This publication is designed to provide educators with useful information and examples on how teachers and students can better communicate and learn in today's culturally diverse classroom. Educators are given background information and resources for becoming more sensitive and responsive to the needs of students of different cultures and enriching the curriculum by infusing it with a multicultural perspective. Section 1 provides general background on cultural diversity and its impact on U.S. schools. Section 2 features programs and projects that teachers have successfully used to address the needs of culturally diverse school populations. Section 3 presents a compilation of structured strategies for developing cross-cultural awareness and sensitivity, and it suggests thematic activities, with related resources, that can be used in the classroom. Section 4 supplies a selection of multicultural resources; section 5 offers four appendices containing additional resources and information. The appendices include: "Helpful Hints for Working with New LEP Students"; "74 Instant Ideas for Classroom Teachers with ESL Students"; "Sample Culturgram"; and "Chronology of Key Historical Events by U.S. Ethnic Groups." A 31-item bibliography completes the volume. (IAH)

and the
Florida Department of Education

This document was produced with funds from the Office of Educational Research and Improvement, U.S. Department of Education, under contract no. RP91002010.
ABOUT SERVE AND THE HOT TOPICS SERIES . . .

SERVE, the SouthEastern Regional Vision for Education, is a coalition of educators, business leaders, governors, and policymakers who are seeking comprehensive and lasting improvement in education in Alabama, Florida, Georgia, Mississippi, North Carolina, and South Carolina. The name of the Laboratory reflects a commitment to creating a shared vision of the future of education in the Southeast.

The mission of SERVE is to provide leadership, support, and research to assist state and local efforts in improving educational outcomes, especially for at-risk and rural students.

Laboratory goals are to

- address critical issues in the region,
- work as a catalyst for positive change,
- serve as a broker of exemplary research and practice, and
- become an invaluable source of information for individuals working to promote systemic educational improvement.

In order to focus the work of the laboratory and maximize its impact, SERVE will emphasize one of the national goals established by the President and National Governors' Association for regional attention each year:

YEAR 1: Improve Math, Science, and Computer Education
YEAR 2: Provide Safe, Drug-Free Schools
YEAR 3: Increase the Graduation Rate
YEAR 4: Improve Student Achievement and Citizenship
YEAR 5: Expand Adult Literacy and Lifelong Learning

The remaining national goal, ensuring that all children are ready to begin school, is being addressed through a special, three-year project.

SERVE offers a series of publications entitled Hot Topics: Usable Research. These research-based publications focus on issues of present relevance and importance in education in the region and are practical guidebooks for educators. Each is developed with input from experts in the field, is focused on a well-defined subject, and offers useful information, resources, descriptions of exemplary programs, and a list of contacts.

Several Hot Topics are developed by SERVE each year. The following Hot Topics are now either presently available or under development:

- Schools for the 21st Century: New Rules for Teachers and Principals
- Comprehensive School Improvement
- Problem-Centered Learning in Mathematics and Science
- Increasing Female and Minority Participation in Mathematics and Science
- Parent and Community Involvement in Early Childhood Education
- Facilitating Family Involvement for a Better Bottom Line: A Guidebook for Businesses
• Cocaine Babies: Coping in the Classroom with Substance-Exposed Children
• Using Technology to Restructure Teaching and Learning
• Learning By Serving: Service Learning and other School-Based Community Service Programs
• Collaborating to Meet the Needs of Children, Families, and Communities
• Outcome-Based Education
• Preventing Student Drug Use and Violence

TO RECEIVE COPIES: To request publications or to join the SERVE mailing list (everyone on the mailing list will receive announcements about Laboratory publications), contact the SERVE office in Tallahassee (address below).

Collaboration and networking are at the heart of SERVE's mission, and the Laboratory's structure is itself a model of collaboration. The Laboratory has four offices in the region to better serve the needs of state and local education stakeholders. The contract management and research and development office is located at the School of Education, University of North Carolina at Greensboro. The Laboratory's information office, affiliated with the Florida Department of Education, is located in Tallahassee. Field service offices are located in Atlanta, Greensboro, Tallahassee and on the campus of Delta State University in Cleveland, Mississippi. Addresses are provided below.

INTRODUCTION

Not since the turn of the century has the United States experienced such a significant increase of immigrant school-aged children. The ethnic minority population in the U.S. is increasing at a much faster rate than the general population. Projections indicate that, by the year 2000, one-third of the population in the United States, and nearly one-half of the population of the Southeast, will consist of non-white Americans (Banks, 1991, p. 4.).

In the Southeast, the percentage of minority students is currently twice as high as that of minority teachers. As a result, most minority students have few role models in schools. And in spite of the fact that African-American, Hispanic, and other ethnic groups are and have been an integral part of Southern history and life, their cultures and contributions have not been adequately recognized by schools and society. Educators are in the forefront of the profound cultural transformation taking place in schools in this region. However, many are unprepared for the changing makeup of their classrooms and are in great need of effective strategies and resources to meet the needs of their increasingly diverse students.

The way in which teachers address these changing demographic realities in their classrooms will have a profound impact on future generations. As role models in the lives of students, classroom teachers can significantly assist students in developing sensitivity and communication skills that embrace cultural differences as a national asset rather than a deficiency.

The purpose of this publication is to provide educators with useful information and examples on how teachers and students can better communicate and learn in today's culturally diverse classrooms. Educators are offered background information and resources for becoming more sensitive and responsive to the needs of students of different cultures and enriching their students' curriculum by infusing it with a multicultural perspective.

The publication is divided into five sections. Section One provides a general background on cultural diversity and the impact it has on our nation's schools. It also addresses the critical role teachers play in facilitating effective learning within culturally diverse classrooms. Suggestions are offered for becoming more sensitive to culturally diverse student and community populations. Section Two features "Dynamite Ideas"—programs and projects that teachers have used
A primary assumption of this publication is that the diversity of the Southeast can be a great strength, and that promoting understanding of diversity will enrich the curriculum and lives of all our students.

If ignorance is the foundation for prejudice and racism, then education is the most effective remedy to prevent our increasing diversity from leading to increased misunderstandings and social and ethnic problems. This publication is a result of a regional, collaborative effort with education professionals throughout the Southeast. In a continuing effort to improve the educational outcomes of all students, SERVE welcomes you to submit strategies, activities, and resources that you have found helpful when addressing your needs and the needs of students in understanding and appreciating cultural diversity in school and community settings. Your information about exemplary strategies and programs will be recognized and incorporated into future printings.
QUIZ

What Do I know About Culture, Communication, and Language?

This quiz is designed to help you examine your own beliefs about culture and the foundations for those beliefs. Circle A for each statement with which you agree or D for each statement with which you disagree.

A  D  1.  A person's culture and race are usually one and the same.
A  D  2.  Culture consists primarily of a group's art, music, dance, food, language, and dress.
A  D  3.  Cultural groups are generally mutually exclusive of one another.
A  D  4.  Cultural traits tend to have a genetic base.
A  D  5.  In general, people who speak the same language are members of the same cultural group.
A  D  6.  Culture is expressed exclusively by one's verbal behavior.
A  D  7.  The only significant components of one's communication system are pronunciation rules, vocabulary, and grammatical rules.
A  D  8.  Standard English is the correct way to speak at all times in the United States.
A  D  9.  There are universal norms for acceptable communicative behavior within the United States.
A  D  10.  If a student violates the school's cultural or communicative norms, it is usually as an act of defiance.
A  D  11.  In general, speaking a non-standard dialect suggests low cognitive development.
A  D  12.  Standard English has more and better structures than other varieties of English.
A  D  13.  Most standardized tests are based on rules of English used in all linguistic groups.
A  D  14.  Standard English is "white English."
A  D  15.  In general, black students do not communicate as well as white students.
A  D  16.  Parents who do not speak standard English should avoid talking to their children to prevent them from developing poor speech habits.
A  D  17.  If a child is to learn standard English, he/she must unlearn any other variety of English that he/she speaks.
A  D  18.  Black American English is by definition a nonstandard variety of English.
A  D  19.  In general, students from poor families do not communicate as well as those from middle class families.

Meeting the needs of educational practitioners is very important to us at SERVE. Your feedback on this publication will permit us to better assist you, and your recommendations will be incorporated into future editions. Please help us by providing a brief response to the following:

1. Is this publication a useful resource for developing better multicultural communication in classrooms? Why or why not?  
   - Yes  
   - No

2. Did you find the synthesis of research presented in Section One useful? Please explain briefly.  
   - Yes  
   - No

3. Did you find the strategies and activities for addressing cultural diversity useful? Please explain briefly. We would appreciate any additional strategies and activities you could provide.  
   - Yes  
   - No

4. Were the resources in this document helpful? Please explain. Are there any additional resources you would recommend that we add? Please provide citation(s).  
   - Yes  
   - No

5. In general, how might this publication be improved?  
   - More Background Information  
   - More Exemplary Teaching Activities  
   - Other (please specify)

6. How do you plan to use this document, or how have you used it?  
   - Instructional Tool  
   - Staff/Professional Development  
   - Research  
   - Other (please specify)

7. How did you learn about/receive this publication?  
   - Received announcement in mail  
   - Professional Journal/Newsletter  
   - SERVE Field Representative  
   - Other (please specify)

8. What are some activities that you would like to see as a follow-up to this publication?

ACKNOWLEDGMENTS

APPRCIIATING DIFFERENCES: TEACHING AND LEARNING IN A CULTURALLY DIVERSE CLASSROOM was prepared with the assistance of a Regional Review Panel representing educators, administrators, and other stakeholders in the field of multicultural education. Panel members provided input on the document's focus, content, and design. Information and review provided by the Regional Review Panel greatly enhanced the final product.

Regional Review Panel Members:

Jerry Adams, Senior Executive Assistant for Communications, South Carolina Department of Education
Dr. Ruth Arnow, Coordinator, Migrant and ESOL Programs, Georgia Department of Education
Jacqui Asbury, ESL/Bilingual Consultant, South Carolina Department of Education
Quan Cao, Program Specialist, Florida Department of Education
Dr. Alicia Glover, Coordinator, Bilingual Education, Alabama Department of Education
Jean Jones, Bilingual Specialist, Birmingham Public School System (Ala.)
Carmen Jordan, Coordinator, ESOL, Clarke County School District (Ga.)
Dr. Mae Kindall, Director, Curriculum Planning, Atlanta Public Schools (Ga.)
Beverly Lancaster, Middle School Supervisor, Winston Salem/Forsyth County Schools (N.C.)
Jude Luppenetti, Director, Elementary and Bilingual Education, Biloxi Public Schools (Miss.)
Debra L. Meibaum, Coordinator, Title VII, Mississippi Department of Education
The Honorable Harma Miller, Teacher, Former Mayor, City of Belle Glade, Fla.
Connie Moore, Teacher, Howard I Elementary School, Gulfport, Miss.
Marty Outlaw, Teacher, Cone Elementary School, Greensboro, N.C.
Arthuree Ricks, Coordinator, Bilingual/ESOL and International Programs, Waverly Administration Center, Columbia, S.C.
Dr. Julia Spinthourakis, Policy and Research Manager, Refugee Programs Administration, Florida Department of Health and Rehabilitative Services
Mercedes Tural, Bilingual Education and Foreign Languages, Dade County Public Schools (Fla.)
L. Gerard Toussaint, Consultant, Second Language Studies, North Carolina Department of Public Instruction
LaNelle Valdes, Coordinator, ESL, Hollis Elementary School, Greenville, S.C.
Rosemary Woullard, English/Sp blish Teacher, Hattiesburg 14th School, Hattiesburg, Miss.
Other Contributors Include:

Renee Akbar, Resident Teacher, Sharing Success Coordinator, SERVE
Dr. Joan Assey, Director of Staff Development, Richland School District Two, Columbia, S.C.
Dr. Ada Burnett, Director, Developmental Research School District, Florida Agricultural and Mechanical University
Sue Carpenter, Director, School Improvement Resource Center, Florida Department of Education
Elizabeth Clark, Information Specialist for Clearinghouse, SERVE
Christopher H. Coats, Graphics Assistant, SERVE
Sharon Coon, Director, Tots 'n' Teens, Florida Department of Education
Dr. Roy Forbes, Executive Director, SERVE
Bill Jordan, Resident Teacher, Florida Department of Education
John Leslie, Student Assistant, SERVE
Sherral Leverette, Staff Assistant, SERVE
Nancy Livesay, Project Coordinator, SERVEing Young Children Project, SERVE
Dr. Jessie Lovano-Kerr, Director, Florida Institute for Art Education
Dr. Angela Lupo-Anderson, Assistant Dean of the Faculties, Florida State University
Altha Manning, Chief, Bureau of Student Support and Academic Assistance, Florida Department of Education
Deloris Pringle, Senior Field Representative, SERVE
Annouska Remmert, Bureau of Student Support and Academic Assistance, Florida Department of Education
Dorothy Routh, Deputy Director, SERVE
Barbara Schell, Director, Emerson-Waldorf School, Chapel Hill, N.C.
Dr. Robert Smith, Director, Center for the Music of the Americas, Florida State University
Mike Tremore, Supervisor of School Improvement Assistance, Florida Department of Education
Dr. Ralph Vedros, Associate Director, SERVE
Margaret Walden, Education Associate, Social Studies, South Carolina Department of Education
Dianne Wilkes, Educational Program Analyst, SERVE
Dr. Millicent Wright, Coordinator for Bilingual Education, Atlanta Public Schools

Appreciating Differences: Teaching and Learning in a Culturally Diverse Classroom

was designed by Glenda Johnson, Publications Design Specialist, SERVE,
edited by Joseph Follman, Research Associate for Communications, SERVE,
and written by Evelyn Ploumis-Devick, Ph.D., Educational Program Analyst, SERVE.

FINDING UNDERSTANDING IN A "CULTURE OF CULTURES"

• Overview

• Developing a Multicultural Perspective in the Classroom
  • What basic skills and support do teachers need to be effective in a culturally diverse classroom?
  • What does "cultural diversity" mean and how does it affect the education of children in America?
  • What is meant by "multi-cultural education?"

• Discovering Characteristics of Culture
  • Where to begin understanding norms of cultural groups
  • Cultural universals
  • What is meant by "acculturation/"
  • Student self-concept and teacher expectations

• Cross-Cultural Communication
  • Cross-cultural communication gaps
  • Involving parents and the community in the classroom and school
  • The arts: a dynamic cultural link
FINDING UNDERSTANDING IN A "CULTURE OF CULTURES"

In 1975, the student population at Howard II Elementary School in Biloxi, Mississippi, was 90 percent white. The 1991 demographic breakdown reflects a student population of 338 with 62 percent minorities and 38 percent white. The minority student enrollment, which is now the majority student population, is 42 percent Vietnamese and 20 percent black. This sort of shift is not atypical either in Mississippi or the region as a whole.

OVERVIEW

One of the most profound transformations facing American society is the dramatic change of its ethnic texture over the last 15 years. Currently, Hispanic and Asian immigrants and their families now far outnumber European immigrants.

It is impossible to ignore projections which indicate that, by the year 2000, 80 percent of the new entrants to the labor force will be women, immigrants, or people of color. In addition, by the year 2020, white students will make up only 54.5 percent of the nation's school population (Banks, 1991, p. 4-5).

Source: SREB, 1991
*Note: Georgia will collect student data in 1992-93.
The influence of an increasingly diverse population on the nation’s schools is, and will continue to be, significant. The way in which educators address the needs of all children today will have a dramatic impact on the strength and influence of our nation in the global arena of tomorrow.

As a region, the Southeast has the nation’s highest percentage of minority students. “Minority” students are the “majority” in Mississippi, and represent approximately 40 percent of the entire Southeastern public school student population (Statistical Abstract 1989; SREB, 1990).

According to demographer Harold Hodgkinson (1991), America’s youth populations for the next twenty years can be projected with considerable accuracy. He indicates that from 1990-2010, the total number of youth will increase from 64 to 65 million by the year 2000 and then drop to 62.6 million by the year 2010. The number of white youth will decline from 70 percent of the total school-age population in 1990 to 62 percent in the year 2010. Hodgkinson states that “by 2010, 13 states will contain 30 million of the nation’s total youth population of 62.6 million and will show a marked increase in the percentage of youth that are non-white”.

**TABLE 2**

As indicated in the above table, minorities will become the majority of school-age populations in eight of the states. Three of these states are in the Southeast.
DEVELOPING A MULTICULTURAL PERSPECTIVE IN THE CLASSROOM

How and what children learn plays a dramatic role in the future implementation of what they learn. Thus, teachers play a critical role in developing the preliminary blueprints of America's future. The classroom environment teachers create will affect the quality of their teaching. The way they teach, which includes verbal and nonverbal delivery, critically affects the student learning process.

What basic skills and support do teachers need to be effective in a culturally diverse classroom?

What skills and attributes are necessary for a teacher in a classroom that has children from linguistic and ethnic minorities as well as the mainstream American culture? Basic tools needed to build a solid foundation for the successful classroom learning environment include the following:

- a self-awareness (of attitudes on multiculturalism and strengths and weaknesses in working with people from different cultural backgrounds);
- an ability to communicate effectively (written, oral, non-verbal);
- an ability to think critically, analytically, and creatively,
- an ability to challenge and stimulate children to learn to apply critical thinking skills;
- a sensitivity to individual differences;
- a positive attitude;
- a willingness to integrate a multicultural perspective into the classroom and curriculum; and
- a willingness to build and strengthen curriculum bridges between home, school, and community.

Well developed communication skills and sensitivity to the needs of each child are basic ingredients in developing classroom environments which embrace diversity and enhance the positive learning opportunities for all students. Of course, developing a sensitivity to the needs of each child, particularly when that child's cultural background may be unfamiliar, presents teachers with a challenge as well as an opportunity. The approach a teacher takes in developing personal sensitivity to the diversity within the classroom can be the key to the development of an exciting classroom community.

The population of Dade County, Florida, is highly diverse and the public schools in Dade County mirror the county population. The current student population in the district's public schools represents 117 countries. (Source: Dade County Public Schools, 1991)
### TABLE III: Questions to Ask When Developing and Strengthening Curriculum in the Multicultural Classroom

**General Questions**

Does the classroom reflect work of all students? Is the social/emotional atmosphere of the classroom positive?

Does the classroom show evidence of the involvement of the teacher and students in learning about various cultures (books, exhibits, art, etc.)?

Is there evidence of thematic learning? Concepts development? Varied methods of evaluation (very important for children from newly-arrived cultures)?

Is there evidence of an understanding/application of principles of human growth and development? Principles of learning (concrete to abstract)?

Does the classroom connect learning to real experiences which children bring to the classroom?

Does the teacher model excellence in teaching and learning (speaks well; thinks clearly; is creative, energetic, open-minded, and culturally secure)?

**Specific Questions**

Does the teacher lead class(es) in regular celebrations of cultural heritage days, weeks, or months? Are they well-planned, with internal/external involvement?

Do the children study and visit relevant community sites?

Does the teacher plan regularly to expose students to other cultures (field trips, invitations to resource persons, videotapes, invitations to families of students to share in teaching/learning)?

Does the teacher provide many opportunities for students to learn from each other through small group activities initiated by students, cooperatively planned book reports, dramas, music (experiences, written reports, stories, poems, etc., real and imagined)?

Does the teacher engage children in learning through concept teaching, varying evaluation procedures, student exhibits, problem solving (utilizing real multicultural situational dilemmas), etc.?

Does the teacher utilize interdisciplinary philosophy and methodology to address each area of instruction (i.e., geography through language arts, music, etc.; interfacing language arts/music/social studies across and around the world)?

Does the teacher use wide-ranging opportunities to engage children in speaking/exchanging in other languages, games, problem solving activities, books, learning centers, etc.?

---

*contribution by Dr. Mae A. Kendall, Director of Curriculum Planning, Atlanta Public Schools*

**Note:** Refer to Appendix A for additional suggestions and strategies for working within culturally diverse educational classrooms and settings.
CHILDREN LEARN WHAT THEY LIVE

If a child lives with criticism, He learns to condemn.
If a child lives with hostility, He learns to fight.
If a child lives with ridicule, He learns to be shy.
If a child lives with jealousy, He learns to feel guilty.
If a child lives with tolerance, He learns to be patient.
If a child lives with encouragement, He learns to have confidence.
If a child lives with praise, He learns to appreciate.
If a child lives with fairness, He learns justice.
If a child lives with approval, He learns to like himself.
If a child lives with acceptance and friendship, He finds love in the world.

—Author Unknown.

What does "cultural diversity" mean and how does it affect the education of children in America?

Culture is basically a framework for behavior. It consists of human-made guidelines, written and unwritten, that serve to provide order to how groups of people relate to one another and to their world. Cultural diversity refers simply to the differences which exist among cultural groups.

Each student and teacher brings unique cultural characteristics to the classroom. A multicultural learning environment is created from the varied individual cultural values brought into the classroom combined with the overall school environment. Teachers are in a leadership role and responsible for meeting the learning needs of each student equally. Their willingness to explore and understand the individual learning needs of each student will greatly affect the learning environment.

HOW something is taught can significantly affect WHEN and WHAT students learn. When viewed in a multicultural context, the well-known verse, "Children Learn What They Live," exemplifies possible common outcomes which result from basic human communication and interaction with children regardless of cultural backgrounds.

Although multi-cultural environments are not always apparent, teachers work within a number of cultural environments every day. In fact, they may be considered the cultural brokers within individual classroom settings. This is not an easy role to play. It takes exceptional verbal and nonverbal communication skills and sensitivity to create a classroom learning environment which can meet the needs of all participants. As educational leaders, teachers must be visionaries and empower each student to develop and achieve academic, personal, and social skills.
What is meant by "multicultural education?"

Two conceptual definitions of "multicultural education" that are particularly relevant for teachers are presented below. The first is based upon the standards used by the National Council for the Accreditation of Teacher Education.

**Definition One**
Multicultural education is a process through which individuals develop ways of perceiving, evaluating, and behaving within cultural systems different from their own (Gibson, 1984).

This definition identifies the need for students to develop sensitivity and skills which will enable them to communicate and interact in environments and with individuals from varying cultural backgrounds. It emphasizes a perspective that recognizes the political, social, and economic realities that individuals experience in complex and culturally diverse societies. It stresses the critical importance of the educational process in preparing students to recognize the differences which exist in our pluralistic society.

As an instructional approach, Suzuki (1989) defines "multicultural education" as follows:

**Definition Two**
Multicultural education is a multidisciplinary educational program that provides multiple learning environments to match the academic, social, and linguistic needs of students (Gibson, 1984).

Focusing on students as individual learners, this definition implies the need for teachers to be sensitive to the combination of abilities as well as instructional needs of each student. Thus, the term "multicultural education" can embrace not only changes in the curriculum but also changes in teaching methodology that respond to our multicultural population (Ravitch, 1990).
What should teachers know about cross-cultural communication in order to teach in today's classrooms?

DISCOVERING CHARACTERISTICS OF CULTURES

There are often many cultural differences within a single race or nationality. The characteristics of cultures vary within cultures and are changeable.

The following principles, as presented by Taylor (1987, p. 3-4), can offer educators a framework for becoming more insightful observers in multicultural settings.

(1) Differences between cultures are often perceived as threatening.
(2) Feelings of apprehension, loneliness, or lack of confidence are common when visiting and experiencing another culture.
(3) First-hand experience is the best way to understand the many subtleties of any culture.
(4) What is logical and important in one culture may seem irrational and unimportant to another.
(5) In describing another culture, people tend to stress the differences and overlook the similarities.
(6) Stereotyping due to over-generalization may be inevitable among those who lack frequent contact with another culture.
(7) Personal observations of others about another culture should be regarded with skepticism.
(8) All cultures have internal variations.
(9) Cultural awareness varies within individuals.
(10) One's own sense of cultural identity often is not evident until one encounters another culture.
(11) Cultures are continually evolving.
(12) Understanding another culture is a continuous process.
(13) One should understand the language of a culture to best understand that culture.
If the earth's population (5.3 billion) were shrunk to a village of 1,000 inhabitants, with all the existing human ratios remaining the same, it would look like this:

There would be:

<table>
<thead>
<tr>

Where to Begin Understanding Norms of Cultural Groups

An obvious, but effective way to gain a broadened perspective on cultural norms is to identify and talk with leaders in communities representing different cultures. These leaders typically welcome genuine interest in their cultures. A visit to a particular ethnic neighborhood can also offer considerable insight to understanding a particular culture group. Knowing the right questions to ask, however, can be a key to gaining the type of knowledge that can assist best in working within multicultural environments. A great deal can be learned through studying literature, music, art, etc., from other cultures.

Another tool that can assist teachers in gaining a base line understanding of the culture of students who may have recently immigrated from various parts of the world is Culturgrams: The Nations Around Us. Produced by Brigham Young University, Culturgrams have been called "people maps." They are designed to summarize key elements of a particular nation and its culture without fostering stereotyping. Although Culturgrams will not make you an expert, they provide valuable introductory information in areas such as general attitudes of the people, language(s) spoken, customs, and general beliefs regarding health, education, and lifestyle within a country. Please refer to Appendix C for a sample Culturgram.

Cultural Universals

No matter how unlimited the diversity of cultural expression may appear, there are characteristics which can be grouped as cultural universals. These universals include sociological behaviors, beliefs and attitudes which relate to family units, marriage, parental roles, education, health care, forms of work or endeavors to meet basic physiological needs, and forms of expression that meet psychological and spiritual needs (Randall-David, 1989). "It must be emphasized that a holistic view is critical in understanding any cultural system. All parts of the culture must be seen within the larger context. To isolate one component or subsystem is to ignore the cultural complexity of the group" (Randall-David, 1989). Table III presents a set of questions one can ask when trying to understand another culture. The questions presented are based upon the concept of cultural universals.
| **Family Structure** | Who is considered to belong in the family?  
|                     | What are the rights, roles, and responsibilities of the members? |
| **Life Cycle**      | What are the important stages, periods, and transitions in life?  
|                     | What behaviors are inappropriate or unacceptable for children at various ages? |
| **Roles**           | What roles are available to whom?  
|                     | How are roles acquired? |
| **Interpersonal Relationships** | How do people greet each other?  
|                       | Who may disagree with whom?  
|                       | How are insults expressed? |
| **Communication**   | What languages and dialects are spoken?  
|                     | What are the characteristics of speaking "well"?  
|                     | What roles, attitudes, and personality traits are associated with particular aspects of verbal and non-verbal behavior? |
| **Decorum and Discipline** | How do people behave at home and in public?  
|                       | What means of discipline are used? |
| **Religion**        | What religious roles and authority are recognized?  
|                     | What information about religions might be sensitive, or not discussed openly? |
| **Health and Hygiene** | How are illness and death explained?  
|                       | How are specific illnesses treated? |
| **Food**            | What is eaten, in what order, and how often?  
|                     | What are the rules for table manners, offering foods, handling foods, and discarding foods? |
| **Holidays and Celebrations** | What holidays are observed? For what purposes?  
|                       | What cultural values are instilled in children during holidays? |
| **Dress and Personal Appearance** | What significance does dress have for social identity?  
|                       | What is the concept and value of beauty and attractiveness? |
| **Values**          | What traits and attributes in self or in others are important or undesirable?  
|                     | What things and attributes in the world are important? |

**Source:** M. Saville-Troike, (1978), *A guide to culture in the classroom*, in O.L. Taylor (1978), *Cross-cultural communication; An essential dimension of effective education*. Washington, D.C.: Mid-Atlantic Center for Race Equity (pp. 4-7). (Adapted with permission).
What is meant by "acculturation?"

It is very important to recognize that the extent to which an individual identifies with a particular ethnic group may vary greatly. Many individuals identify with more than one ethnic group while others may not identify with any. For instance, an individual's physical appearance may suggest he or she is of a particular ethnic group, yet he or she does not identify with any cultural aspect of the ethnic group. This may be due to acculturation. "Acculturation" is a term used to describe the degree to which people from a particular cultural group display behavior which is like the more pervasive dominant group norms of behavior. An example may be a third generation Japanese-American who may be of Japanese decent but does not speak Japanese or share sensitivity to cultural universals associated with the Japanese culture.

Factors that lead to various degrees of acculturation in the U.S. include

1) level of formal education,
2) birth into a family that has lived in the U.S. for several or many years,
3) contact with people outside the ethnic and/or family social network,
4) age of immigration to the U.S.,
5) urban, suburban, or rural origin,
6) amount of travel back and forth to the mother country, and
7) socioeconomic status.

Other factors influencing individual differences are age, sex, occupation, social class, religious affiliation, and family size (Randall-David, 1989). Teachers should be sensitive not to assume an individual's degree of acculturation. Instead, they should make every effort to address each person as unique.
"Feelings of self-worth can flourish only in an atmosphere where individual differences are appreciated, mistakes are tolerated, communication is open, and rules are flexible—the kind of atmosphere that is found in a nurturing family."

Instead of having all these separations of groups, we should mix. . . . [Teachers] should have some group assignments that have to be done together. This helps you get to know other students and also get to know their ideas.

—Student

Student Self-Concept and Teacher Expectations

Ethnic cultures and communities persist for a number of reasons. Among the most dominant is the need for a self-identity -- roots, so to speak, which affect the development of people within their world (Banks, 1991).

A number of theorists believe that the development and maintenance of the perceived self is the driving force behind behavior (Combs & Snygg, 1959; Patterson, 1974; Rogers, 1967; Super, 1963). They see the self-concept as being affected by parents, siblings, peers, school, and successes and failures.

The Self-Fulfilling Prophecy Phenomenon

The "self-fulfilling prophecy" phenomenon is based on the judgements teachers make about the academic potential of individual students in their classes. According to the literature reviewed by Villegas (1990), once a teacher forms a judgement of the potential of a student, expectations related to achievement are communicated overtly, subtly and implicitly. The best example of overt communication is the process of tracking students based upon the perceptions teachers have of individual students. The student, in turn, translates these teacher-based expectations into either positive or negative outcomes related to achievement, aspiration, and self-concept.
1. Check district and school policies, procedures, practices, curriculum guides, lesson plans, instructional materials, etc., to be sure they are free of bias toward race, sex, religion, culture and disabilities.
2. Make newcomers feel welcome through a formal program.
3. Be sure that assignments are not offensive or frustrating to students of cultural minorities. For example, asking students to discuss or write about their Christmas experiences is inappropriate for non-Christian students. Let students discuss their holidays.
4. Form a school-wide planning committee to address implementing multicultural education.
5. Contact your district curriculum coordinators for ideas and assistance.
6. Let faculty knowledgeable about multicultural topics train others or teach their classes.
7. Have students take a cultural census of a class or the school to find out what cultures are represented.
8. Form a multicultural club.
9. Select a theme to tie various multicultural activities together; hold school programs with art, music, and dramatic presentations; hold a multicultural fair or festival featuring music, art, dance, dress, etc.; adopt a multicultural theme for existing activities.
10. Hold a school cross-cultural food festival.
11. Have multicultural celebrations and teach-ins with school-wide activities and all classes.
12. Decorate classrooms, hallways, and the library/media center with murals, bulletin boards, posters, artifacts, and other regalia representative of the students in the class, school, or other cultures being studied. Posters and other information are available from foreign government travel bureaus and education agencies, private travel agencies, consulates, the United Nations, ethnic and culture organizations, etc.
13. Designate a permanent bulletin board for multicultural news and displays.
14. Help students develop skills needed to locate and organize information about cultures from the library media center, the mass media, people, and personal observations.
15. Have students write to foreign consulates, tourist bureaus, minority organizations, etc., for information and decorative materials.
16. Supplement textbooks with authentic material from different cultures taken from newspapers, magazines, and other media of the culture.
17. Use community resources: representatives of various cultures talking to classes; actors portraying characters or events; musicians and dance groups.
18. Work with the library/media center for special bibliographies, collections, displays, and audiovisuals.
19. Hold a mock legislature to debate current or historical issues affecting minorities and cultural groups.
20. Hold oratorical, debate, essay, poster, art, brain brawl, or other competitions with a multicultural focus.
21. Feature stories in the school newspaper on multicultural topics; publish a multicultural newspaper or newsletter.
22. During daily announcements, make reminders about multicultural activities.
23. Use your Newspapers-in-Education program.
24. Develop a radio or television program on multicultural themes for the educational or local community access channel.
25. Study works in science, art, music, and literature of various cultures, focusing on the contributions of minority individuals.

continued
26. Have students write short stories or essays on multicultural topics.

27. Have student debates, speeches, skits, etc., on multicultural topics presented to classes, PTO's, nursing homes, and other community groups.

28. Study the provisions and freedoms of the U.S. Constitution as they relate to minorities.

29. Compare and contrast other cultures with that of mainstream America.

30. Discuss the issues and personalities involved in various cultures from a historical, political, and literary standpoint.

31. Use skills and information from various disciplines (math, social studies, geography, language arts, etc.) to compare population, economy, politics, lifestyle, culture, and other data about different culture groups in the U.S. during different historical periods and today. Discuss the meaning of the differences.

32. Discuss the relevance of the Constitution and government in dealing with today's problems related to minorities and cultural diversity.

33. Hold mock campaigns and elections based on multicultural issues.

34. Hold a video film festival dealing with various cultures and multicultural issues.

35. Have children of other cultures or their parents share native songs with classmates; have students share instruments or recordings of their native cultures.

36. Take field trips to local multicultural sites, such as a neighborhood, ethnic recreation/social center, workplace, historical site, museum, restaurant, or grocery.

37. Focus on geography skills and knowledge in geography as part of related courses.

38. Establish pen-pal or video exchange programs with students from other cultures.

39. Discuss the importance of international trade and the skills needed to be employed in that area.

40. Discuss what it means to be a member of a minority or different cultural group.

41. Discuss what it means to be a responsible American citizen.

42. Sponsor a tutoring program, in which older students with a firm command of the English language could tutor younger students who may be having trouble learning English. If the tutoring takes place in the home of the limited-English student, the experience will also be culturally revealing for the tutor.

43. Conduct "interactive" field trips, which involve students whose English skills are weak with language-intensive exchanges out in the community. Activities such as making purchases, reading transportation schedules, and placing orders will encourage students to use English in ways that are directly relevant to them.

44. Photograph each child in the class and have each child create her or his own album with personal information (date and place of birth, etc.), art, and school work. Post albums on the wall.

45. Have students bring in a unique object (e.g., a favorite toy), and encourage limited-English students to talk about the objects. Use the object as introductions to other cultures.

46. Have young students make lists and word associations, and after several associations have them compare the first word they wrote with the last one. Have them discuss how the mind often leaps from one idea to another in a fascinating way.

47. Read aloud to your students of all ages. It helps limited-English students understand vocabulary in context, language flow, intonation, drama, sentence structure, etc.

48. Have an individual class motto, such as, "The more you read, the better you read!"

49. Play word basketball. Draw the first three letters of some words on the board. Have students try to think of as many words as possible which start with those three letters. Give more points for longer words.

50. In science classes, emphasize discovery through creative thinking, accurate observation, questioning, and logic—processes which engage students in active learning. Encourage students to use the information available to them to make educated guesses.
55 Quick Ideas continued...

51. For young children, place a sealed box containing an unknown object (you may use something unusual). What is in the box?

52. Play "A-Z Listening." This game requires a general category such as things in a grocery store. Have first student name an item of the category which begins with "A." The second student names the "A" item and something which begins with "B." Go through the entire alphabet—you may skip over letters such as "Q," "X," and "Z" if you cannot think of anything beginning with those letters.

53. Have young students make sun visors with their names for easy recognition at the beginning of the year. Use yarn, posterboard, a visor pattern, hole puncher, scissors and markers.

54. Have students (of all ages) make self-portraits. This is a good get-acquainted activity, in which students reveal something about themselves and learn each others' names.

55. Have puppet interviews on any of a wide range of subjects. It has been shown that young students will often open themselves up and talk to puppets much more readily than adults. Possible areas for puppet interviews include animal puppets which tell about wildlife and interactions with "human" puppets on social, moral, safety, and other issues.

The goal of education should be the same for all students. That is, students should be helped to meet high standards of achievement, regardless of their cultural background. The crucial question addressed in the (research) literature, is how to accomplish this (Villegas, 1990, p. 19).

Many studies have revealed that the lack of fluency in the dominant language in a society is a principle reason for a child’s difficulties in the school environment and in academic achievement:

Children whose language use at home and in their immediate community corresponds more closely to what is expected in the classroom have an advantage in the learning process. For these students, prior experience transfers to the classroom and facilitates their academic performance (Villegas, 1990).

For the linguistic minority child, the general classroom environment can be as foreign as the language spoken in it.

Cross-Cultural Communication Gaps

Cross-cultural communication gaps between teachers and students can give rise to a variety of problems within the classroom setting. In the following table, Taylor (1987) identifies some problems which can occur in the classroom that are commonly linked to cultural and communicative diversity.
<table>
<thead>
<tr>
<th>Student Characteristics</th>
<th>Examples of Inappropriate Teacher Responses</th>
<th>Examples of Possible Impact on Student</th>
</tr>
</thead>
<tbody>
<tr>
<td>Diverse Cultural Assumptions</td>
<td>*Negative attitudes towards dialect variation</td>
<td>*Lowered self-image</td>

</table>

Learning occurs within a cultural context. If academic success is to be applicable to all students, then the school environment must strive to interface with the external environment of each child. Research has indicated that the learning styles of children are in many ways linked to the culture in their home and community. Cultural sensitivity on the part of the teacher and school professionals can bridge the gap between home and school. In her review of educational programs designed to address the problem of cultural discontinuities between home and school, Villegas (1990) points out that “cultural sensitivity is shown by the use of subtle communication patterns familiar to the students, as well as themes of interest to them.” Thus, cultural continuity between the student’s home, community and school environment is an important link which teachers and school professionals should explore thoroughly.

Involving Parents and the Community in the Classroom and School

Research shows a strong relation between the educational success of students and parent involvement in their child’s education. Berry-Caban (1983, p. 360) points out that active parental participation in a child’s education has, at a minimum, the following three desirable effects: (1) it improves the self-image of the child and increases his or her interest in learning; (2) it improves the self-image and feelings of importance of the parents; and (3) it often brings positive qualitative changes to scholastic programs.

It is critical to find ways to involve parents in their child’s education. Teachers may often need to be creative in their approach as to making parents feel welcome. Due to beliefs unique to particular cultures as well as lifestyle and work-related responsibilities, parents may appear apathetic toward becoming involved. The teacher, with support of the school as a whole, should examine the reasons why some parents may not be participating.
The arts help us to see the world more clearly; they help us to live fuller and richer lives as individuals, as members of society, and as members of particular cultural traditions. The arts furnish means of expression beyond everyday speaking and writing. Studying the arts contributes to the development of analytical, problem solving, and social skills. Students learn to work together toward a common goal through participation in music, theatre, and dance groups. The arts are also one of the best forums for achieving genuine exchange between members of different cultures, races, and ethnic groups.

THE ARTS: A Dynamic Cultural Link

One method of exploring the history, norms, and values of cultural groups is through various forms of art. The arts, whether visual, aural, formal, or folk, offer important insight into the past and present of an ethnic group. The arts have a unique way of transcending national and cultural boundaries as they reflect the past, present, and future of humankind. They reach us through our senses, our emotions and our intellect.

Music, according to Dr. Robert Smith, Director of the Center for the Music of the Americas at Florida State University, is unique in its means of expression:

It has its own language and its own message. Musical understanding is not verbally based, which is partly why music experiences are unique. They can be emotional or intellectual; they can help us arrive at new thoughts, notions, understandings that we would never have reached otherwise. Music belongs to the world of ideas—a world of non-verbal ideas that foster cooperation, tolerance and understanding. (1989, p. 2)

DYNAMITE IDEA

Enriching the Lives of African-American Youth Through the Arts

Tots 'N' Teens Theater, Inc., is an African-American multidisciplinary cultural arts center which focuses on the development of the total child through active participation in the performing arts and related educational programs. Begun in 1985, Tots 'N' Teens Theater, Inc., serves youth ages three to nineteen years of age. Particular emphasis is placed on serving at-risk children from inner-city neighborhoods.

The organization is unique in that, through the arts, it is effectively improving the lives of children, their families, and communities.

Students participating in the program experience instruction in theater, dance, music, and culture. There is an emphasis, not only on the performing arts, but on the development of creative thinking, self-esteem, and appreciation of African-American
Discipline is strict. Students are required to be on time, their school work is monitored and tutoring is offered to those who need it.

In addition to staff instruction, students receive special workshops and master classes from leading national and international African-American artists. The group has formed the TNT performing company, composed of about twenty students from the program. The company tours nationally and internationally, giving performances which feature African-American poetry, music, and dance. The performances have had a positive impact on the lives of inner-city youth.

Successful strategies, programs, practices and resources which have been identified by educational practitioners are tools of the profession that teachers are genuinely willing to share. The following sections of this publication provide exemplary programs, activities, practices, and resources that educators in the Southeast and nationwide have found successful. Other recognized and relevant strategies, programs, and resources for classroom teachers have also been included.
SECTION TWO

"DYNAMITE IDEAS" FOR ADDRESSING MULTICULTURAL EDUCATION AND POPULATION

This section offers profiles of programs that have had significant impact upon the education of children within multicultural environments.

- Project African-American Success
- Understanding Cultural Diversity through Archeology and Artifacts
- What an (or every) Elementary School Can Do to Integrate a Multicultural Perspective into the Curriculum
- African-American Perspectives
- A Voyage of the Children of Athens, Ga., and Cortona, Italy
- The Hispanic Music Project
- Global Awareness
- Project Flex
- Cultural Considerations and Celebrations
- Three Exemplary Programs for Migrant Students
Dynamite Idea:

Project African-American Success

The Developmental Research School District at Florida Agricultural and Mechanical University is a K-12 laboratory school which has demonstrated great success with a student population that is over 99% African-American. The school operates under the philosophy that the whole child, the child's family, and the community must be integral, connected parts of the child's learning experience. The school provides a structured environment in which children have freedom to explore within clearly defined boundaries. Emphasis is placed on building self-confidence and self-esteem.

African-American culture and multicultural perspectives are infused throughout the curriculum. The curriculum teaches a global perspective and the value of all peoples in the world. Students learn of the contributions of African-Americans to American and world history and develop an understanding of other racial, ethnic, and cultural groups.

Uniforms are worn by students and staff, which has had a very positive impact on learning and behavior. Each student participates in at least two extracurricular activities, and the school is visited regularly by positive role models who encourage students to succeed. Elementary students do not repeat grades, and the school has no dropouts. For the last several years, between eighty and ninety percent of graduates have gone on to postsecondary education.

For more information, contact:

Dr. Ada Puryear Burnette, Director
Developmental Research School District
College of Education
Florida Agricultural and Mechanical University

The second- and third-grade gifted curriculum at Barrow Elementary in Athens, Georgia, includes an Archeology and Anthropology unit that integrates a multicultural perspective and appreciation into the classroom environment.

During the course of study, students gain an understanding of people who lived long ago, develop an appreciation for other cultures, perceive themselves as members of an ever-changing, evolving culture, and predict how future archeologists might interpret our culture.

A sample activity is the development of artifact boxes, which include articles of food, clothing, musical instruments, games, and art from a culture. The boxes are exchanged with classes from other schools which use the items in the box to determine the location and time period of the mystery culture and to reconstruct it. Barrow Elementary School is fortunate to have students from many cultures who bring with them first-hand experiences and items to share with teachers and other students.

**Note:** See additional activities on following page.

**Dynamite Idea:**

The following activities and ideas for integrating a multicultural perspective and appreciation into the school environment are contributed by Barrow Elementary School located in Athens, Georgia.

**WORLD MAP LISTED IN FRONT HALLWAY**

A large world map has been hung in the front hallway of the school. Names of students who were born in another country are listed under the name of their country. A piece of yarn connects the labels to the country on the map. This provides a visual representation of the diversity of the population at Barrow and attracts the attention of parents, students, and visitors while instilling pride in our students.

**FLAGS REPRESENTING EACH COUNTRY**

In 1990, when the University of Georgia was involved in bidding for the 1996 Olympic tennis site, Barrow Elementary made flags to represent every country. The students lined the walkway, waving their flags to welcome the Olympic committee. The flags were used again last fall during a choral performance at the university at which students dressed in native costumes and sang songs focusing on being different, yet working together for peace and harmony in our world. Since then, classes have written letters to all the embassies, requesting that they send an authentic flag from their country. Barrow is now in the process of exploring possible ways to permanently display the flags in the school.

**INTERNATIONAL DAY**

Barrow Elementary is planning an international festival at which parents of its foreign students can share the customs and traditions from their native lands. As part of this festival, parents will be invited to participate in a potluck dinner, where foods from various countries will be shared.

**ESL CLASS ACTIVITIES**

- Parent Workshop at Family Housing to encourage parents to be involved with school—either in their child’s classroom or school-wide
- Unit of study on each of the countries represented in each class to lead up to International Day
- Folktales, including native American folktales, read by ESL and other students
- Fables and folktales from around the world performed
- Unit of study on how people celebrate different holidays in their countries and which holidays they celebrate

In order to better infuse African-American content into the school curriculum, Richland School District Two in South Carolina has produced and implemented a series of six seminars designed to expose a very diverse audience of educators to the rich history and contributions of African-American culture. Through an agreement with the South Carolina State Department of Education, educators attending the series of six seminars are eligible for recertification credit.

A goal of the program is to provide educators with information and resources which they can use to help infuse African-American perspectives into the general curriculum. Participants develop a project related to the infusion of African-American studies into their curriculum, and projects are shared with other teachers through the district’s Teacher Center. Presently, 120 K-12 teachers and administrators are participating in the series, and seminars cover subjects such as African-American history, African-American art, the school desegregation movement, African-American literature, and African-American contributions to education.

A Voyage of the Children of Athens, Georgia, and Cortona, Italy

An Art Exhibition

In celebration of the 500th Anniversary of Christopher Columbus' discovery of America, the Clarke County School District, in cooperation with the University of Georgia Studies Abroad Program, is developing an exhibition of students' artworks representing kindergarten through the twelfth grades. This will be an exchange exhibition between America and Italy. Students will be invited to use the themes of discovery and the life of Christopher Columbus as inspiration for their art. The art teachers of the Clarke County School District have invited the art teachers of St. Joseph's Catholic School and Athens Academy to join in this project.

Athens is an international sister city with Cortona, Province of Arezzo, Tuscany, Italy, and the goal of the exhibition is to draw the communities closer together. The Athenian and Cortonese children will reach out across the Atlantic and Mediterranean with artwork and with visual messages of friendship.

The exhibitions will be selected for quality and screened for a variety of media and grade levels. The art that travels to Italy will be two-dimensional in nature and will be 18" x 24" or 12" x 18" in size. The child art exhibition at the Georgia Museum may include sculpture, weaving, banners, and other art media. The 100 selected artworks will represent a variety of media including drawings, paintings, prints, collages, and photographs. Attached to each accepted artwork will be a photograph of the child artist and a statement by the artist in both English and Italian. The dates for the American exhibition are August 1-September 6, 1992, at the Georgia Museum of Art. The Athens exhibition will travel in the region of Tuscany, Italy, and the Italian exhibition will travel around the state of Georgia using the network of art educators affiliated with the National Art Education Association during the months of March, April, and May, 1992.

The Hispanic Music Project

Under the direction of Dr. Robert Smith, the Center for music of the Americas at the Florida State University has developed a music program to meet the needs of Florida's multicultural school-aged populations.

The Hispanic Music Project was designed and developed to promote the awareness, appreciation, and performance of Hispanic music by students in school music programs. The project focuses on generating authentic performances of Hispanic music in public schools by providing low cost performance materials (music scores and parts) and by providing highly competent artists/teachers for on-site workshops and performances.

The incorporation of Hispanic musical cultures into school music programs not only increases the participation of Hispanics in those programs but also ensure that school music programs will more accurately reflect the cultural values of the region's increasingly diverse population.

The music programs focus on the music genre "Salsa." "Salsa" is an established musical genre of the Caribbean basin and the United States. Specifically, it is representative of any urban, commercial folk music that has been developed from Afro-Caribbean, North American, and Spanish musical traditions.

Dynamite Idea: Global Awareness

Recognizing the need for students to develop an understanding of our multicultural world, the faculty, administrators and the “global committee” at Highland Oaks Middle School in Dade County developed a comprehensive program focusing on global awareness. The PTA worked with the school social studies and art departments to procure and install a large world map highlighting the countries of origin of the entire student body. This map is permanently displayed in the media center.

Sections of the school were named for continents or geographical regions of the world (Africa, Asia, the Middle East, Europe and the Caribbean) and hallways depict features of each region. Within each section students studied a country and decorated their classroom doors and bulletin boards.

Global concepts were infused in all subject areas. Specific curriculum activities included:

- **Language Arts** - featured students writing to international pen pals and studying the literature of selected countries
- **Science** - focused on the environment by studying United States national parks
- **Mathematics** - concentrated on international currency rates of exchange and other fiscal topics
- **Social Studies** - used projects to address issues such as homelessness, apartheid, and urban life
- **Physical Education** - conducted “international” intraschool soccer and volleyball tournaments
- **Home Economics** - sampled international cuisines
- **Art** - produced collages, maps, and life-sized models
- **Graphic Arts** - prepared and distributed a book entitled *Recipes from Our Home to Your Home*

The Media Center, called “The World,” was the hub of all activities. The media specialists supplied research material, hosted numerous activities, and displayed 42 flags that represented the countries from which the school’s population is drawn.

The culminating activity was a global fiesta featuring student projects, electronically devised maps, videotaped futuristic scenarios, costume/fashion parades, dance and music presentations, culinary demonstrations, and crafts displays.

Project FLEX (Foreign Language Experience)

Project FLEX is a multicultural awareness and prejudice reduction program designed for students in grades K-5. Its purpose is to provide students with a knowledge of world geography and link that knowledge with an awareness of different languages and accompanying cultures—one each year during the students' elementary years. In kindergarten, students and teachers focus on Latin America and study Spanish. In first grade the focus is on Europe and French is studied. In second grade students and teachers focus on Africa and study Hausa, one of the major languages of West Africa. In the third grade the focus is on the Middle East with an emphasis on Hebrew. In fourth grade the cultures of Asia are studied with an emphasis on Haitian Creole. Students are exposed to all of the languages taught through the multilingual morning announcements. Finally, Project FLEX encourages students to learn about U.S. and world geography and to keep abreast of national and international events through the use of intra-grade level competition based on daily questions from the front page of local newspapers.

Ten instructional units for each grade level have been completed. With the assistance of Instructional Television of Palm Beach County Schools, a series of video folktales is being created, which will link the cultural information contained in each folktale with the linguistic and geographic content of the corresponding unit.

Goals of the Project:

1. Students will become aware of the legitimacy of other languages and cultures.
2. Students will make appropriate links between current events and the worldwide locations at which they take place.

Project FLEX has received the 1989 Global Education Award from the Florida Council for the Social Studies, a commendation from the Southern Association of Colleges and Schools Visitation Team in May 1990, the 1991 acclaimed Florida Elementary School Principal's Little Red Schoolhouse Award, and recognition in 1991 by the School Board of Palm Beach County as a model program for developing multicultural awareness and language appreciation.

Cultural Considerations and Celebrations

Howard II Elementary, located on the Gulf of Mexico in Biloxi, Mississippi, is 47 percent Vietnamese. For many years the Vietnamese children attending the Biloxi Public schools were served foods proven to be popular among American children. To take into consideration the number of Vietnamese students in Biloxi, egg rolls, fried rice, and stir-fried vegetables now appear on menus. This promotes more sharing and learning from the two cultures involved. Because of the large Vietnamese population, more effort is also put forth by teachers to involve students in activities dealing with American holidays. In turn, Vietnamese tutors inform teachers of Vietnamese holidays so they can teach about their customs and culture.

At Howard II the Vietnamese New Year is celebrated. Just as a Christmas program is planned each year, the school plans a Vietnamese New Year program. The program consists of a brief description of their New Year customs and beliefs, and traditional dances are performed by Vietnamese girls dressed in AO' DAI. To conclude the program the dragon and it's drummers perform. The dragon searches for the red envelope that is taped high upon a school wall. When the dragon locates the red envelope the school will have good luck and happiness.

Red envelopes containing money are given to Vietnamese children from their elders in celebration of their New Year. The money must look new. The children can then take the money and play traditional Vietnamese games. Children give their elders tea and cookies wrapped in red cellophane paper. The red color of the cellophane and envelopes wishes the recipient good luck and happiness. Howard II participates in wishing students, staff and faculty good luck and happiness by giving everyone at the school a red envelope containing a shiny nickel.

Dynamite Idea:
Summer Institutes for Migrant Students

Initiated as a pilot program in Pasco County, Florida in 1985, the Summer Institute was designed to assist migrant students who were in danger of dropping out of school by providing personal, academic, and vocational counseling and training in study skills, leadership, goal setting, and many other areas relevant to migrant students. Recreational and enrichment activities were also included in the program. Starting at a single site at Pasco Elementary School in Dade County, as a day program for 40 secondary level students, the institutes have expanded to many sites serving middle and secondary students.

The Institutes are conducted by the Florida Department of Education (DOE) with the cooperation of designated local school districts, colleges, and universities. Several counties, along with the University of Florida, served as fiscal agents for the 1991 Institutes. The University of South Florida, Bethune-Cookman College, the University of Florida, and the College of Boca Raton housed the various Institutes.

Funding for the Institutes is provided by the Florida DOE’s Migrant Child Education Program, the Adult Migrant and Seasonal Farmworker Program, the Food and Nutrition Program, and state general revenues. The Institutes receive additional services from regional Migrant Health Centers and other public and private agencies.

The Institutes provide at-risk migrant youth with the opportunity to earn academic credits toward promotion and/or graduation; remediation in needed academic areas; life management, leadership, and study skills; viable career options; and positive self-concepts.

Approximately 360 students were served in 1991 representing 27 counties with significant concentrations of migrant children. Those students were selected from a pool of over 800 applicants based on need. Migrant students who are below modal grade and who have high absenteeism, numerous school interruptions, low or failing grades, low reading and mathematics skills, and low self-esteem are given priority.

Careful attention is given to student/teacher and student/counselor ratios. Target Institute ratios are 1-10 for teachers, 1-25 for guidance counselors, and 1-10 for residential counselors.

Every student leaves the Institute with an Individual Plan of Action (IPA). This plan contains personalized recommendations for coursework leading to promotion and high school completion. Strategies designed to facilitate the process are written jointly by the student and the guidance counselor. Additional information outlining academic strengths and weaknesses is included for use by advocates and guidance counselors at the school in which the student will be enrolling.

Great emphasis is placed on improvement of self-esteem. Motivational speakers, many of them former migrants, come to the Institutes to share their successes. They emphasize to the students that there are options available to them. Education, commitment, and perseverance are the common themes given as those traits most needed for success. **continued**
"It's the most effective dropout prevention program there is," said Norma Ymolek, Migrant Advocate from Hillsborough County. In 1990, 50 percent of Hillsborough County's 30 migrant graduates had attended the Institute at some point. In 1991, the number of migrant graduates increased to 61, of which 35 percent were alumni of the Institute. "This is an example of what the program is doing," said Ymolek. "It shows what happens if a student is lucky enough to be touched by the Institute."

ADDITIONAL PROGRAMS FOR MIGRANT STUDENTS

The two programs described below involve some fees for certain materials. Their description in this publication does not imply an endorsement by SERVE.

Early Prevention of School Failure Migrant Program (For Spanish- and English-Speaking Children). A program designed to prevent early school failure in migrant children.

Description: The Early Prevention of School Failure Migrant Program is designed to reduce the "at-risk" factor by assessing needs and strengths and developing an appropriate program for each child. The project provides follow-up activities in kinesthetic, visual, auditory, expressive language, and receptive language. Appropriate program resources and effective teaching materials for large and small group instruction are available. The program has also developed three parent components: (1) growth and development; (2) building school success; and (3) parent involvement in the school and with the child's educational process.

This program has provided ongoing, positive program research and evaluation results since 1974. Teacher training workshops, program materials, and curriculum provide children with choices and teachers with a framework for integrating the school curriculum with effective program-developed units, themes, center activities, language experience, and whole language instructional approaches to beginning reading and writing in both small group and total class arrangements. It is approved as a screening and curriculum planning program for migrant children ages 4-6 in regular or short-term programs.

Migrant Student Record Transfer System (MSRTS)/A Computer Link Offering Variable Educational Records (CLOVER). An education and health system for migrant children, preschool-12.

Description: The Migrant Student Record Transfer System (MSRTS)/A Computer Link Offering Variable Education Record (CLOVER) is a computerized system with 162 terminals located in 44 states. The system serves 49 states, Puerto Rico, and the District of Columbia. Teachers, nurses, aides, administrators, and others have at their disposal educational and critical health data delivered to their state within 24 hours of a child's enrollment. In four days or less, an in-depth record of educational and health data will be received at the state's designated location. This information may direct the adopter in formulating strategies to assist the migrant child in achieving academically. Curricula being taught to migrant children varies according to the established needs of migrant children at various levels. The system's computer is programmed to provide skills-based information in the areas of reading, math, early childhood, and oral language. The health system provides the most updated reporting of health problems to insure continuity of health services by using the International Classification of Diseases (ICD.9.CM) and the physician's Current Procedural Terminology (CPT), 4th edition.

Costs: Training packets, training, and follow-up are available at no cost. Other agencies outside the U.S. Department of Education that serve migrants may use computer time at a negotiated cost.

Services: Awareness materials are available. Visitors are welcome at project sites by appointment, Monday through Friday 8:00 a.m. through 4:30 p.m. Training is conducted at the project site (adopter paying own costs). If training is conducted outside Arkansas, costs are negotiated. Quarterly workshops are held in February, May, August, and November.

SECTION THREE

STRATEGIES AND ACTIVITIES
FOR ADDRESSING CULTURAL DIVERSITY

Structured Experiences for Addressing Cross-Cultural Learning

- Role-Plays
- Situational Exercises
- Using Bafa Bafa
- Cultural Assimilators

General Cross-Cultural Activities and Exercises

- Who Are We?
- Migration Panel Guide
- Speaking Without Speaking
- The Multicultural Person
- Stereotypes
- Group Experience Self-Discovery Test
- Comparing People to Objects
- Marital Role Scale

Thematic Activities and Games

One - To improve self-awareness and self-concept in students from all ethnic groups by using their own heritage as a rich and valuable resource.

Two - To develop an understanding of and appreciation for linguistic and cultural pluralism.

Three - To recognize the commonalities shared by all people.

Content Focus Activities and Games:

- Spin-Off on Folk Tales About Africa
- Zambian Games
- Threads for the Web of Independence: The Need for Standardized Measurement
- Cross-Cultural Activities and Games For Elementary Students
"No custom is strange to those who practice it."

STRATEGIES AND ACTIVITIES FOR ADDRESSING CULTURAL DIVERSITY

INTRODUCTION

The strategies and activities which follow offer a starting point for building a culturally rich teaching approach. Many of the contributions to this section have been provided by teachers and professionals in the Southeast who work within multicultural school and community settings.

The resources included in this section, many of them complete and ready-to-use lessons, were selected for their adaptability and applicability to a variety of multicultural settings and age levels. In addition to complementing classroom teaching units, the activities may be used for staff development, community/volunteer training, and other instruction.
STRUCTURED EXPERIENCES FOR ADDRESSING CROSS-CULTURAL LEARNING

ROLE-PLAYS

As a basis for role playing, it is essential that participants have some solid background about the culture and the people before they will be able to feel at home in a role. Although they could act out a scene during the early stages of the learning program, much of the acting would be based on guesswork. It is preferable, then, to use role playing as a kind of capstone to the program, where students can demonstrate their ability to use what they know and apply cultural skills. The leader could use a group approach to develop role-playing scenarios that would realistically represent the school and community populations. Some participants could include students, teachers, guidance counselors, community members, and parents.

Procedure:

1. The leader should review program materials and experiences and, if possible, have members of the culture being studied identify any major cultural differences which might constitute an effective role play. He might ask for specific examples the respondents have observed in which members of another culture have come in contact with their own—at the store, school, or church or on social visits. Still better, the leader can identify an encounter which the training group members themselves might expect to face when they visit the unfamiliar community.

2. The trainer-leader then prepares some objectives, based on material previously learned and on goals which only the role play can offer, for example:

   a. Demonstrate an understanding of the importance of conformity and tradition.
   b. Demonstrate an understanding of the value of status and respect for authority.
   c. Show an awareness of different attitudes toward change and other foreign values.
   d. Show skill in dealing with an official from another culture.
e. Show awareness of certain family pressures faced by the other person.
f. Demonstrate the ability to control one's tendency to push one's own point of view; find a thoughtful compromise, and control one's frustration during the process.

3. From this information the leader composes a single incident on which to build the role play. It should be a short encounter which can be "played out" in 15 or 20 minutes.

4. The leader writes a one-paragraph general statement describing the scene (a "scenario") for the actors and the observers.

5. He prepares short written "instructions" for the two or three participants who are to join the role play. The instructions should be a paragraph or two in length and sufficiently sketchy to allow freedom in interpretation. Each character's point of view toward the encounter should be described in positive terms, so that each appears to be 'logical in its cultural context. Roles should be directed as follows:

   a. toward conflicting ends, or
   b. by means which are not compatible.

Issues and disagreements will arise from the various perceptions of reality viewed through the experience of each character.

6. Try to involve all the participants, including observers, in the activity at the beginning of the session.

   a. Begin the session by saying to everyone that two of them will be chosen to play roles based on the scenario about to be handed out. "Two of you will be sitting in those two chairs."
   b. Give them a few minutes to read the scenario and discuss how they would approach each role if they were chosen to act in it.
   c. Select two members for the roles; do not necessarily choose those who will "perform best" in the roles, but two who can benefit themselves and the observers by participating.
   d. Ask the remaining members to prepare to make observations on a number of points: the sources of conflict between the characters, differences in behavior (spoken and unspoken), and feelings shown during the action.

After the scene has been played, allow 20 to 30 minutes for discussion. Sample questions:

1. What was each of the people trying to accomplish?
2. Where did the problems arise?
3. What differences did you notice in how each one behaved? What non-verbal differences did you see?

4. To what extent was the behavior of each person suitable to his/her task? How effective was he/she?

5. How do you think each one felt during the conversation? How could you tell?

6. How might you have approached (either) role?

Turning finally to the actors, ask each one to describe how he/she felt during the session and how he/she might have conducted himself/herself in order to feel more comfortable and/or effective. Be sure to tie the role play, by way of summary, to the other activities of the inter-cultural program. All participants can be asked to record what they learned from the session; optionally, they may volunteer to tell the group what they have written down.

Variations:

1. Use a member of the community being studied as one of the actors.
2. Select new actors from among the observers and run through the role play again.
3. Use videotape equipment to record the action. Play it back to the group to illustrate and study particularly important gestures or issues which arose.

SITUATIONAL EXERCISES

This activity is essentially a short, free-form skit, written partially in advance, using one or more "actors" who have had time to rehearse their parts. It is similar to role-playing, but it does not require the participants to behave in a certain way as role-play does.

Students are given only a general description of the setting and must rely on their knowledge of the selected culture and their wits as they think and act on their feet in an unfamiliar situation. The actors need to be people with some self-confidence who will help move the situation along. Foreign students willing to participate would be the best actors, but this may not always be possible.

**Group Size.** No particular group size.

**Time Required.** No particular time. Situational exercises can be done in 2-5 minutes or can run 20-30 minutes, depending upon the situation and the participants. One class period would be sufficient.

**Materials Utilized.** 1. Scenario. 2. Individual Roles. 3. Props (dress, artifacts, etc.).

**Physical Setting.** Any standard classroom. One with moveable chairs is most suitable.

**Process.** The initial steps in staging situational exercises are similar to those of constructing a role play. The class should decide upon a scenario, construct and write roles, and, when possible, consult with someone of that culture to verify the details. The situation should be constructed to highlight the differences between the culture being studied and the students' own backgrounds, and should pose, implicitly, some situation needing resolution (a "white" youth in a "black" home, courtship in another country, etiquette in a foreign home, attitudes toward women, work, etc.).

1. Distribute the scenario to the entire class, who will be observers. This is the only information they will receive.

2. Distribute the roles and a scenario to the actors, being careful not to expose one role to the other.

3. Set the stage both physically—with props, furniture, etc.—and educationally by preparing the observers and participants for what they are going to do. (There is a tendency, especially at first, to treat role plays and situational exercises lightly, so the teacher's role is very important in setting the right mood.)

4. When all are clear on their parts, start the exercise. Let it run as long as you feel it is productive, but generally, when things begin to lag, it should be stopped.
5. Follow with discussion, perhaps 20-30 minutes, organized around these suggested topics:
   a. What were each of the individuals trying to accomplish?
   b. What were the problems?
   c. What differences did you notice in each individual’s behavior?
      What non-verbal differences did you observe?
   d. How do you think each felt during the scene?

6. After observers have shared their ideas on these, allow the participants to give their own reactions to the same points.

Special Instructions. Care must be given in writing the situation so it is believable—and performable. You might have to try several situations before you get the right one. Be sure that the scenario is written as non-value-laden as possible. It should be a simple description of the facts and should not bias the reader one way or the other. Make sure the roles are clear and descriptive, but do not make them so rigid that the participants have no freedom of action.

Check the accuracy of the exercise before conducting it. This is a powerful teaching device and stereotypes and inaccuracies are often exaggerated with these types of methods.

As with role playing, when selecting a student for the situational exercises, do not necessarily choose the ones who will “perform” the best, but those who can benefit personally from the experience.

If videotape equipment is available, the entire exercise can be recorded and then played back immediately or at a later time.

Description

Participants are divided into two groups. Alpha culture and Beta culture. Each group is taught a fictitious set of cultural values, behaviors, and communication styles. The game is designed to simulate two, quite different, cultures, and then to involve participants in cultural exchange with all its attendant problems of culture shock, adaptation to a strange environment, return to the home culture, etc. The participants are urged to "get into the spirit" of the game, to exaggerate, and to have fun acting out the designated roles for the duration of the game. It is designed to cause people to stereotype and misperceive each other, to make wrong assumptions about the other culture, to develop a quickly internalized set of in-group behaviors and attitudes toward out-groups, and to demonstrate the ease with which people fall into the traps of stereotyping and prejudice.

Goals

(a) To increase awareness of our own cultural identity and that of the culturally different; to increase intercultural communication skills; to increase understanding of "culture" and its function in interpersonal relations; to understand the problems of adapting in a new environment; to become better interpreters of nonverbal communication; to promote greater appreciation and tolerance for different cultures and ethnic groups; and to stimulate thoughtful discussion about differences in values, attitudes, and communication styles across cultures.

(b) To have fun and get to know each other, to practice new roles and express ourselves in a non-threatening situation, to become aware of the effects of social interaction and dynamics of groups, extracting from the simulated experience examples of incidents which remind participants of real-life happenings.

Strengths

Its ability to draw people into the game emotionally, so that they learn the principles of intercultural communication through direct involvement rather than through the presentation of abstract concepts. The exercise sharpens communication skills so people become effective in future intercultural encounters.

Pitfalls

This is a powerful exercise and there is some chance that people will be left with unresolved feelings after the game. Teachers must be ready to deal with some strong reactions. Be sure to take time for working out these feelings and resolving conflicts.
Leadership

Two teacher/trainers are needed, one for each cultural group. They should be experienced and able to deal with the variety of reactions that can occur in this game. They must be enthusiastic, able to keep others going when interest flags, and have stamina.

Processing

At least an hour should be set aside for discussion and follow-up on themes. People should be encouraged to explore their feelings about the experience and give one another feedback about their reactions. The leader brings the main issues into the consciousness of the group and encourages sharing between participants.

Themes or Topics for Discussion

Male-female relationships (cross-culturally or in one culture)
Family life—norms, beliefs, communication
Work and play in cultures
Self-esteem and adaptation in new environments
Community programs—how awareness of the components in intercultural communication can enhance them
Relation of language and culture
Materialism, competition, alienation
Friendship, hospitality, intimacy
Task orientation vs. relationship orientation

Equipment

A set of materials and a teacher's manual. The set can be ordered from Simile II; 1150 Silverado; La Jolla, California 92037.

Group Size

Between twelve and forty participants.

Bafa Bafa is a simulation game by Gary Shirts. Published by Simile II; 1150 Silverado; La Jolla, California 92037.

CULTURAL ASSIMILATORS

Cultural Assimilators are, in essence, a programmed approach to learning about a culture. They have been developed by a group at the University of Illinois for training purposes. They can be obtained from this group, or experienced teachers can develop their own. This technique can be used individually by students without the correct help of the teacher. After completing several of the exercises, the class can discuss details of the cases in small groups and do further research if necessary.

Group Size. Use with any size group, but discussion afterwards should be in small groups.

Time Required. Varies. This depends on the individual student and on how much time is spent in discussion.

Materials Utilized. 1) Cultural Assimilators. 2) Paper and pencil.

Physical Setting. A normal classroom setting is adequate. Moveable furniture is desirable for discussion.

Process. 1) Hand out the cultural assimilator materials. Give students time to examine them and ask any questions they may have. 2) Have students should go through the assimilator step by step according to the instructions. 3) When students are finished, have them compare answers and discuss why they answered as they did.

Special Instructions. If you wish to develop your own materials, it is very important that their accuracy be checked thoroughly. Because of the type of materials, inaccuracies can be misleading and can be more damaging than instructive. You should use the Cultural Assimilators already published before trying your own. Cultural Assimilators for various countries can be obtained from the Group Effectiveness Research Laboratory, Department of Psychology, University of Illinois, Urbana, Illinois 61801.

Example #1: An Arab student asked his co-workers on his lab assistantship if they wanted to go to lunch with him at the Student Union. They agreed, and they all chatted as they went to the Union where they got in line at the cafeteria. When they reached the cashier's station, the Arab student, who was first in line, paid for all of them. When the group got to their table, his two co-workers insisted on giving the Arab student the money for their lunches. The Arab refused it, but the Americans insisted, and the one sitting beside him swept the money off the table and dumped it into the foreign student's jacket pocket. Later, the Americans commented that the Arab student had been unusually quiet and reserved while he ate his lunch.

If the Americans had analyzed this incident correctly, they probably would settle on which one of the following explanations for the Arab's behavior during lunch?

---
1. The Arab student must have had an upset stomach.
2. It is the Arab custom not to talk during meals.
3. The Arab student had wanted to pay for their lunches and he was hurt that they wouldn't let him.
4. The Arab student felt the Americans thought he was too poor to pay.
5. When he was away from the lab, the Arab had nothing to make conversation about.

If you chose 1: You missed a key point. A stomach upset can come on suddenly—but if it does, would one continue to eat and watch others do the same?

If you chose 2: Sometimes people may want to eat in silence, but if such is their mood, why would they suggest that other people eat with them? While the members of some cultures do dine in silence, this is not the custom with members of the Arab culture.

If you chose 3: Correct. Most Americans would not, under the circumstances, interpret the Arab’s invitation (an ambiguous word, isn’t it?) as implying that he intended to pay for their lunches. However, in Arab culture, a suggestion that others join you in eating is an indication that you are inviting them to be your guests; it is a gesture of hospitality and generosity. No wonder the Arab student was upset! As the situation evolved, it was for the Arab a case of the guest’s supplying their own food after they had accepted his invitation. He probably felt that their behavior was deliberate rejection of his hospitality—and, therefore, of his friendship. All over the world, acceptance of generosity and hospitality involves a more or less rigid obligation to repay in an approximately similar form. A generous Arab, when thanked, may say, “Don’t thank me; you will repay me someday.” An American refusing an invitation to be a guest is much more likely to say “Let’s go ‘Dutch.”

If you chose 4: This thought may have passed through the Arab student’s mind, but it would probably not be the first one, nor the one mainly dwelt upon.

If you chose 5: This answer is inconsistent with the information given.

Who Are We?

MATERIALS:

- "teaching" form (see next page)
- overhead projector (optional)
- blank form (or model) for each student

INTRODUCTION:

This lesson is ideal as an introduction or ice-breaker for new classes. The exercise will help establish "in-group" awareness as well as assess individual talents, interests, and global knowledge among class members.

OBJECTIVES

- To develop self-awareness which will lead to awareness of other cultures
- To share knowledge of other cultures which will serve as a foundation upon which the class can build
- To increase each student's ability to express and describe his/her personal background to others
- To develop an awareness of the interests and backgrounds of others

PROCEDURES:

(DAY 1)

1. Display the "Awareness Form" (next page) on the chalkboard or on an overhead projector.
2. Give each student a blank Awareness Form and instruct them to fill in the circle and four rectangles according to the model.

(DAY 2 or 3)

3. Allow students to mingle and compare interests with one another.
4. Have the class discuss the last item as a lead-in to global awareness. Use of a wall map is recommended. (If possible, students should be sitting in a "U" arrangement with the map at the open end, to facilitate discussions.)

NOTE: This lesson is successful with all age levels and can be adapted for various desired outcomes. It is most successful when the class is not inhibited by constraints on
noise level or movement. A less effective method can be used if such constraints do limit the lesson. In such case, each student tells the class about himself/herself and members of the class join in with comparisons, comments, etc. (This also takes more time.)

PANEL MEMBERS: Students introduce themselves and their countries of origin.  
(Name tags may be helpful.)

PROPOSED QUESTIONS:

1. a) Why did you (or your parents, grandparents, etc.) leave another country to come to the U.S.?
   b) How did you come to live here?

2. a) Compare the cultural differences between your "home" country and where you now live, including a discussion of the quality of life in both places.
   b) What do teachers in your community need to know about students from your home culture in order to improve mutual understanding?

3. FOR STUDENTS WHO THEMSELVES IMMIGRATED:
   a) Give one or more examples of culture shock or other difficulties you encountered as a new immigrant.
   b) What advice would you give to immigrants from your home country before they come here?
   c) What advice would you give to Americans about how they could assist new immigrants?

4. FOR STUDENTS WHOSE PARENTS OR GRANDPARENTS IMMIGRATED:
   a) What aspects of your "home culture" have your parents/grandparents made efforts to preserve in America?
   b) In what ways have you served as a "bridge between two cultures" for your parents/grandparents?
   c) What advice would you give to other children of immigrant parents?

5. Please describe personal experiences with misperceptions/prejudices in your new country.

OBJECTIVE
To demonstrate some non-verbal behaviors which are common between cultures, some which differ across cultures, and the meanings and feelings they usually communicate.

PROCEDURE
1) The teacher may announce to students that this session will deal with culture or even with communication: but does not mention its focus on non-verbal behavior, lest the impact of the exercise be reduced. The teacher then asks the students to split into two groups of equal size, "As" and "Bs," who then assemble at opposite ends of the room.

2) The teacher first goes over to the "A" group. He or she tells them in a confidential voice that they are to choose a partner from the B group and engage in conversation. The subject of the conversation is not too important; it may be differences the partners may have noticed in the treatment of women in different cultures, different attitudes toward work and professional life, or some of the problems that interfere with good communication. It is essential, however, that during the conversation, each "A" will sit or stand about 4 inches closer to "B" than he normally would. All other behavior should be normal—even the voice should be at the normal pitch.

3) The teacher now joins the "B" group, telling them in a confidential voice that they are to discuss the chosen subject with one of the "A" group, that the "As" will come over to select them shortly.

4) Next the partners are asked to meet and go to separate parts of the room, relax, and exchange views on the chosen subject. They should not go out of sight of the facilitator.

5) After about five to ten minutes the teacher apologizes for breaking into the conversation and asks the "As" and "Bs" to return to their respective groups. He or she joins the "B" group this time and asks in a low voice, "Without looking back at your partner, each of you tell the others in this group, as best you can, what your partner "A" looked like. For example, did he wear glasses or not? Complexion? What kind of clothes? Neat or sloppy? Long or short hair?" Each is asked to share with his group whatever details he can recall.

6) Meanwhile the teacher returns to the "A" group. He asks them the same question about what they can recall about their partners' appearance. He or she gives a few minutes for them to begin to share recollection: but then breaks in.
7) Teacher tells the "A" group to engage in a second conversation with their partners. Another subject is assigned to them to discuss. This time the "As" are told to avoid looking directly into their partners' faces; look anywhere that seems natural except their faces. All other behaviors should be normal.

8) The teacher now asks the participants to rejoin their partners and reiterates the subject they are to discuss. After five to ten minutes he or she again interrupts and asks them to gather, this time as a single group. He or she then asks for volunteers to describe how they felt during your exchange, "Did you somehow feel strange?" A brief discussion, about ten minutes, should be encouraged. Finally, the teacher reveals the instructions that he or she had been giving the "A" group and discusses the significance of non-verbal communication.

9) Lastly, students are asked to demonstrate examples for a discussion of specific differences in non-verbal behavior which they have noticed among themselves and other cultural groups.

THE MULTICULTURAL PERSON

OBJECTIVE
We belong to many groups which function in ways similar to larger cultures, and which define our individuality in multicultural terms. This exercise can be used to teach primary school children about the many groups to which they belong beyond nationality or ethnic differences which define them as individuals. It attempts to teach the notion of differences in a neutral framework without evaluating those differences as being either good or bad.

PARTICIPANTS
Moderate to large group of multi-ethnic intermediate school children.

PROCEDURE
The exercise should follow a lecture or class discussion about prejudice, discrimination or problems people experience as a result of being different.

1) The teacher informs students that they are to move their chairs off to one side of the room to clear a large area in the center of the floor.

2) The students are then instructed to assemble in a large group in the center of the floor.

3) A list of neutral characteristics which would be likely to divide the group should be drawn up beforehand in a series of sets. They may include characteristics such as black shoes/brown shoes/other-colored shoes; those wearing red/those not wearing red; those with a penny/those without a penny; and/or other similarly neutral categories.

4) The teacher reads out instructions such as: “All those wearing red move to the right side of the room and all those not wearing red move to the left side of the room.” The “team” that assembles first “wins” that set. Then the group re-assembles in the center of the floor and a second set begins with the teacher reading off instructions that will divide the group in a series of ways.

5) After the group has become familiar with the exercise, the teacher may want to move toward other differences that are more personal such as hair color, eye color, tall/short, or other characteristics of the individuals.

6) Finally the teacher may want to end the exercise by using the more obvious cultural differences such as gender, national background, race, etc.

7) The discussion could center around racial/cultural differences being just one of the significant components of our individuality that define us but should not be use to evaluate our worth. The discussion might center on the role of competition both in the game, where the students were on different teams for each set, or in real life where persons who are different struggle against one another. A primary goal of the exercise is to have students see that making value judgments on random characteristics (such as shoe color) are inappropriate and damaging, and generalize to a similar conclusion regarding judgements based on cultural and racial characteristics.

STEREOTYPES

OBJECTIVE
To demonstrate stereotypical attitudes held toward different groups of people.

PROCEDURE
1) Have each group of students list five different cultures and rank order them in conjunction with the statements below. Add up the total score for each statement on each ethnic group.

2) Ask the following questions:
   Why does stereotyping persist? Is it useful? Harmful? What kind of situations tend to stereotype people?

3) Have the students analyze similarities and differences in the ratings.

GROUPS

COMPARING PEOPLE TO OBJECTS

OBJECTIVE
To help students recognize cultural differences.

PARTICIPANTS
Three or more students from different cultures.

PROCEDURE
1) The teacher instructs each student to look around the room and find one object that
   is like them or which reflects them in some way, representing if possible one or more
   cultural values of their background.

2) The teacher may model this difficult task by selecting an object himself (like a piece
   of chalk that is hard and brittle and gives of itself until it is finally used up completely)
   and describing how he is like that object.

3) The students will each in turn describe how they are like one or another object in the
   room.

4) Students may then discuss the cultural differences which emerge.

Designed by Paul Pedersen, University of Minnesota.

Source: A manual of structured experiences for cross-cultural learning (pp. 30-31), by
Press, Inc.. (Adapted with permission)
OBJECTIVE: An analysis of marital roles in different cultures.

PARTICIPANTS: Group members should represent various cultural viewpoints.

PROCEDURE:
1) Each student is given a copy of the scale and a pencil.
2) Students fill in one response before each of the following statements to indicate what they believe is right as a matter of principle. The responses are to be marked as follows:
   SA — Strongly Agree; A — Agree; U — Undecided; D — Disagree; SD — Strongly Disagree.
3) If done as a group exercise, compare and discuss responses regarding different cultural beliefs.

   1. The husband should help with the housework.
   2. The wife should take a job if she wants.
   3. The husband should help wash dishes.
   4. If a husband runs around, so can his wife.
   5. Wives are too independent these days.
   6. If the husband wants children, the wife should agree.
   7. The husband should decide who is to spend the extra money.
   8. Husbands should be more strict with their wives.
   9. What a husband does in his spare time is his own business.
  10. The husband should decide where to live.
  11. The wife should fit her life to her husbands.
  12. The husband’s wishes should come first in most things.
  13. Marriage is the best career for the woman.
  14. The husband should wear the “pants” in the family.
  15. If the husband is running around with another woman, his wife should put up with it until he comes to his senses.
  16. It’s okay for the wife to earn as much as her husband.
  17. A wife should let her husband decide most things.
  18. Almost all money matters should be decided by the husband.

THEMATIC ACTIVITIES AND EXERCISES

THEME ONE: SELF-AWARENESS/SELF CONCEPT

To develop increased self-awareness and a positive self-concept in students from all ethnic groups by using their own heritage as a rich and valuable resource.

LEVEL: Elementary/Middle

Sample Activities:

Students fill in a prepared chart of what they eat daily. Guide a class discussion on the nutritional values of a cultural variety of foods. Students will realize there is no one standard breakfast, lunch or dinner.

Students create personal mobiles using coat hangers as bases. Mobiles include several features: photo of child and caption; self-portrait; picture of home and story about family; and "favorites" (food, sport, etc.).

Parents help students to investigate their heritage. In class each student locates his or her "roots" on a world map. The class discusses "heritage" and America's diversity. Students make flags and clothing representing the countries and post them on a bulletin board around a picture of the globe.

Source: Understanding our cultural diversity: A theme guide to K-12 curricular resources, activities, and processes (pp. 4-5). Stanford, CA: Stanford University, 1983. (Adapted with permission)
LEVEL: Middle/High

Sample Activities:

Students interview each other about their ancestry. Students identify ancestors' places of birth on a world map. After interviewing family members, each student constructs a family tree.

Students write an autobiography stressing ancestry or a biography of one particular ancestor. Students then research contributions of their group to American culture.

Students recall a time they felt proud of themselves or others. Conduct "walk through the century" to review the history of a particular group. On slips of paper, teacher records statements about pride, struggle, hope, sorrow, etc., by well-known or little-known members of the ethnic group under study. Then, each student draws a slip from a box and reads it aloud to the class for discussion.

Source: Understanding our cultural diversity: A theme guide to K-12 curricular resources, activities, and processes (p. 6), Stanford, CA: Stanford University, 1983. (Adapted with permission)
THEME TWO: CULTURAL AND LINGUISTIC APPRECIATION

To develop an understanding of an appreciation for the linguistic and cultural pluralism of the United States.

LEVEL: Elementary/Middle/High

CONTENT FOCUS: Language Arts, Social Studies, Reading

Sample Activities:
Students are introduced to a different language through exercises in which they learn to value and appreciate another communication system. In small groups, students trace the origin of the Chinese language and investigate the role of language in all societies.

Students read and discuss stories and poems in which newcomers to the U.S. describe their experiences as they learn to live in a new country.

Students bring in an object related to a family custom (recreational, religious, etc.) and write about the object’s importance. Students read a partner’s written description and underline the words or phrases that express the value of the object.

Students collect magazine pictures that represent the diversity of people in the U.S. The class creates a collage by placing the pictures on an enlarged outline map of the U.S. and adding students’ photos. They then discuss and categorize the kinds of people represented (gender, age, job, etc.)

Source: Understanding our cultural diversity: A theme guide to K-12 curricular resources, activities, and processes (p. 9), Stanford, CA: Stanford University, 1983. (Adapted with permission)
THEME THREE: COMMONALITIES AMONG PEOPLE

To recognize the commonalities shared by all peoples.

LEVEL: Elementary

Sample Activities:
Children learn about and play games from Africa (and/or other areas of the world). Children list similar games they know. Discussion question: Who usually plays such games? How do children learn to play games?

Children listen to a folk tale explaining the origin of the African continent. Students then create their own folk tales to explain "how something came to be." Students continue their exploration of folk tales from other lands. Discussion question: How do children learn what is right and wrong through stories?

Students recall their favorite lullabies or bedtime stories. The class investigates purposes and musical forms of lullabies. Help students generalize universal aspects of child care and discuss how individual families meet children's needs. The teacher provides students with music to compose new lullabies.

Divide class into inner and outer circles, and have circles face one another. Students share a likeness and a difference with a partner facing them. Rotate inner circle and share again with new partner. The teacher encourages higher-level exchange (opinions and preferences) as the game progresses. The class discusses commonalities and diversity discovered among class members.

Source: Understanding our cultural diversity: A theme guide to K-12 curricular resources, activities, and processes (p. 16). Stanford, CA: Stanford University, 1983. (Adapted with permission)
INTRODUCTION:

Folk tales are found in many different cultures. The content often reflects the environment or natural phenomena unique to the geography of a particular area, but the theme is often a common one, running through the history of humankind. This activity exposes children to one way in which the physical shape of a land mass could be explained through a type of “creation” myth.

OBJECTIVES:

To recognize the commonalities shared by all peoples
To understand how “creation” myths came to be

PROCEDURES:

1. Introduce folk tales by reminding students of some they may already know. Depending on grade level, you may want to spend some time discussing the types of folk tales known and classifying them with students.
2. Read an African folk tale (or a tale from another area) and determine its “type.”
3. Invite students to participate in the creation of a folk tale.
4. Using the finished product, spin-off activities may include:
   a. drawing an outline of Africa
   b. locating the equator and determining approximate climatic regions
   c. writing similar “creation” myths for other continental land forms
   d. creating a folk tale about an everyday object, (e.g., “How a Dish Came to Be” or “How a Drinking Fountain Came to Be”)

Source: "Spin-off folk tales about Africa" (pp. 34-36), by B. Schubert, in Understanding our cultural diversity: A theme guide to K-12 curricular resources, activities, and processes. Stanford, CA: Stanford University, 1983. (Adapted with permission)
INTRODUCTION:

Games are played in all cultures, and many appear to have a common model. These games are played together by children as a form of recreation, sometimes with adult participation.

OBJECTIVES:

To recognize world commonalities in forms of recreation
To enjoy language, rhythm, and movement activities

PROCEDURE:

Note: When you are introducing games, especially in another language, you should follow certain steps:

1. Introduce rules, boundaries, game procedure.
2. Introduce words/music. Have students repeat without movement activity.
3. Combine words and movement.
4. Play with the kids and HAVE FUN!

I. KAMBUZI . . . Little Goat (similar to “Duck, Duck, Goose”)

<table>
<thead>
<tr>
<th>Leader</th>
<th>Response</th>
</tr>
</thead>
<tbody>
<tr>
<td>A. KAMBUZI KALIRA-LIRA</td>
<td>MEI</td>
</tr>
<tr>
<td>B. NDEPELO MUNANDI</td>
<td>MEI</td>
</tr>
<tr>
<td>C. O TWANGALA NAKWE</td>
<td>MEI</td>
</tr>
<tr>
<td>D. PEFYE KUSUKULU</td>
<td>MEI</td>
</tr>
<tr>
<td>E. MEE MEI</td>
<td>MEI</td>
</tr>
<tr>
<td>F. MEE MEI</td>
<td>MEI</td>
</tr>
<tr>
<td>G. KALIRA-LIRA, KALIRA-LIRA, etc.</td>
<td>MEI</td>
</tr>
</tbody>
</table>

PROCEDURE:

1. Form a circle.
2. While a leader chants lines A, B, C, and D and others respond with "MEI," one child goes around the circle.
3. While the leader is chanting lines E and F, the child taps someone on the head and runs.
4. Once a child has been tapped, everyone says line G very fast, clapping until the child who was ‘it’ is seated.
5. Repeat.
II. ICHIKONKOMA

Leader Response

A. MUGANDA YANDI MULELIRA ICHIKONKOMA SACHA!
B. MUGANDA YANDI MULELIRA ICHIKONKOMA SACHA!
C. ECHA MUSUMBI SACHA
D. (in unison) EEEEE SACHA!
E. ICHIKONKOMA SACHA
F. (in unison) EEEEE SACHA!

PROCEDURE:

1. Everyone sits in a circle.
2. Chant lines A-B.
3. On lines C and D, group jumps toward middle.
4. Leader chants line E and jumps back.
5. All chant line E.
6. Repeat lines C-F, jumping back and forth.
7. Return to beginning and repeat.

III. KAMLISHA KALAMBE (Play a regular game of tag and use this chant as an accompaniment.)

KAMLISHA KALAMBE
KAMLISHA
HOO! HOO!

RECOMMENDED BACKGROUND READING:

INTRODUCTION:

In today's increasingly interdependent world, a system of standardized measurement has become a necessity as auto parts from Japan are assembled in Detroit to create a car to be sold in Ghana. Early people from all cultures used measurement only for rough comparisons, using whatever was available as a unit of reference. Though the instruments were not precise, the basic process of choosing a measuring unit and comparing it with the object being measured has not changed. This lesson explores the process of measurement and the reasons for a gradual standardization on a wider and wider basis.

OBJECTIVES:

To gain an understanding of the common bases for measurement in many cultures
To understand the process of measurement
To understand the need for standardized measurement
To gain an appreciation for the move toward the metric system in the United States

PROCEDURES:

**Day 1**

1. Divide class into groups of six.
2. Give each group a set of identical objects to be measured. Ask each group to devise a means of measuring the objects, using only those things immediately available for reference.
3. Have a recorder in each group list each object and the standard by which it was measured.
4. Have groups share their results.
5. Discuss the results, using the following (or similar) questions as a guide:
   a. What did each group need to do in order to measure each object?
   b. Are there any similarities in the "measuring systems" groups devised?
   c. Are there any differences?
   d. What would happen if Group A wanted to trade with Group B? Can you foresee any problems?
   e. If there are problems, what would have to be done in order to trade fairly with one another?
   f. Can you see any connection between the solution to the groups' problems and the move for the U.S. to convert to the metric system?
   g. What do you think is meant by the term "standardized measurement?"
Day 2

6. Discuss the early Swahili and English measuring systems and their evolution to the British imperial system using the handout (see next page) or a visual representative of it. Finally, discuss the recent conversion to the metric system. Focus on the following:
   a. the commonalities of the early systems (use of body parts)
   b. the historical trends that moved standardization of each system in the same direction (colonization)
   c. current economic interdependence that has moved each toward the metric system

7. Have students answer the following in short essay form:
   a. What is needed in order to measure?
   b. Describe the process of measuring.
   c. What is standardized measurement?
   d. Why is standardized measurement necessary?
Examples of Linear Measuring Systems

Early Measurements

**SWAHILI** (East Africa)

- *shibiri* - from the tip of the thumb to the tip of the little finger
- *mkono* - distance from elbow to tip of extended middle finger (≈ 2 *shibiri*)
- *pimi* - distance from middle finger tip to middle finger tip of extended arms (≈ 4 *mkono*)
- *futi* - length of the human foot

**ENGLISH**

- *span* - from the tip of the thumb to the tip of the little finger
- *cubit* - the distance from the elbow to the tip of the extended middle finger
- *fathom* - distance from middle finger tip to middle finger tip of extended arms
- *foot* - length of the human foot
- *inch* - distance from knuckle to tip of the thumb

Later Measurements

(British Imperial)

**SWAHILI**

- *yadi* (yahdee)
- *futi* (footee)
- *inch* (inch)
- *maili* (mah-ee-lee)
- *futikamba* (footee cum-bah) (foot rope)

**ENGLISH**

- *yard*
- *foot*
- *inch*
- *mile*
- *tape measure/yard stick*

Today

- *centimeter*
- *decimeter*
- *meter*
- *hectometer*
- *meter stick*

Source: "Threads for the web of interdependence: The need for standardized measurement," (pp. 37-39), in Understanding Our Cultural Diversity: A theme guide to K-12 curricular resources, activities, and processes. Stanford, CA: Stanford University, 1983. (Adapted with permission)
Cross Cultural Teaching Activities and Games
for Elementary Students

CREATIVE WRITING AND GEOGRAPHY

Foreign countries provide much provocative material to stimulate the imaginations of young students as they begin learning about these lands and their peoples. Encourage students to write on topics of this nature:

Write an adventure that includes you as a character as you travel in a foreign city.

What would you do if you suddenly found yourself in Africa? In Japan? In Mexico?

I would like to live in _______________ because . . .
If I could remake the world, I would . . .
My idea of Utopia would be . . .

VOCABULARY AND THE NEWS

Each week discuss words mounted on a display called WORDS IN THE NEWS. Encourage students to cut out and mount words, phrases, and sentences from the newspaper or make notes of language from television reports. Talk about the meanings of words used in context as well as the events to which the words are related.

GEOGRAPHY RELAY

This relay is interesting and can involve many students. One student serves as the leader and calls out names of locations—Peru, Kenya, Sweden, New Zealand—while team members take turns indicating the correct location. A scorekeeper keeps score on the chalkboard for all teams. As one team correctly locates the given place, the scorekeeper adds one point to that team's score. When a team member fails to locate the place within the time limit (60 seconds), the next team up may be given the same place to locate.

ORAL LANGUAGE SKILLS

Oral language is the foundation for all of learning, and unless our students can use language easily at the oral level, they will be unable to progress to reading and writing with any facility.

For most students, learning oral language is easier than working with written language. Thus, oral language strategies should be used to support reading and writing activities at all levels of instruction. Oral prewriting activities enable students to be more successful in their writing, and oral methods support work in other areas of the curriculum, such as social studies.
Advantages of oral study activities are all students participate with interest, errors are corrected immediately, all students complete work together, no worksheets are prepared, and there are no exercises to correct later.

One of the best ways to focus on oral language with students is through the teaching of listening skills. Because listening is, for the most part, an invisible act, we tend to take it for granted. We do not, for example, plan a listening curriculum as we do for the teaching of reading. Yet, we learn more through listening than we do through the written word. Talk with your students about the listening process and plan listening experiences for them. Many listening activities require only five or ten minutes, so they can be tucked into the schedule at odd moments.

- Multicultural Training Programs
STATE-LEVEL INITIATIVES PROMOTING CULTURAL DIVERSITY

Each of the states in the SERVE region (Alabama, Florida, Georgia, Mississippi, North Carolina, and South Carolina) sponsors initiatives or produces materials related to multicultural education. The descriptions below are not meant to be all-inclusive or comprehensive; rather they are designed to provide a sampling of state efforts to promote multicultural teaching and learning. Please contact SERVE if you have additional information about these or other programs.

ALABAMA

Three Part Series of Statewide Workshops to Assist School Districts with Limited English Proficient (LEP) Students. The Alabama Department of Education is conducting a series of three one-day workshops for school district personnel to better address the needs of limited English proficient students. Topics addressed include legal issues, student identification, intake, screening and placement, assessment, instruction, methodology, and teaching materials for working with LEP students.

Implementation of Two Title VII Programs. A Special Alternative Instructional Program is now in its second year in Mobile County. The program serves diverse language/ethnic groups. The second Title VII program is a Transitional Bilingual Education Program located in Blount County, serving children of Hispanic migrant workers.

For additional information about Alabama efforts contact:

Dr. Alicia Glover  
Coordinator, Bilingual Education  
Alabama Department of Education  
50 North Ripley Street  
Montgomery, Alabama 36130  
205-242-6210
Multicultural Education Review Task Force. Established in 1991 by the Florida Legislature, this Task Force was created to examine the Florida public school curriculum, instructional materials, library media centers, inservice training, counseling services, and extracurricular activities for outcome evaluations and cost-effectiveness related to multicultural education. The Task Force has made recommendations regarding increasing the effectiveness of services to students of all cultures; methods for eliminating bias in policies, practices, and materials; approaches necessary for meeting different learning styles; and statutory changes necessary to encourage multicultural education. For a copy of the Task Force report, contact Mrs. Altha Manning, Chief, Bureau of Student Support and Academic Assistance, Florida Department of Education, Tallahassee, FL 32399; 904-488-6688.

Florida Institute for Art Education. Funded primarily by a grant from the J. Paul Getty Trust, the Institute focuses on staff development and curriculum implementation in school settings using the Discipline Based Art Education (DBAE) approach. A multicultural perspective is an integral part of DBAE instruction. For additional information, contact Dr. Jesse Lovano-Kerr, Director, Florida Institute for Art Education, B-171A, Florida State University, Art Education M.C.H. 123, Tallahassee, FL 32306-3014; 904-644-2149 or -2322.

Florida Consortium for Multilingual/Multicultural Education. Composed of school districts, community colleges, and public and private universities with institutional membership, the consortium provides resources and networking related to multicultural education issues. For additional information, contact Dr. Angelo Lupo-Anderson, Assistant Dean of the Faculties, 314 Westcott Building, Florida State University, Tallahassee, FL 32306; 904-644-6876.

Binational Linkage Institute Programs. The Binational Linkage Institute Programs have produced a network of partnerships in Florida and abroad that address Florida’s international, educational, commercial, and cultural needs. The Institutes offer educational and cultural exchange opportunities to schools, community colleges, and universities in Florida. In addition, classroom materials are available from individual institutes.

Institutes are hosted jointly through partnerships between Florida’s public universities and community colleges. Institutes have been formed between Florida and the following countries/regions: Brazil (904-392-0375), Canada (407-823-2079), the Caribbean (305-348-2894), China (904-474-2012), Costa Rica (904-644-1414), France (904-644-3727), Israel (305-760-5613), Japan (813-974-4090), (the former) USSR (407-823-2079), and West Africa (904-646-2600). For additional information, contact the respective Institutes.

1990 English for Speakers of Other Languages (ESOL) Agreement. The Florida State Board of Education and Commissioner of Education have entered into an agreement with
Multicultural Education Training and Advocacy, Inc. (META), to mandate comprehensive
ESOL and other education programs and services for limited English proficient (LEP) students.
Terms of the agreement are based on the following six issues: (1) Identification and
assessment—appropriate identification, classification and re-classification, and monitoring of
all LEP students, (2) Equal access to appropriate programming—equal access in these areas
must be approved in school district plans, (3) Equal access to appropriate categorical and
other programming for LEP students, (4) Personnel—definitions and descriptions of qualified
instructional personnel certification; endorsement, coverage, or grand fathering is required for
ESOL; appropriate coverage and endorsement/training for basic subject area courses,
inservice training for appropriate personnel, (5) Monitoring—the Department of Education is
required to monitor compliance as determined by established criteria, and (6) Outcome
measures—data collection on LEP students and an evaluation system are required to
determine program effectiveness. For more information, contact Mrs. Altha Manning, Chief,
Bureau of Student Support and Academic Assistance, Florida Department of Education,
Tallahassee, FL 32399; 904-488-6688.

DeKalb County Houses ESOL Laboratory Classes and International Student Centers.
DeKalb County has the largest language minority student population in Georgia. To meet the needs of the limited academic and language backgrounds of the students, the county developed ESOL Laboratory classes at Cross Keys High School. The county also developed an international student center at Chamblee High School. The center employs personnel who speak more than 10 languages, and who are able to assess incoming international students in their native languages, evaluate foreign students' transcripts, and provide information to parents on topics as diverse as school bus routes, discipline policies, and immunization requirements. Additionally, students who are non-English proficient are provided intensive survival ESL before being placed in neighborhood schools for continuing ESOL services.

International Newcomer Center in Gwinnett County. Gwinnett County's International Newcomer Center is housed at Meadowcreek High School where a "sheltered immersion" instruction method is in place. The students learning English are in ESOL instruction and are also scheduled for instruction in the content areas of social studies and science. In these subjects, specially trained teachers use appropriate teaching strategies to teach the high school content. This strategy is the result of close coordination between the content area teachers and the ESOL teacher, and strong support from the principal and local administration. It also extends to other parts of the school curriculum such as the offering of an international music course to all students, and the inclusion of foreign students (forty percent of the school population) in training for student mediation.

Family Literacy Project in Clayton County. Clayton County, in conjunction with the Georgia State University Center for Adult Literacy and Georgia Mutual Assistance Association Consortium, is working on a family literacy project to provide families with language instruction two evenings per week. For the parents, the language instruction focuses on issues related to their participation with their children in school, such as how to read a report card, the importance of extra-curricular activities, and the offerings of a high school vocational education program. For the school-age students, language instruction focuses on academic areas.

For additional information on Georgia efforts, contact:

Coordinator, Migrant and ESOL Programs
Twin Towers East-1958
Atlanta, GA 30334
404-656-4995
MISSISSIPPI

Annual Bilingual Education/National Origin Regional Conference. Currently in its sixth year, the annual conference offers participants an opportunity to focus on current ESL issues, including counseling, methodology, special education, and regulations.

Summer Courses Leading to State ESL Endorsement. The Mississippi Department of Education, in collaboration with the University of Southern Mississippi, offers an intensive, two-week course which can lead to state ESL endorsement. This educational opportunity is offered without charge to a limited number of educators each year.

Two National Origin Resource Libraries. Established by the Mississippi Department of Education, these resource libraries provide resources and materials to teachers, administrators, parents, community members, and others on a library "loan" basis. Instructional materials encompass 12 educational categories, including teacher training, vocabulary, culture, and assessment. The materials are available in various formats: books, kits, cassettes, computer software, language masters, and videotapes. Materials are available for various ability levels and for all age levels. Catalogs are available for each library.

A Handbook of Educational Services for Limited English Proficient Students. The Mississippi Department of Education is compiling a handbook of educational services to assist districts in meeting the needs of their limited English proficient students. Topics to be addressed in the publication include the following: Chapter 1 and Chapter 2, migrant education, vocational education, special education, statewide testing, accreditation, legal requirements, and certification (Mississippi DOE, 1992).

For more information about Mississippi efforts, contact:

Debra L. Meibaum
Title VII and Title IV Project Director
Mississippi Department of Education

FAX 601-359-6795
Session at State DOE Awareness Conference to address Cultural Diversity. A session at the State Awareness Conference has been designed to sensitize all North Carolina Department of Public Instruction administrators and select teachers to multicultural/multilingual diversity. Students in North Carolina public schools currently represent 96 cultures and 67 different languages.

Annual Statewide Bilingual/ESL Workshops for School Program Personnel and Classroom Teachers. A minimum of two workshops are held each year to assist program personnel and classroom teachers throughout North Carolina with curriculum and program development for multilingual and multicultural students. Emphasis is placed on identification and assessment of students, increasing effectiveness in teaching and counseling, designing entry and exit criteria, portfolio and alternative assessments, program evaluation, legislation, and grant writing.

Collaborative Student Data Collection System. Department of Public Instruction personnel responsible for data collection of students have collaborated to develop a matrix system to avoid duplication in collecting data on special populations. This effort is aimed at better serving all special populations including national origin minority students.

Statewide Guidelines for Testing LEP Students. A joint committee composed of the Department of Public Instruction divisions of State Testing and Second Language Studies, local school district supervisors, and teachers are developing guidelines to assist district personnel in determining the readiness of students to participate in required state testing. The committee is reviewing instruments that address the proficiency levels of reading, writing, listening, and speaking skills for [limited English proficient] LEP students. Guidelines are expected to be developed in which provisions are made to determine when LEP students have attained a language proficiency level adequate for taking and passing state required examinations.

For more information about North Carolina efforts, contact:

Mr. L. Gerard Toussaint
Consultant, Second Language Studies
North Carolina Department of Public Instruction

SOUTH CAROLINA

Report on the State of the State. This report, to be available March 1992, will provide detailed information on the limited English proficient student population in South Carolina as gathered from the data collection survey of 1990-91.

Guidelines for Teachers and Administrators in South Carolina working with Limited English Proficient (LEP) Students. This manual, to be available March 1992, will offer instructional and administrative guidance to school districts to improve their educational programs for LEP students.

ESL Teacher Education Initiative. The South Carolina Department of Education is initiating the development of training programs for teachers of LEP students in South Carolina. This process will be coordinated with IHE's, professional organizations (such as Carolina TESOL), the Southeast Regional Multifunctional Resource Center, the Evaluation Assistance Center-East, and local school districts in order to improve the quality of teaching English as a Second Language in South Carolina schools.

Summer Migrant Program. In collaboration with content-area curriculum consultants and the Migrant Program office, the ESL/Bilingual Consultant is working to improve the training of teachers to meet the educational needs of migrant students.

Multicultural Resource Library. This library, housed in the ESL/Bilingual office, will provide materials and resources to educators interested in ESL/Bilingual instructional materials international awareness. A Resource Manual, to be available June 1992, will contain an annotated bibliography explaining what resources are housed in this library. Inservice training in the use of these materials will be available in the office on an appointment basis.

MULTICULTURAL RESOURCE CENTERS:
An Annotated Listing

Council on Interracial Books for Children (CIBC), is a nonprofit organization that promotes anti-racist children’s literature and teaching materials. A catalog of filmstrips, lesson plans, curricula, books, and pamphlets is available free of charge. Materials include a high-school curricular package, *What is Racism? A Historical Analysis*, that covers the history of European colonial conquests, slavery, and imperialism from the view of people of color and “The Secret of Goodness,” an elementary-level filmstrip with lesson plans in which space creatures convince children that stereotypes are untrue and harmful. The council also offers *Guidelines for Selecting Bias-Free Textbooks and Storybooks*, 1980, as well as awareness-increasing articles and reviews in their *Interracial Books for Children Bulletin*. Contact: CIBC, 1841 Broadway, New York, NY.

Associated Publishers offers 16 different Black History Month kits for K-12 students. Also available is a catalog of books, pictures, lesson plans, and pamphlets. Contact: AP, 1407-14th St., NW, Washington, DC 20005; 202-265-1441.

The Center for Southeast Asian Studies offers K-6 teachers several free pamphlets, including *Children’s Games from Southeast Asia*, *A Laotian Folktale*, *Ma’aysian Proverbs*, *Philippine Riddles*, and *Independence and Government: A Chronology of Some Key Events in Southeast Asia*. Also available are maps of Laos and Vietnam and pamphlets with ideas for oriental craft projects. Send one self-addressed, stamped envelope for every two items requested to: CSAS, Peggy Choy, Room 4115, Helen C. White Hall, 600 N. Park St., University of Wisconsin, Madison, WI 53706; 608-263-1755.

The Board of Jewish Education of Greater Washington offers a series of year-round language arts lesson plans for grades K-6 on Jewish contributions to American society. The kit includes five exercises for each grade level that are suitable for copying. Contact: Rabbi Mark Levine, BJEGW, 11710 Hunters Lane, Rockville, MD 20852; 301-984-4455.

Arrowhead Mills, Inc., a natural foods manufacturer, offers a free copy of the leaflet *The Native Americans*, which includes recipes used by American Indians. Contact: AMI, Recipes, P. O. Box 2059, Hereford, TX 79045; 806-364-0730.

Kindergarten Integrated Thematic Experiences (KITE), a success-oriented program which integrates the entire classroom day through developmentally appropriate thematic units emphasizing language, cognitive, physical, and social development. The program has been used successfully with migrant, special education, bilingual, and ESL students in primary grades. Contact: KITE, Sunshine Gardens School, 1200 Miller Avenue, S. San Francisco, CA 94080; 415-588-8082.

The American Council on the Teaching of Foreign Languages' Practical application of research in foreign language teaching, edited by Charles J. James (Lincolnwood, IL: National Textbook Co., 1983) discusses research on the use of new media technology to teach culture in the foreign language classroom.

Anderson, William M., and Campbell, Patricia Shehan, have edited Multicultural perspectives in music education for the music educators national conference, 1902 Association Drive, Reston, VA 22091, 703-860-4000. This 1989, 334-page document presents a wealth of lessons dealing with a number of cultures.

Beilke, Patricia F., and Sciara, Frank J., provide background information and identify bibliographic sources to aid library media specialists in Selecting materials for and about Hispanic and East Asian children and young people (Library Professional Publication, 1986).

Bragaw, Donald et al. edit, in "Moving toward a global perspective: Social studies and second languages," (Intercom, September 1983, pp. 3-40, ERIC #EL 287 484), eight interdisciplinary lessons to increase the ability of students or teachers to empathize and develop constructive attitudes toward diversity, change, and conflict.

Casteel, Doyle and Guthrie, Charles, in Teaching ideas about other cultures: Africa, Latin America, Western Europe (Gainesville, FL: University of Florida, 1989), present a workbook of cross-cultural instructional exercises.

Catalog of curriculum materials: Spring/Summer 1991. SPICE, Stanford Program on International and Cross-Cultural Education. Contact: Littliefield Center, Room 14, 300 Lasuen Street, Stanford University, Stanford, CA 94305-5013, 415-723-1114.

Chaselle, Inc., offers a free catalog of multicultural teaching aids, arts and crafts, music, games, and literature for grades K-8. Contact: Chaselle, Inc., Department MC, 9645 Gerwig Lane, Columbia, MD, 210-6-1503, 800-242-7355.

Children's Book Press offers a free catalog of multicultural and bilingual picture books for children ages 4-12. Contact: CBP, 6400 Hollis Street, Suite 4, Emeryville, CA 94608; 415-655-3395.

Cultural diversity: In the United States and around the world is a catalog published by William Morrow and Company, Inc., which lists books reflecting American ethnic groups, multicultural publications using a multicultural approach, and a world view. For more information contact: William Morrow and Company, 39 Plymouth Street, Fairfield, NJ, 07007, 800-843-9349.

Ferguson, Henry. *Manual for multicultural education*, Second edition. A complete guide to the introduction of multicultural education into a school system, this manual has been extensively revised and updated, including an expanded resource section and bibliography. It is presently being used in over seven hundred school districts and teacher training institutions around the country. Ferguson provides an in-depth discussion of the foundations of multicultural education and the nature of the cultural learning process, followed by a "how-to" guide for faculty training, curriculum development, materials design, and program evaluation. Contact: Intercultural Press, P. O. Box 700, Yarmouth, ME 04096, 207-846-5168.

Heath, Shirley B., and Mangiola, Leslie. *Children of promise*, Berkeley, CA: National Center for the Study of Writing and Literacy, School of Education, University of California, 1991. The publication addresses the literacy education needs of our nation's culturally and linguistically diverse students. A new perspective is presented on students who are often labeled "at-risk," suggesting that they are actually "children of promise." Practical ideas for classroom teachers to develop activities that can help all students achieve their full potential are included. Contact: National Center for the Study of Writing and Literacy, School of Education, University of California, Berkeley, CA 94720.

*How to do it in the social studies classroom: Reducing prejudice in the classroom*, Series 4, Number 2, is a short pamphlet with lesson plans developed by the National Council on the Social Studies. 3501 Newark Street, N.W., Washington, D.C., 20016.

Jordan, Carmen V., *Resource guide for working with limited English proficient students*. Compiled for Clarke County School District ESL Program, Athens, GA: 1990. The resource guide offers the classroom teacher instructional techniques and strategies for working with the limited English proficient student within a regular classroom environment. The guide specifically addresses some broad cultural characteristics in Asian and Hispanic cultures. For more information contact: Ms. Carmen Jordan, ESOL Coordinator, Clarke County School District, P. O. Box: 1708, Athens, GA 30603, 404-546-7721.

Kendall, F. E., *Diversity in the classroom: A multicultural approach to the education of young children* (New York: Teachers College Press 1983) provides both theoretical background and a wealth of practical suggestions for developing a multicultural classroom environment for young children.

Matiella, A. C., *Cultural pride curriculum unit*, ETR Associates (Network Publications, P. O. Box 1830, Santa Cruz, CA 95061) is the core unit of the "Latino Family Life Education Curriculum Series" and focuses on Latino history and customs to help Latino youth, grades 5-8, develop cultural pride and self-esteem.

*Multicultural teaching: A handbook of activities, information & resources*. Pamela and Ins Tiedt. Published by Allyn and Bacon, Inc., Boston, this document gives specific strategies for multi-cultural teaching and explores the teacher's role in developing positive self-concepts.
Pusch, Margaret P., editor, *Multicultural education: A cross-cultural training approach* is a practical, comprehensive manual which applies the experiential learning methods of cross-cultural training to the training of teachers in multicultural education and to the implementation of multicultural education in the classroom. It includes chapters on definitions of terms, intercultural communication and the psychology of cross-cultural experience, multicultural education in the U.S., multicultural curriculum, training for teacher competencies, lessons and strategies for classroom use, evaluation techniques, and an annotated bibliography and resource guide. The chapter on training techniques, categorized by topic, is especially useful. Contact: Intercultural Press, P. O. Box 700, Yarmouth, ME 04096, 207-846-5168.

*Resource guide: Hispanic heritage* (Miami, Florida: United Teachers of Dade, September, 1991) is part of a series of multicultural resource guides for educators, from the United Teachers of Dade. Contact: Dade County, Florida, Teachers' Union, 2929 SW 3rd Avenue, Miami, FL 33129.

CURRICULUM GUIDES: An Annotated Listing

McCloskey, Mary Lou, ed. *Turn on units: English as a second language content area curriculum in math, science and computer science for grades K-6*. Athens, GA: Georgia State University, Department of Early Childhood Education.

This curriculum guide was written to serve two purposes: (1) provide communicative teaching units which teachers can immediately use to teach both content area and language objectives; and (2) provide teachers with a model for planning curricular activities which meet both the specific content area and specific language needs of their students. After using these units, teachers will be able to use the model and their own materials to construct additional units of their own which serve these purposes. The materials are intended for the use of both elementary teachers of English as a second language and for regular classroom teachers who have students who are in their classrooms learning English as a second language.

The curriculum guide was developed in conjunction with the Garden Hills International Summer School in Atlanta, Georgia. The school's major objective was to provide oral English language instruction to children learning English as a second language while at the same time provide a wide variety of multicultural enrichment activities for all children enrolled in the school.

The following curriculum guide was also developed with Garden Hills International Summer School:

Each activity in the guides includes a description of the materials and procedures of the activity, as well as a list of the language components and communication "opportunities" which were part of it. For more information about all three publications, contact: Dr. Beth Arnow, Migrant and ESOL Programs, 1958 Twin Towers East, Atlanta, GA 30334, 404-656-4995.

A user-friendly curriculum guide developed through a Title VII Transitional ESL/Bilingual Grant, the guide is designed to be used by teachers and paraprofessionals. Curriculum objectives, processes for implementation, and relevant resources and materials are presented.

Developed under Title VII-TBE funding, the document contains selected writing activities designed to assist teachers in encouraging students to write in various disciplines. Activities are designed to motivate the student with limited English proficiency, the student with average ability, and the advanced student.

For additional information about both publications contact: Jude Luinetti, Director, Elementary and Bilingual Education, Biloxi Public Schools, 168 St. Peter's Avenue, Biloxi, Mississippi 39530, 601-374-1810.

---

*Multicultural education: Commitment, issues, and applications*, edited by Carl A. Grant for the Multicultural Education Commission of the Association for Supervision and Curriculum Development, 225 N. Washington St., Alexandria, VA 22314, 1977. This includes a position statement on multicultural education, varying views of the concept, and suggestions for instructional activities.

---

---

The Association of Teachers of Latin American Studies offers high school teachers curriculum guides on Chile, Ecuador, Brazil, Argentina, and Peru. Teachers can join the organization and receive the quarterly newsletter *Perspectives*. The association offers members workshops, conferences, and lectures to its members. Contact: ATLAS, 252-58 63rd Ave., Flushing, NY 11362; 718-428-1237.
Anderson, William M. and Campbell, Patricia S. (Ed.). *Multicultural perspectives in music education*. Reston, VA: Music Educators National Conference, 1989. This is a pragmatic approach to teaching world music traditions in upper elementary through high school classes. Included are an annotated resource list and ideas for integrating multicultural music study with other subjects. For additional information contact: The Music Educators National Conference, 1902 Association Drive, Reston, VA 22091; 703-860-4000.

MULTICULTURAL TRAINING PROGRAMS

Dade County Schools’ The learning through the arts trunk curriculum: A multicultural education program is designed to promote cultural awareness, pride in a student’s own heritage and awareness, and appreciation for the cultural heritage of others using the arts as a vehicle for interdisciplinary instruction. Students can develop global awareness, enhance self-esteem, and learn critical thinking skills, while enriching their own knowledge of basic skills, social studies, and the arts. The program provides demonstrations and faculty inservice workshops for individual classrooms, by grade level, or through school-wide programs. The program focuses on hands-on experiences using “trunk” materials, such as artifacts, costumes, music, art, videos, maps, posters, and ceremonial objects representing the cultures. Contact: Carol Wiener, Facilitator, The Learning Through the Arts Trunk Curriculum, Dade County Public Schools, School Board Administration Building, 9999, Room 523, 1450 Northeast Second Avenue, Miami, FL 33132, 305-995-1595 or 995-1912.

Facing history and ourselves is a National Diffusion Network program to provide moral education targeting hatred, prejudice, racism, and indifference through the study of the Nazi Holocaust and the Armenian Genocide. The program uses the methods of the humanities—inquiry, analysis, and interpretation—to help students take into account multiple perspectives. Contact: Facing History and Ourselves National Foundation, Inc., 25 Kennard Road, Brookline, MA 02146, 612-232-1595.

Americans All has developed National Multicultural Education Programs for grades 3, 5, 8, and 11. The programs include posters, videotapes, books, handouts, teachers’ guides, resources, and training. Contact: Allan Kullen, National Program Director, AA, 6011 Blair Road, N.W., Washington, DC 20021, 202-832-0340.

Educational Extension Systems offers the 1992 Ethnic Cultures of America Calendar and the 1992 World Calendar. Contact: EES, P. O. Box 259, Clarks Summit, PA 18411, 800-447-8561.
This section provides additional materials to help educators teach in a multicultural classroom, and/or with a multicultural perspective.

APPENDIX A

Excerpts from: Helpful hints for Working with New Limited English Proficient (LEP) Students

Source: Office of Vocational Education, Division of Instruction, South Carolina Department of Education

Do:

1. Have a positive attitude. Since LEP students' language skills are limited, they quickly learn to focus on tone of voice, facial expressions, and gestures. LEP students will be very aware of your feelings towards them even if they are non-speakers of English.

2. Try to pronounce students' names correctly. Their names may be all that they brought with them.

3. Become familiar with the students' cultures and backgrounds. There may be cultural differences that may influence the students' learning styles and classroom behavior.

4. Encourage cultural exchanges and cultural appreciation.

5. Assign a "buddy" of the same sex to assist a new student with routine procedures. This will alleviate some of the fears the LEP student will have about school.

6. Make use of peer and cross-age tutoring.

7. Make use of volunteers.

8. Use actions and illustrations to reinforce oral statements, when possible.

9. Avoid the use of idiomatic expressions and slang, especially with parents.

10. Enunciate and use simplified speech. For example, say "Do this exercise," instead of "Complete the assignment at the end of the chapter."

11. Write assignments and notes home in manuscript form. Very few LEP students and their parents are familiar with cursive letters.

12. Begin with yes/no questions and then proceed to wh- questions.

13. Be realistic in your expectations. (Pretend you are in China where all instruction is in Chinese. Your Chinese is limited to expressing basic needs and converse on an elementary level. What would you be able to do?)
1. Speak more loudly when students don't understand.

2. Accept unacceptable behavior. Even non-English speaking students understand "no" if spoken with the appropriate tone of voice.

3. Discourage students from speaking their native language with friends or family members at home or at school. They need this release.

4. Assume the students are "slow learners" just because they don't speak English or can't function on the same level as American students.

5. Assume students understand the content area even though they say they do. Ask questions to check comprehension.

6. Underestimate the students' ability. Hold them accountable for those skills/areas in which you know they are proficient.

7. Assume that LEP students' ability to communicate well in everyday situations denotes the ability to succeed in cognitive processes in the second language. Research indicates that while second language learners can attain proficiency in interpersonal communicative language skills within two years, attaining proficiency in cognitive/academic language skills requires from five to seven years (Cummins, 1981).

8. Try to be a miracle worker. Becoming proficient in a second language takes time as well as effort.
APPENDIX B

74 INSTANT IDEAS FOR CLASSROOM TEACHERS WITH ESL STUDENTS

1. Learn to pronounce the new ESL student's name.
2. Introduce her to the class. If you know in advance that an ESL student will be joining your class, prepare the students.
3. Familiarize the student with her building, classroom, and classroom procedures. Make a map. Take a tour of the school; let her meet the principal, the school nurse, the school secretary, etc.
4. Label classroom objects. Invite your ESL student to provide the names in her own language. Let her teach these words to the class in her language.
5. Greet her by name each morning.
6. Encourage feelings of mutual acceptance and respect.
7. Assign a classroom buddy to clarify directions and to help her with assignments. A good reader can tape a picture book or primer, providing a model to which the ESL student can refer again and again. Look for a peer who has empathy, a natural instinct for teaching, patience, interest, and good language habits.
8. Place the ESL student near you.
9. Use frequent eye contact even though she may avoid direct eye contact and questions to show respect.
10. Use nonverbal cues, visuals, and examples to illustrate directions.
12. Be aware of idioms. They often need explanation since new language learners tend to interpret everything literally.
13. Be aware of vocabulary which might seem contradictory and therefore need explanation. For example, sit in the football stands.
14. Write assignments and page numbers on the board.
15. Avoid yes/no questions. Your student may feel it is disrespectful to disagree with you.
16. Don't ask, “Do you understand?” Your ESL student will probably say “yes” even if she doesn't have the foggiest idea what you're talking about because it is always polite to agree. Instead, have her demonstrate her comprehension by performing a task or explaining the directions in her own words.
17. Explain why she should read an assignment. What information should she retain and how will she be expected to use it?
18. Explain what you mean by a quiz and a test.
19. Avoid timed tests. She may know the information but require more time to express it in English.
20. Encourage participation by telling her a day in advance what you will ask her. Find out what she knows and ask her about that, or help her prepare an answer so she is confident of success.
Realize your student may come from an education system which emphasized rote learning and discouraged analyzing and synthesizing data. She may need help and encouragement to develop these skills.

Realize phonics may be difficult for the ESL student. It may take a long time for her to distinguish the various sounds in English that are not represented in her native language.

Remember that English may not be used in the home. Therefore, the ESL student needs every opportunity to express herself in English and may also need assistance completing assignments in school.

Don't be misled by the ESL student's ability to "shoot the bull". She may be linguistically street-wise but a long way from competency in academic English.

Evaluate her placement periodically. She may need to start in a lower group but be able to move rapidly through levels--especially if she had a strong academic profile in her native country.

Use her as an international resource. She can provide information about her native country and language. An international corner is a touch of home for her and an excellent cross-cultural experience for the entire class.

Make your new student feel a part of the group by assigning classroom responsibilities (watering plants, feeding fish, etc.) from an early date.

Use a simple children's game such as Bingo, Simon Says, etc. These are readily adaptable to language learning by the simple addition of a language component.

Keep her occupied constructively. Store catalogs provide an excellent source of materials that students can cut up to create their own books.

Don't be afraid to overteach. Language learning requires repetition.

Use subject areas such as math and science to help teach English. Manipulation of play money offers excellent language possibilities. Simple science experiments, where what is visible reinforces what is being verbalized, can be used.

Use filmstrips to back up content-area instruction. The ESL student can be given the responsibility for making maps, models, drawing and collecting pictures, etc., in social studies.

Encourage the ESL student to indicate when she does not understand you. Praise the student for doing this and try to reword what you are saying.

Never discourage parents from speaking their native language with the child. Parents' command of English is often too limited to make them good models, and if they feel uncomfortable speaking English, communication between parent and child may soon be limited to essential commands.

Make use of music, nursery rhymes, and stories that involve repetition and humor.

Use your ESL specialist as a resource person. He/she can give you advice about ESL materials, as well as primary materials that are readily adaptable.

Realize that it may be necessary to give more information in more detail for an ESL student than for a native speaker. Use a variety of ways to communicate, including rewording what you want to say, drawing sketches, using gestures and pantomime, and writing basic words.

Teach the ESL student some commands and then let her lead the class in Simon Says.
40. Ask the ESL student to teach a game from her country.
41. Ask her to draw a picture, any picture, and talk about it. She must be interested in
   the picture to have drawn it.
42. Have her keep notebooks or scrapbooks—a "My Book". Let her draw or cut out and
   paste in any pictures she likes.
43. Don’t put her with poor readers all the time. Put her with high achievers (readers)
   sometimes so that she will have good models.
44. Use brand names that the ESL student already knows from TV commercials and
   other media advertising. Use placemats, brochures, and ads for a variety of lan-
   guage-learning experiences.
45. Let the ESL student write her own dictionary, using pictures, cartoons, captions, or
   titles. Leave ample space for new words from new units.
46. Take advantage of her love of TV and radio commercials. Take the language slo-
   gans from magazines or TV and use them.
47. Be sure the student is able to give personal information with confidence: name, age,
   address, phone number, parents’ names, etc.
48. Have students call each other and ask a specific question. A teacher or peer can
   call the student at home.
49. Have the ESL student call a toy store and ask the price of a particular toy.
50. "Dial a Story". Call for a hospital tape or time and temperature.
51. Have an older sibling or relative come to class and give a short play, dance, or tell a
   folk tale in her native language. Give an introduction in English and answer ques-
   tions about it in English.
52. Have the ESL student translate a traditional folk tale into English and write it in "My
   Book".
53. Have the ESL student interview American students or staff:
   What is your favorite...?
   What do you have in your room at home?
   Tell me about your...?
   Interviews may be taped on cassettes.
54. Have the more advanced ESL student conduct a poll (with specific directions) by
   asking certain questions of her peers (American students) and then forming some
   conclusions. This is good for comparison/contrast, gathering and organizing mate-
   rial, and making conclusions.
55. Ask young American children to teach jump rope rhymes to the ESL student.
56. Copy the lyrics of a current popular song and have the ESL student memorize them.
57. Ask an American peer to simplify a pop song. Underline the problem vocabulary or
   structures in a current song and ask an American student to explain the meanings to
   the ESL student.
58. Play "Bingo". It is a good game for teaching listening comprehension and numerals.
59. Play "Concentration". This is another good game for teaching vocabulary. Cut out
   pictures. Mount them on cards of equal size, making sure you have two identical
   pictures for each object. Turn all the cards face down and have the student try to
   match cards. Each time she turns a card over (whether or not it is a match), she
   must say something about the card.
60. Use pictures and other language materials you already have and adapt them. Teachers from the higher grades can borrow from elementary teachers (as long as the pictures match the age/interest level of the student).

61. Use sequence cards, strip stories, model clocks—materials that are already in school.

62. Record several simple instructions on a cassette to allow ESL students to proceed at their own pace.

63. Make a list of activities you expect the ESL student to complete in a specified period of time. Restrict the content in these activities, but make up a variety of activities (speaking, listening, reading exercises, watching filmstrips, and writing) on the same topic.

64. Use the "Neighborhood Map" idea. Let the ESL student draw a map of her neighborhood (perhaps with the help of her American peer), using pencils for the first sketch and then crayons for the finished product. Ask her to draw major streets, stores, businesses, and houses, including her own house or apartment. Mount the map on cardboard or posterboard. Then, by using miniature cars, ask the ESL student to drive from her house to school. Emphasize directional signals.

65. Make a "My Words" box. After an ESL student is able to recognize a word when she hears it, pronounces the word with relative accuracy, uses it orally in a sentence, and writes it, she "owns" the word. Let her write each word on an index card as she masters it and then keep her cards in her "My Words" file box.

66. Use rhymes and songs that children enjoy. Rhymes and songs usually contain short phrases and repetition, elements that are vital in second language teaching. If you need more songs, consult your music teacher.

67. Teach specific verb tenses by asking the ESL student to write appropriate captions under corresponding pictures. Label some of the objects in the picture to make the task easier.

68. Consult your kindergarten teacher or reading specialist for materials. Many of the materials used with American children to check reading readiness can be used with the ESL student. Examples: exercises on left to right movement, identification of shapes, discriminating between big and little, etc.

69. Make an audio cassette of the words of a simplified dictionary, such as the Oxford Picture Dictionary, so that the ESL learner can read and hear the words at the same time.

70. Use simplified books with accompanying read-along records and tapes available from a number of commercial publishers.

71. Teach specific vocabulary by placing the actual objects or pictures of them on a chalk tray, teaching the names, and then taking some away and seeing how many names she can remember.

72. Use pantomimes and pantomime games such as "Charades" for teaching present progressive.

73. Use dolls or stuffed animals to teach vocabulary singular/plural, imperatives, subject-verb agreement, pronouns, and possessives. Utilize peer tutoring (playing) to reinforce learning and to provide review.

74. Use toy telephones to teach numbers, dialing, simple dialogs.

Mexico
(United Mexican States)

CUSTOMS AND COURTESIES

Greetings
The usual greeting is a handshake or a nod of the head, although a full embrace between friends is common. Women often greet each other with a kiss on the cheek. Mexicans typically stand close to each other while talking, sometimes touching their friend’s clothing. Mexicans are generally very friendly and polite in their greetings. Verbal greetings vary, but three common ones are: Buenos días (Good morning.), Buenas tardes (Good afternoon.), and Buenas noches (Good evening or good night.). A casual greeting is ¡Hola (Hello.). Men are referred to as Señor (Mr.); women as Señorita (Miss). Only when one is sure a woman is married is the title Señora (Mrs.) used.

Visiting
Mexicans are very hospitable. Unannounced visitors are usually welcome and served refreshments. Mexicans enjoy conversation and socializing with friends. On special occasions such as birthdays or Mother’s Day, gifts are important and serenading is still popular.

Eating
When eating, both hands are kept above the table. Guests do not leave directly after the meal, but stay for conversation. Food purchased on the street is usually eaten at the stand. It is inappropriate for adults to eat while walking on the street. Bland foods such as bread or rice are eaten with spicy foods to relieve the burning sensation. Many also use a pinch of salt for relief. Hot, spicy food is called picante, while hot (temperature) food is called caliente. Some foods are eaten with utensils, others with the hand. Tortillas are often used as scoops for sauces.

Gestures
“No” can be indicated by making the hand from side to side with the index finger extended and palm outward. The “thumbs up” gesture is used for approval. Items are handed, not tossed, to another person. A common way to beckon a person is with a “pssst-pssst” sound, which is not considered impolite. If someone sneezes, a person may say salud (Good health). Hand and arm gestures are often used in conversation.

THE PEOPLE

General Attitudes
The concept of time is less precise in Mexico than in the United States, although this is changing in urban areas. Generally, Mexicans feel individuals are more important than schedules. If a visitor or business associate drops in unexpectedly, most Mexicans will stop to
talk, regardless of how long it takes and even if it makes the person late for something else. Business contacts are often made during the two- or three-hour lunch break. Actually, these are social meetings, for the most part, and business is conducted in the last few minutes. The Mexican people are generally proud of their country, despite the difficult challenges it continues to face. They do not appreciate citizens of the United States referring to themselves as “Americans,” as if they are the only Americans. Mexicans are also Americans. It is more polite to refer to oneself as a citizen of the United States.

**Personal Appearance**

Most Mexicans wear clothing that is also common in the United States, especially in the urban areas. But there are also many types of traditional clothing worn in rural areas—either daily or for festivals. In some areas, a man wears a wool poncho (serape) over his shirt and pants when it is cold. His wide-brimmed hat is made of straw. His wife may wear a long, full skirt. In cooler weather, a shawl (rebozo) may cover her blouse. The designs and colors are often markers of a specific region. Mayan Indians also wear traditional clothing, such as black wool skirts for women. People from various regions of Mexico wear many different kinds of clothing, but color and beauty are two common features for all of them.

**Population**

There are 87.8 million people in Mexico, a population that is growing at 2.2 percent annually. Mexico City, the capital, has a population of nearly seventeen million—one of the largest cities in the world. About 60 percent of the population is mestizo (mixed Spanish and Indian). Thirty percent of the population is pure Indian (also called Amerindian) or predominantly Indian. These are the descendants of the Mayan and Aztec empires. About 9 percent is of European ancestry. Most Mexicans tend to identify with their Indian and Spanish heritages.

**Language**

Spanish is the official language of Mexico. There are perhaps as many as one hundred Indian languages still spoken in parts of Mexico, such as Tzotzil, Nahuatl (Aztec), Maya, Otomi, Zapotec, Mixtec, or Tzeltal. English is understood by many in large urban areas.

**Religion**

The majority of Mexicans (97 percent) are Roman Catholic. The Catholic Church is very much a part of the culture, attitudes, and history of all Mexicans. Other Christian churches are active in Mexico. The constitution guarantees freedom of worship.

**LIFE-STYLE**

**The Family**

Except in urban areas, where the trend is to have smaller families, Mexican families are generally large (more than three children). Family unity is very important. Indeed, family responsibilities often come before all other responsibilities. Divorce is relatively low, due in part to the dominance of the Catholic faith. The Catholic Church does not support divorce. The father is the leader of the family, but the mother runs the household. A household, especially in rural areas, may include members of the extended family.

**Dating and Marriage**

While a chaperone was once common on dates, the practice has significantly diminished. Today, instead of calling on a girl at her home, the boy often meets the girl at a prearranged place. In urban areas, dating habits are similar to those in the United States. Parental approval of the boyfriend, however, is still important. In some areas, it is considered a mark of poor character for a girl to go out alone after dark. It is common for Mexican males to make piropos (flattering personal comments) to females, to which the females generally do not respond. Marriage customs follow Catholic traditions. Common law marriage is also practiced and recognized.

**Diet**

Staple foods include corn, beans, and chiles. They are combined with spices, vegetables, and meats or fish in the daily meals. Of course, different foods are eaten in different parts of the country, but some are common throughout the nation. For example, tortillas (made from cornmeal) are eaten everywhere, either alone as bread or as part of a meal. Some common foods include frijoles refritos (refried beans), torta (hollow roll stuffed with meat or cheese), quesadilla (tortilla baked with cheese), mole (spicy sauce), taco (folded tortilla filled with meat, cheese, and onions), and many others. Many names of Mexican food are common in the United States because of the popularity of Mexican restaurants. The main meal of the day is eaten in early afternoon. A light dinner is eaten late in the day (as late as 9:00 P.M.).

**Business**

Businesses are generally open from 9:00 A.M. to 6:00 P.M., although many shops in smaller towns close between 2:00 and 4:00 P.M. for the midday meal. Street vendors and open air markets are common. Bargaining is common in these instances. Purchased items are customarily wrapped or placed in a bag before being carried in public. Government offices usually close by 2:30 P.M. In rural areas, weekly market days provide foods and other goods to the people.
Recircation

Soccer is the most popular sport in Mexico. The sport that draws the next highest number of spectators is the bullfight. Jai'ai, a fast moving type of handball, is both a spectator and participation sport. Other participation sports include baseball, basketball, tennis, golf, and volleyball. Mexicans enjoy their own form of the rodeo called charreada, which is often accompanied by a fair-like atmosphere. The people’s love for music and dancing is evident in the many recreational activities that involve both. Day-long fiestas and week-long fiestas nearly always include a mariachi band or other type of musical group playing for dancing or just listening. Fireworks, feasts, and bullfights are also common festival activities. These local celebrations always provide relaxation and fun for the people. Watching television is a favorite leisure activity, especially in urban areas.

Holidays

As a predominantly Catholic nation, Mexico celebrates many Catholic holidays. Every village, town, and city has a patron saint, for which there is an annual celebration. Some of the main religious holidays include St. Anthony’s Day (17 January), when children take their pets to church to be blessed by St. Anthony, the patron saint of animals; Carnival Week, the week of parties and parades before Lent; Easter (Thursday through Sunday); Corpus Christi (May or June); Assumption (15 August); All Saints Day (1 November), on which the dead are remembered; All Souls Days (2 November), on which, according to Indian tradition, food is prepared to feed returning souls; and Christmas, which is celebrated with nightly parties (posadas) beginning 16 December. The poinsettia flower originated in Mexico and is associated with the legend of a poor boy’s gift to the Christ child. Most Mexicans attend a midnight mass on Christmas eve.

National public holidays include New Year’s Day, the birthday of Benito Juárez (21 March), Labor Day (1 May), Cinco de Mayo (5 May, which celebrates an 1867 victory over the French), Independence Day (16 September), Columbus Day (12 October), Revolution Day (20 November), and the Day of the Virgin Guadalupe (12 December).

THE NATION

Land and Climate

Mexico is about three times the size of Texas, or about one-fifth the size of the United States. It shares its northern border with the United States and its southern border with Guatemala and Belize. Much of the north is dry and hot, while tropical jungles are found in the south. Mexico is rich in natural resources including oil, natural gas, silver, iron ore, coal, copper, gold, lead, and zinc. The central plateau, where Mexico City is located, is bounded by two mountain ranges, the Sierra Madre Oriental on the east and the Sierra Madre Occidental on the west. In all, two-thirds of the country is covered by mountains, many of which are extinct volcanos. Temperature and rainfall vary with altitude and region. In the mountains, alpine conditions prevail. In Mexico City, the climate is more temperate. Rain falls mainly between November and May on the plateau. In the south, humidity and temperatures are higher.

History

The history of Mexico boasts a long line of advanced Indian civilizations whose accomplishments rival those of the Egyptians and early Europeans. They had accurate calendars, understood astronomy, were master craftsmen, and built huge empires. The Olmecs are considered to have been among the first inhabitants of the area around 2000 B.C. The Mayan Empire built incredible cities throughout North and Central America but fell in the twelfth century. The Aztecs were the last great empire and were conquered by the Spanish in 1519. The Spanish virtually destroyed the Aztec culture. They also brought Christianity to the land and ruled until the nineteenth century.

A drive for independence began in September 1810, led by Miguel Hidalgo, a Mexican priest. Independence was gained in 1822. Mexico was one of the first countries to revolt against Spain. A constitution was adopted in 1824 and a republic was established. However, Antonio López de Santa Ana took power in 1833 and ruled as a dictator. During his regime, Texas seceded (1836) and joined the United States. Also, Mexico fought a war (1846–48) with the United States and lost more territory (much of the current western United States). Santa Ana resigned in 1855 and Benito Juárez became president. In 1861, French troops invaded Mexico City and named Austrian Archduke Maximilian the emperor of Mexico. Forces under Juárez overthrew Maximilian in 1867. Another dictator, Porfirio Díaz, came to power in 1877 and was overthrown in 1910, when Mexico entered a period of internal political unrest and violence.

That period, ending in the 1920s, became Mexico’s social revolution. The Institutional Revolutionary Party (PRI emerged as the leader of the nation in 1929. Political unrest continued in the 1930s, but Mexico has been basically stable since 1940. However, the PRI ruled the country as a single party and restricted political dissent for many years. In 1988, when Carlos Salinas de
Gotari was elected president, promises were made to bring greater democracy to Mexico through political and economic reform. Many changes have taken place, but full democracy remains to be established in the coming years.

Government
Mexico has a federal government led by a president. There is no vice president. The president is elected directly by the people. Voting is compulsory for all adults eighteen and older. A president may only serve one term, and a legislator is not allowed to serve two consecutive terms. The legislature is composed of a Senate and Chamber of Deputies. While the states are autonomous, the federal government has strong powers and controls things such as education and certain industries.

Economy
Due largely to the discovery of oil in Mexico, the economic situation has improved a great deal over the last fifty years. In the 1980s, however, lower world oil prices, high debt, high inflation, and unemployment, as well as a destructive earthquake in Mexico City, all severely hindered economic growth. However, the economy is making a strong comeback, with current growth above 2.5 percent. To stimulate the economy, the government sold some state-owned companies, attracted foreign investment, and liberalized trading regulations. The current average annual gross domestic product (GDP) per capita is US$2,165.

Agricultural pursuits employ about 26 percent of the labor force. Major crops include corn, cotton, wheat, coffee, sugarcane, sorghum, oilseed, and vegetables. The agriculture sector also produces rubber, cocoa, and chicle (used in making chewing gum). Unfortunately, Mexico is also a major supplier of marijuana. Government efforts to stem the drug trade have been significant, but they have also cost a great deal of money. Mexico cooperates with the United States in fighting drug traffickers.

Mining and petroleum are the two most important industries, but they employ less than 2 percent of the labor force. Tourism is important for earning foreign exchange and provides employment for many people. In addition to oil and coffee, Mexico exports agricultural products, shrimp, cotton, and engines. The United States is Mexico’s principal trading partner.

Education
Education is compulsory and free between ages six and fourteen. After the first six years of primary education, students enter either three years of secondary school, five years of college preparatory education, or a six-year, teacher-training school. There are also numerous special and vocational schools to choose from.

For the Traveler
No visa is necessary for stays of up to three months, although proof of citizenship is required. No vaccinations are needed. For some locations, malaria suppressants may be advisable. Mexico’s tourist industry is well-developed and offers beaches, archaeological sites, grand colonial cities, and many other attractions. Contact the Mexican Government Tourist Office, 405 Park Avenue, Suite 1002, New York, NY 10022, for more information.

FOR FURTHER INFORMATION
As a briefing, this Culturgram is designed to be only one tool in building bridges of understanding. Societies are complex and individual people are very different. Because this Culturgram is only an introduction to the people of Mexico, it is general and may not apply to all regions of the country. For more detailed information, we suggest you consult your local library. Or write to the Embassy of Mexico, 2829 Sixteenth Street, NW, Washington, DC 20009.
The chronological listing of key historical events related to U.S. ethnic groups offers the teacher a historical reference to developing a perspective of events considered to be significant in U.S. history. This material can be used as reference to develop a number of teaching activities or stimulate student research projects.

The listing has been reprinted with permission and appears in Appendix A of the following book:

A Chronology of Key Events

*Indicates an important immigration act.

<table>
<thead>
<tr>
<th>Date</th>
<th>Event</th>
</tr>
</thead>
<tbody>
<tr>
<td>1513</td>
<td>Juan Ponce de Leon landed on the Florida peninsula while on route from Puerto Rico. The relationship between Europeans and Indians north of Mexico began.</td>
</tr>
<tr>
<td>1519</td>
<td>Hernan Cortez, the Spanish conquistador, and a group of Spaniards arrived in the region that is now Mexico.</td>
</tr>
<tr>
<td>1565</td>
<td>The Spaniards established the St. Augustine colony in Florida, the first settlement organized by Europeans in present-day United States.</td>
</tr>
<tr>
<td>1619</td>
<td>The first Africans arrived in the English North American colonies.</td>
</tr>
<tr>
<td>1620</td>
<td>The Pilgrims came to America from England on the Mayflower and established a settlement at Plymouth, Massachusetts.</td>
</tr>
<tr>
<td>1637</td>
<td>More than 500 American Indians were killed by the colonists in a massacre known as the Pequot War.</td>
</tr>
<tr>
<td>1654</td>
<td>The first Jewish immigrants to North America settled in New Amsterdam to escape persecution in Brazil.</td>
</tr>
<tr>
<td>1683</td>
<td>German immigrants settled in Pennsylvania.</td>
</tr>
<tr>
<td>1718</td>
<td>The Scots-Irish began immigrating to North America in large numbers.</td>
</tr>
<tr>
<td>1754-63</td>
<td>The French and Indian War occurred.</td>
</tr>
<tr>
<td>1798</td>
<td>A Federalist-dominated Congress enacted the Alien and Sedition Acts to crush the Republican party and to harass aliens.</td>
</tr>
<tr>
<td>1812</td>
<td>The War of 1812, a war between the United States and Britain, caused deep factions among the Indian tribes because of their different allegiances.</td>
</tr>
<tr>
<td>1815</td>
<td>The first mass immigrations from Europe to North America began.</td>
</tr>
<tr>
<td>1830</td>
<td>Congress passed a Removal Act, which authorized the removal of Indians from east to west of the Mississippi.</td>
</tr>
<tr>
<td>1831</td>
<td>Nat Turner led a slave revolt in which nearly 60 Whites were killed.</td>
</tr>
<tr>
<td>1836</td>
<td>Mexico's President Santa Anna and his troops defeated the Texans at the Alamo. Six weeks later Santa Anna was defeated by Sam Houston and his Texan troops at San Jacinto.</td>
</tr>
<tr>
<td>1845</td>
<td>The United States annexed Texas, which had declared itself independent from Mexico in 1836. This was one key event that led to the Mexican-American War.</td>
</tr>
<tr>
<td>1846-48</td>
<td>A series of potato blights in Ireland caused thousands of its citizens to immigrate to the United States.</td>

</table>
On May 13, 1846, the United States declared war on Mexico and the Mexican-American War began.

The United States and Mexico signed the Treaty of Guadalupe Hidalgo that ended the Mexican-American War. Mexico lost nearly one-third of its territory, and the United States acquired most of the territory that comprises its southwestern states.

The California legislature passed a discriminatory Foreign Miner's Tax that forced Chinese immigrants to pay a highly disproportionate share of the state taxes.

Castle Garden, an immigration station, opened in New York City. The antiforeign Know-Nothing Movement reached its zenith and had a number of political successes in the 1855 elections. The movement rapidly declined after 1855.

Juan N. Cortina, who became a U.S. citizen under the provisions of the Treaty of Guadalupe Hidalgo, led a series of rebellions against Anglo-Americans in the Southwest.

On January 1, 1863, President Abraham Lincoln issued the Emancipation Proclamation, which freed slaves in those states still fighting the Union.

Nearly 300 Cheyennes were killed in a surprise attack at Sand Creek, Colorado. This event is known as the San Creek Massacre.

The transcontinental railroad, linking the West to the East, was completed. Chinese laborers did most of the work on the Pacific portion of the railroad. The unsuccessful Wakamatsu Colony, made up of Japanese immigrants, was established in California.

A White mob in Los Angeles attacked a Chinese community. When the conflict ended, 19 Chinese were killed and their community was in shambles.

In the disputed Hayes-Tilden election, the Democrats and Republicans made a political bargain that symbolized the extent to which northern Whites had abandoned southern Blacks. Sioux tribes, under the leadership of Sitting Bull, wiped out Custer's Seventh Calvary at Little Big Horn. This was one of the last victories for American Indian tribes.

The Chinese Exclusion Act was enacted by Congress. Another congressional immigration act established a head tax of fifty cents and excluded lunatics, convicts, idiots, and those likely to become public charges.

A serious anti-Chinese riot occurred in Rock Springs, Wyoming. Twenty-eight Chinese were killed, and many others were wounded and driven from their homes.

The Apache warrior Geronimo, surrendered to U.S. forces in September, 1886. His surrender marked the defeat of the Southwest tribes. The Haymarket Affair in Chicago increased the fear of foreign "radicals" and stimulated the growth of nativistic sentiments in the United States.

Congress passed the Dawes Severalty Act, which was designed to terminate partially the Indian's special relationship with the U.S. government.

The Scott Act prohibited the immigration of Chinese laborers and permitted only officials, teachers, students, merchants, and travelers from China to enter the United States.

Three hundred Sioux were killed in a conflict at Wounded Knee Creek in South Dakota.

Eleven Italian Americans were lynched in New Orleans during the height of American nativism, after being accused of murdering a police superintendent.
1892 Ellis Island opened and replaced Castle Garden as the main port of entry for European immigrants.

1893 Queen Liliuokalana of Hawaii was overthrown in a bloodless revolution led by American planters. The Republic of Hawaii was established, with Stanford B. Dole as president.

1896 In a historic decision, Plessy v. Ferguson, the Supreme Court ruled that "separate but equal" facilities were constitutional.

1898 Hawaii was annexed to the United States. Under the terms of the Treaty of Paris, the treaty that ended the Spanish-American War, the United States acquired Puerto Rico, Guam, and the Philippines. Cuba became independent of Spain but was placed under U.S. tutelage.

1900 With the Foraker Act, the United States established a government in Puerto Rico to which the president of the United States appointed the governor and the Executive Council.

1901-10 Almost 9 million immigrants entered the United States, most of whom came from southern and eastern Europe.

1908 The United States and Japan made the Gentlemen's Agreement, which was designed to reduce the number of Japanese immigrants entering the United States.

1910 The National Association for the Advancement of Colored People (NAACP) was organized.

A Mexican revolution caused many Mexican peasants to migrate to the United States looking for jobs. Other immigrants came to escape political turmoil and persecution.

1913 The California legislature passed a land bill that made it difficult for Japanese immigrants to lease land.

*1917 Thirty-nine African Americans were killed in a bloody riot in East St. Louis, Missouri.

A comprehensive immigration bill was enacted that established a literacy test for entering immigrants. The Jones Act was passed by the U.S. Congress. It made Puerto Ricans U.S. Citizens and subject to the U.S. draft.

1920 The Hawaiian Homes Commission was started to benefit the native Hawaiian. Very little of the land involved was used for its stated purpose. The number of persons born in Puerto Rico and living in the United States was 11,811. That number increased in the year 1935.

*1924 The Johnson-Reed Act established extreme quotas on immigration and blatantly discriminated against southern and eastern European and non-White nations.

1925 A large number of Filipinos began to immigrate to Hawaii and the U.S. mainland to work as field laborers.

1927 The Filipino Federation of Labor was organized in Los Angeles.

1928 The League of United Latin American Citizens was formed in Harlingen, Texas.

1929 An anti-Filipino riot occurred in Exeter, California, in which more than 200 Filipinos were assaulted.

1930 The Japanese American Citizenship League was organized.

*1934 Congress passed the Tydings-McDuffie Act. This act promised the Philippines independence and limited Filipino immigration to the United States to 50 per year.
1935  President Franklin D. Roosevelt signed the Repatriation Act. The act offered free transportation to Filipinos who would return to the Philippines. Those who left were unable to return to the United States except under a strict quota system.

1942  On February 19, 1942, President Franklin D. Roosevelt issued Executive Order 9066, which authorized the internment of Japanese Americans who lived on the West Coast. The United States and Mexico made an agreement that authorized Mexican immigrants to work temporarily in the United States. This project is known as the bracero program.

1943  White violence directed at African Americans led to a serious riot in Detroit, in which 34 people were killed. The anti-Mexican zoot suit riots occurred in Los Angeles during the summer.

1946  On July 4, 1946, the Philippines became independent.

1952  The McCarran-Walter Immigration and Nationality Act was passed by Congress. It eliminated race as a factor in immigration. However, the national origins quota system remained but was liberalized.

1954  The Refugee Relief Act permitted 5,000 Hungarian refugees to enter the United States. In a landmark decision, Brown v. Board of Education, the Supreme Court ruled that school segregation was inherently unequal. The U.S. Immigration and Naturalization Service began Operation Wetback, a massive program to deport illegal Mexican Immigrants.

1959  Fidel Castro took over the reins of power in Cuba from the government of Fulgencio Batista. After this revolution, many Cuban refugees entered the United States. Hawaii became the fiftieth state of the United States.

1960  On February 1, 1960, the sit-in movement, which desegregated public accommodation facilities throughout the South, began in Greensboro, North Carolina.

1961  The National Indian Youth Council was organized.

1962  Commercial air flights between the United States and Cuba ended. Immigration from Cuba to the United States became strictly clandestine.

1963  More than 200,000 people participated in a "March on Washington for Freedom and Jobs."

1964  The Civil Rights Act of 1964, the most comprehensive civil rights bill in American history, was enacted by Congress and signed by President Lyndon B. Johnson.

1965  With the passage of the Civil Rights Act of 1965, Puerto Ricans were no longer required to pass an English literacy test to vote in New York State.

1965-68  A series of riots occurred in American cities in which African Americans expressed their frustrations and discontent.
1966  Stokely Carmichael issued a call for Black Power during a civil rights demonstration in Greenwood, Mississippi.

1970  Herman Badillo was elected to the U.S. House of Representatives. He was the first Puerto Rican elected to Congress.

1973  African Americans were elected mayors in Detroit, Atlanta, Los Angeles, and other cities.

1974  The U.S. Supreme Court ruled in the Lau v. Nichols case that schools should provide students with instruction in their native language. This ruling gave bilingual-bicultural education in the United States a tremendous boost.

1976  Jerry Apodaca and Raul Castro were elected governors of New Mexico and Arizona, respectively.

1978  In the case of Regents of the University of California v. Bakke, the Supreme Court of the United States upheld the idea of affirmative action but ruled against strict racial quotas. The court concluded that the affirmative action program at the Medical School of the University of California at Davis was unconstitutional.

1980  The 1980 U.S. Census indicated that the population of some ethnic groups in the United States increased dramatically in the decade between 1970 and 1980. Mexicans, Koreans, and Chinese were among the groups whose population increased the most. While the White population increased only 6% between 1970 and 1980, the population of Asian and Pacific islanders more than doubled (from 1.5 million to 3.5 million) and the Hispanic population increased more than 60%. The Refugee Relief Act of 1980 was enacted. It enabled more refugees to enter the United States.

1986  The U.S. Senate approved an international treaty that outlaws genocide and that makes it an international crime to kill or injure members of national, racial, or ethnic groups. The treaty, approved by 69 other nations, was written after Jews became victims of the Nazi holocaust.

*The Immigration Reform and Control Act of 1986 was passed by Congress and became law. The act imposed severe penalties on employers who knowingly hired illegal immigrants, and it gave amnesty to many illegal immigrants who had been living in the United States since January 1, 1982.

1988  The Civil Liberties Act of 1988 was passed by Congress and signed by President Ronald Reagan. The act provided compensation for the Japanese Americans and the Aleuts of the Pribilof Islands and the Alutian Islands for the losses they incurred for being relocated during World War II.
