An evaluation of the Mountain Empire Community College workplace literacy program included interviews with representatives from three workplace partners who stated their support for skills training programs in workplace basics. Basic skills instruction was provided to 24 students from 33 industries. Students' basic skills progress and skills levels were monitored. Deficient workplace skills areas were identified, and training programs focusing on issues of organizational effectiveness and teamwork were custom designed to meet the specific training needs. A total of 117 employees participated in job-specific and communication skills classes, 275 in organizational effectiveness and teamwork skills training. On the whole, participants rated training programs as good to excellent. Although numbers fell short of projections, the training delivered was by all measures of above average quality. Business partners gave only positive feedback as to the meaningful contribution of the project and felt excellent communication lines had been established. (Appendices to the 12-page report include the following: advisory board and interagency council meeting agendas and minutes; partners' agreement; questionnaire to assess training needs on basic skills; materials on the basic skills curriculum; instruments to identify training needs; syllabi for organizational effectiveness, teamwork, and computer skills courses; and evaluation surveys.) (YLB)
Final Evaluation Report
for
Mountain Empire Community College
Workplace Literacy Program

Completed: November, 1993
Presented By: Dr. Linda Burkett
INTRODUCTION

The following evaluation report was submitted on the WORKPLACE LITERACY PROJECT IN November, 1993. The program evaluator commends Mountain Empire Community College and the administrators of the Project for their efforts in making this program a success.

As a result of this project, communication lines have been established between educational providers and the business and industrial participants which will continue to match training needs with customized educational delivery services. In the short period of time since the conclusion of the grant, the workplace partners have, with the help of the college, identified additional training and the college has responded with relevant training programs. This demonstrates that the Workplace Literacy Project has accomplished its primary goal of providing a model for education and business to work in harmony to build a better skilled workforce which leads to a stronger economy.
MEETING THE WORKPLACE LITERACY NEEDS

GOAL 1: TO RAISE THE BASIC SKILLS LEVEL ON THE TARGETED WORKPLACES.

OBJECTIVE 1.1: Build management and union support for skills training programs in workplace basics.

Management and union support for skills training programs in workplace basics was demonstrated in the following findings:

- Establishment of the Workplace Literacy Advisory Board
- Minutes of meetings of the Workplace Literacy Advisory Board
- Partner’s Agreement signed by eleven workplace partners
- List of companies participating in the Basic Skills Needs Assessment
- Evaluator’s interview with four representatives from workplaces eligible for participation

Documentation of these findings are found in Appendix A.

In the interview conducted by the evaluator on October 15, 1993, representatives from three workplace partners stated their support for skills training programs in workplace basics. Representatives from Cyprus Foote spoke to several strategies used to promote participation with their employees which did not yield results. Norris Industries representative spoke to the efforts made by the Workplace Literacy Program Coordinator to involve Norris employees. An on-site visit to the plant to meet with employees to describe the basics skills program was the most successful approach which brought participation from that company. From the interview, the evaluator saw evidence of good rapport and effective communication between the workplace partners in attendance and the program directors.

OBJECTIVE 1.2: Present strategy and action plan for management and, where applicable, union approval.

By signing the Partners’ Agreement (Appendix A), each business partner committed to the following with the noted participation:

(a) Assigning a representative to serve on a advisory board
to the Workplace Literacy Program

Each partner was represented on the Advisory Board. The Advisory Board held a total of six meetings:

<table>
<thead>
<tr>
<th>Meeting Dates</th>

</tr>
</tbody>
</table>

Minutes of these meetings are in Appendix A.

(b) Promoting the Workplace Literacy Program among employees

Three companies (Foote, Norris, Natural Tunnel) at the interview spoke to their efforts to encourage employees to participate.

(c) Participating in a needs assessment of supervisors and managers to identify literacy needs

Three targeted workplaces (Norris, Penn VA., Ramada) involved their supervisors and managers in the assessment of literacy needs.

(d) Supporting an assessment of the basic skills of employees

Three companies (Norris, Penn VA., Ramada) participated in the basic skills assessment of their employees.

(e) Providing logistical support, within available resources, for the instruction of employees

None of the companies provided release time for employees to participate in basic skills instruction. The classes were held at the Ramada Inn which is a convenient site inside the industrial part where most of the business partners are located. Norris management sent letters to each of their employees and their families who were involved in basic skills to give positive reinforcement and offer encouragement to complete the program. Norris also awarded Certificates of Completion to those who finished the training.

OBJECTIVE 1.3: Assess the basic skill levels of the workers.

* Not a Signed Partner
Basic skills assessment of workers was conducted at three companies: Norris, Cyprus Foote, Penn VA.

The instrument, "A Questionnaire to Assess Training Needs on Basic Skills", is found in Appendix B.

OBJECTIVE 1.4: Provide basic skills instruction with an adult-centered curriculum.

Basic skills instruction was provided to a total of 24 students from three participating industries. Table I shows the number of participants from each workplace which participated along with assessment information.

The Workplace Literacy Program had targeted population of 100 to participate in basic skills training.

The Basic Learning Skills course was offered at the Human Resource Development Project Lab located on the premises of Ramada Inn in Duffield, Virginia. This facility is located within the industrial park where the majority of business partners are located. The basic skills classes were held on Monday and Wednesdays at the end of the workday. Instruction for this program utilized the BLS STAT Basic Skills Series (Appendix C). This series provides intensive review and remediation of basic skills for adults. The ten courses in the integrated instructional system covers math, reading, and grammar. Lessons automatically adapt to the student's progression and comprehension. There is a short test at the conclusion of each lesson. This ensures the student's mastery of the material before allowing them to proceed. Description of the curriculum is in Appendix C.

This course was open to all employees in the Duffield Industrial Park.

At the interview the following were discussed as barriers to participation in the Basic Skills Program: 1) Overtime work kept employees from attending, 2) Employees were not motivated to participate "Would rather dig up asphalt as to attend", 3) Rotating shifts has been a constraint, 4) Scheduled when employees could not attend, 5) Release time was not feasible with production schedule, 6) Industry was down sizing at this time, 7) Employees were intimidated, ashamed, and/or afraid to admit their level of skills.

OBJECTIVE 1.5: Provide instruction at the work site or similarly convenient locations that are conducive to adult learning.
The training was conducted at the Human Resource Development Project Lab at the Ramada Inn which is located within the Duffield Industrial Park. The site is conveniently located for the majority of the business partners. The lab is most attractive and conducive to learning. The Basic Skills Series is a computer assisted curriculum and the lab utilized was well equipped with sixteen IBM computers.

OBJECTIVE 1.6: Maintain documentation of employee participants' basic skills progress.

The instructor maintained documentation on the progress of each of the participants. The progress reports were done monthly with weekly progress charted. An example of a student's Basic Skills Progress Report is included in Appendix D.

OBJECTIVE 1.7: Monitor and evaluate the workplace skills training program.

The skills levels of participants were measured before and after the training with the BSL Testing System.

The evaluator surveyed the employers who participated in the interview with the following question:

QUESTION: To what extent were the basic skills level of your employees raised as a result of the training received?

RESPONSE: Of the three companies represented, two felt there was significant improvement in basic skills and two indicated some improvement.

This survey is found in Appendix G.

The evaluator conducted an evaluation survey with the members of the Advisory Board who were participants in the interview. They responded to the following question:

QUESTION: Overall, how successful do you feel the project was in raising the basic skills level in the targeted workplaces?

RESPONSE: Of the seven advisory board members responding, one indicated the highest level of success and six reported moderate level of success.

The surveys are included in Appendix G.

The manager of human resources at Norris was interviewed and he had only positive comments concerning the administration and delivery of the Basic Skills Program. His company had 14 of the 24 employees participating and reported that all of the participants
from his organization as well as the management were happy with the results.

The instructor for the Basic Skills classes when interviewed by the evaluator expressed, "In all my years of teaching, this has been my most rewarding experience. They wanted to be there learning." She reported and documented that most students made great gains. Some students were laid off during the course of the training but continued to come to class.

GOAL 2: TO TRAIN EMPLOYEES IN ORGANIZATIONAL EFFECTIVENESS AND TEAMWORK SKILLS.

OBJECTIVE 2.1: Identify with the business partners the organizational needs of the workplace.

A needs assessment, Training Needs Assessment Report, was conducted at the worksites by Virginia Polytechnic Institute to identify the job-specific needs of units/departments in the participating workplaces. Local business and industry employers were personally interviewed to identify deficient workplace skills areas.

In response to this assessment, specific training proposals were custom designed to be delivered to Ramada Inn, Joy Technologies, Penn Virginia Corporation, Norris Trim, and Cyprus Foote Mineral Company.

This assessment instrument and others utilized to identify training needs are found in Appendix E.

OBJECTIVE 2.2: Design a series of instructional programs focusing on issues of organizational effectiveness and teamwork.

The following training programs were custom designed to meet the specific training needs identified:

<table>
<thead>
<tr>

<td>Penn Virginia Corp.</td>
<td>Continuous Improvement Proposal</td>
</tr>
</tbody>
</table>
Table II shows the participation level of each business partner.

In addition, because each workplace indicated the need for computer skills, a lab was set up at the Human Resource Development Center at the Ramada Inn which is inside the Duffield Industrial Park.

Numerous computer skills courses were offered to meet specific site requests as well as courses which were identified by more than one workplace. Sample computer lab schedule and course outlines are included in Appendix F.

OBJECTIVE 2.3: Implement the program with supervisors, union leaders and employee team leaders.

Table II shows the participation level of each business partner.

A total of 117 employees participated in Job Specific and Communication Skills classes (including computer training). The number targeted for Job Specific and Communication Skills was 225.

A total of 275 employees participated in Organizational Effectiveness and Teamwork Skills training. The number targeted for Organizational Effectiveness and Teamwork Skills training was 400.

Included in Appendix G are letters from the management of participating companies commending the Human Resource Development Project and offering continued support.

In the interview, the Human Resource Manager for Norris Industries,

TARGETED
* NOT A SIGLED PARTNER
12
expressed his appreciation for the opportunity to participate in the project and the spin-offs as result of the training. His company has been recognized with a quality award for the commitment shown to the project and the relevant training received by the employees. He has committed his company to continue working with Mountain Empire Community College in identifying training needs and offering financial support to the college in the design and delivery of training.

Cyprus Poote Mineral and Norris Industries felt the flexibility of designing and formatting the training to fit the specific needs of their organizations was the greatest strengths of the project. Each felt the training needs of their organizations would change and that they had a true partner in the Community College to meet their future training needs.

The evaluator reviewed the participant's evaluations of each of the training programs. As a whole the ratings received were in the range of good to excellent. The following listing is a sampling from these evaluations:

ITEM: Please rate the overall course according to its value by checking one:

( )Excellent    ( )Good    ( )Fair    ( )Poor

COURSE: "You're Somebody Special"
(18)Excellent (44)Good (12)Fair (3)Poor

"Introduction To Deming"
(4)Excellent (14)Good (6)Fair (2)Poor

"TQT Training"
(8)Excellent (6)Good (2)Fair (1)Poor

"A Step Beyond"
(7)Excellent (4)Good (1)Fair (1)Poor

"Financial Planning"
(7)Excellent (2)Good (1)Fair (1)Poor

"Today's Supervisor"
(7)Excellent (5)Good (1)Fair (1)Poor

"Introduction To Quality Improvement"
(8)Excellent (11)Good (1)Fair (1)Poor

"Communications, Organizational Effectiveness, Teamwork"
(58)Excellent (9)Good (1)Fair (1)Poor
The evaluation survey instruments are included in Appendix G. The evaluator surveyed the four employers who participated in the interview with the following ratings:

QUESTION: To what extent did the organizational effectiveness and teamwork training benefit your organization?

RESPONSE: (2) Significant Improvement
(2) Some Improvement
(0) No Improvement

 QUESTION: To what extent did the project meet the customized training needs of your organization?

RESPONSE: (4) Significant Improvement
(0) Some Improvement
(0) No Improvement

The surveys are included in Appendix G.

The evaluator surveyed seven the Advisory Board members present at the interview. They gave the following positive ratings:

QUESTION: Overall, how successful do you feel the project was in training employees in organizational effectiveness and teamwork skills?

RESPONSE: (5) Highest Level
(2) Moderate Level
(0) Lowest Level

This survey is included in Appendix G.

GOAL 3: TO DEMONSTRATE A COLLABORATIVE EFFORT AMONG PUBLICLY FUNDED GROUPS SERVING THIS RURAL AREA.

OBJECTIVE 3.1: Develop an interagency council made up of key personnel to facilitate communication and program implementation.

The Interagency Council comprised of the advisory board members who
represented the education/training partners was established and functioned throughout the funding cycle. The role of the Interagency Council was to facilitate communication, implement the program, monitor progress, plan for evaluation, and to make necessary changes and adjustments in the delivery of services.

The Interagency Council held seven meeting:

<table>
<thead>
<tr>

<tr>
<td>July 1, 1992</td>
<td>4</td>
</tr>
<tr>
<td>Sept. 21, 1992</td>
<td>4</td>
</tr>
</tbody>
</table>

Agendas and minutes for Interagency Council are included in Appendix A.

OBJECTIVE 3.2: Evaluate the effectiveness of the collaboration based upon the meeting of goals and objectives of the project and interviews of the key personnel by an external evaluator.

Table II shows the numbers of persons trained by workplace as compared to the targeted population.

The following are the ratios of targeted to trained populations:

Basic skills: 36 Trained/100 Targeted
Organizational Effectiveness and Teamwork: 352 Trained/400 Targeted
Job Specific and Communication 149 Trained/225 Targeted
Totals 537 Trained/790 Total Workforce
725 Targeted/790 Total workforce

Although the numbers fell short of projections the quality of training delivered was by all measures of above average quality. This has been documented by various evaluation instruments as reported earlier in this evaluation.

In the opinion of the evaluator the targeted population was an ambitious number of participants considering the total workforce of 9.
the workplaces eligible for participation was only 790. Also
significant is the fact that several participants suffered from
reduction in the workforce due to a downturn in the economy.
Another workplace partner had the opposite problem of having to
work their employees overtime to meet production demands. These
are circumstances which could not be controlled by the Interagency
Council or the Project Director.

From the interview, the evaluator got nothing but positive feedback
from the business partners as to the meaningful contribution this
project had made and will continue to make to their organizations.
All employers interviewed felt the project personnel had done an
outstanding job in assisting them in identifying their training
needs and in delivery of customized training. The workplace
partners expressed that excellent communication lines have been
established and that training would continue as a result of this
initiative.

A listing of interview participants and questions are included in
Appendix H.

EVALUATION PLAN

This project will utilize a combination of measures to evaluate the
project. These include:

(1) Quantifiable data of the number of adult learners served by
this project and the type of instructional services received by the
participants. (To be collected by each educational\training
organization providing instructional services.)

The Project Director submitted Quarterly Reports summarizing the
training delivered to date. These reports are included in Appendix
I. The Director also prepared a final narrative status report,
which describes the types of training delivered to the workplace
partners with number of participants receiving the training.
This Status Report is included in Appendix I.

(2) Quantifiable data of learner results. These types will be
adapted from the above mentioned model and will include

(A) Learner reactions to program participation

The evaluator reviewed the participant's evaluations of the
training. Results are summarized under Objective 2.3 on page 6. The instrument, "Post Program Participant Survey Sheet", is located in Appendix G along with other evaluation instruments.

Overall, the participants rated the training from good to excellent.

(B) PRE-AND POST-ASSESSMENT OF THE AMOUNT OF LEARNING THAT HAS OCCURRED IN A TRAINING PROGRAM

The skills levels of participants were measured before and after the training with the BSL Testing System and the instructor maintained weekly and monthly progress charts on each student in the Basic Skills Classes. The instructor documented that the majority of participants made great gains in basic reading and math skills.

A sample record of student progress is found in Appendix D.

(C) LEARNER SKILL ATTAINMENT TO MEASURE THE ACQUISITION OF SPECIFIC JOB SKILLS NEEDED IN THE WORKPLACE. THIS MEASUREMENT WILL BE POSSIBLE DUE TO THE LITERACY AUDIT PROVIDING AN ASSESSMENT OF JOB SKILL NEED.

The "Training Needs Assessment Report" was conducted at the worksites by VPI to identify the job-specific needs of units/departments in the participating workplaces. The evaluation process included, 1) participant evaluation, 2) employer evaluation, 3) supervisor rating of participants, 3) advisory board evaluation. Overall, the participants and employers felt the training met the needs of the organization and was relevant to the job-specific skills needed by employees to perform their work. These evaluations are summarized on page 6 under Objective 2.3.

(3) QUALITATIVE DATA OF THE ATTAINMENT OF GOALS AND OBJECTIVES. THIS WILL BE DOCUMENTED IN QUARTERLY REPORTS. (Collected by the project coordinator.)

The Quarterly Reports are included in Appendix I.
FINANCIAL REPORT:

On October 14, 1993, the evaluator conducted an interview with Amy Barker, Business Manager and Accountant for Mountain Empire Community College. She provided for review all financial records related to the Workplace Literacy Project and related that all transactions were qualifiable within the guidelines of the Project. The financial transactions and reports were well documented and are available for review. The Project Director has submitted the final financial report with the exception of an amended budget which will clear the encumbrances on the report submitted in August, 1993. This was brought to the attention of the Project Director and she is to check on the present status of encumbrances and if clear, submit the amended and final budget.

Final financial reports and related documentation is in Appendix J.

Myrtle Jessee  Jack Sizemore
Brenda Lee  Susie Tinnon
Connie Rhoton  Nancy Willis
Peggy Roach  Katie Yates

Introductions

Peggy Rusek opened the meeting and made introductions. She expressed her appreciation for everyone's participation.

Advisory Board

The partner's commitments were pointed out in the grant, and Peggy Rusek went over the procedure for determining the needs of the workplace and providing training for some of those needs. The organizations that are to provide training and education are listed in the grant. Also, the business partners of the Human Resources Development Project are listed in the grant proposal. Peggy explained that the program would not exclude other businesses in the industrial Park if they decide to be part of the project. The benefits of the Workplace Literacy Program for the employer, employee, and the community are stated in the grant. The Advisory Board will meet on a regular basis to provide support to the program. Unfortunately, the project is already three months behind; however, an extension will be requested.
**Needs Assessments**

Susie Tinnon directed everyone's attention to the Needs Assessment located in each member's packet. This tool was developed for use primarily for business and industry. Valuable information can result from this tool. The Needs Assessment has already begun at Norris Trim - the final phase will be conducted on Monday, September 9. The assessment begins with an interview with the CEO to determine how he/she feels about training. The Management Survey involving the CEO & staff and the unit/dept heads follows. An Employee Survey is the final phase, asking questions such as, "Are you comfortable with your job?" "Are you productive in your job?" "What do you feel you need or what would you like?" (Norris Trim has provided space at their facility for the assessment.) Afterwards, the information is compiled and sent to VPI for assessing. They will send back demographic information and recommendations as to the type training and education is needed. Individual assessments may be done if needed and time allows. It is possible that some job analysis and task analysis may be done.

Before taking a refreshment break, Susie and Peggy took time to answer questions from the board members concerning the assessment procedures and the time frames for the assessments.

**Munch & Manage**

After the refreshment break, Susie Tinnon introduced the Munch & Manage concept and made reference to the brochures for these seminars located in everyone's packet. She explained that employees become more excited about the training when they feel managers are involved and supportive. She then introduced Connie Rhoton from the Work & Family Institute at MECC, who demonstrated a Munch & Manage seminar.

Connie explained that the Munch & Manage concept is designed to provide good quick tips for management to help recognize the needs of their employees. Connie then gave them a sample of her seminars using "motivation" as her topic. The demonstration lasted about 30 minutes. Managers and supervisors do not have to commit themselves ahead of time for the Munch & Manage seminars; they can just walk in without an appointment.

**Childcare Information**

Joan Daugherty from the Scott County Office on Youth passed out child care information and explained Scott County's desire to set up a Child Care Resource & Referral Center in the county for employers or employees who need child care services. They have been awarded $8000 to set up such a facility. Joan will be working with Carol Moore at MECC to develop resources that will help decide what would be best for each industry. It would be very helpful if each industry would write a letter describing its child care needs so they can get something started as soon as possible. The partners expressed a sincere interest in the child care program.
Closing Remarks

Peggy Rusek closed the meeting by expressing her appreciation to those who attended and announced that the next meeting would be held Wednesday, December 4 at 10:00 am. She explained that they will be trying to increase participation in the project. Members should encourage people to participate and to express their ideas.

Peggy Rusek, Executive Secretary
Advisory Board

ADVISORY BOARD MEETING
December 4, 1991
10 am - Ramada Inn

Members Present:
Ken Decker          Connie Rhoton
Allen Dougherty     Peggy Rusek
Mitzi Holyfield     Judy Vicars
Myrtle Jessee       Jim Whiten
Brenda Lee          Katie Yates
Denny Moskal

Introductions
Peggy Rusek opened the meeting by making introductions and reviewing the minutes from the last meeting. She also welcomed the representative from Cypress Foote Mineral and invited them to join the partnership for this Project.

Personnel changes were then discussed. Susan Tinnon resigned as Project Coordinator after accepting a longer-term position at Northeast State Technical Community College. The coordinating position is currently in the process of being filled.

Updates
Mitzi Holyfield gave an update of the “Munch and Manage” seminars including total number of participants and the number of different companies represented. She also listed the topics covered and additional topics of interest on a flipchart. Cypress Foote expressed an interest in attending seminars on “Attitudes” and “Team Building.”

Connie Rhoton then explained the purpose of “Munch and Manage” and her enthusiasm about future seminars.

Mitzi then gave each member a copy of an “Interest Survey” from the Work and Family Institute which contained topics that were already developed and could be brought into the workplace. Connie stated that she only needed 1-2 days notice to conduct seminars on any of the given topics.
These surveys could be given to all employees if desired by management. Ken Decker and Allen Dougherty expressed an interest in getting enough surveys to pass out to all of their employees as soon as possible.

Denny Moskal and Brenda Lee expressed an interest in some more of the “Munch and Manage” type seminar, but more in depth. Connie and Peggy stated that they would try to set up one topic per month on a trial basis beginning in January. Allen Dougherty indicated an interest in an overview of certain topics related to necessary business practices (EDA, ADA, OSHA, etc.); several others agreed.

Peggy explained that the Needs Assessment had been completed in three industries and results had been received for one (Norris Trim). The results for PVRC is expected today, and Ramada Inn’s is expected shortly thereafter. Unfortunately VPI has taken longer than expected to send results due to budget cuts.

Scheduling training sessions will be flexible in order to meet the needs of the industry.

The Human Resources Development Office will also serve as a referral source for individuals who need assistance from other providers. One example would be the Dislocated Worker program. Unfortunately, Earline Lane (The Employment Company) was unable to attend the meeting, but will provide information on this program to those who are interested.

Break - Tour of Office/Computer Lab

Input from Business Partners
At this time, the Human Resources computer lab contains 10 IBM’s, 1 Panasonic Printer, 1 HP Laser Printer, 4 workstations, 4 computer chairs, and 2 printer stands. Six more workstations and 6 chairs have been ordered.

Plans for an orientation/open house are being made. This will probably be scheduled more than once beginning in January (11 am - 7 pm). The “Questionnaire to Assess Training Needs on Basic Skills” was given to each member and the purpose of this tool explained by Peggy. Each student will be asked to fill out one of the questionnaires during the orientation
sessions.

Allen Dougherty indicated an interest in career assessment tools. He also expressed a need for more information on courses at MECC; classes are sometimes too basic or not beneficial for the student.

Ideas are needed for marketing materials. Some strategies suggested were information booths, flyers, poster boards, and billboard ads.

Some software has already been ordered; such as, Wordperfect, Lotus 1-2-3, and DBase III. Brenda Lee expressed an interest in DBase IV for PVRC employees.

The Bottom Line
Each member was given a copy of The Bottom Line and asked to read it carefully to determine whether or not this type of approach would benefit their organization. Peggy went over the table of contents briefly and explained that the Human Resources office would follow up with each one at a later date to determine their thoughts about The Bottom Line approach.

Other
Other items discussed included the need to get a copy of the grant to Denny Moskal.

Closing Remarks
Peggy thanked everyone for attending the meeting and informed them that the next scheduled Advisory Board meeting would be March 4, 1992 at 10 am.
AGENDA

I. REVIEW OF LAST MEETINGS MINUTES

II. UPDATES
- Personnel
- New Partners
- New Introductions
- Hardware/Software
- Instruction/Training

III. THE BOTTOM LINE
- Areas Identified for Possible Literacy Audit
- Comments/Suggestions

IV. FUTURE PLANS
- Possible Extension of Time Period for Project
- Possible Expansion of Computer/Instruction Lab

V. OTHER
The meeting began with a review of the minutes from the last meeting. Peggy Rusek then introduced Mitzi Holyfield as the new Project Coordinator for the Human Resource Development Project and announced that an Office Services Assistant would be hired within the next month.

Cyprus Foote Mineral Company recently joined the partnership and has since been participating in ongoing training sessions.

Rae Addington discussed her role in the project. She is currently teaching several communications courses in the computer lab at the Ramada Inn. Connie Rhoton also talked about the various training projects she is involved in. She teaches communications, organizational effectiveness, team building, and several other customized training courses. Rebecca Scott talked about the work that Adult Basic Education has been doing with students on basic skills training and what is available to the students.

Allen Duffield, Coordinator of the Career Center at MECC gave a short presentation describing the Center and what it has to offer. He passed out various brochures which explained the programs available that can help provide current information on jobs.

An update was given on hardware and software and additional needs were discussed. The project plans to purchase seven additional computers, computer tables and chairs, and one additional printer for a second computer lab.

Peggy asked for any suggestions or comments on The Bottom Line. No suggestions/comments were made.

The subject of a six month no-cost extension of time for the project was brought up and all board members agreed that this would be a wonderful idea and to proceed with the request.

The meeting was adjourned at approximately 11 am.

Peggy Rusek
Debbie Speck

The meeting began with a review of the minutes from the last meeting. Mitzi Holyfield then introduced Debbie Speck as the new Office Services Assistant for the Human Resource Development Project. Ned Gadsby was then introduced as the new Plant Manager for Cyprus Foote Mineral.

Rae Addington discussed her role in the project. She is currently teaching Communicating with Computers, Communicating with Spreadsheets I, II, and Relational Database Communications. Myrtle Jessee then discussed her role. She is teaching the Basic Learning Skills class. Connie Rhoton also talked about the various training workshops she is conducting.

The project will be opening another computer/instruction lab at the Ramada Inn. The lab will be in Room 241. The lab will be opening as soon as all the equipment is received.

An update was given on hardware and software and additional needs were discussed.

Peggy Rusek distributed copies of a report from our external evaluator, Rex Adams. The report consisted of suggestions for the enhancement of the project. Peggy then asked for any comments concerning the report. The members agreed that some of the suggestions should be initiated.

The meeting was adjourned at approximately 11 am.

The meeting began with a review of the minutes from the last meeting. Mitzi Holyfield then introduced Natural Tunnel State Park as a new business partner under the current project and Lenowisco Planning District as a potential new partner under the current funding period.

Sue Ella Boatright announced that she would resume her duties as project director. Sue Ella was named as the director at the beginning of the project, but due to a heavy workload, she placed Peggy Rusek in this position until she could once again resume the duties as project director.

Mitzi informed everyone that the new computer/instruction lab in Room 241 is now open. Members were invited to tour the new lab following the meeting.

Mitzi also announced that staff development workshops will be held for staff and instructors. These workshops will be held to help put together a more individualized educational plan for students and to link all instruction together. These workshops will be provided by the Center for Literacy Studies. They will be held September 30, October 28, and November 11. The Center for Literacy Studies will also serve as consultants for the Human Resource Project.

The federal guidelines for the new project period (May 1993 – October 1994) were then discussed. Everyone was given a copy of the new provisions for training under the new funding period.
Myrtle Jessee gave an update on the Basic Learning Skills classes. Connie Rhoton also talked about the various training workshops she has been conducting and the upcoming course "Adventures in Attitudes".

The meeting adjourned at approximately 11:00 am.

Introductions

Peggy Rusek opened the meeting by making introductions and explaining that the grant was awarded May 1. Hopefully the program will improve the work and image of the Industrial Park, and will also encourage new industry in the park.

Grant (Role of Interagency)

Susie Tinnon made reference to the grant proposal in the packets each member received and explained the goals.

Susie described each person's role in the Workplace Literacy Program and made reference to Connie Rhoto's grant on page 4 of the proposal and explained how the Work & Family Institute will play a role. She also pointed out the benefits listed on page 7 for employers, employees, and the community. The Child Care Program will be one of the resources for employees in training.

Susie explained the importance of fulfilling the goals of the Plan of Operations. She also made reference to the flow chart on page 11 and explained how people would be working together. It is important to incorporate the evaluation plan into the training program from the very beginning. Human Resources is obligated to do a thorough and specific evaluation; hopefully we can expand the program and be even more specific as time goes on. Also, bringing in outside evaluators would be beneficial.

The budget gives an idea of how funds are allocated (the largest amount allocated being for instructional purposes.)

The role of the Interagency Council is spelled out in the grant proposal. This Council will be relied on greatly.
Needs Assessment

We hope to work together as a team for assessment, instructing, and providing. The Needs Assessment will be done first. The Needs Assessment tool is very thorough; not job/task specific, but it gives them the opportunity to express what type of training they want and what they feel they may need in the future.

We are currently conducting a Needs Assessment at Norris Trim and will be conducting the final phase on Monday, September 9. All employees will be given the assessment, and it will be their first opportunity to have specific information about the Human Resources Development Program. They will see that Management and MECC can provide opportunities for them. After completing the assessment, the information will be put together and sent to VPI to be evaluated and we will be given a synopsis of what type of training is needed and if a more in-depth study is needed. Although the Needs Assessment is time consuming, we cannot do training without it.

We plan to begin implementing Needs Assessments in other industries as soon as possible. Unfortunately, we cannot provide all the training that might be needed because the grant does not allow for certain areas of training.

Office Location

Hopefully, we will have the information as soon as possible. If space is not provided at the industries for training, space will be available at the Ramada Inn in rooms 243 & 245.

Closing Remarks

Presently, plans are for the Interagency Council to meet on a monthly basis; but it may possibly meet more often if needed and as information comes in. We will try to plan meetings a week in advance.

Susie expressed a desire to see participation from all the providers.

The meeting was adjourned at 10 am.

INTERAGENCY COUNCIL MEETING
November 25, 1991
10 am - Ramada Inn

Members Present:
Sue Ella Boatright  Mitzi Holyfield
Edna Compton       Earline Lane
Cecile Dingus      Peggy Rusek
Betty Finch        Katie Yates

Introduction
Peggy Rusek opened the meeting by introducing everyone and explaining their role in the Project. Sue Ella Boatright expressed her enthusiasm about the Project. Mitzi Holyfield then gave a brief review of the minutes from the last meeting.

Updates
Mitzi gave an update of the “Munch and Manage” seminars including total number of participants and the number of different companies represented. She also listed additional topics of interest that were indicated for future seminars.

Peggy gave an update on the computer lab and equipment. To date, we have received 10 IBM’s, 1 Panasonic Printer, 1 HP Laser Printer, 4 workstations, 2 printer stands, and 4 computer chairs. We have recently ordered 6 more workstations and 6 chairs.

Peggy then announced Susan Tinnon’s resignation as Project Coordinator and the fact that the coordinator’s position is currently in the process of being filled.

The assessment results have been received from Norris Trim and a training plan is currently being developed. The results from PVRC have not yet been received, but are expected back any day, and the employee surveys for Ramada Inn were sent to VPI last week.
Where do we go from here?
Peggy explained plans for an orientation and an open house for employers and employees and the desire to have the educational partners help host the event.

Ideas are needed for marketing the project. To date, an information sheet and brochures have been developed. Some other possibilities suggested were billboard advertisement, newsletter, newspaper, etc.

Cypress Foote Mineral has expressed a desire in becoming a partner in this project and has been invited to join us at the upcoming Advisory Board meeting. Edna Compton expressed her feeling that Pak-Mor may also benefit from this project.

Peggy asked for input on hardware/software needs. Katie Yates explained that she already has some materials to review for possible use in this project. Earline Lane stated that she too has materials that can be reviewed for this same purpose. The business partners will be asked to give an indication of their needs at the upcoming Advisory Board meeting.

Closing Remarks
Peggy expressed her thanks to everyone attending the meeting and reminded them of the Advisory Board meeting on December 4 at 10 am.
AGENDA

IV. DATE LINES
INTERAGENCY COUNCIL MEETING
JANUARY 21, 1992
10 AM

Members present:
Edna Compton
Betty Finch
Mitzi Holyfield
Connie Rhoton
Peggy Rusek
Rebecca Scott
Francine Sowards

The meeting began with a review of the minutes from the previous meeting. An update was given on the equipment that had been received and equipment still on order.

Cyprus Foote Mineral had just recently joined the partnership as a new partner and plans were being made to conduct a needs assessment for their company.

Assessment reports had been received for Pepp V a, Ramada Inn, and Norris Industries.

Organizational effectiveness training was being planned for Pepp V a, Ramada Inn, and Norris Industries.

Each member of the Interagency Council was given a copy of the survey/evaluation forms to be used in the project for review.

Rebecca Scott suggested doing an information booth at Norris Industries on January 29 from 11 am - 4 pm and at Ramada Inn on February 4 from 2 pm - 4 pm. Everyone agreed that this was a good way to promote the program. Also, an open house was planned for Thursdays beginning February 6 from 9 am - 4 pm.

Francene Sowards showed everyone the materials she had brought for use in the project. Edna Compton also brought examples of the books she used for review for possible use in this project.

Peggy Rusek explained that date lines under this project were composed as needed.

The meeting was adjourned at approximately 11 am.

OTHER SUGGESTIONS OR COMMENTS
The meeting began with the introductions of Debra Speck as the new Office Services Assistant. A review of the minutes from previous meeting followed.

A needs assessment has been conducted for Cyprus Foote Mineral. The information has not yet been received.

We are currently offering the following classes: 3 Communicating with Spreadsheets I, 1 Communicating with Spreadsheets II, 1 Communicating with Computers, Basic Skills on Mondays & Wednesdays with four new students from Joy Technologies, & Relational Database Communications will begin on April 28. Programmable Computers will begin the second week of May for Norris.

Mitzi Holyfield suggested that we find a way to encourage employees to attend Basic Skills courses.

Connie Rhoton is working on a Career Development program for Joy Technologies.

An update was given on the equipment, software, & other materials received and those still on order.

We will be getting another room to expand our computer lab.

It looks as though our project will be extended until May of 1993. We will be reapplying for the grant this summer.

The meeting was adjourned at approximately 11:00 am.
The meeting began with a review of last month’s minutes.

The needs assessment report has been received for Cyprus Foote Mineral. A date has not yet been set for doing a needs assessment for Buster Brown and Joy Technologies.

Myrtle Jessee informed everyone that the Basic Learning Skills class has gone from 3 students to 14. More students can be added once the second computer lab is opened.

A Communicating with Computers class will begin Thursday, June 11, 3:30 - 5:00 for Norris Trim. Another Communicating with Spreadsheets I class will begin for Penn VA as soon as the present class ends. The class times will be Tuesdays, 3:00 - 5:00, and Fridays, 2:30 - 4:30.

The Career Development program for Joy Technologies will begin on June 4.

Rae Addington stated that an interest for a Word Perfect class has been expressed by several students.

A discussion was held concerning the enrollment of family members. It was decided that only spouses of employees may attend. Then, only if there is space available.

Mitzi Holyfield stated that documentation showing how classes are tied into students’ jobs must be placed into each student folder.

An update was given on the equipment, software, & other materials received and those still on order.

The meeting was adjourned at approximately 11:00 am.

Debbie Speck

The meeting began with a review of last month's minutes.

A training update was given. Mitzi informed everyone that we were looking into getting Edna Compton to help with the Basic Skills classes.

Mitzi informed everyone that the formal writing for the grant extension has been received.

The guidelines for the new grant were discussed. The project has added three new Business Partners: Lenowisco, Duffield Adult Residential Center, and Ridgecrest Manor Nursing Home. Also, under the new grant, childcare services and educational counselling may be provided.

The importance of course documentation in each student's file was discussed. The documentation must be of job specific content.

Mitzi also informed everyone that our project office must be notified of any changes in training, whatsoever, before the class meets.

Our new computer/instruction lab will open as soon as the surge protectors arrive.

An update was given on the equipment, software, & other materials received and those still on order.

The meeting was adjourned at approximately 11:00 am.

INTERAGENCY COUNCIL MEETING
SEPTEMBER 21, 1992
10 AM

MEMBERS PRESENT
RAE ADDINGTON
MITZI HOLYFIELD
CONNIE RHOTON
DEBBIE SPECK

The meeting began with a review of last month's minutes.

Plans for staff development were then discussed. The staff development will be provided by the Center for Literacy Studies from the University of Tennessee. The first workshop will be held September 30, 1992, the second on Oct. 28, 1992, and the third on Nov. 11, 1992.

Mitzi informed everyone that we will be looking at ways to revise the forms used by the project. This will reduce the amount of paperwork having to be done by each student.

New guidelines for training have been implemented. Students must attend 80% of classes to receive a certificate and a pass grade. If students must withdraw from class, this must be done before one-third of the class has been completed. Instructor’s will notify students of the date for which drop forms must be completed.

Mitzi then discussed her trip to the National Workplace Literacy Conference in Washington, DC, Sept. 9-11.

Upcoming events were then discussed. Connie Rhoton will be conducting training for Cyprus Foote Mineral. This training is called “Managing Your Own Behavior”. Starting October 19, 1992, she will be conducting “Adventures in Attitudes” for all companies in the industrial park. She will also be conducting three LUNCH AND LEARN workshops on the topic “MOTIVATING OTHERS”. The first workshop will be held Tuesday, Nov. 3, 1992, 12:00 – 1:15 pm. November 10, and November 17 will be the next two workshop dates.

Mitzi also informed everyone that an information booth will be set
up at Buster Brown Apparel on September 23, 1992. This information booth will be to generate interest in the project within the company.

The meeting was adjourned at approximately 11:00 am.
Partners' Agreement

As authorized representatives of our organizations, we agree on their behalf to the following terms with respect to our application number V 198 A as a condition of applying for and receiving a grant from the National Workplace Literacy Program. We:

A QUESTIONNAIRE TO ASSESS TRAINING NEEDS ON BASIC SKILLS

Employee's Name ____________________________________________

Job Title __________________________________________________

Supervisor's Name __________________________________________

Date ______________________________________________________

Directions to the Employee: The purpose of this questionnaire is to assess your training needs. It will not be used to evaluate the worth of your job or your performance. Feel free to answer it honestly. If you have trouble completing it, ask us to help you.

Please complete Parts I and II and then give the questionnaire to your supervisor so he or she can then complete Part III. Then arrange for a follow-up meeting with us in MECC's Human Resource Development Office at Duffield Ramada Inn - Room 245 or call us (703) 431-4543, to meet with you at your work site.

Directions to Supervisors: Use this questionnaire to identify areas in which this employee should receive training or education to improve his or her abilities to learn the present job, continue to perform the job competently, maintain his or her skills in light of changing job conditions, and prepare for advancement.

Please review the employee's portions (Parts I and II). Then complete Part III and forward the completed questionnaire to us in the MECC Human Resources Development Office at Duffield Ramada Inn - Room 245 or call us (703) 431-4543, to pick it up at your work site.

There are no absolutely "right" or "wrong" answers. Your answers will be kept strictly confidential and will be shared only with your supervisor and with a representative of the Training Department. It will be used to assess your basic skills training needs.
### A QUESTIONNAIRE TO ASSESS TRAINING NEEDS
(Continued)

#### Part III.
Present Job Needs

*Directions to the Supervisor:* This Part is to be completed by the supervisor. For each activity listed in the left column below, circle a number in the center column indicating how important it is to have competent performance in the employee's present job. Use the following scale:

1. Very little importance
2. Little importance
3. Some importance
4. Great importance
5. Very great importance

Then circle a number in the right column indicating how much you feel the employee needs training to improve this ability. Use the following scale:

1. Very little need for training
2. Little need for training
3. Some need for training
4. Great need for training
5. Very great need for training

There are no absolutely "right" or "wrong" answers. Your answers will be kept strictly confidential and will be shared only with the employee and with a representative of the Training Department. It will be used to assess the employee's basic skills training needs.

STAT—Seven Through Adult Tutorsystems® Basic Skills Series

EIGHT YEARS growth - reading, math, and grammar in only 200 HOURS!

"Following completion of one of the BLS Tutorcourses at an assigned level, our students' test scores are reflecting at least a 2.0 grade level increase, most times greater...We find we are relying on it more and more because of these results achieved in a shorter period of time."

Betty A. Kelsey, Principal
Northpoint Training Center
Adult Learning Center
Burgin, KY

"We use the TABE test here at Wallace State, and I believe the BLS Tutor system is well coordinated with that particular test. Not only did our ABE/GED students use the system, but several college students in developmental mathematics classes used it as well. These students really made noticeable advances."

Renee Quick, Tutorial Lab Supervisor
Wallace State Community College
Hanceville, AL

"Using the BLS software in private industry in my workplace literacy program at General Motors, I have found the reading comprehension, mathematics, and grammar software to quickly and effectively prepare students for the high school equivalency examination. It is a thorough, straightforward program guaranteed to provide the skills required to upgrade ABE skills and to pass the GED tests."

Louise Ruslander, Adult Education Instructor
Ken-Ton Schools - GM-CPC
Kenmore, NY

SERIES OVERVIEW

The BLS STAT basic skills series was designed in cooperation with CTB/McGraw-Hill to provide an intensive review and remediation of basic skills for adults of limited educational background. The series requires a 4th grade entry reading level.

The ten courses in the integrated instructional system cover reading, math, and grammar, and offer fast results with GED, ABE, high school competency, workplace literacy, college remediation, and high school dropout prevention. Lessons reflect the language and interest of adults. From fourth grade entry reading level skills, learners can achieve high school competency in reading, math, and grammar (eight years growth) in as little as 200 hours.

Programs in the series are correlated with standardized tests which make accurate lesson placement fast and easy. Lessons automatically adapt to the student's progression and comprehension by the use of logical branching sequences; correct responses move the student forward through the lesson, while incorrect responses lead the student to supplemental information and an explanation of the error. Immediate feedback is provided for all responses. Student manuals and reproducible student worksheets are provided for kinesthetic reinforcement and skill transfer to the printed page. There is a short test at the conclusion of each lesson. This ensures the student's mastery of the material before allowing the student to proceed to the next lesson. Student recordkeeping is automatically maintained by way of a student record management system.

The series can be purchased for standalone use or for use on Novell or NetBIOS networks, or with ICLAS installers. The BLS STAT basic skills series is being used successfully in many programs including several statewide adult education initiatives (all 58 of Missouri's JTPA Adult Ed Centers, all 14 of Missouri's state prisons, all 10 of Kentucky's state prisons, etc.). The series is also used for workplace literacy by DuPont, GM, Ford, Chrysler, etc.

Call your local dealer or 1-800-545-7766 for a FREE Basic Skills Proposal containing standardized test correlations, or to arrange a preview.

STAT COMPLETE SERIES

All ten courses—4 Reading, 4 Mathematics, 2 Grammar—course documentation, student manuals, and reproducible student worksheets:

Single Copy: Order No. BLSAE $6,199.50
MS-DOS Network: Order No. BLSAE-N $18,598.50
Quick and positive results with GED, ABE, high school
competency, workplace literacy, college remediation, and
dropout prevention can be gained with the BLS Seven
Through Adult Reading Tutorcourse. It consists of four
Tutorcourses which logically progress in reading level from
third grade upward. Each Tutorcourse is designed by BLS
to provide a solid foundation in essential reading skills, and
is presented in a life-oriented context.

Use the entire BLS Seven Through Adult Reading
Tutorcourse as a comprehensive learning environment, or
design your own system by integrating the Tutorcourse
components best suited to your application. The modular
Tutorcourses structure enables you to provide the most
effective learning to adult students with diverse skills.

Each BLS Tutorcourse provides instruction in the
fundamentals of reading, including vocabulary skills,
interpretations, reference skills and following directions.
Throughout each Tutorcourse, students are introduced to
additional concepts and skills which build upon their prior
knowledge.

TUTORCOURSE BLS100R

The BLS100R course was designed by CTB/McGraw-Hill
to provide intensive review of basic reading skills for
traditional adult students. Basic skills are presented in
a life-oriented context. Each program has been carefully
reviewed to make certain that fair and balanced representation
was given to women and members of ethnic minority
groups. The complete course contains 6 programs, and
provides 12-24 hours of instruction.
Order BLS100R $549.95 12 disks

FOLLOWING DIRECTIONS

The first section of Following Directions BLS100RA emphasizes the interaction of
directional concepts. Students follow directions to interpret points of the compass
and to clearly establish mastery of the concepts of right and left. Many exercises
in this program employ the symbols found in the alphabet, numerical symbols, and
monetary symbols. Students follow the correct procedure to follow when
telephoning in case of fire or danger. They are required to interpret and make
simple calculations using money. Students figure amounts and discounts on a set
of stairs. In the last section of this program, emphasis is placed on the logical
sequence of directions as applied to filling out a form, taking a bath, preparing a
meal, and using a cleaning product. Students must then accurately interpret a
table in order to answer questions concerning type size for printing.
Order BLS100RA $99.95 2 disks

REFERENCE SKILLS

In Reference Skills BLS100RB, the student is shown that everyone has a need for
information and that there are many kinds of reference materials. The
identification and recognition of standard reference materials as well as other
reference aids are the subjects of many exercises. Other exercises teach the
student to identify parts of books. Alphabetical order is discussed. Graphs and
flow charts make up the latter part of the program. The presentation is simple, but
no attempt is made to avoid the use of basic subject matter terminology. Such
terms are clearly explained.
Order BLS100RB $99.95 2 disks

The entire BLS Seven Through Adult Reading
Tutorcourse was designed in cooperation with CTB/
McGraw-Hill to assure educational effectiveness. Going
beyond simple drill and practice, BLS Seven Through
Adult Tutorcourses provide the comprehensive
instructional support you need:

- correlations to TABE and CAT standardized
tests
- teaching guides—to promote effective use of the
course
- student manuals and worksheets—to support
  the tutorial diskette with kinesthetic activities
- recordkeeping—to track individual student answers
- mastery tests—to measure student mastery of
  lesson objectives
- answer keys—for accurate analysis of student
  performance

The BLS STAT Reading Package provides a consistent,
inTEGRATIONS I

Accounts of historical and actual situations provide the basis for Interpretations I,
BLS100RC. Short paragraphs and stories describe realistic situations and require
the students to apply basic reading interpretation skills: the identification of word
meaning and determination of main idea and author's purposes. A few of the
more advanced reading skills are introduced and described in simple language.
Students learn to: recognize the logical organization of written material; make
inferences and distinguish between fact and opinion and fiction and nonfiction.
Order BLS100RC $99.95 2 disks

INTERPRETATIONS II

Improvement of the basic reading interpretation skills presented in Reading
Interpretations I, BLS100RC is the goal of this program. Informative articles,
aecdotes, and short stories provide the framework for study. Emphasis is placed
on the skill of inferring information from material read. Students learn to
differentiate between humorous, informative, and persuasive types of writing.
Students also learn to read critically, making distinctions between fact and opinion,
and noticing that opinions may be stated as fads. Students are made aware that
readers must learn to judge as well as interpret what they read, hear, and see.
Order BLS100RD $99.95 2 disks

continued on following page
TUTORCOURSE BLS100R (continued)

VOCABULARY SKILLS

(Continued)

Vocabulary Skills BLS100RE, students are taught to discover word meanings by: analyzing simple word parts; recognizing synonyms, antonyms, and homonyms; and using direct definition context clues. Students solve a crossword puzzle of synonyms. Two fundamental dictionary skills are practiced: finding words in alphabetical lists and choosing multiple meanings in a (fictional, /entry.

The BLS200R course was designed by OTB/McGraw-Hill to provide intensive review of basic reading skills for remedial adult students. Basic skills are presented in a life-oriented context. Each program has been carefully reviewed to make certain that fair and balanced representation was given to women and members of ethnic minority groups. The complete course consists of 6 programs, and provides 14-28 hours of instruction.

Order BLS100RE $99.95 2 disks

TUTORCOURSE BLS200R

Each program has been carefully reviewed to make certain that fair and balanced representation was given to women and members of ethnic minority groups. The complete course consists of 6 programs, and provides 14-28 hours of instruction.

Order BLS200R $94.95 14 disks

FOLLOWING DIRECTIONS

After introductory lessons have pointed out the necessity of following instructions precisely, students must follow directions as they work with Roman numerals, execute a simple design, trace a person's walk through a city, and prepare a rent receipt and a savings withdrawal slip. Students must follow a recipe, work out problems, apply arithmetical operations to a nonarithmetical assignment, and analyze a set of photographs in order to ascertain compliance with, or deviation from, given directions.

Order BLS200FA $99.95 2 disks

REFERENCE SKILLS

Library facilities and services are presented in detail in this program. The student is introduced to the basic types of reference materials and learns how to choose the one most appropriate for a specific need. The program deals with filing systems and the Dewey Decimal Classification System, the card catalog, call numbers, and the placement of books in the stacks. There are also lessons on graphs, map reading, and the practical use of a book index.

Order BLS200FB $149.95 3 disks

INTERPRETATIONS I

In the Interpretations 200RC program, students interpret series of paragraphs relating to science. Facts about earthworms, hiking near the timberline, whales, and the moon are presented in paragraph form. A number of lessons require students to identify facts and then to draw inferences from these facts. Students learn to define unfamiliar terms by paraphrasing of information contained in written passages and must complete paragraphs and select titles on the basis of relevance to the contents of a passage. Students study inferences, identify and study the turning point of a story, and learn about the subjective nature of personal expression. Students imagine themselves in certain situations and then evaluate reactions to given situations.

Order BLS200RD $149.95 3 disks

VOCABULARY SKILLS

Students make slightly more complex word analyses in this program than they do at the 100 level. Students learn to identify synonyms, antonyms, homonyms, and compound words in order to use them to find word meanings. Students learn to read commas as punctuation signals for word meaning and to apply direct definition clues. Students are also taught how to use a dictionary effectively to: determine word pronunciation, spelling, and definition; find synonyms for a word; and learn the different shades of meaning attributed to a word. The program contains two crossword puzzles. One provides practice in using antonyms, the other in building words from a common root.

Order BLS200RE $99.95 2 disks

PHONIC ANALYSIS

Knowing the sounds that letters stand for increases one's ability to learn unfamiliar words. Phonic Analysis BLS100RF introduces students to the fundamentals of the English language that determine how words are pronounced. Students learn to identify vowels and consonants. Rhyming words are used to teach the sounds found at the end of words. Patterns for sounds are investigated; for example, students study the silent e and hard and soft c, and the difference between initial, medial, and final vowel sounds. Digraphs are explained along with two- and three-letter blends. Students learn to identify syllables and to recognize where stress is placed in a word. There is also an explanation about r-controlled vowels. Students are alerted to the fact that phonic patterns are not the sole determinant of the pronunciation of words, but that they must be used in combination with clues found in the context of sentences.

Order BLS100RF $99.95 2 disks

Reading 200

Reading Level: 5-6
Interest Level: 7-Adult
Available for: Apple 64K IBM 256K

INTERPRETATIONS II

General interest descriptions are presented for analysis: a city park, a country scene in summer, a city at night, a personal reaction to a play, and a public speaking experience. Successful interpretation of these passages requires students to examine figures of speech, opinions, and differing points of view. At this level, students must identify accurate paraphrases of information contained in written passages and must complete paragraphs and select titles on the basis of relevance to the contents of a passage. Students study inferences, identify and study the turning point of a story, and learn about the subjective nature of personal expression. Students imagine themselves in certain situations and then evaluate reactions to given situations.

Order BLS200RF $149.95 3 disks

VOCABULARY SKILLS

Students make slightly more complex word analyses in this program than they do at the 100 level. Students learn to identify synonyms, antonyms, homonyms, and compound words in order to use them to find word meanings. Students learn to read commas as punctuation signals for word meaning and to apply direct definition clues. Students are also taught how to use a dictionary effectively to: determine word pronunciation, spelling, and definition; find synonyms for a word; and learn the different shades of meaning attributed to a word. The program contains two crossword puzzles. One provides practice in using antonyms, the other in building words from a common root.

Order BLS200RE $99.95 2 disks

STRUCTURAL ANALYSIS OF WORDS

Structural Analysis of Words introduces students to word parts that have meaning or that change the meaning of words. Students learn to divide words into units of sound and into units of meaning. Compound words are explained, and accents as guides to the recognition of compound words, are studied. Students study inflectional endings by learning to distinguish between contractions and possessives. A major portion of the program teaches students to determine word meaning by analyzing roots, prefixes, and suffixes. The students learn to construct words using their acquired knowledge of these word parts. Throughout the program, students are encouraged to use dictionaries as guides to word analysis and meaning.

STAT—Seven Through Adult Tutorsystems®

Raise Your Reading Level—STAT!
Raise Your Math Level—STAT!
Raise Your Grammar Level—STAT!

(*Stat. On a prescription: immediately.)
The BLS300R course was designed by CTB/McGraw-Hill to provide intensive review of basic reading skills for remedial adult students. Basic skills are presented in a life-oriented context. Each program has been carefully reviewed to make certain that fair and balanced representation was given to women and members of ethnic minority groups. The complete course contains 5 programs, and provides 13-26 hours of instruction. Order BLS300R $599.95 13 disks

FOLLOWING DIRECTIONS

Most of the material in this program is patterned after actual printed forms, instructions, and applications. Introductory lessons teach a few guidelines for following oral and written directions. Then students work through several procedures that point out the logical sequence of directions. Students apply instructions to identify a pattern of stars, interpret and use directional symbols, use a telephone, and do the laundry. Students follow instructions for writing addresses, using zip codes, reading bus schedules, and filling out income tax return forms and bank checks. Order BLS300RA $99.95 2 disks

REFERENCE SKILLS

The kinds of information available in English dictionaries are presented in carefully sequenced lessons. The student is shown the various ways in which the dictionary can be used most effectively. About half of the program deals with "critical marks, parts of speech, and irregular verbs. Other lessons concern words, syllabication, definitions, homographs, homonyms, synonyms, and antonyms. Order BLS300RB $149.95 3 disks

INTERPRETATIONS I

This Reading Interpretations program emphasizes the importance of determining meaning by contextual analyses. Students must define words and determine the meaning of sentences as they are used in various contexts. A discussion of progress in the United States, an account of three persons racing up a hill, a detailed description of a person buying a used car, and a review of the facts surrounding the arrival of the first English colonists on the North American coast are all to be interpreted by the student. The language level is more advanced, and the sentence and paragraph structure more complex than in the Level 200 programs. Students must learn to paraphrase dictionary definitions of words, identify key structures in paragraphs, and draw inferences that require careful examination of written material. Students are required to imagine themselves in a given situation in order to determine a fictional character's probable motive for action. Students are asked to determine authors' intentions, to make reasonable conjectures based on their interpretations of certain reading material, and to relate effect to cause. Order BLS300RC $149.95 3 disks

INTERPRETATIONS II

Relevant topics of discussion furnish interesting material for this Reading Interpretations study. Students apply skills learned in Interpretations I to interpret complex reading material similar to that which they might encounter in their daily activities. The contents of the program include an article describing a reforestation project, an article describing an urban housing project, a personal letter containing advice about job interviews, an article explaining the facts of traffic flow on the streets and highways of the United States, and two letters to the editor that discuss a proposed solar energy program. Students practice identifying word meanings by contextual analyses, identifying key sentences of paragraphs, and making judgements and inferences based on given information. Students learn to use the context of a passage as a clue for determining the intention of an author. Emphasis is placed on the need for reading critically. Students make judgements and study subtle distinctions between fact and opinion. Students must identify opinion words as fact and be able to recognize facts even when presented in sentences that also express opinions, judgements, and beliefs. Order BLS300RD $149.95 3 disks

VOCABULARY SKILLS

At this level, students practice detailed word analysis by identifying roots, prefixes, and suffixes, and using these to form words. Students practice using word analysis skills by solving a crossword puzzle of words relating to financial matters. The second major portion of the program teaches accurate use of context clues to determine word meaning. Students practice identifying and analyzing key words and phrases, punctuation signals and direct definitions, and synonyms and antonyms. One crossword puzzle is solved with words found on job application forms and savings and checking account forms. Students are required to identify figurative expressions and to determine their meaning in a given context. The final section of this program teaches the students to use dictionaries to identify parts of speech, word derivations, and shades of meaning. Order BLS300RE $99.95 2 disks

"During the past year, I have had the opportunity to field test and evaluate all of the reading, mathematics, and language components of the BLS Tutorsystems program. I found that this program provides an excellent concentrated review of the basic skills which are necessary for successful completion of the GED. The program's format is easily understood; each instructional objective is clear and concise and presented in an effective manner. BLS is definitely "user friendly"...In summary, all of the adult students, regardless of the level at which they were working, expressed positive comments about this program. Each felt that the material was relevant and interesting. It was very gratifying to me as an instructor to watch the students' self-esteem and confidence grow as they mastered each concept."

Jan West, Adult Learning Center Instructor Itawamba Community College Tupelo, MS
The BLS400R course was designed by CTB/McGraw-Hill to provide intensive review of basic reading skills for remedial adult students. Basic skills are presented in a life-oriented context. Each program has been carefully reviewed to make certain that fair and balanced representation was given to women and members of ethnic minority groups. The complete course contains 5 programs, and provides 14-28 hours of instruction.

Order BLS400R $649.95 14 disks

INTERPRETATIONS I

Skills studied at the lower levels are applied to advanced topical material in interpretations I BLS400RC. Excerpts from The Sea Around Us by Rachel L. Carson and from Walden by Henry D. Thoreau are bases for lessons on inference, implication, cause and effect, metaphor, and paraphrasing. An advertisement is used to introduce analysis of literature intended to influence. Fact and opinion are examined in relation to persuasive writing. Students are asked to analyze sentences and paragraphs to determine their verifiable content. They examine a poem by Carl Sandburg in terms of structure, symbolic relationships, mood, and concise meaning in poetic expressions.

Order BLS400RC $149.95 3 disks

INTERPRETATIONS II

Material in this program is designed to challenge the student and stimulate an awareness of critical thinking skills. Skills taught at the 300 level (paraphrasing; making inferences; identifying implications, points of view, and organization of material) are applied to advanced contexts. Letters revealing contrasting attitudes toward a home situation provide vehicles for lessons on figurative language, logical deduction, formal versus informal communication, and interpretation of character motive and attitude. Students have occasion to express their opinions based on their conclusions. In an examination of a scientific article about the amazing ability of two brothers, students become familiar with logical organization of factual material, tone and mood, fact versus opinion, and internal evidence for conclusions. The final section of the program introduces the study of propaganda. Students are taught to search out the real message in what they read, hear, or see. Short paragraphs, advertisements, and commercials provide the basis for the study of the most common techniques of persuasion.

Order BLS400RD $149.95 3 disks

VOCABULARY SKILLS

In Vocabulary Skills 400, emphasis is placed on the tools for analyzing words and their use. Much information is introduced in each lesson, and there is less review than contained in levels 100, 200, and 300. Students make more subtle analyses of words in context than they do at the 300 level. Several major prefixes, roots, and suffixes are introduced for the students' information. Students must define words by context clues—words and phrases that surround an unfamiliar word, punctuation, and comparisons and contrasts made within the paragraph. In the final portion of this program, the focus is on word imagery and word usage. Students are required to identify words that fit the tone and mood of a passage. They also analyze the connotative meanings of words and practice identifying words and phrases intended to influence the reader or listener. An advertisement is used to explain the necessity of reading critically to find a purpose that is often hidden behind carefully chosen words.

Order BLS400RE $149.95 3 disks

"I just wanted to let you know how much I am enjoying using the software with my students. It has been very easy for the students to read and follow directions. It has also been a great asset in helping our students attain knowledge and skills necessary to master the GED. I would highly recommend this Tutorsystem to school districts, service providers, community based organizations, and others who operate basic education programs. We plan to order more software next year to better serve our students."

Ronnie Johnson, JTPA Coordinator
Ross Collins Vocational Center
Meridian, MS
Quick and positive results with GED, ABE, high school competency, workplace literacy, college remediation, and dropout prevention can be gained with the BLS Seven Through Adult Grammar Tutor system. It consists of two Tutorcourses which logically progress in reading level from fifth grade upward. Each Tutorcourse is designed by BLS to provide a solid foundation in essential grammar skills, and is presented in a life-oriented context.

Use the entire BLS Seven Through Adult Grammar Tutor system as a comprehensive learning environment, or design your own system by integrating the Tutor system components best suited to your application. The modular Tutor systems structure enables you to provide the most effective learning to adult students with diverse skills.

Each BLS Tutorcourse provides instruction in the fundamentals of grammar, including sentence patterns, capitalization, punctuation, and spelling. Throughout each Tutorcourse, students are introduced to additional concepts and skills which build upon their prior knowledge.

**TUTORCOURSE BL3200G**

The BL3200G course was designed by CTB/McGraw-Hill to provide intensive review of basic grammar skills for remedial adult students. Basic skills are presented in a life-oriented context. Each program has been carefully reviewed to make certain that fair and balanced representation was given to women and members of ethnic minority groups. The complete course contains 5 programs, and provides 15-30 hours of instruction.

Order BL3200G $699.95 15 disks

**SENTENCE PATTERNS**

The content of this program is divided into three parts. The first part is about sentence structure: proper sentence construction, parts of simple sentences, subject-predicate patterns, the identification of subjects and a discussion of types of subjects, and the identification of complete sentences. The second part covers verbs: the identification and use of predicates, distinctions between action verbs and auxiliary verbs, and the identification of simple subjects and simple verbs. The last part explains the identification of the four kinds of sentences.

Order BL3200GA $149.95 3 disks

**VERBS, MODIFIERS & PRONOUNS**

This program reviews verbs, modifiers, comparative forms, adverbs, and pronouns. Special attention is given to auxiliary verbs and irregular verb forms, the definition and description of adjectives and articles, prepositions and prepositional phrases, and functions of pronouns.

Order BL3200GB $149.95 3 disks

**CAPITALIZATION**

This program gives special attention to: the rules of capitalization; the function of capital letters in sentences; the capitalization of specific places and geographical names; and the capitalization of languages, proper nouns, literary titles, days of the week, months, holidays, historical events, and documents.

Order BL3200GC $149.95 3 disks

**PUNCTUATION**

In Punctuation 200, the student is led through a review of punctuation—periods, question marks, and exclamation points. The punctuation of abbreviations, quotations, and titles is studied, and practice with commas and apostrophes is provided.

Order BL3200GD $149.95 3 disks

**SPELLING**

This program reviews alphabetical order and the sounding out of words. Short and long vowel sounds are covered as well as the letter y as a vowel. Included are lessons on consonant blends and the hard and soft sounds of the letters g and c.

Order BL3200GE $149.95 3 disks
The BLS300G course was designed by CTB/McGraw-Hill to provide intensive review of basic grammar skills for remedial adult students. Basic skills are presented in a life-oriented context. Each program has been carefully reviewed to make certain that fair and balanced representation was given to women and members of ethnic minority groups. The complete course contains 5 programs, and provides 18-36 hours of instruction.

**Order BLS300G**

$849.95 18 disks

**Sentence Patterns**

Like the preceding program, BLS200GA, Sentence Patterns 300 is divided into four parts: (1) sentence patterns; (2) nouns; (3) verbs, adjectives, and adverbs; and (4) active and passive voices.

**Order BLS300GA** $199.95 4 disks

**Verbs, Number & Case**

The subject matter reviewed in this program includes passive verb construction and gerunds, verb tenses (past and present participles, progressive forms, and irregular verbs), number (the formation of plurals for both regular nouns and irregular nouns and the agreement of subject and verb), and case (in relation to pronouns, singular and plural forms, the nominative case, the objective case, and the possessive case).

**Order BLS300GB** $199.95 4 disks

**Capitalization**

This program continues, at an advanced level, the work begun in Capitalization 200. Among the topics covered are the rules and conventions for capitalizing: proper nouns; personal titles; days of the week and holidays; historical periods and events; titles of books, stories, and songs; and names of specific places and geographical names. Students are introduced to proofreading as a means of checking capitalization.

**Order BLS300GC** $149.95 3 disks

**Punctuation**

In this program, punctuation is treated on an advanced level. Lessons demonstrate the use of punctuation at the end of sentences, in direct and indirect quotations, within quotation marks, in direct address, in parenthetical expressions and appositives, in letter writing and addresses, in word series and in contractions.

**Order BLS300GD** $199.95 4 disks

**Spelling**

Silent letters, vowel sounds, and consonant sounds are reviewed in this program. Word parts—roots, prefixes, and suffixes—are also reviewed. In addition, there are several lessons with helpful spelling hints to apply to words commonly misspelled due to extra letters, double letters, missing letters, irregular plurals, two-word phrases, and reversal of letters.

**Order BLS300GE** $149.95 3 disks

**STAT MATHEMATICS**

Quick and positive results with GED, ABE, high school competency, college remediation, and dropout prevention can be gained with the BLS Seven Through Adult Mathematics Tutorcourse. It consists of four Tutorcourses which logically progress in reading level from third grade upward. Each Tutorcourse is designed by BLS to provide a solid foundation in essential mathematics, and is presented in a life-oriented context.

Use the entire BLS Seven Through Adult Mathematics Tutorcourse as a comprehensive learning environment, or design your own system by integrating the Tutorcourse components best suited to your application. The modular Tutorcourse structure enables you to provide the most effective learning to adult students with diverse skills.

Each BLS Tutorcourse provides instruction in the fundamentals of mathematics including addition, subtraction, multiplication, division, and mathematical concepts and applications. Throughout each Tutorcourse, students are introduced to additional concepts and skills which build upon their prior knowledge.

The entire BLS Seven Through Adult Mathematics Tutorcourse was designed in cooperation with CTB/McGraw-Hill to assure educational effectiveness. Going beyond simple drill and practice, BLS Seven Through Adult Tutorcourses provide the comprehensive instructional support you need:

- correlations to TABE and CAT standardized tests
- teaching guides—to promote effective use of the course
- student manuals and worksheets—to support the tutorial diskette with kinesthetic activities
- recordkeeping—to track individual student answers
- mastery tests—to measure student mastery of lesson objectives
- answer keys—for accurate analysis of student performance

The BLS STAT Mathematics Package provides a consistent, integrated learning environment that will enhance the results and effectiveness of your overall mathematics education program for adults.
TUTORCOURSE BLS100M

The BLS100M course was designed by CTB/McGraw-Hill to provide intensive review of basic mathematics skills for remedial adult students. Basic skills are presented in a life-oriented context. Each program has been carefully reviewed to make certain that fair and balanced representation was given to women and members of ethnic minority groups. The complete course contains 5 programs, and provides 12-24 hours of instruction.

Order BLS100M $549.95 12 disks

ADDITION

The simple addition of whole numbers having up to four digits is covered in the first program of the addition series. “Carrying” is introduced, and the importance of regrouping is stressed. The last part of the program deals with adding dollars and cents, common fractions, mixed numbers, and decimals.

Order BLS100MA $149.95 3 disks

SUBTRACTION

In this program, students are required to subtract two-, three-, and four-digit numbers and money. Regrouping is introduced. Various difficulties in subtraction are explained in a number of lessons. Basic work with fractions and mixed numbers, with and without simplifying, is reviewed. Decimal fractions are introduced.

Order BLS100MB $99.95 2 disks

MULTIPLICATION

This program covers multiplication of one-, two-, and three-digit numbers, as well as problems involving carrying and the numeral zero. The student is introduced to the terms “factor” and “product.” Other work includes multiplying money and decimals.

Order BLS100MC $99.95 2 disks

TUTORCOURSE BLS200M

The BLS200M course was designed by CTB/McGraw-Hill to provide intensive review of basic mathematics skills for remedial adult students. Basic skills are presented in a life-oriented context. Each program has been carefully reviewed to make certain that fair and balanced representation was given to women and members of ethnic minority groups. The complete course contains 5 programs, and provides 12-24 hours of instruction.

Order BLS200M $549.95 12 disks

ADDITION

This program covers addition of two-, three-, and four-digit whole numbers, money, proper and improper fractions, mixed numbers, and decimal fractions (up to hundredths). The work with fractions includes adding three mixed numbers containing like and unlike fractions, and “carrying.” Other lessons require the student to express pairs of unlike actions as like fractions and to rename fractions in higher terms. Some work with percents and measures is also presented.

Order BLS200MA $99.95 2 disks

Mathematics 100

Reading Level: 3-4
Interest Level: 7-Adult
Available for: Apple 64K IBM 256K

DIVISION

This program reviews division skills commonly taught at the third- and fourth-grade levels. It includes work that requires dividing by tens and dividing money. Problems with zeros in the dividend and the quotient are also presented.

Order BLS100MD $99.95 2 disks

CONCEPTS & APPLICATIONS

This program introduces basic mathematic concepts such as the difference between numbers and numerals, and an explanation of number sentences, place value, and expanded notation. Also presented are lessons on comparing numbers, the commutative property, fractions, decimals, money, measurements, and graphs. The student is shown a simple procedure for solving one-step story problems, and is given practice in applying this procedure.

Order BLS100ME $149.95 3 disks

Mathematics 200

Reading Level: 5-6
Interest Level: 7-Adult
Available for: Apple 64K IBM 256K

SUBTRACTION

This program extends the work begun in Subtraction 100. Students work with numbers having up to four digits. Practice is given in solving problems of like and unlike fractions and mixed numbers. Work with the reduction of fractions to lowest terms, regrouping, and zeros is presented. Decimal fractions (to the thousandths) and percents are introduced. Two-step measurement problems requiring subtraction are reviewed.

Order BLS200MB $149.95 3 disks

continued on following page ⇒ 11
MULTIPLICATION

This program presents multiplication problems involving numbers of up to four digits, and carrying. The program covers difficulties in working with multiples zeros in the multiplicand, as well as multiplication by tens and hundreds. The multiplication of percents, money, and measures is also covered. Practice is given in multiplying fractions and mixed numbers, and in expressing mixed numbers as improper fractions. The student works with decimal fractions—multiplying these by both whole numbers and other decimal fractions.

Order BLS200MC $99.95 2 disks

DIVISION

This program contains lessons on even and uneven division, estimated quotients, and division with two- and three-digit quotients. Practice is given in solving problems that require working with zeros and dividing numbers with up to three digits. Examples are given of even and uneven division of whole numbers by fractions and by mixed numbers, and the division of mixed numbers by fractions. Problems with decimal fractions divided by whole numbers and by other decimal fractions are presented, and percents and measures are reviewed.

Order BLS200MD $99.95 2 disks

CONCEPTS & APPLICATIONS

Place value, fractional parts, names for numbers, comparison of numbers, and mathematical sentences are some of the topics covered in this program. The program also presents lessons on geometry, measures, graphs, Roman numerals, ratios and proportions, and story problems involving more than one step.

Order BLS200ME $149.95 3 disks

TUTORCOURSE BLS300M

The BLS300M course was designed by CTB/McGraw-Hill to provide intensive review of basic mathematics skills for remedial adult students. Basic skills are presented in a life-oriented context. Each program has been carefully reviewed to make certain that fair and balanced representation was given to women and members of ethnic minority groups. The complete course contains 5 programs, and provides 11-22 hours of instruction.

Order BLS300M $499.95 11 disks

ADDITION

This program reviews addition of columns of numbers having up to four digits, and addition of money. The addition of like and unlike fractions and of mixed numbers is covered. Also included are lessons on finding the least common denominator of fractions and on dealing with fractions with or without common factors in the denominator. Students work with decimal fractions (to the thousandths) and practice the addition of decimal fractions having various numbers of decimal places. Simple addition with two-step measurement problems is introduced. Also included is a review of percents and measures and a brief introduction to metric measurement.

Order BLS300MA $99.95 2 disks

SUBTRACTION

Problems involving regrouping and the application of these elements to money and three-step measurement problems are presented in this program. Work with fractions and mixed numbers includes using the least common denominator with and without regrouping. Subtraction of decimal fractions and mixed numbers in the minuend and the subtrahend is also reviewed. Lessons are included on subtracting percents and basic measures.

Order BLS300MB $99.95 2 disks

MULTIPLICATION

This program covers work with four-digit multipliers and the multiplication of fractions and mixed numbers. Canceling is reviewed, and the student is given practice in working with percents and three-step measurement problems.

Order BLS300MC $99.95 2 disks

Mathematics 300

Reading Level: 7-8
Interest Level: 7-Adult
Available for: Apple 64K IBM 256K

DIVISION

This program begins with an extensive review of the division of whole numbers. Special attention is given to problems that have zero in the quotients. The lessons on common fractions and decimal fractions extend the practice given in Division 200. The program concludes with exercises on money, percents, and three-step measurement problems.

Order BLS300MD $99.95 2 disks

CONCEPTS & APPLICATIONS

This program continues the work of Concepts and Applications 200 and contains lessons on place value, rounded numbers, the distributive property, simple algebraic expressions, exponents, percents, ratios and proportions, geometry, and two- and three-step story problems.

Order BLS300ME $149.95 3 disks

I would like to take this opportunity to let you know how we utilize the BLS Tutorsystems within the Missouri Department of Corrections Education Section. We serve 1,800 ABE/GED students per month in our academic classes, with ages ranging from 16 through 85. Our competency based education program has been greatly enhanced by the incorporation of Tutorsystems into our curriculum. This form of computer assisted instruction has proven skill specific and adult formatted...We found that by incorporating the BLS software into our fourteen institutions across the state, we were able to standardize software so that instructional time and materials would be most efficiently used.”

John Bell, Assistant Director
Division of Classification and Treatment
Missouri Department of Corrections
TUTORCOURSE BLS400M

The BLS400M course was designed by CTB/McGraw-Hill to provide intensive review of basic mathematics skills for remedial adult students. Basic skills are presented in a life-oriented context. Each program has been carefully reviewed to make certain that fair and balanced representation was given to women and members of ethnic minority groups. The complete course contains 5 programs, and provides 13-26 hours of instruction.

Order BLS400M $599.95 13 disks

ADDITION

This program covers addition as presented in equations, common fractions and decimal fractions, mixed numbers, percents, two- and three-step measurement problems requiring regrouping, algebraic expressions, and integers.

Order BLS400MA $99.95 2 disks

SUBTRACTION

Complex work with the numeral zero in regrouping and with money and three-step measurement problems are found in this program. Subtraction problems involving advanced work with like and unlike fractions, and with related and unrelated fractions are presented. Practice is given in subtracting decimal fractions and percents, and simple algebraic expressions are introduced.

Order BLS400MB $99.95 2 disks

MULTIPLICATION

This program reviews multiplication with numbers of up to four digits, with and without zeros in the multiplier. The multiplication of common fractions, decimal fractions, mixed numbers, percents, two- and three-step measurement problems requiring regrouping, algebraic expressions, and integers. The program concludes with lessons on multiplying percents and measures, and work with simple algebraic expressions.

Order BLS400MC $99.95 2 disks

Mathematics 400

Reading Level: 9+
Interest Level: 7-Adult
Available for: Apple 64K IBM 256K

DIVISION

Besides reviewing work with whole numbers, the Level 400 program extends work with common fractions, decimal fractions, remainders, and estimated numbers. Reducing fractions and calculating and rounding off quotients are also explained. The work continues with finding ratios, finding a number when a percent of it is known, and finding percents greater than 100. Measures are also reviewed, and simple algebraic expressions are introduced.

Order BLS400MD $149.95 3 disks

CONCEPTS & APPLICATIONS

This program contains lessons on expanded notation, exponents, square roots, factors, prime numbers, multiples, least common denominators, and comparison of numbers. The commutative, associative, and distributive properties are presented as well as equations, percents, geometry, and measures.

Order BLS400ME $199.95 4 disks

GED/Adult Basic Education

"This tutorial software can be used as a complete developmental program because of its intensive review of the basic reading skills, or to remediate specific skill areas. All lessons contain real-life problems and situations that are written on a consistent reading level. The adults in our lab responded enthusiastically to the program, because they found the lessons to be relevant and rewarding when they mastered the skills. The Content Outlines are particularly beneficial to teachers, because they describe the concepts covered in the lesson disk, along with the Master Objectives for that level. Teachers concerned with accountability or teachers who use the diagnostic/prescriptive approach to remediation would find this program to be quite useful. GED teachers should note that the reading context of the Interpretations Programs deal with Science, Social Studies, and Literature topics. As an entire program of four levels of reading instruction, or taken as individual skill programs, the BLS Tutorcourse offers adult educators a first-class tool in the classroom."

Kit Bieschke-Baker
Learning Lab Coordinator
Washington County Adult Skill Center
Abingdon, VA

Adult Basic Education

"I would like to take this opportunity to thank you for giving our learners the chance to work with the BLS Grammar Tutorcourse system. The BLS software was well received by our ABE learners. The program was easy for them to access and use with minimal help from the instructors." "The basic grammar was presented in a tutorial lesson format followed by a mastery test which helped the learners measure their progress independently. This format adapted well with both those learners using it for remediation as well as those learning the material for the first time." "There seems to be a sense of accomplishment when students meet with success. Their motivation was certainly heightened each time the learners were successful with BLS200G. Clear definitions, explanations, and examples attributed to these results." "It was a worthwhile, beneficial experience for those participants who worked with the software. I would certainly recommend the BLS Tutorcourse for any literacy program needing basic skills improvement with a variety of objective formats."

Chris Miller
Shoals Area Tri-County
Adult Education Program
Muscle Shoals, AL

EMPLOYEE SURVEY FORM

INSTRUCTIONS:
You are not asked for name or employee number anywhere on this form. Your answers will not be identifiable as yours. Your answer form will not be given to your employer. PLEASE offer your ideas where asked and be sure to answer all questions. The information gathered will assist your company to develop opportunities for improvement to increase profitability and to make your company a better place to work.

NAME OF ORGANIZATION__________________________________________________________

First, we would like to know something about you and your job in the company: Please mark the circle of the number of your selected response on the attached response sheet.

1. How long have you worked here?
   1. 0 - 2 years
   2. 2 - 5 years
   3. More than 5 years

2. My position is:
   1. Supervisory
   2. Nonsupervisory

3. My pay structure is:
   1. Salaried-office
   2. Salaried-field
   3. Hourly-office
   4. Hourly-field

In this set of items we are offering you some statements about your company. Please mark circle "1" if you agree with the statement; mark "2" if you tend to agree; mark "3" if you tend to disagree; and mark "4" if you disagree.

A Step Beyond:
An Organizational Career Development Workshop
Steps Involved in the Program

I. Initial Self Assessment
   A. Who am I? What do I want to do?
   B. Where have I been?

II. Future Self Assessment
   A. Where am I now? What can I do?
   B. Where do I want to be?

III. Conducting an Environmental Assessment
   A. What's out there?

IV. Developing a Goal-Directed Action Plan
   A. What is the next step?

V. Implementing your action plan
   A. How do I get there?

4. Form an action plan

5. And put your plan into action
A Step Beyond
General Information

* The classes will be held at Ramada Inn, based on availability. Other sites may be utilized if necessary.

* Sessions will begin at 3:45 p.m. and will meet once or twice weekly, as agreed upon at the introductory session.

* Each session will last 90 minutes.

* There will be 10-12 sessions, based on the size and work styles of the group.

* Each participant will earn 2.25 Continuing Education Credits at no cost to the employee.

* The end result of the program will be a fully developed career plan for each employee.

A little time and effort and you will have a plan for your future.
Course Outline

I. Step one will take about 6 sessions and includes:
   A. Values Clarification including Work Values
   B. Personality Assessment/Work Styles
   C. Motivational Patterns/Occupational Interests
   D. Where have I been? (Resume development)

II. Step 2 will take about 3 sessions and includes:
   A. Job and Abilities Analysis
   B. Leadership Ability Evaluation
   C. Where do I want to be? (Evaluating your goals)

III. Step 3 will take about 2 sessions and includes:
   A. Organization profile and opportunity structure
   B. Job Requirements
   C. Available career paths
   D. Developmental policies

IV. Step 4 will take 1 session and includes:
   A. Develop a Goal-Directed Action Plan (for portfolio)

V. Step 5 will take 1 session and includes:
   A. Implementation of your plan
   B. Course evaluation

Note: The first class session is an information session and the date of the first meeting will be announced later.
"A STEP BEYOND--
A CAREER DEVELOPMENT PLAN"

TRAINING PROPOSAL PREPARED FOR:
JOY TECHNOLOGIES INC
Mining Machinery Division
P. O. Box 256
Duffield, VA 24244
Phone: (703) 431-2821

IN RECOGNITION OF JOY TECHNOLOGIES INC.'S BELIEF THAT THE SUCCESS OF THE COMPANY AND ITS EMPLOYEES ARE DEPENDANT ON THE EFFECTIVE PLACEMENT AND FULL DEVELOPMENT OF THE ABILITIES OF ALL ITS EMPLOYEES, WE PROUDLY PRESENT:

A STEP BEYOND - AN ORGANIZATIONAL CAREER DEVELOPMENT WORKSHOP

GOALS:
* To encourage employees to think about their careers
* To provide a mechanism for an employee's realistic career self-assessment and goal setting
* To commit employees to take action toward developmental goals
* To provide a skills and interest inventory of all employees
* To empower the employee to take major responsibility for his or her own career development
* To explore the meaning and practice of career development
* To learn techniques for ongoing evaluation of a career
* To plan for employment future

STEP 1

INITIAL SELF-ASSESSMENT
Who am I? What do I want to do?
--Self-concept
Values clarification
--Personality characteristics and personal style
--Motivational patterns
--Occupational interests
--Personal preferences

Where have I been?
--Personal and educational background
--Work history and experience
--Key accomplishments and successes
--Peak experiences
--Significant life decisions
--Satisfying and dissatisfying experiences

STEP II

WHAT IS A FUTURE SELF-ASSESSMENT?

Where am I now? What can I do?
--Analysis of current job; behavioral demands, importance of various job elements, likes and dislikes
--Values skills and abilities: professional/technical, managerial, personal,
--Special knowledge and capabilities: personal qualities, developmental needs, sources of satisfaction and dissatisfaction

Where do I want to be?
--Occupational daydreams, ideal job description
--Desired future accomplishments
--Preferred working environment
--Ideal life-style
--Career goals
--Personal goals

STEP III

How do you conduct an environmental assessment?
What's out there?
--Organization profile, business outlook
--Opportunity structure, job requirements, selection standards
--Available career paths or options
--Developmental policies
--Other resources and information
STEP IV

How do you develop a goal-directed action plan?

What's the next step?
--Reconciling self-assessment with environmental assessment
--Identifying long-range alternatives
--Specifying short-range goals
--Setting priorities
--Preparing an action plan
--Developing a contingency plan

STEP V

How do you implement your action plan?

How do I get there?
--Develop marketing techniques
--Establish career action projects with time frame for completion

QUESTION--Are supervisors expected to discuss their employees' career plans with them? Are employees prepared to discuss their skills and plans?

This workshop should help them define their interests, skills, and values; learn how to enhance their present jobs; and set realistic goals. Employees must meet with their supervisors to discuss the employees' skills and developmental needs and the resources necessary to meet them.

2 sessions on self-assessment & 2 sessions on setting goals; meet with supervisors to discuss skills and available opportunities

Skills data base to assess skills available and needed in the division.

Job summary catalogue, job-opening requisition information, tuition aid plan - training course catalogue.
OBJECTIVELY MATCH INDIVIDUAL EMPLOYEES' SKILLS TO THE NEEDS OF THE DIVISION, AND SHOW THAT MANAGERS AND SUPERVISORS CARE ABOUT EMPLOYEES' CAREER DEVELOPMENT
The Human Resource Development Program at Mountain Empire Community College proposes to provide Penn Virginia Corporation training and consultation services as follows:

Phase I: 0-12

- Providing consulting for a needs assessment to identify Penn Virginia's strengths and weaknesses.
- Providing leadership training to the President and his staff to accomplish the following:
  * Defining the organization's process at the macro level
  * Validating the organization's mission
  * Setting values and standards
  * Piloting a continuous improvement process

Phase II: 12-24 Months

- Providing consulting and training to Penn Virginia to accomplish the following:
  * Focusing on significant strategic issues
  * Organizational deployment of continuous improvement processes
  * Developing internal capabilities
Quality is an elusive term. However, American companies and the American educational system are comprehending the magnitude of the quality concept as our domination in the world marketplace is diminishing. The premier teacher of what produces quality, and what quality produces, is Dr. W. Edwards Deming. This American is credited with leading Japan from post-war depression to economic supremacy. American businesses are starting to listen to Dr. Deming and other strategists for workplace improvement, most notably the Ford Motor Company, Hewlett-Packard, General Motors, AT & T, and others.

**Quality Navigation**

The transformation to a quality organization is a complex and difficult undertaking. To become world class, you must begin making positive changes now. The rate of return depends on how quickly the principles of quality can be put into practice.

**Total quality management** is a proven method for obtaining:

- Improved customer satisfaction
- Improved process control
- Improved cost efficiency
- Improved management processes

**Total quality management** is a continual improvement program which is based upon:

- Fundamental changes in management style
- Changes in work methods
- Extraordinary employee involvement
- Cooperation and community involvement

"You get on the quality train, or you end up standing on the platform watching the business pass you by."

Thomas S. Anderson
Penn
Virginia Corporation

"The best way to predict the future is to create it."
Stephen R. Covey

Thomas S. Anderson
CONTINUOUS IMPROVEMENT FOR
PENN VIRGINIA RESOURCES CORPORATION

Quality cannot be copied - no step by step cookbook:

Based on:

1. Customer-first
2. Top management leadership of quality improvement process
3. Focus on continuous improvement
4. Respect for employees and their knowledge

QUALITY IMPROVEMENT IS A JOURNEY MORE THAN A DESTINATION. IT IS A PROCESS OF CONTINUOUS IMPROVEMENT.

Plan - Do - Check - Act Cycle
Management by Planning
Statistical Thinking
Standardization

1. Top management forms a Steering Committee (Quality Team or Council) to oversee the team-building process.
   Committee is responsible for:
   (a) ensuring resources
   (b) communicating the state of the business, total quality implementation plans, and progress with respect to plans
   (c) providing education and training
   (d) assessing programs
   (e) ensuring recognition and rewards

2. Middle Management is now asked to create an environment to encourage all employees to problem solve and make improvements.
   (a) translates top management's vision, mission and strategy into functional activities for the organization
   (b) providing feedback on status of functional activities
   (c) aligning top management's vision with staff and workforce individual needs
Invert the organizational chart - managers are resource to the line, offering equal amounts of support and guidance in their new roles as planners, coaches, and facilitators.

Two Types of Employee Involvement Teams:
(1) Cross-functional - different disciplines and functional areas and levels
(2) Family - supervisor is team leader; team is made up of those within his/her department

PLAYERS

Team Leader (Supervisor)
Facilitator - concentrates on process--helps leader seeking opinions, coordinating different ideas, testing consensus, applying tools and techniques, summarizing key points and providing feedback to group. Makes sure powerful personalities do not dominate the proceedings.

Trainer - outside consultant - initial responsibility for training employees in quality improvement techniques, problem solving, leadership and facilitation skills. Eventually employees should assume this function. Ideally, managers will be the first trainers - excellent way for managers to lead by example.

Participants
(a) recommending meeting agenda items
(b) offering perspective and ideas
(c) performing assignments
(d) ensuring decisions and follow-up assignments clear
(e) helping critique and improve meeting process

Effective teams are concerned with both results: tasks and the meeting process (how meetings are managed, how problems are solved, how decisions are made, and how goals are accomplished.)

PILOT PROJECTS

1. Education and training are key components
2. Small number of select teams are given opportunity to apply newly learned concepts and techniques in on-the-job situation.
3. Initially, 3 or 4 teams conduct pilot projects lasting 3 to 6 months. 

**Pilot projects must be:**
- (1) within group's span of control
- (2) manageable
- (3) something that most team members feel will help them perform their jobs better
- (4) implemented quickly
- (5) measurable/tangible
- (6) important to management

Overtime required in beginning to provide training and allow teams to learn new skills.

Successful pilots motivate and educate other teams

Rate of expansion of number of work teams is function of degree to which a company possesses:
- (1) Leadership to direct, support and inspire
- (2) Facilitation to ensure leadership is consistent with new model
- (3) Knowledge of what to do and how to do it
- (4) Will and energy to act
- (5) Time and resources to effect lasting changes

Managers must understand life cycle of team:
- (1) **Build** - uneasy and unsure; help clarify people's expectations and work to overcome initial apprehension
- (2) **Develop** - Teams gain momentum - relationships evolving, conflicts may arise; should be expected and not used as an excuse to abandon team efforts
- (3) **Optimize** - team has gelled and works together more effectively. Leaders and facilitators play less active role as team manages itself.
PLANNING FOR THE LONG-TERM PROCESS

TRAINING NEEDED:
Approximately 5 days for Leadership
Does not all have to be together necessarily.

Costs: $1500/day + materials
Need 2-hour planning meeting with Vic Dingus (no obligation)
Grant will provide first day of training with designated people. (No obligation by Penn Virginia beyond this if Company is not satisfied that this is the way to go). Company will then decide whether to choose this instructor to continue at their expense.
Focus will be established by developing vision, mission, and goals--Training will be customized for Penn Virginia Resources. A strategic plan will be developed for the deployment of an entire program.

This Training Proposal has been designed in response to training needs identified at Norris Trim, Duffield Industrial Park, Duffield, Virginia, by the Training Needs Assessment Report prepared by Virginia Polytechnic Institute and State University in cooperation with Mountain Empire Community College.

Based on the Assessment Report, a three-day training session for each employee is recommended. Training activities will be most effective with groups of 15-25 employees. Topics selected for this training session relate to human resource development and were identified as a training need by 50 or more employees.

Other topics identified by the Assessment Report may be addressed in additional training sessions as requested by Norris Trim.
Day No. 1

UNTIE THE KNOTS
A POSITIVE APPROACH TO GROUP DYNAMICS

Activities and projects in this session will focus on assisting the individual in strengthening interpersonal and team building skills.

"MANAGING YOUR OWN BEHAVIOR"

Mitzi Holyfield, Project Coordinator
Human Resource Development Project
(703) 431-4543

Connie Rhoton, Instructor
Mt. Empire Community College
TRAINING FOCUS: Managing Your Own Behavior
Planning/Organizing Work Flow

TRAINING SCHEDULE:
Managing Your Own Behavior -- Tuesday mornings, 10:00 am-12:00 noon
8 sessions beginning Sept. 29, 1992

Planning/Organizing Work Flow -- 2 sessions, same as above, following
completion of above sessions
(10 total sessions, Sept. 29 - Dec. 1, 1992)

SESSION OBJECTIVES AND MATERIALS:
Managing Your Own Behavior:
The materials for the eight sessions will be from the personal dynamics
course, "Adventures in Attitudes," developed by Performax, Inc. The
objectives for the eight sessions include
* learn how to release potential and mid power locked within you
* be able to handle daily problems with ease and assurance
* be able to conquer moods of depression, discouragement, doubt,
  frustration
* learn the mental secrets that give you energy, drive, motivation
* gain control and mastery over your thoughts so you can get what
  you want out of life
* break crippling attitude habits that hold you back.
The sessions will cover the following subject areas:
* Effective Communication
* Dynamics of Attitudes
* Managing Your Mind
* Understanding People
* Good Human Relations
* Motivation
* Goals & Self-Management

Planning and Organizing Work Flow
These two sessions will use the materials "Plan Your Work-Work Your
Plan," from Crisp Publications. The objectives include
* learn to apply practical planning tools
* learn the essentials of planning
* use self-assessment tools.
Today's Supervisor
A New Workplace Paradigm

Customized Training
Provided by
The Human Resource Development Project
Mountain Empire Community College

Instructor: Connie Rhoton
Project Director: Mitzi Holyfield

JOY TECHNOLOGIES TRAINING PROPOSAL
COURSE OUTLINE

Today's Supervisor: A New Workplace Paradigm

TEN SESSIONS, 90 MINUTES EACH

SESSION ONE: Introduction to Supervision

- Introductions
- Course Requirements
- Student Expectations

"Exploring the Role of a Supervisor in Today's Workplace"
- Definition
- Role in today's workplace
- How has the role changed
- Pros and Cons
- Supervisors of the future
- Qualities of a good supervisor

"Discovering the Future" Video by Joel Barker

SESSION TWO: Introduction to Team Building

"The Success of the Team Concept"
- Teamwork success stories
- Why teams work
- Groups -vs- Teams
- Attitudes of a team builder

"Recognizing the Personality of the Team"
- Personality Assessment with application to supervisory team building skill

SESSION THREE: The Personality of the Team

"Recognizing the Personality of the Team" (part 2)
- Understanding personality types as related to team building
- Recognizing strengths of team members
SESSION FOUR: Elements of Team Building
"Effective teams:
 focus on goals
 share leadership
 utilize personalities and abilities
 communicate openly
 exhibit trust and respect
 plan and organize."

SESSION FIVE: Building the Team
"The Supervisor's Role in Team Management"
 Motivating teams and individuals
 Attitudes and techniques which inhibit team success
 Management styles

SESSION SIX: Resolving Conflict
 The "Win/Win" Approach

SESSION SEVEN: Dealing with Difficult People
 Identifying "people problems" and strategies for coping.

SESSION EIGHT: Supervising in a Team Situation
 Team decision -vs- management decision
 Organizational constraints
 Working with other teams
 The non-team player

SESSION NINE: Legal Issues for Supervisors
 Work Ethics
 Company Policies
 Sexual Harassment
 Americans with Disabilities Act

SESSION TEN: Wrap-Up
 Completion of any unfinished topics
 Question and Answer Session
 Lou Holtz Video: Do Right
 Presentation of certificates
SUGGESTED CLASS MEETING DATES
JOY TECHNOLOGIES
TODAY'S SUPERVISORS

Session 1.............Tues., Feb. 8
Session 2.............Wed., Feb 17
Session 3.............Tues., Feb. 23
Session 4.............Tues., March 2
Session 5.............Tues., March 9
Session 6.............Wed., March 17
Session 7.............Tues., March 23
Session 8.............Thurs., March 25
Session 9.............Thurs., April 1
Session 10..........Tues., April 6

The above dates are tentative and may be changed if necessary to
accommodate the company's work schedule. At least one-day advance notice
should be given if possible when a change is needed.

Participants in the class will receive Continuing Education Units (CEU's) for this
class. In order to receive the CEU's and meet the requirements set by the
Human Resource Development Project, a participant must attend 80% of
scheduled class meetings. Grades will be assigned on a Pass/Fail basis.

June 29 & 30, 1992 (Monday & Tuesday) 1 p.m. - 4 p.m.
This course is intended to acquaint the user with an integrated computer program which incorporates several programs into one. An integrated program usually includes a wordprocessing application, spreadsheet application, database application, and communications application. At the conclusion of the course, a user should be familiar with the uses and fundamentals of the individual applications, and understand how they can interact in an integrated setting.

Starting Works:

At the C:/> prompt, key: CD Works
At the C:WORKS prompt, key: Works

Exiting Works:

From the File Menu select Exit Works (ALT, F, X)

I. INTRODUCING WORKS

A. About Microsoft Works
   1. Learning Works
   2. Word Processor
   3. Spreadsheet
   4. Charting
   5. Database
   6. Communications

II. GETTING STARTED

A. Setting Up Works
   1. Tutorial
   2. Online Assistance
   3. The Works Screen
   4. Choosing Commands
   5. Using Dialog Boxes

III. FILES, WINDOWS, AND ACCESSORIES

A. Alarm Clock
B. Backing Up Your Work
C. Calculator
D. Closing a File
E. Copying a File
F. Creating a File
G. Date and Time
H. Deleting a File
I. Dialing a Telephone Number
J. Directories
K. Disks
L. Exiting Works
M. File Management
N. Opening a File
O. Renaming Other Programs  
P. Saving and Naming a File  
Q. Settings  
R. Template File  
S. Text (ASCII) File  
T. Windows  

IV. WORD PROCESSING  
A. Creating a Document  
B. Editing Text  
C. Formatting Characters  
D. Formatting Paragraphs  
E. Working with Columns & Tabs  
F. Changing Layout  
G. Printing  
H. Putting it All Together  
I. Advanced Features  

V. SPREADSHEET REFERENCE  
A. Creating a Spreadsheet  
B. Entering Text & Numbers  
C. Adding Formulas & Functions  
D. Formatting Spreadsheet  
E. Copying Cells  
F. Changing Spreadsheet  
G. Spreadsheet Charting  
H. Printing  
I. Putting it All Together  

VI. DATABASE  
A. Creating a Database  
B. Editing Records  
C. Working with Lists  
D. Organizing Records  
E. Formatting Records  
F. Searching for Information  
G. Advanced Searching  
H. Reporting  
I. Designing Custom Reports  
J. Printing  
K. Putting it All Together  

VII. COMMUNICATIONS  
A. Calling and Answering  
B. Sending and Receiving Information  

VIII. USING THE TOOLS TOGETHER  
A. Copying Between Tools  
B. Creating Form Letters  
C. Putting it All Together
I. MICROCOMPUTER EQUIPMENT

A. Introduction

B. Computer
   1. Definition
   2. Five Parts
      a. Keyboard
      b. Central processing unit
      c. Monitor
      d. Disk drives
      e. Printer

C. Disks
   1. Definition
   2. Care
   3. Formatting
   4. Floppy
   5. Hard Disk

D. Function Key Template

E. Command Card

F. Booting the computer
   1. Turn on the power switch
      a. For Tandy machines, there are two switches, both are on the front. First, turn on the Display Unit. Then, after a few seconds, turn on CPU.
      b. For model IBM PS/2 25 computers, on/off switch is on right front of monitor.
   2. After the computer boots up:
      a. The Tandy machines will come up in Windows. Use the mouse to select File, then Exit Windows, then Yes.
      b. The IBMs will prompt for the date. Key in the date as shown in parentheses, and press the ENTER key. A prompt will appear for the time. Key the time in using military (24 hour) time.
   3. A system prompt should now appear: C:\>

G. Loading WordPerfect
   1. Load the program by typing WP and pressing ENTER.

H. Typing Screen
   1. Cursor - blinking dash that shows your location.
   2. Status line - right bottom of screen
      a. Document number
      b. Page number
      c. Line number (inches down the page vertically).
      d. Position number (inches across the page horizontally).

I. Defaults are automatically in effect until they are changed by the operator.
a. Margins - side margins = 1", top and bottom margins = 1".
b. Tabs - set every .5 inch.
c. Line spacing - single
d. Wordwrap - on
   This feature enables the program to sense when the
cursor approaches the right margin and
automatically moves the cursor to the left, one
line down. The ENTER key needs to be used only
for short lines or to end a paragraph.

J. Exiting the program.
1. Without Saving the document.
   a. Touch F7
   b. Save Document ? (Y/N) appears--touch N
   c. Exit WP (Y/N) appears--touch Y
   d. You should now be at the C:\WP51 prompt
2. With Saving the Document
   a. Touch F7
   b. Name of Document appears--type the name
   c. Save Document ? (Y/N) appears--touch Y
   d. Name of Document appears--type the name
   e. You should now be at the C:\WP51 prompt

K. Naming, Saving and Retrieving Documents
   1. Naming Documents
      a. 1-8 alphanumeric characters for name
      b. 0-3 alphanumeric characters for extension
      c. Period to separate name from extension
      d. No spaces or special characters other than
         the period.
      e. Each filename must be different
   2. Saving a Document
      a. Without clearing the screen
         1. Touch F10
         2. Type the Name of the document and touch
            ENTER
      b. With clearing the screen
         1. Touch F7 and respond Y to the prompt
            Save Document?
         2. Type the name of the document and touch
            ENTER
         3. Respond N to the prompt Exit WP?
            (screen is cleared)
   3. Retrieving a Document Previously Saved
      a. If you do not remember the name of the file
         1. Touch F5 and ENTER to get list of
            files
         2. Use arrow keys to highlight file wanted
         3. Choose 1 retrieve from the menu and
            document appears on screen

II. CURSOR MOVEMENT, INSERTING AND DELETING
   A. Cursor movement
      1. Use the directional arrows...
keys (up, down, right, left)
2. Word right - CTRL RIGHT ARROW
3. Word left - CTRL LEFT ARROW
4. To end of line - CTRL END
5. By screen - HOME then up or down arrow
6. By page - page up or page down
7. Beginning of document - home, home, up arrow
8. To specific page - CTRL HOME, then type the page number you want

B. Inserting Text
1. Place cursor where text is to be inserted and type

C. Deleting Text
1. Character - backspace or delete key
2. Word - CTRL + BACKSPACE
3. Line - CTRL + END
4. Several lines - touch ESC, type the number of lines you want deleted, touch CTRL + PAGE DOWN, respond Y to the Delete Remainder of Page prompt

D. Splitting and Merging Paragraphs
1. Splitting - locate cursor where you want the new paragraph to begin; touch ENTER twice
2. Merging - place cursor two spaces after the period in the first paragraph you want to merge; delete until the second paragraph moves up

E. Printing the Document on screen
1. Touch SHIFT + F7
2. Choose 1

III. CHARACTER FORMATTING

A. Underlining
1. Touch F8 to turn underlining on
2. Key in text to be underlined
3. Touch F8 to turn underlining off

B. Boldfacing
1. Touch F6 to turn boldfacing on
2. Key in text to be boldfaced
3. Touch F6 to turn boldfacing off

C. Centering
1. Touch SHIFT + F6
2. Key in text to be centered
3. Touch ENTER

D. All Caps
1. Touch CAPS LOCK key
2. Key in text
3. Touch ENTER

E. Change existing text
1. Touch F12
3. Choose change desired by touching function key

F. Change to upper or lower case
   1. Touch F12
   2. Use arrow keys to highlight text
   3. Choose upper or lowercase

IV. LINE FORMATTING

A. Function keys
   1. Function key alone - black
   2. ALT + Function key - blue
   3. SHIFT + Function key - green
   4. CTRL + Function key - red

B. Format Command - SHIFT + F8
   1. line
   2. page
   3. document
   4. other

C. Margins
   1. SHIFT + F8
   2. Choose 1 Line
   3. Choose 7 Margins
   4. Type the new margin settings
   5. Touch F7 to get back to the typing screen

D. Reveal Codes
   1. ALT + F3 or F11
   2. Cursor in lower screen is box shaped

E. Margin Indents
   1. Indent from left margin - F4
   2. Indent from both right and left margins - SHIFT + F4

F. Right Justification
   1. Is on by default
   2. To turn off
      a. SHIFT F8, 1, 3
      b. Choose 1 Left
      c. Touch F7 twice

G. Line Spacing
   1. Is automatically set at single
   2. To change:
      a. SHIFT F8, 1
      b. Choose 6, type in spacing desired
      c. Touch F7 twice

V. TABS

A. Setting
   1. Shift F8
   2. Choose 1 Line and 8 Tabs
   3. Select T for type at the prompt answer 1 (Absolute)
4. Type the tab setting and touch ENTER

B. Deleting
1. Clear all tabs - move cursor to beginning, touch CTRL + END
2. Or, reveal codes and delete settings

UNIT 1 - PERFORMANCE MASTERY

VI. SPELLER/THESAURUS

A. Definition
1. Spell checks documents
2. Contains 120,000 words
3. Checks a word, a page, or a document

B. Speller Cannot
1. Check proper names
2. Identify words spelled correctly but used incorrectly - ex.: their for there, sea for see, cease for crease, etc.

C. To use Spell Check
1. Touch CTRL + F2
2. Choose 3 (Document)
3. Respond to prompts

D. To Use Thesaurus
1. Touch ALT + F1
2. Choose 1 (replace words) if desired
3. Choose corresponding letter of your choice

VII. PAGE FORMATTING

A. Page Break
1. Automatically inserted after 54 lines (9")-shown as single line of hyphens
2. Inserted page break (anywhere in document)
   a. CTRL + ENTER
   b. Shows as double line of hyphens

B. Top and Bottom Margins
1. Automatically set at 1"
2. To change:
   a. 'SHIFT + F8, 2 (PAGE)
   b. Choose 5 and key in new setting

C. Center a Page Vertically
1. Key in document
2. Move cursor to beginning of document (HOME, HOME, PAGE UP)
3. Touch 'SHIFT + F8, 2; 1
A. Move, Copy, or Delete a Block of Text
1. Touch ALT + F4 or F12
2. Use arrow keys to highlight
3. Touch CTRL F4
4. Choose 1 BLOCK
5. Choose: 1 MOVE; 2 COPY; 3 DELETE

B. Block Existing Text
1. Touch ALT + F4 or F12
2. Use arrow keys to highlight existing text
3. Choose desired print feature

IX. PRINTING OPTIONS

A. Print Menu (printing control)
1. Full document
2. Page
3. Document on disk
4. Control printer
   a. Status of job
   b. Job number
   c. Used to cancel, rush, display, or start or stop printer
5. Multiple pages
6. View document
7. Initialize printer

B. Additional Options
1. Select printer
2. Binding offset
3. Number of copies
4. Multiple copies generated
5. Graphics quality
6. Text quality

UNIT 2 - PERFORMANCE MASTERY

X. PAGE NUMBERING

A. To Insert Page Numbers
1. Touch SHIFT + F8, 2, 6, 4
2. Look at visual display and choose the number of the style you desire
3. Touch F7

B. To View a Document
1. Retrieve the document
2. Touch SHIFT F7
3. Choose 6 (View Document)
4. Choose to see document at 100%, 200%, full page, or facing pages
1. Create in normal manner
2. Save with F7 and name document

B. To Save Text Within a Document
   1. Touch F12
   2. Use arrows to highlight desired text
   3. Choose F7 and name document

C. To Retrieve Standardized Text
   1. Touch SHIFT F10
   2. Choose filename
The course objective is to provide a comprehensive knowledge of the fundamentals of spreadsheet applications which can be directly applied to a working environment. The student is taken through step by step instructions on building a basic spreadsheet, enhancing it as the course progresses. The emphasis is not only on the tasks required, but also on why they are necessary. Demonstrating problems and how to correct them results in a better understanding of how a spreadsheet is formulated. At the conclusion of the course, the student should have a good foundation on which to build advanced spreadsheet concepts.
COURSE OUTLINE FOR COMMUNICATING WITH SPREADSHEETS II

The objective of this course is to build on basic spreadsheet skills and understanding with advanced concepts and techniques. A basic spreadsheet is enhanced as the course progresses, utilizing a step by step approach, resulting in a larger and more complex spreadsheet. An individual spreadsheet project is developed by each student during the course, which is applicable to his or her own work environment. At the completion of the course, the student should have a good understanding and working knowledge of spreadsheet concepts and be able to create spreadsheets utilizing all the skills acquired.
I. Introduction to Computers

A. Microcomputer Equipment
   1. Hardware
      a. CPU
      b. Input/Output Devices
      c. Storage Devices
   2. Software
      a. Application Software
      b. System Software

B. Disk Operating System (DOS)
   1. Control of Input/Output Operations
   2. Interpret and Execute the DOS Commands
   3. Manage the Disk Files
   4. System Configuration

C. Important DOS Commands
   1. Directory Command
   2. Diskcopy Command
   3. Formatting
   4. Copy Command
   5. CLS Command
   6. Creating a Subdirectory
   7. Changing Directories
   8. CHKDSK Command

II. Booting the Computer

A. Turn on power switch
   (under right front of monitor)

B. Check date and time for correctness
   1. If incorrect, correct

C. See system prompt    C:\>

D. At this point , load your program

III. Loading LOTUS

A. Change directory by typing    CD \123
   and pressing     ENTER

B. Load program by typing      123
   and pressing     ENTER

IV. Essentials of Lotus 123 Release 2.2

A. Chapter 1 - Chapter 7
   1. Excercises, problems and projects
COURSE OUTLINE FOR COMMUNICATING WITH COMPUTERS

This course is directed towards people with little or no computer knowledge. It utilizes a step by step, hands on approach to assist a user in acquiring a comfortable level of computer literacy. Instructions include a history of computer development, an overview of microcomputer hardware, basic skills in DOS (the Disk Operating System), and an introduction to a variety of software applications, e.g., spreadsheets, word processors, databases, desktop publishing, graphics, and communications. At the conclusion of the course, students should have a good foundation in computer operations and an understanding of how to utilize this knowledge in their specific work environments.
 COMMUNICATING WITH COMPUTERS

I. History and Social Impact of Computers

II. Introduction to Computers

III. Booting the Computer

A. Booting the computer
   1. Turn on the power switch
      a. For Tandy machines, there are two switches, both are on the front. First, turn on the Display Unit. Then, after a few seconds, turn on CPU.
      b. For model IBM PS/2 25 computers, on/off switch is on right front of monitor.
   2. After the computer boots up:
      a. The Tandy computers will come up in Windows. Use the mouse to select File, then Exit Windows, then O.K. to exit Windows.
      b. The IBM computers will prompt for the date. Key in the date as shown in parentheses, and press the ENTER key. A prompt will appear for the time. Key the time in using military (24 hour) time.
3. A system prompt should now appear: C: \>
At this point you may insert you data diskette.
   a. Turn on power switch
      (under right front of monitor)
   b. Check date and time for correctness
      1. If incorrect, correct
   c. See system prompt  C: \>
   d. At this point, load your program

HISTORY AND SOCIAL IMPACT OF COMPUTING

Computers, as we know them today, began in early 1940 with the ABC Computer. John V. Atanasoff, a mathematics professor at Iowa State College, needed a device to perform mathematical operations for students. None of the mechanical devices which existed at the time met his needs. So he and an assistant, Clifford E. Berry, designed a machine and named it the Atanasoff-Berry-Computer, or the ABC Computer.

This design influenced the design of the ENIAC (Electronic Numerical Integrator and Computer), the first large-scale computer ever built. It was designed by John W. Mauchley and J. Presper Eckert, Jr. of the University of Pennsylvania to meet the U.S. Army's need for a machine to compute artillery trajectories. It weighed 30 tons and required the floor space of a house. 18,000 vacuum tubes that resemble slim light bulbs in size and shape registered the on and off electronic pulses that are the essence of digital computing.

In the 1950's computer technology began to improve. The UNIVAC I, was the first computer devoted to nonmilitary work. It was first used in the 1950 census. It was also used in the 1952 presidential campaign to predict the outcome, which it did, correctly. This began the first widespread public recognition of computers. During this time, IBM, which made punched card machines, lost some business because of UNIVAC. The company soon turned around to become the dominant force in the computer industry.

By 1960, IBM produced business computers that had transistors, instead of vacuum tubes, for its controlling circuitry. It marked the emergence of a second-generation of computers that were faster, smaller, more reliable, and less expensive than first-generation vacuum tube computers.

The transistor was invented in 1947 by three scientists at Bell Laboratories, but it took some time to understand its mathematical physics.

Dr. John Von Neumann wrote programs in machine language, the program language that computer hardware understood. Programming languages began to develop like FORTRAN (Formula Translation) and COBOL (Common Business Oriented Language).

By 1960 a number of computer companies began to introduce smaller computers. Digital Equipment Corporation (DEC) opened the minicomputer market with the DEC PDP-8, the first successful minicomputer.

The System 360, launched by IBM in 1964, began the third generation of computing. It used integrated circuit technology, which is still used today. On and off circuit elements are first etched and then burned into a silicon chip.

The System 360 used a batch processing system, which meant that users left jobs for processing and then returned later to pick them up. To prevent users from having to wait for processing, time sharing software
was developed which permitted people to interact with a computer with terminals during its program processing. This interactive method of computer use dominates today.

The interactive BASIC (Beginners All-purpose Symbolic Instruction Code) program language was also created to allow nontechnical people to program the computer.

By late 1960 software companies began to develop, providing a wide selection of software.

The early integrated circuits had as few as 22 circuits on a chip. By 1970, IBM introduced the System 370, that contained over 15,000 circuit elements on a single chip, the beginning of the fourth generation of computer systems.

Intel Corp introduced its first microprocessor chip, containing all the major logic circuitry on one chip. These chips cost just a few dollars today and are found in such things as toys, appliances, cars, and satellites.

The Altair, the first commercial microcomputer, appeared in 1974. It was a mail order kit. Apple Computer, Radio Shack, and Commodore sold completely assembled microcomputers by 1977, called personal computers.

The Apple Computer was invented by two entrepreneurs, Steve Jobs and Steve Wozniak. The first apples were assembled in a garage.

The microcomputer began to attract business users after the creation of the first spreadsheet program, VisiCalc, in 1979. The IBM Personal Computer eclipsed all others in the early 1980s. Today there are many brands of personal computers, but most remain compatible with standards set by IBM.

Apple introduced the Macintosh microcomputer in the mid 1980s. It had many novel features, such as Windows, Mouse pointer, and visual interface using icons instead of commands.

By the mid-1980s, the microcomputer had eclipsed the mainframe and minicomputer in market dominance. Hardware was also being eclipsed by software dominance.

Mitch Kapor wrote Lotus 123, the spreadsheet program that succeeded VisiCalc. At the age of 23, Bill Gates, of Microsoft Corporation, was responsible for DOS the operating system used in almost every IBM personal computer sold. At the age of 35, he heads his own billion dollar company.

Computers are an integral part of society. They are used in industry, health care, by handicapped people, and in the home, community, education, research, entertainment, sports, music, and the arts.

In a computer-based economy, workers are no longer bound to the traditional office. Homebound workers telecommute to the office through
Unfortunately with the increased popularity of computers come the increase in computer crime. Computer criminals embezzle electronically, steal information, commit industrial espionage, steal software, and create viruses which can destroy a computer's operating system or damage its data or programs. Federal and state laws are emerging to deal with computer crime, and they are getting increasingly severe.

The future of computers is bright indeed. Future computer hardware and software are expected to amplify human knowledge and thought processes.
This course is designed to give the student an understanding of databases and how they function in a business environment. Upon completion of this course, a student should be able to design, create, edit, and manipulate the information in a database.

I. Introduction to Computers
   A. Microcomputer Equipment
      1. Hardware
      2. Software
   B. Disk Operating System (DOS)

II. Booting the Computer
   A. Turn on power switch

Mrs. Mitzi Holyfield  
Program Director  
Human Resource Development Project  
c/o Ramada Inn - Duffield  
Intersection 23-58 and 421  
Duffield, VA 24244

Dear Mitzi:

Total reward may be defined as a business organization improving itself while at the same time watching the community develop its talents to best serve that particular company. A good friend of mine that I have acquired since moving to Southwest Virginia uses the expression "What goes around comes around". I am sure that the meaning of this expression wasn't meant to describe the Human Resource Development Project, but it can.

As news of, and use of the services available goes around the community what will come around is a highly capable and available work force for the communities existing business and hopefully a resource that cannot be turned down by businesses that may be interested in moving into our area.

On a more personal note, the project is helping us develop our employees talents in areas of immediate concern for the company and also addressing a wide variety of individual interests. Some of the results of the classes we have been conducting from the start of this year have been:

- A renewed interest in self-improvement. This is evidenced by the number of people (greater than 10% of our workforce) that showed interest in continuing education during our plant meeting.

- Less resistance from our union in the areas of Employee Involvement and Training.

- I have always said that the work ethic in Southwest Virginia is the best I have ever seen. Although I don't believe the recent training has changed the work ethic, I have noticed a change in attitude and more of an acceptance to change.

I was fortunate enough to go through the first training program myself. It was a pleasure to see two professionals (Connie and Brenda) conduct the training. The three (3) day program was informative, interesting, and upbeat and we all felt much was accomplished.
I cannot overemphasize how important I feel this project will eventually be for Norris Trim and our community. As you may be aware, our business has been experiencing a declining market over the last several years. The result of this loss has been a significant reduction in our work force and an unstable future. Our local union has indicated they plan on writing our Division President telling him that if there is other available work in the system that the employees at Duffield can do it. They also will indicate that if the work in question has a technology we currently do not possess; through use of the Human Resource Development Project we will work toward acquiring that knowledge. Whether or not any of the above is attainable, I do not know at this time, but it certainly created an option that once was not available.

I feel that by business becoming a partner with education the needs of the community will best be served. I feel the Human Resource Development Project will keep current and hopefully attract new businesses into the community. By use of this project we are developing a skilled and trained work force that hopefully will not go unutilized.

I would once again like to thank the State of Virginia and all those involved in this project for having the foresight and ambition to develop a project that should reward everyone involved.

Sincerely,

Ken Decker
Employee Relations Manager
Norris Trim

Mitzi Holyfield  
c/o Mountain Empire Community College  
Human Resource Development Project  
Big Stone Gap, VA 24219

Dear Ms. Holyfield:

The purpose of this letter is to express JOY Technologies' support for the Human Resource Development Project at Mountain Empire Community College.

Currently, approximately thirty JOY employees are actively participating in the program. Feedback from these employees indicates that the quality of instruction is excellent and that course content is relevant.

JOY Technologies will continue to be an active supporter of the project and Mountain Empire Community College.

Sincerely,

JOY TECHNOLOGIES INC.

Allen Dougherty  
Human Resource Manager  
Southern Region  
Mine Machinery Group

Supervisor's Name: ____________________________
Today's Date: ____________________________

* How many employees in your department participated in the program?

* In your opinion, what effect did the participation of employees from your department have on each of the areas below? Circle the answer in each category that shows how you feel:

**PRODUCTION:**

<table>
<thead>
<tr>
<th>Greatly increased</th>
<th>Somewhat increased</th>
<th>Stayed the same</th>
<th>Somewhat decreased</th>
<th>Greatly decreased</th>
</tr>
</thead>
<tbody>
<tr>
<td>5</td>
<td>4</td>
<td>3</td>
<td>2</td>
<td>1</td>
</tr>
</tbody>
</table>

**QUALITY:**

<table>
<thead>
<tr>
<th>Greatly improved</th>
<th>Somewhat improved</th>
<th>Stayed the same</th>
<th>A few more errors</th>
<th>Many more errors</th>
</tr>
</thead>
<tbody>
<tr>
<td>5</td>
<td>4</td>
<td>3</td>
<td>2</td>
<td>1</td>
</tr>
</tbody>
</table>

**FUTURE PLANS:**

Having gone through the program, when new technical equipment or training comes to your department, do you think your employees will be able to handle it?

<table>
<thead>
<tr>
<th>Better</th>
<th>The Same</th>
<th>Worse</th>
</tr>
</thead>
<tbody>
<tr>
<td>5</td>
<td>4</td>
<td>3</td>
</tr>
</tbody>
</table>

* Of the employees in your department who participated in the program, do you notice any team-building as a result (greater cooperation or problem solving among your employees)?

<table>
<thead>
<tr>
<th>A lot</th>
<th>Some</th>
<th>Same as before</th>
<th>Little</th>
<th>None</th>
</tr>
</thead>
<tbody>
<tr>
<td>5</td>
<td>4</td>
<td>3</td>
<td>2</td>
<td>1</td>
</tr>
</tbody>
</table>

* Since your employees participated in the program, do you feel that your job as a supervisor has become:

<table>
<thead>
<tr>
<th>Much easier</th>
<th>Somewhat easier</th>
<th>Same as before</th>
<th>Somewhat more difficult</th>
<th>Much more difficult</th>
</tr>
</thead>
<tbody>
<tr>
<td>5</td>
<td>4</td>
<td>3</td>
<td>2</td>
<td>1</td>
</tr>
</tbody>
</table>

Give an example: ________________________________________

* If your company plans to continue to have employees participate in similar programs in the future, what would you recommend to improve the way the program is run?

* Based on the effect that the program has had on the employees from your department who participated, would you recommend additional employees to the program? Why or why not? ________________

POST-PROGRAM PARTICIPANT
Survey Sheet

Directions: Please answer each question below. The information you give will be used to evaluate and help improve the course materials you have used.

I. Background Information:

1. How long have you worked at the company? ________________
2. How long have you done this kind of work? ________________
3. How long have you worked in your present position? ______
4. What is your job title? ________________________________
5. What is your age? ________________________________
6. What is your sex? ______
   Male  Female

II. Course Information:

7. What can you do now that you couldn't do before taking this course? ____________________________________________
   ____________________________________________
   ____________________________________________

8. How many classes have you attended so far? ______ classes.
9. Has this course helped you meet or work toward any of your personal goals?
   ______ Yes  ______ No

(If you checked yes, please answer the next part of the question)

In what way? ____________________________________________

WORKPLACE LITERACY PROJECT
QUESTIONS FOR GROUP INTERVIEW

1. DO YOU THINK THAT SUPPORT FORM MANAGEMENT AND UNIONS FOR THE WORKPLACE LITERACY BASIC SKILLS TRAINING HAS BEEN STRENGTHENED THROUGH THE WORKPLACE LITERACY PROGRAM? IF YES, DO YOU SEE THE POSSIBILITY OF ADDITIONAL TRAINING OPPORTUNITIES IN THE FUTURE USING THIS PROJECT AS A MODEL?

2. DID THIS MODEL ALLOW FOR SUFFICIENT INPUT FORM PARTICIPATING ORGANIZATIONS FOR MANAGEMENT TO BUY INTO THE PROGRAM? WHAT STRATEGIES FOR INVOLVEMENT WOULD HAVE STRENGTHENED THE COMMITMENT FROM PARTICIPATING WORKPLACE MANAGEMENT?

3. DID THE NEEDS ASSESSMENT AND THE LITERACY AUDIT PINPOINT THE NEEDS OF THE PARTICIPATING ORGANIZATION?
   IF NOT, HOW COULD YOUR NEEDS BE MORE EFFECTIVELY IDENTIFIED?

4. DID THE TRAINING PROGRAM TARGET THE NEEDS OF YOUR ORGANIZATION?

5. WHAT RESULTS HAVE YOU SEEN FROM THE TRAINING YOU EMPLOYEES RECEIVED?

6. WHAT OBSTACLES ON BARRIERS WERE ENCOUNTERED WHICH IMPACTED ON MEETING THE OBJECTIVES OF THE PROJECT?

7. HAVE THERE BEEN SPIN-OFFS FROM THE PROJECT WHICH WILL BRING TRAINING OPPORTUNITIES TO YOUR ORGANIZATION?

8. HOW DO YOU SEE THIS PARTNERSHIP BETWEEN BUSINESS, INDUSTRY, EDUCATION AND GOVERNMENT CONTINUING?
Dear Sue Ella:

In preparation for the summative evaluation, I have reviewed the WORKPLACE LITERACY INITIATIVE IN SOUTHWEST VIRGINIA grant and I am requesting your assistance in planning ahead for the review and evaluation on October 14th and 15th.

I am proposing the following timeline and agenda for the evaluation process:

**TIMELINE:** Evaluation Review to be held on October 14th and 15th 1993. The written Summative External Evaluation Report will be submitted to the Program Director on or before November 15, 1993 for response or acceptance. If response is requested by grantee, the response will be submitted to evaluator by November 30, 1993 and evaluator will submit final evaluation document to Program Coordinator by December 15, 1993.

**AGENDA**

**OCTOBER 14, 1993**

9:00AM-NOON

REVIEW OF REQUESTED DOCUMENTATION, REPORTS, CURRICULAR MATERIALS, FINANCIAL AND PROGRESS REPORTS, ETC.

12:00 NOON-1:30PM

LUNCH WITH PROJECT COORDINATOR AND DIRECTOR OF CONTINUING EDUCATION

2:00PM-3:00PM

INTERVIEW WITH FINANCIAL OFFICER, AMY BARKER
OCTOBER 15, 1993

10:00AM-NOON

GROUP INTERVIEW WITH 1) PROJECT DIRECTOR, 2) PROGRAM COORDINATOR, 3) TWO OR THREE MEMBERS OF ADVISORY INTER AGENCY COUNSEL (SHOULD HAVE REPRESENTATION OF WORKPLACES WHICH ACTIVELY PARTICIPATED IN BASIC LITERACY TRAINING, SPECIFIC JOB TRAINING, COMPUTER TRAINING, AND TEAMWORK TRAINING) AND 4) THREE OR FOUR EMPLOYEE PARTICIPANTS REPRESENTING BASIC SKILLS, JOB SPECIFIC, COMPUTER, AND TEAMWORK TRAINING (I WILL NOT KEEP THESE PEOPLE OUT OF WORK VERY LONG)

AFTERNOON

ASSIMILATION, CLARIFICATION, SUMMATION

As written in the grant, the summative evaluation will primarily be based on quantifiable data. In preparation for the evaluation, I have listed a number of informational items which are basic to the evaluative process and related questions which must be answered. I would suggest, and certainly appreciate, that information to support the following be available for review on the morning of October 14th:

- List of companies, businesses, agencies, and unions targeted, with number of employees.
- Representation of these targeted workplaces on the advisory board and/or interagency council.
- Targeted workplaces which involved their supervisors and managers in the assessment of literacy needs.
- Targeted workplaces which participated in the assessment of basic skills of their employees.
- Number of employees at each site which were identified as needing basic skills training in one or more areas.
- Of these showing need for basic skills training, how many were enrolled in classes? Show the number at each site and the training program they were involved in.
- Documentation of the skills levels of participants before and after training for each type of training offered. Did the participants benefit? How was this progress measured (pre and
post evaluation design)? Are the participating workplaces recognizing this achievement of participating employees? If yes, how?

Statements from participating workplaces as to the success of the program. How has participation benefitted these organizations?

List of targeted workplaces which provided on-site training.

Which targeted workplaces offered support in terms of release time for employee participation, other incentives for participation?

As a demonstration project, how has this project served as a model for the region? What efforts have been made to disseminate the results of the project? Future plans?

The following specific documents as referred to in the grant are requested for review:

- Course documents (syllabi, outlines, etc.) for each training program offered
- Minutes of meetings of Interagency Council
- Minutes of meetings of Advisory Board
- Monthly formative reports and final summative report of Project Director
- Financial Reports and budget as funded
- Copy of THE BOTTOM LINE: BASIC SKILLS IN THE WORKPLACE
- Copy of the assessment instruments used to identify needs and placement of participants—literacy audit, specific skills audit, other instruments
- Copy of evaluation instruments used to assess achievement
- Partner's Agreement Forms
- Examples of IEPs
- Quarterly financial and progress reports, status reports
- Resumes of key personnel
- Data of learner results
- Other data, materials, documents, etc. which the Project coordinator deems significant

Please call me if you have questions or concerns related to this plan and request for documentation. I looking forward to working with you and having the opportunity to see first hand the results of your Workplace Literacy Project.

Sincerely,

Linda

Linda H. Burkett, Ed.D
Dean of Extended Services

APPENDIX I
NATIONAL WORKPLACE LITERACY PROGRAM
INFORMATION FORM

Part 1: Program Parameters

1. Target No. to be Served: 725
   $260,102.00

2. No. Served at Each Site to Date:

   Norris Trim 22
   Penn Va 40
   Ramada Inn 1
   Joy Tech 0
   *Cypress Foote Mineral 7
   Buster Brown 0

3. Total No. Served: 70

Part 2: Participation Data

1. Mean Age Participants: 36-50

2. Sex: No. Males 35 No. Females 35

3. Race/Ethnicity: No. who are:
   White 70
   Am. Indian/Alaska Native 0
   Black 0
   Asian/Pacific Islander 0
   Hispanic 0

4. No. Single Head of Household: 20

5. No. Limited English Proficient: 0

6. Outcomes
   No. Participants
   a. Tested higher on basic skills pending 0-5 21
   b. Improved communication skills pending 6-10 19
   c. Increased productivity pending 11-15 29
   d. Improved attendance at work pending 16-over 1
   e. Increased self-esteem pending

* Cyprus Foote Mineral is a new partner in this project. They were not among the partnership at the beginning of the project.

COMMENTS: We are currently in the process of developing additional customized courses for Joy Technologies, Norris Trim, Penn VA Resources Corporation, Cyprus Foote Mineral, and
Ramada Inn.

Note: All figures are based on data compiled from May 1991 through February 1992.

Project Information

Mountain Empire Community College's Human Resource Development Project was funded by a National Workplace Literacy Grant. The federal funding began in May 1991 and ended May 1993. The Project conducted a variety of non-credit activities in the Duffield Industrial Park in Scott County, VA through its partnership with the Center for Business, Industry, & Government and Adult Basic Education. Training sessions were conducted on site at area businesses, the Human Resource Development Project training labs, Ramada Inn - Duffield, MECC, and other sites deemed appropriate by college personnel. The Project has an office and two training labs located at the Duffield Ramada Inn.

Accomplishments Vs Objectives

According to the goals and objectives of the National Workplace Literacy grant:

Goal 1: to raise the basic skills level in the targeted workplaces:

Obj. 1.1 is to build management and union support for skills training programs in workplace basics. This objective was accomplished. Management has encouraged employees needing certain skills training to participate in training programs. Some have even gone as far as allowing employees to set their own 40 hour work schedule in order to take classes, and paying release time. The union we worked with eagerly encouraged fellow employees to take advantage of our project and some union representatives participated in training programs themselves.
Obj. 1.2 is to present strategy and action plan for management and, where applicable, union approval. Management participated in the approval of all training plans, but the union involvement was limited to only a couple of training programs.

Obj. 1.3 is to assess the basic skill levels of the workers. Assessment of basic skills was only conducted on employees who were interested in participating in the Basic Skills classes due to the lack of interest in assessment of basic skill levels of all workers.

Obj. 1.4 is to provide basic skills instruction with an adult-centered curriculum. This was accomplished through the BLS Tutor systems program and through the Regional Adult Basic Education Center.

Obj. 1.5 is to provide instruction at the work site or similarly convenient location that are conducive to adult learning. This was accomplished by setting up training labs within at least 2 miles of each partner in the project, as well as conducting many training programs on site.

Obj. 1.6 is to maintain documentation of employee participants' basic skills progress. This was accomplished through a computerized record keeping system in the BLS programs and by the instructor's files.

Obj. 1.7 is to monitor and evaluate the workplace basic skills training program. This was done periodically by the instructor, the coordinator, and Adult Basic Education.

Goal 2: to train employees in organizational effectiveness and teamwork skills:
Obj. 2.1 is to identify with the business partners the organizational needs of the workplace. This was done through a needs assessment of 5 out of the 8 partners in this project. Those who did not participate in the needs assessment had already identified areas for which training was needed and did not wish to participate.
Obj. 2.2 is to design a series of instructional programs focusing on issues of organizational effectiveness and teamwork. This was accomplished through a program entitled "Munch and Manage". This program offered 7 different issues on organizational effectiveness and teamwork and was conducted during the week at lunch. In addition to "Munch and Manage", several customized programs concerning such issues were developed for various partners in the project and are described in detail later in this report.

Obj. 2.3 is to implement the program with supervisors, union leaders and employee team leaders. All customized training programs were implemented with the advice of supervisors, union leaders and employee team leaders. General training programs were implemented with the advice of most management leaders and the interagency council.

Obj. 2.4 is to evaluate the organizational effectiveness training program from the perspective of the program participants and management. This was done at the completion of each training program through program evaluation forms from participants and by personal follow-up with management through the project coordinator.

Goal 3: to demonstrate a collaborative effort among publicly funded organizations serving a rural area to pool resources and reduce duplication of effort:

Obj. 3.1 is to develop an interagency council made up of key personnel to facilitate communication and program implementation. An interagency council was effectively established for this project. Each member of the interagency council helped facilitate communication with participants, management, and union members, as well as playing a key role in the implementation of each training program by identifying needs and developing curriculum.
Obj. 3.2 is to evaluate the effectiveness of the collaboration based upon the meeting of the goals and objectives of the project and interviews of the key personnel by an external evaluator. Two external evaluators have completed their reviews of the project - the first was completed in April 1992 and the second was completed in October 1993.

Unfortunately, target dates for completing the above objectives were not met due to several uncontrollable factors. Completion of needs assessments and implementation of training programs were delayed 3 to 6 months due to the economic downturn of the region. Four of the eight partners experienced lay-offs during the start-up period of the grant. Employers were therefore unable to devote time and resources to conducting assessments and training.

In addition, the first project coordinator was not hired until August 1991 - 3 months after the grant was initially awarded. In November 1991, the first project coordinator resigned and the next coordinator was not hired until January 1992 and the secretary for the existing coordinator was not hired until April 1992. These changes in personnel delayed conducting some assessments and implementing training programs. A six month extension of the grant was awarded due to the various circumstances surrounding the delay of the start-up period.

Although these delays existed, the project successfully completed almost all objectives before ending the project period in May 1993.

**Projected Number Of Participants**

The target number of participants to be served under this project was 725:

- Basic Skills & Learning to Learn 100
- Job Specific & Communication Skills 225
- Organizational Effectiveness & Teamwork Skills 400
The actual number of participants to be served under this project was 537:

- Basic Skills & Learning to Learn 36
- Job Specific & Communication Skills 149
- Organizational Effectiveness & Teamwork Skills 352

Out of 37 participants in Basic Skills, 20 completed the program and tested higher on basic skills. All those who participated in Job Specific & Communication Skills and Organizational Effectiveness & Teamwork Skills completed planned project activities. Only 3 out of 8 partners reported that 164 participants in the instructional areas of Job Specific & Communication Skills and Organizational Effectiveness & Teamwork Skills either stayed the same or improved in these areas. Outcomes for the remaining participants in these areas were undetermined due to lack of response from employers on post-program evaluations.

**TRAINING PROGRAMS OFFERED**

**Business/Industry Customized Training**

The Project began conducting a course in “Supervisory Skills” for 15 employees at Joy Technologies in February 1993. Training was completed in April 1993. “Supervisory Skills” is designed to teach the fundamental concepts and techniques needed for quality supervision, supervisor’s role, team building and problem solving, and legal issues. This course is a spin-off from a previous course designed for 28 Joy employees in “Career Development” which is designed to teach values of career planning, career self-assessment, developing strategies, preparing a career development portfolio, etc. This course was conducted at the Ramada Inn from June 1992 - July 1992.
Penn Virginia Resources Corporation has been involved in many different aspects of training through the Project. Their most in-depth training has been in Organizational Effectiveness. This training program is designed for all 70 employees and includes the development of vision, mission, values, goals, and a strategic plan for the deployment of the entire Quality Improvement and Team Building program and is being conducted at the Ramada Inn-Duffield. Previous courses for PVRC include "Communicating with Computers" for 9 employees from August 1992 - October 1992. This course is designed to teach the fundamental aspects of hardware and software for technological improvement in business, industry, government, and education. Twenty-eight employees participated in "Communicating with Spreadsheets" (March 1992-October 1992), an introduction to terminology and the use of spreadsheets in performing particular job tasks; projects are designed for on-the-job use to clearly demonstrate and communicate needed data to others. "Relational Database Communications", an introduction to the terminology and use of a relational database in performing particular job task; projects are designed for on-the-job use to clearly communicate data to others, consisted of 10 employees and was conducted from May 1992 - June 1992. All computer courses were conducted at the Human Resource Development training labs. A course in "Business Letter Writing" was conducted at MECC for 16 employees. The purpose of this course is to teach basic skills in business letter writing; punctuation, spelling, word usage, 5 components of good business letters, reference materials, types of letters, word division, etc.

Norris Trim has been involved in one course conducted on-site: "Team Building & Problem Solving", designed to assist employees in organizing for team building and problem solving to create opportunities for improvement in organizational effectiveness; and three courses conducted at the HRD training labs: "Communicating with Computers", "Communicating with Spreadsheets", and "Word-processing Communications", an introduction to terminology and use of word-processing in performing particular job tasks; projects are designed...

Eight **Buster Brown** employees began training in "Word-processing Communications" in January 1993. Training was completed in April 1993. They have had 5 employees complete the course "Communicating with Computers" conducted from October 1992 - January 1993. Also one employee completed training in "Communicating with Spreadsheets" in May 1993. Each course was conducted at the HRD training lab.

**Cyprus Foote Mineral** received training for all employees in "Team Building & Problem Solving" in October 1991 at the Ramada Inn. Eight employees participated in "Communicating with Spreadsheets" from February 1992 - June 1992 at the HRD training lab and 11 employees attended a course at Ramada Inn in "Managing Your Own Behavior" which is designed to help others to take positive action, achieve goals, and build self-esteem. A second course in "Managing Your Own Behavior" was conducted for a full week in April 1993. Fifteen employees completed this course which was conducted at the Ramada Inn.

The **Project** conducted a course in "Word-processing Communications" for 8 **Natural Tunnel State Park** employees at the HRD training lab. This course began in February 1993 and was completed in May 1993. NTSP also received training for 5 employees in "Communicating with Computers" from September 1992-November 1992 at the HRD lab.
The Ramada Inn - Duffield requested a training and motivation program designed to equip 34 employees with the skills and attitudes necessary to create the level of guest service that produces return business. The course was titled "You're Somebody Special" and was conducted on-site from April 1992-July 1992. Two RI office employees have also been involved in "Communicating with Computers" (August 1992-December 1992) and "Effective Communication with Software Packages" (February 1993-March 1993), an introduction to terminology and use of a complete software package in performing particular job tasks; projects are designed for on-the-job use to clearly demonstrate and communicate needed data to others. Both courses were taught at the HRD training labs.

One course in "Communicating with Computers" was conducted for eight employees of the Duffield Adult Residential Center from March 1993 - May 1993. Training was conducted at the HRD training labs.

Ridgecrest Manor Nursing Home had sixteen employees to complete "Communicating with Computers" in May 1993. Two courses were offered at different days and times to meet the schedules of the employees. Six employees participated in one course and the remaining ten participated in the other. Training was conducted at the HRD labs.

General Courses Offered

Basic Learning Skills was a course offered at the Human Resource Development Project lab on Mondays and Wednesdays. Instruction of this program utilized the BLS STAT basic skills series. This series provided intensive review and remediation of basic skills for adults. The ten courses in the integrated instructional system covered
math, reading, grammar, and offer fast results with GED, ABE, high school competency, workplace literacy, college remediation, and high school dropout prevention. Lessons automatically adapted to the student's progression and comprehension by the use of logical branching sequences; correct responses move the student forward through the lesson, while incorrect responses lead the student to supplemental information and an explanation of the error. Immediate feedback is provided for all responses. Student manuals and reproducible student worksheets were provided for reinforcement and skill transfer to printed page. There was a short test at the conclusion of each lesson. This ensured the student's mastery of the material before allowing them to proceed. Student record keeping was automatically maintained by way of a student record management system. This course was open to all employees in the Duffield Industrial Park and consisted of participants from Norris Trim, Buster Brown, Joy Technologies and Cyprus Foote Mineral for a total of 36 students.

A series of Financial Planning Workshops was offered through the Project and open to all Duffield Industrial Park employees. These workshops provided expertise in carefully designing a plan which would provide financial security in the future. Topics included money management, retirement planning, and investments. A workshop was offered in April 1992 at the Ramada Inn and consisted of 12 participants.

In September - October 1991 a series of Munch and Manage seminars open to employees in the Industrial Park was conducted at the Ramada Inn. The purpose of these mini-seminars was to give managers and supervisors a chance to sample what the Human Resource Development Project had to offer for their organization, as well as allowing them to renew some of their management skills. Topics included Time Management, Work Styles, Communications Skills, Conflict Resolution, Team Building, Adventures in Attitudes, and Stress Management. A total of 43 participants attended these seminars.
As a result of the Munch and Manage series, the Project offered a **Lunch and Learn seminar** in November 1992 titled “Motivating Others”, a program designed to help others take positive action, achieve goals, and build self-esteem. This seminar was broken down into three sessions, each held at the Ramada Inn, and included a total of 10 participants.

**Dissemination Activities**

Due to the success of the Human Resource Development Project, most partners previously under the grant are now paying for the training programs they once received at no cost under the project. In addition, many of the training programs have been expanded to organizations in other counties. These training activities have also been shared with other community colleges and educational programs in the area.

**Evaluation Activities**

The Human Resource Development Project has been evaluated on all training activities by each participant in each program. Two external evaluations were conducted of the project - one in April 1992 by Rex Adams and the second in October 1993 by Linda Kilgore Burkett.

**Changes in Personnel**

At the beginning of the project, Peggy Rusek was named Project Director, Susie Tinnon was hired as Project Coordinator, and Mitzi Holyfield was hired as the Office Services Assistant. In November 1991, Susie Tinnon resigned as Project Coordinator and Mitzi Holyfield was hired as Project Coordinator in January 1992. Debra Speck was hired as Office Services Assistant in April 1992 and Sue Ella Boatright replaced Peggy Rusek as Project Director in July 1992.
Summary

The Project has attempted to meet the needs of the partners of the National Workplace Literacy Initiative and has worked closely with all partners to identify the needs of each individual organization. Each training program was developed as a result of needs identified and in cooperation with Project trainers and representatives from the organization for which each training program was developed. We feel confident that our partners have received the training that was best suited for the needs of their particular organization. This summation is based on the evaluations of each individual who participated in each training program and from follow-up conversations with the management personnel of each company upon completion of each program.
6a Personnel
Project Director (30% for 18 months based upon $48,000 annual salary) $49,500
Project Coordinator (100% for 18 months based upon $33,000 annual salary) $21,000
Clerk Typist (100% for 18 months based upon $14,000 annual salary) $21,000
Educational Providers Representatives (20% for 18 months based upon $40,000 annual salary of each) $24,000
Technical Assistance—computers, marketing & promotion, a-v services $5,000
Staff time of business & industry partners (78 wks x 20 hrs./wk x 25 people) $39,000
Subtotals $70,500 $89,600

6b Fringe Benefits (Current rate is 33%)
Project Director $7,128
Project Coordinator $16,335
Clerk Typist $6,930
Two education providers representatives $7,920
Subtotals $23,265 $15,048

6c Travel
Two project directors' meetings
Washington, DC
Airfare $500 x 2 trips $1,000
Lodging 2 nights x $120 x 2 trips 480
Meals 3 days x $50 x 2 trips 300

Washington, DC 20202-4835

Dear Ms. Tynes:

Enclosed is the Financial Status Report for the FY 1991 National Workplace Literacy Program (CFDA 84.198A). Project Title Human Resources Development Project (Workplace Literacy Initiative in Southwest Virginia), Award No. V198A10075.

The budget includes expenditures to date and does not account for encumbrances. We will send an amended budget after encumbrances have been expensed.

Should you desire additional information, please let us know.

Sincerely,

Mitzi Holyfield
Coordinator
Human Resource Development Project

Enclosure

FINANCIAL STATUS REPORT

(U.S. DEPT OF EDUCATION)

1. Recipient Organization Name and complete address, including ZIP code:
   MOUNTAIN EMPIRE COMMUNITY COLLEGE
   BIG STONE GAP, VA 24219

2. Federal Grant or Other Identifying Number Assigned By Federal Agency:
   V98A10075-91

3. Recipient Account Number or Identifying Number:
   314

4. Period Covered by this Report:
   From: 5/01/91 To: 5/31/93

10. Transactions:
   a. Total outlays
      Previously This Cumulative
      Reported Period
      $407,987.00
   b. Recipient share of outlays
      $165,544.00
   c. Federal share of outlays
      $242,443.00
   d. Total unliquidated obligations
      $242,443.00
   e. Recipient share of unliquidated obligations
   f. Federal share of unliquidated obligations
   g. Total Federal share (Sum of lines c and f)
      $242,443.00
   h. Federal funds authorized for this funding period
      $260,102.00
   i. Unobligated balance of Federal funds (Line h minus line g)
      $17,659.00

11. Indirect Expense
   a. Type of Rate (Place "X" in appropriate box)
      X Preceded
      X Final
      X Fixed
   b. Rate
      8%
   c. Base
      $240,835.00
   d. Total Amount
      $19,267.00
   e. Federal Share
      $19,267.00

12. Narrative: Attach any explanation deemed necessary or information required by Federal sponsoring agency in compliance with governing legislation.

13. Certification: I certify to the best of my knowledge and belief that this report is correct and complete and that all outlays and unliquidated obligations are for the purposes set forth in the award document.
