This Occupational Competency Analysis Profile (OCAP) contains a competency list verified by expert workers and developed through a modified DACUM (Developing a Curriculum) involving business, industry, labor, and community agency representatives from Ohio. This OCAP identifies the occupational, academic, and employability skills (competencies) needed to enter building and property maintenance occupations. The competencies are clustered into 10 units that cover the following topics: basic procedures; carpentry applications and repairs; roofing applications and repairs; ceramic tile applications and repairs; masonry applications and repairs; electrical installations and repairs; plumbing installations and repairs; welding and cutting operations; heating, ventilation, air-conditioning, and refrigeration installations and service; and painting and wallpapering. In addition, employability competencies are grouped into 12 units: career development; decision making and problem solving; work ethic; job-seeking skills; job retention and career advancement skills; technology in the workplace; lifelong learning; economic education; balancing work and family; citizenship in the workplace; leadership; and entrepreneurship. The units detail the knowledge, skills, and attitudes (competency builders) needed to perform each competency. Within the competency list are two levels of items, core items essential for entry-level employment, and items needed to advance in building maintenance occupations. The OCAP guide also contains an academic job profile based on the Work Keys system that identifies the level of applied academic skills that students must master to qualify for and be successful in their occupations; a total list of academic competencies in communication, mathematics, and science that all students must master; and a specific list of academic competencies needed for building and property maintenance. (KC)
VERIFICATION PANEL

Jerry L. Barber. Shelby Memorial Hospital, Shelby, Ohio
Richard Bycroft, Columbiana County Career Center, Lisbon, Ohio
Ralph Conti, Conti Corporation, Lowellville, Ohio
Kenneth D. Crawford, Ohio Department of Rehabilitation, Dayton, Ohio
Anthony Geraci, Smith Lenkey Window Systems, Inc., Canfield, Ohio
Gary A. Porter, Porter Construction, Inc., Dayton, Ohio
Michael Reid, Montgomery Education & Pre-release Center, Dayton, Ohio

Columbus, Ohio 43210
Introduction

What is an OCAP?

According to the Action Plan for Accelerating the Modernization of Vocational Education: Ohio’s Future at Work—

A comprehensive and verified employer competency list will be developed and kept current for each program

—Imperative 3, Objective 2—

The Occupational Competency Analysis Profiles (OCAPs) are the Ohio Division of Vocational and Adult Education’s response to that objective.

OCAPs are competency lists—verified by expert workers—that evolve from a modified DACUM job analysis process involving business, industry, labor, and community agency representatives from throughout Ohio. The OCAP process is directed by the Vocational Instructional Materials Laboratory located at The Ohio State University’s Center on Education and Training for Employment.

How is the OCAP used?

Each OCAP identifies the occupational, academic, and employability skills (or competencies) needed to enter a given occupation or occupational area. The OCAP not only lists the competencies but also clusters those competencies into broader units and details the knowledge, skills, and attitudes (competency builders) needed to perform each competency.

Within the competency list are two levels of items: core and advancing. Core items, which are essential for entry-level employment, are required to be taught and are the basis for questions on the Ohio Vocational Competency Assessment (OVCA). Advancing items (marked with an asterisk) are those needed to advance in a given occupation.

School districts may add as many units, competencies, and/or competency builders as desired to reflect local employment needs, trends, and specialties. Local advisory committees should be actively involved in the identification and verification of additional items. Vocational and applied academic instructors will be able to formulate their courses of study using the varied contents of the OCAP and will be able to monitor competency gains via the new criterion-referenced competency testing program, which is tied to the competencies identified on the OCAP.
Occupational Competency Analysis Profile:

Building and Property Maintenance
Unit 1: Basic Procedures

Competency 1.1: Use personal safety equipment in accordance with current Occupational Safety and Health Administration (OSHA) standards

Competency Builders:

1.1.1 Wear approved footwear
1.1.2 Wear hard hat
1.1.3 Secure long hair
1.1.4 Wear job-appropriate clothing
1.1.5 Wear job-appropriate eye protection
1.1.6 Wear job-appropriate ear protection
1.1.7 Wear job-appropriate respiratory protection
1.1.8 Wear job-appropriate hand protection

Competency 1.2: Maintain safe environment

Competency Builders:

1.2.1 Maintain floors (e.g., sweep, wash)
1.2.2 Remove spills
1.2.3 Dispose of waste materials in specified containers
1.2.4 Check condition of guardrails, gratings, and flooring
1.2.5 Report unsafe conditions
1.2.6 Store tools/materials in safe, orderly fashion
1.2.7 Maintain air quality

Competency 1.3: Use safety and fire equipment in accordance with manufacturer's specifications

Competency Builders:

1.3.1 Conduct routine inspections of safety apparatus and equipment
1.3.2 Demonstrate established procedures for the use of safety apparatus and equipment
1.3.3 Conduct routine building/property safety inspections
1.3.4 Check power sources for potential hazards
1.3.5 Shut down power in dangerous situations using power-kill switches
1.3.6 Demonstrate lock-out/tag-out procedures
1.3.7 Identify the location of emergency flush showers, eye-wash fountains, and first-aid stations
1.3.8 Demonstrate basic first-aid techniques
1.3.9 Identify the location of a fire
1.3.10 Assess the severity of a fire
1.3.11 Take action appropriate to given fire situation (e.g., suppress minor fire, activate alarm, report)
1.3.12 Identify the location of fire extinguishers
1.3.13 Demonstrate knowledge of how to operate fire extinguishers
1.3.14 Select fire extinguisher appropriate for given class of fire
Competency 1.4: Handle hazardous materials in accordance with MSDS guidelines and EPA regulations

**Competency Builders:**
- 1.4.1 Identify the location of material safety data sheets (MSDSs)
- 1.4.2 Interpret MSDS information for each hazardous material
- 1.4.3 Select substance handling procedure and safety apparatus in accordance with MSDS guidelines
- 1.4.4 Dispose of hazardous materials in accordance with Environmental Protection Agency (EPA) specifications
- 1.4.5 Interpret labeling color codes for hazardous materials
- 1.4.6 Clean up leaks and/or spills in accordance with EPA regulations

Competency 1.5: Respond to emergency/safety signals

**Competency Builders:**
- 1.5.1 Interpret emergency/safety signs
- 1.5.2 Interpret audible alarms (e.g., horns, bells, whistles, sirens)
- 1.5.3 Interpret warning lights
- 1.5.4 Take action appropriate to given emergency situation

Competency 1.6: Follow safety procedures for working in small spaces

**Competency Builders:**
- 1.6.1 Complete required paperwork when entering or exiting confined spaces
- 1.6.2 Perform pre-entry checks
- 1.6.3 Ensure adequate lighting
- 1.6.4 Ensure adequate ventilation
- 1.6.5 Post watcher

Competency 1.7: Follow safety procedures for working around vehicles

**Competency Builders:**
- 1.7.1 Interpret vehicle warning signals and alarms
- 1.7.2 Yield right of way to vehicles
- 1.7.3 Remain visible
- 1.7.4 Maintain safe distance from vehicles
- 1.7.5 Stay clear of suspended loads

Competency 1.8: Follow safety procedures for working on ladders and scaffolds

**Competency Builders:**
- 1.8.1 Select ladder appropriate for given application (e.g., type, working length)
- 1.8.2 Ensure secure footing for ladders
- 1.8.3 Position ladders at safe angle and required height
- 1.8.4 Tie off ladders
- 1.8.5 Reposition ladders
- 1.8.6 Ascend/descend ladders using established procedure (e.g., maintaining 3-point contact and facing the ladder)
Competency 1.8: Follow safety procedures for working on ladders and scaffolds—Continued

1.8.7 Wear fall-arrest system
1.8.8 Assemble scaffolds*
1.8.9 Secure scaffolds*
1.8.10 Level scaffolds*
1.8.11 Reposition scaffolds*
1.8.12 Dismount scaffolds using established procedure (e.g., maintaining 3-point contact)

Competency 1.9: Handle tools and equipment in accordance with manufacturer’s specifications and OSHA standards for safety

Competency Builders:

1.9.1 Identify potential hazards associated with hand tools
1.9.2 Demonstrate the safe use of hand tools
1.9.3 Check hand tools before, during, and after use
1.9.4 Identify potential hazards associated with power tools and equipment
1.9.5 Identify proper sizing of extension cords
1.9.6 Demonstrate safe handling, lifting, and carrying methods
1.9.7 Demonstrate established procedures for operating power tools and power equipment
1.9.8 Check power equipment before, during, and after use
1.9.9 Maintain tools and equipment in accordance with professional standards

Competency 1.10: Perform preventive maintenance in accordance with guidelines specified by manufacturer and/or outside authorities with jurisdiction (e.g., building inspectors, zoning inspectors)

Competency Builders:

1.10.1 Create operating and maintenance records
1.10.2 Access needed information from past maintenance records
1.10.3 Follow preventive maintenance schedule
1.10.4 Access needed information using preventive maintenance manuals
1.10.5 Log preventive maintenance performed

Competency 1.11: Use basic hand and power tools in accordance with established procedures

Competency Builders:

1.11.1 Identify the intended functions of key maintenance hand and power tools
1.11.2 Drive/pull nails using a claw hammer
1.11.3 Cut boards using a hand saw
1.11.4 Drive/remove screws using a screwdriver
1.11.5 Tighten/loosen fasteners using a wrench
1.11.6 Grip round stock using a wrench
1.11.7 Cut/remove metal or wood using a chisel
1.11.8 Attach materials using a staple gun

Continued
Competency 1.11: Use basic hand and power tools in accordance with established procedures—Continued

1.11.9 Remove wood from workpieces using a plane (e.g., smooth, shape, trim, bevel, chamfer)
1.11.10 Finish smoothing wood surfaces using a file or rasp
1.11.11 Determine whether a surface is level or plumb using a carpenter’s or spirit level
1.11.12 Smooth wood surfaces using a hand or block sander
1.11.13 Perform measuring, layout, and squaring tasks using squares
1.11.14 Demonstrate established procedures for the setup, operation, and maintenance of a power orbital sander
1.11.15 Demonstrate established procedures for the setup, operation, and maintenance of a belt sander
1.11.16 Demonstrate established procedures for the setup, operation, and maintenance of a finishing sander
1.11.17 Demonstrate established procedures for the setup, operation, and maintenance of a portable electric drill
1.11.18 Demonstrate established procedures for the setup, operation, and maintenance of a power screwdriver
1.11.19 Demonstrate established procedures for the setup, operation, and maintenance of a circular hand saw
1.11.20 Demonstrate established procedures for the setup, operation, and maintenance of a circular table saw
1.11.21 Demonstrate established procedures for the setup, operation, and maintenance of a radial-arm saw
1.11.22 Demonstrate established procedures for the setup, operation, and maintenance of a reciprocating saw
1.11.23 Demonstrate established procedures for the setup, operation, and maintenance of a band saw
1.11.24 Demonstrate established procedures for the setup, operation, and maintenance of a miter power saw
1.11.25 Demonstrate established procedures for the setup, operation, and maintenance of a drill press
1.11.26 Demonstrate established procedures for the setup, operation, and maintenance of a powered plane
1.11.27 Demonstrate established procedures for the setup, operation, and maintenance of an electric router
1.11.28 Demonstrate established procedures for the setup, operation, and maintenance of a laminate trimmer

Competency 1.12: Troubleshoot maintenance problems in accordance with established procedures

Competency Builders:

1.12.1 Obtain all available information about given maintenance problem
1.12.2 Document maintenance problems
1.12.3 Perform multisensory inspections
1.12.4 Perform operational checks
1.12.5 Access needed information using specifications manuals
1.12.6 Access needed information from maintenance records
1.12.7 Identify specific problem(s)
Competency 1.13: Perform job-related math functions

**Competency Builders:**

1.13.1 Perform basic math functions without a calculator (e.g., add, subtract, multiply, and divide numbers)
1.13.2 Perform calculations involving decimals and fractions
1.13.3 Change numbers to percentages
1.13.4 Perform math functions using a hand-held basic-function calculator
1.13.5 Measure distances or sizes using a ruler or tape measure
1.13.6 Compute feet, inches, and yards
1.13.7 Change hours and minutes to decimals, fractions, and mixed numbers*
1.13.8 Measure inside and outside diameters of pipe*
1.13.9 Calculate ratios and proportions*
1.13.10 Convert measurements from English to metric and from metric to English*
1.13.11 Calculate time charged for labor on a job
1.13.12 Solve job-related problems using mathematical handbooks, charts, and tables*

Unit 2: Carpentry Applications and Repairs

Competency 2.1: Use instruments and tools for layout work

**Competency Builders:**

2.1.1 Measure regular and irregular shapes using a measuring tape
2.1.2 Interpret measuring tape readings
2.1.3 Mark a line across a board using a framing square
2.1.4 Lay out dimensions using a framing square
2.1.5 Check squareness using a framing square
2.1.6 Test a level or plumb surface using a level
2.1.7 Establish a vertical line using a plumb bob
2.1.8 Strike a straight guideline using a chalk line and chalk box
2.1.9 Lay out a pattern on a workpiece using a combination square
2.1.10 Lay out building locations and alignment using a transit*

**Competency 2.2:** Waterproof foundations in accordance with existing codes

**Competency Builders:**

2.2.1 Select waterproofing material and drainage system appropriate for given job*
2.2.2 Clean walls
2.2.3 Fill holes with selected material
2.2.4 Apply selected material to foundations
2.2.5 Install drainage systems
Competency 2.3: Construct forms for slabs or paving in accordance with project specifications

Competency Builders:
2.3.1 Calculate material and equipment requirements
2.3.2 Level base material
2.3.3 Lay out forms
2.3.4 Erect forms
2.3.5 Brace forms
2.3.6 Install reinforcing material
2.3.7 Remove forms
2.3.8 Maintain forms (e.g., clean, scrape, disassemble)

Competency 2.4: Construct sills and sill sealers in accordance with manufacturer’s specifications

Competency Builders:
2.4.1 Determine job requirements
2.4.2 Select needed materials
2.4.3 Clean tops of walls
2.4.4 Cut sill sealers to finished lengths
2.4.5 Cut sills to finished lengths
2.4.6 Fasten sills in place

Competency 2.5: Erect girders, beams, and columns in accordance with project specifications

Competency Builders:
2.5.1 Determine job requirements
2.5.2 Ensure adequate foundation support
2.5.3 Install columns
2.5.4 Install temporary braces
2.5.5 Install girders or beams

Competency 2.6: Sister and/or replace floor joists in accordance with applicable codes and existing construction

Competency Builders:
2.6.1 Determine job requirements
2.6.2 Lay out floor joists
2.6.3 Cut floor joists to finished lengths
2.6.4 Install joist headers and trimmers
Competency 2.7: Install new or replacement bridging in accordance with existing codes

**Competency Builders:**
- 2.7.1 Determine job requirements
- 2.7.2 Cut bridging to finished lengths
- 2.7.3 Install cross bridging
- 2.7.4 Install solid bridging

Competency 2.8: Lay out walls and rough openings in accordance with blueprint specifications

**Competency Builders:**
- 2.8.1 Determine job requirements
- 2.8.2 Calculate floor framing needed to support walls*
- 2.8.3 Prepare subfloors
- 2.8.4 Strike wall lines
- 2.8.5 Mark rough openings

Competency 2.9: Replace roof sheathing in accordance with original specifications

**Competency Builders:**
- 2.9.1 Determine job requirements and material needs
- 2.9.2 Lay out sheathing
- 2.9.3 Cut sheathing
- 2.9.4 Install sheathing
- 2.9.5 Lay out saddles (i.e., crickets)
- 2.9.6 Install saddles

Competency 2.10: Install doors, windows, and hardware in accordance with manufacturer’s specifications and existing codes

**Competency Builders:**
- 2.10.1 Determine job requirements
- 2.10.2 Measure for door units
- 2.10.3 Replace thresholds
- 2.10.4 Install extension jambs
- 2.10.5 Install prehung door units and hardware
- 2.10.6 Verify door schedules
- 2.10.7 Install frames
- 2.10.8 Fit/hang doors
- 2.10.9 Repair doors and trims
- 2.10.10 Measure for window units
- 2.10.11 Cut stools
- 2.10.12 Install stools
- 2.10.13 Install side casings
- 2.10.14 Install head casings

*Advancing
Competency 2.10: Install doors, windows, and hardware in accordance with manufacturer's specifications and existing codes—Continued

2.10.20 Install lock sets
2.10.19 Install stops and casings
2.10.18 Install weather stripping
2.10.17 Repair windows and trim
2.10.16 Install window units and hardware
2.10.15 Install aprons

Competency 2.11: Install new or replacement fascia, soffits, frieze board, and moldings in accordance with original construction

Competency Builders:

2.11.9 Install moldings and frieze board
2.11.8 Cut moldings and frieze board
2.11.7 Match moldings and frieze board
2.11.6 Install soffit vents
2.11.5 Install soffits
2.11.4 Match soffit materials
2.11.3 Install fascia
2.11.2 Match fascia
2.11.1 Determine job requirements

Competency 2.12: Install/replace or repair exterior walls in accordance with existing surface

Competency Builders:

2.12.7 Repair stucco finishes*
2.12.6 Replace damaged sections of aluminum/vinyl/steel siding
2.12.5 Replace damaged or worn sections of wooden lap siding or side shingles
2.12.4 Install wall material
2.12.3 Lay out wall material
2.12.2 Assemble materials for wall finish
2.12.1 Determine material and tool requirements

Competency 2.13: Install new or replacement gutters and downspouts in accordance with manufacturer’s specifications and existing codes

Competency Builders:

2.13.6 Install downspouts
2.13.5 Cut downspouts
2.13.4 Install gutters
2.13.3 Cut gutters
2.13.2 Lay out gutters
2.13.1 Determine job requirements

---

*Advancing
Competency 2.14: Ventilate attics and crawl spaces in accordance with project specifications

*Competency Builders:
2.14.1 Determine job requirements
2.14.2 Select materials
2.14.3 Install attic vents
2.14.4 Install crawl space vents

Competency 2.15: Install thermal insulation and vapor barriers in accordance with existing codes

*Competency Builders:
2.15.1 Determine job requirements for insulated structures
2.15.2 Determine job requirements for superinsulated structures*
2.15.3 Select materials and fasteners
2.15.4 Install insulation in accordance with manufacturer’s specifications and Occupational Safety and Health Administration (OSHA) standards
2.15.5 Install outer vapor barriers
2.15.6 Install inner vapor barriers
2.15.7 Install crawl space vapor barriers

Competency 2.16: Install new or replacement drywall in accordance with existing codes

*Competency Builders:
2.16.1 Determine job requirements
2.16.2 Select installation method
2.16.3 Select type of fastener and drywall compound
2.16.4 Measure drywall panels
2.16.5 Cut drywall panels
2.16.6 Fasten drywall panels on wood framing or metal studs
2.16.7 Seal/fill joints and depressions
2.16.8 Finish drywall (e.g., sand, cement and tape joints)
2.16.9 Patch/refinish drywall surfaces

Competency 2.17: Install new or replacement wall paneling in accordance with manufacturer’s specifications

*Competency Builders:
2.17.1 Determine job requirements
2.17.2 Select installation method
2.17.3 Measure paneling
2.17.4 Cut paneling
2.17.5 Fasten paneling to wall
2.17.6 Install finish moldings
2.17.7 Fill nail holes
Competency 2.18: Install/replace or repair suspended ceilings in accordance with manufacturer’s specifications

Competency Builders:
2.18.1 Determine job requirements
2.18.2 Select materials
2.18.3 Lay out ceiling line
2.18.4 Install edge moldings
2.18.5 Hang wires
2.18.6 Cut grid systems
2.18.7 Install grid systems
2.18.8 Install ceiling panels
2.18.9 Repair suspended ceilings

Competency 2.19: Install/replace or repair finish flooring in accordance with manufacturer’s specifications

Competency Builders:
2.19.1 Determine job requirements
2.19.2 Select installation method
2.19.3 Prepare subfloor
2.19.4 Install building paper over subfloor
2.19.5 Cut underlayment
2.19.6 Install underlayment
2.19.7 Lay out centerline
2.19.8 Spread adhesive material
2.19.9 Install flooring
2.19.10 Repair flooring (e.g., vinyl, ceramic, concrete) and subflooring

Competency 2.20: Install new or replacement baseboards and moldings in accordance with project specifications

Competency Builders:
2.20.1 Determine job requirements
2.20.2 Cut baseboards and shoe molds
2.20.3 Install baseboards and shoe molds
2.20.4 Cut crown moldings
2.20.5 Install crown moldings
2.20.6 Cut chair rails
2.20.7 Install chair rails
Competency 2.21: Install new or replacement cabinets in accordance with project specifications

**Competency Builders:**

2.21.1 Determine job requirements
2.21.2 Verify that the cabinets received match the project specifications
2.21.3 Calculate electrical and plumbing clearances
2.21.4 Check squareness and plumb of walls
2.21.5 Check level of floor
2.21.6 Mark studs for wall units
2.21.7 Set cabinets in location
2.21.8 Fasten cabinet sections together
2.21.9 Attach cabinets to walls
2.21.10 Install cabinet accessories
2.21.11 Install cabinet hardware
2.21.12 Install countertops
2.21.13 Install shelves
2.21.14 Install recessed medicine cabinets

Competency 2.22: Install new or replacement windows and doors in accordance with project specifications

**Competency Builders:**

2.22.1 Determine size and type of units needed
2.22.2 Remove existing units
2.22.3 Adjust rough openings
2.22.4 Position/attach units
2.22.5 Insulate/seal around units
2.22.6 Cut stops
2.22.7 Position/attach stops

Competency 2.23: Install new or replacement storm windows and doors in accordance with project specifications

**Competency Builders:**

2.23.1 Determine size and type of units needed
2.23.2 Prepare openings
2.23.3 Position/attach storm windows
2.23.4 Position/attach storm door units

Competency 2.24: Install garage door and power units in accordance with manufacturer’s specifications

**Competency Builders:**

2.24.1 Select garage door units*
2.24.2 Construct garage door frames
2.24.3 Position garage door units*
2.24.4 Attach garage door units*
2.24.5 Install garage door power units*
Competency 2.25: Install porches, decks, and steps in accordance with existing codes

*Competency Builders:*

- 2.25.1 Determine job requirements
- 2.25.2 Lay out deck perimeters in accordance with job specifications
- 2.25.3 Dig foundation holes
- 2.25.4 Set posts
- 2.25.5 Plumb/brace posts
- 2.25.6 Tamp or cement posts
- 2.25.7 Cut frame materials
- 2.25.8 Position/attach frame materials
- 2.25.9 Cut deck materials
- 2.25.10 Position/attach deck materials
- 2.25.11 Cut railings and steps
- 2.25.12 Position/attach railings and steps
- 2.25.13 Install boards on balconies, decks, porches, and steps

Competency 2.26: Install shutters in accordance with project specifications*

*Competency Builders:*

- 2.26.1 Determine job requirements*
- 2.26.2 Position/attach exterior decorative shutters*
- 2.26.3 Position/attach exterior functional shutters*
- 2.26.4 Position/attach interior shutters*

Competency 2.27: Frame wood and metal wall partitions in accordance with project specifications

*Competency Builders:*

- 2.27.1 Determine job requirements
- 2.27.2 Lay out wall assemblies
- 2.27.3 Cut plates and headers or metal track
- 2.27.4 Install plates and headers or metal track
- 2.27.5 Cut studs
- 2.27.6 Install studs

Competency 2.28: Repair doors, windows, and screens in accordance with project specifications

*Competency Builders:*

- 2.28.1 Determine job requirements
- 2.28.2 Adjust hinges on doors*
- 2.28.3 Replace hinges on doors
- 2.28.4 Inspect door closures
- 2.28.5 Replace door closures*
- 2.28.6 Inspect panic bars on doors
- 2.28.7 Repair panic bars on doors*
- 2.28.8 Install panic bars on doors*
- 2.28.9 Lubricate locks

*Continued*
**Competency 2.28:** Repair doors, windows, and screens in accordance with project specifications—Continued

- 2.28.10 Change lock cylinders*
- 2.28.11 Caulk doors
- 2.28.12 Remove glass in metal- or wood-frame windows
- 2.28.13 Measure glass for metal- or wood-frame windows
- 2.28.14 Replace glass in metal or wood-frame windows
- 2.28.15 Repair window glaze seals
- 2.28.16 Replace sash locks on windows
- 2.28.17 Inspect window operators and locks
- 2.28.18 Replace window operators and locks
- 2.28.19 Adjust window closures*
- 2.28.20 Replace window closures*
- 2.28.21 Repair window frames
- 2.28.22 Caulk windows
- 2.28.23 Replace screens in wood or metal frames
- 2.28.24 Maintain weather stripping
- 2.28.25 Replace weather stripping
- 2.28.26 Replace sweeps and stops
- 2.28.27 Maintain sweeps and stops

**Unit 3: Roofing Applications and Repairs**

**Competency 3.1:** Install drip edges and eaves flashing

*Competency Builders:*

- 3.1.1 Determine job requirements
- 3.1.2 Assemble materials for drip edges and eaves flashing
- 3.1.3 Install drip edges
- 3.1.4 Bend drip edges to fit pitch of roof
- 3.1.5 Install flashing

**Competency 3.2:** Install/replace or repair fiberglass or asphalt shingles and caps in accordance with manufacturer’s specifications and building plans

*Competency Builders:*

- 3.2.1 Select materials
- 3.2.2 Determine installation method
- 3.2.3 Determine scaffolding and/or roof jack requirements*
- 3.2.4 Erect scaffolding in accordance with Occupational Safety and Health Administration (OSHA) standards*
- 3.2.5 Install felt paper
- 3.2.6 Install valley material
- 3.2.7 Install starter strip
- 3.2.8 Strike line for first course
- 3.2.9 Install first course of shingles
- 3.2.10 Install roof jacks

*Continued*
Competency 3.2: Install/replace or repair fiberglass or asphalt shingles and caps in accordance with manufacturer’s specifications and building plans—Continued

3.2.11 Install succeeding courses of shingles
3.2.12 Seal pipes and vents on roofs
3.2.13 Install step and chimney flashing
3.2.14 Install hip and ridge caps
3.2.15 Repair leaks and damaged areas
3.2.16 Replace damaged shingles
3.2.17 Reroof over existing shingles

Competency 3.3: Install or repair roll roofing in accordance with manufacturer’s specifications and building plans

Competency Builders:

3.3.1 Select materials
3.3.2 Determine installation method
3.3.3 Determine scaffolding and/or roof jack requirements*
3.3.4 Erect scaffolding in accordance with OSHA standards*
3.3.5 Install felt paper
3.3.6 Install valley material
3.3.7 Strike line for first strip
3.3.8 Install starter strip
3.3.9 Install roof jacks
3.3.10 Install succeeding strips
3.3.11 Install ridge cap
3.3.12 Repair roll roofing

Competency 3.4: Install/replace or repair wood, slate, tile, and metal shingles in accordance with manufacturer’s specifications and building plans

Competency Builders:

3.4.1 Select materials
3.4.2 Determine installation method
3.4.3 Determine scaffolding and/or roof jack requirements*
3.4.4 Erect scaffolding in accordance with OSHA standards*
3.4.5 Install underlayment
3.4.6 Install valleys
3.4.7 Install starter course
3.4.8 Install doubler course
3.4.9 Establish location and alignment of shingles by striking a chalk line or attaching a temporary straightedge
3.4.10 Install succeeding courses of shingles
3.4.11 Install shingles around flashing and vents
3.4.12 Install ridge cap shingles
3.4.13 Repair leaks and damaged areas
3.4.14 Replace damaged shingles

*Advancing 20
Unit 4: Ceramic Tile Applications and Repairs

Competency 4.1: Maintain ceramic tile surfaces

Competency Builders:
4.1.1 Prepare surfaces
4.1.2 Reset loose tiles
4.1.3 Regrout tiles
4.1.4 Reseal surfaces

Competency 4.2: Install/replace sections of tile

Competency Builders:
4.2.1 Determine job requirements
4.2.2 Remove damaged sections
4.2.3 Install/repair substructure
4.2.4 Prepare substructure
4.2.5 Cut tiles
4.2.6 Fit tiles
4.2.7 Strike reference lines
4.2.8 Install tiles
4.2.9 Grout tiles
4.2.10 Seal tiles

Unit 5: Masonry Applications and Repairs

Competency 5.1: Estimate needed materials

Competency Builders:
5.1.1 Identify specified brick or block type and size
5.1.2 Identify specified bond pattern
5.1.3 Identify specified joint thickness
5.1.4 Calculate square footage of wall
5.1.5 Calculate number of bricks needed for a wall of given dimensions
5.1.6 Calculate number of blocks needed for a wall of given dimensions
5.1.7 Calculate mortar requirements

Competency 5.2 Establish stocked work area in accordance with project specifications

Competency Builders:
5.2.1 Identify location of work area
5.2.2 Prepare work area (e.g., clean and level the site)
5.2.3 Identify types of materials needed in accordance with job specifications
5.2.4 Install scaffolding in accordance with OSHA standards
5.2.5 Lay out materials for job
5.2.6 Prepare mortar boards and stands
Competency 5.3: Prepare mortar in accordance with manufacturer's specifications

Competency Builders:
5.3.1 Determine job requirements
5.3.2 Identify tools and equipment used to mix mortar and the functions of each
5.3.3 Identify factors affecting mortar consistency
5.3.4 Identify common ratios of mortar mixes
5.3.5 Mix mortar (i.e., Types M, N, S, and O) manually
5.3.6 Mix mortar (i.e., Types M, N, S, and O) mechanically
5.3.7 Place mortar on mortar boards

Competency 5.4: Repair rowlock windowsills in accordance with project specifications

Competency Builders:
5.4.1 Cut brick to size
5.4.2 Lay brick to specified dimensions
5.4.3 Maintain degree of slope
5.4.4 Maintain uniform joints
5.4.5 Maintain plumb
5.4.6 Tool joints to match existing joints

Competency 5.5: Repair brick jambs in accordance with project specifications

Competency Builders:
5.5.1 Lay out stretcher
5.5.2 Lay jamb units to specified dimensions
5.5.3 Maintain bond
5.5.4 Maintain level and plumb
5.5.5 Tool joints to match existing joints

Competency 5.6: Replace brick lintels in accordance with project specifications

Competency Builders:
5.6.1 Identify types of lintels
5.6.2 Determine lintel removal method appropriate for given job
5.6.3 Position lintels
5.6.4 Set lintels
5.6.5 Paint lintels as necessary

Competency 5.7: Set brick window frames in accordance with project specifications*

Competency Builders:
5.7.1 Determine job requirements*
5.7.2 Check trueness of masonry units already set using a level*
5.7.3 Clean sash slots*
5.7.4 Interpret blueprints*
5.7.5 Install windows*
5.7.6 Install lintels*
5.7.7 Install sills*
OCCP: Building and Property Maintenance

Competency 5.8:  Set brick door frames in accordance with project specifications*

Competency Builders:
5.8.1  Determine job requirements*
5.8.2  Check trueness of masonry units already set using a level*
5.8.3  Interpret blueprints*
5.8.4  Install temporary bracing in rough openings*
5.8.5  Install lintels*
5.8.6  Install door frames and anchors*

Competency 5.9:  Build brick and block walls in accordance with project specifications

Competency Builders:
5.9.1  Determine job requirements
5.9.2  Lay brick and block
5.9.3  Install reinforcing
5.9.4  Parge/waterproof walls

Competency 5.10:  Tuckpoint masonry walls in accordance with existing structure*

Competency Builders:
5.10.1  Determine source of joint decay*
5.10.2  Determine job requirements*
5.10.3  Cut back decayed mortar to a uniform depth*
5.10.4  Clean joints*
5.10.5  Point joints using tucking tools*
5.10.6  Shape finished masonry joints using joint tools*

Competency 5.11:  Lay glass blocks*

Competency Builders:
5.11.1  Determine job requirements*
5.11.2  Measure opening*
5.11.3  Chase bond*
5.11.4  Install spacers (i.e., expansion strips)*
5.11.5  Set blocks*
5.11.6  Tuck joints using a grout bag*

Competency 5.12:  Apply caulking

Competency Builders:
5.12.1  Determine job requirements
5.12.2  Identify reasons for caulking
5.12.3  Match types of caulking to specific uses
5.12.4  Replace caulking in expansion joints
Competency 5.13: Demonstrate knowledge of the procedures for cleaning masonry surfaces*

**Competency Builders:**
- 5.13.1 Determine job requirements*
- 5.13.2 Identify reasons for cleaning masonry surfaces*
- 5.13.3 Identify methods of wall cleaning*
- 5.13.4 Identify cleaning equipment*
- 5.13.5 Identify types of cleaning material*
- 5.13.6 Identify the safety precautions to be followed when cleaning masonry surfaces (e.g., check MSDS)*

Competency 5.14: Maintain exterior walkways and steps*

**Competency Builders:**
- 5.14.1 Determine job requirements*
- 5.14.2 Repaint stone and concrete steps*
- 5.14.3 Repair stone and concrete steps*
- 5.14.4 Repair concrete walkways*
- 5.14.5 Repair asphalt walkways*
- 5.14.6 Repair stone walkways*

**Unit 6:** Electrical Installations and Repairs

Competency 6.1: Apply knowledge of the *National Electric Code (NEC)*®

**Competency Builders:**
- 6.1.1 Locate required information in the *NEC*
- 6.1.2 Select materials in accordance with the *NEC*
- 6.1.3 Select methods in accordance with the *NEC*
- 6.1.4 Select applications in accordance with the *NEC*
- 6.1.5 Select applicable safety procedures in accordance with the *NEC*

Competency 6.2: Interpret drawings and specifications

**Competency Builders:**
- 6.2.1 Interpret local codes
- 6.2.2 Identify contractor’s responsibilities
- 6.2.3 Identify standard lines and symbols
- 6.2.4 Measure line segments using an architect’s scale
- 6.2.5 Identify dimensions
- 6.2.6 Interpret construction views, floor plans, and elevations*
- 6.2.7 Interpret section views
- 6.2.8 Interpret ladder diagrams*

*Advancing 21

*National Electrical Code® and NEC® are Registered Trademarks of the National Fire Protection Association, Inc., Quincy, Massachusetts.*
Competency 6.2: Interpret drawings and specifications—Continued

6.2.9 Interpret interior details
6.2.10 Interpret wiring details
6.2.11 Develop list of needed materials

Competency 6.3: Plan/lay out jobs*

Competency Builders:

6.3.1 Visit work site*
6.3.2 Sketch work site*
6.3.3 Access needed information using the NEC*
6.3.4 Calculate individual circuit loads*
6.3.5 Determine number of outlets per circuit*
6.3.6 Determine special outlet requirements*
6.3.7 Notify utility company as needed*

Competency 6.4: Install rough-in wiring in accordance with the NEC and local codes

Competency Builders:

6.4.1 Determine job requirements
6.4.2 Install wiring in new walls
6.4.3 Install wiring in existing walls
6.4.4 Install wiring between and in boxes
6.4.5 Install grounds
6.4.6 Splice wiring in boxes
6.4.7 Install light circuits with single-pole switches
6.4.8 Install light circuits with three-way switches
6.4.9 Install light circuits with four-way switches

Competency 6.5: Install finish wiring in accordance with the NEC and local codes

Competency Builders:

6.5.1 Determine electrical requirements for finish wiring
6.5.2 Install lighting fixtures
6.5.3 Install wiring devices and covers, including ground-fault interrupter (GFI) receptacles and breakers
6.5.4 Verify installation
6.5.5 Connect appliances

Competency 6.6: Use test equipment in accordance with manufacturer’s directions

Competency Builders:

6.6.1 Measure voltage, current, and resistance using a volt-ohm-multimeter (VOM)
6.6.2 Measure voltage using a voltage tester (e.g., Wiggins)
6.6.3 Check polarity using an outlet tester
6.6.4 Measure DC or AC current using an ammeter

*Advancing
Competency 6.7: Maintain electrical systems in accordance with building blueprint specifications, the NEC, and local codes

**Competency Builders:**

6.7.1 Troubleshoot/diagnose failures
6.7.2 Repair incandescent and fluorescent lighting fixtures
6.7.3 Replace relays and timer
6.7.4 Replace faulty wiring
6.7.5 Replace fuses
6.7.6 Repair battery-backup emergency lighting systems*
6.7.7 Repair generator-backup emergency lighting systems*
6.7.8 Reset breakers
6.7.9 Test circuits and GFI devices
6.7.10 Replace circuit breakers, including GFI breakers
6.7.11 Replace basic electrical components
6.7.12 Install lighting control devices
6.7.13 Repair high-pressure lighting
6.7.14 Replace high-pressure lighting

Competency 6.8: Trace circuits to locate problems*

**Competency Builders:**

6.8.1 Identify circuit types or subsystems*
6.8.2 Locate specific circuits using diagrams*
6.8.3 Apply established troubleshooting techniques*
6.8.4 Replace faulty components*

Competency 6.9: Install security systems in accordance with local and state codes*

**Competency Builders:**

6.9.1 Determine job requirements*
6.9.2 Lay out systems*
6.9.3 Install systems in accordance with manufacturer’s specifications*
6.9.4 Verify installation*

Competency 6.10: Use soldering tools in accordance with manufacturer’s specifications*

**Competency Builders:**

6.10.1 Determine job requirements*
6.10.2 Wear approved eye protection*
6.10.3 Select soldering tools and supplies appropriate for given job*
6.10.4 Apply soldering and desoldering techniques appropriate for given job*
Competency 6.11: Repair appliances in accordance with manufacturer’s specifications*

Competency Builders:

6.11.1 Repair electric ranges and ovens*
6.11.2 Repair washers and dryers*
6.11.3 Repair dishwashers*
6.11.4 Repair refrigerators*
6.11.5 Repair disposal units*

Unit 7: Plumbing Installations and Repairs

Competency 7.1: Install piping systems in accordance with manufacturer’s specifications and local codes

Competency Builders:

7.1.1 Determine job requirements
7.1.2 Interpret drawings
7.1.3 Measure copper pipe
7.1.4 Cut copper pipe
7.1.5 Ream copper pipe
7.1.6 Prefit copper pipe with connectors
7.1.7 Bend copper tubing or pipe using a spring bender
7.1.8 Clean connectors
7.1.9 Apply flux to pipe and joint areas
7.1.10 Sweat copper pipe
7.1.11 Measure polyvinyl-chloride (PVC) pipe
7.1.12 Cut PVC pipe
7.1.13 Fit PVC pipe
7.1.14 Clean PVC connectors
7.1.15 Glue PVC pipes and fittings
7.1.16 Measure steel pipe
7.1.17 Cut steel pipe
7.1.18 Ream steel pipe
7.1.19 Thread steel pipe
7.1.20 Bend steel pipe using a heavy-duty bending tool*
7.1.21 Bend steel pipe using a chain vise and torch*
7.1.22 Braze pipe using a gas torch and filler metal*
7.1.23 Install polybutylene pipe and fittings
7.1.24 Join plastic pipe to steel pipe
7.1.25 Join copper tubing to brass pipe fittings
7.1.26 Join copper tubing to steel pipe
7.1.27 Join copper tubing or pipe to plastic pipe

*Advancing
Competency 7.2: Install plumbing fixtures in accordance with manufacturer’s specifications and local codes

**Competency Builders:**
7.2.1 Interpret drawings
7.2.2 Install water closets
7.2.3 Install sinks
7.2.4 Install faucet assemblies
7.2.5 Install tubs and shower enclosures
7.2.6 Connect drains and traps
7.2.7 Install water pumps*
7.2.8 Install electric and gas water heaters
7.2.9 Perform leak tests
7.2.10 Insulate pipes
7.2.11 Perform back-flow test procedures*
7.2.12 Install disposal units
7.2.13 Connect ice makers

Competency 7.3: Maintain plumbing installations in accordance with manufacturer’s specifications and local codes

**Competency Builders:**
7.3.1 Open clogged drains
7.3.2 Repair copper pipe
7.3.3 Repair PVC pipe
7.3.4 Repair faucets and valves
7.3.5 Change water filters and screens
7.3.6 Regulate water levels, pressures, and temperatures
7.3.7 Service chlorinators*
7.3.8 Repair water heaters*
7.3.9 Maintain compressed-air systems*
7.3.10 Maintain grease traps*
7.3.11 Maintain garage interceptors*
7.3.12 Repair water closet components
7.3.13 Replace water closet components
7.3.14 Replace traps

Competency 7.4: Maintain laundry systems*

**Competency Builders:**
7.4.1 Determine job requirements*
7.4.2 Start up washers and dryers*
7.4.3 Check traps, coils, and filters*
7.4.4 Replace coils*
7.4.5 Unclog traps*
7.4.6 Repair leaks*
7.4.7 Troubleshoot malfunctioning equipment (e.g., check for symptoms related to pressure, temperature, and flow)*
7.4.8 Take interim corrective actions (e.g., shut off steam or gas)*
7.4.9 Report abnormal conditions*
7.4.10 Complete work orders*
Competency 7.5: Maintain pumps*

Competency Builders:

7.5.1 Prime pumps*
7.5.2 Tighten connections*
7.5.3 Ensure that connections are leak-proof*
7.5.4 Ensure required level of flow, pressure, and temperature*
7.5.5 Monitor pump operation (e.g., check for unusual noises, excessive vibration, unusual smells; check lubrication levels; check pump pressure, flow, and temperature; inspect for leaks)*
7.5.6 Perform scheduled and running maintenance tasks*
7.5.7 Troubleshoot malfunctioning pumps (e.g., check for symptoms of overheating, cavitation, over-speed, loss of capacity, and stoppage)*
7.5.8 Take interim corrective actions (e.g., shut down pump, switch to standby pump)*
7.5.9 Report malfunctions*
7.5.10 Initiate work orders*

Competency 7.6: Maintain water treatment systems*

Competency Builders:

7.6.1 Start up water treatment systems*
7.6.2 Establish required flow*
7.6.3 Operate water treatment systems (e.g., maintain flows, add softeners)*
7.6.4 Monitor system operation (e.g., check for leaks, pressure, flow)*
7.6.5 Perform scheduled and running maintenance tasks (e.g., lubricate equipment, change filter, clean internals, complete maintenance log book)*
7.6.6 Troubleshoot malfunctioning water treatment systems (e.g., check for symptoms of overheating, leakage, loss of pressure, and stoppage)*
7.6.7 Take interim corrective actions (e.g., shut down system, switch tanks, clean tanks)*
7.6.8 Report malfunctions*
7.6.9 Initiate work orders*

Unit 8: Welding and Cutting Operations*

Competency 8.1: Use arc welding equipment*

Competency Builders:

8.1.1 Wear personal safety apparatus in accordance with Occupational Safety and Health Administration (OSHA) standards*
8.1.2 Identify arc welding tools and equipment and the functions of each*
8.1.3 Weld with arc welding equipment*
8.1.4 Cut with arc welding equipment*

Competency 8.2: Use oxyacetylene welding equipment*

Competency Builders:

8.2.1 Wear personal safety apparatus in accordance with OSHA standards*
8.2.2 Identify oxyacetylene welding tools and equipment and the functions of each*
8.2.3 Ensure adequate ventilation and lighting for welding operations* Continued
Competency 8.2: Use oxyacetylene welding equipment—Continued

- 8.2.4 Remove combustibles*
- 8.2.5 Wet down combustibles*
- 8.2.6 Put fire extinguisher in place*
- 8.2.7 Make water available for post-oxyacetylene fire prevention*
- 8.2.8 Assemble oxyacetylene welding equipment*
- 8.2.9 Weld with oxyacetylene welding equipment*
- 8.2.10 Cut with oxyacetylene welding equipment*
- 8.2.11 Clean oxyacetylene welding equipment*
- 8.2.12 Disassemble oxyacetylene welding equipment*
- 8.2.13 Load oxyacetylene equipment and supplies for transport*
- 8.2.14 Secure oxygen and acetylene tanks*

Unit 9: Heating, Ventilation, Air-Conditioning, and Refrigeration Installations and Service

Competency 9.1: Repair refrigeration units in accordance with applicable codes and EPA guidelines*

Competency Builders:

- 9.1.1 Access needed information using operator's manuals*
- 9.1.2 Check head and suction pressure using gauges*
- 9.1.3 Troubleshoot refrigeration units*
- 9.1.4 Test for leaks*
- 9.1.5 Replace compressors*
- 9.1.6 Install tube connections*
- 9.1.7 Install expansion valves*
- 9.1.8 Install temperature valves*
- 9.1.9 Install pressure valves*
- 9.1.10 Evacuate systems*
- 9.1.11 Charge systems*

Competency 9.2: Maintain heating, ventilation, and air-conditioning systems and components in accordance with manufacturer's specifications

Competency Builders:

- 9.2.1 Access needed information using operator's manuals
- 9.2.2 Perform preventive maintenance tasks
- 9.2.3 Troubleshoot forced-air control systems*
- 9.2.4 Troubleshoot gas system components*
- 9.2.5 Change filters
- 9.2.6 Clean coils
- 9.2.7 Check fans
- 9.2.8 Analyze gauge and thermometer readings*
- 9.2.9 Record gauge and thermometer readings
- 9.2.10 Make minor burner repairs*
Competency 9.2: Maintain heating, ventilation, and air-conditioning systems and components in accordance with manufacturer's specifications—Continued

9.2.11 Check stack temperature*
9.2.12 Calibrate electrical and mechanical temperature controllers*
9.2.13 Clean heat exchangers*
9.2.14 Repair pumps*
9.2.15 Lubricate moving system components
9.2.16 Ensure that guards are in place
9.2.17 Inspect for unusual noises, odd smells, excessive vibration, and visual defects*
9.2.18 Ensure that bearings and shafts are free of visual defects*
9.2.19 Replace belts and pulleys
9.2.20 Test air-conditioning water for algae*
9.2.21 Add rust inhibitors and algacides to air-conditioning water*
9.2.22 Report malfunctioning units to appropriate personnel
9.2.23 Verify that there is complete combustion*
9.2.24 Adjust dampers*
9.2.25 Verify that there is an adequate supply of fuel*
9.2.26 Verify that there is a correct mix of gases*
9.2.27 Clean ducts and accessories
9.2.28 Shut down systems as required

Competency 9.3: Replace heating, ventilation, and air-conditioning systems and components in accordance with manufacturer’s specifications and applicable codes*

Competency Builders:

9.3.1 Replace hydronic baseboard heating units*
9.3.2 Reconnect related wiring and controls*
9.3.3 Replace wall heaters*
9.3.4 Replace exhaust/vent fans*
9.3.5 Replace window/sleeve air-conditioning units*
9.3.6 Modify duct work to fit new installations*
9.3.7 Replace pumps and motors*

Competency 9.4: Maintain compressors*

Competency Builders:

9.4.1 Start up compressors*
9.4.2 Operate compressors from safe location*
9.4.3 Adjust outlet pressure*
9.4.4 Ensure minimal leakage*
9.4.5 Monitor operating compressor (e.g., check for leaks or unusual smells, read gauges, check for buildup on and obstructions to switches and controls, check cooling system)*
9.4.6 Perform running and scheduled maintenance tasks (e.g., check lubricant levels, belts, and pulleys; remove excess water/moisture accumulations; bleed pump)*
9.4.7 Troubleshoot malfunctioning compressor (e.g., check for symptoms of overheating, loss of pressure, and stoppage)*
9.4.8 Take interim corrective actions (e.g., shut down compressor, switch to stand-by compressor)*
9.4.9 Report malfunctions*
9.4.10 Initiate work orders*
Unit 10: Painting and Wallpapering

Competency 10.1: Use painting equipment and tools in accordance with established operation and maintenance procedures

Competency Builders:
10.1.1 Use personal safety apparatus appropriate for given job
10.1.2 Identify standard painting equipment and tools (e.g., brushes, rollers) and the functions of each
10.1.3 Conduct routine inspections of painting equipment and tools
10.1.4 Follow established procedures for the use of painting equipment and tools
10.1.5 Maintain painting equipment and tools
10.1.6 Identify types of spraying equipment and the functions of each
10.1.7 Conduct routine inspections of spraying equipment*
10.1.8 Follow established procedures for the use of spraying equipment*
10.1.9 Maintain spraying equipment*

Competency 10.2: Prepare surfaces to be painted

Competency Builders:
10.2.1 Caulk surfaces
10.2.2 Tape seams
10.2.3 Spackle surfaces
10.2.4 Sand surfaces
10.2.5 Clean surfaces
10.2.6 Measure moisture content of wood surfaces
10.2.7 Seal surfaces
10.2.8 Prime surfaces

Competency 10.3: Prepare the work site

Competency Builders:
10.3.1 Determine job requirements
10.3.2 Select the materials appropriate for given job
10.3.3 Select the equipment and tools appropriate for given job
10.3.4 Erect scaffolding and ladders in accordance with Occupational Safety and Health Administration (OSHA) standards*
10.3.5 Perform safety inspections of ladders and scaffolding*
10.3.6 Spread drop cloths
10.3.7 Provide adequate ventilation
10.3.8 Apply masking liquids and tape
Competency 10.4: Prepare paint in accordance with manufacturer’s specifications

**Competency Builders:**
10.4.1 Interpret paint charts*
10.4.2 Match colors*
10.4.3 Mix colors to obtain desired shades*
10.4.4 Perform paint styling through color selection*
10.4.5 Stir/mix paint
10.4.6 Thin paints
10.4.7 Strain paints

Competency 10.5: Apply paint to interior and exterior surfaces in accordance with manufacturer’s specifications

**Competency Builders:**
10.5.1 Apply first coat
10.5.2 Apply second coat as necessary
10.5.3 Paint over stain
10.5.4 Paint surfaces using a roller applicator
10.5.5 Paint surfaces using a brush applicator
10.5.6 Paint surfaces using a compressed-air spray gun*
10.5.7 Paint surfaces using an airless spray gun*

Competency 10.6: Apply wood finishes in accordance with manufacturer’s specifications

**Competency Builders:**
10.6.1 Determine job requirements
10.6.2 Inspect condition of wood
10.6.3 Identify open- and closed-grained woods
10.6.4 Bleach woods
10.6.5 Stain woods
10.6.6 Apply/finish wood fillers
10.6.7 Apply sealer/shellac, varnish, and lacquer finishes
10.6.8 Rub/polish sealer/shellac, varnish, and lacquer finishes
10.6.9 Identify finish defects
10.6.10 Finish hardwood and softwood
10.6.11 Repair finishes
10.6.12 Apply waxes

Competency 10.7: Apply brick, cement, and stucco finishes*

**Competency Builders:**
10.7.1 Determine job requirements*
10.7.2 Prepare bricks for paint*
10.7.3 Mix paint for application to brick*
10.7.4 Apply paint to brick*
10.7.5 Prepare cement or stucco walls for paint*
10.7.6 Prepare cement floors for paint*
10.7.7 Mix paint for application to cement or stucco*
10.7.8 Apply paint to cement or stucco*

---

*Advancing
Competency 10.8: Apply metal finishes in accordance with manufacturer’s specifications

**Competency Builders:**
- 10.8.1 Determine job requirements
- 10.8.2 Prepare metal surfaces for painting
- 10.8.3 Mix paint for application to metal surfaces (e.g., doors, door facings, downspouts, gutters, and flashing)
- 10.8.4 Apply paint to metal surfaces
- 10.8.5 Mix aluminum paint
- 10.8.6 Apply aluminum paint to metal surfaces
- 10.8.7 Apply paint electrostatically to metal surfaces*

Competency 10.9: Apply special finishes in accordance with manufacturer’s specifications*

**Competency Builders:**
- 10.9.1 Apply antique finishes*
- 10.9.2 Apply stipple finishes*
- 10.9.3 Apply spatter finishes*
- 10.9.4 Apply texture paints*
- 10.9.5 Apply designs using stencils*
- 10.9.6 Reproduce the characteristics of various woods using graining techniques*

Competency 10.10: Hang wall coverings in accordance with manufacturer’s specifications

**Competency Builders:**
- 10.10.1 Select wall-covering materials appropriate for a given job
- 10.10.2 Identify wall-covering tools and the functions of each
- 10.10.3 Select wall-covering tools appropriate for given job
- 10.10.4 Follow established procedures for the use of wall-covering tools
- 10.10.5 Maintain wall-covering tools
- 10.10.6 Prepare new drywall surfaces for wall coverings
- 10.10.7 Prepare new plaster surfaces for wall coverings
- 10.10.8 Prepare previously papered surfaces for wall coverings
- 10.10.9 Strike reference lines
- 10.10.10 Measure wall coverings
- 10.10.11 Trim wall coverings
- 10.10.12 Apply paste to trimmed sections of wall coverings
- 10.10.13 Hang wall coverings on vertical surfaces
- 10.10.14 Hang/trim wall coverings around doors and windows
- 10.10.15 Hang/trim wall coverings around inside corners
- 10.10.16 Hang/trim wall coverings around outside corners
- 10.10.17 Hang/trim wall coverings inside and around arches
- 10.10.18 Hang/trim wall coverings on ceilings
- 10.10.19 Hang murals
- 10.10.20 Hang borders
- 10.10.21 Cover switches and outlet plates

*Advancing
Competency 10.11: Maintain ceilings and interior walls

*Competency Builders:*

10.11.1 Determine job requirements
10.11.2 Repair tears in wall coverings
10.11.3 Patch plaster
10.11.4 Select cleaning products appropriate to given surface
10.11.5 Apply cleaning products in accordance with manufacturer’s specifications
Occupational Competency Analysis Profile:

Employability
Unit 1: Career Development

Competency 1.1: Investigate career options

**Competency Builders:**

1.1.1 Determine interests and aptitudes
1.1.2 Identify career options
1.1.3 Research interests, knowledge, abilities, and skills needed in an occupation
1.1.4 Select careers that best match interests and aptitudes
1.1.5 Identify advantages and disadvantages of career options, including self-employment and nontraditional careers

Competency 1.2: Utilize career information

**Competency Builders:**

1.2.1 Identify a range of career information resources
1.2.2 Use a range of resources to obtain career information (e.g., handbooks, career materials, labor market information, and computerized career-information delivery systems)
1.2.3 Demonstrate knowledge of various classification systems that categorize occupations and industries (e.g., Dictionary of Occupational Titles)
1.2.4 Describe the educational requirements of various occupations
1.2.5 Identify individuals in selected occupations as possible information resources, role models, or mentors
1.2.6 Describe the impact of factors such as population, climate, employment trends, and geographic location on occupational opportunities
1.2.7 Assess differences in the wages, benefits, annual incomes, cost of living, and job opportunities associated with selected career options
1.2.8 Determine labor market projections for selected career options

Competency 1.3: Participate in a career exploration activity

**Competency Builders:**

1.3.1 Identify career exploration activities (e.g., job shadowing, mentoring, volunteer experiences, part-time employment, and cooperative education)
1.3.2 Compare traits, skills, and characteristics required for specific career choices with individual’s traits, skills, and characteristics
1.3.3 Recognize potential conflicts between personal characteristics and career choice areas
1.3.4 Describe the impact of exploration activities on current career choices

Competency 1.4: Assess the relationship between educational achievement and career planning

**Competency Builders:**

1.4.1 Describe how skills developed in academic and vocational programs relate to career goals
1.4.2 Describe how education relates to the selection of a college major, further training, and/or entry into the job market
1.4.3 Identify skills that can apply to a variety of occupational requirements
1.4.4 Explain the importance of possessing learning skills in the workplace
Competency 1.5: Develop an individual career plan

**Competency Builders:**

1.5.1 Identify career goal(s)
1.5.2 Identify worker conditions, education, training, and employment opportunities related to selected career goal(s)
1.5.3 Describe school and community resources available to help achieve career goal(s)
1.5.4 Identify career ladders possible within selected career goal(s)*
1.5.5 Identify additional experiences needed to move up identified career ladders*
1.5.6 Recognize that changes may require retraining and upgrading of employees’ skills

Competency 1.6: Annually review/revise the individual career plan

**Competency Builders:**

1.6.1 Identify experiences that have reinforced selection of the specific career goal(s) listed on the individual career plan
1.6.2 Identify experiences that have changed the specific career goal(s) listed on the individual career plan
1.6.3 Modify the career goals(s) and educational plans on the individual career plan
1.6.4 Ensure that parents or guardians provide input into the individual career plan process
1.6.5 Identify the correlation between the individual career plan and the actual courses to be taken in high school
1.6.6 Identify the correlation between the individual career plan and postsecondary training, adult education, or employment

Unit 2: Decision Making and Problem Solving

Competency 2.1: Apply decision-making techniques in the workplace

**Competency Builders:**

2.1.1 Identify the decision to be made
2.1.2 Compare alternatives
2.1.3 Determine the consequences of each alternative
2.1.4 Make decisions based on values and goals
2.1.5 Evaluate the decision made

Competency 2.2: Apply problem-solving techniques in the workplace

**Competency Builders:**

2.2.1 Diagnose the problem, its urgency, and its causes
2.2.2 Identify alternatives and their consequences in relation to the problem
2.2.3 Recognize multicultural and nonsexist dimensions of problem solving
2.2.4 Explore possible solutions to the problem using a variety of resources
2.2.5 Compare/contrast the advantages and disadvantages of each solution
2.2.6 Determine appropriate action
2.2.7 Implement action
2.2.8 Evaluate results of action implemented

*Advancing 35*
Unit 3: Work Ethic

Competency 3.1: Evaluate the relationship of self-esteem to work ethic

*Competency Builders:*

3.1.1 Identify special characteristics and abilities in self and others
3.1.2 Identify internal and external factors that affect self-esteem
3.1.3 Identify how individual characteristics relate to achieving personal, social, educational, and career goals
3.1.4 Identify the relationship between personal behavior and self-concept

Competency 3.2: Analyze the relationship of personal values and goals to work ethic both in and out of the workplace

*Competency Builders:*

3.2.1 Distinguish between values and goals
3.2.2 Determine the importance of values and goals
3.2.3 Evaluate how one's values affect one's goals
3.2.4 Identify own short- and long-term goals
3.2.5 Prioritize own short- and long-term goals
3.2.6 Identify how one's values are reflected in one's work ethic
3.2.7 Identify how interactions in the workplace affect one's work ethic
3.2.8 Identify how life changes affect one's work ethic

Competency 3.3: Demonstrate work ethic

*Competency Builders:*

3.3.1 Examine factors that influence work ethic
3.3.2 Display initiative
3.3.3 Demonstrate dependable attendance and punctuality
3.3.4 Demonstrate organizational skills
3.3.5 Adhere to schedules and deadlines
3.3.6 Demonstrate a willingness to learn
3.3.7 Demonstrate a willingness to accept feedback and evaluation
3.3.8 Demonstrate interpersonal skills required for working with and for others
3.3.9 Describe appropriate employer-employee interactions for various situations
3.3.10 Express feelings and ideas in an appropriate manner for the workplace

Competency 3.4: Demonstrate safety skills

*Competency Builders:*

3.4.1 Practice safe work habits
3.4.2 Identify safety hazards
3.4.3 Employ preventative safety measures
3.4.4 Demonstrate appropriate care and use of equipment and facilities to ensure safety
3.4.5 Comply with safety and emergency procedures
Unit 4: Job-Seeking Skills

Competency 4.1: Prepare for employment

*Competency Builders:*

4.1.1 Identify traditional and nontraditional employment sources
4.1.2 Utilize employment sources
4.1.3 Research job opportunities, including nontraditional careers
4.1.4 Interpret equal employment opportunity laws
4.1.5 Explain the critical importance of personal appearance, hygiene, and demeanor throughout the employment process
4.1.6 Prepare for generic employment tests and those specific to an occupation/organization

Competency 4.2: Develop a résumé

*Competency Builders:*

4.2.1 Identify personal strengths and weaknesses
4.2.2 List skills and/or abilities, career objective(s), accomplishments/achievements, educational background, work experience, volunteer/community contributions, and organizational memberships
4.2.3 Select an acceptable résumé format
4.2.4 Use correct grammar and spelling and concise wording
4.2.5 Secure references
4.2.6 Complete the résumé

Competency 4.3: Complete the job application process

*Competency Builders:*

4.3.1 Explain the importance of an application form
4.3.2 Obtain job application forms
4.3.3 Demonstrate appropriate behaviors (e.g., personal appearance, hygiene, and demeanor) for obtaining job application forms in person
4.3.4 Describe methods for handling illegal questions on job application forms
4.3.5 Demonstrate legible written communication skills using correct grammar and spelling and concise wording
4.3.6 Return application to appropriate person
4.3.7 Request interview
4.3.8 Follow up on application status

Competency 4.4: Demonstrate interviewing skills

*Competency Builders:*

4.4.1 Investigate interview procedures
4.4.2 Demonstrate appropriate behaviors (e.g., appearance, hygiene, and demeanor) for the interview
4.4.3 Demonstrate question-and-answer techniques
4.4.4 Demonstrate methods for handling difficult and/or illegal interview questions
4.4.5 Use correct grammar and concise wording
Competency 4.5: Secure employment

Competency Builders:

4.5.1 Identify present and future employment opportunities within an occupation/organization
4.5.2 Research the organization/company
4.5.3 Use follow-up techniques to enhance employment potential
4.5.4 Evaluate job offer(s)
4.5.5 Respond to job offer(s)

Unit 5: Job Retention and Career Advancement Skills

Competency 5.1: Analyze the organizational structure of the workplace

Competency Builders:

5.1.1 Identify employer expectations regarding job performance, work habits, attitudes, personal appearance, and hygiene
5.1.2 Comply with company policies and procedures
5.1.3 Examine the role/relationship between employee and employer
5.1.4 Recognize opportunities for advancement and reasons for termination
5.1.5 Recognize the organization’s ethics.

Competency 5.2: Maintain positive relations with others

Competency Builders:

5.2.1 Exhibit appropriate work habits and attitudes
5.2.2 Identify behaviors for establishing successful working relationships
5.2.3 Cooperate through teamwork and group participation
5.2.4 Demonstrate a willingness to compromise
5.2.5 Identify methods for dealing with harassment, bias, and discrimination based on race, color, national origin, gender, religion, disability, or age
5.2.6 Cooperate with authority
5.2.7 Accept supervision

Competency 5.3: Demonstrate accepted social and work behaviors

Competency Builders

5.3.1 Demonstrate a positive attitude
5.3.2 Demonstrate accepted conversation skills
5.3.3 Use good manners
5.3.4 Accept responsibility for assigned tasks
5.3.5 Demonstrate personal hygiene
5.3.6 Demonstrate knowledge of a position
5.3.7 Perform quality work
Competency 5.4: Analyze opportunities for personal and career growth*

*Competency Builders:
5.4.1 Determine opportunities within chosen occupation/organization*
5.4.2 Determine other career opportunities outside chosen occupation/organization*
5.4.3 Evaluate the factors involved in considering a new position within or outside an occupation/organization*
5.4.4 Exhibit characteristics needed for advancement*

Unit 6: Technology in the Workplace

Competency 6.1: Demonstrate knowledge of technology issues

*Competency Builders:
6.1.1 Demonstrate knowledge of the characteristics of technology
6.1.2 Demonstrate knowledge of how technology systems are applied
6.1.3 Assess the impact of technology on the individual, society, and environment
6.1.4 Demonstrate knowledge of the evolution of technology
6.1.5 Identify how people, information, tools and machines, energy, capital, physical space, and time influence the selection and use of technology
6.1.6 Identify legal and ethical issues related to technology (e.g., confidentiality, information sharing, copyright protection)

Competency 6.2: Demonstrate skills related to technology issues

*Competency Builders:
6.2.1 Exhibit willingness to adapt to technological change
6.2.2 Utilize technological systems
6.2.3 Utilize a variety of resources and processes to solve technological problems
6.2.4 Employ higher-order thinking skills for solving technological problems
6.2.5 Work as a team member in solving technological problems
6.2.6 Use technology in a safe and responsible manner
6.2.7 Apply science, mathematics, communication, and social studies concepts to solve technological problems
6.2.8 Demonstrate ingenuity and creativity in the use of technology*
6.2.9 Utilize a formal method (systems approach) in solving technological problems*
Unit 7: Lifelong Learning

Competency 7.1: Apply lifelong learning practices to individual situations

**Competency Builders:**

- 7.1.1 Define lifelong learning
- 7.1.2 Identify factors that cause the need for lifelong learning
- 7.1.3 Identify changes that may require the retraining and upgrading of employee’s skills
- 7.1.4 Identify avenues for lifelong learning
- 7.1.5 Participate in lifelong learning activities

Competency 7.2: Adapt to change

**Competency Builders:**

- 7.2.1 Analyze the causes and effects of change
- 7.2.2 Identify the effect of change on goals
- 7.2.3 Identify the importance of flexibility when reevaluating goals
- 7.2.4 Evaluate the need for lifelong learning experiences in adapting to change

Unit 8: Economic Education

Competency 8.1: Analyze how an economy functions as a whole

**Competency Builders:**

- 8.1.1 Describe how individuals and societies make choices to satisfy needs and wants with limited resources
- 8.1.2 Identify how production factors (land, labor, capital, and entrepreneurship) are used to produce goods and services
- 8.1.3 Illustrate how individuals and households exchange their resources for the income they use to buy goods and services
- 8.1.4 Explain how individuals and business firms use resources to produce goods and services to generate income
- 8.1.5 Identify characteristics of command, market, and traditional economies*
- 8.1.6 Describe how all levels of government assess taxes in order to provide services

Competency 8.2: Analyze how an economic system is a framework within which decisions are made by individuals and groups

**Competency Builders:**

- 8.2.1 List several individuals and groups that make economic decisions at the local, state, and national levels
- 8.2.2 Identify the important roles that local, state, and national governments play in a market economy

*Continued
Competency 8.2: Analyze how an economic system is a framework within which decisions are made by individuals and groups—Continued

8.2.3 List examples of how government decisions affect individuals
8.2.4 Identify how geographic locations affect the political and economic systems of the world
8.2.5 Evaluate how markets allocate goods and services
8.2.6 Explain how resources, goods, and services are exchanged in markets
8.2.7 Explain competition and its effect on the market

Competency 8.3: Analyze the importance of making informed personal financial decisions

Competency Builders:
8.3.1 Describe the need for personal management records
8.3.2 Create a personal budget
8.3.3 Create a budget for a family of four for one month
8.3.4 Explain how credit affects personal/family finances
8.3.5 Identify steps to avoid credit problems
8.3.6 Make informed consumer choices in response to personal needs and wants
8.3.7 Identify factors that influence consumer decisions (e.g., advertisements, peer groups, price, and location)
8.3.8 Explain the costs and benefits for individuals of various types of taxation at the local, state, and federal levels

Unit 9: Balancing Work and Family

Competency 9.1: Analyze the effects of family on work

Competency Builders:
9.1.1 Recognize how family values, goals, and priorities are reflected in the workplace
9.1.2 Identify present and future family structures and responsibilities
9.1.3 Describe personal and family roles
9.1.4 Analyze concerns of working parent(s)
9.1.5 Examine how family responsibilities can conflict with work
9.1.6 Identify ways to resolve family-related conflicts
9.1.7 Explain how to use support systems/community resources to help resolve family-related conflicts

Competency 9.2: Analyze the effects of work on family

Competency Builders:
9.2.1 Identify responsibilities associated with paid and nonpaid work
9.2.2 Compare the advantages and disadvantages of multiple incomes
9.2.3 Explain how work can conflict with family responsibilities
9.2.4 Explain how work-related stress can affect families
9.2.5 Identify family support systems and resources
Unit 10: Citizenship in the Workplace

Competency 10.1: Exercise the rights and responsibilities of citizenship in the workplace

Competency Builders:
- 10.1.1 Identify the basic rights and responsibilities of citizenship in the workplace
- 10.1.2 Identify situations in which compromise is necessary
- 10.1.3 Examine how individuals from various backgrounds contribute to the workplace
- 10.1.4 Demonstrate initiative to facilitate cooperation
- 10.1.5 Give/receive constructive criticism to enhance cooperation

Competency 10.2: Prepare to work in a multicultural society

Competency Builders:
- 10.2.1 Identify ways to live in a multicultural society with mutual respect and appreciation for others
- 10.2.2 Examine how culture and experience create differences in people
- 10.2.3 Demonstrate respect for the contributions made by all people
- 10.2.4 Investigate personal cultural background as a means of developing self-respect
- 10.2.5 Make personal choices that reduce discrimination, isolation, and prejudice
- 10.2.6 Work effectively with people irrespective of their race, gender, religion, ethnicity, disability, age, or cultural background

Unit 11: Leadership

Competency 11.1: Evaluate leadership styles appropriate for the workplace

Competency Builders:
- 11.1.1 Identify characteristics of effective leaders
- 11.1.2 Compare leadership styles
- 11.1.3 Demonstrate effective delegation skills
- 11.1.4 Investigate empowerment concepts
- 11.1.5 Identify opportunities to lead in the workplace

Competency 11.2: Demonstrate effective teamwork skills

Competency Builders:
- 11.2.1 Identify the characteristics of a valuable team member
- 11.2.2 Identify methods of involving each team member
- 11.2.3 Contribute to team efficiency and success
- 11.2.4 Determine ways to motivate team members
Competency 11.3: Utilize effective communication skills

*Competency Builders:*
11.3.1 Identify the importance of listening
11.3.2 Demonstrate effective listening skills
11.3.3 Demonstrate assertive communication techniques
11.3.4 Recognize the importance of verbal and nonverbal cues and messages
11.3.5 Prepare written material
11.3.6 Analyze written material
11.3.7 Give/receive feedback
11.3.8 Communicate thoughts
11.3.9 Use appropriate language
11.3.10 Follow oral and written instructions
11.3.11 Demonstrate effective telephone techniques
11.3.12 Identify technology in communications

Unit 12: Entrepreneurship

Competency 12.1: Evaluate the role of small business

*Competency Builders:*
12.1.1 Identify the impact of small business on the local economy
12.1.2 Examine the relationship of small business to a national (USA) and global economy
12.1.3 Identify factors that contribute to the success of small business
12.1.4 Identify factors that contribute to the failure of small business
12.1.5 Identify the components of a business plan

Competency 12.2: Examine entrepreneurship as a personal career option

*Competency Builders:*
12.2.1 Evaluate personal interests and skills
12.2.2 Compare personal interests and skills with those necessary for entrepreneurship
12.2.3 Determine motives for becoming an entrepreneur
12.2.4 Identify the advantages and disadvantages of owning a small business
12.2.5 Compare business ownership to working for others
Academic Job Profile
The Purpose of Job Profiling

Developed by American College Testing (ACT), the purpose of the Job Profiling process is to identify the level of applied academic skills that, according to business and industry, students must master to qualify for and be successful in their occupation of choice. The results of Job Profile "leveling" can help teachers to better target instruction toward their students' needs.

As part of the Ohio Vocational Competency Assessment (OVCA) program, the Vocational Instructional Materials Laboratory (VIML) at The Ohio State University has conducted Job Profiling workshops in which representatives of business, industry, labor, and community organizations identified the academic skill levels needed by entry-level workers in the occupational areas covered by the OCAPs. The Job Profiling, which was carried out in spring 1994 and spring 1995, was sponsored by the Ohio Department of Education, Division of Vocational and Adult Education.

OVCA—What Is It?
The Ohio Vocational Competency Assessment (or OVCA) package consists of two assessment components: OCAP and Work Keys. Together they measure entry-level occupational, academic, and employability skills. All OVCA items are criterion-referenced, use a multiple-choice format, and are administered using a traditional paper-and-pencil method. The OVCA is designed to do the following:

• Provide one dimension of a multi-assessment strategy for career passport credentialing
• Evaluate learner readiness for jobs requiring specific occupational, academic, and employability skills
• Assist educators in curriculum development
• Provide state-aggregated learning gain scores to comply with the regulations in the Carl D. Perkins Vocational and Applied Technology Act of 1990

OCAP. The OCAP component of OVCA assesses students in occupational skills—employment requirements—in a particular occupational area. Assessment is based on the core competencies identified through the OCAP process, and each multiple-choice assessment item is correlated to those essential competencies.

Work Keys. The Work Keys component, developed by ACT, measures students’ applied academic skills. All OVCA packages contain two Work Keys assessments:

• Applied Mathematics measures students’ ability to analyze, set up, and solve math problems typically found in the workplace.
• Locating Information measures students’ ability to use graphic documents to insert, extract, and apply information.

In addition, certain taxonomies will use the following Work Keys assessments:

• Reading for Information will be used by Business, Marketing, Home Economics, Health Education, and Cosmetology taxonomies.
• Applied Technology will be used by Trade and Industrial and Agricultural Education taxonomies.

Other optional Work Keys assessments, not included in the basic OVCA package, are Teamwork, Listening, and Writing.

Each Work Keys assessment is further broken down into four to five levels of achievement, with higher numbers indicating higher achievement in the assessed skill (descriptions of the levels for each Work Keys assessment are provided on pp. 49-55). For each academic skill, the Job Profiling process identifies the level required for successful entry into an occupational area.
Job Profiling—How It Works

VIML's Job Profiling process was initiated by mailing surveys to current workers in OCAP occupations all across Ohio. The survey's purpose: to have actual workers in specific occupations rate job tasks according to each task's frequency and criticality—that is, the amount of time spent performing each task relative to other tasks and the importance of each task to overall job performance.

To complete the survey, participants examined OCAP competencies for their occupation. Based on the survey's results, VIML staff produced a list of the most critical competencies in each occupation.

The next stage of Job Profiling was to convene committees of subject-matter experts to perform "leveling," which involved the following tasks:

- Examining the frequency and criticality competency lists for an occupation
- Reviewing the levels associated with each of the seven Work Keys academic skills: Locating Information, Reading for Information, Applied Mathematics, Applied Technology, Listening, Writing, and Teamwork
- Identifying the level of skill students must master relative to each Work Keys academic skill in order to successfully perform the occupational competencies

Finally, in 1995, the initial leveling of Work Keys academic skills for the occupational area covered by this OCAP was revalidated by the new panel of expert workers convened to update the OCAP (see inside back cover).

Example of Job Profiling

For every occupational area, there are shaded graphs to represent each of the seven Work Keys academic skills. Each graph shows the range of levels for that particular skill; the shading represents the academic skill level required by an entry-level worker in that occupation, as determined by the Job Profiling committee. For example:

Applied Mathematics

In the example shown, Applied Mathematics has a skill range of 3–7. The required skill level, determined by Job Profiling and shown by the highlighting, is 6.
Academic Job Profile: Building and Property Maintenance

Applied Mathematics

Locating Information

Reading for Information

Applied Technology

Teamwork

Listening

Writing

NOTE: Definitions of each level in each of the seven academic skill areas are provided on the pages that follow.
Levels of Work Keys Defined

The skills needed to achieve each level for each of the seven Work Keys* academic skills are as follows.

**Applied Mathematics**

*Applied Mathematics* measures skill in applying mathematical reasoning to work-related problems. There are five levels of complexity, 3 through 7, with Level 3 being the least complex and Level 7 the most complex. The levels build on each other, each incorporating the skills at the preceding levels.

**Level 3**
- Perform basic mathematical operations (addition, subtraction, multiplication, and division) and conversions from one form to another, using whole numbers, fractions, decimals, or percentages.
- Translate simple verbal problems into mathematical equations.
- Directly apply logical information provided to solve problems, including those with measurements and dollars and cents.

**Level 4**
- Perform one or two mathematical operations (such as addition, subtraction, or multiplication) on several positive or negative numbers. (Division of negative numbers is not covered until Level 5.)
- Add commonly known fractions, decimals, or percentages (e.g., ½, .75, 25%) or add three fractions that share a common denominator.
- Calculate averages, simple ratios, proportions, and rates, using whole numbers and decimals.
- Reorder verbal information before performing calculations.
- Read simple charts or graphs to obtain information needed to solve a problem.

**Level 5**
- Look up and calculate single-step conversions within English or non-English measurement systems (e.g., converting ounces to pounds or centimeters to meters) or between measurement systems (e.g., converting centimeters to inches).
- Make calculations using mixed units (e.g., hours and minutes).
- Determine what information, calculations, and unit conversions are needed to find a solution.

**Level 6**
- Calculate using negative numbers, fractions, ratios, percentages, mixed numbers, and formulas.
- Identify and correct errors in calculations.
- Translate complex verbal problems into mathematical expressions, using considerable setup and multiple-step calculations or conversions.

**Level 7**
- Solve problems requiring multiple steps of logic and calculation.
- Solve problems involving more than one unknown, nonlinear functions (e.g., rate of change), and applications of basic statistical concepts (e.g., error of measurement).
- Locate errors in multiple-step calculations.
- Solve problems with unusual content or format, or with incomplete or implicit information.

Locating Information

Locating Information measures skill in using information taken from workplace graphics such as diagrams, blueprints, floor plans, tables, forms, graphs, charts, and instrument gauges. There are four levels of complexity, 3 through 6, with Level 3 being the least complex and Level 6 the most complex. The levels build on each other, each incorporating the skills at the preceding levels.

Level 3
- Find one or two pieces of information in elementary workplace graphics, such as simple order forms, bar graphs, tables, flowcharts, and floor plans.
- Fill in one or two pieces of information that are missing from elementary workplace graphics.

Level 4
- Find several pieces of information in straightforward workplace graphics, such as basic order forms, line graphs, tables, instrument gauges, maps, flowcharts, and diagrams.
- Summarize and/or compare information and trends in a single straightforward graphic.
- Summarize and/or compare information and trends among more than one straightforward workplace graphic, such as a bar chart and a data table showing related information.

Level 5
- Summarize and/or compare information and trends in single complicated workplace graphics, such as detailed forms, tables, graphs, maps, instrument gauges, and diagrams.
- Summarize and/or compare information and trends among more than one complicated workplace graphic, such as a bar chart and a data table showing related information.

Level 6
- Make decisions, draw conclusions, and/or apply information to new situations using several related and complex workplace graphics that contain a great amount of information or have challenging presentations (e.g., very detailed graphs, charts, tables, forms, maps, blueprints, diagrams).
Reading for Information

"Reading for Information" measures skill in reading and understanding work-related reading materials. There are five levels of complexity, 3 through 7, with Level 3 being the least complex and Level 7 the most complex. Although Level 3 is the least complex, it still represents a level of reading skill well above "no skill at all." The levels build on each other, each incorporating the skills at the preceding levels.

Level 3
- Identify uncomplicated key concepts and simple details.
- Recognize the proper placement of a step in a sequence of events, or the proper time to perform a task.
- Identify the meaning of words that are defined within a passage.
- Identify the meaning of simple words that are not defined within a passage.
- Recognize the application of instructions from a passage to situations that are described in the passage.

Level 4
- Identify details that are more subtle than those in Level 3.
- Recognize the application of more complex instructions, some of which involve several steps, to described situations.
- Recognize cause-effect relationships.

Level 5
- Identify the paraphrased definition of jargon or technical terms that are defined in a passage and recognize the application of jargon or technical terms to stated situations.
- Recognize the definition of acronyms that are defined in a passage.
- Identify the appropriate definition of words with multiple meanings.
- Recognize the application of instructions from a passage to situations that are similar to the situations described in the reading materials.
- Recognize the applications of more complex instructions to described situations, including conditionals and procedures with multiple steps.

Level 6
- Recognize the application of jargon or technical terms to new situations.
- Recognize the application of complex instructions to new situations.
- Recognize the less-common meaning of a word with multiple meanings from context.
- Generalize from a passage to situations not described in the passage.
- Identify implied details.
- Explain the rationale behind a procedure, policy, or communication.
- Generalize from a passage to a somewhat similar situation.

Level 7
- Recognize the definitions of difficult, uncommon jargon or technical terms from context.
- Generalize from a passage to situations neither described in nor completely similar to those in a passage.
Applied Technology

Applied Technology measures skill in solving problems of a technological nature, involving the basic principles of mechanics, electricity, fluid dynamics, and thermodynamics as they apply to machines and equipment found in the workplace. There are four levels of complexity, 3 through 6, with Level 3 being the least complex and Level 6 the most complex. Although Level 3 is the least complex, it still represents a level of applied technology skill well above “no skill at all.” The levels build on each other, each incorporating the skills at the preceding levels.

Level 3
- Apply the elementary physical principles underlying the operation of uncomplicated systems or tools.
- Recognize and identify relevant aspects of simple problems that involve one uncomplicated system or tool.
- Select appropriate methods or materials needed to solve problems.

Level 4
- Recognize, identify, and order relevant aspects of one moderately complex system or more than one uncomplicated system.
- Evaluate alternative solutions to determine the most appropriate one for the situation presented.

Level 5
- Solve problems based on one complex system, or one or more uncomplicated tools or systems.
- Understand and apply moderately difficult principles of mechanics, electricity, thermodynamics, and fluid dynamics, in addition to understanding complex machines and systems.
- Recognize, identify, and order relevant aspects of a problem before reaching an appropriate solution.

Level 6
- Solve problems that do not contain all the information needed to solve them, and/or in which the information provided may be out of logical order.
- Solve problems that contain extraneous information.
- Solve problems involving one or more tools or systems having a wide range of complexity.
- Apply difficult physical principles.
- Understand and correctly interpret the interaction of several complex systems.
Listening

Listening measures skill in listening to and understanding work-related messages: receiving information from customers, coworkers, or suppliers; and then writing down the information to communicate it to someone else. Students demonstrate their ability to distinguish and communicate critical information and non-critical information.

Critical information consists of those details that the recipient of the message must have in order to understand the message and act upon it (e.g., names, phone numbers, addresses, times). Non-critical information can improve a message by providing details that further explain the message or its tone, but the absence of this non-critical information does not interfere with the recipient’s ability to understand and accurately act upon the message. Each Listening level describes the content and quality of messages students write to describe an audio message.

Level 0
- No meaningful information, or totally inaccurate information.

Level 1
- Minimal pertinent information: enough context to provide clues as to gist of situation or source of further information.

Level 2
- Some pertinent information; may have incorrect critical information, but sketch of the situation is correct.

Level 3
- All the critical information that is present is correct: may be missing a few pieces of critical information.

Level 4
- All critical information is given and is correct: may be missing subtle details or tone: may have incorrect noncritical information that does not interfere with central meaning.

Level 5
- All critical information is present and correct: response conveys insight into situation through tone and/or subtle details.
Writing

Writing measures skill at writing work-related messages; receiving information from customers, co-workers, or suppliers; and then writing down the information to communicate it to someone else. Each Writing level rates the writing mechanics (such as sentence structure and grammar) and writing style of messages students write to describe an audio message.

Level 0
- An attempt is made at the message, but the message is completely garbled with no recognizable sentence structure.

Level 1
- Message conveyed inadequately: overall lack of proper sentence structure.

Level 2
- Message conveyed inadequately: weak sentence structure; large number of mechanical errors.

Level 3
- Message conveyed clearly; most sentences complete; some mechanical errors.

Level 4
- Message conveyed clearly; all sentences are complete; may have a few minor mechanical errors; may have a choppy style.

Level 5
- Message conveyed clearly; good sentence structure; no mechanical errors; highly appropriate for business setting and situation; smooth, logical style.
Academic Job Profile: Work Key Levels

Teamwork

Teamwork measures skill in choosing behaviors and/or actions that simultaneously support team interrelationships and lead toward the accomplishment of work tasks. There are four levels of complexity, 3 through 6, with Level 3 being the least complex and Level 6 the most complex. Although Level 3 is the least complex, it still represents a level of teamwork skill well above "no skill at all." The levels build on each other, each incorporating the skills at the preceding levels.

Level 3
- Identify team goals and ways to work with other team members to accomplish those goals.
- Choose actions that support the ideas of other team members to accomplish team goals.
- Recognize that a team is having problems finishing a task and identify the cause of those problems.

Level 4
- Identify the organization of tasks and the time schedule that would help accomplish team goals efficiently and effectively.
- Select approaches that accept direction from other team members in order to accomplish tasks and to build and keep up good team relations.
- Identify behaviors that show appreciation for the personal and professional qualities of other team members and respect for their diversity.

Level 5
- Identify courses of action that give direction to other team members effectively.
- Choose approaches that encourage and support the efforts of other team members to further team relationships and/or task accomplishment.
- Consider the possible effects of alternative behaviors on both team relationships and team accomplishments and select the one that would best help the team meet its goals.

Level 6
- Identify the focus of team activity and select a new focus if that would help the team meet its goals more effectively.
- Select approaches that show the willingness to give and take direction as needed to further team goals (e.g., recognize the organization of team members' tasks that would best serve the larger goals of the team).
- Choose approaches that encourage a team to act as a unit and reach agreement when discussing specific issues.
- Identify actions that would help manage differences of opinion among team members, moving the team toward its goals while valuing and supporting individual diversity.
Academic Competencies
Total List of Academic Competencies

Three products of the Ohio Department of Education, Division of Curriculum, Instruction, and Professional Development, describe the academic skills that should be possessed by each student at the end of each grade level:

- Model Competency-Based Language Arts Program
- Model Competency-Based Mathematics Program
- Model Competency-Based Science Program

The following lists were derived from the academic competencies delineated for Grades 9-12 in these documents. Although the competencies are listed separately by grade level in the original documents, the levels were combined—and in some cases refined—for OCAP purposes, any overlap was eliminated, and a numbering system was imposed for ease of reference.

During the course of the OCAP workshops, each of the representatives from business, industry, labor, and community-based organizations was given a copy of these lists of academic competencies and instructed to circle the competencies that an entry-level employee should possess. The results from each panel were tallied to identify those required academic competencies most crucial to entry level in each specific occupational area. The results for this OCAP are presented on pp. 73-75.

**Subunit: Reading—Structure**

Competencies:

| RS1  | Exhibit knowledge of language structure |
| RS2  | Recognize that there may be more than one interpretation of reading selections |
| RS3  | Recognize various literary devices (e.g., metaphor, simile, personification, hyperbole, pun, alliteration) |
| RS4  | Recognize and discuss literary elements (e.g., plot, dialogue, theme, setting, characterization) |
| RS5  | Develop and use an increasingly sophisticated vocabulary gained through context |
| RS6  | Apply knowledge of language structure to reading |
| RS7  | Explain why there may be more than one interpretation of reading selections |
| RS8  | Recognize effect of literary devices on meaning |
| RS9  | Analyze author's use of literary elements |
| RS10 | Recognize relationship of structure to meaning |
| RS11 | Describe various interpretations and levels of meaning in reading selections (e.g., symbolism, nuance) |
| RS12 | Characterize author's use of literary devices |
| RS13 | Characterize use of literary techniques (e.g., irony, satire, allegory, onomatopoeia) |
| RS14 | Critique a variety of literature with regard to plot, dialogue, theme, setting, and characterization |
| RS15 | Apply an expanding vocabulary gained through reading |
| RS16 | Explain various interpretations and levels of meaning in reading selections (e.g., symbolism, nuance) |
| RS17 | Analyze use of literary devices (e.g., extended metaphor, simile, personification, hyperbole, pun, alliteration) |
| RS18 | Understand use of literary techniques (e.g., irony, satire, allegory, onomatopoeia) |
| RS19 | Analyze and synthesize pieces of literature with regard to plot, dialogue, theme, setting, and characterization |
Subunit: Reading—Meaning Construction

Competencies:
RM1 Demonstrate ability to recognize appropriate pre-reading strategies
RM2 Describe effectiveness of a reading selection
RM3 Read to clarify personal thinking and knowledge
RM4 Support interpretation of text by locating and citing specific information
RM5 Develop personal response to a variety of literary works
RM6 Recognize diverse literary interpretations
RM7 Engage in self-selected reading activities
RM8 Confirm and extend meaning in reading by researching new concepts and facts
RM9 Self-monitor and apply corrective strategies when communication has been interrupted or lost
RM10 Use features of literary genres to extend meaning
RM11 Assess effectiveness of a selection read
RM12 Use reading as a possible problem-solving strategy to clarify personal thinking and knowledge
RM13 Use knowledge of semantic elements (e.g., figurative language, denotation, connotation, dialect) to clarify meaning when reading
RM14 Predict, recognize, interpret, and analyze themes based on familiarity with author's work
RM15 Compare and contrast literary genres
RM16 Assess validity and quality of selection read (e.g., predict, summarize, analyze, infer)
RM17 Clarify meaning when reading, using knowledge of literary devices, stylistic diction, and other semantic elements
RM18 Compare personal reaction to critical assessment of a literary selection
RM19 Assess validity of diverse literary interpretations
RM20 Use reference books to find, evaluate, and synthesize information
RM21 Identify tone of a literary work (e.g., ironic, serious, conversational, humorous)
RM22 Critique validity of diverse literary interpretations
RM23 Integrate personal reaction to and critical assessment of a literary selection

Subunit: Reading—Application

Competencies:
RA1 Select and read material for personal enjoyment and information
RA2 Read a variety of complete, unabridged works (e.g., self-selected or assigned stories, essays, nonfiction, plays, novels, poetry)
RA3 Employ various reading strategies (e.g., scanning, skimming, reviewing, questioning, testing, retaining) according to purpose
RA4 Participate in selection of books, materials, and topics for literature study groups
RA5 Develop and apply knowledge of the interrelationship of concepts (e.g., construction of webs, graphs, timelines)
RA6 Read selections from a variety of styles and formats, recognizing that style and format influence meaning
RA7 Extend value of reading, writing, speaking, viewing, and listening by pursuing, through reading, new concepts and interests developed as a result of these activities
RA8 Read extensively from the works of a particular author, and explain elements of author's style

Subunit: Reading—Multidisciplinary

Competencies:
RM1 Connect themes and ideas across disciplines through literature
RM2 Read to facilitate learning across curriculum
RM3 Read to develop awareness of human rights and freedom
RM4 Participate actively in a community of learners
Academic Competencies: Total List

RM5 Recognize and explain interaction between literature and various cultural domains (e.g., social, technological, political, economic)
RM6 Explore and analyze a variety of cultural elements, attitudes, beliefs, and value structures by reading and experiencing our diverse literary tradition, including works by men and women of many racial, ethnic, and cultural groups
RM7 Value thinking and language of others
RM8 Relate literature to historical period about which or in which it was written
RM9 Read to facilitate content learning

Subunit: Writing—Structure

Competencies:

WS1 Develop and expand a repertoire of organizational strategies (e.g., narration, comparison/contrast, and description) through practice and discussion
WS2 Clarify word choice according to audience, topic, and purpose
WS3 Locate and correct errors in usage, spelling, and mechanics (e.g., subject-verb agreement, parallel construction, pronoun reference, punctuation, capitalization, sentence structure) using a variety of resources
WS4 Recognize information gained from primary and secondary sources
WS5 Develop writing that contains ordered, related, well-developed paragraphs with sentences of varied lengths and patterns
WS6 Use information from a variety of sources to develop an integrated piece of writing
WS7 Evaluate and revise writing to focus on such things as audience, tone, and purpose
WS8 Recognize differences between documentation and reference list styles
WS9 Develop extended pieces of writing that contain ordered, related, well-developed paragraphs with sentences of varied lengths and patterns
WS10 Select from a repertoire of organization strategies a pattern appropriate to a topic (e.g., narration, example, detail, comparison/contrast, classification)
WS11 Synthesize information from a variety of sources to construct meaning
WS12 Refine word choice and tone according to audience, situation, and purpose
WS13 Appropriately cite information gained from primary and secondary sources
WS14 Use style manuals or software to prepare documentation and reference lists
WS15 Develop effectively organized pieces of expository writing containing strong voice, clear thesis, and well-developed ideas
WS16 Identify organization patterns appropriate to writing topic
WS17 Respond to others’ suggested revisions to a writing piece

Subunit: Writing—Meaning Construction

Competencies:

WM1 Demonstrate knowledge of the recursive nature of the writing process by applying it appropriately to various topics, situations, and audiences (e.g., making connections between prior knowledge and new information, consulting other sources)
WM2 Develop criteria for writing evaluation using scoring guides (e.g., rubric/holistic scale, primary trait scoring) and peer/teacher assistance to clarify meaning
WM3 Respond to others’ suggested revisions to a piece of writing (e.g., self-question, re-read, revise)
WM4 Use word processing, graphics, and publishing as aids for constructing meaning in writing
WM5 Engage in self-initiated writing activities
WM6 Incorporate personal criteria with generally accepted standards for writing evaluation
WM7 Evaluate, analyze, and synthesize information for writing
WM8 Evaluate own writing using personal and established scoring criteria
WM9 Assess personal/peer revisions to a writing piece
WM10 Recognize and refine personal writing styles
**Subunit: Writing—Application**

Competencies:

- **WA1** Apply appropriate writing techniques (e.g., prewriting, drafting, revising, editing, presenting) suitable for varied writing tasks
- **WA2** Use sentence-combining techniques to improve syntactic fluency and maturity
- **WA3** Write in response to prompted and self-selected topics in practical, persuasive, descriptive, narrative, and expository domains
- **WA4** Develop personal voice in writing
- **WA5** Consider audience and purpose for writing
- **WA6** Develop criteria for selection and potential development of topic
- **WA7** Write in a journal or learning log to clarify personal thinking and knowledge
- **WA8** Apply an expanding vocabulary gained through writing
- **WA9** Make judicious use of reference sources (e.g., dictionary, thesaurus, online database, encyclopedia)
- **WA10** Demonstrate an appreciation for aesthetically pleasing language through word choice and style
- **WA11** Apply revising and editing strategies needed for writing task
- **WA12** Vary sentence lengths and patterns
- **WA13** Refine personal voice in writing
- **WA14** Vary styles and formats for intended purpose and audience
- **WA15** Apply criteria for selection and development of topic
- **WA16** Participate in peer review of writing in progress
- **WA17** Use transitions between sentences, ideas, and paragraphs in writing
- **WA18** Revise and edit papers extensively in preparation for presentation/publication
- **WA19** Develop a variety of genres (e.g., fantasy, science fiction, short stories, poetry)
- **WA20** Focus writing and tone on such elements as audience, situation, and purpose
- **WA21** Develop topic fully and appropriately
- **WA22** Use writing process to clarify personal thinking and knowledge
- **WA23** Apply appropriate recursive writing process as suggested by writing task and writer's process
- **WA24** Develop an extended piece of writing (e.g., story, narrative poem, autobiography, novel, research paper)
- **WA25** Revise writing and tone to assure focus on such elements as audience, situation, and purpose
- **WA26** Use writing process to write reflectively

**Subunit: Writing—Multidisciplinary**

Competencies:

- **WM1** Use writing process for learning across curriculum
- **WM2** Use writing process to demonstrate knowledge of need for human rights and freedom
- **WM3** Value and apply collaborative skills in the writing process
- **WM4** Write in response to reading, speaking, viewing, and listening
- **WM5** Use multidisciplinary resources in writing projects
- **WM6** Use writing process to facilitate learning across curriculum
- **WM7** Recognize value of and engage in collaboration in the writing process
- **WM8** Use communication processes to develop a published writing piece in collaboration with others
- **WM9** Record experiences and observations related to content learning
- **WM10** Apply collaborative skills in the writing process
- **WM11** Write collaboratively with peers
- **WM12** Use cross-disciplinary resources in writing projects

**Subunit: Listening/Visual Literacy—Structure**

Competencies:

- **LS1** Listen to and view a wide variety of genres (e.g., mystery, drama, poetry)
- **LS2** Become aware of an author's style through listening to and viewing a variety of works
LS3 Recognize correct and appropriate grammar, diction, and syntax
LS4 Expand vocabulary through listening to and viewing varied media (e.g., recordings, films, music, news broadcasts)
LS5 Recognize beauty of language
LS6 Enhance recognition of an author's style through listening to and viewing a variety of works
LS7 Recognize use and misuse of language in media
LS8 Refine knowledge of style through listening to and viewing multiple works by the same author
LS9 Expand and refine grammar, diction, and syntax through listening
LS10 Compare authors' styles through viewing and listening to their works
LS11 Expand knowledge of complex grammar, diction, and syntax issues

Subunit: Listening/Visual Literacy—Meaning Construction

Competencies:
LM1 Develop critical thinking skills necessary to evaluate media and assess oral presentations
LM2 Compare new oral texts to past experiences and knowledge in order to enhance comprehension
LM3 Recognize how rhythmic patterns, silence, and cadences enhance quality of speech and literature
LM4 Focus listening and viewing on themes and/or plots
LM5 Gather information from listening and viewing experiences to enhance research
LM6 Use critical thinking skills to evaluate media and oral presentations
LM7 Use prior knowledge and experiences to facilitate comprehension of new oral texts
LM8 Identify rhythmic and time patterns in speech and literature
LM9 Identify and analyze themes and/or plots when listening and viewing
LM10 Use information gathered from listening and viewing experiences to expand research
LM11 Enhance use of critical thinking skills to evaluate media and oral presentations
LM12 Consider prior knowledge and experiences when attempting to understand the meaning of new texts
LM13 Appreciate rhythmic and time patterns of speech and literature
LM14 Select viewing and listening materials to support written text
LM15 Evaluate media and oral presentations analytically and critically
LM16 Organize prior knowledge and experiences to comprehend new texts
LM17 Organize and use viewing and listening materials to support written text

Subunit: Listening/Visual Literacy—Application

Competencies:
LA1 Listen attentively during oral reading
LA2 Use media as stimuli for learning and thinking
LA3 Develop knowledge of structure through art, music, and literature
LA4 Use electronic media to enhance and highlight language learning
LA5 Listen and view for entertainment and enjoyment
LA6 Use technology and other media (e.g., videos, posters, maps, graphs, t-shirts) as means of expressing ideas

Subunit: Listening/Visual Literacy—Multidisciplinary

Competencies:
LM1 Facilitate learning across curriculum through critical listening and viewing
LM2 Engage in individual, small-group, and whole-group listening and viewing activities
LM3 Develop language arts (e.g., viewing, listening) projects collaboratively
LM4 Investigate language and cultural differences through listening and viewing activities
LM5 Participate in a community of learners through productive listening
**Subunit: Oral Communication—Structure**

Competencies:
- OS1 Refine oral communication skills (e.g., voice modulation, eye contact, body language)
- OS2 Demonstrate knowledge of grammar, usage, and syntax when presenting
- OS3 Select topics and vocabulary suitable to audience
- OS4 Organize notes and ideas for speaking (e.g., cause-effect, chronological, exemplification)
- OS5 Use language imaginatively (e.g., word games, puns, limericks)
- OS6 Modulate voice to enhance meaning when interpreting literature orally
- OS7 Organize notes and ideas for formal, semiformal, and informal presentations of information
- OS8 Refine speaking techniques for formal, semiformal, and informal settings
- OS9 Develop repertoire of organizational strategies for presenting information orally
- OS10 Expand vocabulary to fit topic
- OS11 Select topics suitable to audience, situation, and purpose
- OS12 Select appropriate strategies when organizing notes and ideas for speaking

**Subunit: Oral Communications—Meaning Construction**

Competencies:
- OM1 Make connections between prior knowledge and new information for oral presentations
- OM2 Participate in informal speaking activities (e.g., offering opinions, supporting statements, questions, clarification, entertainment)
- OM3 Use interviewing techniques to gather information
- OM4 Communicate orally to entertain and to inform
- OM5 Participate in group communication activities (e.g., debates, panel discussions, negotiations, book-sharing, roundtables, cooperative/collaborative groups)
- OM6 Take and organize notes when preparing speech/presentation
- OM7 Interpret texts orally to illustrate meaning
- OM8 Respond to needs of various audiences
- OM9 Gather and assess information for speaking
- OM10 Communicate orally to inform and persuade
- OM11 Prepare and deliver formal speech/presentation
- OM12 Participate in a variety of oral interpretations
- OM13 Assess needs of audience, and adjust language and presentation according to their knowledge
- OM14 Analyze and synthesize information for speaking
- OM15 Describe effectiveness of a literary selection
- OM16 Describe topic or idea in order to clarify personal/audience thinking
- OM17 Analyze and synthesize information gathered from a variety of sources (e.g., interviews, hypermedia, reference works) for speaking
- OM18 Describe validity and/or quality of a literary selection and justify selection
- OM19 Interpret orally a variety of literature
- OM20 Describe topic or idea to clarify meaning for others

**Subunit: Oral Communication—Application**

Competencies:
- OA1 Become proficient at using interviewing techniques
- OA2 Give an oral interpretation for a specific audience
- OA3 Develop and apply oral communication skills for cooperative/collaborative learning
- OA4 Use oral communication for a variety of purposes and audiences (e.g., negotiations, book reviews, rationales)
- OA5 Develop and apply decision-making strategies
- OA6 Practice interviewing techniques
- OA7 Apply interviewing techniques to purposeful interviews
- OA8 Focus oral interpretation on a specific audience
**Subunit: Oral Communications—Multidisciplinary**

Competencies:
- **OM1** Value thinking and language of others
- **OM2** Develop oral projects collaboratively
- **OM3** Be involved in individual, small-group, and whole-group language activities
- **OM4** Participate actively in a community of learners
- **OM5** Investigate language and cultural differences through oral language activities

**Unit: Mathematics Skills**

**Subunit: Numbers and Number Relations**

Competencies:
- **NR1** Compare, order, and determine equivalence of real numbers
- **NR2** Estimate answers, compute, and solve problems involving real numbers
- **NR3** Compare and contrast real number system, rational number system, and whole number system
- **NR4** Extend knowledge to complex number system, and develop facility with its operation

**Subunit: Measurement**

Competencies:
- **M1** Estimate and use measurements
- **M2** Understand the need for measurement and the probability that any measurement is accurate to some designated specification
- **M3** Understand and apply measurements related to power and work
- **M4** Understand and apply measurement concepts of distance-rate-time problems and acceleration problems with real-world experiments
- **M5** Use real experiments to investigate elasticity, heat, sound, electricity, magnetism, light, acceleration, velocity, energy, and gravity
- **M6** Use real-world problem situations involving mass and weight
- **M7** Use real-world problem situations involving simple harmonic motion
- **M8** Establish ratios with and without common units
- **M9** Construct and interpret maps, tables, charts, and graphs as they relate to real-world mathematics
- **M10** Understand and solve rate-change problems
- **M11** Understand and solve right triangle relationships as they relate to measurement—specifically those that deal with the Pythagorean theorem
- **M12** Graph and interpret ordered pairs
- **M13** Compute total sales from a variety of items
- **M14** Comprehend and compute rates of growth or decay
- **M15** Comprehend, compute, and interpret real problems involving annuities
- **M16** Develop an ability to identify real problems and provide possible solutions
- **M17** Express and apply different types of measurement scales
- **M18** Determine area and volume

**NOTE:** The math subunit on problem solving was not included on this list since it should be a continuing thread throughout all instruction rather than a separate set of competencies.
Subunit: Estimation and Mental Computation

Competencies:
E1 Use estimation to eliminate choices in multiple-choice tests
E2 Use estimation to determine reasonableness of problem situations in a wide variety of applications
E3 Estimate shape of graphs of various functions and algebraic expressions
E4 Use mental computation when computer and calculator are inappropriate

Subunit: Data Analysis and Probability

Competencies:
D1 Organize data into tables, charts, and graphs
D2 Understand and apply measures of central tendency, variability, and correlation
D3 Use curve fitting to predict from data
D4 Use experimental or theoretical probability, as appropriate, to represent and solve problems involving uncertainty
D5 Use computer simulations and random number generators to estimate probabilities
D6 Test hypotheses using appropriate statistics
D7 Read, interpret, and use tables, charts, and graphs to identify patterns, note trends, draw conclusions, and make predictions
D8 Identify probabilities of events involving unbiased objects
D9 Use sampling and recognize its role in statistical claims
D10 Design a statistical experiment to study problem, conduct experiment, and interpret and communicate outcomes
D11 Describe normal curve in general terms, and use its properties
D12 Create and interpret discrete probability distributions
D13 Understand concept of random variable
D14 Apply concept of random variable to generate and interpret probability distributions, including binomial, uniform, normal, and chi square

Subunit: Algebra

Competencies:
A1 Describe problem situations by using and relating numerical, symbolic, and graphical representations
A2 Use language and notation of functions in symbolic and graphing settings
A3 Recognize, relate, and use the equivalent ideas of zeros of a function, roots of an equation, and solution of an equation in terms of graphical and symbolic representations
A4 Describe and use logic of equivalence in working with equations, inequalities, and functions
A5 Develop graphical techniques of solution for problem situations involving functions
A6 Explore and describe characterizing features of functions
A7 Make arguments and proofs in algebraic settings
A8 Factor difference of two squares
A9 Determine slope, midpoint, and distance
A10 Explore and combine rational functions
A11 Explore factoring techniques
A12 Solve quadratic equations by factoring and formula
A13 Set up and solve linear equations
A14 Solve systems of linear equations with two variables
A15 Describe geometric situations and phenomena using variables, equations, and functions
A16 Describe measures of central tendency, mean, median, mode, and variance algebraically and graphically
A17 Represent inequalities on the number line and in the coordinate plane
A18 Use coordinate arguments in making geometric proofs
A19 Symbolize transformations of figures and graphs
A20 Explore geometric basis for functions of trigonometry
A21 Graph linear functions
A22 Develop and use vectors to represent direction and magnitude, including operations
A23 Use polar and parametric equations to describe, graph, and solve problem situations
A24 Represent sequences and series as functions both algebraically and graphically
A25 Explore recursive functions and procedures using spreadsheets, other computer utilities, and notions appropriate to these problem situations
A26 Describe and solve algebraic situations with matrices
A27 Describe and use inverse relationship between functions, including exponential and logarithmic
A28 Analyze and describe errors (and their sources) that can be made when using computers and calculators to solve problems
A29 Decide whether problem situation is best solved using computer, calculator, paper and pencil, or mental arithmetic/estimation techniques
A30 Explore relationships between complex numbers and vectors
A31 Make arguments concerning limits, convergence and divergence in contexts involving sequences, series, and other types of functions
A32 Represent transformations in the plane with matrices
A33 Contrast and compare algebras of rational, real, and complex numbers with characteristics of a matrix algebra system
A34 Construct polynomial approximations of a function over specified intervals of convergence
A35 Examine complex numbers as zeros of functions
A36 Translate verbal statements into symbolic language
A37 Simplify algebraic expressions
A38 Use laws and exponents (including scientific notation)
A39 Expand and extend idea of vectors and linear algebra to higher dimensional situations
A40 Use the idea of independent basis elements for a vector space and associated fundamental concepts of finite dimensional linear algebra
A41 Develop and communicate arguments about limit situations
A42 Use matrices to describe and apply transformations
A43 Develop and use polar and parametric equations to represent problem situations
A44 Explore proofs by mathematical induction

Subunit: Geometry

Competencies:
G1 Create and interpret drawings of three-dimensional objects
G2 Represent problem situations with geometric models and apply properties of figures
G3 Apply Pythagorean theorem
G4 Demonstrate knowledge of angles and parallel and perpendicular lines
G5 Explore inductive and deductive reasoning through applications to various subject areas
G6 Translate between synthetic and coordinate representations
G7 Identify congruent and similar figures using transformation with computer programs
G8 Deduce properties of figures using transformations and coordinates
G9 Use deductive reasoning
G10 Explore compass and straightedge constructions in context of geometric theorems
G11 Demonstrate knowledge of and ability to use proof
G12 Use variety of proof techniques (e.g., synthetic, transformational, and coordinate)
G13 Use variety of proof formats, including T-proof (i.e., two-column) and paragraph proof
G14 Explore different proof strategies
G15 Investigate different proofs of theorems
G16 Develop knowledge of an axiomatic system
G17 Apply transformations and coordinates in problem solving
G18 Represent problem situations with geometric models, and apply properties of figures
G19 Deduce properties of figures using vectors
G20 Analyze properties of Euclidean transformations, and relate translations to vectors
G21 Apply vectors in problem solving
G22 Develop further knowledge of axiomatic systems by investigating and comparing various geometries

Subunit: Patterns, Relations, and Functions

Competencies:
P1 Model real-world phenomena with polynomial and exponential functions
P2 Explore relationship between zeros and intercepts of functions
P3 Translate among tables, algebraic expressions, and graphs of functions
P4 Use graphing calculator or computer to generate graph of a function
P5 Explore relationship between a linear function and its inverse
P6 Describe and use characteristics of polynomial functions in problem-solving situations
P7 Explore conic sections, and graph using graphing calculator or computer
P8 Apply trigonometric functions to problem situations involving triangles
P9 Discover general relationships between algebraic description of conic, kind of conic, and special properties of that conic
P10 Explore periodic real-world phenomena using sine and cosine functions
P11 Analyze effects of parameter changes on graphs
P12 Use graphing calculator or computer to graph functions
P13 Develop a knowledge of rational and transcendental functions
P14 Understand connections between trigonometric and circular functions
P15 Use circular functions to model periodic real-world functions
P16 Solve trigonometric equations, and verify trigonometric identities
P17 Understand connections between trigonometric functions and polar coordinates, exponential functions, logarithmic functions, complex numbers, and series
P18 Model real-world phenomena with a variety of functions
P19 Graph using polar coordinates
P20 Explore graphs in three dimensions
P21 Explore functions of several variables
P22 Explore recursive functions using spreadsheets and/or programming languages

Subunit: Scientific Inquiry

Competencies:
Q1 Check the appropriateness and accuracy of measures and computations using various strategies (e.g., estimations, unit analysis, determination of significant figures)
Q2 Use ratios, proportions, and probabilities in appropriate problem situations
Q3 Translate information from and represent information in various forms with equal ease (e.g., tables, charts, graphs, diagrams, geometric figures)
Q4 Use existing algebraic formulas and create new ones in appropriate problem-solving situations
Q5 Estimate and justify probabilities of outcomes of familiar situations based on experimentation and other strategies
Q6 Invent apparatus and mechanical tools needed to perform unique tasks in various situations
Q7 Identify, compare, and contrast different modes of inquiry, habits of mind, and attitudes and dispositions
Q8 Design investigations that are safe and ethical (i.e., obtain consent and inform others of potential outcomes, risks, and benefits; and show evidence of concern for the health and safety of humans and non-human species)
Q9 Make and read scale drawings, maps, models, and other representations to aid planning and understanding.
Q10 Seek elaboration and justification of data and ideas, and reflect on alternative interpretations of the information.
Q11 Use appropriate units for counts and measures.
Q12 Create and use databases (electronic and other) to collect, organize, and verify data and observations.
Q13 Design and conduct investigations with multiple variables.
Q14 Communicate the results of investigations clearly in a variety of situations.
Q15 Examine relationships in nature, offer alternative explanations for the observations, and collect evidence that can be used to help judge among explanations.
Q16 Trace the development (e.g., history, controversy, and ramifications) of various theories, focusing on supporting evidence and modification with new evidence.
Q17 Select, invent, and use tools, including analog and digital instruments, to make and record direct measurements.
Q18 Observe and document events and characteristics of complex systems.
Q19 Explain the influence of perspective (e.g., spatial, temporal, and social) on observation and subsequent interpretations.
Q20 Create multiple representations of the same data using a variety of symbols, descriptive languages, mathematical concepts, and graphic techniques.
Q21 Generate testable hypotheses for observations of complex systems and interactions.
Q22 Document potentially hazardous conditions and associated risks in selected homes and public areas.
Q23 Participate in public debates, relying on documented and verified data to construct and represent a position on scientific issues.
Q24 Construct and test models of physical, biological, social, and geological systems.
Q25 Read, verify, debate, and, where necessary, refute research published in popular or technical journals of science (e.g., Discover, Omni, Popular Mechanics).
Q26 Explore discrepant events and develop and test explanations of what was observed.
Q27 Conduct theory-based research using surveys, observational instruments, and other methods.
Q28 Modify personal opinions, interpretations, explanations, and conclusions based on new information.
Q29 Analyze error and develop explanations in various domains.
Q30 Formulate taxonomic schemes based upon multivariate models that help to explain similarities and differences in form, distribution, behavior, survival, and origin of objects and organisms.
Q31 Demonstrate various logical connections between related concepts (e.g., entropy, conservation of energy).
Q32 Account for discrepancies between theories and observations.
Q33 Analyze the changes within a system when inputs, outputs, and interactions are altered.
Q34 Create, standardize, and document procedures.
Q35 Determine the sources of significant disparities between the predicted and recorded results, and change research procedures to minimize disparities.
Q36 Research, locate, and propose applications for abstract patterns (e.g., fractals, Fibonacci sequences, string theory, orbitals).
Q37 Recognize and utilize classification systems for particles, elements, compounds, phenomena, organisms, and others for exploring and predicting properties and behaviors.
Q38 Suggest and defend alternative experimental designs and data explanations (e.g., sampling, controls, safeguards).
Q39 Recognize and communicate differences between questions that can be investigated in a scientific way and those that rely on other ways of knowing.
Q40 Draw conclusions based on the relationships among data analysis, experimental design, and possible models and theories.
Q41 Suggest new questions as a result of reflection on and discussions about own scientific investigations.
Q42 Investigate, assess, and comment on strengths and weaknesses of the descriptive and predictive powers of science.
Q43 Create new information from representations of data in a variety of forms (e.g., symbols, descriptive languages, graphic formats) utilizing a variety of techniques (e.g., interpolations, extrapolations, linear regressions, central tendencies, correlations).
Subunit: Scientific Knowledge

Competencies:

K1 Investigate various types of dynamic equilibrium (e.g., biological, geological, mechanical, chemical)
K2 Investigate the relationship between the rates of energy exchange and the relative energy level of components within systems (e.g., trophic levels of ecosystems, osmosis, rate of heating and cooling, storms)
K3 Investigate patterns in the natural world (e.g., heredity, crystalline structures, population and resource distributions, diffraction, dispersion, polarization)
K4 Investigate models and theories that help to explain the interactions of components in systems (e.g., conservation of mass, energy, and momentum; foodwebs; natural selection; entropy; plate tectonics; chaos; relativity; social-psychology)
K5 Investigate degrees of kinship among organisms and groups of organisms
K6 Investigate the limits of the definition of life, and investigate organisms and physical systems that exist at or near these limits (e.g., viruses, quarks, black holes)
K7 Investigate estimates and measurements of a wide range of distances and rates of change
K8 Investigate the historical development of theories of change over time (e.g., natural selection, continental drift, the big bang, geologic change)
K9 Investigate physical and chemical changes in living and nonliving systems (e.g., photosynthesis, weathering processes, glaciation, thermal effects of materials, energy cells)
K10 Investigate simulations of nuclear change (e.g., radioactivity, half life, carbon dating)
K11 Investigate conservation principles associated with physical, chemical, and nuclear changes
K12 Formulate descriptions of the impacts of various forms of mechanical and electromagnetic waves on various organisms and objects
K13 Formulate models and hypotheses for patterns in the natural world (e.g., earth structures, transportation systems, migrations, communications, constellations)
K14 Formulate explanations for the influences of objects and organisms on each other over time
K15 Formulate and interpret explanations for change phenomena (e.g., mass extinctions, stellar evolution, punctuated equilibrium, molecular synthesis)
K16 Formulate and interpret explanations for the magnitudes of diversity at different periods of geologic time (e.g., mutation, global cataclysms, continental drift, competition, mass extinctions)
K17 Formulate interpretations of the structure, function, and diversity in a variety of organisms and physical systems (e.g., DNA and RNA variants, nucleons, interaction particles)
K18 Formulate understandings of geologic time (e.g., millennia, periods, epochs)
K19 Formulate an understanding of the historical development of the model of the universe (e.g., Aristotle, Ptolemy, Copernicus, Brahe, Kepler, Galileo, Newton, Einstein)
K20 Formulate explanations and representations of the production, transmission, and conservation of energy in biological and physical systems (e.g., weather, volcanism, earthquakes, electricity, magnetism, cellular respiration)
K21 Formulate models and hypotheses about patterns in the natural world (e.g., social behavior, molecular structure, energy transformation, entropy, randomness, aging, chaos, hormonal cycles)
K22 Formulate interpretations of the relationship between energy exchange and the interfaces between components within systems
K23a Formulate estimations for the range of energies within and between various phenomena (e.g., thermal, electromagnetic, thermonuclear, chemical, electrical)
K23b Formulate explanations for the historical development of descriptions of motions interactions and transformations of matter and energy (e.g., classical Newtonian mechanics, special and general relativity, chaos)
K24 Formulate models that can be used to describe fundamental molecular interactions in living and nonliving systems (e.g., cell membranes, semiconductors)
K25 Formulate an understanding of the degree of relationship among organisms and objects based on molecular structure (e.g., proteins, nucleic acids)
K26 Formulate hypotheses and models that may account for observable events (e.g., electricity and magnetism, gravitation, atoms, bonding, chemical reactions, quantum effects, energy flow on biological systems, predator-prey relationships)
K27 Formulate models and hypotheses about change over time (e.g., natural selection, speciation, punctuated equilibrium, phyletic gradualism, stellar evolution, plate tectonics, radioactive decay, quantum mechanical theory)

K28 Formulate lists of limitations, and propose refinements of standard classification systems (e.g., periodic table, IUPAC, Linnean, standard model)

K29 Formulate specific cases of limitations and possible exceptions of theories and principles regarding the interactions of moving objects and organisms (e.g., fluid flow in vessels, motion near the speed of light, Heisenberg uncertainty principle, meteorological prediction, local variation and diversity, earthquake prediction, energy transport in cellular respiration)

K30 Formulate plans and contingencies that can be used to accommodate for changes to and stresses on systems (e.g., wildlife and habitat management, corrosion prevention, noise abatement, structure design)

K31 Formulate models of molecular, atomic, ionic, and subatomic structures and the physical and biological implications of these structures (e.g., genes, nucleons, quarks)

K32 Formulate estimates for a wide range of measurements and scales (e.g., angstroms to light years)

K33 Formulate and interpret representations of time from origin to present accounting for phenomena of scale (e.g., smoothness, punctuations, chaos)

K34 Formulate interpretations of the historical development of various theories of possible causes of diversity among physical and biological phenomena (e.g., the works of Aristotle, Mendel, Darwin, McClintock)

K35 Formulate models and hypotheses that can be used to explain the interactions of components within technological and ecological systems

Subunit: Conditions for Learning Science

Competencies:

C1 Participate actively in dialogue about and resolution of community issues
C2 Assess information from various countries in the original language or translated form to ascertain the perspectives of many cultures
C3 Analyze the scientific ideas presented in science fiction stories and films
C4 Perform and repeat investigations to verify data, determine regularity, and reduce the impact of experimental error
C5 Present the results of investigations in a variety of forums
C6 Contribute to the decisions regarding topics for investigation
C7 Use various creative means to communicate interpretations of scientific ideas, concepts, phenomena, and events
C8 Consider the scientific thinking and language of others
C9 Individually and collaboratively produce clearly written representations of investigative results
C10 Fulfill responsibilities as part of a research group
C11 Select and utilize resources by various criteria (e.g., efficiency, effectiveness, health, safety) that are appropriate to the investigations being conducted by groups
C12 Present persuasive argument based on the scientific aspects of controversial issues
C13 Collect, store, retrieve, and manipulate information with available technologies that may range from hand processes up through computer applications
C14 Investigate social issues with a scientific perspective (e.g., human rights, wellness, economics, futurism, environmental ethics)
C15 Keep journals of observations and inferences made over an extended period of time, and reflect upon the impact of these recorded ideas on own thinking and actions
C16 Examine the intellect, perspectives, and ethics of notable scientists
C17 Collect and analyze observations made over extended periods of time and compare these to scientific theories
C18 Create presentations of scientific understandings using diverse modes of expressions
C19 Conduct formal scientific debates in the classroom
C20 Wonder about the likelihood of events that may occur by chance or coincidence
C21 Plan and conduct field trips and experiences for small and large groups
C22 Analyze the historical context that leads to and has led to scientific theories
C23 Seek information on topics of personal scientific interest from a variety of sources
C24 Conduct learner-developed investigations independently and collaboratively over periods of weeks and months
C25 Listen attentively and critically to presentations of scientific information made by others
C26 Conduct analyses of propaganda related to scientific issues
C27 Perform investigations that require observations over varying periods of time
C28 Experience scientific concepts as interpreted by other cultures through multimedia and local and global specialists
C29 Access appropriate technology to perform complicated, time-consuming tasks
C30 Relate historical accounts of science to the cultural context in which they were written
C31 Work as a contributing member of a collaborative research group
C32 Examine the influences of social and political structures and realities that contribute to inquiry about scientific issues
C33 Use technology (e.g., desktop publishing, teleconferencing, networking) to communicate scientific ideas
C34 Explore and analyze a variety of perspectives on science (e.g., works by men and women of many racial, ethnic, and cultural groups)
C35 Lead groups of learners of various ages in designing, planning, and conducting science activities
C36 Respect the scientific thinking of others and self
C37 Recognize and contrast different epistemologies
C38 Develop possible courses of action in response to scientific issues of local and global concern
C39 Determine the validity of research conclusions in relation to the design, performance, and results
C40 Develop multimedia presentations of group and individual research projects and investigations appropriate for a variety of audiences and forums
C41 Produce interesting and scientifically correct stories and present them using various modes of expression
C42 Reflect on the ideas and content found in own journal records
C43 Examine ambiguous results and formulate explanations
C44 Recognize and synthesize the contributions to scientific thought of individuals from many cultures
C45 Construct models and simulations of the component structures and functions of living and nonliving entities
C46 Lead multi-age groups in the examination of and planned resolution for scientific issues
C47 Recognize and choose members of research teams based upon the merit of their ideas and skills
C48 Construct a portfolio of products, documentation, and self-evaluations of own abilities, skills, and experiences
C49 Synthesize scientific information from a variety of sources
C50 Evaluate and prioritize scientific issues based upon risk-benefit analyses
C51 Refine scientific skills from a variety of experiences

Subunit: Applications for Science Learning

Competencies:
A1 Answer student-determined questions by designing databases and drawing inferences from the analyses of the information in these databases
A2 Make personal behavior decisions by interpreting information that has a scientific basis
A3 Propose courses of action that will validate and demonstrate personal understandings of scientific principles
A4 Guide other learners in their understanding of the interactions of technologies and society at various periods in time
A5 Promote and carry out practices that contribute to a sustainable environment
Academic Competencies: Total List

A6 Study and propose improvements in public services and systems in own community
A7 Choose consumer materials utilizing personal and environmental risk and benefit information
A8 Make inferences and draw conclusions using databases, spreadsheets, and other technologies
A9 Do simple troubleshooting on common electrical and mechanical systems, identifying and eliminating possible causes of malfunctions
A10 Construct devices that perform simple, repetitive actions
A11 Investigate the functionality of various geometric shapes in the natural world and the designed world (e.g., translations from spherical to plane representations cause distortions; triangular shapes contribute to rigidity and stability in structures; round shapes minimize boundary for a given capacity)
A12 Make decisions regarding personal and public health
A13 Evaluate the social and ecological risks and benefits resulting from the use of various consumer products
A14 Analyze the contributions of advances in technology through history to own everyday life
A15 Identify and reduce risks and threats to a sustainable environment
A16 Extend the limits of human capabilities using technological enhancements
A17 Use and recognize various propaganda techniques
A18 Solve unique problems using the results of systematic analyses
A19 Choose everyday consumer products that utilize recent innovation and pass appropriate performance criteria
A20 Refine personal career interests through investigations of the diversity of manufacturing, research, service, and invention processes
A21 Predict and investigate the working of toys and tools while controlling and manipulating variables (e.g., friction, gravity, forces)
A22 Write, follow, modify, and extend instructions (e.g., equations, algorithms, formulas, flow diagrams, illustrations)
A23 Create products, make inferences, and draw conclusions using databases, spreadsheets, and other technologies
A24 Predict various scenarios and propose solutions to community issues using scientific information (e.g., actuarial tables, census data, topographic maps, incidence data, climatic data)
A25 Use scientific evidence to consider options and formulate positions about the health and safety of others and self
A26 Search for, use, create, and store objects and information using various strategies and methods of organization and access
A27 Research and write environmental impact statements of own design
A28 Compare school-based science perspectives with those gained through cutting-edge technological applications
A29 Design management plans for natural and human-altered environments (e.g., woodlots, patios, lots, lawns, farmlands, forests)
A30 Refine personal career interests
A31 Promote public awareness of the interaction of technology with social issues
A32 Advocate and propose courses of action for local and global scientific issues using global networks
A33 Use appropriate technologies to prepare and present the findings of investigations incorporating tables, graphs, diagrams, and text
A34 Make informed consumer choices by evaluating and prioritizing information, evidence, and strategies
A35 Develop an informed point of view that allows for validation or refutation of the scientific statements and claims of advocates before pursuing courses of action (e.g., contributing support, signing petitions, casting votes)
A36 Differentiate between observations and inferences in the exploration of evidence related to personal, scientific, and community issues
A37 Develop and write environmental impact, and safety and hygiene management plans
A38 Use technology to collect, analyze, and communicate information (e.g., electronic networks, desktop publishing, remote sensing, graphing calculators, satellite telemetry, and others)
A39 Design, construct, and market inventions
Academic Competencies: Building and Property Maintenance

The Building and Property Maintenance OCAP panel of expert workers (see member list on the inside back cover) identified the following academic competencies (from the total list, pp. 58-72) as most crucial to the entry-level success of an employee in the area of building and property maintenance. It is recommended that these competencies be taught in an applied manner for students enrolled in building and property maintenance programs.

Subunit: Reading—Structure

Competencies:
- RS1 Exhibit knowledge of language structure
- RS2 Recognize that there may be more than one interpretation of reading selections
- RS6 Apply knowledge of language structure to reading
- RS7 Explain why there may be more than one interpretation of reading selections
- RS15 Apply an expanding vocabulary gained through reading

Subunit: Reading—Meaning Construction

Competencies:
- RM12 Use reading as a possible problem-solving strategy to clarify personal thinking and knowledge
- RM20 Use reference books to find, evaluate, and synthesize information

Subunit: Reading—Application

Competencies:
- RA1 Select and read material for personal enjoyment and information

Subunit: Reading—Multidisciplinary

Competencies:
- RM2 Read to facilitate learning across curriculum
- RM7 Value thinking and language of others
- RM9 Read to facilitate content learning

Subunit: Writing—Structure

Competencies:
- WS2 Clarify word choice according to audience, topic, and purpose
- WS14 Use style manuals or software to prepare documentation and reference lists
**Subunit: Writing—Application**

Competencies:

- WA5 Consider audience and purpose for writing
- WA8 Apply an expanding vocabulary gained through writing
- WA9 Make judicious use of reference sources (e.g., dictionary, thesaurus, online database, encyclopedia)

**Subunit: Writing—Multidisciplinary**

Competencies:

- WM1 Use writing process for learning across curriculum
- WM4 Write in response to reading, speaking, viewing, and listening

**Subunit: Listening/Visual Literacy—Structure**

Competencies:

- LS4 Expand vocabulary through listening to and viewing varied media (e.g., recordings, films, music, news broadcasts)
- LS7 Recognize use and misuse of language in media

**Subunit: Listening/Visual Literacy—Meaning Construction**

Competencies:

- LM5 Gather information from listening and viewing experiences to enhance research
- LM7 Use prior knowledge and experiences to facilitate comprehension of new oral texts
- LM11 Enhance use of critical thinking skills to evaluate media and oral presentations
- LM15 Evaluate media and oral presentations analytically and critically
- LM16 Organize prior knowledge and experiences to comprehend new texts
- LM17 Organize and use viewing and listening materials to support written text

**Subunit: Listening/Visual Literacy—Multidisciplinary**

Competencies:

- LM1 Facilitate learning across curriculum through critical listening and viewing
- LM2 Engage in individual, small-group, and whole-group listening and viewing activities

**Subunit: Oral Communication—Structure**

Competencies:

- OS3 Select topics and vocabulary suitable to audience
- OS4 Organize notes and ideas for speaking (e.g., cause-effect, chronological, exemplification)
- OS5 Use language imaginatively (e.g., word games, puns, limericks)
- OS8 Refine speaking techniques for formal, semiformal, and informal settings
- OS12 Select appropriate strategies when organizing notes and ideas for speaking
Subunit: Oral Communications—Meaning Construction

Competencies:

OM2 Participate in informal speaking activities (e.g., offering opinions, supporting statements, questions, clarification, entertainment)
OM5 Participate in group communication activities (e.g., debates, panel discussions, negotiations, book-sharing, roundtables, cooperative/collaborative groups)
OM9 Gather and assess information for speaking
OM10 Communicate orally to inform and persuade
OM17 Analyze and synthesize information gathered from a variety of sources (e.g., interviews, hypermedia, reference works) for speaking

Subunit: Oral Communication—Application

Competencies:

OA3 Develop and apply oral communication skills for cooperative/collaborative learning
OA8 Focus oral interpretation on a specific audience

Subunit: Oral Communications—Multidisciplinary

Competencies:

OM1 Value thinking and language of others
OM2 Develop oral projects collaboratively
OM3 Be involved in individual, small-group, and whole-group language activities
OM4 Participate actively in a community of learners

Unit: Mathematics Skills

Subunit: Measurement

Competencies:

M1 Estimate and use measurements
M2 Understand the need for measurement and the probability that any measurement is accurate to some designated specification
M18 Determine area and volume

Unit: Science Skills

Subunit: Scientific Inquiry

Competencies:

Q9 Make and read scale drawings, maps, models, and other representations to aid planning and understanding
Q11 Use appropriate units for counts and measures
Verification Panels

The Vocational Instructional Materials Laboratory wishes to extend thanks and appreciation to the many representatives of business, industry, labor, and community organizations who donated their time and expertise to the identification and revalidation of competencies.

The following panel was responsible for verifying the occupational competencies on the Building and Property Maintenance OCAP, identifying those academic competencies that an entry-level employee should possess, and determining the Work Keys academic skill levels required for successful entry into the occupation:

Jerry L. Barber, Shelby Memorial Hospital, Shelby, Ohio
Richard Bycroft, Columbiana County Career Center, Lisbon, Ohio
Ralph Conti, Conti Corporation, Lowellville, Ohio
Kenneth D. Crawford, Ohio Department of Rehabilitation, Dayton, Ohio
Anthony Geraci, Smith Lenkey Window Systems, Inc., Canfield, Ohio
Gary A. Porter, Porter Construction, Inc., Dayton, Ohio
Michael Reid, Montgomery Education & Prerelease Center, Dayton, Ohio
Wayne E. Roth, Hire-A-Hubby Building and Remodeling, Tippecanoe, Ohio

The following panel was responsible for verifying the competencies on the Employability OCAP:

Barbara J. Forster, Nationwide Insurance, Columbus, Ohio
Joan L. Hall, Health Management Nursing, Chesapeake, Ohio
Jane Highland, Southern Ohio Staffing, Inc., Chillicothe, Ohio
Chuck Jackson, Butech, Inc., Salem, Ohio
Garry Kessel, Medina Auto Parts, Inc., Medina, Ohio
Joyce A. McMickens, Ernst & Young, Cleveland, Ohio
Julie C. Payeff, The Andersons Management Corp., Maumee, Ohio
Patricia Piper, Edison Industrial Systems Center, Toledo, Ohio
Gary F. Rybak, Red Roof Inns, Inc., Hilliard, Ohio
