Serials: Usually, serial orders are initiated by the teaching faculty or the subject specialists and are placed with the Serials Librarian. For teaching faculty requests, the Serials Librarian evaluates and places in priority order the requested new subscriptions and routes them to the appropriate subject specialist. After a second evaluation and priority ranking, the request is returned to the Serials Librarian. Due to the unique nature of serials, new subscription requests are normally held until the annual renewal date. New orders are dependent upon cancellations of current subscriptions and the status of the upcoming fiscal
year's serials budget.

A.) Format of Material:

1.) Monographs: Monographs are acquired for all disciplines. They are usually acquired through jobbers who purchase the materials from trade, professional, and university press publishers. In addition, other monographs are acquired through standing orders, blanket orders, approval plans, and by direct purchase from the publisher.

2.) Serials: EBSCO is the library's serials vendor and most subscriptions and serial standing orders are acquired through its service. Selected serials are ordered directly from the publisher or association. Serials are purchased in all areas of the curriculum, as are those of a popular or current awareness nature.

3.) Newspapers: Newspapers are acquired on a selective basis. Emphasis is placed on regional, state, and major U.S. and foreign newspapers. Indexed newspapers receive highest priority. Selected newspapers are bound or purchased on microform.

4.) Loose-leaf Materials: Both the Acquisitions and Serials departments subscribe to loose-leaf and update services.
5.) **Textbooks:** With the exception of the materials for the Textbook Collection, the acquisition of textbooks is strongly discouraged. Exceptions are allowed at the specific request of an instructor, who requests the material for Reserve, or when the work itself is of a seminal, historical, or other significant nature.

6.) **Reprints:** Reprints are evaluated in the same manner as other monographic and serial requests.

7.) **Dissertations and Theses:** Acquired on a selective basis, usually at the request of a teaching faculty member. One copy of all theses from Jacksonville State University is acquired for the Alabama Gallery.

8.) **Paperbacks:** Acquired when hardcover copy is unavailable or is of such prohibitive cost that the paper copy purchase is justified.

9.) **Microforms:** Monographic microforms are acquired on a selective basis. Serials microforms are regularly purchased with regard to price, space, and usage considerations.

10.) **Maps:** Maps and charts are purchased on a selective basis. GPO maps are supplied as part of the Selective Depository program and are housed in the JSU Map Library located in Martin Hall.
11.) **Pamphlets:** With the exception of one standing-order plan, pamphlets are acquired only on a highly selective basis. Preference is given to free items.

12.) **Art Works:** Not collected.

13.) **Posters:** Are acquired on a very selective basis. Preference is given to free items.

14.) **Musical Scores:** Musical scores are purchased selectively.

15.) **Sound Recordings:** Sound recordings are collected. Most music sound recordings are housed in Mason Hall after they are processed by the Technical Services Department.

16.) **Audio-Visual Materials:** All nonprint media and multimedia formats are acquired. All library audio-visual materials are housed in the Audio-Visual Department in the basement of the Houston Cole Library.

17.) **Machine-Readable Data Files:** Computer software packages are purchased on a very selective basis as budget permits. Library materials containing computer software are classified as kits and housed in the Audio-Visual Department.

18.) **Vertical File Materials:** Are acquired on a very selective basis. Preference is given to free materials.
B.) Special Collections of Rare Books, Manuscripts, Realia, or Archival Materials: The Houston Cole Library collects as exhaustively as possible library and archival materials relating to Alabama. Alabamiana is defined as materials written by Alabama authors, materials about Alabama, or about Alabamians. In addition, works relating to JSU are actively sought and housed in the Alabama Gallery. Normally, rare books are not purchased, but donations of rare items are accepted for inclusion in the Alabama Gallery's Rare Book Collection. In addition, circulating materials that are found to be unique are transferred to the Rare Book Collection.

C.) Languages and Translations: Preference is given in all selections to English editions or to those works translated into English. Exceptions include, but are not limited to, works intended for the foreign language programs.

D.) Local Authors' Publications: Works by state, local, and University authors are collected extensively. They are housed in the Alabama Gallery.

E.) Popular versus Scholarly Works: Priority is always given to scholarly works, but a selective number of materials are ordered to cover the leisure and remedial reading needs of the library patrons.

F.) Multiple Copies: Purchased when high demand is
demonstrated or anticipated, and at the request of teaching faculty members when proper justification can be shown. Two copies of Alabama materials, one for the Alabama Gallery and a second for the circulating collection, are purchased when available and budget permits.

G.) **Reserve Materials:** Reserve materials hold the highest acquisition priority and are collected in all formats. All efforts are made to insure that materials requested for the Reserve area are acquired and processed in a timely manner. Requests are generated by the teaching faculty or the subject specialists based on curriculum support and patron demand. The Reserve area is located on the second floor of the library.

H.) **Reference Works:** Each subject collection has a supporting reference section. Works that are considered general reference in nature are acquired for the General Works Collection. Every effort is made to ensure that the reference collections are current in content and reflect the principal reference sources for each discipline.

I.) **Government Publications:** The Houston Cole Library is a selective depository for United States Superintendent of Documents Publications. Selected documents are purchased in addition to those publications required by the depository program.
J.) **Acquisition Procedures Affecting Collections Policies:**

1.) **Standing Orders:** Refer to the Narrative Description section in each Subject Collection Policy for information pertaining to standing orders for that discipline.

2.) **Blanket Orders:** Refer to the Narrative Description section in each Subject Collection Policy for information pertaining to blanket orders for that discipline.

3.) **Approval Plans:** Refer to the Narrative Description section in each Subject Collection Policy for information pertaining to approval plans for that discipline.

K.) **Expensive Purchases:** Criteria are based on current and anticipated need, cost, availability of funds, other sources that might fulfill needs, and other libraries in the region that might consider purchase.

L.) **Deselection/Replacement:** Deselection involves the removal from the active collection of materials to be discarded, stored, or transferred to a special collection. Replacement involves the acquisition of materials previously held and deselected by the library. Primary responsibility for deselection/replacement decisions lies with the subject specialists. Teaching faculty will be
consulted when appropriate. Criteria for
deselection/replacement of material:

1.) **Missing Materials**: Materials missing in
inventory after three semesters will be
withdrawn from the catalog. Replacement is
dependent upon the material’s meeting the
current selection criteria, availability, and
budget.

2.) **Physical Condition**: Materials deselected for
reason of poor condition will be replaced if
they meet the selection criteria, are available,
and budget permits. If replacement copy is
unavailable for an item still needed in the
collection, every effort should be made to
preserve it.

3.) **Obsolescence of Information**: Materials that
contain obsolete or erroneous information and do
not retain some historical, seminal, or research
value should be deselected. This factor is
particularly applicable in rapidly changing
fields such as technology and the sciences.

4.) **Multiple Copies**: Excess multiple copies of
seldom used titles should be deselected.

5.) **Later Editions**: Replacement by later edition
depends on subject matter, length of time
between editions, circulation, or extent of
revision.
6.) **Government Documents**: Documents, except when superseded, must be retained for five years. Discarding will be done in accordance with the Government Printing Office Policy as stated in *Instructions to Depository Libraries*. Documents are replaced following standard selection criteria.

7.) **Superseded Works**: Works superseded or cumulated in more comprehensive publications should be deselected.

M). **Gifts and Exchanges**: The Library will accept donations of library materials and monetary gifts designated for the purchase of library materials in accordance with the following criteria:

1.) Publications received as gifts will be evaluated by the same standards as apply to new materials being selected.

2.) The Library has the right to retain or dispose of any gift materials at the discretion of the librarians. Donors should be made aware of this.

3.) Normally, the library will not accept added copies of materials already in the collection.

4.) Appraisal of gift materials to the library is the responsibility of the donor. The library does not appraise gifts.
5.) Gift materials requiring continuing obligations on the part of the Library should not be accepted without serious consideration of the library's ability to keep the materials up-to-date.

6.) Currently the Library has an exchange agreement with EBSCO's Missing Copy Bank. Other deselected materials are offered for purchase to backfile vendors. Materials that are not sold are offered to other libraries for reimbursement of postal charges.

N.) Faculty Selection: The teaching faculty is strongly encouraged to take an active role in the collection management and development process. As the primary developers and implementors of curriculum and research activities at Jacksonville State University, they are in a unique position to insure that items requested for acquisition by the library will support appropriately those endeavors. Requests for materials should be routed to the designated subject specialist for their department or to the Acquisitions Librarian (monographs), Serials Librarian, or the Director of Nonprint Media. For detailed information on the ordering process refer to the Monographs and Serials Sections of the General Collection Management and Development Policy.
0.) **Online Databases:** The purpose of the Online Database Search Service is to provide users with access to sources not owned by the library, to sources available only online, and to provide customized bibliographies. A decision not to purchase a particular resource is not based solely on its availability online.

P.) **Interlibrary Loan Service:** The purpose of the Interlibrary Loan Service is to provide user access to materials not owned by the library, following the guidelines established by the American Library Association. A decision not to purchase a particular item is not based on its availability through ILL.

Q.) **Recommended Collection Levels:** Collection level codes are used to determine collection levels, acquisition commitment, and collection goals. Within each collection narrative statement, a recommended collection level code is given to indicate the desired collection level for that particular collection; within each collection assessment statement a code is provided to indicate the current collection level. The codes are based on the collection level indicators of the Pacific Northwest Collection Assessment Manual. An explanation of the codes is provided in the appendix to the Houston Cole Library Collection Management and Development Policy.
NARRATIVE STATEMENTS
AGRICULTURE

Purpose and Emphasis: As there is not a degree program in the area of Agriculture, the primary purpose and emphasis of the Agriculture collection is to support teaching and research in the degree areas related to this field: Biology, Business and Economics, and Family and Consumer Science. Secondary support is directed to faculty teaching and research and research assistance for students with special research projects and interests.

Collection Guidelines:

a.) Languages: English is the principal language of the collection. Works written in languages other than English are purchased selectively and usually in English translation.

b.) Chronological Coverage: Emphasis is on the 20th-century; however, no period is excluded from consideration for the collection.

c.) Geographical Coverage: Primary emphasis is on Agriculture in the United States; secondary emphasis is on Agriculture in other countries.

d.) Format: Books, periodicals, non-print media, and selected materials in microforms and machine-readable data files.

e.) Types of Materials: Included are encyclopedias, directories, dictionaries, handbooks, bibliographies, biographies, statistical
publications, analytical reports, monographs, and journals. Publications and proceedings of professional organizations and pertinent local, state, and federal documents are acquired. Theses and dissertations are purchased selectively.

f.) Treatment of Subject: Publications encompassing animal husbandry, landscaping, forestry, aquaculture, wildlife management, plant culture, farm management, and soil conservation are acquired extensively. Historical material dealing with the development of Agriculture, including biographies and autobiographies are collected. Materials on legal and ethical aspects of agriculture and works written on a popular level are purchased selectively.

g.) Date of Publication: Current in-print publications receive priority; however, selected retrospective publications are purchased in available formats as budget permits.

h.) Reference Collection: The Reference Collection mirrors and supports the retrospective contents and current acquisition practices outlined in the Biology collection management and development statement. To this end, major English language abstracts, indices, and bibliographies are purchased to provide access to the literature of Agriculture. Standard agricultural dictionaries, encyclopedias,
handbooks, directories, yearbooks, and biographical references, and statistical abstracts are updated regularly.

i.) Acquisition Plans Affecting Agriculture Collection:

1.) Standing Orders: None
2.) Blanket Orders: None
3.) Approval Plans: None

j.) Deselection/Replacement: Currency is of primary importance in the field of Agriculture. Every effort is made to insure that the collection is up-to-date and germane to the degree programs offered. Thus, erroneous or dated materials are prime candidates for deselection/replacement, unless they retain some seminal or historical value. Materials for deselection or replacement are evaluated in accordance with the General Collection Management and Development Policy statement on Deselection/Replacement.

Related Subject Statements: Audio-Visual, Biology, Chemistry, General Works

Classifications That Define Scope of Collection: 630’s, S-SK

Recommended Collection Level: 3aE
ALABAMA GALLERY

**Purpose and Emphasis:** The primary purpose and emphasis of the Alabama Gallery Collection is to serve researchers whose interests pertain to Alabamiana. The Gallery consists of two divisions: The Alabama Collection and the Rare Book Collection.

**Collection Guidelines:**

a.) **Languages:** English is the principal language of the collection. However, other languages are not excluded.

b.) **Chronological Coverage:** No limitations.

c.) **Geographical Coverage:** Alabama for the Alabama Collection. No limitations for the Rare Book Collection.

d.) **Format:** Manuscripts, books, periodicals, realia, photographs, maps, posters, memorabilia, and microforms.

e.) **Types of materials:** Included are encyclopedias, dictionaries, directories, handbooks, bibliographies, biographies, maps, monographs, journals, bulletins, newspapers, posters, handbills, travel-guides, yearbooks, rare books, and vertical file materials. Theses and dissertations pertaining to Alabama are purchased.

f.) **Treatment of Subject:** Publications encompassing Alabama or Alabama authorship are collected
extensively. Archival copies of all theses completed at Jacksonville State University are acquired. In addition, the Alabama Gallery serves as the primary agency for preservation of historical materials relating to Jacksonville State University. When possible two copies of Alabamiana are purchased, one for general circulation and one for the Alabama Collection. Rare books include, but are not limited to, early imprints, autographed books, first editions, and books with unique features.

g.) **Date of Publication:** For the Alabama Collection, in-print publications receive priority; however, selected retrospective materials are purchased as budget permits. There is no limitation on imprint dates for the Rare Book Collection.

h.) **Reference Collection:** Not applicable.

i.) **Acquisitions Plans Affecting Alabama Gallery Collection:**
   1.) **Standing Orders:** None
   2.) **Blanket Orders:**
      - University of Alabama Press Publications
   3.) **Approval Plans:** None

j.) **Deselection/Replacement:** Currency of materials is not a major criterion for assessment, thus deselection/replacement is kept to an absolute minimum. Materials for deselection or replacement are evaluated in accordance with the General Collection Management.
and Development Policy statement on
Deselection/Replacement.

Related Subject Statements: All others in the Collection
Management and Development Policy

Additional Resources: Online databases, Alabama Department of
History and Archives

Collection Assessment Tools: Alabama Authors and Their Works 20th
Century; Waldrop, Ruth W. Alabama Authors Books in Print.

Recommended Collection Level: N/A
AMERICAN LITERATURE

Purpose And Emphasis: The primary purpose of the collection is to support teaching and research at the Core Curriculum, Baccalaureate, and Master levels. Baccalaureate degrees offered are the Bachelor of Arts in English and the Bachelor of Science in Education, for those majoring in the teaching fields of English or Language Arts. In addition, support is given to the minors in English, Creative Writing, and Business and Technical Writing. At the Master level support is directed for the Master of Arts in English. Further support is provided for the Master of Science in Education and the Educational Specialist degrees for those majoring in Secondary Education in the teaching fields of English or Language Arts. Secondary support is directed to faculty teaching and research. The interdisciplinary nature of these studies requires that students and faculty consult related collections in the library.

Collection Guidelines:

a.) Languages: English is the principal language of the collection. Works written in languages other than English are acquired very selectively and usually in English translation.

b.) Chronological Guidelines: No limitations.

c.) Geographical Guidelines: Geographic guidelines are dictated by the authors' country of origin. Thus, the American Literature collection consists of publications by and about American authors.
d.) **Format:** Books, periodicals, nonprint media, and selected materials in microforms and machine-readable data files.

e.) **Types of Materials:** Included are anthologies, atlases, bibliographies, concordances, dictionaries, directories, encyclopedias, monographs, periodicals, handbooks, and professional proceedings. Dissertations and theses are purchased selectively.

f.) **Treatment of Subject:** All literary genres are collected. Publications of major American authors and those authors emphasized in the curriculum are given priority. Supplementary materials of a biographical, bibliographic, critical, historical, or textual nature are collected intensively. Priority is always given to scholarly works, but a selective number of materials such as an author's first work, bestsellers, or popular fiction are acquired.

g.) **Date of Publication:** Current in-print publications receive priority; however, retrospective materials are purchased in available formats as budget permits.

h.) **Reference Collection:** The Reference Collection mirrors and supports the retrospective contents and the current acquisition practices outlined in the American Literature collection management and development statement. To this end, major English language abstracts, indices, and bibliographies are purchased to provide access to American Literature. Standard
literary dictionaries, encyclopedias, handbooks, biographical references, directories, and yearbooks are updated regularly.

i.) Acquisition Plans Affecting the Collection:

1. Standing Orders:
   - Alabama Literary Review
   - Alalitcom
   - American Literary Scholarship

   - Twentieth Century Literary Criticism
   - Understanding Contemporary American Literature
   - Yearbook of Comparative and General Literature

2. Blanket Orders: None
3. Approval Plans: None

j.) Deselection/Replacement: Currency of materials is not a major criterion for assessment, thus deselection/replacement is kept to an absolute minimum. Materials for deselection or replacement are evaluated in accordance with the General Collection Management and Development Policy statement on Deselection/Replacement.

Related Subject Statements: Art, Audio-Visual, Communications, Drama, English Literature, General Works, History, Languages and Related Literatures, Music, Western European Literatures

Additional Resources: Online databases and other academic institutions in the state of Alabama and the region

Classifications That Define Scope of Collection: 810-819, PS

Recommended Collection Level: 3cE
Purpose and Emphasis: Primary support is directed to teaching and research in the areas of the Core Curriculum and the Baccalaureate Art Program: Studio Art (painting, drawing, printmaking, ceramics, photography and commercial design) and Art History. Secondary support is directed to faculty research and teaching and research assistance for local area artists. The interdisciplinary nature of these studies requires that students and faculty consult related collections in the library.

Collection Guidelines:

a.) Languages: English is the principal language of the collection. Works written in languages other than English are purchased selectively and usually in English translation.

b.) Chronological Coverage: Emphasis is on the 20th-century, but no period is excluded from consideration for the collection.

c.) Geographical Coverage: Primary emphasis is on art and artists of the United States; secondary emphasis is on European art and artists. Selected purchases of materials covering non-western and primitive art are collected.

d.) Format: Books, periodicals, nonprint media, and selected materials in microforms and machine-readable data files.
e.) Types of Material: Included are encyclopedias, directories, dictionaries, handbooks, catalogues, bibliographies, biographies, art monographs, and art journals. Pertinent local, state, and federal government documents are acquired, as are the publications and proceedings of professional organizations such as the College of Art Association. Dissertations and theses are purchased selectively.

f.) Treatment of Subject: Works on the history, technique, and development of art, including biographies and autobiographies of artists and other prominent people in the art world, are collected. Materials on legal, ethical, social, educational, and psychological aspects of art as well as works written on a popular level to explain art to the nonartist are acquired. Less essential items, such as works on aesthetics or research publications in art education, are purchased selectively. Monographic works treating the craftsman, the collector, or museum researcher are acquired discriminately.

g.) Date of Publication: Current in-print publications receive priority; however, retrospective materials are purchased in available formats as budget permits.
h.) Reference Collection: The Reference Collection mirrors and supports the retrospective contents and current acquisition practices outlined in the Art collection management and development statement. To this end, major English language art abstracts, indices, and bibliographies are purchased to provide access to the literature of art history and creative work. Standard art dictionaries, biographical references, encyclopedias, handbooks, and directories are updated regularly.

i.) Acquisition Plans Affecting Art Collection:

1.) Standing Orders:
   
   Antiques and Their Prices  
   Art Director's Annual  
   Best in Advertising  
   Best in Covers and Posters  
   Best in Environmental Graphics  
   Best in Exhibition Design  
   Best in Packaging  
   Graphics Design Annual  
   Illustrators  
   Modern Arts Criticism  
   Muquarnas  
   Photographs  
   Warmans Antiques and Their Current Prices

2.) Blanket Orders: None

3.) Approval Plans: None

j.) Deselection/Replacement: Currency of materials is not a major criterion for assessment, thus deselection/replacement is kept to an absolute minimum. Materials for deselection or replacement are evaluated in accordance with the General Collection Management and Development Policy.
statement on Deselection/Replacement.

Related Subject Statements: American Literature, Audio-Visual, Business and Commerce, Drama, Education, English Literature, General Works, History, Languages and Related Literatures, Music, Psychology, Western European Literature

Additional Resources: Online databases, Birmingham Museum of Art and other academic institutions in the state of Alabama and the region

Classification That Define Scope of Collection:

720-779, N-NX, TR, TX

Recommended Collection Level: 3bE
Purpose and Emphasis: The Audio-Visual Collection embraces the Sciences, Humanities, Social Sciences, Fine Arts, and Technology. The purpose of the collection is to provide support for teaching and research throughout the curriculum.

Collection Guidelines:

a.) Languages: English is the principal language of the collection. Materials are acquired in other languages when necessary to support the curriculum.

b.) Chronological Guidelines: No limitations.

c.) Geographical Guidelines: No limitations.

d.) Format: All nonprint media and multimedia formats. Generally, film formats are avoided in favor of either U-Matic or VHS video tape formats. As new media formats are developed and made available they are evaluated for addition to the collection.

e.) Types of Materials:

1.) Audio recordings
2.) Visual materials
3.) Computer software
4.) Kits
5.) Catalogs

f.) Treatment of Subject: Instructional materials applicable to the University curriculum receive priority. Other audio-visual materials are
purchased selectively as budget permits.
Repair manuals are purchased for use by the Audio-Visual Department only.

g.) **Date of Publication:** Emphasis is on current materials; however, retrospective materials are acquired in available formats as budget permits.

h.) **Reference Collection:** Not applicable.

i.) **Acquisition Plans Affecting Audio-Visual Collection:**

1.) **Standing Orders:**

   - AV Marketplace
   - Educational Media and Technology Yearbook
   - Educators Guide to Free Audio and Video Materials
   - Educators Guide to Free Films
   - Educators Guide to Free Filmstrips and Slides
   - Educators Guide to Free Tapes, Scripts, and Transcriptions
   - Equipment Directory
   - Film and Video Finder
   - Film Literature Index
   - Film Review Annual
   - Index to 35mm Educational Filmstrips
   - Index to Producers and Distributors
   - International Television and Video Almanac
   - Magill's Cinema Annual
   - Media Review Digest
   - School Library Media Annual

j.) **Deselection/Replacement:** Every effort is made to insure that the collection is up-to-date and germane to the programs offered. Materials for deselection or replacement are evaluated in accordance with the General Collection Management and Development statement on Deselection/Replacement. Items which, because of their age, have reached their contract limits (i.e., through copyright agreements, etc.) are removed from the collection.
Related Subject Statements: All others in the Collection Management and Development Policy

Additional Resources: JSU's Nursing Media Center, JSU's Teaching Learning Center, JSU's Music Library, JSU's CCTV, online databases, other academic institutions in the state of Alabama and the region

Collection Assessment Tools: Audio-Visual Market Place; Audio-Visual Materials; Educational Film Locator; Schwann Record and Tape Guide.

Classifications That Define Collection: A-Z

Recommended Collection Level: N/A
AUXILIARY SCIENCES OF HISTORY

Purpose and Emphasis: The purpose of the Auxiliary Sciences of History Collection is to provide secondary support in the fields of History, Political Science, and Geography & Anthropology.

Collection Guidelines:

a.) Languages: English is the principal language of the collection. Works written in languages other than English will be purchased selectively and usually in English translation.

b.) Chronological Coverage: No limitations.

c.) Geographical Coverage: No limitations.

d.) Format: Books, periodicals, newspapers, and selected materials in microforms and machine-readable data files.

e.) Types of Materials: Included are abstracts, indices, almanacs, yearbooks, journals, monographs, encyclopedias, directories, dictionaries, handbooks, bibliographies, and biographies. Theses and dissertations are purchased selectively.

f.) Treatment of Subject: Publications encompassing the history of civilization, general archaeology, archives, technical chronology, numismatics, epigraphy, heraldry, genealogy, and general collective biography are collected. Works of a
popular nature are purchased selectively.

g.) Date of Publication: Current in-print publications receive priority; however selected retrospective publications are purchased in available formats as budget permits.

h.) Reference Collection: The Reference Collection mirrors and supports the retrospective contents and acquisition practices outlined in the Auxiliary Sciences of History collection management and development statement. To this end, major indices, abstracts, and bibliographies, are purchased to provide access to the literature of general history. Standard dictionaries, encyclopedias, almanacs, handbooks, and directories are collected.

i.) Standing Orders Affecting the Auxiliary Sciences of History Collection:
   1.) Standing Orders:
       American Academy of Arts and Letters
       Current Biography
       Dictionary of International Biography
       International Who's Who
       Marquis Who's Who Index to Who's Who Books
       Passenger and Immigration Lists Index

   2.) Blanket Orders: None

   3.) Approval Plans: None

j.) Deselection/Replacement: Currency of materials is not a major criterion for assessment, thus deselection/replacement is kept to an absolute minimum. Materials for deselection or replacement are evaluated in accordance with the General
Collection Management and Development Policy
statement on Deselection/Replacement.

Related Subject Statements: Audio-Visual; General Works; Geography & Anthropology; History; Philosophy, Ethics & Religion; Political Science & Public Administration

Additional Resources: Online databases, other academic institutions in the state of Alabama and the region

Classifications That Define Scope of Collection: C's

Recommended Collection Level: 3aE
Purpose and Emphasis: The collection's primary purpose and emphasis is to support teaching and research at the Core Curriculum, Baccalaureate, and Master levels. Areas of concentration at the Baccalaureate level include: General Biology, Professional Biology, Environmental Biology, Marine Biology, and Laboratory Biology. Collection concentration also supports the departmental minor fields of Biology, Botany, and Zoology. Further support is directed to the Bachelor of Science in Education Program for those majoring in the teaching fields of Biology or General Science. At the Master level, support is directed for the Master of Science in Biology. Additional support is provided for the Master of Science in Education and the Educational Specialist for those majoring in Secondary Education in the teaching fields of Biology or General Science. Secondary support is directed to faculty teaching and research and research assistance for local biologists. A tertiary, but significant, area of the Biology Collection are the holdings in: Agriculture, Plant Culture, Forestry, Animal Culture, Aquaculture, and Wildlife Management. The interdisciplinary nature of the biological sciences requires that students and faculty consult related collections in the library.

Collection Guidelines:

a.) Languages: English is the principal language of the collection. Works written in languages other than
English are purchased selectively and usually in English translation.

b.) Chronological Coverage: Emphasis is on the 20th-century, but no period is excluded from consideration for the collection.

c.) Geographical Coverage: Primary emphasis is on Biological Sciences in the United States and secondary emphasis on World Biological Studies.

d.) Format: Books, periodicals, nonprint media, and selected materials in microforms and machine-readable databases.

e.) Types of Material: Included are encyclopedias, directories, dictionaries, handbooks, field guides, bibliographies, biographies, statistical works, analytical research reports, biology monographs, and biology journals are collected extensively. Pertinent local, state, and federal government documents are acquired, as are the publications and proceedings of professional organizations such as the National Association of Biology Teachers and the American Institute of Biological Sciences. Dissertations and theses are purchased selectively.

f.) Treatment of Subject: Publications encompassing natural history, genetics, ecology, cytology, biological physiology, biological anatomy, animal behavior and psychology, embryology, microbiology,
and taxonomy are acquired extensively. Historical material dealing with the development of the biological sciences, including biographies and autobiographies of biologists and naturalists are collected. Materials on legal, ethical, and environmental issues in the biological sciences are purchased. Works of a popular nature are collected selectively.

g.) Date of Publication: Current in-print publications receive priority; however, selected retrospective publications are purchased in available formats as budget permits.

h.) Reference Collection: The Reference Collection mirrors and supports the retrospective contents and current acquisition practices outlined in the Biology collection management and development statement. To this end, major English language biology abstracts, indices, and bibliographies are purchased to provide access to the literature of Biology. Standard biology dictionaries, biographical references, encyclopedias, handbooks, directories, yearbooks, and statistical abstracts are updated regularly.

i.) Acquisition Plans Affecting Biology Collection:

1.) Standing Orders:
   Advances in Applied Microbiology
   Advances in Ecological Research
   Advances in Immunology
   Advances in Insect Physiology
   Advances in Parasitology
Annual Review of Ecology and Systematics
Annual Review of Entomology
Annual Review of Microbiology
Annual Review of Physiology
Annual Review of Plant Physiology and Plant Molecular Biology
Annual Reviews of Genetics
Biology of the Reptilia
Bulletin of the Alabama Museum of Natural History
Ecological Studies
Evolutionary Biology
Handbook of the Birds of Europe
Kew Taxonomic Literature
Recent Progress in Hormone Research
Systematic Botany Monographs
Taxonomic Literature

2.) Blanket Orders: None

3.) Approval Plans: None

j.) Deselection/Replacement: Currency is of primary importance in the field of Biology. Every effort is made to insure that the collection is up-to-date and germane to the degree programs offered. Thus, erroneous and dated materials are prime candidates for deselection/replacement. Materials for deselection or replacement are evaluated in accordance with the General Collection Management and Development Policy statement on Deselection/Replacement.

Related Subject Statements: Agriculture, Audio-Visual, Chemistry, Family and Consumer Science, General Works

Additional Resources: Online databases, Alabama Fish and Game Department, Alabama Fish Hatchery, Marine Environmental Science Consortium Sea Laboratory, U. S.
Soil Conservation Service, Calhoun County Extension Service, U.S. Department of Agriculture, and other academic institutions in the state of Alabama and the Southeast

Classifications That Define Scope of the Collection:

560-599, 630's, QD-QR, S-SK

Recommended Collection Level: 3cE
Purpose and Emphasis: The collection's primary purpose and emphasis is to support teaching and research at the Core Curriculum and Baccalaureate levels. In addition to supporting students seeking a major or minor in Chemistry, the collection supports those students wishing to follow a professional program leading to a career as a professional chemist. Further support is directed to the Bachelor of Science in Education Program for those majoring in the teaching fields of Chemistry or General Science. Secondary support is directed to faculty teaching and research and research assistance for library patrons. The interdisciplinary nature of the chemical sciences requires that students and faculty consult related collections in the library.

Collection Guidelines:

a.) Languages: English is the principal language of the collection. Works written in languages other than English are purchased selectively and usually in English translation.

b.) Chronological Coverage: Emphasis is on the 20th-century, but no period is excluded from consideration for the collection.

c.) Geographical Coverage: No limitations.

d.) Format: Books, periodicals, nonprint media, and
selected materials in microforms and machine-readable data files.

e.) **Types of Material:** Included are encyclopedias, directories, dictionaries, handbooks, formularies, bibliographies, biographies, statistical works, analytical research reports monographs, and journals. Pertinent local, state, and federal government documents are acquired, as are the publications and proceedings of professional organizations such as the American Chemical Society. Dissertations and theses are purchased selectively.

f.) **Treatment of Subject:** Publications encompassing analytical chemistry, inorganic chemistry, organic chemistry, physical and theoretical chemistry, and crystallography are acquired extensively. Historical materials dealing with the development of chemistry, including biographies and autobiographies of chemists are collected. Works of a popular nature are collected selectively.

g.) **Date of Publication:** Current in-print publications receive priority; however, selected retrospective publications are purchased in available formats as budget permits.

h.) **Reference Collection:** The Reference Collection mirrors and supports the retrospective contents and current acquisition practices outlined in the Chemistry collection management and development
statement. To this end, English language science indices and bibliographies are purchased to provide access to the literature of Chemistry. Standard chemical dictionaries, biographical references, encyclopedias, handbooks, directories, yearbooks, and statistical abstracts are updated regularly.

i.) Acquisition Plans Affecting Chemistry Collection:

1.) Standing Orders:

   Annual Review of Pharmacology
   Encyclopedia of Electrochemistry of the Elements
   Encyclopedia of Polymer Science and Engineering
   Medical School Admission Requirements

2.) Blanket Orders: None

3.) Approval Plans: None

j.) Deselection/Replacement: Currency is of primary importance in the field of Chemistry. Every effort is made to insure that the collection is up-to-date and germane to the degree programs offered. Thus erroneous and dated materials are prime candidates for deselection/replacement, unless they retain some seminal or historical value. Materials for deselection or replacement are evaluated in accordance with the General Collection Management and Development Policy statement on Deselection/Replacement.

Related Subject Statements: Biology, Agriculture, Family and Consumer Science, General Works, Nursing, Technology
Additional Resources: Online databases and other academic libraries within the state of Alabama and region

Collection Assessment Tools: Applied Science & Technology Index; ARBA; Books for College Libraries; Bottle, Robert, T. The Use of Chemical Literature; Chemical Abstracts; Crane, Evan J. A Guide to the Literature of Chemistry; General Science Index; Maizell, Robert E. How to Find Chemical Information; Sheehy, Eugene P. Guide to Reference Books.

Classifications That Define the Scope of the Collection:
540’s, 660’s, QD, TP

Recommended Collection Level: 3bE
COMMERCE AND BUSINESS ADMINISTRATION

Purpose and Emphasis: Primary support is directed to teaching and research at the Core Curriculum, Baccalaureate, and Master levels. Areas of concentration at the Baccalaureate level include: Accounting, Economics, Finance, Management, and Marketing. Collection concentration also supports the departmental minor fields of Accounting, Economics, Finance, Business Administration, Real Estate, Management, Marketing, and Business Statistics. At the Master level the collection supports the research and teaching activities leading to the Master of Business Administration. In addition, it supports the area of concentration in business administration within the Master of Public Administration, and supporting courses for the Master of Science in Personnel Counseling. Secondary support is directed to faculty teaching and research. The interdisciplinary nature of these studies requires that students and faculty consult related collections in the library.

Collection Guidelines:

a.) Languages: English is the principal language of the collection. Works written in languages other than English are purchased selectively and usually in English translation.

b.) Chronological Coverage: Emphasis is on the 20th-century, but no period is excluded from
consideration for the collection.

c.) Geographical Coverage: Primary emphasis is on Commerce and Business Administration in the United States, but other geographic areas are included for consideration.

d.) Format: Books, periodicals, nonprint media and selected materials in microforms and machine-readable data files.

e.) Types of Material: Included are annual reports, encyclopedias, directories, dictionaries, handbooks, bibliographies, biographies, atlases, loose-leaf services, analytical reports, statistical works, monographs and journals. In addition, conference proceedings; societal transactions; association reports; local, state, federal, and international agency publications are collected. Dissertations and theses are purchased selectively.

f.) Treatment of Subject: Publications encompassing statistics, economics, demography, economic history and theory, agriculture, industry, labor, communications and transportation, commerce, finance, and public finance are collected extensively. Historical materials dealing with the development of Commerce and Business Administration, including autobiographies and biographies of prominent professional business figures and scholars of the discipline, are collected. Works of a
popular nature are selectively acquired.

g.) **Date of Publication:** Current in-print publications receive priority; however, retrospective publications are purchased in available formats as budget permits.

h.) **Reference Collection:** The Reference Collection mirrors and supports the retrospective contents and current acquisition practices of the Commerce and Business collection management and development statement. To this end, major English language commerce and business abstracts, indices, and bibliographies are purchased to provide access to the literature of Commerce and Business Administration. Standard commerce and business dictionaries, encyclopedias, handbooks, directories, biographical references, yearbooks, and statistical abstracts are updated regularly.

COMMUNICATION

Purpose and Emphasis: Primary support is directed to teaching and research in the areas of the Core Curriculum and the Baccalaureate Communication Program: Radio and Television Production, Communication Law, Media Ethics, and Communication Theory. In addition, support is given to the minor in Communication. Secondary support is directed to faculty teaching and research and research assistance for local area communication professionals. The interdisciplinary nature of these studies requires that students and faculty consult related collections in the library.

Collection Guidelines:

a.) Languages: English is the principal language of the Collection. Works written in languages other than English are purchased selectively and usually in English translation.

b.) Chronological Coverage: Emphasis is on the late 20th-century, but no period is excluded from consideration for the collection.

c.) Geographical Coverage: Primary emphasis is on communication in English-speaking areas; secondary emphasis is on communication as practiced in other developed countries. Very selected purchases are made of materials covering Third World and developing nations.
d.) **Format:** Books, periodicals, nonprint media, and selected materials in microforms and machine-readable data files.

e.) **Types of Material:** Included are encyclopedias, directories, dictionaries, handbooks, bibliographies, biographies, analytical research reports, statistical works references, monographs, and professional journals. Pertinent local, state, and federal government documents are acquired, as are the publications and proceedings of professional organizations, such as the Association for Education in Journalism and Mass Communication, Association of Schools of Journalism, Radio-Television News Directors, Society of Professional Journalists, and the Broadcast Education Association. Dissertations and theses are purchased selectively.

f.) **Treatment of Subject.** Publications encompassing journalism and the mass media, particularly those dealing with the technical, sociological, professional, legal, and ethical aspects of communications are collected extensively. Historical materials dealing with the development of communication studies, including biographies and autobiographies of communication theorists, journalists, broadcasters, actors, screenwriters, and other notable media figures are acquired. Works of a popular nature are purchased selectively.
g.) **Date of Publication:** Current in-print publications receive priority; however, selected retrospective publications are purchased in available formats as budget permits.

h.) **Reference Collection:** The Reference Collection mirrors and supports the retrospective contents and current acquisition practices outlined in the Communication collection management and development statement. To this end, major English language communication abstracts, indices, and bibliographies are purchased to provide access to the literature of Communications. Standard communication dictionaries, biographical references, encyclopedias, handbooks, directories, yearbooks, and Statistical abstracts are updated regularly.

i.) **Acquisition Plans Affecting Communication Collection**

1.) **Standing Orders:**

   - All About Cable

CRIMINAL JUSTICE

Purpose and Emphasis: Primary support is directed to teaching and research at the Core Curriculum, Baccalaureate, and Master levels. Areas of concentration at the Baccalaureate level include: Law Enforcement, Corrections and Forensic Science. Collection concentration further supports the departmental minor fields of Law Enforcement, Corrections, Forensic Investigation and Security and Loss Prevention. At the Master level the collection supports the research and teaching activities leading to the Master of Science in Criminal Justice. In addition, it supports the area of concentration in Criminal Justice within the Master of Public Administration program. Secondary support is directed to faculty teaching and research. A tertiary area of support is directed to the activities of the Northeast Alabama Police Academy. The interdisciplinary nature of these studies requires that students and faculty consult related collections in the library.

Collection Guidelines:

a.) Languages: English is the principal language of the collection. Works written in languages other than English are purchased selectively and usually in English translation.

b.) Chronological Coverage: Emphasis is on the 20th-century, but no period is excluded from consideration for the collection.
c.) **Geographical Coverage:** Primary emphasis is on society in the United States, but no area is excluded from consideration.

d.) **Format:** Books, periodicals, non-print media, and selected materials in microforms and machine-related data files.

e.) **Types of Material:** Included are encyclopedias, directories, dictionaries, handbooks, bibliographies, biographies, monographs and journals. Pertinent local, state, and federal government documents are acquired, as are publications and proceedings of professional organizations such as the American Corrections Association. Dissertations and theses are purchased selectively.

f.) **Treatment of Subject:** Publications encompassing law enforcement, ethical issues, corrections, forensics, police administration, prison administration, polygraphy, juvenile delinquency, criminology and crime are collected. Historical material dealing with the development of Criminal Justice, including autobiographies and biographies of criminologists and notable law enforcement personnel are purchased. Works written on a popular level are acquired selectively.

g.) **Date of Publication:** Current in-print publications receive priority; however, retrospective
publications are purchased in available formats as budget permits.

h.) Reference Collection: The Reference Collection mirrors and supports the retrospective contents and current acquisition practices outlined in the Criminal Justice collection management and development statement. To this end, major English language criminal justice abstracts, indices, and bibliographies are purchased to provide access to the literature of Criminal Justice. Standard criminal justice dictionaries, encyclopedias, biographical references, handbooks, directories, yearbooks, and statistical abstracts are updated regularly.

Deselection/Replacement: Currency is of primary importance in the field of Criminal Justice. Every effort is made to insure that the collection is up-to-date and germane to the degree programs offered. Thus, erroneous and dated materials are prime candidates for deselection/replacement, unless they retain some seminal or historical value. Materials for deselection or replacement are evaluated in accordance with the General Collection Management and Development Policy statement on Deselection/Replacement.

Related Subject Statements: Audio-Visual, Commerce & Business Administration, Education, General Works, Political Science & Public Administration, Sociology & Social Work

Additional Resources: Online databases, Alabama Department of Public Safety, Alabama Department of Corrections, Alabama Board of Pardons & Parole, Alabama Alcoholic Beverage Control Board, Alabama Department of Forensic Sciences, Alabama Department of Youth Services, Federal Bureau of Investigation, National Criminal
Justice Reference Service

Collection Assessment Tools: ARBA; Books for College Libraries; Cordasco, Francesco & David Alloway. Crime in America: Historical Patterns and Contemporary Realities; Criminal Justice Abstracts; Criminal Justice Periodicals Index; Index to Legal Periodicals; P.A.I.S.; Sheehy, Eugene P. Guide to Reference Books; Social Sciences Index.

Classifications That Define Scope of Collection: 340’s, 364-365, HV6001-HV9960, K’s

Recommended Collection Level: 3cE
Purpose and Emphasis: Primary support is directed to teaching and research in the areas of the Core Curriculum and Baccalaureate Drama programs: Acting, Directing, and Stage Craft. Collection concentration also supports the departmental minor. Further support is directed to the Bachelor of Science in Education Program for those majoring in the teaching field of Drama. Secondary support is directed to faculty teaching and research and research assistance for local area drama teachers and theatre performers. The interdisciplinary nature of these studies requires that students and faculty consult related collections in the library.

Collection Guidelines:

a.) Languages: English is the principal language of the collection. Dramatic works written in languages other than English are purchased selectively and usually in English translation.

b.) Chronological Coverage: No limitations.

c.) Geographical Coverage: Primary emphasis is on drama in the western world; secondary emphasis is on theatre as practiced in the major oriental countries. Selected purchases are made of materials covering Third World and developing nations.

d.) Format: Books, periodicals, nonprint media, and
selected materials in microforms and machine-readable data files.

e.) Types of Material: Included are encyclopedias, directories, dictionaries, handbooks, bibliographies, biographies, monographs, and journals. Publications of professional organizations such as the National Association of Dramatic and Speech Arts are acquired. Dissertations and theses are purchased selectively.

f.) Treatment of Subject. Publications encompassing the performing arts, dramatic composition, dramatic representation, stage, costume design, make-up, and theatrical design. Historical material dealing with the development of western drama, including biographies and autobiographies of playwrights, performing artists, and others active in the dramatic arts are collected. Materials on technical, legal, and ethical aspects of theatre as well as works written on a popular level are acquired selectively.

g.) Date of Publication: Current in-print publications receive priority; however, retrospective publications are purchased in available formats as budget permits.

h.) Reference Collection: The Reference Collection mirrors and supports the retrospective contents and current acquisition practices outlined in the Drama
collection management and development statement. To this end, major English language abstracts, indices, and bibliographies are purchased to provide access to the literature of Drama. Standard dramatic dictionaries, encyclopedias, handbooks, biographical references directories, and yearbooks are regularly updated.

i.) Acquisition Plans affecting the Drama Collection:

1.) Standing Orders:

Best Plays
Film Literature Index
Film Review Annual
Fireside Theatre
International Motion Picture Almanac
International Television and Video Almanac
Magill's Cinema Annual
New Plays USA
Renaissance Drama
Theatre History Studies

2.) Blanket Orders: None

3.) Approval Plans: None

j.) Deselection/Replacement: Currency of materials is not a major criterion for assessment, thus deselection/replacement is kept to an absolute minimum. Materials for deselection or replacement are evaluated in accordance with the General Collection Management and Development Policy statement on Deselection/Replacement.

Related Subject Statements: American Literature, Art Audio-Visual, English Literature, Communication, Education, English Literature, General Works, History, Languages and Related Literatures, Western European
Literatures

Additional Resources: Alabama State Theater, academic institutions in the state of Alabama and region, online databases

Collection Assessment Tools: ARBA; Baker, Blanch. Theatre and Allied Arts; Blazek, Ron. The Humanities; Bibliographic Guide to Theatre Arts: 1978; Books for College Libraries; Humanities Index; The Literary Advisor; MLA; Play Index; Schoolcraft, Ralph. Performing Arts Books in Print; Sheehy, Eugene P. Guide to Reference Books; Whalon, Marion K. Performing Arts Research.

Classifications That Define the Scope of the Collection:
8 0's, PN, NK

Recommended Collection Level: 3bE
Purpose and Emphasis: The purpose of the collection is to support the teaching and research activities of the College of Education at the Baccalaureate, Master, and Educational Specialist levels. Within the Department of Curriculum and Instruction, the areas of concentration include: Early Childhood Education, Elementary Education, and Special Education. The Department of Educational Resources offers courses in the following areas: Secondary Education, Educational Psychology, and Instructional Media. The Department of Health, Physical Education, and Recreation offers concentrations in the areas of: Physical Education, Special Physical Education, Health, and Recreation. Additional support is directed to the minor in Physical Education for non-teaching degree candidates. A non-traditional fifth-year program is available for students who hold bachelors degrees in the areas of: Biology, English, General Science, History, Language Arts, Mathematics, Political Science, and Social Science. At the Master and the Educational Specialist levels the majors are: Early Childhood, Elementary, Health, Instructional Media, Music, Physical Education, School Administration, School Counseling, School Psychometry, School Supervision, Secondary Education, and Special Education. Secondary support is directed to faculty teaching and research. The interdisciplinary nature of these studies requires that students and faculty consult related collections in the library.
Collection Guidelines:

a.) **Languages:** English is the principal language of the collection. Works written in languages other than English are purchased selectively to support educational research.

b.) **Chronological Coverage:** Primary emphasis is on education in the 20-century, however, earlier educational research and historical materials are sought.

c.) **Geographical Coverage:** Primary emphasis is on education in the United States; secondary emphasis is on education in the English speaking countries and Europe. Selected materials covering Third World and developing nations are acquired.

d.) **Format:** Books, periodicals, nonprint media, and selected materials in microforms and machine-readable data files.

e.) **Types of Material:** Included are indices, abstracts, dictionaries, encyclopedias, directories, college catalogs, statistical publications, bibliographies, handbooks, biographies, almanacs, monographs, journals, government publications, and yearbooks. Publications of professional organizations, including their conference proceedings, are acquired. Textbooks intended for the use of students in elementary and secondary schools are acquired for the Textbook Collection. Educational textbooks
are not purchased, unless they are of seminal or historical value. Juvenile books representing all subjects and formats (e.g., picture books, dictionaries, anthologies) are acquired for the Juvenile Literature Collection. Theses and dissertations are collected selectively.

f.) Treatment of Subject: Publications encompassing the history of education, theory and practice of education at all levels, educational psychology, individual educational institutions, school law, sports law, ethics of education, school reform, special education, physical education, recreation, educational technology, computer-assisted instruction, media centers, and special aspects of education are collected. Historical materials dealing with the development of Education, including autobiographies and biographies of educators, educational administrators, and educational theorists are acquired. Popular treatments are purchased selectively.

g.) Date of Publication: Current in-print publications receive priority; however, selected retrospective publications are acquired in available formats as budget permits.

h.) Reference Collection: The Reference Collection reflects and supports the retrospective contents and current acquisition practices outlined in the
Education collection management and development statement. The major indices, abstracts, and bibliographies are purchased to provide access to the literature of Education. Standard educational dictionaries, encyclopedias, handbooks, directories, yearbooks, and statistical resources are updated regularly.

i.) Acquisition Plans Affecting Education Collection:

1.) Standing Orders:
   - Alabama Education Directory
   - Audiovisual Marketplace
   - College Blue Book
   - Current Index to Journals in Education
   - The Condition of Education
   - Digest of Education Statistics

Classifications That Define Scope of Collection:
370’s, 613’s, 790’s, GV’s, L-LT

Recommended Collection Level: 3cE
Purpose And Emphasis: The primary purpose of the English literature Collection is to support teaching and research at the Core Curriculum, Baccalaureate, and Master levels. Baccalaureate degrees offered are the Bachelor of Arts in English and the Bachelor of Science in Education, for those majoring in the teaching fields of English or Language Arts. In addition, support is given to the minors in English, Creative Writing, and Business and Technical Writing. At the Master level support is directed for the Master of Arts in English. Further support is provided for the Master in Science in Education and the Educational Specialist degrees for those majoring in Secondary Education in the teaching fields of English or Language Arts. Secondary support is directed to faculty teaching and research. The interdisciplinary nature of these studies requires that students and faculty consult related collections in the library.

Collection Guidelines:

a.) Languages: English is the principal language of the collection. Works written in languages other than English are acquired very selectively and usually in English translation.

b.) Chronological Guidelines: No limitations.

c.) Geographical Guidelines: Geographical guidelines are dictated by the authors' country of origin.
Thus, the English Literature collection consists of publications by and about British and British Commonwealth authors. Primary emphasis is the literatures and authors of the United Kingdom. Secondary emphasis is the literatures and authors of the current and former nations of the British Commonwealth.

d.) Format: Books, periodicals, nonprint media, and selected materials in microforms and machine-readable data files.

e.) Types of Materials: Included are anthologies, atlases, bibliographies, biographies, concordances, dictionaries, directories, encyclopedias, monographs, periodicals, handbooks, and professional proceedings. Dissertations and theses are purchased selectively.

f.) Treatment of Subject: All literary genres are collected. Publications of major authors and those authors emphasized in the curriculum are given priority. Supplementary materials of a biographical, bibliographic, critical, historical, or textual nature are collected intensively. Priority is always given to scholarly works, but a selective number of materials such as an author’s first work, bestsellers, or popular fiction are acquired.

g.) Date of Publication: Current in-print publications receive priority; however, retrospective publications are purchased in available formats as budget permits.
h.) **Reference Collection:** The Reference Collection mirrors and supports the retrospective contents and the current acquisition practices outlined in the English Literature collection management and development statement. To this end, major English language abstracts, indices, and bibliographies are purchased to provide access to English Literature. Standard literary dictionaries, encyclopedias, handbooks, biographical references, directories, yearbooks are updated regularly.

i.) **Acquisition Plans Affecting English Literature Collection:**

FAMILY AND CONSUMER SCIENCE

Purpose and Emphasis: The primary purpose of the Family and Consumer Science Collection is to support the Core Curriculum and Baccalaureate degree programs: Bachelor of Science in Restaurant and Foodservice Management; Bachelor of Science in Home Economics; Bachelor of Science in Dietetics; Bachelor of Science in Merchandising; and a Bachelor of Science in Education for those majoring in the teaching field of Home Economics. Additionally, the collection supports the minor fields of: Home Economics; Nutrition and Foods; Fashion Merchandising; and Restaurant and Foodservice Management. The primary emphasis of the collection is directed to teaching individual study in the area of Family and Consumer Science. Secondary support is directed to faculty teaching and research. The interdisciplinary nature of these studies requires that students and faculty consult related collections in the library.

Collection Guidelines:

a.) Languages: English is the principal language of the collection. Works written in languages other than English are purchased selectively.

b.) Chronological Coverage: Primary emphasis is on Family and Consumer Science in the 20th-century, but no period is excluded from consideration for the collection.

c.) Geographical Coverage: Primary emphasis is on Family and Consumer Science in the United States and
other developed countries; however, no area is excluded.

d.) **Format:** Books and periodicals, nonprint media, and selected materials in microforms and machine-readable data files.

e.) **Types of Material:** Included are encyclopedias, proceedings, transactions of congresses, bibliographies, biographies, "how-to" books, laboratory manuals, monographs, and journals. Pertinent local, state, and federal government documents are acquired. Dissertations and theses are purchased selectively.

f.) **Treatment of Subject:** Publications encompassing clothing construction, food preparation, meal management, institutional management, nutrition, home furnishings, and family budgeting are collected. Materials that treat the historical development of the discipline are purchased. Books of a popular nature on nutrition, cooking, sewing, and home management are acquired.

g.) **Date of Publication:** Current in-print publications receive priority; however, selected retrospective publications are purchased in available formats as budget permits.

h.) **Reference Collection:** The Reference Collection reflects and supports the retrospective contents and
current acquisition of the Family and Consumer Science
collection development statement. To this end, major
English language abstracts, indices, and bibliographies
are purchased to provide access to the literature of
Family and Consumer Science. Standard family and
consumer science dictionaries, encyclopedias,
biographical references, handbooks, directories,
yearbooks, and statistical abstracts are updated
regularly.

i.) Acquisition Plans Affecting Family and Consumer
Science Collection:

1.) Standing Orders:
   Consumers Index to Product Evaluations and
   Information Sources
   Gourmet Index

2.) Blanket Orders: None

3.) Approval Plans: None

j.) Deselection/Replacement: Currency is of primary
importance in the Family and Consumer Science
field. Every effort is made to insure that the
collection is up-to-date and germane to the degree
programs offered. Thus, erroneous and dated
materials are prime candidates for
deselection/replacement unless they retain some
seminal or historical value. Materials for
deselection or replacement are evaluated in
accordance with the General Collection Management
and Development Policy statement on
Deselection/Replacement.
Related Subject Statements: Audio-Visual, Commerce & Business, Chemistry, Education, General Works

Classifications That Define the Scope of the Collection:
640's, NK, TS-TX

Recommended Collection Level: 3bE
GENERAL WORKS

Purpose and Emphasis: The General Works Collection embraces the Sciences, Social Sciences, Humanities, Fine Arts, and Technology. The purpose of the collection is to provide general reference and informational support for the teaching and research needs of the Jacksonville State University community. It complements the discipline specific collections located on the subject floors of the library.

Collection Guidelines:

a.) Languages: English is the principal language of the collection. Works written in languages other than English will be purchased selectively and usually in English translation.

b.) Chronological Coverage: Emphasis is on the 20th-century, but no period is excluded from consideration for the collection.

c.) Geographical Coverage: No limitations.

d.) Format: Books, periodicals, newspapers, and selected materials in microforms and machine-readable data files.

e.) Types of Materials: Included are general abstracts, indices, almanacs, yearbooks, periodicals, monographs, encyclopedias, directories, dictionaries, handbooks, and bibliographies; telephone directories; newspapers; biographical references, and vertical file materials. Theses and
dissertations are purchased selectively.

f.) **Treatment of Subject:** Publications that are not subject specific, but rather are general in nature are purchased for this collection. In addition, materials on the history of scholarship and learning in the humanities, museums, general treatment of academic and learned societies, and collected essays are acquired.

g.) **Date of Publication:** Current in-print publications receive priority; however, selected retrospective publications are purchased in available formats as budget permits.

h.) **Reference Collection:** The General Works Reference Collection mirrors and supports the retrospective contents and acquisition practices outlined in the General collection management and development statement. To this end, major indices, abstracts, bibliographies, are purchased to provide access to the general world of knowledge. Standard general dictionaries, encyclopedias, almanacs, handbooks, and directories are collected.

i.) **Acquisition Plans Affecting General Works Collection**

1.) **Standing Orders:**

- American Academy of Arts and Letters

Recommended Collection Level: 3cE
GEOGRAPHY AND ANTHROPOLOGY

Purpose and Emphasis: The primary purpose of the collection is to support teaching and research at the Core Curriculum, Baccalaureate, and Master levels. The Geography program offers either Bachelor of Science or a Bachelor of Arts degree with four areas of concentration: Environmental System Analysis, Cultural-Area Studies, Urban and Regional Planning, Techniques of Spatial Analysis. Additional support is directed to the Bachelor of Science in Education for those majoring in the teaching fields of Geography, Science, or Social Science. Collection concentration also supports the departmental minor fields of Geography, Anthropology, Environmental Studies Geography, Cultural Studies, and Geology. At the master level the collection supports the Master of Science in Education and the Educational Specialist degrees for those majoring in Secondary Education in the teaching fields of General Science or Social Science. Secondary support is directed to faculty teaching and research. The interdisciplinary nature of these studies requires that students and faculty consult related collections in the library.

Collection Guidelines:

a.) Languages: English is the principal language of the collection. Works written in languages other than English are purchased selectively and usually in English translation.
b.) **Chronological Coverage:** No limitations.

c.) **Geographical Coverage:** No limitations.

d.) **Format:** Books, periodicals, nonprint media, maps, and selected materials in microforms and machine-readable data files.

e.) **Types of Material:** Included are travel guides, handbooks, biographies, bibliographies, government publications, statistical publications, encyclopedias, dictionaries, analytical research reports, society publications, conference proceedings, monographs and journals. Atlases and gazetteers are acquired broadly. Maps, theses, and dissertations are purchased selectively.

f.) **Treatment of Subject:** Publications encompassing voyages and travels, cartography, physical geography, oceanography, anthropogeography, physical anthropology, ethnology, economic geography, political geography, remote sensing, geomorphology, meteorology, cultural geography, archaeology, folklore, and manners and customs are collected. Historical material dealing with the development and theory of Geography and Anthropology including autobiographies and biographies of notable geographers, explorers, anthropologists, archeologists, and cartographers are acquired. Materials on the legal and the ethical aspects of
Geography and Anthropology are purchased. Works written on a popular level are acquired selectively.

g.) **Date of Publication:** Current in-print publications receive priority; however, selected retrospective publications in available formats as budget permits.

h.) **Reference Collection:** The Reference Collection mirrors and supports the retrospective contents and current acquisition practices outlined in the Geography and Anthropology collection management and development statement. To this end, major English language abstracts, indices, and bibliographies are purchased to provide access to the literature of Geography and Anthropology. Standard geography and anthropology dictionaries, encyclopedias, handbooks, directories, yearbooks, and statistical abstracts are updated regularly.

i.) **Acquisition Plans Affecting Geography and Anthropology Collection:**

1.) **Standing Orders:**

Anthropology; Sheehy, Eugene P. *Guide to Reference Books; Social Sciences Index.*

**Classifications That Define Scope of Collection:**

305-307, 390-399, 910-919, G-GR

**Recommended Collection Level:** 3cE
Purpose and Emphasis: At Jacksonville State University Geology is under the auspices of the Geography Department, which offers a minor in the field of Geology. Thus, the primary emphasis of the collection is to support teaching and research at that level, with additional emphasis on support for other science majors, the Core Curriculum, and students in the Bachelor of Science in Education Program majoring in the teaching field of General Science. Because of the interdisciplinary nature of the Geological Sciences, students should consult related collections in the library.

Collection Guidelines:

a.) Languages: English is the principal language of the collection. Works written in languages other than English are purchased selectively and usually in English translation.

b.) Chronological Coverage: Emphasis is on the 20th-century, but no period is excluded from consideration for the collection.

c.) Geographical Coverage: Primary emphasis is on geological sciences in North America, secondary emphasis is on world geology, and tertiary emphasis is on extraterrestrial geology.

d.) Format: Books, periodicals, nonprint media, maps, and selected materials in microforms and machine-readable data files.
e.) **Types of Material:** Included are encyclopedias, directories, dictionaries, handbooks, analytical research reports, statistical publications, field guides, bibliographies, biographies, atlases, maps, monographs and journals. Pertinent local, state, and federal government documents are acquired, as are the publications and proceedings of professional organizations such as the Geological Society of America. Dissertations and theses are purchased selectively.

f.) **Treatment of Subject:** Publications encompassing mineralogy, petrology, structural geology, stratigraphic geology, paleontology, paleozoology, and paleobotany are collected. Historical material dealing with the development of Geology, including biographies and autobiographies of geologists, are purchased. Works of a popular nature are acquired selectively.

g.) **Date of Publication:** Current in-print publications receive priority; however, selected retrospective publications are purchased in available formats as budget permits.

h.) **Reference Collection:** The Reference Collection mirrors and supports the retrospective contents and current acquisition practices of the Geology collection management and development statement.
To this end, English language abstracts, indices, and bibliographies are purchased to provide access to the literature of Geology. Standard geologic dictionaries, encyclopedias, handbooks, directories, yearbooks, biographical references, and statistical abstracts are updated regularly.

i.) Acquisition Plans Affecting Geology Collection:
1.) Standing Orders: None
2.) Blanket Orders: None
3.) Approval Plans: None

j.) Deselection/Replacement: Currency is important in the field of Geology. Every effort is made to insure that the collection is up-to-date and germane to the programs offered by the Geography Department. Thus, erroneous and dated materials are prime candidates for deselection/replacement, unless they retain some seminal or historical value. Materials for deselection or replacement are evaluated in accordance with the General Collection Management and Development Policy statement on Deselection/Replacement.

Related Subject Statements: Audio-Visual, Chemistry, General Works, Geography, Government Documents, Physics & Engineering, Technology

Gas Board, and other academic institutions in the state of Alabama and the region.

Classifications That Define Scope of Collection:

550's, QE

Recommended Collection Level: 3aE
Purpose and Emphasis: The purpose of the Government Documents Collection is to provide publications of the United States Government to the University community and the public at large. The primary emphasis of the collection is directed to supporting the teaching and research activities of the University.

Collection Guidelines:

a.) Languages: English is the principal language of the collection. However, other languages are not excluded.

b.) Chronological Coverage: No limitations.

c.) Geographical Coverage: No limitations.

d.) Format: Books, periodicals, maps, microforms, and machine-readable data files.

e.) Types of Material: Included are monographs, serials, directories, biographies, handbooks, yearbooks, maps, annual reports, statistical publications, indices, and bibliographies. Posters and pictures are excluded. Publications and proceedings of U. S. governmental agencies, departments, and branches are collected.

f.) Treatment of Subject: The U. S. G. P. O. requires depository libraries to collect certain titles which form a core collection. These titles are:
Budget of the United States Government
Catalog of Federal Domestic Assistance
Census Catalog and Guide
Census of Population and Housing
Code of Federal Regulations
Congressional Directory
Congressional District Data Book
Congressional Record
County and City Data Book
Federal Register
Historical Statistics of the United States
Monthly Catalog of United States Government Publications
Publications Reference File
Slip Laws (Public)
Statistical Abstract of the United States
Statutes at Large
Subject Bibliographies
United States Code
United States Government Manual
United States Reports
Weekly Compilation of Presidential Documents

Publications encompassing population, housing, agriculture, education, criminal justice, drug abuse, child abuse, maternal and child health, military history, U.S. history, U.S. laws and legislation, developing countries, national parks, library science, mental health, public health, environmental issues, and space and technology are collected extensively.

g.) Date of Publication: Current in-print publications receive priority; however, selected retrospective publications are purchased in available formats as budget permits.

h.) Reference Collection: The Reference Collection mirrors and supports the retrospective contents and current acquisition practices outlined in the
General Collection Management and Development Policy. Included are standard indices, bibliographies, directories, abstracts, handbooks, yearbooks, and biographical references.

i.) Acquisitions Plans Affecting the Government Documents Collection:

1.) Standing Orders:

2.) **Blanket Orders:**

University of Alabama Press

3.) **Approval Plans:** None

j.) **Deselection:** Currency is not a major criterion for assessment, thus deselection/replacement is kept to an absolute minimum. Materials for deselection or replacement are evaluated in accordance with the General Collection Management and Development Policy statement on Deselection/Replacement.
Related Subject Statements: Alabama Gallery; Audio-Visual; Auxiliary Sciences of History; General Works; Languages and Related Literatures; Law; Philosophy, Ethics, & Religion; Political Science & Public Administration

Additional Resources: Online database, Alabama Department of Archives and History, Other academic institutions in the state of Alabama and the region

Classifications That Define Scope of Collection:
900's, D's, E's, F's

Recommended Collection Level: 3cE
Purpose and Emphasis: The primary purpose of the collection is to support teaching and research for the Core Curriculum, Baccalaureate, and Master level programs. Baccalaureate degrees offered are: Bachelor of Arts in Foreign Language, Bachelor of Arts in English, the Bachelor of Science in Education, for those majoring in Foreign Languages in the teaching fields of French, Spanish, or German, and the Bachelor of Science in Education, for those majoring in the teaching fields of English or Language Arts. In addition, support is given to the minors in Foreign Language, Communication, English, Creative Writing, and Business and Technical Writing. Secondary support is directed to faculty teaching and research. The interdisciplinary nature of these studies requires students and faculty to consult related collections in the library.

Collection Guidelines:

a.) Languages: No limitations.
b.) Chronological Guidelines: No limitations.
c.) Geographical Guidelines: No limitations.
d.) Format: Books, monographs, periodicals, nonprint media, and selected materials in microforms and machine-readable data files.
e.) Types of Materials: Included are tutorials, atlases, handbooks, bibliographies, biographies, concordances, dictionaries, directories,
encyclopedia, anthologies, grammar books, style manuals, composition handbooks, monographs, and journals. Pertinent local, state, and federal government documents are acquired, as are the publications and proceedings of professional organizations such as the Modern Language Association. Dissertations and theses are purchased selectively.

f.) **Treatment of Subject:** Publications encompassing philology, linguistic science, socio-linguistics, semantics, grammar, lexicography, linguistic geography, literary criticism, and world languages and literatures are collected. Historical materials dealing with the development of languages and literatures, including autobiographies and biographies of lexicographers, linguists, and other scholars of languages and literatures, are purchased.

g.) **Date of Publication:** Current in-print publications receive priority; however, retrospective materials are purchased in available formats as budget permits.

h.) **Reference Collection:** The reference collection mirrors and supports the retrospective contents and current acquisitions practices outlined in the Languages and Related Literature collection management and development statement. To this end,
major English language abstracts, indices, and bibliographies are purchased to provide access to world languages and literatures. Standard literary and language dictionaries, encyclopedias, handbooks, biographical references, directories, lexicons, and yearbooks are updated regularly.

i.) **Acquisition Plans Affecting the Languages and Related Literatures Collection:**

1.) **Standing Orders:**

- Annual Bibliography of English Language and Literature
- Approaches to Teaching . . .
- Bibliography of the English Language from 1400 . . .
- Classical and Medieval Literature Criticism
- Comparative Criticism
- Contemporary Authors

LAW

Purpose and Emphasis: As there is not a degree program in the field of Law, the primary purpose and emphasis of the Law collection is to support the courses of study offered in the Core Curriculum, Pre-Law, Criminal Justice, and Political Science programs. Further support is directed to other curricula offered in the disciplines of Education, Commerce and Business Administration, Nursing, Social Work, or History. Secondary emphasis is directed to faculty teaching and research and research assistance for local legal inquiries.

Collection Guidelines:

a.) Languages: English is the principal language of the collection. Works written in languages other than English are purchased selectively to support law research.

b.) Chronological Coverage: Primary emphasis is on law in the 20th-century; however, no period is excluded from consideration for the collection.

c.) Geographical Coverage: Primary emphasis is on law in Alabama and the United States; secondary emphasis is on law in English-speaking countries. Materials covering other countries are obtained selectively.

d.) Format: Books, periodicals, nonprint media and selected materials in microforms and machine-readable data files.
e.) **Types of Material:** Included are indices, abstracts, dictionaries, directories, encyclopedias, bibliographies, biographies, case books, monographs and journals. Pertinent local, state, and federal documents, as well as publications and proceedings of professional organizations such as the American Bar Association, are acquired. Theses and dissertations are purchased selectively.

f.) **Treatment of Subject:** Publications encompassing criminal justice, business law, education law, and constitutional law are collected. Historical materials dealing with the development of law, legal systems, and criminal justice, including biographies and autobiographies of notable jurists, are acquired. Alabama law is collected extensively.

g.) **Date of Publication:** Current in-print publications receive priority; however, selected retrospective publications are purchased in available formats as budget permits.

h.) **Reference Collection:** The Reference Collection reflects and supports the retrospective contents and current acquisition practices as outlined in the Law collection management and development statement. To this end, major English language law abstracts, indices, and bibliographies are purchased to provide access to the literature of Law. Standard law dictionaries, encyclopedias, handbooks,
directories, biographical references, yearbooks, and statistical abstracts are updated regularly.

j.) Deselection/Replacement: Currency is of primary importance in the field of Law. Every effort is made to insure that the collection is up-to-date and germane to the degree programs offered. Thus, erroneous and dated materials are prime candidates for deselection/replacement, unless they retain some seminal or historical value. Materials for deselection or replacement are evaluated in accordance with the General Collection Management and Development Policy statement on Deselection/Replacement.

Recommended Collection Level: 3aE
LIBRARY SCIENCE AND BIBLIOGRAPHY

Purpose and Emphasis: The purpose of the Library Science Collection is to support the Baccalaureate and Master level Instructional Media Programs offered by the College of Education. Secondary support is directed to the administrative, teaching, and research needs of the faculty and staff. The Bibliography Collection exists to support the informational needs of the University community, providing access to the wider world of scholarly publications. The interdisciplinary nature of these studies requires that students and faculty consult related collections in the library.

Collection Guidelines:

a.) Languages: English is the principal language of the collection. Works written in languages other than English will be purchased selectively and usually in English translation.

b.) Chronological Coverage: No limitations.

c.) Geographical Coverage: No limitations.

d.) Format: Books, periodicals, newspapers, and selected materials in microforms and machine readable-data files.

e.) Types of Materials: Included are abstracts, indices, almanacs, yearbooks, journals, monographs, encyclopedias, directories, dictionaries, handbooks, bibliographies, and
biographies. Theses and dissertations are purchased selectively.

f.) **Treatment of Subject:** Publications encompassing history of books and bookmaking, book industry and trade, book selling and publishing, writing, printing, copyright, censorship, libraries and library science, and bibliography are collected. Materials dealing with the historical development of libraries, publishing, and bibliography, including autobiographies and biographies of librarians, publishers, and bibliographers are acquired. Works of a popular nature are purchased selectively.

g.) **Date of Publication:** Current in-print publications receive priority; however selected retrospective publications are purchased in available formats as budget permits.

h.) **Reference Collection:** The Reference Collection mirrors and supports the retrospective contents and acquisition practices outlined in the Library Science and Bibliography collection management and development statement. To this end, major indices, abstracts, and bibliographies, are purchased to provide access to the literature of Library Science. Standard library science dictionaries, encyclopedias, almanacs, handbooks, and directories are collected.

MATHEMATICAL, COMPUTING, AND INFORMATION SCIENCES

Purpose and Emphasis: The collection's primary purpose and emphasis is to support the teaching and research efforts of the Department of Mathematical, Computing, and Information Sciences at the Core Curriculum, Baccalaureate, and Master levels. At the Baccalaureate level three majors are offered: Computer Information Systems, Computer Science, and Mathematics. The CIS program concentrates on business applications of computers. The Computer Science program concentrates on those students who wish to study the theory and application of computers in a scientific/mathematical environment. The Mathematics major includes three concentrations: Applied Mathematics for those students who wish to pursue a career in the Applied Science and Engineering fields; Mathematics Education for those majoring in the teaching field of Mathematics; and Mathematics for those intending to enter graduate studies in Mathematics. In addition, at the Baccalaureate level there is a Certificate in Computer Science for those students who have earned a Baccalaureate degree previously. The collection also supports the minor fields of Mathematics, Computer Information Systems, and Computer Science. At the Master level, the department offers courses leading to the Master of Science in Mathematics and supporting courses for the Master of Business Administration. Further, students pursuing the Master of Science in Education or the
Educational Specialist Degree may major in Secondary Education with emphasis in the teaching field of Mathematics. Secondary emphasis of the collection is to support faculty teaching and research. The interdisciplinary nature of these studies requires that students and faculty consult related collections in the library.

Collection Guidelines:

a.) Languages: English is the principal language of the collection. Works written in languages other than English are purchased selectively and usually in English translation.

b.) Chronological Coverage: There are no limitations for Mathematics. For Computing and Information Sciences, emphasis is on the 20th-century.

c.) Geographical Coverage: No limitations.

d.) Format: Books, periodicals, nonprint media and selected materials in microforms and machine-readable data files.

e.) Types of Material: Included are encyclopedias, directories, dictionaries, handbooks, bibliographies, biographies, statistical publications, analytical research reports, monographs and journals. Pertinent local, state, and federal government documents are acquired, as are the publications and proceedings of professional organizations such as the American Mathematical
Society, Association for Computer Educators, International Society for Technology in Education, and National Council of Teachers of Mathematics Publications. Dissertations and theses are purchased selectively.

f.) **Treatment of Subject:** Publications encompassing mathematical logic, computer science, data processing, elementary mathematics, game theory, algebra, numerical analysis, geometry, topology, calculus, trigonometry, and analytical mechanics are collected. Historical materials dealing with the development of mathematics and computer and information science, including biographies and autobiographies of prominent mathematicians and information scientists are purchased. Sources on the legal and ethical aspects of computer and information science are acquired. Popular works and software specific manuals are collected extensively.

g.) **Date of Publication:** Current in-print publications receive priority; however, selected retrospective publications are purchased in available formats as budget permits.

h.) **Reference Collection:** The Reference Collection mirrors and supports the retrospective contents and current acquisition practices outlined in the Mathematical, Computing, and Information Sciences
management and development statement. To this end, major English language abstracts, indices, and bibliographies are purchased to provide access to the literature of Mathematical, Computing, and Informatic Sciences. Standard mathematical, computing, and information sciences dictionaries, encyclopedias, biographical references, handbooks, directories, yearbooks, and statistical abstracts are updated regularly.

i.) Acquisition Plans Affecting Mathematical, Computing and Information Sciences Collection:

1.) Standing Orders:
   Advances in Computers
   Annual Review of Computer Science
   Computer Literature Index
   Handbook of Systems Management

2.) Blanket Orders: None

3.) Approval Plans: None

j.) Deselection/Replacement: As currency is of primary importance in the Mathematical, Computing, and Information Sciences fields every effort is made to insure that the collection is up-to-date and germane to the programs offered by the Mathematical, Computing, and Information Sciences Department. MILITARY SCIENCE

Purpose and Emphasis: The primary purpose of the collection is to support teaching and research at the Core Curriculum and Baccalaureate levels. In addition to the Army Reserve Officer Training Corps (ROTC) Program, Jacksonville State offers a minor in Military Science for the Bachelor of Science Degree. The Military Science Collection also supports studies in the Political Science and History disciplines. Secondary support is directed to faculty teaching and research and research assistance for students with special research projects and interests.

Collection Guidelines:

a.) Languages: English is the principal language of the collection. Works written in languages other than English are purchased selectively and usually in English translation.

b.) Chronological Coverage: No limitations.

c.) Geographical Coverage: No limitations.

d.) Format: Books, periodicals, nonprint media, and selected materials in microforms and machine-readable data files.

e.) Types of Material: Included are encyclopedias, dictionaries, directories, handbooks, bibliographies, biographies, analytical reports, statistical publications, monographs and journals. Pertinent government documents are acquired.
Dissertations and theses are purchased selectively.

f.) Treatment of Subject: Publications encompassing the history of arms, armies, military administration, infantry, cavalry, military engineering, air warfare, marines, naval seamen, naval ordinance, and naval warfare. Historical materials dealing with the development of Military and Naval Science, including autobiographies and biographies of seamen, soldiers, and other military figures are collected. Materials on the legal and the ethical aspects of Military Science are acquired. Popular works are collected.

g.) Date of Publication: Current in-print publications receive priority; however, selected retrospective publications are purchased in available formats as budget permits.

h.) Reference Collection: The Reference collection reflects and supports the retrospective contents and current acquisition practices outlined in the Military Science collection management and development statement. To this end, major English language abstracts, indices, and bibliographies are purchased to provide access to the literature of Military Science. Standard military dictionaries, encyclopedias, biographical references, handbooks, directories, yearbooks and statistical abstracts are updated regularly.

MUSIC

Purpose and Emphasis: Primary support is directed to teaching and research in the areas of the Core Curriculum and Baccalaureate degree programs: Bachelor of Music degree with a major in Performance; Bachelor or Arts degree with a major in Music; and a Bachelor of Science in Education degree with a major in the teaching fields of Music-Instrumental or Music-Vocal/Choral. Additional support is directed to teaching and research in the Master of Science in Education and the Educational Specialist degree programs for those majoring in Music Education in the teaching field of Instrumental or Vocal/Choral. Secondary support is directed to faculty teaching and research and research assistance for patrons. The interdisciplinary nature of these studies requires students and faculty to consult related collections in the library.

Collection Guidelines:

a.) Languages: English is the principal language of the collection. Works written in languages other than English are purchased selectively and usually in English translation.

b.) Chronological Coverage: Emphasis is on post-1550 musical literatures, but no period is excluded from consideration for the collection.

c.) Geographical Coverage: Primary emphasis is on European and American classical music; secondary
emphasis is on American popular music. Selected purchases are made of materials covering non-Western cultures.

d.) **Format:** Books, periodicals, facsimiles, scores, nonprint media, and selected materials in microforms and machine-readable data files.

e.) **Types of Material:** Included are encyclopedias, directories, dictionaries, handbooks, bibliographies, biographies, scores, recordings, facsimiles, song-books, teaching manuals, monographs, and journals. Pertinent local, state, and federal government documents are acquired, as are the publications and proceedings of professional organizations, such as the National Association of Teachers of Music and the National Association of Schools of Music. Dissertations and theses are purchased selectively.

f.) **Treatment of Subject:** Publications encompassing composition, instruments and instrumental music, vocal music, dance music, sacred music, opera, national music, and popular music are collected. Materials dealing with the aesthetics, physical, psychological, pedagogical, ethical, and therapeutic aspects of music are purchased. Sources treating the history of music, including biographies of musicians and nctables in music, are collected. Popular works are acquired selectively.
g.) **Date of Publication:** Current in-print publications receive priority; however, selected retrospective publications are purchased in available formats as budget permits.

h.) **Reference Collection:** The Reference Collection mirrors and supports the retrospective contents and current acquisition practices outlined in the Music collection management and development statement. To this end, major English language abstracts, index bibliographies are purchased to provide access to the literature of Music. Standard music dictionaries, encyclopedias, handbooks, directories, biographical references, yearbooks, and statistical abstracts are updated regularly.

**Recommended Collection Level:** 3cE
Purpose and Emphasis: Primary support is directed to teaching and research in the areas of the Baccalaureate Nursing program: Human Behavior, Health Maintenance and Promotion, Family and Community Health, and Prevention. Additional support is directed to the Bachelor of Science in Education degree with a major in Health Education. At the Master level support is provided for the Master of Science in Education and the Educational Specialist for those majoring in Health Education. Secondary support is directed to faculty teaching and research and research assistance for local area allied health professionals. The interdisciplinary nature of these studies requires that students and faculty consult related collections in the library.

Collection Guidelines:

a.) Languages: English is the principal language of the collection. Works written in languages other than English are purchased selectively and usually in English translation.

b.) Chronological Coverage: Emphasis is on the 20th-century, but no period is excluded from consideration for the collection.

c.) Geographical Coverage: Primary emphasis is on nursing in the United States; secondary emphasis is
on nursing as practiced in the major British
Commonwealth countries. Selective purchases are
made of materials covering nursing in Third World
and developing nations.

d.) **Format:** Books, periodicals, nonprint media, and
selected materials in microforms and
machine-readable data files.

e.) **Types of Material:** Included are encyclopedias;
directories; dictionaries; handbooks; diagnostic and
evaluative instruments; standards, licensing, and
examination manuals; bibliographies; biographies;
statistical publications; analytical research
reports; monographs; and journals. Pertinent local,
state, and federal government documents are
acquired, as are the publications and proceedings of
professional organizations such as the National
League of Nursing and the American Nurses’
Association. Dissertations and theses are purchased
selectively.

f.) **Treatment of Subject:** Publications encompassing
public health, medical economics, forensic medicine,
toxicology, geriatrics, sports medicine, surgery,
gynecology and obstetrics, pediatrics, nutrition,
therapeutics, and pharmacology are collected.
Historical material dealing with the development of
nursing, including biographies and autobiographies
of nurses and other health care workers, are
purchased. Sources on the legal and ethical aspects of health care and Nursing are acquired. Monographic works treating exclusively the physician, specialist, or medical researcher are acquired selectively. Appropriate popular works are acquired.

g.) Date of Publication: Current in-print publications receive priority; however, selected retrospective publications are purchased in available formats as budget permits.

h.) Reference Collection: The Reference Collection mirrors and supports the retrospective contents and current acquisition practices outlined in the Nursing collection management and development statement. To this end, major English language abstracts, indices, and bibliographies are purchased to provide access to the literature of Nursing. Standard nursing and medical dictionaries, biographical references, encyclopedias, handbooks, directories, yearbooks, and statistical abstracts are updated regularly.

i.) Acquisition Plans Affecting Nursing Collection:

1.) Standing Orders:

**Classifications That Define Scope of Collection:**  
610's, QH, QM, QP, QR, R's

**Recommended Collection Level:** 3bE
PHILOSOPHY, ETHICS, & RELIGION

**Purpose and Emphasis:** While Jacksonville State University does not offer a major or minor in Philosophy, Ethics, or Religion, students are encouraged to take courses within these areas to support their Baccalaureate curricula. Courses are offered in Logic, Ancient Philosophy, Modern Philosophy, Contemporary Philosophy, and Ethics. Secondary support is directed to faculty teaching and research. The interdisciplinary nature of these studies requires that students and faculty consult related collections in the library.

**Collection Guidelines:**

a.) **Languages:** English is the principal language of the collection. Works written in languages other than English are purchased selectively and usually in English translation.

b.) **Chronological Coverage:** Emphasis is placed on materials relevant to the study of the progression of philosophic and religious thought from its ancient beginnings to the present.

c.) **Geographical Coverage:** Primary emphasis is on the works of western philosophers, while writings of non-western philosophers are acquired selectively.

d.) **Format:** Books, periodicals, nonprint media, and selected materials in microforms and
machine-readable data files.

e.) Types of Materials: Included are encyclopedias, directories, dictionaries, handbooks, bibliographies, biographies, monographs and journals. Pertinent local, state, and federal government documents are acquired, as are the publications and proceedings of professional philosophical associations and organizations such as the American Philosophical Society. Dissertations and theses are purchased selectively.

f.) Treatment of Subject: Publications encompassing logic, epistemology, ontology, cosmology, occult sciences, parapsychology, aesthetics, religions, and theology are collected. Historical material dealing with the development of Philosophy and Religion, including biographies and autobiographies of philosophers, theologians, and notable religious figures are purchased. Materials on the legal and ethical aspects of Religion and works written on a popular level are acquired.

g.) Date of Publication: Current in-print publications receive priority; however, selected retrospective publications are purchased in available formats as budget permits.

h.) Reference Collections: The Reference Collection mirrors and supports the retrospective contents and current acquisition practices outlined in the
Philosophy, Ethics, and Religion collection management and development statement. To this end, major English Language indices, abstracts, and bibliographies are purchased to provide access to the literature of Philosophy. Standard philosophical dictionaries, encyclopedias, handbooks, biographical references, directories, yearbooks, and statistical abstracts are regularly updated.

i.) Acquisition Plans Affecting Philosophy Collection:

1.) Standing Orders:
   - Christmas Annual
   - Tanner Lectures on Human Values
   - Tulane University Studies in Philosophy
   - Yearbook of American and Canadian Churches

2.) Blanket Orders: None

3.) Approval Plans: None

j.) Deselection/Replacement: Currency of materials is not a major criterion for assessment, thus deselection/replacement is kept to an absolute minimum. Materials for deselection or replacement are evaluated in accordance with the General Collection Management and Development Policy statement on Deselection/Replacement.

Related Subject Statements: American Literature; Audio-Visual; Auxiliary Sciences of History; English Literature; Education; General Reference; History; Languages & Related Literatures; Law; Nursing; Political Science & Public Administration; Psychology;
Sociology & Social Work; Western European Literatures

Additional Resources: Online databases and other academic institutions in the state of Alabama and the region

Classifications That Define Scope of Collection:

Recommended Collection Level: 3aE
PHYSICS AND ENGINEERING

Purpose and Emphasis: Primary support is directed to teaching and research in the areas of the Core Curriculum and Baccalaureate Physics programs: Bachelor of Science in Physics and the Bachelor of Science in Education for those majoring in the teaching fields of Physics or General Science. Additionally, the collection supports the minor in Physics, the two-year Pre-engineering program, and Astronomy courses. Further, the collection supports the research and teaching activities leading to the Master of Science in Education and the Education Specialist degrees for those majoring in Secondary Education with a teaching field in General Science. The interdisciplinary nature of these studies requires that students and faculty consult related collections in the library.

Collection Guidelines:

a.) Languages: English is the principal language of the collection. Works written in languages other than English are purchased selectively and usually in English translation.

b.) Chronological Coverage: Emphasis is on the 20th-century, but no period is excluded from consideration for the collection.

c.) Geographical Coverage: Primary emphasis is on Physics and Engineering in the United States.
d.) **Format:** Books, periodicals, non-print media, and selected materials in microforms and machine-readable data files.

e.) **Types of Material:** Included are encyclopedias, directories, dictionaries, handbooks, analytical research reports, statistical publications, bibliographies, biographies, monographs and journals. Pertinent local, state, and federal government documents are acquired, as are the publications and proceedings of professional organizations such as the American Institute of Physics and American Physical Society. Dissertations and theses are purchased selectively.

f.) **Treatment of Subject:** Publications encompassing astronomy, astrophysics, experimental mechanics, acoustics, heat, optics, nuclear and particle physics, electricity and magnetism, geophysics, meteorology, quantum mechanics, and theoretical mechanics are collected. Historical material dealing with the development of physics and engineering, including biographies and autobiographies of physicists and engineers are purchased. Materials on legal and ethical aspects of Physics and Engineering and works written on a popular level are acquired selectively.

g.) **Date of Publication:** Current in-print publications receive priority; however, selected retrospective
publications are purchased in available formats as budget permits.

h.) **Reference Collection:** The Reference Collection mirrors and supports the retrospective contents and current acquisition practices outlined in the Physics and Engineering collection management and development statement. To this end, English language abstracts, indices, and bibliographies are purchased to provide access to the literature of Physics and Engineering. Standard physics and engineering dictionaries, biographical references, encyclopedias, handbooks, directories, yearbooks, and statistical abstracts are regularly updated.

i.) **Acquisition Plans Affecting Physics and Engineering Collection:**

1.) **Standing Orders:**
   - Astronomical Calendar

2.) **Blanket Orders:** None

3.) **Approval Plans:** None

j.) **Deselection/Replacement:** As currency is of primary importance in the physics and engineering fields every effort is made to insure that the collection is up-to-date and germane to the programs offered by the Physics and Engineering Department. Thus, erroneous and dated materials are prime candidates for deselection/replacement, unless they retain some seminal or historical value. Materials for
deselection or replacement are evaluated in accordance with the General Collection Management and Development Policy statement on Deselection/Replacement.

Related Subject Statements: Audio-Visual; General Works; Mathematical, Computing, & Information Sciences; Military Science; Technology

Recommended Collection Level: 3cE
POLITICAL SCIENCE AND PUBLIC ADMINISTRATION

Purpose and Emphasis: The collection's primary purpose and emphasis is to support teaching and research at the Core Curriculum, Baccalaureate, and Master levels. Baccalaureate degrees offered are the Bachelor of Arts in Political Science, the Bachelor of Arts in Political Science/Pre-Law, and the Bachelor of Science in Education for those majoring in the teaching field of Political Science. Areas of concentration at the Baccalaureate level include: Theory and Methodology, American Government, and Global Studies. Additionally, the minors of Political Science and International Studies are supported. At the Master level support is directed for the Master of Arts in Political Science and the Master of Public Administration. Further support is provided for the Master of Science in Education and the "educational Specialist for those majoring in Secondary Education in the teaching field of Political Science. Secondary support is directed to faculty teaching and research. The interdisciplinary nature of these studies requires that students and faculty consult related collections in the library.

Collection Guidelines:

a.) Languages: English is the principal language of the collection. Works written in languages other than English are purchased selectively and usually in English translation.
b.) **Chronological Coverage:** Emphasis is on the 20th-century, but no period is excluded from consideration for the collection.

c.) **Geographical Coverage:** Primary emphasis is on government, politics, and society in the United States, but no area is excluded from consideration.

d.) **Format:** Books, periodicals, nonprint media, and selected materials in microforms and machine-readable data files.

e.) **Types of Material:** Included are encyclopedias, directories, dictionaries, handbooks, biographies, bibliographies, analytical research reports, statistical publications, monographs and journals. Pertinent local, state, and federal government documents are acquired, as are the publications and proceedings of professional organizations such as the American Political Science Association. Dissertations and theses are purchased selectively.

f.) **Treatment of Subject:** Publications encompassing political theory, constitutional history and administration, law, government organization, federal and state relations, political rights, political parties, local and state government, public finance, diplomacy, international relations, international law, and forms of the state are collected. Historical material dealing with the
development of Political Science and Public Administration, including autobiographies and biographies of political theorists and notable political figures are acquired intensively. Popular works are purchased.

g.) Date of Publication: Current in-print publications receive priority; however, selected retrospective publications are purchased in available formats as budget permits.

h.) Reference Collection: The Reference Collection mirrors and supports the retrospective contents and current acquisition practices outlined of the Political Science and Public Administration collection development statement. To this end, major English language abstracts, indices, and bibliographies are purchased to provide access to the literature of Political Science and Public Administration. Standard political science and public administration dictionaries, encyclopedias, directories, yearbooks, biographical references, and statistical abstracts are updated regularly.

Classifications That Define Scope of Collection:

320's, HJ, J's

Recommended Collection Level: 3cE
Purpose and Emphasis: The collection's primary purpose is to support teaching and research at the Core Curriculum, Baccalaureate, and Master Levels. Baccalaureate degrees offered are the Bachelor of Science in Psychology and the Bachelor of Science in Education. Major areas of concentration in Psychology: Behavior Analysis, Behavior Science, Behavior Modification, Animal Behavior, Child Behavior, Human Assessment, Consumer Behavior, Organizational Behavior. Within the College of Education the major areas of concentration are: Educational Psychology, Elementary Education, or Secondary Education (teaching field Psychology). Additionally, the minor in Psychology is supported. At the Master level support is directed to the Master of Science in Psychology. Further support is provided for the Master of Science in Education and the Education Specialist for those majoring in Secondary Education in the teaching field Social Science. Secondary support is directed to faculty teaching and research. The interdisciplinary nature of these studies requires that students and faculty consult related collections in the library.

Collection Guidelines:

a.) Languages: English is the principal language of the collection. Works written in languages other than
English are purchased selectively and usually in English translation.

b.) **Chronological Coverage:** Emphasis is on the 20th-century, but no period is excluded from consideration for the collection.

c.) **Geographical Coverage:** Primary emphasis is on the United States, Canada, and Western Europe. Selected purchases are made for materials covering Third World and other countries.

d.) **Format:** Books, periodicals, nonprint media, and selected materials in microforms and machine-readable data files.

e.) **Types of Material:** Included are encyclopedias, directories, dictionaries, handbooks, case studies, bibliographies, biographies, analytical research reports, statistical publications, monographs, and journals. Pertinent local, state, and federal government documents are acquired, as are the publications and proceedings of professional organizations such as the American Psychological Association. Dissertations and theses are purchased selectively.

f.) **Treatment of Subject:** Publications encompassing psychoanalysis, experimental psychology, applied psychology, counseling, comparative psychology, genetic psychology, and developmental psychology are collected. Historical material dealing with the
development of Psychology, including biographies and autobiographies of psychologists, psychotherapists, psychiatrists, and other mental health workers are purchased. Materials on legal and ethical aspects of psychology and works written on a popular level are acquired.

g.) Date of Publication: Current in-print publications receive priority; however, selected retrospective publications are purchased in available formats as the budget permits.

h.) Reference Collection: The Reference Collection mirrors and supports the retrospective contents and current acquisition practices outlined in Psychology collection development statement. To this end, major English language abstracts, indices, and bibliographies are purchased to provide access to the literature of Psychology. Standard psychological dictionaries, encyclopedias, biographical references; handbooks, directories, yearbooks, and statistical abstracts are regularly updated.

SOCILOGY AND SOCIAL WORK

Purpose and Emphasis: The collection’s primary purpose is to support teaching and research at the Core Curriculum, Baccalaureate, and Master levels. Baccalaureate degrees offered are the Bachelor of Arts or Sciences in Sociology and the Bachelor of Social Work. In addition, the program supports the Bachelor of Science in Education degree for those majoring in the teaching fields of Social Science or Sociology. Minors are offered in Sociology, Social Work, and Gerontology. Further support is provided for the Master of Science in Education and the Educational Specialist degrees for those majoring in Secondary Education in the teaching field of Social Science. Secondary support is directed to faculty teaching and research. The interdisciplinary nature of these studies requires that students and faculty consult related collections in the library.

Collection Guidelines:

a.) Languages: English is the principal language of the collection. Works written in languages other than English are purchased selectively and usually in English translation.

b.) Chronological Coverage: Emphasis is on the 20th-century, but no period is excluded from consideration for the collection.

c.) Geographical Coverage: Primary emphasis is on
culture, social relations, social behavior, and society in the United States, but no area is excluded from consideration.

d.) **Format:** Books, periodicals, nonprint media, and selected materials in microforms and machine-readable data files.

e.) **Types of Material:** Included are encyclopedias; directories; dictionaries; handbooks; statistical publications, analytical research reports, case studies, bibliographies; biographies; monographs; and journals. Pertinent local, state, and federal government documents are acquired, as are the publications and proceedings of professional organizations such as the National Association of Social Workers. Dissertations and theses are purchased selectively.

f.) **Treatment of Subject:** Publications encompassing social psychology, marriage and family, social histories, theoretical sociology, communities, social pathology, and social classes and races are collected. Historical material dealing with the development of Sociology and Social Work, including biographies and autobiographies of sociologists, social theorists, and social workers are purchased. In addition, materials on the legal and ethical nature of Sociology, Social Work and Gerontology are acquired. Works written on a popular level will be
purchased selectively.

g.) **Date of Publication:** Current in-print publications receive priority; however, selected retrospective publications are purchased in available formats as budget permits.

h.) **Reference Collection:** The Reference Collection mirrors and supports the retrospective contents and current acquisition practices outlined in the Sociology and Social Work collection management and development statement. To this end, major English language abstracts, indices, and bibliographies are purchased to provide access to the literature of Sociology, Social Work, and Gerontology. Standard sociological, social work and gerontological dictionaries, encyclopedias, handbooks, biographical references, directories, yearbooks, and statistical abstracts are updated regularly.

i.) **Acquisition Plans Affecting Sociology & Social Work Collection:**

1.) **Standing Orders:**

   - Alabama County Data Book
   - Child Welfare League of America
   - Gallup Poll: Public Opinion
   - Human Relations Area Files
   - Human Relations Area Files Source Bibliography
   - Indiana Academy of the Social Sciences: Proceedings
   - International Bibliography of the Social Sciences

TECHNOLOGY

Purpose and Emphasis: The collection's primary support is directed to the teaching and research areas of the Baccalaureate Technology program: Electronics Technology, Industrial Management, and Manufacturing Technology. Additional support is directed to the two-year Pre-Engineering curriculum which emphasizes General Engineering, Mechanical Engineering and Electrical Engineering. Secondary support is directed to faculty teaching and research. The interdisciplinary nature of the collection requires that students and faculty consult related collections.

Collection Guidelines:

a). Language: English is the principal language of the collection. Works written in languages other than English are purchased selectively to support technology and engineering research.

b). Chronological Coverage: Primary emphasis is on Technology and Engineering in the late 20th-century, but no period is excluded from consideration for the collection.

c). Geographical Coverage: Primary emphasis is on Technology and Engineering in the United States.

e). **Types of Material**: Included are introductory works, dictionaries, encyclopedias, directories, bibliographies, technical manuals, "how-to" books, analytical research reports, statistical publications, standards, biographies, handbooks, proceedings, transactions, symposia, monographs, journals and selected government documents. Dissertations and theses are purchased selectively.

f). **Treatment of Subject**: Publications encompassing the application of knowledge and the understanding of materials and production processes, occupational technology, concepts of management and human relations, marketing, communications, electronics, computer fundamentals, mathematics, physical sciences, applied optics, and graphics are collected. Historical material dealing with the development of the technological and engineering sciences, including biographies and autobiographies of technicians, engineers, and other scientist are acquired. In addition, materials on the legal and ethical aspects of Technology and popular works are purchased selectively.

g). **Date of Publication**: Current in-print publications receive priority; however, selected retrospective publications are purchased in available formats as budget permits.
h.) Reference Collection: The Reference Collection reflects and supports the retrospective contents and the current acquisition policies outlined in the Technology collection management and development statement. To this end, major English language abstracts, indices, bibliographies are purchased to provide access to the literatures of Technology and Engineering. Standard technological and engineering dictionaries, encyclopedias, handbooks, yearbooks, directories, biographical references, and statistical abstracts are regularly updated.

i). Acquisition Plans Affecting Technology Collection:

1). Standing Orders:
   Yearbook of Science and Technology

2). Blanket Orders: None

3). Approved Plans: None

j). Deselection/Replacement: Currency is of prime importance in the Technology and Engineering fields. Every effort is made to insure that the collection is up-to-date and germane to the programs offered by the Technology Department. Thus, erroneous and dated materials are prime candidates for deselection/replacement, unless they contain some seminal or historical value. Materials for deselection or replacement are evaluated in accordance with the General Collection Management and Development Policy statement on Deselection/Replacement.

Recommended Collection Level: 3bE
WESTERN EUROPEAN LITERATURES

Purpose and Emphasis: Primary purpose of the collection is to support teaching and research for the Core Curriculum and the Baccalaureate programs. Baccalaureate degrees offered are the Bachelor of Arts in Foreign Language and the Bachelor of Science in Education, for those majoring in Foreign Languages in the teaching fields of French, Spanish, or German. Additional support is directed for the minor in Foreign Language and to courses in contemporary and world literature offered through the English Department. The interdisciplinary nature of these studies requires students and faculty to consult related collections in the library.

Collection Guidelines:

a.) Languages: French, German, and Spanish language literary and critical materials are collected in the original language or English translation. Other Western European literary and critical works are selectively collected in English language.

b.) Chronological Guidelines: No limitations.

c.) Geographical Guidelines: Geographical guidelines are dictated by the author’s country of origin, thus emphasis is on publications by and about authors from France, Germany, and Spain. Limited selections are made of works by and about authors from other West European-speaking countries.

d.) Format: Books, monographs, periodicals, nonprint
media, and selected materials in microforms and machine-readable data files.

e.) Types of Materials: Included are atlases, handbooks, bibliographies, biographies, concordances, dictionaries, directories, encyclopedias, professional proceedings, monographs, and periodicals. Dissertations and theses are purchased selectively.

f.) Treatment of Subject: All literary genres are collected. Publications of major Western European authors and those authors emphasized in the curriculum are given priority. Studies of a bibliographical, biographical, critical, historical, or textual nature are collected intensively. Priority is always given to scholarly works, but a selective number of materials, such as an author's first work, bestsellers, or popular fiction is acquired.

g.) Date of Publication: Current in-print publications receive priority; however, retrospective materials are purchased in available formats as budget permits.

h.) Reference Collection: The Reference Collection mirrors and supports the retrospective contents and current acquisition practices outlined in the Western European Literatures collection management and development statement. To this end, major
language abstracts, indices, and bibliographies are purchased to provide access to Western European Literature. Standard literary dictionaries, encyclopedias, handbooks, biographical references, directories, and yearbooks are updated regularly.

i.) **Acquisition Plans Affecting the Western European Literature Collection:**

1. **Standing Orders:**

   - Annual Bulletin of Historical Literature
   - Approaches to Teaching
   - Classical and Medieval Literature Criticism
   - Comparative Criticism
   - Contemporary Authors
   - Contemporary Authors -- Autobiography
   - Contemporary Authors -- Index
   - Contemporary Authors -- Revision Series
   - Contemporary Literary Criticism
   - Critical Essays Series
   - Dictionary of Literary Biography Yearbook
   - French XX Bibliography
   - German Library
   - Glyph
   - Goethe in English
   - Literature Criticism from 1400-1800
   - Magill’s Literary Annual
   - MLA Directory of Periodicals
   - MLA International Bibliography
   - Nineteenth Century Literature Criticism
   - Poetry Criticism
   - Poetry Index Annual
   - Short Story Criticism
   - Something about the Author
   - Something about the Author -- Autobiography Series
   - Twayne’s Masterwork Studies
   - Twayne’s World Authors Series
   - Twentieth Century Literary Criticism
   - Yearbook of Comparative and General Literature

2. **Blanket Orders:** None

3. **Approval Plans:** None

j.) **Deselection/Replacement:** Currency of materials is not a major criterion for assessment, thus
deselection/replacement is kept to an absolute minimum. Materials for deselection or replacement are evaluated in accordance with the General Collection and Development Policy statement on Deselection/Replacement.

**Related Subject Statements:** Audio-Visual; American Literature; Art; English Literature; General Works; History; Languages and Related Literatures; Music; Philosophy, Ethics, and Religion

**Additional Resources:** Online databases and other academic institutions in the state of Alabama and the region

**Collection Assessment Tools:** ARBA; Books for College Libraries; Faulhaber, Uwe K. *German Literature: an Annotated Reference Guide*; MLA; Palfrey, Thomas R. *A Bibliographical Guide to the Romance Languages and Literatures*; Sheehy, Eugene P. *Guide to Reference Books*. Thompson, George A. *Key Sources in Comparative and World Literature*.

**Classifications That Define the Scope of Collection:** 830-869, PQ, PT-PZ

**Recommended Collection Level:** 3bF
COLLECTION LEVEL INDICATORS

0 OUT OF SCOPE: The library does not collect in this subject.

1 MINIMAL LEVEL: A subject area in which few selections are made beyond very basic works. A collection at this level is frequently and systematically reviewed for currency of information. Superseded editions and titles containing outdated information are withdrawn.

1a MINIMAL LEVEL, UNEVEN COVERAGE: Few selections are made and there is unsystematic representation of subject.

1b MINIMAL LEVEL, EVEN COVERAGE: Few selections are made, but basic authors, some core works, or a spectrum of ideological views are represented.

2 BASIC INFORMATION LEVEL: A selective collection of materials that serves to introduce and define a subject and to indicate the varieties of information available elsewhere. It may include dictionaries, encyclopedias, access to appropriate bibliographic databases, selected editions of important works, historical surveys, bibliographies, handbooks, and a few major periodicals. The collection is frequently and systematically reviewed for currency of information.

2a BASIC INFORMATION LEVEL, INTRODUCTORY: The emphasis at this level is on providing resources that introduce and define a subject. A collection at this level includes basic reference tools and explanatory works, such as textbooks; historical descriptions of the subject's development; general works devoted to major topics and figures in the field; and selective major periodicals. The introductory level of a basic information collection is only sufficient to support patrons attempting to locate general information about a subject or students enrolled in introductory level courses.

2b BASIC INFORMATION LEVEL, ADVANCED: At the advanced level, basic information about a subject is provided on a wider range of topics and with more depth, there is a broader selection of basic explanatory works, historical descriptions, reference tools, and periodicals that serve to introduce and define a subject. An advanced basic information level is sufficient to support students in basic courses as well as supporting the basic information needs of patrons in public and special libraries.

3 STUDY OR INSTRUCTIONAL SUPPORT LEVEL: A collection that is adequate to impart and maintain knowledge about a subject in a systematic way but at a level of less than research intensity. The collection includes a wide range of basic works in appropriate formats, a significant number of

181
classic retrospective materials, complete collections of the works of more important writers, selections from the works of secondary writers, a selection of representative journals, access to appropriate machine-readable data files, and the reference tools and fundamental bibliographical apparatus pertaining to the subject. At the study or instructional support level, a collection is adequate to support independent study and most learning needs of the clientele of public and special libraries, as well as undergraduate and some graduate instruction. The collection is systematically reviewed for currency of information and to assure that essential and significant information is retained.

3a BASIC STUDY OR INSTRUCTIONAL SUPPORT LEVEL: The basic subdivision of a level 3 collection provides resources adequate for imparting and maintaining knowledge about the basic or primary topics of a subject area. The collection includes the most important primary and secondary literature, a selection of basic representative journals/periodicals, and the fundamental reference and bibliographical tools pertaining to the subject. This subdivision of level 3 supports lower division undergraduate courses, as well as some of the basic independent study needs of the lifelong learner and the general public, with coverage at all appropriate reading levels.

3b INTERMEDIATE STUDY OR INSTRUCTIONAL SUPPORT LEVEL: The intermediate subdivision of a level 3 collection provides resources adequate for imparting and maintaining knowledge about the primary and secondary topics of a subject area. The collection includes a broad range of basic works in appropriate formats, classic retrospective materials, all key journals on primary topics, selected journals and seminal works on secondary topics, access to appropriate machine-readable data files, and the reference tools and fundamental bibliographical apparatus pertaining to the subject. This subdivision of level 3 supports undergraduate courses, including advanced undergraduate courses, as well as most independent study needs of the clientele of public and special libraries. It is not adequate to support master's degree programs.

3c ADVANCED STUDY OR INSTRUCTIONAL SUPPORT LEVEL: The advanced subdivision of level 3 provides resources adequate for imparting and maintaining knowledge about the primary and secondary topics of a subject area. The collection includes a significant number of seminal works and journals on the primary and secondary topics in the field; a significant number of retrospective materials; a substantial collection of works by secondary figures; works that provide more in-depth discussions of research, techniques, and evaluation; access to appropriate machine-readable data files; and reference tools and fundamental bibliographic
apparatus pertaining to the subject. This level supports all courses of undergraduate study and master's degree programs as well as the more advanced independent study needs of the patrons of public and special libraries.

4 RESEARCH LEVEL: A collection that includes the major published source materials containing research reporting, new findings, scientific experimental results, and other information useful to researchers. It is intended to include all important reference works and a wide selection of specialized monographs, as well as a very extensive collection of journals and major indexing and abstracting services in the field. Pertinent foreign language materials are included. Older material is usually retained for historical research and actively preserved. A collection at this level supports doctoral and other original research.

5 COMPREHENSIVE LEVEL: A collection in which a library endeavors, so far as is reasonably possible, to include all significant works of recorded knowledge (publications, manuscripts, other forms), in all applicable languages, for a necessarily defined and limited field. This level of collection intensity is one that maintains a "special collection"; the aim, if not the achievement, is exhaustiveness. Older material is retained for historical research with active preservation efforts.

LANGUAGE COVERAGE CODES

Language coverage is closely linked to the collection levels, and the representation of English and foreign language materials is a critical dimension in evaluating collections. Language coverage qualifies and amplifies the collection values and frequently determines the appropriate collection level. Generally, the higher the reported level the broader the language coverage. For example, a collection in History cannot be considered a research collection unless foreign language materials are collected extensively.

The following language codes are to be added to every collection level, acquisition commitment, or collection goal code assigned. A missing language code will be interpreted in the database as an "E" for "predominantly English."

E - English language material predominates; little or no foreign language material in the collection.

F - Selected foreign language material included, in addition to the English language material.

W - Wide selection of foreign language material in all applicable languages.
Y - Material is primarily in one foreign language. (The comments field should indicate the specific language.)

COMMENTS

In addition to the numeric summaries of a collection, descriptive comments are very important in describing a collection. They may be used to describe the particular strengths or limits of a subject collection or collecting activity. For example: electronic databases; gaps in publishing or acquisition history; existence of special collections. They also may be general and used to describe special collections or collecting policies that cut across categories and subjects. Information relevant to interdisciplinary topics such as Women's Studies, Black Studies, or regional interest materials can be identified and retrieved by using a 2 letter code in brackets in the comments field (e.g. [WS-1600 vols. median age 1974]).
