PROJECT TITLE: Animals in India: Folklore Myth and Religion  
PROJECT LENGTH: Six weeks  
PROJECT TARGET GROUPS: Grades 10-12/ Elementary students  

PROJECT DESCRIPTION: This six-week elective course in English is designed to acquaint students with the culture of India through the study of animals in Indian myth, folklore and religion. Research skills, creative writing, group cooperation, and oral presentations are all integral parts of this course. Students must keep a course journal, research a chosen animal with a group, compile a bibliography, and plan an oral presentation for elementary school students.  

PROJECT OBJECTIVES: The student should be able to  

1. demonstrate familiarity with the folkloric function and religious significance of animals in the culture of India.  
2. give evidence of an understanding and appreciation for the culture of India through readings on the animals.  
3. apply research skills to create and organize a lively and interesting presentation about selected animals.  
4. organize material to fit comfortably into a 45-minute presentation to local elementary school students.  
5. arrange for visual aids, handouts, hands-on activities, etc. to enhance the presentation.  
6. exercise creativity in the choice of objects, stories, slides, dance, audience participation, etc. for the presentation.  
7. practice positive and effective cooperative learning through inclusive group interaction, careful mutual planning, fair delegation of tasks, and utilization of individual talent to the benefit of the presentation.
8. -keep a journal chronicling course activities, plans, ideas, problems, illustrations, sources, quotations, cartoons, poems, observations, assignments, paste-ins, personal reactions, outlines of information gathered, etc.

9. -participate in a final discussion sharing journal entries and feelings about the outcome and impact of the project on their understanding of the culture of India.

STRATEGIES: WEEK ONE: Begin journals  
Organize groups and materials  
Outline project tasks

DAY 1: Procedure: Teacher/Student/Student interaction

Initiate discussion of American attitudes toward the animals in their lives. Ask what animals they associate with the word INDIA. Call a student to board to elicit from class a side-by-side list of the animals most familiar to American and Indian households. Discuss. Teacher will add any animals left out of Indian list and share personal observations of Indian attitudes toward animals (very brief references to Jain philosophy, the sacred cow, the elephant, oxen, water buffalo, monkey...the close proximity of animals and citizens in everyday life, etc.)

Assignment: journal entry: reaction to discussion

Day 2: Procedure: Student/Student interaction-Teacher facilitator

Share journal entries. Handout: Course description and content, list of animals. Discuss and clarify as needed. Students divide into groups of three or four (no more) and decide on one animal per group for study. (Be sure they use compromise to cover a variety of animals) Students make a rough outline of tasks and projects in journals, elect a group leader, discuss strategies, ideas, etc. All keep notes in journals. Stress that sharing information among the groups is important.
Assignment: journal entry: reaction to group work. Go through books and/or computers at home or interview an Indian acquaintance or classmate for information on India.

Day 3: Procedure: Student/Student/Teacher interaction

Teacher instruction: Daily procedures in class, names of the great Indian literary works: Ramayana, Bhagavadgita, Handout: model outlines for project. Students share homework findings, swap information as needed. Teacher places out books of Indian stories and comic books collected in India, newspaper articles, art books, story scroll, posters, animal objects etc. etc. for students to peruse and check out as needed. (See bibliography). School and community libraries must be used for research also. Teacher circulates to each group checking progress, making suggestions, helping with problems as necessary.

Assignment: journal entry, group task: research

Day 4: Student/Student interaction-Teacher observation

Five minutes, whole class: group progress reports; sharing of research between groups; troubleshooting for each other. Allow students to work together with materials. Assist only when students ask, and then only give them leads to find information or to solve group problems by themselves. Observe and take notes on positive activities. Make sure each group has planned a homework task.

Assignment: journal entry, group initiated homework

Day 5: Student/Student interaction-Teacher observation

Before students begin tasks, commend any good strategies observed. Encourage groups to cooperate with each other: to join for some activities, brainstorm, etc. Assure them that they are not rivals but collaborators and that they will receive at the end of the course a class grade on how well they have worked together. Collect the week's worksheets and/or journals for comments and suggestions.

Assignment: journal entry, group initiated homework
WEEK TWO:  Research animal
            Prepare bibliography of sources
            Outline presentation

WEEK THREE:  Prepare audiovisual aids: worksheets, artwork,
              puppets, story scrolls, music, videos, etc.

WEEK FOUR:  Rehearse presentations
            Students evaluate and suggest improvements
            Rehearse, Revise, and clean up as needed

WEEK FIVE:  Present projects at Vanderlyn Elementary School

WEEK SIX:  Groups summarize project based on journals
            Class evaluates course
            Exam: essay/journal entry

NOTE: Since the course has not yet been tried out, time
      allotments may need adjustment--hence the day-by-day
      planning for one week only. The outline of activities
      from weeks two through six may also need some leeway. The
      rather light activity of week six allows for this need.

GRADING:  Major: (2/5) finished journal/presentation/group
          summaries/class grade
          Participation: (1/5) timely completion of individual
                        group tasks/group interaction
          Quizzes/Homework: (1/5) group completion of handouts/
                           outlines/bibliography, etc.
                           journal entries/research

III. The animal in Indian Folklore
   A. Story one
      (Perhaps act these out....)
   B. Story two

IV. The animal in Indian daily life: use and treatment

V. The result of the research: pooled information

STEP TWO: PREPARATION FOR PRESENTATION/ WEEK THREE

I. Pooled information
   A. Discuss what to keep and what to discard
   B. Decide format of presentation for each item

II. Division of tasks
   A. Coordinator--(name)
   B. Script--(list names)
   C. Student handouts--(list names)
   D. Artwork--(list names)

III. Things to consider
   A. Fitting material into time frame
   B. Arranging materials in such a way as to keep audience engaged
      1. Lighting
      2. Costumes--Indian dress/Animal masks
      3. Dialogue
      4. Slide projector for slides and/or illustrations
   C. Letting children participate (in script, art, acting)
IV. Some ideas for art and creativity

(This one is all yours--only if you are AT YOR WITS END will I help you here....but remember to use the Indian artifacts and other materials available in our classroom.)

STEP THREE: REHEARSAL/ WEEK FOUR (Every one must participate, even if only as prompter or gofer.)

I. Things to consider
   A. Coordination of lighting, script, activities
   B. Memorization of parts if dramatizing story/ Prompters
   C. Set-up of AV materials ahead of time
   D. Music accompaniment
   E. Delivery of script
      A. SLOW
      B. Clear
      C. Lively
      D. Ready to pause for laughter
   F. Stage presence
      A. Face Audience
      B. Walk among children
      C. Make eye contact
   G. Student absence on day of performance

II. Program leaflets
   A. Design for all groups or each alone?
   B. Sequence of presentations varied as to type and activity? (Do not put two similar presentations back to back.)
   C. Illustration on front?

FINAL NOTE: You may want to form groups according to talent: that is, an Art Group, Writing Group, AV Group, etc. In that case you would need to work on several animals and coordinate your research in different ways. It's all up to you. Let's see those imaginations run...Good Luck and have lots of fun!
REHEARSAL EVALUATION  Divide individual presenters among evaluator groups so that each has at least three ratings. Everyone evaluate items marked "whole."

COURSE EVALUATION: ANIMALS IN INDIA: MYTH FOLKLORE AND LIFE

Consider the course objectives below. On a separate paper, in outline form address each. Are you satisfied that you have attained it? Do you think you missed out on it? Do you have any suggestions as how better to attain it? What might you have done differently? You may be creative. Please be honest. You may remain anonymous if you wish though each student must complete the evaluation. For the evaluation it is best to work alone.

1. Demonstrate familiarity with the folkloric function and religious significance of animals in the culture of India.

2. Give evidence of an understanding and appreciation for the culture of India through readings on the animals.

3. Apply research skills to create and organize a lively and interesting presentation about selected animals.

4. Organize material to fit comfortably into a 45-minute presentation to local elementary school students.
