This bibliography provides a recommended list of research and theoretical literature on school restructuring. Selected for practitioners, policy makers, and researchers, the literature is organized into five areas. Part I, "General References on School Restructuring," has sections on proposals for school reform (42 references); how schools work (33 references); and the change process (50 references). Part II, "Student Experiences," contains sections on curricular and instructional reform (58 references); methods of grouping students (25 references); student engagement (13 references); and assessment reform (43 references). Part III, "Professional Life of Teachers," contains sections on analyzing teachers' work life (26 references) and proposals for enhancing the teaching profession (22 references). Part IV, "School Governance," has sections covering policy issues and new accountability structures (39 references); school-site management (21 references); leadership (13 references); and school climate and culture (27 references). Part V, "Collaboration between Schools and Community," contains sections on policy issues (11 references); coordination of social services for children (8 references); business and school partnerships (5 references); and parent involvement (14 references). These topics reflect specific research projects conducted at the Center on Organization and Restructuring of Schools, in Madison, Wisconsin. An author/editor index is provided. (MLH)

Center Mission

The Center on Organization and Restructuring of Schools studies how organizational features of schools can be changed to increase the intellectual and social competence of students. The five-year program of research focuses on restructuring in four areas:

- The experiences of students in school.
- The professional life of teachers.
- The governance, management and leadership of schools.
- The coordination of community resources to better serve educationally disadvantaged students.

Through syntheses of previous research, analyses of existing data, and new empirical studies of education reform, the Center focuses on six critical issues for elementary, middle and high schools:

- How can schooling nurture authentic forms of student achievement?
- How can schooling enhance educational equity?
- How can decentralization and local empowerment be constructively developed?
- How can schools be transformed into communities of learning?
- How can change be approached through thoughtful dialogue and support rather than coercion and regulation?
- How can the focus on student outcomes be shaped to serve these principles?

Center Publications

In the fall and spring of each year, the Center publishes an issue report which offers in-depth analysis of critical issues in school restructuring. Issues in Restructuring Schools is distributed free to all persons on the mailing list. In addition, three "briefs" targeted to special audiences are offered yearly. Our 1995 Bibliography on School Restructuring is distributed free on request. To be placed on the mailing list, please contact Leon Lynn, Dissemination Coordinator, Center on Organization and Restructuring of Schools, University of Wisconsin, 1025 W. Johnson Street, Madison, WI 53706. Telephone: (608) 263-7575. Internet: llynn@macc.wisc.edu
