Written by a technical committee's industry representatives, state officials, and educators in Oregon, this document lists the skills and knowledge required by employees in travel and tourism occupations. The following occupations are considered: rental representative; service agent; travel agent; bus/tour/driver/guide/sightseeing leader; manager or convention center director; airline agent; flight attendant; visitor's center information coordinator; tourism director; and convention sales director. The guide begins with a list of 12 clusters of employability skills. A matrix matches each of the seven job duties identified with appropriate tasks for each of these occupations and ranks the skills by entry, retention, or advanced levels. The guide also identifies the industry standards (performance objectives), the steps that are required to accomplish the tasks to meet these standards (performance guide), and the necessary tools and equipment for each. The skills are grouped into the following categories: (1) clerical functions; (2) public relations duties; (3) sales functions; (4) inspection and maintenance; (5) personnel functions; (6) general managerial duties; and (7) fiscal management duties. INTRODUCTION

The Carl D. Perkins Vocational Education Act (PL 98-524) requires that each state establish at least two technical committees per year. The purpose of these technical committees is to identify the skills and knowledges required for occupations for which training is provided for in the state.

The technical committees are composed of members from business, industry, professional associations, and labor, as well as persons with special expertise. In addition, there is one ex officio representative from each of the following areas:

- State Advisory Council for Career and Vocational Education
- Secondary vocational programs
- Community college vocational programs
- Teacher education/higher education

The committees identify the skills and knowledges required in the occupation at three levels.

1. Entry--The skills necessary to obtain the job.
2. Retention--The skills necessary to retain the job beyond the probationary period.
3. Advanced--The skills necessary to advance in the occupation; i.e., journeyperson level.

The work will be used to determine the competencies required in each vocational program and to improve the existing curriculum statewide.

The report reflects many hours and a strong commitment to educational excellence on the part of the committee members. The Department appreciates the work of the committee.

HOW TO USE THE REPORT
OF THE
TECHNICAL COMMITTEE

The Technical Committee has identified the skills and knowledges required by employees in a certain occupational area. They have also identified the industry standard (in the performance objective) and the steps that are required to accomplish the task to meet the industry standard (performance guide). Many times there are several ways to competently perform a task, the one given is a suggestion.

The report does not differentiate between skills that can be taught at the secondary or postsecondary level. It is a picture of the occupation and the skills an employee must be able to perform. Thus this document is not a curriculum guide. It is the first step of developing your curriculum or program. Each local advisory committee should review the tasks to determine if they meet local needs. Many times there will be additional tasks that the local committee will identify as being necessary.

Each skill in this report is ranked as being Entry (needed to get the job), retention (needed to keep the job), or advanced (needed to advance in the job or be considered fully responsible in the job).

Once a local committee has reviewed the tasks and the performance objectives, the teacher needs to identify which of these skills are appropriate for each level of instruction. (The statewide education committee will also be doing this and their recommendations can be used as a guide.)

Once the skills have been identified for which instruction will be provided, resources need to be identified and evaluated. Again the statewide education committee will be doing this and recommending three to four excellent resources. The teacher/instructor will need to review the material also to determine if additional skills as recommended by their local committee are adequately covered.

Again, this document is not a curriculum; it provides the necessary skills for employment as identified by industry. It also provides performance objectives from which competencies and instructional objectives may be written.

SUMMARY OF MEETINGS

The Travel/Tourism Committee met twice to identify the skills and performance objectives necessary for a variety of jobs in the broad category of Travel/Tourism. The committee identified the job titles which are listed on page 5. Jobs in this area range from convention/vision bureau to travel agents to reservation agents. The committee found it necessary to develop the skills due to a lack of available resources.

Teri Justice of the Salem Visitors and Convention Bureau provided special assistance in identifying the tasks.

6. Task: Reconcile monthly bank accounts

73. PERFORMANCE OBJECTIVE

Given the need to maintain appropriate records of financial affairs, monthly bank statement, all cancelled checks, plus record of deposits made to, reconcile monthly bank accounts. Status of accounts is established and statements are accurate.

PERFORMANCE GUIDE

1. Compare all cancelled checks returned against check register to determine what checks have been cashed and what checks are still to be presented for payment.
2. Compare account balance with check register to confirm totals.
3. Compare all deposit receipts against monthly statement to ensure all deposits were credited to account.
4. Use prior month's reconciled statement as point of initial review.

7. Task: Determine optimum process for reproducing printed materials

74. PERFORMANCE OBJECTIVE

Given materials to be reproduced, current cost-per-copy figures for each graphic reproduction process available, number of copies desired and date copies are needed, determine optimum process for the reproduction of printed materials. Decision must provide for desired number of copies being made available within allotted time at least expense.

PERFORMANCE GUIDELINE

1. Identify the graphic reproduction processes (such as xerographic copier, spirit duplicator, offset, or mimeograph) that could accommodate the material.
2. Determine the operational status (working, limited functioning, broken) of the equipment involved in each of the feasible processes.
3. Identify from among the processes available those that could produce the desired quantities within the allotted time.
4. Calculate the costs of producing the desired number of copies for each of the processes still under consideration.
5. Select the least costly graphic reproduction process.

8. Task: Prepare budgets

75. PERFORMANCE OBJECTIVE

Given records of past sales/activities by designated fiscal periods (annual), knowledge of management techniques and awareness of financial factors affecting business (labor and overhead costs), prepare budget. An operating budget (sales, labor, and overhead) must be established based upon analysis of previous costs and present situation that can be used for comparison with actual costs and projections.

PERFORMANCE GUIDE

1. Obtain a copy of income statement from previous accounting period.
2. Determine planned volume of business and expenses for new period.
3. Estimate gross sales, cost of goods sold, and net sales for new period.
4. Determine fixed and variable expenses for each department.
5. Calculate operating profit.

9. Task: Prepare statements for mailing

76. PERFORMANCE OBJECTIVE

Given completed client/customer records and corresponding account sheets and
a supply of statements, prepare a statement for each client whose name
appears on the client records. All necessary information should appear
without error in the appropriate spaces.

PERFORMANCE GUIDE

1. Obtain daily receiving log form.
2. Gather purchase invoices.
3. Compare each purchase invoice with daily receiving log.
4. Check quantity received against invoice.
5. Check the unit charges on the invoice.
6. Check the extensions and totals on the invoice and make the necessary
corrections.
7. Write the invoice date, amount, credits (corrections), and balance
(corrected balance) on the right-hand side of the daily receiving log
across from the name of the supplier.

10. Task: Audit daily business

77. PERFORMANCE OBJECTIVE

Given cash register readings and cash summary report, audit daily business. The cash summary report must be verified, approved, and all discrepancies must be reconciled.

PERFORMANCE GUIDE

1. Examine readings and the completed daily cash summary report.
2. Check cash balance of each register.
3. Determine reasons for cash shortages or cash overages.
4. Reconcile any discrepancies on the cash report.
5. Sign the completed daily cash summary report as approved.

11. Task: Prepare financial reports

---

78. PERFORMANCE OBJECTIVE

Given computer terminal, budget, calculator, pencil, paper, revenue reports, expense report, prepare financial reports providing accurate presentation of financial status.

PERFORMANCE GUIDE

1. Determine which financial reports are required by the company.
2. Obtain copies of previous financial reports.
3. Calculate financial reports according to company policy. For example:
   a. Income statement
      1) Review income statement from previous accounting period.
      2) Determine income (cash receipts) for period in review.
      3) Determine expenses (cash disbursements) for period in review.
      4) Calculate net cash flow:
         Starting balance
         + Cash receipts
         - Expenses
         = Net cash flow
   b. Balance sheet
      1) Review balance sheet from previous accounting period.
      2) List all assets for period in review.
      3) List all liabilities for period in review.
      4) List net worth for period in review.
      5) Calculate balance sheet:
         Assets = Liabilities + Net worth
