Pima County Adult Education's Workplace Education Project provided workplace education classes at 8 worksites to 322 workers. The worksites included Hughes Aircraft Company; AirResearch Tucson Division; Burr-Brown Corporation; Westward Look Hotel; Tucson Medical Center; Redisson Suite Hotel; Manufacturing & Research, Inc.; and University of Arizona (Facilities Management). All participants were pretested; 249 completers were posttested. Teachers of English for speakers of other languages (ESOL) designed pre- and post-assessments that included speaking, listening, reading, and writing components. Math instructors designed pre- and post-assessments. Reading instructors created a reading assessment using company material. In the writing classes, a student writing sample was taken. (The 12-page report is followed by these appendixes: generic workplace curricula for reading skills, writing skills, math fundamentals, math for statistical process control, algebra, and ESOL; job-specific curriculum matrices; sample company-specific curricula and lessons; sample pre- and post-assessments; sample pre-posttest comparisons: basic math; holistic scoring guidelines for writing sample; sample student needs assessment; sample supervisor needs assessment; sample manager evaluation; sample student course evaluation; and articles about the project. An attached external evaluation report sees the development of assessment instruments as a major contribution.) (YLB)

37 ESOL students
10 ABE/GED students
47 workers who participated in same class for 2 or more cycles but only counted once
Pima County Adult Education’s (PCAE) Workplace Education Project, funded under the National Workplace Literacy Program, provided workplace education classes at eight worksites to 322 workers. The worksites included: Hughes Aircraft Company, AiResearch Tucson Division, Burr-Brown Corporation, the Westward Look Resort, Tucson Medical Center (TMC), the Radisson Suite Hotel, Manufacturing & Research, Inc. (MRI), and the University of Arizona (Facilities Management).

COMPARISON OF ACCOMPLISHMENTS TO OBJECTIVES

The following information compares actual accomplishments to the objectives contained in the approved application.

Objective 1
A minimum of 230 adults with inadequate basic skills will be recruited and trained in workplace classes.

Accomplishments
Three hundred and twenty-two workers were recruited and trained in on-site workplace classes. Additionally, 47 workers attended more than one ten-week cycle in ESOL or GED Preparation. These workers were only counted once.

Objective 2
A minimum of eight worksite locations, including both large and small Tucson employers, will be served.

Accomplishments
Eight worksites, including large and small employers, were served.

Objective 3
A minimum of 27 class cycles will be completed. A "class cycle" is a class held in a worksite location for an 8-15 week time period.

Accomplishments
Thirty-one class cycles were completed. The average class cycle was 10 weeks (20-40 hours of instruction).

Objective 4
All learners will be pre- and post-tested at the beginning and end of each cycle. Educational levels as well as job performance evaluations will be obtained.
Accomplishments
All learners were pre-tested and those that completed (249/77%) were post-tested. Educational gains as well as gains in self-esteem were obtained. It was difficult to obtain hard data on increased productivity and attendance at work because managers didn’t always respond to these questions. Although we do not have hard data on increased productivity and attendance at work, managers who did respond to these questions felt that participating workers were either productive and had good attendance already or they had improved in these areas.

Objective 5
A minimum of five meetings with the outside project evaluator will be held, to conduct and benefit from on-going evaluation.

Accomplishments
The outside evaluator, Nancy Siefer, met with the Project Manager, Linda Hellman, and the staff of the Workplace Education Project five times over the course of the grant period. The meetings included on-site visits to participating companies, advisory committee meetings, and staff meetings with the instructors. The evaluation process and activities are described in more detail on pages 7 & 8 in this Final Report.

Objective 6
Information about the project and materials developed will be disseminated to the Curriculum Coordination Center and the ERIC Clearinghouse. The project will be presented at one or more national or statewide conferences.

Accomplishments
Linda Hellman, Project Manager for PCAE’s Workplace Education Project, co-presented at the Project Directors’ Meeting in Washington, D.C. in May, 1991 on "What Works and What Doesn’t." Linda co-presented twice on workplace education at International TESOL (Teachers of English to Speakers of Other Languages) in Vancouver, B.C., Canada, in March 1992. She also presented in Tucson at the Society for Human Resource Managers. Ellen Grieser, Manufacturing Training Manager for Burr-Brown Corporation, co-presented at the Project Directors’ September, 1992 Close-Out Meeting in Washington, D.C. on the role of business in curriculum writing. Since Burr-Brown is one of PCAE’s workplace sites, this too was dissemination of information about our project.

Many articles have been written about the Workplace Education Project. "Paychecks and Report Cards" an article written about PCAE’s Workplace Education Project appeared in the June 5, 1991 issue of Tucson Weekly. Linda wrote an article for TESOL’s Adult Education Newsletter, published in February, 1992, on the Workplace Education Project. Recently, an article was published in the Bureau of Business Practice’s Employees Relations Bulletin entitled "A Partnership in Learning"
about the Workplace Education Project. The United States Department of Education highlighted PCAE’s Workplace Education Project as an exemplary program in its publication *Workplace Literacy: Reshaping the American Workforce*. All four articles mentioned above are included in the Appendix of this Final Report.

The Project Manager has sent information and materials in response to requests from numerous adult education providers, workplace education providers, and researchers. Materials and information were disseminated to the Department of Education of Puerto Rico; Northeast Metro Technical College in Minnesota; the School Board of Palm Beach, Florida; the New Britain Adult Education Center in Connecticut; the University of Arizona; the Arizona State University and University of California at Berkeley. The Project Manager will send the Workplace Education Project’s final report, evaluation, and other materials to the Curriculum Coordination Center and the ERIC Clearinghouse on Adult, Career, and Vocational Education. Curriculums will be sent to the Center for Applied Linguistics National Clearinghouse on Literacy Education in response to its request.

**CURRICULUM**

All curriculums used in the workplace education classes were developed by the staff of the Workplace Education Project. The curriculum linked the goals of both the participating workers and the individual companies, making the instruction learner-centered and participatory.

During the extension period of the grant, the instructors combined all the company specific curriculums together by subject (reading, writing, math, and ESOL) and developed a generic curriculum for each content area. These curriculums will be used by instructors in the Workplace Education Project to customize from, rather than reinvent the wheel each time we begin a class at a new company. These curriculums can also benefit other workplace education providers.

In ESOL, the instructors met with supervisors, managers, and workers to identify tasks where the need for English appears to be the greatest. These tasks were categorized into a limited number of topic areas and linguistic functions were determined for each task. In reading, writing, and math (Math Fundamentals, Math for S.P.C., and Algebra), the curriculums include scope and sequence for each content area. In addition, job-specific curriculum matrixes were developed by compiling all job titles served with the basic skills necessary to perform each job. Generic and job-specific curriculums are included in the Appendix of this Final Report.
STAFF DEVELOPMENT

All staff involved in the Workplace Education Project received one-to-one and small group training with the Project Manager and Lead Teacher on an on-going basis. Topics covered included task analysis, assessment, curriculum writing, lesson planning, evaluation, and student support services. Teachers also met regularly to share ideas, lessons, etc. The Project Manager conducted on-going observations of every class at every workplace.

Pima County Adult Education also has an extensive in-service staff development program and staff working in this Project benefitted from both PCAE’s program and the specific training offered through the Workplace Education Project. In addition, the Lead Teacher attended several conferences on workplace literacy and adult education, including AAACE (American Association of Adult and Continuing Education) in Anaheim, California and Jorie Philippi’s Strategies for Designing Workplace Literacy Programs in Scottsdale, Arizona. The Project Manager and one ESOL instructor went to the International TESOL Conference in Vancouver, Canada.

ADVISORY COMMITTEES

Advisory Committees were formed which included representatives from the training or human resource department of the company, managers, students, instructors, and the Project Manager. The groups met at a minimum of once a cycle to discuss how the class/es were going, any problems or concerns, suggestions for improvement, ideas for future classes, etc. The advisory committees were a very useful tool for keeping the classes relevant, participatory, and learner-centered. Aside from the Advisory Committees, we conducted on-site planning meetings and task analyses at every worksite, which incorporated workers’ input.

EVALUATION

The Workplace Education Project utilized Nancy Siefer as our outside evaluator. Her expertise in workplace literacy has been invaluable in guiding the Project and helping it become an exemplary program. Nancy’s primary focus was quality. PCAE’s Workplace Education Project worked with Nancy from the initial stages to the end of the grant cycle. Not only was the program evaluated on an on-going basis, but also each class, instructor, and student were evaluated. The four levels of evaluation which follow list who or what were evaluated in each level and by whom.

The Final External Evaluation Report is included with this Final Report.

ADDITIONAL INFORMATION

Pima County Adult Education’s Workplace Education Project tested a random sample of approximately 75 workers at Burr-Brown in reading using the Advanced TABE (Tests of Adult Basic Education). This was to ascertain a baseline average of workers’ skills in reading. We also performed readability studies on Burr-Brown’s work-related and generic materials. We plan to test a random sample of workers in math and put grade levels to Burr-Brown’s math materials as well. Burr-Brown is in the process of setting up a computer lab for its education and training department. The participating workers will be able to use the computers for basic skills enhancement in addition to attending classes.

Aside from our federal grant, the Workplace Education Project provided Skills Enhancement Classes to Arizona Department of Economic Security (DES) workers. This is an innovative project because it involves a partnership between two governmental agencies. In 1991-1992, PCAE trained 127 DES employees in reading and writing through a special grant. These funds included the production of a 20-minute video on workplace literacy entitled "Skills for Success", which highlighted Pima County Adult Education’s Workplace Education Project, Phoenix Union High School District (our counterparts in Phoenix), and DES. Also featured on the video was the Burr-Brown Corporation as an example of a business committed to workplace education. We have also provided non-grant related classes to employers requesting our services that are not members of the Arizona Consortium for Education and Training or the Southern Arizona Innkeepers’ Association on a cost-per-class basis.
OUTCOMES

The following pages give statistics on the number and characteristics of project participants who did and did not complete the program as well as the measurable learning gains. In this report, we have identified "completers" as the workers who completed two-thirds or more of the classroom time offered in each cycle.

Our statistics indicate that 249 participants (77%) out of 322 participants served completed project activities and 73 participants (23%) did not. Many of our "non-completers" were laid off while they were enrolled in workplace education classes. Since our goal was to train 230 workers, we are pleased to have 249 workers who completed the programs at their worksites.

PCAE instructors pre-tested every participant at every location when he/she entered the workplace education class. The instructors post-tested at the end of each cycle, which ranged from 8-13 weeks in length. A total of 185 workers tested higher in basic skills and another 94 improved their communication skills. All 249 completers and 30 non-completers had learning gains documented by pre-/post-test results or determined by teachers, supervisors, or workers themselves. Workers' evaluations of the classes documented increases in self-esteem.

In ESOL, PCAE used teacher-designed pre- and post-assessments. The instructors and the Project Manager developed the assessments according to the specific curriculum at each workplace. The tests were scored on a holistic scale of 0-6:

- 0 - pre-beginning
- 1 and 2 - beginning
- 3 and 4 - intermediate
- 5 and 6 - advanced

The test components included speaking, listening, reading, and writing. Students were scored on every component and an average overall score was also given to each student. For example, a student might begin the class with an average overall score of 1.3 and post-test at 2.7. A sample ESOL pre- and post-test is included in the Appendix of this Final Report.

Several types of assessments were used in the basic skills areas. For the math classes (Math Fundamentals and Algebra), PCAE instructors designed pre- and post-assessments. These assessments were written with two goals in mind: 1) to assess skill levels that had been determined through prior task analyses to be necessary for job competency and 2) to write math word problems at a reading level appropriate for the group. After administering these assessments, instructors provided each student with an individualized item analysis of his/her strengths and needs, as determined by the assessment. The item analyses were repeated for the post-assessments. This procedure enabled students to pinpoint areas in which they had made the most significant gains. Sample pre- and post-assessments for Math Fundamentals are included in the Appendix of this Final Report as well as pre- and post-test score comparisons from Burr-Brown's Math Fundamentals class.
In reading, the instructor created a reading assessment utilizing company material. The cloze approach was used on a passage taken from the employee handbook. Different selections were used for the pre- and post-tests.

In the writing classes, a student writing sample was taken. The writing samples were scored holistically. The Workplace Education Project’s Holistic Scoring Guidelines are included in the Appendix of this Final Report. We also tested students using the Language Mechanics and Language Expression portions of the TABE (Tests of Adult Basic Education), Level A, Forms 5 & 6. Although the TABE uses grade levels to document results, we provided students and employers the results in a percentage format. When we gave employers the results of the pre- and post-test scores, we did not use workers’ names and reported the results in composite form. Students’ learning gains from pre- to post-test are one indicator of how successful the classes have been and are a valuable marketing tool.

   2.42 Degree Forms of Adjectives
      2.42a Positive
      2.42b Comparative
      2.42c Superlative
   2.43 Absolute Adjectives

2. 5 Adverbs
   2.51 Classes of Adverbs
      2.51a Manner
      2.51b Place
      2.51c Time
      2.51d Frequency
      2.51e Reason
   2.52 Degree Forms of Adverbs
      2.52a Positive
      2.52b Comparative
      2.52c Superlative

2. 6 Articles
2. 7 Prepositions
2. 8 Conjunctions
   2.81 Coordinating Conjunctions
   2.82 Correlative Conjunctions
   2.83 Conjunctive Adverbs
   2.84 Subordinating Conjunctions
2. 9 Interjections
3.0 PHRASES and CLAUSES
3.1 Verb Phrases
3.2 Infinitive Phrases
3.3 Prepositional Phrases
3.4 Gerund Phrases
3.5 Participial Phrases
3.6 Dependent Clauses
3.7 Adjective Clauses
3.8 Adverbial Clauses
3.9 Noun Clauses
3.10 Independent Clauses

4.0 PARALLEL CONSTRUCTION

5.0 PUNCTUATION and CAPITAL LETTERS
5.1 Ending Punctuation
5.2 Commas
5.3 Quotation Marks
5.4 Colons
5.5 Semi-Colons
5.6 Hyphens

6.0 PROOFREADING/EDITING
6.1 Correcting Shift in Time
6.2 Correcting Shift in Person
6.3 Correcting Wordiness
6.4 Avoiding Cliches
6.5 Correcting Misplaced Modifiers
6.6 Correcting Plural/Possessive Errors
6.7 Correcting Letters, Memos, Reports
6.8 Expressing Numbers Correctly
6.9 Editing Rough Drafts
6.10 Editing for Completeness
6.11 Editing for Cohesiveness
6.12 Editing for Conciseness
6.13 Editing for Clearness
6.14 Editing for Courteousness
6.15 Editing Business Letters
6.16 Editing Business Memos

7.0 WRITING ACTIVITIES
7.1 Writing Narrative Paragraphs
7.2 Writing Persuasive Paragraphs
7.3 Writing Descriptive Paragraphs
7.4 Writing Expository Paragraphs
7.5 Writing Incident Reports
7.6 Resume Writing
7.7 Business Letters
7.71 Request letters
7.72 Acknowledgments
7.73 Sales letters
7.74 Claim and Adjustment letters
7.75 Public Relations letters
7.76 Goodwill letters
7.77 Appreciation letters
7.8 Memo Writing
7.9 Report Writing
7.10 Journal Writing
7.11 Free Writing
7.12 Goal Setting
7.13 Performance Appraisals

8.0 SPELLING
8.1 List of Frequently Misspelled Words
8.2 Special Consonant Sounds: "S", "Sh", "Ch", "Zh", "J", "F", "K"
8.3 Double Consonants
8.4 Silent Consonants
8.5 Silent Vowels
8.6 Spelling Errors Related to Pronunciation
8.7 Reduced Vowel Roots: "A", "E", "Er", "I", "O", "Or", "U"
8.8 Reduced Vowel Suffixes: "ent/ence", "ant/ance", "or/ar", "able/ible", "le/el/al/", "ary/ery/ory", "ain/on/om", "acy/asy"
8.9 Rule for Doubling Final Consonants
8.10 Individual List of Misspelled Words
8.11 Words Often Confused
8.12 Words That Sound Alike
8.13 Possessives
8.14 Contractions
1.0 WHOLE NUMBERS SKILLS
1. 1 Place Value
1. 2 Addition Computation
1. 3 Addition Applications
1. 4 Subtraction Computation
1. 5 Subtraction Applications
1. 6 Multiplication Computation
1. 7 Multiplication Applications
1. 8 Division Computation
1. 9 Division Applications
1.10 Averages

2.0 FRACTION SKILLS
2. 1 Introduction to Fractions
2.1a Numerator
2.1b Denominator
2.1c Proper Fractions
2.1d Improper Fractions
2.1e Reducing Fractions
2.1f Comparing Fractions
2. 2 Addition of Fractions Computation
2. 3 Addition of Fractions Applications
2. 4 Subtraction of Fractions Computation
2. 5 Subtraction of Fractions Applications
2. 6 Multiplication of Fractions Computation
2. 7 Multiplication of Fractions Applications
2. 8 Division of Fractions Computation
2. 9 Division of Fractions Applications

3.0 DECIMAL SKILLS
3. 1 Reading Decimals
3. 2 Writing Decimals
3. 3 Comparing Decimals
3. 4 Addition of Decimals Computations
3. 5 Addition of Decimals Applications
3. 6 Subtraction of Decimals Computations
3. 7 Subtraction of Decimals Applications
3. 8 Multiplication of Decimals Computations
3. 9 Multiplication of Decimals Applications
3.10 Division of Decimals Computation
3.11 Division of Decimals Applications
4.0 PERCENT SKILLS
4.1 Finding a Percent of a Number
4.2 Finding Percents Applications
4.3 Finding a Number When a Percent is Given
4.4 Determining Percent Increase
4.5 Determining Percent Decrease
4.6 Using Percents: The Percent Circle

5.0 MATH INTEGRATION
5.1 Changing Fractions to Decimals
5.2 Changing Fractions to Percents
5.3 Changing Decimals to Fractions
5.4 Changing Decimals to Percents
5.5 Changing Percents to Decimals
5.6 Changing Percents to Fractions
5.7 Decimal Percents
5.8 Fractional Percents

6.0 APPROXIMATION
6.1 Using approximation in Problem Solving
6.2 Using approximation in Word Problems

7.0 MEASUREMENT SKILLS
7.1 English Measurement
7.2 Metric Measurement

8.0 INTEREST FORMULA
8.1 Interest
8.2 Definition of Rate
8.3 Definition of Time
8.4 Interest Earned
8.5 Interest Paid
8.6 Finding the Total Owed
8.7 Finding the Balance Owed
8.8 Computing Interest for Part of the Year

9.0 DATA ANALYSIS SKILLS
9.1 Finding the Mean
9.2 Finding the Median
9.3 Finding the Range
9.4 Finding the Ratio
9.5 Displaying Numerical Data
10.0 GRAPH SKILLS
10.1 Pictograph
10.2 Bar Graph
10.3 Circle Graph
10.4 Line Graph

11.0 PROBABILITY

12.0 MATHEMATICAL FORMULAS
12.1 Ratio
12.2 Proportion
12.3 Area
   12.3a Computing the area of a square
   12.3b Computing the area of a rectangle
   12.3c Computing the area of a parallelogram
   12.3d Computing the area of a triangle
   12.3e Computing the area of a circle
12.4 Perimeter
   12.4a Computing the area of a square
   12.4b Computing the area of a rectangle
   12.4c Computing the area of a triangle
   12.4d Circumference of a circle
12.5 Volume
   12.5a Computing the volume of a cube
   12.5b Computing the volume of a rectangle
   12.5c Computing the volume of a container
   12.5d Computing the volume of a cylinder
1.0 DATA COLLECTION
1.1 Types of Data
   1.1a Variable Data
   1.1b Attribute Data
1.2 Tally Charts and Check Sheets

2.0 MATH SKILLS FOR S.P.C.
2.1 Using A Calculator
2.2 Finding The Mean
2.3 Finding The Median
2.4 Finding The Range
2.5 Rounding
2.6 Finding Percent

3.0 GRAPHING SKILLS FOR S.P.C.
3.1 Principles of Graphing
   3.1a Reading Axes
   3.1b Plotting Points
   3.1c Interpolation
   3.1d Control Limits
3.2 Variable Control Chart
3.3 Attribute Control Chart
3.4 Other Chart Types

4.0 S.P.C. PROBLEM SOLVING
4.1 In Control And Out Of Control
4.2 Interpreting Control Chart Patterns
4.3 Histograms
4.4 Pareto Analysis
   4.4a Benefits
   4.4b Procedure

5.0 APPLICATION

Specific applications of these principles will depend upon the idiosyncratic programs and materials of each company.
PIMA COUNTY ADULT EDUCATION
WORKPLACE EDUCATION PROJECT
GENERIC ALGEBRA CURRICULUM

1.0 ALGEBRAIC LANGUAGE
1.1 Using Letters for Numbers
1.2 Showing Operations in Equations
  1.2 a Adding
  1.2 b Subtracting
  1.2 c Multiplying
  1.2 d Dividing
1.3 Exponents
  1.3 a What are Exponents?
  1.3 b Using Exponents
1.4 Square Roots
  1.4 a What are Square Roots?
  1.4 b Calculating an Approximate Square Root
1.5 Using Parentheses
1.6 Order of Operations
1.7 Formulas
  1.7 a Reading Formulas
  1.7 b Applying Formulas
1.8 Applications
  1.8 a F to C Formula
  1.8 b Find Area in English Units
  1.8 c Find Area in Metric Units
  1.8 d Apply Simple Interest Formula
  1.8 e Apply Compound Interest Formula
  1.8 f Change English to Metric Units
  1.8 g Change Metric to English Units
  1.8 h Find Circumference & Perimeter in English Units
  1.8 i Find Circumference & Perimeter in Metric Units

2.0 SIGNED NUMBERS
2.1 Number Line
2.2 Ordering Signed Numbers
2.3 Add Signed Numbers
2.4 Subtract Signed Numbers
2.5 Multiply Signed Numbers
2.6 Divide Signed Numbers
2.7 Applications
  2.7 a Reading a Digital Scale with Signed Numbers
  2.7 b Reading an Analog Scale with Signed Numbers
  2.7 c Finding the Mean with Signed Numbers
  2.7 d Finding the Median with Signed Numbers
  2.7 e Finding the Range with Signed Numbers
3.0 SOLVING EQUATIONS WITH 1 UNKNOWN
   3.1 What is an equation?
   3.2 Solve by Subtraction
   3.3 Solve by Addition
   3.4 Solve by Division
   3.5 Solve by Multiplication
   3.6 Solve Fractional Equation
   3.7 Solve by 2 Steps
   3.8 Solve by Collecting Terms
   3.8a Collecting Terms on 1 Side
   3.8b Collecting Terms on Both Sides
   3.9 Solve Equations with Parentheses
   3.10 Applications
   3.10a Assigning Variables to Real Problems
   3.10b Setting Up an Equation for Real Problems
   3.10c Rate of Work Problems
   3.10d Mixture Problems with Chemicals

4.0 RATIO AND PROPORTION
   4.1 What is Ratio?
   4.2 Setting Up and Reducing Ratio
   4.3 What is Proportion?
   4.4 Setting Up a Proportion
   4.5 Solving a Proportion Problem
   4.6 Applications
   4.6a Mixing Paint
   4.6b Making Medicinal Solutions
   4.6c Making Chemical Solutions
   4.6d Mixing Cement

5.0 SOLVING EQUATIONS WITH 2 UNKNOWNS
   5.1 Rearranging Equations
   5.2 Substituting to Solve

6.0 POLYNOMIALS
   6.1 Naming Polynomials
   6.1a Coefficients, Unknowns, Terms
   6.2 Recognizing Like Terms
   6.3 Adding & Subtracting Like Terms
   6.4 Multiplying & Dividing Like Terms
   6.5 Exponents in Polynomials
   6.5a Multiplying Exponents
   6.5b Dividing Exponents
7.0 GRAPHING
7.1 What are Rectangular Coordinates?
7.2 Writing Coordinates as an Ordered Pair
7.3 Plotting Coordinates on Cartesian Plane
7.4 Plot the Equation of a Line
7.5 Find the X and Y Intercepts of a Line
7.6 Slope
7.6 a Understanding Slope
7.6 b Computing Slope
7.7 Graphing Non-Linear Equations
7.8 Applications
7.8 a Graph Production Data
7.8 b Find Distance Between 2 Points

The first seven areas were viewed as basic skills necessary for literacy in writing.
Sample Company-Specific Curriculums and Lessons
Week

1. Pretest, needs assessment. Identify self and co-workers; introduce self: give and ask for name, address, phone number, job title, department, employer, marital status.

2. Describe a procedure; list and ask questions about tasks involved in a process in the correct order.

3. Look up and explain specifications for a procedure; ask for help to complete a task; describe a problem in the process; verify, clarify a procedure.

4. Write a short note describing an unfinished task; read and explain instructions from prior shift regarding an unfinished task.

5. Understand and explain the company attendance policy.

6. Understand and explain the company vacation and sick leave policy.

7. Understand and explain company clothing requirements and safety regulations.

8. Read and explain hazardous warning labels; describe dangers of hazardous materials used at work.

9. Understand and explain company benefits; ask about changes in pay, policies, benefits.

Week 2, Third Class Period

Lesson - Describe a procedure

Materials - White board, rods, Double Action picture of toy factory.

Lesson procedure

1. Show poster and elicit statements, i.e.
   a. He is putting on the wheels;
   b. She is painting the toy car.
   c. He is stamping out the car body.

Leading to 2. The following transformations:
   a. He attaches the wheels;
   b. She paints the toy car;
   c. He stamps out the car body;

And thus 3. Her job is to....

4. Describe the process in toy factory in order:
   a. First one person...
   b. Then somebody...
   c. Then somebody...
   d. Next, someone...
   e. Finally, someone...

Leading to 5. At AiResearch,
   a. First someone presses and labels the boards;
   b. Then Bich...
   c. etc.

Sample Pre- and Post-Assessments
1. When 2 people want to take vacation at the same time but the company says only one person can go, what happens?

2. If you quit, does the company have to pay you for accrued vacation time?

3. What are 2 things that must be worn by manufacturing personnel?

4. What's an example of a hazardous chemical?

5. Who is responsible for writing your performance review? or
   How often do you have a performance review? Why? What's the purpose?

6. What are 3 tools you use at work?

7. What is one thing you like about your job?

8. What is one thing you don't like about it?
1. Fold the paper in quarters to mark the center, then unfold it.

2. Fold all the corners into the middle.

3. Turn it over and fold all the corners into the center again.

4. Fold it in half.

5. Pinch the top outside corners and bring them together

6. Hold it with the fingers of one hand.

7. Open the "wings" and put your thumb and three fingers in the pockets.

8. Open and close your package in two directions.
A. Write a paragraph describing how you would change your situation at Burr-Brown to make it the perfect place to work. You can change anything you want. The only requirement is that you must complete a certain amount of quality work every week. What would you change? What hours would you work? How would you arrange the work day? How would you arrange the work situations? Be serious about your answer and write your paragraph in a thoughtful, logical manner including as many details as possible.
5.1.3 Sequence For Putting On/Taking Off Clothing

If full "bunny suit" protection is specified, as for class 100 rooms, snap one side of the face mask into the hood, place the hood over the head ensuring that the hair is fully covered, snap the other side of the face mask to cover the mouth and nose (and beard and mustache) and snap the hood around the neck. Next, put on the coveralls and tuck the hood inside. Finally, put on the bootees followed by the gloves. Reverse this order for removing the bunny suit.

In all other cases, put on the hair cover first, including the cover for the beard if worn. Next comes the face mask to cover nose, mouth and mustache if worn. Then put on the body cover, smock or coveralls followed by the bootees, if specified. Finally, put on the gloves and/or finger cots. Remove this clothing in the reverse order.

A. This paragraph tells
   1. the purpose for putting on special clothing
   2. the order for putting on special clothing
   3. the names of the various pieces of clothing

B. According to the instructions
   1. You should put on the bootees before you put on the smock.
   2. You should put on the bootees and smock at the same time.
   3. You only have to wear bootees if you wear a smock.
   4. You should put on the smock before you put on the bootees.

C. To take off the bunny suit,
   1. first take off the gloves.
   2. take off the coveralls last.
   3. tuck the hood inside.

D. In class 100 rooms
   1. You put on your clothes in a different order
   2. You must wear a bunny suit
   3. You must reverse the order of putting on the bunny suit.
II. Read this section of the Employees' Handbook and choose the number which best completes each sentence.

540's--The Open Door Policy/Direct Lines:

540-- The "Open Door Policy" is two things. On one level, it is the informal approach we take to the general process of communications at Burr-brown: employees are encouraged to pursue answers to any questions they may have about the company and their jobs. On another level, it is a formal procedure and program which is designed to assure that employees will be able to communicate their suggestions, complaints, and concerns at and to all levels of management. In an organization our size, it is inevitable that employees will occasionally have problems or complaints. We encourage employees to use the following sequence and procedure when pursuing these issues:

1) **Immediate manager:** The first step in getting information about your job, wages, safety, or any corporate issue should be to talk to your manager. This relationship is perhaps the most important communication channel in the company; seek to keep it open and honest. A manager is required to respond to your request within five (5) days.

2) **Human Relations Section Manager:** Occasionally, a question or problem may arise which cannot be resolved at the employee/manager level. If this occurs, the next step is for either the employee or the manager to seek the help of the appropriate Human Relations Section Manager. The Section Manager takes the responsibility for responding to the issue, including doing the necessary research through all available records and files. Having done this, the Section Manager will then schedule a meeting for the employee with upper levels of management to present the issue. This step should also be done within five days.

3) **Human Relations Council:** If the issue is still not resolved, the employee or manager may request a meeting of the Human Relations Council to discuss the problem. The employee should at this point prepare a brief, written description of the case for the Council's review. The Council has ten (10) working days to provide a response to the employee.

4) **The President:** If the parties concerned are not satisfied that the issue has been resolved at this point, they may request that the President review the case.

A. In the "Open Door Policy," whose door is open?
   1. Burr Brown's
   2. the employees'
   3. all managers'

B. The "Open Door Policy" means
   1. You can talk to the president anytime you have a problem at work.
   2. Your manager must talk to you anytime, even if she/he is very busy.
   3. You can talk to your manager about any work-related issue.
READING/Writing

I. Look at the answers in this discussion between two workers at AiResearch. What are the questions?

A. I understand you’re new here.
   Where did you work before?

B. I worked at Tritronics.
   A. Really? How long?
   B. Three years.
   A. And why?
   B. I wanted to stay home with my new baby.
   A. Oh, really? When?
   B. Six months ago.
   A. Do you have any pictures?

II. Look at these answers. Then write indirect questions. Be very polite.

A. Could you tell me where the conference room is?
   The conference room is next to the President’s office.

B. If you are going to be late for work, you should call your supervisor.

C. Yes, you have to wear a smock.
D. Margaret is my supervisor.

E. The day shift ends at 3:30

III. Please answer these questions.

A. Which do you think is more difficult, pick & place or pin attach?

B. Do you think higher pay is more important than better benefits?

C. Which do you think is more relaxing, working day shift or working swing shift?

D. Which do you think is more important to the company, quality or quantity?

E. Do you think working with hazardous chemicals is more dangerous than working with big machinery?
SPEAKING/LISTENING (ORAL)
I. Please say two things about any two of these people. Use the present tense.
   A. Larry MacDonald
   B. Michael Nguyen
   C. Margaret Ramirez
   D. Michael McDonald
   E. One of your co-workers

II. Please answer these questions about AiResearch.
   A. Could you tell me what time your shift starts?
   B. Do you know how many employees AiResearch has?
   C. Do you know where the hazardous chemicals are stored?
   D. Could you please tell me how many hours of vacation time you earn every year?
   E. Do you know where the lunch room is?

III. Please answer these questions.
   A. How often have you come to work late this year?
   B. Have you ever worked for another electronics company?
   C. Have you ever hurt yourself on the job?
   D. How many different jobs have you learned at AiResearch?
   E. How often has your supervisor criticized you during the last year?
   F. How many hours of vacation have you earned?
MATH FUNDAMENTALS PRE-TEST
BURR-BROWN

Find the value of each digit shown below.
1. 8 in 983 ________________  2. 7 in 170,349 ________________

Write each of the following as a whole number.
3. two thousand, ninety ____________________
4. forty thousand, nine hundred twenty ____________________

Add the following.
5. 309 + 50  6. 852 + 36  7. 4,821 + 475
                   +3,724
                   + 744

8. Jil's phone bill for April listed $9.18 for monthly service, $14.19 for long distance calls and $1.82 for taxes. How much was her total bill?

9. In one month the Jacksons paid $525 for rent, $25.19 for the telephone, $34.18 for utilities and $126.48 for a car payment. Find the total of these monthly bills.

Subtract the following.
10. 86 - 23  11. 9,358 - 244

12. Jeff bought a new shirt for $18.27. He gave the clerk a $20 bill. How much change did he get?

13. A stereo system once sold for $630. It was on sale for $569. How much can you save buying the stereo on sale?
Multiply the following.
14. \[ 53 \times 8 \]
15. \[ 240 \times 12 \]
16. \[ 2,964 \times 803 \]

17. Cecilia can type 82 words a minute. How many words can she type in 13 minutes?

18. On the scale of a roadmap one inch equals 25 miles. How far apart are two cities which are 7 inches apart on the map?

Divide the following.
19. \[ 432 \div 9 = \]
20. \[ 2,590 \div 37 = \]

21. One dozen oranges costs $1.19. How much does one orange cost?

22. Frank is a carpenter. He plans to build five bookcases. He paid $289.50 for lumber, $12.83 for screws, and $24.85 for varnish. What is the cost of materials for one bookcase?

Reduce the following.
23. \[ 9/45 = \]
24. \[ 20/32 = \]
25. \[ 25/45 = \]

Add the following.
26. \[ \frac{3}{7} + \frac{2}{7} \]
27. \[ \frac{1}{6} + \frac{1}{6} \]
28. \[ \frac{7}{6} + \frac{8}{6} \]
29. \[ \frac{5}{8} + \frac{1}{4} \]

30. \[ \frac{5}{12} + \frac{1}{3} \]
31. \[ \frac{7}{10} + \frac{3}{15} \]
32. \[ \frac{6}{3} + \frac{2}{8} \]

33. The porch behind Clark’s house was 5 1/2 feet wide. Clark built a 6 7/12 foot wide extension on the porch. How wide was the new porch?

34. Andy is 71 3/8 inches tall. His brother Fred is 1 1/8 inches taller. How tall is Fred?

Subtract the following.
35. \[ \frac{6}{7} - \frac{4}{7} = \]
36. \[ \frac{8}{9} - \frac{5}{9} = \]
37. \[ \begin{array}{c} 6 \frac{13}{18} \\ - \quad 3 \frac{7}{18} \end{array} \]

38. \[ \begin{array}{c} 1 \frac{1}{8} \\ - \quad 7/8 \end{array} \]

39. \[ \begin{array}{c} 9 \\ - \quad 5 \frac{5}{7} \end{array} \]

40. \[ \begin{array}{c} 14 \frac{9}{24} \\ - \quad 3 \frac{3}{12} \end{array} \]

41. Joe bought a piece of lumber 95 1/2 inches long. He sawed off a piece that was 37 1/2 inches long. How long is the original board?

Multiply the following.

42. \[ \frac{2}{5} \times \frac{2}{3} = \]

43. \[ \frac{4}{9} \times \frac{1}{2} = \]

44. \[ \frac{3}{8} \times \frac{4}{9} = \]

45. \[ \frac{7}{12} \times 10 = \]

46. \[ \frac{3}{1/5} \times \frac{5}{12} = \]

47. \[ \frac{4}{2/9} \times \frac{6}{3/4} = \]

48. Joe's weekly salary is $282. His employer takes out 1/6 of Joe's salary for taxes and Social Security. How much does Joe's employer take out of Joe's check?

Divide the following.

49. \[ \frac{9}{10} \div \frac{3}{4} = \]

50. \[ \frac{9}{16} \div \frac{3}{20} = \]

51. \[ \frac{6}{3/4} = \]

52. \[ \frac{3}{1/2} \div \frac{3}{4} = \]

53. Harriet paid $4.05 for 2 1/4 pounds of ground beef. Find the cost of one pound of beef.

Write these decimals in words.

54. \[ .5 = \]

55. \[ .07 = \]

56. \[ .0029 = \]

57. \[ 9.12 = \]

Write each number as a decimal.

58. nine tenths

59. twenty-two thousandths

Circle the bigger decimal in each group.

60. \[ .092 \text{ or } .9 \]

61. \[ .04 \text{ or } .052 \]

62. \[ .304 \text{ or } .04 \]
Change each fraction to a decimal.
63. \( \frac{4}{5} = \) \hspace{1cm} 64. \( \frac{2}{7} = \)

Change each decimal to a fraction.
65. \( .05 = \) \hspace{1cm} 66. \( .048 = \)

Add the following.
67. \( .28 + .3 + .708 = \) \hspace{1cm} 68. \( 2.1 + 66 + 3.97 + \)
69. The average April temperature in Chicago is 47.8. The average April temperature in St. Louis is 8.3 higher. Find the average April temperature for St. Louis.

Subtract the following.
70. \( .07 - .052 = \) \hspace{1cm} 71. \( 4 - .058 = \)
72. The area of the United States is about 3.3 million square miles. The area of Canada is about 3.8 million square miles. How much bigger is Canada in area?

Multiply the following.
73. \( 2.4 \times 2.5 = \) \hspace{1cm} 74. \( 8 \times .03 = \)
75. Mike worked overtime for $8.60 an hour. Last week he worked 7.5 hours overtime. How much did he make in overtime?

Divide the following.
76. \( .902 \div 18 = \) \hspace{1cm} 77. \( 3.12 \div 6 = \)
78. \( 22.8 \div .4 = \) \hspace{1cm} 79. \( 148.5 \div 4.5 = \)
80. John works 35 hours per week. He makes $262.89 before taxes. How much does John make per hour?

Change each decimal to a percent.
81. \( .6 = \) \hspace{1cm} 82. \( .248 = \) \hspace{1cm} 83. \( .03 \frac{1}{3} = \)

Change each fraction to a percent.
84. \( \frac{3}{10} = \) \hspace{1cm} 85. \( \frac{3}{25} = \) \hspace{1cm} 86. \( \frac{1}{8} = \)
Find the following.

87. 15% of 140 = __________ 88. 90% of 60 = __________
89. 25% of what number is 35? ________________
90. Sophie got a raise of 12%. Her raise amounts to $22.50 per week. How much was she making before her raise?
91. Usually there are 25 people at the meetings of the Eleventh Street Tenants' Organization. At the last meeting there were only 16 people. What percent of the usual number was absent?
92. Last year Sue paid $840 in federal income tax. This year she will pay $980. By what percent did her income tax increase?
93. 25% of what number is 12? ________________
94. 60% of what number is 90? ________________
95. 87.5% of what number is 35? ________________
96. 83 1/3% of what number is 75? ________________
97. Jeff works on a commission rate. He gets 5% of the value of the clothes he sells. Last week he made $125.30 in commissions. What was the value of the clothes he sold?

Write your answers as signed numbers.

98. (-12) + (+6) = _________ 99. (-15) + (+15) = _________
100. (+8) + (-2) = _________

BURR BROWN

FIND THE VALUE OF EACH DIGIT SHOWN BELOW.
1. 9 in 709 ______________
2. 8 in 186,930 __________

WRITE EACH NUMBER AS A WHOLE NUMBER.
3. Five thousand, ninety-four __________________________
4. Fifty thousand, seven hundred and ten __________________________

ADD THE FOLLOWING:
5. 412
   + 67
6. 967
   + 56
   + 12
7. 7,894
   + 12,854
   + 35,841
   + 6,921
8. 7,980
   + 987
   + 1,212
   + 2,781

9. Tony was recently hired at Hane’s Manufacturing. His first week on the job he took home $118.29, the second week, $197.13, and the third week, $113.29. How much was his take home pay for three weeks?

SUBTRACT THE FOLLOWING.
10. 243
    - 12
11. 3,351
    - 2,775
12. 60,050
    - 16,987

13. Five hundred and seventy-two people work at the Benning Corporation. Forty-nine people have been laid off. How many people now work at the Benning Corporation?
14. The Bennetts need $35,000 as a down payment on a new house. So far they have $23,117. How much more money do they need?

MULTIPLY THE FOLLOWING.

15. \[ 673 \times 40 \]

16. \[ 3,891 \times 612 \]

17. There are three feet in one yard. How many feet are there in 72 yards?

18. On the scale of a roadmap one inch equals 25 miles. How far apart are two cities which are 9 inches apart on the map?

DIVIDE THE FOLLOWING.

19. \[ 4,656 \div 8 \]

20. \[ 1,115 \div 23 \]

21. George is a traveling salesman. In the last ten days he has driven 3,560 miles. What is the average distance he drove each day?

22. Three hundred and forty-eight people live in the village of Millerton. The total income last year for everyone in Millerton was $1,754,964. What was the average income per person in Millerton?

FRACTIONS

Reduce the following.

23. \[ 8/72 = \]

24. \[ 9/45 = \]

25. \[ 20/34 = \]

Change the following to mixed fractions or whole numbers.

26. \[ 78/34 = \]

27. \[ 13/2 = \]

28. \[ 50/10 = \]

Add the following.

29. \[ 5/8 + 2/8 = \]

30. \[ 1/2 + 3/4 = \]
31. \[1\frac{1}{3} + 3\frac{3}{8}\]
32. \[7\frac{7}{9} + 4\frac{4}{9}\]
33. \[10\frac{1}{5} + 6\frac{8}{9}\]

34. Jason jogs every morning before he goes to work. Last week he jogged the following distances: Monday, 2 1/2 miles; Tuesday, 3 3/7 miles; Wednesday, 2 3/10 miles; Thursday, 1 7/10 miles; Friday, 3 miles. How many miles did Jason jog altogether last week?

Subtract the following.
35. \[\frac{7}{10} - \frac{3}{10}\]
36. \[\frac{5}{3} - \frac{5}{8}\]
37. \[7 - 5\frac{1}{2}\]
38. \[15 - 8\frac{2}{3}\]
39. \[10 - 2\frac{1}{6}\]
40. \[15\frac{3}{8} - 7\frac{9}{10}\]

41. Jim weighed 208 pounds. He went on a diet and lost 46 1/2 pounds. How much did Jim weigh after his diet?

42. Rachel’s normal temperature is 98 6/10. When she was sick with the flu her temperature went up to 104 3/10. How much did her temperature go up?

Multiply the following.
43. \[\frac{4}{9} \times \frac{1}{2}\]
44. \[\frac{2}{3} \times \frac{5}{6} \times \frac{4}{9}\]
45. \[\frac{3}{8} \times \frac{4}{9}\]
46. \[\frac{5}{24} \times \frac{18}{25}\]
47. \[\frac{7}{12} \times 10\]
48. \[15 \times \frac{7}{10}\]
49. \[4\frac{2}{9} \times 6\frac{3}{4}\]
50. \[1\frac{1}{3} \times 4\frac{1}{2}\]

51. On Monday there were 480 boxes in the warehouse where Bill works. He shipped 7/10 boxes by air freight. How many boxes are left?

52. Lumber sells for $3.80 a foot. How much will Max have to pay for 14 1/2 feet of lumber?

53. Celeste makes $6.50 an hour. How much does she make on a day when she works 7 1/2 hours?
Divide the following.

54. $\frac{3}{4} \div \frac{6}{7} = \underline{\quad} \quad 55. \quad \frac{6}{35} \div \frac{21}{50} = \underline{\quad}$

56. $12 \div \frac{8}{9} = \underline{\quad} \quad 57. \quad \frac{15}{3} \div \frac{3}{4} = \underline{\quad}$

58. $24 \div \frac{3}{5} = \underline{\quad} \quad 59. \quad \frac{4}{5} \div \frac{2}{5} = \underline{\quad}$

60. $4 \frac{1}{4} \div 3 \frac{3}{4} = \underline{\quad} \quad 61. \quad 7 \frac{1}{2} \div 5 = \underline{\quad}$

62. Pete is splitting a board that is 24 inches wide. How many $\frac{3}{4}$ inch-wide strips can he get from the big board?

63. Joe needs 4 1/2 feet of lumber to build a small bookcase. How many bookcases can he build with 24 feet of lumber?

DECIMALS

Write these decimals in words.

64. $.8 = \underline{\quad} \quad 65. \quad .09 = \underline{\quad} \quad 66. \quad .002 = \underline{\quad}$

Write each number as a decimal.

67. Five tenths = \underline{\quad}

68. twenty-five thousandths = \underline{\quad}

Circle the bigger decimal in each group.

69. $.081$ or $.08 \quad 70. $.059$ or $.0499 \quad 71. $.608$ or $.68$

Write each fraction as a decimal.

72. $\frac{6}{10} = \underline{\quad} \quad 73. \quad 18 \frac{3}{100} = \underline{\quad}$

Change each decimal to a fraction.

74. $.089 = \underline{\quad} \quad 75. \quad .08 = \underline{\quad}$

Add the following.

76. $.28 + .76 = \underline{\quad} \quad 77. \quad .109 + 9.12 = \underline{\quad}$
78. Jill swam .7 of a mile on Wednesday and 1.9 of a mile of Thursday. How many miles did Jill swim on Wednesday and Thursday?

Subtract the following.
79. \( .09 - .07 = \)  
80. \( 5 - .09 = \)

81. Lou had a piece of property that was 6.7 acres. He sold 2.5 acres. How much land does Lou have left?

Multiply the following.
82. \( 5.8 \times 6.7 = \)  
83. \( 7.9 \times 4.5 = \)
84. \( 1.01 \times 2.3 = \)  
85. \( 3.6 \times 3.334 = \)
86. Candy types 72 word a minute. How many words can she type in 10.5 minutes?

Divide the following.
87. \( .87 \div .2 = \)  
88. \( 9.13 \div 12.3 = \)
89. \( 22.9 \div .3 = \)  
90. \( 148.5 \div 12 = \)
91. Sue worked 35 hours last week. Her gross pay was 415.38 dollars. How much does Sue make an hour?

92. Jim has a piece of lumber that is 9.8 feet long. Jim wants to cut it into 5 equal pieces. How long will each piece be?

PERCENTS
Change each decimal to a percent.
93. \( .9 = \)  
94. \( 5.60 = \)

Change each fraction to a percent.
95. \( \frac{5}{10} = \)  
96. \( \frac{5}{8} = \)
Find the following.

97. $12\%$ of $113 = \underline{\hspace{1cm}}$ 98. $15\%$ of $35 = \underline{\hspace{1cm}}$

99. $47\%$ of $112 = \underline{\hspace{1cm}}$ 100. $89\%$ of $17 = \underline{\hspace{1cm}}$

101. $45\%$ of what number is $29?$ \underline{\hspace{5cm}}

102. $53\%$ of what number is $25?$ \underline{\hspace{5cm}}

103. $39\%$ of what number is $115?$ \underline{\hspace{5cm}}

104. On a recent test Chris missed $33$ out of $89$ problems. What percent did Chris get wrong?

Sample Student Needs Assessment
Here is your chance to tell us what you need to work on in English. The more precise you can be in your answers, the better. This is your class. We need your ideas to help us plan for this English course. As you fill out this form, please feel free to ask me questions.

I. What skill needs the most work? Please number the skills in order of importance for you.

Understanding spoken English (Listening comprehension) __
Speaking English __
Reading English __
Writing English __

II. SPOKEN ENGLISH

A. I need to improve pronunciation ____ (Please number on a grammar scale of 1-5 any vocabulary items you’d like to fluency work on in this understanding class.)

COMMENT: ________________________________
B. I have trouble understanding/expressing myself in these situations:
1. 
2. 
3. 

C. I enjoy talking about these topics:
1. 
2. 
3. 

III. READING

A. Do you like to read in your native language? What do you read?

B. Do you read in English? If so, what do you read?

C. What subjects would you like most to read about?
1. 
2. 
3. 

D. Is there any job-related reading that you would like to work on?
1. 
2. 
3.
IV. WRITING

A. I am especially interested in writing letters ______

   reports ______

   stories ______

   others: ______

B. Is there any job-related writing that you would like to work on?
   1. ______
   2. ______
   3. ______

COMMENT: ______________________________________

Please write about what you hope to learn in this English course, considering that the total time for the course will be 40 to 48 hours. What specifically would you like to be able to do better in English at the end of the course that you are having trouble with now?
Sample Supervisor Needs Assessment
1. Are there any people on the attached list of limited English speakers who...

   a. don’t understand the concept of evaluation?
   b. cannot read their evaluation?
   c. need help understanding their evaluation?
   d. are difficult to train because their English is so lacking?
   e. need a translator in order to be trained?
   f. don’t understand the training materials?
   g. don’t understand the deductions taken from their paycheck.
   h. don’t understand their benefits?
   i. bring someone to translate when they think errors may have been made on their paycheck?
   j. don’t understand explanations given by payroll personnel concerning their paycheck.
   k. make mistakes in their work because they don’t understand the directions?
   l. hide their mistakes because they don’t want anyone to know they’ve made them?
   m. you hate to tell they’ve made a mistake because of how they’ll react?
   n. say they understand but you’re not sure they do?
   o. you can’t understand when they ask for a tool or supplies?
   p. don’t know the names of tools they use or the supplies they need?
   q. can’t read or understand the employee handbook?
   r. don’t follow work rules regarding clothing, eating, behavior, etc?
   s. misunderstand or don’t know how benefits are computed?
Which of these skills do you think are the most important for success at work? Check all that apply. Star the most important.

oral communication (grammar, word order, vocabulary)
pronunciation
listening comprehension
reading
writing

Why do employees need to speak and understand English where you work? Check all that apply. Star the most important.

to follow oral instructions
to give oral instructions
to communicate with supervisors
to communicate with co-workers
to ask questions
other
4. Why do employees need to read and write English where you work? Check all that apply. Star the most important.

- to follow written instructions
- to give written instructions
- to fill out forms
- to understand employee benefits and pay
- to record data or information
- to understand data or information
- to write reports or correspondence
- other

5. Which of these items would be the most valuable for employees at your company to be able to do in English?

- Advising, Suggesting, Recommending, Insisting & Asking for Advice
- Asking for & Giving Directions, Instructions, Information
- Asking for & Giving Permission
- Checking & Indicating Understanding
- Complaining
- Describing Situations, Events, Problems
- Expressing Nervousness, Anxiety, & Worry
- Informing
- Making Excuses
- Ordering & Taking Orders
- Remembering, Forgetting, & Reminding
- Showing Intention
- Warning, Cautioning

Manager Evaluation

Employee Name ____________________________________________
Manager Name_________________________ FMS________

Course Title ___________________________ Date________

DIRECTIONS: Please indicate how much this employee has improved after taking the Skills for Success class. Circle the rating that applies for each question. If you want to elaborate on any question, please use the back of this form.

1. Did you see an improvement in the employee's math or English skills? If so, how much?
   Great       Moderate       None       Worse       Not Applicable

2. Did you see an improvement in the employee's attitude, morale, or self-esteem? If so, how much?
   Great       Moderate       None       Worse       Not Applicable

3. Have you seen better attendance, promptness, etc. by this employee?
   Great       Moderate       None       Worse       Not Applicable

4. Have you seen an increase in productivity for this employee? If so, how much?
   Great       Moderate       None       Worse       Not Applicable

DIRECTIONS: Please write your answers to these questions. If you need more space, please use the back of this sheet.

5. Has attendance in the class helped the employee on the job? If so, how?

6. Would you encourage others to attend the class?

7. Do you have any other comments pertaining to this employee and the Skills for Success class?

COURSE EVALUATION FORM

Course Title

Course Dates: From To

Instructor

DIRECTIONS: Please circle the answer to each question.

1. Please rate the overall quality of the course.
   Excellent Very Good Good Fair Poor

2. Please rate the effectiveness of the materials used in the course.
   Excellent Very Good Good Fair Poor

3. Please rate the instructor’s presentation and helpfulness.
   Excellent Very Good Good Fair Poor

4. How supportive has your supervisor been while you have been taking the class?
   Excellent Very Good Good Fair Poor

5. How supportive have your coworkers been while you have been taking the class?
   Excellent Very Good Good Fair Poor

DIRECTIONS: Write your answers to these questions.

6. Has this class helped you on the job? If so, how?

7. Would you like the course to be a different length or time?
8. What can we do to make the course more useful to you in your job or home life?

9. Is there anything you would like to add about the course, materials, or instructor?

10. Has the course changed how you feel about yourself, your education, or your job?

11. Was your participation in this class voluntary? yes no
Articles about the Workplace Education Project
All projects funded under the National Workplace Literacy Program are required to demonstrate good prior planning and show promise for a high quality program. Some, however, exceed minimum requirements and sometimes even their own expectations. Five such projects were selected to be highlighted in this report.

**WORKPLACE EDUCATION PROJECT OF PIMA COUNTY ADULT EDUCATION (PCAE)**

Tucson, Arizona

**Partners:** Arizona Consortium for Education and Training
Southern Arizona Innkeepers' Association

**Project Background**

The Workplace Education Project of Pima County Adult Education (PCAE) responds to the basic skills needs of a number of employers in southern Arizona, including hotels and resorts, health care providers, and electronics, aerospace and other manufacturers. The project offers instruction to 230 students, in literacy and basic skills, English as a second language, GED test preparation, problem solving/critical thinking skills, and communication. It has selected two "umbrella" organizations whose members employ non-native speakers of English and workers with inadequate basic skills. This provides the opportunity and flexibility to train employees at a number of locations. For example, the project conducts workplace education classes for housekeeping and groundskeeping workers at resorts and hotels, production workers at manufacturing companies, and custodial workers at the University of Arizona.

**Key Elements**

- Prior to instruction, the Workplace Education Project conducts a job task analysis that identifies the literacy requirements of actual jobs, so skills taught will be directly related to workplace needs.
Workers are involved in all aspects of program development and implementation.

Advisory committees are formed at each worksite with representatives from the participating workers, management, and the instructors.

The program is presented as a positive opportunity for employees.

Class participation is voluntary.

In most cases, at least 50 percent of the time employees spend in class is paid release time.

An assessment tool (pre-test) is developed from specific workplace needs identified in the task analysis and administered to potential students recruited for the class.

Materials from the worksite are incorporated into the curriculum.

The curriculum also includes problems and situations that simulate actual situations in which workers use basic skills on the job.

Ongoing interviews with employees ensure that what is being taught continues to be relevant and is meeting their needs.

Post-tests are developed to assess student progress and the results are compared with the results of the pre-test.

Support services such as child care and transportation are provided whenever needed.

Educational counseling is provided to every student, including confidential discussion of personal educational goals, information about other adult education opportunities, and career options.
Indicators of Success

- Improved communications skills by participating employees, including oral and written skills.
- Improved reading, math and problem-solving skills.
- Improved morale and self-esteem.
- Better attendance and promptness by some employees.
- Increased productivity by some employees.
- Requests for more classes by both management and workers.
- Community-wide recognition, including many employer requests for PCAE's Workplace Education Project classes.

CHAPTER VI:

A PARTNERSHIP IN LEARNING

You've read how some companies, large and small, are tackling their work force literacy problems. Now let's take a look at how those who are delivering the services view their role.

WORKPLACE EDUCATION PROJECT:
Providing Skills for Life

The Workplace Education Project (Tucson, AZ) got off the ground in 1988 after receiving a $72,000 grant from the National Workplace Literacy Program (NWLP). It was one of 37 projects in the country to receive funding from the newly developed program, which is administered by the U.S. Department of Education. The money has allowed this Arizona program to work with several partners to develop training programs for businesses around the Tucson area. The $72,000 is the initial round of funding, and since that time the Project has been funded twice by NWLP.

The Workplace Education Project, part of the Pima County Adult Education program, brings together business partners who need help training employees. The business partners, who pay matching funds, include the Arizona Consortium for Education and Training, a group of manufacturing companies, hospitals and educational institutions, the Southern Arizona Innkeepers Association, a consortium of hotels and resort corporations, and the Tucson Metropolitan Chamber of Commerce, the latest partner. "This partner is our vehicle into the community, so we can meet their needs," says Project Coordinator Linda Hellman.

"We work with them to develop training programs. We perform task analyses and find out what their workers need in skills training," she says. All classes for WEP's various partners are held on site. In most cases, employees are given release time to attend the courses, which are scheduled to accommodate working hours. Subjects vary, depending on the individual company's needs, but Hellman says the goal is to link learning to the job. "We try to be job related as much as possible and to become part of the workplace setting."

While providing job-linked learning is the primary goal, "we also try to make classes relevant to employees' lives outside of work." She points to problem-solving skills or working with numbers as examples of skills that transfer from the classroom to employees' jobs and to their lives. "We like to do things in class that will help workers beyond the job—such as improving their writing skills or furthering their general education. If employees tell us their company might have layoffs, we'll go into resume writing if that's what workers want. We are very responsive to their needs."

Some classes teach the basics to get employees up to a level where they can go on to learn the skills required for their jobs or for job advancement. "We are currently teaching a reading and writing course for one company that draws from different departments, but we apply the lessons to their job situations. We get them into the writing activities they need, such as writing incident reports, memos, claim and adjustment letters, or performance appraisals. We put them into a context that has immediate value."

Class structure is nontraditional. "It's a very flexible program," she says. "We can work with individuals at their own levels. But people also work in groups, depending on their rate of learning." Employees take part in what Hellman calls cooperative learning activities. "We have them work in groups to enhance their team-building skills, which companies really want these days."

Hellman works very closely with each company to establish goals, and then fine-tunes or makes changes as classes move along. "This is a participatory program. We try to have workers involved in all aspects of the program. Advisory committees help us achieve this goal. We get a lot of input from the workers initially, but we've found that our first interviews don't always reveal all their needs," says Hellman. "Sometimes we're five weeks into a class before employees reveal additional problems they may have been reluctant to tell us about at the start. For instance, after a few weeks in a class we were running for a college's custodial workers, one problem came up. They had trouble getting college students out of the rest rooms so that they could clean up. That's not something you would necessarily discover in a task analysis. So we built scenarios to teach them how to deal with this situation. Such a problem-specific approach is a big benefit to workers."

Hellman stresses that classes are not just for entry-level or hourly workers. "We have supervisors and managers attend some classes with their employees." She says this is a positive development, since companies that are shifting to Total Quality Management want all employees to upgrade their skills. "We don't advertise our classes as remedial or basic," she adds. "This is an opportunity for everyone."
Pima County Adult Education (PCAE) in Tucson, Arizona, began its Workplace Education Project in November, 1988, through funding from the U.S. Department of Education’s National Workplace Literacy Partnership Grants. Since that time, PCAE’s Workplace Education Project has trained workers at 14 worksites in ESOL, basic skills (reading, writing, math), GED preparation, and communication skills. These customized worksite classes have been provided at a variety of locations, including electronic and manufacturing companies, hotels, a nursing home, a hospital, a government agency, and the University of Arizona’s Physical Resources Department.

Implementing programs at a number of worksites in a variety of industries is quite a challenge. With three years’ experience behind us now, we have learned a lot about the unique characteristics of workplace education. A great deal of up-front time is needed to market the program to management, conduct a task analysis, design a program, recruit learners, and write curriculum and assessment. Workers are involved in many aspects of the program, including planning, development, recruitment, instruction, and peer support.

The Workplace Education Project focuses on meeting the needs of both the workers and the employer. We begin with what is called a task analysis. Workers and their supervisors are interviewed and observed on the job. All written and read job-related materials are collected. The task analysis is then used to determine what skills are needed for workers to do their jobs well.

In ESOL, as with most workplace education classes, the curriculum is customized to meet the specific needs of each individual worksite. We use a functionally-based approach that is organized by job tasks and includes problems and situations that simulate actual occurrences workers may experience on the job. Materials used at the workplace are also incorporated into the classroom instruction.

One of the most outstanding ESOL classes that the Workplace Education Project is presently providing is at Burr-Brown, a local electronics company. The learners decided to devote much of their attention to enhancing their reading and writing skills. Understanding specifications, describing work situations, understanding and describing benefits, and writing requests for parts are some examples of the work-related functions that are taught in the classroom.

Advisory committees are formed at each workplace to ensure that the classes are meeting the needs of the workers and the employer. Representatives from the classes, instructors, and the employer discuss the direction the classes are going and suggestions for improvement. Also, workers that attend classes are interviewed on an on-going basis so that the curriculum remains relevant.

Flexible, worker-centered, and participatory.

Instructors need extra time to meet regularly with the advisory committee. They also have to stay abreast of the changing needs of the workplace. For example, at Burr-Brown, our instructors participated in the Manufacturing Orientation Training offered by the company to new employees which included: Introduction to Statistical Process Control (SPC), Introduction to Burr-Brown’s Documentation, Environmental Control Requirements, and Electrostatic Damage (ESD).

Pre-tests are developed for assessment/screening that relate specifically to what will be taught in the class. Post-tests are administered at the end of each cycle to document improvement by comparing the results to the pre-test. All test results are confidential. In most cases, classes are offered twice a week, two hours each class session, within a cycle of approximately 10 to 15 weeks.

Workplace classes demand a great awareness of the company environment and a flexible approach. We have experienced times when an overriding need for productivity necessitated a temporary suspension of classes. At one location where we used the dining room for a classroom, there were many times that the class had to move to another room.

Enrollment in PCAE’s Workplace Education Project is always voluntary. Many employers pay half release time for workers to attend class. At some worksites, full release time is given by the employer, while at a few, no release time is given. We have found that some release time from work to attend class makes the program more successful.

The goals of the program are to improve employee work-related skills and increase their opportunities for continued employment, career advancement, and further education and training. Since worker-centered learning deals with the needs of the whole person, the Workplace Education Project also strives to enrich workers’ capabilities as individuals in society. Increased employee morale and self-esteem, fulfillment of personal goals, and a better quality of life for participants are other by-products of workplace education training.

While workplace education differs from the way ESOL instruction is delivered in other environments, the rewards are not so very different at all. Watching a class get involved and excited about learning brings the same kind of satisfaction. The instructor of the ESOL class at Burr-Brown, who has taught in many different types of ESOL classes, recently said, “This class is so great. It’s the reason I went into teaching ESOL.”
Paychecks And Report Cards

From Hotels To Defense Contractors, Businesses Are Learning That If They Want Smarter Workers, They Will Have To Manufacture Them.

One in every five adults has reading and math skills below an eighth-grade level, while most entry-level jobs require at least 11th-grade competencies.

不顾及的业务要求,许多人认为,许多业务应避免出现这种违背现代工作情况的业务要求。这在许多业务中,尽管有时需要大量的员工,但大量的员工仍然在进行着大量的工作。对于这一点,许多业务都在进行着评估。
In time-honored fashion, some business leaders and educators heap the blame for the declining educational base on a well-trodden scapegoat—weak public schools turning out people ill-prepared to work.

Employers who need upgraded skills. These employers, mostly high school graduates, need more education before they can carry out tasks like spotting potential problems on a graph to monitor defective parts rates.

For example, ABC shoe repair at Tucson Medical Center. John Lopez, a UA custodian, says she has trouble understanding directions. "I'm an interpreter," she says. "I'm not a translator, but I can help people understand.

Workers tell their own stories of defunct skills, of pretending to understand directions given in English, of...

In time-honored fashion, some business leaders and educators heap the blame for the declining educational base on a well-troddden scapegoat—weak public schools turning out people ill-prepared to work.

Employers who need upgraded skills. These employers, mostly high school graduates, need more education before they can carry out tasks like spotting potential problems on a graph to monitor defective parts rates.

For example, ABC shoe repair at Tucson Medical Center. John Lopez, a UA custodian, says she has trouble understanding directions. "I'm an interpreter," she says. "I'm not a translator, but I can help people understand.

Workers tell their own stories of defunct skills, of pretending to understand directions given in English, of...
An employer's emphasis on workplace education can add up. The writers class for EMC supervisors costs $4,300, or about $28 a per supervisor, covering teacher takeout, travel fees and teleconferencing time for employees. Heinman says Pima County Adult Education charges employers $25 per hour for 20-week session for English and basic skills classes. But the charge doesn't cover the county programs costs, such as clerical help, the coordinator's salary or other graduates. Employers.

Even if it were free, though, some employers would never be interested in workforce education.

Just because some educators don't mean we have to educate or train our people, nor don't meet basic literacy levels, says Mary Ann Lemen, assistant director of personnel in Pima County. In some businesses, though, employers do meet the needs of better basic skills and English. Many offices, particularly the high-tech electronics businesses, hire only high school graduates who can read, write and compute, but they need improvement.

At Hughes, the company is undergoing great cultural change, says Daisy Jenkins, Hughes personnel development manager. We're moving toward participative management and employee empowerment. All of those things point to a workforce that has fewer supervisors and that makes more autonomous decisions, a workforce that needs more basic skills. Employees need communication skills, problem-solving skills, analytical skills, listening skills.

The ability to learn is critical for today's worker, Jenkins says. "Education and retraining of the workforce are going to be absolutely essential in the future. It's easier to train and retrain people who have the requisite basic skills than to educate those who don't."

Enriquez, at Burr Brown, agrees. For a company to be competitive, it must emphasize education. Learning the skills for tomorrow's technology is not enough. You have to be able to keep learning.

Enriquez and about two dozen business leaders and educators have formed the Arizona Consortium for Education and Training. "We're coming together to bring the two together, says Enriquez. "find a common solution. One solution the consortium is pursing is "video college," making education available to people in their homes via cable television, "It's too damn expensive for each of us to redo the wheel. Why should each business have to redo the wheel. Why should employees have to redo the wheel. Why should each business have a GED program?" he says. "People may be on welfare but they still have their CNN, their cable.

A TECHNOLOGY AND global competition, increase. and with them the demand for more basic skills, employers will accept more responsibility for education. The private sector is going to have to spend a lot more money on training and retraining," Kolzow says.

Hamman says, "It's a shared problem and it should have a shared solution. It's an education problem, it's a private sector problem, it's a social problem and it's a child care problem. It's our problem." For many employers, the cost of in-house training may not seriously affect Tucson for a few years, kolzow says.

Kolzow says Tucson's employment picture is something of an anomaly because people move here for the lifestyle. As a result, Tucson has a "tremendous rate of underemployment, with many people working in jobs for which they are extremely overeducated." He cited 12000 applications submitted for 2000 jobs when Sears opened its telecommuting center here last year. Similarly, American Airlines and American Express received huge number of applications for their information processing center.

Kolzow says, "The time is definitely coming when they won't be able to fill those positions. They need people in the work force. Nationally, we aren't getting the number of new entrants into the work force. It may take longer for the problem to get here because labor is not as scarce here as it is in other places around the country."
Final Evaluation Report

I worked with the Pima County Adult Education Workplace Education Project during its funding period from March 1, 1991 - November 30, 1992. Since the decision was made to incorporate site visit observations into project activities on an ongoing basis, the project director's quarterly and final report(s) include recommendations I made on those site visits. The project director, Linda Hellman, and I met on a regular basis throughout the project's duration to ensure the timely integration of the formative evaluation results.

I met with Linda and her staff five times during the grant period: June, 1991; December, 1991; February, 1992; June, 1992; and October, 1992. In each of these meetings, Linda arranged an itinerary for me that included observations of classes, meetings with key company personnel, advisory boards, and students, and tours of specific companies. Four of the visits also included interviews with project staff and participation in staff meetings. After each site visit, Linda and I reviewed my observations and she made any appropriate changes that were required. Notes from each of these meetings are on file in my office. In December, 1992, I reviewed Linda's final report and she included my suggestions within her final copy.
From its inception, the Workplace Education Project energetically reached out to Pima County business and industry to provide comprehensive, customized workplace literacy education programs. Customers included small as well as large companies needing a variety of literacy services ranging from English as a second language classes to communication/writing classes to algebra and pre-SPC courses. The current project contracted to provide services to 230 employees and by project's end had served over 320 workers. Thirty-seven percent of the workers were limited English proficient speakers.

In addition to providing outstanding literacy services, this project has created innovative curriculum and, most importantly, has documented its development and procedures so that other workplace programs can build on its efforts. The curriculum includes generic as well as job-specific materials. A major contribution is the development of assessment instruments. These assessments include pre- and post-assessments in each literacy area and student and manager needs assessments. The project has incorporated writing sample assessments within its communication/writing modules and developed holistic scoring guidelines to evaluate student writing. Upon completion of recommended changes by project staff and evaluator, these materials will be available to other workplace literacy programs.
The success of the Workplace Education Project is due to its outstanding director and the talented staff she has recruited and trained. Staff members have remained with the project because they enjoy meeting the challenges of the workplace and they are provided with the resources and environment to operate as a team. In addition to maintaining its literacy services and refining its outstanding curriculum and assessment instruments/procedures, the project is investigating ways to enhance manager feedback and to document the reasons why workers do not finish the courses (non-completers). The Pima County Adult Education Workplace Education Project represents a outstanding investment of tax dollars, and I enjoy and appreciate the opportunity to interact with their staff and clients.
