Project EXCEL is a federally-funded workplace literacy program involving hotel enterprises in the San Francisco (California) Bay area. Its focus is on identification and instruction of literacy skills essential to job success for limited-English-proficient (LEP) workers. Training is intended to enable employees to understand written work orders, enhance communication with supervisors and co-workers, and encourage greater involvement through team building and critical thinking. This training module is designed for hotel housekeeping staff in one participating hotel. The curriculum consists of six instructional units on these topics: hotel-related vocabulary; discussing location of items; use of numbers; describing specific housekeeping problems; special requests; and review. Each unit contains worksheets with illustrations. The review section is designed specifically for use with an audiotape recording (not included here). PROJECT EXCEL:
Workplace Communication 
Training for Hotel Workers

a project of Career Resources Development Center

WORKPLACE EDUCATION

Project EXCEL is a workplace education partnership with hotel enterprises in the San Francisco Bay Area. Its focus is on the identification and instruction of literacy skills essential to on-the-job success for limited-English-proficient (LEP) workers. Lessons are developed based on the specific needs at each hotel with emphasis on workplace communication and the American working culture.
PARTNERSHIP

Educational Provider: CRDC

Funded by the U.S. Department of Education, Project EXCEL is a training program administered by the Career Resources Development Center (CRDC) in partnership with hotels. As the designated partner, CRDC is the fiscal agent responsible for program compliance and funding regulations as required by the federal government.

CRDC develops customized curricula for participating hotels, provides classroom instruction and coordinates the program.

CRDC is a non-profit, community-based employment training agency located in San Francisco and Oakland. Since 1966 CRDC has trained over 3,500 ethnic minority members and women and successfully placed them in jobs in the service industries and the clerical field. We have extended our services to train and educate hotel workers. The agency has been working with local business partners to implement successful workplace literacy strategies since 1991.

Hotel Partners

Business involvement is essential to the success of the training. Following are some examples of in-kind contributions which reflect commitment from hotel partners.

- Providing full or partial release time for workers to attend classes.

- Providing facilities for classroom instruction.

- Assisting in curriculum design through consultations with our instructors and curriculum writers.

- Recruiting interested workers for classroom training.
GOALS OF THE TRAINING

The goals of the training are to enable workers to gain and retain employment, increase their productivity on the job and advance in their careers.

These goals will be accomplished by raising the literacy and basic skills level of the workforce. The results are worth the effort. The program enables employees to understand written work orders so they may perform tasks independently, enhances employees' ability to comprehend and communicate with supervisors and co-workers, and encourages greater worker involvement through team building and critical thinking activities.

PROGRAM DESIGN

Training modules last 8 to 10 weeks, with a recommended 3 hours of training a week. Each training module will be customized according to the needs of the particular department. Participating departments include Housekeeping, Laundry, Stewarding, Food and Beverage, and others to be determined by the specific needs of hotel partners. Training modules may also include more general topics such as Health and Safety, English for Customer Service, Career Advancement and Work Ethics.

SETTING UP WORKPLACE TRAINING AT YOUR HOTEL

Below is a 5-step summary of the implementation of Project EXCEL:

1. Identify needs at the workplace (1 week)

Our experienced staff and curriculum developers conduct interviews with:

- Managers
- Supervisors
- Workers
- Union Representatives
to identify those areas where your employees would most benefit from instruction and training.

2 Analyze job tasks and communication skills
(1 week)

Curriculum developers and instructors observe and participate in actual tasks at the worksite to get an insider's view of the demands of the job.

Our staff also gathers written material used at the workplace in order to specialize the course design for your unique company procedures.

3 Design a curriculum specific to the workplace
(1-2 weeks)

After conducting the extensive task analyses, curriculum developers examine the results. Based on their findings, they design and develop material for the course. Your employees will have textbooks and workbooks developed especially for them, using your hotel's policies and the needs identified by your staff as a basis for instruction.

4 Set up training room
(1 day)

With your help, EXCEL instructors will find and arrange for a training facility easily accessible to students.

5 Conduct classes
(8-10 weeks)

EXCEL instructors will come to your hotel 2-3 days a week to equip your employees with the English they need to successfully communicate at their workplace.

As a leader in the hospitality industry, ITT Sheraton has stressed the fact that quality service rests on a foundation of effective communication. Improved English proficiency allows the systematic delivery of the type of service designed to meet guests' needs and exceed their expectation. In the process the hotel has experienced the additional benefits of creating an environment where safety procedures are better understood, teamwork has improved and workers feel themselves to be secure, accepted, important members of the team.

Tom Passantino
Director of Training
Sheraton Palace Hotel, San Francisco

For years I've been whooping and hollering that a small business can train people in job skills, but we can't go back and give them a high school education. This program is great, because the only thing that will work is training in the workplace.

Gwen Kapiai
President
Ace Mailing Inc., San Francisco

The program has been a great help in improving communication between English-speaking managers and Hispanic employees. Clear, precise communication is so important... There are so many things going on at once, so many jobs that are intertwined. Employers need to come up with ways to make sure everyone understands what is happening, whether the employees speak Spanish, Chinese or any other language.

Barbara Radcliffe
Human Resources Director
Just Desserts Inc., San Francisco

All over The City, hotel employees are polishing up their English -- at work -- in language classes specifically geared to their work-a-day needs. The program, created by the Career Resources Development Center, has won kudos from hotel executives, union officials and employees -- Japanese chefs, Chinese maids and Hispanic laundry workers.
