This finding aid is a selected list of supernatural-related narratives recorded in the United States and held in the Archive of Folk Culture. It is by no means an exhaustive description of every supernatural-related story housed in the Archive as such items are generally not cataloged according to their subject matter. Identification of many of the narratives described herein has been facilitated by an unpublished inventory of spoken-word recordings in the Archive compiled by Holly Cutting Baker and Amanda Dargan in 1983.

Throughout this finding aid you will encounter several abbreviations. AFS numbers refer to the sequential numbering of recordings cataloged and controlled by the Archive of Folk Culture. LWO and RWA numbers are shelflist designations for cassettes and tapes. All indications of time duration are estimates.

Information on listening to and obtaining copies of the recordings listed in this finding aid is contained in A Guide to the Collections of Recorded Folk Music and Folklore in the Library of Congress. This guide as well as a catalog with ordering information of the Library’s published recordings of folk music and folklore are available upon request from the Archive of Folk Culture, American Folklife Center, Library of Congress, Washington, DC 20540-8100; (202)707-5510.
