INTRODUCTION

The annual Bibliography of the National Center continues to be recognized as an outstanding source of research material available in the field of collective bargaining in higher education and the professions. This twenty-two volume series documents the development of collective bargaining in higher education as well as employment and labor relations issues for other professionals.

As the dimensions of unionized employment relationships undergo changes, so do the various topics included in this project. Each year subjects are added or removed from the Bibliography dependent upon the amount of available research in any particular subject area. We have reinstated the heading "Collective Bargaining - Canada" due to the interest of our readers. Canada continues to be represented extensively in all areas covered by this bibliography.

This Bibliography is an annual accounting of the current state-of-the-art research and writings in collective bargaining in higher education and the professions. The research design and methodology used in the preparation of this volume relied on computer searches of various data bases, as well as manual retrieval of citations. Sources include: books, monographs, dissertations, journals, periodicals, research and conference papers, and newspaper articles.

In addition to the Bibliography, the annual publications of the National Center include the Directory of Faculty Contracts and Bargaining Agents in Institutions of Higher Education, Proceedings of our annual conference and a quarterly Newsletter. The Center also issues occasional monographs on selected topics.

An impartial, nonprofit research institute of Baruch College of the City University of New York, the National Center serves as a clearinghouse and forum for those engaged in collective bargaining (and the related processes of grievance administration) in colleges and universities.
Associate Professor, Ida B. Lowe, a librarian at Baruch College, is responsible for the data collection, selection and compilation of this issue of the Bibliography. Beth Johnson, the Administrative Director of the Center, was responsible for the overall supervision and direction, as well as editing of this project. We are most appreciative of the efforts of these two individuals which stand as a measure of their quality and success.

While we believe that this publication is accurate with respect to citations, titles and other bibliographic information, we apologize for any errors or omissions which might have occurred. As always, we welcome feedback from you, the reader, and are grateful for your comments. We hope that this Bibliography will be of assistance to you in your various research projects.
