This state-by-state directory lists over 500 alcohol and drug abuse treatment and prevention services that target American Indians and Alaska Natives. The directory was compiled from the website of the National Clearinghouse for Alcohol and Drug Information (NCADI). Their home page on the Internet is located at http://www.health.org/index.htm. The listing includes federal, state, local, and private providers in 44 states. Each entry includes the organization's name, address, and telephone number (including hotlines), as well as codes for types of treatment, types of payment, and special programs. In addition to specific racial and ethnic groups, special programs provide treatment to dually-diagnosed persons, pregnant women, parolees and persons on probation, persons convicted of DUI (Driving Under the Influence) /DWI (Driving While Intoxicated), AIDS/HIV patients, women, and youth. About The Directory Of Alcohol And Drug Treatment Centers With Special Programs For Native Americans

This directory was compiled from the website of the National Clearinghouse for Alcohol and Drug Information (NCADI). Their homepage is located at http://www.health.org/index.htm. This site includes a link to "Searchable Databases," including the National Directory of Drug Abuse and Alcoholism Treatment and Prevention Programs. By going to this link you can also find the link to information about the database. You can also go directly to the search form for the directory, whose exact address is http://www.health.org/daatpp.htm. The directory is a listing of Federal, State, Local, and Private providers of alcoholism and drug abuse treatment and prevention services. Only providers recognized by their State substance abuse agency are listed in the Directory. Information in this Directory was obtained from the 1995 Uniform Facility Data Set (UFDS) survey conducted by the Office of Applied Studies (OAS) Abuse and Mental Health Services Administration (SAMHSA). Provider information is as of October 2, 1995, the point prevalence date of survey. It is not indicated when the directory will be updated.

This directory of American Indian programs was produced by searching the website for only those treatment centers that were coded "SI" for having special programs for American Indians. It is possible to search the directory by many criteria, including facility function (i.e., methadone treatment, primary prevention, etc.), type of care such as outpatient or residential, special programs such as for Driving While Intoxicated (DWI) offenders, pregnant women, or certain ethnic groups, specific addictions, and the type of payment accepted (see list of codes at the beginning of this directory). Any search involving one of these groups of criteria must be preceded by specifying the state. In other words, it is not possible to find all the specific programs in the nation without submitting a separate search for each state.

The exact steps taken in compiling this listing involved specifying a state in the drop-down box on the search page, and checking the box "[SI] American Indians/Alaska Natives" under "Selected Specialized Programs." No other criteria were selected. Once the search is submitted, a numbered list of treatment centers is returned. This document includes a link to return to the search page. The list was simply copied and pasted into an active Word document. The webpage remained active as well, it was returned to and the search page was selected. The process was repeated for all 50 states. Once a new search is submitted, the old search results are replaced, so they need to be pasted into Word to be saved. The search results page also includes a key to the services and payment codes, which was copied and pasted into this directory. This entire process took approximately two and a half hours, including editing the Word document to include the name of the state at the beginning of its section.
