This final report describes the federally-funded Transition Challenge-North Carolina Project (TRAC-NC), a project that prepared 45 newly qualified individuals to serve students with low-incidence disabilities over the last four years. The project provides: (1) add-on certification and/or master's degree training to persons preparing to teach individuals with low-incidence disabilities (100 students are currently TRAC-NC scholars); (2) supplementary training to add-on certification and/or master's degree students to assure depth of knowledge in several specific areas of low-incidence disabilities; (3) an extensive library of print and video resources regarding low-incidence disabilities; and (4) a permanent masters degree program within the Special Education Department of the School of Education at East Carolina University. The project has also been approved by the North Carolina Department of Public Instruction as a teacher-training site for certification in the area of severe/profound disabilities. Courses specifically designed for the TRAC-NC program include: Introduction to Low Incidence Populations, Methods and Curriculum in Elementary and Transition Programming for Students with Low Incidence Disabilities, Methods and Curriculum for Secondary Programming and Competitive Employment for Students with Low Incidence Disabilities, and six hours of supervised intern experience in programs for students with severe/profound disabilities. U.S. Department of Education grant H029A70041-98
The demand for fully qualified personnel to provide educational services to individuals with low-incidence disabilities continues to exceed availability. Due to the small number of personnel needed in each state for these highly specialized positions, there is a continuing reluctance on the part of higher education and state level training programs to support professional development programs designed specifically for these areas of training. The logistical and financial difficulties involved in providing such teacher training programs are amplified even further in the context of a rural, poverty area such as eastern North Carolina. The Transition Challenge-North Carolina Project (1993-1997) prepared 45 newly qualified individuals to serve students with low-incidence disabilities over the last four years. But even with this recent success, eastern North Carolina continues to experience an emergency situation, where very few students with low-incidence disabilities actually receive services from personnel who are specifically trained to meet their needs.

The (1997-2000) TRAC-NC project (1) provides add-on certification and/or master's degree training to persons preparing to teach individuals with low-incidence disabilities (100 students are currently TRAC-NC scholars); (2) provides supplementary training to add-on certification and/or master's degree students to assure depth of knowledge in several specific areas of low-incidence disabilities; (3) has an extensive library of print and video resources regarding low-incidence disabilities; (4) has developed into a permanent masters degree program within the Special Education Department of the School of Education at East
Personnel Preparation - Low Incidence Populations

Carolina University; (5) has been approved by the Department of Public Instruction, North Carolina as a teacher-training site for certification in the area of Severe/Profound Disabilities.

Courses specifically designed for the TRAC-NC program include: (a) Introduction to Low Incidence Populations, (b) Methods and Curriculum in Elementary and Transition Programming for Students with Low Incidence Disabilities, (c) Methods and Curriculum for Secondary Programming and Competitive Employment for Students with Low Incidence Disabilities, and (d) six hours of supervised intern experiences in programs for students with severe/profound disabilities.

Three day-long seminars are offered during the school year as supplements to the required course work. Nationally known speakers focus on specific areas, i.e., deaf-blindness, legal aspects, teaming, family issues, etc., and provide students with state-of-the-art information. All TRAC-NC scholars are required to attend two of the yearly seminars, and any available space is offered to faculty, students, parents, and other interested individuals.

Unlike many grant funded programs, the TRAC-NC program has been embraced by East Carolina University, and is now established as a part of the College of Education, thus assuring a continual production of highly trained and qualified teachers of individuals with severe/profound disabilities for eastern North Carolina.
## I. DOCUMENT IDENTIFICATION:

**Title:** Preparation of Personnel for Service to Low-Incidence Disability Populations: Final Report  
**Author(s):** Melissa Darrow Engleman, June I. Maddox  
**Corporate Source:** US Department of Education Grant H029A70041  
**Publication Date:** 9/97  
**East Carolina University**

## II. REPRODUCTION RELEASE:

In order to disseminate as widely as possible timely and significant materials of interest to the educational community, documents announced in the monthly abstract journal of the ERIC system, Resources in Education (RIE), are usually made available to users in microfiche, reproduced paper copy, and electronic media, and sold through the ERIC Document Reproduction Service (EDRS). Credit is given to the source of each document, and, if reproduction release is granted, one of the following notices is affixed to the document.

If permission is granted to reproduce and disseminate the identified document, please CHECK ONE of the following three options and sign at the bottom of the page.

- **Level 1** release, permitting reproduction and dissemination in microfiche or other ERIC archival media (e.g., electronic) and paper copy.
- **Level 2A** release, permitting reproduction and dissemination in microfiche, and in electronic media for ERIC collection subscribers only.
- **Level 2B** release, permitting reproduction and dissemination in microfiche only.

Documents will be processed as indicated provided reproduction quality permits. If permission to reproduce is granted, but no box is checked, documents will be processed at Level 1.

I hereby grant to the Educational Resources Information Center (ERIC) nonexclusive permission to reproduce and disseminate this document as indicated above. Reproduction from the ERIC microfiche or electronic media by persons other than ERIC employees and its system contractors requires permission from the copyright holder. Exception is made for non-profit reproduction by libraries and other service agencies to satisfy information needs of educators in response to discrete inquiries.

III. DOCUMENT AVAILABILITY INFORMATION (FROM NON-ERIC SOURCE):

If permission to reproduce is not granted to ERIC, or, if you wish ERIC to cite the availability of the document from another source, please provide the following information regarding the availability of the document. (ERIC will not announce a document unless it is publicly available, and a dependable source can be specified. Contributors should also be aware that ERIC selection criteria are significantly more stringent for documents that cannot be made available through EDRS.)
