This teacher's guide is intended for use in presenting a course to help Kodak Corporation employees develop the basic reading skills required in their workplace. The following topics are covered in the modules: prewriting thinking skills; information identification and organization strategies; awareness of the receiver's characteristics and needs; correct structure, spelling, grammar, and capitalization; and appropriate word choice. The following materials are included: a goal and list of objectives that apply to the four-module course as a whole, detailed outlines for instructors to follow when presenting each module, a trainer's guide, and a learner's book. The trainer's guide contains instructional guidelines, learning activities, and transparency masters. The learner's book includes instructional text and accompanying learning activities. (MN)

Employees at Kodak Colorado Division are expected to perform a variety of tasks that require the good writing skills. Peer evaluations, memos, documentation updates, corrective action requests, meeting notes and electronic mail messages are examples of these tasks. KCD employees are expected to produce effective written communication that is concise, complete and correct.

There are many skills involved in effective workplace writing that must be used collaboratively. Among these are the ability to employ:

- pre-writing thinking skills
- information identification and organization strategies
- awareness of receiver characteristics and needs
- correct structure
- correct spelling
- correct grammar
- correct capitalization
- appropriate word choice

The realities of time availability and complex work schedules provide a challenge in delivering learning experiences that upgrade all of these skills.

These four modules address employee skills enhancement needs by providing essential information and instruction, appropriate practice and application, and resources for further self-directed learning in the writing skills areas.
EFFECTIVE WRITTEN COMMUNICATION IN THE WORKPLACE

Goal: To improve the writing skills used in the workplace.

Objectives: At the end of the four modules the learners will be able to

1. list the four basic steps in writing effectively;
2. identify the questions to think through before actually writing;
3. recognize questions to ask themselves about receiver characteristics and needs before writing;
4. identify a complete sentence;
5. define the parts of speech;
6. determine if a sentence has correct punctuation;
7. choose the correct word to use in a sentence when a choice of frequently confused words is given;
8. add the beginning, middle, or ending to a word by applying spelling rules reviewed in class;
9. write a memo based on a given problem situation;
10. define a paragraph;
11. identify the main idea and a supporting detail in a well-written paragraph;
12. recognize the structure of a written composition;
13. write a composition of their choice;
14. write an entry for one category on a KCD performance worksheet given a problem situation;
15. recognize the correct use of apostrophes in contractions and the plural of numbers and letters;
16. identify appropriate use of capitalization.
MODULE 1

I. Introductions of Participants/Trainer

II. Introduce Content of 4 Module Course
   Engage learners in an exploratory conversation of those characteristics that make up good writing. Refer to course introduction sheet for list of skill areas to include in discussion. Explain that all of the skills are important and must exist simultaneously.

III. Norms and Expectations
   To elicit expectations, the form provided, Learner Book p.1, may be used. Discuss responses with group. Refer to the course design and discuss ways in which emphasis of each content area might be adjusted to meet the needs of this learner group. Request samples of functional context materials from participants.

IV. Instruction - Writing as a Problem Solving Process
   Refer learners to Learner Book p.2
   Use Trainer Guide A to deliver lecturette

V. Practice and Application
   Ask learners to think of a situation in which they used written communication at work. Ask them to relate the situation to the group and describe it as successful or not successful. Lead the group in analyzing the task and process in terms of the previous content instruction. Refer learners to Learner Book p.2 and their notes to use in the analysis. Guide the group towards the objective of seeing writing as a problem solving process.

VI. Instruction - The Bare Basics of Effective Structure
   Refer learners to Learner Book p.3.
   Refer to Trainer Guide B to assist with lecturette.

VII. Practice and Applications
   Use exercise sheets in text or create functional context examples
   Pursue briefly or until learners can identify and demonstrate understanding of basic concepts.

VIII. Instruction - Spelling
   Refer learners to Spell-Right #1 and review.

IX. Close - Ask learners to write down one new idea about the thinking that is involved in the writing process that they will share with a team member.
MODULE 2

I. Open and Review
   Review the pre-writing thinking strategies from Module 1
   Application activity: Ask each learner to write a memo based on the
   information on Learner Book p. 4. Process by reviewing the steps
   from module 1. Ask learners to share their memo with the person
   next to them and have that person read it aloud and make suggestions.

II. Collect samples of functional context materials.

III. Instruction - Organization of ideas
   Explain that a paragraph contains one main idea and supporting
   information.

IV. Practice and Application
   Select a memo, print out of electronic mail message or other
   written message containing two or three paragraphs. Copy so
   everyone can read it and ask learners to identify the main idea of
   each paragraph. Have learners report out. Did everyone identify the
   same main ideas? If so why not? Guide learners to understand the
   concept of main ideas defining paragraph structure.

   Identify the supporting ideas. Should any of them have been in a
   separate paragraph? Discuss different ways the information could
   have been divided or organized.

   TRAINER GUIDE C can be used if no sample is available.

V. Transition-
   Refer to discussion of the essentials of a complete sentence.
   Tie to the larger structure of a paragraph.
   Discuss the need for more complex sentence structure in workplace
   communication. At KCD and other manufacturing organizations, it is
   generally acceptable and desirable to keep sentences concise and
   uncomplicated. Validate this with learners.

VII. Introduce - The Basics of the Written Composition
   Present Learner Book p. 5 and discuss.
   Use a chart to demonstrate a topic with 3 main ideas and what would
   be included in each paragraph.
VIII. Instruction- Punctuation.
    Cover end punctuation and comma use (text page 2 - 12). Refer
    learners to Learner Book p. 6 for a resource list of rules.

IX. Practice using exercises in text.

X. Instruction - Spelling
    Refer learners to Spell-Right #2 and review

XI. Practice and Application

    Have learners write a composition of their choice using the
    composition structure just described. In addition ask them to take
    time to go through all of the pre-writing steps from Module 1, the
    principles of complete sentences, the spelling rules from
    Spell-Right#1 and #2, and the correct end punctuation and comma
    use rules.

    Allow considerable time to pre-write, write and proof. Ask each
    person to share their composition with one other learner to
    proofread. Ask the proofreader to be very thorough in their proof
    reading and to make constructive suggestions in all areas.

    Review each proofed copy if class size permits and make
    constructive and positive comment.

XII. CLOSE
    Ask learners to list topics covered in Modules 1 and 2 and briefly ask
    if learners can see that all of these skills come together in an
    effective written communication.

    Ask each participant to identify one new writing skill they will use
    in the next week.
MODULE 3

I. Open and Review
Ask each participant to describe one writing skill they have consciously employed at work in the past week.

Conduct a brief refresher of Modules 1 & 2.

II. Instruction - Diction - Choosing the Correct Word
Refer learners to Learner Book p. 7-9. Review.

III. Application and Practice
Learners can complete exercise on Learner Book p. 10

IV. Instruction - Spelling
Refer learners to Spell-Right 3 and review.

V. Instruction - Punctuation
Cover use of colons, semicolons and quotation marks (text 13-19)
Refer learners to Learner Book p. 11 for reference list of rules.

V. Application of all skills to written peer evaluations.
Discuss the critical thinking needed for pre-writing in this context. Allow learners to discuss their concerns and opinions. Specifically discuss the kind of information that should be included, the tone, and the style.

Refer to Trainer Guide D. A list of findings about the peer evaluation process. This will assist trainer in understanding some of the issues and desired outcomes.

Ask each participant to select one category on the KCD Performance Feedback Worksheet - Learner Book p. 12-13 and write an appropriate entry utilizing all of the skills covered thus far.

Share with the group and discuss how this uncomfortable role can be handled professionally and with integrity. How can the best outcomes be sought.

VI. Close - Ask participants to identify workplace functional context applications they would like to see covered in last module.
MODULE 4

I. Open and Review

II. Instruction - Spelling
   Refer learners to Spell-Right #4 and Review

III. Instruction - Apostrophe Use and Capitalization
   Refer to text pp.20-28 for instruction and practice.

IV. Practice and Application
   Select current items on the many bulletin boards, copies of the
   Scanner, or news articles and have participants work in teams to
   identify punctuation and capitalization rules applied properly.
   Look for mistakes, too.

V. Insert Instruction or activities based on the needs and requests of the
   particular team of learners. Facilitate self direction on the part
   of the learning team. Help them identify the steps they would
   need to go point, they have reviewed the thinking techniques and
   mechanical skills to perform writing tasks at an acceptable and
   effective level. The learners also possess printed notes and
   resources in the Learner Book and text to access information that
   is not committed to memory. At this point, inform them of
   additional materials that exist in the learning center.

   In the back of the Trainers Guide is a collection of functional
   context materials that can be used to develop practice and
   application activities. The current group of learners will be a
   better and more relevant source.

VI. Involve learners in review and questions. As questions
    are raised, have other learners attempt to provide answers.
    Encourage team learning to continue beyond the course.

WRITING AS A PROBLEM SOLVING PROCESS

Writing on the job is done for a specific reason: to solve a problem. You write because you want something to happen. In other problem solving situations at KCD, the terms ASSESS, PLAN, DO, VERIFY are used. Writing effectively involves a similar series of steps:

DEFINE YOUR PROBLEM
What is my purpose for writing?

- to pass on information to another
- to respond to a request for information
- to request information from another person
- to report information, facts, data

What kind of written product should I have when I finish?

What do I want the outcome to be?

PLAN YOUR SOLUTION
Who is the receiver?

- one person or a number of people
- what is their role in relationship to me and the information
- what is their knowledge and experience base
- what might their attitude be
- what other circumstances should I factor in

What format should I use?

- sometimes a format is required (e.g. a fax form or a report form)
- which format would be most effective
- what are the choices (chart possibilities)

What style should I use?

- formal
- informal
- level of vocabulary and sentence structure
What tone should I use?

- what feeling do I wish to transmit
- what should I be careful of

What information should I include?

- identify or locate all necessary information
- what information could be added to increase the probability the desired outcome
- what information is irrelevant or superfluous

How should I organize the information?

- priority
- sequence
- system
- choices (e.g., paragraphs and sentences or bullets)

WRITE

Carry out your plan with appropriate grammar, spelling, capitalization and punctuation. Use appropriate vocabulary and word choice.

CHECK YOUR SOLUTION

Did I achieve the objective I was working towards?

Is a follow up step required?

KEY ELEMENTS OF A TEAM
TRUST AND COMMUNICATION
- DON'T COMPLICATE THE PROCESS, KEEP IT SIMPLE.

- THE MORE PRACTICE YOU HAVE USING PEER EVALUATIONS, THE MORE COMFORTABLE YOU WILL BECOME WITH THIS PROCESS.

- EVALUATING OTHERS IS NOT EASY (learn in a non-threatening envmt).

- YOU WILL HAVE TO LEARN TO TRUST ONE-ANOHER.

- YOU WILL BECOME MORE ACCOUNTABLE FOR YOUR BEHAVIORS.

- BEING A SILENT OBSERVER WILL NOT WORK. PARTICIPATE! (you have a responsibility to the team to react to a problem)

- INDIVIDUALS WILL AVOID ADDRESSING DIFFICULT ISSUES (want someone else to be the bad guy. Need to coach teams when these situations occur).

- EXPRESS NEGATIVE COMMENTS IN THE MOST POSITIVE TERMS POSSIBLE.

- USE SPECIFIC EXAMPLES OF ACTUAL BEHAVIORS OBSERVED BY YOU. (stay away from "good old boy" comments).

- KEEP EVALUATION SHEETS HANDY. RECORD AS YOU OBSERVE BEHAVIORS, DON'T WAIT TO WRITE.

- COMMENTS ARE MORE IMPORTANT THAN RATINGS.

- LEARN TO VERBALLY SHARE CONCERNS AROUND DIMENSIONS/BEHAVIORS AS YOU OBSERVE THEM.

- HAVE FREQUENT REVIEW PERIODS, i.e. 2 months, quarterly.

- MINIMIZE DIMENSIONS, FOCUS ON THE ONES IMPORTANT TO YOUR TEAM.

- FORCES CLARIFICATION OF JOB EXPECTATIONS. ONCE DIMENSIONS ARE SELECTED, ALL MUST UNDERSTAND AND AGREE WITH BEFORE BEGINNING NEXT REVIEW. (if problems occur during the evaluation period, you may have to get back together to further clarify expectations)

- DURING THE REVIEW PROCESS, YOU CONTROL THE AMOUNT AND TYPE OF FEEDBACK TO BE SHARED WITH OTHERS (commit to the group what you will do to address the concern).

- IF AN INDIVIDUAL COMMITS TO IMPROVE IN AN AREA, REINFORCE THOSE IMPROVEMENTS AS THEY OCCUR.

- WORK TOGETHER TO IMPROVE YOUR TEAM'S OVERALL PERFORMANCE. SET GOALS, INCREASE YOUR EXPECTATIONS OF ONE ANOTHER (teams may not admit that they have anything to improve).

- YOU WILL BE HELD ACCOUNTABLE BY YOUR PEERS FOR ANY "WITCH HUNTS" (review process provides a "checks & balance").

Due to the increase in information and the rapid changes due to technology and the global economy, adults need to continue learning throughout life. Sometimes adults learn formally through classes in the workplace, community colleges, community organizations, or many other available institutions.

A period (.) is used after sentences which are not questions or exclamations.

An exclamation point (!) expresses strong emotion.

A question mark (?) is used in sentences which ask something.

COMMAS

Commas (,) are used to join two closely related, complete sentences into a compound sentence. The comma must be followed by a connecting word: and, so, or, but, for, nor, yet.

When three or more items are listed in a series, place a comma after each item before the conjunction.

After a long phrase or an adverb clause at the beginning of a sentence.

When a noun has more than one word describing it, the descriptive words usually need commas between them.

Commas separate the day of the week, the month and its numerical number, and the year from each other and from the rest of the sentence.

Commas separate people or organizations, streets, cities or towns, states, and countries from each other and from the rest of the sentence.

Commas are used to set off a part of a sentence that merely provides additional descriptive or unnecessary words or information.

Commas are used to set off words of direct address.

More verbs end in IZE than in ISE.
For example:
agonize • organize • brutalize • authorize

There are just a handful that end in ISE and that's why they can cause writers to get confused and make errors.

Here are ten common words that end in ISE:
ADVERTISE
DESPISE
CHASTISE
EXERCISE
SURPRISE
ADVISE
DEVISE
IMPROVISE
REVISE
SUPERVISE

Look at the last five...can you find a pattern that will lead to a rule?

How do you add ING to these words? What is the rule?

*A rule is just a pattern of the way things usually are done.*

What about a person who keeps the books?

When you combine BOOK AND KEEPER into a single word, will there be one K or two?

ADDING THE ENDINGS NESS, LY AND MENT

When ness is added to an adjective, the new word becomes a noun.

For example: clever - cleverness
sudden - suddenness

The rule is

The same rule applies when ly is added to an adjective to form an adverb.

royal - royally
beautiful - beautifully

try these:

Again, the rule applies when ment is added to a verb to form a noun.

The same rule applies when we add the negative prefixes MIS and DIS

Dis + appear = disappear

dis + agree = ________________________
dis + arrange = _______________________
dis + pleasure = ______________________

mis + spell= _________________________
mis + understanding = _______________________

Why does the rule applies to the word compel, but it does not apply to the word resist. Why?
