This document presents information needed for development of contractual or cooperative arrangements between local school districts and other agencies and programs in Kentucky in order to better serve preschool children who are at risk of educational failure or who have identified disabilities. After an introductory section, the Preschool Contracting Approval Process is summarized, with emphasis on the processes of authorizing a preschool agency as a contractor and overseeing preschool contracts. Six sequential steps in the contracting process are detailed, ranging from district and agency identification of a need to work together, to actual service provision based on the approved contract. Components of a contract or cooperative agreement under Kentucky law are outlined. A chart compares the roles and responsibilities of local school districts and preschool contractors. Appendices include an application for approval to contract preschool services, an outline of the Individualized Education Program process, and a sample preschool contract. (DB)

INTRODUCTION

The Commonwealth of Kentucky is committed to providing a comprehensive educational program for preschool children who are either at risk of educational failure or who have identified disabilities, as outlined in the Kentucky Education Reform Act of 1990. Each local school district is required to make services available to these eligible children, either directly or by contract or cooperative agreement with another public or private organization.

Purpose of Document

The purpose of this document is to provide information needed for contractual or cooperative arrangements between local school districts and other agencies and programs. This information is designed to:

(1) facilitate contracting where existing programs are available to serve:
   (a) Four year old children who are at risk of educational failure; and/or
   (b) Children with identified disabilities, ages 3 and 4 and age 5 after October 1.

(2) define the process required for agencies who wish to provide placements for the above programs by contract or cooperative agreement with local schools.

The document is designed to be used by:

* local school districts
* Head Start
* private profit and non-profit preschools
* other agencies wishing to contract with school districts in Kentucky in order to serve preschool children.

Additional Resources

Further information on local interagency agreements, contracting and the approval of preschool programs for contract purposes can be obtained from the Kentucky Department of Education, Division of Preschool, 21st Floor Capital Plaza Tower, Frankfort, KY 40601 (502) 564-7056.
THE PRESCHOOL CONTRACTING APPROVAL PROCESS

Under KRS 157.3175 and KRS 157.226, school districts are required to make preschool programs available for eligible children. Based on a planning process involving other agencies, the district determines whether to serve eligible children in a program operated by the district or through a contract or cooperative agreement with another program or programs.

In order to provide services through a non-public school program, the district must assure that any and all contracted services meet the same standards as would apply if the services were provided directly by a school district. The preschool contracting approval process is designed to assure that this standard is met. The Kentucky Department of Education does not license, accredit or approve the general operation of non-school district programs which serve preschool children. Non-school district programs which serve children of preschool age are required to be licensed as child care providers. by the Cabinet for Human Resources, pursuant to 905 KAR 2:010.

However, the Department of Education does have responsibility for monitoring the use of state and federal education dollars, including funds used by districts to provide preschool services by contract. It is only in this use of public funds that the Department has responsibility. As a consequence, it operates a preschool contracting approval process.

The preschool contracting approval process has two components:

* Authorization of a preschool agency as a contractor; and
* Oversight of preschool contracts.

Authorization of a Preschool Contractor

There are two criteria for authorization of a non-public school agency to enter into a contract with a school district to provide preschool classroom services:

(1) status of the non-public school program as an entity which can legally receive public preschool education funds in Kentucky; and

(2) demonstration of minimum standards for general operation of the non-public school program.

The program's legal standing to receive public preschool dollars from the local school district is confirmed through an application process to the Department of Education. In the application, the program provides a signed assurance that it is separately incorporated from any religious institution and maintains a non-sectarian board of directors. Other assurances address financial and program record-keeping, non-discriminatory practices, and other public education requirements.

Minimum standards for general operations are documented through current licensure by the Cabinet for Human Resources. Under 905 KAR 2:010, licensed child care providers meet staff, facility, health, safety, program and other requirements of programs which care for young children while the parent is not present. In the review of the program's application as a preschool contractor, the program's child care licensure is verified.
Application Review

The agency submits an application to the Division of Preschool, which stamps in the date of receipt.

The Division sends a letter confirming receipt of the application.

The Division checks the applicant's licensure in the directory of licensed child care facilities, which is updated monthly by the Cabinet for Human Resources and which notes official corrective action, if applicable.

The Division reviews the agency identification page and the program description for completion of requested information.

The Division reviews the assurance page for appropriate signatures.

Approval as Possible Contractor

If licensure is current, signatures present, and all information complete, the Division approves the agency as a possible contractor.

The Division sends the applicant an approval letter and adds the agency to the current list of preschool agencies authorized to contract with districts.

The Division disseminates the updated listing in the next mailing to school district preschool administrators and begins sending the agency all district preschool mailings.

Non-Approval as a Contractor

If there is something lacking in the application (current licensure, signed assurances, program information), the Division sends the applicant a letter stating what is lacking, with a request to submit the necessary item(s) within 30 calendar days.

After 30 days, if the requested information is not submitted or does not meet criteria, the Division notifies the agency in writing that it is not approved as a contractor.

A school district will be notified that the agency is not approved as a contractor if the district requests to contract with the agency.

Revoking Approval as a Contractor

The Division receives written notification that the Cabinet for Human Resources has revoked the license of a non-public school program.

The Division notifies the agency that it can no longer contract with schools for preschool services.

The Division immediately removes the agency from the contractor list and disseminates the updated list in the next preschool administrator mailing.

The Division will notify any district(s) contracting with the agency that the agency is no longer authorized as a contractor and that the district should immediately terminate the contract.
Oversight of Preschool Contracts

Once an agency is authorized to contract and a school district is interested in contracting, the two parties develop a proposed contract. The school district submits this tentative contract to the Department of Education prior to the beginning of the school year, as part of the district's annual proposal for preschool funding. The tentative contract is reviewed by the Department prior to approving the district's preschool proposal. A school district may not disburse funds for the contract or for any other preschool expense without the Department of Education's approval of the district's preschool proposal for funding. Therefore, approval of the district's preschool proposal constitutes approval of the contract with the non-school district program.

The contents of each contract will vary, depending on the services contracted. The contract should assure or document that any service which is to be provided by the non-public school program meets state and federal education requirements. Appendix C is a sample contract.

After the Department approves the contract, then it is the responsibility of the district to monitor the services to assure that regulations are met and that services are provided in accordance with the contract. Any violation of the terms of the contract or of state regulations is a cause of action to terminate the contract. The contracted services are evaluated by the local school district as part of the local program evaluation required by preschool regulations.

Requirements for Preschool

The following requirements can be found in Kentucky administrative regulations of the State Board for Elementary and Secondary Education. A copy can be obtained from the local school district or the Department of Education Preschool Branch. These requirements should be reviewed carefully for each service offered for contracting:

*Operation of the basic educational preschool program
  *staff credentials and ratios
  *hours of operation
  *curriculum
  *program requirements

*for children who meet income guidelines (704 KAR 3:410)
*for children with disabilities (707 KAR 1:150)

*Facilities
  *Department policy allows child care licensure to substitute for regulations relating to buildings and grounds

*Transportation
  *vehicles, driver training, monitors (702 KAR Chapter 5)

*Food Services (702 KAR Chapter 6)
  *Department policy allows Child Care Food Program and child care licensure to substitute for regulations relating to food services
Related services by licensed professionals
speech, occupational, physical therapies (professional licensure)

*for children with disabilities (707 KAR 1:150)
The following sequence of events describes the process for serving preschool children in other agencies and programs:

**STEP 1:** The district and an agency or program identify the need for and willingness to work together to serve eligible children

- This planning may begin at any time, but is encouraged prior to the beginning of each school year and prior to the district's submission of applications for funding for the upcoming year which occurs in late spring each year.

- For children with disabilities, there is a direct link to the Admissions and Release Committee (ARC) process. Under 707 KAR 1:051, the local school district's ARC is responsible for determining on an individual child basis when services need to be provided through other agencies. See "IEP Process for Children with Disabilities" for further detail, Appendix B.

**STEP 2:** The agency prepares and submits an application for approval to enter into contracts with local school districts to provide preschool services.

- This step must occur before Step 4.

- A copy of the agency application is Appendix A of this document.

- The application should be sent to the Kentucky Department of Education, Division of Preschool, 21st Floor Capital Plaza Tower, Frankfort, Kentucky 40601.

- Upon receipt of the agency's application to be eligible to be a preschool contractor, the Kentucky Department of Education reviews the information and approves the application, as appropriate.

- A copy of the program's application should also be provided by the agency or program to each district with whom the agency intends to contract.

- The application is updated with the Kentucky Department of Education annually by the agency.

- The approval process may include on-site review of the agency's preschool program.

- The approval process authorizes the agency to enter into a school contract; the approval does not accredit the program in general, nor provide licensure for providing child day care.
STEP 3: The local school district and the agency or program develop a written contract or cooperative agreement for the services to be provided.

* Components of the written contract or cooperative agreement are described in "Components of a Contract or Cooperative Agreement". (page 9)

* Contents of specific documents will vary, depending upon areas agreed to by the parties.

* The school district is responsible for ensuring that any services covered in the contract or written agreement meet the same standards applicable to the school district, just as though the services were provided directly by the district.

* Copies of the contract are kept on file in the local school district and the agency, along with the documentation of the agency's approved application to enter into contracts with a school district.

STEP 4: The local school district submits a copy of the contract when submitting annual application(s) for preschool funds.

* For use of state funds for KERA Preschool Programs for children at risk of educational failure or children with disabilities, the district submits an annual proposal outlined in KRS 157.3175, with the contract attached.

* For use of federal funds for preschool children with disabilities, the district submits an application under the Individuals with Disabilities Education Act (IDEA, Part B, Section 619), with the contract attached.

STEP 5: Approval is provided for the contractual arrangement.

* The Kentucky Department of Education cross-checks the proposed contracting agency's application (signed assurances) and current child care licensure with the Cabinet for Human Resources prior to approving the contracting district's annual application(s) for preschool funding.

* The Department reviews the proposed contract carefully to assure that the district will meet all requirements and regulations applicable to the services to be contracted.

* Approval of the local school district's annual application(s) for preschool funding includes approval for the contractual arrangements.
STEP 6: Services are provided based on the approved contract.

* The local school district has an ongoing responsibility to oversee the operation of the preschool program and all services provided by contract.

* On-site monitoring of services by the Kentucky Department of Education will occur during regularly scheduled monitoring visits to the local school district, or as determined by the State Board for Elementary and Secondary Education.
COMPONENTS OF A CONTRACT OR COOPERATIVE AGREEMENT

General Contents

According to Kentucky statutes (KRS 65.250), contents of contracts and cooperative agreements are to specify at least the following:

"(a) The duration of the agreement
(b) The organizational structure and powers delegated thereto
(c) The purpose or purposes of legal or administrative entity
(d) The financial responsibilities of each party and details of said undertaking
(e) The process of changing or terminating the contract as well as maintenance and disposal of property or equipment."

The body of a contract may be as simple as "$ dollars for providing (named) educational services to children", along with statements of duration, organization, purpose, and termination of the contract. However, the district needs to have a written agreement regarding roles and responsibilities for the district and for the contracting agency. These roles and responsibilities may be included in the body of the contract or may appear as a memorandum of agreement appended to the contract or referenced in the contract.

Specific Contents

In the contract (or in a separate memorandum of agreement as referenced in the contract), the following issues should be addressed to clarify roles and responsibilities and to describe services which meet state and federal education regulations:

(1) Clearly defined services such as the following:
   (a) Type of service (individual, group, in-home, consultation, etc.);
   (b) Amount of time the service is to be provided;
   (c) Duration of service or length of year;
   (d) Qualifications and numbers of staff;
   (e) Location of service to be provided (preschool centers, home, etc.);
   (f) Responsibility for support services (transportation, speech therapy, screening, etc.)

(2) Procedures for resolving conflicts between the agencies, including who pays for incurred costs of resolution.

(3) Transition procedures for children who are moving from one setting to another.

(4) Shared personnel, training or other resources.
(5) Responsibility for inventory, maintenance, and disposal of equipment or materials purchased through contracted funds:

(6) Methods and schedules of payment and provisions for terminating the contract.

(7) Record keeping and reporting, including confidentiality of records.

Regulatory requirements for specific preschool services to be contracted are noted on page 5 and the agency's application (Appendix A, page 2).
ROLES AND RESPONSIBILITIES OF PARTICIPATING PROGRAMS

3. Provide services which meet the state education standards for preschool programs.

4. Submit bills for agreed-upon cost of service to school district at predetermined times.

5. Provide services in the contract at no cost to parents.

6. Provide a liaison to school district for matters of mutual concern.

In addition, for children with disabilities:

7. Develop the initial, precontract IEP and provide a representative to participate.

See also "IEP Process for Children With Disabilities", Appendix B.
APPLICATION FOR CONTRACTING

Agencies and programs wishing to contract with local school districts must submit an annual application to the Kentucky Department of Education. See "The Preschool Contracting Approval Process", page 2.

The agency's application must be on file and approved prior to the Department of Education's approval of the school district's application(s) for preschool funding. The agency's application may be attached and submitted to the Department along with the school district's funding proposal and proposed contract. See "Steps in Contracting", page 5.

Application Form

The application form (Appendix A) has three components:

1. a cover page with identifying information;
2. a description of the services to be available for contracting; and
3. an assurances page and signature.

Submission

A copy of the application appears in Appendix A and should be submitted to the Department of Education, Division of Preschool, 21st Floor Capital Plaza Tower, 500 Mero Street, Frankfort, KY 40601. Questions may be addressed to the Preschool Division at (502) 564-7056.

IEP PROCESS FOR CHILDREN WITH DISABILITIES

Pertinent Regulations and Statutes

In addition to requirements that districts only contract with other districts and approved agencies, certain procedures are required between school districts and contracting agencies for providing special education and related services to children with disabilities. These procedures are defined in 707 KAR 1:051, Section 3 under Admissions and Release Committee.

In those cases where the local school district has determined that appropriate special education and related services cannot be provided through existing programs in the local school district, services are provided to the identified child in the following way:

Referral and Pre-placement

The school district's Administrative Admissions and Release Committee (AARC) has the following responsibilities:

1. The AARC evaluates the child, determines eligibility, and develops an IEP. Other agencies may assist the AARC in this process.

2. The AARC contacts an agency which is approved for contracting and which provides the type of services specified on the child's IEP, to discuss the referral of the child to that agency.

3. The AARC assures that a representative(s) of the potential contracting agency participates in a meeting(s) with the AARC regarding the possible referral. Participation may be provided through attendance at meetings, written communications and individual or conference calls. The potential contracting agency is identified as an agency which has indicated a willingness to provide the services requested by the local school district.

4. In collaboration with representative(s) of the potential contracting agency, the AARC determines if the agency is appropriate to provide the specified services. If the agency is an appropriate one and agrees to the contract, then the agency assumes responsibility for implementing the provisions specified on the child's IEP, per the contract.

5. The AARC maintains responsibility for providing continued educational services to the child until such time as the child enters the program provided by the contracting agency.
Placement

(1) When the child is enrolled in the agency's program, the agency:

(a) Assumes responsibility for providing special education and related services to the child as specified on the IEP per the contract, and

(b) Assures that the child and parent(s) are afforded all rights and protections as required and provided in state and federal regulations (707 KAR Chapter I).

(2) The admissions and release committee of the contracting agency:

(a) Conducts meetings to review and when appropriate, revise the IEP;

(b) Assures that any review and revision of the IEP is done with the input and approval of the child's parent(s);

(c) Assures that any review and revision of the IEP includes input and approval of the local school district which placed the child in the program. The participation of the parent(s) and the local school district may take place through attendance at meetings, written communications and individual or conference calls.

(3) The Administrative Admissions and Release Committee of the local school district placing the child in another agency:

(a) Participates in meetings called by the contracting agency for the purpose of review and revisions of the IEP;

(b) Reviews the child's IEP at least annually to determine educational progress in that setting;

(c) Assures that the child and parent(s) are afforded all rights and protections as required and provided in state and federal regulations (707 KAR Chapter I).

(4) Monitoring and evaluation of the IEP goals and objectives is done by designated members of the contracting agency's admissions and release committee at intervals specified on the IEP. This is done to document progress and mastery of objectives specified in the IEP. Written results of such monitoring and evaluation are forwarded to the parent(s) and the Administrative Admissions and Release Committee of the local school district which placed the child in the agency's program.

(5) When circumstances warrant, the contracting agency is responsible for notifying the local school district of the need to initiate and conduct a meeting to review/revise the IEP. The local school district assures that the parent(s) and the local school district representative(s) are involved in any decision regarding review and revision of the child's IEP and agree to any placement changes before such changes are implemented.
