ABSTRACT

This bibliography contains 163 entries related to rural and community leadership. The entries were derived from the AGRICOLA database produced by the National Agricultural Library and include journal articles, Extension bulletins, books, conference papers, and government reports. Entries cover such topics as leadership training, community leadership, rural development, team teaching, educational programs, related rural extension activities, government role, and programs for adolescents and young adults. Each entry includes title, author, publisher, publication date, journal or conference information (where appropriate), language, descriptors, and the National Agricultural Library call number. Some entries contain an abstract or annotation. Also included are indexes by author and subject and information about interlibrary loan from the National Agricultural Library. (LP)
Bibliographies in the Quick Bibliography Series of the National Agricultural Library are intended primarily for current awareness and as the title of the series implies, are not indepth exhaustive bibliographies on any given subject. However, the citations are a substantial resource for recent investigations on a given topic. They also serve the purpose of bringing the literature of agriculture to the interested user who, in many cases, could not access it by any other means. The bibliographies are derived from computerized on-line searches of the AGRICOLA database. Timeliness of topic and evidence of extensive interest are the selection criteria.

The author/searcher determines the purpose, length, and search strategy of the Quick Bibliography. Information regarding these is available upon request from the author/searcher.

Copies of this bibliography may be made or used for distribution without prior approval. The inclusion or omission of a particular publication or citation may not be construed as endorsement or disapproval.

To request a copy of a bibliography in this series, send the title, series number and self-addressed gummed label to:

The Rural Information Center (RIC) is a joint project of the Extension Service and the National Agricultural Library (NAL). RIC provides information and referral services to local government officials, community organizations, health professionals and organizations, cooperatives, libraries, businesses, and rural citizens working to maintain the vitality of America’s rural areas. The Center combines the technical, subject-matter expertise of Extension’s nationwide educational network with the information specialists and resources of the world’s foremost agricultural library.

The Office of Rural Health Policy in the Department of Health and Human Services (DHHS) and the NAL jointly created a Rural Information Center Health Service (RICHS) as part of the RIC. RICHS collects and disseminates information on rural health issues, research findings related to rural health, and innovative approaches to the delivery of rural health care services.

SERVICES:

Provide customized information products to specific inquiries including assistance in economic revitalization issues; local government planning projects; rural health issues; funding sources; and other related issues for the purpose of monitoring the quality of rural life.

Process a broad array of general and funding information requests on such topics as:

- Successful strategies, models, and case studies of community development projects
- Small business attraction, retention, and expansion
- Tourism promotion and development
- Recycling programs
- Community water quality
- Technology transfer to rural areas
- Closures, restructuring and diversification of rural hospital and clinics
- Agricultural health and safety
- Health programs, services, personnel issues
- State initiatives concerning rural health delivery issues

Refer users to organizations or experts in the field who can provide additional information.

Perform brief database searches of requested topics on a complimentary basis.

Furnish bibliographies and Rural Information Center Publication Series titles.

Identify current USDA and DHHS research and Cooperative Extension Systems programs.

Document Delivery Services to Individuals

The National Agricultural Library (NAL) supplies agricultural materials not found elsewhere to other libraries.

Filling requests for materials readily available from other sources diverts NAL's resources and diminishes its ability to serve as a national source for agricultural and agriculturally related materials. Therefore, NAL is viewed as a library of last resort. Submit requests first to local or state library sources prior to sending to NAL. In the United States, possible sources are public libraries, land-grant university or other large research libraries within a state. In other countries submit requests through major university, national, or provincial institutions.

If the needed publications are not available from these sources, submit requests to NAL with a statement indicating their non-availability. Submit one request per page following the instructions for libraries below.

NAL’s Document Delivery Service Information for the Library

The following information is provided to assist your librarian in obtaining the required materials.

Loan Service — Materials in NAL’s collection are loaned only to other U.S. libraries. Requests for loans are made through local public, academic, or special libraries.

The following materials are not available for loan: serials (except USDA serials); rare, reference, and reserve books; microforms; and proceedings of conferences or symposia. Photocopy or microform of non-circulating publications may be purchased as described below.

Document Delivery Service — Photocopies of articles are available for a fee. Make requests through local public, academic, or special libraries. The library will submit a separate interlibrary loan form for each article or item requested. If the citation is from an NAL database (CAIN/AGRICOLA, Bibliography of Agriculture, or the NAL Catalog) and the call number is given, put that call number in the proper block on the request form. Willingness to pay charges must be indicated on the form. Include compliance with copyright law or a statement that the article is for "research purposes only" on the interlibrary loan form or letter. Requests cannot be processed without these statements.

Charges:

- Photocopy, hard copy of microfilm and microfiche — $5.00 for the first 10 pages or fraction copied from a single article or publication. $3.00 for each additional 10 pages or fraction.
- Duplication of NAL-owned microfilm — $10.00 per reel.
- Duplication of NAL-owned microfiche — $ 5.00 for the first fiche and $.50 for each additional fiche per title.

Billing — Charges include postage and handling, and are subject to change. Invoices are issued quarterly by the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, VA 22161. Establishing a deposit account with NTIS is encouraged. DO NOT SEND PREPAYMENT.

Send Requests to:

USDA, National Agricultural Library
Document Delivery Services Branch, PhotoLab
10301 Baltimore Blvd., NAL Bldg.
Beltsville, Maryland 20705-2351

Contact the Head, Document Delivery Services Branch in writing or by calling (301) 504-5755 with questions or comments about this policy.
ELECTRONIC MAIL ACCESS FOR INTERLIBRARY LOAN (ILL) REQUESTS

The National Agricultural Library (NAL), Document Delivery Services Branch accepts ILL requests from libraries via several electronic services. All requests must comply with established routing and referral policies and procedures. The transmitting library will pay all fees incurred during the creation of requests and communication with NAL. A sample format for ILL requests is printed below along with a list of the required data/format elements.

TELEFACSIMILE - Telephone number is 301-504-5675. NAL accepts ILL requests via telefacsimile. Requests should be created on standard ILL forms and then faxed to NAL. NAL does not fill requests via Fax at this time.

REQUIRED DATA ELEMENTS/FORMAT

1. Borrower’s address must be in block format with at least two blank lines above and below so form may be used in window envelopes.
2. Provide complete citation including verification, etc.
3. Provide authorizing official’s name (request will be rejected if not included).
4. Include statement of copyright compliance if applicable.
5. Indicate willingness to pay applicable charges.
6. Include NAL call number if available.

7. Attitudes and bureaucrats: assessing the representativeness of local officials in New Hampshire.
   Luloff, A.E.; Hodges, D.G.
   Language: English
   Descriptors: New Hampshire; Attitudes; Public opinion; Economic development; Local government; Towns
   Abstract: Since the late 1950s and 1960s, New Hampshire has experienced unprecedented growth. During the past two decades, this growth has begun to be felt in the state's North Country, particularly among its many small communities. As a result of developmental pressures in this region, numerous local problems related to the environment and socioeconomic conditions surfaced. The responsibility for meeting the challenges of such growth and development often fell on amateur bureaucrats. Relatively little is known about how representative such officials are of their local citizenry in terms of attitudes and opinions or sociodemographics. This paper presents the results of a study comparing demographic characteristics and assesses the congruence of attitudes of citizens and local government officials in the North Country of New Hampshire.
Attitudes of rural county leaders in the United States towards intergovernmental cooperation.
Seroka, J.
Athena, Ga.: The University of Georgia.

Language: English

Descriptive: Arizona, Illinois, New Mexico, North Carolina, North Dakota, Utah; Rural areas; Counties; Local government, State government; Federal government; Cooperation; Attitudes

Attitudes toward community change: a comparison between rural leaders and residents.
Ayres, J.S.; Potter, H.R.
Superior, Wis.: University of Wisconsin.

Language: English

Descriptive: Indiana; Rural communities, Leadership, Attitudes, Community development, Structural change; Technical progress

Abstract: Community development practitioners are faced with a complex array of opportunities and challenges brought about by technological change. Some communities seem better able to deal with change than others. It is believed that the attitudes of leaders and residents toward community change underlie local actions. The similarities or differences between attitudes of leaders and residents may indicate the amount of community support for or opposition to various local actions and therefore affect the community's ability to deal with change effectively. In an attempt to better understand attitudes toward community change, this paper examines several factors believed to affect such attitudes. Leaders' and residents' attitudes are then compared. Leaders differed significantly from residents in socioeconomic characteristics and were more change-oriented. The level of psychological attachment to the community and the degree of participation in local organizations had the strongest effects on both leaders' and residents' levels of interest in affecting community change. Strategies for more effective local action relevant to community development practitioners are presented.

Descriptive: Arkansas, USA

Black and white leader perspectives on rural industrialization.
Bachel, D.C.; RUSOA: Molnar, J.D.
Knoxville, TN: Rural Sociological Society.

Language: English

Descriptive: Negro, Race, Caucasian; Rural industrial growth; Rural sociology

Abstract: Extract: The role of black residents in rural community affairs has recently undergone an important change. Increased black voter participation, return migration, and changing social attitudes have all contributed to a growing number of blacks being elected and appointed to leadership positions. Although research has demonstrated the uneven consequences of industrial growth for rural communities, industrial development remains a primary interest for many decision-makers. The study examines rural community leader perceptions of the industrialization process based on a set of industry characteristics and community impacts. Focusing on black and white community leaders in eight nonmetropolitan Deep South counties, we use multivariate techniques to examine differences between black and white leaders on selected dimensions of industrialization and assess their cumulative ability to differentiate the two groups.

18 NAL Call No: 281.28 R88
Community attachment among leaders in five rural communities.
O'Brien, D.J.; Hassinger, E.W.
Bozeman, Mont. : Rural Sociological Society.
Language: English
Descriptors: Missouri; Rural communities; Leadership; Attachment behavior; Social interaction
Abstract: The relationship between the different ways leaders may relate to rural communities and their ability to relate to extracommunity individuals and organizations is examined. Drawing from the insights of Merton (1957) into local and cosmopolitan influentialss and a newer literature on community attachment, two dimensions of attachment to the local community are identified. A survey of 75 leaders in five midwestern rural communities provides evidence that sociodemographic and social-network characteristics of leaders have different relationships to the two dimensions. Implications of the findings for understanding the effectiveness of leadership in rural communities are discussed.

19 NAL Call No: HV91.J68
Community group leadership.
Koneya, M.
Boulder, Colo. : Association for Volunteer Administration.
Language: English
Descriptors: Volunteers; Community involvement; Organizations; Group interaction; Development
Abstract: This article looks at basic leadership and group process principles which can be applied to community-based organizations. It examines: balance of power, appropriate leadership styles, source of power and phases of group development.

Community structural changes and the nature of leadership.
Gilbreath, G.L.

Language: English
Descriptors: Georgia; Leadership; Social structure; Structural change; Local authority areas; Community development; Social change; Models; Characteristics; Public relations; Demography; Income; Education; Academic achievement

Abstract: Many communities in the Southeastern United States have experienced dramatic social and demographic change during the past two decades. Much of this change is brought about by population growth as well as other socio-economic transformations such as increases in per capita income and educational attainment. One result has been an obvious change in leadership and social structure at the county level as engendered by these population and socio-economic factors. The objective of this research is to examine the nature of leadership and structural change in a Southern county that has been experiencing this categorical type of transformation. More specifically, this research focuses upon how changes in local leadership affect the social structure and how this changed social structure affected decision making at the county level.

Language: English

Descriptors: Mississippi; Extension; Community development; Leadership training

Developing local leaders: results of a structured learning experience.

Bolton, E.B.
Superior, Wis. : University of Wisconsin.

Language: English

Descriptors: Florida; Leadership training; Community development; Extension; Social participation; Program development

Abstract: This study reports on the outcomes of a leadership program designed to develop a cadre of local leaders in voluntary associations to be active in identifying and resolving local and regional issues. The analytical method selected was a pre-experiment design using the one-group pretest-posttest procedure. Knowledge gains of participants showed statistically significant differences at the posttest. Gains in the capability to use knowledge and self-confidence as a leader were positive, but only a small number of the measures used were statistically significant. The outcomes show that members of voluntary associations gained in terms of their knowledge of leadership but evidenced limited improvement in their capability and self-confidence to use the skills in contexts within the community. The implications for community development practitioners are: (1) voluntary associations are an important means of recruiting and developing local leaders; and (2) extension home economics programs that focus on broad issues, as opposed to disseminating traditional subject matter, perform a vital community development role.

A nation for families : family life education in public schools : a handbook of realities, recommendations and resources for educators, administrators, and community leaders /.
Sheek, G. William

Language: English
Descriptors: Reference materials; Family life education; Curriculum development; Educational programs; Program design; Family life; Family (Sociological unit); Family health; Family environment

Abstract: A comprehensive review of and commentary on family life education in public schools throughout the US is presented for educators, administrators, and community leaders. The material addresses aspects of social, economic, political and technological pressures that families must face within the continuity of family life while ensuring family well-being. External and internal factors concerning family well-being are discussed and family life education programs at the local and at the State and Territorial levels are described. Major attention is placed on common components in innovative programs (community relations, educational goals, strategies, and curricula, and personnel characteristics) and on central issues concerning community acceptance, continuing education of educators, as well as the impact of these programs on students. A number of resource materials listings are appended. (wz)

Erney, Tom; Resnik, Hank; Eckland, Ruth
Columbus, Ohio?: Association of Junior Leagues : Quest National Center.
Language: English
Descriptors: Youth; Community leadership; Study and teaching; Interpersonal communication; Study and teaching

Abstract: Project LEAD trains adult leaders and high school students to work in teams to address school, family, and community needs through direct service projects and advocacy. Each team consists of an Adult Leader, four students selected in a peer- or self-selection process, and a Co-Leader, usually a teacher, who has an interest in working with young people in order to foster their growth in the areas of decision making, problem solving, interpersonal relations, leadership style, and communication. Through the use of resource materials and formal workshops, the team is trained in community research, organization, management, and action planning. The project is divided into the following five components through which this manual will guide you: Adult leadership responsibilities and skills, Community needs assessment, Selection of Student leaders, Program development and implementation, Public relations-informing the public.

Public Voice for Food and Health Policy
Washington, D.C.; Public Voice for Food and Health Policy.

Language: English

Descriptors: Nutrition; Community organization; Low-fat diet; Dietary fat; Community programs; Community action; Community education

Abstract: This booklet provides ideas and strategies for community nutrition program development with the objective of lowering the fat content of the average American diet. The community action strategies outlined concentrate on three areas: the private section (food markets, restaurants, institutional food services, and food writers); state and local governments; and, community education. Over 25 ideas are presented for programs and policy changes that can make a difference in the amount of fat contained in the community's diet.

Satisfaction with rural services: the policy preferences of leaders and community residents.
Molnar, J.J.; Smith, J.P.
Provo, Utah, Rural Sociological Society.
Rural sociology v. 47 (3): p. 496-511; Fall 1982. 41 ref.

Descriptors: Alabama; Rural areas; Community services; Public finance

Abstract: Extract: This study examines the relationship between satisfaction and spending preferences among community leaders and a random sample of household residents in eight rural Alabama counties. The results suggest that moderate levels of dissatisfaction contribute to a willingness to spend more money on a service. The most satisfied respondents wanted to spend the same on most services. The potentials and limitations of citizen evaluations are discussed.

151 NAL Call No: 281.28 R88
The social networks of leaders in more and less viable rural communities.
O'Brien, D.J.; Hassinger, E.W.; Brown, R.B.; Pinkerton, J.R.
Bozeman, Mont. : Rural Sociological Society.

Language: English
Descriptors: Missouri; Leadership; Rural communities; Viability; Social interaction; Demography

Abstract: The relationship between the social networks of leaders and community viability is examined in a comparative study of leaders (N = 75) in five rural communities (population range, 1,000 to 2,500). The analysis looks at leaders’ connections to organizations outside of their communities and at different kinds of linkages between leaders within their respective communities. Leaders in more and less viable communities do not differ much in characteristics such as age, education, and occupations, but the presence of women in leadership positions is associated with community viability. In addition, there is some support for the expectation that leaders in more viable communities are more likely to have formal linkages to statewide and national networks. The most important finding, however, is that the way in which leaders relate to each other in instrumental tasks within their respective communities is associated with community viability.

152 NAL Call No: HN49.C6S69
South-link 2000 leadership development in the South. (Leadership development in the South South link 2000.)
Southern Growth Policies Board, Tennessee Valley Authority
1 v. (loose-leaf) : ill. ; 30 cm. Loose-leaf format. Supported by assistance from the Tennessee Valley Authority. Includes bibliographical references.

A vision for strengthening local leadership: how to create an effective volunteer coordinator system.
Fox, W.
Lafayette, Ind. : The Service.
4-H - Purdue University Cooperative Extension Service (723): 42 p.; 1989 Feb. Includes references.

Language: English

Descriptors: U.S.A.; 4-h clubs; Volunteers; Leadership training; Teaching materials; Roles; Extension agents

Abstract: This publication is written to guide a team of volunteers and salaried staff through the process of reviewing their current middle management system and creating a strengthened system. The guidepost model and L-O-O-P Model are both described and illustrated in the manual. The role of an Extension Agent who involves volunteer coordinators is described as well as 4 types of volunteer coordinator roles. There are 9 appendices which include a sample survey tool, 3 sample job descriptions for volunteer coordinators, a set of guidelines for providing feedback to volunteers and sample organizational charts.
