Reports - Descriptive (141)

*Behavioral Objectives; *Cooking Instruction; Cooks; Dining Facilities; Entry Workers; Food; *Food Service; *Foods Instruction; Home Economics Skills; Hospitality Occupations; *Job Skills; Job Training; Occupational Home Economics; *Occupational Information; Postsecondary Education; Secondary Education; State Standards; Task Analysis; Vocational Education

Written by a technical committee of persons from industry, professional associations, and labor, as well as persons with special expertise, state officials, and educators in Oregon, this document lists the skills and knowledge required of employees in food and beverage occupations. It also identifies the industry standards (performance objectives) and the steps that are required to accomplish the tasks to meet the industry standard (performance guide). Each skill is ranked as entry, retention, or advanced level, and necessary tools and equipment, prerequisite knowledge, teaching strategies, and resources are listed for each. The skills are grouped into the following 22 categories: (1) service duties; (2) safety, security, and sanitation functions; (3) arrangement duties; (4) administrative duties; (5) training and supervising; (6) sales and inventory; (7) breads, yeast dough products, and breakfast batters; (8) cakes; (9) pastries; (10) fruit desserts; (11) specialty desserts; (12) confections; (13) salads and cold items; (14) fruits, vegetables, and starches; (15) sandwiches; (16) soups and sauces; (17) breakfast items; (18) entrees; (19) miscellaneous food and beverages; (20) organizing facilities services; (21) using basic food service procedures; and (22) cash register duties. Suggested resources include 12 books, 4 periodicals, 7 miscellaneous items, 4 videotapes, and 31 films and filmstrips. (KC)

INTRODUCTION

The Carl D. Perkins Vocational Education Act (PL 98-524) requires that each state establish at least two technical committees per year. The purpose of these technical committees is to identify the skills and knowledges required for occupations for which training is provided for in the state.

The technical committees are composed of members from business, industry, professional associations, and labor, as well as persons with special expertise. In addition, there is one ex officio representative from each of the following areas:

- State Advisory Council for Career and Vocational Education
- Secondary vocational programs
- Community college vocational programs
- Teacher education/higher education

The committees identify the skills and knowledges required in the occupation at three levels.

1. Entry—The skills necessary to obtain the job.
2. Retention—The skills necessary to retain the job beyond the probationary period.
3. Advanced—The skills necessary to advance in the occupation; i.e., journeyperson level.

The work of the technical committee is reviewed by an education committee made up of secondary educators, community college educators, a representative of higher education, and representatives of the technical committee. This report is a result of the work of the technical committee and the education committee. The education committee has identified resources, teaching methods, and prerequisite knowledge for each task identified by the technical committee. This work can be used to determine the competencies in an HTR or food service program and to improve the existing curriculum.

This report reflects many hours and a strong commitment to educational excellence on the part of the committee members. The Department appreciates the work of the committee.

For more information contact Colleen Mileham at 378-8119.

Verne A. Duncan  
State Superintendent  
of Public Instruction
HOW TO USE THE REPORT
OF THE
EDUCATION COMMITTEE

The Technical Committee has identified the skills and knowledges required by
employees in a certain occupational area. They have also identified the
industry standard (in the performance objective) and the steps that are
required to accomplish the task to meet the industry standard (performance
guide). Many times there are several ways to competently perform a task, the
one given is a suggestion.

The report does not differentiate between skills that can be taught at the
secondary or postsecondary level. It is a picture of the occupation and the
skills an employee must be able to perform. Thus this document is not a
curriculum guide. It is the first step of developing your curriculum or
program. Each local advisory committee should review the tasks to determine
if they meet local needs. Many times there will be additional tasks that the
local committee will identify as being necessary.

Each skill in this report is ranked as being Entry (needed to get the job),
retention (needed to keep the job), or advanced (needed to advance in the job
or be considered fully responsible in the job). See the technical committee
for specific level.

Once a local committee has reviewed the tasks and the performance objectives,
the teacher needs to identify which of these skills are appropriate for each
level of instruction. The statewide education committee summary report
contains this, and their recommendations can be used as a guide.

Once the skills have been identified for which instruction will be provided,
resources are identified. This report recommends three to four excellent
resources. The teacher/instructor will need to review the material also to
determine if additional skills as recommended by their local committee are
adequately covered.

Again, this document is not a curriculum; it provides the necessary skills
for employment as identified by industry. It also provides performance
objectives and resources from which competencies and instructional objectives
may be written.

For more information and technical assistance, contact Colleen Mileham at the
Department of Education, Division of Vocational Technical Education, 378-8119.

A. Duty: Performing Service Duties

1. Task: Answer Telephone

1. PERFORMANCE OBJECTIVE

Provided a telephone and incoming telephone calls, answer each of the calls demonstrating correct business telephone etiquette and taking complete order or message.

PERFORMANCE GUIDE

1. Identify business and self.
2. Answer the incoming call promptly and courteously.
3. Answer in a natural voice, using a normal conversational level of speaking.
4. Speak clearly.
5. Listen to what the caller has to say.
6. Write information that needs to be kept; i.e., orders of food or a message.
7. Courteously end the call when caller is finished.

2. Task: Greet and seat patron

2. PERFORMANCE OBJECTIVE

Given menus, glasses, pitcher, place settings, greet and seat patron. Patron must travel from foyer to seat in one uninterrupted movement and all special seating (children handicapped) must be provided for.

PERFORMANCE GUIDE

1. Smile and make appropriate greeting.
2. Assist patron with coats and packages.
3. Ask, where necessary, if patrons wish smoking or nonsmoking area.
4. Show patrons to table and assist with seating.
5. Where necessary, bring auxiliary chairs to table.
6. Present menus.
7. Remove or add extra settings.
8. Briefly describe house specials.

3. Task: Write order

3. PERFORMANCE OBJECTIVE

Given a group of diners, order book, and pencil, write order listing all orders and prices correctly.

PERFORMANCE GUIDE

1. Introduce yourself to customers.
2. Solicit appetizers/cocktails/beverages.
3. Clarify that customers are aware of specials.
4. Determine if there will be one check or separate checks. Note: Where applicable, write date, table number, waitresses' or waiter's name and number in party. Stand at some point of table that can serve as reference to help remember what each person ordered.
5. As each guest gives his/her order, clarify the order before writing it.
6. Ask each guest to express their desires as to how they wish food to be prepared.

Note: These performance guides are composite of ten variant procedures for taking orders.

4. Task: Perform room service

4. PERFORMANCE OBJECTIVE

Given an order to deliver to a room, proper tools and equipment, perform room service. Food must be appropriate temperature when presented to guest. Food and all accessories must arrive in time specified by establishment policy.

PERFORMANCE GUIDE

1. Obtain clean tray or rolling table with drop leaves.
2. Completely set table or tray.
3. For hot foods, set up carrier with canned heat or electrical plugs.
4. Pick up food in this order: cold food, bread, cold beverages, hot foods, and coffee in insulated bottle.
5. Check order and cover dishes.
6. Move briskly to room, knock and announce the customer’s order has arrived.
7. Transport table to place designated by customer.
8. Arrange table and place chairs in front of place settings.
9. Pour beverages.
10. Place first course in center of cover.
11. Plug in carrier or ignite canned heat.
12. Serve guest.
13. Ask if anything else is needed and present check.
14. Return for tray as appropriate.

5. Task: Package carry out food

5. PERFORMANCE OBJECTIVE

Given customer order, food items, containers for carrying out, plastic flatware, bags, warmer, cooler, and pencil/pen, package carryout food. Order must be correctly filled. Packages must not burst open, and food must be at appropriate temperature when the customer picks it up.

PERFORMANCE GUIDE

1. Receive order.
2. Read order back to customer and ask for a pick-up time. Note: The key to carry-out orders is timing. Customers who place their orders early and are made to wait become resentful. No one wants cold, soggy food. The ideal is to seal an order just as the customer steps up to pick the order up.
3. Assemble containers and accessories.
4. Package hot food and place in warmer.
5. Package cold food and place in cooler. Caution: When placing food containers in paper bags, be sure to use correct sized bags. Tight fitting food containers will split the bag. Package drinks in bags separate from food.
6. Check all food items and all accessory items.

6. Task: Serve meal

6. PERFORMANCE OBJECTIVE

Given a table, dishes, flatware, glassware, food, and beverages, serve meal. Meal will follow a predetermined order of service and be served within timelines set by establishment.

PERFORMANCE GUIDE

1. Place chilled butter on cold bread and butter plate.
2. Place bread and crackers to the left and above fork. Note: Some guests wish their hot beverage to be served at the beginning of a meal, others want them last.
3. Place soup or cocktail above place setting in the center.
4. Remove soup or cocktail service when guest has finished.
5. Place vegetable/appetizer dishes above the center of place setting.
6. When salad is served, place it to the left of fork.
7. Place hot beverage at right of place setting, cup handle turned to the right, and creamer above the cup. Note: Coffee and tea are usually served after complete entree in formal setting. However, the guest's wishes are the final rule.
8. Place cold drink a little to the right of and below water glass.
9. Lay serving silver to the right of platter or casserole.
10. Place warmed dinner plate front and center of guest.
11. Remove dishes in this order: entree plate, salad plate, bread and butter plate, vegetable/appetizer dishes, and silver.
12. Crumb table by sweeping loose food particles into clean plate or container with clean, folded napkin.
13. Place dessert silver to right of place setting and dessert in center.
14. Serve beverage if desired.
15. Ask if further service is desired.
16. Thank guests for dining at your establishment, and invite them to return again.
17. Place check face down and communicate to the guest that you will be back shortly to take care of their check.

7. Task: Serve wine/sparkling wines and nonalcoholic beverages

7. PERFORMANCE OBJECTIVE

Given guests, the knowledge of different types of wine and service requirements, a napkin, corkscrew, wine glasses, ice container (bucket), serve wine according to policies of establishment and without spilling or dripping any wine.

PERFORMANCE GUIDE

1. Approach guest from his/her right side, holding bottle in cloth.
2. Pour a little wine into glass for guest who ordered wine to sip.
3. Place original cork by the guest who order the wine.
4. If wine is approved, proceed to serve, starting with ladies and then gentlemen.
5. Hold bottle so label can be read, with thumb around one side and fingers around the other.
6. Hold index finger on shoulder, not the neck, of bottle.
7. Place lip of bottle over edge of glass.
8. Using the wrist, tip bottle slowly downward until wine begins to flow.
9. When glass is sufficiently full, turn wrist to move hand upward, twisting bottle to avoid dripping.
10. Touch lip of bottle with cloth.
11. Replace wine in bucket or set on table. Note: Do not take wine away.
12. Refill glasses as they are emptied.

8. Task: Total order and present to patron

8. PERFORMANCE OBJECTIVE

Given diners, menu, pen or pencil, total order(s) and present to patron. Each person host/hostess must receive appropriate and accurate guest check.

PERFORMANCE GUIDE

1. Determine who is to be billed.
2. Total checks when certain that patrons do not wish further service.
3. Lay check face down. Note: When there are a group of people, lay checks in center of table.

9. Task: Portion foods

9. PERFORMANCE OBJECTIVE

Given long handled spoon, slotted spoons, scoop, gloves, wheel cutter, slicer, wheel marker, piecutter form, server, scales, and knife, portion foods. Portion size of the total amount of food to be served according to establishment policy or order direction of supervisor so a profit can be made.

PERFORMANCE GUIDE

1. Receive portion sizes from immediate supervisor. Note: In order for restaurateur to make a profit, a constant cost control on portions must be maintained. While there are several ways of determining cost controls, most are close to the following formula:

   \[ \text{food} + \text{labor} + \text{overhead} + \text{profit} = \text{selling price} \]
   \[ \frac{\text{number of servings}}{\text{portion size}} \]

   If you exceed the maximum size portion too often, profits are reduced.

2. Slice meat.
3. Weigh meat to determine size of portion.
4. Select serving of vegetables and weigh.
5. Cut sheet cake.
7. Using long handled spoons, select correct portion of vegetables.

10. Task: Service salad bar

10. PERFORMANCE OBJECTIVE

Given a salad bar, a cart, tongs, long handled spoons, cloths, prepared foods, fresh products, and containers, service salad bar keeping salad bar well stocked, clean, safe and all products in appropriate to spot. Salad bar must meet State Health Division standards. Watch customers to ensure food is not improperly handled.

PERFORMANCE GUIDE

1. Check salad bar and determine what needs to be done.
2. Get items needed and fill containers. Note: If containers are soiled, replace them. Caution: All wilted or contaminated foods must be replaced.
3. Add ice where needed.
4. After filling, clean up spills.
5. Replace tongs.

1. Task: Fill condiment containers

11. PERFORMANCE OBJECTIVE

Given condiment containers, spoon, cloths, can opener, and condiments, fill condiment containers. Area and condiments must be clean, shaker tops must be free and open, and new containers must be free of contamination.

PERFORMANCE GUIDE

1. Obtain clean, sanitized containers. Caution: Dangerous organisms can colonize and grow very quickly in stale food. If contaminated matter is passed on to fresh foods, they too, will soon be dangerous. So it is important that you take all precaution to stop the spread of bacteria.
2. Use clean wire or clean tooth picks to unclog holes in shaker tops.
3. Place containers on tray or plate to catch spills.
4. Fill condiment containers and replace tops.
5. Wipe outside of containers clean of any spills after filling.
6. Place condiment containers in proper place.

1. Task: Clean coffee maker

13. PERFORMANCE OBJECTIVE

Given a soiled coffee maker, tools, equipment and material, clean coffee maker. When coffee maker is rinsed, dried, and wiped with a clean, dry cloth, there can be no smudges on the cloth. Coffee made in the pot must not have residual taste due to contamination from the pot.

PERFORMANCE GUIDE

1. Turn coffee maker off and unplug it.
2. Remove filter or holder and empty coffee grounds.
3. Pour out any coffee remaining in the pot.
4. Rinse pot and partially fill with water.
5. Rinse pot thoroughly to remove any residue.
6. Dry pot, use only a clean/sanitary single service towel.
7. Wipe outside of coffee maker and hot plate.
8. Equipment should be cleaned and sanitized using procedure for "cleaned in place" equipment.

3. Task: Clean creamer and sugar containers

15. PERFORMANCE OBJECTIVE

Given used creamer and sugar containers, tools, equipment, and materials, clean creamer and sugar containers. There can be no odors emanating from containers nor caked and dried residues left in bowls, and must be within OSHD specifications.

PERFORMANCE GUIDE

1. Empty creamer and sugar container. Caution: Dispose of cream and sugar. Both are easily contaminated and the creamer can become a dangerous breeding ground for harmful micro-organisms.
2. Wash in warm soapy water. Caution: Use brush to scour insides of containers.
3. Clean inside of creamer spout with round brush.
4. Rinse thoroughly in warm water.
5. Rinse in disinfectant solution.
6. Dry containers thoroughly.
7. Refill sugar container.
8. Chill creamer before filling.

16. PERFORMANCE OBJECTIVE

Given the task of cleaning a dishwasher, tools, equipment and materials, thermometer, clean dishwasher. Upon completion there can be no foreign debris left in dishwasher and water temperature must be within OSHD specifications.

PERFORMANCE GUIDE

1. Turn off dishwasher at electrical panel and remove dish racks and baskets.
2. Remove and clean spray arm and pump cover.
3. Clean pump.
4. Remove debris from around pump openings.
5. Replace pump cover and spray arm. Spray arm must rotate freely and must not become detached.
6. Replace dish racks and baskets and plug dishwasher into outlet.
7. Pour two cups of vinegar into dishwasher and close door.
8. Operate machine on "rinse-hold" cycle. Note: If dishwasher does not have this cycle, operate on "normal cycle."
9. Clean outside surface with mild, nonabrasive detergent.
10. Rinse, then dry with lint-free cloth.

11. Task: Service milk dispensers

23. PERFORMANCE OBJECTIVE

Given an empty milk dispensing machine to service, tools and equipment, service milk dispensers. When task is finished, dispenser must flow and shut off without incident.

PERFORMANCE GUIDE

1. Clean and disinfect outside of dispenser.
2. Turn dispenser control to "off" position.
3. Open door. Note: Some milk dispensers require that you remove a lid and pour milk into dispenser.
4. Clean and disinfect inside of dispenser.
5. Set box containing milk on table next to dispenser.
6. Remove dispensing tube.
7. Place box containing milk in dispenser. Caution: Most persons should ask for assistance in lifting milk.
8. Thread dispensing tube through dispensing valve and cut. Tube should be cut as short as possible and at a 45° angle. Note: Be sure that tube is not twisted.
10. Test dispenser.
11. Wipe up spills, if any.
12. Check temperature, a spirit stem thermometer should be installed on the interior of the dispenser.

12. Task: Store food and supplies

24. PERFORMANCE OBJECTIVE

Given food and supplies to store, store food and supplies. All foods will be accounted for with no foods spoiled due to improper refrigeration. No unordered food or supplies will be accepted.

PERFORMANCE GUIDE

1. Obtain bills and check proprietor's bill against supplier's bill.
   Note: Be sure that all bills match; e.g., numbers, establishment name, and merchandise. Request claim form/credit for any damaged or unacceptable product. Do not accept damaged or temperature abused perishable foods.
2. Begin storing merchandise as soon as it is checked.
3. Refrigerate perishables.
4. Store cases on shelves, sealed bases, wheeled bases.
5. Open cartons and place cans, napkins, straws, etc., on shelves. Note: Be sure new items are put behind old items so old items will be used first.
6. Place frozen foods in freezer. Place readily perishable foods under refrigeration as soon as possible. Note: All refrigerated/frozen items must have a thermometer placed where these items are stored. Check routinely.

25. PERFORMANCE OBJECTIVE

Given a dining room floor to clean, warning signs, tools and equipment, clean dining room floor. Upon completion, there can be no debris left on the floor, food smears, or streaks.

PERFORMANCE GUIDE

1. Clean premises when customer's are not present.
2. Start in one corner and sweep toward center of room.
3. Sweep with a smooth stroke so dirt won't scatter.
4. Go around entire room sweeping from wall toward center until reaching corner started from.
5. Pull chairs out and sweep under tables.
6. Move plants and trash cans to sweep under them.
7. Sweep dirt into a pile and then into dust pan.
8. Dispose of dirt.
9. Fill mop bucket with clear hot water and add soap and disinfectant.
10. Thoroughly wet mop and wring dry.
11. Mop up food stains.

28. PERFORMANCE OBJECTIVE

Given soiled table linens, cleaning supplies and equipment, wash the linens removing all soil.

PERFORMANCE GUIDE

1. Assemble soiled table linens.
2. Examine the linens for stains.
3. Separate those linens which need special treatment for stains.
4. Sort the linens according to the fiber and color.
5. Select an appropriate detergent and measuring equipment.
6. Read the directions on the detergent container to determine the recommended amount of detergent and temperature of the wash water.
7. Select the water temperature, water level, and time cycle.
8. Measure the detergent and add to the washing machine.
9. Start the machine, allowing the tub to fill with water.
10. Load and distribute linens evenly in the machine. Load the washer following the manufacturer's suggestion for the weight of clothing load per wash.
11. Remove the linens when the cycle is complete, and the machine has stopped.
12. Place linens in the dryer.
13. Wipe the inside and the outside of the machine after each wash load.
14. Store the supplies and equipment.

29. Task: Demonstrate work safety

41. PERFORMANCE OBJECTIVE

Using proper procedures and attitudes, perform work safely to protect against injury.

PERFORMANCE GUIDE

1. Review the supervisor's safety rules.
2. Review any materials on hand from Oregon State Health Department (OSH) or other agencies regarding safety in a food service lab.
3. Check work continually to make sure these basic safety tips are followed:
   a. Clean up spills immediately.
   b. Check for articles out of place on the floor; wet signs.
   c. Pass others on the right side, called out "beside you, behind you" or similar phrase to alert others.
   d. Look for obstacles before pushing doors open or rounding corners.
   e. Know the location and use of fire exits, weather stations, fire extinguishers, and overhead fire protection.
   f. Report any faulty equipment immediately.
   g. Know where the first aid kit is and how to apply minor first aid for cuts, burns, and shock.
   h. Demonstrate ability in the carrying and pouring of hot liquid (use a splash guard saucer when pouring hot beverages for guests).
   i. Inform other workers when carrying or preparing hot items.
   j. Handle hot containers with dry hot pads.
   k. Discard all cracked or chipped glassware and china.
   l. Sweep up broken dishware immediately and dispose in proper containers.
   m. Empty cigarette ashes into metal container only.
   n. Use dry hands and dry work area when using electrical tools.
   o. Handle knives correctly and safely—including use of nonskid cutting boards.
   p. Dress carefully to eliminate dangling sleeves, ties, or other burnable or tangly articles from uniform.
   q. Lift heavy items using leg muscles, not the back (get help from others, or carts, when load is beyond his/her strength).
   r. Did not wear jewelry that could fall into guest's food or become entangled or caught in machines.

11. Task: Prepare vegetables for making salad

55. PERFORMANCE OBJECTIVE

Given sanitized hands, vegetables, a mixing bowl, slicer, grader, vertical cutting machine, cutting table, vegetable brush, peeler, and gloves, prepare vegetables for making salad. All vegetables must be clean, fresh, and sliced or shredded into manageable consistency.

PERFORMANCE GUIDE

1. Carry vegetables to cutting table. Note: Wash hands before preparing vegetables. Wear gloves while preparing vegetables.
2. Clean vegetables in skin, remove unusable portions.
3. Cut lettuce and place in mixing bowl.
4. Put water and celery in vertical cutting machine and turn machine on.
5. Remove celery and drain.
6. Chop cabbage.
7. Chop romaine.
8. Separate pieces of endive.
9. Slice cucumbers.
10. Slice onions.
11. Slice carrots and celery sticks.
12. Slice radishes.
13. Place tossed salad vegetables in mixing bowl and mix.
14. Store vegetables in plastic bags under refrigeration until needed.

12. Task: Set table for full service meal

56. PERFORMANCE OBJECTIVE

Given a table, flatware, linen, dishes, and glassware, set table for full service meal. All flatware, accessories, and cover must meet standards of establishment. All flatware and accessories must be arranged.

PERFORMANCE GUIDE

1. Place cover plate in center of cover. Note: Place dishes, silver, and napkins about one inch from the edge of the table, counter, or place mat.
2. Place napkin extreme left of cover.
3. Place forks, salad fork first, between cover plate and napkin.
4. Arrange knives on the right side of cover plate with blade turned toward center plate.
5. Place spoons to right of knife.
6. Place water glass on the right side of the cover above the tip of the knife.
7. Arrange wine, liquor, or beer glasses to right of water glass.
8. Place coffee cup to right of spoons.
9. Place butter spreader, bred and butter platter to left above cover dish. Butter spreader must be placed atop the plate with cutting edge toward diner.

13. Task: Set up steam table for service

57. PERFORMANCE OBJECTIVE

Given a steam table, pans, brush, cloths, and bucket, set up steam table for service. Water must be hot enough to keep food at serving temperature. Water level must be at that point where pans are immersed in hot water but not floating.

PERFORMANCE GUIDE

1. If necessary, bring steam table from storage to serving line.
2. Clean table.
3. Fill table with water.
4. Check drain cock and place tube in drain.
5. Start heater.
6. Place pans in table. Caution: Care must be taken not to splash hot water on your feet and legs as pans are removed and replaced.
7. Adjust water level.

14. Task: Set up self service foodlines

58. PERFORMANCE OBJECTIVE

Given prepared foods and beverages, flatware, dishes, glasses, napkins, condiments, and buffet table or permanent buffet server, set up self service foodlines. Food must be arranged according to establishment guidelines; i.e., salads, hot dishes, etc.

PERFORMANCE GUIDE

1. Determine the food items designated for serving lines.
2. Collect all tools and equipment necessary for service of those items.
3. Arrange prepared foods in an attractive, functional arrangement according to company guidelines.
4. Place high cost food items in the middle or end of food line.
5. Check to see that all foods are garnished.
6. Check all food holding equipment for proper temperature settings.
7. Ensure that plates, glasses, silverware, napkins, ladle handles, etc., are easily accessible to the guest.
8. Make sure sneeze guards are clean and in place.
9. Know where back-up portions are being held.
10. Replace pans low in foods by removing entire pan and substituting full pans when required.
11. Know the names, preparation techniques, and prices of all food offered.
12. Keep work station clean and spills wiped up during the serving period.
13. Store all serving utensils according to Health Department regulations; i.e., dipping well or left in food, etc.
14. Follow all task related safety and sanitation requirements.
15. Practice good personal hygiene.

61. PERFORMANCE OBJECTIVE

Given cash register, paper, pencil, adding machine, calculator, and receipts, balance cash drawer accurately and according to establishment's procedures.

PERFORMANCE GUIDE

1. Obtain necessary reading from cash register and record on appropriate company form.
2. Document time of reading on register tape.
3. Replenish cash drawer for continued operation.
4. Run a tape to show total monies by denomination, initial, and leave in cash drawer. **See attached exhibit.
5. Separate bills/coins into denominations, count, and record. Note: Regard charge card payments and traveler checks as "checks."
6. Record "paid outs."
7. Total all cash and "checks," subtract paid outs and amount of "opening" change, less the shift reading, will indicate the over/short amount.

4. Task: Prepare sidework schedule

62. PERFORMANCE OBJECTIVE

Given paper, pencil, computer terminal, prepare sidework schedule. Schedule must be complete and done in timely manner.

PERFORMANCE GUIDE

1. Divide dining area into stations.
2. List all sidework tasks necessary in each station.
3. List all sidework tasks that are not necessarily a part of a station.
4. List all sidework tasks that are done hourly.
5. List all sidework tasks that are done daily.
6. List all sidework tasks that are done weekly.
7. List tasks hourly, daily, and weekly in each station. Note: Designate whether sidework is opening, hour work, or closing work.
8. List lunch and break times on schedule.
9. List the approximate times that sidework tasks can be done.

Note: Employee checkoff sheet of tasks avoids confusion and aids management.

2. Task: Process bakery orders

70. PERFORMANCE OBJECTIVE

Given a customer order and a product, process bakery goods. Orders must be taken without error, baked goods must be packaged without damage, and must be delivered fresh on specified date and time. Payments must be transacted without error.

PERFORMANCE GUIDE

Immediate Sale

1. Greet customer.
2. Determine product(s) to be purchased.
3. Fill order.
4. Package.
5. Deliver to customer.
6. Complete payment transaction.

Future Sale

1. Greet customer.
2. Record customer's name, phone number, and address.
3. Record customer's order.
4. Record requested date and time of delivery.
5. Record method of pick up/delivery.
6. Record method of payment.
7. Prepare product(s) for customer pick up/delivery.
8. Deliver product(s) or have customer pick up.
9. Complete payment transaction.

7. Task: Store nonperishable supplies

75. PERFORMANCE OBJECTIVE

Given nonperishable items and storage areas for nonperishable items, store nonperishable supplies. Nonperishable items must be stored in a safe, sanitary, and easily accessible manner, and must retain quality and freshness. Janitorial and hazardous materials must be stored in a designated area away from all food products and according to OSHD regulations regarding hazardous supplies and accident prevention. (***See Safety/Security and Sanitation Functions.)

PERFORMANCE GUIDE

1. Check that items are free of insect infestation.
2. Prepare items for storage.
3. Sort supplies according to use:
   a. Janitorial
   b. Dry goods
4. Place items in/on storage area(s), rotating older supplies.
5. Remove empty containers/bags to trash.
6. Clean spills/breakage.

G. Duty: Preparing Breads, Yeast Dough Products, and Breakfast Batters

1. Task: Prepare yeast breads

---

79. PERFORMANCE OBJECTIVE

Given tools and equipment, formula, and ingredients, prepare yeast breads. Yeast breads must have symmetrical shape, uniform color, flavor, size, grain, and texture. The crusts must be free of cracks and blisters.

PERFORMANCE GUIDE

1. Turn on/adjust oven temperature and dampers according to formula.
2. Make up dough:
   
   **Straight dough**
   (1) Select bowl, mixer, and mixer attachments.
   (2) Weigh straight dough ingredients according to formula.
   (3) Mix dough according to formula.

   **Sponge dough**
   (1) Select bowl, mixer, and mixer attachments.
   (2) Weigh sponge ingredients according to formula.
   (3) Mix sponge.
   (4) Set sponge.
   (5) Add balance of formula ingredients.

   **Sponge dough--sour type**
   (1) Select bowl, mixer, and mixer attachments.
   (2) Weigh sour sponge according to formula.
   (3) Weigh balance of formula ingredients.
   (4) Mix sour sponge and liquid.
   (5) Add balance of formula ingredients.

3. Ferment dough.
4. Scale dough.
5. Rest dough.
6. Scale dough.
7. Round up pieces.
8. Rest dough.
10. Place bread in pan/on prepared boards.
11. Proof bread.
12. Dock or slash loaves.
13. Bake according to formula.
15. Finish.
16. Turn off/adjust oven temperature and dampers.

3. Task: Prepare chemically-leavened bread

81. PERFORMANCE OBJECTIVE

Given tools and equipment, formula, and ingredients, prepare chemically-leavened bread. Bread must have uniform grain and color and must be symmetrical in shape.

PERFORMANCE GUIDE

1. Turn on/adjust oven temperature and dampers according to formula.
2. Select mixer, bowl, and mixer attachments.
3. Weigh ingredients according to formula.
4. Mix according to formula.
5. Pour batter into prepared pan.
7. Turn off/adjust oven temperature and dampers.
8. Cool.
10. Finish.

4. Task: Prepare sweet dough varieties

---

**PERFORMANCE OBJECTIVE**

Given tools and equipment, formula, and ingredients, prepare sweet dough varieties. Sweet dough products must be uniform in size, color, and appearance; sweet dough products must have a tender crumb and an even grain.

**PERFORMANCE GUIDE**

1. Turn on/adjust oven temperature and dampers according to formula.
2. Select mixer, bowl, and mixer attachments.
3. Weigh ingredients according to formula.
4. Mix dough according to formula.
5. Ferment dough.
6. Scale dough.
7. Rest dough.
8. Make up dough into desired shapes.
9. Place on prepared pans.
10. Wash.
11. Proof dough.
12. Top as needed
15. Turn off/adjust oven temperature and dampers.

**TOOLS AND EQUIPMENT**

6. Task: Prepare Danish

84. PERFORMANCE OBJECTIVE

Given tools and equipment, formula, prepared filling, and ingredients, prepare Danish. Danish must be of uniform color and appearance, must be flaky, and have no greasy taste.

PERFORMANCE GUIDE

1. Turn on/adjust oven temperature and dampers according to formula.
2. Select bowl, mixer and mixer attachments.
3. Weigh ingredients according to formula.
4. Mix dough according to formula.
5. Rest dough.
6. Roll out dough.
7. Place roll-in on two-thirds of dough.
8. Fold uncovered portion onto middle third.
9. Fold remaining piece on top.
10. Refrigerate.
11. Remove from refrigerator and roll out.
12. Fold one-third of dough onto the center third.
13. Fold remaining piece on top.
15. Repeat steps eleven (11) through fourteen (14) two more times.
16. Remove from refrigerator and sheet or roll out.
17. Brush lower half with oil.
18. Place filling on oil-covered dough.
19. Fold top portion over dough filling.
20. Scale into units.
21. Make up Danish varieties.
22. Place on prepared pans.
23. Wash.
24. Top.
25. Bake.
26. Turn off/adjust oven temperature and dampers.
27. Glaze.
28. Cool.
29. Finish.

7. Task: Prepare cinnamon buns

85. PERFORMANCE OBJECTIVE

Given tools and equipment, formula, prepared filling, and ingredients, prepare cinnamon buns. Cinnamon buns must be uniform in size and color, and grain must be moderate.

PERFORMANCE GUIDE

1. Prepare smear according to formula.
2. Turn on/adjust oven temperature and dampers according to formula.
3. Select mixer, bowl, and mixer attachments.
4. Weigh ingredients according to formula.
5. Mix dough according to formula.
6. Ferment dough.
7. Scale dough.
8. Rest dough.
9. Sheet dough.
10. Brush oil on all but lower border of dough.
11. Spread filling over oil-covered dough.
12. Roll top edge to bottom border and seal.
13. Cut slices.
14. Spread smear on pan surfaces.
15. Place slices in prepared pans.
17. Bake.
18. Remove from oven and invert on screens.
19. Turn off/adjust oven temperature and dampers.
20. Finish.

2. Task: Prepare foam-type cake

88. PERFORMANCE OBJECTIVE

Given tools and equipment, formula, and ingredients, prepare foam-type cakes. Cakes must be symmetrical in shape, have uniform color, even crumb, fine grain, and must be moist and tender in texture.

PERFORMANCE GUIDE

1. Turn on/adjust oven temperature and dampers according to formula.
2. Select bowls, mixer, and mixer attachments.
3. Weigh ingredients according to formula.
4. Mix ingredients according to formula:
   a. Sponge
      (1) Whip whole eggs and sugar.
      (2) Fold in sifted flour.
   b. Chiffon
      (1) Mix whole eggs, oil, and dry ingredients.
      (2) Whip egg whites.
      (3) Fold into batter.
   c. Angel Food
      (1) Whip egg whites.
      (2) Fold in dry ingredients.
5. Scale batter into pans.
7. Turn out cakes.
8. Turn off/adjust oven temperature and dampers.

Given tools and equipment, formula, and ingredients, prepare baked fruits. Baked fruit must retain its firm shape and be tender when pierced with a fork.

PERFORMANCE GUIDE

1. Turn on/adjust oven temperature and dampers according to formula.
2. Select fresh fruit.
3. Wash fruit.
4. Remove pits, stems, seeds, or cores.
5. Peel/pare fruit.
6. Cut/slice fruit.
7. Place fruit in baking dish.
8. Add spices or seasonings.
10. Cool fruit.

4. Task: Prepare cobbler

103. PERFORMANCE OBJECTIVE

Given tools and equipment, formula, and ingredients, prepare cobbler(s). Cobbler must be thoroughly baked, yet moist; batter must not be spongy; and fruit must be firm but not wet.

PERFORMANCE GUIDE

1. Turn on/adjust oven temperature and dampers according to formula.
2. Select fruit.
3. Mash fruit.
4. Remove pits, stems, seeds, or cores.
5. Peel, pare, cut and/or slice fruit.
6. Drain fruit.
7. Weigh ingredients for batter according to formula.
8. Grease baking dish.
9. Pour batter into baking dish.
10. Spoon fruit onto batter.
11. Place baking pan in oven.
13. Cool.

   1. Task: Prepare gelatin dessert

104. PERFORMANCE OBJECTIVE

Given tools and equipment formula, and ingredients, prepare gelatin dessert. Gelatin dessert must be light in texture, set, and not grainy.

PERFORMANCE GUIDE

1. Turn on stove.
2. Boil water.
3. Empty contents of gelatin packet into bowl.
4. Measure boiling water.
5. Add boiling water to gelatin powder.
6. Stir until powder is dissolved.
7. Measure cold water.
8. Add cold water to gelatin.
9. Stir until blended.
10. Chill gelatin until slightly thickened.
11. Add drained fruit.
13. Pour gelatin into mold.
15. Garnish before serving.

109. PERFORMANCE OBJECTIVE

Given tools and equipment, formula, and ingredients, prepare bombe. Bombe must be dome-shaped, genoise must be moist, and filling must hold together when demolded.

PERFORMANCE GUIDE

1. Turn on/adjust oven temperature and dampers according to formula.
2. Prepare molds.
3. Select bowl, mixer, and mixer attachments.
4. Weigh ingredients according to formula.
5. Prepare genoise mixture as per formula.
6. Pour mixture into molds.
7. Bake genoise.
8. Cool.
9. Cut out and remove center of genoise.
11. Fill cavity.
12. Demold bombe.
14. Turn off/adjust oven temperature and dampers.

8. Task: Prepare baked Alaska

PERFORMANCE OBJECTIVE

Given tools and equipment, formula, and ingredients, prepare baked Alaska. Baked Alaska must be a uniform brown color, and ice cream must be firm.

PERFORMANCE GUIDE

1. Turn on/adjust oven temperature and dampers according to formula.
2. Select bowl, mixer, and mixer attachments.
3. Weigh ingredients according to formula.
5. Cut base:
   a. Cut 1/2" thick base pieces from sponge cake.
   b. Trim to oval shape.
6. Place on platter.
7. Mold ice cream on case base to form a dome.
8. Cover ice cream with meringue.
9. Pipe additional meringue to decorate.
10. Dust with powdered sugar.
11. Bake until brown—high oven.
12. Place in freezer or serve immediately.
13. Turn off/adjust oven temperature and dampers.

9. Task: Prepare soufflé

112. PERFORMANCE OBJECTIVE

Given tools and equipment, formula, ingredients, and aluminum foil, prepare a soufflé. Soufflé must be high, light, fluffy, but not grainy, and lightly browned on top.

PERFORMANCE GUIDE

1. Read recipe and make any necessary adjustments, conversions, or substitutions.
2. Organize work area by washing hands and assembling supplies near the equipment.
3. Measure and sift flour and salt.
5. Preheat oven to 400°F. Lightly grease and sugar soufflé dish as specified in recipe.
7. Simmer gently for two minutes, stirring continuously.
8. Remove custard from heat and cool slightly.
9. Beat egg whites until stiff and fold one large spoonful into custard and mix well, then fold lightened custard into remaining whites.
10. Place mixture by spoonfuls into soufflé dish.
11. Place into oven on preheated cookie sheet, and bake according to recipe.
12. Garnish as directed.

2. Task: Make fruit salads

125. PERFORMANCE OBJECTIVE

Given a recipe and necessary ingredients, a paring knife, an apple corer, a melon baller, ascorbic acid, mixing bowls and spoon, dressing, and serving bowls, make a fruit salad. The ingredients must be well drained, be cut large enough to retain their identity, and must not be discolored.

PERFORMANCE GUIDE

1. Read recipe and make any necessary adjustments, conversions, or substitutions.
2. Organize work area by washing hands and assembling supplies near equipment.
3. Wash fresh fruits and salad greens thoroughly in a sink of clear water; drain.
4. If canned fruits are used, drain or retain syrup.
5. Peel, pare, and/or core the fruit.
6. Place fruit in a bowl.
7. Cut melons in half and remove the seeds and pulp.
8. Sprinkle fruits that brown easily with commercial ascorbic acid or citrus juice diluted with cold water.
9. Arrange the salad greens on a plate or in bowl(s).
10. Cut fruits and melons into desired shapes and sizes.
11. Gently mix the well-drained fruits and melon according to the recipe.
12. Arrange the fruits on the salad greens, cover, and chill.

3. Task: Make vegetable salads

126. PERFORMANCE OBJECTIVE

Given a recipe, vegetables, paring knife, vegetable peeler, brush, mixing bowl, spoon, grater, and plastic wrap, make a fresh vegetable salad. The salad ingredients must be crisp, cut large enough to retain their identity, and must retain their original color.

PERFORMANCE GUIDE

1. Read recipe and make any necessary adjustments, conversions, or substitutions.
2. Organize work area by washing hands and assembling supplies near equipment.
3. Wash the salad greens thoroughly in a sink of cold, clear water; remove by lifting greens out of water.
4. Wash and scrub the vegetables in a sink of cold, clear water.
5. If canned vegetables are used, drain or retain syrup.
6. Pare and/or scrape the inedible parts of the vegetables.
7. Break the greens to be used in the body of the salad into bite-sized pieces.
8. Slice remaining vegetables into desired shapes and sizes.
9. Combine the ingredients.
10. Cover and refrigerate until serving time.

4. Task: Make congealed salads

127. PERFORMANCE OBJECTIVE

Given recipe, gelatin, water or other liquid, fruits or vegetables, salad oil, brush, paring knife, mixing bowl and spoon, gelatin mold, garnish ingredients, and serving plate, make a congealed salad. The salad must be firmly gelled and retain its shape when unmolded. The fruits and vegetables must be evenly dispersed throughout the gelatin mixture.

PERFORMANCE GUIDE

1. Read recipe and make any necessary adjustments, conversions, or substitutions.
2. Organize work area by washing hands and assembling supplies near equipment.
3. Place powdered gelatin in mixing bowl; mix gently with liquid according to package directions.
4. Place the gelatin mixture in the refrigerator; let chill until partially set.
5. Wash fresh fruits and/or vegetables thoroughly; pare, scrape, and/or core.
6. Thoroughly drain canned fruits and/or vegetables.
7. Cut fruits and/or vegetables into serving size pieces.
8. Remove partially set gelatin from refrigerator; mix the fruit and/or vegetables into the gelatin.
9. Pour mixture into greased mold(s).
10. Chill until firm.
11. Unmold the congealed salad on appropriate base and garnish.
12. Place unmolded salad into refrigerator until ready to be served.

5. Task: Make salads from meat, seafood or fowl

128. PERFORMANCE OBJECTIVE

Given a recipe and access to the ingredients, a cutting board, a sharp knife, a saucepan, skillet, or baking dish, a measuring cup and spoons, a mixing bowl and spoon, and a covered storage container, prepare a salad from meat, seafood, or fowl. The meat, seafood, or fowl and/or other cooked ingredients used in the salad must be well done and easy to chew; the salad ingredients must be cut into bite-size pieces, must be well blended, and must be free of bones or bone slivers.

PERFORMANCE GUIDE

1. Read recipe and make any necessary adjustments, conversions, or substitutions.
2. Organize work area by washing hands and assembling supplies near the equipment.
3. Cook meat, seafood, or fowl, drain and cool.
4. Trim and remove bones from meat, seafood, or fowl; cut into cubes, slices, or strips.
5. Wash and/or drain salad greens.
6. Measure the ingredients.
7. Cook other salad ingredients, if necessary.
8. Combine the ingredients according to the directions of the recipe.
9. Marinate the salad if required by recipe.
10. Cover and place in the refrigerator.

6. Task: Make vegetable relishes

129. PERFORMANCE OBJECTIVE

Given fresh vegetables, vegetable brush, paring knife, vegetable peeler, ascorbic acid, paper towels, ice or ice water, and serving dish, make vegetable relishes. Vegetables must be crisp, fresh, well chilled, free from blemishes or discoloration and arranged in a pleasing fashion.

PERFORMANCE GUIDE

1. Read recipe and make any necessary adjustments, conversions, or substitutions.
2. Organize work area by washing hands and assembling supplies near the equipment.
3. Wash vegetables thoroughly; dry.
4. Remove stems, peels, seeds, or other inedible or blemished parts.
5. Cut vegetables into desired sizes and shapes.
6. Treat vegetables that darken with ascorbic acid.
7. Crisp vegetables in ice or ice water as necessary.
8. Drain on paper towels.
9. Arrange on serving platter.

1. Task: Boil (stew) fruits

131. PERFORMANCE OBJECTIVE

Given fruit, recipe, sugar, spices, acid fruit/fruit juice, knife, saucepan, fork and/or spoon, boil fruit. The fruit must be firm, moist, and tender in texture with natural color, flavor and aroma.

PERFORMANCE GUIDE

1. Read recipe and make any necessary adjustments, conversions, or substitutions.
2. Organize work area by washing hands and assembling supplies near the equipment.
3. Bring measured amount of water to a boil while washing fruit thoroughly, removing core, blemishes, skin.
4. Cut, slice, or dice according to directions in recipe.
5. Add sugar and/or spices, lemon juice or acid fruit (if needed) to boiling water, stir to dissolve.
6. Add fruit.
8. Simmer until tender or shortly under.
9. Remove from heat; let cool in liquid.
10. Cover and chill if required.

2. Task: Boil vegetables

132. PERFORMANCE OBJECTIVE

Given vegetables, recipe, sharp knife, saucepan, fork and/or spoon, boil vegetables. The vegetables must retain original shape, color, and flavor. They must cut easily but not be "mushy."

PERFORMANCE GUIDE

1. Read recipe and make any necessary adjustments, conversions, or substitutions.
2. Organize work area by washing hands and assembling supplies near the equipment.
3. Use one of the following methods to cook vegetables:
   a. Fresh Vegetables
      (1) Bring water to boil and add seasonings.
      (2) Remove blemishes, cores, skins from vegetables and add vegetables to boiling water.
   b. Frozen Vegetables
      (1) Bring water to boil, add seasoning if necessary.
      (2) Place unthawed vegetables directly in boiling water.
      (3) Cook given length of time.
   c. Canned Vegetables
      (1) Drain vegetables, bring liquid to boil.
      (2) Place drained vegetables in boiling liquid.
4. Cover yellow and red vegetables while cooking. Leave white and green vegetables uncovered for the first few minutes.
5. Bring to a boil again; reduce heat and simmer for required length of time.
6. Cook until done.

3. Task: Prepare pastas and rice

133. PERFORMANCE OBJECTIVE

Given a recipe, pasta, rice, salt, oil, large saucepan, colanders, and long fork, cook the pasta, (e.g., spaghetti or noodles) and rice. The pasta and rice must be tender, not mushy or sticky.

PERFORMANCE GUIDE

1. Read instructions on pasta box or package.
2. Organize work area by washing hands and assembling supplies near the equipment.
3. Measure and heat water to a boil.
4. Cook pasta and rice according to one of the following procedures.
   a. Pasta
      (1) Measure and heat water to a boil.
      (2) Add required amount of salt and oil.
      (3) Add pasta gradually.
      (4) Return to boiling. Reduce heat, simmer until tender, stirring occasionally.
      (5) Cook until done.
      (6) Drain well.
      (7) Rinse with hot or cold water or add butter or oil to prevent sticking.
   b. Rice
      (1) Add salt and rice to boiling water.
      (2) Stir, cover tightly.
      (3) Cook on low heat until all water is absorbed.
      (4) Cook until done.
      (5) Remove from heat and let stand 5-10 minutes.

4. Task: Steam vegetables

134. PERFORMANCE OBJECTIVE

Given a recipe, vegetables, seasonings, garnish ingredients, vegetable brush, paring knife, steamer or pressure cooker, and serving dish, steam vegetables. The vegetables must retain original shape and color, cut easily, and not be mushy.

PERFORMANCE GUIDE

1. Read recipe and make any necessary adjustments, conversions, or substitutions.
2. Organize work area by washing hands and assembling supplies near the equipment.
3. Measure and heat water to a boil. Add seasoning.
4. Prepare vegetables by washing, paring and cutting, slicing or cubing.
5. Place vegetables in basket or rack in cooking pot, cover.
6. Cook for required time.
7. Remove from heat.
8. If using pressure cooker, cool according to equipment before opening.
9. Season, garnish, and serve.

5. Task: Fry vegetables

135. PERFORMANCE OBJECTIVE

Given a recipe, vegetables, fat or oil, and other necessary ingredients, vegetable brush, paring knife, fork and/or spoon, slotted spoon, deep fat fryer, serving utensils, and paper towels, fry vegetables. The vegetables must be crisp in texture, evenly browned, and not greasy to the touch or taste.

PERFORMANCE GUIDE

1. Read recipe and make any necessary adjustments, conversions, or substitutions.
2. Organize work area by washing hands and assembling supplies near the equipment.
3. Wash vegetables and remove stems, blemishes, cores and cut as instructed in recipe.
4. Prepare a batter, if needed, according to recipe.
5. Fill fryer to correct level with fat or oil and heat to desired temperature.
7. Dip vegetables in batter if recipe requires. Drain well.
8. Place vegetables in fry basket.
9. Lower into hot fat.
10. Fry until lightly browned and tender.
11. Drain in fry basket or on paper toweling.
12. Season vegetables.
13. Arrange on serving utensils or warmer.

6. Task: Saute vegetables

136. PERFORMANCE OBJECTIVE

Given recipe, vegetables, fat or oil, seasonings, and other necessary ingredients, a vegetable brush, paring knife, grater, and skillet, saute vegetables. The vegetables must be easy to cut, not mushy, must retain original shape, may be clear or light brown in color, without retaining excess grease.

PERFORMANCE GUIDE

1. Read recipe and make any necessary adjustments, conversions, or substitutions.
2. Organize work area by washing hands and assembling supplies near the equipment.
3. Wash vegetables thoroughly, remove stems, cores, blemishes, and/or skin; dry on clean surface.
4. Shred or cut vegetables into small pieces or slices as directed in recipe.
5. Dredge or dip in a coating, if required by recipe.
6. Add seasonings and other ingredients.
7. Heat small amount of fat or oil in skillet.
8. Place vegetables in skillet.
9. Cook quickly, maintaining medium high temperature.
10. Remove when lightly browned or clear and drain.

Given fresh fruit/vegetable, recipe, butter, seasonings and other ingredients, vegetable brush, paring knife, corer, cover and baking pan, bake fruit/vegetable. The fruit/vegetable must be thoroughly cooked, pleasantly flavored, and retain their natural shape and color.

PERFORMANCE GUIDE

1. Read recipe and make any necessary adjustments, conversions, or substitutions.
2. Organize work area by washing hands and assembling supplies near the equipment.
3. Preheat oven to specified temperature.
4. Wash, trim, and dry fruit/vegetable.
5. Brush surface with butter or other seasoning.
6. Add sugar, seasonings as directed in recipe.
7. Place fruit/vegetable in shallow pan on the middle oven rack. Add water if necessary and bake as directed.
8. Cook until done.
9. Remove from oven.

8. Task: Braise vegetables

138. PERFORMANCE OBJECTIVE

Given vegetables, recipe, fat or oil, seasonings, vegetable brush, paring knife, and skillet or saucepan and cover, braise vegetables. The vegetables must be tender but not mushy, retaining original color and shape.

PERFORMANCE GUIDE

1. Read recipe and make any necessary adjustments, conversions, or substitutions.
2. Organize work area by washing hands and assembling supplies near the equipment.
3. Wash vegetables, trim, and remove cores.
4. Cut vegetables into uniform slices.
5. Put small amount of fat or oil in skillet or pan and melt.
6. Sprinkle vegetables lightly with water, if dry.
7. Place in hot fat, cover, cook until well browned.
8. Add seasoning and liquid as required by recipe. Cover.
9. Bring vegetables to boil; reduce heat and cook until tender; shake pan as necessary.
10. Remove from heat.

9. Task: Glaze fruits/vegetables

139. PERFORMANCE OBJECTIVE

Given recipe, fruit/vegetable, butter or margarine, sugar, water, paring knife, spoon, candy thermometer, saucepan, and baking dish, glaze the fruit/vegetables either by cooking in the oven or on top of the range. The glaze must be of smooth, clear texture and the vegetable must possess natural color and flavor.

PERFORMANCE GUIDE

1. Read recipe and make any necessary adjustments, conversions, or substitutions.
2. Organize work area by washing hands and assembling supplies near the equipment.
3. Wash, trim, and cut fruit/vegetable.
4. Cook fruit/vegetable according to directions and drain.
5. Use one of the following methods to glaze:
   a. For Oven Glazing:
      (1) Place fruit/vegetables in baking dish.
      (2) Sprinkle with sugar.
      (3) Add small amount of water.
      (4) Cook in moderate oven until well glazed.
   b. For Top of Range Glazing:
      (1) Melt butter or margarine and sugar in pan.
      (2) Heat mixture and check for desired temperature.
      (3) Add fruit/vegetables.
      (4) Cook until tender and well glazed.
6. Remove from heat.

0. Duty: Preparing and Cooking Sandwiches

1. Task: Slice meats, cheeses, and other items

141. PERFORMANCE OBJECTIVE

Given chilled boneless meats, cheeses, or other items, a slicer, and a platter or one-half sheet pan, slice meats, cheeses, or other items. The slices must be uniform in size, shape, and thickness, and must have been sliced across the grain.

PERFORMANCE GUIDE

1. Organize the work area by washing hands and assembling supplies near the equipment.
2. Determine that meats, cheeses, or other items are thoroughly chilled, boneless, and no wrapper.
3. Pull the hand guard completely away from the slicer face.
4. Place the meat, cheese, or other item on the slicer face with the flattest side cradled by the movable arm, and the meat grain perpendicular to the slicer face.
5. Replace the hand guard by securing it on top of the meat, cheese or other items.
6. Set the slicer dial to the desired slice size.
7. Turn on the slicer.
8. Place the right hand on the hand guard, advance the slicer arm as far as it will go across the revolving blade. Simultaneously, catch the slice with the open palm of the left hand.
9. Return the slicer arm by pulling it back until it stops, then repeat the process until completion. Catch each slice and neatly assemble on a holding platter or half sheet pan for portioning. Cover sliced items and refrigerate.
10. Turn the slicer off and unplug.

2. Task: Assemble cold sandwiches

---

142. PERFORMANCE OBJECTIVE

Given sliced bread, sandwich ingredients, condiments, garnishes, a portion scale, wax paper squares, toothpicks, recipe, serrated-edge knife, sandwich spreader, toaster, cutting board, and a chilled plate, assemble ingredients and make a cold sandwich ready for service. The sandwich must contain accurate portions of all ingredients, must hold together, and be neatly arranged and garnished. The ingredients must be evenly distributed over the bread and not protrude from the edges.

PERFORMANCE GUIDE

1. Read recipe and make any necessary adjustments, conversions, or substitutions.
2. Organize work area by washing hands and assembling supplies near the equipment.
3. Portion the sandwich ingredients according to the recipe, using wax paper squares for dividers.
4. Toast bread, if necessary.
5. Place one slice of bread on cutting board, and spread with desired condiment. Assemble other ingredients on the bread.
6. Place one slice of bread on top of the ingredients, making sure to align the tops of the two bread slices. Place a frilled toothpick in the upper right and bottom left corners, about one inch in toward the center.
7. Cut the sandwich in half diagonally, from the top left to the bottom right corners.
8. Arrange sandwich pleasingly on a plate, with garnish.

3. Task: Prepare grilled sandwiches

143. PERFORMANCE OBJECTIVE

Given margarine, a butter spreader, sliced bread, recipe, sandwich ingredients, portion scale, wax paper squares, grill, cutting board, serrated-edge knife, a warmed plate, condiments, garnishes, spatula, grill brick, and grill oil, prepare a grilled sandwich. The sandwich must be hot, evenly browned, not greasy to the touch or taste, and neatly arranged on the plate along with the condiments or garnish. The ingredients must be warmed throughout, evenly distributed, and not protruding from the edges.

PERFORMANCE GUIDE

1. Read recipe and make any necessary adjustments, conversions, or substitutions.
2. Organize work area by washing hands and assembling supplies near the equipment.
3. Preheat the grill to 350°F, and season if necessary.
4. Place one slice of bread on cutting board and assemble sandwich by arranging the ingredients on the bread. Place another slice of bread on top, aligning the tops of the bread slices.
5. Heat sandwich ingredients separately before grilling if ingredients are more than one half inch thick.
6. Prepare the sandwich for grilling by one of the following methods:
   a. Grilled
      (1) Spread margarine lightly and evenly on the top slice of bread.
      (2) Lay the sandwich on the grill, placing buttered face down.
      (3) Spread the new top piece lightly and evenly with margarine.
   b. Egg-Butter Grilled
      (1) Dip the completed sandwich in one-third mild; two-thirds egg batter and place on greased grill.

4. Task: Assemble hot sandwiches

144. PERFORMANCE OBJECTIVE

Given sliced bread or hamburger rolls, toaster, grill, butter spreader, margarine, cooked sandwich ingredients, condiments, garnishes, warmed plate, tongs or spatula, recipe, appropriate sauce or gravy, and ladle, assemble a hot sandwich, ready for service. The sandwich must be hot, with the meat evenly distributed on bread or roll. The bread or roll must be evenly browned or toasted with no greasy appearance or taste. The sandwich must be neatly arranged on the plate along with the condiments or garnishes. If a sauce or gravy is applied, it must uniformly cover the sandwich without covering more than one inch of the exposed plate away from any sandwich edge.

PERFORMANCE GUIDE

1. Read the recipe and make any necessary adjustments, conversions, or substitutions.
2. Organize work area by washing hands and assembling supplies near the equipment.
3. Toast sliced bread, or spread margarine lightly and evenly on hamburger bun halves and grill.
4. Place toast or bun on a warm plate, and apply condiments if required by the recipe.
5. Arrange sandwich ingredients pleasingly on toast or bun and apply sauce, gravy, or garnishes.

145. PERFORMANCE OBJECTIVE

Given recipe, stock pot or steam kettle, chicken, fish, beef portions and/or bones, vegetables, seasonings, other stock ingredients, skimmer, strainer, cheesecloth, plastic holding containers and roasting pan, prepare a chicken, beef, or fish stock. The stock must be clear, have a fresh flavor, and be free of fat and salt.

PERFORMANCE GUIDE

1. Read recipe and make any necessary adjustments, conversions, or substitutions.
2. Organize work area by washing hands and assembling supplies near the equipment.
3. Wash and rinse bones in cold water.
4. Prepare stock by one of the following methods:
   a. Chicken
      (1) Place ingredients in stock pot or kettle, cover with cold water.
      (2) Bring stock to a boil, skim surface fat.
      (3) Reduce to a simmer for three hours, skimming as necessary.
   b. Beef
      (1) Place bones in roasting pan, brown in oven at 400°F, turning occasionally to ensure even browning.
      (2) Place bones in stock pot or kettle, deglaze roasting pan with water, and add to stock.
      (3) Cover bones with cold water and bring stock to a boil.
      (4) Skim and reduce to a simmer for three hours.
      (5) Brown vegetable ingredients in roasting pan in 400°F oven. Deglaze pan and add to stock.
      (6) Add vegetable ingredients, herbs, and spices to stock.
      (7) Simmer for three more hours, skimming as necessary.
   c. Fish
      (1) Place stock ingredients in stock pot or kettle, cover ingredients with cold water.
      (2) Bring stock to a boil.
      (3) Reduce to a simmer for one hour, skimming as necessary.
5. Strain stock through cheesecloth and strainer combination into plastic container and dispose of stock ingredients.
6. Cool, then refrigerate. Remove congealed fat when chilled thoroughly.

2. Task: Make clear soups

146. PERFORMANCE OBJECTIVE

Given recipe, stock pot, spoon, vegetable, seasoning, stock, and a soup tureen, prepare a clear soup. The soup must be hot, flavorful, contain appropriate amounts of the vegetable, be seasoned to taste, be clear except for the vegetables, and free of fat.

PERFORMANCE GUIDE

1. Read the recipe and make any necessary adjustments, conversions, or substitutions.
2. Organize the work area by washing hands and assembling supplies near the equipment.
3. Heat the stock in the stock pot until it simmers.
4. Add the vegetable and simmer until the vegetable is cooked, if necessary.
5. Season to taste.
6. Transfer the soup to the tureen and hold for service.

3. Task: Make thick soups (puree)

147. PERFORMANCE OBJECTIVE

Given a recipe, stock pot, spoon, legumes, seasoning, other necessary ingredients, strainer and soup tureen, prepare a thickened soup. The soup must be hot, flavorful, contain required amounts of ingredients, be seasoned to taste, free of fat, and maintain a smooth, even consistency.

PERFORMANCE GUIDE

1. Read the recipe and make any necessary adjustments, conversions, or substitutions.
2. Organize work area by washing hands and assembling supplies near the equipment.
3. Wash and soak legumes (peas, beans, etc.) overnight.
4. Rinse legumes, add ingredients, and simmer.
5. Strain soup, then puree vegetables, and re-add to stock.
6. Season to taste.
7. Transfer the soup to a tureen and hold for service.

4. Task: Make cream soups

148. PERFORMANCE OBJECTIVE

Given a recipe, soup pot, spoon, whisk, vegetables, flour, stock, seasoning, cream, and a soup tureen, prepare a cream soup. The soup must be hot, be appropriately thick, be seasoned to taste, flavorful, free of fat, and possess a smooth, even consistency.

PERFORMANCE GUIDE

1. Read recipe and make any necessary adjustments, conversions, or substitutions.
2. Organize work area by washing hands and assembling supplies near the equipment.
3. Cook vegetables.
4. Prepare a roux in a separate pan.
5. Add the stock slowly to roux, stirring constantly until thickened.
6. Add the cooked vegetables to thickened stock.
7. Add the cream to finish and season to taste.
8. Transfer the soup to the tureen and hold for service.

5. Task: Make brown sauce and variations

149. PERFORMANCE OBJECTIVE

Given a recipe, sauce pot, wooden spoon, slotted spoon, vegetables, seasoning, fat, flour, stock, other necessary ingredients, whisk, strainer, cheesecloth, sauce tureen, and garnish for one variation, prepare a brown sauce. The sauce must be smooth, shining, have a rich, brown color and a flowing consistency. It must be hot, fresh, flavorful, and contain accurate amounts of thickening and garnish.

PERFORMANCE GUIDE

1. Read recipe and make any necessary adjustments, conversions, or substitutions.
2. Organize work area by washing hands and assembling supplies near the equipment.
3. Brown the vegetables in fat, remove from pan with slotted spoon, then add flour and make a brown roux.
4. Add the stock and other ingredients and simmer.
5. Strain, then season to taste.
6. Transfer to a sauce tureen and hold for service.
7. Add garnish appropriate for one derivative.

6. Task: Make tomato sauce and variations

150. PERFORMANCE OBJECTIVE

Given recipe, sauce pot, spoon, vegetable(s), seasoning, other necessary ingredients, strainer, food mill, a sauce tureen, prepare a tomato sauce. The sauce must be smooth, have a consistency appropriate to usage, hot, with a fresh, nonacidic flavor and a deep red color.

PERFORMANCE GUIDE

1. Read recipe and make any necessary adjustments, conversions, or substitutions.
2. Organize work area by washing hands and assembling supplies near the equipment.
3. Sautee vegetables, then add other ingredients and simmer.
4. Strain stock, then puree vegetables in food mill, re-add to stock.
5. Season to taste.
6. Place in sauce tureen and hold for service.
7. Add the garnish appropriate for one derivative.

Note: Variations to the tomato sauce will be dependent upon variable ingredients (i.e., chilies, celery, seasonings).

7. Task: Make hollandaise sauce

151. PERFORMANCE OBJECTIVE

Given a recipe, stainless steel bowl, a saucepan/skillet, whisk, spices, butter, egg yolks, lemon juice, hollandaise sauce ingredients, strainer, cheesecloth, and a sauce tureen, prepare hollandaise sauce. The sauce must be warm, smooth, have a pale blonde color, and a flowing consistency. It must be fresh and flavorful.

PERFORMANCE GUIDE

1. Read recipe and make any necessary adjustments, conversions, or substitutions.
2. Organize work area by washing hands and assembling supplies near the equipment.
3. Place skillet on stove and simmer water.
5. Place a clean saucepan in simmering water, add yolks (and water if desired).
6. Whisk yolks until frothy and slightly thickened.
7. Remove saucepan and add melted butter while whisking vigorously.
8. Add lemon juice and whisk.
9. Season to taste (i.e., salt and cayenne) and whisk.
10. Place in sauce tureen and hold for service.

8. Make white sauce and variations

152. PERFORMANCE OBJECTIVE

Given a recipe, sauce pot, wooden spoon, fat or oil, flour, salt, milk or cream, whisk, strainer, cheesecloth, and a sauce tureen, prepare a white sauce. The sauce must be smooth, shiny, have a rich, cream color and a consistency appropriate for usage. The sauce must be hot, fresh, and flavorful.

PERFORMANCE GUIDE

1. Read recipe and make any necessary adjustments, conversions, or substitutions.
2. Organize work area by washing hands and assembling supplies near the equipment.
3. Make a white roux.
4. Add the boiled milk product slowly to the roux stirring constantly. Return to boil, simmer 20 minutes.
5. Season to taste.
6. Strain the sauce if necessary.
7. Place in sauce tureen and hold for service.

Note: Variations to the white sauce will be dependent upon variable ingredients.

9. Make gravies

153. PERFORMANCE OBJECTIVE

Given a recipe, meat drippings, flour or starch, seasonings, skillet or pan, water or stock, spoon, whisk, and a sauce tureen, prepare a gravy. The gravy must be smooth, shining, have an appropriate color and a flowing consistency. The gravy must be hot, fresh, flavorful, free of fat, and contain appropriate amounts of thickening.

PERFORMANCE GUIDE

1. Read recipe and make any necessary adjustments, conversions, or substitutions.
2. Organize work area by washing hands and assembling supplies near the equipment.
3. Place meat drippings in pan and heat to desired temperature.
4. Sprinkle in flour/starch and blend to smooth consistency.
5. Add stock or water gradually and continue cooking until desired thickness is obtained and starch is completely cooked.
6. Add required seasoning.
7. Pour the sauce in a sauce tureen and hold for service.

1. Cook cereals (i.e., grits, oatmeal)

155. PERFORMANCE OBJECTIVE

Given flaked or whole grain cereal, recipe, water, salt, spoon, covered saucepan, and measuring cups and spoons, cook cereal. The cereal should be uniform in texture, not gummy and free from lumps.

PERFORMANCE GUIDE

1. Read recipe and make any necessary adjustments, conversions, or substitutions.
2. Organize work area by washing hands and assembling supplies near the equipment.
3. Measure cereal.
4. Measure water and salt and bring to boil.
5. Add dry cereal slowly, stirring continuously.
6. Stir until some thickening is apparent.
7. Reduce heat to simmer.
8. Cover and simmer, until the cereal reaches the desired consistency.
9. Remove from heat.

2. Poach eggs

156. PERFORMANCE OBJECTIVE

Given standardized recipe, eggs, liquid (water, milk, or broth), small dish, slotted spoon, and shallow saucepan, poach eggs. The poached eggs must have a bright appearance, with some shiny white adhering closely to the bright yolk. The yolk and white must stand up firmly without being porous; the yolk should be liquid with a white covering.

PERFORMANCE GUIDE

1. Read recipe and make any necessary adjustments, conversions, or substitutions.
2. Organize work area by washing hands and assembling supplies near the equipment.
3. If using water, add small amount of vinegar or lemon juice. Put about two inches of liquid (water, milk, or broth) in a shallow pan.
4. Bring liquid to a boil, then reduce heat to simmer.
5. Crack eggs into a dish. Stir water slowly. Slide egg into water.
6. Cook three to five minutes until eggs are "set" or to customer's request.

6. Scramble eggs

160. PERFORMANCE OBJECTIVE

Given a standardized recipe, eggs, milk or cream, oil (butter or margarine), seasoning (optional), skillet or grill, small bowl, measuring spoon, and fork, scramble eggs. The eggs must be bright and clear with a soft sheen and a uniform, pale color with no evidence of browning. The eggs should be tender, moist, and delicate in texture, not hard, dry, powdery, or watery.

PERFORMANCE GUIDE

1. Read recipe and make any necessary adjustments, conversions, or substitutions.
2. Organize work area by washing hands and assembling supplies near the equipment.
3. Break eggs into small bowl, whisk until mixed.
4. Add milk, cream, or water (about two tablespoons per egg).
5. Season eggs with salt and pepper. (Optional)
6. Place eggs into heated, greased skillet.
7. Cook slowly, stirring constantly for smaller morsels, stir only occasionally for larger morsels of scrambled eggs.

8. Prepare pancakes

162. PERFORMANCE OBJECTIVE

Given a recipe and necessary ingredients, a sifter, measuring cups and spoons, a mixing bowl and spoon, a fork, a pancake turner, and a skillet or griddle, make pancakes. The pancakes must be uniform in shape and thickness, must be evenly browned on both sides, must be smooth, tender, and moist but not sticky, and must have a fine grain with evenly distributed cells.

PERFORMANCE GUIDE

1. Read recipe and make any necessary adjustments, conversions, or substitutions.
2. Organize work area by washing hands and assembling supplies near the equipment.
3. Sift flour and measure required amount.
4. Measure remaining dry ingredients, and sift with flour.
5. Beat eggs until light; add measured amounts of milk and oil.
6. Add liquid ingredients to dry ingredients and mix until dry ingredients are moistened.
8. Pour small measured amounts of batter onto the griddle.
9. Cook until the tops are full of little air bubbles and edges are set or lightly browned.
10. Turn pancakes; cook second side until browned.

163. PERFORMANCE OBJECTIVE

Given a recipe, flour, eggs, sugar, baking powder, salt, milk, shortening, waffle baker, sifter, measuring cups and spoons, three mixing bowls and spoon, and beater or mixer, make waffles. The waffles must be uniform in shape and thickness, must be evenly browned on both sides, have a smooth, tender crust, and have a fine-grained texture that is tender and moist.

PERFORMANCE GUIDE

1. Read recipe and make any necessary adjustments, conversions, or substitutions.
2. Organize work area by washing hands and assembling supplies near the equipment.
3. Preheat waffle baker according to manufacturer's instructions.
4. Sift flour and measure.
5. Measure the other ingredients.
6. Add dry ingredients to the sifted, measured flour.
7. Separate eggs.
8. Beat egg whites until stiff peaks are formed.
10. Add liquids and shortening to egg yolks. Stir to mix.
11. Pour liquid mixture into well of the dry ingredients. Mix gently.
12. Fold egg whites into batter.
13. Pour required amounts of batter into the hot greased waffle baker; close the lid; bake until all steam has stopped emerging from the crack of the iron.
14. Remove waffles from the waffle baker when done.

10. Prepare French toast

PERFORMANCE OBJECTIVE

Given bread, egg, milk, cinnamon, oil, confectioner's sugar, grill, spatula, whip, mixing bowl, and tongs, prepare French-toast. French toast must be golden brown, firm, not soggy, lightly crisped around edges, with no major portions of egg white or yolk appearing separately on bread.

PERFORMANCE GUIDE

1. Read recipe and make any necessary adjustments, conversions, or substitutions.
2. Organize work area by washing hands and assembling supplies near the equipment.
3. Preheat lightly oiled griddle to 350° (medium high) until water droplets dance on surface.
4. Crack eggs into bowl, add measured milk and cinnamon (if desired).
5. Blend well with whisk.
6. Dip slices of bread into mixture, thoroughly coating both sides; being careful not to soak bread.
7. Place on griddle.
8. Turn over when toast starts to brown at edges and top shows signs of drying.
9. Remove from griddle when done.
10. Place on plate according to standard as set by establishment.
11. Dust with confectioners sugar (if desired).

12. Make omelette

166. PERFORMANCE OBJECTIVE

Given a recipe and eggs at room temperature, milk, other necessary ingredients, a custard cup, two mixing bowls, a spoon, a beater or whisk, a heavy skillet, an egg turner, and a hot serving platter, make omelette. Omelette must be uniformly medium brown in color on the outside, soft and creamy on the inside, and light and fluffy in texture.

PERFORMANCE GUIDE

1. Read recipe and make any necessary adjustments, conversions, or substitutions.
2. Organize work area by washing hands and assembling supplies near the equipment.
3. Use one of the following methods for preparing the egg mixture:
   a. Plain or French Omelette
      (1) Break each egg separately into a cup before adding to other eggs.
      (2) Season with salt and pepper.
      (3) Beat until well blended.
   b. Puffy Omelette
      (1) Separate egg white and yolks. Place in two separate mixing bowls.
      (2) Beat egg whites until stiff.
      (3) Season with salt and pepper.
      (4) Beat egg yolks until creamy.
      (5) Fold stiffly beaten egg whites into egg yolk mixture.
4. Heat fat to specified temperature.
5. Pour egg mixture into skillet and cook until edges start to curl.
6. Lift set egg mixture at edges and allow uncooked portion to run underneath until mixture is no longer fluid.
7. Loosen; depending on recipe, add various fillings. Fold omelette in half; slide it out of skillet onto hot platter.

Q. Duty: Preparing and Cooking Breakfast Items

13. Prepare souffles

167. PERFORMANCE OBJECTIVE

Given tools and equipment, formula, ingredients, and aluminum foil, prepare a souffle. Souffle must be high, light, and fluffy, but not grainy.

PERFORMANCE GUIDE

1. Select recipe and adjust to servings required.
2. Assemble equipment.
3. Collect and measure ingredients.
4. Prepare white sauce plus any additions as directed on recipe. Allow to cool slightly.
5. Preheat oven to temperature directed on recipe.
7. Beat egg yolks, and add white sauce mixture.
8. Beat egg whites until soft peaks form.
9. Fold egg yolk mixture into egg whites.
10. Pour into ungreased dish.
11. Set dish in pan of hot water.
12. Bake according to directions in recipe.
13. Remove from oven and prepare for serving.

1. Braise/stew meats

168. PERFORMANCE OBJECTIVE

Given a recipe, flour, liquid, fat, spices, seasoning, vegetables, spoon, range, brazier with cover, serving pan, strainer, and cheesecloth, braise/stew meats. The meat must be evenly brown, tender, moist, have a fresh taste, and maintain an internal temperature of 180°F. The sauce must be smooth, shiny, have a rich brown color and a flowing consistency; it must be hot, fresh, and flavorful and be of specified thickening.

PERFORMANCE GUIDE

1. Read recipe and make any necessary adjustments, conversions, or substitutions.
2. Organize work area by washing hands and assembling supplies near the equipment.
3. Heat the brazier and brown the meat/meat pieces on all sides.
4. Add flour to make roux.
5. Follow one of the methods below:
   a. Braising
      (1) Add liquid, spices, and seasoning, cover and simmer until done.
      (2) Remove meat, strain sauce, and remove any surface fat from meat and return to liquid.
   b. Stewing
      (1) Place meat in brazier, cover with liquid.
      (2) Add liquid, vegetables, spices, and seasoning, cover and simmer until done.
      (3) Add vegetables depending upon cooking time.
      (4) Remove any surface fat.
      (5) Check mixture for seasonings and consistency prior to service.

PERFORMANCE OBJECTIVE

Given a recipe, flour, spices, seasoning, vegetable, fat, liquid, spoon, range brazier with cover, serving pan, strainer, and cheesecloth, braise/stew a fowl. The fowl must be light brown, tender, moist, have a fresh taste, and maintain attachment to bones. The sauce must be smooth, have an appropriate color and a flowing consistency. It must be hot, fresh, and flavorful, and contain necessary amounts of vegetables.

PERFORMANCE GUIDE

1. Read recipe and make any necessary adjustments, conversions, or substitutions.
2. Organize work area by washing hands and assembling supplies near the equipment.
3. Heat brazier, add oil/fat.
4. Brow meat on all sides.
5. Remove meat.
7. Add liquid, vegetables, spices, and seasoning, cover and simmer until done.
8. Remove any surface fat.
10. Bring to a boil, cover and simmer until done.
11. Remove meat, keep warm.
12. Strain sauce.

3. Broil fish

170. PERFORMANCE OBJECTIVE

Given fish, oil, seasoning, broiler, fish rack or sizzle platter, warm plate, and garnish, broil a fish (portion). The fish must be moist, flaky, evenly browned, fresh, hot, and flavorful.

PERFORMANCE GUIDE

1. Organize the work area by washing hands and assembling supplies near the equipment.
2. Preheat the broiler.
3. Oil and season fish.
4. Broil until done, or brown in broiler, and finish cooking in a hot oven.
5. Garnish appropriately.

6. Fry fish, meats, and fowl

173. PERFORMANCE OBJECTIVE

Given fish, meat and/or fowl, breading, batter, seasoning, deep fat fryer, drain rack, brown paper, warm plate, and garnish, fry fish, meat, or fowl. The fish, meat, or fowl must be evenly golden brown, not greasy, hot, uniformly breaded or battered, and have crisp exterior and a fresh flavor.

PERFORMANCE GUIDE

1. Read recipe and make any necessary adjustments, conversions, or substitutions.
2. Organize work area by washing hands and assembling supplies near the equipment.
3. Bread or batter and season the fish, meat, or fowl.
4. Place breaded fish, meat, or fowl in fry basket, lower into fat or dredge fish, meat, or fowl in flour or batter, place directly into fat.
5. Fry until done.
6. Remove fish, meat, or fowl to draining basket, then drain further on brown paper.
7. Garnish appropriately.

7. Roast/bake meats

174. **PERFORMANCE OBJECTIVE**

Given a recipe, roasting pan, meat, seasoning, roasting/baking ingredients, oven, meat thermometer, strainer, serving platter, meat fork, and sauce tureen, roast/bake meat. The meat must be evenly browned, moist, tender, hot, and have a fresh flavor. It must be accurately cooked to the desired doneness, with a minimum of shrinkage. (4)

**PERFORMANCE GUIDE**

1. Read recipe and make any necessary adjustments, conversions, or substitutions.
2. Organize work area by washing hands and assembling supplies near the equipment.
3. Preheat the oven.
4. Season large pieces of meat and place in a slow oven and roast/bake. Add vegetables, seasonings, and herbs one and one-half hours before completion time.
5. Remove meat from oven and allow to rest one-half hour, hold for service.
6. Deglaze pan, strain drippings and reserve for gravy preparation.

   8. Roast/bake fowl

175. PERFORMANCE OBJECTIVE

Given a recipe, fowl, seasonings, roasting pan with rack, oven, strainer, serving platter, meat thermometer, ladle, and meat fork, roast/bake fowl. The fowl must be evenly browned, hot, moist, tender, and have a fresh flavor. The internal temperature must reach 185°F, with the fowl maintaining its characteristic shape.

PERFORMANCE GUIDE

1. Read recipe and make any necessary adjustments, conversions, or substitutions.
2. Organize work area by washing hands and assembling supplies near the equipment.
3. Wash fowl thoroughly in clear, cold water; dry.
5. Preheat the oven.
6. Season to taste. Place fowl in a slow oven, basting periodically.
7. Place fatty duck or geese on rack.
8. Add vegetables, seasonings, and herbs (if desired) one and a half hour before completion time.
9. Remove fowl from oven, allow to stand a minimum of 15 minutes prior to carving.
10. Deglaze pan, strain drippings.

10. Bake fish

177. PERFORMANCE OBJECTIVE

Given a recipe, fish, oil or butter, seasoning, bread crumbs, sauce, liquid, appropriate size baking pan, spatula, warm plate, garnish, and range, bake fish. The fish must be lightly browned, tender and not dry.

PERFORMANCE GUIDE

1. Read recipe and make any necessary adjustments, conversions, or substitutions.
2. Organize work area by washing hands and assembling supplies near the equipment.
3. Follow one of the following procedures:
   a. Plain or Crumbed
      (1) Oil or butter fish, season then add bread crumbs (if necessary).
      (2) Place on baking pan, add liquid and bake until done.
   b. Baked in Sauce
      (1) Place fish in baking pan, and sauce.
      (2) Bake in medium oven, covered (if required) until done.
4. Garnish appropriately.

11. Grill meats

178. PERFORMANCE OBJECTIVE

Given a recipe, meat, oil, foul, seasoning, grill, warm plate, spatula, and garnish, grill meat. The meat must be evenly browned, cooked throughout to the desired doneness, unbroken, moist, not greasy, and have a fresh flavor.

PERFORMANCE GUIDE

1. Read recipe and make any necessary adjustments, conversions, or substitutions.
2. Organize work area by washing hands and assembling supplies near the equipment.
3. Preheat the grill to 375°F.
4. Oil the grill lightly. Season and lightly flour meat, if necessary, and place on grill.
5. Turn meat over, and grill to completion. (Time of cooking will depend on type of meat and customer preference).
6. Remove from grill, garnish appropriately.

12. Poach fish

179. PERFORMANCE OBJECTIVE

Given a recipe, fish, poaching ingredients, fish poacher, strainer, skimmer or slotted spoon, warm plate or serving plate, and garnish, poach fish. The fish must be moist, flaky, not discolored, cooked through, unbroken, and hot.

PERFORMANCE GUIDE

1. Read recipe and make any necessary adjustments, conversions, or substitutions.
2. Organize work area by washing hands and assembling supplies near the equipment.
3. Prepare a court bouillon, then strain.
4. Place fish in poacher; add court bouillon to cover fish.
5. Simmer until fish flakes easily.
6. Remove and dry fish.
7. Garnish appropriately.

13. Stew/simmer fowl

PERFORMANCE OBJECTIVE

Given recipe, fowl, water, seasoning, carving knife, sauce pot, and fork, stew/simmer fowl. The fowl must be easy to cut, tender, juicy, but still remain intact.

PERFORMANCE GUIDE

1. Read recipe and make any necessary adjustments, conversions, or substitutions.
2. Organize work area by washing hands and assembling supplies near the equipment.
3. Remove any pinfeathers, hair, and viscera from fowl; rinse in cold water and dry.
4. Place measured amount of water, seasoning and fowl into stock pot and bring to boil. Reduce temperature and simmer.
5. Cook until done.

14. Carve meat

181. PERFORMANCE OBJECTIVE

Given uncarved, cooked meat (such as pork, beef, or lamb), a sharp carving knife, a guarded handle fork, and a platter or cutting board, carve the meat. The cooked meat must be sliced uniformly in thickness and must be cut across the grain.

PERFORMANCE GUIDE

1. Organize work area by washing hands and assembling supplies near the equipment.
2. Allow meat to cool for recommended time.
3. Use one of the following methods for carving the cooked meat:
   a. Standing Rib Roast of Beef
      (1) Place the largest flat surface down on a carving board or flat platter.
      (2) Insert the fork firmly between the two top ribs.
      (3) Slice across the grain toward the ribs from the far outside edge.
   b. Rolled Rib Roast of Beef
      (1) Place the end of a short roll on a carving board or platter.
      (2) Push the fork firmly into the roast on the left side.
      (3) Slice across the grain toward the fork from the far side, parallel to the board or platter.
      (4) Place it to the side of the platter as each slice is carved.
   c. Porterhouse Steak
      (1) Place the steak on a flat board or platter.
      (2) Holding the steak with the fork inserted at the left, cut closely around the bone.
      (3) Lift the bone to the side of the platter.
      (4) Cut across the full width of the steak; make wedgeshaped portions, widest at the far side.
   d. Baked Whole Ham
      (1) Insert the fork into the ham; cut several slices parallel to the length of the ham.
      (2) Turn the ham so that it rests on the cut surface.
      (3) Cut a small wedge from the shank end.
      (4) Cut thin slices down to the leg bone.
   e. Pork Loin Roast
      (1) Remove the backbone.
      (2) Insert the fork firmly in the top of the roast.
      (3) Cut close against both sides of each rib.
R. Duty: Preparing and Cooking Entrees

14. Carve meat

(Continued)

f. Roast Leg of Lamb

(1) Place meat on platter so that the leg bone is to the carver's right.
(2) Insert the fork firmly in the large end of the leg; carve two or three lengthwise slices from the side nearest the carver.
(3) Turn the leg so that it rests on the surface just cut.
(4) Insert the fork in the left of the roast.
(5) Begin at the shank end and make the first slice down to the leg bone.
(6) Continue to make thin slices parallel to the first until the bone pointing upward is reached.
(7) Run the knife parallel to the leg bone to free the slices all at one time with the fork still in place.

15. Carve fowl

182. PERFORMANCE OBJECTIVE

Given a baked chicken or turkey, a sharp carving knife, handle-guarded fork, and platter or cutting board, carve the fowl. The cooked fowl must be uniformly sliced in the direction of the grain.

PERFORMANCE GUIDE

1. Organize work area by washing hands and assembling supplies near the equipment.
2. Place cooked fowl on cutting board or platter following "rest" for 15-30 minutes.
3. Pull the leg away from the body of the bird.
4. Slice the thigh/flesh away from the body until the ball and socket hip joint is exposed.
5. Sever the thigh joint of both legs.
6. Slice drumstick meat holding drumstick at an angle, slicing downward. Turn until all sides are sliced.
7. Slice thigh, holding firmly with fork, cutting parallel to bone.
8. Disjoint each wing and separate it from the body.
9. Make a deep horizontal cut into breast close to wing.
10. Slice thin, even slices downward across the breast to horizontal cut.
11. Repeat steps with other side of bird.

16. Clean fish

183. PERFORMANCE OBJECTIVE

Given an uncleaned fish, newspapers, a sharp knife or boning knife, cutting board, a fish scaler, paper toweling, and easy access to running water, clean the fish. The fish must be free of scales, entrails, blood, viscera or membrane, head, tail, and fins.

PERFORMANCE GUIDE

1. Organize work area by washing hands and assembling supplies near the equipment.
2. Cover cutting board with several layers of newspapers and place fish on paper or use top of sink.
3. Scrape off scales starting at tail and scraping toward head.
4. Cut the fish the entire length of the belly from the vent to the head, remove the entrails and gills. Wrap and discard the entrails.
5. Cut around the pelvic and ventral fins and remove them.
6. Remove the head pectoral fins by cutting just behind the collarbone.
7. Cut off the tail.
8. Remove the dorsal fin by cutting along each side of the fin. Give a quick pull forward toward head and remove the fin with the root bones attached.
9. Wash the fish in cold running water.
10. Pat dry the fish.
11. Cleaning applies for large fish being served.

17. Cut and portion fish

184. PERFORMANCE OBJECTIVE

Given clean raw fish, a sharp knife, cutting board, cut and portion fish. Fish must be cut smoothly and should not be torn or jagged.

PERFORMANCE GUIDE

1. Organize work area by washing hands and assembling supplies near the equipment.
2. Cut the fish according to one of the following procedures.
   a. Fish Steaks or Darnes (for larger fish)
      (1) Place cleaned fish on board.
      (2) Cut crosswise into steaks, about an inch thick, beginning at the head end.
   b. Fish Fillets
      (1) Lay the fish on its side on the board.
      (2) Cut along the back of the fish from the tail to the head with a sharp knife.
      (3) Turn knife blade flat and cut the flesh away from bone.
      (4) Lift off the whole side in one piece.
      (5) Turn the fish over and repeat the process.

18. Devein shrimp

185. PERFORMANCE OBJECTIVE

Given fresh or cooked shrimp, a sharp knife, bowl, and pan, devein shrimp. The shrimp must remain intact with shell and vein completely removed.

PERFORMANCE GUIDE

1. Organize work area by washing hands and assembling supplies near equipment.
2. Remove the shrimp shell by lifting from the under side with one hand and holding shrimp securely with the other hand.
3. Cut along the upper back of the shrimp and lift the dark sand vein from the length of the shrimp.
4. Rinse in cold water.

19. Shuck oysters

186. PERFORMANCE OBJECTIVE

Given raw or cooked oysters in the shell, hand protection, a shucking knife, container for shells, and bowl, shuck oysters. The oyster should be removed from the shell intact and be free from grit, dirt, or bits of shell.

PERFORMANCE GUIDE

1. If necessary, "bill" the oyster or break the edge of the shell to allow room to insert the knife.
2. Insert the knife between edges of the shell and pry open.
3. Cut the muscle without breaking the liquid.

20. Bake casseroles

187. PERFORMANCE OBJECTIVE

Given a recipe and necessary ingredients, a cutting board, a carving knife, a mixing bowl and spoon, and a baking dish with lid, make a casserole using a meat, seafood, or a fowl. The casserole must be thoroughly cooked, must be free of bones or bone slivers, and must be free of spillovers and scorching.

PERFORMANCE GUIDE

1. Read recipe and make any necessary adjustments, conversions, or substitutions.
2. Organize work area by washing hands and assembling supplies near the equipment.
3. Precook the meat, seafood, or fowl according to the recipe directions or utilize leftover meats, seafood, or fowl.
4. Prepare other casserole ingredients.
5. Place meat, seafood, or fowl on a cutting board and carve, removing the bones; cube, dice, or break into pieces.
6. Combine the ingredients.
7. Grease the baking dish.
8. Preheat oven to temperature specified in recipe.
9. Pour the ingredients into the baking dish; top casserole with grated cheese or bread or cracker crumbs; cover.
10. Place casserole in preheated oven and bake according to recipe.
11. Remove from oven.

21. Make pizza

188. PERFORMANCE OBJECTIVE

Given a recipe, ingredients, pizza pan or cookie sheet with sides, bowl, stockpot or saucepan, can opener, rubber scraper, measuring equipment, mixer, thermometer and dough container, make pizza. The pizza is ready when crust is lightly brown and cooked thoroughly, cheese is melted and other toppings are not dry.

PERFORMANCE GUIDE

1. Read recipe and make any necessary adjustments, conversions, or substitutions.
2. Organize work area by washing hands and assembling supplies near the equipment.
3. Prepare sauce:
   a. Measure and mix ingredients in steam kettle or stockpot.
   b. Simmer specified time.
   c. Remove from heat and cool.
4. Prepare crust in following manner:
   a. Measure and mix ingredients.
   b. Knead by hand or using a mixer, until smooth.
   c. Let rise specified time in greased bowl.
   d. Punch down and let rest specified time.
   e. Oil pan.
   f. Roll out dough and place in pan.
5. Spread sauce on crust(s)
7. Bake specified time.
8. Stage the pizza or allow to harden.
9. Cut into slices.

22. Make bread stuffing/dressings

189. PERFORMANCE OBJECTIVE

Given a recipe, ingredients, item to be stuffed on roasting pan, measuring utensils, skillet, knife, large round bowl, and mixing spoon, make bread stuffing/dressing. The stuffing must be golden brown on the exposed surface, heated throughout, and moist.

PERFORMANCE GUIDE

1. Read recipe and make any necessary adjustments, conversions, or substitutions. Note: Sanitary care for stuffing.
2. Organize work area by washing hands and assembling supplies near the equipment.
3. Cube the bread and prepare as directed in recipe.
4. Dice or mince vegetables called for in recipe and measure.
5. Saute vegetables.
6. Prepare stock as directed.
7. Mix all ingredients.
8. Place in greased roasting pan or in cavity of item to be stuffed.
10. Cool according to proper temperature.

1. Make cooked puddings

191. PERFORMANCE OBJECTIVE

Given recipe, necessary ingredients, measuring cups/spoons, a double boiler, a wooden spoon, and dessert molds or bowls, make a cooked pudding. The pudding must be velvety smooth throughout and must be delicate, yet firm enough to hold shape of mold when turned from it.

PERFORMANCE GUIDE

1. Read recipe and make any necessary adjustments, conversions, or substitutions.
2. Organize work area by washing hands and assembling supplies near the equipment.
3. Measure the ingredients.
4. Mix flour or cornstarch with sugar in the top of double boiler.
5. Stir small amounts of milk into the dry ingredients until a smooth paste is formed. Add the remainder of the milk.
6. Cook over direct heat, stirring constantly until mixture boils.
7. Place over boiling water in top of double boiler. Cover and cook.
8. Stir in remaining ingredients.
9. Pour into molds or bowls.
10. Cool to room temperature and place in refrigerator.

2. Make custards

192. PERFORMANCE OBJECTIVE

Given a recipe and necessary ingredients, a mixing bowl, spoon, measuring cups and spoons, a saucer, custard cups, knife, baking pan, and double boiler, make a baked/boiled custard. The custard must be smooth, moist and thickened and not show signs of separation or watery liquid from coagulated custard.

PERFORMANCE GUIDE

1. Read recipe and make any necessary adjustments, conversions, or substitutions.
2. Organize work area by washing hands and assembling supplies near the equipment.
3. Prepare custard by selecting one of the following:
   a. Baked
      (1) Preheat oven to specified temperature.
      (2) Pour water into the lower part of double boiler. Heat to boiling.
      (3) Measure the specified amount of milk; pour into mixing bowl and blend.
      (4) Heat the milk until scalded in top part of double boiler.
      (5) Break each egg separately in a saucer. Place eggs into mixing bowl and blend.
      (6) Stir in measured amounts of the remaining ingredients.
      (7) Add scalded milk gradually to the beaten egg mixture; stir.
      (8) Place custard cups in baking pan.
      (9) Pour mixture into custard cups. Sprinkle with nutmeg.
      (10) Pour hot water around custard cups.
      (11) Bake in preheated oven for specified time period.
      (12) Test for doneness.
      (13) Remove from the oven.
   b. Boiled
      (1) Measure, mix, and sift dry ingredients.
      (2) Place dry ingredients in heavy saucepan.
      (3) Add one-fourth of remaining cold milk to dry ingredients slowly and blend.
      (4) Add scalded milk slowly, stirring constantly.
      (5) Cook over low heat until mixture slightly thickens, stirring constantly with wooden spoon.
      (6) Add small amount of cooked mixture very slowly to slightly beaten egg yolks, stir vigorously.
      (7) Add the above mixture to remaining mixture; cook very slowly, stirring constantly until mixture coats the spoon.
      (8) Remove from heat.
      (9) Stir in flavoring.
      (10) Pour into custard cups.

1. Order food items and kitchen supplies

195. PERFORMANCE OBJECTIVE

Given pencil, paper, order sheets, adding machine or calculator and telephone, order food items and kitchen supplies. Order must be complete, insuring that there is a sufficient number of each item on hand as needed. Items must be ordered at the best price available for type and quality of product and promptness of delivery.

PERFORMANCE GUIDE

1. Check registration book for scheduled banquets.
2. Check inventory to see what is on hand, including freezers, coolers, and dry storage.
3. Check availability, quality, and price of needed items from various purveyors by the telephone.
4. Order supplies using "par" sheet. Items ordered will bring "par" up to regularly maintained/required level.
5. Place selected orders with selected purveyors.

2. Receive incoming food items and kitchen supplies

196. PERFORMANCE OBJECTIVE

Given pencil, invoice, and incoming merchandise, receive incoming food items and kitchen supplies. Delivery person must be supervised at all times as items are delivered. Pricing must be correct. All items must meet specification for quality and quantity with nothing damaged. Salesman must be called to report missing or damaged items. Stock must be rotated to use older items first. All items requiring refrigeration must be received properly refrigerated.

PERFORMANCE GUIDE

1. Check all incoming products for specifications (i.e., quality, quantity, damage).
2. Call salesman immediately to report missing/damaged items and find out why they are missing/damaged.
3. Check pricing on invoice against pricing on order.
4. Put items away rotating stock so all older products are in front.

197. **PERFORMANCE OBJECTIVE**

Given pencil, menu, products, recipes, and access to kitchen, schedule food production. Menu must be checked to be sure everything that is needed is available. Work areas must be safe, clean, and sanitary. All food production must be scheduled so that everything is ready to serve at the same time. All food items must be fresh and at appropriate temperature.

**PERFORMANCE GUIDE**

1. Check menu to see what is needed.
2. Remove needed food items from freezer in time to thaw.
3. Give recipes to those who will be doing the work.
4. Check that all needed tools and equipment are clean and ready to use.
5. Allow enough time to prepare without rushing.
6. Check to make sure that correct ingredients are being used in each recipe.
7. Put left over ingredients away in cooler, dry storage as required.

5. Plan menus

199. PERFORMANCE OBJECTIVE

Using food availability, records, nutrition information, budget parameters and client-type, plan menus. Menus are nutritious and provide an appropriate variety of food items.

PERFORMANCE GUIDE

1. Select the foods to be included in each menu.
   a. Select menu offerings to give contrast in form, texture, flavor, color, or temperature.
   b. Plan menus according to the customer's ability to pay.
   c. Plan menus according to the food habits and preference of those to be served.
   d. Plan foods to be prepared within the available time and the equipment on hand.

2. Write each menu in correct order and form.
   a. Capitalize all words except articles and prepositions.
   b. Arrange food items in the order in which they are eaten in a meal or categories.
   c. Utilize space, print, and other factors that would give rapid comprehension and promote sales.
   d. Give the main course the most prominent placement in the menu, complimented with available appetizers/beverages and desserts.
   e. List condiments only when they are special.
   f. Use accurate descriptive terms.

6. Task: Develop Banquet Menus

200. PERFORMANCE OBJECTIVE

Given trade journals, cookbooks, knowledge of seasonal foods available, food prices, overhead and labor costs, and clientele information, develop banquet menus. Menus must be designed which meet client requests and which provide optimum profit for the company.

PERFORMANCE GUIDE

1. Keep abreast of new and innovative menu designs.
   a. Peruse trade journals and cookbooks.
   b. Consult with salespersons and food brokers.
3. Plan menus considering:
   a. number to be served
   b. age/type of guests
   c. occasion
   d. budget
   e. season
   f. hot and cold food combination
   g. texture and color of food combinations
   h. taste or flavor combination
   i. expensive/inexpensive food combinations
   j. sample menus
   k. facilities for service
   l. transportation, if off-premise
4. Price menu considering cost of food, overhead, labor and profit.
5. Modify menus as situation dictates (elimination of slow and non-selling items).

2. Sharpen cutlery

202. PERFORMANCE OBJECTIVE

Given knives, steel, stone, oil, and cutting board sharpen cutlery. Sharpened knives must slice foods easily. They must be free of rust, evenly sharpened and clean.

PERFORMANCE GUIDE

1. Organize work area by washing hands and assembling supplies.
2. Wipe cutlery free of food particles, grease and moisture.
3. Use one of the following methods for sharpening cutlery.
   a. Sharpening Stone
      (1) Draw the blade of the piece of cutlery across the stone at a 20 degree angle.
      (2) Pivot wrist and draw other side of blade in opposite direction across stone at a 20 degree angle.
   b. To Maintain Edge
      (1) Place the heel of the knife blade at a 20 degree angle to the steel.
      (2) Pivot wrist and draw the blade of the knife down across the steel until the tip of the blade almost reaches the bottom of the steel.
      (3) Repeat steps 1 and 2 with blade on the other side of the steel.
      (4) Alternate on each side five or six times.
4. Wipe the piece of cutlery free of metal particles.
5. Wash, rinse, and dry the piece of cutlery.

12. Make change

216. PERFORMANCE OBJECTIVE

Given a total cost for an order of merchandise/service and the amount of money submitted by customer, make change to the customer correctly.

PERFORMANCE GUIDE

1. For change-calculating cash registers:
   a. Orally state the total cost of the order of merchandise.
   b. Orally state the amount that the customer remits.
   c. Place the customer's money on the cash register change plate.
   d. Hand customer the receipt tape.
   e. Orally count back to the customer the amount of change due, beginning with the largest denominations (bills) and closing with coins.
   f. Thank customer and invite them to return.
   g. Place customer's money into cash drawer after they have acknowledge receiving the correct change.

2. For nonchange-calculating cash registers:
   a. State orally the total amount of purchase.
   b. State orally the amount of customer's remittance.
   c. Place customer's remittance on cash register change plate.
   d. Silently count starting at the total cost to customer and add up to the amount remitted, as you are obtaining cash from the cash drawer.
   e. Use the largest denomination of coins and bills available for change.
   f. Hand customer the receipt tape.
   g. Count aloud starting at the total cost to customer as you are returning change to customer.
   h. Count up to the total amount rendered by the customer.
   i. Thank customer and invite them to return.
   j. Place customer's remittance into cash drawer only after customer has acknowledge receiving correct amount.

13. Ring up orders of merchandise or service on the cash register

217. PERFORMANCE OBJECTIVE

Given a cash register, an order of merchandise or service and all forms used by the establishment, ring up the order of merchandise on the cash register. All orders must be rung correctly and within time standards established by company.

PERFORMANCE GUIDE

1. Receive merchandise/written order for service from customer.
2. Ask customer for coupons.
3. Register each item on the correct amount and department key.
4. Register multiple-priced items as a group.
5. Calculate and register the price of single units of multiple priced items.
6. Verify prices of unmarked or illegibly marked items with price list or other employee.
7. Account for all errors using error-correcting forms or correct cash register voiding procedures.
8. Check to determine that all items have been registered.
9. Register coupon and/or bottle credits.
10. Register a total.
11. Tell customer the cost of merchandise/service.
12. Accept the amount given by the customer and place on change plate.
13. Take correct change from change drawer.
14. Hand customer the receipt tape and count aloud to the customer the amount of change due.
15. Thank customer and invite them to return again.
16. Place customer's given amount in cash drawer after the customer has acknowledge receiving correct amount of change.

   14. Manipulating cash register keys

218. PERFORMANCE OBJECTIVE

Provided a cash register and a list of entries including coupon and bottle refunds, ring up each and register a total without error.

PERFORMANCE GUIDE

1. Depress the correct amount key for each entry.
2. Depress the correct department key for each entry.
3. Depress the subtotal key.
4. Depress the amount and bottle refund keys.
5. Depress the amount and coupon keys.
6. Depress the total key.
