In spring 1993, the Student Government Association (SGA) of Calhoun Community College (CCC), in Alabama, initiated a survey of all CCC students in day and evening classes at the main campus and at two off-campus sites to determine student opinions regarding CCC agencies, services, and student activities. Of the 410 students who returned completed surveys, 43% attended primarily day classes on the main campus, 13% attended mostly evening classes on the main campus, and the remaining 44% attended classes at the two off-campus sites. Results of the study included the following: (1) 49% of respondents indicated that they were attending CCC to earn an Associate's degree, 35% to earn a certificate, and 16% to earn transfer credits; (2) 82% of students preferred that CCC continue on the quarter system, rather than change to the semester system; (3) with respect to CCC services, the highest ratings were received by the bookstore (65% rating it as "good" or "excellent"), the library (63% rating it as such), and the admissions office (50% rating it as such); (4) 58% of respondents indicated that they would attend college sponsored student activities including big-name entertainers and guest speakers; (5) of the 370 students who responded to a question regarding voting procedures, 55% felt that SGA voting procedures should be extended to include night and extension students; and (6) respondents were generally interested in an increase in on-campus activities, including intramural programs (37%) and fraternities and sororities (41%). The survey instrument, respondent demographics, and open-ended student comments are included. (Contains 92 graphs.) (MAB)

SURVEY OF STUDENT OPINIONS

INTRODUCTION

The Student Government Association (SGA) of Calhoun Community College initiated a survey of students that included four instructional time frames. These instructional time frames, or sites, included the main campus day program, the main campus evening program, The Mall program in Huntsville, Alabama, and the Redstone Arsenal program at Redstone Arsenal, Alabama.

This survey included 410 Calhoun students from all sites and was administered during the spring term of 1993. The purpose of the survey was to determine student opinions about a variety of topics of interest to the college and of specific interest to SGA members.

PARTICIPANTS

Of the 410 students, 43% attended primarily day classes on the main campus, 13% attended mostly evening classes on the main campus, 29% attended classes at The Mall site, and 15% attended classes at the Redstone Arsenal (RSA) site. NOTE: (Percents are at times greater than 100 because of rounding.) See Chart 1.

Chart 1 Participants by Site

METHOD

A survey instrument, see Appendix 1, was developed by the 1993 SGA of Calhoun Community College. The instrument included questions and statements to solicit data on respondents' demographics and educational standing at Calhoun; their preferences for the semester or quarter system; their ratings of certain Calhoun
agencies and services directly related to or affecting students; and their opinions about certain student activities and related policies, the campus and classroom environment, and the frequency of certain course offerings. For the various items on the questionnaire, the respondents were asked to select the demographic options that best identifies them, or they were asked to rate an item as (A) Excellent, (B) Good, (C) Average, (D) Poor, or (E) Undecided. For some items, respondents were asked to indicate 'Agree' or 'Disagree' or 'Undecided.' For other items respondents were asked to mark 'Yes' or 'No' or 'Undecided.'

The final section of the instrument was open ended to allow respondents opportunities to write comments related to question number 50, general comments about items in the questionnaire, and opinions about items not necessarily covered in the survey.

Demographic data appear in Appendix 2, and students comments appear in Appendix 3.

RESULTS - General

Students had three choices for indicating their purposes for attending Calhoun; AA/AS Degree, Certificate, and Transfer Credits. From all sites, 49% said they were attending Calhoun for the purpose of earning an AA or AS Degree, 35% indicated the purpose was earning a certificate, and 16% said the purpose was to earn transfer credits. See Charts 2 and 3.

![Chart 2: Educational Purpose for Attending Calhoun](chart2.png)

An analysis of the data from each of the four sites in the survey produced the following results for the students' purposes for attending Calhoun. For main campus-day students, 4% indicated that the purpose for attending Calhoun was to earn either an AA or AS Degree, and 35% said the purpose was to earn a certificate. For main campus-evening students, 11% indicated that the purpose for attending Calhoun was to
earn either an AA or AS Degree, and 5% said the purpose was to earn transfer credits. For The Mall students, 20% indicated that the purpose for attending Calhoun was to earn either an AA or AS Degree, and 9% said the purpose was to earn transfer credits. For RSA students, 14% indicated that the purpose for attending Calhoun was to earn either an AA or AS Degree, and 2% said the purpose was to earn transfer credits.

**Chart 3 Educational Purpose for Attending Calhoun - by Site**

Respondents were asked which type of system they would prefer for Calhoun. Their choices were 'semester' and 'quarter.' The majority of students, 82%, indicated they would prefer that Calhoun continue with the quarter system. Eighteen percent said they would prefer that Calhoun operate under the semester system. See Chart 4.

**Chart 4 Type of System Preferred**
Students indicated their preferences for semester or quarter system by site. In the main campus-day program, 5% preferred semesters and 42% preferred quarters. In the main campus-evening program, 1% said semesters best and 11% preferred quarters. At The Mall, 6% said semesters to 16% for quarters. At RSA, 5% said semesters and 14% said quarters. See Chart 5.

**Chart 5 Type of System Preferred**

RESULTS - Rating of Calhoun Community College Agencies and Services

The Center Spot is located in the student center on the main campus. Rating the Center Spot from good to excellent were 33% of the respondents. Twenty-two percent said it was average, and 5% said it was poor. The 39% in the undecided category may indicate students who attend classes primarily at sites other than the main campus and may not know the reference to 'Center Spot.' See Charts 6 and 7.

**Chart 6 Rating of Center Spot**
Of students responding, day students on the main campus rated the Center Spot 3% excellent, 13% good, 10% average, 3% poor, and 9% were undecided. Evening students on the main campus rated it 3% good, 3% average, 1% poor, and 9% were undecided. The Mall students rated it 6% excellent, 4% good, 7% average, 1% poor, and 13% undecided. RSA students rated it 1% excellent, 4% good, 1% average, 1% poor, and 8% undecided. See Chart 7 (Differences in column height are caused by rounding.)

**Chart 7** Rating of Center Spot by Site

The Financial Aid Office was rated by 125 students. Of the 125 students, 36% rated the Financial Aid Office from good to excellent, 23% rated it average, 5% rated it poor, and 36% were undecided. Also, 285 students did not respond to this question. See Chart 8.

**Chart 8** Rating of Financial Aid Office
Of students responding, day students on the main campus rating of the **Financial Aid Office** resulted in 5% excellent, 10% good, 10% average, 4% poor, and 9% were undecided. Evening students on the main campus rated it 3% excellent, 3% good, 2% average, 0% poor, and 6% were undecided. The Mall students rated it 6% excellent, 4% good, 8% average, 1% poor, and 14% were undecided. RSA students rated it 2% excellent, 2% good, 2% average, 0% poor, and 6% undecided. See Chart 9

SGA SURVEY – STUDENT COMMENTS

This section is organized in the following manner: In the first column, 'D' refers to day students on the main campus, 'E' refers to evening students on the main campus, 'M' refers to The Mall site, and 'R' refers to Redstone Arsenal site. In column two, 'No.' corresponds generally to the question number from the survey. In column three, 'Student Comments' is the section listing the remarks written by those students responding to the survey. The number following a comment refers to the number of students comment similarly.

D 26 There is not enough communication or explanation about what's going on or what functions are one campus. For example: I saw signs about Spring Feast about one week before Spring Feast, and I didn't have any idea what Spring Feast was. When I saw it Friday, I thought it was great, but not too many students came. Could there be more information put out, maybe memos sent in mail or flyers, SGA representatives getting up before their classes and explaining?

D 27 Students should be allowed to tape their parking decals to the inside of their back windows; the decals ruin car paint jobs.

D 27 Reserved parking spaces should be reduced to loading and handicapped zones. Teachers are no better than students, and we pay them to come here. They don't pay us.

D 27 Expand the parking area in the vocational part of campus.

D 27 Fewer teacher parking places.

D 27 Better parking facilities. (2)

D 27 More evenly distributed parking throughout the campus.

D 28 SGA voting places for night extension students.

D 31 There should be more benches and tables in front of or near buildings for students. More covered areas for smokers.

D 31 Buildings need to be repainted and redecorated.

D 31 The campus buildings are an eyesore!!!

D 31 Clean up this place. (5)

D 31 Make sure all automatic doors work at all times for the handicapped.

D 32 One thing the institution could do is build dorms, that would increase student participation in everything.

D 32 If Calhoun wants to remain a transit campus then it should not change things, but for a well rounded (socially and intellectually) 2 year college, career dorms should be built.

D 37 If students have to use smoking areas outside the buildings, the teachers should also. Provide smoking lounges for students, too!

D 37 We should have a designated smoking area! Faculty should not be allowed to smoke in any buildings either!

D 37 I think a smoking court should be made (central) with sand buckets for cigarette butts. If a smoking court were made with the sand buckets, the campus would be cleaner and the non smokers could stay away. Smokers have rights too!

D 37 I think that we should be able to smoke outside. We can't smoke in the buildings but the teachers can--not fair. If the non-smokers don't want to be around it then give us an area to smoke where they don't have to come. We have a right to smoke just like they have a right not to smoke.

D 37 Smoke free campus. Non smokers have to walk through smoking areas to enter buildings. Example, outside near the entrances.

D 38 Clubs need to be active at night.

D 38 Student participation in campus activities does need to increase. I do not believe the institution is to blame. Students are to blame.
I didn't even know what club hour was. I think you could improve on getting information such as club hour, drama, etc. out to the students.

The Warhawk Herald should be distributed in all buildings. There should be more advertisement for functions.

I didn't realize there was a College Bowl team. I would have liked to participate in it if my schedule, college, family responsibilities permitted.

The desks need to be bigger. I need elbow room. I need room to place my books and my notebook on the desk. I may get lucky and find 2 or 3 big desks in one room. But these are usually taken. There needs to be a room full of them. (13)

Since most students plan to transfer to other colleges and universities, there should be more foreign languages made available. Since we are in a world economic area, this would greatly enhance student employment with different sectors of business.

Need more English classes during summer.

The nursing school should be made longer by hiring more faculty so more students can be accepted into the school each fall. (8)

I would like to see more computer classes offered at a variety of times. It should be easier to get into your major instead of having to take classes that don't matter that much, and having to make certain grades. I think if you pass these classes, that should be good enough.

Include Food and Beverage packaging and preservation.

I feel that there should be a larger variety of all classes offered, including medical terminology.

All of the classes should be offered more.

I would like to take a sign language course to communicate with the deaf.

The procedure for accepting credits from other schools or military service is not very good. I would like to see a student review board with power to judge the issue.

Need class syllabus at the beginning of each course, and go by it.

Need to see more of our SGA at the Tech side of the college.

More instructors should model themselves after Mr. Tyler in Math. His teaching technique is challenging and rewarding. His tapes are a great learning tool.

Do not make speech a requirement for vocational degree programs. Use an alternative class if necessary.

Make instructors and teachers show up on time. Classes should begin and end on scheduled times.

Do something to make teachers show up on time. Teachers should submit a plan at the beginning of the quarter.

Do something to make teachers be in class on time.

Teachers should submit a class plan at the beginning of the quarter and follow it.

I would like to see more material covered in technical classes. It's expensive to travel over 30 miles to class.
The employees of this school care nothing for the students until their boss is watching or listening and then they just act like they care.

Calhoun is doing very well, excluding maybe 2 teachers (1 of which has retired) I have had outstanding professors. New and old teachers!

I do not like the drop/add policy--(particularly) there is not enough time allowed to drop a class. I think 100% of your money should be refunded within a reasonable amount of time.

Personally I don't think speech class should be mandatory for all majors.

Need more days to register for classes and longer time to pay tuition.

Something should be done to make Calhoun classes transfer the same to UAH. They count 5 hrs. at Calhoun and 3.3 at UAH and you have to take extra courses after going there.

Open up the student center at night (Center Spot). (2)

It would be nice if the labs could be open longer and more evenings. (3)

Open cafeteria at night. (2)

Evening students should be encouraged more involvement in school activities. For example, I belong to Phi Theta Kappa, and I would like to join the Doers Club, but I am unable to attend any functions during the day.

Eliminate designated parking!

We should be allowed to vote on every function that goes on with Calhoun--just like the day students.

Allow voting at night.

Why not consider an evening club hour and maybe even an evening SGA since the evening students have little opportunity to participate during the day.

I would like to see another nursing program offered, either at night or an additional day class. (8)

I feel that there should be a volleyball team here at Calhoun like basketball, softball, and tennis. I am sure that you wouldn't have any problems getting people to play. There should also be scholarships offered for this sport. (There is no other sports going on during volleyball season.)

Gen more evening technical teachers to carry the load of classes more regularly.

Let night students know about available facilities and activities; weight room, intramurals, etc.

Do not make it so stringent on night class students on required time in class. Most of us work 40+ hours per week and have families of our own. Instructors and teachers along with administration tend to forget that a large portion of our tuition pays the salaries and bills of the school.

More activities (i.e. cafeteria, break room, drama) should be open to night students.

Keep updated equipment (CAD systems)

Add phone registration. (3)
E  Gen  Upgraded drafting equipment. (3)
M  10  Please keep quarter system.
M  14  Every time I have gone to the financial aid office, I have been rudely
waited upon.
M  15  I would also like to see a library available for the extension students.
M  15  On No. 15, we have no library.
M  15  It would be nice to have a small library at the mall extension, or a place to
where students can study between classes.
M  18  I have been very displeased with most of my instructors and feel I had
poor guidance throughout the last two years. I feel the Math department
is lacking in good instructors.
M  26  I would attend student functions if they were made known. Back in MI I
worked with a lot of functions and the students. Being a V.P. in student
senate you have to learn to publicize everywhere, don't confine it. Make
the student aware! Inform everyone!
M  26  Just because I go to school at the Mall, that shouldn't mean I can't
participate at school functions provided at The Mall instead of on campus.
M  26  Attending Calhoun at night at the mall campus makes it very difficult to
participate in any activities at the campus.
M  27  What about parking at the new Calhoun campus?
M  27  When we move to Central Bank, where will we PARK?
M  31  The items marked undecided are of no particular interest to me. My
primary interest is facilities and the use of classrooms. I definitely feel
more "adult-oriented" furniture is required that lets you have some room
for your materials.
M  31  This is a hellhole!
M  31  The temperature in the classrooms is way too warm.
M  32  Dorms would be a great idea.
M  37  I'd love to see Calhoun become smoke-free!
M  37  It is my right to smoke!
M  37  Non smoking in mall should be enforced, at all times, not just during
registration.
M  37  Mandatory non-smoking.
M  41  I have been going here for 2 years and have never even seen a Warhawk
Herald.
M  49  Better desks and better sitting and studying areas.
M  49  The desks at The Mall extension are too small for adults.
M  50  Offer more foreign languages at The Mall - French and Spanish
Offer physical ed. - Tennis and weight lifting
M  50  Offer Photography/Arts
M  50  Offer more computer instruction classes, psychology and sociology
classes. The only psychology class offered most of the time is general
psychology.
M  50  Offer more math.
I believe that the Business Office personnel should be trained a little more appropriately. For the last two quarters, the Business Office has messed up my grants. I receive two grants; Rehabilitation and Pell.

In the catalog there are at least 6 classes that I have never seen or heard of being offered at campus or either extension. They should either be offered every other quarter or dropped from the catalog.

Security at the mall is a joke. If I were mugged or attacked no one would know. I shouldn't have to ask for an escort there should be someone sort of guard outside at all times like there was in '88 - '90.

Will there be a dormitory on the main campus for non-athletic students?

I could not rate agencies/services on the campus, because they are not offered here in Huntsville. The Huntsville campus needs to be expanded to offer more things.

Better facility at Huntsville. A/C and Heat. Larger classrooms. Snack bar within 150 ft. of all or most classes. Library at Huntsville site.

I would like to see a snack bar/recreation area at the Mall extension. Also, I have never been to any of the on campus facilities so I feel like I can't rate them. I would like to see the curriculum extended. And I would most definitely like to see Calhoun move in to the Bank building in downtown Huntsville.

We need labs (tutoring) offered on RSA and the Mall. (4)

I would very much like to see the facilities improve at RSA to include library and eating and studying areas.

Need more comfortable chairs (larger) for classrooms at Redstone.

Need a better system for registration such as, drop and add over the phone and registration through the mail. Also, counselors should be more available during time of registration.

I have enjoyed Calhoun and hope one day it can become a four-year college.

I would like to see Calhoun change to a four-year degree college offering more business degrees. If a student lives in Huntsville and wishes to receive a Marketing B.S., the only college I can go to is UAH. I know more students who feel this way. I have really enjoyed taking my classes at Calhoun, and I have had excellent instructors and wish I could continue my education more here.
