In 1991, a study was conducted of students who withdrew from one of three courses at San Jose City College (SJCC) in fall 1990 or spring 1991 to elicit their reasons for withdrawing. Of 254 students who withdrew from Math 310, Learning Skills 340, or English 321, 28% (N=71) were interviewed in-depth about their commute to campus; educational objectives; and personal, academic, classroom-related, methodology-related, instructor-related, and college-related reasons for withdrawing. In addition, they were asked what the college could have done to help them remain in the course, and what they found most helpful or enjoyable about the class. A final set of questions focused on their study habits, advice for other students, and educational plans. Similar questions were asked of a smaller sample of successful students. Major study findings included the following: (1) 71% of those interviewed thought about dropping within the first 4 weeks; (2) 85% did not talk to their instructor about withdrawing; (3) 84% of the dropouts worked 40 or more hours per week, compared to 45% of the successful students; (4) 46% indicated a degree or certificate as a goal, compared to 57% of the successful group; (5) 17% cited classroom-, methodology-, instructor-, or college-related reasons for withdrawing; (6) 16% of the reasons for withdrawing were college-related; (7) 64% indicated personal reasons for withdrawing; (8) 30% of the personal reasons were related to sickness, 29% were job-related, and 16% were due to difficulty in paying for college; (9) 15% of the respondents felt they were placed too high, and 19% felt they were placed too low; (10) 89% of the withdrawing students studied alone, compared to 57% of the successful students; and (11) both withdrawing and successful students advised fellow students to attend all classes, do all assignments, ask questions, and stick with it. Recommendations and the interview schedule are provided. (JMC)

SAMPLE DATA HIGHLIGHTS

- 71% of those interviewed thought about dropping within the first four weeks

- 85% did not talk to their instructor about withdrawing

- Less than half (46%) indicated a degree or certificate as a goal compared to 57% of the successful group

- Only 48% felt that the college could have done nothing to help; personal support and attention could have helped most of the remaining 52%

- 89% of the withdrawing students studied alone compared to 57% of the successful students
BACKGROUND & ACKNOWLEDGEMENTS

This project was funded by the San Jose/Evergreen Community College District’s Title III Grant. Withdrawing students from entry level developmental courses were interviewed to determine why they withdrew. Recommendations were formulated from the data.

DATA HIGHLIGHTS

- 28% of the 254 withdrawing students were interviewed

- Both successful & withdrawing students thought the instructors were friendly (60%)

- 71% of those interviewed thought about dropping within the first four weeks

- 85% did not talk to their instructor about withdrawing

- 84% worked 40 or more hours/wk compared to 45% for the successful students

- 31% took 30 or more minutes to get to school

- Less than half (46%) indicated a degree or certificate as a goal compared to 57% of the successful group

- 17% indicated classroom-, methodological-, instructor-, or college-related reasons for withdrawing

- 16% of the reasons for withdrawing were college-related; however, 50% of those referred to the cost of books

- 64% indicated personal reasons for withdrawing

- 30% of personal reasons related to withdrawal were due to sickness; 29% to job-related reasons; 16% to financial difficulty paying for college

- 15% felt they were placed too high; 19% too low

- Only 48% felt that the college could have done nothing to help; personal support and attention could have helped most of the remaining 52%

- 89% of the withdrawing students studied alone compared to 57% of the successful students

- Both withdrawing and successful students gave the following advice:

  Attend all classes
  Do all assignments
  Ask questions
  Stick with it

- 87% of interviewed withdrawing students and 82% of interviewed successful students said they intended to attend SJCC "next semester"
RECOMMENDATIONS

(Drawn from both Withdrawing and Successful Student Studies)

1. Using classroom-based research techniques, ask students beginning week #1 how they are doing and if they are even thinking of withdrawing.

2. For students indicating any kind of difficulty, use a program assistant to provide immediate staff personal contact, assessment of support needs, and provide the needed support.

3. Establish a "hot line"—a phone number which will ensure attention to student questions, concerns, and problems. Use answering machine and post "live" hours on the green sheets. Use the program assistant to answer the questions.

4. Build in classroom study and support groups.

5. Provide several graded assignments (at least one the first week) to help the instructor/students assess whether students need to withdraw. The week prior to the date to drop without a notation on a student’s transcripts, all students should be asked to make a clear decision to

   A. withdraw
   B. succeed in the class

6. All students without a clear goal should be assisted in developing an educational/career/job plan within the first four weeks of class. A career/job planning study skills class blocked with entry level classes could be very helpful.

7. Directly teach students within the first week:

   A. How to study for the class
   B. How to study for class exams
   C. How to study in groups
   D. How to structure a study schedule
   E. Where on campus he/she can structure study time (personal tour recommended)
   F. How to balance work, college, and home responsibilities
   G. That alternative methodologies exist for this course

8. Provide counselors with in-service training on the different methodologies available for reading, writing, and math in developmental studies so a closer match can be made between a student’s needs and the method of instruction.

9. Structure developmental courses as variable unit courses so that a student can succeed at one unit or two units rather than fail at three units.
SUMMARY IMPRESSIONS

BY

TITLE III INTERVIEWER PATRICIA FERRARO

As the interviewer for the Title III Grant, I conducted many interviews. This gave me a variety of insightful impressions into the lives of many randomly selected students.

Although the interviews fell into two categories (successful and unsuccessful), the students shared a common motivation to better themselves.

However, I found that the successful students were self-motivated, focused, and directed in setting realistic goals in spite of their fears. On the other hand, the profile of the unsuccessful student demonstrates a lack of self-confidence due to a deficiency of emotional support in their private lives. Their need for encouragement from an unbiased, objective, and impartial source was evident.

In conclusion, I found an abundant need for this grant to assist in the success of the college student.
WITHDRAWING STUDENTS STUDY SJCC F90 AND S91

BACKGROUND

Discovering the real reasons students withdraw from college programs is of primary importance to the development of effective intervention strategies to prevent this loss. San Jose City College’s Title III Grant provided the opportunity for in-depth interviews of students and former students in an attempt to elicit something beyond the usual “socially acceptable” and “predictable” answers for withdrawal. The resulting student profile was used to design strategies to help students stay in school, succeed, and persist.

METHOD

Withdrawing students were identified for Fall 1990 from the computer Class Roster Inquiry (BSR028, 2/13/91). There were a total of 156 students who withdrew from Math 310 of whom 41 were picked at random for this study; a total of 41 students from LS 340, all of whom were included; and a total of 11 who withdrew from English 321, all included in the study. The Spring 1991 withdrawing students were also taken from the Class Roster Inquiry beginning on February 25, when drops started appearing on the screen, continuing through the final weeks of the semester. All students who dropped from these classes during this time were included in the study, 138 from Math 310, 17 from LS 340, and 6 from English 321. The objective was to reach and interview them as quickly as possible after they dropped in order to get their immediate responses to the questionnaire. The Fall students were interviewed throughout the semester as time permitted. As it turned out, it was possible to reach and interview only 25% of the Fall students because many had moved, changed phone numbers, did not respond to the written questionnaire, or declined to participate in the interview. Over twice as many Spring students were interviewed (comprising a slightly higher percentage [30%] of the total Spring group). Because of the relatively low response received from both groups, it was decided to combine the Fall and Spring data for this report; however, the statistics for each group separately are provided.

At least three attempts were made to contact each student by phone or in person on campus. Those who were unreachable were sent questionnaires by mail. Personal contact proved far more successful: 0 of 142 questionnaires mailed, only eight were completed and returned. When the interviews were complete, the responses were compiled in a database and tabulated at the end of the study (June 15, 1991.)
For comparative purposes, a concurrent study of successful students from Fall 1990 was conducted. These students were asked the same questions that the withdrawing students were asked. Although far fewer in number, their responses were also compiled and tabulated and are presented in a separate report.

Students who said "yes" commented: "I was encouraged to take a 'W'." The teacher was "understanding and helpful." "I was in the wrong class."

COMMENTS:

The vast majority (53 out of 62; 85%) did not talk to the instructor about dropping. Some expressed regret and felt that if they had talked to the instructor, they may have been encouraged to stay in class.

CONCLUSION:

EARLY INTERVENTION (FROM Q #1) COMBINED WITH STAFF CONTACT HAS POTENTIAL FOR RETAINING THE WITHDRAWING STUDENT.

Fourteen of the 45 working students (31%) didn't indicate how many hours/wk they worked.

COMMENTS:

69% of the withdrawing students who answered this question worked.

97% of the working group who indicated the number of hours worked, worked 20 or more hours per week.

84% of the working group who indicated the number of hours worked, worked 40 or more hours per week.

QUESTION #5: What is the most important reason, or reasons, for your withdrawing? (Consider both personal and college-related reasons.)

INTERVIEWER'S PERCEPTION:

Underlying many of these responses, according to the interviewer, is a basic lack of self-confidence in many of these students, a sense of their being overwhelmed by family and financial responsibilities which inhibit them from succeeding— or even continuing—in classes. Often, it seems to be a lack of encouragement and other support or information that causes the student to withdraw. The interviewer encountered a cooperation from the students she interviewed that often seemed to stem from their genuine sense of pleasure at being called by someone from the college—they were glad to know that someone cared about them. Some of the interviewer's remarks: "He re-enrolled because of interview!" "If we'd called sooner it might have helped." "Interview encouraged her." "Glad we called— (it was) encouraging."

The following is the general, broad breakdown of responses of the 69 students who answered, attributing one major reason for withdrawal to each student.

COMMENTS:

Most of these withdrawing students have very positive attitudes toward the college and their instructors. Mostly, (48%), they assume responsibility for their withdrawal from class and express the feeling that the college couldn't have done anything to alter their decision to withdraw. About a third of those who thought the college might have provided assistance which could have helped the student stay in class expressed a need for "more individual help" (6) and "more counseling" (8). The need for more child care services was indicated five times.

INTERVIEWER'S PERCEPTION:

Even though many students perceive that the college could not have prevented them from withdrawing, some of these students might have been able to finish their classes if they had had more encouragement (support groups, early discussion with faculty or staff about the student's decision to drop, intervention by way of phoning the student to see if they had all the information they needed and to show interest in the student's progress, etc.).

CONCLUSION: EARLY PERSONAL INTERVENTION CAN MAKE A DIFFERENCE.
QUESTION #7: What, if anything, did you find most helpful or enjoyable about the class?

COMMENTS:

Only a third of those interviewed responded to this question. Of those, about half either didn’t study or squeezed it in “on the bus,” or “when she could.” It would seem that the general lack of response to the question, as well as the apparent lack of study of most of those who did respond, may be a factor in the students’ withdrawal from classes.

CONCLUSION: Teaching students during the first week of class how to organize their study time could be very helpful.

- Take the self-test
- With brother. Didn't know what to do. Shy
- With classmate
- Would improve reading skills on his own
- Wrote hints on post test—looked at those
- 100% on all tests but one
- Did homework and reading
- From practice sheets
- I didn't
- Used examples in workbook

LS 340

- Didn't
- Review notes
- Hardly any time (worked till 1AM)

ENGL 321

- Doubled study time
- Read 1 hr/day
- Look through notes

CONCLUSION: Direct instruction on how to study for an exam should be helpful.
QUESTION #8H: What single piece of advice would you give to another student who wanted to be successful in this class?

MATH 310

"A LITTLE MORE CONSISTENT" "KEEP THE MATERIAL FRESH"
ASK QUESTIONS; CLARIFY YOUR QUESTIONS; KEEP ORGANIZED
BE CLEAR WITH THE COUNSELOR AS TO WHAT YOU CAN DO.

BECAME HOMELESS. "I MISS SCHOOL FRIENDS AND TEACHERS, NEED TO PAY BACK LOAN; LET MYSELF DOWN. THANKS FOR CARING." HE WANTS TO COME BACK.
DECLINED INTERVIEW BUT SAID HE DROPPED BECAUSE OF WORK.
HE FEELS SHE NEEDS LSC, SELF-PACED; FELT SPARKMAN WASN'T PATIENT ENOUGH--FEELS SHE IS A SLOW LEARNER, MEEK.
OLDER STUDENT RETURNING TO SCHOOL; NEEDS INFO, ENCOURAGEMENT. UNAWARE OF COUNSELING SERVICE. INTELLIGENT, BUT LACKS CONFIDENCE--DISCOURAGED.
VERY SHY PERSON; NEEDS STRUCTURED CLASS; COULDN'T UNDERSTAND STUDENT TUTORS WHEN THEY SPOKE; SHORT ON TIME.
FIN AID OFF. & COUNSELOR DISCOURAGED STUDENT BECAUSE OF 20-YR OLD DEBT AT ANOTHER COLLEGE. FEELS SHE NEEDS JOB SKILLS (COMPUTER COURSE?)
LIKED SISTER SPARKMAN AND INDIV STUDY; NEEDS SKILLS UPDATED; TOOK TOO MANY CLASSES. IS BRIGHT, LACKS CONFIDENCE; SHY ABOUT ASKING QUESTIONS.
TOO DIFFICULT; BAD TIME IN ENGL 322 LAST YEAR AFFECTED HER ATTITUDE; DESIRES MORE SCHOOLING....FROM MEXICO.
CLASS TOO EASY; SHE NEEDS TO TEST OUT OF IT--DIDN'T FOLLOW THRU WHEN INSTRUCTOR ARRANGED THIS FOR HER.
"WAS ABLE TO BE RE-ADMITTED--SUGGEST SEND THOSE NO-SHOW STUDENTS LETTER NEAR END START POSSIBLE TIME" (?????)
CLASS TOO EASY; TOOK TEST ON A BAD DAY WHEN SHE WAS TIRED.
ILLNESS; THIS STUDENT HAD A STROKE. WILL BE BACK IN THE FALL.
TOO HARD TO WORK & GO TO SCHOOL. STRESSFUL, OVERWHELMING. "HE SEEMED OPTIMISTIC, GLAD WE CARED ENOUGH TO CALL." 
??THIS STUDENT WASN'T AWARE THAT SHE'D BEEN DROPPED. MISSED 13 DAYS DEATH IN FAMILY.
HE NEEDS TO "TEST OUT" INTO A HIGHER LEVEL OF MATH.
NEEDS CHILD CARE; TOO MANY DIFFERENT TUTORS USING DIFF METHODS OF PROB-SOLVING--CONFUSING. SHEILA HELPFUL. GOAL-NURSING.
TEACHER "A REAL KICK"; HUSBAND INFLUENCED HER TO DROP; GLAD WE CALLED--ENCOURAGING.
STARTED TO TOO LATE, WILL TRY AGAIN.
VERY ANGRY WITH SCHOOL FOR DROPPING HER; FEELS SHE DID WORK ALTHO SHE DIDN'T ATTEND.
WANTS PERSONAL COUNSELING, SUPPORT GROUP. PROBLEMS AT HOME--COULDN'T STUDY THERE.
STUDENT HAD SURGERY; STUDYING MARKETING. LIKED PROGRAM BUT NOT ENOUGH TIME. STUDENT UNAWARE THAT SHE WAS DROPPED. LIKES MATH--"NOT STRICT, GIVES YOU A CHANCE."
GLAD WE CALLED, SHOWED INTEREST IN HIM. WILL COME BACK.
NO INTEREST IN THIS CLASS; SELF-PACED FORMAT "MORE FUN" THAN CLASSROOM SETTING.
WORK/SCHOOL SCHEDULE CONFLICT; SELF-PACED CLASS EASY TO DROP--HE PREFERS STRUCTURE.
HE ANSWERED ONLY ABOUT TRANSPORTATION AND #10--NOT ATTENDING SJCC NEXT SEMESTER.
JOB INTERFERED; MONEY PROBLEMS. CAME FROM MEXICO 3 YRS AGO. WANTS TO TAKE CLASS AGAIN.
CLASS DIDN'T INTEREST HER; WOULD HAVE LIKED LSC BETTER. LIKED TEACHER, BUT BORED.
GLAD TO GET CALL, INFO RE LSC. ONE COUNSELOR NO HELP; SECOND ONE HELPED.
DIDN'T LIKE SELF-PACED.
DIDN'T LIKE SELF-PACED CLASS; TRANSFERRED TO SATURDAY CLASS.
NEED FOR JOB INTERFERED; ALSO MISPLACED IN CLASS? "RESOURCE CENTER WAS
GREAT."

STUDENT IN HOSPITAL; MOTHER SAYS DON'T CALL BACK.
"I AM VERY SAD ABOUT MY HEALTH, IT MAKES ME DROP MY CLASSES." "THANKS FOR
MY TEACHER." HE HOPES TO RETURN. DIDN'T KNOW PROCEDURE FOR DROP.
MOVING, JOB PROBLEMS. DIDN'T LIKE SELF-PACED
JOB CONFLICT; NO TIME FOR SCHOOL. "REC'D LETTER OF THREAT" ABOUT BEING
DROPPED, IGNORED IT.

JOB INTERFERED, TOO MANY UNITS--GOT BEHIND. "CAN'T SEEM TO CONNECT WITH
COUNSELOR. IF WE'D CALLED SOONER IT MIGHT HAVE HELPED. HE LIKED CLASS.
GOT EVICTED. DIDN'T STUDY. NEEDS LOTS OF ENCOURAGEMENT. LIKES LSC
ATMOSPHERE, WANTS TO RETURN
BUSY MAN IN CONSTRUCTION; NOT ENOUGH TIME FOR SCHOOL. LIKED SELF-PACED
PROGRAM
HAS LEARNING DISABILITY. MAY TAKE CLASSROOM SETTING NEXT TIME. LIKES DIANA
HE HAD NO TIME FOR INTERVIEW; EMPLOYMENT IS A PROBLEM FOR HIM. HE'D LIKE
TO FINISH CLASS.

SHE IS RAISING 5 CHILDREN; SCHEDULING A PROBLEM--HAD TO DROP ENGL OR MATH.
COUNSELORS HAVE BEEN VERY HELPFUL
HE TOOK ON TOO MUCH; TOO BUSY. HE'S A MINISTER. NEEDS LSC? NEEDS ATTENTIVE
COUNSELING. HE WONDERS IF SCHOOL MEETS NEEDS OF ADULTS.

HE REGRETS DROPPING; SHOULD HAVE TRIED HARDER, STUDIED MORE.
INSECURE--DOESN'T KNOW WHO TO ASK FOR HELP. SUGGESTED THAT STAFF WEAR ID
PIN/BUTTON. HE RE-ENROLLED BECAUSE OF INTERVIEW!
NEVER ATTENDED CLASS--ILL; CALLED FOR INFO, GOT "RUN-AROUND." INTERVIEW
ENCOURAGED HER.

HE DOESN'T UNDERSTAND WHAT HE'S READING; TOO SHY TO ASK QUESTIONS--SAME
PROBLEM IN OTHER QUESTIONS. NEEDS ENCOURAGEMENT.
HOSPITALIZED IN COLORADO ON EASTER BREAK; WASN'T SURE IF SHE COULD RETURN.
DEPRESSED--WISHES SHE COULD HAVE FINISHED CLASS.
IS IN "GAIN" PROGRAM--MA JOHNSON IS WORKING ON PLACING HER. SHE MAY COME
BACK THIS FALL.

UNCLE DIED, FATHER INJURED IN WEST AFRICA; STUDENT REGRETTED HAVING TO
LEAVE SCHOOL. WILL RETURN. LIKES SCHOOL, TEACHER A LOT.
