A 1989 survey of two-year branch campuses of four-year institutions collected data on administrative structure, mission, and selected characteristics of 24 campuses. In spring 1993, a study was conducted to re-validate the 1989 survey, gathering data on more campuses and updating the list of branch campuses. Forty-nine state systems of higher education were first surveyed to ascertain the number of two-year branch campuses. Twenty-eight states responded, resulting in 29 campuses not previously identified by the researcher. A revised version of the 1989 survey instrument was then mailed to 84 branch campuses, with 64 returning surveys for a response rate of 76%. Results of the study included the following: (1) 41% of campuses identified themselves as community colleges located within 100 miles of the main campus; (2) 41% of the branch campuses were governed by the main campus, while 38% were governed by a state board; (3) funding for 60% of the institutions came from direct state appropriations; (4) 40% of institutions had from 31 to 50 full-time faculty, while 36% had fewer than 30 full-time faculty; (5) the typical branch campus served between 501 and 1,500 students; (6) the typical student body was 20% vocational-technical education and 80% academic transfer; (7) typical teaching load for full-time faculty was between 12 and 14 credits; (8) only 8% of the campuses did not have an administrative council; and (9) the autonomy of branch campuses was indicated in local control of expenditures (83%), local faculty hiring (69%), and faculty tenure (97%). A list of resources; tables; and attachments featuring letters, survey instruments, and a list of colleges receiving surveys are included.

INTRODUCTION

On November 10, 1987, the American Association of Community and Colleges (AACC) Board of Directors voted to establish the Council of Two-Year Colleges of Four-Year Institutions (Morgan). The approved mission reads:

This council promotes the unique contribution of community colleges in partnership with four-year institutions. Focusing primarily on university branches and campuses that offer the associate degree, the council represents these institutions at professional meetings, attempts to increase their visibility in professional literature, and fosters interinstitutional communications and linkages (AACJC Membership Directory).

The Council of Two-Year Colleges of Four-Year Institutions quickly became nicknamed the "Two by Four" Council and met officially for the first time on April 27, 1988, in Las Vegas to approve a constitution and bylaws, elect officials, and establish goals. The establishment of the "Two by Four" Council, the sixteenth council within the American Association of Community Colleges, brings to fruition the dreams and hard work begun by Stanley Sahlstrom, formerly the provost at the University of Minnesota - Crookston, and Don A. Morgan, University of Minnesota.

The results of this pilot survey were presented at the 73rd Annual Convention of the American Association of Community Colleges in Portland on April 30, 1993, during one of the convention's concurrent sessions. The feedback obtained from participants
attending the convention was used to improve and provide further validation of the pilot survey instrument and to provide further refinement of the list of two-year colleges which are branches of four-year institutions.

Purpose of the Study

The purpose of this study was three-fold: to re-survey and re-validate Dunlap's 1989 survey of branch campuses, attempting to reach a greater number of campuses; to update and refine a list of two-year lower division public institutions in the United States which are identified as branch campuses of baccalaureate degree granting institutions; and to pilot a dissertation survey instrument which will be used to formulate further extensive research of branch campuses in the United States.
Need for the Study

In January, 1989, Dr. William S. Dunlap, Washburn University of Topeka, conducted a survey to determine "the administrative structure of member institutions of the Two by Four Council in relationship to the university in which they are housed and to examine the mission statements of these two year colleges. Secondarily, selected descriptive institutional data was also collected on member institutions." Thirty-one institutions were sent survey instruments with 24 responding (Dunlap 1989). The Two by Four Council was a small unit within the American Association of Community Colleges at the time of Dr. Dunlap’s survey and had very little exposure to the potential number of institutions it was designed to serve.

Dr. Dunlap recommended the following issues/questions be included for further study:

1. The relationship between the university and the branch campus or community college unit.
2. Articulation of course work between the two-year college and other academic units of the university.
3. Is there shared control of academic matters of hiring, promotion and faculty tenure between the two year college and the university?
4. Is promotion and tenure policy different for two year college faculty than other university academic units?
5. Is there shared control of administrative matters in developing the two year college budget?

METHODOLOGY

To accomplish the goals of this study, two mailings were conducted. The first mailing was to forty-nine state systems of higher education, i.e., the state offices of community colleges in each state. The directory used was entitled Forty-Nine State Systems, 1992 Edition, published by the American Association of Community Colleges. A copy of the letter sent to the state agencies is identified as Attachment I. The results of this mailing are provided under the heading Results of State Department Mailing.

Dunlap's survey was reviewed and revised for the purposes of this study. The format was adjusted to improve the layout and to provide categories for ease in answering the questions. To address the specific issues for the purpose of this study, questions were added to gain information related to the definition of the term "branch campus," to gain additional information related to the identification of branch campuses in the United States, and to obtain input from the branch campus CEOs surveyed as to the relevance of the survey instrument. There was also a question added to Dunlap's survey requesting information from the respondents as to additional questions which should be asked to further profile branch campus affiliation issues. The survey instrument utilized is Attachment II.
One of the purposes of this research effort was to acquire a list of all two-year campuses affiliated with or considered to be branches of baccalaureate degree granting institutions. A list of institutions for the purpose of revalidating Dr. Dunlap's survey was needed. From the 1993 Higher Education Directory and The College Handbook, 1993 Edition, a list of 84 institutions were identified as 'affiliated' with baccalaureate degree granting institutions. This list of institutions was mailed the survey instrument addressed to the campus Chief Executive Officer.

Results of the State Department Mailing

One of the goals of this research project was to identify, with as much accuracy as possible, the two-year lower division branch campuses of baccalaureate degree granting institutions, commonly referred to as community college branch campuses. A letter, Attachment I, was mailed to each of the State Departments identified in Forty-Nine State Systems, 1992 Edition as state agencies responsible for the community colleges within each state. The text is so named because, as stated in the Preface, "The response form South Dakota, while gratefully acknowledged, was not used in this edition because that state currently does not have any community colleges." The results from this survey are listed by each state and identified as follows:

Twenty-one states did not respond to the request for information regarding the existence of branch campuses. Of the twenty-one states not responding, nineteen states were not identified as having branch campuses during the search of directories for branch campuses. The Louisiana state system did not respond to my request for names and addresses of branch campus, but three campuses were identified in The College Handbook as branch campuses. One of these colleges - Louisiana State University at Eunice - responded to the survey. The Pennsylvania state department responded with a letter stating that they did not have branch campuses. However, seventeen campuses were identified as branch campuses in The College Handbook. These seventeen campuses were included in the survey with eleven campuses responding to the survey.

Consequently, the lack of response from twenty-one state departments is not a major concern because The College Handbook did not identify branch campuses in nineteen of these states. The remaining two states did list branch campuses in the directory. The lack of verification, however, is a concern because the research does not confirm that branch campuses are non-existant in
these nineteen states.

A total of twenty-nine institutions were identified in the responses from the state systems which were not previously identified as branch campuses by this researcher. Therefore, the total number of branch campuses, as identified by this research, is 113 campuses. Those campuses identified with the asterisk (*) have been determined to be branch campuses not previously identified by the researcher in The College Handbook or in the 1993 Higher Education Directory. The eighty-four campuses identified in the directories are listed in Attachment III.

Survey Results

The survey instrument developed for this research effort is identified as Attachment II. Eighty-four campuses were mailed the survey with sixty-four campuses responding for a 76% response rate. A large percentage of the campuses (41%) identified themselves as community colleges (Graph 1) located within 100 miles of the main campus. Thirty-nine percent of the campuses stated that the average age of their students fell within the 27-30 age group (Graph 2). Graph 3 indicates that 40% of the campuses surveyed charge between $41 and $60 per credit hour.

The governing board of the branch campus is the main campus
for 41% of the institutions with a State Board governing 38% of the campuses (Graph 4). In 60% of the institutions the source of funds is direct state appropriations to the campus.

The branch campus is typically a small institution as identified by Graph 5 with 36% of the institutions having fewer than 30 full-time faculty and 40% of the institutions having 31 to 50 full-time faculty. Graph 6 indicates a nearly even distribution of part-time faculty among the four categories with 32% of the institutions having 30 or fewer part-time instructors, 26% having 31 to 50 part-time, 18% of the institutions having 51 to 70 part-time instructors, and 25% of the institutions having 71 or more part-time faculty.

The typical branch campus will serve between 501 and 1500 students as identified in Graph 7. Fewer than ten institutions had more than 2500 students or fewer than 500 students. Sixteen campus were identified as serving a student body of 1501 to 2500 students. The largest category of full time equivalent students (39 campuses) during the Fall term 1992 was between 501 and 1500 students. All other categories were less than 10 institutions as identified by Graph 8. The typical student body was determined to be 20% vocational-technical education and 80% academic transfer. Students did gain some preferential status at the main campus with 47% of the campuses indicating an advantage for admittance to selected enrollment programs. Students were also considered jointly admitted at the main and branch campus when taking courses at the branch campus in 57% of the responses.
The typical teaching load for full-time faculty was between 12 and 14 credits as identified by Graph 9. Sixteen institutions identified their teaching loads as 15 or more credit hours.

The institutions indicated a relationship of mutual benefit in 60% of the responses, 25% indicated branch campus autonomy, and 15% of the campuses indicated a negative relationship with the main campus where creativity seems stifled on the branch campus. Graph 10 identifies the degrees offered by branch campuses with the Associate of Arts degree the most common.

Graph 11 identifies the titles of the branch campus executive officer. The responses were even more varied than the graph indicates as all titles including "Dean" were combined, i.e., Executive Dean, Dean of the Campus, and Dean of University were combined in this response.

The branch campus CEO reports typically to the Provost and Vice President of Academic Affairs at the main campus as indicated by the responses in the Graph 12. Other responses were nearly equally distributed between deans, presidents, directors, chancellors, and vice provosts.

The branch campus typically has an administrative council (8% of the campuses did not have a council) with an average of 6 council members representing instruction, business affairs, students, and program directors. The wide range of administrative positions and areas of representation are identified in Table 1.

The autonomy of the branch campus was evident and supported in the responses related to local control of expenditures (83%), and
most campuses (69%) hire their own faculty. On nearly every campus (97%), faculty at the branch campus receive tenure and in 60% of the responses, tenure at the branch campus applies to the main campus. On most campuses, the branch campus curriculum committee determines the programs and courses to be taught. On 10 campuses (17%) the main campus determines the curriculum and on 18 campuses (31%) both main and branch campus determine courses and programs.

There is evidence of main campus support and assistance in the responses received from branch campuses regarding functions performed at the main campus: personnel records - 48%; payroll - 72%; audit - 65%; and student transcripts - 65%. Also, 57% of the campuses indicated the endowment at the main campus supported their functions.

Table 2 is a consolidation of the responses to the question "If you could improve one main campus-branch campus relationship issue, what would that be?" One respondent stated, "The acceptance by the Main Campus that we are a legitimate institution." This statement typified the consolidation of the responses related to this issue.

When asked how to define a branch campus, one respondent stated "I would not." This probably best summarizes the multitude of answers received from those completing the survey as no common theme emerged among the respondents. A discussion at a recent national conference with a branch campus CEO (Dr. Eldon Miller, West Virginia University-Parkersburg) revealed his definition of a branch campus as a higher education center, due to this
institution's role of offering associate through masters level programs as a branch campus. Dr. Miller also stated that no one understood exactly what the term meant, but he was encouraged to proceed because no other definition seemed any more appropriate.

Some respondents reflected on the accuracy of the survey instrument, both positively and negatively, when asked to comment on the information requested in the survey. Respondents were also requested to identify other issues they believed would further address the relationship between branch and main campus. In sum, the issue of communications and status within the university structure is a concern and will probably be an ongoing concern of branch campuses.
Conclusions

The purposes of this study were three-fold: to re-survey and re-validate Dunlap's 1989 survey of branch campuses, attempting to reach a greater number of campuses; to update and refine a list of two-year lower division public institutions in the United States which are identified as branch campuses of baccalaureate degree granting institutions. Dr. Dunlap's survey was mailed to thirty-one institutions with twenty-four returns. The eighty-four institutions identified by this researcher has expanded and contributed to the research available regarding branch campuses. Furthermore, an extensive list of branch campuses has been compiled to enhance the availability of this resource for future study. To an undetermined extent, the study identified those institutions which are public branch campuses of baccalaureate degree granting institutions.

The focus of this study centered on the profile of branch campuses, i.e., the size, function, role, governance, and services of branch campuses. The study also identified a number of concerns from the branch campus perspective regarding the relationship between the branch campus and the main campus. Of greatest concern to branch campus CEOs were the issues dealing with respect and support, cooperation, and equitable treatment from the main campus. Because only 2% of the respondents stated they wanted to "retain present relations," it can be concluded that further research could be conducted regarding the cooperative efforts between branch and
main campus.

Many respondents opposed the use of the term "branch" campus and appeared to prefer the terms extended or regional campus in reference to their relationship with the main campus. One participant at the AACC 73rd Annual Conference expressed concern over the term branch campus because they were a two year lower division campus co-located on the main campus. The survey identified one campus as a co-located campus. Nonetheless, the relationship issues between branch and main campus seemed to be of equal concern to the administrator co-located with the main campus.

Branch campuses are definitely an anomaly. They offer the two year associate degrees and more. Comparing the branch campus's mission, role, and scope to traditional community, technical, and junior colleges serves to identify issues of greater differences than to identify commonalities. These differences exist in governance structure, source of funding, records management, curriculum, and degrees offered.

Applications for Further Research

From the results of this survey, there is evidence that further research could be conducted to:

1. assess the working relationships between main and branch campuses. The perspective of the main campus administrator could be surveyed in relationship to the
branch campus CEO's perspective regarding cooperative processes, services to students, curriculum matters, and communications.

2. determine if a branch campus relationship actually improves services to students in a cost effective manner.

3. determine if the size of the branch campus is a determining factor for types and extent of services provided by the main campus.

Dear

I am attempting to locate and profile two year colleges that are branch campuses of four year institutions. This project will be submitted to Dr. Jean Thomas at the University of North Dakota in partial fulfillment of degree requirements toward the Doctorate of Education degree.

To our knowledge, there does not exist a directory which identifies campuses that are branches of baccalaureate degree granting institutions. The colleges that we are interested in tabulating are those that are governed by baccalaureate degree granting institutions and offer Freshman and Sophomore level courses - either college transfer and/or vocational/technical courses.

Please provide us with the name of the CEO, title, and address for any institution which you perceive to be a branch campus and return in the envelope provided to:

Dean Hermanson
Dean of Instruction
UND-Lake Region
1801 College Drive North
Devils Lake, ND 58301-

Your assistance is greatly appreciated. Please call 701-662-1506 if you have a question.

Sincerely

Dean Hermanson
Dean of Instruction
PROFILE OF BRANCH CAMPUSES

Questions? Call Dean Hermanson at 1-800-443-1313

FACTS ABOUT YOUR INSTITUTION

1. Name of Institution: __________________________
   City: __________________________ State: __________
   Name of Main Campus: __________________________

2. Which term best describes your institution:
   □ Community College □ Junior College □ Technical College
   □ Does not describe this Institution, not a Two-year Branch of a Four-year Campus

3. Distance from main campus: ______ miles □ co-located

4. In terms of governance and your flexibility, do you consider your branch to be:
   □ nearly autonomous with extensive flexibility
   □ some flexibility is available; control from main campus is of mutual benefit
   □ controlled by main campus - creativity seems stifled

5. Number of students Fall 1992 - headcount:
   □ less than 500 □ 1001-1500
   □ 500-1000 □ 2001-2500
   □ 1501-2000 □ 3001-3500
   □ 2501-3000 □ over 4001
   □ 3501-4000

6. Number of students Fall 1992 - FTE:
   □ less than 500 □ 1001-1500
   □ 500-1000 □ 2001-2500
   □ 1501-2000 □ 3001-3500
   □ 2501-3000 □ over 4001
   □ 3501-4000

7. Percentage of student body in vocational/technical programs:
   □ less than 20% □ 21% to 35% □ 36% to 50%
   □ 51% to 65% □ 66% to 80% □ over 81%

8. Percentage of student body in academic transfer programs:
   □ less than 20% □ 21% to 35% □ 36% to 50%
   □ 51% to 65% □ 66% to 80% □ over 81%
9. Average Age of student body:
☐ 19-22  ☐ 23-26  ☐ 27-30
☐ 31-34  ☐ 34-37

10. ☐ Quarter system  ☐ Semester system  Cost per credit hour:
☐ less than $20  ☐ $21-$30  ☐ $31-$40
☐ $41-$50  ☐ $51-$60  ☐ $61-$70

11. Number of full-time faculty:
☐ less than 30  ☐ 31-40  ☐ 41-50
☐ 51-60  ☐ 61-70  ☐ over 71

12. Number of part-time faculty:
☐ less than 30  ☐ 31-40  ☐ 41-50
☐ 51-60  ☐ 61-70  ☐ over 71

13. Full time faculty teach approximately _______ credits/term.

14. Degrees offered (check all that apply):
☐ Certificate (one year or less)  ☐ Diploma (up to 2 years)  ☐ Associate of Arts
☐ Associate of Science  ☐ Associate of Applied Science  ☐ other

GOVERNANCE ISSUES
15. The governing board of the branch campus is ____________________________

16. Title of the Chief Executive Officer of the branch campus: _______________________

17. To whom does the branch campus CEO report? Please give the title of the position, e.g., President, Provost, VP of Academic Affairs ____________________________

18. Identify the positions at the Branch Campus that serve on the Administrative Council of the Branch Campus:

________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

19. How is the branch campus budget determined? (Main campus line item, state appropriations direct to the campus) ________________________
20. Who approves expenditures/controls the branch campus budget:
   ☐ Branch Campus ☐ Main Campus Personnel ☐ other (explain) ________________

21. Faculty are hired/selected by ☐ Main Campus ☐ Branch Campus.

22. Faculty promotion is determined by ☐ Main Campus ☐ Branch Campus.

23. Do branch campus faculty receive tenure? ☐ No ☐ Yes.

24. Tenure status received at the Branch Campus applies to Main Campus
   ☐ No ☐ Yes.

25. New Programs/courses taught at the Branch Campus are approved by the curriculum committee at the:
   ☐ Main Campus ☐ Branch Campus.

26. Is the branch campus accredited separately from the main campus?
   ☐ No ☐ Yes. Accredited by ________________

STUDENT SERVICES ISSUES

27. Students admitted at the branch campus are also enrolled at the main campus
   ☐ No ☐ Yes.

28. Students who transfer from the branch campus receive preferential status in limited or selected enrollment programs at the main campus ☐ No ☐ Yes.

MAIN CAMPUS SUPPORT

29. What functions are performed at the main campus? Please check all that apply:
   ☐ Personnel Records ☐ Purchase Order Requests ☐ Student Transcripts
   ☐ Audit ☐ Payroll ☐ Purchasing ☐ Student Financial Aid
   ☐ other ________________
   ☐ other ________________

30. Does the Branch Campus have an endowment fund? ☐ No ☐ Yes.

31. Does the Branch Campus have an endowment fund separate from the Main Campus?
   ☐ No ☐ Yes

32. Does the Main Campus endowment support activities at the Branch Campus?
   ☐ No ☐ Yes.
33. How would you rate main campus - branch campus relations?
   □ satisfactory □ lukewarm/ tolerable □ unsatisfactory

34. If you could improve one main campus - branch campus relationship issue, what would that be?

35. How would you define a branch campus?

36. Very little is understood about the governance of Branch Campuses. Please comment regarding the information requested in this survey. Are there other issues that you would like to see in a survey about branch campuses?

37. Please identify other institutions in your state that are lower division branch campuses of baccalaureate degree granting institutions. Please use the reverse side of this survey.

Please return to:    Dean Hermanson

Questions? Call Dean Hermanson at 1-800-443-1313

FACTS ABOUT YOUR INSTITUTION

1. Name of Institution: ____________________________________________
   City: ____________________________________ State: ________________
   Name of Main Campus: _________________________________________

2. Which term best describes your institution:

   □ Community College (25) □ Junior College (13) □ Technical College (2)
   □ Regional Campus (2) □ 2x4 (2) □ None (3)
   □ Does not Describe (3) □ Commonwealth Campus (1) □ All (1)
   □ Other (5)

3. Distance from main campus: _______ miles □ co-located (1)

   □ Less than 50 miles (14) □ 51-100 miles (19)
   □ 101-150 miles (9) □ 151-200 miles (4)
   □ 201-250 miles (4) □ 251-300 miles (2)
   □ 301-350 miles (1) □ 351-400 miles (0)
   □ 401-450 miles (0) □ 451-500 miles (1)
   □ Over 501 miles (1)
4. In terms of governance and your flexibility, do you consider your branch to be:

- nearly autonomous with extensive flexibility (14)
- some flexibility is available; control from main campus is of mutual benefit (33)
- controlled by main campus - creativity seems stifled. (8)

5. Number of students Fall 1992 - headcount:

- less than 500 (8)
- 1001-1500 (20)
- 2001-2500 (6)
- 3001-3500 (2)
- over 4001 (2)

6. Number of students Fall 1992 - FTE:

- less than 500 (8)
- 1001-1500 (17)
- 2001-2500 (2)
- 3001-3500 (0)
- over 4001 (1)

7. Percentage of student body in vocational/technical programs:

- 20% or less (23)
- 51% to 65% (1)

8. Percentage of student body in academic transfer programs:

- 20% or less (3)
- 51% to 65% (11)
9. Average Age of student body:

- 19-22 (8)
- 23-26 (14)
- 27-30 (22)
- 31-34 (10)
- 34-37 (2)

10. □ Quarter system □ Semester system

- □ $20 or less (11)
- □ $21-$30 (6)
- □ $31-$40 (1)
- □ $41-$50 (5)
- □ $51-$60 (9)
- □ $61-$70 (3)
- □ Other (8) $131.25, $79, $157, $176, $177, $177, $116, $167, $75-130, $122, $144, $211, $85

11. Number of full-time faculty:

- □ 30 or less (21)
- □ 31-40 (12)
- □ 41-50 (11)
- □ 51-60 (5)
- □ 61-70 (4)
- □ over 71 (5)

12. Number of part-time faculty:

- □ 30 or less (18)
- □ 31-40 (7)
- □ 41-50 (8)
- □ 51-60 (7)
- □ 61-70 (3)
- □ over 71 (14)

13. Full time faculty teach approximately ________ credits/term.

- □ 9-11 (11)
- □ 12-14 (29)
- □ 15 and over (20)

14. Degrees offered (check all that apply):

- □ Certificate (one year or less) (36)
- □ Diploma (up to 2 years) (7)
- □ Associate of Arts (52)
- □ Associate of Science (36)
- □ Associate of Applied Science (34)
- □ Baccalaureate (3)
- □ other
15. The governing board of the branch campus is: Board of Regents; University Board of Trustees; College Council w/Board of Regents; Board of Trustees of University; State Board of Higher Education; University Board of Trustees; Campus has Advisory Board; Board of Trustees; Board of Regents; USC Board of Trustees; Board of Supervisors of the LSU System; Advisory Board; University Faculty Senate-Campus Faculty Senate; University Board of Directors; University Board of Trustees; University Trustees; Board of Visitors; Board of Trustees; Board of Trustees; NMSU Board Of Regents; Board of Trustees-Citizens Council; Board of Regents; Board of Trustees; OU Board of Trustees; Board of Trustees; U of Alaska Board of Regents; Board of Trustees; Advisory; Board of Trustees-Penn State; Board of Regents for A & M College; Regional Advisory Council; SAU Board of Trustees; University Board of Trustees; University Board of Trustees; PSU Board of Trustees; Board of Trustees; Board of Trustees; Board of Trustees-Advisory Board; Regional Coordinator Council; NMSU Board of Regents; Board of Regents of the University of Alaska; Roswell Branch Community College District - Eastern New Mexico University of Regents; Comprised of the Public School Boards; Board of Regents; Vice Provost/Provost/President-Campus Advisory Board; University of Hawaii Board of Regents; Local Community Council; Ohio State Board of Trustees; University of Hawaii Board of Regents; State Board of Higher Education; Board of Regents of the University of Hawaii; University of Alaska Board of Regents w/Local Advisory Council; None-only an Advisory Board-Regional Coordinating Council; Board of Trustees University of West Virginia System; Ohio State University Board of Trustees; Governing Board at Anchorage;
16. Title of the Chief Executive Officer of the branch campus:

Provost; Dean; Director; Dean; Chancellor; Dean; Dean; Provost; Dean of the University; Chancellor; CEO; CEO; President; Campus Executive Officer; Chancellor; Campus Executive Officer; Campus Executive Officer; President; Dean; Dean, though President maintains there is only one CEO at BGSU; Campus Executive Officer; President; Dean & Director; Provost; Dean of the University; Dean of the Campus; Dean; Dean; College Director; Dean and Director; Campus President; Campus Executive Officer; Vice President/Provost; Director; Chancellor; Executive Director; Dean/Director; Campus Executive Officer; Dean; Dean of the University; Campus Executive Dean; Campus Dean; Provost; Director; Provost; Campus Director; Provost; Dean; Provost; Campus Executive Officer; Campus Director; Dean/Director; Provost; Executive Dean; Provost; Director; Dean; Campus President; Director; Director;

17. To whom does the branch campus CEO report? Please give the title of the position, e.g.,

President Provost, VP of Academic Affairs: Dean; College of Human & Community Services; Vice Provost; Provost; Provost and VP for Access & Outreach; President; Sr VP & Provost; Vice Provost for Regional Campuses; President of OSU System; VP of Academic Affairs; President of LSU System; Senior VP & Dean of the Commonwealth Education System; Sr. VP for Commonwealth Ed System and Dean; Provost; Sr. VP & Dean of the System; President; Sr. VP-Commonwealth Education System; VP & Dean Commonwealth Ed System; President reports to Board of Visitors; Assoc Dean; Dir of Budget & Operations; Dir of Continuing Education; Dir of Enrollment; Dir of Academic Services; Dir of College Relations; AAVP; Sr. VP and Dean of the Commonwealth Educational System; Campus Director reports to Dean; College of Human & Community Services; Sr. VP and Provost of the University; Dean-College of Human and Community Services; Vice Provost for Regional Campuses; Vice Provost for Regional Higher Education; Vice Provost for Regional Campuses; VP for Academic Affairs;
18. Identify the positions at the Branch Campus that serve on the Administrative Council of the Branch Campus: Provost, Assoc. Provost for Instruction, Asst Provost for Business, Asst Provost for Student Services, [Coord of] Financial Aid, Library, ABE, Learning Assistance Centers, Community Education, Higher Ed Life Planning, [Director of] Nursing, HazMat Program; Director of Student Services, Director of Student Activities & Athletics, Director of Nursing, Library Director, Director of Administrative & Business Services, Faculty Council Chair; Division Chair for Business & Industry, Division Chair for Arts & Sciences, Business Manager, Chair of Student Services; Assoc Dean of Instruction, Assoc Dean of Student Dev, Asst Dean of Marketing and Public Information, Asst Dean of Center for Business & Industry,
Dir of Dev, Business Manager; Executive Dean, Dir of Business Affairs, Dir of Student Services, Faculty Senate President, Academic Div Dir, Voc/Tech Div Dir, Dir of Athletics; Dean, Assoc Dean of Instruction, Asst Dean Student Services, Bus Mgr, Dir of Library Services, Dir of Community Services & Outreach; Dean; Vice Provosts & Department Heads (Deans); Assoc Dean for Academic Affairs, Assoc Dean for Univ Relations, Asst Dean for Adm, Asst. Dean for Student Affairs; Chancellor, Vice Chancellor (3), Division Heads (4), Directors (8), Librarian; Dir of Academic Affairs, Librarian, Media Specialist, Registrar, Computer Main Spec, Div Head, Evening Prog, Sum Prog Adm; One faculty represents us on the Faculty Access Committee which meets regularly with the Sr. VP and his staff. Two faculty serve on the University Senate.; Dean of Academic Affairs, Dean of Students, Dir of Business Affairs, Dir of Admissions, Dir of Bus Ed Center; CEO, Dir of Academic Affairs, Student Affairs, Cont Ed, Univ Relations, Development, Business & Finance; Vice Chancellor for Academic Affairs, Vice Chancellor for Fiscal Affairs, Vice Chancellor for Student Services, Vice Chancellor & Dir of the Ark State Tech Inst, Asst to the Chancellor; Dir of Academic Affairs, Dir Univ Relations, Finance Officer, Faculty Chair, Dir Business Services, Registrar/Inst Research Officer, Dir of Student Programs & Services; Dir of Academic Affairs, Dir of Business Services, Dir of Student Programs & Services, Financial Officer, Regional Dir of Univ Relations, Coord Continuing Education; President, Provost & Dean of Faculty, Dean of Administrations & Finance, Dir of Development; Assoc Dean, Dir of Budget & Operations, Dir of Continuing Education, Dir of Enrollment Services, Dir of Academic Services, Dir of College Relations; CEO, Dir of Academic Affairs, Dir of Student Affairs, Dir of Finance/Business Services, Dir of Continuing Education, Dir of University Relations; Assoc Dir, Assist Dir, Business Mgr, Maintenance Supervisor, Campus Dir, TQM Coord; Assoc Provost for Instruction, Assist Provost for Student Affairs, Assist Provost for Business Affairs, Superintendent of Physical Plant; Dean, Assoc Dean for
Academic Affairs; Assoc Dean for Student Services, Controller, Dir of Graduate Regional Studies and Continuing Education, Dir of Title III; Assist Dean, Dir of Student Services, Dir of Continuing Education, Division Coord, Dir of Library; Dean, Assist to the Dean, Dir of Admissions, Business Mgr, Continuing Studies, Dev Ed. Coord, Dir of Nursing, Librarian; Assist Dean Student Service, Assist Dean Instructional Services, (4) elected faculty rep, (1) elected staff rep; College Director serves on Provost’s Council of Deans and Directors. (Composed of University of Alaska Anchorage Administrators); We have no such formal council.; President, Dean of Instruction, Business Mgr, Dir of Vocational Programs, Dir of Student Services; Dir of Academic Affairs, Dir of Continuing Education, Dir of Student Affairs, Dir of Business Services, Dir of Univ Relations, Financial Officer; Provost, Vice Provost of Academic Affairs, Vice Provost of Student Services, Vice Provost Business & Finance; Vice Chancellor for Instruction, Vice Chancellor for Administration, Vice Chancellor for Student Services, Assist to the Chancellor; Dir of Student Services, Dir of Admissions & Financial Aid, Dir of R.C. Library, Dir of Learning Assistance, Dir of Registration & Records, Superintendent of Physical Facilities, Dir of Public Relations, Dir of Continuing Education, Business Mgr, Executive Director, Assistant Executive Dir for Academic Affairs; Not structured that way. 22. Faculty promotion is determined by

- [ ] Main Campus (12)
- [ ] Branch Campus (24)
- [ ] Both (22)

23. Do branch campus faculty receive tenure?

- [ ] No (2)
- [ ] Yes (57)

24. Tenure status received at the Branch Campus applies to Main Campus

- [ ] No (35)
- [ ] Yes (20)
- [ ] Other. (3)
25. New Programs/courses taught at the Branch Campus are approved by the curriculum committee at the:

☐ Main Campus  ☐ Branch Campus  ☐ Both

(10)  (32)  (18)

26. Is the branch campus accredited separately from the main campus?

☐ No  ☐ Yes.

(34)  (25)

Accredited by:

NCA (24)  SACS (4)  JCERT-ABET (3)
Middle Atlantic States (4)  NW (3)
WASC (4)

STUDENT SERVICES ISSUES

27. Students admitted at the branch campus are also enrolled at the main campus

☐ No  ☐ Yes.

(32)  (24)

28. Students who transfer from the branch campus receive preferential status in limited or selected enrollment programs at the main campus

☐ No  ☐ Yes.

(29)  (26)

MAIN CAMPUS SUPPORT

29. What functions are performed at the main campus? Please check all that apply:

☐ Personnel Records  ☐ Purchase Order Requests  ☐ Student Transcripts

(29)  (17)  (39)

☐ Audit  ☐ Payroll  ☐ Purchasing

(39)  (43)  (29)

☐ Student Financial Aid

(24)

☐ other (23)  Architect Services, Accounts Payable, Facilities Planning (Univ Arch), Legal Counsel, Legal Services, Admissions, Budgeting reports, Benefits Administration, Cash Flow Management, Financial Accounting, Student Registration, Endowment Investment, Computer Support System for Administration, Financial Aid, Registration, Development Architect, Staff Development, Lobbying State Legislature, Bursar, Human Resource Benefits, All fiscal services

30. Does the Branch Campus have an endowment fund?  ☐ No  ☐ Yes.

(25)  (35)

31. Does the Branch Campus have an endowment fund separate from the Main Campus?

☐ No  ☐ Yes.

(32)  (25)

32. Does the Main Campus endowment support activities at the Branch Campus?

☐ No  ☐ Yes.

(25)  (33)

33. How would you rate main campus - branch campus relations?

☐ satisfactory  ☐ lukewarm/ tolerable  ☐ unsatisfactory
If you could improve one main campus - branch campus relationship issue, what would that be? Better Business Services and responsiveness; Elimination of some "middle men"; The issues of what courses can be offered at the extended college sites continues to be a problem with some Main Campus departments are very flexible & others very narrow and rigid.; Transfer of credit; Better articulation of students; Greater cooperation in extending university resources to branches in upper division grad courses.; Communications; Better understanding by Main Campus faculty of the Branch Campus mission and the relationship between campuses.; System office recognition of importance of branch campuses and their needs.; More autonomy for branch (especially in programs).; Reward-Mission. Ambiguity exists wherein main campus is RESEARCH, campuses are TEACHING is primary mission.; Capitol Project support; Budget; Retain present relations; Salary inequities; The Acceptance by the Main Campus that we are a legitimate institution and foundation support for our programs.; That we would be judged more valuable.; Admissions; Report directly to the Univ President; Admissions; Provost reporting-chain of command; Equality across the System; Better understanding & cooperation for 2 + 2 programs.; Speedier course approval process; Freedom to offer more baccalaureate programs.; Budget increase; Trust! distance proves difficult in the minds of some leading to problems of trust; Communications; Better the understanding of research/graduate faculty on main campus to professionalism and quality of branch campus faculty & programs.; A stronger system philosophy.; The front-line administrators at the main campus (ex: Registrar, Bursar) should keep branch campus needs in mind when setting policies.; Greater curricular and faculty autonomy; More attention paid to branch campuses, more recognition of branch campus role in System mission; Consistent Consultation; Agreement to expand our campus mission, academic programs; Main campus permission to offer our own general education courses in support of our associate degrees
(This may be unique tour situation adjacent to the main campus.; Branch campus employees report to director but also answer functional managers on main campus.; Articulation and coordination of course revisions; Matriculation of students between brand and main campus; Greater autonomy; Movement toward integrating with regional faculty has been disrupted by submergence of a community college faculty workload, promotion, tenure issues.; Tenure process; Improve the understanding and acceptance of the main campus faculty for what the Branch campus teaches.; Knowledge of main campus personnel that we even exist.; Move control of lower division academics to regional campuses.; No distinction between main campus branch in the state's resource allocation model.; A large research university tends to down play the importance of technical education.; More curriculum autonomy;

35. How would you define a branch campus?: A division (partial) unit of main campus. Financially separate units with a different mission (i.e. community college) need a different name.; An extension of the University which is complemented by technical programming, community liaison & service.; Unsuccessful in meeting community educational needs compared to community colleges.; About the same as a community college.; An extension of University into a service area that is responsive to local community needs.; The resources of a major University locally situated.; A campus with the same function as the main campus.; A Learning Center with a specified mission and geographically separated from the "Main" campus of the University.; I would not.; Geographically dispersed with quality faculty & programs.; Empowerment to offer courses, programs with consistency of standards for faculty qualifications, student administration, course content and progress.; Part of Univ Charter-under Pres of Univ & Board of Dir, but not at location where Pres is housed.; An integral part of a Univ with a missions and programs to support that mission that has a separate location and staff with flexibility to achieve that mission.; One University
geographically dispersed; A separate educational unit governed by the same Board of Visitors; Open access gatekeeper for freshmen/extension locale at upper division or graduate level.; It is an integral part of a major research university and provides an excellent environment for teaching and learning in local community in the Commonwealth; A unit offering the first 2 years of various university academic programs with an additional focus on vocational courses and local community services.; An extension of the larger university. At OSU, in fact, we are called extended or regional campuses.; A separate entity removed by distance to serve specific population. Governed by Regents of the University. Articulation of academic and technical programs.; A small unit of a large University which brings a limited amount of the varied resources of that University to other regions in a state thereby providing direct access to the greater University.; An institution providing the extension of our parent institution into our respective areas with the purpose of meeting 2-year transfer, special prog, D.E.; A college accredited as part of a larger unit to offer selected curriculum at a different site.; A site separate from the main campus of a University, having its own faculty and administration, which offers courses and programs of the University.; A separate entity which may benefit from association with main campus, but must survive on its own merit, productivity & service to the communities it serves.; Former community colleges who have been reorganized under University of Alaska governance.; An independent campus that works and offers services within a system frame work.; At Miami University, the branch campuses are integral parts of the University, established to provide access to local communities.; Extension of the University offerings primarily the first 2 years of some 200 majors, but also upper division & graduate programs on a limited basis.; A branch campus at PSU (part of the Commonwealth Education System) provides freshman and sophomore level programs as well as a wide range of associate degrees and other community educational
programming.; An institution the students of which have automatic articulation with main campus. Shared governance.; A location having the authority to Grant Degrees Extended from the Main Campus.; At OU branch campuses are called University Centers that provide the first two years of baccalaureate preparation, selected BA programs and Graduate programs.; Branches serve to increase access to higher education, geographically and programmatically; Serves a specified region and mission which constitute a portion of the larger institutional mission.; Very carefully!; An outreach educational delivery model which is both university affiliated and community oriented.; Without complete autonomy in personnel, budget, curriculum, and politics.; We never use the term if we can help it. We are simply a regional extension of the state’s land grant university.; Multi-campus system; A Branch Campus is a resident college offering courses and programs which serve the educational needs of the citizens of a particular geographical region.; semiautonomous campus of a larger university which meets remote student needs.; A semi-autonomous unit of a four-year higher education institution providing full basic services and fully equivalent courses and academic programs as an extension of the institution.; An integral part of a larger academic unit but removed by some distance. Academic programs are parallel.; A campus which offers programs complementary to the role and mission of a comprehensive university.; A branch to me is where virtually all controls are at the main campus. Mat-So fortunately has its own budget.;

36. Very little is understood about the governance of Branch Campuses. Please comment regarding the information requested in this survey. Are there other issues that you would like to see in a survey about branch campuses?: "Line item" and financially separate branches have many issues that are not common.; No.; This survey leaves out the heart of the issue: Mission, Role & Scope.; A comparative funding (personnel, equip., bldgs, etc.) of "branch"
and "main" campuses.; Differential Mission related to teaching & rewards. Autonomy in programs.; There is only one question about the governing board and one about the president. These do not adequately express relationships.; I often question the value of the relationship when all functions are separate and the governing of the institution is unrelated to the governing of the main campus.; I would be interested in receiving results-questions are relevant.; Self-determination; Cost/Benefits, i.e., overhead paid to main campus vs. actual worth. Slowness in communications/results vs. benefits of belonging to a larger, high-quality organization.; Your definition/focus on two-year campuses seems too restrictive. I believe the trend is toward more baccalaureate programs at such campuses. We're evolving!; We have dual governance, local for budget approval and to call for operational and capitol outlay elections. Regents of University for all other account.; Problems of differential funding for same courses at different campuses.; The amount of resources which flow upward and the tendency to micro-manage; This campus is still "evolving" as a branch campus, having been a community college with separate accreditation prior to system restructuring.; Ours shares a campus with a separate technical college.; The lead sentence says it all. Inclusion and exclusion of branch by Main campus in certain situations, decision-making matters and so forth as matters of policy/routine rather than convenience.; Faculty governance is not discussed and should be part of any inquiry about institutional governance.; Conflict from community-based mission sometimes conflicting with institutional priorities; difficulty linking faculty to main campus school deans and faculty.; Good survey! Relationship of local boards (advisory or governing) to University Board of Regents is a significant issue.; No; Professional development and practices, union issues-esp. with faculty, workload issues & institutional research; Obviously your notion of what we are and ours are very different. OSU is now doing a study of the relations with the central campus. The results will be
ready in late spring. Let me know if you want a copy. The AACC and its members have caused us significant problems in Ohio and I am responding to this only because I was once a graduate student and dimly remember that experience and my husband is from North Dakota so I managed not to pitch this as I do with most AACC material.; Titles of Chief Executives; offering upper division and graduate courses and full programs.;

37. Please identify other institutions in your state that are lower division branch campuses of baccalaureate degree granting institutions. Please use the reverse side of this survey.
