Possible Sources of Data for Early Childhood (Age 3) Indicators.

This booklet is designed to be used in developing a system of indicators of educational outcomes for 3-year-old children, including those with disabilities. The document summarizes a conceptual model of educational outcomes, lists specific outcomes for the early childhood level, and matches indicators with each of the outcomes. It then focuses on identifying information sources for each of the 62 indicators listed in the conceptual model. The model addresses eight outcome domains: presence and participation, family involvement/accommodation and adaptation, physical health, responsibility and independence, contribution and citizenship, academic and functional literacy, personal and social adjustment, and satisfaction. Sample information sources suggested for use in measuring the outcomes include: parent surveys or interviews, local or state poverty rate statistics, surveys of private and community day care programs, local education agency records, and teacher observations. Appendices list instruments for assessing each domain and sources of the instruments. (Contains 12 references.) (JDD)
Possible Sources of Data for Early Childhood (Age 3) Indicators

The National Center on Educational Outcomes (NCEO), established in 1990, works with state departments of education, national policy-making groups, and others to facilitate and enrich the development and use of indicators of educational outcomes for students with disabilities. It is believed that responsible use of such indicators will enable students with disabilities to achieve better results from their educational experiences. The Center represents a collaborative effort of the University of Minnesota, the National Association of State Directors of Special Education, and St. Cloud State University.

The Center is supported through a Cooperative Agreement with the U.S. Department of Education, Office of Special Education Programs (H159C00004). Opinions or points of view do not necessarily represent those of the U.S. Department of Education or offices within it.

NCEO Core Staff:
Robert H. Bruininks

Kevin S. McGrew
Dorene L. Scott
Patricia S. Seppanen
Martha L. Thurlow, assistant director
James E. Ysseldyke, director

Acknowledgments
Several professionals contributed to the development of this publication. Those who supplied possible sources of information for the specific indicators are listed below along with their professional affiliations:

Steve Bagnato
University of Pittsburgh
Lizanne DeStefano
University of Illinois
Scott McConnell
University of Minnesota
Mary McEvoy
University of Minnesota
Corey Robinson
University of Colorado
Debbie Wood
Missouri Department of Education

An additional thank you to Kathryn Thor who assisted in the preparation of this document.

Using Outcomes and Indicators

As an educator you can't ignore the public's growing desire to know what the results of education are for all of America's students. But you may be asking yourself "Where do I begin?" The National Center on Educational Outcomes (NCEO) agrees that educational results are important and knows that finding the data to answer questions about results can be difficult. That's why NCEO has been working to help you get the information you need to get started.

After first developing a conceptual model of educational outcomes, NCEO produced the publication *Educational Outcomes and Indicators for Early Childhood (Age 3)*. This document explains the model (see Figure 1, page 2), along with specific outcomes and indicators of those outcomes for this early childhood level.

By using outcomes and indicators like those in NCEO's early childhood model, you can make data-based decisions about your early childhood educational system. You can also have goals that will increase progress toward desired outcomes. But first, you need to identify where you will get the information for each indicator. This easy-to-follow booklet will help you obtain the information you need.

**Using This Booklet**

In this booklet, which is a companion piece to *Educational Outcomes and Indicators for Early Childhood (Age 3)*, you will find suggestions for possible sources of information for each of the 62 indicators listed in the conceptual model. As Figure 2 (page 3) indicates, each of the eight outcome domains (represented by diamonds) has several outcomes (circles) and indicators (triangles) of those outcomes.

As you read through this booklet, you will find that the information follows the order of outcome domains and outcomes presented in Figure 3 (pages 4 and 5). Indicators and possible sources of information are listed for each outcome (A1 to H3). For example, outcome A1 of Presence and Participation has four indicators: A1.a, A1.b, A1.c, and A1.d. Each of these indicators has several sources of information that can be used to get a measure of the degree that children are present and participate in their community.

NCEO wants you, along with state department and school district personnel, to use this booklet as a resource when developing a system to document indicators of educational outcomes for all students, including those with disabilities. Documents listing sources of data are also available for models of educational outcomes and indicators at the early childhood (*Possible Sources of Data for Early Childhood (Age 6)*) and post-school levels (*Possible Sources of Data for Post-School Level Indicators*).

Additional sources of data will soon be published as companion pieces for *Educational Outcomes and Indicators for Grade 4* and *Educational Outcomes and Indicators for Grade 8*.

For information on these and other helpful publications, turn to page 29.

As you implement your assessment program, NCEO strongly encourages you to share your results with NCEO staff. By doing so, your experience and information can be shared with state and local early childhood educators. Write or call NCEO, University of Minnesota, 350 Elliott Hall, 75 East River Road, Minneapolis, MN 55455. 612-626-1530.
Conceptual Model of Domains and Outcomes

Figure 1. Conceptual Model of Educational Outcomes for Early Childhood (Age 3)
Figure 2. NCEO's Model of Outcomes, Indicators, and Sources of Data
POSSIBLE SOURCES OF DATA

OUTCOME DOMAIN

Presence and Participation

OUTCOME

A1. Is present in group activities
A2. Participates in group activities

Family Involvement/ Accommodation and Adaptation

B1. Demonstrates involvement and support for child's needs
B2. Has access to resources to support child
B3. Makes adaptations, accommodations, or compensations necessary to achieve outcomes in each of the major domains

Physical Health

C1. Demonstrates normal physical development
C2. Has access to basic health care
C3. Is physically fit

Responsibility and Independence

D1. Demonstrates age-appropriate independence
D2. Is responsible for self

Figure 3. Outcome Domains and Outcomes for Early Childhood (Age 3)
**OUTCOME DOMAIN**

**Contribution and Citizenship**
- Complies with age-appropriate rules, limits, and routines
- Accepts responsibility for age-appropriate tasks

**Academic and Functional Literacy**
- Demonstrates competence in communication
- Demonstrates competence in problem-solving and critical thinking skills
- Demonstrates competence in preacademic skills

**Personal and Social Adjustment**
- Copes effectively with personal challenges, frustrations, and stressors
- Has a good self image
- Gets along with other people

**Satisfaction**
- Parent/guardian satisfaction with the services that children receive
- Community satisfaction with the services that children receive
- Child satisfaction with services

Figure 3., continued
POSSIBLE SOURCES OF DATA

= OUTCOME

= INDICATOR

Presence and Participation

A1a Percent of children enrolled in early care and education programs (differentiated by type of program and enrollment of children with and without disabilities)

Data from state departments of education for public school programs

State licensing agency records for private day care facilities, nursery schools, etc.

Data from the National Association for the Education of Young Children or Early Childhood Institute on Mainstreaming

Data from the National Center for Education Statistics (for example, Access to Early Childhood Programs for Children at Risk or Profile of Preschool Children's Child Care and Early Education Program Participation)

Survey of private and community day care programs

A1b Percent of children excluded or terminated from programs for typically developing children

Records from state or school districts

Survey of Early Childhood Special Education programs

Parent/guardian interviews taken at sites such as county health departments, WIC programs, screening programs

A1c Absenteeism rate from day care, preschool, or other early childhood programs

Public school program data bases

Survey of private and community programs

Parent/guardian interviews
Presence and Participation

Is present in group activities, continued

Percent of children who received early intervention services who no longer need special education services

- Records from state departments of education or human services
- Local education agency records
- State child count data
- State follow-up surveys for early intervention services
- Survey of Early Childhood Special Education programs or Parents As Teachers programs
- Parent/guardian interviews
- Parent/guardian or teacher ratings using scales or checklists*

*See Appendix for a full listing of published instruments that may be helpful in collecting pertinent data for this indicator.
POSSIBLE SOURCES OF DATA

Possible Sources of Information

Possibility of Information

Percent of children who participate in family activities

- Parent/guardian or family survey or interview

Percent of children participating in community activities with parents, siblings, or friends

- Records of city or county recreational programs
- Survey of community organizations and/or park and recreation departments
- Parent/guardian survey or interview
- Parent/guardian or teacher ratings using scales or checklists*

Percent of children enrolled in early care and education programs who are engaged in ongoing activities within those programs

- Records from public and private early childhood programs
- Survey of early care and education programs to determine level of participation in ongoing activities
- Parent/guardian survey or interview
- Parent/guardian or teacher ratings using scales or checklists*

*See Appendix for a full listing of published instruments that may be helpful in collecting pertinent data for this indicator.
Family Accommodation/ Adaptation

Demonstrates involvement and support for child's needs

- Percent of families with appropriate support to meet their child's needs
  - Case reviews
  - Published satisfaction survey from state education and health agencies
  - Parent/guardian survey regarding sources of support
  - Professional staff survey or interview
  - Parent/guardian or teacher ratings using scales or checklists*

- Percent of families providing environments supportive of their child's education and learning
  - Survey of Parents As Teachers programs
  - Professional staff survey or interview
  - Parent/guardian or teacher ratings using scales or checklists*

- Percent of family members who attend or participate in school or community-based programs in which their child is enrolled
  - Records of public programs
  - Records of parent/teacher organizations
  - Program survey
  - Parent/guardian survey

- Percent of children whose family system positively supports their development
  - Items from the National Center for Education Statistics' National Household Education Survey
  - Parent/guardian survey or interview
  - Professional staff survey or interview
  - Parent/guardian or teacher ratings using scales or checklists*

*See Appendix for a full listing of published instruments that may be helpful in collecting pertinent data for this indicator.
POSSIBLE SOURCES OF DATA

Family Movement/Accommodation/Adaptation

= OUTCOME

= INDICATOR

Has access to resources to support child

Possibly Sources of Information:

- Records or survey data from parent/family support organizations
- Parent/guardian survey or interview regarding awareness of resources
- Survey of Parents As Teachers and Head Start programs

Percent of families knowledgeable about community resources and programs needed by their child

- Data from state IDEA Part H coordinators
- Records from state departments of social or family services
- Case reviews
- Parent/guardian survey or interview to measure access to identified resources in the Individualized Family Service Plan

Percent of families who are connected to appropriate service providers/agencies

- Data from Children’s Defense Fund or other organizations
- Local or state poverty rate statistics
- Parent/guardian survey or interview regarding sources of support

Percent of families with adequate social and economic resources to appropriately parent children

- Professional staff survey or interview
- Survey of Parents As Teachers programs
- Parent/guardian survey or interview
- Parent/guardian or teacher ratings using scales or checklists*

*See Appendix for a full listing of published instruments that may be helpful in collecting pertinent data for this indicator.
Family Movement/Accommodation/Adaptation

Has access to resources to support child, continued

Percent of families living in safe environments (free of community and family violence, and substance abuse)

- Community statistics on crime trends
- Data from state or local child protection services
- State demographic records on high risk indicators
- Data from state departments of health
- Data from home visits
- Parent/guardian survey or interview
- Parent/guardian or teacher ratings using scales or checklists*

*See Appendix for a full listing of published instruments that may be helpful in collecting pertinent data for this indicator.
POSSIBLE SOURCES OF DATA

= OUTCOME

= INDICATOR

Family Accommodation
Accommodation

Makes adaptations, accommodations, or compensations necessary to achieve outcomes in each of the major domains

Percent of children needing adaptive devices or skills who use them to participate in activities in home, school, and community environments

• Data from local education agencies or state divisions of Early Childhood Special Education
• Medicaid/Medicare records
• Case review of goals, methods, and materials section in Individualized Family Service Plans
• Parent/guardian survey or interview regarding need for, access to, and use of adaptive devices
• Parent/guardian or teacher ratings using scales or checklists*

*See Appendix for a full listing of published instruments that may be helpful in collecting pertinent data for this indicator.
\[ \triangle = \text{INDICATOR} \]

\[ \bigcirc = \text{OUTCOME} \]

\[ \textbf{Health} \]

\[ \triangle \text{Percent of children who are in expected range of growth and physical development} \]
- Demonstrates normal physical development
- \textbullet\ Data from public school programs, screening clinics, physicians, or hospitals
- \textbullet\ Records from county or state departments of health or WIC programs
- \textbullet\ Items from the \textit{National Health Interview Survey of Child Health} (Rand Corporation, 1980)

\[ \triangle \text{Percent of children with appropriate nutrition (for example, not obese or undernourished)} \]
- \textbullet\ Data from public school programs, screening clinics, physicians, or hospitals
- \textbullet\ Records from county or state departments of health or WIC programs
- \textbullet\ Participation rates in free breakfast or lunch programs sponsored with federal or state subsidies

\[ \triangle \text{Percent of children who have been abused or neglected} \]
- \textbullet\ Hospital records
- \textbullet\ Reports from state health or social service agencies
- \textbullet\ Usage rates of abuse hotline services
- \textbullet\ Data from state or local child protection services

\[ \triangle \text{Percent of children who have been accidentally poisoned or have had serious injuries that require medical attention} \]
- \textbullet\ Hospital or poison control center records showing trends and national comparisons
- \textbullet\ Reports from state health or social service agencies
- \textbullet\ Hospital emergency records
- \textbullet\ Data from state or local child protection services
POSSIBLE SOURCES OF DATA

OUTCOME: Has access to basic health care

INDICATOR: Percent of children who have received age appropriate immunizations

- Hospital and health care provider records
- Records from child care centers
- School health records
- Reports from state health or social service agencies
- Data from U.S. Department of Health and Human Services, Public Health Services
- Parent/guardian or teacher ratings using scales or checklists

INDICATOR: Percent of children who receive health care supervision including education, diagnosis, and treatment services

- Hospital and health care provider records
- Medicaid/Medicare records
- Review of Individualized Family Service Plans for children with disabilities who have chronic illnesses
- Records from state departments of education, health or human services
- Parent/guardian or teacher ratings using scales or checklists

INDICATOR: Percent of children who have had a dental exam and appropriate treatment

- Records from public health or dental care providers
- School health records
- Data from state departments of health
- Results from screening summaries
- Survey of local health departments

*See Appendix for a full listing of published instruments that may be helpful in collecting pertinent data for this indicator.
Is physically fit

Percent of children who actively engage in developmentally appropriate large motor play activities

- Survey of early childhood care and preschool programs
- Teacher reports of early childhood lessons stressing gross motor playground activities
- Survey of local park and recreation departments regarding participation rates
POSSIBLE SOURCES OF DATA

○ = OUTCOME

▲ = INDICATOR

Responsibility

Demonstrates age-appropriate independence

▲ Percent of children who initiate and follow through on activities

- Parent/guardian survey or interview
- Parent/guardian or teacher ratings using scales or checklists*

▲ Percent of children who separate easily from parents/guardians in familiar and comfortable situations

- Parent/guardian survey or interview
- Parent/guardian or teacher ratings using scales or checklists*

▲ Percent of children who can occupy themselves without continuous adult involvement

- Parent/guardian survey or interview
- Parent/guardian or teacher ratings using scales or checklists*

*See Appendix for a full listing of published instruments that may be helpful in collecting pertinent data for this indicator.
Responsibility & Independence

Is responsible for self

- Percent of children who can feed themselves with limited assistance
  - Parent/guardian survey or interview
  - Parent/guardian or teacher ratings using scales or checklists*

- Percent of children who use the toilet with limited assistance
  - Parent/guardian survey or interview
  - Parent/guardian or teacher ratings using scales or checklists*

- Percent of children who dress themselves with limited assistance
  - Parent/guardian survey or interview
  - Parent/guardian or teacher ratings using scales or checklists*

*See Appendix for a full listing of published instruments that may be helpful in collecting pertinent data for this indicator.
POSSIBLE SOURCES OF DATA

Contributions to Citizenship

Complies with age-appropriate rules, limits, and routines

Percent of children who participate in simple routines in familiar environments
- Parent/guardian or teacher observations
- Parent/guardian or teacher ratings using scales or checklists*

Percent of children who follow simple rules/limits
- Parent/guardian or teacher observations
- Parent/guardian or teacher ratings using scales or checklists*

*See Appendix for a full listing of published instruments that may be helpful in collecting pertinent data for this indicator.
**AGE 3**

**NCEO**

**Outcome:**

**Contribution to Citizenship**

- Accepts responsibility for age-appropriate tasks

**Indicator:**

- Percent of children who help with simple tasks in natural environments

**Possible Sources of Information:**

- Parent/guardian or teacher observations
- Parent/guardian or teacher ratings using scales or checklists*

*See Appendix for a full listing of published instruments that may be helpful in collecting pertinent data for this indicator.
POSSIBLE SOURCES OF DATA

- OUTCOME
- INDICATOR

**Academic and Functional Literacy**

- Demonstrates competence in communication

- Percent of children who comprehend and effectively use verbal and nonverbal communication skills for self-expression and interaction with others
  - Parent/guardian or teacher observations
  - Parent/guardian or teacher ratings using scales or checklists*

- Percent of children who follow directions/respond to simple commands
  - Parent/guardian or teacher observations
  - Parent/guardian or teacher ratings using scales or checklists*

*See Appendix for a full listing of published instruments that may be helpful in collecting pertinent data for this indicator.
Academic and Functional Literacy

Demonstrates competence in problem-solving and critical thinking skills

- Percent of children who demonstrate an understanding of cause and effect
  - Parent/guardian or teacher observations
  - Parent/guardian or teacher ratings using scales or checklists*

- Percent of children who begin to participate in problem solving
  - Parent/guardian or teacher observations
  - Parent/guardian or teacher ratings using scales or checklists*

- Percent of children who demonstrate curiosity, persistence, and exploratory behavior in play and age-appropriate activities
  - Parent/guardian or teacher observations
  - Play-based assessment
  - Parent/guardian or teacher ratings using scales or checklists*

*See Appendix for a full listing of published instruments that may be helpful in collecting pertinent data for this indicator.
POSSIBLE SOURCES OF DATA

= OUTCOME

= INDICATOR

Academic and Functional Literacy

Demonstrates competence in preacademic skills

Percent of children who demonstrate an interest in books and listening to stories

- Parent/guardian or teacher observations
- Parent/guardian or teacher ratings using scales or checklists*

Percent of children who demonstrate an understanding of basic relational concepts

- Parent/guardian or teacher observations
- Parent/guardian or teacher ratings using scales or checklists*

Percent of children who begin to recognize that symbols/objects can be used to represent other objects and events

- Parent/guardian or teacher observations
- Parent/guardian or teacher ratings using scales or checklists*

Percent of children who participate in and enjoy the arts

- Parent/guardian or teacher survey or interview
- Parent/guardian or teacher ratings using scales or checklists*

*See Appendix for a full listing of published instruments that may be helpful in collecting pertinent data for this indicator.
Personal and Social Adjustment

Copes effectively with personal challenges, frustrations, and stressors

Percent of children who deal with frustration and unfavorable events in age-appropriate ways

- Parent/guardian or teacher survey or interview
- Parent/guardian or teacher ratings using scales or checklists*

Percent of children who differentiate familiar from unfamiliar people, settings, and situations

- Parent/guardian or teacher survey or interview
- Parent/guardian or teacher ratings using scales or checklists*

*See Appendix for a full listing of published instruments that may be helpful in collecting pertinent data for this indicator.
POSSIBLE SOURCES OF DATA

Personal and Social Adjustment

Has a good self image

Percent of children who demonstrate a positive sense of self-worth

- Parent/guardian or teacher survey or interview
- Parent/guardian or teacher ratings using scales or checklists*

Percent of children who perceive themselves as competent

- Parent/guardian or teacher survey or interview
- Parent/guardian or teacher ratings using scales or checklists*

Percent of children who demonstrate an appropriate range of affection and other emotions

- Parent/guardian or teacher survey or interview
- Parent/guardian or teacher observations
- Parent/guardian or teacher ratings using scales or checklists*

*See Appendix for a full listing of published instruments that may be helpful in collecting pertinent data for this indicator.
gets along with other people

Percent of children who initiate and respond to social contacts with other children

- Parent/guardian or teacher survey or interview
- Parent/guardian or teacher observations
- Parent/guardian or teacher ratings using scales or checklists*

Percent of children who engage in extended social interactions with other children

- Parent/guardian or teacher survey or interview
- Parent/guardian or teacher observations
- Parent/guardian or teacher ratings using scales or checklists*

Percent of children who engage in appropriate play with other children including parallel, associative, and emerging cooperative play skills

- Parent/guardian or teacher survey or interview
- Parent/guardian or teacher observations
- Parent/guardian or teacher ratings using scales or checklists*

Percent of children who initiate and respond to social contacts with adults

- Parent/guardian or teacher survey or interview
- Parent/guardian or teacher observations
- Parent/guardian or teacher ratings using scales or checklists*

Percent of children who appropriately express needs to other children and adults

- Parent/guardian or teacher survey or interview
- Parent/guardian or teacher observations
- Parent/guardian or teacher ratings using scales or checklists*

Appendix

Some of the individuals who suggested possible sources of data also cited assessments that might be helpful in collecting information on the indicators. To help you find available instruments, this appendix lists a variety of published materials that might be used for some of the indicators. Publication information for each assessment begins on page 38.

Please review these materials carefully to determine their usefulness in gathering data. Inclusion of any particular assessment within this appendix does not imply its endorsement by the National Center on Educational Outcomes or its funding agency.
