The task for busy professionals is to be able to rapidly identify Internet resources so they can be efficiently incorporated in their work.

In this digest, we identify Internet resources of particular interest to the guidance
community. In particular, we identify listservs of interest, identify the offerings of several
gopher sites, show you how to access ERIC on the Internet, and describe the AskERIC

referenced at the end of this digest.

GOPHER SITES

Gophers are menu-driven systems providing access to a wide range of information. Via Internet and Gopher software, you literally connect to computers across the world to obtain information. Often the information is in the form of text files. The information can also be in the form of searchable databases, directories, software, and graphics. Some Gopher sites of interest to the guidance community include:

Arizona State University--Containing the largest listing of educationally relevant gophers, the ASU Gopher is an excellent starting point. There are pointers to the Best of the Internet for Educators and to a large assortment of electronic journals and newsletters, including "Journal of Counseling and Development," "Journal of Distance Education and Communication," "Psychology," and "Rasch Measurement Transactions." Also, by following the path to Electronic journals at CICNET/Electronic Serials/, the counselor can access the full-text issues of the journal, Conflict Resolution Consortium. Gopher to info.asu.edu, select ASU Campus Wide Information/ College of Education/Electronic Journals/.

National Parent Information Network--NPIN provides information and communication capabilities to parents and those who work with them. NPIN offers full-text documents, brochures and other publications which it has gathered from all ERIC components, the National Urban League, the Illinois Parent Initiative, the National PTA, the North Central Regional Education Laboratory, and the Family Literacy Center. NPIN's "Short Items for Parents" are equally suitable for parent educators and counselors in that their scope encompasses issues of discipline, self-esteem, special needs and health of children according to the children's age and developmental levels. The weekly newsletter "Parent News" is another notable offering. Gopher to gopher.prairienet.org, select Education/ERIC/NPIN/.

The Child, Youth and Family Education and Resources Network--CYFERNET describes its mission as "...to develop and deliver educational programs that equip limited-resource families and youth who are at risk for not meeting basic human needs, to lead positive, productive, contributing lives." CYFER offers resources for, and statistics about, child-youth-family development and programs, including full-text versions of pertinent journals and newsletters. Gopher to cyfer.esusda.gov.

ERIC Clearinghouse on Assessment and Evaluation--The ERICmAE Gopher features a wide range of current essays about assessment and evaluation, a special Test Locator
Service, and pointers to places on the Internet where you can search ERIC databases. Of special interest is the Test Locator (see Doolittle, Halpern, and Rudner, 1994). ERIC/AE, the Educational Testing Service (ETS), the Buros Institute, and Pro-Ed (publishing) have collaborated to produce several searchable testing databases. Featured is the ETS Test Collection containing descriptions of over 10,000 educational and psychological measures. Gopher to gopher.cua.edu and select Special Resources/ERIC Clearinghouse on Assessment.

The Library of Congress--LC offers the Machine-Assisted Realization of the Virtual Electronic library. Choose: Search LC Marvel Menus/Search LC Marvel Menus using Jughead and enter the search terms of your choice (e.g., dyslexia, cancer). Gopher to marvel.loc.gov

The Cornucopia of Disability Information--CODI offers 22 menu items of services covering a broad range of information for people with disabilities and for those who work with them. Gopher to val-dor.cc.buffalo.edu

The ERIC Clearinghouse on Instructional Technology--AskERIC maintains a large Gopher site providing access to a wide range of material. Of particular interest are the AskERIC Infoguides. Each Infoguide includes pertinent ERIC document citations and various Internet resources, such as appropriate listservs and pointers to gopher/ftp sites. Some relevant titles are School Counseling 1 & 2, AIDS Education, Child Abuse, Disabilities, Disabled Students, HotlinesmHelplines, Sex Education, Special Education, and Vocational Education. Gopher to ericir.syr.edu.

Because Gopher is so popular, most large computer centers make Gopher available to their dial-up users. Often you can access Gopher at the system prompt by typing Gopher and the gopher address. For example, to access the AskERIC Gopher from a VAX computer you would type GOPHER ERICIR.SYR.EDU from the $.

ERIC Abstracts Database - The entire contents of the Resources in Education and Current Index to Journals in Education are available though several Internet sites. You can Gopher to suvm.syr.edu and select database/ERIC/or gopher to gopher.uic.edu and select Library/Databases/ERIC.

ERIC Digest File--Digests are 1500 word reports that synthesize research and ideas about emerging issues in education. They are designed to help members of the educational community keep up-to-date with trends and new developments. Digests typically either serve as an introduction to a topic, provide current information of a factual nature related to a topic, define and describe a controversial topic, provide specific, concrete examples of how practitioners can apply research results in practical settings, report on the current status of research in an area, or summarize an existing review and synthesis publication. These are one of the most popular items on the entire www.eric.ed.gov
