TITLE I—AMENDMENTS TO THE ELEMENTARY AND SECONDARY EDUCATION ACT OF 1965

SEC. 101. AMENDMENTS TO THE ELEMENTARY AND SECONDARY EDUCATION ACT OF 1965.

The Elementary and Secondary Education Act of 1965 (20 U.S.C. 2701 et seq.) is amended to read as follows:

"SECTION 1. TABLE OF CONTENTS.

"This Act may be cited as the 'Elementary and Secondary Education Act of 1965'."
"TITLE I—HELPING DISADVANTAGED CHILDREN MEET HIGH STANDARDS

"SEC. 1001. DECLARATION OF POLICY AND STATEMENT OF PURPOSE.

"(a) STATEMENT OF POLICY.—

"(1) IN GENERAL.—The Congress declares it to be the policy of the United States that a high-quality education for all individuals and a fair and equal opportunity to obtain that education are a societal good, are a moral imperative, and improve the life of every individual, because the quality of our individual lives ultimately depends on the quality of the lives of others.

"(2) ADDITIONAL POLICY.—The Congress further declares it to be the policy of the United States to expand the program authorized by this title over the fiscal years 1996 through 1999 by increasing funding for this title by at least $750,000,000 over baseline each fiscal year and thereby increasing the percentage of eligible children served in each fiscal year with the intent of serving all eligible children by fiscal year 2004.

"(b) RECOGNITION OF NEED.—The Congress recognizes that—

"(1) although the achievement gap between disadvantaged children and other children has been reduced by half over the past two decades, a sizable gap remains, and many segments of our society lack the opportunity to become well educated;

"(2) the most urgent need for educational improvement is in schools with high concentrations of children from low-income families and achieving the National Education Goals will not be possible without substantial improvement in such schools;

"(3) educational needs are particularly great for low-achieving children in our Nation's highest-poverty schools, children with limited English proficiency, children of migrant workers, children with disabilities, Indian children, children who are neglected or delinquent, and young children and their parents who are in need of family-literacy services;

"(4) while title I and other programs funded under this Act contribute to narrowing the achievement gap between children in high-poverty and low-poverty schools, such programs need to become even more effective in improving schools in order to enable all children to achieve high standards; and

"(5) in order for all students to master challenging standards in core academic subjects as described in the third National Education Goal described in section 102(3) of the Goals 2000: Educate America Act, students and schools will need to maximize the time spent on teaching and learning the core academic subjects.

"(c) WHAT HAS BEEN LEARNED SINCE 1988.—To enable schools to provide all children a high-quality education, this title builds upon the following learned information:

"(1) All children can master challenging content and complex problem-solving skills. Research clearly shows that children, including low-achieving children, can succeed when expectations are high and all children are given the opportunity to learn challenging material.
"(2) Conditions outside the classroom such as hunger, unsafe living conditions, homelessness, unemployment, violence, inadequate health care, child abuse, and drug and alcohol abuse can adversely affect children's academic achievement and must be addressed through the coordination of services, such as health and social services, in order for the Nation to meet the National Education Goals."

"(3) Use of low-level tests that are not aligned with schools' curricula fails to provide adequate information about what children know and can do and encourages curricula and instruction that focus on the low-level skills measured by such tests."

"(4) Resources are more effective when resources are used to ensure that children have full access to effective high-quality regular school programs and receive supplemental help through extended-time activities."

"(5) Intensive and sustained professional development for teachers and other school staff, focused on teaching and learning and on helping children attain high standards, is too often not provided."

"(6) Insufficient attention and resources are directed toward the effective use of technology in schools and the role technology can play in professional development and improved teaching and learning."

"(7) All parents can contribute to their children's success by helping at home and becoming partners with teachers so that children can achieve high standards."

"(8) Decentralized decisionmaking is a key ingredient of systemic reform. Schools need the resources, flexibility, and authority to design and implement effective strategies for bringing their children to high levels of performance."

"(9) Opportunities for students to achieve high standards can be enhanced through a variety of approaches such as public school choice and public charter schools."

"(10) Attention to academics alone cannot ensure that all children will reach high standards. The health and other needs of children that affect learning are frequently unmet, particularly in high-poverty schools, thereby necessitating coordination of services to better meet children's needs."

"(11) Resources provided under this title can be better targeted on the highest-poverty local educational agencies and schools that have children most in need."

"(12) Equitable and sufficient resources, particularly as such resources relate to the quality of the teaching force, have an integral relationship to high student achievement."

"(d) STATEMENT OF PURPOSE.—The purpose of this title is to enable schools to provide opportunities for children served to acquire the knowledge and skills contained in the challenging State content standards and to meet the challenging State performance standards developed for all children. This purpose shall be accomplished by—"

"(1) ensuring high standards for all children and aligning the efforts of States, local educational agencies, and schools to help children served under this title to reach such standards;"

"(2) providing children an enriched and accelerated educational program, including, when appropriate, the use of the
arts, through schoolwide programs or through additional services that increase the amount and quality of instructional time so that children served under this title receive at least the classroom instruction that other children receive;

"(3) promoting schoolwide reform and ensuring access of children (from the earliest grades) to effective instructional strategies and challenging academic content that includes intensive complex thinking and problem-solving experiences;

"(4) significantly upgrading the quality of instruction by providing staff in participating schools with substantial opportunities for professional development;

"(5) coordinating services under all parts of this title with each other, with other educational services, and, to the extent feasible, with health and social service programs funded from other sources;

"(6) affording parents meaningful opportunities to participate in the education of their children at home and at school;

"(7) distributing resources, in amounts sufficient to make a difference, to areas and schools where needs are greatest;

"(8) improving accountability, as well as teaching and learning, by using State assessment systems designed to measure how well children served under this title are achieving challenging State student performance standards expected of all children; and

"(9) providing greater decisionmaking authority and flexibility to schools and teachers in exchange for greater responsibility for student performance.

"SEC. 1002. AUTHORIZATION OF APPROPRIATIONS.

"PART A—IMPROVING BASIC PROGRAMS OPERATED BY LOCAL EDUCATIONAL AGENCIES

"Subpart 1—Basic Program Requirements

"SEC. 1111. STATE PLANS.

"(a) PLANS REQUIRED.—

"(1) IN GENERAL.—Any State desiring to receive a grant under this part shall submit to the Secretary a plan, developed
in consultation with local educational agencies, teachers, pupil services personnel, administrators, other staff, and parents, that satisfies the requirements of this section and that is coordinated with other programs under this Act, the Goals 2000: Educate America Act, and other Acts, as appropriate, consistent with section 14306.

"(2) CONSOLIDATION PLAN.—A State plan submitted under paragraph (1) may be submitted as part of a consolidation plan under section 14302.

"(b) STANDARDS AND ASSESSMENTS.—

"(1) CHALLENGING STANDARDS.—(A) Each State plan shall demonstrate that the State has developed or adopted challenging content standards and challenging student performance standards that will be used by the State, its local educational agencies, and its schools to carry out this part, except that a State shall not be required to submit such standards to the Secretary.

"(B) If a State has State content standards or State student performance standards developed under title III of the Goals 2000: Educate America Act and an aligned set of assessments for all students developed under such title, or, if not developed under such title, adopted under another process, the State shall use such standards and assessments, modified, if necessary, to conform with the requirements of subparagraphs (A) and (D) of this paragraph, and paragraphs (2) and (3).

"(C) If a State has not adopted State content standards and State student performance standards developed under title III of the Goals 2000: Educate America Act and an aligned set of assessments for all students developed under such title, the State plan shall include a strategy and schedule for developing State content standards and State student performance standards for elementary and secondary school children served under this part in subjects as determined by the State, but including at least mathematics and reading or language arts by the end of the one-year period described in paragraph (6), which standards shall include the same knowledge, skills, and levels of performance expected of all children.

"(D) Standards under this paragraph shall include—

"(i) challenging content standards in academic subjects that—

"(I) specify what children are expected to know and be able to do;

"(III) describe a third level of performance, partially proficient, to provide complete information about the progress of the lower performing children toward achieving to the proficient and advanced levels of performance.
"(E) For the subjects in which students will be served under this part, but for which a State is not required by subparagraphs (A), (B) and (C) to develop, and has not otherwise developed such standards, the State plan shall describe a strategy for ensuring that such students are taught the same knowledge and skills and held to the same expectations as are all children.

"(2) YEARLY PROGRESS.—

"(A) Each State plan shall demonstrate, based on assessments described under paragraph (3), what constitutes adequate yearly progress of—

"(i) any school served under this part toward enabling children to meet the State's student performance standards; and

"(ii) any local educational agency that received funds under this part toward enabling children in schools receiving assistance under this part to meet the State’s student performance standards.

"(B) Adequate yearly progress shall be defined in a manner—

"(i) that is consistent with guidelines established by the Secretary that result in continuous and substantial yearly improvement of each local educational agency and school sufficient to achieve the goal of all children served under this part meeting the State's proficient and advanced levels of performance, particularly economically disadvantaged and limited English proficient children; and

"(ii) that links progress primarily to performance on the assessments carried out under this section while permitting progress to be established in part through the use of other measures.

"(3) ASSESSMENTS.—Each State plan shall demonstrate that the State has developed or adopted a set of high-quality, yearly student assessments, including assessments in at least mathematics and reading or language arts, that will be used as the primary means of determining the yearly performance of each local educational agency and school served under this part in enabling all children served under this part to meet the State's student performance standards. Such assessments shall—

"(A) be the same assessments used to measure the performance of all children, if the State measures the performance of all children;

"(i) grades 3 through 5;
(ii) grades 6 through 9; and
(iii) grades 10 through 12;
"(E) involve multiple up-to-date measures of student performance, including measures that assess higher order thinking skills and understanding;

(ii) the reasonable adaptations and accommodations for students with diverse learning needs, necessary to measure the achievement of such students relative to State content standards; and
(iii) the inclusion of limited English proficient students who shall be assessed, to the extent practicable, in the language and form most likely to yield accurate and reliable information on what such students know and can do, to determine such students' mastery of skills in subjects other than English;
"(G) include students who have attended a local educational agency for a full academic year but have not attended a single school for a full academic year, however the performance of students who have attended more than one school in the local educational agency in any academic year shall be used only in determining the progress of the local educational agency;
"(H) provide individual student interpretive and descriptive reports, which shall include scores, or other information on the attainment of student performance standards; and
"(I) enable results to be disaggregated within each State, local educational agency, and school by gender, by each major racial and ethnic group, by English proficiency status, by migrant status, by students with disabilities as compared to nondisabled students, and by economically disadvantaged students as compared to students who are not economically disadvantaged.
"(4) SPECIAL RULE.—Assessment measures that do not meet the requirements of paragraph (3)(C) may be included as one of the multiple measures, if a State includes in the State plan information regarding the State's efforts to validate such measures.
"(5) LANGUAGE ASSESSMENTS.—Each State plan shall identify the languages other than English that are present in the participating student population and indicate the languages for which yearly student assessments are not available and are needed. The State shall make every effort to develop such assessments and may request assistance from the Secretary if linguistically accessible assessment measures are needed. Upon request, the Secretary shall assist with the identification of appropriate assessment measures in the needed languages through the Office of Bilingual Education and Minority Languages Affairs.
“(6) STANDARD AND ASSESSMENT DEVELOPMENT.—(A) A State that does not have challenging State content standards and challenging State student performance standards, in at least mathematics and reading or language arts, shall develop such standards within one year of receiving funds under this part after the first fiscal year for which such State receives such funds after the date of enactment of the Improving America’s Schools Act of 1994.

(B) A State that does not have assessments that meet the requirements of paragraph (3) in at least mathematics and reading or language arts shall develop and test such assessments within four years (one year of which shall be used for field testing such assessment), of receiving funds under this part after the first fiscal year for which such State receives such funds after the date of enactment of the Improving America’s Schools Act of 1994 and shall develop benchmarks of progress toward the development of such assessments that meet the requirements of paragraph (3), including periodic updates.

(C) The Secretary may extend for one additional year the time for testing new assessments under subparagraph (B) upon the request of the State and the submission of a strategy to correct problems identified in the field testing of such new assessments.

(D) If, after the one-year period described in subparagraph (A), a State does not have challenging State content and challenging student performance standards in at least mathematics and reading or language arts, a State shall adopt a set of standards in these subjects such as the standards and assessments contained in other State plans the Secretary has approved.

(E) If, after the four-year period described in subparagraph (B), a State does not have assessments, in at least mathematics and reading or language arts, that meet the requirement of paragraph (3), and is denied an extension under subparagraph (C), a State shall adopt an assessment that meets the requirement of paragraph (3) such as one contained in other State plans the Secretary has approved.

(A) how the State educational agency will help each local educational agency and school affected by the State...
plan develop the capacity to comply with each of the requirements of sections 1112(c)(1)(D), 1114(b), and 1115(c) that is applicable to such agency or school; and

(B) such other factors the State deems appropriate (which may include opportunity-to-learn standards or strategies developed under the Goals 2000: Educate America Act) to provide students an opportunity to achieve the knowledge and skills described in the challenging content standards adopted by the State.

“(f) LIMITATION ON CONDITIONS.—Nothing in this part shall be construed to authorize an officer or employee of the Federal Government to mandate, direct, or control a State, local educational agency, or school’s specific instructional content or student performance standards and assessments, opportunity-to-learn standards or strategies, curriculum, or program of instruction, as a condition of eligibility to receive funds under this part.

“(g) PROHIBITION.—Nothing in this Act shall be construed to require any State educational agency, local educational agency, or school, to implement opportunity-to-learn standards or strategies developed by such State under the Goals 2000: Educate America Act.
"(h) SPECIAL RULE.—If the aggregate State expenditure by a State educational agency for the operation of elementary and secondary education programs in the State is less than such agency's aggregate Federal expenditure for the State operation of all Federal elementary and secondary education programs, then the State plan shall include assurances and specific provisions that such State will provide State expenditures for the operation of elementary and secondary education programs equal to or exceeding the level of Federal expenditures for such operation by October 1, 1998.

(4) TECHNICAL ASSISTANCE.—(A) For each school identified under paragraph (1), the local educational agency shall provide
technical or other assistance as the school develops and implements such school’s plan or revised plan, such as a joint plan between the local educational agency and school that addresses specific elements of student performance problems and that specifies school and local educational agency responsibilities under the plan, and waivers or modifications of requirements of local educational agency policy or regulation that impede the ability of the school to educate students.

“(B) Such technical assistance may be provided directly by the local educational agency, through mechanisms authorized under section 1117, or with the local educational agency’s approval, by an institution of higher education, a private nonprofit organization, an educational service agency, a comprehensive regional assistance center under part A of title XIII, or other entities with experience in helping schools improve achievement.

progress can be attributed to extenuating circumstances as determined by the local educational agency.

"(D) A school that is no longer operating its schoolwide program due to a corrective action may not resume operation of such a program until the local educational agency determines that the school has adequately reformed its schoolwide program plan to enable the school to make adequate progress toward meeting the State's challenging student performance standards.

"(E) STATE EDUCATIONAL AGENCY RESPONSIBILITIES.—The State educational agency shall—

"(A) make technical assistance under section 1117 available to the schools farthest from meeting the State's challenging student performance standards, if requested by the school or local educational agency; and

(ii) has failed to meet the criteria established by the State through such State's transitional procedure under section 1111(b)(7)(B) for two consecutive years.

(B) Before identifying a local educational agency for improvement under paragraph (1), the State educational agency shall provide the local educational agency with an opportunity to review the school-level data, including assessment data, on which such identification is based. If the local educational agency believes that such identification for improvement is in error due to statistical or other substantive reasons, such local educational agency may provide evidence to the State educational agency to support such belief.

(4) LOCAL EDUCATIONAL AGENCY REVISIONS.—(A) Each local educational agency identified under paragraph (3) shall, in consultation with schools, parents, and educational experts, revise its local educational agency plan under section 1112 in ways that have the greatest likelihood of improving the performance of schools served by the local educational agency under this part in meeting the State's student performance standards.

"(ii) Notwithstanding clause (i), corrective actions taken pursuant to this part shall not include the actions described in subclauses (I), (II), and (III) of clause (i) until the State has developed assessments that meet the requirements of paragraph (3)(C) of section 1111(b).

"(C) Prior to implementing any corrective action, the State educational agency shall provide due process and a hearing (if State law provides for such due process and a hearing) to any local educational agency identified under paragraph (3) and may refrain from such corrective action for one year after the four-year period described in subparagraph (A) to the extent that the failure to make progress can be attributed to such extenuating circumstances as determined by the State educational agency.

"(7) SPECIAL RULE.—Local educational agencies that for at least two of the three years following identification under paragraph (3) make adequate progress toward meeting the State's standards no longer need to be identified for local educational agency improvement.

"(e) CONSTRUCTION.—Nothing in this section shall be construed to alter or otherwise affect the rights, remedies, and procedures afforded school or school district employees under Federal, State, or local laws (including applicable regulations or court orders) or

(D) A local educational agency may also recognize the success of a distinguished school by providing additional institutional and individual rewards, such as greater decisionmaking authority at the school building level, increased access to resources or supplemental services such as summer programs that may be used to sustain or increase success, additional professional development opportunities, opportunities to participate in special projects, and individual financial bonuses.

“(2) TIMING.—Such consultation shall occur before the local educational agency makes any decision that affects the opportunities of eligible private school children to participate in programs under this part.

“(3) DISCUSSION.—Such consultation shall include a discussion of service delivery mechanisms a local educational agency can use to provide equitable services to eligible private school children.

“(c) PUBLIC CONTROL OF FUNDS.—

“(1) IN GENERAL.—The control of funds provided under this part, and title to materials, equipment, and property purchased with such funds, shall be in a public agency, and a public agency shall administer such funds and property.

“(2) PROVISION OF SERVICES.—(A) The provision of services under this section shall be provided—

“(i) by employees of a public agency; or
“(ii) through contract by such public agency with an individual, association, agency, or organization.

“(B) In the provision of such services, such employee, person, association, agency, or organization shall be independent of such private school and of any religious organization, and such employment or contract shall be under the control and supervision of such public agency.

“(d) STANDARDS FOR A BYPASS.—If a local educational agency is prohibited by law from providing for the participation on an equitable basis of eligible children enrolled in private elementary and secondary schools or if the Secretary determines that a local educational agency has substantially failed or is unwilling to provide for such participation, as required by this section, the Secretary shall—

“(1) waive the requirements of this section for such local educational agency; and
“(2) arrange for the provision of services to such children through arrangements that shall be subject to the requirements of this section and sections 14505 and 14506.

“(e) CAPITAL EXPENSES.—
“(1) IN GENERAL.—(A) From the amount appropriated for this subsection under section 1002(e) for any fiscal year, each State is eligible to receive an amount that bears the same ratio to the amount so appropriated as the number of private school children who received services under this part in the State in the most recent year for which data satisfactory to the Secretary are available bears to the number of such children in all States in that same year.

“(B) The Secretary shall reallocate any amounts allocated under subparagraph (A) that are not used by a State for the purpose of this subsection to other States on the basis of their respective needs, as determined by the Secretary.

“(2) CAPITAL EXPENSES.—(A) A local educational agency may apply to the State educational agency for payments for capital expenses consistent with this subsection.

“(B) State educational agencies shall distribute such funds under this subsection to local educational agencies based on the degree of need set forth in their respective applications for assistance under this subsection.

“(3) USES OF FUNDS.—Any funds appropriated to carry out this subsection shall be used only for capital expenses incurred to provide equitable services for private school children under this section.

“(4) DEFINITION.—For the purpose of this subsection, the term ‘capital expenses’ means—

“(A) expenditures for noninstructional goods and services, such as the purchase, lease, or renovation of real and personal property, including mobile educational units and leasing of neutral sites or spaces;

“(B) insurance and maintenance costs;

“(C) transportation; and

“(D) other comparable goods and services.

“SEC. 1120A. FISCAL REQUIREMENTS.

“(a) MAINTENANCE OF EFFORT.—A local educational agency may receive funds under this part for any fiscal year only if the State educational agency finds that the local educational agency has maintained its fiscal effort in accordance with section 14501 of this Act.

“(b) FEDERAL FUNDS TO SUPPLEMENT, NOT SUPPLANT, NON-FEDERAL FUNDS.—

“(1) IN GENERAL.—(A) Except as provided in subparagraph (B), a State or local educational agency shall use funds received under this part only to supplement the amount of funds that would, in the absence of such Federal funds, be made available from non-Federal sources for the education of pupils participating in programs assisted under this part, and not to supplant such funds.

“(B) For the purpose of complying with subparagraph (A), a State or local educational agency may exclude supplemental State and local funds expended in any eligible school attendance area or school for programs that meet the requirements of section 1114 or 1115.
“(2) SPECIAL RULE.—No local educational agency shall be required to provide services under this part through a particular instructional method or in a particular instructional setting in order to demonstrate such agency’s compliance with paragraph (1).

“(c) COMPARABILITY OF SERVICES.—

“(1) IN GENERAL.—(A) Except as provided in paragraphs (4) and (5), a local educational agency may receive funds under this part only if State and local funds will be used in schools served under this part to provide services that, taken as a whole, are at least comparable to services in schools that are not receiving funds under this part.

“(B) If the local educational agency is serving all of such agency’s schools under this part, such agency may receive funds under this part only if such agency will use State and local funds to provide services that, taken as a whole, are substantially comparable in each school.

“(C) A local educational agency may meet the requirements of subparagraphs (A) and (B) on a grade-span by grade-span basis or a school-by-school basis.

“(2) WRITTEN ASSURANCE.—(A) A local educational agency shall be considered to have met the requirements of paragraph (1) if such agency has filed with the State educational agency a written assurance that such agency has established and implemented—

“(i) a local educational agency-wide salary schedule;

“(ii) a policy to ensure equivalence among schools in teachers, administrators, and other staff; and

“(iii) a policy to ensure equivalence among schools in the provision of curriculum materials and instructional supplies.

“(B) For the purpose of subparagraph (A), in the determination of expenditures per pupil from State and local funds, or instructional salaries per pupil from State and local funds, staff salary differentials for years of employment shall not be included in such determinations.

“(C) A local educational agency need not include unpredictable changes in student enrollment or personnel assignments that occur after the beginning of a school year in determining comparability of services under this subsection.

“(3) PROCEDURES AND RECORDS.—Each local educational agency assisted under this part shall—

“(A) develop procedures for compliance with this subsection; and

“(B) maintain records that are updated biennially documenting such agency’s compliance with this subsection.

“(4) INAPPLICABILITY.—This subsection shall not apply to a local educational agency that does not have more than one building for each grade span.

“(5) COMPLIANCE.—For the purpose of determining compliance with paragraph (1), a local educational agency may exclude State and local funds expended for—

“(A) bilingual education for children of limited English proficiency; and
"(B) excess costs of providing services to children with disabilities as determined by the local educational agency.

"SEC. 1120B. COORDINATION REQUIREMENTS.

"(a) IN GENERAL.—Each local educational agency receiving assistance under this part shall carry out the activities described in subsection (b) to the extent feasible and appropriate to the circumstances, including the extent to which such local educational agency is able to secure the cooperation of parents and local Head Start agencies and, if feasible, other early childhood development programs.

"(b) ACTIVITIES.—The activities referred to in subsection (a) are activities that increase coordination between the local educational agency and a Head Start agency, and, if feasible, other early childhood development programs, serving children who will attend the schools of such agency, including—

"(1) developing and implementing a systematic procedure for receiving records regarding such children transferred with parental consent from a Head Start program or, where applicable, other early childhood development programs;

"(2) establishing channels of communication between school staff and their counterparts in such Head Start agencies (including teachers, social workers, and health staff) or other early childhood development programs, as appropriate, to facilitate coordination of programs;

"(3) conducting meetings involving parents, kindergarten or elementary school teachers, and Head Start teachers or, if appropriate, teachers from other early childhood development programs, to discuss the developmental and other needs of individual children; and

"(4) organizing and participating in joint transition related training of school staff, Head Start staff, and, where appropriate, other early childhood staff.

"(c) COORDINATION OF REGULATIONS.—The Secretary shall work with the Secretary of Health and Human Services to coordinate regulations promulgated under this part with regulations promulgated under the Head Start Act Amendments of 1994.

"Subpart 2—Allocations

"SEC. 1121. GRANTS FOR THE OUTLYING AREAS AND THE SECRETARY OF THE INTERIOR.

"(a) RESERVATION OF FUNDS.—From the amount appropriated for payments to States for any fiscal year under section 1002(a), the Secretary shall reserve a total of 1 percent to provide assistance to—

"(1) the outlying areas on the basis of their respective need for such assistance according to such criteria as the Secretary determines will best carry out the purpose of this part; and

"(2) the Secretary of the Interior in the amount necessary to make payments pursuant to subsection (c).

"(b) ASSISTANCE TO THE OUTLYING AREAS.—

"(1) IN GENERAL.—From amounts made available under subsection (a) in each fiscal year the Secretary shall make grants to local educational agencies in the outlying areas (other than the outlying areas assisted under paragraph (3)).
"(2) COMPETITIVE GRANTS.—(A) The Secretary shall reserve $5,000,000 from the amounts made available under subsection (a) in each fiscal year to award grants on a competitive basis, to local educational agencies in the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau. The Secretary shall award such grants according to the recommendations of the Pacific Region Educational Laboratory which shall conduct a competition for such grants.

"(B) Except as provided in subparagraph (D), grant funds awarded under this part only may be used for programs described in this Act, including teacher training, curriculum development, instructional materials, or general school improvement and reform.

"(C) Grant funds awarded under this paragraph only may be used to provide direct educational services.

"(D) The Secretary may provide 5 percent of the amount made available for grants under this paragraph to pay the administrative costs of the Pacific Region Educational Laboratory regarding activities assisted under this paragraph.

"(c) ALLOTMENT TO THE SECRETARY OF THE INTERIOR.—

"(1) IN GENERAL.—The amount allotted for payments to the Secretary of the Interior under subsection (a)(2) for any fiscal year shall be, as determined pursuant to criteria established by the Secretary, the amount necessary to meet the special educational needs of—

"(A) Indian children on reservations served by elementary and secondary schools for Indian children operated or supported by the Department of the Interior; and

"(B) out-of-State Indian children in elementary and secondary schools in local educational agencies under special contracts with the Department of the Interior.

"(2) PAYMENTS.—From the amount allotted for payments to the Secretary of the Interior under subsection (a)(2), the Secretary of the Interior shall make payments to local educational agencies, upon such terms as the Secretary determines will best carry out the purposes of this part, with respect to out-of-State Indian children described in paragraph (1). The amount of such payment may not exceed, for each such child, the greater of—

"(A) 40 percent of the average per pupil expenditure in the State in which the agency is located; or

"(B) 48 percent of such expenditure in the United States.

"SEC. 1122. ALLOCATIONS TO STATES.

"(a) IN GENERAL.—

"(1) FISCAL YEAR 1995.—For fiscal year 1995, appropriations for this part shall be allocated according to the provisions of sections 1005, except subsection (a)(3), and 1006, part A of chapter 1 of title I, Elementary and Secondary Education Act of 1965, as in effect on September 30, 1994, except that the State minimum for section 1005 shall be the lesser of 0.25 percent of total appropriations or the average of 0.25 percent of total appropriations and 150 percent of the national average..."
grant per child counted for grants under section 1005 multiplied by the State's number of children counted for such grants, and for grants under section 1006, the State minimum shall be the lesser of—

"(A) 0.25 percent of total appropriations; and
"(B) the average of—

"(i) 0.25 percent of total appropriations; and
"(ii) the greater of 150 percent of the national average grant per child counted for grants under such section 1006 multiplied by the State total number of such children, or $340,000.

"(2) SUCCEEDING FISCAL YEARS.—For fiscal years 1996 through 1999, an amount of the appropriations for this part equal to the appropriation for fiscal year 1995 for section 1005, shall be allocated in accordance with section 1124, and an amount equal to the appropriation for fiscal year 1995 for section 1006 shall be allocated in accordance with section 1124A. Any additional appropriations under section 1002(a) for any fiscal year, after application of the preceding sentence, shall be allocated in accordance with section 1125.

"(b) ADJUSTMENTS WHERE NECESSITATED BY APPROPRIATIONS.—

"(1) IN GENERAL.—If the sums available under this part for any fiscal year are insufficient to pay the full amounts that all local educational agencies in States are eligible to receive under sections 1124, 1124A, and 1125 for such year, the Secretary shall ratably reduce the allocations to such local educational agencies, subject to subsections (c) and (d) of this section.

"(2) ADDITIONAL FUNDS.—If additional funds become available for making payments under sections 1124, 1124A, and 1125 for such fiscal year, allocations that were reduced under paragraph (1) shall be increased on the same basis as they were reduced.

"(c) HOLD-HARMLESS AMOUNTS.—

"(1) IN GENERAL.—For fiscal year 1995, notwithstanding subsection (b) and without regard to amounts available for delinquent children under subpart 2 of part D, the amount made available to each local educational agency under such section 1005 shall be at least 85 percent of the amount such local educational agency received for the preceding year under such section 1005.

"(2) FISCAL YEAR 1996.—Notwithstanding subsection (b) and without regard to amounts available for delinquent children under subpart 2 of part D, for fiscal year 1996 the total amount made available to each local educational agency under each of sections 1124 and 1124A for any fiscal year shall be at least 100 percent of the total amount such local educational agency was allocated under such sections (or their predecessor authorities) for the preceding fiscal year.

"(3) FISCAL YEAR 1997–1999.—For fiscal years 1997 through 1999, notwithstanding subsection (b) and without regard to amounts available for delinquent children under subpart 2 of part D, the amount made available to each local educational agency under each of sections 1124 and 1125 shall be at least
95 percent of the previous year's amount if the number of children counted for grants under section 1124 is at least 30 percent of the total number of children aged 5 to 17 years, inclusive, in the local educational agency, 90 percent of the previous year amount if this percentage is between 15 percent and 30 percent, and 85 percent if this percentage is below 15 percent. For fiscal years 1997 and 1998, in calculating grants on the basis of population data for counties, the Secretary shall apply the hold-harmless percentages in the preceding sentence to counties. For fiscal years 1996 through 1998, if the Secretary's allocation for a county is not sufficient to meet the hold-harmless requirements of this paragraph for every local educational agency within that county, then the State educational agency shall reallocate funds proportionately from all other local educational agencies in the State that are receiving funds in excess of the hold-harmless amounts specified in this paragraph.

"(d) RATABLE REDUCTIONS.—

"(1) IN GENERAL.—If the sums made available under this part for any fiscal year are insufficient to pay the full amounts that all States are eligible to receive under subsection (a) for such year, the Secretary shall ratably reduce such amounts for such year.

"(2) ADDITIONAL FUNDS.—If additional funds become available for making payments under subsection (a) for such fiscal year, amounts that were reduced under paragraph (1) shall be increased on the same basis as such amounts reduced.

"(e) DEFINITION.—For the purpose of this section and sections 1124 and 1125, the term State means each of the 50 States, the District of Columbia, and the Commonwealth of Puerto Rico.

"SEC. 1124. BASIC GRANTS TO LOCAL EDUCATIONAL AGENCIES.

"(a) AMOUNT OF GRANTS.—

"(1) GRANTS FOR LOCAL EDUCATIONAL AGENCIES AND PUERTO RICO.—The grant which a local educational agency in a State is eligible to receive under this subpart for a fiscal year shall (except as provided in section 1126), be determined by multiplying the number of children counted under subsection (c) by 40 percent of the amount determined under the next sentence. The amount determined under this sentence shall be the average per pupil expenditure in the State except that—

"(A) if the average per pupil expenditure in the State is less than 80 percent of the average per pupil expenditure in the United States, such amount shall be 80 percent of the average per pupil expenditure in the United States; or

"(B) if the average per pupil expenditure in the State is more than 120 percent of the average per pupil expenditure in the United States, such amount shall be 120 percent of the average per pupil expenditure in the United States.

"(2) BASIS FOR CALCULATING GRANTS.—For fiscal years 1995 through 1998, grants shall be calculated by the Secretary on the basis of the number of children counted under subsection (c) for counties, and State educational agencies shall suballocate county amounts to local educational agencies, in accordance with regulations published by the Secretary. In any State in which a large number of local educational agencies

52
overlap county boundaries, the State educational agency may apply to the Secretary for authority during any particular fiscal year to make the allocations under this part (other than section 1124A) directly to local educational agencies without regard to the counties. If the Secretary approves an application of a State educational agency for a particular year under this subparagraph, the State educational agency shall provide assurances that—

"(A) such allocations will be made using precisely the same factors for determining a grant as are used under this part;

"(B) such allocations will be made using alternative data approved by the Secretary that the State determines best reflects the distribution of children in poor families and is adjusted to be equivalent in proportion to the number of children determined in accordance with subsection (c); or

"(C) such allocations will be made using data that the State educational agency submits to the Secretary for approval that more accurately target poverty.

In addition, the State educational agency shall provide assurances that a procedure will be established through which local educational agencies dissatisfied with the determinations made by the State educational agency may appeal directly to the Secretary for a final determination. Beginning in fiscal year 1999, grants shall be calculated by the Secretary on the basis of population data compiled for local educational agencies, unless the Secretary and the Secretary of Commerce determine that use of the updated population data would be inappropriate or unreliable taking into consideration the recommendations of the study to be conducted by the National Academy of Sciences. If the Secretary and the Secretary and the Secretary of Commerce determine that some or all of the data referred to in this paragraph are inappropriate or unreliable, the Secretaries shall jointly issue a report setting forth their reasons in detail. In years when grants are calculated by the Secretary on the basis of local educational agency data, for each local educational agency serving an area with a total population of at least 20,000 persons, the grant under this section shall be the amount determined by the Secretary. For local educational agencies serving areas with total populations of fewer than 20,000 persons, the State educational agency may either—

"(i) distribute to such local educational agencies grants under this section equal to the amounts determined by the Secretary; and

"(ii) use an alternative method, approved by the Secretary, to distribute the share of the State's total grants under this section that is based on local educational agencies with total populations of fewer than 20,000 persons. Such an alternative method of distributing grants under this section among a State's local educational agencies serving areas with total populations of fewer than 20,000 persons shall be based upon population data that the State
educational agency determines best reflect the current distribution of children in poor families among the State's local educational agencies serving areas with total populations of fewer than 20,000 persons. If a local educational agency serving an area with total population of less than 20,000 persons is dissatisfied with the determination of its grant by the State education agency, then such local educational agency may appeal this determination to the Secretary. The Secretary must respond to this appeal within 45 days of receipt.

"(3) PUERTO RICO.—For each fiscal year, the Secretary shall determine the percentage which the average per pupil expenditure in the Commonwealth of Puerto Rico is of the lowest average per pupil expenditure of any of the 50 States. The grant which the Commonwealth of Puerto Rico shall be eligible to receive under this section for a fiscal year shall be the amount arrived at by multiplying the number of children counted under subsection (c) for the Commonwealth of Puerto Rico by the product of—

"(A) the percentage determined under the preceding sentence; and

"(B) 32 percent of the average per pupil expenditure in the United States.

"(4) DEFINITION.—For purposes of this subsection, the term 'State' does not include Guam, American Samoa, the Virgin Islands, the Northern Mariana Islands, and Palau.

"(b) MINIMUM NUMBER OF CHILDREN To QUALIFY.—Subject to the succeeding sentence, a local educational agency shall be eligible for a basic grant for a fiscal year under this subpart only if the number of children counted under subsection (c) in the school district of such local educational agency is at least 10. Beginning in fiscal year 1996, no local educational agency shall be eligible for a grant under this section if the number of children counted for grants under this section is equal to 2 percent or less of the total school age population in the local educational agency. For fiscal years 1996 through 1998, grants not made as a result of applying the preceding sentence shall be reallocated by the State educational agency to other eligible local educational agencies in the State in proportion to the distribution of other funds under this section.

"(c) CHILDREN TO BE COUNTED.—

"(1) CATEGORIES OF CHILDREN.—The number of children to be counted for purposes of this section is the aggregate of—

"(A) the number of children aged 5 to 17, inclusive, in the school district of the local educational agency from families below the poverty level as determined under paragraph (2);

"(B) the number of children aged 5 to 17, inclusive, in the school district of such agency from families above the poverty level as determined under paragraph (5); and

"(C) the number of children aged 5 to 17, inclusive, in the school district of such agency in institutions for neglected and delinquent children (other than such institutions operated by the United States), but not counted pursuant to subpart 1 of part D for the purposes of a grant to
a State agency, or being supported in foster homes with public funds.

(2) DETERMINATION OF NUMBER OF CHILDREN.—For the purposes of this section, the Secretary shall determine the number of children aged 5 to 17, inclusive, from families below the poverty level on the basis of the most recent satisfactory data, described in paragraph (3), available from the Department of Commerce. For fiscal year 1999 and beyond, the District of Columbia and the Commonwealth of Puerto Rico shall be treated as individual local educational agencies. If a local educational agency contains two or more counties in their entirety, then each county will be treated as if such county were a separate local educational agency for purposes of calculating grants under this part. The total of grants for such counties shall be allocated to such a local educational agency, which local educational agency shall distribute to schools in each county within such agency a share of the local educational agency's total grant that is no less than the county's share of the population counts used to calculate the local educational agency's grant.

(3) POPULATION UPDATES.—In fiscal year 1997 and every 2 years thereafter, the Secretary shall use updated data on the number of children, aged 5 to 17, inclusive, from families below the poverty level for counties or local educational agencies, published by the Department of Commerce, unless the Secretary and the Secretary of Commerce determine that use of the updated population data would be inappropriate or unreliable, taking into consideration the recommendations of the study to be conducted by the National Academy of Sciences. If the Secretary and the Secretary of Commerce determine that some or all of the data referred to in this paragraph are inappropriate or unreliable, they shall jointly issue a report setting forth their reasons in detail. In determining the families which are below the poverty level, the Secretary shall utilize the criteria of poverty used by the Bureau of the Census in compiling the most recent decennial census, in such form as those criteria have been updated by increases in the Consumer Price Index for all urban consumers, published by the Bureau of Labor Statistics.

(4) STUDY.—(A) The Secretary of Education shall, within 30 days after the date of enactment of the Improving America's School's Act of 1994, contract with the National Academy of Sciences (hereafter in this section referred to as the 'Academy') to study the program to produce intercensal poverty data for small geographic areas and certain age cohorts being developed by the Bureau of the Census.

(B) In conducting its study, the Academy shall consider such matters as—

(i) the methodology used to produce and publish intercensal poverty data, and possible alternative methods to improve the usefulness of the data for Federal program purposes;

(ii) the availability of alternative indicators of poverty for small geographic areas, against which the poverty data produced and published by the Bureau of the Census could be compared.
"(iii) the reliability of the poverty data produced and published by the Bureau of the Census, particularly for less populous geographic areas;

"(iv) the reliability of intercensal poverty data produced and published by the Bureau of the Census, as compared over time to similar data produced by the Bureau of the Census during the most recent decennial census; and

"(v) the usefulness of poverty data produced and published by the Bureau of the Census for Federal programs that allocate funds to State and sub-State areas based, in whole or in part, on such data.

"(C) The Academy shall submit to the Secretary and the Secretary of Commerce, as well as to the Committee on Education and Labor and the Committee on Post Office and Civil Service of the House of Representatives and the Committee on Labor and Human Resources and the Committee on Governmental Affairs of the Senate—

"(i) not later than 18 months after the date on which a contract is entered into under subsection (a), and not later than every 18 months thereafter, such interim reports on the Academy's activities under this Act that the Academy deems appropriate, including a detailed statement of the Academy's findings and conclusions with respect to any poverty data which the Bureau of the Census publishes and produces, within 90 days of such publication; and

"(ii) not later than December 31, 1998, a final report which shall include a more detailed statement of the Academy's findings and conclusions with respect to the use of any intercensal poverty data produced and published by the Bureau of the Census as the basis for allocating Federal funds under this Act.

"(D) Of the funds appropriated under section 1002(f) of this Act, the Secretary shall use such sums as are necessary in each of fiscal years 1995, 1996, 1997, 1998, and 1999 to carry out the provisions of this paragraph.

"(5) OTHER CHILDREN TO BE COUNTED.—For purposes of this section, the Secretary shall determine the number of children aged 5 to 17, inclusive, from families above the poverty level on the basis of the number of such children from families receiving an annual income, in excess of the current criteria of poverty, from payments under the program of aid to families with dependent children under a State plan approved under title IV of the Social Security Act; and in making such determinations the Secretary shall utilize the criteria of poverty used by the Bureau of the Census in compiling the most recent decennial census for a family of 4 in such form as those criteria have been updated by increases in the Consumer Price Index for all urban consumers, published by the Bureau of Labor Statistics. The Secretary shall determine the number of such children and the number of children of such ages living in institutions for neglected or delinquent children, or being supported in foster homes with public funds, on the basis of the caseload data for the month of October of the preceding fiscal year (using, in the case of children described in the preceding sentence, the criteria
of poverty and the form of such criteria required by such sentence which were determined for the calendar year preceding such month of October) or, to the extent that such data are not available to the Secretary before January of the calendar year in which the Secretary's determination is made, then on the basis of the most recent reliable data available to the Secretary at the time of such determination. The Secretary of Health and Human Services shall collect and transmit the information required by this subparagraph to the Secretary not later than January 1 of each year.

“(6) ESTIMATE.—When requested by the Secretary, the Secretary of Commerce shall make a special updated estimate of the number of children of such ages who are from families below the poverty level (as determined under subparagraph (A) of this paragraph) in each school district, and the Secretary is authorized to pay (either in advance or by way of reimbursement) the Secretary of Commerce the cost of making this special estimate. The Secretary of Commerce shall give consideration to any request of the chief executive of a State for the collection of additional census information. For purposes of this section, the Secretary shall consider all children who are in correctional institutions to be living in institutions for delinquent children.

“(d) STATE MINIMUM.—Notwithstanding subsections (b)(1) or (d) of section 1122, the aggregate amount allotted for all local educational agencies within a State may not be less than the lesser of—

“(1) 0.25 percent of total grants under this section; or

“(2) the average of—

“(A) one-quarter of 1 percent of the total amount available for such fiscal year under this section; and

“(B) the number of children in such State counted under subsection (c) in the fiscal year multiplied by 150 percent of the national average per pupil payment made with funds available under this section for that year.

“SEC. 1124A. CONCENTRATION GRANTS TO LOCAL EDUCATIONAL AGENCIES.

“(a) ELIGIBILITY FOR AND AMOUNT OF GRANTS.—

“(1) IN GENERAL.—(A) Except as otherwise provided in this paragraph, each local educational agency, in a State other than Guam, American Samoa, the Virgin Islands, the Commonwealth of the Northern Mariana Islands, and Palau, which is eligible for a grant under this part for any fiscal year shall be eligible for an additional grant under this section for that fiscal year if—

“(i) the number of children counted under section 1124(c) in the county (for fiscal years 1996 through 1998), or local educational agency (for fiscal years beginning with 1999) for the fiscal year exceeds 6,500; or

“(ii) the number of children counted under section 1124(c) exceeds 15 percent of the total number of children aged 5 to 17, inclusive, in the county (for fiscal years 1996 through 1998), or local educational agency (for fiscal years beginning with 1999) in that fiscal year.
"(B) Notwithstanding such subsections (b)(1) and (d) of section 1122, no State described in subparagraph (A) shall receive less than the lesser of—

(i) 0.25 percent of total grants; or

(ii) the average of—

(I) one-quarter of 1 percent of the sums available to carry out this section for such fiscal year; and

(II) the greater of—

(aa) $340,000; or

(bb) the number of children in such State counted for purposes of this section in that fiscal year multiplied by 150 percent of the national average per pupil payment made with funds available under this section for that year.

(2) SPECIAL RULE.—For each county or local educational agency eligible to receive an additional grant under this section for any fiscal year the Secretary shall determine the product of—

(A) the number of children counted under section 1124(c) for that fiscal year; and

(B) the quotient resulting from the division of the amount determined for those agencies under section 1124(a)(1) for the fiscal year for which the determination is being made divided by the total number of children counted under section 1124(c) for that agency for fiscal year.

(3) AMOUNT.—The amount of the additional grant for which an eligible local educational agency or county is eligible under this section for any fiscal year shall be an amount which bears the same ratio to the amount available to carry out this section for that fiscal year as the product determined under paragraph (2) for such local educational agency for that fiscal year bears to the sum of such products for all local educational agencies in the United States for that fiscal year.

(4) SUBALLOCATION.—For fiscal years 1996 through 1998, county amounts shall be suballocated to local educational agencies meeting the criteria of paragraph (1)(A) by State educational agencies, in accordance with regulations published by the Secretary. For fiscal years 1995 through 1998, grants shall be calculated by the Secretary on the basis of the number of children counted under section 1124(c) for counties, and State educational agencies shall suballocate county amounts to local educational agencies, in accordance with regulations published by the Secretary. In any State in which a large number of local educational agencies overlap county boundaries, the State educational agency may apply to the Secretary for authority during any particular fiscal year to make the allocations under this part (other than this section) directly to local educational agencies without regard to the counties. If the Secretary approves an application of a State educational agency for a particular year under this paragraph, the State educational agency shall provide assurances that—

(A) such allocations will be made using precisely the same factors for determining a grant as are used under this part;
“(B) such allocations will be made using alternative data approved by the Secretary that the State determines best reflects the distribution of children in poor families and is adjusted to be equivalent in proportion to the number of children determined in accordance with section 1124(c); or

“(C) such allocations will be made using data that the State educational agency submits to the Secretary for approval that more accurately target poverty.

In addition, the State educational agency shall provide assurances that a procedure will be established through which local educational agencies dissatisfied with the determinations made by the State educational agency may appeal directly to the Secretary for a final determination. A State may reserve not more than 2 percent of its allocations in fiscal years 1996 through 1998 under this section for the purpose of making grants to local educational agencies that meet the criteria of clause (i) or (ii) of paragraph (1)(A), but are in ineligible counties. For fiscal years beginning with 1999, for each local educational agency serving an area with a total population of at least 20,000 persons, the grant under this section shall be the amount determined by the Secretary. For local educational agencies serving areas with total populations of fewer than 20,000 persons, the State educational agency may either (i) distribute to such local educational agencies grants under this section equal to the amounts determined by the Secretary; or (ii) use an alternative method, approved by the Secretary, to distribute the share of the State's total grants under this section that is based on local educational agencies with total populations of fewer than 20,000 persons. Such an alternative method of distributing grants under this section among a State's local educational agencies serving areas with total populations of fewer than 20,000 persons shall be based upon population data that the State educational agency determines best reflects the current distribution of children in poor families among the State's local educational agencies serving areas with total populations of fewer than 20,000 persons and meeting the eligibility criteria of paragraph (1)(A). If a local educational agency serving an area with total population of less than 20,000 persons is dissatisfied with the determination of its grant by the State educational agency, then such local educational agency may appeal this determination to the Secretary. The Secretary shall respond to this appeal within 45 days of receipt. The Secretary shall consult with the Secretary of Commerce regarding whether available data on population for local educational agencies serving areas with total populations of fewer than 20,000 persons are sufficiently reliable to be used to determine final grants to such areas meeting the eligibility criteria of paragraph (1)(A).

“(b) RESERVATION OF FUNDS.—Of the total amount of funds available for this section and sections 1124 and 1125, an amount equal to the appropriation for fiscal year 1995 for section 1006 of this Act (as such section was in effect on the day preceding the date of enactment of this Act) shall be available to carry out this section.
“(c) RATABLE REDUCTION RULE.—If the sums available under subsection (b) for any fiscal year for making payments under this section are not sufficient to pay in full the total amounts which all States eligible to receive under subsection (a) for such fiscal year, the maximum amounts which all States are eligible to receive under subsection (a) shall be ratably reduced.

In the case that additional funds become available for making such payments for any fiscal year during which the preceding sentence is applicable, such reduced amounts shall be increased on the same basis as they were reduced.

“(d) STATES RECEIVING MINIMUM GRANTS.—In States that receive the minimum grant under subsection (a)(1)(B), the State educational agency shall allocate such funds among the local educational agencies in each State either—

“(1) in accordance with paragraphs (2) and (4) of subsection (a); or

“(2) based on their respective concentrations and numbers of children counted under section 1124(c), except that only those local educational agencies with concentrations or numbers of children counted under section 1124(c) that exceed the statewide average percentage of such children or the statewide average number of such children shall receive any funds on the basis of this paragraph.

SEC. 1125. TARGETED GRANTS TO LOCAL EDUCATIONAL AGENCIES.

“(a) ELIGIBILITY OF LOCAL EDUCATIONAL AGENCIES.—A local educational agency in a State is eligible to receive a targeted grant under this section for any fiscal year if the number of children in the local educational agency counted under subsection 1124(c), before application of the weighting factor described in subsection (c), is at least 10, and if the number of children counted for grants under section 1124 is at least 5 percent of the total population aged 5 to 17 years, inclusive, in the local educational agency. Funds made available as a result of applying this subsection shall be reallocated by the State educational agency to other eligible local educational agencies in the State in proportion to the distribution of other funds under this section.

“(b) GRANTS FOR LOCAL EDUCATIONAL AGENCIES, THE DISTRICT OF COLUMBIA, AND PUERTO RICO.—

“(1) IN GENERAL.—The amount of the grant that a local educational agency in a State or the District of Columbia is eligible to receive under this section for any fiscal year shall be the product of—

“(A) the weighted child count determined under subsection (c); and

“(B) the amount in the second sentence of subparagraph 1124(a)(1)(A).

“(2) PUERTO RICO.—For each fiscal year, the amount of the grant for which the Commonwealth of Puerto Rico is eligible under this section shall be equal to the number of children counted under subsection (c) for Puerto Rico, multiplied by the amount determined in subparagraph 1124(a)(3).

“(c) WEIGHTED CHILD COUNT.—

“(1) FISCAL YEARS 1966–1998.—
"(A) IN GENERAL.—The weighted child count used to
determine a county's allocation under this section is the
larger of the two amounts determined under clauses (i) or
(ii), as follows:

"(i) BY PERCENTAGE OF CHILDREN.—This amount
is determined by adding—

"(I) the number of children determined under
section 1124(c) for that county constituting up to
12.20 percent, inclusive, of the county's total popu-
lation aged 5 to 17, inclusive, multiplied by 1.0;
"(II) the number of such children constituting
more than 12.20 percent, but not more than 17.70
percent, of such population, multiplied by 1.75;
"(III) the number of such children constituting
more than 17.70 percent, but not more than 22.80
percent, of such population, multiplied by 2.5;
"(IV) the number of such children constituting
more than 22.80 percent, but not more than 29.70
percent, of such population, multiplied by 3.25;
"(V) the number of such children constituting
more than 29.70 percent of such population, multi-
nplied by 4.0.

"(ii) BY NUMBER OF CHILDREN.—This amount is
determined by adding—

"(I) the number of children determined under
section 1124(c) constituting up to 1,917, inclusive,
of the county's total population aged 5 to 17, inclu-
sive, multiplied by 1.0;
"(II) the number of such children between
1,918 and 5,938, inclusive, in such population,
multiplied by 1.5;
"(III) the number of such children between
5,939 and 20,199, inclusive, in such population,
multiplied by 2.0;
"(IV) the number of such children between
20,200 and 77,999, inclusive, in such population,
multiplied by 2.5; and
"(V) the number of such children in excess of
77,999 in such population, multiplied by 3.0.

"(B) PUERTO RICO.—Notwithstanding subparagraph
(A), the weighting factor for Puerto Rico under this para-
graph shall not be greater than the total number of chil-
dren counted under subsection 1124(c) multiplied by 1.72.

"(2) FISCAL YEARS AFTER 1999.

"(A) IN GENERAL.—For each fiscal year beginning with
fiscal year 1999 for which the Secretary uses local edu-
cational agency data, the weighted child count used to
determine a local educational agency's grant under this sec-
tion is the larger of the two amounts determined under
clauses (i) and (ii), as follows:

"(i) BY PERCENTAGE OF CHILDREN.—This amount
is determined by adding—
“(I) the number of children determined under section 1124(c) for that local educational agency constituting up to 14.265 percent, inclusive, of the agency’s total population aged 5 to 17, inclusive, multiplied by 1.0;
“(II) the number of such children constituting more than 14.265 percent, but not more than 21.553 percent, of such population, multiplied by 1.75;
“(III) the number of such children constituting more than 21.553 percent, but not more than 29.223 percent, of such population, multiplied by 2.5;
“(IV) the number of such children constituting more than 29.223 percent, but not more than 36.538 percent, of such population, multiplied by 3.25; and
“(V) the number of such children constituting more than 36.538 percent of such population, multiplied by 4.0.
“(ii) BY NUMBER OF CHILDREN.—This amount is determined by adding
“(I) the number of children determined under section 1124(c) constituting up to 575, inclusive, of the agency’s total population aged 5 to 17, inclusive, multiplied by 1.0;
“(II) the number of such children between 576 and 1,870, inclusive, in such population, multiplied by 1.5;
“(III) the number of such children between 1,871 and 6,910, inclusive, in such population, multiplied by 2.0;
“(IV) the number of such children between 6,911 and 42,000, inclusive, in such population, multiplied by 2.5; and
“(V) the number of such children in excess of 42,000 in such population, multiplied by 3.0.
“(B) PUERTO RICO.—Notwithstanding subparagraph (A), the weighting factor for Puerto Rico under this paragraph shall not be greater than the total number of children counted under section 1124(c) multiplied by 1.72.
“(d) LOCAL EDUCATIONAL AGENCY ALLOCATIONS.—For fiscal years 1995 through 1998, grants shall be calculated by the Secretary on the basis of the number of children counted under section 1124 for counties, and State educational agencies shall suballocate county amounts to local educational agencies, in accordance with regulations published by the Secretary. In any State in which a large number of local educational agencies overlap county boundaries, the State educational agency may apply to the Secretary for authority during any particular fiscal year to make the allocations under this part (other than section 1124A) directly to local educational agencies without regard to the counties. If the Secretary approves an application of a State educational agency for a particular
year under this subparagraph, the State educational agency shall provide assurances that—

“(1) such allocations will be made using precisely the same factors for determining a grant as are used under this part;

“(2) such allocations will be made using alternative data approved by the Secretary that the State determines best reflects the distribution of children in poor families and is adjusted to be equivalent in proportion to the number of children determined in accordance with section 1124(c); or

“(3) such allocations will be made using data that the State educational agency submits to the Secretary for approval that more accurately target poverty.

In addition, the State educational agency shall provide assurances that a procedure will be established through which local educational agencies dissatisfied with the determinations made by the State educational agency may appeal directly to the Secretary for a final determination. For fiscal years beginning in 1999, for each local educational agency serving an area with a total population of at least 20,000 persons, the grant under this section shall be the amount determined by the Secretary. For local educational agencies serving areas with total populations of fewer than 20,000 persons, the State education agency may either (1) distribute to such local educational agencies grants under this section equal to the amounts determined by the Secretary; or (2) use an alternative method, approved by the Secretary, to distribute the share of the State's total grants under this section that is based on local educational agencies with total populations of fewer than 20,000 persons. Such an alternative method of distributing grants under this section among a State's local educational agencies serving areas with total populations of fewer than 20,000 persons shall be based upon population data that the State education agency determines best reflects the current distribution of children in poor families among the State's local educational agencies serving areas with total populations of fewer than 20,000 persons. If a local educational agency serving an area with total populations of less than 20,000 persons is dissatisfied with the determination of its grant by the State education agency, then the local educational agency may appeal this determination to the Secretary. The Secretary shall respond to this appeal within 45 days of receipt.

“(e) STATE MINIMUM.—Notwithstanding any other provision of this section or subsection (b)(1) or (d) of section 1122, from the total amount available for any fiscal year to carry out this section, each State shall be allotted at least the lesser of—

“(1) 0.25 percent of total appropriations; or

“(2) the average of—

“(A) one quarter of 1 percent of the total amount available to carry out this section; and

“(B) 150 percent of the national average grant under this section per child described in section 1124(c), without application of a weighting factor, multiplied by the State's total number of children described in section 1124(c), without application of a weighting factor.
SEC. 1125A. EDUCATION FINANCE INCENTIVE PROGRAM.

(a) GRANTS.—The Secretary is authorized to make grants to States from the sums appropriated pursuant to subsection (e) to carry out the purposes of this part.

(b) DISTRIBUTION BASED UPON FISCAL EFFORT AND EQUITY.—

(1) IN GENERAL.—Funds appropriated pursuant to subsection (e) shall be allotted to each State based upon the number of children aged 5 to 17, inclusive, of such State multiplied by the product of—

(A) such State’s effort factor described in paragraph (2); multiplied by

(B) 1.30 minus such State’s equity factor described in paragraph (3),

except that for each fiscal year no State shall receive less than one-quarter of 1 percent of the total amount appropriated pursuant to subsection (e) for such fiscal year.

(2) EFFORT FACTOR.—(A) Except as provided in subparagraph (B), the effort factor for a State shall be determined in accordance with the succeeding sentence, except that such factor shall not be less than .95 nor greater than 1.05. The effort factor determined under this sentence shall be a fraction the numerator of which is the product of the three-year average per-pupil expenditure in the State multiplied by the three-year average per capita income in the United States and the denominator of which is the product of the three-year average per capita income in such State multiplied by the three-year average per-pupil expenditure in the United States.

(B) The effort factor for the Commonwealth of Puerto Rico shall be equal to the lowest effort factor calculated under subparagraph (A) for any State.

(3) EQUITY FACTOR.—(A)(i) Except as provided in subparagraph (B), the Secretary shall determine the equity factor under this section for each State in accordance with clause (ii).

(ii)(I) For each State, the Secretary shall compute a weighted coefficient of variation for the per-pupil expenditures of local educational agencies in accordance with subclauses (II), (III), (IV), and (V).

(II) In computing coefficients of variation, the Secretary shall weight the variation between per-pupil expenditures in each local educational agency and the average per-pupil expenditures in the State according to the number of pupils in the local educational agency.

(III) In determining the number of pupils under this paragraph in each local educational agency and each State, the Secretary shall multiply the number of children from low-income families by 1.4 under this paragraph.

(IV) In computing coefficients of variation, the Secretary shall include only those local educational agencies with an enrollment of more than 200 students.

(V) The Secretary shall compute separate coefficients of variation for elementary, secondary, and unified local educational agencies and shall combine such coefficients into a single weighted average coefficient for the State by multiplying each coefficient by the total enrollments of the local educational
agencies in each group, adding such products, and dividing
such sum by the total enrollments of the local educational
agencies in the State.

"(B) The equity factor for a State that meets the disparity
standard described in section 222.63 of title 34, Code of Federal
Regulations (as such section was in effect on the day preceding
the date of enactment of this Act) or a State with only one local
educational agency shall be not greater than .10.

"(C) The Secretary may revise each State's equity factor as
necessary based on the advice of independent education finance
scholars to reflect other need-based costs of local educational
agencies in addition to low-income student enrollment, such as
differing geographic costs, costs associated with students with
disabilities, children with limited-English proficiency or other
meaningful educational needs, which deserve additional sup-
port. In addition and also with the advice of independent edu-
cation finance scholars, the Secretary may revise each State's
equity factor to incorporate other valid and accepted methods to
achieve adequacy of educational opportunity that may not be re-
flected in a coefficient of variation method.

"(c) USE OF FUNDS.—All funds awarded to each State under
this section shall be allocated to local educational agencies and
schools on a basis consistent with the distribution of other funds to
such agencies and schools under sections 1124, 1124A, and 1125 to
carry out activities under this part.

"(d) MAINTENANCE OF EFFORT.—

"(1) IN GENERAL.—Except as provided in paragraph (2), a
State is entitled to receive its full allotment of funds under this
part for any fiscal year if the Secretary finds that either the
combined fiscal effort per student or the aggregate expenditures
within the State with respect to the provision of free public edu-
cation for the fiscal year preceding the fiscal year for which the
determination is made was not less than 90 percent of such
combined fiscal effort or aggregate expenditures for the second
fiscal year preceding the fiscal year for which the determination
is made.

"(2) REDUCTION OF FUNDS.—The Secretary shall reduce the
amount of the funds awarded to any State under this section
in any fiscal year in the exact proportion to which the State
fails to meet the requirements of paragraph (1) by falling below
90 percent of both the fiscal effort per student and aggregate ex-
penditures (using the measure most favorable to the State), and
no such lesser amount shall be used for computing the effort re-
quired under paragraph (1) for subsequent years.

"(3) WAIVERS.—The Secretary may waive, for one fiscal
year only, the requirements of this subsection if the Secretary
determines that such a waiver would be equitable due to excep-
tional or uncontrollable circumstances such as a natural disas-
ter or a precipitous and unforeseen decline in the financial re-
sources of the State.

"(e) AUTHORIZATION OF APPROPRIATIONS.—For the purpose of
making grants under this section, there are authorized to be apro-
niated $200,000,000 for fiscal year 1996 and such sums as may be
necessary for each of the three succeeding fiscal years.
“SEC. 1126. SPECIAL ALLOCATION PROCEDURES.

“(a) ALLOCATIONS FOR NEGLECTED CHILDREN.—

“(1) IN GENERAL.—If a State educational agency determines that a local educational agency in the State is unable or unwilling to provide for the special educational needs of children who are living in institutions for neglected children as described in subparagraph 1124(c)(1)(C), the State educational agency shall, if such agency assumes responsibility for the special educational needs of such children, receive the portion of such local educational agency's allocation under sections 1124, 1124A, and 1125 that is attributable to such children.

“(2) SPECIAL RULE.—If the State educational agency does not assume such responsibility, any other State or local public agency that does assume such responsibility shall receive that portion of the local educational agency's allocation.

“(b) ALLOCATIONS AMONG LOCAL EDUCATIONAL AGENCIES.—The State educational agency may allocate the amounts of grants under sections 1124, 1124A, and 1125 among the affected local educational agencies—

“(1) if two or more local educational agencies serve, in whole or in part, the same geographical area;

“(2) if a local educational agency provides free public education for children who reside in the school district of another local educational agency; or

“(3) to reflect the merger, creation, or change of boundaries of one or more local educational agencies.

“(c) REALLOCATION.—If a State educational agency determines that the amount of a grant a local educational agency would receive under sections 1124, 1124A, and 1125 is more than such local agency will use, the State educational agency shall make the excess amount available to other local educational agencies in the State that need additional funds in accordance with criteria established by the State educational agency.

“SEC. 1127. CARRYOVER AND WAIVER.

“(a) LIMITATION ON CARRYOVER.—Notwithstanding section 421 of the General Education Provisions Act or any other provision of law, not more than 15 percent of the funds allocated to a local educational agency for any fiscal year under this subpart (but not including funds received through any reallocation under this subpart) may remain available for obligation by such agency for one additional fiscal year.

“(b) WAIVER.—A State educational agency may, once every three years, waive the percentage limitation in subsection (a) if—

“(1) the agency determines that the request of a local educational agency is reasonable and necessary; or

“(2) supplemental appropriations for this subpart become available.

“(c) EXCLUSION.—The percentage limitation under subsection (a) shall not apply to any local educational agency that receives less than $50,000 under this subpart for any fiscal year.

"(3) MINIMUM.—No State shall receive a grant under paragraph (1) in any fiscal year in an amount which is less than $250,000, or one-half of 1 percent of the amount appropriated under section 1002(b) and not reserved under subsections (a), (b), and (c) for such year, whichever is greater.

"SEC. 1302. PROGRAM AUTHORIZED.

"PART D—PREVENTION AND INTERVENTION PROGRAMS FOR CHILDREN AND YOUTH WHO ARE NEGLECTED, DELINQUENT, OR AT-RISK OF DROPPING OUT"

"SEC. 1401. FINDINGS; PURPOSE; PROGRAM AUTHORIZED.

(a) FINDINGS.—Congress finds the following:

(1) A large percentage of youth in the juvenile justice system have poor academic achievement, are a year or more behind grade level, and have dropped out of school.

(2) There is a strong correlation between academic failure and involvement in delinquent activities.

(3) Preventing students from dropping out of local schools and addressing the educational needs of delinquent youth can help reduce the dropout rate and involvement in delinquent activities at the same time.

(4) Many schools and correctional facilities fail to communicate regarding a youth's academic needs and students often return to their home school ill-prepared to meet current curriculum requirements.

(5) Schools are often reluctant to deal with youth returning from facilities and receive no funds to deal with the unique educational and other needs of such youth.

(6) A continuing need exists for activities and programs to reduce the incidence of youth dropping out of school.

(7) Federal dropout prevention programs have demonstrated effectiveness in keeping children and youth in school.

(8) Pregnant and parenting teens are a high at-risk group for dropping out of school and should be targeted by dropout prevention programs.

(9) Such youth need a strong dropout prevention program which provides such youth with high level skills and which provides supports to youth returning from correctional facilities in order to keep such youth in school.

(b) PURPOSE.—It is the purpose of this part—

(1) to improve educational services to children in local and State institutions for neglected or delinquent children and youth so that such children and youth have the opportunity to
meet the same challenging State content standards and chal-
lenging State student performance standards that all children
in the State will be expected to meet;
“(2) to provide such children and youth the services needed
to make a successful transition from institutionalization to fur-
ther schooling or employment; and
“(3) to prevent at-risk youth from dropping out of school
and to provide dropouts and youth returning from institutions
with a support system to ensure their continued education.
“(c) PROGRAM AUTHORIZED.—In order to carry out the purpose
of this part the Secretary shall make grants to State educational
agencies to enable such agencies to award subgrants to State agen-
cies and local educational agencies to establish or improve pro-
grams of education for neglected or delinquent children and youth
at risk of dropping out of school before graduation.
“SEC. 1402. PAYMENTS FOR PROGRAMS UNDER THIS PART.
“(a) AGENCY SUBGRANTS.—Based on the allocation amount
computed under section 1412, the Secretary shall allocate to each
State educational agency amounts necessary to make subgrants to
State agencies.
“(b) LOCAL SUBGRANTS.—Each State shall retain, for purposes
of subpart 2, funds generated throughout the State under part A
based on youth residing in local correctional facilities, or attending
community day programs for delinquent children and youth.
“(c) USE OF REMAINING FUNDS.—Each State shall use any
funds remaining after allocations are made under subsection (a).

“Subpart 1—State Agency Programs

“SEC. 1411. ELIGIBILITY.
“A State agency is eligible for assistance under this subpart if
such State agency is responsible for providing free public education
for children—
“(1) in institutions for neglected or delinquent children;
“(2) attending community day programs for neglected or de-
linquent children; or
“(3) in adult correctional institutions.

“SEC. 1412. ALLOCATION OF FUNDS.

and youth described in section 1411 who—
“(i) are enrolled for at least 15 hours per week in
education programs in adult correctional institutions; and
“(ii) are enrolled for at least 20 hours per week—
“(I) in education programs in institutions for
neglected or delinquent children; or
“(II) in community day programs for neglected
or delinquent children; and
"(B) 40 percent of the average per-pupil expenditure in the State, except that the amount determined under this paragraph shall not be less than 32 percent, or more than 48 percent, of the average per-pupil expenditure in the United States.

"(2) SPECIAL RULE.—The number of neglected or delinquent children and youth determined under paragraph (1) shall—

"(A) be determined by the State agency by a deadline set by the Secretary, except that no State agency shall be required to determine the number of such children on a specific date set by the Secretary; and

"(B) be adjusted, as the Secretary determines is appropriate, to reflect the relative length of such agency's annual programs.

"(b) SUBGRANTS TO STATE AGENCIES IN PUERTO RICO.—For each fiscal year, the amount of the subgrant for which a State agency in the Commonwealth of Puerto Rico is eligible under this part shall be equal to—

"(1) the number of children and youth counted under subsection (a)(1) for the Commonwealth of Puerto Rico; multiplied by

"(2) the product of—

"(A) the percentage that the average per-pupil expenditure in the Commonwealth of Puerto Rico is of the lowest average per-pupil expenditure of any of the 50 States; and

"(B) 32 percent of the average per-pupil expenditure in the United States.

"(c) RATABLE REDUCTIONS IN CASE OF INSUFFICIENT APPROPRIATIONS.—If the amount appropriated for any fiscal year for subgrants under subsections (a) and (b) is insufficient to pay the full amount for which all agencies are eligible under such subsections, the Secretary shall ratably reduce each such amount.

"SEC. 1413. STATE REALLOCATION OF FUNDS.

"If a State educational agency determines that a State agency does not need the full amount of the subgrant for which such State agency is eligible under this part for any fiscal year, the State educational agency may reallocate the amount that will not be needed to other eligible State agencies that need additional funds to carry out the purpose of this part, in such amounts as the State educational agency shall determine.

TITLE II—DWIGHT D. EISENHOWER PROFESSIONAL DEVELOPMENT PROGRAM

SEC. 2001. FINDINGS.

The Congress finds as follows:

(1) Reaching the National Education Goals, particularly the third, fourth, and fifth National Education Goals, requires a comprehensive educational reform strategy that involves parents, schools, government, communities, and other public and private organizations at all levels.

(2) A crucial component of the strategy for achieving such goals is ensuring, through sustained and intensive high-quality professional development, that all teachers will provide challenging learning experiences in the core academic subjects for their students.

(3) Decisionmaking as to what activities a State or local educational agency should undertake to improve teaching and learning are best made by individuals in the schools closest to the classroom and most knowledgeable about the needs of schools and students.

(4) The potential positive impact of high-quality professional development is underscored by recent research findings that—

(A) professional development must be focused on teaching and learning in order to improve the opportunities of all students to achieve higher standards;

(B) effective professional development focuses on discipline-based knowledge and effective subject-specific pedagogical skills, involves teams of teachers, and, where appropriate, administrators and pupil services personnel, in a school and, through professional networks of teachers, and, where appropriate, teacher educators, administrators, pupil services personnel, and parents, is interactive and collaborative, motivates by its intrinsic content and relationship to practice, builds on experience and learning-by-doing, and becomes incorporated into the everyday life of the school.
"(C) professional development can dramatically improve classroom instruction and learning when teachers, and, where appropriate, administrators, pupil services personnel, and parents, are partners in the development and implementation of such professional development; and

"(D) new and innovative strategies for teaching to high standards will require time for teachers, outside of the time spent teaching, for instruction, practice, and collegial collaboration.

"(5) Special attention must be given in professional development activities to ensure that education professionals are knowledgeable of, and make use of, strategies for serving populations that historically have lacked access to equal opportunities for advanced learning and career advancement.

"(6) Professional development is often a victim of budget reductions in fiscally difficult times.

"(7) The Federal Government has a vital role in helping States and local educational agencies to make sustained and intensive high-quality professional development in the core academic subjects become an integral part of the elementary and secondary education system.

"(8) Professional development activities must prepare teachers, pupil services personnel, paraprofessionals, and other staff in the collaborative skills needed to appropriately teach children with disabilities, in the core academic subjects.

"(9) Parental involvement is an important aspect of school reform and improvement. There is a need for special attention to ensure the effective involvement of parents in the education of their children. Professional development should include methods and strategies to better prepare teachers and, where appropriate, administrators, to enable parents to participate fully and effectively in their children’s education.

"SEC. 2103. NATIONAL TEACHER TRAINING PROJECT.
"(a) SHORT TITLE; FINDINGS; DEFINITIONS.—
"(1) SHORT TITLE.—This section may be cited as the 'National Teacher Training Project Act of 1994'.
"(2) FINDINGS.—The Congress finds that—
"(A) teachers must be major players in educational reform in the United States;
"(B) teachers are isolated from their peers and have virtually no time during the school day to consult with other teachers;
“(C) there is a shortage of sustained, year-round professional development programs for teachers;
“(D) successful teaching methods are not adequately shared among teachers;
“(E) teachers are the best teachers of other teachers because practicing classroom teachers have experience that no outside consultant can match;
“(F) it is important for universities and schools to collaborate on teacher development programs if teaching and learning are to be improved;
“(G) pertinent research is not shared among teachers in a professional setting;
“(H) exemplary teachers should be recognized for their abilities and contributions and encouraged to refine their teaching methods;
“(I) each State should support a nationally based teacher training program, that is modeled after the National Writing Project, for teachers of early childhood education, and for teachers of core academic subjects including teachers of mathematics, science, English, civics and government, foreign languages, and arts;
“(J) the National Writing Project is a nationally recognized and honored nonprofit organization that recognizes there are teachers in every region of the United States who have developed successful methods for teaching writing and that such teachers can be trained and encouraged to train other teachers;
“(K) the National Writing Project is a collaborative university-school program which offers summer and school year inservice teacher training programs and a dissemination network to inform and teach teachers regarding developments in the field of writing;
“(L) each year, over 125,000 teachers voluntarily seek training in National Writing Project intensive summer institutes and workshops and school year inservice programs through one of the 155 sites located within the United States, and in 18 sites located outside of the United States;
“(M) in the 20 years of its existence, over 1,100,000 teachers, administrators, and parents have participated in National Writing Project programs;
“(N) less than $16 per teacher was the average cost in Federal dollars for all teacher training at writing projects in academic year 1991–1992;
“(O) for every dollar in Federal support, the National Writing Project provides over $5 in matching funds from States, local universities and schools, and the private sector;
“(P) private foundation resources, although generous in the past concerning National Writing Project programs, are inadequate to fund all of the National Teacher Training Project sites needed, and the future of the program is in jeopardy without secure financial support;
“(Q) the National Writing Project has become a model for programs in other fields, such as science, mathematics,
history, literature, foreign languages, and the performing arts, and the development of programs in other fields should continue with the support of Federal funds; and

"(R) each of the 50 States should participate in the National Teacher Training Project by establishing regional teacher training sites in early childhood development, mathematics, science, English, civics and government, foreign languages, and arts to serve all teachers within the State.

"TITLE III—TECHNOLOGY FOR EDUCATION

"SEC. 3101. SHORT TITLE.

'This title may be cited as the 'Technology for Education Act of 1994'.

"PART A—TECHNOLOGY FOR EDUCATION OF ALL STUDENTS

"SEC. 3111. FINDINGS.

'The Congress finds that—

"(1) technology can produce far greater opportunities for all students to learn to high standards, promote efficiency and effectiveness in education, and help propel our Nation's school systems into very immediate and dramatic reform, without
which our Nation will not meet the National Education Goals by the target year 2000;

"(2) the use of technology as a tool in the teaching and learning process is essential to the development and maintenance of a technologically literate citizenry and an internationally competitive work force;

"(3) the acquisition and use of technology in education throughout the United States has been inhibited by—

"(A) the absence of Federal leadership;
"(B) the inability of many State and local educational agencies to invest in and support needed technologies;
"(C) the limited exposure of students and teachers to the power of technology as a cost-effective tool to improve student learning and achievement;
"(D) the lack of appropriate electrical and telephone connections in the classroom; and
"(E) the limited availability of appropriate technology-enhanced curriculum, instruction, professional development, and administrative support resources and services in the educational marketplace;

"(4) policies at the Federal, State, and local levels concerning technology in education must address disparities in the availability of technology to different groups of students, give priority to serving students in greatest need, and recognize that educational telecommunications and technology can address educational equalization concerns and school restructuring needs by providing universal access to high-quality teaching and programs, particularly in urban and rural areas;

"(5) the increasing use of new technologies and telecommunications systems in business has increased the gap between schooling and work force preparation, and underscores the need for technology policies at the Federal, State, tribal, and local levels that address preparation for school-to-work transitions;

"(6) technology can enhance the ongoing professional development of teachers and administrators by providing constant access to updated research in teaching and learning by means of telecommunications, and, through exposure to technology advancements, keep teachers and administrators excited and knowledgeable about unfolding opportunities for the classroom;

"(7) planned and creative uses of technology, combined with teachers adequately trained in the use of technology, can reshape our Nation’s traditional method of providing education and empower teachers to create an environment in which students are challenged through rigorous, rich classroom instruction provided at a pace suited to each student’s learning style, and in which students have increased opportunities to develop higher order thinking and technical skills;

"(8) schools need new ways of financing the acquisition and maintenance of educational technology;

"(9) the needs for educational technology differ from State to State;

"(10) technology can provide students, parents, teachers, other education professionals, communities, and industry with...
increased opportunities for partnerships and with increased access to information, instruction, and educational services in schools and other settings, including homes, libraries, preschool and child-care facilities, adult and family education programs, and postsecondary institutions;

(11) the Department, consistent with the overall national technology policy established by the President, must assume a vital leadership and coordinating role in developing the national vision and strategy to infuse advanced technology throughout all educational programs;

(12) Federal support can ease the burden at the State and local levels by enabling the acquisition of advanced technology and initiating the development of teacher training and support as well as new educational products;

(13) leadership at the Federal level should consider guidelines to ensure that educational technology is accessible to all users with maximum interoperability nationwide;

(14) the rapidly changing nature of technology requires coordination and flexibility in Federal leadership; and

(15) technology has the potential to assist and support the improvement of teaching and learning in schools and other settings.

SEC. 3112. STATEMENT OF PURPOSE.

The purpose of this part is to support a comprehensive system for the acquisition and use by elementary and secondary schools in the United States of technology and technology-enhanced curricula, instruction, and administrative support resources and services to improve the delivery of educational services. Such system shall include—

(1) national leadership with respect to the need for, and the provision of, appropriate technology-enhanced curriculum, instruction, and administrative programs to improve learning in the United States, and to promote equal access for all students to educational opportunities in order to achieve the National Education Goals by the year 2000;

(2) funding mechanisms which will support the development, interconnection, implementation, improvement, and maintenance of an effective educational technology infrastructure, including activities undertaken by State and local educational agencies to promote and provide equipment, training for teachers and school library and media personnel, and technical support;

(3) support for technical assistance, professional development, information and resource dissemination, in order to help States, local educational agencies, teachers, school library and media personnel, and administrators successfully integrate technology into kindergarten through 12th grade classrooms and library media centers;

(4) support for the development of educational and instructional programming in core subject areas, which shall address the National Education Goals;

(5) strengthening and building upon, but not duplicating, existing telecommunications infrastructures dedicated to educational purposes;
“(6) development and evaluation of new and emerging educational technologies, telecommunications networks, and state-of-the-art educational technology products that promote the use of advanced technologies in the classroom and school library media center;

“(7) assessment data regarding state-of-the-art uses of technologies in United States education upon which commercial and noncommercial telecommunications entities, and governments can rely for decisionmaking about the need for, and provision of, appropriate technologies for education in the United States;

"TITLE IV—SAFE AND DRUG-FREE SCHOOLS AND COMMUNITIES"

SEC. 4001. SHORT TITLE.

This title may be cited as the 'Safe and Drug-Free Schools and Communities Act of 1994'.

SEC. 4002. FINDINGS.

The Congress finds as follows:

(1) The seventh National Education Goal provides that by the year 2000, all schools in America will be free of drugs and violence and the unauthorized presence of firearms and alcohol,
and offer a disciplinea environment that is conducive to learning.

"(2) The widespread illegal use of alcohol and other drugs among the Nation's secondary school students, and increasingly by students in elementary schools as well, constitutes a grave threat to such students' physical and mental well-being, and significantly impedes the learning process. For example, data show that students who drink tend to receive lower grades and are more likely to miss school because of illness than students who do not drink.

"(3) Our Nation's schools and communities are increasingly plagued by violence and crime. Approximately 3,000,000 thefts and violent crimes occur in or near our Nation's schools every year, the equivalent of more than 16,000 incidents per school day.

"(4) Violence that is linked to prejudice and intolerance victimizes entire communities leading to more violence and discrimination.

"(5) The tragic consequences of violence and the illegal use of alcohol and drugs by students are felt not only by students and such students' families, but by such students' communities and the Nation, which can ill afford to lose such students' skills, talents, and vitality.

"(6) While use of illegal drugs is a serious problem among a minority of teenagers, alcohol use is far more widespread. The proportion of high school students using alcohol, though lower than a decade ago, remains unacceptably high. By the 8th grade, 70 percent of youth report having tried alcohol and by the 12th grade, about 88 percent have used alcohol. Alcohol use by young people can and does have adverse consequences for users, their families, communities, schools, and colleges.

"(7) Alcohol and tobacco are widely used by young people. Such use can and does, have adverse consequences for young people, their families, communities, schools, and colleges. Drug prevention programs for youth that address only controlled drugs send an erroneous message that alcohol and tobacco do not present significant problems, or that society is willing to overlook their use. To be credible, messages opposing illegal drug use by youth should address alcohol and tobacco as well.

"(8) Every day approximately 3,000 children start smoking. Thirty percent of all secondary school seniors are smokers. Half of all new smokers begin smoking before the age of 14, 90 percent of such smokers begin before the age of 21, and the average age of the first use of smokeless tobacco is under the age of 10. Use of tobacco products has been linked to serious health problems. Drug education and prevention programs that include tobacco have been effective in reducing teenage use of tobacco.

"(9) Drug and violence prevention programs are essential components of a comprehensive strategy to promote school safety and to reduce the demand for and use of drugs throughout the Nation. Schools and local organizations in communities throughout the Nation have a special responsibility to work together to combat the growing epidemic of violence and illegal
drug use and should measure the success of their programs against clearly defined goals and objectives.

"(10) Students must take greater responsibility for their own well-being, health, and safety if schools and communities are to achieve the goals of providing a safe, disciplined, and drug-free learning environment.

"SEC. 4003. PURPOSE.

"The purpose of this title is to support programs to meet the seventh National Education Goal by preventing violence in and around schools and by strengthening programs that prevent the illegal use of alcohol, tobacco, and drugs, involve parents, and are coordinated with related Federal, State, and community efforts and resources, through the provision of Federal assistance to—

"(1) States for grants to local educational agencies and educational service agencies and consortia of such agencies to establish, operate, and improve local programs of school drug and violence prevention, early intervention, rehabilitation referral, and education in elementary and secondary schools (including intermediate and junior high schools);

"(2) States for grants to, and contracts with, community-based organizations and other public and private nonprofit agencies and organizations for programs of drug and violence prevention, early intervention, rehabilitation referral, and education;

"(3) States for development, training, technical assistance, and coordination activities;

"(4) public and private nonprofit organizations to conduct training, demonstrations, and evaluation, and to provide supplementary services for the prevention of drug use and violence among students and youth; and

"(5) institutions of higher education to establish, operate, expand, and improve programs of school drug and violence prevention, education, and rehabilitation referral for students enrolled in colleges and universities.

"SEC. 4004. FUNDING.

"There are authorized to be appropriated—

"(1) $630,000,000 for fiscal year 1995, and such sums as may be necessary for each of the four succeeding fiscal years, for State grants under subpart 1; and

"(2) $25,000,000 for fiscal year 1995, and such sums as may be necessary for each of the 4 succeeding fiscal years, for national programs under subpart 2.

“TITLE V—PROMOTING EQUITY
“PART A—MAGNET SCHOOLS ASSISTANCE

“SEC. 5101. FINDINGS.
“The Congress finds that—
“(1) magnet schools are a significant part of our Nation’s effort to achieve voluntary desegregation in our Nation’s schools;
“(2) the use of magnet schools has increased dramatically since the date of enactment of the Magnet Schools Assistance program, with approximately 1,400,000 students nationwide now attending such schools, of which more than 60 percent of the students are nonwhite;
“(3) magnet schools offer a wide range of distinctive programs that have served as models for school improvement efforts;
“(4) in administering the Magnet Schools Assistance program, the Federal Government has learned that—
“(A) where magnet programs are implemented for only a portion of a school’s student body, special efforts must be made to discourage the isolation of—
“(i) magnet school students from other students in the school; and
“(ii) students by racial characteristics;
“(B) local educational agencies can maximize their effectiveness in achieving the purposes of the Magnet Schools Assistance program if such agencies have more flexibility in the administration of such program in order to serve students attending a school who are not enrolled in the magnet school program;
“(C) local educational agencies must be creative in designing magnet schools for students at all academic levels, so that school districts do not skim off only the highest achieving students to attend the magnet schools;
"(D) consistent with desegregation guidelines, local educational agencies must seek to enable participation in magnet school programs by students who reside in the neighborhoods where the programs operate; and

"(E) in order to ensure that magnet schools are sustained after Federal funding ends, the Federal Government must assist school districts to improve their capacity to continue to operate magnet schools at a high level of performance; and

"(5) it is in the best interest of the Federal Government to—

"(A) continue the Federal Government's support of school districts implementing court-ordered desegregation plans and school districts seeking to foster meaningful interaction among students of different racial and ethnic backgrounds, beginning at the earliest stage of such students' education;

"(B) ensure that all students have equitable access to quality education that will prepare such students to function well in a culturally diverse, technologically oriented, and highly competitive, global community; and

"(C) maximize the ability of local educational agencies to plan, develop, implement and continue effective and innovative magnet schools that contribute to State and local systemic reform.

"SEC. 5102. STATEMENT OF PURPOSE.

"The purpose of this part is to assist in the desegregation of schools served by local educational agencies by providing financial assistance to eligible local educational agencies for—

"(1) the elimination, reduction, or prevention of minority group isolation in elementary and secondary schools with substantial proportions of minority students;

"(2) the development and implementation of magnet school projects that will assist local educational agencies in achieving systemic reforms and providing all students the opportunity to meet challenging State content standards and challenging State student performance standards;

"(3) the development and design of innovative educational methods and practices; and

"(4) courses of instruction within magnet schools that will substantially strengthen the knowledge of academic subjects and the grasp of tangible and marketable vocational skills of students attending such schools.

"SEC. 5103. PROGRAM AUTHORIZED.

"The Secretary, in accordance with this part, is authorized to make grants to eligible local educational agencies, and consortia of such agencies where appropriate, to carry out the purpose of this part for magnet schools that are—

(2) without having been required to do so, has adopted and is implementing, or will, if assistance is made available to such local educational agency or consortium of such agencies under this part, adopt and implement a plan that has been approved by the Secretary as adequate under title VI of the Civil Rights Act of 1964 for the desegregation of minority-group-segregated children or faculty in such schools.

"SEC. 5106. APPLICATIONS AND REQUIREMENTS.

“(4) efforts to improve the quality of public education also must include efforts to ensure equal access to quality education programs for all women and girls;
“(5) Federal support should address not only research and development of innovative model curricula and teaching and learning strategies to promote gender equity, but should also assist schools and local communities implement gender equitable practices;
“(6) Federal assistance for gender equity must be tied to systemic reform, involve collaborative efforts to implement effective gender practices at the local level, and encourage parental participation; and

“(B) the number of children enrolled in private nonprofit schools that desire that their children participate in programs or projects assisted under this title, for the fiscal year preceding the fiscal year for which the determination is made.
“(2) CONSTRUCTION.—Nothing in this subsection shall diminish the responsibility of local educational agencies to contact, on an annual basis, appropriate officials from private nonprofit schools within the areas served by such agencies in order to determine whether such schools desire that their children participate in programs assisted under this part.

“(3) ADJUSTMENTS.—(A) Relative enrollments under subsection (a) shall be adjusted, in accordance with criteria approved by the Secretary under subparagraph (B), to provide higher per pupil allocations only to local educational agencies which serve the greatest numbers or percentages of—

“(i) children living in areas with high concentrations of low-income families;

“(ii) children from low-income families; or

“(iii) children living in sparsely populated areas.

“(B) The Secretary shall review criteria submitted by a State educational agency for adjusting allocations under paragraph (1) and shall approve such criteria only if the Secretary determines that such criteria are reasonably calculated to produce an adjusted allocation that reflects the relative needs within the State’s local educational agencies based on the factors set forth in subparagraph (A).

fiscal year preceding the fiscal year for which the determination is made.

"(2) REDUCTION OF FUNDS.—The Secretary shall reduce the amount of the allocation of funds under this part in any fiscal year in the exact proportion to which the State fails to meet the requirements of paragraph (1) by falling below 90 percent of both the fiscal effort per student and aggregate expenditures (using the measure most favorable to the State), and no such lesser amount shall be used for computing the effort required under paragraph (1) for subsequent years.

"(3) WAIVERS.—The Secretary may waive, for one fiscal year only, the requirements of this section if the Secretary determines that such a waiver would be equitable due to exceptional or uncontrollable circumstances such as a natural disaster or a precipitous and unforeseen decline in the financial resources of the State.

"(b) FEDERAL FUNDS SUPPLEMENTARY.—A State or local educational agency may use and allocate funds received under this part only so as to supplement and, to the extent practical, increase the level of funds that would, in the absence of Federal funds made available under this part, be made available from non-Federal sources, and in no case may such funds be used so as to supplant funds from non-Federal sources.

"SEC. 6402. PARTICIPATION OF CHILDREN ENROLLED IN PRIVATE SCHOOLS.

"(a) PARTICIPATION ON EQUITABLE BASIS.—

"(1) IN GENERAL.—To the extent consistent with the number of children in the school district of a local educational agency which is eligible to receive funds under this title or which serves the area in which a program or project assisted under this title is located who are enrolled in private nonprofit elementary and secondary schools, or with respect to instructional or personnel training programs funded by the State educational agency from funds made available for State use, such agency, after consultation with appropriate private school officials, shall provide for the benefit of such children in such schools secular, neutral, and nonideological services, materials, and equipment, including the participation of the teachers of such children (and other educational personnel serving such children) in training programs, and the repair, minor remodeling, or construction of public facilities as may be necessary for their provision (consistent with subsection (c) of this section), or, if such services, materials, and equipment are not feasible or necessary in one or more such private schools as determined by the local educational agency after consultation with the appropriate private school officials, shall provide such other arrangements as will assure equitable participation of such children in the purposes and benefits of this title.

"(1) WRITTEN OBJECTIONS.—The Secretary shall not take any final action under this section until the State educational agency and the local educational agency affected by such action have had an opportunity, for not less than 45 days after receiving written notice thereof, to submit written objections and to appear before the Secretary or the Secretary's designee to show cause why that action should not be taken.

"(2) COURT ACTION.—If a State or local educational agency is dissatisfied with the Secretary's final action after a proceeding under paragraph (1), such agency may, not later than 60 days after notice of such action, file with the United States court of appeals for the circuit in which such State is located a petition for review of that action. Such new or modified findings of fact shall likewise be conclusive if supported by substantial evidence.

"(4) COURT REVIEW.—Upon the filing of such petition, the court shall have jurisdiction to affirm the action of the Secretary or to set such action aside, in whole or in part. The judgment of the court shall be subject to review by the Supreme Court of the United States upon certiorari or certification as provided in section 1254 of title 28, United States Code.

"TITLE VII—BILINGUAL EDUCATION, LANGUAGE ENHANCEMENT, AND LANGUAGE ACQUISITION PROGRAMS

"PART A—BILINGUAL EDUCATION

"SEC. 7101. SHORT TITLE.

This part may be cited as the 'Bilingual Education Act'.

"SEC. 7102. FINDINGS, POLICY, AND PURPOSE.

"(a) FINDINGS.—The Congress finds that—

"(1) language-minority Americans speak virtually all world languages plus many that are indigenous to the United States;

"(2) there are large and growing numbers of children and youth of limited-English proficiency, many of whom have a cultural heritage that differs from that of their English-proficient peers;

"(3) the presence of language-minority Americans is related in part to Federal immigration policies;

"(4) many language-minority Americans are limited in their English proficiency, and many have limited education and income;

"(5) limited English proficient children and youth face a number of challenges in receiving an education that will enable such children and youth to participate fully in American society, including—

"(A) segregated education programs;

"(B) disproportionate and improper placement in special education and other special programs due to the use of inappropriate evaluation procedures;

"(C) the limited-English proficiency of their own parents, which hinders the parents' ability to fully participate in the education of their children; and
“(D) a shortage of teachers and other staff who are professionally trained and qualified to serve such children and youth;

“(6) Native Americans and Native American languages (as such terms are defined in section 103 of the Native American Languages Act), including native residents of the outlying areas, have a unique status under Federal law that requires special policies within the broad purposes of this Act to serve the education needs of language minority students in the United States;

“(7) institutions of higher education can assist in preparing teachers, administrators and other school personnel to understand and build upon the educational strengths and needs of language-minority and culturally diverse student enrollments;

“(8) it is the purpose of this title to help ensure that limited English proficient students master English and develop high levels of academic attainment in content areas;

“(9) quality bilingual education programs enable children and youth to learn English and meet high academic standards including proficiency in more than one language;

“(10) as the world becomes increasingly interdependent and as international communication becomes a daily occurrence in government, business, commerce, and family life, multilingual skills constitute an important national resource which deserves protection and development;

“(11) educational technology has the potential for improving the education of language-minority and limited English proficient students and their families, and the Federal Government should foster this development;

“(12) parent and community participation in bilingual education programs contributes to program effectiveness;

“(13) research, evaluation, and data-collection capabilities in the field of bilingual education need to be strengthened so that educators and other staff can better identify and promote those programs, program implementation strategies, and instructional practices that result in effective education of limited English proficient children;

“(14) the use of a child or youth’s native language and culture in classroom instruction can—

“(A) promote self-esteem and contribute to academic achievement and learning English by limited English proficient children and youth;

“(B) benefit English-proficient children and youth who also participate in such programs; and

“(C) develop our Nation’s national language resources, thus promoting our Nation’s competitiveness in the global economy;

“(15) the Federal Government, as exemplified by title VI of the Civil Rights Act of 1964 and section 204(f) of the Equal Education Opportunities Act of 1974, has a special and continuing obligation to ensure that States and local school districts take appropriate action to provide equal educational opportunities to children and youth of limited English proficiency; and
"(16) the Federal Government also, as exemplified by the Federal Government's efforts under this title, has a special and continuing obligation to assist States and local school districts in developing the capacity to provide programs of instruction that offer limited English proficient children and youth an equal educational opportunity.

(b) POLICY.—The Congress declares it to be the policy of the United States, in order to ensure equal educational opportunity for all children and youth and to promote educational excellence, to assist State and local educational agencies, institutions of higher education and community-based organizations to build their capacity to establish, implement, and sustain programs of instruction for children and youth of limited English proficiency.

(c) PURPOSE.—The purpose of this part is to educate limited English proficient children and youth to meet the same rigorous standards for academic performance expected of all children and youth, including meeting challenging State content standards and challenging State student performance standards in academic areas by—

(1) developing systemic improvement and reform of educational programs serving limited English proficient students through the development and implementation of exemplary bilingual education programs and special alternative instruction programs;

(2) developing bilingual skills and multicultural understanding;

(3) developing the English of such children and youth and, to the extent possible, the native language skills of such children and youth;

(4) providing similar assistance to Native Americans with certain modifications relative to the unique status of Native American languages under Federal law;

(5) developing data collection and dissemination, research, materials development, and technical assistance which is focused on school improvement for limited English proficient students; and

(6) developing programs which strengthen and improve the professional training of educational personnel who work with limited English proficient students.

"PART B—FOREIGN LANGUAGE ASSISTANCE PROGRAM

"SEC. 7201. SHORT TITLE.
"This part may be cited as the 'Foreign Language Assistance Act of 1994'.

"SEC. 7202. FINDINGS.
"The Congress finds as follows:
"(1) Foreign language proficiency is crucial to our Nation's economic competitiveness and national security. Significant improvement in the quantity and quality of foreign language instruction offered in our Nation's elementary and secondary schools is necessary.
"(2) All Americans need a global perspective. To understand the world around us, we must acquaint ourselves with the languages, cultures, and history of other nations.
"(3) Proficiency in two or more languages should be promoted for all American students. Multilingualism enhances cognitive and social growth, competitiveness in the global marketplace, national security, and understanding of diverse people and cultures.
"(4) The United States lags behind other developed countries in offering foreign language study to elementary and secondary school students.
"(5) Four out of five new jobs in the United States are created from foreign trade.
"(6) The optimum time to begin learning a second language is in elementary school, when children have the ability to learn and excel in several foreign language acquisition skills, including pronunciation, and when children are most open to appreciating and valuing a culture other than their own.
"(7) Foreign language study can increase children's capacity for critical and creative thinking skills and children who study a second language show greater cognitive development in areas such as mental flexibility, creativity, tolerance, and higher order thinking skills.

“PART C—EMERGENCY IMMIGRANT EDUCATION PROGRAM

“SEC. 7301. FINDINGS AND PURPOSE.
“(a) FINDINGS.—The Congress finds that—
“(1) the education of our Nation's children and youth is one of the most sacred government responsibilities;
“(2) local educational agencies have struggled to fund adequately education services;
“(3) in the case of Plyler v. Doe, the Supreme Court held that States have a responsibility under the Equal Protection Clause of the Constitution to educate all children, regardless of immigration status; and
“(4) immigration policy is solely a responsibility of the Federal Government.
“(b) PURPOSE.—The purpose of this part is to assist eligible local educational agencies that experience unexpectedly large increases in their student population due to immigration to—
“(1) provide high-quality instruction to immigrant children and youth; and
“(2) help such children and youth—
“(A) with their transition into American society; and
“(B) meet the same challenging State performance standards expected of all children and youth.

"SEC. 7302. STATE ADMINISTRATIVE COSTS.

"For any fiscal year, a State educational agency may reserve not more than 1.5 percent of the amount allocated to such agency under section 7304 to pay the costs of performing such agency's administrative functions under this part.

"SEC. 7303. WITHHOLDING.

"Whenever the Secretary, after providing reasonable notice and opportunity for a hearing to any State educational agency, finds that there is a failure to meet the requirement of any provision of this part, the Secretary shall notify that agency that further payments will not be made to the agency under this part, or in the discretion of the Secretary, that the State educational agency shall not make further payments under this part to specified local educational agencies whose actions cause or are involved in such failure until the Secretary is satisfied that there is no longer any such failure to comply. Until the Secretary is so satisfied, no further payments shall be made to the State educational agency under this part, or payments by the State educational agency under this part shall be limited to local educational agencies whose actions did not cause or were not involved in the failure, as the case may be.

"SEC. 7304. STATE ALLOCATIONS.

"(2) ELIGIBLE LOCAL EDUCATIONAL AGENCIES.—The local educational agencies referred to in paragraph (1) are those local educational agencies in which the sum of the number of immigrant children and youth who are enrolled in public elementary or secondary schools under the jurisdiction of such agencies, and in nonpublic elementary or secondary schools within the districts served by such agencies, during the fiscal year for which the payments are to be made under this part, is equal to—

"(A) at least 500; or

whichever number is less.

(c) DETERMINATIONS OF NUMBER OF CHILDREN AND YOUTH.—

(1) IN GENERAL.—Determinations by the Secretary under this section for any period with respect to the number of immigrant children and youth shall be made on the basis of data or estimates provided to the Secretary by each State educational agency in accordance with criteria established by the Secretary, unless the Secretary determines, after notice and opportunity for a hearing to the affected State educational agency, that such data or estimates are clearly erroneous.

(2) SPECIAL RULE.—No such determination with respect to the number of immigrant children and youth shall operate because of an underestimate or overestimate to deprive any State educational agency of the allocation under this section that such State would otherwise have received had such determination been made on the basis of accurate data.

(d) REALLOCATION.—Whenever the Secretary determines that any amount of a payment made to a State under this part for a fiscal year will not be used by such State for carrying out the purpose for which the payment was made, the Secretary shall make such amount available for carrying out such purpose to one or more other States to the extent the Secretary determines that such other States will be able to use such additional amount for carrying out such purpose. Any amount made available to a State from any appropriation for a fiscal year in accordance with the preceding sentence shall, for purposes of this part, be regarded as part of such State's payment (as determined under subsection (b)) for such year, but shall remain available until the end of the succeeding fiscal year.

(e) RESERVATION OF FUNDS.—

(1) IN GENERAL.—Notwithstanding any other provision of this part, if the amount appropriated to carry out this part exceeds $50,000,000 for a fiscal year, a State educational agency may reserve not more than 20 percent of such agency's payment under this part for such year to award grants, on a competitive basis, to local educational agencies within the State as follows:

(7) provide assurances—

(A) that to the extent consistent with the number of immigrant children and youth enrolled in the nonpublic elementary or secondary schools within the district served by a local educational agency, such agency, after consultation with appropriate officials of such schools, shall provide for the benefit of such children and youth secular, neutral, and nonideological services, materials, and equipment necessary for the education of such children and youth;

(B) that the control of funds provided under this part to any materials, equipment, and property repaired, remodeled, or constructed with those funds shall be in a public agency for the uses and purposes provided in this part, and a public agency shall administer such funds and property; and

(C) that the provision of services pursuant to this paragraph shall be provided by employees of a public agency or through contract by such public agency with a person, association, agency, or corporation who or which, in the provision of such services, is independent of such nonpublic

Such waivers shall be subject to consultation, withholding, notice, and judicial review requirements in accordance with the provisions of title I.

(3) DETERMINATION OF AGGREGATE ASSESSED VALUE.—Such aggregate assessed value of such acquired Federal property shall be determined on the basis of the highest and best use of property adjacent to such acquired Federal property as of the time such value is determined, and provided to the Secretary, by the local official responsible for assessing the value of real property located in the jurisdiction of such local educational agency for the purpose of levying a property tax.

(c) APPLICABILITY TO TENNESSEE VALLEY AUTHORITY ACT.—For the purpose of this section, any real property with respect to which payments are being made under section 13 of the Tennessee Valley Authority Act of 1933 shall not be regarded as Federal property.

(a) Computation of Payment.—

(1) In General.—For the purpose of computing the amount that a local educational agency is eligible to receive under subsection (b), (d), or (f) for any fiscal year, the Secretary shall determine the number of children who were in average daily attendance in the schools of such agency, and for whom
such agency provided free public education, during the preceding school year and who, while in attendance at such schools—

“(A)(i) resided on Federal property with a parent employed on Federal property situated in whole or in part within the boundaries of the school district of such agency; or

“(ii) if not in such county, in whole or in part in the same State as such agency.

“(2) DETERMINATION OF WEIGHTED STUDENT UNITS.—For the purpose of computing the basic support payment under subsection (b), the Secretary shall calculate the total number of weighted student units for a local educational agency by adding together the results obtained by the following computations:

“(A) Multiply the number of children described in subparagraphs (A) and (B) of paragraph (1) by a factor of 1.0.

“(B) Multiply the number of children described in paragraph (1)(C) by a factor of 1.25.

“(C) Multiply the number of children described in subparagraphs (A) and (B) of paragraph (1) by a factor of .35 if the local educational agency has—

“(i) a number of such children described in such subparagraphs which exceeds 6,500; and

“(ii) an average daily attendance for all children which exceeds 100,000.

“(D) Multiply the number of children described in subparagraphs (D) and (E) of paragraph (1) by a factor of .10.

“(E) Multiply the number of children described in subparagraphs (F) and (G) of paragraph (1) by a factor of .05.

“(3) SPECIAL RULE.—The Secretary shall only compute a payment for a local educational agency for children described in subparagraph (F) or (G) of paragraph (1) if the number of such children equals or exceeds 2,000 and such number equals
or exceeds 15 percent of the total number of students in average daily attendance in the schools of such agency.

"(b) BASIC SUPPORT PAYMENTS AND PAYMENTS WITH RESPECT TO FISCAL YEARS IN WHICH INSUFFICIENT FUNDS ARE APPROPRIATED.—

"(1) BASIC SUPPORT PAYMENTS.—

(A) IN GENERAL.—From the amount appropriated under section 8014(b) for a fiscal year, the Secretary is authorized to make basic support payments to eligible local educational agencies with children described in subsection (a).

(B) ELIGIBILITY.—A local educational agency is eligible to receive a basic support payment under subparagraph (A) for a fiscal year with respect to a number of children determined under subsection (a)(1) only if the number of children so determined with respect to such agency amounts to the lesser of—

"(i) at least 400 such children; or

"(ii) a number of such children which equals at least 3 percent of the total number of children who were in average daily attendance, during such year, at the schools of such agency and for whom such agency provided free public education.

(C) MAXIMUM AMOUNT.—The maximum amount that a local educational agency is eligible to receive under this subsection for any fiscal year is the sum of the total weighted student units, as computed under subsection (a)(2), multiplied by the greater of—

"(i) one-half of the average per-pupil expenditure of the State in which the local educational agency is located for the third fiscal year preceding the fiscal year for which the determination is made;

"(ii) one-half of the average per-pupil expenditure of all of the States for the third fiscal year preceding the fiscal year for which the determination is made;

"(iii) the comparable local contribution rate certified by the State, as determined under regulations prescribed to carry out the Act of September 30, 1950 (Public Law 874, 81st Congress), as such regulations were in effect on January 1, 1994; or

"(iv) the average per-pupil expenditure of the State in which the local educational agency is located, multiplied by the local contribution percentage.

"(2) PAYMENTS WITH RESPECT TO FISCAL YEARS IN WHICH INSUFFICIENT FUNDS ARE APPROPRIATED.—

(A) IN GENERAL.—For any fiscal year in which the sums appropriated under section 8014(b) are insufficient to pay to each local educational agency the full amount computed under paragraph (1), the Secretary shall make payments in accordance with this paragraph.

(B) LEARNING OPPORTUNITY THRESHOLD PAYMENTS.—

(i) For fiscal years described in subparagraph (A), the Secretary shall compute a learning opportunity threshold payment (hereafter in this title referred to as the 'threshold

(II) the percentage that funds under paragraph (1)(C) represent of the total budget of the local educational agency, determined by calculating the fraction, the numerator of which is the total amount of funds calculated for each local educational agency under this paragraph (not including amounts received under subsection (f)), and the denominator of which is the total current expenditures for such agency in the second preceding fiscal year for which the determination is made.

(iii) Such total percentage used to calculate threshold payments under paragraph (1) shall not exceed 100.

(iii) For the purpose of determining the percentages described in subclauses (I) and (II) of clause (i) that are applicable to the local educational agency providing free public education to students in grades 9 through 12 residing on Hanscom Air Force Base, Massachusetts, the Secretary shall consider only that portion of such agency's total enrollment of students in grades 9 through 12 when calculating the percentage under such subclause (I) and only that portion of the total current expenditures attributed to the operation of grades 9 through 12 in such agency when calculating the percentage under subclause (II).

(C) RATABLE DISTRIBUTION.—For fiscal years described in subparagraph (A), the Secretary shall make payments as a ratable distribution based upon the computation made under subparagraph (B).

(c) PRIOR YEAR DATA.—

(1) IN GENERAL.—Except as provided in paragraph (2) and subsection (f), all calculations under this section shall be based on data for each local educational agency from not later than the fiscal year preceding the fiscal year for which the agency is making application for payment.

(2) EXCEPTION.—Calculations for a local educational agency that is newly established by a State shall, for the first year of operation of such agency, be based on data from the fiscal year for which the agency is making application for payment.

(d) CHILDREN WITH DISABILITIES.—

(1) IN GENERAL.—From the amount appropriated under section 8014(c) for a fiscal year, the Secretary shall pay to each eligible local educational agency, on a pro rata basis, the amounts determined by—

(A) multiplying the number of children described in subparagraphs (A)(ii), (B) and (C) of subsection (a)(1) who are eligible to receive services under the Individuals with
Disabilities Education Act (20 U.S.C. 1400 et seq.) by a factor of 1.0; and

"(B) multiplying the number of children described in subparagraph (D) of subsection (a)(1) who are eligible to receive services under such Act by a factor of 0.5.

"(2) USE OF FUNDS.—A local educational agency that receives funds under paragraph (1) shall use such funds to provide a free appropriate public education to children described in paragraph (1) in accordance with the Individuals with Disabilities Education Act (20 U.S.C. 1400 et seq.).

"(e) HOLD-HARMLESS AMOUNTS.—

"(1) IN GENERAL.—(A) Except as provided in paragraph (4)(A), the total amount that the Secretary shall pay a local educational agency under subsection (b) shall not be less than 85 percent of the amount such agency received for the preceding fiscal year—

"(i) in the case of fiscal year 1995 only, under subsections (a) and (b) of section 3 of the Act of September 30, 1950 (Public Law 874, 81st Congress) (as such section was in effect on the day preceding the date of enactment of the Improving America's Schools Act of 1994); or

"(B) For fiscal year 1995 only, the Secretary shall pay, to each local educational agency that is not eligible for a payment under subsection (b) but that received a payment under section 3 of the Act of September 30, 1950 (Public Law 874, 81st Congress) (as such Act was in effect on the day preceding the date of enactment of the Improving America's Schools Act of 1994) for fiscal year 1994, an amount which is not less than 85 percent of the payment such agency received under such section 3 for fiscal year 1994.

"(2) TWO-YEAR APPLICABILITY.—Paragraph (1)(A) shall apply to any one local educational agency for a maximum of two consecutive fiscal years.

"(3) PHASE-OUT PAYMENT.—A local educational agency which received a payment under section 3(e) of the Act of September 30, 1950 (Public Law 874, 81st Congress) (as such section was in effect on the day preceding the date of enactment of the Improving America's Schools Act of 1994) for fiscal year 1994 is eligible to receive a payment, under subsection (b) for fiscal year 1995, in an amount which is not less than 85 percent of the amount received by such agency in fiscal year 1994 under such section 3(e).

"(4) RATABLE REDUCTIONS.—(A)(i) If necessary in order to make payments to local educational agencies in accordance with paragraphs (1) and (2), the Secretary first shall ratably reduce payments under subsection (b) to local educational agencies that do not receive a payment under this subsection.

"(ii) If additional funds become available for making payments under subsection (b) for such fiscal year, payments that were reduced under clause (i) shall be increased on the same basis as such payments were reduced.
“(B)(i) If the sums made available under this title for any fiscal year are insufficient to pay the full amounts that all local educational agencies in all States are eligible to receive under paragraphs (1) and (2) after the application of subparagraph (A) for such year, the Secretary shall ratably reduce payments to all such agencies for such year.

“(ii) If additional funds become available for making payments under paragraphs (1) and (2) for such fiscal year, payments that were reduced under clause (i) shall be increased on the same basis as such payments were reduced.

“(f) ADDITIONAL ASSISTANCE FOR HEAVILY IMPACTED LOCAL EDUCATIONAL AGENCIES.—

“(1) RESERVATION.—From amounts appropriated under section 8014(b) for a fiscal year, the Secretary shall provide additional assistance to meet special circumstances relating to the provision of education in local educational agencies eligible to receive assistance under this section.

“(2) ELIGIBILITY.—(A) A local educational agency is eligible to receive additional assistance under this subsection only if such agency

“(i)(I) has an enrollment of federally connected children described in subsection (a)(1) which constitutes a percentage of the total student enrollment of such agency which is not less than 50 percent if such agency receives a payment on behalf of children described in subparagraphs (F) and (G) of such subsection, or not less than 40 percent if such agency does not receive a payment on behalf of such children; and

“(II) has a tax rate for general fund purposes which is at least 95 percent of the average tax rate for general fund purposes of comparable local educational agencies in the State;

“(ii)(I) has an enrollment of federally connected children described in subsection (a)(1) which constitutes at least 35 percent of the total student enrollment of such agency; and

“(II) has a tax rate for general fund purposes which is at least 125 percent of the average tax rate for general fund purposes of comparable local educational agencies in the State; or

“(iii) is a local educational agency whose boundaries are the same as a Federal military installation.

“(B) If the current expenditures in those local educational agencies which the Secretary has determined to be generally comparable to the local educational agency for which a computation is made under subsection (b)(1)(C) are not reasonably comparable because of unusual geographical factors which affect the current expenditures necessary to maintain, in such agency, a level of education equivalent to that maintained in such other agencies, then the Secretary shall increase the local contribution rate for such agency by such an amount which the Secretary determines will compensate such agency for the increase in current expenditures necessitated by such unusual geographical factors. The amount of any such supplementary
payment may not exceed the per-pupil share (computed with regard to all children in average daily attendance), as determined by the Secretary, of the increased current expenditures necessitated by such unusual geographic factors.

(C) Any local educational agency determined eligible under clause (iii) of subparagraph (A) shall be deemed to have met the tax effort requirements for eligibility under clause (i)(II) or (ii)(II) of such subparagraph.

(3) MAXIMUM PAYMENTS.—

(A) IN GENERAL.—Subject to subparagraph (B), the Secretary shall determine the maximum amount that a local educational agency may receive under this subsection in accordance with the following computations:

(i) The Secretary shall first determine the greater of—

(1) the average per-pupil expenditure of the State in which the local educational agency is located or the average per-pupil expenditure of all the States;

(2) the average per-pupil expenditure of generally comparable local educational agencies located in the State of the local educational agency, as defined in regulations issued by the Secretary;

or

(3) the average per-pupil expenditure of three generally comparable local educational agencies located in the State of the local educational agency, as defined in regulations issued by the Secretary.

(ii) The Secretary shall next subtract from the amount determined under clause (i) the average amount of State aid per pupil received by the local educational agency.

(iii) The Secretary shall next multiply the amount determined under clause (ii) by the total number of students in average daily attendance at the schools of the local educational agency as determined by the Secretary under subsection (a)(1).

(iv) If the tax rate used by the local educational agency is greater than 95 percent, but less than 100 percent, of the tax rate of comparable local educational agencies, the Secretary shall next multiply the amount determined under clause (iii) by the percentage that the tax rate of the local educational agency is of—

(I) the average tax rate of its generally comparable local educational agencies; or

(II) the average tax rate of all the local educational agencies in the State in which the local educational agency is located.

(v) The Secretary shall next subtract the total amount of payments received by a local educational agency under subsections (b) and (d) for a fiscal year from the amount determined under clause (iii) or clause (iv), as the case may be.
"(B) SPECIAL RULE.—With respect to payments under this subsection for a local educational agency described in clause (ii) or (iii) of paragraph (2)(A), the maximum amount of such payments shall be computed by taking the product of the average per-pupil expenditure in all States multiplied by 0.7, except that such amount may not exceed 125 percent of the average per-pupil expenditure in all local educational agencies in the State.

"(4) CURRENT YEAR DATA.—The Secretary shall, for purposes of providing assistance under this subsection, use—

"(A) student and revenue data from the fiscal year for which the local educational agency is applying for assistance under this subsection; and

"(B) the most recent data available which is adjusted to such fiscal year.

"(5) REDUCTION IN PAYMENTS.—If funds appropriated to carry out this subsection are insufficient to pay in full the amounts determined under paragraph (3), the Secretary shall ratably reduce the payment to each eligible local educational agency.

"(g) ADDITIONAL PAYMENTS FOR LOCAL EDUCATIONAL AGENCIES WITH HIGH CONCENTRATIONS OF CHILDREN WITH SEVERE DISABILITIES.—

"(1) IN GENERAL.—If any local educational agency receives Federal funds from sources other than this title to carry out the purposes of this title for any fiscal year due to the enrollment of children described under subsection (a), then the Secretary shall consider such funds as a payment to such agency under this part for such fiscal year.

"(2) SPECIAL RULE.—Notwithstanding any other provision of law, if funds appropriated pursuant to section 8014(b) for payments under subsection (b) to such agency for a fiscal year which, when added to the funds described in paragraph (1) received by such agency for such fiscal year, exceed the maximum amount described under subsection (b)(1)(C), then the Secretary shall make available from the funds appropriated under section 8014(b) for such fiscal year such excess amounts to any local educational agency serving two or more children described under subparagraph (B) or (D) of subsection (a)(1) who have a severe disability and a parent serving in the uniformed services (as defined by section 101 of title 37, United States Code) who is assigned to a particular permanent duty station for compassionate reasons (compassionate post assignment) for the total costs associated with such children who are provided an educational program outside the schools of such agency.

"(3) REMAINING FUNDS.—If funds remain after payments are made under paragraph (2) for any fiscal year, then such remaining funds shall be made available for expenditures under subsection (d) in such fiscal year on a pro rata basis consistent with the requirements of such subsection.

"(4) RATABLE REDUCTIONS.—If amounts available to carry out paragraph (2) for any fiscal year are insufficient to pay in full the total payment that all eligible local educational agencies are eligible to receive under such paragraph for such year,
then the Secretary shall ratably reduce such payments to such agencies for such year.

"(h) OTHER FUNDS.—Notwithstanding any other provision of law, a local educational agency receiving funds under this section may also receive funds under section 6 of the Act of September 30, 1950 (Public Law 874, 81st Congress) (as such section was in effect on the day preceding the date of enactment of the Improving America’s Schools Act of 1994) or such section’s successor authority.

"(i) MAINTENANCE OF EFFORT.—A local educational agency may receive funds under sections 8002 and 8003(b) for any fiscal year only if the State educational agency finds that either the combined fiscal effort per student or the aggregate expenditures of that agency and the State with respect to the provision of free public education by that agency for the preceding fiscal year was not less than 90 percent of such combined fiscal effort or aggregate expenditures for the second preceding fiscal year.

"SEC. 8004. POLICIES AND PROCEDURES RELATING TO CHILDREN RE-SIDING ON INDIAN LANDS.

"(1) such children participate in programs and activities supported by such funds on an equal basis with all other children;

"(2) parents of such children and Indian tribes are afforded an opportunity to present their views on such programs and activities, including an opportunity to make recommendations on the needs of those children and how the local educational agency may help such children realize the benefits of such programs and activities;

"(3) parents and Indian tribes are consulted and involved in planning and developing such programs and activities;

"(4) relevant applications, evaluations, and program plans are disseminated to the parents and Indian tribes; and

"(5) parents and Indian tribes are afforded an opportunity to present their views to such agency regarding such agency’s general educational program.

"(c) WAIVER.—A local educational agency that claims children residing on Indian lands for the purpose of receiving funds under section 8003 shall not be required to comply with the requirements of subsections (a) and (b) for any fiscal year with respect to any Indian tribe from which such agency has received a written statement that the agency need not comply with those subsections because the tribe is satisfied with the provision of educational services by such agency to such children.

"(d) TECHNICAL ASSISTANCE AND ENFORCEMENT.—The Secretary shall—
“(1) provide technical assistance to local educational agencies, parents, and Indian tribes to enable such agencies, parents, and tribes to carry out this section; and

“(2) enforce this section through such actions, which may include the withholding of funds, as the Secretary determines to be appropriate, after affording the affected local educational agency, parents, and Indian tribe an opportunity to present their views.

“(e) COMPLAINTS.—

“(1) IN GENERAL.—(A) Any tribe, or its designee, which has students in attendance at a local educational agency may, in its discretion and without regard to the requirements of any other provision of law, file a written complaint with the Secretary regarding any action of a local educational agency taken pursuant to, or relevant to, the requirements of this section.

“(B) Within ten working days from receipt of a complaint, the Secretary shall—

“(i) designate a time and place for a hearing into the matters relating to the complaint at a location in close proximity to the local educational agency involved, or if the Secretary determines there is good cause, at some other location convenient to both the tribe, or its designee, and the local educational agency;

“(ii) designate a hearing examiner to conduct the hearing; and

“(iii) notify the affected tribe or tribes and the local educational agency involved of the time, place, and nature of the hearing and send copies of the complaint to the local educational agency and the affected tribe or tribes.

“(2) HEARING.—The hearing shall be held within 30 days of the designation of a hearing examiner and shall be open to the public. A record of the proceedings shall be established and maintained.

“(3) EVIDENCE; RECOMMENDATIONS; COST.—The complaining tribe, or its designee, and the local educational agency shall be entitled to present evidence on matters relevant to the complaint and to make recommendations concerning the appropriate remedial actions. Each party to the hearing shall bear only its own costs in the proceedings.

The hearing examiner’s findings and recommendations, along with the hearing record, shall be forwarded to the Secretary.

“(5) WRITTEN DETERMINATION.—Within 30 days of the Secretary’s receipt of the findings, recommendations, and record, the Secretary shall, on the basis of the record, make a written determination of the appropriate remedial action, if any, to be taken by the local educational agency, the schedule for completion of the remedial action, and the reasons for the Secretary’s decision.
"(6) COPIES PROVIDED.—Upon completion of the Secretary's final determination, the Secretary shall provide the complaining tribe, or its designee, and the local educational agency with copies of the hearing record, the hearing examiner's findings and recommendations, and the Secretary's final determination. The final determination of the Secretary shall be subject to judicial review.

"(7) CONSOLIDATION.—In all actions under this subsection, the Secretary shall have discretion to consolidate complaints involving the same tribe or local educational agency.

"(8) WITHHOLDING.—If the local educational agency rejects the determination of the Secretary, or if the remedy required is not undertaken within the time established and the Secretary determines that an extension of the time established will not effectively encourage the remedy required, the Secretary shall withhold payment of all moneys to which such local agency is eligible under section 8003 until such time as the remedy required is undertaken, except where the complaining tribe or its designee formally requests that such funds be released to the local educational agency, except that the Secretary may not withhold such moneys during the course of the school year if the Secretary determines that such withholding would substantially disrupt the educational programs of the local educational agency.

"(9) REJECTION OF DETERMINATION.—If the local educational agency rejects the determination of the Secretary and a tribe exercises the option under section 1101(d) of the Education Amendments of 1978, to have education services provided either directly by the Bureau of Indian Affairs or by contract with the Bureau of Indian Affairs, any Indian students affiliated with that tribe who wish to remain in attendance at the local educational agency against whom the complaint which led to the tribal action under such subsection (d) was lodged may be counted with respect to that local educational agency for the purpose of receiving funds under section 8003. In such event, funds under such section shall not be withheld pursuant to paragraph (8) and no further complaints with respect to such students may be filed under paragraph (1).

"(f) CONSTRUCTION.—This section is based upon the special relationship between the Indian nations and the United States and nothing in this section shall be construed to relieve any State of any duty with respect to any citizens of that State.

"(1) consider payments under this title or under the Act of September 30, 1950 (Public Law 874, 81st Congress) (as such Act was in effect on the day preceding the date of enactment of the Improving America's Schools Act of 1994) in determining for any fiscal year—

"(A) the eligibility of a local educational agency for State aid for free public education; or

"(B) the amount of such aid; or

"(2) make such aid available to local educational agencies in a manner that results in less State aid to any local educational agency that is eligible for such payment than such agency would receive if such agency were not so eligible.

"(b) STATE EQUALIZATION PLANS.—

"(1) IN GENERAL.—A State may reduce State aid to a local educational agency that receives a payment under section 8002 or 8003(b) (except the amount calculated in excess of 1.0 under subparagraph (B) of section 8003(a)(2)) or under the Act of September 30, 1950 (Public Law 874, 81st Congress) as such Act was in effect on the day preceding the date of enactment of the Improving America's Schools Act of 1994 (other than an increase in payments described in paragraphs (2)(B), (2)(C), (2)(D), or (3)(B)(ii) of section 3(d) of such Act of September 30, 1950) for any fiscal year if the Secretary determines, and certifies under subsection (c)(3)(A), that such State has in effect a program of State aid that equalizes expenditures for free public education among local educational agencies in such State.

"(2) COMPUTATION.—

"(A) IN GENERAL.—For purposes of paragraph (1), a program of State aid equalizes expenditures among local educational agencies if, in the second fiscal year preceding the fiscal year for which the determination is made, the amount of per-pupil expenditures made by, or per-pupil revenues available to, the local educational agency in the State with the highest such per-pupil expenditures or revenues did not exceed the amount of such per-pupil expenditures made by, or per-pupil revenues available to, the local educational agency in the State with the lowest such expenditures or revenues by more than—

"(i) 25 percent for fiscal year 1995, 1996, or 1997; and

“(3) EXCEPTION.—Notwithstanding paragraph (2), if the Secretary determines that the State has substantially revised its program of State aid, the Secretary may certify such program for any fiscal year only if—

“(A) the Secretary determines, on the basis of projected data, that the State’s program will meet the disparity standard described in paragraph (2) for the fiscal year for which the determination is made; and

“(B) the State provides an assurance to the Secretary that, if final data do not demonstrate that the State’s program met such standard for the fiscal year for which the determination is made, the State will pay to each affected local educational agency the amount by which the State reduced State aid to the local educational agency.

“(1) WRITTEN NOTICE.—

“(A) IN GENERAL.—Any State that wishes to consider payments described in subsection (b)(1) in providing State aid to local educational agencies shall submit to the Secretary, not later than 120 days before the beginning of the State’s fiscal year, a written notice of such State’s intention to do so.

“(3) QUALIFICATION PROCEDURES.—If the Secretary determines that a program of State aid qualifies under subsection (b), the Secretary shall—

“(A) certify the program and so notify the State; and

“(B) afford an opportunity for a hearing, in accordance with section 8011(a), to any local educational agency adversely affected by such certification.

“(4) NON-QUALIFICATION PROCEDURES.—If the Secretary determines that a program of State aid does not qualify under subsection (b), the Secretary shall—

“(B) afford an opportunity for a hearing, in accordance with section 8011(a), to the State, and to any local educational agency adversely affected by such determination.

“(d) TREATMENT OF STATE AID.—

"PART B—NATIVE HAWAIIANS"

"SEC. 9201. SHORT TITLE.

"This part may be cited as the 'Native Hawaiian Education Act'.

"SEC. 9202. FINDINGS.

"The Congress finds and declares as follows:

"(1) Native Hawaiians are a distinct and unique indigenous people with a historical continuity to the original inhabitants of the Hawaiian archipelago, whose society was organized as a nation and internationally recognized as such by the United States, Britain, France and Japan, as evidenced by treaties governing friendship, commerce, and navigation.

"(2) At the time of the arrival of the first non-indigenous people in Hawai'i in 1778, the Native Hawaiian people lived in a highly organized, self-sufficient subsistence social system based on a communal land tenure system with a sophisticated language, culture, and religion.

"(3) A unified monarchial government of the Hawaiian Islands was established in 1810 under Kamehameha I, the first King of Hawaii.

"(4) From 1826 until 1893, the United States recognized the sovereignty and independence of the Kingdom of Hawai'i, which was established in 1810 under Kamehameha I, extended full and complete diplomatic recognition to the Kingdom of Hawai'i, and entered into treaties and conventions with the Kingdom of Hawaii to govern friendship, commerce and navigation in 1826, 1842, 1849, 1875, and 1887.

"(5) In 1893, the sovereign, independent, internationally recognized, and indigenous government of Hawaii, the Kingdom of Hawai'i, was overthrown by a small group of non-Hawaiians, including United States citizens, who were assisted in their efforts by the United States Minister, a United States naval representative, and armed naval forces of the United States. Because of the participation of United States agents and citizens in the overthrow of the Kingdom of Hawai'i, the Congress, on behalf of the people of the United States, apologized to Native Hawaiians for the overthrow and the deprivation of the rights of Native Hawaiians in self-determination through Public Law 103-150 (107 Stat. 1510).

"(6) In 1898, the joint resolution entitled 'A Joint Resolution to provide for annexing the Hawaiian Islands to the United States', approved July 7, 1898 (30 Stat. 115), ceded absolute title of all lands held by the Republic of Hawai'i, including the government and crown lands of the former Kingdom of Hawai'i, to the United States, but mandated that revenue generated from these lands be used 'solely for the benefit of the inhabitants of the Hawaiian Islands for educational and other public purposes'.

"(7) By 1919, the Native Hawaiian population had declined from an estimated 1,000,000 in 1778 to an alarming 22,600, and in recognition of this severe decline, the Congress in 1921..."
enacted the Hawaiian Homes Commission Act, 1920, which designated approximately 200,000 acres of ceded public lands for homesteading by Native Hawaiians.

"(8) Through the enactment of the Hawaiian Homes Commission Act, 1920, the Congress affirmed the special relationship between the United States and the Native Hawaiians, as expressed by then Secretary of the Interior Franklin K. Lane, who was quoted in the committee report for the Hawaiian Homes Commission Act, 1920, as saying: 'One thing that impressed me... was the fact that the natives of the island who are our wards, I should say, and for whom in a sense we are trustees, are falling off rapidly in numbers and many of them are in poverty.'.

"(9) In 1938, the United States Congress again acknowledged the unique status of the Hawaiian people by including in the Act of June 20, 1938 (52 Stat. 781 et seq.), a provision to lease lands within the National Parks extension to Native Hawaiians and to permit fishing in the area 'only by native Hawaiian residents of said area or of adjacent villages and by visitors under their guidance'.

"(10) Under the Act entitled 'An Act to provide for the admission of the State of Hawaii into the Union' Approved March 18, 1959 (73 Stat. 4), the United States transferred responsibility for the administration of the Hawaiian Home Lands to the State of Hawaii but reaffirmed the trust relationship which existed between the United States and the Hawaiian people by retaining the exclusive power to enforce the trust, including the power to approve land exchanges and legislative amendments affecting the rights of beneficiaries under such Act.

"(11) In 1959, under the Act entitled 'An Act to provide for the admission of the State of Hawaii into the Union', approved March 18, 1959 (73 Stat. 4), the United States ceded to the State of Hawaii title to the public lands formerly held by the United States, but mandated that such lands be held by the State 'in public trust' and reaffirmed the special relationship which existed between the United States and the Hawaiian people by retaining the legal responsibility to enforce the public trust responsibility of the State of Hawaii for the betterment of the conditions of Native Hawaiians, as defined in section 201(a) of the Hawaiian Homes Commission Act, 1920.

"(12) The United States assumed special responsibilities for Native Hawaiian lands and resources at the time of the annexation of the Territory in 1898, upon adoption of the Hawaiian Homes Commission Act, 1920, and upon admission of the State of Hawaii into the Union in 1959, and has retained certain of those responsibilities.

"(13) In recognition of the special relationship which exists between the United States and the Native Hawaiian people, the Congress has extended to Native Hawaiians the same rights and privileges accorded to American Indian, Alaska Native, Eskimo, and Aleut communities under the Native American Programs Act of 1974, the American Indian Religious Freedom Act, the National Museum of the American Indian Act, the Native American Graves Protection and Repatriation Act, the National
Historic Preservation Act, and the Native American Languages Act.

“(14) In recognition of the special relationship which exists between the United States and the Native Hawaiian people, the Congress has enacted numerous special provisions of law for the benefit of Native Hawaiians in the areas of health, education, labor, and housing.

“(15) In 1981, the Senate instructed the Office of Education to submit to the Congress a comprehensive report on Native Hawaiian education. The report, entitled the 'Native Hawaiian Educational Assessment Project', was released in 1983 and documented that Native Hawaiians scored below parity with national norms on standardized achievement tests, were disproportionately represented in many negative social and physical statistics, indicative of special educational needs, and had educational needs which were related to their unique cultural situation, such as different learning styles and low self-image.

“(16) In recognition of the educational needs of Native Hawaiians, in 1988, the Congress enacted title IV of the Augustus F. Hawkins-Robert T. Stafford Elementary and Secondary School Improvement Amendments of 1988 to authorize and develop supplemental educational programs to benefit Native Hawaiians.

“(17) In 1993, the Kamehameha Schools Bishop Estate released a ten-year update of the Native Hawaiian Educational Assessment Project, which found that despite the successes of the programs established under title IV of the Augustus F. Hawkins-Robert T. Stafford Elementary and Secondary School Improvement Amendments of 1988, many of the same educational needs still exist for Native Hawaiians. For example—

“(A) educational risk factors continue to start even before birth for many Native Hawaiian children, including—

“(i) late or no prenatal care;

“(ii) half of Native Hawaiian women who give birth are unmarried; and

“(iii) high rates of births to teenage parents;

“(B) Native Hawaiian students continue to begin their school experience lagging behind other students in terms of readiness factors such as vocabulary test scores;

“(C) Native Hawaiian students continue to score below national norms on standardized education achievement tests at all grade levels;

“(D) both public and private schools continue to show a pattern of lower percentages of Native Hawaiian students in the uppermost achievement levels and in gifted and talented programs;

“(E) Native Hawaiian students continue to be overrepresented among students qualifying for special education programs provided to students with learning disabilities, mild mental retardation, emotional impairment, and other such disabilities;

“(F) Native Hawaiians continue to be underrepresented in institutions of higher education and among adults who have completed four or more years of college;
"(G) Native Hawaiians continue to be disproportionately represented in many negative social and physical statistics, indicative of special educational needs, for example—

"(i) Native Hawaiian students are more likely to be retained in grade level and to be excessively absent in secondary school;

"(ii) Native Hawaiian students are the highest users of drugs and alcohol in the State of Hawaii; and

"(iii) Native Hawaiian children continue to be disproportionately victimized by child abuse and neglect;

"(H) Native Hawaiians now comprise over 23 percent of the students served by the State of Hawaii Department of Education and there are and will continue to be geographically rural, isolated areas with a high Native Hawaiian population density.

"(18) The findings described in paragraphs (1) through (17) are contrary to the high rate of literacy and integration of traditional culture and Western education achieved by Native Hawaiians through a Hawaiian language-based public school system established in 1840 by Kamehameha III.

"(19) After the overthrow of the Kingdom of Hawaii in 1893, Hawaiian medium schools were banned. After annexation, throughout the territorial and statehood period, and until 1986, use of Hawaiian as a medium of education in public schools was declared unlawful, thereby causing incalculable harm to a culture that placed a very high value on the power of language, as exemplified in the traditional saying: 'I ka 'ōlelo no ke ola; I ka 'ōlelo no ka make. In the language rests life; In the language rests death.'.

"(20) Despite the consequences of over 100 years of nonindigenous influence, the Native Hawaiian people are determined to preserve, develop, and transmit to future generations their ancestral territory, and their cultural identity in accordance with their own spiritual and traditional beliefs, customs, practices, language, and social institutions.

"(21) The State of Hawaii, in the constitution and statutes of the State of Hawaii—

"(A) reaffirms and protects the unique right of the Native Hawaiian people to practice and perpetuate their culture and religious customs, beliefs, practices, and language; and

"(B) recognizes the traditional language of the Native Hawaiian people as an official language of the State of Hawaii, which may be used as the language of instruction for all subjects and grades in the public school system.

"PART C—ALASKA NATIVE EDUCATION

"SEC. 9301. SHORT TITLE.

"This part may be cited as the 'Alaska Native Educational Equity, Support and Assistance Act'.

"SEC. 9302. FINDINGS.

"The Congress finds and declares:
“(1) The attainment of educational success is critical to the betterment of the conditions, long term well being and preservation of the culture of Alaska Natives.
“(2) It is the policy of the Federal Government to encourage the maximum participation by Alaska Natives in the planning and the management of Alaska Native education programs.
“(3) Alaska Native children enter and exit school with serious educational handicaps.
“(4) The educational achievement of Alaska Native children is far below national norms. In addition to low Native performance on standardized tests, Native student drop out rates are high, and Natives are significantly underrepresented among holders of baccalaureate degrees in the State of Alaska. As a result Native students are being denied their opportunity to become full participants in society by grade school and high school educations that are condemning an entire generation to an underclass status and a life of limited choices.
“(5) The programs authorized herein, combined with expanded Head Start, infant learning and early childhood education programs, and parent education programs are essential if educational handicaps are to be overcome.
“(6) The sheer magnitude of the geographic barriers to be overcome in delivering educational services in rural and village Alaska should be addressed through the development and implementation of innovative, model programs in a variety of areas.
“(7) Congress finds that Native children should be afforded the opportunity to begin their formal education on a par with their non-Native peers. The Federal Government should lend support to efforts developed by and undertaken within the Alaska Native community to improve educational opportunity for all students.

"SEC. 9303. PURPOSE.
"It is the purpose of this part to—
"(1) recognize the unique educational needs of Alaska Natives;
"(2) authorize the development of supplemental educational programs to benefit Alaska Natives;
"(3) supplement existing programs and authorities in the area of education to further the purposes of this part; and
"(4) provide direction and guidance to appropriate Federal, State and local agencies to focus resources, including resources made available under this part, on meeting the educational needs of Alaska Natives.

   "SEC. 10202. FINDINGS AND PURPOSES.
   "(a) FINDINGS.—The Congress finds and declares that—
   "(1) all students can learn to high standards and must develop their talents and realize their potential if the United States is to prosper;
   "(2) gifted and talented students are a national resource vital to the future of the Nation and its security and well-being;
   "(3) too often schools fail to challenge students to do their best work, and students who are not challenged will not learn to challenging State content standards and challenging State student performance standards, fully develop their talents, and realize their potential;
   "(4) unless the special abilities of gifted and talented students are recognized and developed during such students’ elementary and secondary school years, much of such students’ special potential for contributing to the national interest is likely to be lost;
   "(5) gifted and talented students from economically disadvantaged families and areas, and students of limited-English
proficiency are at greatest risk of being unrecognized and of not being provided adequate or appropriate educational services;

(6) State and local educational agencies and private non-profit schools often lack the necessary specialized resources to plan and implement effective programs for the early identification of gifted and talented students and for the provision of educational services and programs appropriate to their special needs;

(7) the Federal Government can best carry out the limited but essential role of stimulating research and development and personnel training and providing a national focal point of information and technical assistance that is necessary to ensure that the Nation's schools are able to meet the special educational needs of gifted and talented students, and thereby serve a profound national interest; and

(8) the experience and knowledge gained in developing and implementing programs for gifted and talented students can and should be used as a basis to—

(A) develop a rich and challenging curriculum for all students; and

(B) provide all students with important and challenging subject matter to study and encourage the habits of hard work.

(b) STATEMENT OF PURPOSE.—It is the purpose of this part—

(1) to provide financial assistance to State and local educational agencies, institutions of higher education, and other public and private agencies and organizations, to initiate a coordinated program of research, demonstration projects, personnel training, and similar activities designed to build a nationwide capability in elementary and secondary schools to meet the special educational needs of gifted and talented students;

(2) to encourage the development of rich and challenging curricula for all students through the appropriate application and adaptation of materials and instructional methods developed under this part; and

(3) to supplement and make more effective the expenditure of State and local funds, for the education of gifted and talented students.

SEC. 10203. CONSTRUCTION.

Nothing in this part shall be construed to prohibit a recipient of funds under this part from serving gifted and talented students simultaneously with students with similar educational needs, in the same educational settings where appropriate.

SEC. 10204. AUTHORIZED PROGRAMS.

"PART C—PUBLIC CHARTER SCHOOLS

"SEC. 10301. FINDINGS AND PURPOSE.

"(a) FINDINGS.—The Congress finds that—

"(1) enhancement of parent and student choices among public schools can assist in promoting comprehensive educational reform and give more students the opportunity to learn to challenging State content standards and challenging State student performance standards, if sufficiently diverse and high-quality choices, and genuine opportunities to take advantage of such choices, are available to all students;
(2) useful examples of such choices can come from States and communities that experiment with methods of offering teachers and other educators, parents, and other members of the public the opportunity to design and implement new public schools and to transform existing public schools;

(3) charter schools are a mechanism for testing a variety of educational approaches and should, therefore, be exempted from restrictive rules and regulations if the leadership of such schools commits to attaining specific and ambitious educational results for educationally disadvantaged students consistent with challenging State content standards and challenging State student performance standards for all students;

(4) charter schools, as such schools have been implemented in a few States, can embody the necessary mixture of enhanced choice, exemption from restrictive regulations, and a focus on learning gains;

(5) charter schools, including charter schools that are schools-within-schools, can help reduce school size, which reduction can have a significant effect on student achievement;

(6) the Federal Government should test, evaluate, and disseminate information on a variety of charter school models in order to help demonstrate the benefits of this promising educational reform; and

(7) there is a strong documented need for cash flow assistance to charter schools that are starting up, because State and local operating revenue streams are not immediately available.

(b) PURPOSE.—It is the purpose of this part to increase national understanding of the charter schools model by—

(1) providing financial assistance for the design and initial implementation of charter schools; and

“(1) With local school budget cuts there are inadequate arts and cultural programs available for children and youth in schools, especially at the elementary school level.

“(2) The arts promote progress in academic subjects as shown by research conducted by the National Endowment for the Arts.
“(3) Children and youth who receive instruction in the arts and humanities, or who are involved in cultural activities, remain in school longer and are more successful than children who do not receive such instruction.

“(4) Learning in the arts and humanities promotes progress in other academic subjects, and generates positive self-esteem and a greater sense of accomplishment in young people.

“(5) School-university and school-cultural institution partnerships that upgrade teacher training in the arts and humanities have significantly contributed to improved instruction and achievement levels of school-aged children.

“(6) Museum outreach, cultural activities and informal education for at-risk children and youth have contributed significantly to the educational achievement and enhanced interest in learning of at-risk children and youth.

“(7) The Goals 2000: Educate America Act, other legislation and local, State and national resources support the integration of the arts and humanities into the regular curriculum and school day for all children.

"PART K—NATIONAL WRITING PROJECT

"SEC. 10991. FINDINGS.

"The Congress finds that—

"(1) the United States faces a crisis in writing in schools and in the workplace;

"(2) the writing problem has been magnified by the rapidly changing student populations and the growing number of at-risk students due to limited English proficiency;

"(3) over the past two decades, universities and colleges across the country have reported increasing numbers of entering freshmen who are unable to write at a level equal to the demands of college work;

"(4) American businesses and corporations are concerned about the limited writing skills of entry-level workers, and a growing number of executives are reporting that advancement was denied to them due to inadequate writing abilities;

"(5) the writing problem has been magnified by the rapidly changing student populations in the Nation's schools and the growing number of students who are at risk because of limited English proficiency;

"(6) writing and reading are both fundamental to learning, yet writing has been historically neglected in the schools and colleges, and most teachers in the United States elementary schools, secondary schools, and colleges have not been trained to teach writing;

"(7) since 1973, the only national program to address the writing problem in the Nation's schools has been the National Writing Project, a network of collaborative university-school
programs whose goal is to improve the quality of student writing and the teaching of writing at all grade levels and to extend the uses of writing as a learning process through all disciplines;

“(8) the National Writing Project offers summer and school year inservice teacher training programs and a dissemination network to inform and teach teachers of developments in the field of writing;

“(9) the National Writing Project is a nationally recognized and honored nonprofit organization that recognizes that there are teachers in every region of the country who have developed successful methods for teaching writing and that such teachers can be trained and encouraged to train other teachers;

“(10) the National Writing Project has become a model for programs to improve teaching in such other fields as mathematics, science, history, literature, performing arts, and foreign languages;

“(11) the National Writing Project teacher-teaching-teachers program identifies and promotes what is working in the classrooms of the Nation’s best teachers;

“(12) the National Writing Project teacher-teaching-teachers project is a positive program that celebrates good teaching practices and good teachers and through its work with schools increases the Nation’s corps of successful classroom teachers;

“(13) evaluations of the National Writing Project document the positive impact the project has had on improving the teaching of writing, student performance, and student thinking and learning ability;

“(14) the National Writing Project programs offer career-long education to teachers, and teachers participating in the National Writing Project receive graduate academic credit;

“(15) each year over 100,000 teachers voluntarily seek training in National Writing Project intensive summer institutes and workshops and school year in-service programs through one of the 154 regional sites located in 45 States, the Commonwealth of Puerto Rico, and in 4 sites that serve United States teachers in United States dependent and independent schools;

“(16) 250 National Writing Project sites are needed to establish regional sites to serve all teachers;

“(17) private foundation resources, although generous in the past, are inadequate to fund all of the National Writing Project sites needed and the future of the program is in jeopardy without secure financial support;

“(18) independent evaluation studies have found the National Writing Project to be highly cost effective compared to other professional development programs for teachers; and

“(19) during 1991, the first year of Federal support for the National Writing Project, the National Writing Project matched the $1,951,975 in Federal support with $9,485,504 in matching funds from State, local, and other sources.

“SEC. 10992. NATIONAL WRITING PROJECT.

“(a) AUTHORIZATION.—The Secretary is authorized to make a grant to the National Writing Project (hereafter in this section referred to as the ‘grantee’), a nonprofit educational organization which has as its primary purpose the improvement of the quality of

"PART I—THE EXTENDED TIME FOR LEARNING AND LONGER SCHOOL YEAR

"SEC. 109S. THE EXTENDED TIME FOR LEARNING AND LONGER SCHOOL YEAR.

"(a) FINDINGS.—The Congress finds that—

"(1) the Commission on Time and Learning has found that—

"(A) realizing the third National Education Goal, that states all students will leave grades four, eight and twelve having demonstrated competency in challenging subject matter, including English, mathematics, science, foreign languages, civics and government, economics, arts, history, and geography, will require considerably more common core learning time than most students now receive;

"(B) ensuring that all students learn to high standards will require flexibility and innovation in the use of common core learning time, as well as the rest of the time students spend both during and beyond the school day;

"(C) teachers need regular, sustained time for lesson development, collegial collaboration and other professional development;

"(D) schools, businesses, community-based organizations, tribal leaders, and other community agencies and members should work together to foster effective learning and enrichment programs and activities for students, including programs that operate outside of the regular school day or year;

"(E) for most students in the United States, the school year is 180 days long. In Japan students go to school 243 days per year, in Germany students go to school 240 days per year, in Austria students go to school 216 days per year, in Denmark students go to school 200 days per year,
and in Switzerland students go to school 195 days per year; and

“(F) in the final four years of schooling, students in schools in the United States are required to spend a total of 1,460 hours on core academic subjects, less than half of the 3,528 hours so required in Germany, the 3,280 hours so required in France, and the 3,170 hours so required in Japan;

“(2) increasing the amount and duration of intensive, engaging and challenging learning activities geared to high standards can increase student motivation and achievement;

“(3) the benefits of extending learning time, including common core instructional time, can be maximized by concurrent changes in curriculum and instruction, such as accelerated learning, and engaging, interactive instruction based on challenging content;

“(4) maximizing the benefit of increased common core and other learning time will require the collaboration and cooperation of teachers and administrators, students, parents, community members and organizations, businesses and others to develop strategies to meet the needs of students during and beyond the school day and year;

“(5) a competitive world economy requires that students in the United States receive education and training that is at least as rigorous and high-quality as the education and training received by students in competitor countries;

“(6) despite our Nation’s transformation from a farm-based economy to one based on manufacturing and services, the school year is still based on the summer needs of an agrarian economy;

“(7) American students’ lack of formal schooling is not counterbalanced with more homework. The opposite is true, as half of all European students report spending at least two hours on homework per day, compared to only 29 percent of American students. Twenty-two percent of American students watch five or more hours of television per day, while less than eight percent of European students watch that much television;

“(8) more than half of teachers surveyed in the United States cite ‘children who are left on their own after school’ as a major problem;

“(9) over the summer months, disadvantaged students not only fail to advance academically, but many forget much of what such students had learned during the previous school year;

“(10) funding constraints as well as the strong pull of tradition have made extending the school year difficult for most States and school districts; and

“(11) experiments with extended and multi-track school years have been associated with both increased learning and more efficient use of school facilities.

(b) PURPOSES.—It is the purpose of this part to—

“(1) provide seed money to schools and local educational agencies to enable such agencies to devise and implement strategies and methods for upgrading the quality of, and extending,
challenging, engaging learning time geared to high standards for all students; and
“(2) allow the Secretary to provide financial incentives and assistance to States or local educational agencies to enable such States or agencies to substantially increase the amount of time that students spend participating in quality academic programs, and to promote flexibility in school scheduling.

(c) PROGRAM AUTHORIZED.—

“(1) IN GENERAL.—The Secretary is authorized to award grants to local educational agencies having applications approved under subsection (d) to enable such agencies to carry out the authorized activities described in subsection (e) in public elementary and secondary schools.

“(2) AMOUNT.—The Secretary shall, to the extent practicable, provide an equitable distribution of grants under this section.

“(3) DURATION.—Each grant under subsection (a) shall be awarded for a period of not more than three years.

“(4) PRIORITY.—The Secretary shall give priority to awarding grants under this part to local educational agencies that serve schools with high percentages of students in poverty.

“(d) APPLICATION.—Each local educational agency desiring a grant under this section shall submit an application to the Secretary at such time, in such manner, and accompanied by such information as the Secretary may require. Each such application shall describe—

“(1) the activities for which assistance is sought;

“(2) any study or other information-gathering project for which funds will be used;

“(3) strategies and methods the applicant will use to enrich and extend learning time for all students and to maximize the percentage of common core learning time in the school day, such as block scheduling, team teaching, longer school days or years, and extending learning time through new distance-learning technologies;

“(4) the strategies and methods the applicant will use, including changes in curriculum and instruction, to challenge and engage students and to maximize the productiveness of common core learning time, as well as the total time students spend in school and in school-related enrichment activities;

“(5) the strategies and methods the applicant intends to employ to provide continuing financial support for the implementation of any extended school day or school year;

“(6) with respect to any application seeking assistance for activities described under subsection (e)(4), a description of any feasibility or other studies demonstrating the sustainability of a longer school year;

“(7) the extent of involvement of teachers and other school personnel in investigating, designing, implementing and sustaining the activities assisted under this part;

“(8) the process to be used for involving parents and other stakeholders in the development and implementation of the activities assisted under this part;
“(9) any cooperation or collaboration among public housing authorities, libraries, businesses, museums, community-based organizations, and other community groups and organizations to extend engaging, high-quality, standards-based learning time outside of the school day or year, at the school or at some other site;

“(10) the training and professional development activities that will be offered to teachers and others involved in the activities assisted under this part;

“(11) the goals and objectives of the activities assisted under this part, including a description of how such activities will assist all students to reach State standards;

“(12) the methods by which the applicant will assess progress in meeting such goals and objectives; and

“(13) how the applicant will use funds provided under this part in coordination with other funds provided under this Act or other Federal laws.

“(e) AUTHORIZED ACTIVITIES.—Funds under this section may be used—

“(1) to study the feasibility of, and effective methods for, extending learning time within or beyond the school day or year, including consultation with other schools or local educational agencies that have designed or implemented extended learning time programs;

“(2) to conduct outreach to and consult with community members, including parents, students, and other stakeholders, such as tribal leaders, to develop a plan to extend learning time within or beyond the school day or year;

“(3) to develop and implement an outreach strategy that will encourage collaboration with public housing authorities, libraries, businesses, museums, community-based organizations, and other community groups and organizations to coordinate challenging, high-quality educational activities outside of the school day or year;

“(4) to support public school improvement efforts that include expansion of time devoted to core academic subjects and the extension of the school year to 210 days;

“(5) to research, develop and implement strategies, including changes in curriculum and instruction, for maximizing the quality and percentage of common core learning time in the school day and extending learning time during or beyond the school day or year;

“(6) to provide professional development for school staff in innovative teaching methods that challenge and engage students, and also increase the productivity of extended learning time; and

“(7) to develop strategies to include parents, business representatives, and other community members in the extended time activities, especially as facilitators of activities that enable teachers to have more time for planning, individual student assistance, and professional development activities.

“(f) DEFINITIONS.—For the purpose of this section the term ‘common core learning time’ means high-quality, engaging instruction in
challenging content in each of the following core academic subjects described in the third National Education Goal:

“(1) English.
“(2) Mathematics.
“(3) Science.
“(4) Foreign languages.
“(5) Civics and government.
“(6) Economics.
“(7) Arts.
“(8) History.
“(9) Geography.

“(g) ADMINISTRATION.—
“(1) PEER REVIEW.—The Secretary shall award grants under this section pursuant to a peer review process.
“(2) DIVERSITY.—In awarding grants under this section the Secretary shall ensure that such grants are awarded to a diversity of local educational agencies, including such agencies that serve rural and urban areas.

“(h) APPROPRIATIONS AUTHORIZATION.—
“(1) IN GENERAL.—For the purpose of carrying out this section there are authorized to be appropriated $90,000,000 for fiscal year 1995 and such sums as may be necessary for each of the four succeeding fiscal years.
“(2) LIMITATION.—Not less than 30 percent of any amount appropriated under paragraph (1) shall be made available to applicants seeking to extend their school year to not fewer than 210 days.

“PART M—TERRITORIAL ASSISTANCE

“SEC. 10995. GENERAL ASSISTANCE FOR THE VIRGIN ISLANDS.

“There are authorized to be appropriated $5,000,000 for fiscal year 1995 and for each of the 4 succeeding fiscal years, for the purpose of providing general assistance to improve public education in the Virgin Islands.

“TITLE XI—COORDINATED SERVICES

“SEC. 11001. FINDINGS AND PURPOSE.

“(a) FINDINGS.—The Congress finds the following:
“(1) Growing numbers of children are negatively affected by influences outside of the classroom which increase such children's risk of academic failure.
“(2) Factors such as poor nutrition, unsafe living conditions, physical and sexual abuse, family and gang violence, inadequate health care, unemployment, lack of child care, and substance abuse, adversely affect family relationships and the ability of a child to learn.
“(3) Parents and other caregivers in today's high pressure society often face demands which place restraints on such parents' and caregivers' time and affect such parents' and caregivers' ability to adequately provide for the needs of the families of such parents and caregivers.
“(4) Access to health and social service programs can address the basic physical and emotional needs of children so that children can fully participate in the learning experiences offered children in school.

“(5) Services for at-risk students need to be more convenient, and less fragmented, regulated and duplicative, in order to meet the needs of children and their families.

“(6) School personnel, parents, and support service providers often lack knowledge of, and access to, available services for at-risk students and their families in the community, and have few resources to coordinate services and make services accessible.

“(7) Service providers, such as teachers, social workers, health care and child care providers, juvenile justice workers and others, are often trained in separate disciplines that provide little support for the coordination of services.

“(8) Coordination of services is more cost effective because such coordination substitutes prevention for expensive crisis intervention.

“(9) Coordinating health and social services with education can help the Nation meet the National Education Goals by ensuring better outcomes for children.

“(b) PURPOSE OF COORDINATING SERVICES. The purpose of this title is to provide elementary and secondary school students and their families better access to the social, health and education services necessary for students to succeed in school and for their families to take an active role in ensuring that such students receive the best possible education.

"(2) identifies the measures that will be taken to establish a communitywide partnership that links public and private agencies providing services to children and families; and

"(2) Almost one-third of such buildings were built prior to World War II.

"(3) It is estimated that one of every four public school buildings in the United States is in inadequate condition, and of such buildings, 61 percent need maintenance or major repairs, 43 percent are obsolete, 42 percent contain environmental hazards, 25 percent are overcrowded, and 13 percent are structurally unsound.

"(7) the Federal contribution to education is less than two percent of the total Federal budget, and in order to make education a national priority, the total percentage of Federal educational funding should be increased by one percent each year over the next eight years to reach 10 percent of the total Federal budget.

"(3) Families of children with disabilities enrich the lives of all citizens through the contributions of such families to the economic, health, and social fabric of their community, State, and Nation.
"(4) A growing number of families are searching for ways to empower themselves to raise their children with disabilities at home and in their communities. Supporting such families to enable them to care for their children with disabilities at home is efficient and can be cost-effective.
"(5) Children, including children with disabilities, benefit from enduring family relationships in a nurturing home environment.
"(6) Many families experience exceptionally high financial outlays and significant physical and emotional challenges in meeting the special needs of their children with disabilities.
"(7) There are financial disincentives for families to care for their children with disabilities at home.
"(8) Most families of children with disabilities do not have access to family-centered and family-directed services to support such families in their efforts to care for their children with disabilities at home.
"(9) There is a need in each State for a comprehensive, coordinated, interagency system of family support for families of children with disabilities that is family-centered and family-directed, is easily accessible, avoids duplication, uses existing resources more efficiently, and prevents gaps in services to families in all areas of the State.
"(10) The goals of the Nation properly include the goal of providing families of children with disabilities the family support necessary to accomplish the following:
"(A) To support the family.
"(B) To enable families of children with disabilities to nurture and enjoy their children at home.
"(C) To enable families of children with disabilities to make informed choices and decisions regarding the nature
of services, supports, and resources made available to such families.

"(b) PURPOSES.—The purposes of this part are as follows:

"(1) To provide financial assistance to the States to support systems change activities designed to assist each State to develop and implement, or expand and enhance, a family-centered and family-directed, culturally competent, community-centered, comprehensive, statewide system of family support for families of children with disabilities that is designed to—

"(A) ensure the full participation, choice and control of families of children with disabilities in decisions related to the provision of such family support for their family;

"(B) ensure the active involvement of families of children with disabilities in the planning, development, implementation, and evaluation of such a statewide system;

"(C) increase the availability of, funding for, access to, and provision of family support for families of children with disabilities;

"(D) promote training activities that are family-centered and family-directed and that enhance the ability of family members of children with disabilities to increase participation, choice, and control in the provision of family support for families of children with disabilities;

"(E) increase and promote interagency coordination among State agencies, and between State agencies and private entities that are involved in carrying out activities under section 708; and

"(F) increase the awareness of laws, regulations, policies, practices, procedures, and organizational structures, which facilitate or impede the availability or provision of family support for families of children with disabilities.

"(2) To enhance the ability of the Federal Government to—

"(A) identify Federal policies that facilitate or impede family support for families of children with disabilities, and that are consistent with the principles in subsection (c);

"(B) provide States with technical assistance and information relating to the provision of family support for families of children with disabilities;

"(C) conduct an evaluation of the program of grants to States; and

"(D) provide funding for model demonstration and innovation projects.

"(c) POLICY.—It is the policy of the United States that all programs, projects, and activities receiving assistance under this part shall be family-centered and family-directed and shall be carried out in a manner consistent with the following principles:

"(1) Family support for families of children with disabilities must focus on the needs of the entire family.

"(2) Families of children with disabilities should be supported in determining their needs and in making decisions concerning necessary, desirable, and appropriate services.

"(3) Families should play decisionmaking roles in policies and programs that affect the lives of such families.
“(4) Family needs change over time and family support for families of children with disabilities must offer options that are flexible and responsive to the unique needs and strengths and cultural values of individual families.

“(5) Family support for families of children with disabilities is proactive and not solely in response to a crisis.

“(6) Families must be supported in their efforts to promote the integration and inclusion of their children with disabilities into all aspects of community life.

“(7) Family support for families of children with disabilities should promote the use of existing social networks, strengthen natural sources of support, and help build connections to existing community resources and services.

“(8) Youth with disabilities should be involved in decision-making about their own lives, consistent with the unique strengths, resources, priorities, concerns, abilities, and capabilities of each such youth.

“(9) Services and supports must be provided in a manner that demonstrates respect for individual dignity, personal responsibility, self-determination, personal preferences, and cultural differences of families.

"SEC. 1091. GRANTS TO STATES FOR WORKPLACE AND COMMUNITY TRANSITION TRAINING FOR INCARCERATED YOUTH OFFENDERS

"(a) FINDINGS.—The Congress finds the following:

"(1) Over 150,000 youth offenders age 21 and younger are incarcerated in the Nation's jails, juvenile facilities, and prisons.

"(2) Most youth offenders who are incarcerated have been sentenced as first-time adult felons.

478
approximately 75 percent of youth offenders are high school dropouts who lack basic literacy and life skills, have little or no job experience, and lack marketable skills.

(4) The average incarcerated youth has attended school only through grade 10.

(5) Most of these youths can be diverted from a life of crime into productive citizenship with available educational, vocational, work skills, and related service programs.

(6) If not involved with educational programs while incarcerated, almost all of these youths will return to a life of crime upon release.

(7) The average length of sentence for a youth offender is about 3 years. Time spent in prison provides a unique opportunity for education and training.

(8) Even with quality education and training provided during incarceration, a period of intense supervision, support, and counseling is needed upon release to ensure effective reintegration of youth offenders into society.

(9) Research consistently shows that the vast majority of incarcerated youths will not return to the public schools to complete their education.

(10) There is a need for alternative educational opportunities during incarceration and after release.

(b) DEFINITION. For purposes of this part, the term 'youth offender' means a male or female offender under the age of 25, who is incarcerated in a State prison, including a prerelease facility.

(c) GRANT PROGRAM. The Secretary shall establish a program in accordance with this section to provide grants to the State correctional education agencies to assist and encourage incarcerated youths to acquire functional literacy, life, and job skills, through the pursuit of a postsecondary education certificate, or an associate of arts or bachelor’s degree while in prison, and employment counseling and other related services which start during incarceration and continue through prerelease and while on parole.

(d) APPLICATION. To be eligible for a grant under this section, a State correctional education agency shall submit to the Secretary a proposal for a youth offender program that—

(1) identifies the scope of the problem, including the number of incarcerated youths in need of postsecondary education and vocational training;

(2) lists the accredited public or private educational institution or institutions that will provide postsecondary educational services;

(3) lists the cooperating agencies, public and private, or businesses that will provide related services, such as counseling in the areas of career development, substance abuse, health, and parenting skills;

(4) describes the evaluation methods and performance measures that the State correctional education agency will employ, provided that such methods and measures are appropriate to meet the goals and objectives of the proposal, and that such methods and measures include measures of—

(A) program completion;

(B) student academic and vocational skill attainment;
(C) success in job placement and retention; and

(D) recidivism;

(5) describes how the proposed programs are to be integrated with existing State correctional education programs (such as adult education, graduate education degree programs, and vocational training) and State industry programs;

(6) addresses the educational needs of youth offenders who are in alternative programs (such as boot camps); and

(7) describes how students will be selected so that only youth offenders eligible under subsection (f) will be enrolled in postsecondary programs.

(c) PROGRAM REQUIREMENTS.—Each State correctional education agency receiving a grant under this section shall—

(1) integrate activities carried out under the grant with the objectives and activities of the school-to-work programs of such State, including—

(A) work experience or apprenticeship programs;

(B) transitional worksite job training for vocational education students that is related to the occupational goals of such students and closely linked to classroom and laboratory instruction;

(C) placement services in occupations that the students are preparing to enter;

(D) employment-based learning programs; and

(E) programs that address State and local labor shortages;

(2) annually report to the Secretary and the Attorney General on the results of the evaluations conducted using the methods and performance measures contained in the proposal; and

(3) provide to each State for each student eligible under subsection (f) not more than $1,500 annually for tuition, books, and essential materials, and not more than $300 annually for related services such as career development, substance abuse counseling, parenting skills training, and health education, for each eligible incarcerated youth.

(f) STUDENT ELIGIBILITY.—A youth offender shall be eligible for participation in a program receiving a grant under this section if the youth offender—

(1) is eligible to be released within five years (including a youth offender who is eligible for parole within such time); and

(2) is 25 years of age or younger.

(g) LENGTH OF PARTICIPATION.—A State correctional education agency receiving a grant under this section shall provide educational and related services to each participating youth offender for a period not to exceed 5 years, 1 year of which may be devoted to study in a graduate education degree program or to remedial education services for students who have obtained a secondary school diploma. Educational and related services shall start during the period of incarceration in prison or prerelease and may continue during the period of parole.

(h) EDUCATION DELIVERY SYSTEMS.—State correctional education agencies and cooperating institutions shall, to the extent practicable, use high-tech applications in developing programs to meet the requirements and goals of this section.
“(i) ALLOCATION OF FUNDS.—From the amounts appropriated pursuant to subsection (j), the Secretary shall allot to each State an amount that bears the same relationship to such funds as the total number of students eligible under subsection (f) in such State bears to the total number of such students in all States.

standards, distribute such standards to all the tribes and publish such final standards in the Federal Register. The Secretary shall revise such final standards periodically as necessary. Prior to any revision of such final standards, the Secretary shall distribute such proposed revision to all the tribes, and publish such proposed revision in the Federal Register, for the purpose of receiving comments from the tribes and other interested parties.

"(2) The standards described in paragraph (1) shall apply to Bureau schools, and subject to subsection (f), to contract or grant schools, and may also serve as a model for educational programs for Indian children in public schools. In establishing and revising such standards, the Secretary shall take into account the special needs of Indian students and the support and reinforcement of the specific cultural heritage of each tribe.

"(d) The Secretary shall provide alternative or modified standards in lieu of the standards established under subsection (c), where necessary, so that the programs of each school shall be in compliance with the minimum standards required for accreditation of schools in the State where the school is located.

"(e) A tribal governing body, or the local school board so designated by the tribal governing body, shall have the local authority to waive, in part or in whole, the standards established under subsection (c) and (d), where such standards are deemed by such body to be inappropriate. The tribal governing body or designated school board shall, within 60 days thereafter, submit to the Secretary a proposal for alternative standards that take into account the specific needs of the tribe’s children. Such revised standards shall be established by the Secretary unless specifically rejected by the Secretary for good cause and in writing to the affected tribes or local school board, which rejection shall be final and unreviewable.

"(f)(1) The Secretary, through contracting and grant-making procedures, shall assist school boards of contract or grant schools in the implementation of the standards established under subsections (c) and (d), if the school boards request that such standards, in part or in whole, be implemented. At the request of a contract or grant school board, the Secretary shall provide alternative or modified standards for the standards established under subsections (c) and (d) to take into account the needs of the Indian children and the contract or grant school.

"(2) Within 1 year of the date of the enactment of the Indian Education Technical Amendments Act of 1985, the Bureau shall, either directly or through contract with an Indian organization, establish a consistent system of reporting standards for fiscal control and fund accounting for all contract or grant schools. Such standards shall yield data results comparable to those used by Bureau schools.

"(g) Subject to subsections (e) and (f), the Secretary shall begin to implement the standards established under this section immediately upon the date of their establishment. Not later than January 1, 1996, and at each time thereafter that the annual budget request for Bureau educational services is presented, the Secretary shall submit to the appropriate committees of Congress a detailed plan to bring all Bureau schools and contract or grant schools up to the level required by the applicable standards established under this
section. Such plan shall include detailed information on the status of each school's educational program in relation to the applicable standards established under this section, specific cost estimates for meeting such standards at each school, and specific time lines for bringing each school up to the level required by such standards.

"(h)(1) Except as specifically required by statute, no school or peripheral dormitory operated by the Bureau on or after January 1, 1992, may be closed or consolidated or have its program substantially curtailed unless done according to the requirements of this subsection, except that, in those cases where the tribal governing body, or the local school board concerned (if so designated by the tribal governing body), requests closure or consolidation, the requirements of this subsection shall not apply. The requirements of this subsection shall not apply when a temporary closure, consolidation, or substantial curtailment is required by plant conditions which constitute an immediate hazard to health and safety.

"(2) The Secretary shall, by regulation, promulgate standards and procedures for the closing, consolidation, or substantial curtailment of Bureau schools in accordance with the requirements of this subsection.

"(3) Whenever closure, transfer to any other authority, consolidation, or substantial curtailment of a school is under active consideration or review by any division of the Bureau or the Department of the Interior, the affected tribe, tribal governing body, and designated local school board, will be notified as soon as such consideration or review begins, kept fully and currently informed, and afforded an opportunity to comment with respect to such consideration or review. When a formal decision is made to close, transfer to any other authority, consolidate, or substantially curtail a school, the affected tribe, tribal governing body, and designated local school board shall be notified at least 6 months prior to the end of the school year preceding the proposed closure date. Copies of any such notices and information shall be transmitted promptly to the Congress and published in the Federal Register.

"(4) The Secretary shall make a report to Congress, the affected tribe, and the designated local school board describing the process of the active consideration or review referred to in paragraph (3). At a minimum, the report shall include a study of the impact of such action on the student population, with every effort to identify those students with particular educational and social needs, and to ensure that alternative services are available to such students. Such report shall include the description of the consultation conducted between the potential service provider, current service provider, parents, tribal representative and the tribe or tribes involved, and the Director of the Office of Indian Education Programs within the Bureau regarding such students. No irreversible action may be taken in furtherance of any such proposed school closure, transfer to any other authority, consolidation, or substantial curtailment (including any action which would prejudice the personnel or programs of such school) until the end of the first full academic year after such report is made.

"(5) The Secretary may terminate, contract, transfer to any other authority, or consolidate or substantially curtail the operation or facilities of—
(A) any Bureau funded school that is operated on or after April 1, 1987.
(B) any program of such a school that is operated on or after April 1, 1987, or
(C) any school board of a school operated under a grant under the Tribally Controlled Schools Act of 1988, only if the tribal governing body approves such action.

(i) There are authorized to be appropriated such sums as may be necessary, for academic program costs, in order to bring all Bureau schools and contract or grant schools up to the level required by the applicable standards established under this section.

(j)(1) All Bureau funded schools shall include within their curriculum a program of instruction relating to alcohol and substance abuse prevention and treatment. The Assistant Secretary shall provide the technical assistance necessary to develop and implement such a program for students in kindergarten and grades 1 through 12, at the request of—

(A) any Bureau school (subject to the approval of the school board of such school);
(B) any school board of a school operating under a contract entered into under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.); or
(C) any school board of a school operating under a grant under the Tribally Controlled Schools Act of 1988.

(2) In schools operated directly by the Bureau, the Secretary shall provide for—

(A) accurate reporting of all incidents relating to alcohol and substance abuse; and

(B) individual student crisis intervention.

(3) The programs requested under paragraph (1) shall be developed in consultation with the Indian tribe that is to be served by such program and health personnel in the local community of such tribe.

(4) Schools requesting program assistance under this subsection are encouraged to involve family units and, where appropriate, tribal elders and Native healers in such instructions.

(h) For purposes of this section, the term 'tribal governing body' means, with respect to any school, the tribal governing body, or tribal governing bodies, that represent at least 90 percent of the students served by such school.

(i) The Secretary shall only consider the factors described in subparagraphs (B) and (C) in reviewing—

(I) applications from any tribe for the awarding of a contract or grant for a school that is not a Bureau funded school; and

(II) applications from any tribe or school board of any Bureau funded school for—

(aa) a school which is not a Bureau funded school; or
(bb) the expansion of a Bureau funded school which would increase the amount of funds received by the Indian tribe or school board under section 1127.

(ii) The Secretary shall give consideration to all of the factors under clause (i), but none of the applications under clause (i) may
be denied based primarily upon the geographic proximity of public
education.

"(B) The Secretary shall consider the following factors relating
to the program that is the subject of an application described in
subparagraph (A):

"(i) The adequacy of facilities or the potential to obtain or
provide adequate facilities.

"(ii) Geographic and demographic factors in the affected
areas.

"(iii) Adequacy of the applicant's program plans or, in the
case of a Bureau funded school, of projected needs analysis
done either by a tribe or by Bureau personnel.

"(iv) Geographic proximity of comparable public education.

"(v) The stated needs of all affected parties, including stu-
dents, families, tribal governments at both the central and local
levels, and school organizations.

"(C) The Secretary shall consider with respect to applications
described in subparagraph (A) the following factors relating to all
the educational services available at the time the application is con-
sidered:

"(i) Geographic and demographic factors in the affected
areas.

"(ii) Adequacy and comparability of programs already
available.

"(iii) Consistency of available programs with tribal edu-
cational codes or tribal legislation on education.

"(iv) The history and success of these services for the pro-
posed population to be served, as determined from all factors
and not just standardized examination performance.

"(2)(4) The Secretary shall make a determination of whether to
approve any application described in paragraph (1)(A) by not later
than the date that is 180 days after the day on which such applica-
tion is submitted to the Secretary.

"(B) If the Secretary fails to make the determination described
in subparagraph (A) with respect to an application by the date de-
scribed in subparagraph (A), the application shall be treated as
having been approved by the Secretary.

"(3)(A) Any application described in paragraph (1)(A) may be
submitted to the Secretary only if

"(i) the application has been approved by the tribal govern-
ing body of the students served by (or to be served by) the school
or program that is the subject of the application, and

"(ii) written evidence of such approval is submitted with the
application.

"(B) Each application described in paragraph (1)(A)—

"(i) shall provide information concerning each of the factors
described in paragraph (1)(B), and

"(ii) may provide information concerning the factors de-
scribed in paragraph (1)(C).

"(4) Whenever the Secretary makes a determination to deny ap-
proval of any application described in paragraph (1)(A), the Sec-
retary shall—
"(A) state the objections in writing to the applicant by not later than the date that is 180 days after the day on which the application is submitted to the Secretary,

"(B) provide assistance to the applicant to overcome stated objections, and

"(C) provide the applicant a hearing, under the same rules and regulations pertaining to the Indian Self-Determination and Education Assistance Act, and an opportunity to appeal the objections raised by the Secretary.

"(5)(A) Except as otherwise provided in this paragraph, the action which is the subject of any application described in paragraph (1)(A) that is approved by the Secretary shall become effective with the commencement of the academic year succeeding the fiscal year in which the application is approved, or at an earlier date determined by the Secretary.

"(B) If an application is treated as having been approved by the Secretary by reason of paragraph (2)(B), the action that is the subject of the application shall become effective on the date that is 18 months after the date on which the application is submitted to the Secretary, or at an earlier date determined by the Secretary.

"SEC. 1122. NATIONAL CRITERIA FOR DORMITORY SITUATIONS.

"(a) The Secretary, in consultation with the Secretary of the Department of Education, and in consultation with Indian organizations and tribes, shall conduct or cause to be conducted by contract with an Indian organization, a study of the costs applicable to boarding arrangements for Indian students provided in Bureau schools, and contract or grant schools, for the purpose of establishing national criteria for such dormitory situations. Such criteria shall include adult-child ratios, needs for counselors (including special needs related to off-reservation boarding arrangements), space, and privacy.

"(b) Not later than January 1, 1996, the Secretary shall propose such criteria, and shall distribute such proposed criteria to the tribes and publish such proposed criteria in the Federal Register for the purpose of receiving comments from the tribes and other interested parties. Within 18 months of the date of the enactment of the Improving America's Schools Act of 1994, the Secretary shall establish final criteria, distribute such final criteria to all the tribes, and publish such final criteria in the Federal Register. The Secretary shall revise such final criteria periodically as necessary. Any revisions to the criteria established under this section shall be developed subject to requirements established under section 1131.

"(c) The Secretary shall begin to implement the criteria established under this section immediately upon the date of the establishment of such criteria. Not later than January 1, 1997, and at each time thereafter that the annual budget request for Bureau educational services is presented, the Secretary shall submit to the appropriate committees of Congress a detailed plan to bring all Bureau contract boarding schools up to the criteria established under this section. Such plan shall include predictions for the relative need for each boarding school in the future, detailed information on the status of each school in relation to the criteria established under this section, specific cost estimates for meeting such criteria at each
school, and specific time lines for bringing each school up to the level required by such criteria.

"(d)(1) The criteria established under this section may be waived in the same manner as the standards provided under section 1121(c) may be waived under section 1121(e).

"(2) No school in operation on or before January 1, 1987 (regardless of compliance or noncompliance with the criteria established under this section) may be closed, transferred to another authority, consolidated or have its program substantially curtailed for failure to meet the criteria.

"(3) By not later than May 1, 1996, the Secretary shall submit to the Congress a report detailing the costs associated with, and the actions necessary for, complete compliance with the criteria established under this section.

"(e) There are authorized to be appropriated such sums as may be necessary in order to bring each school up to the level required by the criteria established under this section.

"SEC. 1123. REGULATIONS.

"(a) The provisions of part 32 of title 25 of the Code of Federal Regulations, as in effect on January 1, 1987, are incorporated into this Act and shall be treated as though such provisions are set forth in this subsection. Accordingly, such provisions may be altered only by means of an amendment to this subsection that is contained in an Act or joint resolution which is enacted into law. To the extent that such provisions of part 32 do not conform with this Act or any statutory provision of law enacted before the date of enactment of this Act, the provisions of this Act and the provisions of such other statutory law shall govern.

"(b) The provisions of parts 31, 33, 36, 39, 42, and 43 of title 25 of the Code of Federal Regulations, as in effect on January 1, 1987, shall be applied by the Federal Government and shall not, before July 1, 1989, be amended, revoked, or altered in any manner. No officer or employee of the executive branch shall have the authority to issue any other regulations, prior to July 1, 1989, that supersede, supplement, or otherwise affect the provisions of such parts. To the extent that the provisions of such parts do not conform with this Act or any statutory provision of law enacted before the date of enactment of this Act, the provisions of this Act and the provisions of such other statutory law shall govern.

"(c) After June 30, 1989, no regulation prescribed for the application of any program provided under this title shall become effective unless—

"(1) the regulation has been published as a proposed regulation in the Federal Register,

"(2) an opportunity of not less than 90 days has been afforded the public to comment on the published proposed regulation, and

"(3) the regulation has, after such period for public comment, been published in the Federal Register as a final regulation.

"(d) For purposes of this section, the term 'regulation' means any rules, regulations, guidelines, interpretations, orders, or requirements of general applicability prescribed by any officer or employee of the executive branch.
SEC. 1124. SCHOOL BOUNDARIES.

(a) The Secretary shall, in accordance with this section, establish separate geographical attendance areas for each Bureau school.

(b)(1) Except as provided in paragraph (2), on or after July 1, 1985, no attendance area shall be changed or established with respect to any Bureau funded school unless the tribal governing body or the local school board concerned (if so designated by the tribal governing body) has been (i) afforded at least six months notice of the intention of the Bureau to change or establish such attendance area, and (ii) given the opportunity to propose alternative boundaries. Any tribe may petition the Secretary for revision of existing attendance area boundaries. The Secretary shall accept such proposed alternative or revised boundaries unless the Secretary finds, after consultation with the affected tribe or tribes, that such revised boundaries do not reflect the needs of the Indian students to be served or do not provide adequate stability to all of the affected programs.

(2) In any case where there is more than 1 Bureau funded school located on an Indian reservation, at the direction of the tribal governing body, the relevant school boards of the Bureau funded schools on the reservation may, by mutual consent, establish the relevant attendance areas for such schools, subject to the approval of the tribal governing body. Any such boundaries so established shall be accepted by the Secretary.

(c) In any case where there is only 1 Bureau operated program located on an Indian reservation, the attendance area for the program shall be the boundaries of the reservation served, and those students residing near the reservation shall also receive services from such program.

(d) The Bureau shall include in the regulations the requirement that each appropriate education line officer coordinate and consult with the affected tribes and relevant school boards in the establishment of such geographic boundaries.

SEC. 1125. FACILITIES CONSTRUCTION.

(a) The Secretary shall immediately begin to bring all schools, dormitories, and other facilities operated by the Bureau or under contract or grant with the Bureau in connection with the education of Indian children into compliance with all applicable Federal, tribal, or State health and safety standards, whichever provide greater protection (except that the tribal standards to be applied shall be no greater than any otherwise applicable Federal or State standards), with section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794), and with the Americans with Disabilities Act of 1990, except that nothing in this section shall require termination of the operations of any facility which does not comply with such provisions and which is in use on the date of enactment of the Improving America's Schools Act of 1994.

(b) By January 1, 1996, and at each time thereafter that the annual budget request for Bureau educational services is presented, the Secretary shall submit to the appropriate committees of Congress a detailed plan to bring such facilities into compliance with such standards. Such plan shall include detailed information on the status of each facility's compliance with such standards, specific
cost estimates for meeting such standards at each school, and specific time lines for bringing each school into compliance with such standards.

"(c) Within six months of the date of enactment of this Act, the Secretary shall submit to the appropriate committees of Congress, and publish in the Federal Register, the system used to establish priorities for school construction projects. At the time any budget request for school construction is presented, the Secretary shall publish in the Federal Register and submit with the budget request the current list of all school construction priorities.

"(d)(1) A Bureau school may be closed or consolidated, and the programs of a Bureau school may be substantially curtailed, by reason of plant conditions that constitute an immediate hazard to health and safety only if a health and safety officer of the Bureau determines that such conditions exist at the Bureau school.

"(2)(A) In making determinations described in paragraph (1) before July 1, 1989, health and safety officers of the Bureau shall use the health and safety guidelines of the Bureau that were in effect on January 1, 1988.

"(B)(i) If—

"(I) the Secretary fails to publish in the Federal Register in final form before July 1, 1989, and

"(II) action described in paragraph (1) is taken after June 30, 1989, and before the date on which such regulations are published in final form in the Federal Register by reason of the condition of any plant,

an inspection of the condition of such plant shall be conducted by an appropriate tribal, county, municipal, or State health and safety officer to determine whether conditions at such plant constitute an immediate hazard to health and safety. Such inspection shall be completed by not later than the date that is 30 days after the date on which the action described in paragraph (1) is taken.

"(ii) The inspection required under clause (i) shall be conducted by a health and safety officer designated jointly by the Secretary and the tribes affected by the action described in paragraph (1). If the Secretary and such tribes are unable to agree on the designation of the health and safety officer, the Secretary shall designate the health and safety officer and shall provide notice of such designation to each of such tribes before the inspection is conducted by such officer.

"(iii) If the health and safety officer conducting an inspection of a plant required under clause (i) determines that conditions at the plant do not constitute an immediate hazard to health and safety, any consolidation or curtailment that was made by reason of conditions at the plant shall immediately cease and any school closed by reason of conditions at the plant shall be reopened immediately.

"(3) If—

"(A) a Bureau school is temporarily closed or consolidated, or the programs of a Bureau school are substantially curtailed, by reason of plant conditions that constitute an immediate hazard to health and safety, and

"(B) the Secretary estimates that the closure, consolidation, or curtailment will be more than 1 year in duration,
the Secretary shall submit to the Congress, by not later than the date that is 6 months after the date on which the closure, consolidation, or curtailment is initiated, a report which sets forth the reasons for such temporary actions and the actions the Secretary is taking to eliminate the conditions that constitute the hazard.

"(e) There are authorized to be appropriated such sums as may be necessary to carry out subsection (a).

"SEC. 1126. BUREAU OF INDIAN AFFAIRS EDUCATION FUNCTIONS.

"(a) The Secretary shall vest in the Assistant Secretary for Indian Affairs all functions with respect to formulation and establishment of policy and procedure, and supervision of programs and expenditures of Federal funds for the purpose of Indian education administered by the Bureau. The Assistant Secretary shall carry out such functions through the Director of the Office of Indian Education.

"(b) The Director of the Office shall direct and supervise the operations of all personnel directly and substantially involved with provision of education services by the Bureau, including school or institution custodial or maintenance personnel. The Assistant Secretary for Indian Affairs shall provide for the adequate coordination between the affected Bureau Offices and the Office to facilitate the consideration of all contract functions relating to education. Except as required by section 1129, nothing in this Act shall be construed to require the provision of separate support services for Indian education.

"(c) Education personnel who are under the direction and supervision of the Director of the Office in accordance with the first sentence of subsection (b) shall—

"(1) monitor and evaluate Bureau education programs,

"(2) provide all services and support functions for education programs with respect to personnel matters involving staffing actions and functions, and

"(3) provide technical and coordinating assistance in areas such as procurement, contracting, budgeting, personnel, and curriculum.

"(d)(1) The Assistant Secretary shall submit in the annual Budget a plan—

"(A) for school facilities to be constructed under the system required by section 1125(c);

"(B) for establishing priorities among projects and for the improvement and repair of education facilities, which together shall form the basis for the distribution of appropriated funds; and

"(C) including a 5-year plan for capital improvements.

"(2)(A) The Assistant Secretary shall establish a program, including the distribution of appropriated funds, for the operation and maintenance of education facilities. Such program shall include—

"(i) a method of computing the amount necessary for each education facility;

"(ii) similar treatment of all Bureau funded schools;

"(iii) a notice of an allocation of appropriated funds from the Director of the Office directly to the appropriate education line officers; and
“(iv) a system for the conduct of routine preventive maintenance.

“(B) The appropriate education line officers shall make arrangements for the maintenance of education facilities with the local supervisors of the Bureau maintenance personnel who are under the authority of the agency superintendent or area directors, respectively. The local supervisors of Bureau maintenance personnel shall take appropriate action to implement the decisions made by the appropriate education line officers, except that no funds under this part may be authorized for expenditure unless such appropriate education line officer is assured that the necessary maintenance has been, or will be, provided in a reasonable manner. Subject to the requirements of subsection (b) of this section, nothing in this Act shall be construed to require the provision of separate operations and maintenance personnel for the Office.

“(3) The requirements of this subsection shall be implemented not later than July 1, 1995.

“(e) Notwithstanding any other provision of law, the Director shall promulgate guidelines for the establishment of mechanisms for the acceptance of gifts and bequests for the use of, and benefit of, particular schools or designated Bureau operated education programs, including, where appropriate, the establishment and administration of trust funds. When a Bureau operated program is the beneficiary of such a gift or bequest, the Director shall make provisions for monitoring its use, and shall report to the appropriate committees of Congress the amount and terms of such gift or bequest, the use to which such gift or bequest is put, and any positive results achieved by such action.

“(f) For the purpose of this section the term ‘functions’ includes powers and duties.

“SEC. 1127. ALLOTMENT FORMULA.

“(a)(1) The Secretary shall establish, by regulation adopted in accordance with section 1139, a formula for determining the minimum annual amount of funds necessary to sustain each Bureau funded school. In establishing such formula, the Secretary shall consider—

“(A) the number of eligible Indian students served and size of the school;

“(B) special cost factors, such as—

“(i) the isolation of the school;

“(ii) the need for special staffing, transportation, or educational programs;

“(iii) food and housing costs;

“(iv) maintenance and repair costs associated with the physical condition of the educational facilities;

“(v) special transportation and other costs of isolated and small schools;

“(vi) the costs of boarding arrangements, where determined necessary by a tribal governing body or designated local school board;

“(vii) costs associated with greater lengths of service by educational personnel; and

“(viii) special programs for gifted and talented students;
“(C) the cost of providing academic services which are at least equivalent to those provided by public schools in the State in which the school is located; and

“(D) such other relevant factors as the Secretary determines are appropriate.

“(2) Upon the establishment of the standards required by sections 1121 and 1122, the Secretary shall revise the formula established under this subsection to reflect the cost and funding standards so established. Prior to January 1, 1996, the Secretary shall review the formula established under this section and shall take such steps as may be necessary to increase the availability of counseling services for students in off-reservation boarding schools and other Bureau operated residential facilities. Concurrent with such action, the Secretary shall review the standards established under section 1121 to be certain that adequate provision is made for parental notification regarding, and consent for, such counseling services.

“(b) Notwithstanding any other provisions of law, Federal funds appropriated for the general local operation of Bureau funded schools shall be allotted pro rata in accordance with the formula established under subsection (a).

“(c)(1) For fiscal year 1990, and for each subsequent fiscal year, the Secretary shall adjust the formula established under subsection (a) to—

“(A) use a weighted unit of 1.2 for each eligible Indian student enrolled in the seventh and eighth grades of the school in considering the number of eligible Indian students served by the school;

“(B) consider a school with an enrollment of less than 50 eligible Indian students as having an average daily attendance of 50 eligible Indian students for purposes of implementing the adjustment factor for small schools; and

“(C) take into account the provision of residential services on a less than 9-month basis at a school when the school board and supervisor of the school determine that a less than 9-month basis will be implemented for the school year involved.

“(2)(A) The Secretary shall reserve for national school board training 0.2 percent of the funds appropriated for each fiscal year for distribution under this section. Such training shall be conducted through the same organizations through which, and in the same manner in which, the training was conducted in fiscal year 1992, except that the contracts for distribution of such funds shall require that such funds be distributed by the recipient organizations in a manner that assures the same pro rata share is made available for training for each school board in the system. If the contract for such training is not awarded before May 1 of each fiscal year, the contract under which such training was provided for the fiscal year preceding such fiscal year shall be renewed by the Secretary for such fiscal year. The agenda for the training sessions shall be established by the school boards through their regional or national organizations.

“(B) For each year in which the Secretary uses a weighted unit formula established under subsection (a) to fund Bureau schools, a Bureau school which generates less than 168 weighted units shall
receive an additional 2 weighted units to defray school board activities.

"(C) From the funds allotted in accordance with the formula established under subsection (a) for each Bureau school, the local school board of such school may reserve an amount which does not exceed the greater of—

"(i) $5,000, or

"(ii) the lesser of—

"(I) $15,000, or

"(II) 1 percent of such allotted funds,

for school board activities for such school, including and notwithstanding any other provision of law, meeting expenses and the cost of membership in, and support of, organizations engaged in activities on behalf of Indian education.

"(3) The Secretary shall adjust the formula established under subsection (a) to use a weighted unit of 2.0 for each eligible Indian student that—

"(A) is gifted and talented, and

"(B) is enrolled in the school on a full-time basis, in considering the number of eligible Indian students served by the school.

"(4)(A) The Secretary shall adjust the formula established under subsection (a) to use a weighted unit of 0.25 for each eligible Indian student who is enrolled in a year-long credit course in an Indian or Native language as part of the regular curriculum of a school, in considering the number of eligible Indian students served by such school.

"(B) The adjustment required under subparagraph (A) shall be used for such school after—

"(i) the certification of the Indian or Native language curriculum by the school board of such school to the Secretary, together with an estimate of the number of full-time students expected to be enrolled in the curriculum in the second school year following the school year for which the certification is made; and

"(ii) the funds appropriated for allotment under this section are designated by the appropriations Act appropriating such funds as the amount necessary to implement such adjustment at such school without reducing allotments made under this section to any school by virtue of such adjustment.

"(d) The Secretary shall reserve from the funds available for distribution for each fiscal year under this section an amount which, in the aggregate, shall equal 1 percent of the funds available for such purpose for that fiscal year. Such funds shall be used, at the discretion of the Director of the Office, to meet emergencies and unforeseen contingencies affecting the education programs funded under this section. Funds reserved under this subsection may only be expended for education services or programs at a schoolsite (as defined in section 5204(c)(2) of the Tribally Controlled Schools Act of 1988). Funds reserved under this subsection shall remain available without fiscal year limitation until expended. However, the aggregate amount available from all fiscal years may not exceed 1 percent of the current year funds. Whenever the Secretary makes funds
available under this subsection, the Secretary shall report such action to the appropriate committees of Congress within the annual budget submission.

"(e) Supplemental appropriations enacted to meet increased pay costs attributable to school level personnel shall be distributed under this section.

"(f) For the purpose of this section, the term 'eligible Indian student' means a student who—

"(1) is a member of or is at least a 1/4 degree Indian blood descendant of a member of an Indian tribe which is eligible for the special programs and services provided by the United States through the Bureau to Indians because of their status as Indians, and

"(2) resides on or near an Indian reservation or meets the criteria for attendance at a Bureau off-reservation boarding school.

"(g)(1) An eligible Indian student may not be charged tuition for attendance at a Bureau school or contract or grant school. A student attending a Bureau school under paragraph (2)(C) may not be charged tuition.

"(2) The Secretary may permit the attendance at a Bureau school of a student who is not an eligible Indian student if—

"(A) the Secretary determines that the student’s attendance will not adversely affect the school’s program for eligible Indian students because of cost, overcrowding, or violation of standards,

"(B) the school board consents,

"(C) the student is a dependent of a Bureau, Indian Health Service, or tribal government, employee who lives on or near the school site, or

"(D) a tuition is paid for the student that is not more than that charged by the nearest public school district for out-of-district students, is in addition to the school’s allocation under this section.

"(3) The school board of a contract or grant school may permit students who are not eligible Indian students under this subsection to attend its contract school or grant school and any tuition collected for those students is in addition to funding under this section.

"(h) Notwithstanding any other provision of law, at the election of the school board of a Bureau school made at any time during the fiscal year, a portion equal to not more than 15 percent of the funds allocated with respect to a school under this section for any fiscal year shall remain available to the school for expenditure without fiscal year limitation. The Assistant Secretary shall take steps as may be necessary to implement this provision immediately.

"(i) Beginning with academic year 1994–1995, tuition for the out-of-State students boarding at the Richfield Dormitory in Richfield, Utah, who attend Sevier County high schools in Richfield, Utah, shall be paid from the Indian school equalization program funds authorized in this section and section 1130 at a rate not to exceed the amount per weighted student unit for that year for the instruction of such students. No additional administrative cost funds shall be added to the grant.
"SEC. 1128. ADMINISTRATIVE COST GRANTS.

(a)(1) The Secretary shall, subject to the availability of appropriated funds, provide grants to each tribe or tribal organization operating a contract school or grant school in the amount determined under this section with respect to the tribe or tribal organization for the purpose of paying the administrative and indirect costs incurred in operating contract or grant schools in order to—

"(A) enable tribes and tribal organizations operating such schools, without reducing direct program services to the beneficiaries of the program, to provide all related administrative overhead services and operations necessary to meet the requirements of law and prudent management practice, and

"(B) carry out other necessary support functions which would otherwise be provided by the Secretary or other Federal officers or employees, from resources other than direct program funds, in support of comparable Bureau operated programs.

(2) Amounts appropriated to fund the grants provided under this section shall be in addition to, and shall not reduce, the amounts appropriated for the program being administered by the contract or grant school.

(b)(1) The amount of the grant provided to each tribe or tribal organization under this section for each fiscal year shall be determined by applying the administrative cost percentage rate of the tribe or tribal organization to the aggregate of the Bureau elementary and secondary functions operated by the tribe or tribal organization for which funds are received from or through the Bureau. The administrative cost percentage rate determined under subsection (c) does not apply to other programs operated by the tribe or tribal organization.

(b)(2) The Secretary shall—

"(A) reduce the amount of the grant determined under paragraph (1) to the extent that payments for administrative costs are actually received by an Indian tribe or tribal organization under any Federal education program included in the direct cost base of the tribe or tribal organization, and

"(B) take such actions as may be necessary to be reimbursed by any other department or agency of the Federal Government for the portion of grants made under this section for the costs of administering any program for Indians that is funded by appropriations made to such other department or agency.

(c)(1) For purposes of this section, the administrative cost percentage rate for a contract or grant school for a fiscal year is equal to the percentage determined by dividing—

"(A) the sum of—

"(i) the amount equal to—

"(I) the direct cost base of the tribe or tribal organization for the fiscal year, multiplied by

"(II) the minimum base rate, plus

"(ii) the amount equal to—

"(I) the standard direct cost base, multiplied by

"(II) the maximum base rate, by

"(B) the sum of—

"(i) the direct cost base of the tribe or tribal organization for the fiscal year, plus
"(ii) the standard direct cost base.

"(2) The administrative cost percentage rate shall be determined to the nearest of a decimal point.

"(d)(1)(A) Funds received by a tribe or contract or grant school as grants under this section for tribal elementary or secondary educational programs may be combined by the tribe or contract or grant school into a single administrative cost account without the necessity of maintaining separate funding source accounting.

"(B) Indirect cost funds for programs at the school which share common administrative services with tribal elementary or secondary educational programs may be included in the administrative cost account described in subparagraph (A).

"(2) Funds received as grants under this section with respect to tribal elementary or secondary education programs shall remain available to the contract or grant school without fiscal year limitation and without diminishing the amount of any grants otherwise payable to the school under this section for any fiscal year beginning after the fiscal year for which the grant is provided.

"(3) Funds received as grants under this section for Bureau funded programs operated by a tribe or tribal organization under a contract or agreement shall not be taken into consideration for purposes of indirect cost underrecovery and overrecovery determinations by any Federal agency for any other funds, from whatever source derived.

"(4) In applying this section and section 105 of the Indian Self-Determination and Education Assistance Act with respect to an Indian tribe or tribal organization that—

"(A) receives funds under this section for administrative costs incurred in operating a contract or grant school or a school operated under the Tribally Controlled Schools Act of 1988, and

"(B) operates 1 or more other programs under a contract or grant provided under the Indian Self-Determination and Education Assistance Act,

the Secretary shall ensure that the Indian tribe or tribal organization is provided with the full amount of the administrative costs, and of the indirect costs, that are associated with operating the contract or grant school, a school operated under the Tribally Controlled Schools Act of 1988, and all of such other programs, except that funds appropriated for implementation of this section shall be used only to supply the amount of the grant required to be provided by this section.

"(e) For purposes of this section:

"(1)(A) The term 'administrative cost' means the costs of necessary administrative functions which—

"(i) the tribe or tribal organization incurs as a result of operating a tribal elementary or secondary educational program,

"(ii) are not customarily paid by comparable Bureau operated programs out of direct program funds, and

"(iii) are either—

"(I) normally provided for comparable Bureau programs by Federal officials using resources other than Bureau direct program funds, or
“(II) are otherwise required of tribal self-determination program operators by law or prudent management practice.

“(B) The term ‘administrative cost’ may include—

“(i) contract or grant (or other agreement) administration;

“(ii) executive, policy, and corporate leadership and decisionmaking;

“(iii) program planning, development, and management;

“(iv) fiscal, personnel, property, and procurement management;

“(v) related office services and record keeping; and

“(vi) costs of necessary insurance, auditing, legal, safety and security services.

“(2) The term ‘Bureau elementary and secondary functions’ means—

“(A) all functions funded at Bureau schools by the Office;

“(B) all programs—

“(i) funds for which are appropriated to other agencies of the Federal Government, and

“(ii) which are administered for the benefit of Indians through Bureau schools; and

“(C) all operation, maintenance, and repair funds for facilities and government quarters used in the operation or support of elementary and secondary education functions for the benefit of Indians, from whatever source derived.

“(3)(A) Except as otherwise provided in this subparagraph (B), the direct cost base of a tribe or tribal organization for the fiscal year is the aggregate direct cost program funding for all tribal elementary or secondary educational programs operated by the tribe or tribal organization during—

“(i) the second fiscal year preceding such fiscal year, or

“(ii) if such programs have not been operated by the tribe or tribal organization during the 2 preceding fiscal years, the first fiscal year preceding such fiscal year.

“(B) In the case of Bureau elementary or secondary education functions which have not previously been operated by a tribe or tribal organization under contract, grant, or agreement with the Bureau, the direct cost base for the initial year shall be the projected aggregate direct cost program funding for all Bureau elementary and secondary functions to be operated by the tribe or tribal organization during that fiscal year.

“(4) The term ‘maximum base rate’ means 50 percent.

“(5) The term ‘minimum base rate’ means 11 percent.

“(6) The term ‘standard direct cost base’ means $600,000.

“(7) The term ‘tribal elementary or secondary educational programs’ means all Bureau elementary and secondary functions, together with any other Bureau programs or portions of programs (excluding funds for social services that are appropriated to agencies other than the Bureau and are expended through the Bureau, funds for major subcontracts, construction, and other major capital expenditures, and unexpended funds
carried over from prior years) which share common administrative cost functions, that are operated directly by a tribe or tribal organization under a contract, grant, or agreement with the Bureau.

"(f)(1) Upon the date of enactment of the Indian Education Amendments of 1988, the Secretary shall—

"(A) conduct such studies as may be needed to establish an empirical basis for determining relevant factors substantially affecting the required administrative costs of tribal elementary and secondary educational programs, using the formula set forth in subsection (c), and

"(B) conduct a study to determine—

"(i) a maximum base rate which ensures that the amount of the grants provided under this section will provide adequate (but not excessive) funding of the administrative costs of the smallest tribal elementary or secondary educational programs,

"(ii) a minimum base rate which ensures that the amount of the grants provided under this section will provide adequate (but not excessive) funding of the administrative costs of the largest tribal elementary or secondary educational programs, and

"(iii) a standard direct cost base which is the aggregate direct cost funding level for which the percentage determined under subsection (c) will—

"(I) be equal to the median between the maximum base rate and the minimum base rate, and

"(II) ensure that the amount of the grants provided under this section will provide adequate (but not excessive) funding of the administrative costs of tribal elementary or secondary educational programs closest to the size of the program.

"(2) The studies required under paragraph (1) shall—

"(A) be conducted in full consultation (in accordance with section 1131) with—

"(i) the tribes and tribal organizations that are affected by the application of the formula set forth in subsection (c), and

"(ii) all national and regional Indian organizations of which such tribes and tribal organizations are typically members;

"(B) be conducted onsite with a representative statistical sample of the tribal elementary or secondary educational programs under a contract entered into with a nationally reputable public accounting and business consulting firm;

"(C) take into account the availability of skilled labor, commodities, business and automatic data processing services, related Indian preference and Indian control of education requirements, and any other market factors found substantially to affect the administrative costs and efficiency of each such tribal elementary or secondary educational program studied in order to assure that all required administrative activities can reasonably be delivered in a cost effective manner for each such program, given an administrative cost allowance generated by the
values, percentages, or other factors found in the studies to be
relevant in such formula;
“(D) identify, and quantify in terms of percentages of direct
program costs, any general factors arising from geographic iso-
lation, or numbers of programs administered, independent of
program size factors used to compute a base administrative cost
percentage in such formula; and
“(E) identify any other incremental cost factors substan-
tially affecting the costs of required administrative cost func-
tions at any of the tribal elementary or secondary educational
programs studied and determine whether the factors are of gen-
eral applicability to other such programs, and (if so) how the
factors may effectively be incorporated into such formula.
“(3) In carrying out the studies required under this subsection,
the Secretary shall obtain the input of, and afford an opportunity
to participate to, the Inspector General of the Department of the In-
terior.
“(4) Determinations described in paragraph (2)(C) shall be
based on what is pragmatically possible to do at each location stud-
ied, given prudent management practice, irrespective of whether re-
quired administrative services were actually or fully delivered at
these sites, or other services were delivered instead, during the pe-
riod of the study.
“(5) Upon completion of the studies conducted under paragraph
(1), but in no case later than October 1, 1989, the Secretary shall
submit to the Congress a report on the findings of the studies, to-
gether with determinations based upon such findings that would af-
fect the definitions of terms used in the formula that is set forth in
subsection (c).
“(6) The Secretary shall include in the Bureau’s justification for
each appropriations request for each fiscal year beginning after fis-
cal year 1989, a projection of the overall costs associated with the
formula set forth in subsection (c) for all tribal elementary or sec-
ondary educational programs which the Secretary expects to be
funded in the fiscal year for which the appropriations are sought.
“(7) For purposes of this subsection, the size of tribal elementary
or secondary educational programs is determined by the aggregate
direct cost program funding level for all Bureau funded programs
which share common administrative cost functions.
“(g)(1) There are authorized to be appropriated for each fiscal
year such sums as may be necessary to carry out this section.
“(2) If the total amount of funds necessary to provide grants to
tribes and tribal organizations in the amounts determined under
subsection (b) for a fiscal year exceeds the amount of funds appro-
priated to carry out this section for such fiscal year, the Secretary
shall reduce the amount of each grant determined under subsection
(b) for such fiscal year by an amount that bears the same relation-
ship to such excess as the amount of such grant determined under
subsection (b) bears to the total of all grants determined under sub-
section (b) for all tribes and tribal organizations for such fiscal
year.
“(h)(1) Notwithstanding any other provision of this section, the
amount of the grants provided under this section for fiscal year
1989 shall—
"(A) in lieu of being determined under subsection (b), be determined for each tribal elementary or secondary educational program on the same basis that indirect costs were determined for such programs for fiscal year 1988, and
"(B) be subject to the provisions of subsection (d).
"(2) Notwithstanding any other provision of this section, the amount of the grant provided under this section for fiscal year 1990 with respect to each tribal elementary and secondary educational program that was operated by a tribe or tribal organization in fiscal year 1989 shall be equal to—
  "(A) if the amount of the grant determined under subsection (b) for fiscal year 1990 with respect to such program exceeds the amount received by the tribe or tribal organization with respect to such program for administrative costs for fiscal year 1988 (or fiscal year 1989 if such program was not operated by the tribe or tribal organization during fiscal year 1988), the sum of—
    "(i) such amount received, plus
    "(ii) 1/3 of the excess of—
       "(I) such amount determined under subsection (b), over
    "(II) such amount received, or
  "(B) if such amount received exceeds such amount determined under subsection (b), the excess of—
    "(i) such amount received, over
    "(ii) an amount equal to 1/3 of the excess of—
       "(I) such amount determined under subsection (b), over
    "(II) such amount determined under subsection (b).
"(3) Notwithstanding any other provision of this section, the amount of the grants provided under this section for fiscal year 1991 with respect to each tribal elementary and secondary educational program that was operated by a tribe or tribal organization in fiscal year 1989 shall be equal to—
  "(A) if the amount of the grant determined under subsection (b) for fiscal year 1991 with respect to such program exceeds the amount received by the tribe or tribal organization with respect to such program for administrative costs for fiscal year 1990, the sum of—
    "(i) such amount received, plus
    "(ii) 1/2 of the excess of—
       "(I) such amount determined under subsection (b), over
    "(II) such amount received, or
  "(B) if such amount received exceeds such amount determined under subsection (b), the excess of—
    "(i) such amount received, over
    "(ii) an amount equal to 1/2 of the excess of—
       "(I) such amount determined under subsection (b), over
  "(II) such amount determined under subsection (b).
"(i) The provisions of this section shall also apply to those schools operating under the Tribally Controlled Schools Act of 1988.
"SEC. 1129. DIVISION OF BUDGET ANALYSIS.
"(a) Within 24 months of the date of enactment of the Improving America's Schools Act of 1994, the Secretary shall establish within the Office a Division of Budget Analysis (hereinafter referred to as
the 'Division'). Such Division shall be under the direct supervision and control of the Director of the Office.

"(b) The Division shall have the capacity to conduct such studies, surveys, or other activities as are necessary to gather demographic information on Bureau-funded schools (current and future) and project the amount necessary to provide Indian students in such schools the educational program set forth in this part.

"(c) The Division shall prepare projections on such amounts, along with such other information as the Director of the Office shall require, for each fiscal year beginning after October 1, 1996. The Director of the Office and the Assistant Secretary for Indian Affairs shall use such reports when preparing their annual budget submissions.

"SEC. 1130. UNIFORM DIRECT FUNDING AND SUPPORT.

"(a) Within six months after the date of enactment of the Improving America's Schools Act of 1994, the Secretary shall establish, by regulation adopted in accordance with section 1139, a system for the direct funding and support of all Bureau funded schools. Such system shall allot funds, in accordance with section 1127. All amounts appropriated for distribution under this section may be made available under paragraph (2).

"(2) For the purpose of affording adequate notice of funding available pursuant to the allotments made by section 1127, amounts appropriated in an appropriation Act for any fiscal year shall become available for obligation by the affected schools on July 1 of the fiscal year in which such amounts are appropriated without further action by the Secretary, and shall remain available for obligation through the succeeding fiscal year.

"(B) The Secretary shall, on the basis of the amount appropriated in accordance with this paragraph—

"(i) publish, on July 1 of the fiscal year for which the funds are appropriated, allotments to each affected school made under section 1127 of 85 percent of such appropriation; and

"(ii) publish, not later than September 30 of such fiscal year, the allotments to be made under section 1127 of the remaining 15 percent of such appropriation, adjusted to reflect actual student attendance.

"(3) Notwithstanding any law or regulation, the supervisor of a Bureau school may expend an aggregate of not more than $35,000 of the amount allotted the school under section 1127 to acquire supplies and equipment for the school without competitive bidding if—

"(i) the cost for any single item purchased does not exceed $10,000;

"(ii) the school board approves the procurement;

"(iii) the supervisor certifies that the cost is fair and reasonable;

"(iv) the documents relating to the procurement executed by the supervisor or other school staff cite this paragraph as authority for the procurement; and

"(v) the transaction is documented in a journal maintained at the school clearly identifying when the transaction occurred, what was acquired and from whom, the prices paid, the quantities acquired, and any other information the supervisor or school board considers relevant.
(B) The Director shall be responsible for determining the application of this paragraph, including the authorization of specific individuals to carry out this paragraph, and shall be responsible for the provision of guidelines on the use of this paragraph and adequate training on such guidelines.

(4) If a sequestration order issued under the Balanced Budget and Emergency Deficit Control Act of 1985 reduces the amount of funds available for allotment under section 1127 for any fiscal year by more than 7 percent of the amount of funds available for allotment under such section during the preceding fiscal year—

(A) the Secretary, notwithstanding any other law, may use—

(i) funds appropriated for the operation of any Bureau school that is closed or consolidated, and

(ii) funds appropriated for any program that has been curtailed at any Bureau school,

to fund allotments made under section 1127, and

(B) the Secretary may waive the application of the provisions of section 1121(h) with respect to the closure or consolidation of a school, or the curtailment of a program at a school, during such fiscal year if the funds described in clauses (i) and (ii) of subparagraph (A) with respect to such school are used to fund allotments made under section 1127 for such fiscal year.

(b) In the case of all Bureau schools, allotted funds shall be expended on the basis of local financial plans which shall be prepared by the local school supervisor in active consultation with the local school board for each school, and the local school board for each school shall have the authority to ratify, reject, or amend such financial plan, and expenditures thereunder, and, on its own determination or in response to the supervisor of the school, to revise such financial plan to meet needs not foreseen at the time of preparation of the financial plan. The supervisor shall provide the appropriate union representative of the education employees with copies of proposed draft financial plans and all amendments or modifications thereto, at the same time such copies are submitted to the local school board. The supervisor of the school may appeal any such action of the local school board to the appropriate education line officer of the Bureau agency by filing a written statement describing the action and the reasons the supervisor believes such action should be overturned. A copy of such statement shall be submitted to the local school board and such board shall be afforded an opportunity to respond, in writing, to such appeal. After reviewing such written appeal and response, the appropriate education line officer may, for good cause, overturn the action of the local school board. The appropriate line education officer shall transmit the determination of such appeal in the form of a written opinion to such board and to such supervisor identifying the reasons for overturning such action.

(c) Funds for self-determination grants under section 103(a)(2) of the Indian Self-Determination and Education Assistance Act shall not be used for providing technical assistance and training in the field of education by the Bureau unless such services are provided in accordance with a plan, agreed to by the tribe or tribes affected and the Bureau, under which control of education programs is intended to be transferred to such tribe or tribes within a specific
period of time negotiated under such agreement. The Secretary may approve applications for funding tribal divisions of education and the development of tribal codes of education from funds appropriated pursuant to section 104(a) of such Act.

"(d) In the exercise of its authority under this section, a local school board may request technical assistance and training from the Secretary, and the Secretary shall, to the greatest extent possible, provide such services, and make appropriate provisions in the budget of the Office for such services.

"(e)(1) A financial plan under subsection (b) for a school may include, at the discretion of the local administrator and the school board of such school, a provision for a summer program of academic and support services for students of the school. Any such program may include activities related to the prevention of alcohol and substance abuse. The Assistant Secretary of Indian Affairs shall provide for the utilization of any such school facility during any summer in which such utilization is requested.

"(2) Notwithstanding any other provision of law, funds authorized under the Act of April 16, 1934 (25 U.S.C. 452 et seq.) and this Act may be used to augment the services provided in each summer program at the option, and under the control, of the tribe or Indian controlled school receiving such funds.

"(3) The Assistant Secretary of Indian Affairs, acting through the Director of the Office, shall provide technical assistance and coordination for any program described in paragraph (1) and shall, to the extent possible, encourage the coordination of such programs with any other summer programs that might benefit Indian youth, regardless of the funding source or administrative entity of any such program.

"(f)(1) From funds allotted to a Bureau school under section 1127, the Secretary shall, if specifically requested by the tribal governing body (within the meaning of section 1121(k)), implement any cooperative agreement entered into between the tribe, the Bureau school board, and the local public school district which meets the requirements of paragraph (2) and involves the tribe, the Bureau school board, and the local public school district shall determine the terms of the agreement. Such agreement may encompass coordination of all or any part of the following:

"(A) Academic program and curriculum, unless the Bureau school is currently accredited by a State or regional accrediting entity and would not continue to be so accredited.

"(B) Support services, including procurement and facilities maintenance.

"(C) Transportation.

"(2) Each agreement entered into pursuant to the authority provided in paragraph (1) shall confer a benefit upon the Bureau school commensurate with the burden assumed, though this requirement shall not be construed so as to require equal expenditures or an exchange of similar services.

"(g) Notwithstanding any other provision of law, where there is agreement on action between the superintendent and the school board of a Bureau funded school, the product or result of a project conducted in whole or in major part by a student may be given to that student upon the completion of such project.
"(h) Notwithstanding any other provision of law, funds received by a Bureau funded school under this title shall not be considered Federal funds for purposes of meeting a matching funds requirement in any Federal program.

"SEC. 1131. POLICY FOR INDIAN CONTROL OF INDIAN EDUCATION.

"(a) It shall be the policy of the Secretary and the Bureau, in carrying out the functions of the Bureau, to facilitate Indian control of Indian affairs in all matters relating to education.

"(b)(1) All actions under this Act shall be done with active consultation with tribes.

"(2) The consultation required under paragraph (1) means a process involving the open discussion and joint deliberation of all options with respect to potential issues or changes between the Bureau and all interested parties. During such discussions and joint deliberations, interested parties (including tribes and school officials) shall be given an opportunity to present issues including proposals regarding changes in current practices or programs which will be considered for future action by the Bureau. All interested parties shall be given an opportunity to participate and discuss the options presented or to present other alternatives, with the views and concerns of the interested parties given effect unless the Secretary determines, from information educed or presented by the interested parties during 1 or more of the discussions and deliberations, that there is a substantial reason for another course of action. The Secretary shall submit to any Member of Congress, within 18 days of the receipt of a written request by such Member, a written explanation of any decision made by the Secretary which is not consistent with the views of the interested parties.

"SEC. 1132. EDUCATION PERSONNEL.

"(a)(1) Chapter 51, subchapter III of chapter 53, and chapter 63 of title 5, United States Code, relating to classification, pay, and leave, respectively, and the sections of such title relating to the appointment, promotion, and removal of civil service employees, shall not apply to educators or to education positions (as defined in subsection (n)).

"(2) Paragraph (1) shall take effect 1 year after the date of enactment of this Act.

"(b) Not later than the effective date of subsection (a)(2), the Secretary shall prescribe regulations to carry out this section. Such regulations shall govern—

"(1) the establishment of education positions,
"(2) the establishment of qualifications for educators,
"(3) the fixing of basic compensation for educators and education positions,
"(4) the appointment of educators,
"(5) the discharge of educators,
"(6) the entitlement of educators to compensation,
"(7) the payment of compensation to educators,
"(8) the conditions of employment of educators,
"(9) the length of the school year applicable to education positions described in subsection (n)(1)(A),
"(10) the leave system for educators, and
"(11) such other matters as may be appropriate.
"(c)(1) In prescribing regulations to govern the qualifications of educators, the Secretary shall require—

"(A)(i) that lists of qualified and interviewed applicants for education positions be maintained in each agency and area office of the Bureau from among individuals who have applied at the agency or area level for an education position or who have applied at the national level and have indicated in such application an interest in working in certain areas or agencies; and

"(ii) that a list of qualified and interviewed applicants for education positions be maintained in the Office from among individuals who have applied at the national level for an education position and who have expressed interest in working in an education position anywhere in the United States;

"(B) that a local school board shall have the authority to waive on a case-by-case basis, any formal education or degree qualifications established by regulation pursuant to subsection (b)(2), in order for a tribal member to be hired in an education position to teach courses on tribal culture and language and that subject to subsection (d)(2)(A), a determination by a school board that such a person be hired shall be followed by the supervisor; and

"(C) that it shall not be a prerequisite to the employment of an individual in an education position at the local level that such individual's name appear on the national list maintained pursuant to paragraph (1)(A)(ii) or that such individual has applied at the national level for an education position.

"(2) The Secretary may authorize the temporary employment in an education position of an individual who has not met the certification standards established pursuant to regulations, if the Secretary determines that failure to do so would result in that position remaining vacant.

"(d)(1) In prescribing regulations to govern the appointment of educators, the Secretary shall require—

"(A)(i) that educators employed in a school (other than the supervisor of the school) shall be hired by the supervisor of the school unless there are no qualified applicants available, in which case the vacant position shall be filed at the national level from the list maintained pursuant to subsection (c)(1)(A)(ii);

"(ii) each school supervisor shall be hired by the education line officer of the agency office of the Bureau in which the school is located, and

"(iii) educators employed in an agency office of the Bureau shall be hired by the superintendent for education of the agency office;

"(B) that before an individual is employed in an education position in a school by the supervisor of a school (or, with respect to the position of supervisor, by the appropriate agency education line officer), the local school board for the school shall be consulted, and that subject to paragraph (2), a determination by the school board that such individual should or should not be so employed shall be followed by the supervisor (or with respect to the position of supervisor, by the agency superintendent for education); and
"(C) that before an individual may be employed in an education position at the agency level, the appropriate agency school board shall be consulted, and that, subject to paragraph (3), a determination by such school board that such individual should or should not be employed shall be followed by the agency superintendent for education.

"(2)(A) The supervisor of a school may appeal to the appropriate agency education line officer any determination by the local school board for the school that an individual be employed, or not be employed, in an education position in the school (other than that of supervisor) by filing a written statement describing the determination and the reasons the supervisor believes such determination should be overturned. A copy of such statement shall be submitted to the local school board and such board shall be afforded an opportunity to respond, in writing, to such appeal. After reviewing such written appeal and response, the education line officer may, for good cause, overturn the determination of the local school board. The education line officer shall transmit the determination of such appeal in the form of a written opinion to such board and to such supervisor identifying the reasons for overturning such determination.

"(B) The education line officer of an agency office of the Bureau may appeal to the Director of the Office any determination by the local school board for the school that an individual be employed, or not be employed, as the supervisor of a school by filing a written statement describing the determination and the reasons the supervisor believes such determination should be overturned. A copy of such statement shall be submitted to the local school board and such board shall be afforded an opportunity to respond, in writing, to such appeal. After reviewing such written appeal and response, the Director may, for good cause, overturn the determination of the local school board. The Director shall transmit the determination of such appeal in the form of a written opinion to such board and to such education line officer identifying the reasons for overturning such determination.

"(3) The education line officer of an agency office of the Bureau may appeal to the Director of the Office any determination by the agency school board that an individual be employed, or not be employed, in an education position in such agency office by filing a written statement describing the determination and the reasons the supervisor believes such determination should be overturned. A copy of such statement shall be submitted to the agency school board and such board shall be afforded an opportunity to respond, in writing, to such appeal. After reviewing such written appeal and response, the Director may, for good cause, overturn the determination of the agency school board. The Director shall transmit the determination of such appeal in the form of a written opinion to such board and to such education line officer identifying the reasons for overturning such determination.

"(4) Any individual who applies at the local level for an education position shall state on such individual's application whether or not such individual has applied at the national level for an education position in the Bureau. If such individual is employed at the local level, such individual's name shall immediately be forwarded to the Secretary, who shall, as soon as possible but in no event in
more than 30 days, ascertain the accuracy of the statement made by such individual pursuant to the first sentence of this paragraph. If the individual's statement is found to have been false, such individual, at the Secretary's discretion, may be disciplined or discharged. If the individual had applied at the national level for an education position in the Bureau, the appointment of such individual at the local level shall be conditional for a period of 90 days, during which period the Secretary may appoint a more qualified individual (as determined by the Secretary) from the list maintained at the national level pursuant to subsection (c)(1)(A)(ii) to the position to which such individual was appointed.

"(5) Except as expressly provided, nothing in this section shall be construed as conferring upon local school boards, authority over, or control of, educators.

"(e)(1) In prescribing regulations to govern the discharge and conditions of employment of educators, the Secretary shall require—

"(A) that procedures be established for the rapid and equitable resolution of grievances of educators;

"(B) that no educator may be discharged without notice of the reasons therefore and opportunity for a hearing under procedures that comport with the requirements of due process; and

"(C) educators employed in Bureau schools shall be notified 60 days prior to the end of the school year whether their employment contract will be renewed for the following year.

"(2) The supervisor of a Bureau school may discharge (subject to procedures established under paragraph (1)(B) for cause (as determined under regulations prescribed by the Secretary) any educator employed in such school. Upon giving notice of proposed discharge to an educator, the supervisor involved shall immediately notify the local school board for the school of such action. A determination by the local school board that such educator shall not be discharged shall be followed by the supervisor. The supervisor shall have the right to appeal such action to the education line officer of the appropriate agency office of the Bureau. Upon such an appeal, the agency education line officer may, for good cause and in writing to the local school board, overturn the determination of the local school board with respect to the employment of such individual.

"(3) Each local school board for a Bureau school shall have the right

"(A) to recommend to the supervisor of such school that an educator employed in the school be discharged; and

"(2) For purposes of this subsection, the term 'tribal organization' means—

"(A) the recognized governing body of any Indian tribe, band, nation, pueblo, or other organized community, including a Native village (as defined in section 3(c) of the Alaska Native Claims Settlement Act (43 U.S.C. 1602(c); 85 Stat. 688)); or

"(B) By not later than October 28, 1988, the Secretary shall establish, for contracts for the 1991-1992 academic year, and thereafter, the rates of basic compensation, or annual salary rates, for the positions of teachers and counselors (including dormitory counselors and home-living counselors) at the rates of basic compensation applicable (on the date of enactment of such Amendments and thereafter) to comparable positions in overseas schools under the Defense Department Overseas Teachers Pay and Personnel Practices Act, unless the Secretary establishes such rates within such 6-month period through collective bargaining with the appropriate union representative of the education employees that is recognized by the Bureau.

"(D) The establishment of rates of basic compensation and annual salary rates by the Secretary under subparagraphs (B) and (C) shall not preclude the use of regulations and procedures used by the Bureau before the enactment of the Indian Education Amendments of 1988 in making determinations regarding promotions and advancements through levels of pay that are based on the merit, education, experience, or tenure of the educator.

"(E)(i) Except as provided in clause (ii), the establishment of rates of basic compensation and annual salary rates by the Secretary under subparagraphs (B) and (C) shall not affect the continued employment or compensation of an educator who was employed in an education position on October 31, 1979, and who did not make the election under paragraph (2) of subsection (o).

"(ii) Any individual described in clause (i) may, during the 5-year period beginning on the date on which the Secretary establishes rates of basic compensation and annual salary rates under subparagraph (B), make an irrevocable election to have the basic compensation rate or annual salary rate of such individual determined in accordance with this paragraph.

"(iii) If an individual makes the election described in clause (ii), such election shall not affect the application to the individual of the same retirement system and leave system that applies to the individual during the fiscal year preceding the fiscal year in which such election is made, except that the individual must use leave accrued during a contract period by the end of that contract period.

"(3)(A) The Secretary may pay a postdifferential not to exceed 25 percent of the rate of basic compensation, on the basis of conditions of environment or work which warrant additional pay as a recruitment and retention incentive.

"(B)(i) Upon the request of the supervisor and the local school board of a Bureau school, the Secretary shall grant the supervisor of the school authorization to provide 1 or more post differentials under subparagraph (A) unless the Secretary determines for clear and convincing reasons (and advises the board in writing of those reasons) that certain of the requested post differentials should be
disapproved or decreased because there is no disparity of compensation for the involved employees or positions in the Bureau school, as compared with the nearest public school, that is either—

"(I) at least 5 percent, or

"(II) less than 5 percent and affects the recruitment or retention of employees at the school.

"(ii) The request under clause (i) shall be deemed granted as requested at the end of the 60th day after the request is received in the Central Office of the Bureau unless before that time the request is approved, approved with modification, or disapproved by the Secretary.

(3) proven methods of stimulating these community efforts can be promoted through Federal support for the establishment of area program centers to organize and challenge community efforts to develop educational incentives and support for local students; and

PART D—WORKERS TECHNOLOGY SKILL DEVELOPMENT

SEC. 541. SHORT TITLE.
This part may be cited as the "Workers Technology Skill Development Act".

SEC. 542. FINDINGS.
The Congress finds and declares the following:
In an increasingly competitive world economy, the companies and nations that lead in the rapid development, commercialization, and application of new and advanced technologies, and in the high-quality, competitively priced production of goods and services, will lead in economic growth, employment, and high living standards.

While the United States remains the world leader in science and invention, it has not done well in rapidly making the transition from achievement in its research laboratories to high-quality, competitively priced production of goods and services. This lag and the unprecedented competitive challenge that the United States has faced from abroad have contributed to a drop in real wages and living standards.

Companies that are successfully competitive in the rapid development, commercialization, application, and implementation of advanced technologies, and in the successful delivery of goods and services, recognize that worker participation and labor-management cooperation in the deployment, application, and implementation of advanced workplace technologies make an important contribution to high-quality, competitively priced production of goods and services and in maintaining and improving real wages for workers.

The Federal Government has an important role in encouraging and augmenting private sector efforts relating to the development, application, manufacture, and deployment of new and advanced technologies. The role should be to—

(A) work with private companies, States, worker organizations, nonprofit organizations, and institutions of higher education to ensure the development, application, production, and implementation of new and advanced technologies to promote the improvement of workers' skills, wages, job security, and working conditions, and a healthy environment;

(B) encourage worker and worker organization participation in the development, commercialization, evaluation, selection, application, and implementation of new and advanced technologies in the workplace; and

(C) promote the use and integration of new and advanced technologies in the workplace that enhance workers' skills.

In working with the private sector to promote the technological leadership and economic growth of the United States, the Federal Government has a responsibility to ensure that Federal technology programs help the United States to remain competitive and to maintain and improve living standards and to create and retain secure jobs in economically stable communities.

The purposes of this part are to—

(1) improve the ability of workers and worker organizations to recognize, develop, assess, and improve strategies for successfully integrating workers and worker organizations into the process of evaluating, selecting, and implementing advanced workplace technologies, and advanced workplace practices in a
manner that creates and maintains stable well-paying jobs for workers; and
(2) assist workers and worker organizations in developing the expertise necessary for effective participation with employers in the development of strategies and programs for the successful evaluation, selection, and implementation of advanced workplace technologies and advanced workplace practices through the provision of a range of education, training, and related services.

SEC. 544. DEFINITIONS.

The Senate recedes with an amendment to insert "providing additional needed assistance to" after the words "of carrying", striking from "$30,000" to the end of the sentence and replacing it with "such sums for FY 1996–1999." It is the conferees' intent that states have the authority to reserve .5% of their state's Title I appropriation as provided for in the state administration section of this bill at the end of Title I. However, the conferees want to ensure that there are sufficient funds to carry out the program improvement requirements in this Act and are unsure whether .5% of a state's Title I funds will be adequate during the entire reauthorization period. The House bill provides that the state plan demonstrate that the State has developed or adopted a set of high-quality, yearly student assessments; the Senate amendment provides that the state plan include a description of such assessments including at least mathematics, and reading or language arts and has a paragraph heading.

The Senate recedes.

96. The House bill says that assessments be used for purposes for which they are valid and reliable and be consistent with nationally recognized standards; the Senate amendment has a similar provision but also says that assessment measures that are not valid and reliable or that do not meet nationally recognized standards for assessments may be used as one of the multiple measures (See note 89).

The House recedes with an amendment incorporating the term "up-to-date".

99. The House bill provides that limited-English proficient students be included in assessments and describes how such students shall be assessed; the Senate amendment says that the assessments provide for the participation of all students with diverse learning needs and the adaptations necessary to permit such participation.

The House recedes with amendments striking "with diverse learning needs: in (i), modifying (ii) to read "the reasonable adaptations and accommodations for students with diverse learning needs to measure the achievement of such students relative to the state
student content standards;" and adding a new (iii) incorporating
the language from the House bill concerning limited-English prof-
cient students.

100. The House bill provides that assessments include students
who have resided in the local educational agency for a full aca-
demic year but have not attended a single school for a full year and
specifies that the scores of such students may only be used to de-
terminate the progress of the local educational agency; the Senate
amendment contains similar language with the additional provision
that student scores shall be used only in determining the progress
of the local educational agency unless the states determine oth-
erwise.

The Senate recedes.

101. The House bill provides in that students with disabilities
be included in assessments, describes how such students be as-
essed, and exempts students with severe cognitive impairments
who permanently lack the capacity to make any educational
progress from the assessment process; the Senate amendment in
subparagraph (D) says assessments must provide for the participa-
tion of all students with diverse learning needs and the adapta-
tions and accommodations to permit such participation.

The House recedes.

102. The House bill provides that assessments provide
individual student scores; the Senate amendment provides that assess-
ments provide individual student interpretative and descriptive re-
ports, which may include scores and other information on the at-
tainment of student performance standards.

The House recedes with amendments changing "may" to "shall"
and "and" to "or".

The Conferees believe that it is critical that all students includ-
ing those with disabilities participate in assessments. The Bill in-
cludes provisions for the participation of all students with diverse
learning needs and the adaptations and accommodations necessary
to permit such participation. The Conferees emphasize the impor-
tance of these provisions because of evidence of considerable exclu-
sion of students with disabilities from national and state data col-
collection programs. It is currently estimated that the National
Assessment of Educational Progress excludes 50% of students with
disabilities.

Based on evidence from states such as Kentucky, Maryland,
and others the Conferees believe that all children can participate
in assessment efforts. Most students (over 98% in Kentucky's expe-
rience) will be able to participate in the regular assessment pro-
vided to non-disabled children with accommodations such as ex-
tended time limits, use of large print or braille versions of assess-
ments, or use of a reader, scribe, sign language interpreter, or tech-
nology. The remainder may need adaptations to participate such as
the use of information provided by an individual who has extensive
knowledge of the student's performance or portfolio assessments
which permit students to demonstrate their educational prof-
ficiency.

The Conferees also believe that the IEP, required by Part B of
IDEA, serves as an excellent source for identifying the necessary
adaptations and accommodations for students with disabilities to
fully participate in assessments. The supports provided in the instructional environment will also serve the student in the assessment process and will help provide valid information on student progress and achievement.

Further, in respect to content and performance standards, the Conferences believe that high expectations are needed for all students including children with disabilities. However, the Conferences believe that a range of individual performance will result even when students achieve the high expectations that are set for them.

Therefore, the Bill acknowledges the need to recognize these functional differences, yet maintain high expectations. The IEP, required by Part B of IDEA, provides one mechanism for establishing goals and objectives that are individually determined, represent high expectations and that acknowledge a student's unique learning characteristics and current level of performance.

103. The House bill specifies that assessments provide for disaggregated results within each state, local educational agency, and school of students by gender, racial and ethnic group, by English proficiency, and by economic disadvantage compared to those who are not economically disadvantaged; the Senate amendment specifies that assessments provide statistically reliable results for economically disadvantaged children disaggregated by gender, racial and ethnic group, "limited-English proficient children, children with disabilities, migratory children, and other educational meaningful categories of children."

108. The House bill, but not the Senate amendment, says that if a state has content and performance standards and an aligned
set of assessments for all students developed under Goals 2000 or another process, the state shall use those standards, modified if necessary. The Senate has the identical provision—see note 89.

The House recedes.

109. The House bill, says that if a state does not have challenging performance standards after 2 years, or assessments that meet the requirements of paragraph (3) after 3 years, the state shall adopt a set of standards and assessments contained in other state plans the Secretary has approved and may propose an interim set of yearly statewide assessments; the Senate amendment contains a similar provision with a paragraph heading and with the additional requirements that: allow State's to use for a period of not more than two years transitional assessments including at least mathematics, and reading or language arts, in one grade in each school may be proposed for 2 years.

The House recedes with amendments redrafting the provision to provide that states that do not have assessments that meet the requirements of paragraph (3) shall have 3 years to develop such assessments and 1 year to field test them.

113. The House bill provides that for any year during which a state is using an interim assessment system, the State shall devise a means for identifying schools and local educational agencies in need of improvement; the Senate amendment contains a similar provision using the term "transitional assessments" except that a state is to devise a "procedure" for identifying local educational agencies and schools in need of program improvement (different section references) that is to rely on accurate information about the academic progress of each such local educational agency and school.

The House recedes. The Managers intend that a State is to devise a procedure for identifying local educational agencies and
schools in need of program improvement that relies on accurate information about the academic progress of each local educational agency and school that includes information from at least one transitional assessment that yields consistent results that accurately reflect what the assessments system was designed to measure.

114. The House bill provides that the state plan describe the means by which the State educational agency will work with other agencies, including educational service agencies or other local consortia to provide technical assistance to local educational agencies and schools and to carry out the State educational agency's responsibilities under this part including assistance in providing high quality professional development; the Senate amendment provides that the state plan “contain assurances” that the State will implement a system of school support teams including the provision of necessary professional development for such teams.

The House recedes with an amendment combining the provisions and inserting “technical” before “assistance” and deleting “high quality” before “professional development” in the House language.

115. The House bill, but not the Senate amendment, provides that states should consider providing technical assistance and professional development through educational service agencies, where they exist, and through cooperative agreements such as a consortia of local educational agencies where educational service agencies do not exist.

The House recedes.
120. The House bill, but not the Senate amendment, says the state plan is to describe how the Committee of Practitioners was involved in the development and will be involved in monitoring the implementation of the state plan.

177. The House bill requires that LEAs use funds received under this part “only in school attendance areas with high concentrations of children from low-income families, hereafter in this section referred to as eligible school attendance areas”; the Senate amendment requires that LEAs use funds under this part “only in eligible school attendance areas”.

The Senate recedes.

178. The Senate amendment, but not the House bill, includes a paragraph heading entitled “Eligible School Attendance Areas”.

Legislative counsel.

179. The House bill refers to “school attendance area”; the Senate amendment refers to “the term ‘school attendance area’”.

Legislative counsel.

180. The House bill refers to “served by such school reside”; the Senate amendment refers to “served by that school reside”.

Legislative counsel.

181. The House bill refers to “eligible school attendance area”; the Senate amendment refers to “the term ‘eligible school attendance area’”.

Legislative counsel.

182. The House bill defines eligible school attendance area to mean a school attendance area in which the percentage of children from low income families is at least as high as the percentage of
children from low income families in the LEA as a whole; the Senate amendment, in defining eligible school attendance area, encompasses the House bill's definition and further defines the term to mean a school attendance area in which the percentage of children from low income families is equal to or greater than the percentage of children served by the LEA as a whole or who are eligible to participate in a schoolwide program.

The Senate recedes.

183. The Senate amendment, but not the House bill, includes a paragraph heading entitled “Serving Schools in Rank Order”.

Legislative counsel.

184. The House bill requires, that if funds allocated in accordance with the allocations subsection are insufficient to serve all eligible school attendance areas, then a LEA must annually rank, from highest to lowest according to the percentage of children from low-income families, and without regard to grade spans, its eligible school attendance areas in which the concentration of children from low-income families exceeds 75%, and then the LEA must serve such eligible school attendance areas in rank order; the Senate amendment requires that each LEA receiving part A assistance first serve in rank order schools in which the concentrations of children from low-income families is 75% or greater.

The Senate recedes.

185. The House bill requires that, if funds remain after serving all eligible school attendance areas within which the concentration of children from low-income families exceed 75%, then the LEA must annually rank its remaining eligible school attendance areas from highest to lowest either by grade span or for the entire LEA according to the percentage of children from low-income families, and then serve such eligible school attendance areas in rank order either by grade-span or within the LEA as a whole; the Senate amendment requires that, after the LEA first serves, in rank order, the eligible school attendance areas in which the concentrations of children from low-income families is 75% or greater, the LEA then serve, in rank order, schools in which the concentration of children from low-income families is at least 50% and less than 75%, with rank order determined, at the discretion of the LEA, according to grade span or school, and finally serve in rank order schools in which the concentration of children from low-income families is below 50%, with rank order determined according to grade span or by school.

Open.

186. The House bill requires that the LEA shall use as the measure of poverty, with respect to all school attendance areas in the LEA, either (1) the number of children ages 5 to 17 in the poverty count of the most recent census data approved by the Secretary, (2) the number of children eligible for free and reduced price lunches under the National School Lunch Act, (3) the number of children in families receiving assistance under AFDC, or (4) the number of children eligible to receive medical assistance under the Medicaid program, or (5) a composite of the above poverty indicators; the Senate amendment requires that the LEA shall use the same measure of low-income, with respect to all school attendance areas in the LEA, which the LEA shall choose on the basis of the
best available verifiable data and which may be a composite of several indicators.

The Senate recedes with an amendment inserting "the same measure of low income, which measures shall be" before "the number".

137. The House bill refers to "each area"; the Senate amendment refers to "each such area".

Legislative counsel.

188. The House bill does not apply the ranking and poverty indicator provisions to LEAs with a total enrollment of less than 1,000 students; the Senate amendment does not apply the ranking and poverty indicator provisions nor the allocation requirements to LEAs with a total enrollment of less than 1,000 students but requires that such LEAs serve school attendance areas or schools in rank order according to grade span or school on the basis of the total number of children from low-income families in the grade levels served.

The Senate recedes but the conferees note that the House exemption affects 45% of all school districts. The conferees are concerned that this exemption could result in some rural states, made up almost entirely of school districts with enrollments of less than 1,000 children, not achieving the level of targeting that the conferees intend. However, the conferees also recognize that the Senate language might be difficult to administer or be too inflexible for some small districts to serve the neediest students. Thus, it is the conferees’ intent that the Secretary should work with and encourage such districts that receive Title I, Part A funds to target their funds to the neediest schools and students in ways appropriate for smaller districts.

185. The Senate amendment, but not the House bill, does not apply the ranking and poverty indicator provisions nor the allocation requirements to a school participating in a desegregation program where the number of economically disadvantaged children served by the school is equal to or greater than 100 or equal to or greater than 25% of the school’s total enrollment.

The House recedes with an amendment giving the Secretary of Education the authority to grant a waiver.

While the House recedes with an amendment giving the Secretary the authority to grant a waiver from the requirement to serve schools in rank order for local educational agencies undergoing desegregation plans, the conferees take particular note of the unique situation of the Omaha, Nebraska School District and the particular need for a waiver under the authority given the Secretary in this legislation. While the waiver authority is permissive, the conferees, in light of the unique circumstances brought to their attention, intend that the Secretary of Education shall grant such a waiver to the Omaha School District.

190. The Senate amendment, but not the House bill, includes a special rule which states that the per pupil amount of funds allocated to each school or school attendance area which falls under the Senate exceptions, above, shall be at least 65% of the per pupil amount of funds the LEA received for that year under the poverty criterion described in the LEA plan, except that this shall not apply to a LEA that only serves schools in which at least 50% of
children enrolled are from low income families, but allows a LEA to reduce the amount of funds allocated by the amount of any supplemental State and local funds expended in the attendance area or school for programs that meet the schoolwide program or targeted assistance school requirements of this part.

The Senate recedes.

191. The House bill, but not the Senate amendment, allows LEAs to designate as eligible any school attendance area or school in which at least 50% of the children are from low-income families.

The Senate recedes.

The Senate recedes with an amendment making schoolwide eligibility 60 percent for the school year 1995-96 and 50 percent for school year 1996-97 and thereafter.

212. The House bill, but not the Senate amendment, requires that an LEA can only start new schoolwide programs after the SEA provides written information to the LEA that demonstrates that the State has established the statewide system of support and improvement that is required by this title and if the State describes how it has the capability to provide on-site assistance (if necessary) to each eligible school.

Professional Development

443. The House bill requires, in a separate section, LEAs receiving Title I assistance to provide high-quality professional development that will improve the teaching of the core academic subjects to enable all children to meet the State's performance standards, and requires that the professional development activities be designed by teachers and other school staff in Title I schools; the Senate amendment requires schools receiving assistance to set aside 10% of their Title I funds for professional development (see notes 219 and 307) and (1) requires, under the schoolwide program section, schoolwide schools to provide ongoing professional development for teachers, pupil services personnel, parents, principals, and other staff to enable all children in the school to meet the State performance standards, and requires that the activities be jointly developed by the principals, teachers, and other school staff of each school, and (2) requires, under the targeted assistance program section, that targeted assistance schools provide opportunities for ongoing professional development to the extent the school determines feasible with Title I resources and other resources for administrators, teachers, and other school staff who work with participating children in targeted assistance programs or in the regular education program. (See notes 235 and 291).

486. While both bills have the same provisions regarding maintenance of fiscal effort in general, the House bill also requires maintenance of such effort specifically with respect to professional development activities.
487. The Senate amendment, but not the House bill, includes a paragraph heading entitled "In General".
Legislative counsel.

488. The Senate amendment, but not the House bill, includes a paragraph heading entitled "Special Rule".

493. The House bill establishes new tests to determine whether local educational agencies meet the comparability of services requirement. Expenditures per pupil from State and local funds, and "basic" instructional salaries (excluding salary differentials based on years of employment) must be at least as high in schools participating in title I as for nonparticipating schools. The Senate bill contains comparability tests similar to those of current law.

494. Both bills allow for exclusion of unpredictable changes in enrollment or personnel assignments occurring after the beginning of a school year in applying comparability standards. The Senate bill also states that such changes shall not be included in comparability determinations.

Legislative counsel.

496. Explanatory Note: Both bills have similar language requiring local educational agencies to establish procedures and maintain records as necessary for comparability determinations, excluding local educational agencies with only 1 school per grade span, and allowing for exclusion of State and local funds for bilingual education and the excess costs of serving children with disabilities.

Grants for the Outlying Areas and the Secretary of the Interior

501. Both bills provide for the reservation of 1% of title I, part A funds for grants to outlying areas plus the Department of the Interior (for Native American pupils).

Legislative counsel.

502. The Senate amendment, but not the House bill, includes a paragraph heading entitled "In General".

Legislative counsel.

503. The Senate amendment, but not the House bill, provides that all funds reserved for the outlying areas (including the Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and—until adoption of its Compact of Free Association—Palau) be distributed in accordance with a competition conducted by the Pacific Regional Educational Laboratory in Hawaii. Five percent of the total amount reserved for the outlying areas may be used to pay the Laboratory's administrative costs. Currently, the Secretary of Education determines the distribution of funds among the outlying areas, except for a portion of these funds (equal to the share allocated in FY 1989 to the Federated States of Micronesia and the Republic of the Marshall Islands) that is distributed through a competition conducted by the Pacific Regional Educational Laboratory.

The House recedes with an amendment that allows the Freely Associated State to be eligible to compete for competitive grants under Title I, authorizes $5 million as a block grant to PREL for the Freely Associated States to compete for these funds, and allows the Freely Associated States to compete for all discretionary grants under this Act.

Allocations to States

504. The House bill provides that an annual share of title I, part A appropriations equal to the FY 1994 amount be allocated according to the basic and concentration grant formulas (sec. 1124 and 1124A). Any additional appropriations will be allocated under the new, targeted grants formula (sec. 1125).

The Senate recedes with an amendment that provides that in Fiscal Year 1995, Title I funds will be distributed under the same formula as in current law. In Fiscal Year 1996, funds would be distributed under a modified form of the House formula. Appropriations equal to the Fiscal Year 1995 level would be distributed under current law, except that local educational agencies with 2 percent poverty or less would receive no funds. Funds in excess of the Fiscal Year 1995 level would be distributed under a new targeted, weighted formula. Where poor children living in high concentrations of poverty receive more funds, a local educational agency with poverty rates of 5 percent would receive no funds.

A small state minimum that is a compromise between the House and Senate provisions applies to both parts of the formula.
and to the formula for distributing Fiscal Year 1995 funds. Additionally, the formula provides for the use of updated poverty estimates prepared by the Bureau of the Census. Poverty estimates would be updated in Fiscal Year 1997 (school year 1997–98) for counties, and updated in Fiscal Year 1999 for local educational agencies.

The conference agreement also includes a separate authorization of $200 million to provide additional funds to improve Title I schools that distributes funds to all states based on a measure of their effort and equity.

505. If appropriations are insufficient to pay the full authorized amounts for part A, then grants will be ratably reduced to the level of available appropriations. However, no local educational agency is to receive less than 85% of its previous year grant (if any) under the basic and targeted grant formulas. There is no hold harmless for concentration grants.

The Senate recedes with an amendment on all of the notes concerning the title I formula (notes 504–557).

Basic Grants to Local Educational Agencies

505. Except for Puerto Rico, the maximum basic grant for a local educational agency is equal to the number of poor and other children counted in the formula multiplied by 40% of the State average expenditure per pupil, with bounds of 80% and 120% of the national average applied to the latter.

507. While all basic grants will be calculated by the U.S. Department of Education using data on poor school age children compiled by the Census Bureau, the House bill authorizes State education agencies to use alternative population data (i.e., other than the data on poor school age children compiled by the Census Bureau) to allocate basic grants among the State’s smaller local educational agencies only (those serving areas with a total population of 20,000 or fewer persons). Local educational agencies dissatisfied with such determinations by their State education agency may appeal them to the U.S. Secretary of Education.

508. In cases where the Census Bureau has not compiled data on poor school age children for local educational agencies (applies at this point to 8 counties in California), basic grants will be calculated by the U.S. Department of Education by county, with the State education agency responsible for suballocation to local educational agencies in such counties.

509. The basic grant to Puerto Rico is calculated in the same manner as those for local educational agencies in the 50 States plus the District of Columbia, except that the minimum expenditure factor for the States plus D.C. (.4 times 80% of the national average expenditure per pupil) is further multiplied by the ratio of the Puerto Rico average expenditure per pupil divided by the lowest average expenditure per pupil for any of the States plus D.C.

510. In order to be eligible for a basic grant, a local educational agency must have at least 10 poor and other children counted in the formula.

511. The children to be counted for basic grants under the House bill include children aged 5–17 years: (a) in poor families; (b) in families receiving Aid to Families with Dependent Children.
(AFDC) payments above the poverty level for a family of 4; plus (c) in institutions for the neglected and delinquent, in foster homes, or attending community day programs, and who are not counted for State agency grants for the neglected and delinquent (title I, part D, subpart 3). Except for those in community day programs, these are the same groups of children counted under current law.

512. In making basic grants, the Secretary will use data on the number of school age children in poor families compiled for local educational agencies by the Census Bureau. In cases where such data have not been compiled for local educational agencies, the Secretary will use county aggregate data.

513. In cases where 2 or more counties are completely contained within 1 local education agency (e.g., New York City, Hawaii, and possibly Williamsburg/James City county in Virginia), then each county portion of the local educational agency will be treated as if it were a separate local educational agency for the calculation of basic grants.

514. If data on the number of poor school age children have been updated by the Census Bureau for local educational agencies, then the updated data must be used by the Secretary of Education to calculate basic grants.

515. Data on children in families receiving Aid to Families with Dependent Children payments above the poverty income level for a family of 4 will be obtained annually for local educational agencies from the Department of Health and Human Services.

516. The Census Bureau shall prepare special updates of the number of children in poor families for local educational agencies when requested by the Secretary of Education.

517. In general, the minimum basic grant for all local educational agencies is the lesser of: (a) 0.25% of total grants; (b) 150% of the State’s previous year basic grant; or (c) 150% of the national average basic grant per child counted in the basic grant formula in the previous year, multiplied by the State’s total number of such children for that year. In addition, for fiscal years 1995 and 1996 only, no State may be reduced below the level of its FY 1993 basic grant as a result of applying the caps in (b) and (c) of the preceding sentence.

Concentration Grants to Local Educational Agencies

518. Local educational agencies are eligible for concentration grants under the House bill if their number of children counted for basic grants in the previous fiscal year exceeds either: (a) 6,500 such children; or (b) 15% of their total school age population. Concentration grant eligibility is limited to the 50 States plus the District of Columbia.

519. The State minimum concentration grant is the lesser of: (a) 0.25% of total grants; (b) 150% of the State’s previous year concentration grant; or (c) 150% of the national average concentration grant per child counted for such grants for the year for which grants are being calculated, multiplied by the State’s total number of children counted for concentration grants in that year. There is also an “absolute” minimum State concentration grant of $250,000. (This has been increased to $340,000 under appropriations legislation of recent years.)

633
520. The number of children counted in allocating concentration grants is the total number counted for basic grants in the preceding fiscal year if a local educational agency meets the 15% criterion of eligibility, but only the number counted for basic grants in excess of 6,500 children if only the 6,500 criterion is met. This number of children is multiplied by an expenditure factor of the local educational agency's maximum basic grant for the same (not previous) year, divided by its number of children counted for basic grants (which is simply equal to the basic grant expenditure factor for the same fiscal year).

521. While all concentration grants will initially be calculated by the U.S. Department of Education using data on poor school age children compiled by the Census Bureau, the House bill authorizes State education agencies to use alternative population data (i.e., other than the data on poor school age children compiled by the Census Bureau) to allocate concentration grants among the State's smaller local educational agencies (those serving areas with a total population of 20,000 or fewer persons). Local educational agencies dissatisfied with such determinations by their State education agency may appeal them to the U.S. Secretary of Education.

522. In cases where the Census Bureau has not compiled data on poor school age children for local educational agencies (applies at this point to 8 counties in California), concentration grants will be calculated by the U.S. Department of Education by county, with the State education agency responsible for suballocation to local educational agencies in such counties.

523. Of the total amount appropriated for basic and concentration grants, 10% is reserved for concentration grants.

524. Grants will be ratably reduced, subject to the State minimum, if total appropriations are less than maximum authorized concentration grants.

Targeted Grants to Local Educational Agencies

525. To be eligible for targeted formula grants under the House bill, the number of children counted for basic grants in a local educational agency must be at least 10.

526. The maximum targeted grant for a local educational agency is its weighted count of children multiplied by its basic grant expenditure factor.

527. The number of children counted for targeted grants is the greater of two modified counts of the children counted for basic grants for a local educational agency. Local educational agency counts of poor and other formula children are weighted according to two scales, one based on the aggregate number of such children, and the other scale based on the percentage that basic grant formula children represent of a local educational agency's total school age population. For each LEA, the greater of the two weighted pupil counts—that based on numbers and that based on percentages—is used to calculate grants. The weights applied to different numbers of basic grant formula children for a local educational agency vary from 1 to 3, in 5 steps. The steps and weights are as follows:
PUPIL WEIGHTS ASSIGNED TO LOCAL EDUCATIONAL AGENCIES FOR TARGETED GRANTS UNDER THE HOUSE VERSION OF H.R. 6

<table>
<thead>
<tr>
<th>School age child poverty rate for the local educational agency</th>
<th>Number of poor and other formula in the local educational agency</th>

</tbody>
</table>

Each step on each of the two scales contains local educational agencies with approximately one-fifth of all school age children. The weights are applied stepwise—i.e., each weight is applied only to the share of formula children in a county (local educational agency) falling within the indicated number or percentage range.

528. While all targeted grants will initially be calculated by the U.S. Department of Education using data on poor school age children compiled by the Census Bureau, the House bill authorizes State education agencies to use alternative population data (i.e., other than the data on poor school age children compiled by the Census Bureau) to allocate targeted grants among each State's smaller local educational agencies (those serving areas with a total population of 20,000 or fewer persons). Local educational agencies dissatisfied with such determinations by their State education agency may appeal them to the U.S. Secretary of Education.

529. In cases where the Census Bureau has not compiled data on poor school age children for local educational agencies (applies at this point to 8 counties in California), targeted grants will be calculated by the U.S. Department of Education by county, with the State education agency responsible for suballocation to local educational agencies in such counties.

530. The State minimum targeted grant is the lesser of: (a) 0.25% of all grants; (b) 150% of the national average targeted grant per (unweighted) child counted in the targeted grant formula in the year for which grants are being calculated, multiplied by the State's total number of such (unweighted) children for that year.

Special Allocation Procedures

531. If a local educational agency does not provide educational services to neglected or delinquent children who are counted in determining part A grants to that agency, the State education agency may reallocate part A grants based upon such children.

532. State education agencies may reallocate part A grants as appropriate when multiple local educational agencies serve the same area, or an agency provides educational services to children residing in a different local educational agency.

533. State education agencies may reallocate part A grants not used by the local educational agencies to which they were originally allocated.
Carryover and Waiver

534. In general, a local educational agency may carry over no more than 15% of its part A grant for use in the fiscal year after the grant was received (does not apply to local educational agencies receiving less than $50,000 per year). This limitation may be waived by a State education agency, but no more than once every three years for any particular local educational agency.

Allocations to States

535. The Senate bill provides that if appropriations are insufficient to pay maximum authorized part A grants, then allocations will be ratably reduced, subject to a State level hold harmless of 100% of FY 1994 basic plus concentration grants for FY 1995, 90% of previous year grants for FY 1996, and 85% of previous year grants for FY 1997 and beyond. There is also a hold harmless for local educational agencies (see sec. 1124).

Grants to States

536. State total grants will be calculated on the basis of local educational agencies if necessary population data are deemed to be satisfactory by the Secretary of Education. Otherwise, State total grants will be calculated on a county basis. In either case, State total grants will be allocated to local educational agencies through a separate process (see sec. 1124). [Note: All allocation estimates under the Senate bill have thus far used county, not local educational agency, population data to calculate State total grants.]

537. Maximum part A grants under the Senate bill are equal to a weighted count of children (by county or local educational agency) multiplied by the State expenditure factor, further multiplied by the State effort factor, and finally multiplied by the State equalization factor. The State expenditure factor is 40% of the State average expenditure per pupil, with bounds on the latter of 85% and 115% of the national average expenditure per pupil (rather than 80% and 120% under current law and the House bill).

538. The State effort factor under the Senate bill is based on a comparison of the State average expenditure per pupil (as used in the title I expenditure factor) divided by the State personal income per capita, compared to the national average expenditure per pupil divided by the national personal income per capita. The resulting amount would be 1.0 for a State with effort at the national average. The State effort factors are adjusted to be no less than 0.95 nor more than 1.05. The effort factor for Puerto Rico is equal to the lowest factor for any of the States plus D.C. (0.95).

539. The equalization factor under the Senate bill is based upon a measure of variation in average expenditures per pupil among each State's local educational agencies called the coefficient of variation. This is a measure of the average disparity in expenditures per pupil among the local educational agencies of a State, and is expressed as a percentage of the State average expenditure per pupil. In the coefficient of variation calculations under the Senate bill, the expenditures per pupil are weighted to account for differences in the enrollment level of different local educational agencies, with an extra weight (1.4 vs. 1.0) applied to estimated counts of children from poor families. The equalization factor is equal to
1 minus the coefficient of variation, so the lower a State's coefficient of variation, the higher its equalization factor. There are no limits on the equalization factor itself, although there are limits on the effects of applying it for the first 3 years (see below).

540. If a State meets the expenditure disparity standard for equalization under the Impact Aid program regulations (currently Alaska, Kansas, and New Mexico), its coefficient of variation used to calculate the equalization factor is adjusted to be no more than .10.

541. Application of the equalization factor may not cause a State's total allocation to change by more than +/- 2% for FY 1995, +/- 4% for FY 1996, or +/- 6% for FY 1997 compared to what the State would receive if there were no equalization factor. For FY 1998 and beyond, there is no limit on the effect of the equalization factor.

542. For Puerto Rico, the expenditure factor is the minimum applied to the 50 States plus D.C. (.4 times 85% of the national average expenditure per pupil) further multiplied by the ratio of the Puerto Rico average expenditure per pupil divided by the lowest average expenditure per pupil for any of the States plus D.C.

543. The minimum number of poor and neglected/delinquent children in a local educational agency or county to be eligible for a grant is 10.

544. The children to be counted for grants under the Senate bill include children age 5-17 years: (a) in poor families; plus (b) in institutions for the neglected and delinquent, or in foster homes, and who are not counted for State agency grants for the neglected and delinquent (title I, part E, subpart 3). [The House bill also includes children in families receiving Aid to Families with Dependent Children payments above the poverty level for a family of four, plus children in community day programs.]

545. The number of children counted for grants under the Senate bill is the greater of two modified counts of the poor and neglected/delinquent school age children in a county (or, if the Secretary determines that satisfactory data are available, local educational agency). Counts of poor and other formula children are weighted according to two scales, one based on the aggregate number of such children, and the other scale based on the percentage that such children represent of the total school age population. For each LEA, the greater of the two weighted pupil counts—that based on numbers and that based on percentages—is used to calculate grants. The weights applied to different numbers of poor and other formula children vary from 1 to 1.4 on the percentage scale, and from 1 to 1.3 on the numbers scale, as follows:

If grants are tabulated by local educational agency rather than by county, then the number and percentage ranges used for within-state grants under the Senate bill (see below) would be substituted for those above. The weights are applied stepwise—i.e., each weight is applied only to the share of formula children in a county (local educational agency) falling within the indicated number or percentage range. The maximum weighting factor for Puerto Rico is 1.15.

546. The State minimum grant under the Senate bill is the greater of: (a) 0.25% of total grants; or (b) 125% of the amount the State would receive if there were no minimum grant provision.

547. In general, no State may receive for FY 1995 (only) a grant that exceeds 115% of the amount the State would receive under the title I, chapter 1, part A formulas of current law, at the FY 1995 appropriations level.

Within State Allocations

548. After State grants are determined under the provisions of sec. 1123 of the Senate bill, the State totals are allocated to local educational agencies through a separate process. There is no direct connection between county or local educational agency calculations used to set State totals and the amount allocated to a county or local educational agency in this second stage of allocations.

A local educational agency is eligible for a grant only if its number of poor and neglected/delinquent children is greater than both 10 children and 5% of its total school age population.

549. If appropriations are not sufficient to pay maximum authorized grants, allocations to local educational agencies will be ratably reduced, subject to a hold harmless of 85% of the agency's previous year grant. The hold harmless is effective only for FY 1995 for local educational agencies that do not meet the 10 child or 5% thresholds, and only for FY 1995 and 1996 for other local educational agencies.

550. Under the Senate bill, up to 2% of State grants may be reserved by the State education agency for grants to schools in local educational agencies not eligible for grants. Such schools must serve attendance areas with a child poverty rate of at least 25% or the average percentage for the State, and are to be served in rank order, based on their poverty rate. Such funds must be used by a
recipient local educational agency only to serve the designated school attendance areas. The amount of these funds, combined with any hold harmless amounts the local educational agency receives, may not exceed the State average grant per poor and neglected/delinquent child counted in the formula or, for FY 1995, the grant received under title I, chapter 1, part A. Local educational agencies may not modify their pupil assignment policies in order to increase a school's percentage of poor children and therefore its eligibility for this assistance.

551. As with the formula for determining State total grants, the children counted in making grants to local educational agencies include school age children in poor families plus neglected, delinquent, and foster children not counted under title I, part E, subpart 3 (State agency program for the neglected and delinquent).

552. In making allocations to local educational agencies, a State may use one of three data sources: (a) data compiled by the Census Bureau; (b) the sum of (all) school age children in families receiving Aid to Families with Dependent Children (AFDC) payments plus one-third of the number of limited English proficient school age children; or (c) data using other poverty criteria, approved by the Secretary, and equivalent in size to the census count of children from poor families plus neglected/delinquent children.

553. In allocating funds among a State's local educational agencies that meet the 5/10 child threshold, each agency's count of poor and other formula children is to be reduced by an amount equal to 1% of the LEA's total school-age population.

554. In addition to the 1% absorption factor, the Senate bill provides for allocation within States among eligible local educational agencies on the basis of weighted counts of poor and other children counted in the intrastate formula. The number and percentage ranges and steps are the same as those used for national allocation of targeted grants under the House bill, except that the maximum weights are 1.6 for percentages and 1.4 for numbers of children in the local educational agency counted under the formula. These weights are also applied stepwise—i.e., each weight is applied only to the share of formula children in a local educational agency falling within the indicated number or percentage range. The greater of the two weighted counts for each local educational agency—that based on percentages and that based on numbers—is used to allocate part A funds within States.

555. State education agencies may reallocate part A grants as appropriate when multiple local educational agencies serve the same area, or an agency provides educational services to children residing in a different local educational agency.

556. If a local educational agency does not provide educational services to neglected or delinquent children who are counted in determining part A grants to that agency, the State education agency may reallocate part A grants based upon such children.

557. The Senate bill provides that a local educational agency may reserve up to 2% of its part A grant to serve children in schools not otherwise eligible, as long as the school attendance areas are within 2 rank orders of the lowest poverty eligible school.

558. The House bill, but not the Senate amendment, allows the Secretary to develop a Presidential awards program that will recognize the person or corporation producing the best education game of the year.

The House recedes.

31. In subparagraph (B), the Senate amendment, but not the House bill, provides: in clause (i) for further ratable reductions if the sums available for payments are insufficient after the application of subparagraph (A); and in clause (ii) that payments that were reduced under clause (i) shall be increased in the same manner should additional funds become available.

The House recedes.

32. Paragraph (2)(A)(i) of the House bill refers to "40 percent". Paragraph (2)(A)(i)(I) of the Senate amendment refers to "50 percent".

The Senate recedes with an amendment providing that the eligibility threshold shall be 40 percent if an LEA receives no funding on behalf of children described in section 8003(a)(1) (F) and (G), or 50 percent if an LEA receives funding on behalf of those federally connected children.

The Senate recedes.

37. In clause (ii), the House bill reads "the average amount of State aid per pupil received by the local educational agency". The Senate amendment reads "the total amount of general fund revenues received by the local educational agency from any general fund source per pupil, other than revenues provided under this subsection".

The Senate recedes. The managers urge the Secretary, when determining a local educational agency's payment calculation under subsection (f), to adjust the LEA's general fund revenue to account for such agency's capital outlay expenditures when there is no provision to provide for a dedicated revenue source for capital outlay and the agency's capital outlay expenditures are funded from general fund sources.

38. In clause (iii), the House bill reads "the sum of the total weighted units of the local educational agency, as computed under subsection (a)(2)". The Senate amendment reads "the total number of students in average daily attendance of the local educational agency".

48. The Senate amendment, but not the House bill, in paragraph (4), provides that an SEA that had been accepted as an applicant for funds under section 3 of current law in fiscal year 1994 shall be permitted to continue as an applicant under the same conditions only if the SEA distributes all funds to the LEAs providing educational services.

House recedes.

Application for Payments under Sections 8003 and 8004

49. In paragraph (2), the House bill reads “between July 1 and September 30, inclusive, of the current school year”. The Senate amendment reads “between May 15 and September 30, inclusive, of the fiscal year for which the determination is made”.

The House recedes.
50. In subsection (d), the House bill directs the Secretary to pay each LEA with an approved application the same amount per child (not to exceed $200) multiplied by the number of children determined for each such LEA. The Senate amendment directs the Secretary to pay each LEA with an approved application an amount equal to one-half the national average per-pupil expenditure multiplied by the number of children determined for each such LEA.

The House recedes.

51. The Senate amendment provides—(1) for prorated payments if the appropriation is insufficient to support full payments; and (2) that if additional funds become available, payments shall be increased in the same manner that they were prorated.

The House recedes.

The House recedes.

Construction

53. The Senate amendment, but not the House, bill authorizes the Secretary to make grants for school construction to LEAs that receive a basic support payment under section 9003 and either (1) have a number of children residing on Indian lands that constitutes at least 50% of the LEAs student enrollment, (2) are heavily impacted LEAs, or (3) experience a sudden and substantial increase in military dependent children. The Senate amendment also provides for the amount of payments and use of funds.

The House recedes with an amendment adding an additional category of LEAs eligible for construction assistance.

54. The Senate amendment, but not the House bill, includes a special rule for the Winona R–III School District in Missouri which waives the P.L. 81–815 effort requirement.

The House recedes with an amendment moving this provision to Title V (Miscellaneous) of the bill.

State Consideration of Payments in Providing State Aid

55. The House bill prohibits States from considering Impact Aid payments in determining the eligibility of LEAs for State aid or in determining the amount of such aid (except for those States with approved equalization plans). The Senate amendment provides that no payments may be made under this title (should be "part") to any LEA in any State that takes Impact Aid into consideration in determining the eligibility of LEAs for State aid or in determining the amount of such aid to any LEA during that fiscal year or the preceding fiscal year.

The Senate recedes with an amendment substituting its provision, regarding State consideration of Impact Aid payments in providing State aid, for the House provision regarding reductions of State aid.

56. In subsection (b)(1), the House bill permits a State to reduce State aid to an LEA that receives a payment under section 8003 and 8004(b) (except the amount calculated in excess of the 1.0
student weighting) if the State has in effect a program of State aid that equalizes expenditures among LEAs in the State. Paragraph (2) of the House bill provides that, in considering whether a State aid program is equalized, the Secretary shall disregard LEAs with per-pupil expenditures or revenues above the 95th percentile and below the 5th percentile. A program of State aid equalizes expenditures among LEAs if, in the second preceding fiscal year, the amount of disparity between the per-pupil expenditures or revenues of the remaining LEAs does not exceed 10 percent. Computations to determine the amount of disparity in a State aid program shall utilize any weighting mechanism that a State uses to take into account special cost differentials in allocating State aid. The Senate amendment takes a different approach by providing that a State, which has in effect a program of State aid designed to equalize expenditures among its LEAs, may take into account payments under this title, except for amounts calculated in excess of the 1.0 student weighting on behalf of children with disabilities, children on Indian lands, and heavily impacted LEAs. Additionally, the Senate amendment provides that “State aid” and “equalize expenditures” will be defined by the Secretary except that they shall not be construed in any manner adverse to a State aid program which takes into account the additional cost of providing education for particular groups or categories of pupils in meeting the special educational needs of such children.

The Senate recedes with an amendment—(i) clarifying that computations of per-pupil revenue or current expenditures may be based upon units of need as defined by the State; and (ii) providing that, for fiscal years 1995, 1996, and 1997, the disparity standard is 25 percent and, or fiscal years 1998 and 1999, the disparity standard is 20 percent.

57. Both the House bill and the Senate amendment have provisions relating to review of State aid programs. The House provisions are in subsection (c); the Senate provisions are in subsection (b)(4). The House bill requires 120-day written notice to the Secretary which includes the information the Secretary requires, including evidence that the State has notified each LEA of its intention to consider Impact aid payments in providing State aid. The Senate amendment has similar requirements except that the State must provide a 60-day notice to the Secretary (does not specify written notice).

The Senate recedes.

58. The House bill proves that: (i) before making a determination, the Secretary shall afford the State and local educational agencies in the State an opportunity to present their views; (ii) if the Secretary determines that a State aid program qualifies, the Secretary shall certify program, notify the State, and afford an opportunity for a hearing to any adversely affected LEA; and (iii) if the Secretary determines that a State aid program does not qualify, the Secretary will notify the State and afford a hearing to the State and any adversely affected LEA. The Senate amendment provides: (i) in paragraph (4)(B) that prior to certifying any determination, the Secretary shall give the LEAs in the State an opportunity for a hearing at which such agencies may present their views; and (ii) in paragraph (4)(C) that the Secretary shall not finally deny
certification to a State without first giving that State an opportunity for a hearing.

The Senate recedes.

59. The Senate amendment, but not the House bill, in subsection (b)(5) requires retroactive approval of a State aid program during the period 1989–92 if the State's program was approved in 1988 and in at least 1 year during the period 1989–92. This paragraph also provides that, beginning with FY 1993, such State shall not take payments under this title into consideration unless the Secretary has previously certified such State's program.

The Senate recedes.

60. The Senate amendment, but not the House bill, in subsection (b)(6), grandfathers in States with State aid programs approved by the Secretary on July 1, 1994 and which continue to meet the requirements of section 5(d)(2) of the current law.

The Senate recedes.

61. The House bill, in subsection (d), provides how, and in what amount, the State may take Impact Aid payments into consideration in reducing State aid. Additionally, the House bill provides that a State may not reduce State aid before its program of State aid has been certified by the Secretary. The Senate amendment, in subsection (b)(2) provides for similar exclusion of certain types and portions of Impact Aid payments.

The Senate recedes.

62. The House bill, but not the Senate amendment, in subsection (e), provides: (i) that an LEA, without exhausting administrative remedies, may bring an action in Federal district court for State violations; (ii) that a State shall not be immune under the 11th amendment from an action brought by an LEA; and (iii) that the court shall grant such relief as it deems appropriate, which may include attorney's fees to a prevailing LEA.

The Senate recedes with an amendment—(i) providing that neither the Secretary nor an aggrieved LEA may bring an action before 150 days following an adverse determination against a State for a violation of subsections (a) or (d)(2), or for failure to carry out an assurance under subsection (b)(3)(B); and (ii) striking attorney's fees.

Federal Administration

63. The Senate amendment, but not the House bill, provides: (i) in paragraph (1), that, for any fiscal year prior to FY 1995, Secretary shall treat as eligible under section 3 of current law any child that meets the requirements of paragraph (3) and shall forgive the obligation of any LEA to repay any amounts that LEA received on behalf of any such child who does not meet the requirements of section 3 (but does satisfy paragraph (3) of this subsection); (ii) in paragraph (2)(A), that the Secretary shall treat as eligible under subparagraph (A) of section 9003(a)(1) any child would be eligible except that the Federal property on which the child resides is not in the same State and who satisfies paragraph (3) of this subsection; (iii) in paragraph (2)(B), that the Secretary shall treat as eligible under paragraph (G) of section 9003(a)(1) any child would be eligible under such provision except that such child does not meet the requirements of clause (ii) of such subparagraph.
if such child satisfies paragraph (3) of this subsection; and (iv) in paragraph (3), that a child meets the requirements of this paragraph on the day preceding the date of enactment of the Improving America's Schools Act of 1994 if such child resides in an adjacent State or with a parent employed on Federal property in an adjacent State, the schools of the LEA the child attends are within a more reasonable commuting distance of the child's home that the schools of the LEA where the child resides, attending the schools of the LEA where the child resides will cause the child substantial hardship, and the adjacent State where the child attends school provides funds for the education of such child on the same basis as all other public school children in the State.

The House recedes with an amendment providing that, in order to qualify under this provision, an LEA must have received a payment for fiscal year 1994 on behalf of such children.

Forgiveness of Overpayments

64. The Senate amendment, but not the House bill, authorizes the Secretary to forgive the obligation of an LEA to repay the amount of any overpayment under this title or under current law if the Secretary determines that the overpayment was the result of an error by (1) the Secretary, or (2) the LEA and repayment of the full amount will result in an undue hardship and serious harm to the LEA's educational program.

The House recedes.

The Senate amendment authorizes appropriation for both of these payments in subsection (b)—$775 million for FY 1995 of which 6 percent is set aside for Payments for Heavily Impacted LEAs.

The Senate amendment, but not the House bill, prohibits, under the “Gun-Free Schools Act of 1994,” a local educational agency from receiving ESEA funds unless that agency has a policy of requiring expulsion from school for not less than 1 year for any student bringing a weapon to a school under that agency’s jurisdiction. This amendment allows for placement of the student in an alternative setting, sets forth a 1-year grace period for States having less restrictive expulsion laws, defines “weapon” and requires local educational agencies to report on State educational agencies on this matter.

Also, sections 404 and 405 of the Senate amendment, mandate disciplinary action for a student possessing a weapon in any school that receives Federal funds, and amend the Individuals with Disabilities Education Act to provide for an alternative setting in cases of life-threatening behavior by a child with a disability.

The House recedes with several amendments: requiring states receiving assistance under this Act to enact a law requiring the expulsion of students who bring a weapon to school for up to one year; directing the Secretary of Education to widely disseminate the current policy of the Department of Education with respect to disciplining children with disabilities; directing the Secretary of Education to collect data on the incidence of children with disabilities (as such term is defined in section 602(1) of IDEA) engaging in life-threatening behavior or bringing all types of weapons to schools and submit a report to Congress by January 31, 1995 analyzing the strengths and problems with the current approaches regarding disciplining children with disabilities. The Conferees expect that this information will assist us in our deliberations around this issue next year when the Individuals with Disabilities Education Act is reauthorized. Additionally, the House recedes with amendments to define the term “weapons” by incorporating by reference the definition used in the Gun-Free Schools Act, i.e., “a firearm as such term is defined in section 921 of title 18, United States Code.”; to modify the length of time in the alternative placement is modified by inserting “45 days” in lieu of 90 days; and to clarify the construction clause by adding at the end of the following phrase: “except that this section shall be interpreted in a manner that is consistent with the U.S. Department of Education’s Guidance Concerning State and Local Responsibilities Under the Gun-Free Schools Act of 1994, as printed in the Congressional Record of July 28, 1994, at S. 10017.”

It is the conferees’ intent that the IEP team meet to determine whether an alternative placement is appropriate as soon as possible after the incident occurs, especially when there is reason to believe that the action of bringing the gun to school is related to the child’s disability.

bly institution is required to maintain in escrow an amount equal to, but not in excess of, 10 percent of its own outstanding principal.

13. The Senate amendment, but not the House bill, amends Section 435(o) of the Act to allow borrowers with a 20 percent or greater federal education debt to disposable income ratio, to obtain an "economic hardship deferment" for a maximum of 3 years on their subsidized Title IV student loans (Stafford and FISL loans).

The House recedes with an amendment rewriting the addi-
tional criterion for economic hardship deferments to provide such deferments for borrowers whose federal education debt burden equals or exceeds 20 percent of their adjusted gross income (AGI) and whose AGI, minus federal education debt burden, is less than
220 percent of the poverty level measurement specified in the Department of Education's final regulations of June 29, 1994, pertaining to the "economic hardship" deferment.

The Managers adopted this provision to clarify the meaning of the term "economic hardship." Our action should not be interpreted as a change in the course of action we took regarding student loan deferments in the 1992 Higher Education Amendments. Those amendments eliminated categorical deferments for subsidized Title IV Loans, and we continue to support this policy.

The 1992 Higher Education Amendments directed the Secretary of Education to consider income and debt-to-income ratio as primary factors in developing criteria to determine borrower eligibility for the "economic hardship" deferment. Although the Secretary's Notice of Proposed Rulemaking did take into account a borrower's debt-to-income ratio as specified by Section 435(o)(2) of the Higher Education Act as amended, the final regulation does not do so. The Managers, therefore, agreed to language to clarify that borrowers with a very significant federal education debt burden, relative to their level of income, are considered to have an "economic hardship."

In implementing this language, the Managers intend that "federal education debt burden", as used in this amendment to Section 435(o) of the Act, shall consist of the annual total payments a borrower would be expected to make on all his federal education loans pursuant to a standard 10-year repayment schedule.

14. The Senate amendment, but not the House bill, amends Section 1544 of the Higher Education Amendments of 1992 to permit institutions that practice need-blind admissions to voluntarily agree with other such institutions to: award non-federal HEA financial aid to students only on the basis of demonstrated financial need, determine student financial aid for non-federal HEA aid on common principles of need analysis, use common aid application forms for non-federal HEA aid, and exchange through an independent 3rd party certain financial data on commonly admitted applicants. The Senate amendment does not waive any requirements or obligations imposed under HEA nor does it affect any pending litigation. The provision sunsets on September 30, 1999.

This provision extends for an additional three years the temporary antitrust exemption for certain collegiate financial aid award analysis, which was originally enacted with the Higher Education Amendments of 1992 as a two-year exemption. The temporary exemption has also been revised in light of the "standards of conduct" adopted as part of the settlement of the antitrust action between the Department of Justice and Massachusetts Institute of Technology in the case of United States v. Brown University, et al., Civ. Action No. 91-3274 (E.D. Pa.), on December 22, 1993.

As revised, the temporary exemption applies only to institutions of higher education that admit students on a need-blind basis. The definition of "on a need-blind basis" in subsection (c)(6) is based on language in the "standards of conduct" adopted in the MIT settlement. See also United States v. Brown University, 5 F.3d 658(1993).
The managers have decided against elaborating on the need-blind admissions standard in the statutory text. As should be obvious, however, evidence of a practice among admissions personnel at an institution of higher education of examining, discussing, or otherwise considering information relating to a student’s financial circumstances that is derived from such student’s financial aid application form, or from any other document or record obtained for the purpose of ascertaining such financial circumstances, before the decision is made regarding the student’s admission will substantially increase the institution’s burden of demonstrating that the school’s admissions policy is truly need-blind. Prudence would counsel that schools wishing to make use of this provision insulate their admissions, process and admissions personnel as completely as possible from such student financial aid information, until after the admissions process is complete.

The term “principles of need analysis” in subsection (a)(2) has been substituted for the term “principles of professional judgment” in the earlier provision, and the inclusion of limited exchange of data specified in subsection (a)(4) has been added, in light of the “standards of conduct” adopted in the MIT settlement.

The sunset provision has been extended to September 30, 1997. While the Managers have decided to continue a temporary exemption for this limited period, it is expected that the exemption will not be extended further. Upon the expiration of this extension, those who support extending the exemption must meet the burden of demonstrating that it is truly needed in order to advance the generally pro-competitive goal of enhancing access by needy students to higher education.

15. The Senate amendment, but not the House bill, amends Section 455(f) of the Act to clarify that “old borrowers” (those who took out their first Title IV loan prior to July 1, 1993), who take out a Title IV, Part D loan will be eligible for the same deferment opportunities on such Part D loans as will “old borrowers” who take out additional Title IV, Part B loans.

The House recedes.

*Equity in Athletics Disclosure Act*

16. The Senate amendment, but not the House bill, authorizes the “Equity in Athletics Disclosure Act”. This amendment to Section 485 of the Higher Education Act requires each institution that participates in Title IV student aid programs, and has an intercollegiate athletic program, to submit to the Secretary of Education an annual report detailing its expenditures for each of its sports teams, differentiating between the levels of participation and expenditures for its men’s, women’s, and coeducational teams. The amendment further requires that these expenditures be broken down into various specific categories and that, upon request, the information gathering pursuant to this new authority be disclosed to prospective students and to the public. The amendment requires the Secretary to compile and publish this information, breaking it down by both institution and athletic conference, in an annual report, the first of which is to be issued on or before July 1, 1995. The effective date of the amendment is July 1, 1994.
The House recedes with an amendment eliminating the requirement that institutions submit an annual report to the Secretary of Education. The amendment adds language requiring the Secretary to issue final regulations to eliminate the gender equity provisions within 180 days after enactment of this subsection. Each coeducational institution with an intercollegiate athletic program must, upon request, make available to prospective students, students, and the public its first annual report pertaining to its men's and women's varsity sports teams no later than October 1, 1996.

The House amendment modifies the Senate amendment's definition of "operating expenses" and requires that institutions report each team's total annual "operating expenses". The House amendment allows institutions to, at their discretion, additionally report team operating expenses on a per capita basis. The House amendment also permits institutions to report revenues generated on an individual team basis, in addition to the mandatory reporting of revenues generated across all men's sports and revenues generated across all women's sports.

In developing regulations to implement the gender equity in athletics provisions, the Managers intend that the Secretary ensure that those institutions electing to include the optional reporting elements of per capita operating expenses by team and individual team revenues do so alongside of the total team operating expenses and the total team revenues aggregated by gender, respectively, as required pursuant to (g)(1)(B)(ii) and (g)(1)(F). The Managers agree that these additional reporting elements are to be included at the discretion of the individual institution.

17. The Senate amendment, but not the House bill, authorizes the "Equity in Educational Land-Grant Status Act of 1994" to establish land-grant college status for 29 Native American institutions of higher education. For each of fiscal years 1996-2000, the amendment authorizes $4.6 million to establish an endowment fund for the "1994 Institutions" and $1.7 million for institutional capacity building grants. The amendment also authorizes $6.45 million under existing land-grant program authorities for FY96 and for each fiscal year thereafter for the "1994 Institutions."

The House recedes with an amendment to strike "research" and insert "instructional activities".

The conferees in recognition of the distinguished service of William D. Ford agree to re-name the Federal Direct Student Loan Program the William D. Ford Federal Direct Student Loan program, and that henceforth such direct loans shall be called Stafford-Ford Loans. In conferring this honor, the conferees are fully aware that the Department of Education has numerous printed forms and materials referring to the current program. The conferees, therefore, intend that the Department and direct loan program participants continue to use existing materials and forms until they are exhausted, but that any new programs and materials that are prepared and printed after the effective date of this legislation shall bear designation of the program as the William D. Ford Federal Direct Student Loan Program and refer to such loans as Stafford-Ford loans.

MULTIETHNIC PLACEMENT

Subtitle A—Multiethnic Placement

Multiethnic Foster Care and Adoption Placements

Title VI of the Civil Rights Act of 1964 provides that programs that receive federal funds cannot discriminate on the basis of race, color, or national origin. Although race, color, or national origin may not be used as a basis for providing benefits or services, the federal policy guidelines that interpret Title VI's meaning in the context of adoption and foster care permit officials to consider these factors in making placements. The guidelines state that: "In placing a child in an adoptive or foster home it may be appropriate to consider race, color, or national origin as one of several factors...

This policy is based on unique aspects of the relationship between a child and his or her adoptive or foster parent. It should not be construed as applicable to any other child welfare or human services area covered by Title VI."

Subtitle B—Other Provision

Effect of Failure to Carry Out State Plan

The "State plan" titles of the Social Security Act include Aid to Families with Dependent Children (AFDC) (Title IV-A), Child Welfare Services (Title IV-B), Child Support and Establishment of Paternity (Title IV-D), Foster Care and Adoption Assistance (Title IV-E), Job Opportunities and Basic Skills Training (JOBS) (Title IV-F), and Medicaid (Title XIX). Under these titles, as a precondition of funding, each participating State is required to develop a written "State plan" that meets certain statutory requirements in order to be approved by the Secretary of the Department of Health and Human Services (HHS).
The Adoption Assistance and Child Welfare Act of 1980 amended the Social Security Act to require States to provide in their Title IV-E plans that, in the case of each child, reasonable efforts will be made (a) prior to the placement of the child in foster care, to prevent or eliminate the need for removal of the child from his home, and (b) to make it possible for the child to return to his home (sec. 471(a)(15)).

On March 25, 1992, the U.S. Supreme Court held in Suter v. Artist M., that the "reasonable efforts" clause does not confer a federally-enforceable right on its beneficiaries, nor does it create an implied cause of action on their behalf. In rendering its opinion, the Court also stated that although section 471(a) does place a requirement on the States, that requirement "only goes so far as to ensure that the States have a plan approved by the Secretary which contains the 16 listed features."

It has the following provisions:

**Prohibition**

Agencies or entities receiving Federal funds who are involved in adoption or foster care placements may not, solely on the basis of the race, color, or national origin of the adoptive or foster parent, or the child, involved: (1) categorically deny to any person the opportunity to become an adoptive or foster parent, or (2) delay or deny the placement of a child for adoption or into foster care, or otherwise discrimination in making a placement decision.

**Permissible Consideration**

Any agency or entity may consider the race, color or national origin of child as a foster in making a placement decision if the factor is relevant to the best interests of the child involved and is considered in conjunction with other factors.

**Definition**

The term “placement decision” means the decision to place, or to delay or deny the placement of, a child in a foster care or an adoptive home, and includes the decision of the agency or entity involved to seek the termination of birth parent rights or otherwise make a child legally available for adoptive placement.

**Limitation**

The Secretary of HHS is prohibited from providing funds under Title IV-E of the Social Security Act for placement and administrative expenditures to any agency or entity that is not in compliance with the anti-discrimination policy outlined above.
Equitable Relief
The Act would provide a right to bring an action seeking relief in U.S. district court to any individual who is aggrieved by a violation of the anti-discrimination policy outlined above.

Construction
Nothing in the Multiethnic Placement Act shall be construed to affect the application of the Indian Child Welfare Act.

CONFERENCE AGREEMENT
Subtitle A—Multiethnic Placement

Multiethnic Foster Care and Adoption Placements
The conference agreement follows the Senate amendment with the following modifications:

Purpose
Change the purpose to read: It is the purpose of this Act to promote the best interests of children by: (1) decreasing the length of time that children wait to be adopted; (2) preventing discrimination in the placement of children on the basis of race, color, or national origin; and (3) facilitating the identification and recruitment of foster and adoptive families that can meet children's needs.

Permissible Consideration
Change permissible consideration to read: An agency or entity to which the prohibition against discrimination applies may consider the cultural, ethnic, or racial background of the child and the capacity of the prospective foster or adoptive parents to meet the needs of the child of this background as one of a number of factors used to determine the best interests of a child.

Limitation
Substitute the following language: Noncompliance with this Act constitutes a violation of Title VI of the Civil Rights Act of 1964.

Amendment to Title IV-B Child Welfare Services program
Add the following Title IV-B State plan requirement: The State plan must provide for the diligent recruitment of potential foster and adoptive families that reflect the ethnic and racial diversity of children in the State for whom foster and adoptive homes are needed.

Federal Guidance and Deadline for Compliance
Add the following: Not later than 6 months after enactment the Secretary of HHS must publish guidance to concerned public and private agencies and entities with respect to compliance with the Multiethnic Placement Act. An agency or entity that receives Federal assistance and is involved with adoption or foster care placements shall comply not later than 6 months after publication of guidance or 1 year after enactment, whichever is sooner. In cases where a State demonstrates to the Secretary's satisfaction that a
particular practice cannot be changed without amending State law, the Secretary may extend the compliance date for such State a reasonable number of days after the closing of the first State legislative session beginning after the Federal guidance is published.

Subtitle B—Other Provision

Effect of Failure To Carry Out State Plan

The provision would amend Title XI of the Social Security Act by adding a new section that reads as follows: "In an action brought to enforce a provision of the Social Security Act, such provision is not to be deemed unenforceable because of its inclusion in a section of the Act requiring a State plan or specifying the required contents of a State plan. This section is not intended to limit or expand the grounds for determining the availability of private actions to enforce State plan requirements other than by overturning any such grounds applied in Suter v. Artist M., 112 S. Ct. 1360 (1992), but not applied in prior Supreme Court decisions respecting such enforceability; provided, however, that this section is not intended to alter the holding in Suter v. Artist M. that section 471(a)(15) of the Act is not enforceable in a private right of action."

The intent of this provision is to assure that individuals who have been injured by a State’s failure to comply with the Federal mandates of the State plan titles of the Social Security Act are able to seek redress in the federal courts to the extent they were able to prior to the decision in Suter v. Artist M., while also making clear that there is no intent to overturn or reject the determination in Suter that the reasonable efforts clause to Title IV-E does not provide a basis for a private right of action.

The amendment would apply to actions pending on the date of enactment and to actions brought on or after the date of enactment.
