This paper presents findings of a survey of 500 elementary, middle, and senior high school principals. The survey focused on four areas of the principalship: (1) principals' perceived roles as building administrators; (2) time spent in those roles; (3) graduate school preparation for the roles; and (4) levels of job satisfaction. Findings indicate that the typical respondent spent 46-60 hours per week dealing with school-related activities, primarily "admininistrivia." Principals also reported spending a significant amount of time supervising students and faculty, attending meetings, and dealing with discipline situations. However, the majority of respondents expressed satisfaction with their work, colleagues, responsibilities, and supervisors. They spent little time in the role of instructional leaders for which graduate programs had prepared them. Graduate schools did provide training in communication, leadership, public-relations, and decision-making skills; however, principals seemed to lack preparation in class scheduling and discipline. Finally, respondents were least satisfied with their salary levels. A copy of the questionnaire is included. (LMI)
School Principals: Their Roles and Preparation

by

Michael W. Graham, Ph.D.

Maryville Missouri

A paper presented at the Sixth National Conference on Creating the Quality School, March 20-22, 1997, Oklahoma City, Oklahoma
ABSTRACT

A survey of 500 elementary, middle, and senior high school principals focused on four major areas of the principalship. The respondents were asked to describe: 1) their perceived roles as building administrators; 2) time spent in those roles; 3) graduate school preparation for the roles; and 4) levels of job satisfaction. Results of the study, a description of the typical respondent, and differences among the three groups of principals are included in this paper.
School Principals: Their Roles and Preparation

What roles do principals perceive themselves as filling? How much time do they spend in those roles? Are they prepared to do their jobs? How happy are they in their work as building principals? Those are four of the major questions asked in this study and answered in this paper.

Typical Respondent

The answers to questions two through seven in the survey (see Appendix A) indicate the typical respondent in this study. The questionnaire was distributed to five hundred elementary, middle, and senior high school principals. The typical respondent was a male between the ages of 41 and 50 years of age, working in a building with an enrollment of more than 550 students. He is relatively new in his current position with less than three years experience, but he does have a total of between four and eight years of experience as an administrator. Differences among the three groups are identified as 1) Elementary principals were mostly female; 2) Senior high principals had served longer in their current position (4 to 8 years); and 3) Senior high principals had spent more years in the principalship (9 to 14 years).
Role Perceptions

Question #28 offered five choices regarding how the principals spent the majority of their time. More than two-thirds (68%) considered themselves as general managers, while almost one-fourth (22%) perceived themselves to be instructional leaders. The remainder were divided rather evenly among the other three choices of principal teacher, curriculum leader, and professional/scientific manager.

Time Allocations

The typical principal in this study spends between ten and twelve hours per day and between forty-six and sixty hours per week dealing with school related activities. The majority of their time is taken by "administrivia", defined here as routine duties, paperwork, and phone calls. Another significant amount of time is spent in the supervision of students and faculty, attending meetings, and dealing with discipline situations. Relatively small amounts of time (less than five hours per week) are devoted to curriculum development, teacher evaluations, scheduling, and meeting with parents in the district. It is not surprising, then, that these principals view themselves as general managers, rather than instructional leaders.
Job Satisfaction

The subjects in this study were asked to indicate their levels of job satisfaction in eight different areas in questions eight through fifteen (See Appendix A). These categories are 1) Colleagues/Co-workers; 2) The job; 3) Responsibility; 4) Opportunity for promotion; 5) Pay; 6) Working conditions; 7) Fringe benefits; and 8) Your supervisor.

The respondents indicated that they were either very satisfied or satisfied with their colleagues, their job, level of responsibility, working conditions, and supervisor. Lower levels of satisfaction were recorded in their opportunity for advancement and fringe benefits, while pay ranked the lowest on the scale for satisfaction. There were no significant differences among the three groups.

Preparation for Roles

Items 29 through 40 on the questionnaire (Appendix A) referred to graduate school preparation for the roles that principals assume. Overall, potential administrators are being well prepared for their future roles as building principals. The subjects reported having received excellent or good preparation in instructional leadership. Other areas receiving relatively high marks include supervisor of faculty and staff as it pertains to evaluation, public relations, communication, budgeting, and decision-making. Categories of concern include building management, discipline, interpersonal
relationships, and class scheduling. More than 40% of the principals indicated that they had received little preparation in these areas, while 42% reported having received little or no preparation in class scheduling. It seems crucial that graduate schools need to focus more attention and devote more time to these kinds of programs, since the principals spend significant amounts of time on the job dealing with issues requiring these preparations.

Conclusions

While building principals spend huge amounts of time on the job as general managers, they still seem satisfied with their work, colleagues, reponsibilities, and supervisors. Even though they are being prepared by graduate programs as instructional leaders, the principals are spending little time in that role. Some of the tools necessary for success, such as communication, leadership, public relations, and decision-making, are being delivered by graduate schools. On the other hand, items such as class scheduling and discipline, which also are necessary for success, seem to be missing from their preparation.
Please mark your responses on the enclosed computer card, fold in half, and place in the return envelope.

1. Please indicate in which region of the state your school is located.
   A. Northwest
   B. Northeast
   C. Central
   D. Southwest
   E. Southeast

2. How would you describe the grade span of the building to which you are assigned?
   A. Elementary (1-6)
   B. Middle school (5-8)
   C. Jr.-Sr. high school (7-12)
   D. Senior high (9-12)
   E. Other

3. How many years have you spent in your current assignment?
   A. 0 - 3
   B. 4 - 8
   C. 9 - 14
   D. 15 - 20
   E. 21 or more

4. How many years have you spent as a principal?
   A. 0 - 3
   B. 4 - 8
   C. 9 - 14
   D. 15 - 20
   E. 21 or more

5. Please identify your gender.
   A. Male
   B. Female

6. What is your age?
   A. 21 - 25
   B. 26 - 30
   C. 31 - 40
   D. 41 - 50
   E. 51 or older

7. What is the enrollment in your building?
   A. Fewer than 150 students
   B. 151 - 250 students
   C. 251 - 400 students
   D. 401 - 550 students
   E. 551 or more students
Please use the below scale to indicate your level of satisfaction with the below factors

A. Very satisfied
B. Satisfied
C. Neutral
D. Dissatisfied
E. Very dissatisfied

8. Colleagues/Co-workers
9. The job you currently hold
10. Level of responsibility
11. Opportunity for promotion/advancement
12. Pay
13. Working conditions
14. Fringe benefits
15. Your supervisor

16. How many hours per day do you typically spend in school-related activities? (before school, during the school day, and after school)
   A. 0 - 3 hours
   B. 4 - 6 hours
   C. 7 - 9 hours
   D. 10 - 12 hours
   E. 13 or more hours

17. How many hours per week do you typically spend in school-related activities? (before school, during the school day, and after school)
   A. 0 - 15 hours
   B. 16 - 30 hours
   C. 31 - 45 hours
   D. 46 - 60 hours
   E. 61 or more hours

Please estimate the number of hours you spend in a typical week in the below activities, using the following scale.

A. Less than 1 hour
B. 1 - 5 hours
C. 6 - 10 hours
D. 11 - 20 hours
E. 21 or more hours

18. Discipline
19. Teacher observations/evaluations
20. Curriculum development
21. Supervising non-certified staff
22. Supervising faculty
23. Meeting with patrons/parents
24. "Administrivia" (routine duties, paperwork, phone calls, etc.)
25. Supervising students
26. Scheduling
27. Meetings
28. Please classify how you spend most of your time at school.

A. As an instructional leader  
B. As a general manager  
C. As a principal teacher (part-time teaching duties)  
D. As a curriculum leader  
E. As a professional/scientific manager

Please indicate below how much preparation your graduate program offered you in the below areas, using the following scale.

A. Excellent preparation  
B. Good preparation  
C. Little preparation  
D. Very little preparation  
E. No preparation

29. Instructional leadership  
30. Supervisor of faculty/evaluation  
31. Supervisor of staff/evaluation  
32. Building manager  
33. Disciplinarian  
34. Public relations  
35. Curriculum development  
36. Interpersonal relationships  
37. Communication  
38. Class scheduling  
39. Budgeting/finance  
40. Decision-making/problem-solving

Thank you for taking the time to respond to this survey. Please include your name and address if you wish to receive a summary of the results.
I. DOCUMENT IDENTIFICATION:

Title: School Principals: Their Roles and Preparation

Author(s): Michael W. Graham

Corporate Source: Publication Date:

II. REPRODUCTION RELEASE:

In order to disseminate as widely as possible timely and significant materials of interest to the educational community, documents announced in the monthly abstract journal of the ERIC system, Resources in Education (RIE), are usually made available to users in microfiche, reproduced paper copy, and electronic/optical media, and sold through the ERIC Document Reproduction Service (EDRS) or other ERIC vendors. Credit is given to the source of each document, and, if reproduction release is granted, one of the following notices is affixed to the document.

If permission is granted to reproduce and disseminate the identified document, please CHECK ONE of the following two options and sign at the bottom of the page.

Check here for Level 1 Release:
Permission to reproduce in microfiche (4" x 6" film) or other ERIC archival media (e.g., electronic or optical) and paper copy.

The sample sticker shown below will be affixed to all Level 1 documents

PERMISSION TO REPRODUCE AND DISSEMINATE THIS MATERIAL HAS BEEN GRANTED BY

Sample

TO THE EDUCATIONAL RESOURCES INFORMATION CENTER (ERIC)

Level 1

Check here for Level 2 Release:
Permission to reproduce in microfiche (4" x 6" film) or other ERIC archival media (e.g., electronic or optical), but not in paper copy.

The sample sticker shown below will be affixed to all Level 2 documents

PERMISSION TO REPRODUCE AND DISSEMINATE THIS MATERIAL IN OTHER THAN PAPER COPY HAS BEEN GRANTED BY

Sample

TO THE EDUCATIONAL RESOURCES INFORMATION CENTER (ERIC)

Level 2

Documents will be processed as indicated provided reproduction quality permits. If permission to reproduce is granted, but neither box is checked, documents will be processed at Level 1.

*I hereby grant to the Educational Resources Information Center (ERIC) nonexclusive permission to reproduce and disseminate this document as indicated above. Reproduction from the ERIC microfiche or electronic/optical media by persons other than ERIC employees and its system contractors requires permission from the copyright holder. Exception is made for non-profit reproduction by libraries and other service agencies to satisfy information needs of educators in response to discrete inquiries.*
III. DOCUMENT AVAILABILITY INFORMATION (FROM NON-ERIC SOURCE):

If permission to reproduce is not granted to ERIC, or, if you wish ERIC to cite the availability of the document from another source, please provide the following information regarding the availability of the document. (ERIC will not announce a document unless it is publicly available, and a dependable source can be specified. Contributors should also be aware that ERIC selection criteria are significantly more stringent for documents that cannot be made available through EDRS.)
