This bibliography was designed to assist psychology instructors in incorporating active learning strategies into their courses. The document contains articles that describe specific techniques that should help students to become more involved in learning about psychology than traditional lecture methods allow. The bibliography was prepared by reviewing articles published in "Teaching of Psychology" between 1978 and 1992. Articles are organized into categories according to the type of active learning technique described. The first category, case methods, includes 11 articles. The second category, computers, has 24 entries. The third and largest category, demonstrations and class activities, consists of 104 entries. The fourth category, discussions and debates, includes 15 articles. The fifth category, fieldwork, includes 17 entries. The sixth category, films, videos, slides, and music, has 19 articles. The seventh category is games and contains 10 articles. The eighth category is interviews, with 2 entries. The ninth category, laboratory exercises, has 33 items. The tenth category is labeled miscellaneous and has 15 articles. The eleventh category, projects, has 42 items. The twelfth category, role play, has 12 articles. The thirteenth category is tests and has 13 articles. The fourteenth and final category, writing, includes 38 entries. (DK)
Using Active Learning Strategies in Psychology Classes:

Illustrative Articles

This bibliography is designed to assist psychology instructors in incorporating active learning strategies into their courses. It contains articles that describe specific techniques that should help students to become more involved in learning about psychology than traditional lecture methods allow.

We prepared the bibliography by reviewing articles published in Teaching of Psychology between 1978 and 1992. We organized appropriate articles into categories according to the type of active learning technique described.

Judith A. Becker, Ph.D.  
Department of Psychology  
BEH 339  
University of South Florida  
Tampa, FL 33620

James Eison, Ph.D.  
Center for Teaching Enhancement  
SVC 1088  
University of South Florida  
Tampa, FL 33620
Case Methods

Computers
