This manual is designed to help individual libraries in Wisconsin plan and implement their summer library programs. The manual is divided into six sections. Section 1 covers planning and promoting programs, and includes reproducible promotional materials, sample letters to parents, and sample media materials. Section 2 provides decorating and display ideas for the library and name tag designs. Section 3 provides programs and activities. It recommends general resource materials; talks about surfing the Internet; provides poetry, stories, and plays to perform; outlines storytime programs; and describes water-related activities and crafts. The majority of programs are aimed at young children. Section 4 provides giveaways and games, including clip art, puzzles and word games, mazes and coloring pages, and answer keys. Section 5 lists Wisconsin performing artists with a description of their performance type and contact information. Section 6 contains sources and resources, including resources for people who have hearing loss and/or visual impairments and catalogs of companies that provide additional sources of materials and prizes. It is a real pleasure for me to welcome you to the 1998 Wisconsin Summer Library Program. This year’s slogan—Make Waves: Read!—conveys to me not only a joyful sense of summertime play, but a deeper message as well.

If children are to succeed and excel, if they are to “make waves” by being independent thinkers, if they are to relish waving at friends around the globe—then they must, indeed, know how to read and to read well. That ability is perfected only through practice.

All that you do to stimulate interest in books and to instill a delight in reading is invaluable. Your willingness to expend your considerable creative energies on summer programs for children and their families is a tremendous contribution to your community. It is a very real part of the foundation upon which an educated society rests.

You have my good wishes as you celebrate the aquatic world with plenty of fun and laughter this summer. At the same time, you will know you are helping nurture those qualities that will lead to lifelong love of learning.

John T. Benson
State Superintendent of Public Instruction
Once again, the youth services librarians of Wisconsin have contributed creative ideas in order to make a Summer Library Program manual that is a practical guide to program planning and implementation. My sincere thanks go to each one of them and to librarians in other states who have produced summer manuals that enhance this publication. A willingness to share ideas and experiences characterizes much of the fine work carried out by youth services librarians across the country.

Make Waves: Read! is a joy-filled slogan. I hope its spirit of spontaneity will prevail throughout the summer in libraries throughout the state. Wisconsin is filled with ponds, streams, lakes, rivers, marshes, waterfalls, and swimming pools—all of which can be celebrated along with books, poems, crafts, and games.

Jane A. Roeber
Program Coordinator and Manual Content Editor
Acknowledgments

The colorful creatures in Francisco X. Mora's Make Waves: Read! poster embody the joyous attention elicited by a good book! Those delightful creatures and the artist's bold border design enliven various pages in this manual. Mora was born in Mexico City and is a graduate of the National Academy of Fine Arts in San Carlos, Mexico; he now lives in Milwaukee, Wisconsin. His distinctive style is familiar to teachers and librarians who know the reading support materials he designed for the Upstart Company and he has a well-deserved national reputation in the fine arts for his brilliant and compelling acrylic paintings. Among his children's books currently in print are La Gran Fiesta (Highsmith, 1993), Juan Tuza and the Magic Pouch (Highsmith, 1993), The Legend of the Two Moons (Highsmith, 1992) and Little Red Ant and the Big Crumb (Clarion, 1994).

Summer Library Program History

This year marks the 28th anniversary of statewide summer library programs in Wisconsin and the 23rd anniversary of program coordination by the Division for Libraries and Community Learning. The first programs were coordinated by Marian Edsall, director of the Cooperative Library Information Program (CLIP), with the help of Elizabeth Burr, children's library consultant, Wisconsin Department of Public Instruction. Since 1975, Summer Library Programs have been coordinated by the division in close cooperation with youth services librarians across the state. The following statewide themes have been used over the years.

1970 Summer Reading Is Out of This World
1971 Magic Maze
1972 Take a Giant Step
1973 Explore the Haunted House
1974 Travel through Time with Tobor
1975 Yankee Doodle Rides Again
1976 Be a Super Snooper at the Library
1977 Summer of the Whangdoodle
1978 Star Worlds at the Library
1979 Super People Enjoy the Library
1980 All Creatures Great and Small
1981 Merlin's Midsummer Magic
1982 Through the Looking Glass
1983 Where the Rainbow Ends
1984 Hats Off to Kids
1985 Thriller-Dillers and Chillers
1986 Star Spangled Summer
1987 Hands around the World
1988 Summer Splash
1989 Super Summer Safari: Make Books Your Big Game
   (Winner of the 1990 John Cotton Dana Library Public Relations Award sponsored by the H.W. Wilson Company and the American Library Association Library Administration and Management Association Public Relations Section)
1990 Readlicious: Carryouts Available
1991 Wheels, Wings 'n' Words
1992 Summer Quest
1993 Go Wild! Read!
1994 Rock 'n' Read
1995 Sportacular Summer
1996 Razzle Dazzle Read
1997 Zap into the Past
Planning and Promoting Programs

Materials Evaluation
Making Waves

When the planning committee for the 1998 Summer Library Program met in the fall of 1996, the members were ready to “make waves.” They were ready to challenge a long-standing program schedule and to explore the merits of recycling a previously used theme. Although planning committee members accepted some major responsibilities for manual content, rearranging the overall program schedule made for a radical change in the time frame during which manual contributions would be solicited from librarians statewide. A look at the list of contributors in the Acknowledgments section of this manual reveals fewer contributions from others around the state than in many recent years. There will be an ongoing examination of the overall schedule for materials production.

The planning committee focused its discussion of theme recycling on three previously popular themes and concepts: Hats Off to Kids (a celebration of children and families, contemporary and historical, from many cultures), Star Spangled Summer (an exploration of stars, planets, space travel, and human stars), and Summer Splash (a concentration on aquatic life, science, and water recreation).

The ultimate concept selection and the specific slogan Make Waves: Read! reflect the committee’s belief in the wide appeal of water-related programming for children of all ages and their families. Among the group’s comments were these.
- Easy to decorate
- Conveys a sense of fun
- Offers opportunities for good demonstrations, experiments, and crafts
- Can be tied to surfing the ‘net
- Can include weather and environmental concerns
- Takes advantage of all of Wisconsin’s water resources
- Local and statewide incentive awards should be easy to find
- Can use the idea of waves conveying friendship
- Can encourage children to “make waves,” to think for themselves

You have an opportunity to evaluate the 1998 manual and other Summer Library Program materials produced by the Department of Public Instruction by filling out the evaluation form printed at the end of this chapter. The form also invites your suggestions for the 2000 Summer Library Program theme.

Planning

The tradition of summer library activities is a strong one in Wisconsin. Individual libraries have carried out their own special programs for many decades and there has been statewide program coordination since 1970. All of these efforts rest on recognition of several factors.
- Awareness that reading is a skill that is refined only through practice
- Awareness that much success in education and in life itself comes from the ability to read well
- Knowledge that in addition to factual information found in books there are imaginative delights to be found as well
- Recognition of summer as a period when children’s time is at least somewhat less structured than during the school year
- Belief that library resources (print, audiovisual, and digital) are of importance to people of every age and that acquaintance with them can be nurtured in pleasure-based activities

Any reader of this manual will know such things through instinct, common sense, anecdote, and observation. It is sometimes important, as well, to cite statistics and studies reflecting formal research.

One example comes from a 1982-1983 study carried out in the Columbus, Ohio, public schools and published as Report of the Chapter 1 Sustained Effects Study (Ohio Department
of Evaluation Services, 1984). In a testing program of public school students in grades one through seven, the researchers found some decline in reading skills over the summer at all age levels, but the greatest decline for first graders.

- A 1984 study of participants in the Normal, Illinois, public library's summer reading program showed that participants demonstrated increased vocabulary scores and a somewhat less pronounced increase in comprehension scores as compared to decreased scores in both categories for nonparticipants. The study is reported in the January 1988 issue of Illinois Libraries in an article titled "The Effect of Summer Reading Program Participation on the Retention of Reading Skills" by Vivian Carter.

- A 1987 study of 3000 Atlanta school children cited by Larry J. Mikulecky in "Stopping Summer Learning Loss among At-Risk Youth" (Journal of Reading, April 1990) indicated that "average students hold even or fall slightly in reading skills over summers. The bottom 25% of students make comparatively meager gains during the academic year and then lose a significant proportion of those gains each summer."

- Reading In and Out of School (US Department of Education, 1992) reports that fourth, eighth, and twelfth graders who reported more reading outside school performed better on a test of reading comprehension.

- The Power of Reading: Insights from the Research by Stephen Krashen (Libraries Unlimited, 1993) is an overview of research done in the 1980s and early 1990s. A major conclusion drawn by the author is that free voluntary reading is the best predictor of reading comprehension, vocabulary growth, spelling ability, grammatical usage, and writing style. Undoubtedly, more extensive research about reading and maintenance of reading skills will be conducted. But the evidence of your own eyes coupled with feedback from parents, teachers, and reading specialists in your own community will continue to reinforce your awareness that children who read throughout the summer return to school with their skills intact or even improved. Therefore, summer library programs provide a real service to schools and, by extension, to the community at large in terms of contributing to an important part of education. The programs benefit their participants in ways beyond the academic, however, by reinforcing opportunities to read for sheer pleasure and by opening doors to the entire spectrum of library resources and programming.

- Libraries that offer summer programs for pre-reading children have significant impact in this area, too. Such programs assist parents and other caregivers in selecting appropriate materials and activities for the youngsters, helping to lay a firm foundation of literacy.

**Basic Structure: Your Choice**

The bottom line in structuring your summer library program is to adopt a design that is comfortable for you and workable for your staff, budget, and facility. A good guide for thinking through the process is And a Good Time Was Had by All (Wisconsin Library Association Youth Services Section, 1997). For information about availability and costs contact the association at 5250 East Terrace Drive, Suite A, Madison, WI 53718; (608) 245-3640. The guide emphasizes looking for ways to improve and simplify programs and to reduce stress.

Among the questions you and your coworkers may want to ask yourselves as you analyze your summer activities are these.

- Is it essential for children to preregister to participate in the program and/or to attend special presentations and shows?
- Do we need to keep reading folders at the library?
- What was last year's budget? Do we need to seek additional funds and sponsors?
- Can we cooperate with other libraries to schedule performers?
- On what age groups will we concentrate?
- Where does service to childcare centers and childcare providers fit in?
- Should we try more evening programs or weekend programs so that whole families can be involved?
- Will we ask participants to keep track of books read, minutes read, Internet sites visited?
• Will we limit what can be read to library material only?
• If we use volunteers, how much time will we need to allocate for their training and supervision?
• Shall we award prizes or incentives and, if so, on what basis?
• Shall we build in a field trip and what will that involve in terms of parental permission, chaperonage, and costs?
• How will we evaluate success—attendance at storytimes, attendance at special events, circulation numbers, representation from new populations, percentage of participation as compared with total numbers in specific age groups in the service area?
• Who will be responsible for publicizing the program in the schools and in the community?
• How will we report our success to the library board and the community?

An honest appraisal of your programs in the recent past will serve you well. A willingness to consider change also will benefit you and your entire program. Ideally, your planning for the next year will begin as soon as the activities of the present year are completed. The following paraphrased guidelines were suggested in the 1984 summer library program manual from the Arkansas State Library; use them to stimulate further discussion with your staff members.
• Any child who can read may participate. Interpret “read” loosely. There are no age restrictions.
• Allow each child to keep his/her own reading record for his/her own satisfaction. While you may rejoice over the omnivorous reader, the child who reads fewer books should not be made to feel any less a participant. Children should read at their own paces and chosen levels.
• Do not use required reading lists. Make use of special lists and displays of books to draw attention to selected items, but allow each child to freely choose materials from the library collection.
• Allow continuation of program participation if a child moves or visits from another town where the library is promoting this program.
• Remember the responsibilities of a public library to include all of the children in the community. Give thought to the needs of children who have disabilities.
• Encourage participation by children from the state schools for the blind and the deaf who are home for the summer.
• De-emphasize competition among children over the number of books read or amount of time spent reading by utilizing individual reading contracts. As readers sign up, ask them to determine how many books they think they can read during the course of the program or how much time they realistically think they will spend. At the end of the summer make an announcement identifying the children who achieved their self-set goals. The contract completion numbers also can be used as part of the library's own evaluation process.

**Incentives for Participants**

As you examine the goals of your summer program, you may want to consider the question of whether to offer prizes to program participants. Such incentives can be viewed positively, as part of the summer's celebration of library resources and efforts to expand participants' awareness of those resources. In contrast, they can be viewed as bribes or unnecessary reinforcements of materialism. The latter view is strongly expressed in *Punished by Rewards: The Trouble with Gold Stars, Incentive Plans, As, Praise and Other Bribes* by Alfie Kohn (Houghton, 1993). Kohn does offer some advice for those who choose to stay with rewards. He suggests keeping the award close to the activity—for instance, awarding books to readers—and striving for situations in which all participants win.

Public libraries nationwide have used a broad spectrum of awards and prizes. At one end are inexpensive stickers, pencils, and bookmarks. Some of the more elaborate schemes have involved winning “library dollars” for each book read and spending them for items such as books, audiocassettes, puppets, and more. The number of books read also has been used as a mechanism for allowing entries in drawings for major prizes such as boom boxes, bicycles, and sports equipment.
Whatever approach you take to prizes and rewards, make their presence or absence clear to potential participants from the very beginning of program promotion.

**Statewide Awards**

In recent years, the Department of Public Instruction has made statewide incentive awards available by working with institutions related to Summer Library Program themes. Free admission passes for program participants were provided by the Milwaukee County Zoo, Experimental Aircraft Association Museum, Circus World Museum, Clown Hall of Fame, and State Historical Society of Wisconsin.

During the Make Waves: Read! summer, state park passes are available through the generosity of the Wisconsin Department of Natural Resources. This marks the third summer the departments of public instruction and natural resources have cooperated in this manner. Similar arrangements were made in 1993 (Go Wild! Read!) and 1995 (Sportacular Summer). The passes offer opportunities to expand children’s and families’ awareness of the state’s natural beauties and recreational facilities in a way that complements the library’s efforts to present meaningful resources.

*Both state departments prefer that passes be given to children who actively participate in a library’s summer program. However, requirements for eligibility should not be so rigorous that few children can meet them. Only one pass per child may be presented, but each eligible child in a family may be awarded a pass.*

The pass can be redeemed at any Wisconsin state park, forest, or recreation area that is listed on the back side of the pass. It will be exchanged for a free daily courtesy sticker allowing the child and his or her family to enjoy the facility for a day. (Passes do not apply to camping fees or state trails.)

Most parks offer Jr. Ranger and Wisconsin Explorer activity books that can be purchased for a nominal $1. The books help children and their families see, hear, touch, and learn about nature. Wetlands, lakes, or rivers are features in all parks. The Jr. Ranger program is aimed at children in kindergarten through grade three, the Wisconsin Explorer program at fourth graders and older. Upon completion of the activity book, a child is awarded a free patch.

**Additional Incentives**

A Make Waves: Read! T-shirt based on Francisco X. Mora’s poster art will be available in spring 1998. Design and ordering details will be coordinated by the South Central Library System. Wisconsin librarians will receive full information through the youth services liaison for their public library system.

You may want to devise special awards for families who sign up to read together during the summer. Assemble prize baskets with Make Waves: Read! buttons for all family members, balloons (for making water balloons), bubble solution and wands, passes to the local swimming pool, coupons for discounted prices at local bookstores, watercolor paints, and salt water taffy.

Consider special awards for an entire group of participants when its aggregate number of hours spent reading reaches a predetermined goal. Make the number high but realistic, basing it on previous years’ experiences. With this type of award, all participants contribute toward a goal and all reap the rewards when the goal is attained. Pool and pizza parties and special field trips have proved popular prizes. Inventive librarians also have offered to meet a dare when a goal is reached. For the Make Waves: Read! summer, daring ideas to consider could include wearing an old-fashioned swimming costume to city hall, swimming laps in the community pool, kissing a catfish, or taking a kayaking lesson.

**Reading Partners in the Summer**

Your contacts with classroom teachers, reading specialists, school librarians, Title I coordinators, and community organizations, agencies, and businesses may be called upon to
help your community establish a core of individuals organized to meet the America Reads Challenge. Or your library staff may decide to take the initiative in mobilizing America Reads Challenge activities in your community.

As articulated by President Clinton, the challenge is to make sure that every child can read well and independently by the end of the third grade. In summer 1997, when this manual was prepared, ongoing federal funding for the several parts of the challenge was under consideration. To stay informed on details of legislation, appropriations, and action watch the division’s Web page at http://www.dpi.state.wi.us/dpi/dlcl/pld/. Within the context of the America Reads Challenge, Wisconsin Department of Public Instruction staff members who represent various disciplines and areas of expertise are working together to

- expand awareness of effective pre-literacy experiences for all children,
- encourage family and community commitment to literacy, and
- explore collaborative literacy opportunities for schools, libraries, and other local institutions.

The summertime component of the America Reads Challenge is known as Read*Write*Now. It is based on a four-part agreement between a child and a volunteer reading partner.

1. The child will read 30 minutes per day, five days a week;
2. The reading partner will work with the child at least one or two of those days for 30 minutes;
3. The child will try to learn one new vocabulary word each day, five days a week; and
4. The child will get a library card and use it.

In 1997 the US Department of Education supplied every public library in the country with several copies of a booklet titled Activities for Reading and Writing Fun. It is a basic literacy tool meant to help reading partners and children from preschool through sixth grade get started with Read*Write*Now activity. The Read*Write*Now Learning Partners Tutoring Program, a more complete guide to tutoring practices for those who are helping children develop reading and writing skills, is available online at http://www.udel.edu/ETL/RWN/Tutorman.html. You may request a print copy (which can be freely reproduced) by calling 1-800-USA-LEARN. Additional help for reading partners is available in a 55-minute video Summer Reading Initiative (National Association of State Title I Directors, 1997), which is available through established interlibrary loan channels. It incorporates factual background and a tutoring demonstration.

Consider ways the Read*Write*Now mentoring program might complement your existing summer library program structure.

1. Can your library offer physical space for children and their reading partners to meet?
2. Can your library be the resource from which children choose the books and magazines they use with their reading partners?
3. Can your staff provide assistance in training reading partners?
4. Since identification of children who are likely to benefit most from the mentoring program will probably come from schools, can your library work with school personnel to encourage children’s participation in your regular summer library program along with their commitment to a Read*Write*Now partner?

The US Department of Education has published two other America Reads Challenge kits you will want to share in your community. Both include a variety of activities designed to promote reading and to help preschool children learn about language. Both are available in Spanish as well as English.

- Ready*Set*Read for Caregivers
- Ready*Set*Read for Families

For more information about the America Reads Challenge, call 1-800-USA-LEARN or visit http://www.ed.gov/inits/americareads. Order products by calling the 800 number.

**Involving Young Adults**

Retaining or regaining the library interests of young adults is a continuing challenge for youth services librarians. Some of the most effective results have come by offering them a
well-designed volunteer opportunity.

Read about one such approach in "It All Started in the Summer..." by Liz Baldwin in the Spring 1996 issue of Journal of Youth Services in Libraries. It describes the author's work in a Tennessee library.

Wisconsin librarians have enjoyed successes, too, and permission to reprint the following paragraphs was granted by their author Laura Henry, a staff member at the Kenosha Public Library. They are excerpted from an article in the Spring 1997 issue of The YSS Press: The Newsletter of the Wisconsin Library Association Youth Services Section.

"If you have been tempted to drop or put off YA programming, why not try a summer library Volunteen program? Although some work is involved, it can result in some unexpected dividends.

"The Young Adult Program Idea Booklet by the YSS YA Taskforce has good descriptions on how to start such a program. But in case you don't have this handy manual, I'll drop a few ideas on how I've done similar programs.

"Younger teens seem to be the best candidates for a Volunteen program so I promote the idea to 6th - 9th grades. Older teens are certainly welcome, but they tend to want paying jobs. When I recruit, I try to strike a balance between sounding exciting and brutally honest. I describe the kind of work the Volunteens do [such as] cutting out craft materials, putting together summer library program materials[,] and I emphasize that many of the tasks are tedious. I also describe the fun aspects of volunteering: making bulletin boards, helping at programs, reading to children, producing a puppet show. I point out that teens who are too young to work this summer can volunteer, and next year they will have a reference (me) to put on job applications.

"The first week of summer vacation, I have an orientation for interested teens at which I explain the rules of Volunteens. I would advise not having teens work more than two hours a week, insisting on a dress code (school clothes), forbidding brothers, sisters or friends to visit while the teen is on duty, and adhering to the assigned work schedule for each teen. Those who don't comply with the rules will be dropped from the program (though really I can be a soft touch). I give guidelines on working with children and caution about touching children, walking or driving children anywhere and talking about inappropriate topics around children. I have each Volunteen and his or her parent sign these rules to stress that they are to be taken seriously. I find out from each Volunteen when they can work and draw up a schedule, taking into account activities like summer school, camp, family vacations, etc.

"What do the Volunteens do? Putting together summer library program materials, cutting out bulletin board pieces, [and] preparing craft materials are the primary tasks. I have had Volunteens help with record keeping for the SLP, help with crowd control at programs, and even read aloud with small groups of children. One year a small group of enthusiastic teens did a puppet show of Commander Toad in Space. Even with all these ideas, toward the end of summer, I sometimes run out of jobs, so I have the teens set a good example by what else? Reading!

"The benefits for the teens are obvious. They enjoy a sense of helping their community, they learn more about the library and what it offers to teens, they gain skills and references to use when job hunting and they have a great deal of fun. I do offer some kind of thank you for the teens who stick with the program. (There always seem to be one or two drop outs.) Pizza parties are a perennial favorite, but I have found that a paperback book or cool notebook for each teen are very much appreciated too.

"Volunteer programs are beneficial to the library as well. The work the teens do allows me to expand bulletin boards, displays and even programs. The teens' enthusiasm is contagious both to their peers and to the younger children attracted to the summer library program. A dedicated group can become contacts to the teen world, supplying me with knowledge of current trends and notifying other teens of what events for YAs might be coming up at the library. The group could become a formal YA Advisory Board."

See the following page for the guidelines used for Kenosha's Volunteen training session.

Another Wisconsin success story comes from Judy Farrow-Busack in Germantown. For
The few, the proud, the VOLUNTEENS

help the staff with the Summer Library Program. The Volunteer program runs from June 16 through July 26.

Your mission, should you choose to become a VOLUNTEEN, may include the following assignments:

- Participating in a puppet show on July 16 at 1:30 either on stage or behind the scenes.
- Attending all rehearsals.
- The Three Cs: Cutting, Counting, and Compiling Summer Library Program materials.
- Helping children with games and crafts at programs.
- Joining the Summer Library Program and setting a good example.
- Reviewing Young Adult books for Mrs. Henry.
- Helping with bulletin boards and displays.
- Other tasks as they arise.

Do you have what it takes to be a VOLUNTEEN?

1. You must be going into 7th through 9th grade.
2. You must dress neatly. Most school clothes are fine.
3. You must arrive on time and ready to work.
4. You may not be accompanied by friends, brothers, sisters, cousins, etc. because they may distract you from your work.
5. If you have vacation plans or other summer activities, let Mrs. Henry know and she will set up your work schedule so that you will not miss them. No Volunteer will work more than 2 hours a week.
6. Call the library as soon as possible if an emergency prevents you from working an assigned time. You may be dropped from the program if you miss more than 2 assigned times.
7. You may not enter any library offices or go behind the circulation desk.

Working with Children

1. Respect the children you work with.
2. Show your enjoyment and enthusiasm.
3. Be aware that children are taught that strangers should not touch them, so do not initiate close contact.
4. Report any problems with children to a library staff member immediately.
5. Do not discuss religious, political, or other personal matters with the children.
6. Do not contact the children you may work with outside of the library setting.
7. Do not offer to drive or walk the children anywhere. Again, if there is a problem, let the library staff know.

several years a teenage boy had volunteered in her library, assisting with imaginative decorating. One of his most inventive projects was the creation of a robot for the Wheels, Wings 'n' Words summer. In 1997 she received a letter from him with the news that at the end of his freshman year in college he had just been appointed to an internship at Walt Disney Imaginingering in California where he would help design audio-animatronic robots and show
programming. His letter to Farrow-Busack concludes, "You gave me an outlet to grow and showcase my projects. You also continue to let young creative minds run wild. I commend you for that." That's the kind of tribute many youth services librarians might receive, and a reminder of the significant ways they influence many young lives.

More YA Ideas

Writing in an email posting to the PUBYAC listserv in July 1997, Anne Leon, a Florida librarian, made comments about year-round work with a Teen Advisory Board that apply to summer efforts as well. "They are told from the get-go that our T.A.B. (Teen Advisory Board) is the heart of the teen program and that the success of our YA program will rise or fall with their level of commitment. They participate in planning and producing several BIG programs a year for the little kids (like Halloween party, international festivals, etc.) and also have MAJOR control over what types of teen programming occur in the library. We set parameters and rules, and then—within that framework—they can be creative. We have had local rock bands, discussion groups, local comic book store owners, karate demos, open mike nights, etc. But we always impress on our core of kids that they are the backbone on which the programs stand.... [Y]ou've got to give them some WORK to do, a project that they can rally around—this will unify them as a group."

The Boulder, Colorado, public library's Young Adult Advisory Board created their own Web pages. Members of the group wrote the content, designed the pages, and did the html coding. The site includes information on banned books, creative writing, reviews, teen commentary, and Web sites of interest to teens. It serves as a forum for presenting advisory board projects, programs, and events. The URL is http://bcn.boulder.co.us/library/bpl/yaab/index.html.

Teens with plenty of computer savvy were organized as Net Mentors in the Queens, New York, public library. They are scheduled to help customers access the Internet at the library's computer terminals. They help find information, show customers shortcuts to interesting Web sites, and demonstrate computer basics. They are recruited by recommendations from school librarians, from high schools, and through community organizations.

Promoting

In many communities the library's summer library program is its most visible program. In all communities it has the potential for creating year-round respect and recognition for the library. It touches the lives of families who participate, of school personnel who are aware of its impact on students, of businesses that contribute funds or merchandise to support it, and of volunteers who are actively involved in its implementation. This broad base of knowledge plus good statistical reports can influence governmental support for all facets of library service.

All Around the Town

Distribute SLP supporter signs such as the one on the next page to all businesses and organizations that contribute funds for special performers, prizes, or in-kind donations of any sort. At summer's end, write a letter of appreciation to all contributors and volunteers who helped your program in any way. In the letter, include brief statistics that demonstrate program success along with information about youth and adult programs and services planned for the future.

Take advantage of the promotional possibilities inherent in local events. If your community has an annual summer parade, enter a group of your summer library program participants. Marching or riding along in swimming suits or carrying a Make Waves: Read! banner, they will make a colorful addition to the parade. (Provide water to quench participants' thirst and sunscreen for their protection.) During summer sidewalk sales on Main Street or at a mall, the library can sponsor a used book sale table.
MAKE WAVES:
READ!

PROUD SUPPORTER
OF THE
1998 SUMMER LIBRARY PROGRAM
Cooperate with city recreation or parks departments to prepare and distribute packets of summer activity promotional materials, including library program information along with the city's brochures and flyers. Investigate the possibilities of scheduling some library events in parks and hosting activity fairs at the library.

More and more children and families are connected to the information superhighway. If your community or library has a home page on the Internet, be sure it includes complete information about summer library programming plans.

Working with Schools

Cooperation with schools is important to the success of any library’s summer program. Teachers, media specialists, reading specialists, and those who work with children who have special needs are natural allies as you reach out to encourage participation in your program. They recognize the importance of maintaining and improving reading skills and fostering enjoyment in learning. Often, they are the people who can give personal encouragement to the youngsters and families who most need the educational reinforcement that summer programs at the library can provide.

If you plan to make classroom presentations or presentations in school media centers, do your planning well in advance. When seeking permission to make SLP promotional visits and establishing visit dates, contact school administrators as well as teachers and librarians. Be clear about the time your presentation will require and the types of materials you will provide as handouts. Find out if it is necessary to secure advance administrative approval of handouts. Give those you talk to the option of scheduling a class trip to the library if they prefer that to having someone from your library visit the school. If your program includes preschoolers, plan visits to childcare facilities as well.

Time constraints may prevent you from visiting all the schools and childcare centers in your service area. A videotape promoting the summer program may be the solution. Work with high school communications classes, local access cable television channels, local theater groups, or your own library staff and volunteers to prepare a five- to ten-minute tape. Arrange to have it shown in classrooms, media centers, and meetings of parent/teacher organizations.

Another alternative is to arrange presentations about the summer library program at a teachers’ staff meeting. There you can energize teachers with your plans and enlist their assistance in distributing materials for students to take home. If you have established a print or electronic library newsletter for teachers in your community, that is another channel for communicating essential SLP information. Be sure you are reaching reading specialists and Title I coordinators.

Become acquainted with the summer school classes and enrichment activities scheduled in the school district. Work with school personnel to develop cooperative strategies that encourage students enrolled in those programs to take part in the library’s summer program.

Many librarians and library volunteers choose to make their spring visits to schools in costume. For the Make Waves: Read! summer you may want to don a simple white sailor cap and middy blouse, an imposing yachtsman’s cap and navy blue blazer, or an old-fashioned swimming habit. Wear a pirate’s colorful outfit and tote handouts in a treasure chest. Appear in a wetsuit with snorkeling gear. Devise a modest mermaid costume that allows you to move about. Consider waders, a fishing pole, and a creel; the creel would make a dandy place to carry your informative handouts. A script based on this idea follows. Adapt it with specific names and references and any other information or tall tale you like.

A Fish Tale for School Visits

Librarian or library volunteer appears in clothing suitable for a day of fishing. Carry creel or tackle box with flyers inside and a copy of the Make Waves: Read! poster that can be unfurled at the end of the story.

Say, did you hear about the one that got away? Did you hear about those unusual fish over at Pine Lake?
Well, I was out there on opening day last season. And I thought I’d try a new kind of bait a friend of mine had given me. Here, I’ll show you what it was like (draw a bright green [book]worm on the chalkboard. But don’t make it too obviously a bookworm!). I thought it looked pretty peculiar, but my friend Isaak Walton Dewey told me that I’d be pleased with the results if I’d give it a try—and maybe I’d even be a little bit surprised at the results.

Still, I wasn’t convinced—so at first I tried my own old favorites: minnows and night crawlers from Hank’s Bait Shop. I could see a lot of fish swimming around just below the surface. But they just turned up their noses and flipped their fins at the end of my line. I didn’t get even one bite.

So, I put one of the new worms Isaak Walton Dewey had given me on my hook. Say, those fish really got excited. They just came closer and closer—and some of them jumped right out of the water and turned somersaults in the air. And they swam around so fast it was just a blur to my eyes. Then suddenly they all went off in one direction. And the odd thing was that the worm was gone—it was swimming away, too, in a really funny wriggling, wiggling, jigging, giggling kind of way.

Well, I figured that wouldn’t happen another time, so I put another one of Isaak Walton Dewey’s worms on my hook and cast my line over the side of the boat. You know what? That big bunch of fish all came back just about in the blink of an eye. They were swimming around and jumping around and carrying on like crazy—and that first worm of mine was with them! It was kind of hanging on to the tail of one of the biggest fish—and it had a big grin on its little worm face; it looked just cheerful as could be. They all swam around like mad again until I couldn’t make out any details. And then, once again, they all darted off—and they took along my second Isaak Walton Dewey special worm.

I was about to try my third and last Isaak Walton Dewey special worm when something under the surface of the water caught my eye and I rowed over in that direction. It was a rocky sort of ledge. And the closer I looked, the more it began to look like a shelf, a bookshelf! Then it dawned on me. All those fish—why they were a school of fish! And those Isaak Walton Dewey worms—they were bookworms. No wonder they wriggled off my hook and joined the fish over by the underwater bookshelf.

Now you probably guessed all that about schools of fish and bookworms even before I finished my story. But you know how fishermen and fisherwomen love to tell fish tales—especially stories about the ones that got away, the ones they almost caught.

Well, you can catch a lot of fish tales and a lot of other kinds of stories besides over at the public library this summer. Here in my creel I’ve got bookmarks that have all the information about summer programs going on at the library—dates and times and places and special events. I hope you’ll take them home and tell your parents that your whole family is invited to come to the library often this summer. As this poster says, it’s time to Make Waves: Read! I’m looking forward to seeing a lot of you at the library this summer.

**Helpful Tips**

Select some of the ideas suggested here to round out your collaboration with schools. If your community has a significant number of non-English speaking families, consider reproducing letters and other handouts in Spanish, Hmong, and Lao.

- Provide plenty of SLP posters for use in classrooms, hallways, and the school library.
- Supply SLP promotional buttons to teachers, teacher assistants, librarians, principals, and other school staff members.
- Bring eye-catching informational flyers or letters for children to take home to parents or arrange for the school to mail your material along with a cover letter conveying school support for the program. Sample letters appear at the end of this section.
- Display some of the prizes that will be available for program participants.
- Tell older children about volunteer opportunities at the library.
- If classes are coming to your library for spring visits, have some Make Waves: Read! decorations in place to engage children’s curiosity.
- Present a program about public library services and the summer program at a meeting
of the school’s parent/teacher organization. Join forces with the school librarian and other school staff members to double the impact. Provide summer program information for inclusion in the organization’s newsletter.

- If school buildings in your community have parent resource centers, be sure that those centers have posters on the walls and available handouts describing the summer library program.

**Beyond the Primary Grades**

Participation in summer library programs often falls off about the time children enter fourth grade. At the third and fourth grade level most children are poised at a critical point between “learning to read” and “reading to learn.” If, at this time, they are still struggling with reading, their problem may become a self-fulfilling prophecy when their classroom assignments call for obtaining increased amounts of information through printed texts. Participation in a summer library program—where they are encouraged to read anything they like—may help at least some of these borderline readers make a successful transition to competence. Therefore, you may decide that this age group deserves some extra attention and stimulation.

One way to address the issue may be to cooperate in any Read*Write*Now efforts underway in your community. Read*Write*Now is discussed more fully in the Planning section of this chapter.

Taking dynamic booktalk presentations to selected classrooms is another way to engage the interest of this age group. Booktalks for these children would be distinctly different from classroom visits to primary grades and would reflect respect for the young people’s growing independence. A bibliography designed as the basis for a presentation in fourth through sixth grade classrooms is included here. Notice that it includes both old and new titles, both fact and fiction, and a considerable range of reading levels; related magazines could be added. All could be displayed and several could be booktalked as attractive ways to enjoy the Make Waves: Read! theme.

Why are frogs always happy?
They eat whatever bugs them.
Dear Parents:

The ____________ Public Library invites your children to join in our annual summer library program activities. The program is open to all children who will be entering grades one through six in the fall. Our theme this year is Make Waves: Read!

Because reading is a skill that improves with practice, it is important to keep reading even when school is not in session. For that reason, the Wisconsin Department of Public Instruction, Division for Libraries and Community Learning, sponsors the statewide summer library program each year.

This is the ___ year the ____________ Public Library has offered a special summer program. There are books at the library for every reading level. Our summer library program puts the emphasis on reading for pleasure, reading about whatever interests a child, and reading magazines and newspapers as well as books. Reading for pleasure builds self confidence, reading speed, and skills. We encourage each child to keep track of the number of minutes he or she spends reading every day or to keep a record of the titles of books read. You might also like to think about setting aside time for your whole family to read aloud together.

When a minimum is reached—four hours spent reading (or being read to) or ten books completed—your participating child is eligible to receive a free pass to Wisconsin state parks. The pass is valid at any one of more than 50 parks, state forests, and recreation areas. Your family can exchange it at the site for a free one-day courtesy sticker.

The ____________ Public Library’s summer program will feature several special performers, a puppet show, craft activities, and opportunities to connect to the Internet. Older children may want to learn more about how they can become involved as volunteer helpers in the program. The enclosed flyer provides details about dates and times and about registration.

The ____________ Public Library is handicapped accessible. A sign language interpreter can be provided if necessary. Contact me at least three weeks in advance so that appropriate arrangements can be made.

If you have any questions, I hope you will call me at ____________. I look forward to seeing you and your family often at the ____________ Public Library this summer.

Yours truly,

(Your name and title)
Sample Letter to Parents of Preschoolers
(on library letterhead and adapted to fit the specifics of your program)

Dear Parents:

The _____________ Public Library invites your children to join in our annual summer library program activities. The special activities for preschoolers are open to children ages three, four, and five. Our theme this year is Make Waves: Read!

Even before children learn how to read, they can learn a lot about books and language. A good place for that learning is at library storytimes and special events. For that reason, the Wisconsin Department of Public Instruction, Division for Libraries and Community Learning, sponsors the statewide summer library program each year.

When you join the Make Waves: Read! program at ___________ Public Library, you and your children can keep track of the minutes you read together this summer or keep a record of the titles of the books you read together. When a minimum is reached—four hours of being read to by an adult or ten books read—your participating child is eligible to receive a free pass to Wisconsin state parks. The pass is valid at any one of more than 50 parks, state forests, and recreation areas. Your family can exchange it at the site for a free one-day courtesy sticker.

The enclosed flyer has more details about dates and times. If you have questions, I hope you will call me at __________. I look forward to seeing you and your family often at the _____________ Public Library this summer.

Yours truly,

(Your name and title)
Working with the Media

A basic fact sheet about the summer library program can be used in many ways. Adapt the sample provided in this section to describe the specifics of your library’s program. Distribute copies as you pursue media contacts of any kind. Be aware of all the media in your community, from the newspapers and weekly “shopper” publications to radio and television stations to community home pages on the Internet. Learn and respect their deadlines and the formats in which they prefer to receive information and announcements. Samples of a public service announcement and news release are provided in this section. A series of puzzles that can be run in the newspaper also is provided.

Events where children are engaged in interesting activities will appeal to most journalists, and photographic possibilities are inherent in many summer library events. Encourage and appreciate good coverage, but do keep children’s privacy and safety in mind. Ask newspaper and television reporters to avoid giving complete identification information with any pictures of youngsters that they publish or broadcast.

Try some of these suggestions as you work to gain maximum publicity and media coverage for your program.

- Invite “media personalities” and well-known community leaders to participate in summer program events. Use their presence to call attention to the library as a whole, not just to summer activities for children.
- Make the media aware well in advance if your kickoff event is to be unusual in any way and if you have special guests and performers scheduled.
- Make the media aware of cooperative efforts between the library, the schools, and the city recreation department.
- Publicly recognize all local businesses, organizations, and individuals who contribute to your program.
- Publicly recognize volunteers of all ages who assist with various facets of your program.
- Provide a bibliography of suggested books, audiocassettes, and videos to accompany any feature stories about Make Waves: Read!
- Provide a post-program news release with statistics on participation, information about community groups that cooperated in making the program a success, and information about library activities planned for autumn.

Sample Media Fact Sheet

The Summer Library Program (SLP) is a statewide event

For 28 years there have been statewide Summer Library Programs in Wisconsin. The ______ Public Library has been a part of that activity for ___ years. The Summer Library Program is sponsored by the Department of Public Instruction and coordinated by its Division for Libraries and Community Learning. It encourages children and young adults to read for pleasure and to become acquainted with the entire spectrum of library resources—print materials, audiovisual items, and the Internet. In many libraries, including the ______ Public Library, the summer activities include special storytimes, guest entertainers, craft sessions, volunteer opportunities for older children, and programs for the whole family to enjoy.

Annual themes are selected by a committee of youth services librarians representing all parts of the state. This year’s theme is Make Waves: Read!

The Division for Libraries and Community Learning publishes a theme-based planning and ideas manual based on contributions from librarians around the state and produces theme-related items such as bookmarks, buttons, and achievement certificates. ______, of the ______ Public Library is one of the contributors to the 1998 manual.
The Make Waves: Read! slogan conveys the sense of fun that will be celebrated at the Library this summer. Storytimes will have an aquatic atmosphere; demonstrations, crafts, and games will focus on water.

Registration for children ages ___ to ___ will be held on ___ at the ___________ Park shelter house next to the lake.

Children who (describe your library’s requirements) will receive a state parks pass donated by the Department of Natural Resources. The child’s family can exchange the pass for a free day’s courtesy sticker at any one of more than 50 parks, state forests, and recreation areas. This cooperative effort between the Department of Public Instruction and Department of Natural Resources reflects a shared desire to offer excellent educational experiences for the children of the state. The passes were made available to all Wisconsin libraries; eligibility qualifications are determined by each local library. Only one pass per child will be issued, but all eligible children in a family will receive a pass.

At ____________ Public Library, children and their families will be invited to see (list special performers). (List other special events such as participation in parades or field trips.)

The ____________ Public Library has been cooperating with the school and park district to provide special swimming and fishing opportunities for library program participants. (List donors) have contributed funds and prizes for the library’s program.

More information is available
Call ____________ at the ____________ Public Library, (give phone number and street address) to learn more about summer library activities in our area.

For information about the statewide program, call Jane Roeber, SLP coordinator for the Division for Libraries and Community Learning, at (608) 267-5077.

What’s the most talkative sport?
Kayakking.
Sample 30-second public service announcement (PSA)

Keep good times afloat this summer! Dive into a good book! Plunge into the Internet! Make Waves: Read! at the ________ Public Library.

If you are between the ages of ___ and ___, you can register to take part in the free summer program at the ________ Public Library. Just come on in on ___ day, June ___, and sign up. Make Waves: Read! is a ___-week program filled with fun.

Read for a total of ___ hours and receive a free pass to a Wisconsin state park where you and your family can explore a lake, river, or wetland environment.

Special guest performers will appear at the ________ Public Library to help everyone celebrate some wet, wild, and wacky times during this Make Waves summer. You’re invited to see (list them.)

Join in to have a whale of a good time. Get in the swim. Register on (repeat date and times) at the ________ Public Library to Make Waves and Read! Call (phone number) for more details.

Sample News Release

Staff members at the ________ Public Library announce they are ready for young people and their families to “make waves” this summer! Make Waves: Read! is the theme for library activities this summer, the ___ year the library has presented special summer programming.

Beginning on (date), children between the ages of ___ and ___ can register for the ___-week series of story and craft programs. Older children between the ages of ___ and ___ can register for special noon hour activities centered on intriguing books along with water-related experiments and demonstrations. All participants will receive a reading record in which to keep track of the hours they spend reading. The youngest participants can keep track of the hours they are read to by parents, grandparents, older siblings, and other care givers.

Young adults entering grades seven, eight, and nine are invited to investigate volunteer opportunities in the Make Waves: Read! library program.

(insert name), director of youth services at the ________ Public Library, reports that several special guest performers are scheduled to help celebrate watery recreations and aquatic life. They include (list; give dates). These performances are scheduled in the early evening to make attendance by entire families possible. Advance registration is required, but the shows are free.

The statewide Summer Library Program is sponsored annually by the Wisconsin Department of Public Instruction. It is designed to encourage children to read for pleasure.
and to explore all the resources available at their public library. As they enjoy books and other library materials, they can maintain or improve their reading skills and build lifelong interests.

The Department of Public Instruction has made arrangements with the Wisconsin Department of Natural Resources so that all Make Waves: Read! program participants who qualify for their local library's summer reading requirements can receive a free state park pass. In the ________ Public Library program, a child must read a total of ___ hours to be eligible for the award. The pass can be exchanged at any one of more than 50 state parks, forests, and recreation areas for a one-day courtesy sticker. It will allow the child and accompanying family members to explore some of Wisconsin’s natural wonders including lake, river, and wetland environments. Only one pass per child will be awarded, but all qualifying children in a family can receive a pass.

Additional information about the Make Waves: Read! program is available by calling (insert name) at (insert telephone number) or stopping in at the ________ Public Library, (insert street address). The library building is handicapped accessible. With three weeks’ advance notice, arrangements for sign language interpretation can be made.

Newspaper Puzzle Series

The following pages provide five Make Waves: Read! puzzles to send to your local newspaper. Ask the city editor to run the series during the time your summer program is under way. One blank pattern also is provided so that you can create your own additional puzzles if you wish. If you do not send the puzzles to your newspaper, consider duplicating them to serve as bookmark handouts during classroom visits or at library programs. Be sure to post puzzle answers at the library.
Try to answer these watery riddles.

1. What animal worries most about its weight?
2. What can run but cannot walk?
3. When does a boat show affection?
4. What is full of holes yet holds water?
5. What do you get when you cross an ocean with a thief?

Visit your local library to find the answers.

Answers: 1. A fish; it always carries its scales. 2. Water. 3. When it hugs the shore. 4. A sponge. 5. A crime wave.

For each of the following groups of three, determine what it is they have in common.

1. Superior, Michigan, Mississippi
2. Black, Yellow, Wisconsin
3. Geneva, Winnebago, Green
4. Sun, cat, paddle

Visit your local library to find the answers.

Answers: 1. Bodies of water that form boundaries of Wisconsin. 2. Rivers in Wisconsin. 3. Lakes in Wisconsin. 4. Fish found in Wisconsin.
MAKE WAVES: READ!

WELCOME TO WISCONSIN'S SUMMER LIBRARY PROGRAM

Try to answer these watery riddles

1. What goes up when the rain comes down?
2. What is worse than raining cats and dogs?
3. What happens at the end of a dry spell?
4. What do sea monsters eat?
5. What kind of jokes do fish tell?

Visit your local library to find the answers.

Answers: 1. An umbrella. 2. Hailing taxis. 3. It rains. 4. Fish and ships. 5. Very finny ones.

MAKE WAVES: READ!

Materials Evaluation

Please assist the Division for Libraries and Community Learning and the Department of Public Instruction by completing this brief evaluation form. We want to know your reactions to our products and the impact of recent changes in the overall SLP time frame. Please circle your responses.

Return your evaluation by September 15, 1998, to Jane Roeber, Summer Library Program, Department of Public Instruction, P.O. Box 7841, Madison, WI 53707-7841.

1. In 1998 my library used the Make Waves: Read! SLP theme. I rate the usefulness of materials produced by the Department of Public Instruction as follows:

   5 = very good; 4 = good; 3 = fair; 2 = poor; 1 = did not use

   Manual  Large poster  Small poster  Reading record  Certificate  Bookmark  Button  Stamp
   5  4  3  2  1
   5  4  3  2  1
   5  4  3  2  1
   5  4  3  2  1
   5  4  3  2  1
   5  4  3  2  1
   5  4  3  2  1

2. Receiving the manual before January was:

   Very helpful  Somewhat helpful  Made no difference to me

3. The option of paying for materials in two installments was:

   No problem  Confusing  A problem

4. The idea of "recycling" the SLP water theme from 1988 was:

   Very good  Fair  Poor  Made no difference to me

5. At the time this manual was being prepared, we were scheduling a fall 1997 planning meeting to choose the 1999 SLP theme. We planned to ask for your contributions to the 1999 manual during the winter of 1997-98. (Please check one)

   That was not a time when I was able to make contributions
   I did not have much time, but made some effort to contribute
   That was a good time for me

6. My suggestion for the Summer Library Program theme in the year 2000:

7. Additional comments:

Decorating the Library
Decorating and Display Ideas
Name Tag Designs
Decorating and Display Ideas

Dive right in with your most imaginative and playful decorating ideas. The Make Waves: Read! theme offers oceans of possibilities. In addition to the children's area, consider other spaces in the library building where attractive decorations can be placed. These might include windows, entryways, adult service areas, circulation desks, elevators, stairwells, meeting rooms, and exhibit cases. Begin some thematic decorating in late spring to draw the attention of regular library visitors and the children, teachers, and parent volunteers who come to the library for springtime classroom visits.

Decorating Sampler

Francisco X. Mora's brilliantly colored poster for the Make Waves: Read! theme is a superb decorative item in itself. Elements from the poster art can be adapted in many ways for your summertime decor. Use Mora's reader and listener in the boat as greeters near the children's room entrance to announce weekly activities, special programs, prize winners, and upcoming craft projects. Explore other poster-based possibilities using the mobile figures shown in this chapter. Use the enlarging and reducing functions of your photocopy machine for variety; color the figures in bright hues. In addition to suspended mobiles, use the figures in a border above the shelving, on windows and doors, and on the ends of book stacks. Enlarge the poster's decorative border or its pattern of waves to make a border on walls or floor or draw them in colorful chalk on the sidewalks leading to the library building.

Many other nautical and aquatic designs also can be used effectively to convey the sense of this summer's fun. Depending on the talents and available time at your library, the
decorating can be a staff project or can be carried out by volunteers. Try working with middle school and high school art teachers who may be willing to assign library decorations as a year-end class assignment, or who will recommend volunteer designers from their classes. The artwork and crafts created by program participants also can become part of the summer's decorating scheme. Consider some of the following aquatic motifs and decorating possibilities.

- Beach towels, sunglasses, umbrellas, and tubes of sun screen
- Beach balls
- Sand buckets and shovels
- Seashells
- Sand castles
- Marine creatures (lobsters, sea horses, crabs, shrimps)
- Fish (tropical/freshwater/ocean)
- Water animals (dolphins, whales, otters, beavers, muskrats, seals, walruses)
- Sea creatures (sea dragons, mermaids)
- Fishing poles, tackle boxes, and creels
- Rowboats and oars
- Canoes and paddles
- Navigation charts
- Anchors and sailors' knots
- Turtles
- Frogs
- Raindrops
- Bubbles
- Water birds (ducks, swans, herons, geese, loons, penguins)
- Palm trees, coconuts, seaweed, and coral
- Inflatable beach toys and inner tubes
- Pirates, pirate ships, pirate flags, and treasure chests
- Sailboats, surfboards, and sailboards
- Water skis
- Steamships, ocean liners, and paddle-wheel boats
- Life jackets, life preservers, and water wings
- Buoys
- Lighthouses
- Snorkle equipment
- Cattails and lily pads

- Use fish nets to decorate ceiling and walls (some stores carry the nets in a variety of colors). Fish, starfish, seashells, sea horses, crepe paper seaweed, and other aquatic or nautical decorations can be tossed into the net.
- Create a border of waves made by draping blue crepe paper along walls above shelving.
- Display the thumbprint ocean mural described in the Crafts section of chapter 3.
- Hang one or more rainbow mobiles. Duplicate a rainbow pattern. Use two rainbows for each mobile. Cut them out and, to provide added strength, glue one on each side of a piece of heavy paper cut in a rainbow shape. Color the spectrum. On one end of the rainbow, glue cotton ball clouds. At the other end, attach rain made of blue cellophane, aluminum foil, or crepe paper; cut the rain material into very thin strips after attaching. Punch a hole at the top of the arc and hang from the ceiling with string or yarn. The pots of gold at the rainbows' ends are books, of course!
- Paint or color a large wave and place a number of bubbles around or above it. Make bubbles of cardboard circles. Have clues or program announcements on one side of the bubble, either written or pictorial. Attach all bubbles face down and turn one bubble over at a time.
- Bring a canoe, inflatable boat, wading pool, or bath tub into the library and see how many children can fit into it. Fill it with books or inflatable beach toys to create a place where
children may sit and read. It also can be used as a place to display used books for sale.

- Choose one large wall of the children's department for a mural. In advance, cut out pieces such as waves, ducks, seaweed, shells, fish, and other sea creatures. When children come to the library for programs or to select books, allow them to add a piece to the mural. Alternatively, have children create their own imaginative sea creatures for the display; provide paper, glitter, sequins, and glue.
- Create a deserted island mural. Ask children to choose books they would want with them if they were stranded on an island. Write the titles on paper seashell shapes and display them.
- Suspend toys or puppets representing a variety of fish and aquatic animals from the ceiling. If possible, affix a transparent blue layer of plastic wrap or cellophane below them to create the sense of looking up from the ocean's floor.
- Cover a wall with blue tissue paper. Add silhouettes of sailboats. On the sails write names of theme-related books recommended for pleasant reading.
- Set up a reading corner in the children's area as a beach scene. Tape sandpaper to the floor in lieu of real sand. Make a palm tree using a carpet roll for the trunk and construction paper for leaves. Add canvas or plastic lawn chairs. Ukuleles, leis, and (artificial) tropical fruits also can be added.
- Display duck decoys and fish lures from local craftspeople and collectors.
- When children have read a book they really like, invite them to write the title and the reader's age on a fish-shaped piece of paper. Put a paper clip on each fish and place them in an inflated wading pool. Provide fishing poles or lengths of heavy string with magnets attached so that other readers can go fishing for reading recommendations. As an alternative, you could provide fish-shaped bookmarks. (See the Crafts section of chapter 3.)
- Suspend toy boats from the ceiling. Display model ships made by local hobbyists.
- On the floor use blue plastic tarp or clear carpet protector plastic (with blue paper underneath) to create a river leading to bookshelves or special seating areas. Place cut-out fish shapes beneath the translucent surface.
- Display antique maps of the world beside contemporary maps. Antique sea charts often showed fanciful creatures inhabiting unexplored areas. Invite children to draw their own imaginative creatures on a "beyond the edge-of-the-world" mural.
- Hang blue crepe paper streamers close together from the ceiling. Fasten shapes of seaweed, coral, and fish between the streamers.
- Use the international alphabet signal flags on the puzzle page in chapter 4 to create banners and messages.
- Use appliance cartons to make one or more of the children's room fun furnishings illustrated here. Tuck colorful pillows into the Viking ship to
make a reading area. (In order to create the right kind of long and low proportions for the ship, cut away about one half of the sides.) Take Polaroid™ photographs of children peering out from the deep sea aquarium or bathhouse figures.

**Bulletin Board and Book Displays**

As you read these suggested bulletin board captions and slogans, imagine how different ones can be used to herald collections of recommended books, announce special programs and performers, and keep everyone informed about program activities.

- Across the Waters (Show books about immigrants coming to the United States.)
- Biography Bay, Cowboy Canal, Critter Tales Creek, Fairy Tale Falls, Legend Lake, Mystery Marsh, Picturebook Pond, Rhyming River, Sports Stories Stream (Show with collections of books in the respective genres)
- Books for the Beach; Songs for the Shore (Combine audiocassettes, CDs, and books.)
- Fish Boils, Picnics, and Campfire Cookery (Show a variety of cookbooks geared for summertime meals.)
- Fish Tails, Fish Tales (Show picturebooks about fish.)
- Fishing for a Good Book? (Post written recommendations and reviews from young adult patrons.)
- Gone Fishin’ (Show books about fishing techniques and fly tying.)
- Raindrops and Rainbows (Show a collection of books about watery weather.)
- Rowboat Full of Rhymes (Show books of poetry)
- Set Sail for __________ (Each week feature a different genre of literature; e.g., “Set Sail for Poetry,” “Set Sail for Humor,” “Set Sail for Biography”)
- Underwater Mysteries (Show books about various kinds of marine life.)
- Wisconsin’s Wonderful Waters and More (Show travel guides to the state.)
- Waves around the World (Show books set in many countries or folktales from many countries.)
- Words and (Sound) Waves (Combine topical books and periodicals with real radios.)

Consider these additional slogans and imagine their eye-catching decorative possibilities.

- All Aboard the Book Boat
- Books Ahoy
- Dive into Books
- Follow the Current to Current Books
- High Seas Adventures
- High Tide Tales
- Make a Splash: Read!
- Reading Down the River
- Ride the Reading Wave
- Sail into Summer
- Summer Splash
- Surf into Summer
- Swim Up to Adventure
- Wade into Books
- Water Wonderland
- Wet, Wacky, and Wild Summer
- Whales of Tales

**Reading Progress Displays**

Whether participants in your library’s program keep track of the number of books they read, the number of pages, or the number of minutes, they can be part of creating a combined record of group progress. Some libraries also count time spent listening to recordings and
exploring Internet sites. Try one of the measuring concepts described here to show the increase in activity throughout the summer. Displays can be placed on a bulletin board, a wall, or in a large window. Many libraries tie this type of record-keeping to the awarding of a special prize for the entire group rather than giving prizes to individuals.

Most of the displays suggested can be modified to simply show the number of children who sign up to participate. Out of concern for privacy and child safety, you are cautioned against displaying full names of participants in any place where they could be read by persons who are not library staff members.

- Use paper fish or shells caught in a fish net draped along a wall as enumerators. Each represents x-number of minutes spent reading or being read to.
- To a large painted wave add fish or seashells cut from brightly colored construction paper (or use round colored stickers as bubbles) to represent each book read by program participants.
- Place children's names on paper life preservers or sailboats to hang from the ceiling once they have read x-number of pages.
- Place an ocean liner silhouette atop a blue paper ocean surface. Use small hole reinforcers (available from office supply stores) as life preservers to represent x-number of minutes read and let children add the life preservers to the mural.
- Choose one wall of the children's area for a rainbow mural. Label each arc of the rainbow a different color. Tear appropriately colored fabric scraps, tissue paper, or construction paper into squares. Children can add a square to the mural when they sign up for the program and/or to mark other milestones of their reading progress.
- Near the floor on one wall of the children's department place an outline of waves. Let children add a leaping dolphin shape in or above the waves to mark their progress. See illustration.
- When children register for the program, have them trace their hands on blue or white paper. Then cut out the shape. Outline a wave on the wall; paste the paper hands on to it with the fingers hanging free. It's a wave with a double meaning!
• Give each child a canoe shape cut from brightly colored paper. As the summer progresses children can move them along a winding blue paper riverbed labeled with milestone markers. See illustrations.
Name Tag Designs

Choose one or more of the patterns shown on the following pages to produce name tags for children to wear so storytellers will know the names of young audience members. Reproduce and cut out the patterns. The easiest way for children to wear name tags is to hang them around their necks. Punch holes and thread yarn or craft lace through the holes to make a necklace. Use volunteers to help with preparations. Have the children color the tags.
MAKE WAVES: READ!

1998 SUMMER LIBRARY PROGRAM
What kind of water can't freeze?
Hot water.

What is the healthiest kind of water?
Well water.
Programs and Activities
Introduction
Surfing the 'Net
Kickoffs, Finales, Games, and Contests
Program Potpourri
Sample Programs
Plays and a Story
Booklists and Audiovisual Recommendations
Water-related Activities and Experiments
Crafts
Introduction

Are you ready to take the plunge? This chapter will help you get your feet wet! Use the ideas contributed by your colleagues across the state to plan a variety of successful activities at your library this summer.

This chapter recommends general resource materials; invites you to do some Internet surfing; provides poetry, stories, and plays to perform; outlines storytime programs; describes water-related activities and crafts. Jump right in, the water’s fine!

The majority of programs outlined are aimed at young children. This indicates an emphasis in many libraries on providing structured group activities only for preschoolers and primary grades (one through three). Children in middle grades (four through six) and upper grades (seven through nine) more often are targeted with special performances, presentations, activities, and volunteer opportunities and with independent reading games and challenges.

Make Waves: Read!

©1997 by Judy Farrow-Busack, Duerrwaechter Memorial Library, Germantown, Wisconsin. Used with the author’s permission

Once upon a pond, slimy green pool
One bullfrog thought that he was cool.
Said: "Hop, little froggies. Hop in time!
Make water music in the green, green slime!"
They hopped to the left, they hopped to the right,
Up came Snake and they hopped out of sight!
"Follow my wake, don’t get swallowed."
Bullfrog led; little frogs followed.
Bullfrog, Bullfrog, you’re so brave —
When you jump, you make a wave.

Turtle eggs hatching on the sandy shore.
High in the sky does the condor soar.
Giant bird’s shadow blocks out the sun.
Baby turtles know it’s time to run.
Quick, turtles, run! Quick, turtles, dive!
Make it to the water and give me five!
Make a big splash — you’re a winner!
Condor looks elsewhere for his dinner.
Turtle, Turtle, you’re so brave —
When you dive, you make a wave.

Hold back the river and don’t say when.
Beaver’s building lodge, dam, and den.
With big sharp teeth he cuts the trees;
River architect, he designs with ease.
Never forgets to leave a tunnel out;
Extra trapdoor is his escape route.
His tail slaps water for a warning sound
When bear and wolf and man are around.
Beaver, Beaver, you’re so brave —
When you build, you make a wave.

In the land of seaweed fishes do rule,
And all because they do well in a school.
Anything they see — worms, flies, or bugs —
If attached to a line, they like to give tugs.
When they jump it's a dance, their scales do flash
A silver blue arc from the water they splash.
Are they dancing for love, jumping for fun?
A fish moment of beauty in the setting of sun.
Blue Fish, Blue Fish, you're so brave —
When you dance, you make a wave.
None of the frogs, turtles, beavers, and fishes
Wait for fairy godmothers to grant their wishes.
They get out and dance, they dive, they jump
And they don't give up if they get a bump.
You, too, can make a wave; you, too, can make a splash.
Each week this summer make a library dash;
Go for the adventure, become summer readers.
Kids who don't read become bottom feeders.
Reader, Reader, you're so brave —
When you read, you make a wave.

Resource Materials

Your Wisconsin colleagues cited many materials they found especially useful as they began organizing their thoughts for the Make Waves: Read! summer. The following list consolidates their recommendations.

Good ideas for children of preschool age through fourth grade. Hands that wave also can be hands that create!
See the chapter titled “By the Beautiful Sea” for activities, poems, songs, and fingerplays.
Summertime projects include a waterscope and cardboard boats.
Fiarotta, Phyllis. Sticks and Stones and Ice Cream Cones. Workman, 1973
Crafts from other lands include an African drum and Mexican piñata.
Ideas for what to do both inside and out on a rainy day.
Chapters on amphibians, reptiles, and fish include factual information, crafts, rhymes, pet care, dot-to-dot pictures, songs, coloring sheets, games, puzzles, hidden pictures, mazes, and more.
Kidstuff. Volume 1, no. 1
Features fish and the sea with booklets, fingerplays, flannelboard stories, crafts, other activities, and a puppet show called “My Wife Makes Fish Chowder” (patterns for the puppets are included).
Kidstuff. Volume 7, no. 1
This issue’s theme is turtles.
See “Daniel’s Incredible Adventure” (sailboat), “The Great White Lion” (lake, river, island, rain), and “School Can Be an Adventure” (submarine).
Source of background information on contemporary problems of supply, development, pollution, and restoration.
Oldfield, Margaret. Lots More Tell and Draw Stories. Arts and Crafts, 1971
Includes conservation stories about endangered water animals including pupfish, alligators, ducks, and pelicans. See also "Gail the Sailfish."

Oldfield, Margaret. More Tell and Draw Stories. Arts and Crafts, 1969
See "Albert's Vacation" (alligator), "Lonely Little Iceberg" (penguin), "Danny's Winter Vacation" (duck), "How Bear Lost His Tail" (ice fishing), "Sammy Snail's Stroll," "Sarah Sea Horse's Adventure," "Whale's Peace Pipe," and "The Search for Rain."

Oldfield, Margaret. Tell and Draw Stories. Arts and Crafts, 1963
See "Two Little Bugs" (frog), "The Big Fish" (fishing), "Two Little Indians" (islands in a lake), "Choosing a Pet" (turtle), and "Oliver the Friendly Seal."

Online-Offline: Themes and Resources. Rock Hill Press, 14 Rock Hill Road, Bala Cynwyd, PA 19004; $63 per year; back issues $10 each
Published nine times during the school year, this resource guide links themes with Web sites and other media appropriate for K-grade 8 youngsters. Theme-related, selected Web sites, CD-ROMs and software, videos, books, and additional resources such as video and audio recordings are listed with brief annotations; most citations indicate age levels. The first issue, published in September 1996, was devoted to water and provides stimulating ideas for Make Waves: Read! programmers. Other issues published in the 1996-97 school year focused on life in remote places; environment, time, regions, patterns, exploration, systems, and inventions. Complete order information and a cumulative subject index are on the Internet at www.rockhillpress.com.

Riggs, Jennifer. Under the Sea Activity Book. Scholastic, 1993
Many simple games and puzzles for young children.

Sattler, Helen. Recipes for Art and Craft Materials. Lothrop, 1973
Gives instructions for pastes, play dough and other modeling compounds, papier-mâché, finger-paints, inks, and other materials.

In this thoughtful annotated bibliography of children's books with environmental themes, review the sections titled "Wetlands, Rivers, and Inland Waters" and "Oceans, Coasts, Reefs, and Estuaries." Make Waves: Work to Save the Environment!

Spizman, Robyn. Lollipop Grapes and Clothespin Critters. Addison-Wesley, 1985
Short, simple suggestions are given for more than 300 varied activities useful as program fill-ins.

Science, reading, singing, and learning activities related to oceans are suggested for preschool and kindergarten children.

Tashjian, Virginia. With a Deep Sea Smile. Little, Brown, 1974
Stories, poems, riddles, fingerplays, and songs for story hours are included in this collection.

Directions for a pirate hat and a tropical fish are included. Other recommended books useful for teaching origami techniques are Beautiful Origami by Zulal Ayture-Scheele (Sterling, 1990) and Origami Animals by Hector Rojas (Sterling, 1993).

Thompson, Richard. Frog's Riddle and Other Draw and Tell Stories. Annick, 1990
See "The Wanderer" (turtle) and "The Castaways."

Totline Magazine.
See the following issues: May/June 1993 (turtles), July/August 1993 (sand, fish), July/August 1994 (fish, bubbles), May/June 1995 (frogs, rain), and July/August 1995 (boats, crabs).

More than 120 water games and activities are described. Each outline includes information on materials needed, appropriate age range, safety tips, and complete
descriptions on how to play or what to do. Probably a “must have” for all libraries this summer!

Warren, Jean. 1.2.3. Games: No-Lose Group Games for Young Children. Warren, 1986
Ideas for between-story activities are described in this collection.

See “The Wishing Fish.”

Surfing the ’Net

With a theme like Make Waves: Read! who can resist the opportunity to go surfing on the Internet? In chapter 4 you will find a set of bookmarks, created by the South Central Library System, calling attention to 20 theme-related sites on the World Wide Web. These sites and several others are featured on the official Make Waves: Read! Web page. Get in the swim at http://www.dpi.state.wi.us/dpi/dlcl/pld/slpwaves.html.

Kickoffs, Finales, Games, and Contests

Begin or conclude your summer program with a splash! On registration day provide plenty of colored chalk so that children can decorate the sidewalks around the library with pictures of fish, boats, and waves. Plan a whale of a kickoff or finale picnic at a community park; tell families to bring their own sandwiches while the library furnishes beverages and desserts; provide bubble solution and wands, a sprinkler to run through, Frisbees™, and volleyball equipment.

Hold a finale beach party at the outdoor community swimming pool or at an indoor school pool. Advertise that lifeguards will be on duty. Depending on the structure of your program, it may be wise to split the group by age and have more than one party. Require that parents of preschoolers swim with their children. Any child who must wear a swim aid of any kind should be accompanied by an adult. Do not allow toys to be brought in. Enlist the help of pool staff for suggested water games and activities. If there is a synchronized swimming program in your community, invite its participants to put on a special performance. Provide ice cream treats at the end of the party.

Water Carnival!

Hold a water carnival day on the library grounds or parking lot or at a local park. Tell children to wear swimming suits or other clothes that won’t suffer when they get wet! Plan a variety of games. Have plenty of adult and/or young adult volunteers on hand to prepare game materials beforehand and to assist with handing out materials and instructions on carnival day. If you like, keep track of winning individuals and teams so that ribbons can be awarded, but make sure all participants receive some kind of recognition. The games described here are adaptable for all ages. Some are suitable for an indoor carnival with an aquatic flavor.

If you don’t wish to have an all-out carnival, choose one or more of the dry land games to play at storytimes or on other special days.

Fish Pond. (Individual participation) Set up a fish pond with small prizes such as stickers, pencils, and bookmarks. Everyone can be a winner.

Mud Puddle Painting. (Individual participation) Make a mud puddle out of a large box lined with a garbage bag. Give each child a large piece of paper and some mud to use the same
as finger-paint. Have this station close to a hose or bucket of water where participants can rinse off.

Swimming Pool! (Individual participation) For the simplest fun, provide a small portable wading pool for the littlest children.

Beach Ball Pass. (Group participation) Have the children sit in a circle and take off their shoes. Give a beach ball to one child to hold steady with his or her feet. At “go” the child passes the ball to the next player in the circle using feet only and the passing continues. Time the group to see how quickly they can get the ball all the way around the circle. Then let them try to beat their own record.

Checkers Tournament. (Individual competition) This has nothing to do with making waves, but it’s a classic activity that shouldn’t be swept away in the flood of watery games! Plan the tournament for different age levels (ages six to eight and nine to 12 are possibilities). Set up at least three checker boards. Invite children to register in advance. The tournament can be held on one day or over a period of time. Keep a chart of the players and the winner of each game; winners will be paired off for additional matches. The ultimate winner in each age group can be awarded the checkers set as a prize.

Go Fish. (Individual competition) Have a marathon Go Fish card game for an entire day at the library.

Hook a Fish. (Individual competition) Play this game like pin-the-tail-on-the-donkey. Divide the group by ages if you like. In advance, on a large piece of tagboard draw a large fish jumping out of the water. Draw a circle around its mouth to indicate the target area. Draw and cut out several cardboard hook shapes, number them, and put a masking tape tab at the top. Hang the fish picture on the wall at child level. Blindfold participants one at a time; give them a hook, spin them around, and aim them towards the fish. The child whose hook is stuck closest to the fish’s mouth is the winner.

Hose Play. (Individual competition) Punch a hole in the center of the bottom of an empty coffee can and a hole in the center of its plastic lid. Thread a wire through both holes and stretch the wire tight between two portable volleyball poles. Children line up by each pole and take turns using two hoses with triggers. At “go,” participants try to get the can to move from one end to the other by simply spraying the can and moving it with water pressure.

Life Preserver Target Practice. (Individual competition) Float rings of white StyrofoamTM cut from bakery trays in a small wading pool. Invite children to test their skill at tossing small StyrofoamTM balls from a craft supply shop into the center of the rings.

Make Waves Board Game. (Individual competition) Children need some reading and counting skills to play this game; they will move themselves as game pieces. The library needs a large room with plenty of open space or parking lot in which to set up the game. Set up the “board” using the game CandylandTM as a model. Use chalk or tape to create squares about 12” by 12”. In a carpeted area, use rolls of plain shelf paper taped to the carpet with masking tape. For interest, a large box can be used as a tunnel and an area should be set aside for the jail. Every fifth square should be color-coded with a marking or dot of red, blue, green, or yellow. A question can be taped to some squares; for example: what was the name of the whale in the tale of Pinocchio? how did Swimmy save the small red fish? what color was Moby Dick? If the child answers the question correctly he or she is entitled to advance another square. One or more squares should be marked “go to jail.” Children advance in the game by drawing a card on which a number from one to six or a color has been printed; some go-to-jail cards also should be included. To begin, all players...
draw cards and take their turns. The order of subsequent turns is determined by position on the board; that is, the person furthest along on the board at the end of round one becomes the number one player. Children continue to draw cards as their turns come up. They move ahead the number of spaces shown on the card or move ahead to the color square that matches the color indicated on the card. When a child draws a go-to-jail card he or she must sit in the jail while all others take their turn before returning to the square where the card was drawn.

**Duck, Duck, Shark.** (Individual competition played in a group) *Splish, Splash: Water Fun for Kids* by Penny Warner (Chicago Review, 1996) offers directions for playing a duck, duck, shark version of the standard circle/tag game duck, duck, goose.

**Pirate Tug-o-War.** (Individual competition played in groups of three) Provide three yards of rope and three bandannas for each group of three sailors. Divide the players into groups. Tie the ends of each rope together to make a circle. Facing outward and putting one hand behind their backs, all three children in a group hold the rope. Drop a bandanna a few feet in front of each player. On the words “raise the sail” the players try to pick up their bandanna without letting go of the rope. Whoever picks it up first wins.

**Sleeping Pirate.** (Individual competition played in a group) Have players stand in as large a circle as possible. Put a stool in the middle of the circle. In front of the stool place a box filled with foil-wrapped chocolate coins or other wrapped candy or gum; this is the pirate’s treasure. Blindfold one player and have him or her sit on the stool as the pirate. The children take turns approaching the pirate to snatch a treat from the box without being discovered. If the pirate hears breathing or movements, he or she claps and points and the sneak must return to the circle without a treat. When someone is successful at capturing a treat, that person becomes the pirate. Play until everyone gets a treat.

**Water Animals Spelling.** (Individual competition) Provide disks or squares of heavy paper on which are written letters of the alphabet. Mix them up and let children try to spell the names of as many water animals as they can. Nearby post pictures of animals such as dolphins, herring, turtles, starfish, penguins, sailfish, catfish, seals, walruses, puffins, gulls, and polar bears as prompts. Use a three-minute kitchen timer as each participant tries to make as many words as possible in that time.

**Fish Races.** (Individual or team competition) In advance, prepare the following supplies:
- 2 five-foot vinyl eaves troughs
- 4 trough end caps
- 2 starting gates cut from gallon milk jugs (see pattern on next page)
- Large supply of live minnows gotten fresh on the day of the race
- 2 ten-gallon buckets filled with water (one for “new” and one for “used” racing minnows)
- 2 fish nets for catching minnows
- Plastic cup filled with water for each contestant to keep her/his fish in
- Stop watch and starting whistle (optional)
- Large table that will not be harmed by water

Fish racing is best when done outside. Place the eaves troughs on a large table, affix end caps, fill with water. Place a starting gate approximately two inches from the end of each trough. Divide the children into two groups, one for each trough. Have each child or team of children catch a minnow and put it in a water-filled cup. The first two children place their minnows behind the starting gates. At “go” they raise the gate. If a fish has racing jitters and refuses to swim, the child may put a hand in the water once to urge the racer along. The first fish to reach the end of its trough wins. Both used fish are removed with a net, carried in the child’s water-filled cup, and put into the retired racers bucket. If you choose, winners can be kept and matched in subsequent races until a grand champion is found. All minnows can be
returned later to the bait shop that
donated them to the program. If you
have a very large number of partici-
pants, you may use more than two
troughs.

**Watermelon Seed Spitting Contest.**
(Individual or team competition) Give
each child a small slice of watermelon
and a small paper cup in which to save
all the black seeds. Have each child
stand behind a starting line; allow
about 15 feet for the course. In turn,
each spits three seeds. The first is a
practice spit and the next two spits are
counted for distance. Mark the far-
thest landing with chalk or small wood-
en garden marker with the child’s
name. If a team competition, mark
only the farthest spot from the team as
a whole or have a designated spitter
from each team.

**Balloon Stomp.** (Team competition)
Tie a piece of string to each inflated
balloon (prepared in advance) and tie a
balloon to each child’s ankle. Members
of each team are paired with a member
of another team. At “go” each attempts
to stomp the other’s balloon; they must
stop as soon as one of the pair’s balloon
is popped. The team that kept the
largest number of balloons intact wins.

**Bucket Brigade I.** (Team competition) Place an empty bucket marked with measurement
lines at each team’s goal. Have a bucket filled with water and a dipper of uniform size at each
team’s start line. At “go” the first member of each team fills the dipper with water, runs to
the goal, empties the dipper into the bucket, runs back, and gives the dipper to the next
person in line who repeats the process. The game can go on as long as you choose. The object
is to see which team has the most water in the bucket at its goal line when time is called.

**Bucket Brigade II.** (Team competition) Divide the children into teams of equal numbers.
For each team provide one empty bucket at one end of the room, one bucket full of water at
the other end of the room, and 5-ounce paper cups for each team member. Announce that the
ship is sinking and to keep it from going under they must bail out the water. Each team forms
a bailing brigade. The first players dip their cups into the water-filled buckets, turn to the
next player, and pour their water into the next cup. This continues down the line until the
last players pour their water into their empty buckets. The game continues until one team
has emptied all the water from the full bucket into the empty one.

**Crab Walk Relay.** (Team competition) Players throw a bean bag into a cave (a box with a
cave opening drawn on the front). When they get the bag inside they run to the cave, retrieve
the bag, put the bag on their stomach, and do the crab walk back. They turn the bag over to
the next person on their team who repeats the process.
Pail Stomp Relay. (Team competition) Have two levels of difficulty. For younger children provide two ice cream pails with three to four inches of water in each. For older kids use two pickle pails (ask at fast food restaurants) with five to six inches of water in each. Racers must put their feet into the pails, hold on to the wire handles, and walk from the starting line around a marker and back, lifting a pail as they lift each foot.

Raisin Relay. (Team competition) Use a raisin or other slightly sticky object such as a Gummi™ worm or marshmallow as the object to be carried. Have the first team members put the raisin on their heads, back of their hands, or top of a foot. They run to a goal, touch it, carry the object as they run back to their teams, and turn it over to the next person on the team. (This relay can be run repeatedly using different parts of the body.)

Sand Pail Relay. (Team competition) Provide an empty pail and shovel for each team. The first person on each team carries the pail and shovel to a large pile of sand, uses the shovel to fill the pail, and carries it back to the next team member. That person goes to the sand pile, empties the pail, and refills it. The process is repeated. The winning team is the one whose members finish first.

Shipwrecked! (Team competition) Provide one sheet of paper and one pencil for each group of five people. Ask the groups to imagine that they have been shipwrecked with no radio or other communications device. They must leave the ship in a dinghy and paddle to the deserted island ahead. It has plenty of trees, water, wildlife, fruits, and places for shelter. Each team should write down 15 things they would choose to take with them from the boat. When the lists are completed, each team reads theirs and explains their reasoning. Do not tell the players in advance that each team will have to cross off any item on their lists that the other teams also had on theirs. The team whose list has the most items not crossed off (in other words the most original list) is the winner.

Tall Drink of Water Relay. (Team competition) Have team members form lines. Set a plastic cup full of water on top of the head of the first person in each line. They must race from the starting line around a marker and back to the starting line without holding on to the cup. If they spill the water, they must fill the cup again and keep going from where the water tipped.

The Trout in the Milk. (Team competition) On November 11, 1854, Henry David Thoreau wrote in his journal, “Some circumstantial evidence is very strong, as when you find a trout in the milk.” Adults will chuckle over Thoreau’s observation; children can call this just another relay. In advance of your game day, use markers to decorate a supply of clothespins as fish. At “go” the first persons on each team run to the goal line, pick up a clothespin, and — standing up straight — try to drop it into a milk bottle or carton. They return to their teams and the process continues until all have had a chance. The team with the most “trout in the milk” wins. As a variation, glue wings on clothespins to create flying fish; have children try to toss them through a hoop.

Water Balloon Squash. (Team competition) Using a supply of water balloons prepared in advance, give a balloon to the first member from each team. They must run to the goal, a plastic chair, and sit on the balloon until it bursts. The child returns to the team and the next person in line takes a balloon and repeats the process until one team finishes. Since this is a game most children enjoy immensely, you may want to let the game go on until everyone has had a chance to squash a balloon.

Water Balloon Toss I. (Team competition) Fill small balloons with water. Have children pair off into teams; partners should stand facing one another in two lines. Have partners toss a balloon back and forth, taking one step back each time they catch it. The winning pair is
the twosome that reaches the greatest separation before dropping and/or breaking their balloon.

**Water Balloon Toss II.** (Team competition) In advance, prepare a supply of water-filled balloons. It is a good idea to have a leak-proof pail or bucket in which to transport them. Divide the players into groups of equal numbers; have the groups line up behind a starting line. Hand the first player in each group a balloon and have that person take two steps forward from the starting line, turn, and face the other players on the team. The first player tosses the balloon to the player now facing him or her. If this player catches the balloon, he or she takes the place of the first player (who now moves to the back of the team's line). This continues until the balloon is broken. The team that keeps its balloon intact the longest is the winner.

**Contests**

Introduce a Make Waves: Read! mascot. Purchase a frog, turtle, or fish from a local pet store to be your mascot during the summer; provide an appropriate habitat. Sponsor a contest to name the mascot.

Fill a fishbowl with fish-shaped crackers, Life Savers™, pieces of salt water taffy, or small shells. Have a contest to guess how many items are in the bowl. Each week persons with the closest guesses can win a small prize such as a package of crackers, a roll of Life Savers™, or a bookmark. Weekly winners can enter an end-of-the-season drawing for theme-related books and audiotapes.

Having read selections from *The Fish with the Deep Sea Smile: Stories and Poems for Reading to Young Children* by Margaret Wise Brown (Delacourt, 1993), invite children to enter a Fish-with-the-Deep-Sea-Smile Contest. Encourage them to draw the strangest, most unusual, most colorful, or most beautiful fish they can. Display all entries and award a variety of prizes so that everyone is a winner.

Protection from the potentially harmful rays of the summer sun is important. Stimulate awareness and imagination by sponsoring a Splish-Splash Hat Contest with prizes to be awarded for the hats that make the biggest splash. Invite local celebrities to serve as judges. They will choose winners in such categories as the most ducklike hat, the most froglike hat, the fishiest hat, the biggest hat, the smallest hat, the shiniest hat, the hat with most seashells, the hat that looks most like a boat. Give blue ribbons to winners and visors to all entrants.

Hold a toy boat building contest for children (in different age categories) or families. Several weeks in advance of the event, display books like those suggested here. Provide a large wading pool for the launching and give each contestant an opportunity to show his or her prized vessel. Invite local leaders to participate in the judging and to award prizes in categories such as most colorful, first to sink, and most unusual materials. Give all entrants a roll of Life Savers™.

**Books**

Totline staff. *1001 Teaching Props*. Warren, 1992

**Program Potpourri**

Here are program suggestions to help you get used to the water before wading in up to your neck! Float the ideas in staff and volunteer discussions and adapt them to suit the resources of your community and the interests of your program participants.
Campfires by the Lake (or in a Park Shelter) at Sunset

If you have a separate program for older children—sixth through ninth graders for instance—offer them a weekly campfire session. In advance, choose one or two books per week and encourage several people to read them. Make multiple copies available—old favorites in paperback or brand new titles. Lead the campfire group with stories and songs yourself or invite a special guest. Initiate discussion of the week’s books and suggest additional books and authors. Invite readers to write brief reviews of any books they like—or really dislike; post them at the library for others to see.

DNR Fishing Equipment Loan Program

Fishing equipment is available for loan at no cost at several Wisconsin Department of Natural Resources (DNR) locations. Contact information is provided below. Share this information with families using your library this summer and as you award state park passes.

The following basic equipment is available at most sites: closed-face fishing rods and reels, casting plugs, bobbers, hooks, line, and sinkers. Children age 15 and younger do not need a fishing license. The annual cost for a youth license (ages 16 and 17) is $8. Adult licenses are $14 and a $7 license is available for persons who have disabilities. (These charges apply only to Wisconsin residents; out-of-state fees are higher.)

Bong State Recreation Area, Kansasville (414) 878-5607  
Browntown-Cadiz Springs State Recreation Area, Monroe (608) 966-3777  
Brunet Island State Park, Cornell (715) 239-6888  
Buckhorn State Park, Necedah (608) 565-2789  
Council Grounds State Park, Merrill (715) 536-8773

Woodruff DNR Office (715) 358-9209

And More Information from DNR

The Wisconsin Department of Natural Resources (DNR) annually sponsors a statewide
Free Fishing Weekend the first weekend in June; no licenses are required. Angling clinics are held in many state and county parks by DNR staff and members of local fishing clubs at that time.

The DNR prepared a list of trained angler education instructors for distribution to all public libraries early in 1998. Librarians can use the list as a resource in locating special guests to present informative library programs for children and families.

Stimulated by the Make Waves: Read! summer program, DNR's Bureau of Fisheries Management and Habitat Protection prepared kits of assorted reference and activity materials for distribution to all libraries in the state during winter 1997-1998. The kits contained reproducible coloring booklets and posters for children, informational brochures on a variety of topics, and fact sheets on native fish species.

The bureau also provided for public libraries
• "Hooked on Wisconsin" Anglers' Club posters inviting children to catch and release as many different fish species as possible,
• "Watch Me Grow" growth chart posters with information about record Wisconsin fish sizes, and
• "Wisconsin Fish Records" rulers with information about native fish sizes and record catches.

Everything's Just Ducky!

Plan a ducky day by selecting some of the following ideas:
• Dramatize Robert McCloskey's classic tale Make Way for Ducklings, originally published by Viking in 1941 and continuously in print.
• Show the video Make Way for Ducklings and Other Classic Stories (Weston Woods, 1993). The 60-minute video presents five animated stories from McCloskey including another theme-related tale, Burt Dow, Deep-water Man.
• Have a "Make Way for Ducklings" parade in which children of all ages, adults included, come dressed as ducks (however they choose to interpret an appropriate costume) and walk around the library building and neighborhood.
• Display picture books, fiction, and nonfiction books about ducks of all kinds.
• Have children draw pictures of ducks to make a collage on the library wall.
• Invite a farmer to bring in a domestic duck for children to meet.

Fishing Contest

Invite children of all ages to a fishing contest held in a neighborhood park. In advance, recruit volunteers to make construction-paper fish. Some can be fantasy creatures, others realistic representations of real fish (especially Wisconsin natives such as perch, bass, trout, and muskies). Label them with the name of the fish they are meant to represent; for example, shark, sunfish, angelfish, pike. Make two colored drawings for each fish, cut them out, stuff crumpled newspaper between the two sides, and staple them together. Volunteers can carefully hide the fish among the bushes, tall grass, and playground equipment at the park.

Provide each participant with a fishing license labeled "Make Waves: Read! Fishing License. Officially Issued to (blank for child's name) Who Likes to Read Books about Fish and Much, Much More." Have children set out to hunt for the hidden fish. Set a one-fish limit at first. Then after each child has found a fish, all can set out in search of more. Award prizes for different types of fish and ribbons for the largest one caught. Provide Gummi™ worm "bait" treats at the end of the day.

Fishing has no boundaries, Inc.

Fishing has no boundaries, Inc. is an educational, non-profit, volunteer organization whose purpose is to open the outdoors to all disabled persons through the world of fishing. It introduces educational devices to aid the disabled angler. It sponsors annual fishing events
where there are experienced guides; specially designed fishing gear, boat adaptations, and
dock-loading systems; and meals, awards, and prizes. In 1997, three Wisconsin chapters
were active. Volunteers involved in this effort are potential speakers for a family program
at the library. Contact the following Fishing has no boundaries, Inc. chapters for further
information and details for 1998:
Eagle River Event, P.O. Box 2200, Eagle River, WI 54521; (715) 479-9309
Hayward Event, P.O. Box 375, Hayward, WI 54843; (715) 634-3185
Madison Event, 4923 Hammersley Road, Madison, WI 53711; (608) 271-0440 or 267-6173

**Fishing is Funtastic**

*Fishing is Funtastic* (Outdoor Empire, 1991) is a 32-page comic book filled with basic
fishing information for young people. It is available in Spanish as *¡Pescar es divertido!* In fall
1997 prices were $2 each for 1 through 10 copies, $1 each for 11 through 100 copies. For 101
to 400 copies the price was $.59 each for the English version, $.65 for the Spanish. For more
information or to order, contact the publisher at 511 Eastlake Avenue East, Seattle, WA
98109, (206) 624-3845.

**Great Lakes!**

Contact the Lake Michigan Federation, 59 East Van Buren Street, Suite 2215, Chicago,
IL 60604; (312) 939-0830 for a copy of their sales brochure “Discovering Lake Michigan.” It
describes informational print and audiovisual materials for citizens, educators, and busi-
nesses. Of special interest is *A Place at the Fire: A Children’s Book and Tape*, which explores
unique places and animals of the Great Lakes basin. The tape features songs by Wisconsin
musician Ken Lonnquist.

**Knot Much**

Offer a program for middle grade children at which a retired sailor, someone from the
Coast Guard, or a member of a sailing club will discuss and demonstrate a variety of simple
and intricate knots and their uses aboard ships. Sailors sometimes mount knots on knot
boards to demonstrate their prowess and to show off the unusual designs knots create.
Audience members can practice tying some of the less complicated knots with heavy rug
yarn. Each can mount a sample on a piece of tagboard along with an identification label.

Two sources of basic knot information are *The Knot Book* by Geoffrey Budworth (Sterling,
1985) and *Pirates* by Rachel Wright (Watts, 1991).

**Model Ships**

Locate someone in your community who builds model ships. With that person, plan a
program for older children at which models can be displayed and the hobby discussed.

**Mysterious Atlantis**

For older children, plan a program on the lost continent of Atlantis and undersea
mythology.

**A Naturalist, Naturally**

Design a program for any age group by inviting a biology teacher or naturalist from a
nearby state park, Audubon Center, Sierra Club, Department of Natural Resources station,
or environmental center to present a program on Wisconsin fish, waterfowl, or amphibians.
If you know a herpetologist who will bring in live specimens, build your program around the
opportunity to see and touch snakes, frogs, toads, and turtles. Display related books and
magazines.
Pirate Party

Add excitement to the summer with a pirate party. Display a treasure chest of good books and stories about Jolly Roger, Captain Hook and Peter Pan, Captain Kidd, Blackbeard, Henry Morgan, Calico Jack, Anne Bonney, and Mary Read.

The October 1987 issue of Cricket Magazine features stories, articles, and poems about pirates. The September-October 1991 issue of Acorn: The Storytelling Magazine for Librarians and Teachers is devoted to pirates and includes a mobile, treasure chest award, costume ideas, name tags, and book tags to call attention to special books. Pirates: Facts, Things to Make, Activities by Rachel Wright (Watts, 1991) gives instructions for a treasure chest craft and making “antique” treasure maps; it includes music and lyrics for two sea chanteys or work songs.

Rhyme Time

Begin or end programs wearing an apron with multiple pockets; have a poem in each pocket. Choose poems that relate to water animals or birds, to boats, or to reading. Invite a different child each session to pick your pocket. Then read the poem. An excellent source is Douglas Florian’s in the swim (Harcourt, 1997); have the book at hand so that you can show the illustration accompanying each poem. A review in the July/August 1997 issue of Horn Book Magazine notes “...these clipped verses splash with mischief and wit.”

Sea Hunt (Scavenger Hunt)

Adapt this activity for all ages. Prepare a list of scavenger hunt items; decide if prizes will be awarded, what they will be, and how they will be distributed. Hand out the list and require that answers/items be brought to the library by a designated date to be judged. You may pick one of your regularly scheduled program days if you like. Show videos or have a guest performer while the judging is being done. Award prizes or recognition ribbons by age level to children who found the most items, to those who creatively displayed their items, or to everyone who finishes. (Explain that pictures can be drawn and that children should not cut up magazines without permission.)

Examples of items that could be included on the hunt list:

- Picture of a fish native to Wisconsin
- Name of an undersea explorer
- Titles of five books about the sea owned by the library
- Titles of five books owned by the library that have the word “fish” in the title
- Picture of (or real) seashell
- Postcard with a picture of some body of water
- Rubber or plastic floating duck
- A skipping stone
- Signature of a lifeguard
- Small handful of sand
- Scientific term for the sea horse
- Names of two ships lost at sea or sunk
- Picture of a hammerhead shark
- Plastic fishing worm
- Names of two famous pirates
- Name of Wisconsin’s largest lake
- Name of the Wisconsin town with “the world’s largest muskie”
- Picture of a whale
- Picture of a heron or loon
- Names of three Wisconsin rivers
Sealife Selections from Science Centers

The publishing company Roberts Rinehart has cooperated with several scientific institutions to create attractive materials for children.

Armstrong, Pam. Young Explorer’s Guide to Undersea Life. 1996, with the Monterey Bay Aquarium
Coulombe, Deborah, ed. Flippers & Flukes: Marine Mammal Coloring Book. 1996, with the Monterey Bay Aquarium
Robinson, Sandra. Sea Otter, River Otter. 1993, with the Denver Museum of Natural History
Slack, Gordy. I Wish I Could...Swim with the Sharks. 1996, with the California Academy of Sciences

Shipshape

Invite a panel of fitness experts and nutritionists to present a program for young adults. Display related books, periodicals, and videocassettes.

Showboat Revue

Invite young adults to plan a talent show. Provide background materials so they can design a stage setting reminiscent of an old-fashioned paddle-wheeler showboat.

Splashy Career Days

Investigate water-related careers with a program for older children. Invite speakers such as hydroponic gardeners, Coast Guard or Navy personnel, canoe builders, marine biologists, limnologists, commercial fishers, crew members of cruise ships, and swimming coaches. Display biographies of persons such as Jacques Cousteau and videos, too, of course.

Summer Splash for Fourth, Fifth, and Sixth Graders

Many communities observe decreasing participation in summer library activities by children entering these grades. With research showing that children who cannot read well and independently by the end of third grade are significantly hampered for the rest of their lives, it appears especially important to make special efforts to attract and maintain the interest of this age group in library materials.

One suggestion is to provide each child with a special Make Waves ticket with room for ten or more punches around its edges. Children earn a punch in the ticket for each book read, for each hour read, for every three Internet sites visited, or for every special library program (designed specifically for this age group) attended. Those who complete their tickets are invited to a special party. Theme-related party sites for the Make Waves: Read! summer could include swimming pools, beaches, canoe or paddleboat or pontoon boat trips, tours of lakes or rivers by excursion boat, and fish fries and fish boils. Appeal to the children’s growing sense of maturity by separating their activities and focusing on their capacity for independence.

Under the Waves Video

A video, licensed for home use only, that you will want to display frequently this summer is Wee Sing Under the Sea: A Musical Adventure Beneath the Waves (Price, Stern, Sloan, 1994). Its 60 minutes are filled with 20 classic and original songs as a boy and his grandmother journey under the sea to help Weeber the Penguin find his way back to the
South Pole. For related fun, see the Waterbird (penguin) origami instructions in the Crafts section of this chapter.

Undersea Sci Fi

The following list appeared on the PUBYAC listserv in response to a request for suggestions about science fiction titles on a third grade level. Share them with children in your community and let them add any favorites of their own.

Books
Hughes, Monica. Crisis on Conshelf Ten. Atheneum, 1977
Lisle, Janet. Lampfish of Twill. Orchard, 1991
Quackenbush, Robert. Evil under the Sea: A Miss Mallard Mystery. Pippin, 1992

Water Safety

Plan this program for middle grade children or families. Ask a local swimming coach or representative from the municipal parks and recreation program to make a presentation about responsible boating practices, boating safety, and swimming lessons. Other possible contacts could be members or staff of the Coast Guard, Y, Red Cross, yacht or boat club, or any other agency that promotes water safety. Check with a local resort owner or sporting goods store to borrow a number of life jackets for demonstration and display at the program. Cover such questions as

- what kind of life preservers must be worn according to state law?
- how do you know what size life preserver to wear?
- how many people are allowed in which size boats?
- how old must a person be in order to operate a motor boat?
- what are techniques for righting a capsized boat?
- what is the job of the spotter in a boat towing a water-skier?

If your community has a water-ski club, this would be a good time to invite members to the library to talk about the group. A demonstration — either on land or on the water — would be a fine follow-up.

Display periodicals and basic books such as those suggested here.

Books
American Red Cross. Swimming and Diving. Mosby, 1992
Barrett, Norman. Sailing. Watts, 1988
Wilson, Charlie. Swimming and Diving. Silver Burdett, 1988
Waves of Color

Visualizing waves and splashes of color may lead you to offer programs such as these.
- Designate one day each week for a particular color and provide a special treat for each child who comes to the library wearing that color.
- Invite an artist or interior designer to talk about how color is used, the impacts of various colors alone and in combinations, and their own individual approaches to color.
- Plan a program for older girls on makeup and personal color consultation.

The Whys of Whitecaps

With a group of middle grade children—perhaps a weekly library lunch bunch group—tell the story “Why the Waves Have Whitecaps” found in *The Knee-High Man and Other Tales* by Julius Lester (Dial, 1972). In the story Mrs. Water becomes tired of hearing Mrs. Wind brag about her children and drowns them. Now whenever there is a storm on the water, it is Mrs. Wind and Mrs. Water fighting over the children. The whitecaps on the waves are the children trying to tell their mother where they are! After listening to this story, children can make up their own stories about how whitecaps came to be—drowned clouds, lost hats, mystical horses, shawls for seals?

Sample Programs

The details provided in these program descriptions will help you as you fish for quality presentations! In fact, you may consider them the catch of the day for many days of your summer programming! Adapt and expand them to meet your needs and to suit the abilities and interests of your program participants.

Beach Party I

Ages: Preschool and primary grades

A day at the beach is a great way to spend time in the warm summer. When you publicize this program, tell the children to come dressed as if they were going to the beach. Open with the fingerplay “The Ocean Shell” from *More Picture Book Story Hours* by Paula Sitarz (Libraries Unlimited, 1990). Read several of the following books.

Books

Mr. Pig, Mrs. Pig, and the piglets are trying to get to the beach in spite of many delays. The story could be presented using a clock face to show how long it takes the pig family to get to the beach and ride the waves before the beach closes.

Brown, Marc. *D.W. All Wet*. Joy Street, 1988

D.W. says she hates water until she gets a big wet surprise.

Recounts the experiences of a boy and his dog as they spend a day at the beach.

A little boy overcomes his fear of the water when he needs to go into the water to complete his fine sand castle.

Photographs accompanied by a simple text show people riding waves, catching the wind, and building sand castles.

Rockwell, Anne. *At the Beach*. Macmillan, 1987

Readers experience a young child’s summer day at the beach.
Beach Party II

Ages: Preschool and primary grades

Start the program by passing around a variety of seashells and pictures of ocean creatures and seashores. Read *A Beach Day* by Douglas Florian (Greenwillow, 1990) and *Let’s Go Swimming with Mr. Sillypants* by M.K. Brown (Crown, 1992). Choose several other books from those suggested below and teach the fingerplays “All Hands on Deck” from *Full Speed Ahead* by Jan Irving and Robin Currie (Libraries Unlimited, 1988) and “I Walked to the Beach” included here. Discuss how it feels to walk in warm sand, on rocks, in warm puddles on the beach, and in the cool water of a lake or ocean. Talk about making footprints in the sand and conclude the program with the footprints activity outlined below.

Fingerplays

“I Walked to the Beach”
I walked to the beach
And what did I see?
A lot of little fishes
Looking at me!
I jumped into the water
And splashed all around!
The fishes swam away
And didn’t make a sound!
(Swing arms, walk in place)
(Hand over eyes, looking)
(Hands together, move like a fish)
(Point to self)
(Jump)
(Palms down, splashing motions)
(Hands together, move like a fish)
(Fingers to lips)

Fiction Books
Bang, Molly. *Yellow Ball*. Morrow, 1991
Sis, Peter. *Beach Ball*. Greenwillow, 1990

Nonfiction Books

**Outdoor Activity**
Notify parents in advance about the nature of this activity. Supplies needed include washable paint with liquid soap added to it, flat pans to hold the paint (dish pans or jelly roll pans, for example), manila paper, sprinkler or wading pool with hose, towels for drying feet. Have the children create foot print paintings by stepping in paint and then walking on large sheets of manila paper. They will be able to wash off their feet by walking through a wading pool or running through a sprinkler. Have teenage or adult helpers assist children with shoes and socks, supervise the wading pool, help the youngsters walk on the paper, and write names on papers. Plan to have space out of the breeze where the paintings can dry.

**Beach Party III**

**Ages:** Preschool and primary grades

Set the scene by decorating the story area with a fish net, a children's bucket and shovel, a fishing pole and tackle box, a beach hat, and a beach umbrella.

Begin the program with a sea song such as "Baby Beluga" by Raffi. The lyrics and melody are included in Raffi's *Baby Beluga Book* (McClelland, 1983) and the song is included on his audiocassette *Baby Beluga* (MCA, 1980).

Use a fish puppet to introduce the program and the books as they are read. Conclude the program by having the children pretend to row out of the room after they sing "Row, row, row your boat, gently out the door. Merrily, merrily, merrily, merrily, storytime is o'er."

**Books**

Cocca-Leffler, Maryann. *Clams All Year*. Boyds Mills, 1996

Brothers and sisters and cousins are spending a vacation at their grandparents' beach home. Every morning bright and early, Grandpa wakes them to go hunting on the beach for clams. As days go by with little success, the children become discouraged. Then a storm washes buckets of clams up onto the beach, enough for all year.

In this counting book a tiny black fish takes the reader on a tour of the colorful fish a child might see if he were a fish himself.

Not a beach story, but one that is filled with fun and that lends itself well to audience participation. The wide-mouthed frog, busily eating flies, asks the bird and then the mouse what they eat. Then he asks the alligator, with upsetting results.

Levine, Evan. *Not the Piano, Mrs. Medley!*. Orchard, 1991

Mrs. Medley and her grandson are going to the beach. Many false starts are made as she returns to pack more things she feels she must take along, until her grandson fears she will try to bring the piano. (Note: The illustrator, S.D. Schindler, formerly lived in Kenosha.)

Sara gathers water, seaweed, snails, and smelly stuff to make seaweed soup during a lovely day at the beach with her family. Use this story with props and help from the audience.

This rhyming story works on several levels. It appears simple, but "foot notes" found on every page explain marine biology in relationship to the feet shown.

Selby, Jennifer. *Beach Bunny*. Harcourt, 1996

After careful preparations, Harold, a bunny, spends a delightful day at the beach with his mother. But when lunch time comes, he realizes he didn't think about packing anything to eat. Mother comes to the rescue!
Activities

Try “Sea Life Flannelboard,” a repetitive rhyme with flannelboard directions from Totline July/August 1989. Patterns for the felt figures are found in Preschool Patterns July/August 1989.

Teach “Five Little Seashells,” a counting-backwards poem found in Mitt Magic: Fingerplays for Finger Puppets by Lynda Roberts (Gryphon, 1986). Use a monkey mitt and small seashells with Velcro™ glued to them to perform the fingerplay.

Teach the two action rhymes below.

“Once I Went A-fishing”
(Suit actions to words)
Once I went a-fishing
On a bright and sunny day
With all the little fishies
Swimming in and out of the bay
With their hands in their pockets
And their pockets in their pants
And all the little fishies doing
The hootchie-kootchie dance.

“Fish Fingers”
(Hold up fingers as you count. Show appropriate finger for final line)
1, 2, 3, 4, 5 I caught a fish alive.
6, 7, 8, 9, 10 I let him go again.
Why did you let him go?
Because he bit my finger so.
Which finger did he bite?
The little one on the right.

A Bubbly Bathtime I

Text © copyright 1997 by Rob Reid, L.E. Phillips Memorial Library, Eau Claire, Wisconsin, and used with the author's permission

Ages: Preschool and primary grades

Opening song: “I'm a Dirty Kid” from Rachel Buchman's Hello Rachel! Hello Children! recording (Rounder Records, 1988). This call and response song will be enjoyed by children days after they hear it. Afterwards, tell your audience that today's program is all about getting dirty and taking baths.

Picture book: King Bidgood's in the Bathtub by Audrey Wood (San Diego: Harcourt Brace Jovanovich, 1985). Here's a modern-day classic about a king who refuses to get out of the bathtub. An excellent read-aloud with gorgeous illustrations by Don Wood, this story also is available in filmstrip, video, or audio cassette formats performed as a mini-opera.

Poem: “There was a Small Pig” by Arnold Lobel from The Book of Pigericks (NY: Harper and Row, 1983). Lobel wrote this funny, short limerick about a pig who hopes he won’t have to take another bath for years. A good contrast to King Bidgood who wants to stay in his bath.

Movement activity/Poem “After a Bath” by Aileen Fisher from Jill Bennett's Days are Where We Live (NY: Lothrop, 1982) and J. Frank's Poems to Read to the Very Young (NY:
Random House, 1982). This popular poem encourages the audience to wipe their hands, toes, fingers, and nose. At the end, everyone gets to shake like a dog.

**Picture book**: *Five Minutes Peace* by Jill Murphy (NY: Putnam, 1986). Mother Elephant asks her children for five minutes of peace and quiet. She relaxes in the bathtub but is soon joined by all three kids. This story is a fairly quick read with colorful illustrations.

**Poem**: “Naughty Soap Song” by Dorothy Aldis from Jack Prelutsky’s *Read-Aloud Rhymes for the Very Young* (NY: Knopf, 1986). This poem about a slippery piece of soap that gets thinner each day is perfect for props. Bring in a plastic infant’s washtub and tape a copy of the poem to the bottom, out of sight of the audience (unless you want to memorize the poem). Place a full bar of soap and a tiny sliver of a bar of soap hidden in the tub. As you recite the poem, toss the large bar of soap in the air as if it were very slippery. Drop it in the tub and pull out the sliver of soap for the last line.

**Picture book**: *Dad’s Car Wash* by Harry A. Sutherland (NY: Atheneum, 1988). A boy and his father pretend the bathtub is a car wash and the boy is a car. The audience can act out the motions as you read about washing the hub caps (knees), the turn signals (ears), and the hood ornament (nose).

**Musical activity**: “Head, Shoulders, Knees, and Toes” from the recording *Bathtime Magic* (Discovery Music, 1989) by Joanie Bartels. Bartels takes this traditional song and turns it into a fun bathtime activity with the children washing their heads, shoulders, knees, and toes, of course.

**Picture book**: *Is It Time?* by Marilyn Janovitz (NY: North-South Books, 1994). Read the text as a call and response chant. The story includes verses about toweling off, brushing fangs (the young protagonist is a wolf), getting into bed, howling, and getting a good night kiss — all of which can be acted out by the kids. Add your own line after the book is done: “Is it time to check out books? Yes, it’s time to check out books! But first, we have one last song to sing.”

**Closing musical activity**: “Looby Loo” from Sharon, Lois, and Bram's *One Elephant* (Elephant Records, 1980) and Greg and Steve’s *We All Live Together, Vol. 1* (Youngheart, 1975). Close the session with this traditional song about taking a bath on Saturday night. “You put your right hand in” to test the water to see if it’s too hot.

If there is time, you may want to show the video *Let’s Give Kitty a Bath* (Phoenix Films, 1986). 12 minutes. Public performance rights. This live action film shows the comic efforts of two children trying to give their cat a bath in a wading pool. Based on the book by Steven Lindblom (Reading, MA: Addison-Wesley, 1982).

**A Bubbly Bathtime II**

**Ages**: Preschool and primary grades

Rub-a-dub-dub, make waves in the tub with the additional books related to bathing that are listed here. In advance, collect small travel-size soaps from friends and coworkers who have been traveling — or purchase the soaps. Give them to program participants at the end of the day, making sure they understand the package is soap—not candy!

Teach the fingerplay “Bath Time” from *Finger Frolics* by Liz Cromwell and Dixie Hibner (Partner, 1976).

Share the familiar Mother Goose rhyme “Rub-a-Dub-Dub” and the poems “After a Bath” by Aileen Fisher, found in *Fives Sixes and Sevens* by Marjorie Stephenson (Warne, 1968) and “Dirty Bertie” from Eve Merriam’s *Blackberry Ink* (Morrow, 1985).
Books
DeFelice, Cynthia. *Casey in the Bath.* Farrar, Straus, 1996
Henkes, Kevin. *Clean Enough.* Greenwillow, 1982
Hughes, Shirley. *Bathwater's Hot.* Lothrop, Lee, 1985
Kudrna, Charlene. *To Bathe a Boa.* Carolrhoda, 1986
Patz, Nancy. *Nobody Knows I Have Delicate Toes.* Watts, 1980
White, Diana. *No Bath for Boris.* Dutton, 1990

Activities
Provide inexpensive sponges so that children can cut them into shapes — suggest fish or boat shapes. They can take the sponges home to use in the bathtub.

See the directions for making paper canoes in the Craft section of this chapter. Make canoes as part of the day’s activities and send them home for sailing in the tub.

Provide large bowls or pitchers of water for every four or five children. Give each group a number of things to drop into the water so they can observe what sinks and what floats.

Make paper “rubber duckies” with yellow or white paper. As the children arrive, write each name on a duck. Let each child stick his or her duck on a large construction paper bathtub at the front of the room.

Demonstrate water displacement by putting marbles into a fishbowl or glass jar filled with water and watch the water rise. To delight vocabulary builders, teach the phrase “water displacement.”

Down in the Swamp
Ages: Preschool and kindergarten

Start off the day with pictures and puppets of assorted swamp dwellers. Read Doug Cushman’s *Possum Stew* (Dutton, 1990), then pass out pictures of all the vegetables included in the tale. Repeat the story and have children place their pictures in a real kettle as each vegetable is mentioned.

Teach the traditional fingerplay “Five Little Monkeys,” repeating the verse in diminishing numbers.

Five little monkeys swinging from a tree.
Along came an alligator as hungry as can be.
One foolish monkey shouted with glee:
“Hey alligator you can’t catch me.”

Read several of the books recommended here and provide supplies for the alligator craft included at the end of this chapter.

Books

Note: This is a pop-up book.
As a program finale activity, after reading the book have children go on a Swamp Parade around the library building. Provide rhythm instruments for them to play as they march past signs like Bayou Bridge and Swamp Lane. *Mama Don't Allow* also is available in a 30-minute video (Great Plains, 1986).

Rubel, Nicole. *It Came from the Swamp*. Dial, 1988

---

**Drop Anchor! Folktales and Legends from Many Ports of Call**

*Ages: Preschool and older*

Read or tell a selection of these recommended tales and legends, sharing the excellent illustrations that appear in many of these books. Show each story's place of origin on a globe and introduce pictures reflecting the country's landscape from additional books or magazines. Give storytimes an international folklore focus over a period of weeks or present just one session based on folktales. You may want to design a multicultural series combining folklore, fiction with contemporary settings, and nonfiction. A series devoted to waving at friends in various countries around the globe can continue for several weeks.

A little lamb uses her clever wiles to keep a coyote from eating her. (Mexico)

This legend describes how the creation of the world was begun by a woman who fell to earth from the sky country and how the creation was finished by her two sons, Sapling and Flint. (Iroquois Indian)

Caterina and Pavel's wish for a child is fulfilled when the snowgirl Pavel makes in the yard comes to life. (Russia)

When a baby and a kitten are found safe and dry after a flood in 1421, the people of a village in southern Holland decide to rebuild. (Netherlands)

Lazy Jack can never do anything right, but people find his misadventures and mishaps so funny they employ him anyway. (England)

Gershator, Phillis, reteller. *Tukama Tootles the Flute*. Orchard, 1994
When Tukama is captured and held prisoner by a two-headed giant, he uses his flute to escape. (Virgin Islands)

In this cumulative tale, the sun sets off a chain of events that result in the cleaning of a rooster's beak in time for his uncle's wedding. (Cuba)

A grandmother explains to her listeners why in their village on the side of a volcano the men live in square houses and women in round. (Cameroon)

Hong, Lilly. *Two of Everything*. Whitman, 1993
A poor Chinese farmer finds a magic brass pot that doubles whatever is placed inside. However, his efforts to make himself wealthy lead to unexpected complications. (China)

A clever spider tricks Elephant and other animals into thinking the melon in which he is hiding can talk. (Africa)

Magnus, Erica. Old Lars. Carolrhoda, 1984

An elderly man and his horse go up the mountain to gather wood. They return with an empty sleigh but satisfied with their day's work. (Norway)

Renner, Michelle, reteller. The Girl with the Fish: An Athabaskan Legend. Alaska Northwest, 1995

A young girl embarks on a startling odyssey right after wondering what it would be like to be a fish. She is catapulted into a watery journey during which she learns about the ways of the salmon. (Athapscan Indian)

Rucki, Ani. Turkey's Gift to the People. Northland, 1992

When a great wall of water threatens to destroy them, the animals band together to save themselves. But it is the turkey who remembers to save the seeds they will need to rebuild their lives. (Navaho Indian)

Temple, Frances, reteller. Tiger Soup. Orchard, 1994

After tricking Tiger into leaving the soup he has been cooking, Anansi the spider eats the soup himself and manages to put the blame on the monkeys. (Jamaica)

Xiong, Blia. None-in-One Grr! Grr!: A Folktale from the Hmong People of Laos. Children's, 1989

When the great god Shao promises Tiger nine cubs each year, Bird comes up with a clever trick to prevent the land from being overrun by tigers. (Laos)

Three sisters staying home alone are endangered by a hungry wolf who is disguised as their grandmother. (China)

Fish Big and Little I

Ages: Preschool and primary grades

Start the day with “The Big Fish” from Draw and Tell Stories by Margaret Olson (Creative Storytime Press, 1986). The same volume contains other theme-related stories such as “Two Little Bugs,” which features a frog, and “Oliver, the Friendly Seal.” Margaret Oldfield’s Lots More Tell and Draw Stories (Arts and Crafts Unlimited, 1973) contains several factual stories to draw about sailfish, pupfish, alligators, ducks, and pelicans.

Share fish poems from Read-Aloud Poems for the Very Young by Jack Prelutsky (Knopf, 1984) and Listen and Help Tell the Story by Bernice Carlson (Abingdon, 1965). Teach the fingerplay “My Fish” from Finger Frolics by Liz Cromwell and others (Partner, 1985).

Have a fish bowl or aquarium on display along with books about caring for fish pets. Present several of the following books and have others — both fiction and nonfiction — ready for check-out.

Books

Adams, George. Fish, Fish, Fish. Dial, 1992

Colorful images of fish float across each full-page spread.

Cazet, Denys. A Fish in His Pocket. Orchard, 1987

Russell, a little bear, comes to school with a fish in his pocket.

Several fish of different sizes and colors introduce size and shape relationships.

Pfister, Marcus. Rainbow Fish. North-South, 1993

A beautiful fish in the ocean learns that having friends is more important than being beautiful. The book can be read with two voices or acted out with puppets and props.

Additional Books — For Preschoolers

Agard, John. Lend Me Your Wings. Little, Brown, 1987
Activities
Have children glue 1” by 1” crumpled pieces of colorful tissue paper on to fish-shaped pieces of tagboard. Provide various sizes of fish shapes to accommodate varying creative speeds. Children may take their projects home or the fish can be mounted on the library wall.

Fish Big and Little II
Ages: Preschool and primary grades

Begin the program with the following Mother Goose rhyme:
“There was Once a Fish”
There was once a fish.
(What more could you wish?)
He lived in the sea.
(Where else would he be?)
So I brought him to you.
(What else should I do?)

That rhyme and directions for making a paper plate fish puppet and a paper bag sea tote bag are found in Pocketful of Puppets: Mother Goose by Tamara Hunt and Nancy Renfro (Nancy Renfro Studios, 1993). Use the puppet and tote bag with the poem and also as a craft activity for program participants to take home.

Read Leo Lionni’s Swimmy (Random, 1973) using a commercial puppet or an origami fish. Teach older children how to make an origami fish at the program. Instructions are included in the Crafts section of this chapter; the only supplies needed are red or black paper and markers or dot stickers for eyes. Have all the children make red fish while the storyteller makes a black one. Pin the fish on a bulletin board in the shape of a big fish, as seen in the book.

Another version of an origami fish is found in Folding Stories: Storytelling and Origami Together as One by Christine Kallevig (Storytime Ink, 1991). In the story “Jerome’s New Friend” a boy finds that there is only one pet allowed in his apartment building: a fish.

Read several of the recommended books listed here or in the preceding program outline.

Books
Alexander, Sally. Maggie’s Whopper. Macmillan, 1992
Seven-year-old Maggie sacrifices her prize catch to save her uncle from a bear.

Bahrang, Samuel. The Little Black Fish. Carolrhoda, 1971
A little black fish swims to the end of the stream in spite of his mother’s warnings.

A fish’s wishes come true until the day he makes a foolish wish.

Easy reader version of the classic story about five fishermen who cannot count.

Ehlert, Lois. Fish Eyes. Harcourt, 1990
A book you can count on!
Goffstein, M.B. *Fish for Supper*. Dial, 1976
Readers accompany Grandma on a typical fishing day.

Heller, Nicholas. *Fish Stories*. Greenwillow, 1987
A young man's fishing trips bring nothing but trouble when a wizard helps him.

A father and daughter spend the day fishing for rainbow trout.

Lionni, Leo. *Fish is Fish*. Pantheon, 1970
A fish tries to follow his friend the tadpole and see the world.

When he tries to help a fisherman, George gets into trouble.

While sick in bed, a young boy opens a box from his uncle and embarks on a fantastical fishing trip.

Wolcott, Patty. *Tunafish Sandwiches*. Addison, 1975
This simple story illustrates the food chain in the ocean.

Wylie, Joanne. *A Big Fish Story*. Children's, 1988
The narrator describes the fish he caught in words that keep increasing its size.

An unhappy butcher finds happiness as a fish.

**Fish Big and Little III**

**Ages:** Primary and middle grades

Make waves by telling a fish story! Give each member of the group a fish-shaped name tag or cutout picture of a fish, which you have numbered consecutively. Having talked about "fish stories" (the exaggerated type) and/or fish stories (classic and contemporary tales from books; a list of suggestions is included below), start a story circle with

"Once upon a time on a beautiful summer morning, a young girl (boy) quietly closed the screen door of the cabin, went to the shed to fetch her (his) fishing pole, took her (his) tackle box and can of worms, and walked down the path to the dock. Before she (he) even threw her (his) line into the water, she looked out at the glistening water and saw..."

At this point, the person who has the name tag labeled number two must pick up the story, continue it for a sentence or two, then turn it over to the holder of number three. A little coaching from the leader may be necessary to keep the story going. If it gets too long or loses its creativity, the leader may bring the story to a conclusion.

A fish puppet can be passed along as the story progresses. Some participants may choose to tell the story from a fish's point of view. For a craft project to accompany this program, see the Crafts section of this chapter.

**Books**

Elkin, Benjamin. *Six Foolish Fishermen*. Scholastic, 1968
See the Plays and a Story section of this chapter for a stick-puppet play based on this classic tale. Invite older children to prepare it for a preschool and primary grade storytime.

Welch, Patricia. *The Day of the Muskie*. Faber, 1984

**Frog Fun I**

**Ages:** Preschool and primary grades

Arnold Lobel's classic *Frog and Toad are Friends* (Harper, 1970) and his other books featuring the friendly pair can establish the theme for this storytime. *Frog and Toad are Friends* is available on audiocassette with accompanying book (Caedmon, 1990); *Frog and Toad Together* is available in the same format (Harper, 1985). Choose several of the suggested books for presentation and consider videos as well.

**Books**
Arnold, Tedd. *Green Wilma*. Dial, 1993
Bancroft, Catherine. *Felix's Hat*. Four Winds, 1993

**Videos**
*A Boy, a Dog, and a Frog*. Phoenix, 1981 9 minutes
Based on Mercer Mayer's book.
*Frog and Toad are Friends*. Churchill, 1985 30 minutes
Based on Arnold Lobel's book. Includes "Frog and Toad: Behind the Scenes," a look at the animation process used.
*Frog on His Own*. Phoenix, 1989 12 minutes
Based on Mercer Mayer's book.
*Pond Animals*. Sony Kids, 1993 30 minutes
Follow the growth of frogs, dragonflies, ducks, and salamanders. Closed captioned for the hearing impaired.

**Frog Fun II**

**Ages:** Preschool and primary grades

Read *In the Small, Small Pond* by Denise Fleming (Holt, 1993), *Froggy Learns to Swim* by Jonathan London (Viking, 1995), and *Hop Jump* by Ellen Walsh (Harcourt, 1993). Introduce some of the other books suggested here. Listen to "Five Little Frogs" on the Raffi recording *Singable Songs for the Very Young* (cassette format Troubadour, 1979; CD format
A & M Records, 1988). Display pictures of frogs in encyclopedias and cut from old magazines. Display a live frog in an aquarium or vivarium if possible. Conclude the program with a game of leap frog if your group is of manageable size and temperament.

**Fiction Books**

**Nonfiction Books**
- Parker, Steve. *Frogs and Toads*. Sierra, 1994

**Gone Fishin’**

**Ages:** Preschool and primary grades

Fishing expeditions with family members or friends offer good opportunities for sharing experiences and bonding. Introduce the three books recommended below that reflect that theme. In addition, teach the fingerplay "Five Little Fishes" from More Picture Book Story Hours by Paula Sitarz (Libraries Unlimited, 1990).

**Books**
- Abolafia, Yossi. *A Fish for Mrs. Gardenia*. Greenwillow, 1988
  A fish caught by Mr. Bennett is used as a ploy to attract the attention of the widowed Mrs. Gardenia. It begins a rollicking set of misadventures that finally result in bringing the two lonely people together.
  A little bear does everything "just like Daddy." But on a family fishing trip he decides he would rather be just like Mommy.
  Kate and her grandfather spend a day fishing and observing area wildlife.

**Activities**
Provide fishing poles made of dowels, string, and paper clip "hooks." The number of poles will vary depending on the number of children and helpers. Taking turns, the children can drop their lines over a cardboard screen painted to look like a water scene. Helpers can attach a small bag of fish-shaped crackers, gummy candies, or stickers.

**Make Waves at the Water Hole: Hippos**

(This idea can be expanded to create storytimes about any animals that come to drink at water holes, lake shores, and riverbanks.)

**Ages:** Preschool and primary grades

Begin by showing photographs of hippos in nature and talking about where they live. Select several of the recommended books to read to the group. Read the poem “Recipe for a Hipopotamus Sandwich” by Shel Silverstein from Where the Sidewalk Ends (Harper, 1974) and invite the children to act it out. Show the “Hot Hippo” segment from the video Owl Moon and Other Stories (Weston Woods, 1990).
Present the tell-and-draw story "A Flower for Mama Hippo" provided in the Plays and a Story section of this chapter.

Hand out the hippo coloring page provided in chapter 4.

Conclude the program with "The Hippo-Hokey." In the popular song "The Hokey-Pokey," substitute terms such as "front hoof," "big mouth," "tail," "hippo hip," and "whole hippo" for the usual human body parts. (The same idea can be applied to any animal that is the focus of a storytime.) If you like, provide animal crackers for a treat and have children watch carefully for hippos!

Books
Heide, Florence. The Bigness Contest. Little, Brown, 1994
McCarthy, Bobette. Ten Little Hippos. Bradbury, 1992
Mwenye, Hadithi. Hot Hippo. Little, Brown, 1986
Raschka, Christopher. The Blushful Hippopotamus. Orchard, 1996

Noses and Sneezes
Ages: Preschool and primary grades

Hand out Kleenex™, Scotties™, or other tissue and ask children if they know why it is important to cover noses and mouths when people sneeze or cough. Explain why we don't want to spread germs. Ask children what they might say when someone sneezes. Read and display the books described below, interspersing the suggested additional facts and activities.

Introduce some facts about paper tissues such as these found in Steven Caney's Invention Book by Steven Caney (Workman, 1985).

• Just before World War I cotton became scarce. In response, Wisconsin paper company Kimberly Clark designed a product made of wood pulp combined with just a small amount of cotton. The product was used in hospitals and first aid stations in the United States and Europe instead of cotton bandages.
• After the war Kimberly Clark marketed the product as a disposable make-up remover, but it was perceived as too expensive for that use. The company's research then showed that more than half of Kleenex™ users used it as a disposable handkerchief.
• Kimberly Clark then began an advertising campaign defining Kleenex™ as a "cold germ catcher" because "you don't want to put a cold in your pocket". This was a success and the rest is history!

Discuss interesting facts such as these gleaned from You Can't Sneeze with Your Eyes Open and Other Freaky Facts about the Human Body by Barbara Seuling (Dutton, 1986).

• It is impossible to sneeze with your eyes open.
• The fastest recorded speed of a sneeze is more than one hundred miles per hour, about the speed of a cork shooting out of a champagne bottle.
• An ordinary human nose can distinguish from 4000 to 10,000 different smells.
• When the 16th century Danish astronomer Tycho Brahe lost the tip of his nose in a duel,
he had it replaced with a gold one.
- People once thought that a sneeze was a sign that death was near so they said “God Bless You” as a kind of condolence.

Books
Greenaway, Theresa. Beaks and Noses. Raintree, 1995
   Explains different uses for different noses and beaks.
   Describes the meanderings of a meatball that was sneezed off the top of a plate of spaghetti. Sing the story/song to the tune of “On Top of Old Smokey.”
   Illustrations show the noses of a variety of animals and describe their functions.
Stone, Rosetta. Because a Little Bug went Ka-Choo! Beginner, 1975
   The sneeze of a bug sets off a chain reaction involving cows, turtles, policemen, and an entire circus parade.
   As the animals in the jungle get larger, so do the sneezes. Let the children participate by saying “ah-choo” along with the animals, getting larger and louder with the turning of each page.
   When a bee doesn’t cover its sneeze the cow catches the buzz; the story continues until all the farm animals have caught a cold.

Activity
   Present the flannelboard poem “Mirror Magic” found in Kidstuff v. 5, no. 1; patterns for various noses are included.

Rainy Day
Ages: Preschool and primary grades

Every summer has some rainy days. Keep this program in store for such a day — or use it by contrast on a day of perfect sunshine. Adapt Mr. Gumpy’s Motor Car by John Burningham (Crowell, 1973) as a flannelboard story. Make a large sun and a couple of large clouds plus individual characters from the story. Make Mr. Gumpy’s car without a roof and have a piece that can be added when, in the story, it begins to rain.

Act out Mushroom in the Rain by Mirra Ginsburg (Macmillan, 1974) with an umbrella and animal props and a helper.

Provide green paper frogs for the children using the pattern given here. Use a frog puppet when you read Better Move on Frog by Ron Maris (Watts, 1982). Let the audience members “jump” their frogs when you make your frog puppet jump.

Read a selection of the books suggested here.

Books
Hughes, Shirley. Alfie’s Feet. Lothrop, Lee, 1983
Hughes, Shirley. An Evening at Alfie’s. Lothrop, Lee, 1985
Murphy, Shirley. Tattie’s River Journey. Dial, 1983
Spier, Peter. Peter Spier’s Rain. Doubleday, 1982
Activities

Make sun/rain mobiles. Have children cut out and color a large yellow sun, a gray cloud, and three or four big blue raindrops. Ask them to draw a smiling face on one side of the sun and a sad face on the other. Paste the cloud so that it covers part of the sad face. Paste the rain drops onto the cloud. Punch a hole at the top and hang it up with yarn or string. Alternatively, make cloud pictures by gluing cotton balls onto blue paper or make the waving rainbows described in the Crafts section of this chapter.

Games

Play a rainy day memory game. In advance, prepare pictures of rainy day items such as raincoats, boots, puddles, clouds, rainbows, umbrellas, and raindrops. Back each picture with felt so that it will stick on a flannelboard. Talk about each item as you place it on the board. After you have all the items up, turn the board around so that the children cannot see and remove one picture. Turn the board back and let the children guess which item is missing. After a few turns, try removing several items at a time to make the game more challenging.

Try a puddle game as well. Cut puddle shapes from blue construction paper and give one to each child. Then have children move according to your directions such as jump in the puddle, jump over the puddle, hop on the puddle, put one foot in the puddle, tiptoe around the puddle, and sit in the puddle.

Ship Ahoy I

Ages: Preschool

Little children may be familiar with canoes and small boats seen on Wisconsin lakes and rivers, but larger crafts will fascinate them as well. With the help of your audience, tell the participatory story “Who Will Save the Day?” reprinted below from Full Speed Ahead! by Jan

Books
Burningham, John. Mr. Gumpy’s Outing. Crowell, 1973
(Also available in Big Book format)
Hutchins, Pat. One-eyed Jake. Greenwillow, 1979
Ruane, Joanna. Boats, Boats, Boats. Children’s, 1990

Participatory Story: “Who Will Save the Day?”
Reprinted with permission from Full Speed Ahead! by Jan Irving and Robin Currie published in 1988 by Teacher Ideas Press, a division of Libraries Unlimited, Inc., P.O. Box 6633, Englewood, CO 80155; (800) 237-6124.

Teach children the refrain and hand actions first before you begin the story so they can all join in with gusto.

Refrain:
“We are lost,” cried the captain,
(Hand to head.)
As the ship tossed and swayed,
(Swing hands right to left.)
And the crew cried out,
(Hands to mouth.)
“Who will save the day?”
(Arms out with palms up.)
“Not I,” said the dog
(Shake head for each animal.)
“Not I,” said the cat
“Not I,” said the rat
And that was THAT!
(Clap three times on last three words.)

Captain Wayward and his crew had sailed the seven seas on their ship the Tempest Tossed. For most of the trip there had been smooth sailing. They had been to Australia, Borneo, Cuba, Denmark, Easter Islands, Fiji and so on all the way to the Yukon and Zanzibar. Now it was time to go home.
On Monday, they ran into an iceberg off the coast of Iceland. It ripped a hole in the hull.

“We are lost,” cried the captain,
As the ship tossed and swayed,
And the crew cried out,
“Who will save the day?”
“Not I,” said the dog
“Not I,” said the cat
“Not I,” said the rat
And that was THAT!
So Captain Wayward had to fix the hull all by himself.
On Tuesday they ran into a hurricane near Honolulu. It ripped a hole in the mainsail.
"We are lost," cried the captain,
As the ship tossed and swayed,
And the crew cried out,
"Who will save the day?"
"Not I," said the dog
"Not I," said the cat
"Not I," said the rat
And that was THAT!

So Captain Wayward had to fix the mainsail all by himself.
On Wednesday, the rudder scraped on a sand bar near San Salvador.
"We are lost," cried the captain,
As the ship tossed and swayed,
And the crew cried out,
"Who will save the day?"
"Not I," said the dog
"Not I," said the cat
"Not I," said the rat
And that was THAT!

So Captain Wayward had to fix the rudder all by himself.
Finally on Thursday the sun came out. The sea was calm and it was smooth sailing. They sailed on full speed ahead all day long.
And on Friday, the Tempest Tossed docked at home in Boston Harbor in the good old U.S.A.

"We are home," said the captain,
With the ship tied fast.
And the whole crew said,
"At last, at last!"

Ship Ahoy II

Ages: Preschool and primary grades

Begin the program by telling "Sailor Boy," a paperfolding story found in Is Your Storytale Dragging? by Jean Stangl (Fearon, 1988). It uses a sheet of newsprint to make a sailor hat and a boat.

Read several of the books suggested in the list below. On a chalkboard or sketch pad draw the story "Daniel's Incredible Adventure" from More Stories to Draw by Jerry Mallett and Timothy Ervin (Alleyside, 1990). In it, a dolphin named Daniel describes to his mother something he saw on the water — it has a fin like a shark but turns out to be a sailboat.

Utilize Full Speed Ahead! Stories and Activities for Children on Transportation by Jan Irving and Robin Currie (Teacher Ideas, 1988) for additional ideas. The flannelboard story "Ship Shape" is based on four shapes that become a sailboat. In the participation story "A Seaworthy Craftable Craft," the children perform actions for all the different animals who board a raft. The song "Row Your Boat Some More" adds verses to the traditional song and allows the children to row along at different speeds. "The Captain Says" is a seaworthy version of "Simon Says." It is a good way to conclude the day's activities.

Books
The reader tries to guess which of five animals is responsible for sinking a boat.
The vintage car, Gumdrop, floats away at high tide with a puppy on board.
A seafaring cat named Whiffle Squeek has a narrow escape from a hungry sea monster.

Crews, Donald. *Harbor*. Greenwillow, 1982
Various kinds of boats come and go in a busy harbor.

A little boat goes out fishing and runs into a storm.

In this easy reader a boy who is singing in the bathtub pictures himself on many different boats.

A lighthouse that feels insignificant next to a great bridge learns that it can still be useful.

**Sound Waves!**

Plan a day when older children can make musical instruments. Celebrate both sound waves and water waves by making a musical scale of eight jars, bottles, or drinking glasses filled with varying amounts of water. When struck with a spoon or pen, they will vibrate at different pitches. Experiment as you fill the containers with the right amount of water until they sound the scale. Label them C,D,E,F,G,A,B,C. If a piano or other instrument is handy, you can check the approximate tuning. For a first tune, try "Row, Row, Row Your Boat." Write out the words of the song, matching each word with its musical note as shown here.

<table>
<thead>
<tr>
<th>Row, row, row your boat</th>
<th>C</th>
<th>C</th>
<th>C</th>
<th>D</th>
<th>E</th>
</tr>
</thead>
<tbody>
<tr>
<td>Gent -ly down the stream</td>

</tbody>
</table>

Gather ideas on other supplies and methods for making musical instruments from several of the books listed here. Let participants organize a parade. Review additional program ideas in *Rock 'n' Read: 1994 Summer Library Program Manual* (WI DPI, 1994).

McLean, Margaret. *Make Your Own Musical Instruments*. Lerner, 1988
Tarksy, Sue. *Never a Dull Moment*. Schocken, 1983

**Taking the Plunge**

**Ages:** Preschool and primary grades

Set the stage with beach towels, water wings, and pool toys. You might want to invite a swimming coach or Red Cross swimming instructor to be a special guest at this program. The
guest could talk about the fun of swimming, importance of lessons, and swimming safety. You and the guest could take turns reading from the books recommended here.

**Books**

**Under the Sea I**

**Ages:** Preschool and primary grades

Start the day by telling "Gift from a Mermaid" in *Is Your Storytale Dragging?* by Jean Stangl (Fearon, 1988). Intersperse your reading of the books listed here with music suggested in the "Make Waves: Listen to Songs on Audiocassettes" list in the Booklists and Audiovisual Recommendations section of this chapter.

**Books**
Weller, Frances. *I Wonder If I'Il See a Whale*. Philomel, 1991

**Under the Sea II**

**Ages:** Primary and middle grades

Set the scene with music from *What's in the Sea* by Lois Skier-Zucek (Kimbo, 1990). Read from *20,000 Baseball Cards under the Sea* by Jon Buller (Random, 1991). Introduce *The Magic School Bus on the Ocean Floor* by Joanna Cole (Scholastic, 1992) and other fiction and fact about many kinds of ocean creatures.

Play octopus tag as described in Bob Gregson's *The Outrageous Outdoor Games Book* (Fearon, 1984) or in *Keepers of the Animals* by Michael Caduto and Joseph Bruchac (Fulcrum, 1991).

**Books**
Aschenbrenner, Gerald. *Jack, the Seal, and the Sea*. Silver Burdett, 1988

Audiocassette read by the author also available.
Watery Storytime

Ages: Preschool and primary grades

Plan a day for a general celebration of water. Set the atmosphere as children arrive with beach music recorded by Elvis, Frankie Valli, and the Beach Boys. Play "Sing a Whale Song" from Tom Chapin's cassette Sing a Whale Song and show the accompanying book (both from Random, 1993). Then introduce more scientific recordings of whale "songs," such as those listed below.

Teach the fingerplay "There was a Little Turtle" from Finger Rhymes by Marc Brown (Puffin, 1996). Use a video to introduce a variety of sea animals and let children draw underwater scenes. Choose several activities for indoors or outdoors from the Water Carnival list near the beginning of this chapter. Share some of the books suggested here (or books you enjoy from any other sample programs in this chapter) and the video It's Not Easy Being Green (Jim Henson Video, 1994). This Muppet™ video sing-along includes theme-related songs such as "Splish Splash," "Octopus' Garden," and "Frog Talk."

Books
Older children will enjoy this photodocumentary revealing the duties and day-by-day activities of a man who is a riverkeeper on the Hudson River.

Carle, Eric. A House for Hermit Crab. Scholastic, 1990
The hermit crab moves from his outgrown shell to a new one which he decorates. He meets various sea creatures in his travels.

Carlstrom, Nancy. Raven and River. Little, Brown, 1997
A raven travels along an Alaskan river announcing the arrival of spring.

A tale translated from the Russian.

Hill, Eric. Spot Goes to the Beach. Putnam, 1985
His parents take Spot the puppy to the beach for a fun-filled day. Flaps conceal parts of the illustrations.

Text and photographs explore a northern lake and its wildlife.

A young girl and her teacher correspond about the whale she has found in her pond.

Illustrations give tribute to water in many forms, from quiet pond to raging waterfall.

Reveals the sights and sounds of a wetland similar to a Wisconsin landscape.

The hippopotami enjoy a beach holiday wearing beach pajamas, dancing around the Maypole, and battling with water guns.

Oxenbury, Helen. Tom and Pippo on the Beach. Candlewick, 1993
Tom and his stuffed monkey trade sun hats when they go to the beach.

A poetic description of the wonder of whales — what they look like, how they behave, and where they live.

Whale Sound Recordings
Gibbons, Gail. Whales. Live Oak, 1993
Audiocassette accompanied by read-along book.

One 60-minute compact disc in the Gentle Persuasion five-disc collection.

Whales and Dolphins. Relaxation, 1990
Audiocassette.
Wave “Hello;” Wave “Good-bye”

Ages: Preschool and primary grades

Begin today's program by talking about words used for “hello” and “good-bye” in various languages. Stress friendly greetings of all kinds. Teach the group how to perform “the wave” à la fans at sports events. You can do “the wave” every week if you like as you cheer on the topic of the week.

Read Rob Reid’s Wave Good-bye (Lee & Low, 1996) and have the children act out the chant. Share several of the books suggested here. Play the suggested audiocassettes and invite the children to act out the songs.

Teach some of the 14 hand games and verses found in Hand Rhymes by Marc Brown (Dutton, 1985). Step-by-step diagrams of the necessary finger movements are included.

Books
Hazen, Barbara. Good-bye / Hello. Atheneum, 1995
Henkes, Kevin. Good-bye Curtis. Greenwillow, 1995

Audiocassettes
“Wavin' Good-bye to You with My Heart” in Put Down the Duckie! Children's Television Workshop, 1990

Plays and a Story

The plays and story printed in this section will help your programs go swimmingly! They can be performed by library staff, other adults, or rehearsed and presented by older children for younger children. All will bring smiles to the audience.

The Fisherman and His Wife: A Play

Adapted from the Brothers Grimm by Elizabeth Vollrath, Portage County Public Library, Stevens Point

Puppets: fisherman, wife, flounder (See directions for stick puppets following the script of the play)

Scenery: sea, hut exterior, cottage exterior with roses, castle exterior (See sketches for simple suggestions; put scenery on sticks to facilitate quick changes)

Props: king's crown, emperor's crown, and robe

Sound effects: drum to beat ominously or sheet of metal to make roll of thunder

(Hut exterior setting)

Wife:
I'm tired of this miserable hut. It's hot in the summer and freezing in the winter. And it always, always smells of fish. Sometimes I wish you hadn't decided to be a fisherman, Wilhelm.
Husband:
At least we have never starved, my dear.

Wife:
That's true, but I do so get tired of fish, and I wish we could afford to move. But, best not think about it. It's time for you to be off now. I'll have some nice hot cornbread waiting when you bring home our dinner tonight.

Husband:
Good-bye, my dear. (Kisses her and exits)

Wife:
Good luck fishing today. (Waves and exits)

(Sea setting)
Husband:
This looks like a good spot. (Hums. Line appears to be tugged from below and fisherman grunts and groans as he tries to pull it in.) This is a mighty fish. It weighs a ton, and it certainly is a fighter. Hope I can get it. (Struggles and at last pulls up flounder.)

Husband:
My goodness. What a fish stew this will make!

Fish:
Now just a minute, fisherman!

Husband:
(Looks around) Who's there? I don't see anyone. I must be imagining things.

Fish:
It is I who am speaking to you.

Husband:
Nonsense! Who ever heard of a talking fish?

Fish:
I'm an enchanted prince. Just because I don't look like a prince, doesn't mean I'm not. However, what I mean to say is, what good would it do to kill me? I wouldn't taste good. Please let me go. I won't bite you if you let me go free.

Husband:
Don't get in such a tizzy. A fish that can talk — believe me, I believe you aren't a regular fish. Swim away then. (Fish exits) Gerda will never believe this. (Exits, calling) Gerda, Gerda. Wait 'til you hear................

(Hut exterior setting)
Wife:
My goodness! What's the rush? Did you see a ghost? Where's our fish dinner?

Husband:
I caught a fish. But what a fish!

Wife:
What do you mean, "What a fish"? Where is it then? I'm hungry and the cornbread is just out of the oven.
Husband:
It was an enchanted fish. A prince, he said. So, naturally I let him go.

Wife:
Let it go? Didn’t you wish for anything?

Husband:
No. What do I want to wish for?

Wife:
Oh, Wilhelm, an enchanted prince of a fish must have some magical powers. I keep saying it’s all wrong to live in a hut like this. You know how I hate this tiny cramped place. Go back and call for the fish. Ask it for a nice little cottage.

Husband:
Why would it come back?

Wife:
You didn’t have to let it go. You could have killed it and eaten it. Surely the fish will show its gratitude to you.

Husband:
Well, if you think so, I will. (Begins to exit)

Wife:
(Calls after him) Ask for a rose-covered cottage while you’re at it. (Exits)

(Sea setting)
Husband:
Flounder, flounder in the sea
Please grant the wish
My wife begs of thee!
(Note: Audience can chant this over and repeat it each time it occurs in the script.)

Fish:
Well, what does she want?

Husband:
She says since I caught you and let you go I should wish for something. She says you have magical powers. She doesn’t want to live in our tiny hut anymore. She wants a nice cottage. Oh yes, one with roses.

Fish:
Go then, for she has it already. (Both exit)

(Cottage with roses exterior setting. Husband appears)
Wife:
Wilhelm, look. Isn’t it nice? So modern. So many roses.

Husband:
Surely you’ll be content now, Gerda.

Wife:
We’ll see about that. (Pauses) I wonder. Hmmm. Hmmm.
Husband:
What is it? Why do you keep saying hmmm?

Wife:
Look here, husband, the cottage really is quite small. And the yard is absolutely tiny. The fish could just as well have given us a bigger house. Now that I think on it, a castle would be just the thing.

Husband:
(Shrieks) A castle!

Wife:
Yes, a great stone castle. Go and make the fish give us a castle.

Husband:
The cottage is good enough. What do we need a castle for?

Wife:
I've been thinking. We haven't had the family over for such a long time. And you know, dear, your grandparents had such a large family. We can't have all your relatives unless we have a bigger home. Go along.

Husband:
No, wife. The flounder has just given us this cottage. If I ask him for something else, it might make him mad.

Wife:
Rubbish! It's just a fish, even if it's a magic one. It'll be glad to help us. Hurry up now. I have to plan our family reunion. I wonder if I should make those nice little fish cakes your granny likes? Maybe some salmon mousse? (Both exit)

(Sea setting)
Husband:
Flounder, flounder in the sea
Please grant the wish
My wife begs of thee!

Fish:
Well, what does she want?

Husband:
She wants to live in a great stone castle.

Fish:
Very well. Go home then. She is already there. (Both exit)

(Castle exterior setting)
Wife:
Wilhelm, look! Look! The castle has velvet curtains and Turkish rugs. And there are 40 bedrooms and 20 bathrooms. I won't have to clean every week. We'll just move to a new room. Isn't it wonderful?

Husband:
Yes, if it will only last, we can live in the castle and be quite content.
Wife:
Well, we will see about that. *(She thinks and hmmms)* Maybe, if we — no — I wonder .........

Husband:
What now?

Wife:
Look at the countryside. Just think if we could be king over it all. That's it! Why didn't I think of it sooner?

Husband:
What? Or don't I want to know?

Wife:
I've decided we WILL be king. Go along and tell that fish we want to be king.

Husband:
What! What do you want to be king for? I DON'T want to be a king!

Wife:
Well then. If you don't want to be king, I will. You must go directly and tell the fish.

Husband:
The flounder can't make you king.

Wife:
Don't be stupid. If it can give us a castle, it can make me king. Go along. I'll be waiting. *(Both exit)*

*(Sea setting)*

Husband:
It's not right. It's just not right. But I love my wife and I do want her to be happy.
Flounder, flounder in the sea
Please grant the wish
My wife begs of thee!

Fish:
*(With growing impatience)* What is it that she wants this time?

Husband:
To tell the truth, I don't know why, but she wants to be king.

Fish:
Ah, just go back then. She is already king. *(Both exit)*

*(Castle exterior setting. Wife has crown on head)*

Husband:
Are you king now? Will you finally be satisfied?

Wife:
Humph, as to that, I've decided what I really want is to be emperor.

Husband:
But, Gerda, there is only one emperor at a time.
Wife:
That is why I must be emperor. There are lots of kings, but only one emperor.

Husband:
I can't ask the flounder to do that. He could not make you emperor. He could not.

Wife:
Who's king around here, anyway? You are my subject. You must obey me. Go on. If the fish can make kings it can make emperors. Go along with you. (Both exit)

(Sea setting)
Husband:
This gets worse and worse. It's not the right thing to do. Sooner or later the flounder will get tired of my pleas. I fear what it will do to us.
Flounder, flounder in the sea
Please grant the wish
My wife begs of thee!

Fish:
(More impatiently) What is it now?

Husband:
I — uh — hate to tell you, but she — uh — wants to be emperor.

Fish:
That wife of yours is very, very greedy. But go along home. She is now emperor. (Both exit)

(Castle exterior setting. Wife now is wearing more elaborate crown and a robe.)
Husband:
Are you emperor then?

Wife:
Yes, I am emperor.

Husband:
How nice that you are the emperor. There's nothing left to be. I'm sure you'll be content now.

Wife:
I'll think about it.

Husband:
I can finally relax. I'm off to a well-earned nap.

Wife:
Hold it! I just thought of something. You know how the sun and moon rise and set each day?

Husband:
(Tentatively) Yes........

Wife:
Well, why can't I make the sun and moon rise and set?

Husband:
(Horrified) You can't mean what you say! Only God can do that.
Wife:
(Reasonably) No problem. Just go and tell the flounder I want to be God.

Husband:
(Shouts) What are you saying?

Wife:
(Tearfully) If I can't make the sun and moon rise and set, I shall never be happy again.

Husband:
I cannot! Never! Oh please, dear, no. The flounder can't make you God. I grant he could make you king and emperor. Do be content with that.

Wife:
(Hysterically) I can't stand it! I just can't stand it if I can't make the sun and moon rise and set! I must be God!

Husband:
What is she asking? What have I done?

Wife:
Go! Go! You must obey me. I am the emperor. (Both exit)

(Sea setting)
Husband:
Just this one last time. I'll only ask this one last time.
Flounder, flounder in the sea
Please grant the wish
My wife begs of thee!

Fish:
(Sternly) What is it now, fisherman? What does that wife of yours want now?

Husband:
My emperor, er, that is, my wife — she wants to be — oh, I can't ask it of you.

Fish:
Spit it out, fisherman.

Husband:
(Slowly) She — wants to be — God.

(A moment of silence is followed by a roll of thunder or deep-voiced drum beat)

Fish:
(Sternly, powerfully) Go back then. You shall see where her greed has gotten her. (Both exit)

(Hut exterior setting)
Wife:
(Sadly, with resignation) I will make some good hot cornbread to go with the fish you bring home today, Wilhelm. It will be a fine dinner.

Husband:
Right, my dear. We won't go hungry and we do have a roof over our heads.
Make Waves: Read a Love Story! The Owl and the Pussy Cat

Play adapted from Edward Lear's classic poem by Miriam Hansen, Indianhead Federated Library System, Eau Claire, Wisconsin

"The Owl and the Pussycat" verse is in the public domain. Here it has been adapted for five characters: Narrator, Owl, Pussycat, Turkey, and Pig. Recruit additional children to bring in the props at the appropriate moments. The Narrator can read the entire story with the other parts being acted out in mime, or the actors can share the narration. Before the children rehearse and perform the poem, read one of the several illustrated versions to the group. If more than one version is available, you may wish to draw some comparisons between the artists' renditions. The poem is included in many anthologies for children as well as in single volumes under the title The Owl and the Pussycat. Among them are illustrated versions by Jan Brett (Putnam, 1991), Lorinda Cauley (Putnam, 1986), Paul Galdone (Ticknor, 1987), and Janet Stevens (Holiday, 1983).

Simple costumes will enhance the performance. For example, the Narrator might be a bird and wear a headband with several feathers; the Owl could show owlish wisdom by wearing a mortar board or oversize spectacles; the Pussycat could be decked out in a headband with ears and wear a little necklace with a bell (a lace doily or lace remnant could be draped over her hair for the wedding); the Turkey could have colored feathers taped to shirt sleeves; the Pig should have a construction paper ring taped on his or her nose. Children can help plan and construct these and the requisite props.

Because many children dissolve in giggles when they hear this poem, go ahead and choose actors who will like to ham it up. Let everyone enjoy the merriment!

Narrator: Ahem! (Clears throat) Let me tell you the tale of a famous couple who fell in love and decided to sail off to an island to be married. The Owl (Owl appears and bows to the audience) and the Pussycat (Pussycat appears and does a curtsey).

The Owl and the Pussycat went to sea
(They sit facing one another in two chairs, as if they were in a boat, and Owl pretends to row.)
In a beautiful pea-green boat
(Two helpers bring in a large green poster board or side of a cardboard box painted green; to make things even sillier, the cardboard could have a label from canned peas glued to it.)
They took some money
(Owl and Pussycat pull play money from their pockets and show it to the audience.)
And plenty of honey
(This could be a cardboard prop or the real thing.)
Wrapped up in a five pound note
(Use your imagination with this! Helpers could bring in a sheet of brown wrapping paper labeled as English currency and then wrap up the honey.)
The Owl looked up to the stars above
(Two helpers appear with silver stars on long dowels)
And sang to his small guitar
(Use either a toy ukulele or guitar or a cardboard prop)
"Oh lovely pussy, oh pussy my love,
What a beautiful pussy you are, you are...
What a beautiful pussy you are!"

Pussy said to the Owl, "You elegant fowl,
How charmingly sweet you sing!
Oh, let us be married; too long we have tarried;
But what shall we do for a ring?"
They sailed away for a year and a day
To the land where the bong-tree grows
(Helpers produce a cardboard tree; Pig enters)
And there in a wood a Piggy-wig stood
(Owl and Pussycat climb out of their boat and look at Pig)
With a ring at the end of his nose, his nose,
With a ring at the end of this nose.

"Dear Pig, are you willing to sell for one shilling
Your ring?" Said the Piggy, "I will"
So they took it away, and were married next day
By the Turkey who lives on the hill.
(A serious Turkey appears and puts the ring on Pussycat's finger)

They dined on mince and slices of quince
(The bridal couple pretend to eat)
Which they ate with a runcible spoon;
And hand in hand, on the edge of the sand,
They danced by the light of the moon,
(They dance, while helpers hold up a large yellow cardboard moon behind them)
The moon, the moon,
They danced by the light of the moon.

A Flower for Mama Hippo: A Draw and Tell Story

The drawing sequence for the story follows the text. It will be useful to lightly draw the pictures ahead of time, then trace over them with bold lines when performing.

1. Little Hippo lived with his mother at the edge of a huge water hole. (Draw hippo body.)

2. Other animals lived by the watering hole, too. A herd of zebras lived here (draw first leg) so they would be near to get a drink of water. The giraffes, who lived here (draw second leg), had to spread their front legs wide apart to get their long necks to reach the water to drink. A herd of antelope lived over here (draw third leg) and next to them were elephants (draw fourth leg), who liked to take water up with their trunks and give themselves showers. At the far end of the water hole lived the hungry lions, about this far away (draw tail). All of the other animals feared the hungry lions.

3. Little Hippo and Mama lived way over here (draw center of flower), far away from the lions. But even so, Mama Hippo always warned Little Hippo to watch for lions, for sometimes they wandered far from home in search of food.

4. Little Hippo had two bird friends, Milbert and Filbert (draw hippo nostrils) who liked to ride on Little Hippo's great, broad back and eat bugs (make dots for hippo whiskers) that landed there.

5. One day Milbert and Filbert asked Little Hippo to take them to the playground to play on the teeter-totter. When Milbert and Filbert went on the teeter-totter it went back and forth like this (draw hippo mouth).

6. When Little Hippo got on the teeter-totter it went like this (draw a "c" shape for the beginning of hippo's chin) and it wouldn't rock. Milbert and Filbert said, "This is no fun," so they flew away (draw bird shapes to make hippo eyes). Little Hippo was all alone, so he walked over to the water hole for a drink (make a line from the "c" shape to the body to complete the chin).
7. Then he decided to walk along the watering hole to find a flower for his mother, but when he got this far (trace along front of body up to where top of neck begins), he got tired and decided to go home.

8. He walked a little way (draw neck as far as ear) and what do you think he saw? A lion! So he made a detour around it (draw first ear). When he walked a little farther (draw top of head) he saw another lion and made another detour (draw second ear).

9. Just before he reached home (draw in side of face joining ear and mouth), Little Hippo found the flower he had been looking for (draw petals) and gave it to Mama (draw stem into hippo's mouth)!

**A Flower for Mama Hippo; A Drawing Sequence**

Lightly draw out the picture before performing.

Water-related Activities and Experiments

Water, by its very nature, invites interaction! Activities for children of various ages are described in this section. Resource books suggested by your colleagues also can be consulted for further ideas.

Experiments, aimed at four- to eight-year-olds, safely introduce basic scientific principles.

Presents experiments demonstrating water’s properties.

Berger, Melvin. All about Water. Scholastic, 1993

Describes the properties of water and includes simple experiments such as turning liquid water into vapor and finding water in food.

Caney, Steven. Steven Caney’s Invention Book. Workman, 1985

Includes directions for making a bubble-bath bucket using a tin can, a shoelace, and a bar of soap.

Experiments about absorption, mixing liquids, floating and sinking, evaporation, and bubble making.

Uses simple observations and experiments to explore the properties of water.
Presents basic facts about water and includes simple experiments to illustrate such aspects as surface tension, dispersion, saturation, and buoyancy. Gives instructions for playing summer hockey with ice cubes.

Experiments to demonstrate how and why certain things float while others sink, how to load boats so they don’t sink, how to make things float that might not otherwise, and how to bring things up from underwater.

Investigates the properties of air and water through experiments.

Experiments using items from the grocery store. Includes a soda fountain using water, baking soda, liquid detergent, and vinegar and an experiment using water as a high-powered magnifier.

Kohl, Mary Ann, and Jean Potter. *Science Arts*. Bright Ring, 1993
The chapter titled “Water and Air” includes a variety of activities using simple materials.

Age appropriateness is indicated.

Presents simple experiments demonstrating the basic scientific principles of water.

Includes making crystal columns.

Instructions for making a paddle boat out of a plastic bottle and making a plunging jellyfish.

Ideas for building and testing simple toy sailboats.

Includes experiments with waves of sound, wind, and water.

Easy experiments for young children. Includes a chapter on oceans with activities demonstrating wave action, how temperature affects currents, and how the earth’s rotation affects water currents.

Uses simple experiments and activities to demonstrate the properties of water and principles such as floating.

A wide variety of suggestions for children of all ages.

Science experiments using basic materials.

Excellent photographs accompany 15 simple science experiments involving water and its properties.

Water clocks and waterwheels are among the items described.

See the chapter titled “Wet and Messy: Science for a Special Place.”

How to make a paddle boat from a two-quart milk carton.
Bottle Fountain

Reprinted with permission from *Science Arts* by Mary Ann Kohl and Jean Potter (Bright Ring Publishing, 1993)

**Supplies:** empty dishwashing soap bottle, thumbtack or nail, water, bucket or sink, outdoor area, towel

**Art Experiment:**
1. Working outdoors, use the thumbtack or nail to poke holes in the dishwashing soap bottle. Start with three or four holes placed high and low.
2. Holding the bottle over a sink or bucket, fill the bottle with water.
3. Watch the water flow in different fountain jets.
4. After observing the water fountain jet design, add more holes until a desired fountain is achieved.
5. Add more water.
6. Watch the new fountain jet shapes.
7. Use the towel for any clean up.

**Variation**
Stand a plastic bottle on a sidewalk outside and poke only one hole in the bottle. Then pour water into the spout and watch how far the water jets. Poke a second hole in a different spot and see how the second jet compares to the first. Continue adding holes in different places and comparing.

---

**The PRESSURE of water increases with depth. The pressure is caused by the force of gravity, which pulls all things toward the center of the earth. Small air molecules push down on top of the water, causing a small water jet at the top of the bottle. More water molecules push down on the water lower in the bottle, causing a larger water jet. The greatest pressure is at the bottom of the bottle, which causes the longest water jet of all.**
Bubblemania

Supplies: bubble solution, small jar or plastic container for each child, drinking straws and other bubble-makers, paper and food coloring if desired, old newspaper or plastic sheeting to cover the floor if the program is inside, towels and rags for general clean-up.  

Bubble solution: Various sources and folkways suggest varying brands and proportions for making bubble solutions. Experiment until you find one that suits you, then make it up in ample quantities for your program participants to enjoy.

*Prime Time Together with Kids* by Donna Erickson (Augsburg, 1989) offers this formula.
1 cup Joy™ dishwashing detergent
2 cups warm water
3-4 tablespoons glycerin (sold at drugstores)
1 teaspoon sugar

*Splish, Splash: Water Fun for Kids* by Penny Warner (Chicago Review, 1996) gives these proportions.
1 to 2 cups Dawn™
2 to 4 ounces glycerin to make the bubbles stronger and longer lasting
10 to 12 cups cold water

*Bubbles. The Soap and Detergent Association, 1994* calls for these ingredients.
1/2 cup hand dishwashing detergent
4 1/2 cups water
1/2 cup corn syrup or glycerin for stronger bubbles (or add more detergent)

Neighborhood usage around the editor’s home has been based on a cup of water mixed with two tablespoons of dishwashing liquid. Some people suggest letting any solution sit in an open container for one or more days to make it work better. Another formula notes that 2 cups of Lemon Joy™ plus 6 cups of water and a quarter cup of clear white Karo™ syrup yield particularly strong, clear bubbles.

Children can use small individual containers of bubble solution or play together at a water table or clean wading pool. Drinking straws (blow out only, please!) are the basic bubble makers. Use them in jars, margarine tubs, milk cartons, juice boxes, or other small containers to make multitudes of bubbles, large and small.

Add a few drops of food coloring to each individual container. Have children blow bubbles in the container until the bubbles overflow. Place a piece of paper on top of the bubbles; they will break and leave a design on the paper.

Many clever bubble wands are available commercially, but other readily available objects also can be used in this way. They work best when the bubble solution is placed in a flat container where the wand can be placed face down before waving it in the air to release the bubbles. Try cookie cutters, berry baskets, funnels, and pipe cleaners or wire twisted into various shapes. Have children wear cotton or woolen gloves or mittens, let bubbles rest in their palms; they can try to bounce the bubbles and recapture them.

Try making a giant bubble by pouring soap solution into a child’s wading pool. Place a hula hoop in the pool. Lift the hoop carefully and swing it in the air to produce a mammoth ephemeral globe.

Time a bubble; see how many seconds elapse before it pops. Determine how high a bubble floats.

Review the article titled “Bubble Magic” in the September 1985 issue of *National Geographic World.*

To the tune of “Row, Row, Row Your Boat” sing

Bubbles, bubbles, bubbles, bubbles,
Play with them all day.
Bubbles, bubbles, bubbles, bubbles,
Pop! They go away.

You may request quantity copies of a brochure called Bubbles from the Soap and Detergent Association. Children can cut and fold the 11” by 17” brochure to make a miniature book. The association’s address is 475 Park Avenue South, New York, NY 10016; (212) 725-1262. Be sure to explain the way you intend to use the brochure with children and their families.

**Sidewalk Art**

**Supplies:** pails filled with water, food coloring, paint brushes

Do this activity outside. Put several drops of food coloring in each pail of water. Give paint brushes to the children and let them paint the sidewalk with designs. The color is not permanent. According to Splish Splash: Water Fun for Kids by Penny Warner (Chicago Review, 1996) it lasts just a few minutes.

**The Water Cycle**

**Supplies:** Two small plates or saucers; saucepan; aluminum pie pan; oven mitt; ice cubes; water; stove

Evaporation, condensation, and precipitation are the three parts of the water cycle. The water cycle is continuously repeated. Evaporation is when water becomes water vapor and is taken up into the air. The sun is the great mover of water in the natural world. In the morning the grass is wet with dew. Soon the sun shines on the grass and the water evaporates into the air. The water vapor moves into the atmosphere with the warm air.

When warm moist air meets colder air, the moisture forms little drops called condensation. This is what happens to a cold soda can outside on a hot humid day. Water from the air condenses on the cold surface of the can. Condensation also can be seen when the warm, damp air from the shower condenses on the cool surface of a mirror or bathroom window. In the sky, moist air condenses into droplets which form clouds.

When the droplets of moisture in clouds combine and become too big and heavy to float in the air, they fall to the ground as rain. This is precipitation. When the weather is cold, the droplets can turn to ice and fall as snow or they may grow large and fall as hail.

**Evaporation.** An easy experiment can demonstrate the importance of the sun in the water cycle. You will need to have two small plates or saucers. Carefully measure two teaspoonfuls of water into each plate. Put one plate on a sunny windowsill and place the other one in a dark area like a closet. The next day, look at the plates. The one in the sunny spot will be dry or almost dry. The sunlight warmed the water and the air has carried it away as water vapor. The plate in the dark area will have lost some water to evaporation but not as much as the one in the sun. This is because heat makes water evaporate faster.

**Evaporation, Condensation, Precipitation.** Another experiment will demonstrate all three steps in the water cycle. Because a stove is used, be sure there is adult supervision. You will also need the following equipment: a saucepan, an aluminum pie pan, ice cubes, and an oven mitt. Pour some water into the saucepan and bring it to a boil. As the water boils, some of the water goes into the air as vapor or steam. This is evaporation. Now fill the aluminum plate with ice cubes. Put on the oven mitt and hold the pie pan over the boiling water. Soon you will see droplets of water on the bottom of the cold pan. They are not drops from the melting ice cubes; they came from the water vapor from the boiling water in the saucepan. When the warm water vapor touched the cold pie pan, it turned to drops of liquid water. This is condensation. As you keep holding the pie pan over the boiling water, more and more water vapor will condense on the bottom of the pan and the drops will get bigger and heavier. Finally they will fall back into the saucepan. This is precipitation.
Crafts

Children of varying ages will enjoy these crafts. Use the results as part of your library's decor or allow children to take them home immediately. Consult the materials listed here for additional ideas.

Copycat. May-June 1993

How to create a paper aquarium out of two layers of waxed paper.

Defines and demonstrates the properties of water through artistic experiments and projects such as paper tie-dyeing, making smudge prints, and making salt crystals. Part of a series called Science through Art.

Includes instructions for a sand-casted sun, sand-casted candles, sand-dried flowers, and making sand paintings.

Provides clear instructions for a shark puppet, a rainbow in a plastic bag, a simple origami boat, and a cork frog.

Gresko, Marcia. Sea Life. Schaffer, 1993

A variety of simple craft ideas. Part of a series called Early Years Thematic Notes.

Includes instructions for making an origami yacht in five simple folds.

Heinz, Brian. Beachcrafts, Too! Ballyhoo, 1986

Activities related to the beach such as sandcasting, burlap beach weavings, and beach walking. Water activities include sand-drip castles and water scopes.

Instructions for making a diorama that includes folded-paper sea turtles, starfish, dolphins, crabs, sharks, and more.

Among the many simple projects included in this valuable book are instructions for making sea scopes from milk cartons and for turning water, plus a few simple ingredients, into squeezable paint.

Suggests crafts for rainbows and sea creatures.

Aquarium

Supplies: large plastic soda bottle with top section cut off, white tagboard, markers, colored pipe cleaners, tape, string, scissors

In advance, soak the bottle in warm water to facilitate cutting off the top. Have children draw and cut out fish shapes using tagboard and markers. The fish should be small enough to fit into the bottle! Make a hole in each fish and tie a piece of string through the hole. Tape the strings to the inside bottom of the bottle so the fish will hang down when the bottle is righted. Cut a circle of tagboard to fit the open end of the bottle. Color it to look like the ocean floor. Twist pipe cleaners into seaweed and plant shapes and glue them to the ocean floor. Turn the bottle upside down over the circle and glue into place. The fish will appear to be swimming above the plants.

Balloon Boats

Supplies: Styrofoam™ meat tray, balloon, marker, wading pool filled with water
Decorate the meat tray (boat hull) with markers. Make a hole in the center of the tray and insert the lip of the balloon through the hole. Blow up the balloon from the underside of the boat and tie the end in a knot. The boat will float and can be directed through the water by blowing on the balloon. It also can be jet propelled by releasing the balloon's knot; the escaping air will power the craft.

Drip Art

Supplies: coffee filters, paper towels or ink blotter paper, table covered with plastic or newspaper, newsprint paper, cups of water tinted with food color or paper dye, eye droppers

You will need to set aside an area where the artwork can dry once the activity is completed. Cover tables with plastic or newspaper. Put several institutional paper towels and a sheet of newsprint or manila paper at each place. Place a coffee filter or white paper towel on the newsprint. Using eye droppers, have children drip colored water onto the filters or paper towel to create beautiful designs. Encourage the children to drip carefully. Have them notice how the filter absorbs the water, how colors combine to create new colors, and how the water evaporates quickly, leaving the filter dry and beautiful.

Icy Pictures

Supplies: ice cubes (one for each participant), powdered tempera, newspaper or protective plastic sheet, construction or manila paper, salt shaker to sprinkle paint, paper towels for clean-up

Discuss with the children how water freezes into ice and melts into liquid. Cover tables with newspapers or protective plastic. Lay out a sheet of paper for each child. Sprinkle a small amount of powdered tempera onto the papers. It is probably best for you to do this for younger children. Give each child an ice cube. As it is rubbed over the paper, the melting ice will paint designs on the paper. Collect the used ice cubes if necessary.

Portholes

Supplies: round Styrofoam™ or sturdy paper plates, markers, construction paper, sequins, glitter, thread or string, glue, staples, blue or green cellophane

Provide two plates for each child. One will be the background; one will be the porthole through which to look. On the background plate have children create an undersea scene with sea creatures, fish, bubbles, treasure chests, coral, and other aquatic plants and animals. The diorama can be made three-dimensional by cutting out some creatures and suspending them by thread or by mounting them on folded-paper “springs.” Cut the middle out of the second plate, cover the opening with cellophane, and staple it to the first plate.
Sailing Scenes

**Supplies:** construction paper, white crayon, popsicle sticks

Fold a rectangle of blue construction paper in half. Keep the fold at the top of your project. Use white crayon to draw waves on the front. Cut slits part way across the paper following the curves of some waves. Glue the side edges of the paper together. Make sailboat shapes from construction paper and mount them on sticks. Poke the boats up through the open bottom of the scene and through the slits so they can sail through the waves. Add a sun or a moon on a stick, too.

Sand Painting

**Supplies:** empty baby food jars or other small jars, natural sand and colored sand (available at craft supply stores), toothpicks, knitting needles, narrow paintbrushes, or other long narrow tools

Pour natural sand into bottom of jar to desired depth. Add second layer using colored sand. Gently level the sand, being careful not to mix the layers. Insert the tool next to the interior wall of the jar. As you carefully draw it out, sand from above will fall into the space it leaves. Add more layers of sand and insert the tool as you create more layers and designs. Fill to the top of the jar and screw on the lid.

Set Sail for Reading

**Supplies:** sheets of thick Styrofoam™ insulation, markers, plastic straws, construction paper

Cut thick Styrofoam™ into boat hulls. Cover the exterior with strips of construction paper. Name each boat after a favorite book; e.g. “The Charlotte’s Web,” “The Narnia,” or “The Swimmy”; write the name on the hull. Cut sails from construction paper; decorate them with a character or scene from the book. Attach the sail to the straw and stick the straw into the hull.

Thumbprint Ocean Mural

**Supplies:** newsprint or butcher paper, inked stamp pads, felt-tip markers, baby wipes

Hang a large piece of paper at child level on a bare wall. Suggest a waterscape by drawing in a few blue wave shapes. Children can use a stamp pad to ink their thumbs. After they have made thumbprints on the mural they can use markers to add features that will turn the thumbprints into sea creatures. Have them sign or initial their artwork. Use baby wipes to clean thumbs.

Toy Boats

**Supplies:** paper milk cartons, soda straws, square sheets of paper, modeling clay

In advance, adults should cut empty paper milk cartons in half vertically. One quart cartons work best. Staple the open top edges together and seal with duct tape. Positioned horizontally, the milk carton becomes a boat hull. Use crayons to draw designs on the square sheets of paper; these sheets become the sails. Punch 3 holes in each paper sail and thread a straw through the holes. Fasten the straw mast to the hull with waterproof modeling clay. Float the boats and watch them sail!
Treasure Bottle

Supplies: two-liter plastic bottle, sand, water, small treasure such as a shell, bead, stone, or coin

Pour several inches of sand into the bottle. Then fill the bottle two-thirds full with water. Add the treasure object. Let the children shake the bottle and find the object. Shake again to watch it disappear and reappear.

Water Waves Toy

Supplies: glass or plastic jar with tight-fitting lid, food coloring, water, vegetable oil, turpentine

Fill the jar halfway with water. Add a few drops of food coloring and then fill the jar almost to the top with vegetable oil; finish filling with turpentine. Screw the lid on tight. Rock the jar back and forth to set up patterns and waves.

Waving Rainbows

Supplies: paper plate, rainbow-colored streamers cut into two-foot strips, stapler or tape, craft stick

Cut the paper plate in half. Staple or tape the streamers to the rounded outer edge. Tape the craft stick to the straight edge of the plate to use as a handle. Wave the rainbow as a parade banner.
Alligator Pattern

Supplies: green construction paper, marker, scissors

Reproduce the pattern on the following page lengthwise on green construction paper so the alligator's back is at the center. Fold the paper in half.

Cut out the alligator. Draw in eyes. Cut slits along the lines shown on his back.

Unfold the alligator. The slits will look like the top two sides of triangles. Fold each "triangle" back along its base.

Refold the alligator; it will look like this.
Doorknob Decoration

Invite each child to color a decoration, cut it out, and take it home to hang on the door when curling up with a good book.

I CAUGHT a GOOD BOOK!
**Hide 'n' Seek Turtle**

**Supplies:** paper plates, green construction paper, crayons, scissors or mat knife

Precut six slits in each paper plate. Give each child one plate and three strips of green construction paper. Have children decorate both ends of two strips to look like feet and one end of the third strip as a head. The opposite end of the third strip will be the turtle's tail. Children can color designs on the raised side of the paper plate: this will be the turtle's back.

To assemble a turtle, turn plate over, and show children how to criss-cross the leg strips and put them through the side slits. Put the head-tail strip through the top and bottom slits. To make the turtle pull in its head, legs, and tail, hold the three strips where they cross and pull gently. If children pull strips just to the edges of the slits, they will not have to reinsert the strips each time.
Make Waves Bookmarks

Invite children to make their own bookmarks by coloring and cutting out these patterns. They will make excellent gifts to share with family and friends.
Paper Canoes

Easy-to-make small canoes can float in the bathtub or across a child's plastic wading pool.

Supplies: heavily waxed freezer paper cut in 8-inch by 11-inch rectangles, tape

Fold a paper rectangle in half horizontally, waxed side out. Then fold each section in half horizontally toward the central fold mark.

Fold the resulting product upward from the central fold mark, making sure the fold remains at the bottom. Then fold over each end twice at a diagonal to make the canoe watertight. Tape securely. Open the canoe and flatten the bottom. Place a penny or a bit of modeling clay in the bottom of the canoe to stabilize it.
Rainbow Fish Banner

Supplies: tagboard, crayons, markers, paper scraps, scissors, sequins and spangles, crepe paper, glue, yarn

Enlarge the pattern shown here if desired. Cut it out being careful not to cut the fish apart. Decorate the scales brightly. Glue crepe paper streamers at the tail. Punch holes near mouth and reinforce them with tape. Fold the fish together and glue. Thread yarn through holes and suspend.
Seaside Sippers

From My Very Own Birthday: A Book of Cooking and Crafts by Robin West. Copyright 1996 by Carolrhoda Books, Inc. Used by permission of the publisher. All rights reserved.

You Will Need: tracing paper, pencil, scissors, colored construction paper, paper punch, markers, glitter, sequins, white liquid glue, drinking straws

1. Seaside sippers slip over your straw to make any drink special. Draw your own sipper shape or use one of the patterns [here].... When creating your own sipper shape, make sure it is no wider than 4 1/2 inches and no taller than 6 inches. Skip to step 4 if you are making your own shape. If you plan to use one of the patterns, follow steps 2 and 3.
2. Place tracing paper on top of desired shape ... and trace. Cut out tracing paper pattern.
3. Place pattern on colored construction paper and trace around it. Cut out shape.
4. Use a paper punch to make two holes in your shape. One should be at least 1/2 inch from the top of the shape. The other should be at least 1/2 inch from the bottom.
5. Decorate the shape using colored construction paper, markers, glitter, sequins, and glue.
6. Insert straw through holes as shown.
Fish I

Supplies: spring-loaded wooden clothespin, construction paper, pencil, glue, scissors, marker, glitter (optional)

Use the oval pattern provided here to outline an oval on construction paper. Cut it out and fold it in half.

Snip off a small triangle at one edge of the fold. Open the oval and cut it in half along the fold line. Draw an eye and some scales with a marker.

Apply glue to the sides of a wooden clothespin, then press the halves of the fish over down onto the glued surface. If you like, apply a bit of glue, then sprinkle it with glitter.
Fish II.
You will need: A square piece of paper

Follow the folding illustrations given here to create a simple fish.

1. Fold in half.

2.

3.

4. Fish
Water Bird: Everybody’s Favorite, the Penguin!

Adapted from Readers are Winners (Arkansas State Library, 1984)

1. To start your paper penguin, cut a piece of white construction paper about four inches square and fold up one corner. Using black crayon, color the paper as shown.

2. Next, on the reverse side of the folded corner, draw two eyes and a beak as shown. Then fold back a small corner on the bottom as shown by the dotted line.

3. Fold black wings back and paste, tape or staple wings together.

4. To make feet, cut a two and a half inch equilateral triangle from yellow paper. Draw feet and webbing as shown.

5. The last step is to paste the bottom onto the center of the “feet” triangle as shown.
Why did the children throw the water pitcher out the window? They wanted to see a waterfall.

What has a mouth but cannot talk? A river.

Fish FAQ
(Hint: use Yahoo)
http://www.wh.whoi.edu/homepage/faq.html
Frequently-asked questions about fish—Do fish sleep? How much electricity does an electric eel generate? What attracts sharks?

North Carolina Division of Marine Fisheries
(Hint: use Yahoo)
http://www.sips.state.nc
See the section on Cool Kid's Stuff for information on fresh water fish. Check out these fun activities—The Fish Finder, Fish Quiz, and Fishy Stories. 1st grade and up.

Sea World/Busch Gardens
(Hint: use Yahoo)
http://www.bev.net/education/seaworld
This is one of the best all-around starting points for any fish. There are coloring sheets, beautiful pictures, and information on making a home aquarium.

The Electronic Zoo-Fish
(Hint: use Yahoo)
http://netvet.wustl.edu/e-zoo.html
This is an excellent starting point to look for information on all types of fish. An extensive Sport Fishing section.

The Salmon Page
(Hint: use Yahoo)
http://www.riverdale.k12.or.us/salmon.html
Catching, cooking and saving salmon. Videos and links to other salmon sites with K-12 school projects.

Underwater World
(Hint: use Yahoo)
http://pathfinder.com/ @swov/QQA4nuKef9q/pathfinder/kidsstuff/underwater/10s
The games include guessing the name of some Freaky Fish: answering some Fishy Questions: an underwater sea trip and teeth of some big fish. Also links to other good sites.

Sea World/Busch Gardens
(Hint: use Yahoo)
http://www.bev.net/education/seaworld
This is one of the best starting points for any sea animal, including dolphins, corals, seals, manatees, penguins, sea turtles, and walruses. All ages.

The Electronic Zoo
(Hint: use Yahoo)
http://netvet.wustl.edu/e-zoo.html
An excellent starting point for links to sites on dolphins, corals, manatees, seals, sea lions, and walruses. 2nd grade and up.

Smithsonian Ocean Planet
(Hint: use Yahoo)
http://seawifs.gsfc.nasa.gov/ocean_planet
This site has beautiful pictures taken underwater with extensive links to information on oceans and marine life. 3rd grade and up.

Wyland Kid's Web
(Hint: use Yahoo)
http://www.wylandkids.com/
The Planet Ocean has information about sharks and the Coloring Book section includes pictures and print information on sharks. Preschool-6th grade.

Wyland Kid's Web
http://www.wylandkids.com/
The Planet Ocean gives information on the ocean and its creatures: the Coloring Book section allows kids to print out and color ocean animals. Preschool-6th grade.

Dolphin Discovery Centre
(Hint: use Yahoo)
http://onramp.southwest.com.au/-adreyer/
This site has information on dolphins and extensive links to other dolphin sites. 3rd grade and up.

Jimmy's Sea Otter Page
(Hint: Use Lycos)
http://www.silcom.com/ njiuwa
Information about otters, questions/answers, also has photos and links to other sites about otters. Preschool-6th grade.

The Gator Hole
(Hint: use Yahoo)
http://magicnet.net-mgodwin
The habitat, feeding habits, myths, and facts about alligators with links to other sites. 3rd grade and up.

The Froggy Page
http://frog.simple.net/frogy/
Help in identifying species, keeping frogs in captivity, questions answered on frogs. 3rd grade and up.

The Basking Shark Project
There are some exciting pictures of sharks here, but the information is written at a fairly high level. 5th grade and up.

Pelagic Shark Research Foundation
http://www.pelagic.org/
This site has extensive information on sharks with some dramatic photographs. 3rd grade and up.

Florida Aquarium
(Hint: use Yahoo)
http://www.sptimes.com/aquarium/
This Is one of the best starting points for any fish. There are coloring sheets, beautiful pictures, and information on making a home aquarium. 1st grade and up.

Whale Club
http://www.whaleclub.com/
Some nice trivia sections on whales, dolphins, and manatees, with coloring sheets and video footage of Keiko, the star of Free Willy.

WhaleNet
http://whale.wheelock.edu/
Check out the What Is It? game and Ask A Scientist feature. 3rd grade and up.

Whale Watching Web
http://www.physics.helsinki.fi/whale/
Links to numerous other sites about whales—whale rights, museums, songs, research and pictures.

Whales On The Net
http://www.sips.state.nc
A whale protection site with a strong environmental message and a Frequently Asked Questions section.

Virtual Whales
http://tas.sfu.ca/cs/research/Whales/
Focuses on the humpback whale with pictures, video clips and numerous whale sounds. 3rd grade and up.

Center for Whale Studies
http://www.cfws.org/
Has a nice Multi-Media Gallery of pictures, audio and video clips of whales.

Sea World/Busch Gardens
http://www.bev.net/education/seaworld
Includes information on these whales—Baleen, Beluga, and Killer—an Ask Shamu site, and video segments of whales. All ages.

BEST COPY AVAILABLE
Puzzles and Word Games

Use the materials in this section as giveaways or as activities to supplement summer programs when appropriate. Materials for children of different ages and ability levels have been included. Answer keys provided at the end of this chapter.

Puzzles and word games marked with + are available in Braille format from the Wisconsin Regional Library for the Blind and Physically Handicapped. Call (414) 286-3045 in Milwaukee or (800) 242-8822 from elsewhere around the state.

+ Wisconsin Rivers and Lakes

Use the number of blanks and the clues to find the names of some Wisconsin rivers and lakes. Locate them on a map of the state.

| __ | __ | __ | __ | __ | State's largest lake
| __ | __ |     |     |     | River that flows north in Lake Superior
| __ | __ |     |     |     | State's northwest boundary river
| __ | __ | __ | __ | __ | River named for an American Indian tribe
| __ |     | __ | __ | __ | River named for a member of the dog family
| __ | __ | __ | __ | __ | Lake named for Swiss City
|     | __ | __ |     |     | A sweet river!
|     | __ | __ | __ | __ | Lake forming state's eastern boundary
|     | __ | __ | __ | __ | Lake in state's capitol city
Ship Shape Word Scramble

Unscramble the letters to find 15 different kinds of boats and ships.

1. BGUTTOA
2. NOACE

13. ESWVA
14. EDEWASE
15. ROCNAH
**Wet Words Puzzle**

Finish these familiar sayings by filling in the correct words. The missing words are all related to the Summer Library Program slogan, Make Waves: Read!

1. __ __ __ __ __ everywhere, but not a drop to drink.
2. The __ __ __ __ run to the sea.
3. Jump in and get your feet __ __.
4. It's __ __ __ __ cats and dogs.
5. That's a pretty kettle of __ __ __.
6. From __ __ __ to shining __ __.
7. That's the news from __ __ __ Woebegone.
8. Wynken, Blynken, and Nod one night __ __ __ __ __ off in a wooden shoe.
9. Amber __ __ __ of grain.
10. We will either sink or __ __ __.
Make Waves: Read Fairy Tales!

How well do you know these fairy tales that take place in or near the water? Fill in the blanks with the character’s name.

1. In the story about six royal sisters who live in the sea, the youngest sister was known as the ____________.

2. When the fisherman who lived by the sea caught a large fish, he was surprised to hear the fish tell him, “Put me back! I am no flounder, but an enchanted __________!”

3. The Steadfast Tin ____________ was really quite frightened when he was sent sailing through the gutter in a paper boat.

4. When a beautiful princess lost her golden ball near the spring one day, a ____________ ____________ asked her, “Why do you weep so bitterly, little Princess?”

5. It wasn’t until he tried his wings that the ____________ ____________ realized he had turned into a beautiful swan.
Wisconsin Fish Quiz

Can you name these Wisconsin fish?

1. __________

2. __________

3. __________

4. __________

Northern Pike
Lake Sturgeon
Bluegill
Perch
**Sailors on the Seven Seas**

Match these famous sailors to the correct facts about them. Don't forget the encyclopedia if you need a little help.

Which Fish is Different?
Find the Triangles

How many triangles can you find on the big sail?
Mazes and Coloring Pages

Dolphin Maze

Reunite the dolphin family.

Used with permission from Reading is a Magic Trip, Virginia State Library and Virginia Center for the Book, 1994.
Tadpole Maze
Swim through the tadpoles from start to finish.

Adapted from artwork by Sharon Siegel.
Read-it, Ribbit, Read-it Maze

Help the frog hop along the paths of the maze to reach the library.

Adapted from artwork by Carol Bertz.
Umbrella Maze

Clouds are boiling up and a rainstorm is on the way. You'll need an umbrella to keep you dry... but can you find the umbrella through the maze below? Don't spend too much time on false trails, or you'll get wet!

Used with permission from Read Up a Storm, Missouri State Library, 1993.
Go Fish!

Two or more players can go fishing together. The first player draws a line, either up and down or across, connecting two dots. The next player connects one of those dots to another. Players continue taking turns, drawing one line at a time from a previously connected dot to a new one. If you draw a line that fences in a square, write in one of your initials and take another turn. When all the dots have been connected, count your initialed squares. Score one point for each plain square and three points for a square with a fish in it. The player with the most points wins.

A Seaworthy Coloring Page

MAKE WAVES: READ!
Gathering at the Water Hole

This game can be played by 2, 3, or 4 players. Reproduce the game board provided on the next two pages. Game pieces to reproduce and cut out are provided below.

Players shake one die to determine how many spaces to move. Danger cards, provided here, give instructions about what to do when a game piece lands on a danger square. Place them face down on the labeled corner of the game board. The first player to reach the friendly animals in the water hole is the winner.

THE ALLIGATOR'S JAWS ARE READY TO SNAP; GO BACK 2 SPACES.

THE LION MAY WAKE UP; QUIETLY GO BACK 1 SPACE.

THE RHINOCEROS IS READY TO CHARGE; GO BACK 3 SPACES.

THE PANTHER IS A STEALTHY HUNTER; GO BACK 3 SPACES.

THE SNAKE IS READY TO STRIKE; GO BACK 2 SPACES.

WATCH OUT! THE HYENA'S TEETH ARE VERY SHARP; GO BACK 1 SPACE.

Seven made up of four triangles.
Sixteen made up of one triangle.
Performers' Roster

The groups and individuals listed in this chapter are arranged alphabetically by the first major word of the name of their performance or by the last name of the contact person. Cross references are provided as necessary. Information was current as of Spring 1997. Inclusion in this manual does not constitute an endorsement or promotion of any individual or group listed. Direct contact with references is advisable.

Librarians interested in inviting Wisconsin authors and illustrators to make presentations or appearances at their library are advised to first consult the current edition of the CCBC Resource List for Appearances by Wisconsin Book Creators, published by the Cooperative Children's Book Center. This directory has entries for more than 60 authors and illustrators of books for young people, presenting information about their published works and about the types of appearances they are willing to make. It also provides practical suggestions about all phases of arranging such programs. For information on obtaining a copy, contact the Cooperative Children's Book Center, 4290 Helen C. White Hall, University of Wisconsin-Madison, 600 North Park Street, Madison, WI 53706; (608) 263-3720.

Actors All Participation Theater
Contact Judy Weckerly, 3801 Jay Court, Stevens Point, WI 54481; (715) 341-7323
Description Actors All is participation theater. It is designed especially for children and young people, offering them the opportunity to experience the magic of performing. They act out familiar nursery rhymes, fairy tales, fables, and plays. Each actor becomes a character on stage with the help of a hat, cape, and prop. Actors All invites young people to perform spontaneously and helps develop acting skills while a play is in progress.
Fee $75 for a 45-minute performance plus $.40 per mile from and to Stevens Point
Travel range Within two-hour drive of Stevens Point
References T.B. Scott Free Library, Merrill; Charles White Library, Stevens Point; McMillan Memorial Library, Wisconsin Rapids; Antigo, Iola, Little Chute, Manitowoc, Marshfield, Mosinee, New London, Pittsville, Waupaca, Wausau, Weyauwega, and Westfield public libraries

Kevin Adair: Live on Stage!
Contact Adair Performance, 1632 South Indiana Avenue, #709, Chicago, IL 60616; (312) 243-2224
Description Adair's programs combine comedy, storytelling, juggling, magic, positive messages, an emphasis on reading, and amazing audience interaction. His "Make Waves: Read! Show" leads audiences on a wild adventure through the region's waterways and explores how reading can make each person wiser and more powerful. Other available programs include "Randolph Darken's Stormy Night," "Santa's Favorite Helper," "MacDuff, the Renaissance Jester," "Cowboy Roy's Reading Roundup," "Travel the Reading Highway," and customized presentations. They are suitable for preschool through junior high audiences and mixed-age family audiences. Adair also leads workshops, walks on stilts, mimes, and appears as Charlie Chaplin.
Performing area Flexible, indoors or outdoors
Fee $300 plus travel expenses; reduced fees for multiple bookings
Travel range Nationwide

All-Star Magic Revue

Contact
Dick De Young, Van Trek Trail, Route 3, Sheboygan Falls, WI 53085; (920) 467-8414

Description
This complete, family-style magic revue includes live animals and birds, audience participation, lights, and costumes. The colorful, fast-moving show is filled with illusions, comedy, music, and mystery. There are seven in the troupe and an eight-foot Magic Rabbit for warm-up. Free brochures and references are available on request. The show also can be used as a fund raiser.

Performing area
15 feet by 20 feet, with 10 feet between performers and audience; entirely self-contained, providing own lights, scenery, speakers, and other equipment

Requirements
Three hours set-up time; scheduling as far in advance as possible

Fee
$195 to $500; price break for more than one show in same place

Travel range
150-mile radius; farther by special arrangement, which includes overnight accommodations for crew

Muriel Anderson, Guitarist

Contact
Class Act, W5784 Woodlawn Drive, Fort Atkinson, WI 53538; (920) 563-9669

Description
Anderson is an award-winning professional guitarist who shares her gift of music with audiences of all ages. From the Chicago Symphony to the Grand Ol' Opry, her style and repertoire have won acclaim. Anderson's programs demonstrate many different guitars and varieties of music, showing the instrument's full realm of possibilities. A sing-along and question period always end the program.

Requirements
Chair, table, electrical outlet, two microphones with boom stands

Fee
$375 for one program, $500 for two

Animal Encounters Presents Robert James

Contact
Class Act, W5784 Woodlawn Drive, Fort Atkinson, WI 53538; (920) 563-9669

Description
James is a zoologist, teacher, entertainer, and author. During his presentations, he carries live zoo animals, such as a porcupine, alligator, hedgehog, bat, and snake, through the audience so that all can meet and pet the animals as he talks. He presents a multitude of facts to dispel many animal myths and can tailor his presentation to the age level of the audience.

Performing area
Indoors preferred; no auditoriums with built-in seats, please

Requirements
Electrical outlet may be needed in some venues

Fee
$350 for one program, $450 for two

Travel range
Nationwide

Description Rosewall manages a wide range of musicians and specialty performers; contact her for additional information and details.

Art in a Suitcase
Contact Mary Tooley, 12505 Lake Shore Road, Cleveland, WI 53015; (920) 726-4900
Description Art in a Suitcase presents “A Whale of a Program” for the summer of 1998. We’ll dive down through the layers of the oceans and discuss ocean motion, including waves. The program will highlight whales, sharks, flashlight fish, octopi, and jellies. The suitcase will be packed with puppets, science specimens, and fossils (including a giant prehistoric shark’s tooth). A deep-sea drawing project follows, for which markers and paper are provided.
Fee $75 to $125, varies with location and size of group; price breaks for more than one performance in an area
Travel range Statewide

Description Artists of Note represents more than a dozen performers in the folk arts, storytelling, theater, children’s theater, music, and dance. Contact Murdock for a descriptive brochure and further details.

Margo and Jerry Ashton, International Puppeteers
Contact Margo and Jerry Ashton, Puppets Unlimited, 1325 Berwick Boulevard, Waukegan, IL 60085-1543; (847) 336-9247
Description These puppeteers present 45-minute programs for children and adults using brightly colored 30- to 36-inch-high marionettes they have made themselves. The marionette show, “Circus on Strings,”
emphasizes games, recreation, and fitness. In “Rock around the Barnyard,” children make sounds to match farm animal hand puppets. In “Rock around the World,” puppets visit various countries and depict special-occasion music and dances. Write for information about additional programs. One-hour workshops also are available at additional cost.

Performing area 12 feet by 12 feet; minimum of 8-foot ceiling height
Requirements Electrical outlet
Fee $200 for one show, $100 for second show in same location (negotiable), $25 per 100 miles of travel
Travel range Nationwide

The Atwood Players
Contact Alan or Mary Ellen Atwood, 3141 North 79th Street, Milwaukee, WI 53222; (414) 873-2281
Description Several 35-minute plays are available. “The Fisherman and His Wife” has a giant picture book set of the sea, in which waves grow bigger as a storm intensifies, including sound effects of the sea. “Mystery” is a choose-your-own-adventure story, in which a detective leads the children on a clue hunt. “African Fables” are Anansi the Spider Man stories. “The Lion, the Witch, and the Wardrobe” is a fast-paced retelling of this literary classic.

Performing area 12 feet deep by 15 feet wide
Requirements Minimal help to unload, set up, and take down simple sets
Fee $250 for “The Lion, the Witch, and the Wardrobe,” others $225 per show, $350 for two performances of the same play on the same date at the same location; fees definitely negotiable; travel fee outside Milwaukee County
Travel range 100 miles outside of Milwaukee

Baldy the Magnificent, Humble Clown Extraordinaire
Contact C.R.C. Productions, 7211 Elmwood Avenue, Middleton, WI 53562; (608) 831-1263 or (800) 710-1849; home page: http: //www.geocities.com/ -crcproductions

Description Two programs are available for the summer library program. “Baldy the Magnificent Extravaganza” is a 60-minute, action-packed show featuring magic, balancing, juggling, and feats of stupidity combined with original music and song-and-dance routines. The highly interactive show includes a death-defying tightrope act and juggling of beanbag chairs. “Puttin’ on My Face at Your Place” combines clowning and history. During the first 20 minutes, Baldy becomes a clown as he puts on his makeup, costume, shoes, and wig. His background score for the program, “If You Want to Be a Clown, You Must First Make Up,” describes what he does at each step. The balance of the 60-minute program is an abbreviated version of the “Extravaganza.” Baldy travels with backdrop, sound system, props, and stage pieces to create a festive circus mood. A question period can be scheduled at the end of each show.

Ken Baron: Children’s Music Extravaganza
Contact Ken Baron, 5019 North Bay Ridge Avenue, Whitefish Bay, WI 53217; (414) 332-9235
Description Baron performs a program of original music and familiar standards for children ages three through 12. He accompanies himself on guitar and banjo. Designed to be both entertaining and educational, his songs invite either vocal or physical audience participation. His standard show includes “The Bubble Song,” in which he uses a bubble machine to fill the air with bubbles, and “Steam Train,” in which children are invited to get on board as the train meanders through the library. The show also features traditional songs and Disney movie favorites. Baron holds a master’s degree in education and a bachelor’s degree in theater and is a substitute music teacher in the Milwaukee School District. He has been elected to membership in the American Society of Composers and Publishers (ASCAP), and his songs have been recorded by nationally known recording artists such as Sesame Street’s Bob McGrath. Majid Ben Saad, Puppeteer
Contact Majid Ben Saad, 1115 Chandler Street #1, Madison, WI 53715; (608) 255-9963
Description A full-time professional puppeteer since 1974, Ben Saad focuses primarily on shows for children of all ages. By combining colorful marionettes with music and dances from all over the world, he teaches children about ethnic diversity and the beauty of life. A variety of shows are available, including a Moroccan folk story and a circus show. The marionettes range from one and one half feet to more than five feet. Every story is performed inside a beautiful, painted set. Ben Saad encourages children to ask questions and to manipulate some of the marionettes.

Bob Bohm, Magician

Contact
Bob Bohm, 1234 Grove Avenue, Racine, WI 53405; (414) 637-2332

Description
Bohm presents fun learning and awesome magic. In his 30- or 45-minute “Ride a Magic Wave” shows, Bohm takes his audience on a surf ride of magic while emphasizing the fun and importance of reading. To the tunes of the Beach Boys, he waves his magic wand and performs some of the most amazing tricks around. The show includes his astonishing, original Walking-through-a-Wave illusion as well as his famous Sawing-a-Librarian-in-Half illusion. Bohm has a rapport with children that comes from more than 20 years of performing at recreation centers, schools, and libraries. He captivates while he educates.

Performing area
Minimum 10 feet by 15 feet

Requirements
Electrical outlet within 25 feet

Fee
30-minute show $135, $100 each additional show; 45-minute show $185, $150 each additional show; mileage for first 80 miles round trip is included, $.30 charged for each additional mile

Walter Craft, E17900 Scenic Drive, Fall Creek, WI 54742; (715) 877-2845; e-mail: troubodor@aol.com  
In "Old Man River," Craft presents songs and stories from his 40 years of travels. His voice is as deep and rich as the Great Lakes and his knowledge of musical history is as wide as the Mississippi River. His stories from other times and places help children bridge the gap between generations past and the world of today. "Radioactivity" is a specialty program which takes the songs and stories kids collect from their grandparents to the local radio station to be broadcast over the radio waves. Craft plays guitar, harmonica, and Lakota courting flute. He also tells a mesmerizing story with a rainstick.  
Flexible, indoors or out  
$200 for one program, $275 for two, $350 for three
**Dave Herzog's Marionettes**

Contact: Class Act, W5784 Woodlawn Drive, Fort Atkinson, WI 53538; (920) 563-9669

Description: "Dave and Sue's Stars on Strings" is a complete theater in miniature. This fast-paced musical variety show features more than 20 marionette performers. Jugglers, acrobats, aerialists, "Mousy Kerrigan" the skater, "Ropespierre" the tightrope walker, and many other exciting characters round out this musical cabaret on strings. Available year round. Inquire about other shows.

Performing area: 15 feet by 15 feet with an 8-foot minimum ceiling clearance; stage preferred, but if not available the performers can furnish a raised platform

Requirements: 60-minute set-up time, 45-minute strike time; electrical outlet

Fee: $375 for one show, $525 for two shows back-to-back in same location

Travel range: Statewide

**David Dall and Friends**

Contact: David Dall, P.O. Box 1433, Rhinelander, WI 54501-1433; (715) 272-1331

Description: Dall and his friends Mr. Guitar, Ms. Strings, and Baby Guitar perform a variety of humorous audience-participation songs. The show also includes skits involving the audience, storytelling, and character portrayals. A kindergarten teacher in Rhinelander, Dall holds a bachelor's degree in elementary education. He has recorded his original songs on a cassette titled *Music Is a Friend of Mine*. In addition to his standard presentation, Dall also has prepared a special "Make Waves: Read!" performance that combines his musical talents with the expertise of professional dancer and instructor Jules O'Neal. Both programs have been designed to be dynamic, energizing, and appealing to children and adults.

Performing area: Flexible; outdoor programs possible

Requirements: May use a public address system if available, but not essential; electrical outlet if sound system is used; a small table and several chairs or stools for props

Fee: $100 plus $.20 per mile; a 15 percent discount of overall costs for multiple bookings

Dotty the Clown/Wimpy the Clown/Calamity Jane
Contact  Jane Swiggum, 2204 14th Avenue, Monroe, WI 53566; (608) 325-9204
Description  In “Wonderful World of Waves” Swiggum combines music, magical sequences, comical situations, and audience involvement. Audiences will hear about all kinds of waves: ocean waves (magic saves water, removes pollution, and vanishes trash); sound waves (music is made with kazoogelhorns and Swiss melody bells); hair waves (the uncut truth about the weirdness of hair with trivia from The Hairy Book by Beth Singer); waving the red, white, and blue (the American flag magically created by volunteers); rainbow waves (a rainbow colors song plus a 12-foot rainbow waved by volunteers); and the clown wave (an official Big Top wave to close the program). Swiggum provides a program promo and instructions for making wave bottles. With her “Sunshine Circus under the Little Big Top” she appears as Dotty, a white-face clown. The show is designed to educate and entertain with music, trivia, magic, ventriloquism, storytelling, and audience participation; it includes information about historical circus sites and traditions. Specific acts are chosen to meet library needs and audience age level; promotional ma-

Description
summer. It includes work songs (chanties) of deep-sea sailors, sing-along songs from the Great Lakes and rivers of the region, and stories from our fresh water heritage. Drake has served aboard the H.M.S. Bounty and aboard historic tall ships as a musician/educator/sailor for the Wisconsin Lake Schooner Project. In 1998, he also offers “Wisconsin-sing,” a multimedia program of sing-along songs and historic slides telling our state’s story. Songs from the first peoples, immigrants, lumberjacks, Great Lakes sailors, and dairy farmers combine to create an ideal sesquicentennial program. Drake accompanies himself on guitar, concertina, and handmade banjo, dulcimer, and flute. “Wisconsin-sing” can be ordered from the address above on videotape for $23. Cassette tapes of “Wisconsin-sing,” “Kidstuff,” and “What a Wonderful World” programs are available for $11.50. Drake is available year-round.

Performing area
Large open space or outdoors, weather permitting

Requirements

Fun with Chemistry

Contact
Kathleen Shanks, Institute for Chemical Education, Department of Chemistry, University of Wisconsin-Madison, 1101 University Avenue, Madison, WI 53706; (608) 262-3033

Description
Sponsored by the Institute for Chemical Education, “Fun with Chemistry” is a Student-Presented Interactive Chemistry Experience (SPICE) offered by teams of volunteer students, faculty, and staff. Its purpose is to demonstrate the fun of science and to teach children how science affects daily life. SPICE presentations are designed to dazzle children while teaching basic scientific principles, such as the importance of observation, questioning surprising events, and postulating explanations. The 45-minute program will stimulate the minds of adults as well as children. To encourage further activities with parents, each young participant receives a take-home booklet describing experiments that can be done with kitchen supplies.

Requirements
Two or three long tables, an extension cord, access to water; 45 minutes set-up time and 20 minutes clean-up time after the presentation

Fee
$130 to $200 depending on audience size; possible price breaks for two or more presentations in a given area on any one day

Travel range
Southern Wisconsin

Generations, Mom/Daughter Musical Duo

Contact  Candace Kreitlow, P.O. Box 113, Mazomanie, WI 53560-0113; (608) 795-4680; e-mail rbauer@facstaff.wisc.edu

Description  “Music for Generations” features Kreitlow and her 11-year-old daughter Holly in a 45- to 60-minute program. A modern-day Pied Piper, Holly has the gift of making music that speaks to other children. She and Candace delight in sharing their love of melody and harmony with people of all ages. They adapt their selections and delivery to the audience. Their music includes contemporary, traditional, and original folk songs that are timeless, wholesome, and family-oriented. Their instruments may include Celtic harp, guitar, lap dulcimer, banjo, mandolin, bells, piano, and various percussion instruments. Their musical selections range from audience-participation sing-alongs and rounds to amusing songs and touching ballads. The duo has performed on varied stages, from folk festivals to a Mississippi riverboat.

Performing area  8 feet by 8 feet

Requirements  Armless chair; space to place several instruments and props; electrical outlet (provide own sound system except for very small audiences); adults should accompany preschool children

Fee  $250 plus travel expenses beyond 50-mile radius of Madison; price breaks for multiple shows on same day, multiple sponsors share travel fees

Travel range  Statewide; multiple bookings recommended beyond 50-mile radius of Madison

Georgy the Clown

Contact  John George, 1814 Helene Parkway, #1, Madison, WI 53711; (608) 277-1104

Description  George is an experienced art teacher who appears as Georgy the Clown in a 30- to 45-minute show combining comedy and magic. He can provide a pre-show demonstration about the art of clowning as he puts on his make-up. It includes talk about the value of practicing carefully and training safely. Sometimes Georgy pretends to be “The Great Equilibrist and Balancer Extraordinaire” and balances both common and quite weird objects with all the skill that five minutes of practice can ensure. Georgy is accompanied by a funny magic rabbit named Peter who has recently left the circus to be his buddy.

Performing area  Indoors or out; 8 feet by 8 feet minimum

Fee  Call for special library rates

Travel range  Statewide

Christopher Goetz, Civil War Reenactor/Storyteller
Contact
Christopher Goetz, P.O. Box 132, Lakewood, WI 54138; (715) 276-2261

Description
Goetz presents a combination of history and entertainment that gives his audience a chance to talk with someone from the past. He brings to life Corporal James Anderson, who was raised in Manitowoc and who enlisted in Company A, 5th Wisconsin volunteers in May of 1861. Drawing on Anderson's letters to his family and his wartime diary, Goetz
has put together an accurate account of life in the Union Army. During
the program he shows how food was prepared, what soldiers needed to
carry, how to load a muzzle-loading rifle, and other everyday details of
a soldier's life. He also displays a variety of personal artifacts. Each
audience member receives a certificate of Corporal Anderson's mili-
tary service and a brief regimental history of the 5th Wisconsin Infan-
try. Appropriate for fourth graders and older children.

**Karen Hartman, Author/Publisher/Storyteller**

**Contact**
Karen Hartman, N1634 Lakeshore Drive, Campbellsport, WI 53010; (920) 533-8880

**Description**
Hartman believes we are each a drop of water in the wave! She will adapt her program to suit specific needs. She draws on her own multicultural heritage — Chinese and Native American (Cherokee) — in her writing and presentations. She is the author and publisher of *Dream Catcher: The Legend and the Lady* (1992), *Dream Catcher: The Legend, the Lady, the Woman* (1994), and *Gift from the Eagle* (1997). As a storyteller, she shares traditional and original stories that promote self-esteem and respect for others. She can exhibit and discuss Native American arts and crafts with an array of visual aids and artifacts. As a self-publisher, she can display materials revealing the various stages in book creation and describe the triumphs and tensions of self-publishing.

**The Hatrack Storytellers, Inc.**

**Contact**
David and Sally Semmes, 857 North 11th Street, Manitowoc, WI 54220; (920) 682-9527

**Description**
For 30 years this group has been dedicated to the fun of reading aloud and sharing that fun with its audience. Each program is designed to stimulate children’s imaginations while maintaining the integrity of the literature presented. The goal is to demonstrate that reading is its own best reward. Each program is tailor-made for its particular sponsor, taking into account the age level of the audience, from preschool through the upper elementary grades; size of audience; the place of performance; and the purpose of the entertainment. Hatrack is a non-profit, tax-exempt organization.

Caren Heft: Bookmaking
Contact Caren Heft, 5508 Short Road, Racine, WI 53402; (414) 639-3434 or (414) 636-9177
Description Heft offers a program in which as many as 20 children may participate in making their own books. For instance, an accordion book can represent a river of time, or a dos a dos book can be a past and present book. Depending on the age of the children, the program will be 45 to 90 minutes in length. Heft is an internationally known bookmaker whose work appears in such collections as the Victoria and Albert Museum, London, and Smithsonian Institution, Washington, DC.
Requirements Tables and chairs so that each participant has ample tabletop work space with a maximum of six to a table
Fee $250 plus mileage, plus lodging if an overnight stay is required; materials for 20 participants included in fee
Travel range Statewide, multiple bookings encouraged to reduce mileage and lodging costs
References Wustum Museum, Racine; school references provided on request

Her Own Words
Contact Jocelyn Riley, Her Own Words, P.O. Box 5264, Madison, WI 53705; (608) 271-7083; e-mail: herownword@aol.com
Description Her Own Words offers an original two-part living history and video production called “Writing on the Lakes.” Set in Madison and Dane County, it presents the story of a woman travel writer who makes the journey from the eastern United States along the Great Lakes and through the tall grass prairies to Madison during the summer of 1848. She records her observations in a travel journal and comments on the good, the bad, the ugly, the beautiful, and the mundane details of her life as an unmarried female traveler. The presentation is based on the writings of a number of women who made similar journeys in the mid-19th century.

Skip Jones, Storyteller/Folksinger/Educator

Description
“Grandpa’s River” is a family show depicting life along Wisconsin's rivers through songs and stories. It tells of people, places, wildlife, and the rivers that connect them all. Jones encourages the audience to explore the diversity of cultural traditions that have made Wisconsin history unique. They learn new songs and hear tales about river communities. Jones lives by the Red River on the Stockbridge-Munsee Indian Reservation in northeastern Wisconsin. He plays the guitar and the Native American flute and has almost 20 years' experience performing throughout the upper Midwest at libraries, schools, festivals, nursing homes, and community events. Jones's audiences enjoy his excitement about life and his vision of a world in balance. He presents more than 250 concerts annually, and can tailor his shows for children, adults, elders, and families.

Tom and Chris Kastle: Singers, Sailors, Songwriters

Contact
Sextant Music, Ltd., 63 West Belmont, Chicago, IL 60634; (773) 714-0328

Description
The Kastles have specialized in music about our waterways for the past 19 years. They offer highly interactive programs about the Great Lakes, rivers, wetlands, and salt water oceans. To take audiences over the waves and under the sea, they use original pieces such as “Song for the Whales,” and “If You Wanna Build a Boat, You Gotta Plant a Tree” along with traditional maritime music. Parents Magazine recommended the Kastles’ children’s audio cassette See the Sea: Songs for Younger Sailors, and Chicago Parent recommended their video The Mermaid and Other Sea Songs. Instruments include guitar, octave mandolin, concertina, tin whistle, and various percussion devices.

Bill Kehl—See The Planetary Ranger

Kids' Karavan Theatre
Contact Nancy Irvine, 201 Williamsburg Way Court, Madison, WI 53719-1786; (608) 277-7975
Description Kids' Karavan actors join with one- to four-foot puppets from Puppet Power to present I Am Wisconsin. The production melds music, comedy, true stories, fables, and facts. Sets feature Wisconsin rivers, lakes, forests, mounds, canyons, and gorges. Hear a Native American chorus tell of earth's creation and how Wisconsin got its name. See farmers, lumberjacks, and miners tell of early years in song and dance. Meet Laura Ingalls Wilder, Harry Houdini, clowns from the Ringling Bros. Circus, Bookworthy the educated badger, and The Spirit of Wisconsin.
Performing area 20 feet wide by 15 feet deep
Requirements Electrical outlet
Fee $250 for first performance, $230 for second; $.25 per round-trip mile
Travel range 150 miles from Madison; greater distances negotiable
References Columbus and Middleton public libraries; Theater Department, Edgewood College, Madison

Dan Kirk
Contact Dan Kirk, Midwest Juggling Company, P.O. Box 51, Menasha, WI 54952-0051; (920) 722-1881
Description Kirk, a timeless vaudeville performer and former employee of Menasha's public library, is nationally known. As Juggler with the Yellow Shoes he offers 40 to 45 minutes of lively juggling fun for all ages. The audience becomes part of the show as they get involved in the action. In addition to juggling up to six objects, Kirk uses music, volunteers, comedy for kids, balloons, and sometimes unicycling to entertain and to promote reading. Juggling and ballooning workshops also are available.
Performing area Indoors preferred; 10-foot by 10-foot performing area with a ceiling height of least 8 feet
Marc Kornblatt, Storytelling/Singing

Requirements: Electricity, table, large glass of water; Kirk provides own sound system
Fee: For Juggler with the Yellow Shoes the library rate is $175, discounts for block bookings; $.30 per mile
Travel range: U.S.A.
References: Beaver Dam, Cedar Grove, Franklin, Kimberly, Johnson Creek, Little Chute, Mayville, Menasha, Oconomowoc, Ripon, Shawano, and West Bend public libraries; Mead Public Library, Sheboygan; Baird Elementary School, Green Bay; Muscoda School District

Kornblatt transports his listeners around the world and back through time with his rendition of classic tales of action and adventure, magic, mystery, and merriment. He sings in six different languages and strives for as much audience participation as possible. A published children's book author and produced playwright, Kornblatt is happy to talk about his work as a writer with audiences of all ages.

Performing area: Flexible
Requirements: Chair and small table
Fee: $150 plus mileage; discounts for multiple bookings
Travel range: Statewide

Little Moon Theater

Contact: Heather Jerrie, N11423 520th Street, Wheeler, WI 54772; (715) 632-2237
Description: Little Moon Theater offers a variety of programs, including puppet shows, visiting clowns, musical concerts, and storytelling shows. Puppet shows transport the audience to a once-upon-a-time world of magic and mystery. Jerrie combines realistic puppets, original music, and
special effects to perform both traditional and contemporary folktale
conveying powerful lessons of bravery, friendship, and the wonder of
life. In “Circus Time!,” Fiddlesticks the Clown and Oscar the Monkey
tell stories, do tricks, perform mime skits, and make balloon animals.
In musical concerts, Jerrie uses unusual instruments such as wash-
board and limberjack to present thematic programs. Among these are
“Going to the Zoo,” “Silly Stuff,” “This Pretty Planet,” and “Down the
Erie Canal.” Storytelling shows feature Tessa the Gypsy Story Ped-
dler with music and stories from around the world that might include
outwitted giants, houses on chicken legs, and a mouse bride.

Performing area: Puppet shows require a space 6 feet by 10 feet with 8-foot ceiling height; flexible for others.

Requirements: Puppet shows require 40-minute set-up time; 20-minute set-up time for others.

Fee: $100 per 45-minute puppet show, $85 each for two or more puppet shows in the same area plus mileage; $85 plus mileage for other shows.

Travel range: Western and central Wisconsin.

Ken Lonnquist, Singer and Songwriter.

Contact: Ken Lonnquist, P.O. Box 3411, Madison, WI 53704; (608) 249-7714.

Description: Hallmarks of a Lonnquist performance are bright melodies, sparkling and intelligent lyrics, and a high-energy delivery. Voted 1995 Children’s Entertainer of the Year by the Wisconsin Area Music Industry, he also received a Parent’s Choice award and recognition from the American Library Association in 1995. His 1996 CD The Circus Kenlando includes 29 songs. (He would like to discuss the possibility of selling it and other products after his performance.) Lonnquist plays guitar, sings, and tells stories to entertain children and adults of all ages. His “Make Waves: Read! Program” draws on his enormous collection of original songs and stories to bring watery places and things right into the library. Songs may include “Welcome to the Riverboat,” “Tall Tail Fish,” “The Water Wheel Song,” “Little Bitty Frog,” “This is the Ocean,” “Hurricane Mom,” “The Dolphins and the Mermaid,” and others such as “Old Witch” (about a woman who has a very special water well). Every 45-minute show highlights audience participation and lively improvisation.

Performing area: Flexible.

Fee: $200 for one show; $350 for two.

Travel range: Wherever! Long distances may require cooperative bookings.

The Lost Naturalist.

Contact: Tom Aranow, 906 East Third Avenue, Brodhead, WI 53520; (608) 897-8335.

Description: An early 19th century botanist, commissioned by the United States government to study plant life in the western territories, stumbles,
lost and befuddled, into the present. Turning to his personal journal, which contains insights into our prairie heritage, he paints a vivid picture of landscapes lost not only to modern humans but to the many animals who once inhabited the Wisconsin prairies and savannas. In costume and character, Aranow speaks of “red buffalo and rattlesnakes,” food chains, the web of life, and the medicinal and cultural uses of a variety of prairie plants. Program length is one hour.

### Requirements
- Screen for slide projection

### Fee
- $90 for one presentation plus mileage; $150 plus mileage for two

### Travel range
- Statewide

### References
- Albany, Brodhead, and Evansville school districts; Aldo Leopold Nature Center, Monona

### Kathy Luck, Storyteller/Lucky the Clown/Lolly Lavender

#### Contact
- Kathy Luck, 4357 North 74th Street, Milwaukee, WI 53216; (414) 464-3995

#### Description
- Luck presents lively programs of folk stories from around the world. She selects stories appropriate to the audience age, from preschool through adult. Lucky the Clown’s shows include magic, juggling, and plenty of silliness. Lolly Lavender’s programs feature old-fashioned country fun with stories, songs, puppets, and banjo music. In 1998, Luck’s programs will focus on sea creatures, fishy fun, and wet and wild adventures.

#### Performing area
- Any space comfortable for the audience

#### Fee
- $75 per program plus mileage, $40 for additional same-day programs

#### Travel range
- Southeastern Wisconsin

#### References

### The Madison Brass

#### Contact
- Louis “Sandy” La Clair, Director, 908 Birch Haven Circle, Monona, WI 53716; (608) 221-8047

#### Description
- The “Splendor of Brass” is a fast-paced, high-energy program designed by members of the quintet to be both educational and entertaining for elementary school-aged children. Performers explain how each instrument in the brass family works, and each instrument is showcased in a solo work. The Madison Brass plays sparkling arrangements of works by composers from the baroque to the present, including pieces that will sound familiar to children. The musicians encourage audience participation throughout. Programs for other audiences also are available.

#### Performing area
- 10 feet by 15 feet or smaller; group brings all its own equipment

#### Fee
- $300 plus mileage for one program, $500 plus mileage for two

#### Travel range
- Wisconsin and northern Illinois

- Stage area at least 15 feet by 10 feet by 10 feet
The Magic of Books—See Bingo the Magical Clown

The Magic of Bruce Hetzler

Contact
Bruce Hetzler, 925C East Windfield, Appleton, WI 54911; (920) 731-6438 (home) or 832-6704 (work)

Description
Hetzler’s show is designed to entertain young and old alike with engaging, family-style humor. Children of all ages can have fun assisting with and watching effects with ropes that change lengths, handkerchiefs that untie themselves, wooden rabbits that change colors, and other tricks that delight and amaze. Hetzler also offers “Fun with Magic,” a program designed to teach basic card, coin, and rope magic tricks to children ages nine through 14. He provides master copies of instruction sets; the library reproduces instructions and provides necessary program materials.

Performing area
Approximately 6 feet by 6 feet, plus audience space

Requirements
Sound system required for larger audiences

Fee
$90 for a 30- to 45-minute show, plus expenses; $125 for “Fun with Magic”; libraries may share travel expenses

Travel range
Eastern half of state

Magic Show

Contact
Len Radde, 10534 West Woodward Avenue, Wauwatosa, WI 53222; (414) 536-4915

Description
Radde offers a performance consisting of colorful visual magic set to music and fast-paced sleight of hand to baffle young and old. The show involves comedy and audience volunteers to bring the magic to reality. The overall theme is meant to lead readers to use that magical wonder, the public library.

Performing area
12 feet by 15 feet

Requirements
30-minute show $100, expenses included; $75 for additional shows on same day in same location

Fee
75-mile range from Milwaukee

References
Atkinson, Capitol, East, Martin Luther King, Jr., and Tippecanoe branch libraries, Milwaukee; Waukesha Public Library

Magical Music and Rhyme with Carol Weston

Contact
Class Act, W5784 Woodlawn Drive, Fort Atkinson, WI 53538; (920) 563-9669

Description
Weston introduces humorous and recognizable musical stories accompanied by an array of instruments. She features interactive songs and encourages imagination. Audience members learn about their own music-making abilities through singing, clapping, and hand and body movements. Weston is available year round.

Performing area
Flexible

Requirements
Table, electricity, two microphones if possible; 20-minute set-up time, 15-minute strike time

Fee
$275 for one show, $440 for two back-to-back in same location

References
Hedburg Public Library, Janesville

Magical Paul

Contact
Paul Steger, N6272 1070th Street, River Falls, WI 54022; (715) 262-3577
Description: A magician since his high school days in the 1970s, Steger uses lively music as a backdrop to create wonder and illusion with colorful silk scarves, balloons, a large silver bowl, and many other props. The 45-minute act includes plenty of comedy and audience participation and features the appearance and disappearance of beautiful white doves. Since it is designed to appeal to all age groups, the show is well-suited for libraries wishing to reach out to their communities by opening the show to everyone. The act is completely self-contained. For a complete informational package including written referrals, contact Steger.

Performing area: Indoors preferred, 12 feet wide by 8 feet deep

Fee: $175 for libraries within one hour's driving time; additional $25 for each extra hour of one-way travel; clustered bookings for as low as $150 each

Travel range: Statewide

References: Alma, Baldwin, Barron, Boyceville, Ellsworth, Frederic, Glenwood City, and Webster public libraries

Kathy Maldegen, Musician
Contact: Kathy Maldegen, 4142 Nakoma Road, Madison, WI 53711; (608) 238-9896

Description: A music teacher and history enthusiast, Maldegen combines singing, storytelling, and audience participation in programs for all ages. Program topics include Laura Ingalls Wilder, Martin Luther King, Jr., peace, teddy bears, winter, Civil War, and the Great Lakes. Programs on additional themes are developed upon request.

Performing area: Indoors or outdoors

Requirements: Small table; sound system for outdoor performances

Fee: $150 plus mileage; discounts for multiple bookings in same area

Travel range: Statewide

References: South Central Library System; State Historical Society of Wisconsin Museum, Madison

Mama Baer, Storyteller
Contact: Janice Baer, S82 W32632 Paradise Lane, Mukwonago, WI 53149; (414) 363-3121

Description: Mama Baer's lively performance of stories, poetry, and songs will engage, entertain, and educate the children in her audiences. This summer's programs will highlight characters and creatures whose lives intertwine with the mighty waterways and gentle streams of our earth. Character voices, body language, and audience participation make her presentation memorable.

Performing area: A distraction-free space just large enough to fit the audience and the storyteller

Fee: $100 for a 45-minute program in the greater Milwaukee area; negotiable for multiple bookings; mileage charged for greater distances

Travel range: Statewide

Susan Marie Manzke
Contact: Susan Marie Manzke, W2670 Gardner Road, Seymour, WI 54165; (920) 833-6535; e-mail: sunnybook@aol.com

Description: "Wendel T. Bear's Adventures" is a 45-minute slide presentation and narrative. Among his experiences are trips to the doctor, dentist, gro-
cery store, school, libraries, and Heritage Hill Living History Museum in Green Bay. Wendel is a large teddy bear who wants to be a child. He is funny and informative. His best audience consists of preschool through third grade children. Other Wendel programs include “A Trip to a Farm,” “Travels with Wendel,” “ABCs and 123s,” and “All the Queen’s Crowns.” In her 1760s “Family Life in the Wilderness” program, Manzke dresses in period clothes to take the audience back in time with an account of Wisconsin life more than 200 years ago. She explains clothing, food, and primitive medical practices. She demonstrates hand spinning and knitting. In her basket she carries toys, soap, candles, furs, and children’s clothing. The 45-minute program is appropriate for elementary school children to adults. Manzke also offers hands-on workshops for small groups about using a drop spindle, candle dipping, or watercolor painting. She also speaks to groups about creative writing and imagination.

Requirements
For Wendel, a room that can be darkened, screen or blank wall, table for projector, extension cord
Fee
$75 for first presentation; special rates for two or more performances at the same or nearby library; $.25 per mile
Travel range
Wisconsin and beyond

Mark Twain Entertains
Contact
Class Act, W5784 Woodlawn Drive, Fort Atkinson, WI 53538; (920) 563-9669
Description
Teacher and writer Tom Gilding brings Mark Twain to life for audiences of all ages. His resemblance to Twain is uncanny, and he uses Twain’s words to carry listeners back in time to Hannibal, Missouri, with Tom Sawyer and Huck Finn or off to Hartford, Connecticut, where Twain lived and wrote for many years. The performance teaches the importance of writing and reading as it incorporates tall tales and Tom Sawyer logic.
Performing area
12 feet by 12 feet; a room that can be darkened for slide presentation
Requirements
Dressing room, electricity
Fee
$350 for one show, $450 for two back-to-back in same location
Travel range
Statewide

Mike Mauthe: Magic, Juggling, Fun!

Contact Class Act, W5784 Woodlawn Drive, Fort Atkinson, WI 53538; (920) 563-9669

Description Mauthe's high-energy variety show is suitable for all ages. His skills in magic and illusion include pulling a 45-foot streamer out of his mouth. He juggles a variety of objects from bowling balls to a rubber chicken. With record speed, he produces balloon creations ranging from a wee mouse to elaborate sculptures. He also is a proficient unicyclist. He will present all skills in one show or concentrate on those of the employer's choice. He also can present workshops in magic, juggling, and balloon sculpting.

Performing area Minimum 12 feet by 12 feet with minimum 12-foot ceiling clearance

Requirements Electrical outlet; Mauthe furnishes own sound system

Fee $350 for one show, $500 for two

Travel range Nationwide

References Rosary College, River Forest, IL; Elk Grove (IL) Park District

Hans Mayer: Kids' Concert

Contact Hans Mayer, 216 South 8th Street, La Crosse, WI 54601; (608) 782-2224

Description Mayer invites audiences to dive into summer and to surf the waves of his original songs like “Splish Splash,” “My Brother Eats Bugs,” and “The Ants' Picnic.” He performs his humorous child-oriented music with an irresistible sense of play for a whale of a good time that involves plenty of audience participation. His performances include songs accompanied by guitar, mandolin, and Native American flute. Mayer's original music can be heard on the recordings Just a Little Hug, My Brother Eats Bugs, and When I'm Feeling Silly.

Performing area Adaptable; space comfortable for audience

Requirements Electricity

Fee $150 to $200 plus travel expenses; reduced prices for multiple bookings in the same area

Travel range As far as the imagination can go

**Jeffrey B. McMullen, Clown/Comedy Magician**

| Contact | Jeffrey B. McMullen, 3315 North Racine Street, Appleton, WI 54911; (920) 954-9300 |
| Description | If your audiences are ready to make a few waves, let them dive into fun with McMullen. Using audience participation and skills gained as a former Ringling Brothers Circus clown, he juggles things you never thought possible, makes things appear and vanish almost at will, and performs many more magical feats to tickle the funny bone. He will do whatever it takes to make sure the show content matches your audience age and size. McMullen is a professional who has given more than 3,000 solo performances throughout North America and Japan. His programs are professional, stimulating, and funny. Full press kits are available to make sure your library is filled with kids on show day. McMullen also can present hands-on workshops for children, children and parents, or librarians on puppet making, juggling, magic, and storytelling. |
| Performing area | From a small corner to full theatrical facilities |
| Requirements | Audience members ready to use their imaginations and laugh |
Kevin McMullin

Contact  Kevin McMullin, N2538 Winselman Road, Sarona, WI 54870; (715) 635-7641

Description  McMullin presents engaging, multi-instrumental programs of stories and songs, chants, and rhythm games that can focus on nearly any topic. Also available are song-writing workshops, programs on songs and stories from history, foreign-language programs, and custom-made programs to fit your needs.

Reid Miller: Storytelling, Music, and Humor

Contact  Reid Miller, P.O. Box 219, Blue Mounds, WI 53517-0219; (608) 437-3388

Description  “Sailing through Summer,” Miller’s 1998 library show, will delight audiences with songs like “My Bonnie Lies over the Ocean” and sea chants like “Ruben Ranzo.” Tales like “Why the Sea Tastes Salt” and “The Monkey and the Shark” also are included. Miller plays a variety of acoustic folk instruments and employs generous amounts of audience participation to keep youngsters and elders enthralled. He encourages audiences to create their own literature and to search the library for related material and printed versions of the songs, tales, and humor he shares in the show. Miller founded the Kids in the Crossroads program at the Madison Civic Center. He is available year round for performances and workshops at schools, fairs, festivals, theaters, banquets, conventions, and other gatherings. He has programs for all ages and provides his own sound system and publicity kit.

Performing area  8 feet by 10 feet in a distraction-free area with comfortable audience seating; indoors or outdoors

Requirements  Electrical outlet if public address system is used; permission to sell recordings after performance is requested. (Miller notes that revenue from recording sales is vital to the economies of performing artists and helps keep sponsor costs affordable.)

Fee  $150 within 30-mile radius of Blue Mounds, $175 in 31- to 70-mile radius, $200 in 71- to 100-mile radius, greater distances negotiable; several bookings within a regional system or on the same day or consecutive days may reduce fees

Miss Dari

Contact  Richard Saskill, Global Communication, 7845 37th Avenue, Kenosha, WI 53142; (414) 942-9922

Description  Sadarri Saskill (Miss Dari) is an African-American storyteller, writer, and lover of language who weaves together whimsical tales from a variety of cultures. She is a certified instructor and fluent speaker of Spanish, French, and Haitian Creole who brings presentations alive with authentic costume and voice interpretations. Her “Akwaba” program introduces tales that have spread from the African continent throughout the Caribbean and into the United States to become part of our American history. Her “Newfangled Fairy Tales” program is a Spanish bilingual performance that provides an interesting alternative to the classics. It promotes a positive and upbeat look at age, gender, and cultural differences. Audience participation is always a component of Miss Dari’s programs. Children and adults can clap, sway, and vocalize in harmonic accompaniment to her storytelling.

Performing area  Must be adequate to allow for comfortable movement of performer; small floor space to large stage

Requirements  Small table, one or two straight-backed chairs, microphone for large groups or assemblies; for audiences including children under four years old, a five-to-one child-to-adult ratio is requested

Fee  $400 to $600 per show

Travel range  International

Linda Mistele, Storyteller

Contact  Linda Mistele, 3032 North Oakland Avenue, Milwaukee, WI 53211-3233; (414) 964-7026

Description  Mistele specializes in folktales, girls’ tales, and historical tales. She offers several programs for the Make Waves: Read! summer. “Making Waves in Wisconsin History” celebrates Wisconsin’s sesquicentennial with stories ranging from Gertie the duck to the Christmas tree ship to Golda Meir to the snake that made the Wisconsin River. “Making Waves: American Girls in the Revolution” introduces, among others, Abbie and Becky, who drove off a British man-of-war and saved their town in 1770. “Making Waves: Juneteenth Day” celebrates the African-American holiday of freedom with spirituals, stories, and hand-clapping games. “Waves of Music” is a fast-paced multicultural program with African-American spirituals, street calls, and raps; an American Indian pan-tribal tale of how the first flute was made; and European ghost stories told to the spooky rhythm of the “bones.”

Performing area  20 square feet so that performer can move; prefers audience seated in circle around performer

Requirements  Small table, glass of water; microphone for assemblies; easel for paper tablet if drawing stories are to be included

Fee  $100 per hour; negotiable rate for audiences of more than 100 and for two or more performances per day in one area

Travel range  Statewide; flexible schedule

**Kathleen Mohr, One Mohr Production**

**Contact**  
Kathleen Mohr, (414) 365-0460

**Description**  
Pocket Lady™ wears a magical skirt with pockets from which children can pick traditional and original stories, which will be told with sensitivity and humor. Special stories for the Make Waves: Read! theme will be included in a program suitable for ages three through nine. Mohr also offers an hour-long creative drama workshop for children aged six and older; it is based on a Polish tale, "Jurata, Queen of the Baltic Sea." Mohr's "Pocket Lady™ Sports" program invites children six and older to step into the world of sports for fun and facts about sports and heroes. Her "Mother Goose" program for young children incorporates rhymes, riddles, and songs. Call for details of other available programs and characters.

**Performing area**  
For programs, a stage area on the floor with enough space for Mohr and several children; for creative drama workshop, a room large enough for up to 20 children to move about.

**Requirements**  
Table and chair for Mother Goose

**Fee**  
$150 for a 45-minute show or one-hour workshop; $260 for two shows (same character) back to back; minimum two shows, back-to-back, for some situations where distance is a factor; $310 for two different characters in back-to-back shows; mileage and travel fees where appropriate.

**Travel range**  
Southeastern Wisconsin; south central Wisconsin and other locations considered (higher fees); flexible schedule

**Mr. C. Story, Storytelling Clown**

**Contact**  
Jeff Carpenter, 3 Greves Court, Appleton, WI 54915; (920) 735-0435

**Description**  
It's a whale of a tale he'll tell you  
A whale of a tale — that's true.  
Mr. C's a storyteller who  
Will entertain and educate you.  
He's a media specialist who moonlights as a clown;  
He does stories, balloons, and magic for smiles all around.  
For this summer's program where water is the theme  
His hour-long audience participation show helps kids to grow and dream.  
Reading's like a vessel, a ship within your mind;  
As its captain you may travel — on earth, in space, through time.  
You can even wave to friends to let them know you care.  
Waves roll on the water, waves fly through the air,  
Brain waves store our knowledge, help to put them there.  
So catch the wave—call Story today!

**Performing area**  
Flexible

**Fee**  
$100 per program plus mileage, discounts available for multiple programs

**Travel range**  
Depends on day of week

**Mr. Taps**

**Contact**  
Class Act, W5784 Woodlawn Drive, Fort Atkinson, WI 53538; (920) 563-9669
| **Description** | With fancy footwork, humor, and audience participation, Mr. Taps traces the uniquely American art form of tap dance. He performs the legendary Bill "Bo Jangles" Robinson's Rap and Tap Routine and demonstrates the styles of other stars, including the contemporary hip-hop moves of rap musician Hammer. Workshops on tap dancing also are available for groups of up to 30. |
| **Performing area Requirements** | Stage or 18-foot by 18-foot area. Dressing room, two microphones, cassette player if possible, drinking water. |
| **Fee** | $375 for one performance, $150 each additional performance (up to three per day); workshops an additional $75. |
| **Travel range References** | Midwest Racine Public Library |

**Lee Murdock**

| **Description** | Joann Murdock, Artists of Note, P.O. Box 11, Kaneville, IL 60144; (630) 557-2742 or (800) 525-4749 |
| **Performing area Fee** | Flexible $200 per performance, or $150 per show if two or more libraries book for same day. |
| **Travel range References** | Statewide Neenah and Sheboygan Falls public libraries; Wisconsin Maritime Museum, Manitowoc. |

**Murphy's Paw Puppet Theater**

| **Description** | Michele Stevens and her cast of amusing Muppet™-style puppets present humorous skits about the absurdities and idiosyncrasies of life. Children and adults are encouraged to laugh at themselves as they interact with the puppet personalities Stevens brings to life. The characters range from precocious five-year-old Molly, who is an authority on everything, to 90-year-old Nettie, who met her boyfriend at the natural history museum, where "he was the only fossil moving." Stevens also can focus performances on drug awareness, conflict resolution, self-esteem, and holidays. In addition, she can present hands-on workshops and residencies on puppet making and puppet manipulation. |
| **Performing area Requirements Fee** | 8 feet by 8 feet with 7-foot ceiling Electrical outlet; Stevens provides own sound system $325 for one show, $475 for two. |
| **Travel range References** | Nationwide Mead Public Library, Sheboygan. |

**Don Newsom—See Tales of the Wild**

**Novel Ideas**

| **Description** | Novel Ideas is a children's improvisational comedy troupe dedicated to promoting creativity and writing skills through theater. Members use... |
unusual props and costumes and encourage lots of audience participation. By helping children construct their own unique piece of literature, Novel Ideas fosters creative thinking, imagination, and inventiveness. Programs can highlight a theme chosen by the local librarian or any figment of the audience’s imagination.

Performing area 12 feet by 12 feet
Fee $375 for one performance, $625 for two

Jo Putnam Paquette, Storyteller/Writer/Educator

Contact    Jo Putnam Paquette, Box 941, Land O' Lakes, WI 54540; (715) 547-3605

Description Drawing from a lifetime of experiences, Paquette tells original stories, multicultural folktales, and literary tales. In library programs she emphasizes connections between reading and storytelling. Using her experiences as a loon ranger with the Sigurd Olson Environmental Institute (Northland College, Ashland), Paquette offers an educational program in keeping with the Make Waves: Read! theme; it includes original stories about loons as well as Native American loon legends. A contributing author to Tales as Tools (National Storytelling Association, 1994), she travels nationwide to present custom-crafted programs and workshops.

Performing area Adaptable; a space comfortable for the audience
Fee $150, with special rates for two or more programs in same area; workshop fees dependent on time involved
Travel range Statewide

Julia Pferdehirt: Stories of the Underground Railroad
Contact Julia Pferdehirt, 7426 Elmwood Avenue, Middleton, WI 53562; (608) 836-7426; e-mail wppferde@facstaff.wisc.edu
Description Pferdehirt is a children’s writer, storyteller, and former teacher who has extensively researched the history of the Underground Railroad in Wisconsin. In character as Nancy Goodrich, innkeeper and Underground Railroad station mistress at the Milton House Inn, Milton, Wisconsin, she tells true stories of people, places, and events on the famous railroad. Lake Michigan steamships bound for Canada also played a dramatic role as people in Wisconsin assisted slaves’ journeys toward freedom. Each performance includes a slide show and question-and-answer time. She also provides resource guides for classroom unit study, and in-class projects related to the Underground Railroad.
Requirements Folding chair, slide projection table and screen
Fee $225; discounts for multiple performances; mileage charged beyond 30-mile radius of Madison
Travel range Southern Wisconsin

**Pinwheel the Clown**

**Contact** Janice DeSpears, N61 W15892 Edgemont Drive, Menomonee Falls, WI 53051-5746; (414) 252-3139

**Description** Pinwheel has entertained a variety of audiences, from preschoolers to grandparents. Her show consists of comedy magic with the help of audience participation and a "live" rabbit. Other elements that can be included in her performance are face painting, balloon sculpting, and storytelling. She also can provide instruction in clown makeup and balloon sculpture.

**Performing area** 8 feet by 8 feet

**Requirements** Table and two chairs if face painting is included

**Fee** $75 plus travel expenses

**Travel range** Southeast and central Wisconsin

**References** Brookfield, Hartland, and Saukville public libraries; Duerrwaechter Memorial Library, Germantown

---

**The Planetary Ranger**

**Contact** Bill Kehl, c/o Planetary Productions, Ltd., 116 South Fulton Street, Princeton, WI 54968; (920) 295-6767

**Description** "Earth, Music . . . Magic!" is a unique approach to teaching children environmental awareness through an exploration of the natural world using the simple beauty and universal appeal of music. It features an exciting collection and demonstration of unusual primitive and ethnic musical instruments from around the world. The Planetary Ranger is always ready, willing, and able to show young people that it's "cool" to be a strong steward and concerned citizen of planet Earth.

**Fee** $125 per program plus mileage; discounts available for multiple programs

**Travel range** Statewide except for the far north/northwestern parts of Wisconsin

**References** Elisha D. Smith Public Library, Menasha; Ripon Public Library; Winnefox Library System

---

**Rick Ponzio, Story Performer**

**Contact** Rick Ponzio, P.O. Box 80503, Minneapolis, MN 55408; (612) 672-0494

**Description** "Folk Tales from around the World" is a program of folktales from different cultures and countries; some audience participation is included. Ponzio brings characters and animals to life while he enriches as well as entertains the audience. Travel around the world and enjoy stories from Native American peoples and from countries such as China, Japan, Mexico, South Africa, Kenya, Puerto Rico, Iceland, and Iraq. In his program "Life Is Life!," Ponzio brings his own original tales to life. One such tale, *Eat Your Carrots*, is about a boy who is surprised by a tiger when he doesn't eat his carrots. In *Markle the Messy Boy*, Markle cleans an entire messy kingdom. *Common Sense* features young Lena, who is ignored although she is the only person in town with any common sense. Ponzio's adaptation of *The Monster in the Swamp* is about a young boy who outsmarts a monster. At the end of his show, Ponzio takes suggestions from the audience and improvises a story with some audience participation.

**Performing area** 12 feet wide, 9 feet deep, 8 feet high, but can adapt within reason

**Requirements** One chair to use as a character prop
Bill Porter, Wildlife Photographer

Contact       Bill Porter, Sr., 5106 Arpin Hansen Road, Vesper, WI 54489; (715) 569-4652

Description Porter is a photographer and producer of wildlife videos. His ability to handle animals and to predict and observe their behavior are indicators of his insight into the real world of animal life. In his programs he shares this knowledge and enthusiasm with audiences of all ages. Coka, a 150-pound cougar, or Cheyenne, a timber wolf, accompany him at some appearances. (Call to inquire about the possibility of on-site visits to Porter's Wildlife Unlimited facility.)

Performing area Space appropriate to audience size

Fee          $100 for one 35- to 40-minute performance; $90 for second show on same day in the same area; $.30 per mile is charged; lodging expenses are charged when necessary

Travel range Western Wisconsin

Christopher Powers: History, Humor, Songs, and Tales

Contact       Christopher Powers, 305 North Pinckney Street, #1, Madison, WI 53703; (608) 256-2743

Description Powers blends history with humor and music with storytelling for a lively and informative program. For 1998 he will present "On the Mississippi Shore," featuring songs and stories related to life on the Mississippi. Hear about folk hero Mike Fink and author Mark Twain; listen to steamboat lore and river songs performed on mandolin, guitar, and harmonica. Powers performed with the University of Wisconsin Extension Arts Heritage Ensemble for six years. He has recorded four albums, hosts a weekly radio show, and has presented his solo program, "America's Folk Heroes," in many Wisconsin elementary schools.

Fee          $150 to $200 depending on distance traveled

Travel range Wisconsin and northern Illinois

The Pretty Bad Jugglers Make Waves

Contact       Axel Junker, 205 South Mills Street, #1, Madison, WI 53715; (608) 255-5457 or Melonhead, 2405 Kendall Avenue, Madison, WI 53705; (608) 233-2251

Description This program is billed as containing only two percent educational ingredients, but providing 98 percent of the minimum daily requirement of fun. The audience participation show offers comedy as well as thrills, such as Melonhead's unique animal juggling impersonations and an opportunity to challenge Axel, the fastest apple-eating juggler in the history of the state. The performers tell ancient jokes and juggle flaming torches, flying juggling clubs, and razor-sharp kitchen knives.

Performing area 10 feet by 20 feet, high ceilings helpful but not essential; both indoor and outdoor performances are possible

Requirements Sponsor must furnish sound system if site makes that essential
Marilyn Price  
**Contact**  
Joann Murdock, Artists of Note, P.O. Box 11, Kaneville, IL 60144; (630) 557-2742 or (800) 525-4749  
**Description**  
Price has combined the art of storytelling with the magic of puppetry for more than 25 seasons. “The Wonderful Whirl of Puppets” is a 45-minute program that features a puppet warm-up including puppet aerobics, demonstration of puppets from around the world, and selected stories from different cultural traditions. Professor Ooops!  
**Contact**  
Sky Schultz, Ph.D., 3343 North Gordon Place, Milwaukee, WI 53212; (920) 984-5962  
**Description**  
For two decades libraries, schools, and colleges across the country have been using Sky Schultz and/or his other persona, Professor Ooops!, to inspire life-long learning. Professor Ooops! communicates important ideas about ecology, creativity, science, and history in a delightful way. He uses magic, juggling, and hilarious inventions to make important concepts stick in people’s minds. “Water’s Wonders,” “The Tree, the Sea, the Bee, and Thee,” and “Common Mysteries and Common Miracles” are among his programs. Schultz entertains and educates audiences of all ages, including mixed-age family audiences. A world traveler and local explorer, he also offers professional films and slide
presentations on local history, flowers, trees, China, and Japan. He will customize his program to suit needs.

Requirements

Puppet Power
Contact
Nancy Irvine, 201 Williamsburg Way Court, Madison, WI 53719-1786; (608) 277-7975

Description
Puppet Power's Miranda, the book-loving mermaid, invites you to join her in her enchanted underwater world where you will meet sea horses, dolphins, eels, swordfish, lobsters, an octopus, and many other fishy friends. This fast-paced 45-minute musical comedy features one- to four-foot rod and hand puppets plus life-size characters and undersea sets. Be on the alert for Sharpie the Shark, who thinks he is a rock-and-roll star. Puppet Tales, Puppet Power's newest company featuring two-person storytelling with puppets, offers "Fish Tales and Fish Scales," in which colorful underwater friends sing and tell stories from original scripts. Puppet Tales also offers "The Three Little Pigs," "Little Red Riding Hood," "The Tortoise and the Hare," and "The Tale of Bearly-Thereby's Tail."

Performing area
20 feet wide by 20 feet deep for Puppet Power; 10 feet by 10 feet for Puppet Tales

Requirements
Electrical outlet

Fee
For Puppet Power $180 for first performance, $150 for second; for Puppet Tales $150 for first performance, $125 for second; $.25 per mile traveled from Madison

Travel range
150 miles from Madison; greater distances negotiable

Rondini's Magic of the Library Show
Contact Ron Lindberg (Rondini) N130 Highway N, Appleton, WI 54915; (920) 731-3553 (home) or (920) 830-8754 (office)
Description Rondini's 1998 summer show was written with libraries in mind and will entertain both children and adults. In the 30- to 60-minute program, Rondini will perform all kinds of magic; a bunny will appear as well as Merlin, a 40-inch Green-winged Macaw. Balloon animals and magic to music also are part of the show. Rondini will emphasize his love for reading and for the library, and will explain how he got started in magic: by reading a book about Houdini from Menasha's public library. He has a degree in elementary education, spent three years as a substitute teacher in kindergarten through grade 12, and has more than 20 years' performance experience. During the past five summers he has performed at more than 40 libraries each year. He can be hired to present workshops on balloon animals or the art of magic.
Performing area Flexible, but indoors is preferred with an area of 12 feet by 12 feet
Requirements Electrical outlet; the act is completely self-contained including sound system
Fee The special rate for libraries only is $120 per half hour plus travel expenses (a reduction from the standard $160 rate); discounts for multiple shows on same date, for example, three shows on same date within 30-mile radius: $330 plus travel
Travel range Worldwide and beyond

The Rope Warrior
Contact Class Act, W5784 Woodlawn Drive, Fort Atkinson, WI 53538; (920) 563-9669
Description With a repertoire of choreographed jump rope routines set to music, David Fisher, The Rope Warrior, exemplifies an alliance between fitness and art. In a high-energy performance, he delivers spectacular routines with power, finesse, and breakneck speed. The show includes trick rope techniques and a light show performed with glow ropes. Programs demonstrate timing, rhythm, dance, and the value of physical fitness. A question-and-answer period follows the performance.
Performing area Minimum of 15 feet by 15 feet, 30 feet by 30 feet is optimal; overhead clearance of 20 feet; a room that can be darkened for last part of the show is preferred
Requirements Dressing room
Dave Rudolf, Music—Humor—Fun
Contact Class Act, W5784 Woodlawn Drive, Fort Atkinson, WI 53538; (920) 563-9669
Description Rudolf, also known as The Children's Comedian, has composed lyrics for Disney's "Winnie the Pooh," written and performed music for 15 CDs, and is the author of Please Don't Tease the Dragon (Sourcebooks, 1994). He brings all his talents to an interactive show suitable for children and adults. As he comments on the vicissitudes of child life, he stretches imaginations with his varied styles of music and wit, his wry sense of humor, and his fluency with rhyme.
Performing area Flexible
Travel range Nationwide

Sign Language Storyteller
Contact
Rosemary Green, 1237 Yoder Lane, Apartment A, Whitewater, WI 53190; (414) 473-2284 (answering machine available)
Description
Green's program provides a lively and entertaining experience with sign language. Having watched Sesame Street on television, many children are familiar and comfortable with signing. Green begins with an introduction to the manual alphabet. She demonstrates the major signs to be used within the story she will tell and then presents the story in sign and verbally. The story can relate to the summer's theme or another requested theme. The program ends by learning to sing "Happy Birthday" in sign.
Performing area
Open space with room for children to sit on the floor and chairs for adults; no outdoor performances
Requirements
Children should have an attention span adequate to appreciating this visual experience
Fee
$125 plus mileage
Travel range
Anywhere there is interest

Skippy and Dave and Friends
Contact
Dave Parker, P.O. Box 454, Marshfield, WI 54449; (715) 387-4257 or 479-2877
Description
Parker is a professional ventriloquist and folk singer who once waterskied barefoot at Cypress Gardens, FL, carrying an acoustic guitar. Paddling along beside him these days are his mannequin friend Skippy and their character friends Claire, Quackenbush Duck, Bat Man, and Safe T. Dog. They present a show that is high in audience participation, good messages, spontaneity, and fun. In 1998 they will be sharing the humor and water songs exhibited in their new home video, Friends in the Great Outdoors. The songs include "Surfing U.S.A.,” “Be Kind to Your Web-footed Friends,” and “Splash and Spray with Skippy and Dave.” In the video, Skippy water-skies with Parker and later drives the boat. At your library, you'll join in the singing and laughter. As they wave good-bye, Skippy and Dave and Friends will thank you for being an important part of the show.
Performing area
8 feet by 8 feet
Requirements
Electricity and a chair
Fee
$125 per library plus $.20 per mile from Marshfield or Three Lakes; libraries are encouraged to split mileage costs. There is no mileage fee for very small libraries.

**Stuart Stotts, Singing and Storytelling**

Contact
Stuart Stotts, 169 Ohio Avenue, Madison, WI 53704; (608) 241-9143

Description
Stotts offers a 50-minute program of energetic music and enchanting stories. For 1998 it's a wet and wild ride over a waterfall of song and story. His 1998 program is called “One River Running through All of Us.” It includes songs titled “One River,” “Only the River Remembers” (about the Wisconsin River), and “Seven Nights to Read” (a high-energy number that offers some audience members a chance to accompany the group on a variety of instruments). Where appropriate, he will include a selection from his book of Wisconsin ghost stories, The Bookcase Ghost (Midwest Traditions, 1996). Stotts guarantees participation, laughter, movement, and a plug for summer reading. Whether dancing along, singing along, or listening along, people of all ages can enjoy his show.

Talk with the Animals

Contact Charles Roessger, P.O. Box 04622, Milwaukee, WI 53204; (414) 647-2894

Description “Talk with the Animals” is a live-animal presentation by a former high school biology teacher and Milwaukee Public Museum educator. Both educational and entertaining, the program features Pincushion the Porcupine, Blossom the Possum, and other animal stars. A rat (occasionally with her babies), chinchilla, snake, and dove also are likely to come along. Roessger discusses the intricate designs and uses of animals, the marvels of life, and the interdependence of most forms. His goal is to increase appreciation of and concern for life. With a wireless microphone, he moves freely through the audience so young participants can get a close look at special animal features. The histories of the chinchilla, porcupine, opossum, snake, and dove are especially interesting. A question-and-answer period ends the 45- to 60-minute performance.

Requirements A rectangular table with a covering of newspapers is needed. Audiences of fewer than 100 are preferred; consecutive programs are recommended for maximum effectiveness and flexibility when a larger group is anticipated.

Fee $65 plus $.20 per round-trip mile beyond Milwaukee County; additional consecutive programs discounted at $35 each; three programs on same day within a 30-mile radius are $150 plus the shared mileage charge

Travel range Approximately 100-mile radius; special arrangements needed for greater distances

**Thread of Life Puppet Company, Inc.**

**Contact** Christie Knapp, Route 3, Box 66, Westby, WI 54667; (608) 634-2333

**Description** “The World of Puppets” is a three-person show about puppetry history presented through the adventures of some of the world's most famous puppets: Punch and Judy, Pinocchio, and the Three Billy Goats Gruff. Marionettes, glove, rod, and shadow puppets range from six inches to ten feet high. Programs for audiences of all sizes feature centuries-old stories and puppet artistry. The three-person show “Br'er Rabbit” weaves together humorous tales of historical interest brought to the United States by African slaves. A sesquicentennial show “Old Abe: The Spirit of Wisconsin” is available after January 1, 1998. Available one-person shows are “Circus Rooti-Toot-Toot,” “The Shoemaker and the Elves,” and “The Troll Mother.”

**Performing area** 8 feet by 16 feet by 10 feet high for three-person shows, 6 feet by 8 feet by 8 feet high for one-person shows

**Requirements** Capacity to darken room, electrical outlets

**Fee** $300 plus round-trip mileage for three-person shows, $150 plus round-trip mileage for one-person shows

Truly Remarkable Loon, Comedy Juggler

Contact Truly Remarkable Loon, P.O. Box 14052, Madison, WI 53714-0052; (608) 256-3307 or (888) 256-3307

Description Loon offers fast-paced shows for children or families. They include a great variety of technical juggling and balancing feats accompanied by nonstop comedy patter, lots of audience participation, and a big dose of fun. Adults and children are equally amazed, amused, and entertained. Loon’s reading show, “Read Books and Juggle Everything Else,” promotes books, reading, and libraries while he juggles and balances clubs, diabolos, a mongoose, scarves, sports equipment, a parasol, and giant beanbag chairs! Following the plate-spinning finale, Loon tells the true story of how he learned to spin plates from a library book. He takes pride in his positive, upbeat humor and shares with the audience the benefits of a positive attitude and believing in oneself. Loon can incorporate the Make Waves: Read! theme. His family fun show, “Merry Anticipation of Disaster,” involves even more audience participation and running gags; it is entertaining for all ages. The show finishes with fire torch juggling. Safety is ensured by volunteer fire fighters from the audience in this exciting and funny flaming finale. Loon also offers “Juggling Workshop” for children aged ten and older. He suggests a performance first to introduce the many types of juggling and to motivate the participants’ interest. Afterwards he can work with up to three groups of children (maximum of 30 per group) for 45 to 60 minutes per group. Learning to juggle is a great way to build confidence and self-esteem. All equipment is provided.

Performing area 8 feet by 10 feet with 8 feet of vertical clearance; outdoor shows also are welcome

Fee For weekday engagements $400* for one performance or workshop only or $500* for performance and workshop, same library; $600* for one performance at each of two libraries, same day. *Fees include travel expenses outside Milwaukee area.
Fred Turk, Songster

Contact  Fred Turk, 10010 West Leon Terrace, Milwaukee, WI 53224; (414) 353-5763 (home), (414) 354-3650 (work)

Description Turk performs traditional songs with banjo and guitar accompaniment and encourages lots of audience participation. He includes many of his own original compositions. In one song, children learn how to whistle; in another, they interact with puppets. He offers a hand-clapping, toe-tapping program for the entire family. A preview videotape is available upon request.

Performing area Flexible

Requirements One or two tables, electrical outlet

Fee $75 per show (negotiable) plus mileage outside metropolitan Milwaukee area

Travel range Statewide

Douglas G. Udell

Contact Douglas G. Udell, P.O. Box 71027, Milwaukee, WI 53211; (414) 964-3684

Description Udell performs children's music for three- to ten-year-olds. Audience participation in nearly every song helps add an honest sense of fun to each concert. He makes it easy for young children to join in with a series of familiar songs, new songs, fingerplays, and even a brief drama activity or two. Most programs include a story that also involves audience participation. Udell has been performing children's music for 13 years and is a former preschool teacher (14 years). Currently he is on the full-time faculty of Milwaukee Area Technical College's Child Development Department, where he helps train future preschool teachers. Udell has two tapes available, *At My House: Songs for Children* and *Dance around the Bullfrog*.

Performing area Large enough indoor space for children to sit on the floor

Requirements An armless chair, glass of water without ice; concerts in large spaces may require a sound system (additional fee if provided by performer)

Fee $80 in Milwaukee metro area, discounts for multiple bookings; higher fee outside this area depending on distance

Travel range Two to three hours from Milwaukee; further if multiple bookings are arranged

Marsha Valance, Storyteller

Contact Marsha Valance, 6639 West Dodge Place, Milwaukee, WI 53220-1329; (414) 543-8507; e-mail: mvalan@mpl.org

Description Valance invites program participants to make waves by splashing into true stories and folktales from many ages and cultures.

Performing area Small area in which to walk about
Requirements Indoors preferred, intimate but flexible; table or bench for props; pitcher of water and glass; microphone for large groups

Fee $100 plus expenses for 45-minute performance; $150 plus expenses for two programs; payable day of performance

Travel range Statewide

References Janesville and New Berlin public libraries; Girl Scouts of Racine County

Gary Vice, Comedy Juggler/Magician

Contact Gary Vice, P.O. Box 561, Prior Lake, MN 55372; (612) 447-3844

Description The audience will be challenged to keep track of the water in this special show and will surely be doing “the wave.” One routine features a rose that keeps wilting unless continually watered; the water pours endlessly out of a pitcher but disappears in cups and a newspaper. The “water juggling” finale occurs after juggling over children, around children, and actually juggling a child! Celebrity volunteers, plate-spinning, and illusions add to the variety of the 45-minute performance.

Performing area Adaptable to any venue regardless of ceiling height or space limitations; outdoor shows possible; Vice provides own sound system

Fee Negotiable depending on number of programs desired and time frame involved; Vice seeks area-wide commitments performing three to four shows per day for $450 to $550 per day plus area’s standard travel (mileage, lodging) expenses

Travel range Unlimited

Dennis Warner Kids Concert

Contact Tammy Anhalt, Main Trail Productions, P.O. Box 365, Clearwater, MN 55320; (320) 558-6940; e-mail oneworld@netlinkcom.com; home page http://www.netlinkcom.com/~oneworld

Description With vast stage experience, love for children, and knowledge of music, Warner brings his young audience into the show through involvement and participation. He performs music kids know — and if they don’t know it, they quickly learn it! He recommends the fast-paced, high-energy concert for ages four to ten.

Performing area Space adequate for audience size
Elizabeth Was

Contact: Elizabeth Was, Route 1, Box 131, LaFarge, WI 54639; (608) 528-4619

Description: "Honkers, Clackers, and Squeakers" introduces the vast world of sound and sound makers. Was displays, discusses, and demonstrates the making and playing of her collection of handmade, found, and international musical instruments. Her presentation focuses on the use of found, recyclable, and indigenous materials to make instruments simply and inexpensively at home. She also emphasizes freeing one's ears to enjoy world music and funny sounds. Depending on audience size, there may be opportunities for hands-on experimentation with the instruments through structured improvisation. Follow-up sessions involving instrument-making also can be arranged. Her program "When Is a Book Not a Book?" features a variety of unique "books" made from unusual materials. Call for more information.

Fee: $150 per program for multiple library bookings

Travel range: Somerset Public Library; Carleton A. Friday Memorial Library, New Richmond; Arlington (MN), Delano (MN), and Pipestone (MN) public libraries

Wisconsin Arts Board

Contact George Tzougros, Executive Director, 101 East Wilson Street, First Floor, Madison, WI 53702; (608) 266-0190

Description The board is responsible for the support and development of the arts throughout Wisconsin. Its funding programs provide grants to individual artists, nonprofit arts organizations, schools, and other non-profit community organizations to create and present art to the public. Its services provide information, technical help, and networking tools to enhance the work of arts administrators and artists.

Wonders of Magic with David Seebach

Contact Class Act, W5784 Woodlawn Drive, Fort Atkinson, WI 53538; (920) 563-9669

Description Seebach provides a program designed to entertain, mystify, and delight children of all ages. His fast-paced show featuring illusion and sleight of hand includes music and costumes. See him levitate, watch him saw someone in half, observe as his assistant is changed into a lion or tiger. Besides comedy and audience participation, he emphasizes values and good living habits. The 45- to 60-minute programs can be tailored to specific themes and are always age-appropriate.

Performing area 12 feet by 16 feet minimum; raised stage preferred

Requirements Microphone, dressing room, half-hour needed for set-up

Fee $350 for one program, $550 for two; negotiable for tour of several engagements

Travel range Nationwide

Doug “The Woz” Wozniak

Contact Doug Wozniak, 4678 139th Street, Chippewa Falls, WI; 545729; (715) 723-6331

Description “Woz” invites one and all to his wonderful, wild, wacky, and whimsical world. Every playful Woz show has a rollicking variety of family fun and a trunk full of surprises. Everyone wins when invited to march in a parade, become a frog, play a rhythm instrument, juggle scarves, help work some magic, or clap hands and sing along. Everyone is a star when listening to and participating in original songs that release hidden giggles, values, self worth, friendship, and imagination. There's always a cheerful earful, miles of smiles, and laughter long after. There's magic, music, and joyful juggling at every performance by this winner.

Young is a songwriter and performer who has written and recorded music for two children's albums. Her program includes original music geared toward preschool and kindergarten children and supplemented by guitar accompaniment, puppets, and visual aids. She invites audiences to participate in songs about feelings, behavior, humor, and other things close to children's hearts. While children are being entertained, adults have opportunities to observe new methods of using music as a learning tool.

Performer Evaluation

This form is provided for the convenience of library systems that maintain central records of information about performers. If your system has such files, you may copy this form, fill it out, and send it to your system's youth services liaison. While each artist or group is asked to provide references for inclusion in the manual, your reactions will help in maintaining a valid roster.

Resources for People Who Have Hearing Loss and/or Visual Disabilities

The information in this section is provided to help you serve special children in your community. Be aware of the recreational activities these children are able to take part in and of their interests. In your publicity and promotional pieces, remember to include appropriate information about wheelchair accessibility, the availability of signing for those who are deaf, and any other special services your library can provide. Work with schools to transmit information about the public library to the families of these special children.

Services for the Deaf and Hard of Hearing

The map on the next page identifies the regional coordinators for deaf and hard of hearing services for the Wisconsin Division of Vocational Rehabilitation. The person listed for each area is available for consultation on matters related to serving persons with hearing loss.

Two services handle statewide scheduling of individuals who interpret programs in sign language. Independence First Interpreter Coordination Service can be reached at (800) 542-9838 or (414) 291-7535. Professional Interpreting Enterprise can be reached at (888) 801-9393 or (414) 548-4421.

Services for Those with Visual Impairments

Reference and Loan Library

The Reference and Loan Library in Madison owns a collection of approximately 200 large-print books recommended for children in third through fifth grades. Contact Reference and Loan at (608) 224-6160 for further details about borrowing materials from this special collection.

Regional Library for the Blind and Physically Handicapped

The Wisconsin Regional Library for the Blind and Physically Handicapped has established 20 service centers and 4 deposit collections in various Wisconsin public libraries in an effort to better serve its patrons and increase public awareness of the Regional Library. The centers are mobile shelving display units filled with about 250 Talking Books on a wide range of topics; centers include materials for children and young adults. Borrowers registered with the Regional Library can use the cassettes and discs. Information and application forms for becoming a registered borrower are available at local public libraries or can be obtained from the Regional Library by calling (414) 286-3045 (Milwaukee) or (800) 242-8822 in Wisconsin. The Regional Library also will take part in the 1998 statewide Summer Reading Program with the theme Make Waves: Read! Any of its young registered borrowers may participate by visiting his or her public library. Local librarians may request Braille copies of activities identified in chapter 4 of this manual by telephoning the Regional Library.

Regional Library staff have prepared the following list of watery titles. They hope many of their young patrons will participate by exploring some of these adventurous suggestions.

Day, Edward C. *John Tabor's Ride*
A sailor takes a hair-raising ride around the world on whaleback.

Haas, Irene. *The Maggie B.*
A little girl wishes on a star for a ship to be named for her.

Quin-Harkin, Janet. *Peter Penny's Dance*
Fired by the ship's captain for dancing, sailor Peter Penny sets out to dance around the world.

Sheldon, Dyan. *The Whale's Song*
Lilly believes her grandmother's stories of whales singing, and wants to hear one herself.

Weller, Frances Ward. *Riptide*
Zach's golden retriever puppy proves himself as a lifeguard.

**Books on Disc—Kindergarten through Grade 2**

Gramatky, Hardie. *Little Toot*
A little tugboat must rescue an ocean liner in a big storm.

McCloskey, Robert. *Bert Dow, Deep-Water Man*
A tale of the sea in the classic tradition.

Tobias, Tobi. *At the Beach*
A little girl describes the many joys of a happy, active day at the beach with her family.

Turkle, Brinton. *Thy Friend, Obadiah*
A Quaker boy of Nantucket is plagued by a seagull who follows him everywhere.

Zolotow, Charlotte. *Summer is ...*
A simple, poetic text evokes many of the joys and beauties of each of the four seasons. (Also available in print/Braille format as BR 5607.)

**Braille Books—Kindergarten through Grade 2**

Garelick, May. *Down to the Beach* (Print/Braille)
The rhythmic text captures the joy of a day at the beach.

George, William T. *Fishing at Long Pond* (Print/Braille)
Katie and her grandfather are in for a delightful day of fishing at Long Pond.

Guiberson, Brenda. *Spoonbill Swamp* (Print/Braille)
The text describes a typical day with a family of spoonbills and a family of alligators.

McCloskey, Robert. *One Morning in Maine*
Sal goes to the beach and loses her first tooth.

Pfister, Marcus. *Rainbow Fish* (Print/Braille)
The rainbow fish is the most beautiful fish in the ocean.

Wirt, Aaron. *My Favorite Place*
A little girl who is blind recounts the many pleasures of a perfect day at the beach. (Also available in cassette format as RC 22912.)

their boat is torpedoed during World War II. (Also available on cassette as RC 34450.)

Williams, Ursula Moray. *The Cruise of the Happy-Go-Gay*
Aunt Hegarty, an indomitable Victorian explorer, sets sail after buried treasure with five nieces and two stowaways.

**Catalogs**

These companies can be additional sources of materials and prizes to enhance your summer programs.

**Demco,** P.O. Box 7488, Madison, WI 53707-7488; (800) 356-1200
Examine the current *Full Line Catalog* for availability of such items as bookmarks about Australian sea shells, tropical fish, sharks, and whales (sold in sets of 200); clip-on plastic bookmarks in the shape of alligators, frogs, and hippos (sold in sets of 10); pencils with aquatic designs of whales, sharks, and sea life (sold in sets of 12); bentsels with whale, fish, shark, and dolphin shapes and bencil pens with whale and shark shapes (all sold individually).

**Gifts Galore,** 14559 Waverly Avenue, Midlothian, IL 60445; (800) 662-6777
Request the current catalog to view an assortment of small items suitable for prizes.

**Kidstamps,** P.O. Box 18699, Cleveland Heights, OH 44118; (800) 727-5437
Check the current catalog for stamps appropriate to the Make Waves: Read! theme such as turtles from Wallace Tripp, Sandra Boynton, and Felicia Bond; alligators from Nicole Bubel, Bernard Waber, Thacher Hurd, and Bill Peet; and a reading fish from Aliki.

**Lakeshore Learning Materials,** 2695 East Dominguez Street, Carson, CA 90749; (800) 421-5354
The 1997 catalog features several items related to water including a bubble exploration kit, bubble tray, and just-add-water bubble mix; magnetic fishing set; water play animals; and water discoveries experiment kit.

**Oriental Trading Company,** P.O. Box 3407, Omaha, NE 68108-0407; (800) 228-2269 or 327-9678
Carries a wide variety of trinkets that can be ordered in large quantities at very low cost; request the current catalog.

**Riverside Reading Store,** 2005 32nd Street, Rock Island, IL 61201; (309)788-7717
The 1997-1998 catalog carries “Summer Reader” and “Deep Sea Reader” wrist rings ($1 each), “Breeze into Books” sturdy plastic pinwheels ($1 each), “Books Carry You Away” stamp by Marily Haffner (a reader in a sailboat, $6), “Setting Sail for Reading Treasure” button ($0.50 each), holographic “Deep Sea Reader” bookmark ($1 each), and “Deep Sea Reader” stickers ($10/100).

**Sally Distributors,** 4100 Quebec Avenue North, Minneapolis, MN 55427; (800) 472-5597
Stocks inexpensive novelty items to use as giveaways; request the current catalog.

**Smile Maker, Inc.**, P.O. Box 2543, Spartanburg, SC 29304; (800) 825-8085
Request the current catalog to see the hundreds of stickers available.

**Tipp Novelty Company,** 222 North Sixth Street, Tipp City, OH 45371-0186; (800) 669-2445
Request the current catalog to see the assorted, inexpensive items suitable for small prizes and decorations.

**Upstart,** a division of Highsmith, Inc., Box 800, Fort Atkinson, WI; (800) 448-4887
The February 1997 catalog (K95) describes materials related to the Make Waves: Read! theme. Among these are a complete array of products with an ocean theme and the slogan “Explore New Worlds with Books:” poster, button, mobile, bookmark, sticker (two designs), bulletin board decorator, ocean animal erasers, tropical fish reusable window decorations, book bag, and fish- and dolphin-shaped bentsels. A book-shaped character lounges on a sandy beach under a palm tree in “Beat the Heat” products including poster,
bookmark, bentcil, water bottle, and beach towel. Friendly waving hands are found in “Reach for the World: Read” products including book bag, bookmark, button, and poster; most are available in Spanish as well as English. Poster artist Francisco X. Mora designed the “Our Future is in Your Hands” poster and bookmarks featuring endangered animals of South and Central America.

U.S. Toy Company, Inc., 1227 East 119th Street, Grandview, MO 64030; (800) 255-6124 or (800) 448-5634

Request the current catalog to view the inexpensive games suitable for carnival events, novelty items, and decorations. Ask for the imprint catalog for information about small magnets available in the shape of all the states. Their cost is $335 per 500 and they can be imprinted.

World Almanac Education, 15355 NEO Parkway, Cleveland, OH 44128; (800) 321-1149

The Winter 1997 catalog shows two 21" x 33" posters at $4.75 each; one is devoted to identification of many kinds of sharks, the other to many kinds of whales.
