This document presents a conceptual model of early childhood educational outcomes and suggested information sources for the 72 indicators used to measure the outcomes identified. The model's outcomes and indicators are intended for use with all children, including those identified as having disabilities or developmental delays (or at risk for developing them). The conceptual model depicts educational resources (inputs and contexts) influencing learning opportunity and process, which in turn influence eight outcome domains that have a return influence on both the resources and opportunity/process. Outcome domains include presence and participation, family involvement/accommodation and adaptation, physical health, responsibility and independence, contribution and citizenship, academic and functional literacy, personal and social adjustment, and satisfaction. For each outcome domain, a chart lists specific indicators. For each indicator, a chart lists suggested sources of information (such as teacher observation, parent interview, standardized test data, or health records). An appendix suggests instruments for assessing each domain. Sources of the instruments listed are also given. (Contains 12 references.) (DB)
Possible Sources of Data for Early Childhood (Age 6) Indicators

The College of Education
UNIVERSITY OF MINNESOTA
November, 1994

Prepared by James E. Ysseldyke, Martha L. Thurlow, and Ronald N. Erickson

The National Center on Educational Outcomes (NCEO), established in 1990, works with state departments of education, national policy-making groups, and others to facilitate and enrich the development and use of indicators of educational outcomes for students with disabilities. It is believed that responsible use of such indicators will enable students with disabilities to achieve better results from their educational experiences.

The Center represents a collaborative effort of the University of Minnesota, the National Association of State Directors of Special Education, and St. Cloud State University.

The Center is supported through a Cooperative Agreement with the U.S. Department of Education, Office of Special Education Programs (H159C00004). Opinions or points of view do not necessarily represent those of the U.S. Department of Education or offices within it.

Acknowledgments

Several professionals contributed to the development of this publication. Those who supplied possible sources of information for the specific indicators are listed below along with their professional affiliations:

Susan Munson
Duquesne University
Lizanne DeStefano
University of Illinois
Scott McConnell
University of Minnesota
Mary McEvoy
University of Minnesota
Corey Robinson
University of Minnesota
Debbie Wood
University of Colorado
An additional thank you to Katherine Thor who assisted in the preparation of this document.

Using Outcomes and Indicators

As an educator you can’t ignore the public’s growing desire to know what the results of education are for all of America’s students. But you may be asking yourself “Where do I begin?” The National Center on Educational Outcomes (NCEO) agrees that educational results are important and knows that finding the data to answer questions about results can be difficult. That’s why NCEO has been working to help you get the information you need to get started.

After first developing a conceptual model of educational outcomes, NCEO produced the publication Educational Outcomes and Indicators for Early Childhood (Age 6). This document explains the model (see Figure 1, page 2), along with specific outcomes and indicators of those outcomes for this early childhood level.

By using outcomes and indicators like those in NCEO’s early childhood model, you can make data-based decisions about your early childhood educational system. You can also have goals that will increase progress toward desired outcomes. But first, you need to identify where you will get the information for each indicator. This easy-to-follow booklet will help you obtain the information you need.

Using This Booklet

In this booklet, which is a companion piece to Educational Outcomes and Indicators for Early Childhood (Age 6), you will find suggestions for possible sources of information for each of the 72 indicators listed in the conceptual model. As Figure 2 (page 3) indicates, each of the eight outcome domains (represented by diamonds) has several outcomes (circles) and indicators (triangles) of those outcomes.

As you read through this booklet, you will find that the information follows the order of outcome domains and outcomes presented in Figure 3 (pages 4 and 5). Indicators and possible sources of information are listed for each outcome (A1 to H3). For example, outcome A1 of Presence and Participation has three indicators: A1a, A1b, and A1c. Each of these indicators has two sources of information that can be used to get a measure of the degree that individuals are present and participate in school.

NCEO wants you, along with state department and school district personnel, to use this booklet as a resource when developing a system to document indicators of educational outcomes for all students, including those with disabilities. Documents listing sources of data are also available for models of educational outcomes and indicators at the early childhood (Possible Sources of Data for Early Childhood (Age 3)), school completion (Possible Sources of Data for School Completion Indicators), and post-school level (Possible Sources of Data for Post-School Level Indicators). Additional sources of data will soon be published as companion pieces for Educational Outcomes and Indicators for Grade 4, and Educational Outcomes and Indicators for Grade 8.

For information on these and other helpful publications, turn to page 33.

As you implement your assessment program, NCEO strongly encourages you to share your results with NCEO staff. By doing so, your experience and information can be shared with state and local early childhood educators. Write or call NCEO at 350 Elliott Hall, 75 East River Road, Minneapolis, MN 55455, 612-626-1530.

POSSIBLE SOURCES OF DATA

= OUTCOME

= INDICATOR

### Presence and Participation

Is present in school

1. **Percent of children enrolled in education programs (differentiated by type of program and enrollment of children with and without disabilities)**
   - Data from state departments of education for public school programs
   - Data from local education agencies’ *Child Count Report*

2. **Percent of children excluded or terminated from programs for typically developing children**
   - Data from state departments of education for public school programs
   - Data from local education agencies’ *Child Count Report*

3. **Absenteeism rate from educational programs (differentiated for reasons of medical/health, family-related moves, etc.)**
   - Data from state departments of education for public school programs
   - School district attendance reports
Presence and Participation

**A2. Participates in group activities**

- **A2a. Percent of children who participate in family activities**
  - **Possible Sources of Information**
    - Parent/guardian survey or interview
    - Child survey or interview

- **A2b. Percent of children participating in community activities (differentiated by family activities and peer activities)**
  - **Possible Sources of Information**
    - Records of city or county recreation programs
    - Survey of community organizations or park and recreation departments
    - Parent/guardian survey or interview
    - Child survey or interview

- **A2c. Percent of children actively engaged in classroom activities**
  - **Possible Sources of Information**
    - Public school records
    - Parent/guardian or teacher ratings using scales or checklists*
    - Parent/guardian or teacher survey or interview

*See Appendix for a full listing of published instruments that may be helpful in collecting pertinent data for this indicator.
POSSIBLE SOURCES OF DATA

Family Involvement /
Accommodation and Adaptation

B1a. Percent of families with appropriate support to meet their child's needs

- Case reviews
- Published satisfaction survey from state education and health agencies
- Parent/guardian survey or interview regarding sources of support
- Professional staff survey or interview
- Parent/guardian or teacher ratings using scales or checklists*

B1b. Percent of families providing environments supportive of their child's education and learning

- Individual family survey or interview
- Survey or interview of professionals involved with individual families
- Parent/guardian or teacher ratings using scales or checklists*

B1c. Percent of family members who attend or participate in school or community-based programs in which their child is enrolled

- Records of public programs
- Program survey
- Individual family survey or interview

B1d. Percent of children whose family system positively supports their development

- Items from the National Center for Education Statistics' National Household Education Survey
- Survey or interview of professionals involved with individual families
- Individual family survey or interview
- Parent/guardian or teacher ratings using scales or checklists*

*See Appendix for a full listing of published instruments that may be helpful in collecting pertinent data for this indicator.
Family Involvement/ Accommodation and Adaptation

\( \text{Has access to resources to support child} \)

\( \text{B2a} \) Percent of families knowledgeable about community resources and programs needed by their child

- Records or survey data from parent/family support organizations
- Individual family survey or interview regarding awareness of resources

\( \text{B2b} \) Percent of families who are connected to appropriate service providers or agencies

- Records from state departments of social or family services
- Case reviews
- Parent/guardian survey or interview to measure access to identified resources in the Individualized Education Program

\( \text{B2c} \) Percent of families with adequate social and economic resources to appropriately parent children

- Local or state poverty rate statistics
- Individual family survey or interview regarding sources of support

\( \text{B2d} \) Percent of families with appropriate parenting skills to anticipate and meet developmental needs of children

- Records from state or local child protection agencies on families with identified needs for parent training
- Individual family survey or interview
- Parent/guardian or teacher ratings using scales or checklists

*See Appendix for a full listing of publications that may be helpful in collecting pertinent data for this indicator.

\( \text{AGE 6} \) NCEO
POSSIBLE SOURCES OF DATA

Family Involvement/
Accommodation and Adaptation

Has access to resources to support child, continued

Percent of families living in safe environments (free of community and family violence, and substance abuse)

- Community statistics on crime trends
- Data from state or local child protection services
- State demographic records on high risk indicators
- Data from state departments of health
- Data from home visits
- Individual family survey or interview
- Parent/guardian or teacher ratings using scales or checklists*

*See Appendix for a full listing of published instruments that may be helpful in collecting pertinent data for this indicator.
Family Involvement/
Accommodation and Adaptation

Makes adaptations, accommodations, or compensations necessary to achieve outcomes in each of the major domains

Percent of children needing adaptive devices or skills who use them to participate in activities in home, school, and community environments

- Data from local education agencies or state departments of education
- Case reviews of goals, methods, and materials section in Individualized Education Programs
- Records of pre-referral intervention activities
- Medicaid/Medicare records
- Individual family survey or interview
POSSIBLE SOURCES OF DATA

= OUTCOME

= INDICATOR

= POSSIBLE SOURCES OF INFORMATION

Physical Health

**Cl.** Demonstrates normal physical development

- Percent of children who are in expected range of growth and physical development
  - Records from county or state departments of health
  - Data from public school programs, screening clinics, physicians, or hospitals

- Percent of children with appropriate nutrition (for example, not obese or undernourished)
  - Records from county or state departments of health
  - Participation rates in free breakfast or lunch programs sponsored with federal or state subsidies
  - Data from public school programs, screening clinics, physicians, or hospitals
  - School-based health appraisals

- Percent of children who have been abused or neglected
  - Hospital records
  - Reports from state health or social service agencies
  - Usage rates of abuse hotline services
  - Data from state or local child protection agencies

- Percent of children who have had serious injuries that require medical attention
  - Hospital records showing trends and national comparisons
  - Reports from state health or social service agencies
  - Hospital emergency records
  - Data from state or local child protection services
Has access to basic health care

**Percent of children who are fully immunized**
- Hospital and health care provider records
- School health records
- Reports from state health or social service agencies
- Data from U.S. Department of Health and Human Services, Public Health Services
- Parent/guardian or teacher ratings using scales or checklists*

**Percent of children who receive care supervision including education, diagnosis, and treatment services**
- Hospital and health care provider records
- Medicaid/Medicare records
- Review of Individualized Education Programs for children with disabilities who have chronic illnesses
- Records from state departments of education, health, or human services
- Individual family survey or interview

**Percent of children who have had dental exams and appropriate treatments**
- Records from public health or dental care providers
- School health records
- Data from state departments of health
- Survey of local health departments
- Individual family survey or interview

*See Appendix for a full listing of published instruments that may be helpful in collecting pertinent data for this indicator.*
POSSIBLE SOURCES OF DATA

= OUTCOME

= INDICATOR

Physical Health

C3a Percent of children who are aware of the dangers of abuse of drugs, alcohol, poisons, and medicine

Data from state departments of education or health on the number of students participating in community or school-based awareness programs

Parent/guardian or teacher ratings using scales or checklists*

*See Appendix for a full listing of published instruments that may be helpful in collecting pertinent data for this indicator.
**C4** Is physically fit

- **C4a** Percent of children who are in their expected range of physical fitness
  - U.S. Department of Health statistics
  - Physical education teacher observations and student evaluations
  - Parent/guardian or teacher ratings using scales or checklists*

- **C4b** Percent of children who actively engage in developmentally appropriate large motor play activities
  - Teacher reports
  - Survey of local park and recreation departments regarding participation rates
  - Parent/guardian or teacher ratings using scales or checklists*

*See Appendix for a full listing of published instruments that may be helpful in collecting pertinent data for this indicator.
Responsibility and Independence

Demonstrates age-appropriate independence

- Percent of children who initiate and follow through on activities
  - Informal parent/guardian or teacher observations
  - Parent/guardian survey or interview
  - Parent/guardian or teacher ratings using scales or checklists*

- Percent of children who show concern for others, including family members
  - Informal parent/guardian or teacher observations
  - Parent/guardian survey or interview
  - Parent/guardian or teacher ratings using scales or checklists*

- Percent of children who can decide when help is needed and obtain it in an emergency
  - Informal parent/guardian or teacher observations
  - Parent/guardian survey or interview
  - Parent/guardian or teacher ratings using scales or checklists*

- Percent of children who act in ways that reflect an understanding of the responsibilities of being part of a family or group
  - Informal parent/guardian or teacher observations
  - Parent/guardian survey or interview
  - Parent/guardian or teacher ratings using scales or checklists*

*See Appendix for a full listing of published instruments that may be helpful in collecting pertinent data for this indicator.
Responsibility and Independence

Gets about in the environment

Percent of children who get to and from destinations within school (for example, familiar locations)

- Informal parent/guardian or teacher observations
- Parent/guardian survey or interview
- Parent/guardian or teacher ratings using scales or checklists*

*See Appendix for a full listing of published instruments that may be helpful in collecting pertinent data for this indicator.
Responsibility and Independence

**D3** Is responsible for self

- **D3a** Percent of children who can feed themselves and participate appropriately in mealtime routines
  - Informal parent/guardian or teacher observations
  - Parent/teacher survey or interview
  - Parent/guardian or teacher ratings using scales or checklists*

- **D3b** Percent of children who can dress themselves
  - Informal parent/guardian or teacher observations
  - Parent/guardian survey or interview
  - Parent/guardian or teacher ratings using scales or checklists*

- **D3c** Percent of children who can attend to their own hygiene needs
  - Informal parent/guardian or teacher observations
  - Parent/guardian survey or interview
  - Parent/guardian or teacher ratings using scales or checklists*

- **D3d** Percent of children who follow basic safety rules
  - Informal parent/guardian or teacher observations
  - Parent/guardian survey or interview
  - Parent/guardian or teacher ratings using scales or checklists*

- **D3e** Percent of children who take care of their own belongings
  - Informal parent/guardian or teacher observations
  - Parent/guardian survey or interview
  - Parent/guardian or teacher ratings using scales or checklists*

*See Appendix for a full listing of published instruments that may be helpful in collecting pertinent data for this indicator.
Compliance with rules, limits, and routines

\section*{E1a} Percent of children who participate in routines in familiar environments

- Informal parent/guardian or teacher observations
- Parent/guardian survey or interview
- Parent/guardian or teacher ratings using scales or checklists*

\section*{E1b} Percent of children who follow rules or limits

- Informal parent/guardian or teacher observations
- Parent/guardian survey or interview
- Parent/guardian or teacher ratings using scales or checklists*

*See Appendix for a full listing of published instruments that may be helpful in collecting pertinent data for this indicator.
POSSIBLE SOURCES OF DATA

Contribution and Citizenship

Accepts responsibility for age-appropriate tasks at home and school

Percent of children who perform their assigned classroom duties at school

- Informal parent/guardian or teacher observations
- Parent/guardian survey or interview
- Parent/guardian or teacher ratings using scales or checklists*

Percent of children who are considerate of others and engage in helping behaviors

- Informal parent/guardian or teacher observations
- Parent/guardian survey or interview
- Parent/guardian or teacher ratings using scales or checklists*

*See Appendix for a full listing of published instruments that may be helpful in collecting pertinent data for this indicator.
Percent of children who comprehend and effectively use language that accomplishes the purpose of the communication

- Informal parent/guardian or teacher observations
- Parent/guardian survey or interview
- Parent/guardian or teacher ratings using scales or checklists*

Percent of children who follow multi-step directions given to groups

- Informal parent/guardian or teacher observations
- Parent/guardian survey or interview
- Parent/guardian or teacher ratings using scales or checklists*

*See Appendix for a full listing of published instruments that may be helpful in collecting pertinent data for this indicator.
POSSIBLE SOURCES OF DATA

Domain: Academic and Functional Literacy

Outcome: Demonstrates competence in problem-solving

Indicators:

- **F2a** Percent of children who generate, test, and evaluate solutions to concrete problems
  - Informal parent/guardian or teacher observations

POSSIBLE SOURCES OF DATA

Academic and Functional Literacy

Demonstrates competence in pre-academic and academic skills, continued

% of children who are motivated and actively involved in learning tasks
- Teacher survey or interview
- Parent/guardian or teacher ratings using scales or checklists*

% of children who demonstrate knowledge of personal information (for example, name, address, phone number)
- Teacher survey or interview
- Parent/guardian or teacher ratings using scales or checklists*

% of children who participate in and enjoy the arts
- Teacher survey or interview
- Family survey or interview
- Parent/guardian or teacher ratings using scales or checklists*

*See Appendix for a full listing of published instruments that may be helpful in collecting pertinent data for this indicator.
Academic and Functional Literacy

Demonstrates competence in using technology

Percent of children who are able to use technology (for example, tape recorders, computers)

- Classroom records of student participation in specific instructional units on technology (for example, using computers)
- Informal parent/guardian or teacher observations
- Teacher survey or interview
POSSIBLE SOURCES OF DATA

= OUTCOME

= INDICATOR

Personal and Social Adjustment

G1c Percent of children whose behavior reflects an appropriate degree of self-control and responsibility

G1b Percent of children who express feelings and needs in socially acceptable ways

G1a Percent of children who deal appropriately with frustration and unfavorable events

G1 Copes effectively with personal challenges, frustrations, and stressors

- Parent/guardian or teacher survey or interview
- Parent/guardian or teacher ratings using scales or checklists*

*See Appendix for a full listing of published instruments that may be helpful in collecting pertinent data for this indicator.
Personal and Social Adjustment

Has a good self image

G2a Percent of children who demonstrate or acknowledge their self-worth
- Parent/guardian or teacher survey or interview
- Parent/guardian or teacher ratings using scales or checklists*

G2b Percent of children who perceive themselves as capable of learning
- Parent/guardian or teacher survey or interview
- Parent/guardian or teacher ratings using scales or checklists*

G2c Percent of children who demonstrate an appropriate range of affection and other emotions
- Parent/guardian or teacher survey or interview
- Parent/guardian or teacher ratings using scales or checklists*

*See Appendix for a full listing of published instruments that may be helpful in collecting pertinent data for this indicator.
POSSIBLE SOURCES OF DATA

Personal and Social Adjustment

Respects cultural and individual differences

Percent of children who recognize and respect similarities and differences between self and others

- Parent/guardian or teacher survey or interview
- Parent/guardian or teacher ratings using scales or checklists*
- Child survey or interview

Percent of children who recognize and respond appropriately to how others feel and think

- Parent/guardian or teacher survey or interview
- Parent/guardian or teacher ratings using scales or checklists*
- Child survey or interview

*See Appendix for a full listing of published instruments that may be helpful in collecting pertinent data for this indicator.
Personal and Social Adjustment

G4 Gets along with other people

G4a. Percent of children who have friends and are part of a positive social network

- Parent/guardian or teacher survey or interview
- Parent/guardian or teacher observations
- Parent/guardian or teacher ratings using scales or checklists

G4b. Percent of children who interact appropriately with other children

- Parent/guardian or teacher survey or interview
- Parent/guardian or teacher observations
- Parent/guardian or teacher ratings using scales or checklists

G4c. Percent of children who interact appropriately (for example, cooperate) with adults

- Parent/guardian or teacher survey or interview
- Parent/guardian or teacher observations
- Parent/guardian or teacher ratings using scales or checklists

*See Appendix for a full listing of published instruments that may be helpful in collecting pertinent data for this indicator.
Parent/guardian satisfaction with the educational services that children receive

H1a. Percent of parents/guardians who understand educational services and rate them as effective, efficient, coordinated, and responsive in meeting child needs

H1b. Percent of parents/guardians who understand educational services and rate them as effective, efficient, coordinated, and responsive in meeting family needs

H1c. Percent of parents/guardians who are satisfied with their own level of involvement in educational decision making (differentiated by individual, local, and state)

*See Appendix for a full listing of published instruments that may be helpful in collecting pertinent data for this indicator.
Community satisfaction with the educational services that children receive

**H2a.** Percent of education staff who are informed of and know how to use educational support services and rate them as effective, efficient, coordinated, and responsive in meeting child needs

- Teacher survey or interview
- Observation of education staff during interdisciplinary team activities

**H2b.** Percent of education staff who are informed of and know how to use educational support services and rate them as effective, efficient, coordinated, and responsive in meeting family needs

- Teacher survey or interview

**H2c.** Percent of providers who are satisfied with their own level of involvement with service-related decision making and delivery of services

- Teacher survey or interview
- Parent/guardian or teacher ratings using scales or checklists*

**H2d.** Percent of community (policymakers, members of the business community, general public) who understand educational services and rate them as effective, efficient, coordinated, and responsive in meeting child needs

- Community member survey or interview
- Policymaker survey or interview

**H2e.** Percent of community (policymakers, members of the business community, general public) who understand educational services and rate them as effective, efficient, coordinated, and responsive in meeting family needs

- Community member survey or interview
- Policymaker survey or interview

Appendix

Some of the individuals who suggested possible sources of data also cited assessments that might be helpful in collecting information on the indicators. To help you find available instruments, this appendix lists a variety of published materials that might be used for some of the indicators. Publication information for each assessment begins on page 41.

Please review these materials carefully to determine their usefulness in gathering data. Inclusion of any particular assessment within this appendix does not imply its endorsement by the National Center on Educational Outcomes or its funding agency.
