Five curriculum modules for Momentum, Inc., a San Francisco (California) outerwear design and contract manufacturer, are presented. Momentum was one of four small businesses involved in Project EXCEL, a workplace literacy project that focused on literacy and basic skills training for limited-English-proficient (LEP) workers. The modules are as follows: (1) A Fashionable Beginning; (2) A Stitch of Common Sense; (3) Can You Help Me with Fractions?; (4) Doing My Job; and (5) Piecing It All Together. The modules each contain a brief teaching guide divided into units as well as a listening script and answer key. (Contains 25 references.) (Adjunct ERIC Clearinghouse on Literacy Education) (LB)

LISTENING SCRIPT AND ANSWER KEY
INTRODUCTION

Project EXCEL is conducted under the National Workplace Literacy Program of the U.S. Department of Education. It is administered by the Career Resources Development Center (CRDC) in partnership with Momentum, Inc.

Project EXCEL focuses on literacy and basic skills training with emphasis on the workplace culture for limited English proficient (LEP) workers. Our goal is to assist these workers in retaining employment, increasing productivity and advancing their careers.

CRDC

CRDC is a 25 year old, non-profit, community based employment training agency located in San Francisco and Oakland. CRDC has trained over 3,500 ethnic minorities and women as office clerks, bank tellers, cooks, food service and housekeeping workers, janitors and office automation specialists.

CRDC’s training programs focus on LEP workers because they comprise the vast majority of the workforce at Momentum, Inc. CRDC recognizes that nearly 90% of California’s labor pool will come from Hispanic and Asian communities, half of them immigrants. Local labor force is increasingly low-skilled and limited English proficient, while, simultaneously, industry is demanding a more literate and skilled workforce.

MOMENTUM, INC.

Momentum, Inc. is an outerwear design development and engineering company. This is a new direction for the company since its inception in 1985.

Momentum, Inc. has changed from a manufacturing/contracting firm to a design/manufacturing firm. This business transformation requires greater worker involvement, and thus, the need for improved communication and critical thinking skills.

As a manufacturing company prior to the transformation, workers at Momentum would mass produce garment, repeating the same sewing procedures. As a design engineering firm, workers at Momentum are asked to read complicated spec sheets and sewing instructions, and participate in small group meetings in order to determine the sewing procedure for each new design. Production is smaller-scaled and more multi-faceted. The most important aim for workplace literacy training to the Momentum management is for its workers to read and comprehend spec sheets and actively participate in the design and sewing process.
Curriculum Designed for Momentum, Inc.

The curriculum for Momentum, Inc. is designed by a team of experienced educators from CRDC. The team met with the management, supervisors, and workers to conduct needs assessments at the workplace. The team also conducted observations and participatory work to identify specific job and communicative skills required at Momentum, Inc. From these assessments, CRDC was able to design a curriculum to facilitate better communication between workers and management, and to enable workers to understand written work orders as well as follow oral instructions.

Project EXCEL’s staff worked closely with management and workers at Momentum, Inc. and received consistent feedback from the Momentum management and workers before the curriculum was finalized. The curriculum consists of 3 modules. The goals and objectives of each module are explained on the cover of the modules.

TEACHING GUIDE

This module is specifically designed for limited English proficient adults who need to learn basic skills and language in order to function effectively at Momentum, Inc. The English proficiency level of the workers in this class ranges from pre-literacy to ESL level 100. The students are from China and Hong Kong. Their native languages are Mandarin, Cantonese and two other Chinese dialects. While some students have never received formal education in their native countries and are therefore illiterate in their native languages, others have limited education (4 to 5 years) in their native countries. Some have never taken an English class in the United States while others have taken a semester or two of Adult Basic Education at a local adult learning center.

This text is a beginning, competency-based text that attempts to integrate coping skills and functional language with essential language forms, vocabulary, and cultural information needed for the American workplace.

There is a wide variety of activities within each unit to reinforce language use. Each unit affords practice in listening, speaking, reading and writing. Lessons are self-contained and lend themselves to a format in which one or two activities may be completed within a one hour class period. Teachers may choose to expand, rearrange, or omit a particular activity when appropriate. Materials from different units may be taught simultaneously to keep the class interested and motivated.

Below is a listing of some features and activities that are included in the workbook. There are also additional suggestions to provide extended practice for students.

Visuals

Visuals are a vital part of teaching. Pictures, hand drawings, photographs and real objects add realism and relevance to the learner and enable students (especially beginning students) to attach immediate meaning to a situation. Every competency can be pre-taught by using visuals. Flashcards are great tools to have for beginning classes. The teacher can create a set of flashcards for almost every competency introduced in this module. They can be used to introduce new words and lend themselves to quick, periodic review of key vocabulary.

We are committed to introduce sewing terminology at the onset of the class because we wish to impress upon the students that this class is a job-specific English class. Because most of the students are non-literate in English, we recommend flashcards to introduce the new terminology. Five sewing tools can be introduced on the first day with four to five others to be added on subsequent days. Written words to match the pictures are not introduced to the students until they have some exposure to basic phonics.
The names of the sewing tools have been generated by the manager of Momentum, Inc. They may not be the standard technical names of the tools. The standard technical names of the tools can be introduced later in the course of instruction.

Tape

All dialogues and listening activities are pre-recorded on tape. The tape gives students opportunities to hear different voices and speaking styles. It also allows consistent repetitious listening usually needed in a beginning class.

Review

Because most of the students are not literate in English, we recognize the need to teach or review the English alphabet, the numeric system (ordinal and cardinal numbers), and beginning phonics at the very beginning of the course. To review the alphabets, we teach the upper case form first followed by the lower case form. To review numbers, we teach the cardinal numbers (0 to 100) first followed by ordinal numbers. To teach beginning phonics, we introduce the consonants first followed by long and short vowel sounds. Not all review lessons and activities are included in this book. A teacher should look into literacy texts available in the market to draw more ideas and activities to teach the above mentioned subjects.

Dialogues

Dialogues introduces the language in context and the competency. The dialogues are intentionally short, no more than four to five lines, to ensure easy listening and repetition. The first few dialogues in the book are printed in upper case form because students are introduced to the upper case form first. The following steps are recommended in the presentation of a dialogue:

1. Setting the Scene

Use visuals in the text to generate an impression of what the dialogue might be about and what language might be used. Teach core vocabulary and expressions so that students are prepared to comprehend the dialogue.

2. Listening to the Dialogue

Once the scene is set, the class listens to the dialogue on tape. The dialogue may be played several times for discussion of meaning and oral practice. The teacher can play the tape and stop at the end of a phrase or sentence for students to repeat after it. This way the teacher can check their listening and give them opportunities for oral practice.

Once students demonstrate an understanding of the dialogue, the teacher can model the dialogue for further repetition. First, the teacher repeats all the lines of the dialogue and the students repeat after her. Then the teacher takes one role, (A), and the students, (B). The roles are reversed for another practice of the dialogue. Next, the teacher divides the class in half. One half assumes one role, the other half, the other role. Finally, pairs of students practice the dialogue on their own while the teacher circulates to listen for problem areas, offering assistance as needed.

4. Drills

As the teacher is practicing the dialogue, it may become obvious that additional drilling of particular phrases needs to be introduced before the dialogue as a whole can be practiced. Aside from the repetition drill mentioned above, a teacher may need to introduce other mechanical drills such as chain, substitution, and transformation drills for further practice to make the new language natural. If students have difficulty repeating a phrase, a "backward buildup" may be used.

5. Further Practice

On subsequent days, further practice of the dialogue can be carried out in small groups or in pairs. The teacher can cut up the dialogue into strips. The students are to figure out the order of the strips and then practice the dialogue among themselves once they have the dialogue in front of them. Later, A and B strips may be assigned to each pair partner to make the oral practice more challenging. One partner gets the A strips and the other, B strips. They are reminded not to look at each other's lines. They must listen carefully to each other to proceed through the dialogue. This exercise allows for good listening, speaking and reading practice.

Listening Activities

Ample listening exercises are provided and recommended to check student comprehension of the material presented. Listen and circle activities are used to help guide students with their listening and make them accountable for their listening efforts. The teacher can play the tape several times. Once for the students to listen to and perform the task at hand and a second time in case they miss anything the first time around. The students can then switch papers to correct each other's answers. This allows for another opportunity to listen. When the class goes over the exercise together as a whole, the teacher should play the tape one more time for corrections. Because the students are at a beginning level, they usually do not mind repetitious listening. When the students are asked to correct each other's papers, it enhances their ability
to self-monitor which is a good language learning skill to acquire at the earliest stages of second language acquisition.

**Jazz Chants**

Jazz chants are those exercises signaled by the above symbol in the module. Jazz chants are based on a combination of repetition and learned responses. They make for a great language learning tool to develop students' familiarity with the rhythm and intonation patterns of frequently used English expressions. They also provide a teacher an opportunity to summarize and review the most important expressions to be learned in a particular unit. Jazz chants are presented very much like dialogues in the class (see notes on the presentation of dialogues). Because of much repetition, the expressions presented usually become quite natural and automatic for the students at the end of the class.

**Reading and Writing Activities**

Most of the reading and writing done in class is at the word or sentence level. Here are some activities suggested for reinforcing students' reading and writing skills:

1. **Vocabulary Writing Practice**

   Vocabulary writing exercises are provided for spelling and word recognition purposes. Each unit has a list of vocabulary for the students to learn to read and spell. Because most of the students come from an educational background where rote writing is common, we have included word writing as an integral part of the beginning curricula. Before students begin writing, the teacher must make sure that the students can recognize and say the words first. It is also recommended that the students sound out each word as they write so that they can associate sounds with their corresponding symbols. Students may do these exercise at home so that class time may be used for material introduction and more active practice.

2. **Picture-Word Match-up**

   This exercise works well as a paired activity. Person A has a set of pictures and person B has a set of matching words. The two students work together to make appropriate matches. Make sure each partner understands his or her role in the exercise so that one does not do the work for the other. This allows the slower students an opportunity to contribute. Modeling the language and the procedure for this exercise for students helps them see the purpose and goals of this exercise.
3. Crossword puzzles

Crossword puzzles enhance spatial recognition and spelling of words. Students may work alone or in pairs and then correct each other's work.

4. Dictations

Dictations reinforce with writing the content which has been previously practiced orally. They help students correlate written English with spoken English. The teacher reads the words or sentences at normal speed and the students write the words perceived by them on a piece of paper. If they do not catch all the words, they should be allowed to ask for repetition as often as necessary. Some students may peek into their workbooks or at others' papers. We allow for this because students must know what to look for and where to look for the right answers. Students are then paired or grouped to compare and correct each other's sentences. The teacher circulates around the room for assistance. Several students are then called to put their sentences on the board. By the time the words or sentences are written on the board, they are usually 90% correct. The teacher then goes over the remaining problem areas.

For a low level class, a teacher can help students out by drawing blanks for words in each sentence on the board during correction time. Students go up to the board to write sentences out according to the number of blanks drawn. The teacher checks for problems, and then proceeds to have class repeat the corrected sentences. To provide further oral practice, the teacher can do a "disappearing board trick." The teacher erases more and more words from the board until students can eventually repeat the sentences without much or any written representation at all.

5. Scrambled Sentences

Scrambled sentences work very well for beginning students. They make for a good small group activity. Sentences are enlarged and cut into individual words or phrases and are placed in envelopes to be passed out to each student group. Students work together to put the sentence or sentences together. When they believe they have the words appropriately placed in order, they are asked to write the sentences on the board. Some teachers like to have the students hold the words up and line up in front of the class in correct order. This way, the other students can help correct and read the sentences out loud. Students learn well and enjoy this activity because they are able to physically arrange and rearrange the words.

Many of the activities mentioned above can be made more exciting by introducing an element of competition into the activity. Prizes and praises can be given to an individual student or groups of students for successfully completing an activity first.
Listed above are just some of the more popular interactive reading and writing activities used in ESL classrooms. Many more creative techniques can be found in current ESL literature and textbooks to reinforce the learning of classroom material. We recommend frequent browsing of ESL books for inspiration and ideas for communicative language teaching.

OBJECTIVES OF MODULE 1

Module 1 is designed to familiarize Momentum garment workers with classroom instruction and procedures, review the basic components of written English and the numeric system, introduce some basic sewing terminology and the importance of casual day to day communication in the workplace. The aims of the activities in this module is to enable workers to feel more comfortable in a classroom environment, and initiate or interact with co-workers and superiors in English with greater fluency.

Students will be able to:

1. read and write the English alphabets in upper and lower case forms.

2. associate the most basic English sounds with their corresponding symbols - beginning phonics.

3. read, write, and comprehend ordinal and cardinal numbers.

4. name and ask for common sewing tools politely.

5. ask for repetition during communication breakdowns.

6. initiate and participate in casual small talk with co-workers and superiors.

INTRODUCTION

Project EXCEL is conducted under the National Workplace Literacy Program of the U.S. Department of Education. It is administered by the Career Resources Development Center (CRDC) in partnership with Momentum, Inc.

Project EXCEL focuses on literacy and basic skills training with emphasis on the workplace culture for limited English proficient (LEP) workers. Our goal is to assist these workers in retaining employment, increasing productivity and advancing their careers.

CRDC

CRDC is a 25 year old, non-profit, community based employment training agency located in San Francisco and Oakland. CRDC has trained over 3,500 ethnic minorities and women as office clerks, bank tellers, cooks, food service and housekeeping workers, janitors and office automation specialists.

CRDC’s training programs focus on LEP workers because they comprise the vast majority of the workforce at Momentum, Inc. CRDC recognizes that nearly 90% of California’s labor pool will come from Hispanic and Asian communities, half of them immigrants. Local labor force is increasingly low-skilled and limited English proficient, while, simultaneously, industry is demanding a more literate and skilled workforce.

MOMENTUM, INC.

Momentum, Inc. is an outerwear design development and engineering company. This is a new direction for the company since its inception in 1985.

Momentum, Inc. has changed from a manufacturing/contracting firm to a design/manufacturing firm. This business transformation requires greater worker involvement, and thus, the need for improved communication and critical thinking skills.

As a manufacturing company prior to the transformation, workers at Momentum would mass produce garment, repeating the same sewing procedures. As a design engineering firm, workers at Momentum are asked to read complicated spec sheets and sewing instructions, and participate in small group meetings in order to determine the sewing procedure for each new design. Production is smaller-scaled and more multi-faceted. The most important aim for workplace literacy training to the Momentum management is for its workers to read and comprehend spec sheets and actively participate in the design and sewing process.
Curriculum Designed for Momentum, Inc.

The curriculum for Momentum, Inc. is designed by a team of experienced educators from CRDC. The team met with the management, supervisors and workers to conduct needs assessments at the workplace. The team also conducted observations and participatory work to identify specific job and communicative skills required at Momentum, Inc. From these assessments, CRDC was able to design a curriculum to facilitate better communication between workers and management, and to enable workers to understand written work orders as well as follow oral instructions.

Project EXCEL's staff worked closely with management and workers at Momentum, Inc. and received consistent feedback from the Momentum management and workers before the curriculum was finalized. The curriculum consists of 3 modules. The goals and objectives of each module are explained on the cover of the modules.

TEACHING GUIDE

This module is specifically designed for limited English proficient adults who need to learn basic skills and language in order to function effectively at Momentum, Inc. The English proficiency level of the workers in this class ranges from pre-literacy to ESL level 100. The students are from China and Hong Kong. Their native languages are Mandarin, Cantonese and two other Chinese dialects. While some students have never received formal education in their native countries and are therefore illiterate in their native languages, others have limited education (4 to 5 years) in their native countries. Some have never taken an English class in the United States while others have taken a semester or two of Adult Basic Education at a local adult learning center.

This text is a beginning, competency-based text that attempts to integrate coping skills and functional language with essential language forms, vocabulary, and cultural information needed for the American workplace.

There is a wide variety of activities within each unit to reinforce language use. Each unit affords practice in listening, speaking, reading and writing. Lessons are self-contained and lend themselves to a format in which one or two activities may be completed within a one hour class period. Teachers may choose to expand, rearrange, or omit a particular activity when appropriate. Materials from different units may be taught simultaneously to keep the class interested and motivated.

Below is a listing of some features and activities that are included in the workbook. There are also additional suggestions to provide extended practice for students.

**Visuals**

Visuals are a vital part of teaching. Pictures, hand drawings, photographs and real objects add realism and relevance to the learner and enable students (especially beginning students) to attach immediate meaning to a situation. Every competency can be pre-taught by using visuals. Flashcards are great tools to have for beginning classes. The teacher can create a set of flashcards for almost every competency in this module. They can be used to introduce new words and lend themselves to quick, periodic review of key vocabulary.

**Tape**

All dialogues and listening activities are pre-recorded on tape. The tape gives students opportunities to hear different voices and speaking styles. It also allows consistent repetitious listening usually needed in a beginning class.
Dialogues

Dialogues introduces the language in context and the competency. The dialogues are intentionally short, no more than four to five lines, to ensure easy listening and repetition. The following steps are recommended in the presentation of a dialogue:

1. Setting the Scene

Use visuals in the text to generate an impression of what the dialogue might be about and what language might be used. Teach core vocabulary and expressions so that students are prepared to comprehend the dialogue.

2. Listening to the Dialogue

Once the scene is set, the class listens to the dialogue on tape. The dialogue may be played several times for discussion of meaning and oral practice. The teacher can play the tape and stop at the end of a phrase or sentence for students to repeat after it. This way the teacher can check their listening and give them opportunities for oral practice.

Once students demonstrate an understanding of the dialogue, the teacher can model the dialogue for further repetition. First, the teacher repeats all the lines of the dialogue and the students repeat after her. Then the teacher takes one role, (A), and the students, (B). The roles are reversed for another practice of the dialogue. Next, the teacher divides the class in half. One half assumes one role, the other half, the other role. Finally, pairs of students practice the dialogue on their own while the teacher circulates to listen for problem areas, offering assistance as needed.

4. Drills

As the teacher is practicing the dialogue, it may become obvious that additional drilling of particular phrases needs to be introduced before the dialogue as a whole can be practiced. Aside from the repetition drill mentioned above, a teacher may need to introduce other mechanical drills such as chain, substitution, and transformation drills for further practice to make the new language natural. If students have difficulty repeating a phrase, a "backward buildup" may be used.

5. Further Practice

On subsequent days, further practice of the dialogue can be carried out in small groups or in pairs. The teacher can cut up the dialogue into strips. The students are to figure out the order of the strips and then practice the dialogue among themselves once they have the dialogue in front of them. Later, A and B strips may
be assigned to each pair partner to make the oral practice more challenging. One partner gets the A strips and the other, B strips. They are reminded not to look at each other’s lines. They must listen carefully to each other to proceed through the dialogue. This exercise allows for good listening, speaking and reading practice.

Substitution practice can follow the introduction of a dialogue too. Students substitute content words in the dialogue with other words suggested by the teacher, the text or themselves. This kind of activity allows for further practice and broadens the context with which the students can use the new language.

**Listening Activities**

Ample listening exercises are provided and recommended to check student comprehension of the material presented. Listen and circle activities are used to help guide students with their listening and make them accountable for their listening efforts. The teacher can play the tape several times. Once for the students to listen to and perform the task at hand and a second time in case they miss anything the first time around. The students can then switch papers to correct each other’s answers. This allows for another opportunity to listen. When the class goes over the exercise together as a whole, the teacher should play the tape one more time for corrections. Because the students are at a beginning level, they usually do not mind repetitious listening. When the students are asked to correct each other’s papers, it enhances their ability to self-monitor which is a good language learning skill to acquire at the earliest stages of second language acquisition.

**Jazz Chants**

Jazz chants are those exercises signaled by the above symbol in the module. Jazz chants are based on a combination of repetition and learned responses. They make for a great language learning tool to develop students’ familiarity with the rhythm and intonation patterns of frequently used English expressions. They also provide a teacher an opportunity to summarize and review the most important expressions to be learned in a particular unit. Jazz chants are presented very much like dialogues in the class (see notes on the presentation of dialogues). Because of much repetition, the expressions presented usually become quite natural and automatic for the students at the end of the class.

**Reading and Writing Activities**

Most of the reading and writing done in class is at the word or sentence level. Here are some activities suggested for reinforcing students’ reading and writing skills:
1. Vocabulary Writing Practice

Vocabulary writing exercises are provided for spelling and word recognition purposes. Each unit has a list of vocabulary for the students to learn to read and spell. Because most of the students come from an educational background where rote writing is common, we have included word writing as an integral part of the beginning curricula. Before students begin writing, the teacher must make sure that the students can recognize and say the words first. It is also recommended that the students sound out each word as they write so that they can associate sounds with their corresponding symbols. Students may do these exercise at home so that class time may be used for material introduction and more active practice.

2. Picture-Word Match-up

This exercise works well as a paired activity. Person A has a set of pictures and person B has a set of matching words. The two students work together to make appropriate matches. Make sure each partner understands his or her role in the exercise so that one does not do the work for the other. This allows the slower students an opportunity to contribute. Modeling the language and the procedure for this exercise for students helps them see the purpose and goals of this exercise.

3. Long Form/Abbreviation Match-up

Because abbreviations appear frequently on designers’ spec sheets, the teaching of abbreviations is an important part of the curricula. Please see Appendix A for specific teaching instructions.

4. Crossword puzzles

Crossword puzzles enhance spacial recognition and spelling of words. Students may work alone or in pairs and then correct each other’s work.

5. Dictations

Dictations reinforce with writing the content which has been previously practiced orally. They help students correlate written English with spoken English. The teacher reads the words or sentences at normal speed and the students write the words perceived by them on a piece of paper. If they do not catch all the words, they should be allowed to ask for repetition as often as necessary. Some students may peek into their workbooks or at others’ papers. We allow for this because students must know what to look for and where to look for the right answers. Students are then paired or grouped to compare and correct each other’s sentences. The teacher circulates around the room for assistance. Several students are then called to put their sentences on the board. By the time the words or sentences are written on the board, they are usually 90% correct. The teacher then goes over
the remaining problem areas.

For a low level class, a teacher can help students out by drawing blanks for words in each sentence on the board during correction time. Students go up to the board to write sentences out according to the number of blanks drawn. The teacher checks for problems, and then proceeds to have the class repeat the corrected sentences. To provide further oral practice, the teacher can do a "disappearing board trick." The teacher erases more and more words from the board until students can eventually repeat the sentences without much or any written representation at all.

6. Scrambled Sentences

Scrambled sentences work very well for beginning students. They make for a good small group activity. Sentences are enlarged and cut into individual words or phrases and are placed in envelopes to be passed out to each student group. Students work together to put the sentence or sentences together. When they believe they have the words appropriately placed in order, they are asked to write the sentences on the board. Some teachers like to have the students hold the words up and line up in front of the class in correct order. This way, the other students can help correct and read the sentences out loud. Students learn well and enjoy this activity because they are able to physically arrange and rearrange the words.

Many of the activities mentioned above can be made more exciting by introducing an element of competition into the activity. Prizes and praises can be given to an individual student or groups of students for successfully completing an activity first.

Listed above are just some of the more popular interactive reading and writing activities used in ESL classrooms. Many more creative techniques can be found in current ESL literature and textbooks to reinforce the learning of classroom material. We recommend frequent browsing of ESL books for inspiration and ideas for good communicative language teaching.

OBJECTIVES OF MODULE 2

Module 2 is designed to introduce five new competencies related to the garment making industry while reviewing and reinforcing basic functional language previously taught in Module 1. Workers at Momentum, Inc. will gain competency in recognizing and naming basic colors, articles of clothing, sizes, seasons of the year and parts of the body. Students will broaden their small talk repertoire by learning to compliment each other on their appearances and show concern for each other by asking and responding to questions concerning their health.

The students will be able to:

1. read, write, and comprehend names of basic colors and their abbreviations as they appear on Momentum spec sheets; describe colors they are wearing. New verb: I’m wearing...

2. read, write and comprehend common articles of clothing; name clothing they are wearing. New verbs: put on, take off, I have, I need...

3. make compliments about appearance and clothing; respond appropriately to compliments. New verb: I like...

4. recognize and describe sizes commonly found on clothing labels; describe the fit of clothing they wear. New verb: try on

5. read, write and comprehend the four seasons of the year; categorize clothing and colors according to seasons. New language: This/that is for summer.

6. name different parts of the body.

7. show concern for each other’s health; describe sources of pain and discomfort. New verb: My head hurts.

Appendix C - Sizes

Procedure for a whole class activity:

1. Put clothing labels on index cards.
2. Number the index cards 1 to 10.
3. Make sure the students can read sizes in long form and abbreviated form.
4. Post index cards all over the wall or the blackboard.
5. Go over the student worksheet on page 19. Have students go up to the board or the wall to scan for answers to the worksheet. Have several students start at #10, some at #5, and others at #1 to prevent overcrowding.
6. Go over the answers on the board after the activity. If there is a disagreement over a particular answer, send a student to the board to check for the correct answer.
I need a new shirt.

I need a new pair of boots.

I need a new dress.

I need a new purse.

Appendix B - Clothing

Procedures for a whole class activity:

1. Cut out sentences and pictures of clothing.

2. Pre-teach articles of clothing, verbs-need/have and the adjectives-old/new.

3. Pass out sentences and pictures randomly to students. A student should have either strips of sentences or pictures.

4. One by one the students with sentences announce what they need. Example: A: I need a new jacket. B: I have a jacket. (response from the student with the right picture)

5. Collect strips of paper and pass them out again for another round of the same exercise. Make sure the students have strips that they did not have before.

Appendix A - Colors

Procedures for a whole class activity:

1. Cut word squares.

2. Teach the concept of "the same" and "different" to students.

3. Pick up two pieces of paper at random; students respond by saying "the same" or "different".
   BLK/black constitute a match—"the same" response required.
   BLK/brown constitute a mismatch—"different" response required.
   Do this until students know the material well.

4. Pass out paper, one or two per student. Students walk around the room to find appropriate matches. Teacher should teach the language involved in this activity.
   For example:  A: I have brown. What do you have?
                B: I have brown too. We have a match.

5. Make individual sets of word matches for a pair activity if necessary.
Say the jazz chant.

Appendix D - Seasons

Procedure for a whole class activity:

1. Cut out pictures from fashion magazines of four different seasons.

2. Pick out pictures from all four seasons to make a set. Make enough sets to pass out to the class.

3. Pass out sets of magazine cut-outs to pairs of students. Have each pair separate pictures into seasonal categories. Teach the language involved to this exercise.
   Example: A: This is for winter.
   This is for spring.

4. Teacher walks around the room to monitor progress.

5. Find 4 paper bags and label each bag with a particular season in bold print. Set the bags in front of the teacher’s desk.

6. Pass out pictures (4 or 5) to individual students. Have each student pick up a picture and tell you which bag to place the picture. Students and teacher can discuss the appropriateness of choices made. Make generalizations about the kinds of clothing for each season (esp. colors, types of material, style or shape of clothing, etc.).

LISTENING SCRIPT AND ANSWER KEY
INTRODUCTION

Project EXCEL is conducted under the National Workplace Literacy Program of the U.S. Department of Education. It is administered by the Career Resources Development Center (CRDC) in partnership with Momentum, Inc.

Project EXCEL focuses on literacy and basic skills training with emphasis on the workplace culture for limited English proficient (LEP) workers. Our goal is to assist these workers in retaining employment, increasing productivity and advancing their careers.

CRDC

CRDC is a 25 year old, non-profit, community based employment training agency located in San Francisco and Oakland. CRDC has trained over 3,500 ethnic minorities and women as office clerks, bank tellers, cooks, food service and housekeeping workers, janitors and office automation specialists.

CRDC’s training programs focus on LEP workers because they comprise the vast majority of the workforce at Momentum, Inc. CRDC recognizes that nearly 90% of California’s labor pool will come from Hispanic and Asian communities, half of them immigrants. Local labor force is increasingly low-skilled and limited English proficient, while, simultaneously, industry is demanding a more literate and skilled workforce.

MOMENTUM, INC.

Momentum, Inc. is an outerwear design development and engineering company. This is a new direction for the company since its inception in 1985.

Momentum, Inc. has changed from a manufacturing/contracting firm to a design/manufacturing firm. This business transformation requires greater worker involvement, and thus, the need for improved communication and critical thinking skills.

As a manufacturing company prior to the transformation, workers at Momentum would mass produce garment, repeating the same sewing procedures. As a design engineering firm, workers at Momentum are asked to read complicated spec sheets and sewing instructions, and participate in small group meetings in order to determine the sewing procedure for each new design. Production is smaller-scaled and more multi-faceted. The most important aim for workplace literacy training to the Momentum management is for its workers to read and comprehend spec sheets and actively participate in the design and sewing process.
Curriculum Designed for Momentum, Inc.

The curriculum for Momentum, Inc. is designed by a team of experienced educators from CRDC. The team met with the management, supervisors and workers to conduct needs assessments at the workplace. The team also conducted observations and participatory work to identify specific job and communicative skills required at Momentum, Inc. From these assessments, CRDC was able to design a curriculum to facilitate better communication between workers and management, and to enable workers to understand written work orders as well as follow oral instructions.

Project EXCEL's staff worked closely with management and workers at Momentum, Inc. and received consistent feedback from the Momentum management and workers before the curriculum was finalized. The beginning curriculum consists of 3 modules. The goals and objectives of each module are explained on the cover of the modules.

TEACHING GUIDE

This module is specifically designed for limited English proficient adults who need to learn basic skills and language in order to function effectively at Momentum, Inc. The English proficiency level of the workers in this class ranges from literacy to ESL level 100. The students are from China and Hong Kong. Their native languages are Mandarin, Cantonese and two other Chinese dialects. While some students have never received formal education in their native countries and are therefore illiterate in their native languages, others have limited education (4 to 5 years) in their native countries. Some have never taken an English class in the United States while others have taken a semester or two of Adult Basic Education at a local adult learning center. Most of the worker students have been exposed to two modules of workplace specific curriculum already.

This text is a beginning, competency-based text that attempts to integrate coping skills and functional language with essential language forms, vocabulary, and cultural information needed for the American workplace.

There is a wide variety of activities within each unit to reinforce language use. Each unit affords practice in listening, speaking, and some reading and writing. Lessons are self-contained and lend themselves to a format in which one or two activities may be completed within a one hour class period. Teachers may choose to expand, rearrange, or omit a particular activity when appropriate.

Below is a listing of the special features and activities included in the student workbook along with some suggestions on how to teach them. There are also additional suggestions to provide extended practice for students.

Visuals

Visuals are a vital part of teaching. Pictures, hand drawings, photographs and real objects add realism and relevance to the learner and enable students (especially beginning students) to attach immediate meaning to a situation. Every competency can be pre-taught by using visuals. They help introduce a context and generate key vocabulary. Flashcards are great tools to have for beginning classes. The teacher can create a set of flashcards for almost every competency introduced in this module. They can be used to introduce new words and lend themselves to quick, periodic review of key vocabulary and expressions.
Tape

All dialogues and listening activities are pre-recorded on tape. The tape gives students opportunities to hear different voices and speaking styles. It also affords consistent repetitious listening much needed in a beginning class.

Dialogues

Dialogues introduces the language in context and the competency. The dialogues are intentionally short, no more than four to five lines, to ensure easy listening and repetition. The following steps are recommended in the presentation of a dialogue:

1. Setting the Scene

Use visuals in the text to generate an impression of what the dialogue might be about and what language might be used. Teach core vocabulary and expressions so that students are prepared to comprehend the dialogue.

2. Listening to the Dialogue

Once the scene is set, the class listens to the dialogue on tape. The dialogue may be played several times for discussion of meaning and oral practice. The teacher can play the tape and stop at the end of a phrase or sentence for students to repeat after it. This way the teacher can check their listening and give them opportunities for oral practice.

Once students demonstrate an understanding of the dialogue, the teacher can model the dialogue for further repetition. First, the teacher repeats all the lines of the dialogue and the students repeat after her. Then the teacher takes one role, (A), and the students, (B). The roles are reversed for another round of practice. Next, the teacher divides the class in half. One half assumes one role, the other half, the other role. Finally, pairs of students practice the dialogue on their own while the teacher circulates to listen for problem areas, offering assistance as needed.

4. Drills

As the teacher is practicing the dialogue, it may become obvious that additional drilling of particular phrases needs to be introduced before the dialogue as a whole can be practiced. Aside from the repetition drill mentioned above, a teacher may need to introduce other mechanical drills such as chain, substitution, and transformation drills for further practice to make the new language natural. If students have difficulty repeating a phrase, a "backward buildup" may be used.
5. Further Practice

On subsequent days, further practice of the dialogue can be carried out in small groups or in pairs. The teacher can cut up the dialogue into strips. The students are to figure out the order of the strips and then practice the dialogue among themselves once they have the dialogue in front of them. Later, A and B strips may be assigned to each pair partner to make the oral practice more challenging. One partner gets the A strips and the other, B strips. They are reminded not to look at each other’s lines. They must listen carefully to each other to proceed through the dialogue. This exercise allows for good listening, speaking and reading practice.

Another good tried and true exercise to do is a cloze exercise on the board. The teacher can write a dialogue on the board with randomly missing words. The lines of the dialogue are numbered for easy correction. Individual students are called to fill in the missing words on different lines. When done, the teacher goes over the grammar and the spelling. Next, the teacher can do a “disappearing board” activity. The dialogue is repeated several times, each time the teacher erases a few more words. This is done until the students can say the dialogue with very little or no written prompts. Finally, a few students may be called upon to act out the dialogue.

Listening Activities

Listening exercises are provided and recommended to check student comprehension of the material presented. Listen and circle activities are used to help guide students with their listening and make them accountable for their listening efforts. The teacher can play the tape several times. Once for the students to listen to and perform the task at hand and a second time to confirm their listening comprehension. The students can then switch papers to correct each other’s answers. This allows for another opportunity to listen. When the class goes over the exercise together as a whole, the teacher should play the tape one more time for corrections. Because the students are at a beginning level, they usually do not mind repetitious listening. When the students are asked to correct each other’s papers, it enhances their ability to self-monitor which is a good language learning skill to acquire at the earliest stages of second language acquisition.

Jazz Chants

Jazz chants are those exercises signaled by the above symbol in the module. Jazz chants are based on a combination of repetition and learned responses. They make for a great language learning tool to develop students’ familiarity with the rhythm and intonation patterns of frequently used English expressions. They also provide a teacher an opportunity to summarize and review the most important
expressions to be learned in a particular unit. Jazz chants are presented very much like dialogues in the class (see notes on the presentation of dialogues). Because of much repetition, the expressions presented usually become quite natural and automatic for the students at the end of the class.

Role plays

Role plays allow students to practice the language previously learned in context and communicatively. The students must bring to the exercise linguistic as well as sociolinguistic competence. Role plays are introduced at the end of a unit and is carried out in similar steps every time. Role play activities are carried out in the following steps:

1. The teacher uses the picture in the text to set the scene and generate key vocabulary. Please refer to page 21.

2. Both the teacher and the students work together to generate a dialogue. The teacher should have a model dialogue in mind before she begins the dialogue solicitation process. The job of the teacher at the board is to prompt the students for a response. For example:

   T: The box is too heavy. Jerry can't carry it. He sees Liangkie nearby. What should Jerry do?
   S: Ask Liangkie for help.
   T: What should he say?
   S: Liangkie, can you help me? This box heavy.
   (Teacher writes on the board:
    Jerry: Liangkie, can you help me? This box heavy.)
   T: Now what should Liangkie say?
   S: Sure. I help you.
   (Teacher writes on the board:
    Liangkie: Sure. I help you.)

   The teacher and the students continue in the same manner until a complete four to five line dialogue is produced. The teacher then goes over to clean up the dialogue for proper structure and appropriateness. Allow time for the students to copy down the dialogue. Teacher and students then practice the dialogue together.

3. When the students are comfortable with the dialogue, the teacher refers to the following page of the role play for ways to change the dialogue. Content words are changed but the structure and format of the dialogue stay the same. Students practice the dialogue in pairs referring to the pictures or cues on the page. When the students are ready, several may be called to the front of the class to role play with the teacher. Eventually the teacher should be replaced by a student too.
4. To vary the dialogue, the teacher can introduce other ways to express the same idea of certain lines in the dialogue. For example: Can you help me? Sure.

   Could you help me? Of course.
   Could you give me a hand? No problem.

The students practice the variations with the teacher and then among themselves until they are comfortable. Heed the urge to introduce too many variations.

5. Students can again be asked to role play varying contexts with the teacher in front of the class. To make the second time more interesting, the teacher can vary the tone or the mood of the characters just a little. For example:

   S: Could you help me? The box is too heavy.
   T: Oh, I'm sorry, I'm busy right now. Wait a minute.

Some students will adjust to changing situations better than others. If a student stumbles upon a response, the teacher and students can work together to come up with an appropriate one. The emphasis at this point of the exercise is on the appropriateness and flow of the dialogue, not so much the grammatical accuracy of speech.

Reading and Writing Activities

Most of the reading and writing done in class is at the word or sentence level. Here are some activities suggested for reinforcing students' reading and writing skills:

1. Picture-Word Match-up

   This exercise works well as a paired activity. Person A has a set of pictures and person B has a set of matching words. The two students work together to make appropriate matches. Make sure each partner understands his or her role in the exercise so that one does not do the work for the other. This allows the slower students an opportunity to contribute. A mini dialogue may be introduced later to make the exercise more communicative. For example: A: What's the matter? (A points to a picture or word)

      B: I have a headache. (B looks at picture or word and responds)

      A: Sorry to hear that. I hope you feel better soon.

   Partners take turns pointing and answering.

2. Dictations

   Dictations reinforce with writing the content which has been previously practiced orally. They help students correlate written English with spoken English. The teacher reads the words or
sentences at normal speed and the students write the words perceived by them on a piece of paper. If they do not catch all the words, they should be allowed to ask for repetition as often as necessary. The teacher should also provide the spelling of words that may be difficult for students to spell. For this exercise, structure is the focus, not spelling. Some students may feel the need to peek into their workbooks or at others' papers. We allow for this because students must know what to look for and where to look for words to fill the gaps. Students are then paired or grouped to compare and correct each other's sentences. The teacher circulates around the room for assistance. Several students are then called to put their sentences on the board. By the time the words or sentences are written on the board, they are usually 90% correct. The teacher then goes over the remaining problem areas.

For a low level class, a teacher can help students out by drawing blanks for words in each sentence on the board during correction time. Students go up to the board to write sentences out according to the number of blanks drawn. The teacher checks for problems, and then proceeds to have class repeat the corrected sentences. To provide further oral practice, the teacher can do a "disappearing board trick." The teacher erases more and more words from the board until students can eventually repeat the sentences without much or any written representation at all.

3. Scrambled Sentences

Scrambled sentences work very well for beginning students. They make for a good small group activity. Sentences are enlarged and cut into individual words or phrases and are placed in envelopes to be passed out to each student group. Students work together to put the sentence or sentences together. When they believe they have the words appropriately placed in order, they are asked to write the sentences on the board. Some teachers like to have the students hold the words up and line up in front of the class in correct order. This way, the other students can help correct and read the sentences out loud. Students learn well and enjoy this activity because they are able to physically arrange and rearrange the words.

There are some scrambled sentence exercises in the text. Students may be paired to unscramble the sentences. Since the sentences are parts of a dialogue, the students are further challenged to put the lines in proper communicative order. Students then are called upon to practice the dialogue together with a partner.

Listed above are just some of the more popular interactive reading and writing activities used in ESL classrooms. Many more creative techniques can be found in current ESL literature and textbooks to reinforce the learning of classroom material. We recommend frequent browsing of ESL books for inspiration and ideas for communicative language teaching.

OBJECTIVES OF MODULE 3

Module 3 is designed to introduce six new competencies relating to the work and the working culture of Momentum, Inc. while reviewing and reinforcing basic functional language taught in the previous two modules. Workers at Momentum, Inc. will gain competency in describing common physical ailments, expressing sympathy for co-workers with sickness, and calling in sick themselves. Because the company receptionist is often away her desk, the workers will learn to help answer the phone. The class will also learn to use the modal expressing ability and possibility "CAN" to describe what they can/can not do and request for assistance. Finally, Momentum workers will understand the meaning of fractions and gain greater competence in using rulers, yardsticks and measuring tapes.

The students will be able to:

1. recognize and express common physical ailments.
2. express sympathy and concern for co-workers with sickness.
3. call in sick to work.
4. assist in answering the phone and asking callers to call back at a more convenient time.
5. use the modal of ability "CAN" to express things that they can and can not do.
6. use the modal of possibility "CAN" to request for help and guidance.
7. understand the meaning and representation of fractions.
8. comprehend, read and write fractions as they usually appear in their sewing specifications.
9. use rulers, yardsticks, and measuring tapes with greater ease and competence.
UNIT 1: I HOPE YOU FEEL BETTER SOON!

GETTING READY

Match words to pictures.

1. a headache
2. a stomachache
3. a backache
4. a cold
5. a fever
6. a sore throat
7. an earache

PAIR PRACTICE

Look at the pictures above. Practice the dialogue below with a partner about each picture.

A: What's the matter?
B: I have a stomachache.
WRITING

Write the words for each picture below.

1. a backache  
2. ________

3. ________  
4. ________  
5. ________

6. ________  
7. ________

PAIR PRACTICE

Look at the pictures above. Practice the dialogue below with a partner about each picture.

A: How are you today?
B: Not well. I’m sick.
A: What’s the matter?
B: I have a headache.
A: I hope you feel better soon.
LISTENING

Ex. 1 - Listen to the dialogues and circle the correct pictures.

1. [Circle the correct picture: woman with a cold, man with a fever, man with a sore throat.]

2. [Circle the correct picture: woman in bed, man with a fever, man with a headache.]

3. [Circle the correct picture: woman with a cold, man with a sore throat, man with a headache.]

4. [Circle the correct picture: man with a cold, man with an earache, man with a headache.]

Ex. 2 - Listen to the dialogues and circle the sentences you hear.

1. a. I have a cold.  b. I have a fever.  c. I have a sore throat.
2. a. I have a stomachache.  b. I have a fever.  c. I have a headache.
3. a. I have a headache.  b. I have a cold.  c. I have a sore throat.
4. a. I have a backache.  b. I have an earache.  c. I have a headache.
5. a. I have a sore throat.  b. I have a backache.  c. I have a headache.
6. a. I have an earache.  b. I have a backache.  c. I have a stomachache.

Ling: Sure. Please wait a minute... LIANGKIE!

Dialogue 2: Could you call back later?

Pei Juan: Good afternoon, Momentum.

Ms. Sanders: Hello. May I speak to Bob?

Pei Juan: I'm sorry. Bob is not here right now. Could you call back later?

Ms. Sanders: Sure. When?

Pei Juan: In about 15 minutes.

Ms. Sanders: OK. Thank you.
LISTENING

Listen to the dialogues and circle the sentences you hear.

1. a. Hello, Macy’s.
   b. Hello, Momentum.
   c. Hello, Emporium.

2. a. May I speak to Bob?
   b. May I speak to Ling?
   c. May I speak to Liangkie?

3. a. Bob is not here right now.
   b. Jerry is not here right now.
   c. Liangkie is not here right now.

4. a. Could you call back tomorrow?
   b. Could you call back Friday?
   c. Could you call later?

5. a. Please call back in about 10 minutes.
   b. Please call back in about 15 minutes.
   c. Please call back in about 30 minutes.

UNIT 4: CAN YOU SEW?

READING

Mimi works at Momentum.
She is a good seamstress.
She can sew.
She can make samples too.
She is a good worker.

Answer the questions below.

1. Where does Mimi work?

2. Why is Mimi a good worker?

DIALOGUES

Dialogue 1: Yes, I can.
Ling: Can you cook, Pennie?
Pennie: Yes, I can.
I can cook very well.

Dialogue 2: No, I can’t.
Ling: Can you sew, Pennie?
Pennie: No, I can’t.
I can’t sew at all.
**WRITING**

Write answers (Yes, I can. / No, I can’t.) to the following questions about yourself.

**DIALOGUE**

Clerk: Good afternoon. May I help you?

Lan: Yes. I need $2\frac{1}{2}$ yards of this material.

Clerk: What did you say?

Lan: I need $2\frac{1}{2}$ yards of this material.

Clerk: Sure. 

Here you go. Please pay over there.

Lan: Thank you.

**PAIR PRACTICE**

Practice the dialogue above with a partner. Use the measurements below in your practice.

1. $4\frac{1}{2}$ yards
2. $7\frac{3}{4}$ yards
3. $6\frac{1}{4}$ yards
4. $5\frac{3}{4}$ yards
5. $2\frac{1}{5}$ yards
Pick up a ruler from the table. Find the following measurements:

1. 1"
2. 2"
3. 5"
4. 7"
5. 10"
6. 12"

7. Arrange the measurements in order from smallest to largest.
Write the fraction of each mark on the ruler below.

LISTENING SCRIPT AND ANSWER KEY
INTRODUCTION

Project EXCEL is conducted under the National Workplace Literacy Program of the U.S. Department of Education. It is administered by the Career Resources Development Center (CRDC) in partnership with Momentum, Inc.

Project EXCEL focuses on literacy and basic skills training with emphasis on the workplace culture for limited English proficient (LEP) workers. Our goal is to assist these workers in retaining employment, increasing productivity and advancing their careers.

CRDC

CRDC is a 25 year old, non-profit, community based employment training agency located in San Francisco and Oakland. CRDC has trained over 3,500 ethnic minorities and women as office clerks, bank tellers, cooks, food service and housekeeping workers, janitors and office automation specialists.

CRDC’s training programs focus on LEP workers because they comprise the vast majority of the workforce at Momentum, Inc. CRDC recognizes that nearly 90% of California’s labor pool will come from Hispanic and Asian communities, half of them immigrants. Local labor force is increasingly low-skilled and limited English proficient, while, simultaneously, industry is demanding a more literate and skilled workforce.

MOMENTUM, INC.

Momentum, Inc. is an outerwear design development and engineering company. This is a new direction for the company since its inception in 1985.

Momentum, Inc. has changed from a manufacturing/contracting firm to a design/manufacturing firm. This business transformation requires greater worker involvement, and thus the need for improved communication and critical thinking skills.

As a manufacturing company prior to the transformation, workers at Momentum would mass produce garments, repeating the same sewing procedures. As a design engineering firm, workers at Momentum are asked to read complicated spec sheets and sewing instructions, and participate in small group meetings in order to determine the sewing procedure for each new design. Production is smaller-scaled and more multi-faceted. The most important aim for workplace literacy training to the Momentum management is for its workers to read and comprehend spec sheets and actively participate in the design and sewing process.
Curriculum Designed for Momentum, Inc.

The curriculum for Momentum, Inc. is designed by a team of experienced educators from CRDC. The team met with the management, supervisors and workers to conduct needs assessments at the workplace. The team also conducted observations and participatory work to identify specific job and communicative skills required at Momentum, Inc. From these assessments, CRDC was able to design a curriculum to facilitate better communication between workers and management, and to enable workers to understand written work orders as well as follow oral instructions.

Project EXCEL's staff worked closely with management and workers at Momentum, Inc. and received consistent feedback from the Momentum management and workers before the curriculum was finalized. The goals and objectives of each module are explained on the cover of the modules.

TEACHING GUIDE

This module is specifically designed for limited English proficient adults who need to learn basic skills and language in order to function effectively at Momentum, Inc. At the beginning of the training program, the English proficiency level of the workers in this class ranged from literacy to ESL level 100. The students are from China and Hong Kong. Their native languages are Mandarin, Cantonese and two other Chinese dialects. While some students have never received formal education in their native countries and are therefore illiterate in their native languages, others have limited education (4 to 5 years) in their native countries. Some have never taken an English class in the United States while others have taken a semester or two of Adult Basic Education at a local adult learning center. Most of the worker students in this class have been exposed to three modules of general English and workplace specific curriculum already.

This text is a beginning, competency-based text that attempts to integrate coping skills and functional language with essential language forms, vocabulary, and cultural information needed for the American workplace.

There is a wide variety of activities within each unit to reinforce language use. Each unit affords practice in listening, speaking, and some reading and writing. Lessons are self-contained and lend themselves to a format in which one or two activities may be completed within a one-hour class period. Teachers may choose to expand, rearrange, or omit a particular activity when appropriate.

The information below highlights special features and activities included in the student workbook along with some suggestions on how to teach them. There are also additional suggestions to provide extended practice for students.

Visuals

Visuals are a vital part of teaching. Pictures, hand drawings, photographs and real objects add realism and relevance to the learner and enable students (especially beginning students) to attach immediate meaning to a situation. Every competency can be pre-taught by using visuals. They can be used to help introduce a context and generate key vocabulary. Flashcards are great tools to have for beginning classes. The teacher can create a set of flashcards for almost every competency introduced in this module. They can be used to introduce new words and lend themselves to quick, periodic review of key vocabulary and expressions.
Tape

All dialogues and listening activities are pre-recorded on tape. The tape gives students opportunities to hear different voices and speaking styles. It also affords consistent repetitious listening which is greatly needed in a beginning class.

Dialogues

Dialogues introduces the language in context and the competency. The dialogues are intentionally short, no more than five to six lines, to ensure easy listening and repetition. The following steps are recommended in the presentation of a dialogue:

1. Setting the Scene

Use visuals in the text to generate an impression of what the dialogue might be about and what language might be used. Teach core vocabulary and expressions so that students are prepared to comprehend the dialogue.

2. Listening to the Dialogue

Once the scene is set, the class listens to the dialogue on tape. The dialogue may be played several times for discussion of meaning and oral practice. The teacher can play the tape and stop at the end of a phrase or sentence for students to repeat after it. This way the teacher can check their listening and give them opportunities for oral practice.

Once students demonstrate an understanding of the dialogue, the teacher can model the dialogue for further repetition. First, the teacher repeats all the lines of the dialogue and the students repeat after her. Then the teacher takes one role, (A), and the students, (B). The roles are reversed for another round of practice. Next, the teacher divides the class in half. One half assumes one role, the other half, the other role. Finally, pairs of students practice the dialogue on their own while the teacher circulates to listen for problem areas, offering assistance as needed.

4. Drills

As the teacher is practicing the dialogue, it may become obvious that additional drilling of particular phrases needs to be introduced before the dialogue as a whole can be practiced. Aside from the repetition drill mentioned above, a teacher may need to introduce other mechanical drills such as chain, substitution, and transformation drills for further practice to make the new language natural. If students have difficulty repeating a phrase, a "backward buildup" may be used.
5. Further Practice

On subsequent days, further practice of the dialogue can be carried out in small groups or in pairs. The teacher can cut up the dialogue into strips. The students are to figure out the order of the strips and then practice the dialogue among themselves once they have the dialogue in front of them. Later, A and B strips may be assigned to each pair partner to make the oral practice more challenging. One partner gets the A strips and the other, B strips. They are reminded not to look at each other's lines. They must listen carefully to each other to proceed through the dialogue. This exercise allows for good listening, speaking and reading practice.

Another good tried and true exercise to do is a cloze exercise on the board. The teacher can write a dialogue on the board with randomly missing words. The lines of the dialogue are numbered for easy correction. Individual students are called to fill in the missing words on different lines. When done, the teacher goes over the grammar and the spelling. Next, the teacher can do a "disappearing board" activity. The dialogue is repeated several times, each time the teacher erases a few more words. This is done until the students can say the dialogue with very little or no written prompts. Finally, a few students may be called upon to act out the dialogue.

Listening Activities

Listening exercises are provided and recommended to check student comprehension of the material presented. Listen and circle activities are used to help guide students with their listening and make them accountable for their listening efforts. The teacher can play the tape several times. Once for the students to listen to and perform the task at hand and a second time to confirm their listening comprehension. The students can then switch papers to correct each other's answers. This allows for another opportunity to listen. When the class goes over the exercise together as a whole, the teacher should play the tape one more time for corrections. Because the students are at a beginning level, they usually do not mind repetitious listening. When the students are asked to correct each other's papers, it enhances their ability to self-monitor which is a good language learning skill to acquire at the earliest stages of second language acquisition.

Role plays

Role plays allow students to practice the language previously learned in a semi-real context communicatively. The students must bring to the exercise linguistic as well as sociolinguistic competence. Role plays are introduced at the end of a unit and is carried out in similar steps every time. Role play activities are recommended to be carried out in the following steps:
1. The teacher uses the picture in the text to set the scene and generate key vocabulary. Please refer to page 21 of the text.

2. Both the teacher and the students work together to generate a dialogue. The teacher should have a model dialogue in mind before she begins the dialogue solicitation process. The job of the teacher at the board is to prompt the students for a response. The teacher may also need to pantomime the scene for the students. For example:

   T: Mary and Susan are students. They are in the library. Mary finished her school work early. She is getting ready to go home. She picked up all her books and papers, but she forgot her pen. Susan sees the pen on the table. What should Susan do?

   S: Give pen back to Mary.
   T: But Susan is not sure the pen is Mary's.
   S: Susan need ask Mary.
   T: Right. What should she say to Mary?
   S: Mary, is this your pen?

   (Teacher writes on the board:
    Susan: Mary, is this your pen?)
   T: Now what should Mary say?
   S: Yes, it is.

   (Teacher writes on the board:
    Mary: Yes, it is.)

   The teacher and the students continue in the same manner until a complete four to five line dialogue is produced. The teacher then goes over to clean up the dialogue for proper structure and appropriateness. Allow time for the students to copy down the dialogue. Teacher and students then practice the dialogue together.

3. When the students are comfortable with the dialogue, the teacher refers to the following page of the role play for ways to change the dialogue. Content words are changed but the structure and format of the dialogue stay the same. Students practice the dialogue in pairs referring to the pictures or cues on the page. When the students are ready, several may be called to the front of the class to role play with the teacher. Eventually the teacher should be replaced by a student too.

4. To vary the dialogue, the teacher can introduce other ways to express the same idea of certain lines in the dialogue. For example:

   Is this your pen?
   Is this yours?
   Thank you.
   Thanks a lot.

   ↓
   ↓
   ↓
   ↓

   Yes, it is.
   Oh, yes.
   You're welcome.
   It's my pleasure.
The students practice the variations with the teacher and then among themselves until they are comfortable. Heed the urge to introduce too many variations.

5. Students can again be asked to role play varying contexts with the teacher in front of the class. To make the second time more interesting, the teacher can vary the tone or the mood of the characters just a little. For example:

S: Is this yours?
T: No, it isn’t. It’s yours. It has your name on it.

Some students will adjust to changing situations better than others. If a student stumbles upon a response, the teacher and students can work together to come up with an appropriate one. The emphasis at this point of the exercise is on the appropriateness and flow of the dialogue, not so much the grammatical accuracy of speech.

Interview Grids

Interview grids involve several skills: listening, speaking and writing. These exercises allow students a chance to interact communicatively and to perform the linguistic task at hand. The students are asked to interview each other for answers to targeted questions. When an answer is given, the interviewer writes down the information. It is important that information getting and conversation starting strategies be taught and reviewed prior to the interviewing activities.

For example:  Excuse me, may I ask you a few questions?
             Hi, do you have a minute?
             I’m sorry, what did you say?
             Could you repeat that?
             How do you spell it?
             Did you say ________?
             Thank you for your time.
             Nice talking with you.

The teacher should model the exercise to make sure the students understand what they need to do. It is also recommended that the teacher go over the questions on the grid before the class begins the exercise.
Reading and Writing Activities

Most of the reading and writing done in class is at the word or sentence level. Here are some activities suggested for reinforcing students' reading and writing skills:

1. Picture-Word Match-up

This exercise works well as a paired activity. Person A has a set of pictures and person B has a set of matching words. The two students work together to make appropriate matches. Make sure each partner understands his or her role in the exercise so that one does not do the work for the other. This allows the slower students an opportunity to contribute. A mini dialogue may be introduced later to make the exercise more communicative. For example:

A: What is she doing? (A points to a picture)
B: She's tying a bundle. (B looks at the picture and responds)
A: That's right.

Partners take turns pointing and answering.

2. Dictations

Dictations reinforce with writing the content which has been previously practiced orally. They help students correlate written English with spoken English. The teacher reads the words or sentences at normal speed and the students write the words perceived by them on a piece of paper. If they do not catch all the words, they should be allowed to ask for repetition as often as necessary. The teacher should also provide the spelling of words that may be difficult for students to spell. For this exercise, structure is the focus, not spelling. Some students may feel the need to peek into their workbooks or at others' papers. We allow for this because students must know what to look for and where to look for words to fill the gaps. Students are then paired or grouped to compare and correct each other's sentences. The teacher circulates around the room for assistance. Several students are then called to put their sentences on the board. By the time the words or sentences are written on the board, they are usually 90% correct. The teacher then goes over the remaining problem areas.

For a low level class, a teacher can help students out by drawing blanks for words in each sentence on the board during correction time. Students go up to the board to write sentences out according to the number of blanks drawn. The teacher checks for problems, and then proceeds to have the class repeat the corrected sentences. To provide further oral practice, the teacher can do a "disappearing board trick." The teacher erases more and more words from the board until students can eventually repeat the sentences without much or any written representation at all.
3. Scrambled Sentences

Scrambled sentences work very well for beginning students. They make for a good small group activity. Sentences are enlarged and cut into individual words or phrases and are placed in envelopes to be passed out to each student group. Students work together to put the sentence or sentences together. When they believe they have the words appropriately placed in order, they are asked to write the sentences on the board. Some teachers like to have the students hold the words up and line up in front of the class in correct order. This way, the other students can help correct and read the sentences out loud. Students learn well and enjoy this activity because they are able to physically arrange and rearrange the words.

Listed above are just some of the more popular interactive reading and writing activities used in ESL classrooms. Many more creative techniques can be found in current ESL literature and textbooks to reinforce the learning of classroom material. We recommend frequent browsing of ESL books for inspiration and ideas for communicative language teaching.

OBJECTIVES OF MODULE 4

Module 4 is designed to introduce four new competencies relating to the work and working environment of Momentum, Inc.. The first unit allows the worker-students to review and apply their knowledge of fractions and use of measuring instruments to measure width, length, height, seam allowances and body parts. Several grammar points are highlighted in this module to bring about greater accuracy in spoken English. The workers will achieve functional competency in describing and responding to common questions regarding their jobs, describing common work procedures, giving instructions, and asking for and responding to requests for help. Finally, in the last unit, the workers will recognize and comprehend special notices and important safety signs around Momentum, Inc..

The students will be able to:

1. measure and respond to questions about seam allowances, the width, and length of garments.
2. measure and respond to questions about body measurements and height.
3. understand and use possessive pronouns (my, your, his, her, and their) in spoken English correctly.
4. understand and use demonstrative adjectives (this, that, these, and those) in spoken English correctly.
5. recognize names of jobs and job duties at Momentum, Inc..
6. introduce themselves and describe their jobs and job duties to people.
7. comprehend and respond to common interrogative questions (who, what, when, where, why, which, how) about their jobs.
8. describe common work activities and procedures (verbs) in simple present and present continuous tense forms:
   Example: I iron shirts every day.
            I’m ironing shirts right now.
9. give instructions using the imperative form:
    Example: Iron the shirts!
10. ask for help and respond to requests for help
11. recognize and understand special notices and safety signs around the sewing factory and the building.
UNIT 1: MEASURING WITH THE MEASURING TAPE

MEASURING TASK 1 - MEASURING SEAMS

GETTING READY

Look at the five pieces of fabric on the table. What is the seam allowance on each piece of fabric? Take a measuring tape and measure the seams.

DIALOGUES

Dialogue 1: What is the seam allowance here?

Lan: What is the seam allowance here?
Liangkie: It’s \(\frac{1}{4}\)".
Lan: I’m sorry. What did you say?
Liangkie: \(\frac{1}{2}\)".

Dialogue 2: How wide is the seam here?

Pei Juan: How wide is the seam here?
Ling: It’s 1".
Pei Juan: What was that again?
Ling: 1".

PAIR PRACTICE

Practice the dialogue below with a partner about the following measurements.

A: Ling, can you check this?
B: Sure. Let me see here....uh oh...
A: What's wrong?
B: The seam should be 1 1/2" not 2".

READING and WRITING

Look at the seams below. Read the questions and write the answers.

1. What is the seam allowance here?
   It's $\frac{1}{4}''$.

2. How wide is the seam here?
   It's _____ wide.

3. What is the seam allowance here?

MEASURING TASK 2 - MEASURING WIDTH and LENGTH

GETTING READY

You can measure the width and the length of things with a measuring tape. Look at the pants on the teacher's table. Take a measuring tape and measure the width and the length of the pants.

Lan: And what is the length?
Mimi: It’s 32".

Dialogue 2: How wide is it?
Ling: How wide is it?
Kin: It’s 35½".
Ling: And how long is it?
Kin: It’s 37¼".
MEASURING TASK

Look at the items on the teacher’s table. Get a measuring tape and measure the items. Write the measurements in the box below.

<table>
<thead>

PAIR PRACTICE

Practice the dialogue below with your teacher. Then work with a partner. Ask each other about the measurements above (Items 1-7).

A: Give me the measurements of the ruler.
B: It’s 1 1/2" wide and 18" long.
A: That’s correct.

A: Give me the measurements of _________________.
B: It’s 4" wide and 2 1/2" long.
A: No, that’s wrong. It should be 5" wide and 2" long.
B: Let’s check. Let’s measure it again.
MEASURING TASK 3 - BODY MEASUREMENTS

GETTING READY

Write 5 parts of the body you need to measure before you make a dress:

1. ____________ waist
2. ____________
3. ____________
4. ____________
5. ____________

Look at the pictures of Ling. Match pictures to sentences.

1. What is Ling doing?
   She is measuring her waist.

2. What is Ling doing?
   She is measuring her hips.

3. What is Ling doing?
   She is measuring her bust.
WRITING

Look at the pictures below. Fill in the missing information.

1. Ling is measuring her **waist**.
   Her **waist** is **24”**.

2. Ling is measuring her __________.
   Her __________ is __________.

3. Ling is measuring her __________.
   Her __________ are __________.

4. __________.

PAIR PRACTICE

Practice the dialogue below. Then ask your classmates about their body measurements. Write their answers in the box below.

A: Excuse me, may I ask you a question?
B: Sure. What is it?
A: What are your body measurements?
B: They are 36" - 26" - 38".
A: What was that again?
B: They are 36" - 26" - 38".

MEASURING TASK 4 - MEASURING HEIGHT

GETTING READY

Look at the measuring tape on the wall. You can measure height with it. Write answers for the questions below.

A: How tall is your teacher?
B: She's ________ tall.
A: How tall are you?
B: I'm ________ tall.

DIALOGUES

Dialogue 1: How tall are you?
Ling: Bob, how tall are you?
Bob: I'm 6'1" tall.
Ling: Excuse me?
Bob: I'm 6'1".
Ling: Wow! You're tall!

Dialogue 2: What is your height?
Mimi: Wing Yee, what is your height?
Kin: I'm 4'11" tall.
Mimi: What did you say?
Kin: I'm 4'11".
Mimi: I'm the same height. We're short.
LISTENING

Exercise 1. Listen to the conversations. Circle the height you hear and decide whether the person is tall or short.

FOR THE MATH GENIUS

Change the following measurements to feet and inches (0'0`).

1. I'm 68" tall. I'm 5'8" tall.
2. She's 72" tall. ____________________________.
3. He's 49" tall. ____________________________.
4. You're 65" tall. ____________________________.
Pair Practice

Practice the dialogue below. Then ask your classmates for their height and body measurements. Write their answers in the box.

A: Excuse me, may I ask you a few questions?
B: Certainly.
A: How tall are you?
B: I'm 5'2½" tall.
A: And what are your body measurements?
B: They are 36"-24"-36".
A: Thank you for your time.

INTRODUCTION

Project EXCEL is conducted under the National Workplace Literacy Program of the U.S. Department of Education. It is administered by the Career Resources Development Center (CRDC) in partnership with Momentum, Inc.

Project EXCEL focuses on literacy and basic skills training with emphasis on the workplace culture for limited English proficient (LEP) workers. Our goal is to assist these workers in retaining employment, increasing productivity and advancing their careers.

CRDC

CRDC is a 25 year old, non-profit, community based employment training agency located in San Francisco and Oakland. CRDC has trained over 3,500 ethnic minorities and women as office clerks, bank tellers, cooks, food service and housekeeping workers, janitors and office automation specialists.

CRDC’s training programs focus on LEP workers because they comprise the vast majority of the workforce at Momentum, Inc. CRDC recognizes that nearly 90% of California’s labor pool will come from Hispanic and Asian communities, half of them immigrants. Local labor force is increasingly low-skilled and limited English proficient, while, simultaneously, industry is demanding a more literate and skilled workforce.

MOMENTUM, INC.

Momentum, Inc. is an outerwear design development and engineering company. This is a new direction for the company since its inception in 1985.

Momentum, Inc. has changed from a manufacturing/contracting firm to a design/manufacturing firm. This business transformation requires greater worker involvement, and thus the need for improved communication and critical thinking skills.

As a manufacturing company prior to the transformation, workers at Momentum would mass produce garments, repeating the same sewing procedures. As a design engineering firm, workers at Momentum are asked to read complicated spec sheets and sewing instructions, and participate in small group meetings in order to determine the sewing procedure for each new design. Production is smaller-scaled and more multi-faceted. The most important aim for workplace literacy training to the Momentum management is for its workers to read and comprehend spec sheets and actively participate in the design and sewing process.
Curriculum Designed for Momentum, Inc.

The curriculum for Momentum, Inc. is designed by a team of experienced educators from CRDC. The team met with the management, supervisors and workers to conduct needs assessments at the workplace. The team also conducted observations and participatory work to identify specific job and communicative skills required at Momentum, Inc. From these assessments, CRDC was able to design a curriculum to facilitate better communication between workers and management, and to enable workers to understand written work orders as well as follow oral instructions.

Project EXCEL’s staff worked closely with management and workers at Momentum, Inc. and received consistent feedback from the Momentum management and workers before the curriculum was finalized. The goals and objectives of each module are explained on the cover of the modules.

This module is specifically designed for limited English proficient adults who need to learn basic skills and language in order to function effectively at Momentum, Inc. At the beginning of the training program, the English proficiency level of the workers in this class ranged from literacy to ESL level 100. The students are from China and Hong Kong. Their native languages are Mandarin, Cantonese and two other Chinese dialects. While some students have never received formal education in their native countries and are therefore illiterate in their native languages, others have limited education (4 to 5 years) in their native countries. Some have never taken an English class in the United States while others have taken a semester or two of Adult Basic Education at a local adult learning center. Most of the worker students in this class have been exposed to four modules of general English and workplace specific curriculum already.

This text is a beginning, competency-based text that attempts to integrate coping skills and functional language with essential language forms, vocabulary, and cultural information needed for the American workplace.

There is a wide variety of activities within each unit to reinforce language use. Each unit affords practice in listening, speaking, and some reading and writing. Lessons are self-contained and lend themselves to a format in which one or two activities may be completed within a one hour class period. Teachers may choose to expand, rearrange, or omit a particular activity when appropriate.

The information below highlights special features and activities included in the student workbook along with some suggestions on how to teach them. There are also additional suggestions to provide extended practice for students.

Visuals

Visuals are a vital part of teaching. Pictures, hand drawings, photographs and real objects add realism and relevance to the learner and enable students (especially beginning students) to attach immediate meaning to a situation. Every competency can be pre-taught by using visuals. They can be used to help introduce a context and generate key vocabulary. Flashcards are great tools to have for beginning classes. The teacher can create sets of flashcards with pictures in this module. The cards can be used to introduce new words and lend themselves to quick, periodic review of key vocabulary and expressions.
Tape

All dialogues and listening activities are pre-recorded on tape. The tape gives students opportunities to hear different voices and speaking styles. It also affords consistent repetitious listening which is greatly needed in a beginning class.

Dialogues

Dialogues introduces the language in context and the competency. The dialogues are intentionally short, no more than five to six lines, to ensure easy listening and repetition. The following steps are recommended in the presentation of a dialogue:

1. Setting the Scene

Use visuals in the text to generate an impression of what the dialogue might be about and what language might be used. Teach core vocabulary and expressions so that students are prepared to comprehend the dialogue.

2. Listening to the Dialogue

Once the scene is set, the class listens to the dialogue on tape. The dialogue may be played several times for discussion of meaning and oral practice. The teacher can play the tape and stop at the end of a phrase or sentence for students to repeat after it. This way the teacher can check their listening and give them opportunities for oral practice.

Once students demonstrate an understanding of the dialogue, the teacher can model the dialogue for further repetition. First, the teacher repeats all the lines of the dialogue and the students repeat after her. Then the teacher takes one role, (A), and the students, (B). The roles are reversed for another round of practice. Next, the teacher divides the class in half. One half assumes one role, the other half, the other role. Finally, pairs of students practice the dialogue on their own while the teacher circulates to listen for problem areas, offering assistance as needed.

4. Drills

As the teacher is practicing the dialogue, it may become obvious that additional drilling of particular phrases needs to be introduced before the dialogue as a whole can be practiced. Aside from the repetition drill mentioned above, a teacher may need to introduce other mechanical drills such as chain, substitution, and transformation drills for further practice to make the new language natural. If students have difficulty repeating a phrase, a "backward buildup" may be used.
5. Further Practice

On subsequent days, further practice of the dialogue can be carried out in small groups or in pairs. The teacher can cut up the dialogue into strips. The students are to figure out the order of the strips and then practice the dialogue among themselves once they have the dialogue in front of them. Later, A and B strips may be assigned to each pair partner to make the oral practice more challenging. One partner gets the A strips and the other, B strips. They are reminded not to look at each other’s lines. They must listen carefully to each other to proceed through the dialogue. This exercise allows for good listening, speaking and reading practice.

Another good tried and true exercise to do is a cloze exercise on the board. The teacher can write a dialogue on the board with randomly missing words. The lines of the dialogue are numbered for easy correction. Individual students are called to fill in the missing words on different lines. When done, the teacher goes over the grammar and the spelling. Next, the teacher can do a “disappearing board” activity. The dialogue is repeated several times, each time the teacher erases a few more words. This is done until the students can say the dialogue with very little or no written prompts. Finally, a few students may be called upon to act out the dialogue.

Listening Activities

Listening exercises are provided and recommended to check student comprehension of the material presented. Listen and circle or label activities are used to help guide students with their listening and make them accountable for their listening efforts. The teacher can play the tape several times. Once for the students to listen to and perform the task at hand and a second time to confirm their listening comprehension. The students can then switch papers to correct each other’s answers. This allows for another opportunity to listen. When the class goes over the exercise together as a whole, the teacher should play the tape one more time for corrections. Because the students are at a beginning level, they usually do not mind repetitious listening. When the students are asked to correct each other’s papers, it enhances their ability to self-monitor which is a good language learning skill to acquire at the earliest stages of second language acquisition.
Role plays

Role plays allow students to practice the language previously learned in a semi-real context. The students must bring to the exercise linguistic as well as sociolinguistic competence. Role plays are introduced at the end of a unit and is carried out in similar steps every time. Role play activities are recommended to be carried out in the following steps:

1. The teacher uses the picture in the text to set the scene and generate key vocabulary. Please refer to page 54 of the text.

2. Both the teacher and the students work together to generate a dialogue. The teacher should have a model dialogue in mind before she begins the dialogue solicitation process. The job of the teacher at the board is to prompt the students for a response. The teacher may also need to pantomime the scene for the students. For example:

   T: Mary and Susan are friends. Mary is a seamstress. Mary made a skirt for Susan over the weekend. Mary gave the skirt to Susan and would like her friend to try it on. What should Mary say to Susan?

   S: Susan, try on this skirt. Good fit for you?

   T: Good. Let's write the conversation on the board. You tell me the words and I'll write them up here.

   (Teacher writes on the board:
   Mary: Susan, try on this skirt. Good fit for you?)

   Now look at the picture. What should Susan say?

   S: No. The skirt is too loose.

   T: Wow...Let's be more polite. They are good friends. They should be nice to each other.

   S: Oh, thank you for skirt. Nice color. Nice design. But the skirt is too loose.

   (Teacher writes on the board:
   Susan: Oh, thank you for skirt. Nice color. Nice design. But the skirt is too loose.)

   Now what should Mary say?

   The teacher and the students continue in the same manner until a complete four to five line dialogue is produced. The teacher then goes over to clean up the dialogue for proper structure and appropriateness. Allow time for the students to copy down the dialogue. Teacher and students then practice the dialogue together.

3. When the students are comfortable with the dialogue, the teacher refers to the following page of the role play for ways to change the dialogue. Content words are changed but the structure and format of the dialogue stay the same. Students practice the dialogue in pairs referring to the pictures or cues on the page. When the students are ready, several may be called to the front of the class to role play with the teacher. Eventually the teacher should be replaced by a student too.
4. To vary the dialogue, the teacher can introduce other ways to express the same idea of certain lines in the dialogue. For example: Try on this skirt.

Please put on the skirt for me.
The skirt is too loose.
I think the skirt is too loose.

The students practice the variations with the teacher and then among themselves until they are comfortable. Heed the urge to introduce too many variations.

5. Students can again be asked to role play varying contexts with the teacher in front of the class. To make the second time more interesting, the teacher can vary the tone or the mood of the characters just a little. For example:

S: Here Susan. Try on this skirt.
T: No. It’s too big. Look at the waist. It’s 36 inches! I’m not that big!

Some students will adjust to changing situations better than others. If a student stumbles upon a response, the teacher and students can work together to come up with an appropriate one. The emphasis at this point of the exercise is on the appropriateness and flow of the dialogue, not so much the grammatical accuracy of speech.

Reading and Writing Activities

Most of the reading and writing done in class is at the word or sentence level. Here are some activities suggested for reinforcing students’ reading and writing skills:

1. Picture-Word/Sentence Match-up

This exercise works well as a paired activity. Person A has a set of pictures and person B has a set of matching words. The two students work together to make appropriate matches. Make sure each partner understands his or her role in the exercise so that one does not do the work for the other. This allows the slower students an opportunity to contribute. A mini dialogue may be introduced later to make the exercise more communicative. For example:

A: What’s the matter with this skirt? (A points to a picture)
B: The skirt is too loose. (B looks at the picture and responds)
A: That’s right.

Partners take turns pointing and answering.
2. Dictations

Dictations reinforce with writing the content which has been previously practiced orally. They help students correlate written English with spoken English. The teacher reads the words or sentences at normal speed and the students write the words perceived by them on a piece of paper. If they do not catch all the words, they should be allowed to ask for repetition as often as necessary. The teacher should also provide the spelling of words that may be difficult for students to spell. For this exercise, structure is the focus, not spelling. Some students may feel the need to peek into their workbooks or at others' papers. We allow for this because students must know what to look for and where to look for words to fill the gaps. Students are then paired or grouped to compare and correct each other's sentences. The teacher circulates around the room for assistance. Several students are then called to put their sentences on the board. By the time the words or sentences are written on the board, they are usually 90% correct. The teacher then goes over the remaining problem areas.

For a low level class, a teacher can help students out by drawing blanks for words in each sentence on the board during correction time. Students go up to the board to write sentences out according to the number of blanks drawn. The teacher checks for problems, and then proceeds to have the class repeat the corrected sentences. To provide further oral practice, the teacher can do a "disappearing board trick." The teacher erases more and more words from the board until students can eventually repeat the sentences without much or any written representation at all.

3. Crossword Puzzles

Crossword puzzles enhance spacial recognition and spelling of words. Students may work alone or in pairs and then correct each other's work.

Listed above are just some of the more popular interactive reading and writing activities used in ESL classrooms. Other cooperative and task-oriented activities are included throughout the module. We recommend frequent browsing of ESL books for inspiration and ideas for lively communicative language teaching.

OBJECTIVES OF MODULE 5

Module 5 introduces five new competencies related to the work and communication at Momentum, Inc. while reviewing and reinforcing materials taught in the previous four modules. In this module, workers will identify and name fabrics used at Momentum by sight. They will also learn to recognize the written form of fabric names which will inevitably help them in reading the company inventory sheet and clothing labels. Following a unit on reading a simplified company inventory sheet, the workers will learn to identify and name fabric designs used at Momentum and express their opinions on whether designs and colors match well together or not. The longest unit in the module is dedicated to naming basic parts of a garment which will eventually lead to naming parts of a typical Momentum ski jacket. Finally, the last unit touches on describing common sewing problems and suggesting solutions to the described problems.

The students will specifically be able to:

1. recognize and name fabric types used at Momentum.
2. express their opinions on whether the fabric type is easy or difficult to sew.
3. identify the written form of fabric names and learn to read and comprehend a simplified company fabric inventory sheet.
4. read and pick out specified information from clothing labels.
5. interpret the percentages that usually appear on fabric content labels.
6. understand the necessity of company inventory sheets and fill out parts of an inventory grid.
7. identify and name fabric designs used at Momentum and express their opinions on whether certain designs and colors match well or not.
8. identify and name parts of a garment and a typical Momentum ski jacket.
9. describe common sewing problems and suggest solutions to remedy the problems.
UNIT 1: MOMENTUM FABRICS

Vocabulary:
gortex  polarfleece  wool  corduroy
suede  leather  rayon  acetate
tapestry  fake fur  denim  cotton
linen  polyester  nylon  spandex
pellon  velcro

GETTING READY

1. Look at the pieces of fabric on the teacher’s table. Can you name them all?

2. Look at the fabric names in the box above. Circle the ones you don’t know.

3. Write down the names of fabric you use all the time at Momentum:

4. Write the names of fabric that you like to sew: Why?

5. Write the names of fabric that you don’t like to sew: Why?

6. What is special about GORTEX?
READING

Exercise 1. Look at the pieces of fabric on the teacher's table. Each piece of fabric has a number on it. Match the number of the fabric to the words below.

DIALOGUE

Dialogue 1. What kind of fabric is this?

Wing Yee: Ling, what kind of fabric is this?
Ling: This is tapestry.
Wing Yee: This is difficult to sew.
Ling: I know.

Dialogue 2. What kind of fabric is that?

Gong: Mimi, what kind of fabric is that?
Mimi: That is rayon.
Gong: That is easy to sew.
Mimi: Maybe. I don’t know.
LISTENING

Listen to the conversations on tape. Circle the fabric name and write:

E = for EASY to sew fabrics
D = for DIFFICULT to sew fabrics

PAIR PRACTICE

Work with a partner. Look at the fabric scraps in your envelope. Ask each other the names of the fabric and decide if the fabric is EASY or DIFFICULT to sew.

Example: A: What kind of fabric is this?
B: This is cotton.
A: Is it easy to sew?
B: Yes, it is.

A: What kind of fabric is this?
B: This is tapestry.
A: Is it easy to sew?
B: No, it isn’t. It is very difficult to sew.
Vocabulary:

summer fabric  winter fabric
cool  warm
light  heavy

READING

Put a check (✓) next to the correct answer.

1. What do you wear in the summer?
   - heavy fabric
   - light fabric  ✓
   - wool

2. What do you wear in the winter?
   - heavy fabric
   - light fabric
   - cotton

3. Which fabrics are cool for the summer?
   - wool
   - cotton  ✓
   - corduroy
   - linen

4. Which fabrics are warm for the winter?
   - rayon
   - linen
   - wool  ✓
   - leather

5. Wool is ___ cool.  Cotton is ___ cool.
   - light.  - light.
   - warm.  - warm.
   - heavy.  - heavy.
WRITING

Look at the list of Momentum fabrics on page 1. Write down the fabrics for the summer and the winter.

<table>
<thead>
<tr>
<th>SUMMER FABRICS</th>
<th>WINTER FABRICS</th>

DIAGologue

Salesperson: Excuse me, may I help you?
Guo Xiang: Yes. I'm looking for some light fabric for the summer.
Salesperson: How about some cotton? They are on sale.
Guo Xiang: Alright.
Salesperson: Please follow me.

WRITING

Mimi wants to buy some heavy fabric. Fill in the missing words to the dialogue below.

Salesperson: Excuse me, may I help you?
Mimi: Yes, I'm looking for some ________ fabric for the ________.  
Salesperson: How about some ________? They are on sale.
Mimi: Good.
Salesperson: This way please.
PAIR PRACTICE

Practice the dialogues on the previous page with a partner. Use suggestions below for your practice.

1. heavy fabric, wool
2. light fabric, cotton
3. cool fabric, linen
4. warm fabric, corduroy
5. summer fabric, cotton
6. winter fabric, wool

DIALOGUES

Dialogue 1. What is this jacket made of?
Wing Yee: What is this jacket made of?
Sheng Min: This jacket is made of 100% wool.
Wing Yee: It must be expensive.

Dialogue 2. What kind of fabric is this?
Ding Ho: What kind of fabric is this?
Kit Yee: This is 50% rayon and 50% polyester.
Ding Ho: How do you know?
Kit Yee: Read the label.

Dialogue 3. What kind of fabric is that?
Gui Lan: What kind of fabric is that?
Mie Ling: That is 50% cotton, 25% rayon and 25% polyester.
Gui Lan: Are you sure?
Mie Ling: Yes. Check the label.
GRAMMAR FOCUS

Fill in the missing word in each sentence with:

Then practice the questions and answers with a partner.

1. What is this blouse made of?  It is made of nylon.

2. What are these pants made of?  _____ are made of polyester.

3. What are these shoes made of?  _____ are made of leather.

4. What is this shirt made of?  _____ is made of cotton.

5. What is this skirt made of?  _____ is made of 50% rayon and 50% polyester.

6. What kind of fabric is this?  _____ is linen.

7. What kind of fabric is that?  _____ is corduroy.

8. What kind of material is that?  _____ is 75% cotton and 25% polyester.

9. What kind of material is this?  _____ is 40% rayon and 60% cotton.

10. What kind of fabric is that?  _____ is 100% linen.
