This Occupational Competency Analysis Profile (OCAP) for business information systems is an employer-verified competency list that evolved from a modified DACUM (Developing a Curriculum) job analysis process involving business, industry, labor, and community agency representatives throughout Ohio. The competency list consists of 10 units: (1) data input, (2) computer operations, (3) local area networks (LANs), (4) software development, (5) operating systems, (6) software applications, (7) accounting and business concepts, (8) office procedures, (9) communication, and (10) ethical and social issues. Competencies for employability are also listed in 12 units: career development, decision making and problem solving, work ethic, job-seeking skills, job retention and career advancement skills, technology in the workplace, lifelong learning, economic education, balancing work and family, citizenship in the workplace, leadership, and entrepreneurship. Each OCAP identifies the occupational, academic, and employability skills (competencies), clustered into broader subunits and units, and coded by priority needed to enter a given occupation or occupational area. The OCAP guide also includes an academic job profile showing levels of proficiency in academic areas needed for business information systems; a total list of academic competencies as well as a list of the competencies needed for these occupations; and a list of the members of the verification panels. Introduction

What is an OCAP?

According to the Action Plan for Accelerating the Modernization of Vocational Education: Ohio’s Future at Work—

A comprehensive and verified employer competency list will be developed and kept current for each program

—Imperative 3, Objective 2—

The Occupational Competency Analysis Profiles (OCAPs) are the Ohio Division of Vocational and Adult Education’s response to that objective.

OCAPs are competency lists—verified by expert workers—that evolve from a modified DACUM job analysis process involving business, industry, labor, and community agency representatives from throughout Ohio. The OCAP process is directed by the Vocational Instructional Materials Laboratory located at The Ohio State University’s Center on Education and Training for Employment.

How is the OCAP used?

Each OCAP identifies the occupational, academic, and employability skills (or competencies) needed to enter a given occupation or occupational area. The OCAP not only lists the competencies but also clusters those competencies into broader units and details the knowledge, skills, and attitudes (competency builders) needed to perform each competency.

Within the competency list are two levels of items: core and advancing. Core items, which are essential for entry-level employment, are required to be taught and are the basis for questions on the Ohio Vocational Competency Assessment (OVCA). Advancing items (marked with an asterisk) are those needed to advance in a given occupation.

School districts may add as many units, competencies, and/or competency builders as desired to reflect local employment needs, trends, and specialties. Local advisory committees should be actively involved in the identification and verification of additional items. Vocational and applied academic instructors will be able to formulate their courses of study using the varied contents of the OCAP and will be able to monitor competency gains via the new criterion-referenced competency testing program, which is tied to the competencies identified on the OCAP.
OCAPs are updated using materials located through an extensive review of the literature. The Vocational Instructional Materials Laboratory wishes to extend thanks and appreciation to the panel of teachers that reviewed this updated OCAP prior to verification to fine-tune and polish it for presentation to the subject-matter experts on the verification panel. The following teachers served on the Business Information Systems Teacher Review Panel:

Jane Fisher, *Licking County Joint Vocational School*, Newark, Ohio
Gregory A. Friedman, *Lorain County Joint Vocational School*, Oberlin, Ohio
Karen Morgan-Noland, *Fort Hayes Metropolitan Education Center*, Columbus, Ohio
Jill Zimmerman, *Ashtabula County Joint Vocational School*, Jefferson, Ohio
Occupational Competency Analysis Profile:
Business Information Systems
Unit 1: Data Input

Competency 1.1: Enter data

Competency Builders:

1.1.1 Access needed information using company and manufacturers' references (e.g., procedural manuals, documentation, standards, work flowcharts)
1.1.2 Follow job instructions
1.1.3 Check equipment for operational status
1.1.4 Prepare input
1.1.5 Key data from source

Competency 1.2: Perform related data input functions

Competency Builders:

1.2.1 Verify data for input accuracy
1.2.2 Analyze data for reasonableness
1.2.3 Complete production logs
1.2.4 File transmittal logs
1.2.5 Perform balance checks
1.2.6 Maintain source documents
1.2.7 Follow company log-on and log-off procedures
1.2.8 File reusable tapes, disks, or diskettes

Unit 2: Computer Operations

Competency 2.1: Install computers and peripherals

Competency Builders:

2.1.1 Access needed information using company and manufacturers' references (e.g., procedural manuals, documentation, standards, work flowcharts)
2.1.2 Secure supplies and resources
2.1.3 Install boards to support peripherals
2.1.4 Connect peripherals to CPU
2.1.5 Set up system configuration
2.1.6 Verify system operation
2.1.7 Document activities

Competency 2.2: Install application software

Competency Builders:

2.2.1 Follow company and software manufacturer's procedures for installing given software
2.2.2 Verify conformance to licensing agreement
2.2.3 Identify hardware requirements (e.g., processor, memory, disk space, communications, printers, monitors)
2.2.4 Upgrade software
2.2.5 Customize software

Continued
Competency 2.2: Install application software—Continued

2.2.6 Identify default data drive
2.2.7 Verify software installation and operation
2.2.8 Document installation of software packages
2.2.9 Convert data files

Competency 2.3: Perform storage media housekeeping routines

Competency Builders:

2.3.1 Access needed information using company and manufacturers’ references (e.g., procedural manuals, documentation, standards, work flowcharts)
2.3.2 Retrieve and file stored media (e.g., on-line, off-line, permanent, off-site)
2.3.3 Initialize media
2.3.4 Catalog media
2.3.5 Maintain supplies
2.3.6 Maintain media library and logs
2.3.7 Back up records
2.3.8 Comply with company and/or government standards for media security
2.3.9 Maintain archives of company records required by policy or law

Competency 2.4: Maintain security requirements

Competency Builders:

2.4.1 Apply business ethics
2.4.2 Follow security rules, regulations, and codes
2.4.3 Implement security procedures
2.4.4 Document security procedures
2.4.5 Perform security checks
2.4.6 Report results of security activities
2.4.7 Maintain confidentiality

Competency 2.5 Protect system

Competency Builders:

2.5.1 Load virus detection software
2.5.2 Identify sources of virus infections
2.5.3 Execute virus detection software in compliance with company standards
2.5.4 Remove viruses
2.5.5 Report viruses in compliance with company standards

Competency 2.6: Maintain computers and peripherals

Competency Builders:

2.6.1 Access needed information using company and manufacturers’ references (e.g., procedural manuals, documentation, standards, work flowcharts, technical support services)
2.6.2 Establish log-on and log-off procedures
2.6.3 Perform preventive maintenance on computers
2.6.4 Perform routine maintenance on peripheral devices

Continued
Competency 2.6: Maintain computers and peripherals—Continued

2.6.5 Monitor system status
2.6.6 Monitor peripheral equipment operations
2.6.7 Respond to system messages
2.6.8 Troubleshoot system
2.6.9 Run diagnostics
2.6.10 Document hardware malfunctions
2.6.11 Document software malfunctions
2.6.12 Fix recoverable problems
2.6.13 Report system malfunctions
2.6.14 Change boards
2.6.15 Reassemble system
2.6.16 Restore system
2.6.17 Maintain computer logs

Unit 3: Local Area Networks (LANs)

Competency 3.1: Demonstrate knowledge of network technologies

Competency Builders:

3.1.1 Describe types of LAN operating systems
3.1.2 Identify applications used on LANs
3.1.3 Describe how network protocols work together
3.1.4 Describe how system operates in a multi-user environment
3.1.5 Demonstrate knowledge of various networks and their compatibility
3.1.6 Differentiate among various topologies
3.1.7 Identify licensing requirements

Competency 3.2: Install basic networks

Competency Builders:

3.2.1 Access needed information using company and manufacturers’ references (e.g., procedural manuals, documentation, standards, work flowcharts)
3.2.2 Apply knowledge of LAN concepts and technology
3.2.3 Assess user needs
3.2.4 Select LAN operating systems in accordance with user needs
3.2.5 Connect PCs and peripherals to an existing LAN
3.2.6 Set up workstation configuration
3.2.7 Document LAN configuration
3.2.8 Perform file-to-file copy in PC network
3.2.9 Connect LAN to mini or mainframe*
3.2.10 Link mixed vendors (e.g., PC to Mac)*
3.2.11 Build small ethernet or token ring network*
3.2.12 Configure file server in PC network*
3.2.13 Install LAN operating system*
3.2.14 Implement print queue in PC network*

*Advancing
Competency 3.3: Administer networks

**Competency Builders:**

3.3.1 Set up access control and security
3.3.2 Perform file backup and restore procedures
3.3.3 Outline network management procedures*
3.3.4 Document network administrative changes
3.3.5 Analyze basic network operations
3.3.6 Check physical and virtual connections*
3.3.7 Apply established network standards*
3.3.8 Plan disaster recovery*
3.3.9 Monitor network performance*
3.3.10 Modify network*

Competency 3.4: Maintain networks

**Competency Builders:**

3.4.1 Perform preventive maintenance
3.4.2 Document network maintenance
3.4.3 Respond to system messages
3.4.4 Troubleshoot system
3.4.5 Restore LAN operating systems
3.4.6 Replace LAN hardware components

Unit 4: Software Development

Competency 4.1: Identify system design specifications

**Competency Builders:**

4.1.1 Access needed information using company references (e.g., procedural manuals, documentation, standards, work flowcharts)
4.1.2 Analyze design specifications
4.1.3 Divide design specifications into logical process blocks
4.1.4 Identify parameters
4.1.5 Clarify specifications using questioning techniques
4.1.6 Follow specifications or drawings
4.1.7 Record process (e.g., using flowchart, step-by-step narrative)
4.1.8 Record data

Competency 4.2: Design programs

**Competency Builders:**

4.2.1 Access needed information using company and manufacturers’ references (e.g., procedural manuals, documentation, standards, work flowcharts)
4.2.2 Analyze specifications
4.2.3 Identify constraints
4.2.4 Identify processing requirements
4.2.5 Identify input and output (I/O) requirements

*Advancing 10*
Competency 4.2:  Design programs—Continued

4.2.6 Prepare logic using program-flow diagram
4.2.7 Define variables
4.2.8 Prepare printer spacing chart
4.2.9 Review design (e.g., peer and/or user walkthrough)
4.2.10 Report progress based on timeline

Competency 4.3:  Code programs

Competency Builders:

4.3.1 Access needed information using company and manufacturers’ references (e.g., procedural manuals, documentation, standards, work flowcharts)
4.3.2 Prepare detailed flowchart for coding program
4.3.3 Design program solution using pseudocode
4.3.4 Generate source code using programming tools (e.g., BASIC, COBOL, RPG, C) in accordance with established standards
4.3.5 Code error-handling techniques
4.3.6 Access data using external sequential, indexed sequential, random, and direct file methods
4.3.7 Apply logical operators (e.g., and, or, not)
4.3.8 Perform program sorts
4.3.9 Develop programs in higher-level languages (e.g., C++, Visual Basic)*
4.3.10 Generate executable code
4.3.11 Debug compilation errors
4.3.12 Review code with peers or design team
4.3.13 Create test plan
4.3.14 Test software system and data
4.3.15 Document test cases and results
4.3.16 Update design documentation
4.3.17 Prepare program documentation
4.3.18 Prepare user documentation
4.3.19 Apply security measures
4.3.20 Report progress based on timeline
4.3.21 Apply Computer Assisted Software Engineering (CASE) tools and reverse engineering*

Competency 4.4:  Verify program/system operation

Competency Builders:

4.4.1 Access needed information using company and manufacturers’ references (e.g., procedural manuals, documentation, standards, work flowcharts)
4.4.2 Create test plan and data that check logic and error routines
4.4.3 Execute system with test data
4.4.4 Analyze test results
4.4.5 Correct execution errors
4.4.6 Perform regression and integration test
4.4.7 Document test cases and results
4.4.8 Review results with customer/user
4.4.9 Report progress based on timeline
Competency 4.5: Identify business information requirements*

Competency Builders:

4.5.1 Define business information requirements (e.g., through interviews of end users)*
4.5.2 Interpret source data, charts, and graphs*
4.5.3 Review organizational structure*
4.5.4 Review business work flow and integrated applications*
4.5.5 Analyze existing operating standards and procedures for the system*
4.5.6 Document possible alternative solutions*
4.5.7 Report findings and recommendations to management*

Competency 4.6: Design systems*

Competency Builders:

4.6.1 Access needed information using company and manufacturers’ references (e.g., procedural manuals, documentation, standards, work flowcharts)*
4.6.2 Analyze documentation, forms, notes, and source data*
4.6.3 Identify processing requirements*
4.6.4 Design system inputs, outputs, and processes*
4.6.5 Select programming language*
4.6.6 Create design documentation*
4.6.7 Design implementation plan*
4.6.8 Design project plan*
4.6.9 Prepare data flow diagram*
4.6.10 Present system design to management*
4.6.11 Present system design to users*
4.6.12 Apply Computer Assisted Software Engineering (CASE) tools*

Unit 5: Operating Systems

Competency 5.1: Identify major operating systems

Competency Builders:

5.1.1 Compare/contrast mainframe systems
5.1.2 Compare/contrast minicomputer systems
5.1.3 Compare/contrast microcomputer systems
5.1.4 Compare/contrast client/server systems

Competency 5.2: Start DOS

Competency Builders:

5.2.1 Boot computer
5.2.2 Establish date and time
5.2.3 Establish default disk drive
5.2.4 Distinguish between internal and external commands
5.2.5 Change DOS prompt
5.2.6 Respond to common DOS error messages
5.2.7 Print screen
5.2.8 Clear screen
Competency 5.3: Manage files and disks using DOS

Competency Builders:

5.3.1 Check status of disk
5.3.2 Format disks (high- and low-density)
5.3.3 Demonstrate knowledge of file-naming structure
5.3.4 Locate files using wildcard characters with DOS commands
5.3.5 Display a file’s contents
5.3.6 Print a screen image of a file’s contents
5.3.7 Copy files from one disk to another
5.3.8 Copy files to the same disk
5.3.9 Copy all files from one disk to another
5.3.10 Copy files from one drive to another
5.3.11 Rename files
5.3.12 Demonstrate knowledge of file attributes
5.3.13 Retrieve files from storage
5.3.14 Display disk directory
5.3.15 Consolidate two files
5.3.16 Delete files
5.3.17 Undelete files
5.3.18 Change data drive

Competency 5.4: Work with directories using DOS

Competency Builders:

5.4.1 Display disk directory using options (e.g., pause, wide, sort order)
5.4.2 Create subdirectories
5.4.3 Change current directory
5.4.4 Specify path
5.4.5 Demonstrate knowledge of absolute and relative paths
5.4.6 Remove directories and subdirectories

Competency 5.5: Apply graphical user interface (GUI) techniques

Competency Builders:

5.5.1 Identify the operational characteristics of a multitasking environment
5.5.2 Identify advantages and disadvantages of a GUI environment
5.5.3 Set up data exchange between two different applications
5.5.4 Set up object link between two different applications*
5.5.5 Execute programs using dynamic link libraries*

*Advancing
Competency 5.6: Manage applications in a GUI environment

**Competency Builders:**

5.6.1 Create new group
5.6.2 Create new subdirectory
5.6.3 Copy program into group
5.6.4 Create new program icon
5.6.5 Change icon
5.6.6 Change properties of program execution
5.6.7 Execute program application
5.6.8 Manipulate information using clipboard

Competency 5.7: Navigate GUI environment

**Competency Builders:**

5.7.1 Load GUI program
5.7.2 Change desktop appearance using system controls
5.7.3 Switch active tasks
5.7.4 Change peripheral configurations (e.g., mouse, monitor, sound, printer, keyboard)
5.7.5 Set up password for system
5.7.6 Manage files using GUI tools
5.7.7 Save changes made

Unit 6: Software Applications

Competency 6.1: Evaluate application software packages

**Competency Builders:**

6.1.1 Identify the needs that software packages must meet
6.1.2 Compare/contrast ease of learning, use, and interfacing for different software packages
6.1.3 Compare/contrast performance and features of different software packages (e.g., speed of retrieval, copying, saving, speller, thesaurus, moving, sorting)
6.1.4 Compare/contrast ease of technical support for different software packages
6.1.5 Compare/contrast clarity of documentation for different software packages
6.1.6 Compare/contrast licensing agreements for different software packages
6.1.7 Document results of the evaluation

Competency 6.2: Perform spreadsheet functions

**Competency Builders:**

6.2.1 Access needed information using company and manufacturers’ references (e.g., procedural manuals, documentation, standards, work flowcharts)
6.2.2 Follow written and/or oral specifications
6.2.3 Design spreadsheets
6.2.4 Create spreadsheet files
6.2.5 Input data using spreadsheet functions
6.2.6 Process data using spreadsheet functions
6.2.7 Continued

\[ \frac{1}{14} \]
Competency 6.2: Perform spreadsheet functions—Continued

6.2.7 Revise information on spreadsheets
6.2.8 Enhance spreadsheets (e.g., using fonts, graphics, boldface, justification)
6.2.9 View multiple documents using split screen function
6.2.10 Perform special functions (e.g., sum, average)
6.2.11 Perform basic database functions within spreadsheets (e.g., sort, query/select)
6.2.12 Perform advanced functions (e.g., titles, macros, table lookups, hiding ranges, formatting ranges, absolute addresses) within spreadsheets
6.2.13 Design formulas that permit users to ask “what if” questions to analyze spreadsheet data*
6.2.14 Output spreadsheet files
6.2.15 Verify accuracy of output
6.2.16 Integrate spreadsheet files with other application software

Competency 6.3: Perform database functions

Competency Builders:

6.3.1 Access needed information using company and manufacturers’ references (e.g., procedural manuals, documentation, standards, work flowcharts)
6.3.2 Follow written and/or oral specifications
6.3.3 Design databases (e.g., structure, format, attributes, relationships, keys)*
6.3.4 Document database design and functionality
6.3.5 Design relational databases*
6.3.6 Create data entry screen
6.3.7 Create database files
6.3.8 Process data using database functions (e.g., add/delete records, edit, extract)
6.3.9 Design report formats
6.3.10 Output database files (e.g., print reports, print database structure)
6.3.11 Print reports using data from multiple databases
6.3.12 Verify accuracy of output
6.3.13 Create adjoined files
6.3.14 Index files
6.3.15 Integrate database files with other application software

Competency 6.4: Perform graphics functions

Competency Builders:

6.4.1 Access needed information using company and manufacturers’ references (e.g., procedural manuals, documentation, standards, work flowcharts)
6.4.2 Follow written and/or oral specifications
6.4.3 Create graphics files
6.4.4 Input data using graphics functions
6.4.5 Process data using graphics functions
6.4.6 Display graphics on various output devices
6.4.7 Verify accuracy of output
6.4.8 Prepare electronic visual presentations
6.4.9 Integrate graphics files with other application software

*Advancing
Competency 6.5: Perform word processing functions

Competency Builders:

6.5.1 Access needed information using company and manufacturers’ references (e.g., procedural manuals, documentation, standards, work flowcharts)
6.5.2 Follow written and/or oral specifications
6.5.3 Create word processing files
6.5.4 Input data using word processing functions
6.5.5 Process data using word processing functions
6.5.6 Perform basic word processing operations (e.g., set up of tabs and line and page formats, font selection, word wrap, use of mouse and/or function keys)
6.5.7 Perform basic editing procedures (e.g., insert, delete, block delete, spellcheck, thesaurus)
6.5.8 Enhance documents using enhancement features provided (e.g., underline, bold, italic, columns)
6.5.9 Perform advanced word processing operations (e.g., sort, search and replace, hyphenation, merges, macros, footnotes, endnotes, tables, glossary files)
6.5.10 Output word processing files
6.5.11 Verify accuracy of output
6.5.12 Integrate word processing files with other application software

Competency 6.6: Perform automated accounting functions

Competency Builders:

6.6.1 Access needed information using company and manufacturers’ references (e.g., procedural manuals, documentation, standards, work flowcharts)
6.6.2 Enter data (e.g., key, import, scan)
6.6.3 Simulate accounting cycle using integrated software package
6.6.4 Set up chart of accounts for general ledger
6.6.5 Set up accounts payable and accounts receivable ledgers
6.6.6 Add accounts to general and subsidiary ledgers
6.6.7 Input account balances
6.6.8 Enter journal transactions
6.6.9 Edit journal transactions
6.6.10 Generate trial balances
6.6.11 Verify data
6.6.12 Correct errors
6.6.13 Generate reports
6.6.14 Proofread accounting records and statements
6.6.15 Edit accounting records and statements
6.6.16 Retrieve accounting records and statements
6.6.17 Print accounting records and statements
Competency 6.7: Perform basic telecommunications functions

**Competency Builders:**

6.7.1 Evaluate cost, ease of use, and timelines of various telecommunications services
6.7.2 Document results of evaluation
6.7.3 Access needed information using company and manufacturers' references (e.g., procedural manuals, documentation, standards, work flowcharts)
6.7.4 Attach to outside services using telecommunications software and modem functions
6.7.5 Upload files using telecommunications software and modem functions
6.7.6 Send electronic messages (e.g., via e-mail, electronic bulletin boards)
6.7.7 Access electronic messages received
6.7.8 Download files using telecommunications software and modem functions
6.7.9 Perform videoconferencing functions*
6.7.10 Transmit orders and invoices using Electronic Data Interchange (EDI)*

Competency 6.8: Compose documents electronically

**Competency Builders:**

6.8.1 Keyboard letters (e.g., business, personal, form) in accordance with established format and style
6.8.2 Keyboard memorandums and newsletters in accordance with established format and style
6.8.3 Keyboard manuscripts/reports in accordance with established format and style
6.8.4 Keyboard resumes in accordance with established format and style

Competency 6.9: Perform desktop publishing functions

**Competency Builders:**

6.9.1 Follow design specifications for publication (e.g., newsletter, brochure)
6.9.2 Create graphics files (e.g., using clip art, scanned file, paint/draw functions)
6.9.3 Perform basic desktop publishing operations (e.g., format new files, enter information, place preformatted text, place graphics, create two-sided documents, draw boxes)
6.9.4 Perform editing procedures (e.g., set margins, set columns, reverse text, rotate text)
6.9.5 Set up master pages (e.g., for page numbering, headers, footers)
6.9.6 Enhance publications using different fonts, styles, attributes, justification
6.9.7 Output desktop publishing files

Unit 7: Accounting and Business Concepts

Competency 7.1: Demonstrate knowledge of business concepts

**Competency Builders:**

7.1.1 Describe business organizations and functions
7.1.2 Describe business reporting and information flow
7.1.3 Determine interface of business activities with data processing functions
7.1.4 Describe stakeholder relationships (e.g., customers, employees, shareholders, suppliers)

*Advancing
Competency 7.2: Apply mathematical, algebraic, and logic skills

Competency Builders:
7.2.1 Solve addition, subtraction, multiplication, and division problems manually
7.2.2 Solve addition, subtraction, multiplication, and division problems using a calculator
7.2.3 Apply number relations (e.g., greater than, less than, equal)
7.2.4 Convert and reduce fractions
7.2.5 Compute percentages
7.2.6 Interpret measurements
7.2.7 Interpret information presented in tables
7.2.8 Perform data analyses
7.2.9 Calculate probabilities
7.2.10 Compute business and financial data
7.2.11 Design algebraic formulas
7.2.12 Solve business problems using algebraic formulas
7.2.13 Apply basic statistics (e.g., mean, mode, median)
7.2.14 Convert between numbering systems (e.g., binary, hexadecimal, decimal)
7.2.15 Construct truth tables (and, or, not conditions)
7.2.16 Solve business problems using computer arithmetic and E notation
7.2.17 Apply matrix algebra

Competency 7.3: Apply accounting principles

Competency Builders:
7.3.1 Analyze business transactions
7.3.2 Maintain journals and ledgers
7.3.3 Calculate depreciation
7.3.4 Perform accounting cycle using generally accepted accounting principles (GAAP)
7.3.5 Prepare purchase requisitions
7.3.6 Prepare purchase orders
7.3.7 Prepare invoices
7.3.8 Prepare financial statements
7.3.9 Interpret financial statements
7.3.10 Maintain inventory records

Competency 7.4: Perform banking functions

Competency Builders:
7.4.1 Access needed information using standard reference materials
7.4.2 Prepare checks, deposit slips, and withdrawal slips
7.4.3 Maintain checkbooks
7.4.4 Balance checkbooks
7.4.5 Maintain petty cash
7.4.6 Balance petty cash
7.4.7 Perform banking transactions using automated banking procedures
7.4.8 Prepare banking records
7.4.9 Maintain banking records

*Advancing
Competency 7.5: Perform payroll functions

Competency Builders:

7.5.1 Access needed information using standard reference materials
7.5.2 Collect payroll data
7.5.3 Process payroll
7.5.4 Comply with company policies and procedures related to payroll
7.5.5 Comply with government and legal requirements related to payroll
7.5.6 Maintain payroll records and forms
7.5.7 Demonstrate knowledge of personnel costs

Unit 8: Office Procedures

Competency 8.1: Perform telephone equipment operations

Competency Builders:

8.1.1 Access needed information using company and manufacturers’ references (e.g., procedural manuals, documentation, standards, work flowcharts)
8.1.2 Practice telephone etiquette (e.g., courtesy, discretion)
8.1.3 Employ active listening skills
8.1.4 Place local and long-distance calls
8.1.5 Transfer or refer telephone calls
8.1.6 Screen calls
8.1.7 Take phone messages
8.1.8 Verify information provided by other party
8.1.9 Send/receive messages via voice mail and messaging systems
8.1.10 Send/receive messages/documents via facsimile machine
8.1.11 Organize teleconferences
8.1.12 Create telephone directories
8.1.13 Maintain telephone directories

Competency 8.2: Maintain files

Competency Builders:

8.2.1 Access needed information using company and manufacturers’ references (e.g., procedural manuals, documentation, standards, work flowcharts)
8.2.2 Conduct initial inventory of file records
8.2.3 Manage records stored on various media (e.g., paper, disk, magnetic, microimaging)
8.2.4 File materials in accordance with established filing procedures and rules
8.2.5 Organize files
8.2.6 Index files
8.2.7 Update files
8.2.8 Store information manually
8.2.9 Store information electronically
8.2.10 Retrieve information
8.2.11 Determine retention schedule
8.2.12 Purge files according to retention schedule
8.2.13 Update retention schedule

Continued
Competency 8.2: Maintain files—Continued

8.2.14 Streamline files (e.g., consolidate, archive, destroy)
8.2.15 Secure files for legality and confidentiality
8.2.16 Maintain master list of stored items and their locations in the filing system

Competency 8.3: Maintain office support equipment

Competency Builders:

8.3.1 Access needed information using company and manufacturers’ references (e.g., procedural manuals, documentation, standards, work flowcharts)
8.3.2 Troubleshoot equipment malfunctions using problem-solving skills
8.3.3 Correct minor malfunctions
8.3.4 Report major malfunctions
8.3.5 Prepare equipment logs (e.g., maintenance and usage)
8.3.6 Maintain equipment logs

Competency 8.4: Maintain work flow

Competency Builders:

8.4.1 Access needed information using company and manufacturers’ references (e.g., procedural manuals, documentation, standards, work flowcharts)
8.4.2 Organize work
8.4.3 Prioritize work
8.4.4 Apply time-management techniques
8.4.5 Monitor progress
8.4.6 Communicate progress
8.4.7 Complete assigned tasks in accordance with established schedule
8.4.8 Coordinate with other team members

Competency 8.5: Maintain a safe working environment

Competency Builders:

8.5.1 Access needed information using company and manufacturers’ references (e.g., procedural manuals, documentation, standards, work flowcharts)
8.5.2 Comply with government and/or company rules and regulations related to health and safety
8.5.3 Practice office safety
8.5.4 Respond to hazardous or emergency situations in accordance with established policy
8.5.5 Maintain clean and orderly work area

Competency 8.6: Serve internal and external clients

Competency Builders:

8.6.1 Explain importance of clients and client relationships
8.6.2 Determine client services to be provided
8.6.3 Apply client service concepts (e.g., courteousness, timeliness)
8.6.4 Identify client’s specific needs and wants
8.6.5 Differentiate between client needs and wants
8.6.6 Identify methods for dealing with dissatisfied clients
8.6.7 Resolve client inquiries and complaints
8.6.8 Refer clients to appropriate person for resolution of inquiries and complaints
Competency 8.7: Perform scheduling functions to meet client needs

*Competency Builders:*

- 8.7.1 Create calendars/schedules
- 8.7.2 Maintain appointment calendars
- 8.7.3 Process requests for appointments
- 8.7.4 Verify appointments
- 8.7.5 Notify clients of changes in schedule
- 8.7.6 Manage scheduling conflicts

Competency 8.8 Perform general office tasks

*Competency Builders:*

- 8.8.1 Handle incoming and outgoing mail
- 8.8.2 Prepare copies of materials (e.g., duplicate, collate, staple)
- 8.8.3 Obtain office supplies
- 8.8.4 Comply with confidentiality and privacy laws

Competency 8.9: Coordinate meeting arrangements

*Competency Builders:*

- 8.9.1 Make arrangements with meeting planners
- 8.9.2 Distribute agendas
- 8.9.3 Assemble relevant information
- 8.9.4 Notify participants
- 8.9.5 Confirm arrangements

Competency 8.10: Generate minutes

*Competency Builders:*

- 8.10.1 Record notes
- 8.10.2 Gather materials
- 8.10.3 Prepare minutes
- 8.10.4 Distribute minutes
- 8.10.5 File minutes

Competency 8.11: Coordinate travel plans

*Competency Builders:*

- 8.11.1 Access needed information using standard travel resources
- 8.11.2 Identify traveler’s preferences
- 8.11.3 Arrange transportation and lodging
- 8.11.4 Obtain passports and/or visas
- 8.11.5 Prepare itineraries
- 8.11.6 Confirm arrangements and itineraries
- 8.11.7 Modify arrangements
- 8.11.8 Distribute itineraries
Competency 8.12: Maintain office supplies

*Competency Builders:*

8.12.1 Prepare cost justifications for the purchasing of supplies
8.12.2 Order supplies
8.12.3 Verify supplies received against order
8.12.4 Store supplies in a secure location
8.12.5 Distribute supplies
8.12.6 Inventory supplies
8.12.7 Prepare inventory reports

Competency 8.13: Assist visitors

*Competency Builders:*

8.13.1 Comply with company policies for handling visitors
8.13.2 Greet visitors
8.13.3 Screen visitors
8.13.4 Direct visitors
8.13.5 Maintain visitor log
8.13.6 Make introductions
8.13.7 Convey a professional image

Unit 9: Communication

Competency 9.1: Apply communication skills

*Competency Builders:*

9.1.1 Guide communication activities using established rules for grammar, spelling, and sentence construction
9.1.2 Evaluate audience
9.1.3 Determine means of communications appropriate for given situation (e.g., telephone, meeting, electronic mail, written communication)
9.1.4 Follow written and/or oral instructions
9.1.5 Apply creativity in oral and written communications
9.1.6 Proofread documents
9.1.7 Edit documents using proofreading symbols
9.1.8 Interpret oral, written, and nonverbal communication
9.1.9 Use nonverbal communication to reinforce intended message
9.1.10 Present messages in a form that assists recipient’s understanding (e.g., write and speak concisely, write legibly)
9.1.11 Demonstrate active listening skills
9.1.12 Obtain needed information using questioning techniques
9.1.13 Participate in group discussions and meetings
9.1.14 Select visuals to support presentations
9.1.15 Assess communication skills (verbal, nonverbal, written, oral)
9.1.16 Refine communication skills
Competency 9.2: Compose documents

Competency Builders:

9.2.1 Evaluate audience
9.2.2 Gather information
9.2.3 Organize information
9.2.4 Develop outline
9.2.5 Draft document in accordance with established standards for communication
9.2.6 Verify spelling, grammar, and punctuation
9.2.7 Verify accuracy of content
9.2.8 Prepare final document

Competency 9.3: Write technical reports

Competency Builders:

9.3.1 Access needed information using standard references (e.g., technical manuals, trade publications)
9.3.2 Identify type of report needed
9.3.3 Compile relevant data
9.3.4 Organize data in charts and graphs
9.3.5 Analyze data
9.3.6 Draw conclusions
9.3.7 Outline report
9.3.8 Write report
9.3.9 Verify spelling, grammar, and punctuation
9.3.10 Verify accuracy of content
9.3.11 Review report with peers
9.3.12 Present report

Competency 9.4: Deliver oral presentations

Competency Builders:

9.4.1 Evaluate audience
9.4.2 Gather information
9.4.3 Outline presentation
9.4.4 Prepare presentation and supporting materials
9.4.5 Practice presentation
9.4.6 Deliver presentation incorporating both verbal and nonverbal communication skills
9.4.7 Obtain feedback on the effectiveness of presentation

23
Unit 10: Ethical and Social Issues

Competency 10.1: Demonstrate knowledge of the relation of work ethics to computer technology

Competency Builders:

10.1.1 Identify social and ethical issues related to the use of computer technology
10.1.2 Analyze the role of integrity in the use and application of computer technology
10.1.3 Analyze how the privacy of individuals, groups, and organizations is affected by computer technology
10.1.4 Analyze the social, ethical, and legal implications of computer security violations (e.g., hacking, viruses, password sharing, divulging of confidential information)
10.1.5 Identify legal and ethical issues related to the use and misuse of intellectual property

Competency 10.2: Demonstrate knowledge of methods for protecting against different types of computer crime

Competency Builders:

10.2.1 Identify common types of computer crime
10.2.2 Identify adverse effects of computer service thefts
10.2.3 Identify the impact of property crimes involving computers, including misuse of intellectual property
10.2.4 Identify security methods for combatting crimes that can be perpetrated via computer systems

Competency 10.3: Demonstrate knowledge of computer security methods

Competency Builders:

10.3.1 Identify ways in which reliability of computer system security is significant to society
10.3.2 Identify methods for protecting computer systems from fire, natural disasters, unfavorable environmental conditions, power loss, disgruntled employees, and sabotage
10.3.3 Identify methods for controlling access to computer information (e.g., passwords, security groupings, physical security)
10.3.4 Identify methods for protecting data integrity (e.g., encryption, proper storage, virus protection, backups)
10.3.5 Identify implications of transmitting data across unsecured networks (e.g., Internet, dial-up lines)
Competency 10.4: Demonstrate knowledge of computer-related legislation

**Competency Builders:**

10.4.1 Identify the rights provided under the Freedom of Information Act of 1970 and the Privacy Act of 1974 regarding the collection, processing, storage, and distribution of data about personal traits and activities

10.4.2 Identify the ways in which the U.S. Copyright Act of 1978 protects against software piracy

10.4.3 Identify the ways in which the Electronic Funds Transfer Act of 1980 protects the consumer in electronic funds transactions

10.4.4 Identify the ways in which the Electronic Communication Privacy Act of 1986 prohibits interception of data communication, thereby protecting e-mail users

10.4.5 Keep up-to-date with emerging and currently enacted legislation affecting information technology
Occupational Competency Analysis Profile:

Employability
Unit 1: Career Development

Competency 1.1: Investigate career options

Competency Builders:
1.1.1 Determine interests and aptitudes
1.1.2 Identify career options
1.1.3 Research interests, knowledge, abilities, and skills needed in an occupation
1.1.4 Select careers that best match interests and aptitudes
1.1.5 Identify advantages and disadvantages of career options, including self-employment and nontraditional careers

Competency 1.2: Utilize career information

Competency Builders:
1.2.1 Identify a range of career information resources
1.2.2 Use a range of resources to obtain career information (e.g., handbooks, career materials, labor market information, and computerized career-information delivery systems)
1.2.3 Demonstrate knowledge of various classification systems that categorize occupations and industries (e.g., Dictionary of Occupational Titles)
1.2.4 Describe the educational requirements of various occupations
1.2.5 Identify individuals in selected occupations as possible information resources, role models, or mentors
1.2.6 Describe the impact of factors such as population, climate, employment trends, and geographic location on occupational opportunities
1.2.7 Assess differences in the wages, benefits, annual incomes, cost of living, and job opportunities associated with selected career options
1.2.8 Determine labor market projections for selected career options

Competency 1.3: Participate in a career exploration activity

Competency Builders:
1.3.1 Identify career exploration activities (e.g., job shadowing, mentoring, volunteer experiences, part-time employment, and cooperative education)
1.3.2 Compare traits, skills, and characteristics required for specific career choices with individual's traits, skills, and characteristics
1.3.3 Recognize potential conflicts between personal characteristics and career choice areas
1.3.4 Describe the impact of exploration activities on current career choices

Competency 1.4: Assess the relationship between educational achievement and career planning

Competency Builders:
1.4.1 Describe how skills developed in academic and vocational programs relate to career goals
1.4.2 Describe how education relates to the selection of a college major, further training, and/or entry into the job market
1.4.3 Identify skills that can apply to a variety of occupational requirements
1.4.4 Explain the importance of possessing learning skills in the workplace
Competency 1.5: Develop an individual career plan

*Competency Builders:*

1.5.1 Identify career goal(s)
1.5.2 Identify worker conditions, education, training, and employment opportunities related to selected career goal(s)
1.5.3 Describe school and community resources available to help achieve career goal(s)
1.5.4 Identify career ladders possible within selected career goal(s)*
1.5.5 Identify additional experiences needed to move up identified career ladders*
1.5.6 Recognize that changes may require retraining and upgrading of employees’ skills

Competency 1.6: Annually review/revise the individual career plan

*Competency Builders:*

1.6.1 Identify experiences that have reinforced selection of the specific career goal(s) listed on the individual career plan
1.6.2 Identify experiences that have changed the specific career goal(s) listed on the individual career plan
1.6.3 Modify the career goals(s) and educational plans on the individual career plan
1.6.4 Ensure that parents or guardians provide input into the individual career plan process
1.6.5 Identify the correlation between the individual career plan and the actual courses to be taken in high school
1.6.6 Identify the correlation between the individual career plan and postsecondary training, adult education, or employment

Unit 2: Decision Making and Problem Solving

Competency 2.1: Apply decision-making techniques in the workplace

*Competency Builders:*

2.1.1 Identify the decision to be made
2.1.2 Compare alternatives
2.1.3 Determine the consequences of each alternative
2.1.4 Make decisions based on values and goals
2.1.5 Evaluate the decision made

Competency 2.2: Apply problem-solving techniques in the workplace

*Competency Builders:*

2.2.1 Diagnose the problem, its urgency, and its causes
2.2.2 Identify alternatives and their consequences in relation to the problem
2.2.3 Recognize multicultural and nonsexist dimensions of problem solving
2.2.4 Explore possible solutions to the problem using a variety of resources
2.2.5 Compare/contrast the advantages and disadvantages of each solution
2.2.6 Determine appropriate action
2.2.7 Implement action
2.2.8 Evaluate results of action implemented
Unit 3: Work Ethic

Competency 3.1: Evaluate the relationship of self-esteem to work ethic

Competency Builders:

3.1.1 Identify special characteristics and abilities in self and others
3.1.2 Identify internal and external factors that affect self-esteem
3.1.3 Identify how individual characteristics relate to achieving personal, social, educational, and career goals
3.1.4 Identify the relationship between personal behavior and self-concept

Competency 3.2: Analyze the relationship of personal values and goals to work ethic both in and out of the workplace

Competency Builders:

3.2.1 Distinguish between values and goals
3.2.2 Determine the importance of values and goals
3.2.3 Evaluate how one's values affect one's goals
3.2.4 Identify own short- and long-term goals
3.2.5 Prioritize own short- and long-term goals
3.2.6 Identify how one's values are reflected in one's work ethic
3.2.7 Identify how interactions in the workplace affect one's work ethic
3.2.8 Identify how life changes affect one's work ethic

Competency 3.3: Demonstrate work ethic

Competency Builders:

3.3.1 Examine factors that influence work ethic
3.3.2 Display initiative
3.3.3 Demonstrate dependable attendance and punctuality
3.3.4 Demonstrate organizational skills
3.3.5 Adhere to schedules and deadlines
3.3.6 Demonstrate a willingness to learn
3.3.7 Demonstrate a willingness to accept feedback and evaluation
3.3.8 Demonstrate interpersonal skills required for working with and for others
3.3.9 Describe appropriate employer-employee interactions for various situations
3.3.10 Express feelings and ideas in an appropriate manner for the workplace

Competency 3.4: Demonstrate safety skills

Competency Builders:

3.4.1 Practice safe work habits
3.4.2 Identify safety hazards
3.4.3 Employ preventative safety measures
3.4.4 Demonstrate appropriate care and use of equipment and facilities to ensure safety
3.4.5 Comply with safety and emergency procedures
Unit 4: Job-Seeking Skills

Competency 4.1: Prepare for employment

Competency Builders:

4.1.1 Identify traditional and nontraditional employment sources
4.1.2 Utilize employment sources
4.1.3 Research job opportunities, including nontraditional careers
4.1.4 Interpret equal employment opportunity laws
4.1.5 Explain the critical importance of personal appearance, hygiene, and demeanor throughout the employment process
4.1.6 Prepare for generic employment tests and those specific to an occupation/organization

Competency 4.2: Develop a résumé

Competency Builders:

4.2.1 Identify personal strengths and weaknesses
4.2.2 List skills and/or abilities, career objective(s), accomplishments/achievements, educational background, work experience, volunteer/community contributions, and organizational memberships
4.2.3 Select an acceptable résumé format
4.2.4 Use correct grammar and spelling and concise wording
4.2.5 Secure references
4.2.6 Complete the résumé

Competency 4.3: Complete the job application process

Competency Builders:

4.3.1 Explain the importance of an application form
4.3.2 Obtain job application forms
4.3.3 Demonstrate appropriate behaviors (e.g., personal appearance, hygiene, and demeanor) for obtaining job application forms in person
4.3.4 Describe methods for handling illegal questions on job application forms
4.3.5 Demonstrate legible written communication skills using correct grammar and spelling and concise wording
4.3.6 Return application to appropriate person
4.3.7 Request interview
4.3.8 Follow up on application status

Competency 4.4: Demonstrate interviewing skills

Competency Builders:

4.4.1 Investigate interview procedures
4.4.2 Demonstrate appropriate behaviors (e.g. appearance, hygiene, and demeanor) for the interview
4.4.3 Demonstrate question-and-answer techniques
4.4.4 Demonstrate methods for handling difficult and/or illegal interview questions
4.4.5 Use correct grammar and concise wording
Competency 4.5: Secure employment

*Competency Builders:*

4.5.1 Identify present and future employment opportunities within an occupation/organization
4.5.2 Research the organization/company
4.5.3 Use follow-up techniques to enhance employment potential
4.5.4 Evaluate job offer(s)
4.5.5 Respond to job offer(s)

Unit 5: Job Retention and Career Advancement Skills

Competency 5.1: Analyze the organizational structure of the workplace

*Competency Builders:*

5.1.1 Identify employer expectations regarding job performance, work habits, attitudes, personal appearance, and hygiene
5.1.2 Comply with company policies and procedures
5.1.3 Examine the role/relationship between employee and employer
5.1.4 Recognize opportunities for advancement and reasons for termination
5.1.5 Recognize the organization’s ethics.

Competency 5.2: Maintain positive relations with others

*Competency Builders:*

5.2.1 Exhibit appropriate work habits and attitudes
5.2.2 Identify behaviors for establishing successful working relationships
5.2.3 Cooperate through teamwork and group participation
5.2.4 Demonstrate a willingness to compromise
5.2.5 Identify methods for dealing with harassment, bias, and discrimination based on race, color, national origin, gender, religion, disability, or age
5.2.6 Cooperate with authority
5.2.7 Accept supervision

Competency 5.3: Demonstrate accepted social and work behaviors

*Competency Builders*

5.3.1 Demonstrate a positive attitude
5.3.2 Demonstrate accepted conversation skills
5.3.3 Use good manners
5.3.4 Accept responsibility for assigned tasks
5.3.5 Demonstrate personal hygiene
5.3.6 Demonstrate knowledge of a position
5.3.7 Perform quality work
Competency 5.4: Analyze opportunities for personal and career growth*

*Competency Builders:

5.4.1 Determine opportunities within chosen occupation/organization*
5.4.2 Determine other career opportunities outside chosen occupation/organization*
5.4.3 Evaluate the factors involved in considering a new position within or outside an occupation/organization*
5.4.4 Exhibit characteristics needed for advancement*

Unit 6: Technology in the Workplace

Competency 6.1: Demonstrate knowledge of technology issues

*Competency Builders:

6.1.1 Demonstrate knowledge of the characteristics of technology
6.1.2 Demonstrate knowledge of how technology systems are applied
6.1.3 Assess the impact of technology on the individual, society, and environment
6.1.4 Demonstrate knowledge of the evolution of technology
6.1.5 Identify how people, information, tools and machines, energy, capital, physical space, and time influence the selection and use of technology
6.1.6 Identify legal and ethical issues related to technology (e.g., confidentiality, information sharing, copyright protection)

Competency 6.2: Demonstrate skills related to technology issues

*Competency Builders:

6.2.1 Exhibit willingness to adapt to technological change
6.2.2 Utilize technological systems
6.2.3 Utilize a variety of resources and processes to solve technological problems
6.2.4 Employ higher-order thinking skills for solving technological problems
6.2.5 Work as a team member in solving technological problems
6.2.6 Use technology in a safe and responsible manner
6.2.7 Apply science, mathematics, communication, and social studies concepts to solve technological problems
6.2.8 Demonstrate ingenuity and creativity in the use of technology*
6.2.9 Utilize a formal method (systems approach) in solving technological problems*
Unit 7: Lifelong Learning

Competency 7.1: Apply lifelong learning practices to individual situations

Competency Builders:
7.1.1 Define lifelong learning
7.1.2 Identify factors that cause the need for lifelong learning
7.1.3 Identify changes that may require the retraining and upgrading of employee’s skills
7.1.4 Identify avenues for lifelong learning
7.1.5 Participate in lifelong learning activities

Competency 7.2: Adapt to change

Competency Builders:
7.2.1 Analyze the causes and effects of change
7.2.2 Identify the effect of change on goals
7.2.3 Identify the importance of flexibility when reevaluating goals
7.2.4 Evaluate the need for lifelong learning experiences in adapting to change

Unit 8: Economic Education

Competency 8.1: Analyze how an economy functions as a whole

Competency Builders:
8.1.1 Describe how individuals and societies make choices to satisfy needs and wants with limited resources
8.1.2 Identify how production factors (land, labor, capital, and entrepreneurship) are used to produce goods and services
8.1.3 Illustrate how individuals and households exchange their resources for the income they use to buy goods and services
8.1.4 Explain how individuals and business firms use resources to produce goods and services to generate income
8.1.5 Identify characteristics of command, market, and traditional economies*
8.1.6 Describe how all levels of government assess taxes in order to provide services

Competency 8.2: Analyze how an economic system is a framework within which decisions are made by individuals and groups

Competency Builders:
8.2.1 List several individuals and groups that make economic decisions at the local, state, and national levels
8.2.2 Identify the important roles that local, state, and national governments play in a market economy

Continued

*Advancing
Competency 8.2: Analyze how an economic system is a framework within which decisions are made by individuals and groups—Continued

8.2.3 List examples of how government decisions affect individuals
8.2.4 Identify how geographic locations affect the political and economic systems of the world
8.2.5 Evaluate how markets allocate goods and services
8.2.6 Explain how resources, goods, and services are exchanged in markets
8.2.7 Explain competition and its effect on the market

Competency 8.3: Analyze the importance of making informed personal financial decisions

Competency Builders:
8.3.1 Describe the need for personal management records
8.3.2 Create a personal budget
8.3.3 Create a budget for a family of four for one month
8.3.4 Explain how credit affects personal/family finances
8.3.5 Identify steps to avoid credit problems
8.3.6 Make informed consumer choices in response to personal needs and wants
8.3.7 Identify factors that influence consumer decisions (e.g., advertisements, peer groups, price, and location)
8.3.8 Explain the costs and benefits for individuals of various types of taxation at the local, state, and federal levels

Unit 9: Balancing Work and Family

Competency 9.1: Analyze the effects of family on work

Competency Builders:
9.1.1 Recognize how family values, goals, and priorities are reflected in the workplace
9.1.2 Identify present and future family structures and responsibilities
9.1.3 Describe personal and family roles
9.1.4 Analyze concerns of working parent(s)
9.1.5 Examine how family responsibilities can conflict with work
9.1.6 Identify ways to resolve family-related conflicts
9.1.7 Explain how to use support systems/community resources to help resolve family-related conflicts

Competency 9.2: Analyze the effects of work on family

Competency Builders:
9.2.1 Identify responsibilities associated with paid and nonpaid work
9.2.2 Compare the advantages and disadvantages of multiple incomes
9.2.3 Explain how work can conflict with family responsibilities
9.2.4 Explain how work-related stress can affect families
9.2.5 Identify family support systems and resources
Unit 10: Citizenship in the Workplace

Competency 10.1: Exercise the rights and responsibilities of citizenship in the workplace

Competency Builders:
10.1.1 Identify the basic rights and responsibilities of citizenship in the workplace
10.1.2 Identify situations in which compromise is necessary
10.1.3 Examine how individuals from various backgrounds contribute to the workplace
10.1.4 Demonstrate initiative to facilitate cooperation
10.1.5 Give/receive constructive criticism to enhance cooperation

Competency 10.2: Prepare to work in a multicultural society

Competency Builders:
10.2.1 Identify ways to live in a multicultural society with mutual respect and appreciation for others
10.2.2 Examine how culture and experience create differences in people
10.2.3 Demonstrate respect for the contributions made by all people
10.2.4 Investigate personal cultural background as a means of developing self-respect
10.2.5 Make personal choices that reduce discrimination, isolation, and prejudice
10.2.6 Work effectively with people irrespective of their race, gender, religion, ethnicity, disability, age, or cultural background

Unit 11: Leadership

Competency 11.1: Evaluate leadership styles appropriate for the workplace

Competency Builders:
11.1.1 Identify characteristics of effective leaders
11.1.2 Compare leadership styles
11.1.3 Demonstrate effective delegation skills
11.1.4 Investigate empowerment concepts
11.1.5 Identify opportunities to lead in the workplace

Competency 11.2: Demonstrate effective teamwork skills

Competency Builders:
11.2.1 Identify the characteristics of a valuable team member
11.2.2 Identify methods of involving each team member
11.2.3 Contribute to team efficiency and success
11.2.4 Determine ways to motivate team members
Competency 11.3: Utilize effective communication skills

*Competency Builders:*

11.3.1 Identify the importance of listening
11.3.2 Demonstrate effective listening skills
11.3.3 Demonstrate assertive communication techniques
11.3.4 Recognize the importance of verbal and nonverbal cues and messages
11.3.5 Prepare written material
11.3.6 Analyze written material
11.3.7 Give/receive feedback
11.3.8 Communicate thoughts
11.3.9 Use appropriate language
11.3.10 Follow oral and written instructions
11.3.11 Demonstrate effective telephone techniques
11.3.12 Identify technology in communications

Unit 12: Entrepreneurship

Competency 12.1: Evaluate the role of small business

*Competency Builders:*

12.1.1 Identify the impact of small business on the local economy
12.1.2 Examine the relationship of small business to a national (USA) and global economy
12.1.3 Identify factors that contribute to the success of small business
12.1.4 Identify factors that contribute to the failure of small business
12.1.5 Identify the components of a business plan

Competency 12.2: Examine entrepreneurship as a personal career option

*Competency Builders:*

12.2.1 Evaluate personal interests and skills
12.2.2 Compare personal interests and skills with those necessary for entrepreneurship
12.2.3 Determine motives for becoming an entrepreneur
12.2.4 Identify the advantages and disadvantages of owning a small business
12.2.5 Compare business ownership to working for others
Academic Job Profile
The Purpose of Job Profiling

Developed by American College Testing (ACT), the purpose of the Job Profiling process is to identify the level of applied academic skills that, according to business and industry, students must master to qualify for and be successful in their occupation of choice. The results of Job Profile "leveling" can help teachers to better target instruction toward their students’ needs.

As part of the Ohio Vocational Competency Assessment (OVCA) program, the Vocational Instructional Materials Laboratory (VIML) at The Ohio State University has conducted Job Profiling workshops in which representatives of business, industry, labor, and community organizations identified the academic skill levels needed by entry-level workers in the occupational areas covered by the OCAPs. The Job Profiling, which was carried out in fall 1994 and spring 1995, was sponsored by the Ohio Department of Education, Division of Vocational and Adult Education.

OVCA—What Is It?

The Ohio Vocational Competency Assessment (or OVCA) package consists of two assessment components: OCAP and Work Keys. Together they measure entry-level occupational, academic, and employability skills. All OVCA items are criterion-referenced, use a multiple-choice format, and are administered using a traditional paper-and-pencil method. The OVCA is designed to do the following:

- Provide one dimension of a multi-assessment strategy for career passport credentialing
- Evaluate learner readiness for jobs requiring specific occupational, academic, and employability skills
- Assist educators in curriculum development
- Provide state-aggregated learning gain scores to comply with regulations in the Carl D. Perkins Vocational and Applied Technology Act of 1992

OCAP. The OCAP component of OVCA assesses students in occupational skills—employment requirements—in a particular occupational area. Assessment is based on the core competencies identified through the OCAP process, and each multiple-choice assessment item is correlated to those essential competencies.

Work Keys. The Work Keys component, developed by ACT, measures students’ applied academic skills. All OVCA packages contain two Work Keys assessments:

- Applied Mathematics measures students’ ability to analyze, set up, and solve math problems typically found in the workplace.
- Locating Information measures students’ ability to use graphic documents to insert, extract, and apply information.

In addition, certain taxonomies will use the following Work Keys assessments:

- Reading for Information will be used by Business, Marketing, Home Economics, Health Education, and Cosmetology taxonomies.
- Applied Technology will be used by Trade and Industrial and Agricultural Education taxonomies.

Other optional Work Keys assessments, not included in the basic OVCA package, are Teamwork, Listening, and Writing.

Each Work Keys assessment is further broken down into four to five levels of achievement, with higher numbers indicating higher achievement in the assessed skill (descriptions of the levels for each Work Keys assessment are provided on pp. 39-45). For each academic skill, the Job Profiling process identifies the level required for successful entry into an occupational area.
Job Profiling—How It Works

VIML’s Job Profiling process was initiated by mailing surveys to current workers in OCAP occupations all across Ohio. The survey’s purpose: to have actual workers in specific occupations rate job tasks according to each task’s frequency and criticality—that is, the amount of time spent performing each task relative to other tasks and the importance of each task to overall job performance.

To complete the survey, participants examined OCAP competencies for their occupation. Based on the survey’s results, VIML staff produced a list of the most critical competencies in each occupation.

The next stage of Job Profiling was to convene committees of subject-matter experts to perform “leveling,” which involved the following tasks:

- Examining the frequency and criticality competency lists for an occupation
- Reviewing the levels associated with each of the seven Work Keys academic skills: Locating Information, Reading for Information, Applied Mathematics, Applied Technology, Listening, Writing, and Teamwork
- Identifying the level of skill students must master relative to each Work Keys academic skill in order to successfully perform the occupational competencies

Finally, in 1995, the initial leveling of Work Keys academic skills for the occupational area covered by this OCAP was revalidated by the new employer panel convened to update the OCAP (see inside back cover).

Example of Job Profiling

For every occupational area, there are shaded graphs to represent each of the seven Work Keys academic skills. Each graph shows the range of levels for that particular skill; the shading represents the academic skill level required by an entry-level worker in that occupation, as determined by the Job Profiling committee. For example:

Applied Mathematics

In the example shown, Applied Mathematics has a skill range of 3–7. The required skill level, determined by Job Profiling and shown by the highlighting, is 6.
Academic Job Profile: Business Information Systems

NOTE: Definitions of each level in each of the seven academic skill areas are provided on the pages that follow.
Levels of Work Keys Defined

The skills needed to achieve each level for each of the seven Work Keys* academic skills are as follows.

Applied Mathematics

*Applied Mathematics* measures skill in applying mathematical reasoning to work-related problems. There are five levels of complexity, 3 through 7, with Level 3 being the least complex and Level 7 the most complex. The levels build on each other, each incorporating the skills at the preceding levels.

**Level 3**
- Perform basic mathematical operations (addition, subtraction, multiplication, and division) and conversions from one form to another, using whole numbers, fractions, decimals, or percentages.
- Translate simple verbal problems into mathematical equations.
- Directly apply logical information provided to solve problems, including those with measurements and dollars and cents.

**Level 4**
- Perform one or two mathematical operations (such as addition, subtraction, or multiplication) on several positive or negative numbers. (Division of negative numbers is not covered until Level 5.)
- Add commonly known fractions, decimals, or percentages (e.g., ½, .75, 25%) or add three fractions that share a common denominator.
- Calculate averages, simple ratios, proportions, and rates, using whole numbers and decimals.
- Reorder verbal information before performing calculations.
- Read simple charts or graphs to obtain information needed to solve a problem.

**Level 5**
- Look up and calculate single-step conversions within English or non-English measurement systems (e.g., converting ounces to pounds or centimeters to meters) or between measurement systems (e.g., converting centimeters to inches).
- Make calculations using mixed units (e.g., hours and minutes).
- Determine what information, calculations, and unit conversions are needed to find a solution.

**Level 6**
- Calculate using negative numbers, fractions, ratios, percentages, mixed numbers, and formulas.
- Identify and correct errors in calculations.
- Translate complex verbal problems into mathematical expressions, using considerable setup and multiple-step calculations or conversions.

**Level 7**
- Solve problems requiring multiple steps of logic and calculation.
- Solve problems involving more than one unknown, nonlinear functions (e.g., rate of change), and applications of basic statistical concepts (e.g., error of measurement).
- Locate errors in multiple-step calculations.
- Solve problems with unusual content or format, or with incomplete or implicit information.

---

Locating Information

*Locating Information* measures skill in using information taken from workplace graphics such as diagrams, blueprints, floor plans, tables, forms, graphs, charts, and instrument gauges. There are four levels of complexity, 3 through 6, with Level 3 being the least complex and Level 6 the most complex. The levels build on each other, each incorporating the skills at the preceding levels.

**Level 3**
- Find one or two pieces of information in elementary workplace graphics, such as simple order forms, bar graphs, tables, flowcharts, and floor plans.
- Fill in one or two pieces of information that are missing from elementary workplace graphics.

**Level 4**
- Find several pieces of information in straightforward workplace graphics, such as basic order forms, line graphs, tables, instrument gauges, maps, flowcharts, and diagrams.
- Summarize and/or compare information and trends in a single straightforward graphic.
- Summarize and/or compare information and trends among more than one straightforward workplace graphic, such as a bar chart and a data table showing related information.

**Level 5**
- Summarize and/or compare information and trends in single complicated workplace graphics, such as detailed forms, tables, graphs, maps, instrument gauges, and diagrams.
- Summarize and/or compare information and trends among more than one complicated workplace graphic, such as a bar chart and a data table showing related information.

**Level 6**
- Make decisions, draw conclusions, and/or apply information to new situations using several related and complex workplace graphics that contain a great amount of information or have challenging presentations (e.g., very detailed graphs, charts, tables, forms, maps, blueprints, diagrams).
**Reading for Information**

*Reading for Information* measures skill in reading and understanding work-related reading materials. There are five levels of complexity, 3 through 7, with Level 3 being the least complex and Level 7 the most complex. Although Level 3 is the least complex, it still represents a level of reading skill well above "no skill at all." The levels build on each other, each incorporating the skills at the preceding levels.

**Level 3**
- Identify uncomplicated key concepts and simple details.
- Recognize the proper placement of a step in a sequence of events, or the proper time to perform a task.
- Identify the meaning of words that are defined within a passage.
- Identify the meaning of simple words that are not defined within a passage.
- Recognize the application of instructions from a passage to situations that are described in the passage.

**Level 4**
- Identify details that are more subtle than those in Level 3.
- Recognize the application of more complex instructions, some of which involve several steps, to described situations.
- Recognize cause-effect relationships.

**Level 5**
- Identify the paraphrased definition of jargon or technical terms that are defined in a passage and recognize the application of jargon or technical terms to stated situations.
- Recognize the definition of acronyms that are defined in a passage.
- Identify the appropriate definition of words with multiple meanings.
- Recognize the application of instructions from a passage to new situations that are similar to the situations described in the reading materials.
- Recognize the applications of more complex instructions to described situations, including conditionals and procedures with multiple steps.

**Level 6**
- Recognize the application of jargon or technical terms to new situations.
- Recognize the application of complex instructions to new situations.
- Recognize the less-common meaning of a word with multiple meanings from context.
- Generalize from a passage to situations not described in the passage.
- Identify implied details.
- Explain the rationale behind a procedure, policy, or communication.
- Generalize from a passage to a somewhat similar situation.

**Level 7**
- Recognize the definitions of difficult, uncommon jargon or technical terms from context.
- Generalize from a passage to situations neither described in nor completely similar to those in a passage.
Applied Technology

*Applied Technology* measures skill in solving problems of a technological nature, involving the basic principles of mechanics, electricity, fluid dynamics, and thermodynamics as they apply to machines and equipment found in the workplace. There are four levels of complexity, 3 through 6, with Level 3 being the least complex and Level 6 the most complex. Although Level 3 is the least complex, it still represents a level of applied technology skill well above “no skill at all.” The levels build on each other, each incorporating the skills at the preceding levels.

**Level 3**
- Apply the elementary physical principles underlying the operation of uncomplicated systems or tools.
- Recognize and identify relevant aspects of simple problems that involve one uncomplicated system or tool.
- Select appropriate methods or materials needed to solve problems.

**Level 4**
- Recognize, identify, and order relevant aspects of one moderately complex system or more than one uncomplicated system.
- Evaluate alternative solutions to determine the most appropriate one for the situation presented.

**Level 5**
- Solve problems based on one complex system, or one or more uncomplicated tools or systems.
- Understand and apply moderately difficult principles of mechanics, electricity, thermodynamics, and fluid dynamics, in addition to understanding complex machines and systems.
- Recognize, identify, and order relevant aspects of a problem before reaching an appropriate solution.

**Level 6**
- Solve problems that do not contain all the information needed to solve them, and/or in which the information provided may be out of logical order.
- Solve problems that contain extraneous information.
- Solve problems involving one or more tools or systems having a wide range of complexity.
- Apply difficult physical principles.
- Understand and correctly interpret the interaction of several complex systems.
Listening

*Listening* measures skill in listening to and understanding work-related messages; receiving information from customers, coworkers, or suppliers; and then writing down the information to communicate it to someone else. Students demonstrate their ability to distinguish and communicate critical information and noncritical information. Critical information consists of those details that the recipient of the message must have in order to understand the message and act upon it (e.g., names, phone numbers, addresses, times). Non-critical information can improve a message by providing details that further explain the message or its tone, but the absence of this noncritical information does not interfere with the recipient’s ability to understand and accurately act upon the message. Each Listening level describes the content and quality of messages students write to describe an audio message.

**Level 0**
- No meaningful information, or totally inaccurate information.

**Level 1**
- Minimal pertinent information; enough context to provide clues as to gist of situation or source of further information.

**Level 2**
- Some pertinent information; may have incorrect critical information, but sketch of the situation is correct.

**Level 3**
- All the critical information that is present is correct; may be missing a few pieces of critical information.

**Level 4**
- All critical information is given and is correct; may be missing subtle details or tone; may have incorrect noncritical information that does not interfere with central meaning.

**Level 5**
- All critical information is present and correct; response conveys insight into situation through tone and/or subtle details.
Writing

Writing measures skill at writing work-related messages; receiving information from customers, co-workers, or suppliers; and then writing down the information to communicate it to someone else. Each Writing level rates the writing mechanics (such as sentence structure and grammar) and writing style of messages students write to describe an audio message.

Level 0
- An attempt is made at the message, but the message is completely garbled with no recognizable sentence structure.

Level 1
- Message conveyed inadequately; overall lack of proper sentence structure.

Level 2
- Message conveyed inadequately; weak sentence structure; large number of mechanical errors.

Level 3
- Message conveyed clearly; most sentences complete; some mechanical errors.

Level 4
- Message conveyed clearly; all sentences are complete; may have a few minor mechanical errors; may have a choppy style.

Level 5
- Message conveyed clearly; good sentence structure; no mechanical errors; highly appropriate for business setting and situation; smooth, logical style.
Teamwork

Teamwork measures skill in choosing behaviors and/or actions that simultaneously support team interrelationships and lead toward the accomplishment of work tasks. There are four levels of complexity, 3 through 6, with Level 3 being the least complex and Level 6 the most complex. Although Level 3 is the least complex, it still represents a level of teamwork skill well above "no skill at all." The levels build on each other, each incorporating the skills at the preceding levels.

Level 3
- Identify team goals and ways to work with other team members to accomplish those goals.
- Choose actions that support the ideas of other team members to accomplish team goals.
- Recognize that a team is having problems finishing a task and identify the cause of those problems.

Level 4
- Identify the organization of tasks and the time schedule that would help accomplish team goals efficiently and effectively.
- Select approaches that accept direction from other team members in order to accomplish tasks and to build and keep up good team relations.
- Identify behaviors that show appreciation for the personal and professional qualities of other team members and respect for their diversity.

Level 5
- Identify courses of action that give direction to other team members effectively.
- Choose approaches that encourage and support the efforts of other team members to further team relationships and/or task accomplishment.
- Consider the possible effects of alternative behaviors on both team relationships and team accomplishments and select the one that would best help the team meet its goals.

Level 6
- Identify the focus of team activity and select a new focus if that would help the team meet its goals more effectively.
- Select approaches that show the willingness to give and take direction as needed to further team goals (e.g., recognize the organization of team members’ tasks that would best serve the larger goals of the team).
- Choose approaches that encourage a team to act as a unit and reach agreement when discussing specific issues.
- Identify actions that would help manage differences of opinion among team members, moving the team toward its goals while valuing and supporting individual diversity.
Academic Competencies
Total List of Academic Competencies

Three products of the Ohio Department of Education, Division of Curriculum, Instruction, and Professional Development, describe the academic skills that should be possessed by each student at the end of each grade level:

- Model Competency-Based Language Arts Program
- Model Competency-Based Mathematics Program
- Model Competency-Based Science Program

The following lists were derived from the academic competencies delineated for Grades 9-12 in these documents. Although the competencies are listed separately by grade level in the original documents, the levels were combined—and in some cases refined—for OCAP purposes, any overlap was eliminated, and a numbering system was imposed for ease of reference.

During the course of the OCAP workshops, each of the representatives from business, industry, labor, and community-based organizations was given a copy of these lists of academic competencies and instructed to circle the competencies that an entry-level employee should possess. The results from each panel were tallied to identify those required academic competencies most crucial to entry level in each specific occupational area. The results for this OCAP are presented on pp. 63-68.

Unit: Communications Skills

Subunit: Reading—Structure

Competencies:

RS1 Exhibit knowledge of language structure
RS2 Recognize that there may be more than one interpretation of reading selections
RS3 Recognize various literary devices (e.g., metaphor, simile, personification, hyperbole, pun, alliteration)
RS4 Recognize and discuss literary elements (e.g., plot, dialogue, theme, setting, characterization)
RS5 Develop and use an increasingly sophisticated vocabulary gained through context
RS6 Apply knowledge of language structure to reading
RS7 Explain why there may be more than one interpretation of reading selections
RS8 Recognize effect of literary devices on meaning
RS9 Analyze author's use of literary elements
RS10 Recognize relationship of structure to meaning
RS11 Describe various interpretations and levels of meaning in reading selections (e.g., symbolism, nuance)
RS12 Characterize author's use of literary devices
RS13 Characterize use of literary techniques (e.g., irony, satire, allegory, onomatopoeia)
RS14 Critique a variety of literature with regard to plot, dialogue, theme, setting, and characterization
RS15 Apply an expanding vocabulary gained through reading
RS16 Explain various interpretations and levels of meaning in reading selections (e.g., symbolism, nuance)
RS17 Analyze use of literary devices (e.g., extended metaphor, simile, personification, hyperbole, pun, alliteration)
RS18 Understand use of literary techniques (e.g., irony, satire, allegory, onomatopoeia)
RS19 Analyze and synthesize pieces of literature with regard to plot, dialogue, theme, setting, and characterization
**Subunit: Reading—Meaning Construction**

Competencies:
- **RM1** Demonstrate ability to recognize appropriate pre-reading strategies
- **RM2** Describe effectiveness of a reading selection
- **RM3** Read to clarify personal thinking and knowledge
- **RM4** Support interpretation of text by locating and citing specific information
- **RM5** Develop personal response to a variety of literary works
- **RM6** Recognize diverse literary interpretations
- **RM7** Engage in self-selected reading activities
- **RM8** Confirm and extend meaning in reading by researching new concepts and facts
- **RM9** Self-monitor and apply corrective strategies when communication has been interrupted or lost
- **RM10** Use features of literary genres to extend meaning
- **RM11** Assess effectiveness of a selection read
- **RM12** Use reading as a possible problem-solving strategy to clarify personal thinking and knowledge
- **RM13** Use knowledge of semantic elements (e.g., figurative language, denotation, connotation, dialect) to clarify meaning when reading
- **RM14** Predict, recognize, interpret, and analyze themes based on familiarity with author's work
- **RM15** Compare and contrast literary genres
- **RM16** Assess validity and quality of selection read (e.g., predict, summarize, analyze, infer)
- **RM17** Clarify meaning when reading, using knowledge of literary devices, stylistic diction, and other semantic elements
- **RM18** Compare personal reaction to critical assessment of a literary selection
- **RM19** Assess validity of diverse literary interpretations
- **RM20** Use reference books to find, evaluate, and synthesize information
- **RM21** Identify tone of a literary work (e.g., ironic, serious, conversational, humorous)
- **RM22** Critique validity of diverse literary interpretations
- **RM23** Integrate personal reaction to and critical assessment of a literary selection

**Subunit: Reading—Application**

Competencies:
- **RA1** Select and read material for personal enjoyment and information
- **RA2** Read a variety of complete, unabridged works (e.g., self-selected or assigned stories, essays, nonfiction, plays, novels, poetry)
- **RA3** Employ various reading strategies (e.g., scanning, skimming, reviewing, questioning, testing, retaining) according to purpose
- **RA4** Participate in selection of books, materials, and topics for literature study groups
- **RA5** Develop and apply knowledge of the interrelationship of concepts (e.g., construction of webs, graphs, timelines)
- **RA6** Read selections from a variety of styles and formats, recognizing that style and format influence meaning
- **RA7** Extend value of reading, writing, speaking, viewing, and listening by pursuing, through reading, new concepts and interests developed as a result of these activities
- **RA8** Read extensively from the works of a particular author, and explain elements of author's style

**Subunit: Reading—Multidisciplinary**

Competencies:
- **RM1** Connect themes and ideas across disciplines through literature
- **RM2** Read to facilitate learning across curriculum
- **RM3** Read to develop awareness of human rights and freedom
- **RM4** Participate actively in a community of learners
Academic Competencies: Total List

RM5 Recognize and explain interaction between literature and various cultural domains (e.g., social, technological, political, economic)
RM6 Explore and analyze a variety of cultural elements, attitudes, beliefs, and value structures by reading and experiencing our diverse literary tradition, including works by men and women of many racial, ethnic, and cultural groups
RM7 Value thinking and language of others
RM8 Relate literature to historical period about which or in which it was written
RM9 Read to facilitate content learning

Subunit: Writing—Structure

Competencies:
WS1 Develop and expand a repertoire of organizational strategies (e.g., narration, comparison/contrast, and description) through practice and discussion
WS2 Clarify word choice according to audience, topic, and purpose
WS3 Locate and correct errors in usage, spelling, and mechanics (e.g., subject-verb agreement, parallel construction, pronoun reference, punctuation, capitalization, sentence structure) using a variety of resources
WS4 Recognize information gained from primary and secondary sources
WS5 Develop writing that contains ordered, related, well-developed paragraphs with sentences of varied lengths and patterns
WS6 Use information from a variety of sources to develop an integrated piece of writing
WS7 Evaluate and revise writing to focus on such things as audience, tone, and purpose
WS8 Recognize differences between documentation and reference list styles
WS9 Develop extended pieces of writing that contain ordered, related, well-developed paragraphs with sentences of varied lengths and patterns
WS10 Select from a repertoire of organization strategies a pattern appropriate to a topic (e.g., narration, example, detail, comparison/contrast, classification)
WS11 Synthesize information from a variety of sources to construct meaning
WS12 Refine word choice and tone according to audience, situation, and purpose
WS13 Appropriately cite information gained from primary and secondary sources
WS14 Use style manuals or software to prepare documentation and reference lists
WS15 Develop effectively organized pieces of expository writing containing strong voice, clear thesis, and well-developed ideas
WS16 Identify organization patterns appropriate to writing topic
WS17 Respond to others’ suggested revisions to a writing piece

Subunit: Writing—Meaning Construction

Competencies:
WM1 Demonstrate knowledge of the recursive nature of the writing process by applying it appropriately to various topics, situations, and audiences (e.g., making connections between prior knowledge and new information, consulting other sources)
WM2 Develop criteria for writing evaluation using scoring guides (e.g., rubric/holistic scale, primary trait scoring) and peer/teacher assistance to clarify meaning
WM3 Respond to others’ suggested revisions to a piece of writing (e.g., self-question, re-read, revise)
WM4 Use word processing, graphics, and publishing as aids for constructing meaning in writing
WM5 Engage in self-initiated writing activities
WM6 Incorporate personal criteria with generally accepted standards for writing evaluation
WM7 Evaluate, analyze, and synthesize information for writing
WM8 Evaluate own writing using personal and established scoring criteria
WM9 Assess personal/peer revisions to a writing piece
WM10 Recognize and refine personal writing styles
Subunit: Writing—Application

Competencies:
WA1 Apply appropriate writing techniques (e.g., prewriting, drafting, revising, editing, presenting) suitable for varied writing tasks
WA2 Use sentence-combining techniques to improve syntactic fluency and maturity
WA3 Write in response to prompted and self-selected topics in practical, persuasive, descriptive, narrative, and expository domains
WA4 Develop personal voice in writing
WA5 Consider audience and purpose for writing
WA6 Develop criteria for selection and potential development of topic
WA7 Write in a journal or learning log to clarify personal thinking and knowledge
WA8 Apply an expanding vocabulary gained through writing
WA9 Make judicious use of reference sources (e.g., dictionary, thesaurus, online database, encyclopedia)
WA10 Demonstrate an appreciation for aesthetically pleasing language through word choice and style
WA11 Apply revising and editing strategies needed for writing task
WA12 Vary sentence lengths and patterns
WA13 Refine personal voice in writing
WA14 Vary styles and formats for intended purpose and audience
WA15 Apply criteria for selection and development of topic
WA16 Participate in peer review of writing in progress
WA17 Use transitions between sentences, ideas, and paragraphs in writing
WA18 Revise and edit papers extensively in preparation for presentation/publication
WA19 Develop a variety of genres (e.g., fantasy, science fiction, short stories, poetry)
WA20 Focus writing and tone on such elements as audience, situation, and purpose
WA21 Develop topic fully and appropriately
WA22 Use writing process to clarify personal thinking and knowledge
WA23 Apply appropriate recursive writing process as suggested by writing task and writer’s process
WA24 Develop an extended piece of writing (e.g., story, narrative poem, autobiography, novel, research paper)
WA25 Revise writing and tone to assure focus on such elements as audience, situation, and purpose
WA26 Use writing process to write reflectively

Subunit: Writing—Multidisciplinary

Competencies:
WM1 Use writing process for learning across curriculum
WM2 Use writing process to demonstrate knowledge of need for human rights and freedom
WM3 Value and apply collaborative skills in the writing process
WM4 Write in response to reading, speaking, viewing, and listening
WM5 Use multidisciplinary resources in writing projects
WM6 Use writing process to facilitate learning across curriculum
WM7 Recognize value of and engage in collaboration in the writing process
WM8 Use communication processes to develop a published writing piece in collaboration with others
WM9 Record experiences and observations related to content learning
WM10 Apply collaborative skills in the writing process
WM11 Write collaboratively with peers
WM12 Use cross-disciplinary resources in writing projects

Subunit: Listening/Visual Literacy—Structure

Competencies:
LS1 Listen to and view a wide variety of genres (e.g., mystery, drama, poetry)
LS2 Become aware of an author’s style through listening to and viewing a variety of works
LS3 Recognize correct and appropriate grammar, diction, and syntax
LS4 Expand vocabulary through listening to and viewing varied media (e.g., recordings, films, music, news broadcasts)
LS5 Recognize beauty of language
LS6 Enhance recognition of an author's style through listening to and viewing a variety of works
LS7 Recognize use and misuse of language in media
LS8 Refine knowledge of style through listening to and viewing multiple works by the same author
LS9 Expand and refine grammar, diction, and syntax through listening
LS10 Compare authors' styles through viewing and listening to their works
LS11 Expand knowledge of complex grammar, diction, and syntax issues

Subunit: Listening/Visual Literacy—Meaning Construction

Competencies:
LM1 Develop critical thinking skills necessary to evaluate media and assess oral presentations
LM2 Compare new oral texts to past experiences and knowledge in order to enhance comprehension
LM3 Recognize how rhythmic patterns, silence, and cadences enhance quality of speech and literature
LM4 Focus listening and viewing on themes and/or plots
LM5 Gather information from listening and viewing experiences to enhance research
LM6 Use critical thinking skills to evaluate media and oral presentations
LM7 Use prior knowledge and experiences to facilitate comprehension of new oral texts
LM8 Identify rhythmic and time patterns in speech and literature
LM9 Identify and analyze themes and/or plots when listening and viewing
LM10 Use information gathered from listening and viewing experiences to expand research
LM11 Enhance use of critical thinking skills to evaluate media and oral presentations
LM12 Consider prior knowledge and experiences when attempting to understand the meaning of new texts
LM13 Appreciate rhythmic and time patterns of speech and literature
LM14 Select viewing and listening materials to support written text
LM15 Evaluate media and oral presentations analytically and critically
LM16 Organize prior knowledge and experiences to comprehend new texts
LM17 Organize and use viewing and listening materials to support written text

Subunit: Listening/Visual Literacy—Application

Competencies:
LA1 Listen attentively during oral reading
LA2 Use media as stimuli for learning and thinking
LA3 Develop knowledge of structure through art, music, and literature
LA4 Use electronic media to enhance and highlight language learning
LA5 Listen and view for entertainment and enjoyment
LA6 Use technology and other media (e.g., videos, posters, maps, graphs, t-shirts) as means of expressing ideas

Subunit: Listening/Visual Literacy—Multidisciplinary

Competencies:
LM1 Facilitate learning across curriculum through critical listening and viewing
LM2 Engage in individual, small-group, and whole-group listening and viewing activities
LM3 Develop language arts (e.g., viewing, listening) projects collaboratively
LM4 Investigate language and cultural differences through listening and viewing activities
LM5 Participate in a community of learners through productive listening
Subunit: Oral Communication—Structure

Competencies:
- OS1 Refine oral communication skills (e.g., voice modulation, eye contact, body language)
- OS2 Demonstrate knowledge of grammar, usage, and syntax when presenting
- OS3 Select topics and vocabulary suitable to audience
- OS4 Organize notes and ideas for speaking (e.g., cause-effect, chronological, exemplification)
- OS5 Use language imaginatively (e.g., word games, puns, limericks)
- OS6 Modulate voice to enhance meaning when interpreting literature orally
- OS7 Organize notes and ideas for formal, semiformal, and informal presentations of information
- OS8 Refine speaking techniques for formal, semiformal, and informal settings
- OS9 Develop repertoire of organizational strategies for presenting information orally
- OS10 Expand vocabulary to fit topic
- OS11 Select topics suitable to audience, situation, and purpose
- OS12 Select appropriate strategies when organizing notes and ideas for speaking

Subunit: Oral Communications—Meaning Construction

Competencies:
- OM1 Make connections between prior knowledge and new information for oral presentations
- OM2 Participate in informal speaking activities (e.g., offering opinions, supporting statements, questions, clarification, entertainment)
- OM3 Use interviewing techniques to gather information
- OM4 Communicate orally to entertain and to inform
- OM5 Participate in group communication activities (e.g., debates, panel discussions, negotiations, book-sharing, roundtables, cooperative/collaborative groups)
- OM6 Take and organize notes when preparing speech/presentation
- OM7 Interpret texts orally to illustrate meaning
- OM8 Respond to needs of various audiences
- OM9 Gather and assess information for speaking
- OM10 Communicate orally to inform and persuade
- OM11 Prepare and deliver formal speech/presentation
- OM12 Participate in a variety of oral interpretations
- OM13 Assess needs of audience, and adjust language and presentation according to their knowledge
- OM14 Analyze and synthesize information for speaking
- OM15 Describe effectiveness of a literary selection
- OM16 Describe topic or idea in order to clarify personal/audience thinking
- OM17 Analyze and synthesize information gathered from a variety of sources (e.g., interviews, hypermedia, reference works) for speaking
- OM18 Describe validity and/or quality of a literary selection and justify selection
- OM19 Interpret orally a variety of literature
- OM20 Describe topic or idea to clarify meaning for others

Subunit: Oral Communication—Application

Competencies:
- OA1 Become proficient at using interviewing techniques
- OA2 Give an oral interpretation for a specific audience
- OA3 Develop and apply oral communication skills for cooperative/collaborative learning
- OA4 Use oral communication for a variety of purposes and audiences (e.g., negotiations, book reviews, rationales)
- OA5 Develop and apply decision-making strategies
- OA6 Practice interviewing techniques
- OA7 Apply interviewing techniques to purposeful interviews
- OA8 Focus oral interpretation on a specific audience

**Subunit: Oral Communications—Multidisciplinary**

Competencies:
- OM1 Value thinking and language of others
- OM2 Develop oral projects collaboratively
- OM3 Be involved in individual, small-group, and whole-group language activities
- OM4 Participate actively in a community of learners
- OM5 Investigate language and cultural differences through oral language activities

**Unit: Mathematics Skills**

**Subunit: Numbers and Number Relations**

Competencies:
- NR1 Compare, order, and determine equivalence of real numbers
- NR2 Estimate answers, compute, and solve problems involving real numbers
- NR3 Compare and contrast real number system, rational number system, and whole number system
- NR4 Extend knowledge to complex number system, and develop facility with its operation

**Subunit: Measurement**

Competencies:
- M1 Estimate and use measurements
- M2 Understand the need for measurement and the probability that any measurement is accurate to some designated specification
- M3 Understand and apply measurements related to power and work
- M4 Understand and apply measurement concepts of distance-rate-time problems and acceleration problems with real-world experiments
- M5 Use real experiments to investigate elasticity, heat, sound, electricity, magnetism, light, acceleration, velocity, energy, and gravity
- M6 Use real-world problem situations involving mass and weight
- M7 Use real-world problem situations involving simple harmonic motion
- M8 Establish ratios with and without common units
- M9 Construct and interpret maps, tables, charts, and graphs as they relate to real-world mathematics
- M10 Understand and solve rate-change problems
- M11 Understand and solve right triangle relationships as they relate to measurement—specifically those that deal with the Pythagorean theorem
- M12 Graph and interpret ordered pairs
- M13 Compute total sales from a variety of items
- M14 Comprehend and compute rates of growth or decay
- M15 Comprehend, compute, and interpret real problems involving annuities
- M16 Develop an ability to identify real problems and provide possible solutions
- M17 Express and apply different types of measurement scales
- M18 Determine area and volume

NOTE: The math subunit on problem solving was not included on this list since it should be a continuing thread throughout all instruction rather than a separate set of competencies.
**Subunit: Estimation and Mental Computation**

Competencies:
- E1 Use estimation to eliminate choices in multiple-choice tests
- E2 Use estimation to determine reasonableness of problem situations in a wide variety of applications
- E3 Estimate shape of graphs of various functions and algebraic expressions
- E4 Use mental computation when computer and calculator are inappropriate

**Subunit: Data Analysis and Probability**

Competencies:
- D1 Organize data into tables, charts, and graphs
- D2 Understand and apply measures of central tendency, variability, and correlation
- D3 Use curve fitting to predict from data
- D4 Use experimental or theoretical probability, as appropriate, to represent and solve problems involving uncertainty
- D5 Use computer simulations and random number generators to estimate probabilities
- D6 Test hypotheses using appropriate statistics
- D7 Read, interpret, and use tables, charts, and graphs to identify patterns, note trends, draw conclusions, and make predictions
- D8 Identify probabilities of events involving unbiased objects
- D9 Use sampling and recognize its role in statistical claims
- D10 Design a statistical experiment to study problem, conduct experiment, and interpret and communicate outcomes
- D11 Describe normal curve in general terms, and use its properties
- D12 Create and interpret discrete probability distributions
- D13 Understand concept of random variable
- D14 Apply concept of random variable to generate and interpret probability distributions, including binomial, uniform, normal, and chi square

**Subunit: Algebra**

Competencies:
- A1 Describe problem situations by using and relating numerical, symbolic, and graphical representations
- A2 Use language and notation of functions in symbolic and graphing settings
- A3 Recognize, relate, and use the equivalent ideas of zeros of a function, roots of an equation, and solution of an equation in terms of graphical and symbolic representations
- A4 Describe and use logic of equivalence in working with equations, inequalities, and functions
- A5 Develop graphical techniques of solution for problem situations involving functions
- A6 Explore and describe characterizing features of functions
- A7 Make arguments and proofs in algebraic settings
- A8 Factor difference of two squares
- A9 Determine slope, midpoint, and distance
- A10 Explore and combine rational functions
- A11 Explore factoring techniques
- A12 Solve quadratic equations by factoring and formula
- A13 Set up and solve linear equations
- A14 Solve systems of linear equations with two variables
- A15 Describe geometric situations and phenomena using variables, equations, and functions
- A16 Describe measures of central tendency, mean, median, mode, and variance algebraically and graphically
- A17 Represent inequalities on the number line and in the coordinate plane
- A18 Use coordinate arguments in making geometric proofs
### Academic Competencies: Total List

<table>
<thead>
<tr>
<th>Number</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>A19</td>
<td>Symbolize transformations of figures and graphs</td>
</tr>
<tr>
<td>A20</td>
<td>Explore geometric basis for functions of trigonometry</td>
</tr>
<tr>
<td>A21</td>
<td>Graph linear functions</td>
</tr>
<tr>
<td>A22</td>
<td>Develop and use vectors to represent direction and magnitude, including operations</td>
</tr>
<tr>
<td>A23</td>
<td>Use polar and parametric equations to describe, graph, and solve problem situations</td>
</tr>
<tr>
<td>A24</td>
<td>Represent sequences and series as functions both algebraically and graphically</td>
</tr>
<tr>
<td>A25</td>
<td>Explore recursive functions and procedures using spreadsheets, other computer utilities, and notions appropriate to these problem situations</td>
</tr>
<tr>
<td>A26</td>
<td>Describe and solve algebraic situations with matrices</td>
</tr>
<tr>
<td>A27</td>
<td>Describe and use inverse relationship between functions, including exponential and logarithmic</td>
</tr>
<tr>
<td>A28</td>
<td>Analyze and describe errors (and their sources) that can be made when using computers and calculators to solve problems</td>
</tr>
<tr>
<td>A29</td>
<td>Decide whether problem situation is best solved using computer, calculator, paper and pencil, or mental arithmetic/estimation techniques</td>
</tr>
<tr>
<td>A30</td>
<td>Explore relationships between complex numbers and vectors</td>
</tr>
<tr>
<td>A31</td>
<td>Make arguments concerning limits, convergence and divergence in contexts involving sequences, series, and other types of functions</td>
</tr>
<tr>
<td>A32</td>
<td>Represent transformations in the plane with matrices</td>
</tr>
<tr>
<td>A33</td>
<td>Contrast and compare algebras of rational, real, and complex numbers with characteristics of a matrix algebra system</td>
</tr>
<tr>
<td>A34</td>
<td>Construct polynomial approximations of a function over specified intervals of convergence</td>
</tr>
<tr>
<td>A35</td>
<td>Examine complex numbers as zeros of functions</td>
</tr>
<tr>
<td>A36</td>
<td>Translate verbal statements into symbolic language</td>
</tr>
<tr>
<td>A37</td>
<td>Simplify algebraic expressions</td>
</tr>
<tr>
<td>A38</td>
<td>Use laws and exponents (including scientific notation)</td>
</tr>
<tr>
<td>A39</td>
<td>Expand and extend idea of vectors and linear algebra to higher dimensional situations</td>
</tr>
<tr>
<td>A40</td>
<td>Use the idea of independent basis elements for a vector space and associated fundamental concepts of finite dimensional linear algebra</td>
</tr>
<tr>
<td>A41</td>
<td>Develop and communicate arguments about limit situations</td>
</tr>
<tr>
<td>A42</td>
<td>Use matrices to describe and apply transformations</td>
</tr>
<tr>
<td>A43</td>
<td>Develop and use polar and parametric equations to represent problem situations</td>
</tr>
<tr>
<td>A44</td>
<td>Explore proofs by mathematical induction</td>
</tr>
</tbody>

### Subunit: Geometry

**Competencies:**

<table>
<thead>
<tr>
<th>Number</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>G1</td>
<td>Create and interpret drawings of three-dimensional objects</td>
</tr>
<tr>
<td>G2</td>
<td>Represent problem situations with geometric models and apply properties of figures</td>
</tr>
<tr>
<td>G3</td>
<td>Apply Pythagorean theorem</td>
</tr>
<tr>
<td>G4</td>
<td>Demonstrate knowledge of angles and parallel and perpendicular lines</td>
</tr>
<tr>
<td>G5</td>
<td>Explore inductive and deductive reasoning through applications to various subject areas</td>
</tr>
<tr>
<td>G6</td>
<td>Translate between synthetic and coordinate representations</td>
</tr>
<tr>
<td>G7</td>
<td>Identify congruent and similar figures using transformation with computer programs</td>
</tr>
<tr>
<td>G8</td>
<td>Deduce properties of figures using transformations and coordinates</td>
</tr>
<tr>
<td>G9</td>
<td>Use deductive reasoning</td>
</tr>
<tr>
<td>G10</td>
<td>Explore compass and straightedge constructions in context of geometric theorems</td>
</tr>
<tr>
<td>G11</td>
<td>Demonstrate knowledge of and ability to use proof</td>
</tr>
<tr>
<td>G12</td>
<td>Use variety of proof techniques (e.g., synthetic, transformational, and coordinate)</td>
</tr>
<tr>
<td>G13</td>
<td>Use variety of proof formats, including T-proof (i.e., two-column) and paragraph proof</td>
</tr>
<tr>
<td>G14</td>
<td>Explore different proof strategies</td>
</tr>
<tr>
<td>G15</td>
<td>Investigate different proofs of theorems</td>
</tr>
<tr>
<td>G16</td>
<td>Develop knowledge of an axiomatic system</td>
</tr>
<tr>
<td>G17</td>
<td>Apply transformations and coordinates in problem solving</td>
</tr>
<tr>
<td>G18</td>
<td>Represent problem situations with geometric models, and apply properties of figures</td>
</tr>
</tbody>
</table>

---

**Page:** 59
G19 Deduce properties of figures using vectors
G20 Analyze properties of Euclidean transformations, and relate translations to vectors
G21 Apply vectors in problem solving
G22 Develop further knowledge of axiomatic systems by investigating and comparing various geometries

Subunit: Patterns, Relations, and Functions

Competencies:
P1 Model real-world phenomena with polynomial and exponential functions
P2 Explore relationship between zeros and intercepts of functions
P3 Translate among tables, algebraic expressions, and graphs of functions
P4 Use graphing calculator or computer to generate graph of a function
P5 Explore relationship between a linear function and its inverse
P6 Describe and use characteristics of polynomial functions in problem-solving situations
P7 Explore conic sections, and graph using graphing calculator or computer
P8 Apply trigonometric functions to problem situations involving triangles
P9 Discover general relationships between algebraic description of conic, kind of conic, and special properties of that conic
P10 Explore periodic real-world phenomena using sine and cosine functions
P11 Analyze effects of parameter changes on graphs
P12 Use graphing calculator or computer to graph functions
P13 Develop a knowledge of rational and transcendental functions
P14 Understand connections between trigonometric and circular functions
P15 Use circular functions to model periodic real-world functions
P16 Solve trigonometric equations, and verify trigonometric identities
P17 Understand connections between trigonometric functions and polar coordinates, exponential functions, logarithmic functions, complex numbers, and series
P18 Model real-world phenomena with a variety of functions
P19 Graph using polar coordinates
P20 Explore graphs in three dimensions
P21 Explore functions of several variables
P22 Explore recursive functions using spreadsheets and/or programming languages

Subunit: Scientific Inquiry

Competencies:
Q1 Check the appropriateness and accuracy of measures and computations using various strategies (e.g., estimations, unit analysis, determination of significant figures)
Q2 Use ratios, proportions, and probabilities in appropriate problem situations
Q3 Translate information from and represent information in various forms with equal ease (e.g., tables, charts, graphs, diagrams, geometric figures)
Q4 Use existing algebraic formulas and create new ones in appropriate problem-solving situations
Q5 Estimate and justify probabilities of outcomes of familiar situations based on experimentation and other strategies
Q6 Invent apparatus and mechanical tools needed to perform unique tasks in various situations
Q7 Identify, compare, and contrast different modes of inquiry, habits of mind, and attitudes and dispositions
Q8 Design investigations that are safe and ethical (i.e., obtain consent and inform others of potential outcomes, risks, and benefits; and show evidence of concern for the health and safety of humans and non-human species)
Q9 Make and read scale drawings, maps, models, and other representations to aid planning and understanding
Q10 Seek elaboration and justification of data and ideas, and reflect on alternative interpretations of the information
Q11 Use appropriate units for counts and measures
Q12 Create and use databases (electronic and other) to collect, organize, and verify data and observations
Q13 Design and conduct investigations with multiple variables
Q14 Examine relationships in nature, offer alternative explanations for the observations, and collect evidence that can be used to help judge among explanations
Q15 Trace the development (e.g., history, controversy, and ramifications) of various theories, focusing on supporting evidence and modification with new evidence
Q16 Select, invent, and use tools, including analog and digital instruments, to make and record direct measurements
Q17 Observe and document events and characteristics of complex systems
Q18 Explain the influence of perspective (e.g., spatial, temporal, and social) on observation and subsequent interpretations
Q19 Create multiple representations of the same data using a variety of symbols, descriptive languages, mathematical concepts, and graphic techniques
Q20 Generate testable hypotheses for observations of complex systems and interactions
Q21 Document potentially hazardous conditions and associated risks in selected homes and public areas
Q22 Participate in public debates, relying on documented and verified data to construct and represent a position on scientific issues
Q23 Construct and test models of physical, biological, social, and geological systems
Q24 Read, verify, debate, and, where necessary, refute research published in popular or technical journals of science (e.g., Discover, Omni, Popular Mechanics)
Q25 Explore discrepant events and develop and test explanations of what was observed
Q26 Conduct theory-based research using surveys, observational instruments, and other methods
Q27 Modify personal opinions, interpretations, explanations, and conclusions based on new information
Q28 Analyze error and develop explanations in various domains
Q29 Formulate taxonomic schemes based upon multivariate models that help to explain similarities and differences in form, distribution, behavior, survival, and origin of objects and organisms
Q30 Demonstrate various logical connections between related concepts (e.g., entropy, conservation of energy)
Q31 Account for discrepancies between theories and observations
Q32 Analyze the changes within a system when inputs, outputs, and interactions are altered
Q33 Create, standardize, and document procedures
Q34 Determine the sources of significant disparities between the predicted and recorded results, and change research procedures to minimize disparities
Q35 Research, locate, and propose applications for abstract patterns (e.g., fractals, Fibonacci sequences, string theory, orbitals)
Q36 Recognize and utilize classification systems for particles, elements, compounds, phenomena, organisms, and others for exploring and predicting properties and behaviors
Q37 Suggest and defend experimental designs and data explanations (e.g., sampling, controls, safeguards)
Q38 Recognize and communicate differences between questions that can be investigated in a scientific way and those that rely on other ways of knowing
Q39 Draw conclusions based on the relationships among data analysis, experimental design, and possible models and theories
Q40 Suggest new questions as a result of reflection on and discussions about own scientific investigations
Q41 Investigate, assess, and comment on strengths and weakness of the descriptive and predictive powers of science
Q42 Create new information from representations of data in a variety of forms (e.g., symbols, descriptive languages, graphic formats) utilizing a variety of techniques (e.g., interpolations, extrapolations, linear regressions, central tendencies, correlations)
Subunit: Scientific Knowledge

Competencies:

K1  Investigate various types of dynamic equilibrium (e.g., biological, geological, mechanical, chemical)
K2  Investigate the relationship between the rates of energy exchange and the relative energy level of components within systems (e.g., trophic levels of ecosystems, osmosis, rate of heating and cooling, storms)
K3  Investigate patterns in the natural world (e.g., heredity, crystalline structures, population and resource distributions, diffraction, dispersion, polarization)
K4  Investigate models and theories that help to explain the interactions of components in systems (e.g., conservation of mass, energy, and momentum; foodwebs; natural selection; entropy; plate tectonics; chaos; relativity; social-psychology)
K5  Investigate degrees of kinship among organisms and groups of organisms
K6  Investigate the limits of the definition of life, and investigate organisms and physical systems that exist at or near these limits (e.g. viruses, quarks, black holes)
K7  Investigate estimates and measurements of a wide range of distances and rates of change
K8  Investigate the historical development of theories of change over time (e.g., natural selection, continental drift, the big bang, geologic change)
K9  Investigate physical and chemical changes in living and nonliving systems (e.g., photosynthesis, weathering processes, glaciation, thermal effects of materials, energy cells)
K10 Investigate simulations of nuclear change (e.g., radioactivity, half life, carbon dating)
K11 Investigate conservation principles associated with physical, chemical, and nuclear changes
K12 Formulate descriptions of the impacts of various forms of mechanical and electromagnetic waves on various organisms and objects
K13 Formulate models and hypotheses for patterns in the natural world (e.g., earth structures, transportation systems, migrations, communications, constellations)
K14 Formulate explanations for the influences of objects and organisms on each other over time
K15 Formulate and interpret explanations for change phenomena (e.g., mass extinctions, stellar evolution, punctuated equilibrium, molecular synthesis)
K16 Formulate and interpret explanations for the magnitudes of diversity at different periods of geologic time (e.g., mutation, global cataclysms, continental drift, competition, mass extinctions)
K17 Formulate interpretations of the structure, function, and diversity in a variety of organisms and physical systems (e.g., DNA and RNA variants, nucleons, interaction particles)
K18 Formulate understandings of geologic time (e.g., millennia, periods, epochs)
K19 Formulate an understanding of the historical development of the model of the universe (e.g., Aristotle, Ptolemy, Copernicus, Brahe, Kepler, Galileo, Newton, Einstein)
K20 Formulate explanations and representations of the production, transmission, and conservation of energy in biological and physical systems (e.g., weather, volcanism, earthquakes, electricity, magnetism, cellular respiration)
K21 Formulate models and hypotheses about patterns in the natural world (e.g., social behavior, molecular structure, energy transformation, entropy, randomness, aging, chaos, hormonal cycles)
K22 Formulate interpretations of the relationship between energy exchange and the interfaces between components within systems
K23a Formulate estimations for the range of energies within and between various phenomena (e.g., thermal, electromagnetic, thermonuclear, chemical, electrical)
K23b Formulate explanations for the historical development of descriptions of motions interactions and transformations of matter and energy (e.g., classical Newtonian mechanics, special and general relativity, chaos)
K24 Formulate models that can be used to describe fundamental molecular interactions in living and nonliving systems (e.g., cell membranes, semiconductors)
K25 Formulate an understanding of the degree of relationship among organisms and objects based on molecular structure (e.g., proteins, nucleic acids)
K26 Formulate hypotheses and models that may account for observable events (e.g., electricity and magnetism, gravitation, atoms, bonding, chemical reactions, quantum effects, energy flow on biological systems, predator-prey relationships)
K27 Formulate models and hypotheses about change over time (e.g., natural selection, speciation, punctuated equilibrium, phyletic gradualism, stellar evolution, plate tectonics, radioactive decay, quantum mechanical theory)

K28 Formulate lists of limitations, and propose refinements of standard classification systems (e.g., periodic table, IUPAC, Linnean, standard model)

K29 Formulate specific cases of limitations and possible exceptions of theories and principles regarding the interactions of moving objects and organisms (e.g., fluid flow in vessels, motion near the speed of light, Heisenberg uncertainty principle, meteorological prediction, local variation and diversity, earthquake prediction, energy transport in cellular respiration)

K30 Formulate plans and contingencies that can be used to accommodate for changes to and stresses on systems (e.g., wildlife and habitat management, corrosion prevention, noise abatement, structure design)

K31 Formulate models of molecular, atomic, ionic, and subatomic structures and the physical and biological implications of these structures (e.g., genes, nucleons, quarks)

K32 Formulate estimates for a wide range of measurements and scales (e.g., angstroms to light years)

K33 Formulate and interpret representations of time from origin to present accounting for phenomena of scale (e.g., smoothness, punctuations, chaos)

K34 Formulate interpretations of the historical development of various theories of possible causes of diversity among physical and biological phenomena (e.g., the works of Aristotle, Mendel, Darwin, McClintock)

K35 Formulate models and hypotheses that can be used to explain the interactions of components within technological and ecological systems

Subunit: Conditions for Learning Science

Competencies:

C1 Participate actively in dialogue about and resolution of community issues

C2 Assess information from various countries in the original language or translated form to ascertain the perspectives of many cultures

C3 Analyze the scientific ideas presented in science fiction stories and films

C4 Perform and repeat investigations to verify data, determine regularity, and reduce the impact of experimental error

C5 Present the results of investigations in a variety of forums

C6 Contribute to the decisions regarding topics for investigation

C7 Use various creative means to communicate interpretations of scientific ideas, concepts, phenomena, and events

C8 Consider the scientific thinking and language of others

C9 Individually and collaboratively produce clearly written representations of investigative results

C10 Fulfill responsibilities as part of a research group

C11 Select and utilize resources by various criteria (e.g., efficiency, effectiveness, health, safety) that are appropriate to the investigations being conducted by groups

C12 Present persuasive argument based on the scientific aspects of controversial issues

C13 Collect, store, retrieve, and manipulate information with available technologies that may range from hand processes up through computer applications

C14 Investigate social issues with a scientific perspective (e.g., human rights, wellness, economics, futurism, environmental ethics)

C15 Keep journals of observations and inferences made over an extended period of time, and reflect upon the impact of these recorded ideas on own thinking and actions

C16 Examine the intellect, perspectives, and ethics of notable scientists

C17 Collect and analyze observations made over extended periods of time and compare these to scientific theories

C18 Create presentations of scientific understandings using diverse modes of expressions

C19 Conduct formal scientific debates in the classroom
C20 Wonder about the likelihood of events that may occur by chance or coincidence
C21 Plan and conduct field trips and experiences for small and large groups
C22 Analyze the historical context that leads to and has led to scientific theories
C23 Seek information on topics of personal scientific interest from a variety of sources
C24 Conduct learner-developed investigations independently and collaboratively over periods of weeks and months
C25 Listen attentively and critically to presentations of scientific information made by others
C26 Conduct analyses of propaganda related to scientific issues
C27 Perform investigations that require observations over varying periods of time
C28 Experience scientific concepts as interpreted by other cultures through multimedia and local and global specialists
C29 Access appropriate technology to perform complicated, time-consuming tasks
C30 Relate historical accounts of science to the cultural context in which they were written
C31 Work as a contributing member of a collaborative research group
C32 Examine the influences of social and political structures and realities that contribute to inquiry about scientific issues
C33 Use technology (e.g., desktop publishing, teleconferencing, networking) to communicate scientific ideas
C34 Explore and analyze a variety of perspectives on science (e.g., works by men and women of many racial, ethnic, and cultural groups)
C35 Lead groups of learners of various ages in designing, planning, and conducting science activities
C36 Respect the scientific thinking of others and self
C37 Recognize and contrast different epistemologies
C38 Develop possible courses of action in response to scientific issues of local and global concern
C39 Determine the validity of research conclusions in relation to the design, performance, and results
C40 Develop multimedia presentations of group and individual research projects and investigations appropriate for a variety of audiences and forums
C41 Produce interesting and scientifically correct stories and present them using various modes of expression
C42 Reflect on the ideas and content found in own journal records
C43 Examine ambiguous results and formulate explanations
C44 Recognize and synthesize the contributions to scientific thought of individuals from many cultures
C45 Construct models and simulations of the component structures and functions of living and nonliving entities
C46 Lead multi-age groups in the examination of and planned resolution for scientific issues
C47 Recognize and choose members of research teams based upon the merit of their ideas and skills
C48 Construct a portfolio of products, documentation, and self-evaluations of own abilities, skills, and experiences
C49 Synthesize scientific information from a variety of sources
C50 Evaluate and prioritize scientific issues based upon risk-benefit analyses
C51 Refine scientific skills from a variety of experiences

Subunit: Applications for Science Learning

Competencies:

A1 Answer student-determined questions by designing databases and drawing inferences from the analyses of the information in these databases
A2 Make personal behavior decisions by interpreting information that has a scientific basis
A3 Propose courses of action that will validate and demonstrate personal understandings of scientific principles
A4 Guide other learners in their understanding of the interactions of technologies and society at various periods in time
A5 Promote and carry out practices that contribute to a sustainable environment
A6 Study and propose improvements in public services and systems in own community
A7 Choose consumer materials utilizing personal and environmental risk and benefit information
A8 Make inferences and draw conclusions using databases, spreadsheets, and other technologies
A9 Do simple troubleshooting on common electrical and mechanical systems, identifying and eliminating possible causes of malfunctions
A10 Construct devices that perform simple, repetitive actions
A11 Investigate the functionality of various geometric shapes in the natural world and the designed world (e.g., translations from spherical to plane representations cause distortions; triangular shapes contribute to rigidity and stability in structures; round shapes minimize boundary for a given capacity)
A12 Make decisions regarding personal and public health
A13 Evaluate the social and ecological risks and benefits resulting from the use of various consumer products
A14 Analyze the contributions of advances in technology through history to own everyday life
A15 Identify and reduce risks and threats to a sustainable environment
A16 Extend the limits of human capabilities using technological enhancements
A17 Use and recognize various propaganda techniques
A18 Solve unique problems using the results of systematic analyses
A19 Choose everyday consumer products that utilize recent innovation and pass appropriate performance criteria
A20 Refine personal career interests through investigations of the diversity of manufacturing, research, service, and invention processes
A21 Predict and investigate the working of toys and tools while controlling and manipulating variables (e.g., friction, gravity, forces)
A22 Write, follow, modify, and extend instructions (e.g., equations, algorithms, formulas, flow diagrams, illustrations)
A23 Create products, make inferences, and draw conclusions using databases, spreadsheets, and other technologies
A24 Predict various scenarios and propose solutions to community issues using scientific information (e.g., actuarial tables, census data, topographic maps, incidence data, climatic data)
A25 Use scientific evidence to consider options and formulate positions about the health and safety of others and self
A26 Search for, use, create, and store objects and information using various strategies and methods of organization and access
A27 Research and write environmental impact statements of own design
A28 Compare school-based science perspectives with those gained through cutting-edge technological applications
A29 Design management plans for natural and human-altered environments (e.g., woodlots, patios, lots, lawns, farmlands, forests)
A30 Refine personal career interests
A31 Promote public awareness of the interaction of technology with social issues
A32 Advocate and propose courses of action for local and global scientific issues using global networks
A33 Use appropriate technologies to prepare and present the findings of investigations incorporating tables, graphs, diagrams, and text
A34 Make informed consumer choices by evaluating and prioritizing information, evidence, and strategies
A35 Develop an informed point of view that allows for validation or refutation of the scientific statements and claims of advocates before pursuing courses of action (e.g., contributing support, signing petitions, casting votes)
A36 Differentiate between observations and inferences in the exploration of evidence related to personal, scientific, and community issues
A37 Develop and write environmental impact, and safety and hygiene management plans
A38 Use technology to collect, analyze, and communicate information (e.g., electronic networks, desktop publishing, remote sensing, graphing calculators, satellite telemetry, and others)
A39 Design, construct, and market inventions
Academic Competencies: Business Information Systems

The Business Information Systems OCAP panel of expert workers (see member list on the inside back cover) identified the following academic competencies (from the total list, pp. 48-62) as most crucial to the entry-level success of an employee in the area of business information systems. It is recommended that these competencies be taught in an applied manner for students enrolled in business information systems programs.

Subunit: Reading—Structure

Competencies:

<table>
<thead>
<tr>
<th>RS1</th>
<th>Exhibit knowledge of language structure</th>
</tr>
</thead>
<tbody>
<tr>
<td>RS2</td>
<td>Recognize that there may be more than one interpretation of reading selections</td>
</tr>
<tr>
<td>RS5</td>
<td>Develop and use an increasingly sophisticated vocabulary gained through context</td>
</tr>
<tr>
<td>RS6</td>
<td>Apply knowledge of language structure to reading</td>
</tr>
<tr>
<td>RS7</td>
<td>Explain why there may be more than one interpretation of reading selections</td>
</tr>
<tr>
<td>RS15</td>
<td>Apply an expanding vocabulary gained through reading</td>
</tr>
</tbody>
</table>

Subunit: Reading—Meaning Construction

Competencies:

<table>
<thead>
<tr>
<th>RM3</th>
<th>Read to clarify personal thinking and knowledge</th>
</tr>
</thead>
<tbody>
<tr>
<td>RM4</td>
<td>Support interpretation of text by locating and citing specific information</td>
</tr>
<tr>
<td>RM9</td>
<td>Self-monitor and apply corrective strategies when communication has been interrupted or lost</td>
</tr>
<tr>
<td>RM12</td>
<td>Use reading as a possible problem-solving strategy to clarify personal thinking and knowledge</td>
</tr>
<tr>
<td>RM17</td>
<td>Clarify meaning when reading, using knowledge of literary devices, stylistic diction, and other semantic elements</td>
</tr>
<tr>
<td>RM20</td>
<td>Use reference books to find, evaluate, and synthesize information</td>
</tr>
</tbody>
</table>

Subunit: Reading—Multidisciplinary

Competencies:

<table>
<thead>
<tr>
<th>RM2</th>
<th>Read to facilitate learning across curriculum</th>
</tr>
</thead>
<tbody>
<tr>
<td>RM9</td>
<td>Read to facilitate content learning</td>
</tr>
</tbody>
</table>

Unit: Communications Skills
Academic Competencies: Business Information Systems

Subunit: Writing—Structure

Competencies:

<table>
<thead>
<tr>
<th>WS2</th>
<th>Clarify word choice according to audience, topic, and purpose</th>
</tr>
</thead>
<tbody>
<tr>
<td>WS3</td>
<td>Locate and correct errors in usage, spelling, and mechanics (e.g., subject-verb agreement, parallel construction, pronoun reference, punctuation, capitalization, sentence structure) using a variety of resources</td>
</tr>
<tr>
<td>WS5</td>
<td>Develop writing that contains ordered, related, well-developed paragraphs with sentences of varied lengths and patterns</td>
</tr>
<tr>
<td>WS6</td>
<td>Use information from a variety of sources to develop an integrated piece of writing</td>
</tr>
<tr>
<td>WS8</td>
<td>Recognize differences between documentation and reference list styles</td>
</tr>
<tr>
<td>WS14</td>
<td>Use style manuals or software to prepare documentation and reference lists</td>
</tr>
<tr>
<td>WS17</td>
<td>Respond to others' suggested revisions to a writing piece</td>
</tr>
</tbody>
</table>

Subunit: Writing—Meaning Construction

Competencies:

<table>
<thead>
<tr>
<th>WM4</th>
<th>Use word processing, graphics, and publishing as aids for constructing meaning in writing</th>
</tr>
</thead>
<tbody>
<tr>
<td>WM6</td>
<td>Incorporate personal criteria with generally accepted standards for writing evaluation</td>
</tr>
<tr>
<td>WM10</td>
<td>Recognize and refine personal writing styles</td>
</tr>
</tbody>
</table>

Subunit: Writing—Application

Competencies:

<table>
<thead>
<tr>
<th>WA1</th>
<th>Apply appropriate writing techniques (e.g., prewriting, drafting, revising, editing, presenting) suitable for varied writing tasks</th>
</tr>
</thead>
<tbody>
<tr>
<td>WA5</td>
<td>Consider audience and purpose for writing</td>
</tr>
<tr>
<td>WA8</td>
<td>Apply an expanding vocabulary gained through writing</td>
</tr>
<tr>
<td>WA9</td>
<td>Make judicious use of reference sources (e.g., dictionary, thesaurus, online database, encyclopedia)</td>
</tr>
<tr>
<td>WA11</td>
<td>Apply revising and editing strategies needed for writing task</td>
</tr>
<tr>
<td>WA21</td>
<td>Develop topic fully and appropriately</td>
</tr>
<tr>
<td>WA22</td>
<td>Use writing process to clarify personal thinking and knowledge</td>
</tr>
</tbody>
</table>

Subunit: Writing—Multidisciplinary

Competencies:

| WM3 | Value and apply collaborative skills in the writing process |

Subunit: Listening/Visual Literacy—Structure

Competencies:

<table>
<thead>
<tr>
<th>LS3</th>
<th>Recognize correct and appropriate grammar, diction, and syntax</th>
</tr>
</thead>
<tbody>
<tr>
<td>LS4</td>
<td>Expand vocabulary through listening to and viewing varied media (e.g., recordings, films, music, news broadcasts)</td>
</tr>
<tr>
<td>LS9</td>
<td>Expand and refine grammar, diction, and syntax through listening</td>
</tr>
</tbody>
</table>
Subunit: Listening/Visual Literacy—Meaning Construction

Competencies:

| LM1 | Develop critical thinking skills necessary to evaluate media and assess oral presentations |
| LM5 | Gather information from listening and viewing experiences to enhance research |
| LM6 | Use critical thinking skills to evaluate media and oral presentations |
| LM10 | Use information gathered from listening and viewing experiences to expand research |

Subunit: Listening/Visual Literacy—Application

Competencies:

| LA1 | Listen attentively during oral reading |
| LA6 | Use technology and other media (e.g., videos, posters, maps, graphs, t-shirts) as means of expressing ideas |

Subunit: Listening/Visual Literacy—Multidisciplinary

Competencies:

| LM2 | Engage in individual, small-group, and whole-group listening and viewing activities |
| LM3 | Develop language arts (e.g., viewing, listening) projects collaboratively |

Subunit: Oral Communication—Structure

Competencies:

| OS1 | Refine oral communication skills (e.g., voice modulation, eye contact, body language) |
| OS2 | Demonstrate knowledge of grammar, usage, and syntax when presenting |
| OS3 | Select topics and vocabulary suitable to audience |
| OS4 | Organize notes and ideas for speaking (e.g., cause-effect, chronological, exemplification) |
| OS7 | Organize notes and ideas for formal, semiformal, and informal presentations of information |
| OS8 | Refine speaking techniques for formal, semiformal, and informal settings |
| OS9 | Develop repertoire of organizational strategies for presenting information orally |
| OS10 | Expand vocabulary to fit topic |
| OS11 | Select topics suitable to audience, situation, and purpose |
| OS12 | Select appropriate strategies when organizing notes and ideas for speaking |

Subunit: Oral Communications—Meaning Construction

Competencies:

| OM2 | Participate in informal speaking activities (e.g., offering opinions, supporting statements, questions, clarification, entertainment) |
| OM5 | Participate in group communication activities (e.g., debates, panel discussions, negotiations, book-sharing, roundtables, cooperative/collaborative groups) |
| OM6 | Take and organize notes when preparing speech/presentation |
| OM8 | Respond to needs of various audiences |
| OM9 | Gather and assess information for speaking |
| OM10 | Communicate orally to inform and persuade |
**Subunit: Oral Communication—Application**

Competencies:

- OA1: Become proficient at using interviewing techniques
- OA5: Develop and apply decision-making strategies
- OA6: Practice interviewing techniques

**Subunit: Oral Communications—Multidisciplinary**

Competencies:

- OM1: Value thinking and language of others
- OM3: Be involved in individual, small-group, and whole-group language activities

**Unit: Mathematics Skills**

**Subunit: Numbers and Number Relations**

Competencies:

- NR1: Compare, order, and determine equivalence of real numbers
- NR2: Estimate answers, compute, and solve problems involving real numbers

**Subunit: Measurement**

Competencies:

- M1: Estimate and use measurements
- M2: Understand the need for measurement and the probability that any measurement is accurate to some designated specification
- M9: Construct and interpret maps, tables, charts, and graphs as they relate to real-world mathematics
- M10: Understand and solve rate-change problems
- M12: Graph and interpret ordered pairs
- M13: Compute total sales from a variety of items
- M15: Comprehend, compute, and interpret real problems involving annuities
- M16: Develop an ability to identify real problems and provide possible solutions
- M17: Express and apply different types of measurement scales

**Subunit: Estimation and Mental Computation**

Competencies:

- E1: Use estimation to eliminate choices in multiple-choice tests
- E2: Use estimation to determine reasonableness of problem situations in a wide variety of applications
- E4: Use mental computation when computer and calculator are inappropriate
**Subunit: Data Analysis and Probability**

Competencies:

<table>
<thead>
<tr>
<th>Code</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>D1</td>
<td>Organize data into tables, charts, and graphs</td>
</tr>
<tr>
<td>D5</td>
<td>Use computer simulations and random number generators to estimate probabilities</td>
</tr>
<tr>
<td>D7</td>
<td>Read, interpret, and use tables, charts, and graphs to identify patterns, note trends, draw conclusions, and make predictions</td>
</tr>
<tr>
<td>D9</td>
<td>Use sampling and recognize its role in statistical claims</td>
</tr>
<tr>
<td>D13</td>
<td>Understand concept of random variable</td>
</tr>
</tbody>
</table>

**Subunit: Algebra**

Competencies:

<table>
<thead>
<tr>
<th>Code</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>A1</td>
<td>Describe problem situations by using and relating numerical, symbolic, and graphical representations</td>
</tr>
<tr>
<td>A2</td>
<td>Use language and notation of functions in symbolic and graphing settings</td>
</tr>
<tr>
<td>A16</td>
<td>Describe measures of central tendency, mean, median, mode, and variance algebraically and graphically</td>
</tr>
<tr>
<td>A28</td>
<td>Analyze and describe errors (and their sources) that can be made when using computers and calculators to solve problems</td>
</tr>
<tr>
<td>A29</td>
<td>Decide whether problem situation is best solved using computer, calculator, paper and pencil, or mental arithmetic/estimation techniques</td>
</tr>
</tbody>
</table>

**Subunit: Geometry**

Competencies:

<table>
<thead>
<tr>
<th>Code</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>G9</td>
<td>Use deductive reasoning</td>
</tr>
</tbody>
</table>

**Unit: Science Skills**

**Subunit: Scientific Inquiry**

Competencies:

<table>
<thead>
<tr>
<th>Code</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Q1</td>
<td>Check the appropriateness and accuracy of measures and computations using various strategies (e.g., estimations, unit analysis, determination of significant figures)</td>
</tr>
<tr>
<td>Q2</td>
<td>Use ratios, proportions, and probabilities in appropriate problem situations</td>
</tr>
<tr>
<td>Q3</td>
<td>Translate information from and represent information in various forms with equal ease (e.g., tables, charts, graphs, diagrams, geometric figures)</td>
</tr>
<tr>
<td>Q4</td>
<td>Use existing algebraic formulas and create new ones in appropriate problem-solving situations</td>
</tr>
<tr>
<td>Q5</td>
<td>Estimate and justify probabilities of outcomes of familiar situations based on experimentation and other strategies</td>
</tr>
<tr>
<td>Q9</td>
<td>Make and read scale drawings, maps, models, and other representations to aid planning and understanding</td>
</tr>
</tbody>
</table>

Continued
**Subunit: Scientific Inquiry—Continued**

| Q11 | Use appropriate units for counts and measures |
| Q12 | Create and use databases (electronic and other) to collect, organize, and verify data and observations |
| Q14 | Communicate the results of investigations clearly in a variety of situations |
| Q28 | Modify personal opinions, interpretations, explanations, and conclusions based on new information |
| Q31 | Demonstrate various logical connections between related concepts (e.g., entropy, conservation of energy) |
| Q32 | Account for discrepancies between theories and observations |
| Q33 | Analyze the changes within a system when inputs, outputs, and interactions are altered |
| Q34 | Create, standardize, and document procedures |
| Q40 | Draw conclusions based on the relationships among data analysis, experimental design, and possible models and theories |
| Q41 | Suggest new questions as a result of reflection on and discussions about own scientific investigations |

**Subunit: Conditions for Learning Science**

**Competencies:**

| C1  | Participate actively in dialogue about and resolution of community issues |
| C4  | Perform and repeat investigations to verify data, determine regularity, and reduce the impact of experimental error |
| C5  | Present the results of investigations in a variety of forums |
| C9  | Individually and collaboratively produce clearly written representations of investigative results |
| C10 | Fulfill responsibilities as part of a research group |
| C11 | Select and utilize resources by various criteria (e.g., efficiency, effectiveness, health, safety) that are appropriate to the investigations being conducted by groups |
| C13 | Collect, store, retrieve, and manipulate information with available technologies that may range from hand processes up through computer applications |
| C24 | Conduct learner-developed investigations independently and collaboratively over periods of weeks and months |
| C33 | Use technology (e.g., desktop publishing, teleconferencing, networking) to communicate scientific ideas |

**Subunit: Applications for Science Learning**

**Competencies:**

| A1  | Answer student-determined questions by designing databases and drawing inferences from the analyses of the information in these databases |
| A8  | Make inferences and draw conclusions using databases, spreadsheets, and other technologies |
| A38 | Use technology to collect, analyze, and communicate information (e.g., electronic networks, desktop publishing, remote sensing, graphing calculators, satellite telemetry, and others) |
Verification Panels

The Vocational Instructional Materials Laboratory wishes to extend thanks and appreciation to the many representatives of business, industry, labor, and community organizations who donated their time and expertise to the identification and revalidation of competencies.

The following panel was responsible for verifying the occupational competencies on the Business Information Systems OCAP, identifying those academic competencies that an entry-level employee should possess, and determining the Work Keys academic skill levels required for successful entry into the occupation:

William Mike Gregory, CompuServe, Columbus, Ohio
John A. Hage, Chopnik Enterprises, Gahanna, Ohio
Daniel D. Houser, CCP, CDP, CSP, Compuware Corporation, Columbus, Ohio
Tony Long, B G Management Services, Inc., Geneva, Ohio
Gregory E. Mason, Columbia Gas System Service Corp., Columbus, Ohio
William Moore, State of Ohio—Department of Taxation, Columbus, Ohio
James R. O’Bryant Jr., Emro Marketing, Enon, Ohio
Jeffry Snyder, Thomson Consumer Electronics, Circleville, Ohio
Lawrence E. Tarka, Computer Services, Willoughby-Eastlake City Schools, Willoughby, Ohio

The following panel was responsible for verifying the competencies on the Employability OCAP:

Barbara J. Forster, Nationwide Insurance, Columbus, Ohio
Joan L. Hall, Health Management Nursing, Chesapeake, Ohio
Jane Highland, Southern Ohio Staffing, Inc., Chillicothe, Ohio
Chuck Jackson, Butech, Inc., Salem, Ohio
Garry Kessel, Medina Auto Parts, Inc., Medina, Ohio
Joyce A. McMickens, Ernst & Young, Cleveland, Ohio
Julie C. Payeff, The Andersons Management Corp., Maumee, Ohio
Patricia Piper, Edison Industrial Systems Center, Toledo, Ohio
Gary F. Rybak, Red Roof Inns, Inc., Hilliard, Ohio
