This document is a South Carolina curriculum model that identifies four broad areas of study. These components, which should be present in all music education courses, are: (1) aesthetic perception and concept development; (2) creative expression and skills development; (3) music heritage, both historical and cultural; and (4) aesthetic valuing, or application of knowledge and skills.

The first component consists of sound generations and modifications, pitch, rhythm, harmony and texture, form, tempo, dynamics, and timbre. The second component consists of singing, playing, movement, reading and writing music, creating, and listening. The third component consists of personal, musical, social and historical heritage. The fourth component is made up of cultural background, judgment, function of music, music structure and elements, and valuing. Goals and objectives are given for each component. This section is followed by an overview and content divided by the grade levels kindergarten to grade 2, grades 3 to 5, middle school, and high school. The final portion of the framework contains model learning objectives that are specific for the various instructional settings found in the public schools of South Carolina, such as general music, instrumental music and band, string orchestra, vocal music, music theory, music appreciation, and various advanced placement settings. The framework details outcomes of instruction in music that are recommended goals for the comprehensive and balanced program of learning experiences for students. A listing of 21 references is included in an appendix. (DR)

S.C. FRAMEWORK FOR MUSIC EDUCATION

Introduction

The S.C. Framework for Music Education has been in the planning stages for several years. The present work is based on music curriculum guide plans developed by the State Music Consultant during the 1980-81 school year and Basic Art Skills published by the S. C. Department of Education in 1985. The Framework has been developed to assist administrators and music teachers as they seek to improve music teaching and music learning in the public schools of South Carolina.

Overview

The Framework is a curriculum model that identifies four broad areas of study. These components, which should be present in all music education courses, are:

1. Aesthetic Perception
2. Creative Expression
3. Music Heritage
4. Aesthetic Valuing

Goals and objectives are given for each component. This section is followed by an overview and content divided by the grade levels kindergarten-two, three-five, middle school and high school. The final portion of the Framework contains model learning objectives that are specific for the various instructional settings found in the public schools of South Carolina.

The format and content of the Framework reflect the latest research and national trends in music education curriculum design.

Curriculum Planning

Teachers, administrators, students, parents and community members know their expectations for the school music programs. This publication details recommended learner outcomes. The local school district music curriculum committee should bring the local expectations and Framework recommendations together. Decisions about the philosophy, goals, objectives, content and sequence of the music curriculum should be made at the local level.

The actual planning must be a team effort involving a wide range of personnel. Generally the superintendent, with the approval of the board, determines how the curriculum development process will be carried out. In many districts this authority is delegated to an assistant superintendent for instruction, a music coordinator or a music teacher. The person identified to coordinate the curriculum committee should be given the authority and time to develop a quality music curriculum.

The music committee should adopt, adapt and expand the goals, objectives, content and learning objectives given in this
It is recommended that the content of the locally developed curriculum adequately address the four components: Aesthetic Perception, Creative Expression, Music Heritage and Aesthetic Valuing. If a district has a music curriculum, it should be reviewed and revised to insure that it adequately addresses the content of all four components of the Framework.

The South Carolina Framework for Music Education details outcomes of instruction in music that are recommended goals for the music programs of the public schools of South Carolina. The Framework is intended to provide a basis for constructing a comprehensive and balanced program of learning experiences for students. The local music curriculum guide may also contain the following:

- Use of teaching methods adopted by the district such as Orff, Suzuki or Kodaly
- Information on district adopted textbooks
- Competencies for entrance to performing groups
- List of musical terms
- References for music teachers
- Equipment standards
- Performance requirements and restrictions
- Policies on grading music students
- Plans for special populations: handicapped, gifted, educationally disadvantaged, bilingual

**Use by Administrators**

Until a local curriculum guide is produced, the components, content and learner outcomes given in this publication may be used by administrators as a reference for reviewing the music programs in schools they supervise. The learning outcomes given for the various instructional settings are generally accepted statements of what a music program should accomplish.
ACKNOWLEDGEMENTS

This Framework for Music Education was drafted by the State Music Consultant, reviewed by a large number of South Carolina educators and approved by a Statewide Curriculum Committee. The South Carolina Framework for Music Education uses the format of the Basic Art Skills published by the South Carolina Department of Education in 1985. The four-component plan is drawn from the California Visual and Performing Arts Framework as well as other current research. Special thanks go to the Education Departments of California, Florida, Georgia, Minnesota and Ohio for granting permission to use their curriculum publications in drafting the South Carolina Framework for Music Education. A complete list of references used is given in appendix A.

The South Carolina Framework was read/reviewed by the following South Carolina educators: Eleanor Avant, Bill Ackerman, Liza Stockman, Jackie McNeill, Proctor Hawkins and Dr. Charles Elliott. Also, Dr. Barbara Vaughn, Terry Holliday, Steve Morlan, Arletta Raley, Mary Ada Phillips, Edith Davis, John Mabry and John Williams.

1.2 Sound modifications
1.3 Pitch
1.4 Rhythm
1.5 Harmony/Texture
1.6 Form
1.7 Tempo
1.8 Dynamics
1.9 Timbre

Component Two: Creative Expression-Skills Development
2.1 Singing
2.2 Playing
2.3 Movement
2.4 Reading and Writing Music
2.5 Creating
2.6 Listening

Component Three: Music Heritage-Historical and Cultural
3.1 Personal Heritage
3.2 Musical Heritage
3.3 Social and Historical Heritage

Component Four: Aesthetic Valuing-Application of Knowledge and Skills
4.1 Cultural Background
4.2 Judgment
4.3 Function of music
4.4 Music structure and elements
4.5 Valuing
FRAMEWORK

COMPONENT ONE: Aesthetic Perception - Concept Development

GOALS:
1. To develop sensitivity to the expressive qualities of music.
2. To increase aural awareness.
3. To encourage musical responsiveness, involvement, and discrimination.
4. To promote understanding of the nature and structure of music.

OBJECTIVES: The students will:
1. Demonstrate an understanding of how sound is produced and modified.
2. Demonstrate an understanding of the elements of music.
3. Demonstrate an understanding of the structure and form of music.
4. Demonstrate understandings which will lead to the effective use of written notation.
COMPONENT ONE: Aesthetic Perception - Concept Development

OVERVIEW:

Grades K-2

Students will experience a wide variety of sound sources, recorded music, and live performances. Students will reflect upon and talk about their experiences.

Grades 3-5

Students will participate in a wide variety of musical experiences and use concepts learned about sound/music to describe their feelings.

Grades 6-8/7-9

Students in grade 6-8/7-9 will continue to refine their aesthetic perception by participating in, selecting, enjoying and analyzing musical works.

Grades 9-12

Students in grades 9-12 will develop understanding of the concepts of music that will serve as building blocks for future development of aesthetic judgment.

CONTENT:

1.1 SOUND GENERATION

Experience sounds from a variety of sound sources.

Describe how sounds are made with the voice, instruments and non-musical objects.

Use sound production method to categorize sounds.

Develop an understanding of the science of sound.

1.2 SOUND MODIFICATION

Experience various methods of changing sounds.

Identify the way a sound is altered.

Analyze the factors which cause sound to change.

Relate sound modifications to the science of sound.
### MUSICAL ELEMENTS:

**Grades K-2**
- Discriminate between high and low and identify pitch directions with body movements.
- Match pitches in vocal range.
- Locate high/low sounds on pitched instruments (bells, xylophone, etc.)
- Identify melodic direction as up, down, or repeat.
- Recognize contrast of major and minor tonalities.

**Grades 3-5**
- Discriminate between high and low and identify pitch directions with symbols.
- Match pitches in vocal range.
- Identify high and low from notation.
- Identify melodic direction as repeating, skipping, or stepping.
- Identify additional intervals of second, sixth, and seventh.

**Grades 6-8/7-9**
- Discriminate between high and low and identify pitch direction with music symbols and terms.
- Match pitches in vocal range. Adjust pitch for accurate tuning.
- Read melodic patterns.
- Identify melody intervals of unison, octave, third, fifth.
- Describe relationship between major and minor scales.

**Grades 9-12**
- Discriminate between major scales (7 tones) and pentatonic (5 tones) scales.
- Match pitches in vocal range. Adjust pitch for accurate intonation.
- Read and write melody.
- Identify additional intervals of second, sixth, and seventh.
- Distinguish between major and minor scales.

TIMBRE: (cont.)

Grades K-2

Recognize and identify folk instruments, classroom instruments and selected orchestral instruments.

Group instruments by sound and sight.

Distinguish between electronic sounds and traditional instrument sounds.

Grades 3-5

Expand knowledge of all folk instruments, orchestral & band instruments.

Classify instruments according to traditional families.

Recognize electronic sounds in commercial settings such as television and movies.

Identify sounds produced by a synthesizer.

Grades 6-8/7-9

Identify instrumental sounds as they relate to styles and use in various ensembles.

Recognize major large ensemble groupings such as band, orchestra, chamber orchestra by sight and sound.

Recognize electronic sounds in commercial settings such as television and movies.

Identify sounds produced by a synthesizer.

Grades 9-12

Recognize by sight and sound instruments used in various large and small ensembles.

Distinguish by sight and sound between the major smaller instrumental ensembles such as woodwind choir, string quartet, percussion ensemble, and various ethnic groups.

Expand knowledge of electronic sounds including synthesizer and computer interface.
COMPONENT TWO: Creative Expression - Skills Development

GOALS:
1. To become sensitive to the expressive qualities of musical sounds.
2. To develop musical responsiveness, involvement and discrimination.
3. To develop skills necessary to become capable and intelligent performers, creators and consumers of music.

OBJECTIVES:
The students will:
1. Listen to music attentively and respond appropriately.
2. Perform music using a variety of sound sources.
3. Communicate musical ideas effectively through the use of notation.
4. Demonstrate ability to develop and communicate original musical ideas.
COMPONENT TWO: Creative Expression - Skills Development

OVERVIEW:

Grades K-2

Musical expression requires development of technical skills. During the K-2 years students become involved in experiences that develop an awareness of singing, playing, creating, moving and listening to music.

Grades 3-5

Continued development of music expression is encouraged. Students will sing and play instruments from written notation and create own notation system. They will be encouraged to improvise and create sound collages. Some will begin formal instrumental studies. Information on careers in music will be introduced.

Grades 6-8/7-9

Students will broaden their interest in music studies as well as pursue personal interest in band, orchestra or chorus. Singing, playing, creating and listening experiences will be broadened to include a wide range of musical media, form and style. Greater accuracy, facility, and clarity will be required. Students will continue to develop knowledge about careers in music.

Grades 9-12

Students will develop special interest areas of singing, playing instruments, composing, conducting or listening. Some will consider careers in one or more areas of music.

CONTENT:

2.1 SINGING:

Grades K-2

Differentiate between singing voice and speaking voice.

Grades 3-5

Sing in tune alone or with group using clear, free tone and correct breath support.

Grades 6-8/7-9

Sing as accurately and as independently as possible to develop an understanding and awareness of head and chest tones.

Grades 9-12

Sing accurately an appropriate part in an ensemble with and without accompaniment.

GOALS: 1. To develop awareness and demonstrate knowledge of the styles, idioms, performance media and purposes of musics that are part of our multicultural heritage.

OBJECTIVES: The students will:

1. Identify and become familiar with their own musical heritage.
2. Identify some of the expressive elements in the music of different cultures and ethnic groups.
3. Describe some of the social and historical situations which have influenced the composition, style, selection and performance of music.
COMPONENT THREE: Musical Heritage - Historical and Cultural

OVERVIEW:

Grades K-2
The students become aware that music reflects many cultural and ethnic backgrounds, takes many forms, has a place in history and is reflected personally in their background.

Grades 3-5
The students relate their ethnic cultural musical backgrounds to that of other students. Become aware that historical settings influence musical form and style. Recognize a variety of musical forms and styles.

Grades 6-8/7-9
The students recognize the relationships between music and its cultural heritage as well as how this relationship has influenced the music's form.

Grades 9-12
The students compare and analyze the effect of social, ethnic and cultural influences on music. Are able to classify music as to historical period.

CONTENT:

3.1 PERSONAL HERITAGE:

Grades K-2
Become aware that music is a part of and a reflection of many cultures and ethnic groups.

Grades 3-5

- Use mechanical adjustments to achieve accurate intonation
- Perform from notation normal, legato, marcato, staccato and slurred articulations
- Perform combinations of slur-tongue articulations, e.g., $\ddagger\ddagger$
- Perform a part individually at a steady tempo
- Follow individual part while listening with a full score in hand
- Sightread musical passages containing quarter, half, and eighth note patterns and rest of corresponding values.
- Adjust pitch and tone color through breath support and embouchure adjustment

- Write and play all major scales through three sharps and three flats, one or two octaves, depending upon the instrument and a chromatic scale through the developed range

Percussionist: Perform controlled tympani or mallet roll, snare drum rudiments 2, 3, 4, 5, 6, 7, 8, 9, 12, 21 and the long roll in traditional open-closed-open style

Percussionist: Demonstrate knowledge of matched grip and traditional grip
INSTRUCTIONAL SETTING: INSTRUMENTAL MUSIC-BAND

Learning Objectives

By the completion of this level, students are able to:

- Continue to play with correct posture, embouchure and position own chosen instrument
- Continue to develop resonant tone that is the characteristic sound of chosen instrument
- Identify an outstanding performer of chosen instrument
- Continue to develop correct breathing and tonguing (sticking technique in percussion) on chosen instrument
- Continue to develop ability to perform as a soloist and in a variety of ensembles both large and small
- Play with correct phrasing and appropriate expression
- Interpret correctly pitches, rhythms, and other notational symbols through playing
- Respond to the conductor
- Perform the literature assigned to the expected level of competency
- Demonstrate improved skill at reading music and growth in musicianship
- Identify from aural stimuli the timbre of band and orchestra instruments
- Recognize major and minor scales and arpeggios from notation and know relationship of major to minor
- Write and play all major and minor scales
- Discuss the historical and cultural background of works performed
- Demonstrate knowledge of the lives of composers whose music is performed
- Analyze the works performed by the ensemble in terms of the elements of music
- Describe the form and structure of works studied and heard
INSTRUCTIONAL SETTING: INSTRUMENTAL MUSIC-BAND

Learning Objectives

By the completion of this level, students are able to:

- Identify and compare styles of music from four historical eras e.g. Baroque, Classical, Romantic, Modern
- Demonstrate knowledge of the evolution of the band and band instruments
- Discuss the qualities needed to pursue a music career
- Demonstrate knowledge of contributions to music of American composers, performers and identify styles unique to American music
- Evaluate the quality of own performance and/or that of others
- Improvise a 12 or 16 bar melody with simple chord progression
- Create and notate an original composition for own instrument or an ensemble and explain the form of the work
- Conduct small and large ensembles performing literature that includes a variety of meters
- Sing instrumental line of band arrangement in own vocal range
- Describe the music and its relationship to societies of the baroque and modern eras
- Develop an understanding of own musical heritage
- Demonstrate:
  - Enjoyment in playing chosen instrument
  - A commitment to play well
  - A commitment to the ensemble
  - A respect for quality music
  - Respect for skilled performance of music

By the completion of this level, students are able to:

- Adjust pitch mechanically or through embouchure changes to improve intonation
- Change in instrumental registers to avoid "breaks"
- Perform compositions written in traditional, nontraditional and created notations
- Perform measured and unmeasured trills and tremolos
- Aurally identify and play by ear varying patterns of pitch, duration, timbre and loudness
- Perform short (two-measure) phrases in response to presented aural examples (echoes)
- Perform from notation and aurally identify all appropriate articulations
- Utilize alternate fingerings necessary for improving playing efficiency
- Sightread passages involving as many as four flats and four sharps, major or minor, passages without key signatures, and passages which include multiple chromatic alterations
- Sightread passages involving dotted rhythms, syncopation, triplet figures and irregular meters
- Improvise countermelodies or free contrapuntal obbligatos in conjunction with familiar composition
- Continue individual development by participating in all state auditions, ensemble festivals, private lessons, workshops and master classes

Percussionist:

- Perform correctly on all auxiliary instruments, e.g. tambourine, triangle, glockenspiel, castanets, etc.
- Perform on all appropriate pitched and non-pitched percussion instruments, including tympani, marimba, all ethnic percussions
- Perform all 26 snare drum rudiments in traditional rudimental style and stay abreast of latest percussive arts concepts

TECHNICAL CONSIDERATIONS

By the completion of grades 6 or 7, students are able to:

- Produce tone with proper attack and release
- Produce both loud and soft tones
- Play with correct physical position
- Demonstrate left hand pitch adjustment
- Play music written in traditional notation
- Demonstrate bowings including slurs, legato, staccato, portato (loure) and response to notation
- Demonstrate right and left hand pizzicato
- Demonstrate special effects such as open-string double stops, harmonics, glissando
- Demonstrate shifting, including 3rd position for violin and viola, 4th position for cello and bass
- Demonstrate vibrato
- Play three major scales (at least one octave each), ascending and descending, from memory

By the completion of grades 8 or 9, the students are able to:

- Demonstrate ability to tune and care for instrument
- Demonstrate bowings, including marcato, spiccato and martele
- Demonstrate ornaments, such as trills, turns, grace notes, fingered double stops, chords
- Demonstrate shifting, including 2nd, 3rd, and 4th positions and thumb position for cello
- Perform combinations of bowings for articulated rhythm patterns
- Perform a part individually at a steady tempo
- Follow individual part from a full score
- Sight-read musical passages containing quarter, half, and eighth notes and rests
- Demonstrate a variety of tone colors through use of bow and vibrato
- Write and play major scales through 4 sharps and 4 flats plus three minor scales

ESSENTIAL GOALS FOR EXTENSION

Conducting, composing, creating and performing activities should be core elements of all gifted/talented music programs.

Motivation should be intrinsic and the musical processes should be diverse: playing, singing, listening and creating.

Students who are gifted in musical performance must study on a one-to-one basis with a competent teacher.

Students who are gifted in music composition must have contact with a skillful professional arranger and/or teacher of composition.

Music education for the gifted and talented must be well balanced between performance, the study of theory and harmony, and the study of literature and history of music.

Music teaching methods and program models standard in other music education programs should be used and adopted:

- Dalcroze, Orff, Kodaly, Suzuki, Contemporary Music Project, Manhattanville Musician Curriculum Project (MMCP),
- Chamber ensembles
