This bibliography provides a recommended list of research and theoretical literature in school restructuring. The literature, chosen to be of interest for practitioners, policymakers, and researchers, is organized into five areas: (1) General References on School Restructuring is divided into proposals for school reform, how schools work, and the change process; (2) Student Experiences covers curricular and instructional reform, methods of grouping students, student engagement, and assessment reform; (3) Professional Life of Teachers contains analysis of teachers' work life and proposals for enhancing the teaching profession; (4) School Governance contains sections on policy issues and new structures for accountability, school-site management, leadership, and school climate and culture; and (5) Collaboration Between Schools and Community contains sections on policy issues, coordination of social services for children, business and school partnerships, and parent involvement. An author index is appended. (MLF)
Center Mission

The Center on Organization and Restructuring of Schools studies how organizational features of schools can be changed to increase the intellectual and social competence of students. The five-year program of research focuses on restructuring in four areas:

- The experiences of students in school.
- The professional life of teachers.
- The governance, management and leadership of schools.
- The coordination of community resources to better serve educationally disadvantaged students.

Through syntheses of previous research, analyses of existing data, and new empirical studies of education reform, the Center focuses on six critical issues for elementary, middle and high schools:

- How can schooling nurture authentic forms of student achievement?
- How can schooling enhance educational equity?
- How can decentralization and local empowerment be constructively developed?
- How can schools be transformed into communities of learning?
- How can change be approached through thoughtful dialogue and support rather than coercion and regulation?
- How can the focus on student outcomes be shaped to serve these five principles?

Center Publications

In the fall and spring of each year, the Center publishes an issue report which offers in-depth analysis of critical issues in school restructuring. Issues in Restructuring Schools is distributed free to all persons on the mailing list. In addition, three "briefs" targeted to special audiences are offered yearly. Our 1994 Bibliography on School Restructuring is distributed free on request; it will be updated again in 1995. To be placed on the mailing list, please contact Leon Lynn, Dissemination Coordinator, Center on Organization and Restructuring of Schools, University of Wisconsin, 1025 W. Johnson Street, Madison, WI 53706. Telephone: (608) 263-7575.
This bibliography provides a recommended list of research and theoretical literature in school restructuring. The literature, chosen to be of interest for practitioners, policymakers, and researchers, is organized into five areas: I. General References on School Restructuring, II. Student Experiences, III. Professional Life of Teachers, IV. School Governance, and V. Collaboration Between Schools and Community. These topics reflect specific research projects conducted at the Center on Organization and Restructuring of Schools.

This publication was prepared by Leon Lynn at the Center on Organization and Restructuring of Schools (Grant No. R17Q00005-94), supported by the U.S. Department of Education, Office of Educational Research and Improvement, and by the Wisconsin Center for Education Research, School of Education, University of Wisconsin-Madison. We gratefully acknowledge the contributions of many colleagues and educators in Centers, Labs, and Schools of Education across the nation. In addition, we value the expert assistance of Lorene Folgert, Jean Norman, Diane Randall, and the reference staff at the Instructional Materials Center at the University of Wisconsin-Madison.
